Wednesday Book Club.

The Wednesday Book Club met Wednesday afternoon at 3 o'clock, with Mrs. R. M. Broyles, with the following members present:

Mesdames Carl McAdams, C. C. Miller, T. S. McGehee, J. Kendrick, B. F. Smith and R. M. Broyles.

Two new members were added to the club, Mrs. D. C. Lowe and Mrs. W. L. Whitt.

No program was rendered on account of the books not arriving, and the evening was spent in social conversation, and laying plans for the future work.

Mrs. Miller, our leader, assigned parts for study at our next meeting, which will be February 26th. The lesson will be the study of Othello, scenes 1 and 2, act 1. Each member is urged to be present so as to start with the study with the rest.

The meeting will be held with C. C. Miller.

After adjournment delightful refreshments were served by a charming hostess.

I. N. B. Meeting.

The members of the I. N. B. Club were delightfully entertained by Miss Olga Thomas.

The house was handsomely decorated with the club flower and colors, crimson and white carnations.

At this meeting Mrs. Osborn McCollum was solemnly initiated into the mysteries of the club. Her management of the much talked of "goat" was very skillful and graceful.

She proved herself worthy to be a member of the I. N. B. Club. The members were much pleased to have her join them. She will be a very pleasant and useful member and an excellent chaperon. The committee on initiation were Misses Olga Thomas, Gladys Garrison and Vaden Whitt.

Dainty refreshments were served, after which the members bade their vivacious hostess a merry goodnight.

Next meeting will be with Mrs. O. R. McCollum.

Petersburg Paragraphs.

It has been some time since this part of the country has been heard from through the papers, so will try to give a few jottings.

A nice snow visited this section Friday, and made all the farmers feel good. This snow was especially beneficial to those who had wheat. The farmers of this section have considerable acreage of wheat this year.

Sunday evening the young people of Petersburg met at the Christian church for singing. A good singing was the result, and plans were made to organize and have singing each Sunday evening. We sincerely hope that we will have a good singing, and that all the young people, and old as well, will help to make it a success.

Bro. Frank Ross filled his regular appointment here Sunday. Bro. Tollie Corder preached at night.

Carl W. Smith has now opened up his hardware store. Petersburg.

Mickey, Tex., February 11.—Editor Lockney Beacon.

I will give you a few items of news from this part of the world if you care to print them.

The recent cold spell seemed to be a cold breeder, as everyone in the neighborhood are sick with colds. Several of Mrs. Holmes' children were unable to come to school Monday, and the three children of Mr. Womack's were out on account of the colds. Also Eula Mickey was absent.

There are so many sneezes you may look for high winds and the blowing of noses.

Little Hansel Elder was thrown from a horse at school last Friday, and, at that time, was tho't badly hurt, but at the last report was getting alright.

There have been several accidents at school here, but all seem to come out alright—an auto ran over one girl but she was back at school in three or four days. We certainly have a jolly set of boys and girls in school.

A. J. Blackwell and son, Robert, took dinner with Prof. Hudleston Sunday.

Church services were well attended last Sunday, Elder C. W. Smith gave us a good lesson.

Several of the neighborhood boys held a fast at the schoolhouse. Don't know whether they were praying or not, or for what purpose it was held is unknown so far.

Erwin Young has moved to Floydada, and his father, from Lockney, is living on the place where Erwin lived.

Two of M. F. Mickey's boys from Petersburg carried a load of chickens to Lockney Monday.

Well as this is my first time, will close.

S. W. Mickey.

Real Estate Changes.

Mr. B. R. Turner, who lives southwest of town, purchased this week Theo Griffith residence in the West part of town, and will move to same in the near future.

Wm. McGhee, commissioner of Precinct No. 2, is attending the regular February term of court this week.

W. A. Shofner, the live-wire merchant of Plainview, was in city Wednesday of business.

The trial of John Beal Sneed for the killing of Al Boyce is now on at Vernon.

are the surplus value, and economic determinism. We will consider them from three standpoints—economic, political and ethical or moral. This article will consider the class struggle from an economic point.

Marx and Engels say in the Communist Manifesto "The history of all hitherto existing society is the history of class struggles." "The modern bourgeois society, that has sprouted from the ruins of feudal society, has not done away with class antagonism. It has but established new classes, new conditions of oppressions, new forms of struggle in place of the old ones."

