GOP Senator Says Closed Shop Must be Eliminated

Dallas Co. Files Answer to Portal to Portal Suit

DALLAS, Jan. 24. — The Super-Cold Southwest company, defendant in a Dallas portal-to-portal pay suit, Thursday filed an answer and cross-action claiming non-working time — such as loafing on the job, coffee time, paid vacations and every occasion on which any of the plaintiffs reported late for work or were sick — paid for by the company should be deducted from any portal-to-portal awards to the sixteen plaintiffs.

The company also alleged five of the sixteen plaintiffs are currently employed by the firm.

The company's counterclaim alleged many instances in which the company paid plaintiffs for time not actually worked and asked that the court consider such payments as offsets to the plaintiff's demands.

WASHINGTON, Jan. 24. — Sen. Joseph R. McCarthy, R., Wis., today proposed legislation seeking to eliminate the closed shop issue as a cause of strikes.

This was the latest in a series of Republican labor proposals.

Republican leaders are determined to write their own labor legislation, going beyond President Truman's limited recommendation for a labor investigation commission. They are ready to lay aside this proposal until March 1.

McCarthy's bill also contained a provision which he said would restore "complete freedom of speech" to employers under the Wagner Act.

At least two Republicans thought the problem of nationwide strikes could not wait while Mr. Truman's proposed labor investigating commission was considered.

The McCarthy bill would leave "preferential hiring" and "maintenance of membership" as matters to be decided in collective bargaining, as at present. But the "union shop" and "closed shop" would be taken out of the realms of bargaining, and each would depend entirely — in any plant — on whether two-thirds of the employees want it.

A bill by Senator Ball (R-Minn.) already before the committee, would outlaw all four of these forms of "union security."

The committee, after starting its hearings yesterday, called a recess until Tuesday morning, when Secretary of Labor Schwelmbach is scheduled to testify. A cold prevented his scheduled first day appearance.

Industrial Sugar Users Want Controls Removed

WASHINGTON, Jan. 24. (U.P.) — Fresh from a conference with President Truman, Maj. Gen. Philip B. Fleming, in charge of rent controls, today instructed his regional officials to increase rent ceilings in hardship cases — an action which may encourage congress to extend rent control beyond June 30.

Coincident with this announcement, a delegation of industrial sugar users and housewives called on congress to wipe out all price and rationing controls on sugar. The sugar rationing act is scheduled to expire March 31 and the rent controls program on June 30.

Rerouting of Highway 80 Be Discussed at Clyde

BAIRD, Jan. 24. — Information about the \$150,000 road bond election Jan. 28 in the shoeing district of Callahan county will be given at 7:30 tonight at a mass meeting in the Clyde high school auditorium by County Attorney Felix Mitchell. Round-table discussion will follow.

"Just what the state highway commission proposes to do in rerouting U. S. 80, building farm-to-market highways in the Clyde area, will be discussed by Mitchell," County Judge Lester Farmer said.

All persons who do not know the story of the re-routing have been invited to attend and to ask questions, Farmer added.

MARSHALL TO MOSCOW

WASHINGTON, Jan. 24. (U.P.) — Secretary of State George C. Marshall definitely will attend the Moscow conference of the Big Four council of foreign ministers, it was announced today.

DEMOCRATS LOSE

WASHINGTON, Jan. 24. (U.P.) — The Senate Republican majority beat down Democratic opposition today and extended the special senate small business committee for eight months.

MAY AND 3 GARSSONS POST BONDS

WASHINGTON, Jan. 24. (U.P.) — Former Democratic Congressman Andrew J. May and the three war contractors accused of buying his influence for \$53,000 pleaded not guilty to federal charges of fraud and conspiracy today and were freed in \$2,000 bail each to await trial March 19.

Redfaced and indignant at his unaccustomed role, the 71-year-old Kentuckian submitted impatiently to a routine finger-printing, posted his bond and fled to his hotel suite.

