FRED WEMPLE, NEW HIWAY COMM'DR, TO BE CISCO GUEST

The Cisco chamber of commerce will host at a dinner honoring Highway Commissioner-designate Fred Wemple of Midland shortly after Mr. Wemple formally takes over the office to which Gov. Beauford Jester appointed him, it was announced this week. Mr. Wemple accepted an invitation tendered by the Cisco commercial organization with the stipulation that a date for the visit will be decided on as soon as his appointment is confirmed.

P. C. Ulmer, president of the Midland National bank and a close personal friend of Mr. Wemple, will accompany the new official to Cisco. The Cisco chamber of commerce is making elaborate plans for the entertainment of the new commissioner, his party and other officials who will be invited. President R. L. Ponsler said. Arrangements are in charge of the chamber's highway committee, of which E. G. Damron is chairman. E. P. Crawford and Edward Lee are other members of the highway group. J. J. Callaway, a personal friend of Mr. Ulmer, will serve with the committee.

Endorsed Wemple.

The Cisco chamber of commerce strongly endorsed Mr. Wemple for the appointment he received and was credited with having been influential in representations to the governor-elect in support of Mr. Wemple. Members of the board of directors contacted Mr. Jester personally to urge that he designate the Midland man for the important highway post.

The Wemple dinner will be one

of two major events that the Cisco chamber of commerce will sponsor this winter. The other is a forum-dinner January 31, featuring the theme of better education for better government and better business, with emphasis on the opportunity for broadened educational opportunity presented by Cisco junior college. Mr. Paul G. Good, of Washington, D. C., manager of the education department of the United States chamber of commerce will be the speaker. He will be accompanied to Cisco by D. Hodson Lewis, of Dallas, southwestern region manager for the USCCC. In the afternoon, preceding the dinner at night, there will be a regional meeting on educational problems and prospects at which Mr. Good will discuss general issues with representatives of educational institutions in this area. This meeting will be general in scope and have no reference to Cisco's educational institutions other than as they are part of the general picture, it was explained by J. J. Callaway, chairman of the committee in charge of arrangements for this dinner. Other members of the committee are Gerome Grayum, Charles Graham, Ronald Rhodes and W. P. Guinn.

J. J. Callaway has been confined to his room at the Laguna hotel for several days with a severe cold. He was reported improving today.

RAYBURN MADE HOUSE LEADER BY DEMOCRATS

WASHINGTON, D. C., Jan. 2 (UP)—Rep. Charles Halleck of Indiana today won the coveted post of House Republican leader in the new GOP-controlled Congress which convenes tomorrow.

Democrats drafted outgoing Speaker Sam Rayburn of Texas to be minority leader in the House.

Halleck got a clear field for the important majority post when his last two opponents withdrew in the interest of party harmony. They were Reps. Everett M. Dirksen, R., Ill., and Thomas A. Jenkins, R., O.

Jenkins announced his withdrawal a few hours after Kirkson pulled out of the race.

Rep. Joseph Martin, Jr., Mass., who has been the Republican leader, will succeed Rayburn as House speaker.

The Rayburn draft was put across by Southern Democrats in a last minute surprise push. The Southerners hold a majority of remaining Democratic seats in the House. They apparently had become reconciled to the choice of a Northerner — Rep. John W. McCormack, D., Mass., — as minority leader.

Rayburn had insisted that he did not want the job.

Rayburn told reporters after the Democratic caucus that he was impelled to change his mind by McCormack and other colleagues.

"I didn't want to be minority leader," he said. "But the caucus elected me unanimously, and I suppose I'll just have to be a good soldier and go ahead and do it."

The Democrats also adopted a resolution praising President Truman and congratulating him on his record.

Senate Democrats chose Rep. Alben Barkley of Kentucky as minority leader and Sen. Scott Lucas of Illinois as minority whip.

GAME POSTPONED.

Among its other accomplishments the current season of snowy weather has prolonged the postponed football season. According to an announcement this afternoon the game scheduled to be played between the Cisco Lobo Exes and the Weatherford high school Exes next Sunday afternoon at Weatherford has been postponed one week, until Sunday afternoon, January 12.

NEW YORK, Jan. 2 (UP)—Secretary of State James F. Byrnes was designated the man of the year today by Times magazine.

Meanwhile local hotels were crowded with "marooned" transients who have been forced to interrupt their travel until the highways clear up. Local garages and even sections of the business streets were filled with automobiles of these transients.

All bus schedules were cancelled Wednesday at noon when the roads became unsafe. The local bus depot was unable to say when service would be resumed, while large numbers of passengers twiddled their thumbs in the hotels and cafes. It had been expected that the buses would start running again this afternoon but there was little prospect of this resumption and even less when the threat of another snowstorm, posted by the weatherman, was considered.

Low of 18 Degrees.