No one will dispute the class struggle as a historical fact: The ancient slave lord and the slave class; the feudal lord of medieval times and the serf are admitted to be parties to the class struggle.

When we affirm the class struggle as a modern social condition we meet with passionate protest. The hateful thing is not that socialist call attention to it, but is the fact of the iron wedge of class distinction should separate society.

Commercialism developed in America under different conditions than in Europe. A vast undeveloped continent lay before it, and labor could never be oppressed while free land lay to the west. The best crop that grows on free land is free men. The first seventy years of our history was our golden age. It produced such men as Andrew Jackson, Henry Clay, Sam Houston and Abe Lincoln.

The class struggle in America could not become acute till practically all the good land had passed into private ownership, and the trusts had started to develop. There were no labor unions, nor necessity for them before the Civil War. The first census (1800) gave 97 per cent of the people as farmers. The last census (1910) gave 35 per cent as farmers, of which 37 per cent are renters. The Dallas News recently said that by the 1910 census, 68 per cent of the farmers of Texas were tenants.

We are taught that when our forefathers overthrew the divine right of kings, they had solved the problem of human liberty. That this liberty consists of freedom to buy and sell, in a word freedom of contract. By conservative estimates on the last census, over half of the American people are landless farmers and wage workers. How about freedom of contract? Do they not have to accept the best terms they can obtain from landlord or employer? Is it not true that the only way that the man without property can live, is by the consent of the owner of property? How about his right to live? Is living now not a right, a privilege dependant on the consent of another?

of wages is the outgrowth of slavery. The relation of rent is the outgrowth of feudalism. The lawyers speak of the wage relation as "Master and servant." Disprove the class struggle and the whole socialist theory falls. My next article will deal with the cause of the class struggle. Glen D. S. Shipley.

Word has been received in Lockney that R. D. Scott, father of Mrs. J. L. German, was killed last week in Dallas, in a railroad accident. The friends of Prof. and Mrs. J. L. German sympathize with them in their bereavement.

Mr. Scott was a railroad man and was killed while performing his duties as such.

NEW DIVORCE LAW PASSED IN NEVADA

Great Interest Shown in The Bill Throughout The State.

Carson City, Nev., Feb. 7.—After several hours struggle, the divorce law amendment requiring 12 month's residence in the state instead of six passed the assembly today.

It next goes to the senate where another bitter fight is expected. If it is passed it will not become effective until January 1, 1914.

Over 300 men and women who are working for the passage of this amendment came to the capital from all parts of the state by special train.

Governor Colquitt has written to President Exall of the Texas Industrial Congress stating that he will issue a certificate of honor, emblazoned with the great seal of Texas, to every winner in the 1913 contest for best crop yields. This is a splendid opportunity for boys and girls of Texas to win honor as well as gold by entering the great contest for \$10,000 in gold.

Word has been received in Lockney that R. D. Scott, father of Mrs. J. L. German, was killed last week in Dallas, in a railroad accident. The friends of Prof. and Mrs. J. L. German sympathize with them in their bereavement.

FIRE ENGINE HAS BEEN SHIPPED

Mass Meeting Will be Held Friday Night to Organize Fire Company.

Mayor J. M. Hamilton informs us that he has received bill laden for Lockney chemical engine, and he is looking for same most any time. He says he desires to test same on its arrival, and the city council has authorized him to call a mass meeting of Lockney citizens for the purpose of organizing a volunteer fire company. The meeting is called for Friday night in the W. O. W. building for the above purpose, and it is urged that everybody turn out.

After the company is organized, and as soon as the engine arrives a drill will take place with same. It is the plan of the council to build a bon fire, and see how quick and effective it can be extinguished with the chemical engine.

Let everybody turn out, and take part in the new organization. It's a good thing and will be the means of saving many dollars worth of property in case of fire.

Killed at Dallas.

Word has been received in Lockney that R. D. Scott, father of Mrs. J. L. German, was killed last week in Dallas, in a railroad accident. The friends of Prof. and Mrs. J. L. German sympathize with them in their bereavement.

Mr. Scott was a railroad man and was killed while performing his duties as such.

BETTER MEDICINE THAN CALOMEL

Dodson's Liver Tone, a Safe Vegetable Liquid, Now Takes The Place of Calomel.