Araigned with him in the jam-packed federal district courtroom were the three kingpins of the munitions combine which, the government charges, started on nothing more tangible than a letterhead and mushroomed under May's "guardianship" into a \$78,000,000 business.

They are the suave Garsson Brothers, "Dr." Henry M. and Murray, and Joseph F. Freeman, Washington contact man for the combine.

The arraignment was brief and businesslike. May, who arrived from his Prestonsburg, Ky., home this morning, was the first to plead before Judge Bolitha J. Laws.

REDS ARE FIRM

LONDON, Jan. 24. — Russia stood firm today in rejecting small nation demands for an equal voice in writing the German and Austrian peace treaties, declaring that the Big Four powers had "paid in blood" for the right to dictate peace terms.

3 FIREMEN KILLED

MINNEAPOLIS, Jan. 24. — Three firemen were killed and seven more injured, one of them critically, last night when fire followed by a series of explosions destroyed a Minneapolis auto showroom and garage.

RECEPTION FOR ITALIAN PREMIER—Mounted police and Army band and troops precede motorcade down Broadway, New York City, for traditional City Hall reception in honor of Italian Premier Alcide de Gasperi. Reception climaxed two days of public festivities in his honor.

Sheriff Hunts Man who raped and then Beat young woman

DALLAS, Jan. 24. — Sheriff's deputies searched intensively yesterday for a sadist who criminally assaulted a 19-year-old girl, flogged her with barbed wire and left her unconscious at the roadside in eastern Dallas county.

The girl — married and living near Little Rock, Ark. — Thursday night was in critical condition at Parkland Hospital. She was taken there after Homer Gardner, a passing motorist, saw her lying unconscious about 8 a. m. fifteen yards off Highline Road, a mile north of Grove Hill Cemetery, east of Dallas.

The woman's slacks and underclothing had been ripped from her body. Her partly clad body showed signs of the severe beating administered with a two-foot strand of barbed wire lying near by.

Her assailant had lashed her face, arms and legs with the wire. Parkland hospital attendants treated external and internal cuts inflicted by the wire and administered blood transfusions through the day. They said her condition was critical and complicated by excessive loss of blood during the hours before she was discovered.

Sheriff Steve Guthrie and two of his homicide lieutenants questioned the girl at the hospital, pieced together the details of her story, and obtained a description of her assailant.

She told them she had met a large, black-haired, heavy-set man in Fort Worth about 8 p. m. Wednesday and accompanied him in his large blue sedan to Dallas.

He drove directly to the road in the eastern part of Dallas county where she was found, she said. There he stopped the car and forced her at the point of a knife into the back seat of the car where he assaulted her.

Afterward he dragged her from the car and began whipping and jabbing her with the length of barbed wire, she said.

RUSSIA IS BUSY

WASHINGTON, Jan. 24. (U.P.) — Charging that Russia is constructing a secret atomic bomb plant somewhere in Siberia, Sen. Brien McMahon, D., Conn., warned today that only the quick development of an international control system can head off an atomic war.

(Cisco Daily News Files)

A total of \$5,550.40 has been spent by the Cisco Emergency Relief committee and employment given to 557 individuals up to and including Saturday, December 24, a report issued yesterday by F. E. Harrell, secretary-treasurer of the committee, reveals. This included work done both within the city of Cisco and in rural communities about Cisco which are tributary to the Cisco relief organization.

Checking of the amount of relief work during the past week was not completed in time to supplement the report, Mr. Harrell said.

The report shows that a total of 15,781 hours of work were given to individuals within Cisco and 4,792 given on rural community projects. For this 20,574 hours of work \$5,442.71 was paid, or an average of over 26 cents an hour.

Expenditures for direct relief were reported at \$107.69.

The total number of registrations for work were 843 of which a large number were found by the committee not entitled to the relief because they were not in destitute conditions. These were not considered in the allotment of work. The committee was able to give

employment to most all found to be in conditions entitling them to jobs.