The snow came in on the blast of a norther that swept temperatures to a low of 18 degrees Tuesday. Since that time the thermometer showed a tendency to rise moderately until this afternoon, when it reached 29 degrees. Its highest point Tuesday was 23 degrees. Tuesday night it dropped again and by Wednesday morning had reached a low of 20 degrees. It rose to 28 degrees Wednesday and early Thursday morning declined to 22 degrees.

Despite the slippery streets there had been no accidents of any consequence reported to the police by Thursday afternoon. The con-

Dr. G. M. Stephenson reported to the Daily Press that measurement of snow which was caught in a sheltered bird bath in his yard, where it could not be blown away or added to, showed exactly 12 inches of fall.

The drifts. Cars were still running, however, although it was a slippery business and it was necessary to shove the machines very often when starting to enable the spinning wheels to gain traction, especially on the slope of the pavement.

The public schools, originally scheduled to reopen after the holiday season this (Thursday) morning, were ordered closed until Monday when the weather made country roads and even the highways impassable for buses and rendered streets and playgrounds hazardous. Further postponement of the opening is not probable, Supt. R. N. Cluck said, although it might be necessary to curtail some activities because of the inconvenience which the weather occasions.

BULLETIN

By United Press.

Another major snowstorm — second in a week — descended on Texas today.

Blowing down from the nation's ice box in the Rockies, the new storm hit first in the Amarillo-Lubbock area, blocking highways and dumping from four to 10 inches of swirling snow in a wide area. Additional sub-freezing temperatures will accompany the snowstorm.

Another and third fall of snow was racing out of the Panhandle on the wings of a 35-mile-per-hour gale to add yet more depth to the record ten inches of wintry white which blanketed this section since Sunday night. Reports to the Humble Pipe Line company's division office here this afternoon said that at 2:30 more than five inches of snow had fallen in the Panhandle

and that the precipitation was moving this way and destined to reach Cisco some time this evening. The snow was drifting badly and for all practical purposes highways were reported to be blocked.

Meanwhile Ciscoans, too amused with the novelty of the experience to be unduly irked by its discomforts, struggled through drifts such as few of them were old enough to remember ever having fallen here before. There were two falls of snow Monday night and Wednesday night of between five and six inches each to bring the total depth of the fleecy moisture to at least 10 inches.

Normal business activity and movement of traffic through the streets were cut to a minimum by

Great for Farmers.

With all its discomforts and the unhappy prospect of further snowfall, the weather was hailed as a great benefit to the farmer, particularly the wheat grower whose crop has need of just the kind of moisture that a heavy snow provides. The gradually melting blanket penetrating into the earth later on will provide a big store of moisture for the crop and help to insure a bountiful yield next spring.

Other crops will also benefit, while the effect upon insects hibernating in the ground will be distinctly unhealthy for them and beneficial to the crops they will attack next spring.

The influence of the cold upon soil texture and moisture content of the soil is also of great promise. There is an advantage to be considered for the fruit farmer in the additional fact that the penetrating cold thaw will reduce ground temperature to a point where blooming of fruit trees may be retarded next spring sufficiently to escape possible frost damage.

Gravel Is Used to Assist Traffic On Snowy City Streets

The street department of the city today was helping motorists cope with difficult and dangerous driving conditions on snow-covered streets by spreading gravel over the icy surface. The heavy snowfall has posed a problem that is extremely difficult for street and highway departments in this area, where they are not accustomed to dealing with such wintry conditions and have neither the equipment nor the technical skill for doing so.

"We are making every possible effort to assist our people with the problem of getting about over the local streets," Mayor Edward Lee said.

Ballot Tampering Charged In Loss Of Senate Seat

WASHINGTON, Jan. 2. — A sweeping inquiry into the RFC's handling of war plants and contracts was under discussion today by Republican members of the Senate war investigation committee.

CLARIFICATION OF PORTAL PAY ISSUE SOUGHT

DETROIT, Jan. 2 (UP)—The U. S. government intervened in the nation's portal-to-portal pay dispute today as union demands for \$410,000,000 from the automotive industry's "big three" boosted the amount sought in law suits across the country above the two-billion-dollar mark.

U. S. District Attorney John C. Lehr filed a petition in federal court here for a motion requesting clarification by the supreme court of the "de minimus" clause in its recent ruling in the case of employees of the Mt. Clemens, Michigan, Pottery company.

It was the high court's ruling in the case that resulted in the current flood of portal-to-portal pay suits being filed by labor unions in federal district courts throughout the land.

WASHINGTON, D. C., Jan. 2 (UP)—Rep. Harold Knutson, R., Minn., said today he would introduce his bill to cut personal income taxes 20 per cent just as soon as congress convenes tomorrow. He said the bill is drafted and "I'm putting it in at high noon tomorrow."

OPEN FORUM

Free Trade Sensible.
Editor Daily Press — The writer noticed in a recent daily paper that there would be decided opposition in our next congress on the part of organized agriculture in the south (probably in other sections of the U. S., as well) to any further reductions in prevailing tariffs affecting agricultural commodities.