Many people know the danger of calomel, yet they take it because they know of nothing better. Other people are not afraid of calomel because they do not understand what a dangerous drug it is.

Nobody needs to take dangerous calomel (which is made from mercury) if they live near a store where Dodson's Liver Tone is sold.

The Red Cross Drug Store sells Dodson's Liver Tone, and guarantees it to be a perfect substitute for calomel. It is a pleasant tasting vegetable tonic, that livens up the liver without causing any restriction of habit or diet. It has none of the bad after-effects of calomel and is safe for children and grown-ups.

C. W. Watkins to Atascosa County.

Wednesday morning C. W. Watkins and family, left Floydada for Jourdanton, Atascosa, where they will make their home in the future. This step was decided upon by Mr. Watkins because of his wife's health which, it is thought will be improved by the change of climate.

Their household goods preceded them on Friday.

The well-wishes of a host of friends follow them to their new home.—Hesperian.

R. M. Broyles went down to Floydada Monday on business.

INCREASE OF POLL TAY PAYERS

Shown by Records of Collector's Office.—Per Cent of Payment Fall Off.

The tax payments for 1913, which were closed on the 31st of January, this year, show a total of 986 poll tax payers in the county, who have been issued receipts, a net increase over last year, but as over 200 more were assessed this year than last, the per cent of payments shows a decrease.

Of all the boxes Lakeview shows up the better, with 41 polls paid, the Antelope box in the southeast corner having been cut off this district, and next in the per cent column stands Meteor and Providence, two new boxes cut off from the former Lockney District. Floydada and Lockney both, show considerable falling off, the Center box showing the heaviest per cent decrease. Seven exemption receipts were issued in the county, —2 at Floydada, 2 at Lockney, 1 at Starkky, 1 at Fairmount, and 1 at Sandhill.

So far as we have been able to learn, Floyd is the only county in the panhandle or state, which shows an actual increase in its tax payments over last year, some few other counties showing as high as 97 per cent, while others fall as low as 75 per cent. This should be rather a source of pride to our citizenship, being an index to leadership in progressiveness.

The usual number of those who forgot to pay their polls before the allotted time have made application to the collector for receipts, and have met alike with very poor success,—in fact, no success at all. They are possibly sadder, but wiser. While, when the new election law came into effect, it was the custom for some two or three years to issue receipts up to the time the collector's report was made to the comptroller, rulings which were brought on by the pro and anti fight in the state have made the law so plain that "a way-faring fool, though he be a stranger" or words to that effect, and especially if he happened to hold the collector's office, would be afraid to err therein.—Hesperian.

\$750 Bond for Williams Boys.

The Williams boys of Motley county, who are claimed to have been the leaders in a fracas at the Morrison ranch two weeks ago, in which J. D. Starks was rather badly hurt, and in which a gun play was made, were in Floydada Tuesday for their examining trial in Justice Price's court.

Two witnesses were heard, George and Ross Cope, and at the close of the hearing the defendants' bonds were set at \$750 which they readily made, pending the meeting of the grand jury, which will convene in this month. The charge under which they are held is assault with intent to murder.—Hesperian.

There were 1,069 poll tax receipts issued by the tax collector of Hale county prior to February 1; a decrease of 90 as compared with last year.

O. R. McCollum left last Saturday for a business trip to Dallas.

WEBB LIQUOR BILL PASSED BY HOUSE

Overwhelming Vote of 240 to 65 To Prevent Shipments Into Dry Territory.

Washington, Feb. 8.—With a notable number of Democratic members absent from the proceedings, the House late this afternoon, by the overwhelming vote of 240 to 65, passed the Webb bill forbidding the shipment of intoxicating liquors of any description into "dry" territory, when said liquors are "intended to be received, possessed, sold or in any manner used, either in the original package or otherwise, in violation of any law of such State, Territory or district of the United States."

The measure is the most drastic aid to the enforcement of local prohibition ever attempted by Congress and there is considerable difference of opinion among members as to the constitutionality of the enactment. The pressure for the bill from temperance organizations of all kinds having strong ramifications in almost every State of the Union was irresistible and members opposed to it did not have the hardihood to attempt to withstand this widespread and insistent demand, in any considerable numbers, as the vote by which the bill passed amply demonstrates.

It's Worth More than it Costs You

OF COURSE you admit the value of the automobile for any one who has to go from one place to another—and wants to get there and back quickly. We all agree on that point.

