## Well-staffed Schools Vital to a Sound Democracy and Prosperous Economy

### COLLEGE HILL DOINGS.

By ROBI ROBINSON and SPIES.

"You're going to college, aren't you?"

We hear this question often from our parents. So to answer it, here's our column—a record of the goings-on, the doings and the whosings on College Hill. Let us know if you like it, or if you have any comments or events to be reported. We'll tell the world!

Things are rolling again on College Hill since the second semester started last Tuesday. There are almost 300 of us now, as there are quite a few new students enrolled, many being ex-GIs.

In this corner we have the enrollees from Cisco: F. N. Hassen, Mitford Johnson, Mrs. W. C. Leavitt, Dick McPherson, Paul Mosley, Mrs. Carolyn Page, Billy Parks, Edward G. Paynor, Robi Robinson, Charles Shamburger, LaVerne Steffey, Earl Tabor, Wilburn Tabor, Bob Thomas and Dolores Witt.

From Eastland there are Ballard Harris, Bob Harrison, Billy Kelley, Clifford McCullough, Tommy Payne and Joe Neil Poe.

From Rising Star we have Barbara Hill and from Breckenridge, Mr. and Mrs. C. Dabba. Did we miss anyone?

Everyone will be glad to know that Miss Marie Winston is to resume teaching the social sciences Monday. She has been missing in action since the holidays, due to a broken ankle. Welcome back, Miss Winston!

Oldtimers here will also welcome back Mrs. O. L. Stamey. She is replacing Mrs. Patricia Price in the math department.

A Veterans' club is being organized for the ex-GIs here at College. There's talk about some monthly parties in the offing if enough interest is aroused. That's a challenge, son! Rumors are flying that meetings will be on Monday. If you know any more about it, tell ME.

Well, that's about all for this time, but we'll be back. Look for us—we'll be waiting for you—come in and call for C. J. C.!

### TRUMAN STOCK RISES.

WASHINGTON, Feb. 1. — Republican leaders think Bob Hannegan's decision to stick with administration was influenced by Truman's rising political stock. Hannegan, they think, would have quit had he thought party's outlook for '48 hopeless. Reports from home have caused them to change their minds about Truman being "pushover."

The alarming loss of trained, consecrated teachers to the public school system of the nation, and the vital relationship of strong, well-staffed public schools to sound democracy and a prosperous economy were the two issues thrown into sharp relief when Paul H. Good, manager of the education division of the United States chamber of commerce at Washington, D. C., spoke to some 70 business and professional men and women in an area meeting of education at the Cisco Country club Friday afternoon.

About 70 interested representatives of Albany, Abilene, Breckenridge, Cisco, Eastland, Moran, and intermediate communities attended the meeting which was sponsored by the Cisco chamber of commerce preliminary to a forum-dinner at the Laguna hotel Friday night. Mr. Good was introduced by D. Hodson Lewis of Dallas, manager of the southwestern region of the United States chamber of commerce, who was previously introduced by J. J. Callaway, chairman of the education committee of the Cisco chamber of commerce. N. C. Huston, president of the Cisco chamber of commerce, welcomed the guests.

### Better Salaries.

Salaries, based upon local needs and sufficient to attract to the teaching profession the best possible talent are a foremost need, Mr. Good pointed out. Statistics which he used revealed that of the \$50,000 teachers now in the public schools 24 per cent are either grossly incompetent or hold "special" certificates.

The most alarming fact, however, was that less than one-third of the normal replacement needs of the profession is preparing for teaching careers in the colleges of the field.

Factors for arousing a concerted public attack upon the problem which Mr. Good suggested included organization of business men committees, functioning through local chambers of commerce and including local educators to effect cooperative action at the community level; strengthening of state boards of education to both improve the professional quality of the state system and avert federalized control; better tax support at home, and higher curricula standards.

### The Forum-Dinner.

The area conference Friday afternoon was followed by a forum-dinner of the Cisco chamber of commerce at Laguna hotel Friday night, when Mr. Good paid tribute to the devotion and services of the teachers in public schools and pleaded for a support of public education that will insure a profession sufficiently strong and numerous to meet the needs of the future.