The work within the city of Cisco was distributed among the following projects and in the amounts noted:

On cemetery fence	\$2,741.91
School buildings	68.91
Street work	808.21
Quarry and stone crusher	868.97
Wood yard	23.60
Church buildings	11.70
Groceries and supplies for direct relief	107.69

These make a total of \$4,630.99 spent within the city since the committee began functioning in November.

A total of \$919.41 was spent in rural communities.

In addition to this report the committee yesterday paid out over \$700 to 143 individuals in Cisco, Pleasant Hill, Bluff Branch and Curtis.

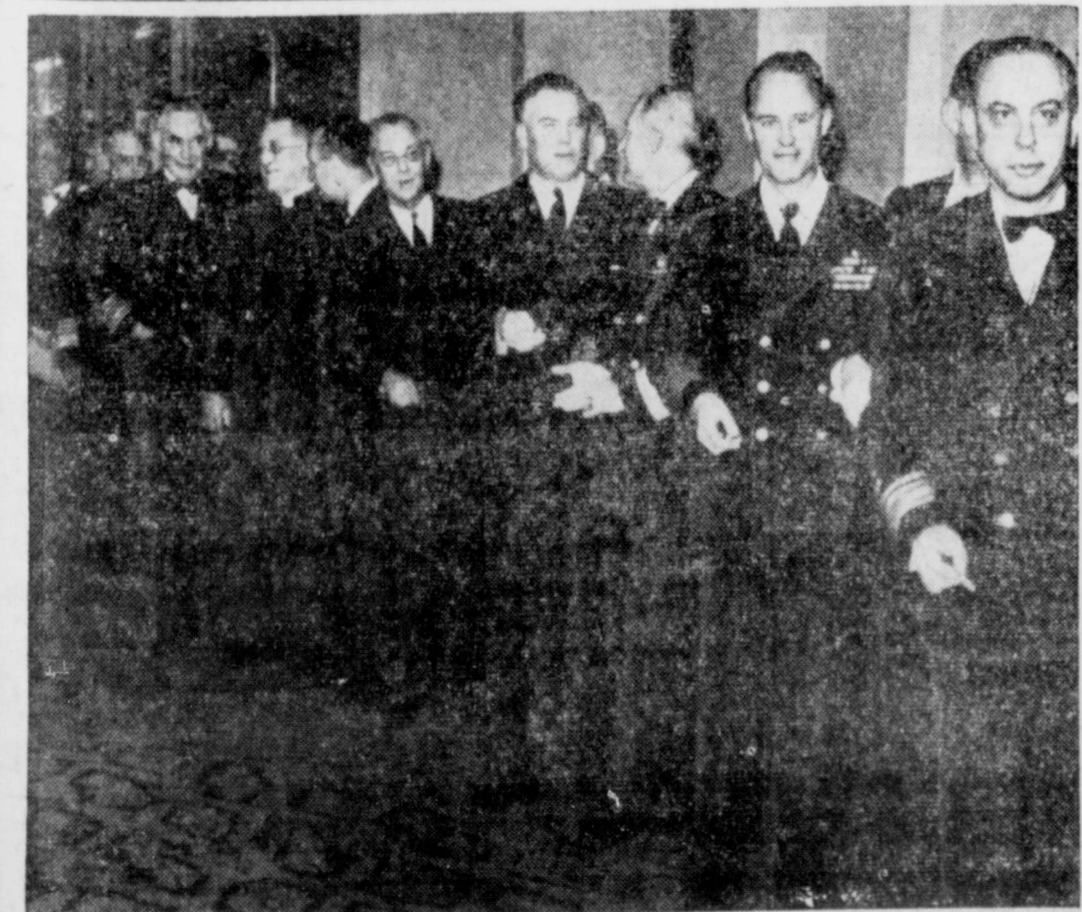

The committee has set aside \$800 to pay for the labor on setting back fences along the right-of-way of the Leeroy cut-off, now a state highway which is shortly to be improved by the state highway department.

