### Llano Estacado Takes Third Prize

Little Difference Shown Between Highest And Lowest In Ranks Of Fifty-Five

Titus county was awarded place as the best of the counties of Texas for agricultural products, as judged from the display made at the Texas State Fair. Fifty-five of the counties of the State were represented in the array in Agricultural Hall, and the contests were close among the collections, selected with care and set out in their booths with such taste as the representatives conjured from brains and experience. Cooke county was a close second. Swisher county from the central plains was third and was a credit to the Llano Estacado region.

The winner of the first prize was the center of the show forming what is called the Northeast and East Texas group.

#### "GRASS MERRY WIDOW"

Cooke county, the second prize-winner stood alone. It had a splendid and very tasty arrangement that exhibited thirty varieties of corn, twelve of apples, four of tomatoes, thirty-seven of grasses, eight of grapes, several sorts of strawberries, several sorts of raspberries, raspberries, gooseberries, dewberries, blackberries and small fruits; wheat, both hard and soft; cotton and

flowers.

#### PANHANDLE GETS PRIZE

The third prize went to the Panhandle tent, and there were few points between the winner of first place and this. The collection came from Swisher, Hale, Floyd, Potter, Briscoe, Armstrong, Gray, McLean, Wheeler, Donley, and Oldham counties, each arrayed by itself. Swisher was given the lead among them. All were good. With little rain, compared to some other parts of the State, this section has more, since they all practiced intensive farming. This was necessary, as the aim was to cultivate as little land as possible to get as great result as could be obtained. Every common garden product all of the field productions, cotton to as high as a bale per acre, fruits, grapes, berries, sugar beets, melons, wheat and grasses were displayed. It was shown that the live stock flourish and that people are raising all of the things shown to an extent commercially valuable. This is a section whose population grows steadily and rapidly. —Dallas News.

#### Honor Roll

Of Meteor School for week ending October 22, 1909: Cassie Tierce, Ada Whitfill, Annie Lee Tierce, Helen Hitt, Nannie Hitt, Bettie Hitt, Eunice Deavenport, May Whitfill, Lois Dunlap, Bertha Shively, Junie Thomas, Frank Whitfill, Ed Whitfill, Ealy Tierce, Wm. Starkey.

### Concerning The A. R. & E. P. Railway

The following letter will prove that the Altus, Roswell & El Paso Railway is still a live number:

Memphis, Texas, 10-20-09.  
Geo. W. Brewster,  
Lockney, Texas.

Dear Sir:—You will kindly inform me as to why the deeds for the right-of-way have not been forwarded to me.

All of the other towns have delivered my deeds and I would very much like to have same from you by return mail. I have my steel bought and finances arranged and expect to push the work now.

Awaiting an early reply, I am,  
Most Truly,  
Ed. Kennedy,  
per C. R. Hardy.

#### Methodist Preachers

The Methodist preachers don't know where they will go nor how long they will stay, but they go by faith and stay by faith until God through appointing powers of the church change them to another field of service.

The change from one minister to the other is usually made without disruptions; one goes, another comes to take his place in office, just as Jesus sent out His apostles.

They are paid less to do more service than any other class of

people, according to the talent and energy used.

There are more than one thousand with salary less than \$300 per year; while the highest salary don't exceed \$4,000 to men traveling all the time, paying their own expenses; the same class of men in other avocations make from \$5,000 to \$10,000 per year.

The average life of one of these Methodist preachers is only 20 years, and the work is so exhausting that many don't live five years.

These ministers are required to take a four year's course in apologetics, missions, practical theological and pastoral theology as well as Bible teaching, church history and church doctrine etc. Most of them spend all their time in the ministry, and take no time to make money, but depend entirely for their support upon the offerings of the people.

"They that preach the gospel, should live of the gospel: the laborer is worthy of his hire." Be sure to pay your preacher. I will preach at Lockney Sunday and Sunday night.

THOS. HANKS

Olin Miller, of Plainview, was in Lockney Tuesday for a short while and called at the Beacon office. He was enroute to Floydada to visit relatives.

### For Llano Estacado Fair

Thinks Great Benefits To Be Derived From Such Organization

Plainview, Texas, Oct. 20, '09  
To the secretaries of Commercial Clubs, Newspapers and all interested in the development of the Llano Estacado country:

Gentlemen:—Realizing that we have the best section of Grand Old Texas in the counties comprising the Llano Estacado, or Staked Plains, and that for the most part it is undeveloped, and that we are just beginning to learn of its possibilities, both as an agricultural and truck-farming section, and that to properly and speedily develop it, should be our greatest aim. This letter is written to suggest the organization of the Llano Estacado Fair association, with the object to accentuate the public mind upon this immediate section, and at the same time inspire a more vigorous and strenuous effort on the part of those engaged in agricultural pursuits.