The cost of the automobile is what is worrying you, maybe.

You wonder is it worth the money—to you.

Have you ever noticed that when a man buys an automobile, and, after using it, either in his business or for pleasure, or for both, sells it, always buys another one?

Yes? Well, that's the answer.

Buy an automobile, find out that its price is an investment rather than an expense, and you can't do without it. You wouldn't want to.

Because you will have found that the car is worth more to you than it cost you, that it has added to your capacity of doing business, that it made one hour do the

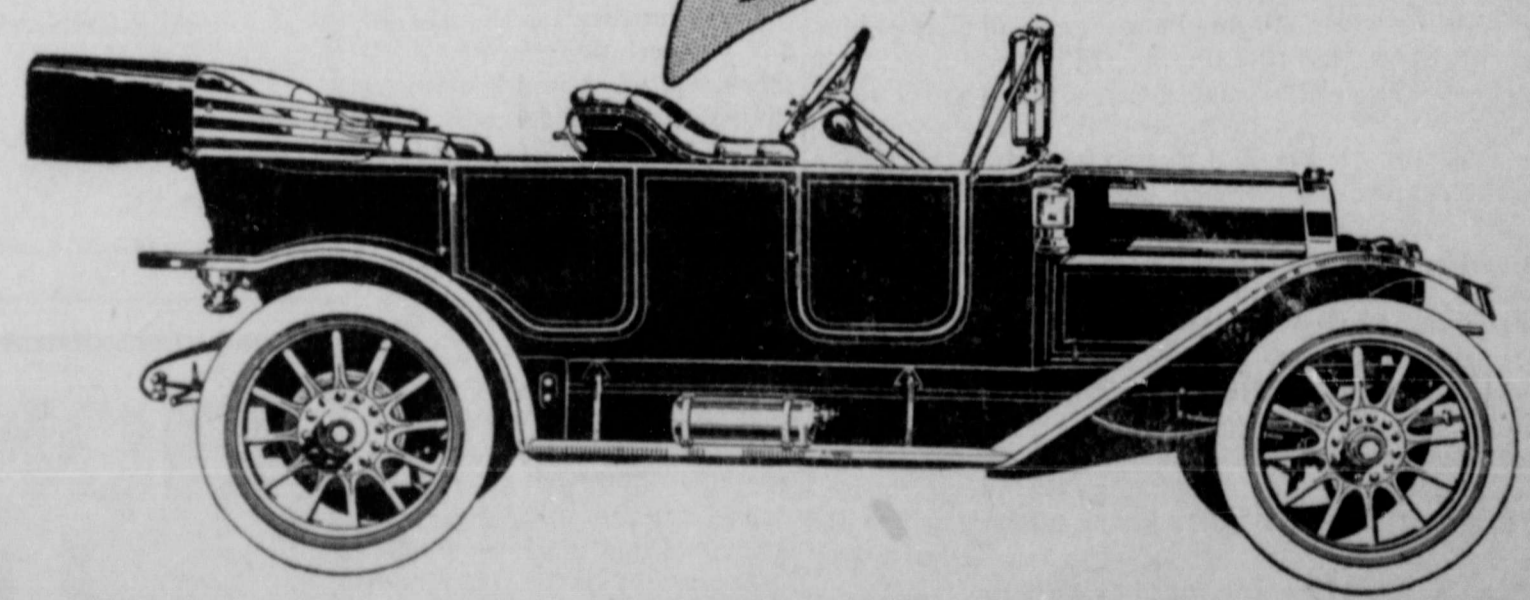

work of three, that the store, the theatre, the folks ten miles away, have suddenly become your next-door neighbors, that it has given a store of health to you and your family.

Which automobile?

The Overland—because it is the best value that money can buy.

Whatever your notions are as to what an automobile should be to do justice to your requirements, whether you value power, comfort, impressive appearance, low cost of upkeep, or the kind of durability—Overland durability—that makes the possession of a car a source of downright satisfaction, you can't afford to consider any automobile without first investigating the new Overland.

At least come and take a look at it. Compare it with others. Let us give you a ride in the big, fully equipped Overland; it involves no obligation on your part. Then draw your own conclusions.—That's all.

WE ALSO HAVE A FEW SECOND-HAND MACHINES FROM \$100.00 UP.