The committee is composed of the following:

J. T. Elliott, chairman; J. E. Spencer, vice-chairman and ex-officio; F. E. Harrell, sec'y-treas. H. S. Drumwright, J. J. Collins and P. Pettit.

TOP FIGURE — Gertrude Niesen, above, became Broadway's highest paid female entertainer recently when she signed a contract to appear in a New York night club at \$7500 a week and a percentage of the gross

CHOW LINE—These officers, with the exception of the member of the clergy, are all U. S. Navy admirals and all from Michigan. They are part of the group of 17 admirals who attended the first annual dinner of the Detroit Region, Navy Industrial Association.

CHICAGO'S MAYORS.

When Mayor Edward J. Kelly of Chicago recently decided not to run for reelection, he had the satisfaction of knowing that he had broken his city's record for service in this position. He has been mayor ever since 1933.

Chicago has had more mayors of long tenure than most large cities. Carter Harrison was elected five times off and on in the '80's until he was murdered, while still mayor, in 1893. (Anton Czerniak, Kelly's predecessor, was also murdered; it is an old Chicago custom). Carter H. Harrison, son of the first Harrison, still living as Chicago's grand old man, also won five terms, 12 years altogether. Twelve years also, to the city's shame, was the record of the late Big Bill Thompson, who may fairly be described as the worst mayor any big American city ever had, except possibly Philadelphia.

Kelly had his faults, but was a vast improvement over Thompson. If his successor makes a similar advance, Chicago ought to be moving towards some really high class government.

LITTLE ME AND BIG WE.

No football performer can succeed without capable behind-the-scenes management. Few great human accomplishments are achieved by one individual acting alone. Soloing is an anachronism, for this is a world of human beings dependent on the interplay of other human beings before them and with them. Rare indeed is the achievement, the idea that springs unaided into one man's mind.

How many are willing to give credit to those who really made possible their success? The president of a company reads an impressive annual report, gives a stirring speech. He is applauded, and rightly, since his is the responsibility. But how often does he go behind the scenes and acknowledge the idea and the man who makes his front possible? Only the very big person dares to let the light of his subordinates justly shine.

Notice to invalids: Better get well — hospitals are raising their rates one-third.

LABOR AND CAPITAL.

EACH is dependent on the others' life. Why kill the goose that lays the golden egg? Labor and capital should end their strife. Each sits today upon a powder keg. Justice should be the rule of all debate. And balanced reason learn to arbitrate.

—Albert Ralph Korn, in Kaleidograph.

IF BACK ACHES DUE TO KIDNEYS
Flush Them Out This Doctor's Way
If excess acidity of your urine makes your back ache so you groan... so you get up 3 or 4 times a night to pass water, now be of good cheer.
Three generations ago a famous doctor noticed that hundreds of his patients had this backache. He developed a medicine made of exactly the right amount of 16 herbs, roots, vegetables, balsams—truly Nature's own way to relief.
Now millions have used it. The medicine is Dr. Kilmier's Swamp-Root. Instantly you take it, it starts to work flushing out those excess acids that may be causing your backache — increasing the flow of urine to help ease that burning sensation when you pass water... and bladder irritation that makes you get up at night. Caution: take as directed. You'll say it's really marvelous.
For free trial supply, send to Dept. W. Kilmier & Co., Inc., Box 1235, Stamford, Conn. Or — get full-sized bottle of Swamp-Root today at your druggist.

Why Does the Baby Ask, Why...?
... is explained with reason by the psychologist, but when a grown person, mature in years and probably business experience, rushes into an abstract office and asks the abstracter "Why didn't I get an abstract when I bought the place?" is one the psychologist doesn't care to explain, and we have never tried. It's a man's privilege to err and blunder which may explain in part why only a small percent of the persons reaching 65 years of age are self-supporting. What a tragedy!