It is within the recollection of many persons who live in this section when the Dallas State Fair was a small concern and its exhibits were circumscribed to the limits of a few surrounding

The cases of the P. & N. T. Ry. Co., vs. Geo. Tierce and C. A. Floyd, which were to have come up in the court Tuesday were arbitrated Tuesday without going into court. The amount awarded by the special jury of three at Lockney, was for Tierce \$300 and Floyd \$250. The compromise agreed upon gave them respectively \$350 and \$300.

If you received a prize at the Floydada Fair, held some three weeks ago its your own loss if you don't get the money, says the committee, who declare the money is there ready and waiting.

The Dallas Fair this year has been more of a success than ever before, if newspaper reports are correct, though giving only a few more attractions than had previously been shown.

People from all portions of the United States were attracted by it and saw, among other things, the wonderful display made by Floyd county of the agricultural products grown here.

Agents for Dr. Cook's and Commander Peary's accounts of their polar expedition are making the country now. Likewise Col. Roosevelt's own account of his African hunt. These men will certainly get the coin for their trouble of discovering the unknown wilds and wastes.

### Ideal Husband Found

Chicago, Ill., Oct. 25.—Samuel W. Van Nostran, who was adjudged the "model husband" at the second annual "Hubby Show," held at the home of Mrs. James Sidney McCullough, received from his wife yesterday credit for being the possessor of all the virtues necessary to make an ideal husband.

"Other than possessing the most super-husbandly quality of being good natured before breakfast," said Mrs. Van Nostran, "my husband allows me to carry the family pocket book and declares, just as if he meant it that my cooking is so far ahead of 'mother's' efforts in the culinary line that there could be comparison. If that is not glory enough for one woman I would like to know what is."

The complete list of desirable qualities attributed to her husband by Mrs. Van Nostran are: Prompt at meals, good entertainer, an adept with the chafing dish, good judge of feminine beauty, generous and kind-hearted, enjoys home more than the club, happiest among friends.

Mr. Van Nostran, who also received the prize for his almost womanly ability to sew on a button is 35 years of age and has been married nine years.

R. T. F. M. Davis about one o'clock today fainted while sitting on the sidewalk near Red Cross Drug Store. His wife was summoned and he was carried home where he is reported doing fairly well. It was supposedly caused from heart trouble.

W. C. Watson the first of the week, went down to Lubbock on business, from which place he went on to the Dallas Fair and Grayson county.

Z. T. Riley remains in Dallas till next Tuesday or Wednesday on business.

#### Complaint against Manley.

Dallas, Oct. 25.—A formal complaint, charging Seargant J. D. Manley with the murder of Louis or "Pete" Reichenstein, Saturday on the occasion of the president's visit, when Reichenstein was pierced with a bayonet in the hands of Manley, was filed this morning by the sheriff. Manley is in jail and refuses to make a statement further than that he regrets the incident. He has employed no lawyer as yet. Reichenstein leaves a wife and four children.

#### For The President

Evidently the President of the United States is much wiser than he was formerly, for he has been reading literature descriptive of the Lockney country. This is true, provided he read the package sent him by Geo. W. Brewster who is of the fair with the exhibit. The president, when he reached Dallas was very tired, and G. W. at once saw his need—something to stimulate him—and promptly did the proper thing by him. May George grow as fat as the President himself.

Miss Lizzie Pope, of Weatherford, Texas, is in Lockney visiting with her sister, Mrs. R. M. Broyles.

#### President Kisses Baby.

The President's trip to Gregory was marked by one interesting incident, the first baby-kissing event on the Taft trip since leaving home. The baby was the 4-month-old daughter of Mr. and E. S. Woolsey, of Falls City and this is how it happened: All along the San Antonio and Aransas Pass Railway Taft was greeted by friendly demonstrations at the depot. There was a particularly good-natured crowd at Falls City and the President began to interview his audience.

"What do you grow here?" he asked.

"Cotton, mostly," said one man.

"What does it cost you to pick cotton—\$8 or \$9 per bale?"

"About \$8," was the reply.

"It don't cost you nothing," volunteered another practical agriculturist, "if you've got a big enough family."

