Too Many Oatmeal Sermons, Instead Beefsteak Talks

FT. WORTH, April 11.-There are too many "oatmeal" sermons and not enough "beefsteak" messages in our churches today Rev. Thomas B. Lackey of Tulso told Baptist revival leaders of Tarrant county at their daily breakfast at Broadway Baptist church today.

"Too many members are weak in their faith because of the type of spiritual food we preachers give them," he cemmented. "If we would feed them on ham and eggs, or beefsteak, instead of oatmeal, they would have the strength and power to stand up better against the temptations of the world.

"I have known of plain-speaking ministers losing their jobs, but we must do our duty, nevertheless," he concluded.

ROCK THROWERS HURT.

FORT WORTH, April 11. - One youth was in a serious condition today and two others were suffering from minor gunshot wounds following, District Attorney Al Clyde said, a rock throwing incident at the home of their junior high school physical education teacher. Clyde said the students were wounded by blasts from a shotgun after stones had been hurled at the residence of S. F. "Smitty" Watkins, Watkins is under bond on assault to murder charges.

Telephone switchboards are mighty busy these days. We have less reserve equipment to handle surges of calls which occur during bad weather or in advance of holidays. With hundreds of families without telephone service, it has seemed best to use up such reserve equipment to bring service to some of the people waiting.

To telephone users generally, during most hours of the day, there will be little difference in the speed of service. During busy hours, when the heaviest volume of calls is made, some people may find the operator is not so prompt as usual in answering.

As fast as possible, we are pushing the installation of new equipment here, so that we can bring service to all those who are waiting.

AQUELLA

The New Waterproofing Product This new product was developed in France for the purpose of waterproofing the Maginot Line. It is now avai

able in Cisco at Cisco Lumber & Supply Co. WHAT AQUILLA IS-A white powder, composed of properly balanced inorganic ingredients - ground

finer than face powder. HOW IT WORKS-When spread on surface, a chemical reaction forms an insoluble compound. By penetrating the smallest pores, the compound becomes a microporic sealer - expanding to fill each pore when dry (instead of contracting as paints do) and thus providing an absolutely water-tight seal.

AQUELLIZING IS

WEATHERPROOFING INSURANCE Protects you from the discomforts and inconvenience of dampness, moisture and humidity. Protects your health by insuring drier, cleaner, brighter basement or living quarters. Protects your investment in your home and appliances - increases usefulness, life, value of property.

KEEP YOUR "TRADE-IN" IN GOOD SHAPE

Today you have a double reason for taking good care of your car. You want to keep it rolling and protect your trade-in value! . While production of the new Ford is being increased as rapidly as possible, it will be some time before enough new cars are built to supply all who want them. In the meantime, it's a common sense precaution to give your car the best possible care and attention.

O Your Ford dealer has the skilled mechanics and modern equipment to save you time and money. Right now he can give you fast service. • • So it's good business to bring your car "home" to your Ford dealer.