G. R. Nance, president of the

Cisco school board, presented Mrs. Jos. M. Perkins of Eastland, prominent Texas club woman and member of the state board of education, an honor guest. She spoke briefly.

Other honor guests were members of boards of trustees of common school districts served by the Cisco schools: Dr. G. C. Boswell, president of Ranger Junior college and superintendent of Ranger public schools, Miss Genevieve Boswell, his daughter, and member of the Graham public school faculty; and Mayor and Mrs. Edward Lee.

### Rural Board Members.

Members of rural boards introduced by R. N. Cluck, president of Cisco Junior college and superintendent of Cisco schools, were R. L. Brown, L. M. Cavley, E. C. McClelland, Henry Reed, Ace Howard, E. N. Marsh, Joe Sheridan, J. B. Webb, M. L. Curtis and Luke Pippin.

Mr. Nance made a report on plans for the improvement of the Cisco public school system, and on the accomplishments in developing Cisco Junior college, which has received more than \$200,000 in public works administration and public housing grants.

Special musical numbers were presented by five girls from the Lobo band, Misses Renabel Bible, Mary Jeanette Poe and Bernice Ann McCrea, sang; Miss Jean Scott gave a clarinet solo and Miss Prudence Harris a trombone solo. Fred Baumgardner, band director, accompanied.

Mr. Huston welcomed the guests. Mr. Good was presented by Mr. Lewis, who spoke briefly in explaining the origin, organization and objectives of the United States chamber.

An excellent meal was served by Mr. and Mrs. Bruce Stuart of the Laguna coffee shop. Background music during the meal was furnished by R. W. McCauley.

The program and arrangements for both the area meeting and dinner were directed by a special chamber of commerce committee consisting of J. J. Callaway, chairman; J. R. Deen, Chas. Graham, Jerome Grayum and Ronald Rhodes.

### SUGAR CONTROLS.

WASHINGTON, Feb. 1. — Extension of sugar controls in some form is likely. Impressive segment of industry — sugar producers and refiners, canners, wholesale and retail grocers, and soft-drink makers — now asks for controls. Early enthusiasm of congressmen, prodded by housewives tired of coupons, for abandoning controls seems to be fading. But some change may be voted in rationing system to industrial users. New users will fight for larger share of total supply. Rationing ends March 31 unless extended; price control, June 30.

IT'S A DATE — Broadway musical star Bernice Parks doesn't care if her escort has a dime to his name as long as he has plenty in his March of Dimes collection can. She's offered to date the manager whose audiences' donations to the anti-paralysis fund show the greatest percentage increase over last year.

## Former City Commissioner Favors City Manager Plan

Asked for his opinion on the proposed city manager form of government for Cisco, A. D. Anderson, former city commissioner, Saturday gave the Daily Press the following brief but straight-to-the-point statement:

"I strongly favor adoption of the council-manager or city manager form of government for Cisco.

"In my opinion, a trained city manager, backed up by forward-looking city commissioners who favor that plan, would soon convince property owners and business men generally that there is a great commercial future within the reach of Cisco.

"But, we will have to plan carefully and work hard for it, and the sooner we start the better.

"Let's have a special election and give the people a chance to express their wishes.

"Then, in April, we can elect men pledged to carry out those wishes."

## English King and Family Enroute to South Africa

LONDON, Feb. 1. (UP) — The British battleship Vanguard was warned away from a drifting mine in the English channel today as it departed with King George VI and the royal family, who are en route to South Africa for a three-month tour.

A high priority operational message flashed from the admiralty to the home fleet reported the mine was drifting towards the course of the Vanguard.

The mine finally was pinpointed off Durlston Head, less than two miles from the Vanguard, which then was safely directed through the danger area.

### BROWN COUNTY SHOWING.

BROWNWOOD, Feb. 1. — Worth Tomason, Brownwood, drilled an oil test on an 80-acre lease out of the 1469-acre W. D. Coppie Ranch, one and one-half miles south of Thrifty, western Brown county, has halted operations preparatory to setting casing for a test after having bailed free oil.

## Lawmakers Want Better Salaries For A-1 Teachers

By United Press.