President Taft looked at his audience with a broad smile, as his eyes ran over the large percentage of women and children about him.

"Well, you've got a good crop of those," said the president, as he lifted from a proud mother's arms the little daughter of Mr. and Mrs. Woolsey and kissed the child's rosy cheeks to the music of a hundred handclaps and shouts of enthusiastic admiration.

#### Pres. Kennedy At Memphis

After an absence of some six weeks in the east closing up contracts and pushing the various interests of his road President Ed Kennedy of the A. R. & E. P. Ry., arrived in town Tuesday and spent the day. To a Herald reporter he stated that he had won out over the people who were trying to rob him in Okiahoma and that his road had not been placed in the hands of a receiver. The steel contracts and other evidences of his ability to complete his line were exhibited to the court and they were so conclusive that the judge refused the receivership appointment. This was a signal victory for Mr. Kennedy. He now feels that he has every impediment out of the way and will be able to go right along just as soon as the steel begins to arrive in Altus. He says he now also has a contractor at Cap Rock and will soon be showing work on that division of the line. On the whole, conditions look quite as flattering as they have at any time in the past year for the early completion of the line.—Hall County Herald.

Mrs. H. P. Hinton, is at Dallas Fair, working as Associate Editor or the Poultry Success, a National Poultry Paper. She will remain there probably all during the Fair.

### Ice and Steel Go Together

Ice makes the fastest kind of a speedway for steel.

Steel runs at a snail's pace on anything else.

Yet ice and steel are nothing alike.

Neither are cloth and brains--but they must work together to produce good clothes.

Any one can make clothes without brains--without form or fashion--that look like a bag on a beanpole.

Add brains to the cloth and you'll get clothes that any man

will be proud to wear. Our clothes have the **BRAIN** addition, and will fit your pocket book.

### For Llano Estacado Fair

(Continued From Page 1.)

counties, and its premiums amounted to little more than a thousand dollars.

There is every reason why the counties of Hale, Floyd, Lubbock, Crosby, Lynn, Terry, Yoakum, Garza, Dawson and Lamb should so organize, at at some central location, or at some place designated, have an annual fair and arrange same on the plan of Dallas and San Antonio and other fair associations are managed. The writer believes that this plan can be made practicable and remunerative almost from the start and in the course of a year or two it shall assume such proportions as will be of benefit to those who live in this section.

A copy of this letter is sent to each newspaper in the counties named above with the request that it be published in the next issue, and request that said papers make such comment as they may see or deem proper about the question.

The success that this section of the plains has had in the way of products at the Dallas Fair, is an argument in favor of the proposition and should be considered by all who read this article.

What say you, gentlemen, of the Llano Estacado country? Shall we make an effort? Shall we by this means bring into greater notice this most favored section? Shall we be up and doing as are other sections of Texas?

If you favor the idea, I should be pleased to hear from you as well as that you write your papers on the subject.

Very respectfully yours

### Letter to Sheriff Goen

Lockney, Texas.

Dear Sir: This happened seven years ago: A man, having three little poultry houses, bought one gallon of each of two paints to paint them; paid \$1.60 for one and \$1.75 for the other. 15 cents difference.

The \$1.60 gallon painted one house, the \$1.75 gallon painted the other two houses. The cost of the paint was: first house \$1.60; second house 87 1-2 cents; third house 87 1-2 cents.

But painting goes with paint, and it costs as much to paint one paint as another, about \$3.50 a gallon.

The painting of one of those houses with \$1.60 paint cost the same as that of the other two with \$1.75 paint; \$3.50. Difference of \$1.75 a house same way as the 75 cents.

Four years ago he painted the first little house again, same

paint--he wanted to know what the cost of keeping a house well-painted really is. The other two houses didn't need painting.

Last year he painted all three little houses, same paints as at first; and reckoned his cost to date of beginning the job.

The first little house had cost \$5.10 twice, or \$10.20 and was ready to paint again; the second two houses had cost \$5.20, and were ready to paint again.

That is: saving 15 cents per gallon made one house cost twice as much as the other two houses, besides the fuss of an extra paint job in three years.

The \$1.75 paint was Devoe. This tale is made-up of a thousand experiences. Devoe is always the paint that takes less gallons, costs less money, wears longer, less fuss. And the cost of Devoe is about one-fourth of the cost of a paint that doubles the gallons.

Yours Truly,  
 F. W. DEVOE & Co.  
 P. S. E. P. Thompson sells our paint.