Some ten years ago, Congress passed a bill setting up a program providing for tariff reductions to promote improved reciprocal international trade relations. It is in connection with this program that the fight in congress will arise.

It is our firm belief that tariff walls do more to foster wars than any one other thing. Behind these artificial barriers of trade, our huge international corporations and other selfish interests battle for positions to increase their wealth; finally to end by dragging the populations of their respective countries into war.

If we want peace, we must promote equitable international trade relations — the only enduring foundation for permanent peace.

It is said that "free trade" would disrupt our domestic business life. It is probably true, that in the year or two needed for re-adjustments, we might have some trouble, but in the end our domestic economy, affecting our people as a whole, would be much improved. Workers all over the world would be busier. Much more goods would be exchanged. Good will would prevail.

Life rests upon a code of ethics, which means decency in our conduct affecting our fellowmen. Such a code of ethics can have no boundaries. It must be as free as the good fellowship undoubtedly prevailing in Heaven.

We want to trade, and need to trade, with our fellow workers all over the world. They want and

need to trade with us. There should be no artificial barriers in restraint of this trade.

Let us build international friendship through free trade. Let all workers stand upon their ability to produce — such is "free enterprise."

Pinkish Cloud.

Dallas News: As if the battered Democratic party did not have enough worry, ten leftist groups have merged into a new political organization whose spokesmen are tossing out hints that this may be the origin of a third party in the 1948 presidential race. Such an outcome appears unlikely, but the threat may continue for months to hang over the heads of the Democratic party. A third party would mean a split among the Democrats, since the new group would pull almost its entire strength from Democratic and independent ranks. If it made any spurge at all, it likely would assure the election of the GOP candidate, an event of which Republicans already feel confident.

Henry A. Wallace, despite his erratic tendencies, is too familiar with the history of third-party movements to have any delusions about the chance of such a party's winning the 1948 election. He knows that such a possibility would be extremely remote. What he and the other leftist leaders almost certainly have in mind is to influence the Democratic party to lean in their direction in writing its platform and picking its candidates. They want to make the Democratic party again a strictly new deal organization.

Even in this, they appear to be doomed. Events have compelled President Truman and other party leaders to retreat from the extreme new deal stand.

The stockmen's strike and the GOP victory forced the administration's hand in removing wartime controls, and disastrous strikes have called for action to restrain certain labor practices. There will be many threats by

the Pinkos, but they have nowhere to go except out in the cold.

Despite all the talk of a third party, which may increase in coming months, it is unlikely that any national leader will be found willing to go down to defeat by heading such a movement.

New Record on Telephone Service

We've broken a lot of records this year in spite of shortages. For instance, telephones: In Texas we've already put in more than 229,000. That's about twice as many as during any full prewar year, but the record rush of new applicants keeps the waiting list long.

And local calls: In Texas—a million a day more than a year ago. And 600,000 more long distance calls a month.

There are some delays, but we're trying to make them fewer and fewer. Service will be better than ever as soon as new equipment can be made and installed.

CHILD STUDY CLUB CHILDREN ENTERTAINED.

Cisco Child Study club members entertained their children recently in the home of Mrs. Don Choate.

Christmas decorations climaxed by the pretty Christmas tree made festive the rooms where the young visitors and their mothers enjoyed the afternoon. Indoor games were played by the little folk which afforded much merriment.

The afternoon was highlighted by a visit from Santa Claus who kindly distributed gifts to the group. Refreshments of sandwiches and cookies of reindeer, bells stars and Christmas trees were passed with punch to the guests at the close of the party.

Those present were Mrs. Charles Burke and children Peggy and Billie Marie; Mrs. Earl Mayhew and Carole Kaye; Mrs. Gerald Market

A GREAT OPPORTUNITY FOR A SELECT GROUP OF YOUNG MEN

When the Japanese were on our very doorstep in the Aleutians, you read of the bitter fight put up by the famous 7th Infantry Division, and how these gallant fighters were first to drive the enemy from our own soil. Then on to Kwajalein, Leyte and Okinawa, the 7th blazed a trail of heroism that will long be remembered.

Today this same U. S. Army unit is stationed in Korea, famed scenic spot of the Far East. It is performing the very vital job of occupation. But the men of the 7th are having a far different time of it now than they did on Attu. They have swimming facilities, tennis courts, recreational clubs and many other opportunities for sports. They are living more comfortably than ever before. They are sight-seeing and having high adventure in a strange land.

A select group of picked young men are now offered the opportunity of proudly joining the "Hourglass Division." You may be one of the eligible ones. If so, after initial training in the U. S., you may join right up with the 7th if you enlist now in the Regular Army for a 3-year period.

Remember, overseas pay is 20% higher, so a Private starts at \$90 a month in Korea, in addition to food, clothing, quarters, etc. Get full details today at U. S. Army Recruiting Station—