AUSTIN, Feb. 1. — The legislative drive to raise the pay of Texas teachers gained headway today with official disclosure that because of low salaries nearly 80 percent of all new teachers are of a caliber unable to meet normal standards.

Officials in the board of examiners office said the situation was so bad there is "a possibility" some Texas teachers are conducting high school classes without personally having graduated from high school.

A survey of the 50th legislature indicated overwhelming support of the drive to raise the pay of all thoroughly qualified teachers in the state.

The only dispute, it appeared, would be over how much the increase should be.

Several house members expressed opposition today to the \$10,000,000 a year overall increase in teacher pay recommended by Gov. Beauford Jester.

Several said as much as \$30,000,000 more per year should be spent on salaries of teachers.

They attacked plans to side-track money for other purposes, such as road-building or a veterans' bonus.

## Airplane Fatalities Continue Upward Trend

LISBON, Portugal, Feb. 1. (UP) — Sixteen persons were killed today when an air transport plane crashed 12 miles north of Lisbon during a storm. One person survived.

The sole survivor was understood to be badly injured and was rushed to a hospital in an attempt to save his life. The plane carried 12 passengers and five crew members aboard. Some of the bodies were badly burned.

The plane was only three or four minutes flying time from Lisbon airport when it went down.

## Oscar Calloway, Former Congressman, is Dead

BROWNWOOD, Feb. 1. — Oscar Calloway of Comanche, lawyer, ranchman and former congressman, died in a local hospital at 6 p. m. Friday. He was born in Rusk county, Texas, and with his parents settled at Comanche when he was a boy. He grew to manhood on a farm and later took a law course at the University of Texas.

Mr. Calloway served as county attorney of Comanche county for awhile and in 1910 was elected to congress, where he served three terms. Returning to Comanche, he resumed his law practice.

He married Miss Stella Couch of Midlothian, Tex., who survives him. He is also survived by one sister, Mrs. Nellie Peeney of Los Angeles, Calif., and five brothers — C. C. Calloway of Alvin, Gib and Mark Calloway of Brownwood, Cleve Calloway of Comanche and Grade Calloway of Edinburgh.

### TAX CUT DOUBTFUL.

WASHINGTON, Feb. 1. — Don't start spending that cut in taxes you expected. Chances are there won't be much cut, if any, this year. It looks now as if Republicans will have to back away from that promised 20 per cent reduction just as they have from some other pledges. Too many obstacles.

ANOTHER ONE FOR HOGAN—Professional golf's top money winner in 1946, Ben Hogan, receives another check, this one for \$2,000, for winning 1947 Phoenix, Ariz., Open Golf tournament after setting a new record of 270 for the 72-hole route. Vic Armstrong makes the presentation.

## Truman Pleased at President Keeps No-strike Agreement With Labor Rentals Argument

WASHINGTON, Feb. 1. (UP) — President Truman today jubilantly announced a no-strike agreement in the construction industry. He said this and other good labor news showed the nation is "moving closer and closer to our ideals of free collective bargaining."

He made the construction industry announcement at a specially called news conference in which he asserted that his statement is "one of the most important I have made in a good while."

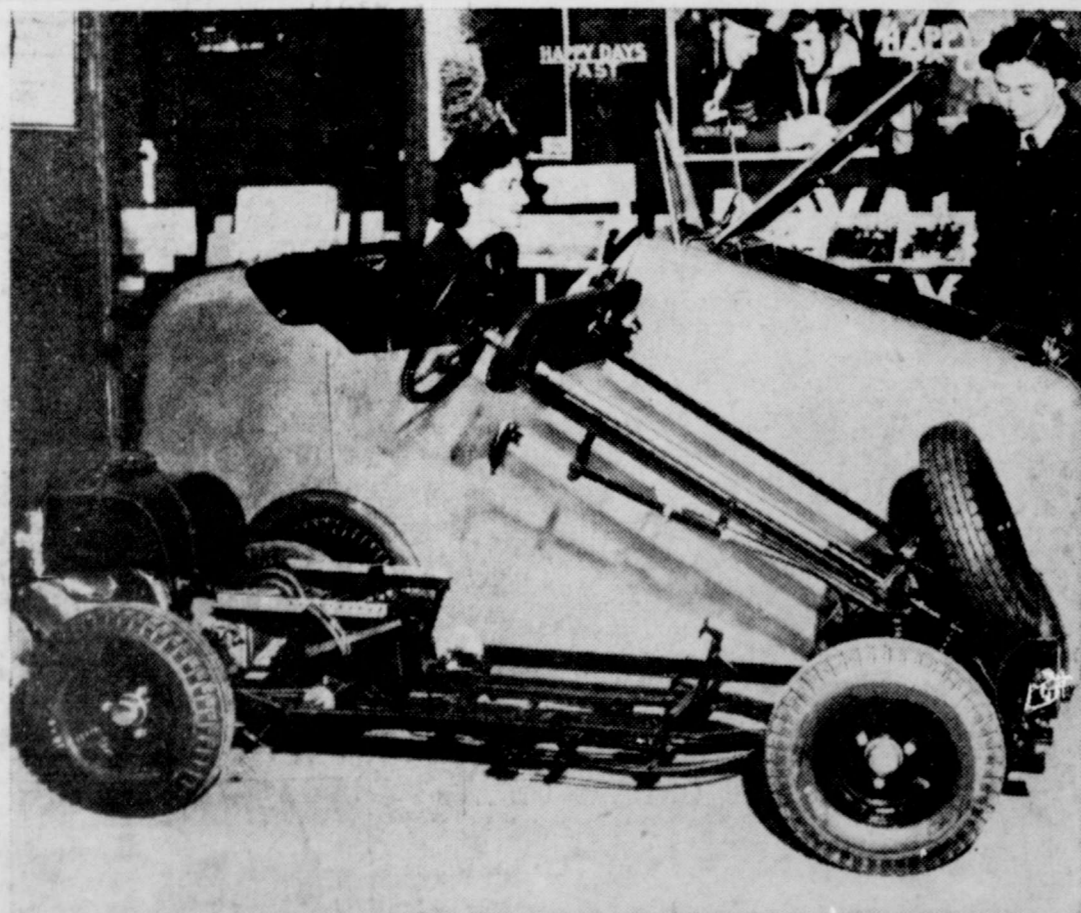

The agreement covers 2,000,000 workers. It provides that all disputes in the construction industry unsettled by the parties at the local level may be submitted to joint national standing committee. The committee decision is final and binding.

WASHINGTON, Feb. 1. (UP) — President Truman today reaffirmed his opposition to any overall increase in rent ceilings, but a strong bloc of senate Republicans served notice that they would over-ride him.

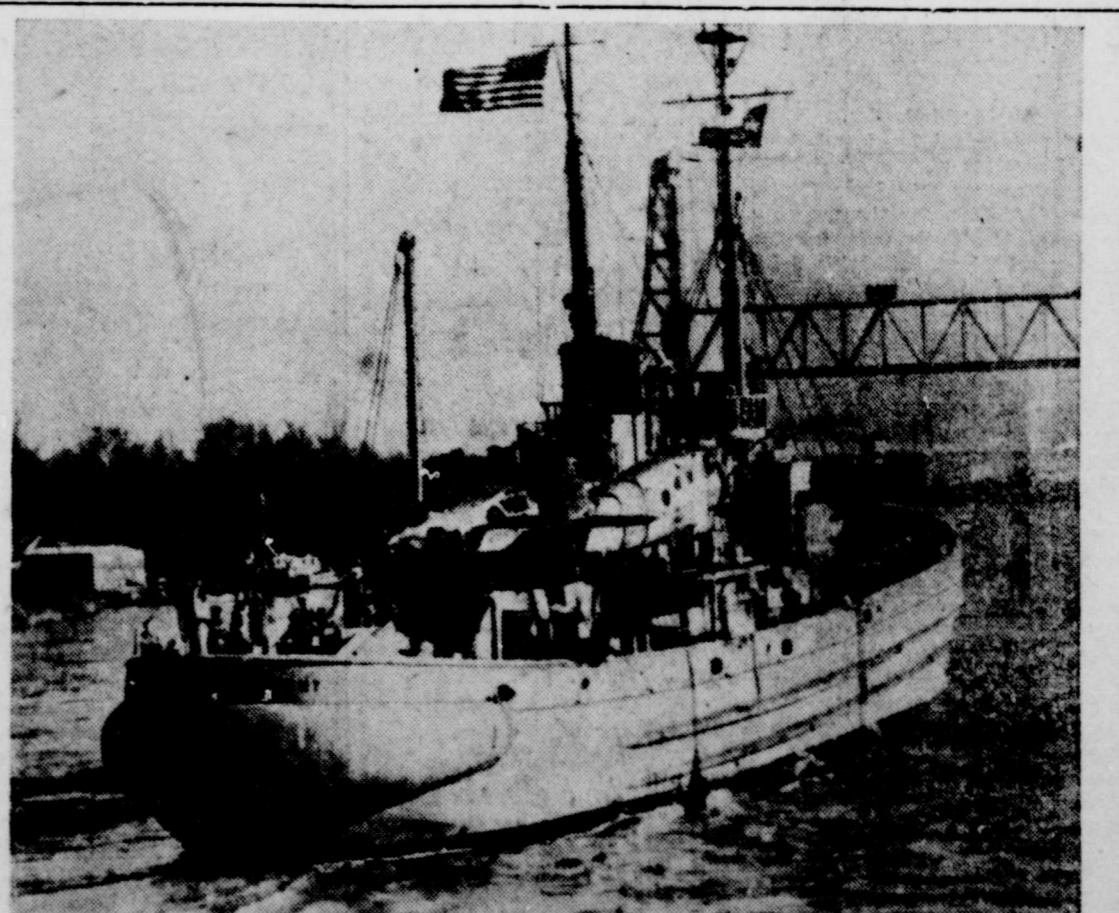

Mr. Truman told a news conference he believed the rent law should be held. He said the question of boosting rent ceilings was up to congress, but he was not in favor of it.

Some senate Republicans said they hoped to gain senate banking committee approval next week for legislation "to give landlords some relief."

The tangled rent problem thus may provide the first direct battle between the chief executive and the new Republican congressional majority.

BRITAIN'S MIDGET CAR—This midget one-seater car, manufactured at Finchley, London, primarily for use of disabled veterans, exhibited at the British Legion Exhibition in the Central Hall, Westminster, London, has two and one-half horsepower engine and can do 65 miles to the gallon.

SOUTH POLE BOUND—The "Port of Beaumont" bids farewell as the Finn Ronne expedition starts on its 7,000 mile voyage from Beaumont, Tex., to the Antarctic. Comdr. Ronne, who was second in command to Adm. Richard Byrd on the 1939-41 expedition, heads the party.

GI STUDENTS OVERSEAS.

Under the GI Bill qualified veterans of World War II enrolled in foreign universities. Recently complaints have drifted back to this country that the tuition grants and subsistence payments of the students are not coming through. In some instances colleges, among them several at Oxford University, England, have waited more than a year for their fees. Veterans, dozens of them, are without resources, many of them married and with children to support. They face deportation since there is a general rule against foreign students working for pay. Typical is the case of T/5 Robert Newman of Hannibal, Mo., studying at Corpus Christi College, Oxford, on credit more than a year which he thinks long enough. The ex-soldiers blame U. S. officials in Paris in charge of veterans' studies in Europe. They say the only reply they receive when they or the college write this office is "rears" of elaborate forms to be filled out. This is red tape at its reddest. Uncle Sam, the world's rich man, refuses to pay his children's bills, lets them live in destitution on the largess of other lands. The situation calls for immediate attention from the Veterans' Administration and speedy remittance of tuition fees and subsistence allowances.

CHOW TIME—Lady Red, 11-year-old, Toledo, Ohio, Irish setter, feeds her second litter of 13 pups. Smaller pups are fed by bottle in order for them to survive with their larger brothers and sisters. The puppy being fed by bottle was given artificial respiration by Lady Red's owner.

## Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky fat and help regain slender, more graceful curves, if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.
