

DRIVER HOSPITALIZED — Juan Oltivera, 22, of 310 SW Second St., was admitted to Plains Memorial Hospital with a concussion Sunday night after his car went out of control, jumped a curb and smashed into this tree in the 200 block of Northwest Fifth Street. City police and witnesses said

the 1967 Chevrolet was traveling north before the accident but came to rest facing south. Oltivera, the car's only occupant, was charged with failure to control speed to avoid an accident and driving on the wrong side of the street, and was fined \$50.

Low library bid: \$141,000

Lubbock builder Jerry Gailey submitted the lowest of five bids Tuesday for construction of the new Castro County Library building.

GAILEY'S bid was \$141,271, almost \$9,000 below the budgeted amount for the building phase of the project.

Four of the five sealed bids opened by the county commissioners' court Tuesday afternoon were below the \$150,000 amount originally estimated by the library board. The other bids were \$144,000 by Edward P. Taylor of Amarillo, \$148,888

by Wiley Hicks Jr. of Amarillo, \$149,500 by Floyd W. Richards of Amarillo, and \$152,000 by Panhandle Engineers & Contractors of Amarillo.

In his low bid, Gailey stipulated 210 days to complete the building. The other bidders' time stipulations ranged from 150 days (Taylor) to 180 days (Hicks).

COUNTY JUDGE Raymond Wilson said the commissioners' court may decide Monday which bid to accept. The county has until Nov. 16 to award the contract.

Most of the money for the building project will come from the sale of a large gift of stocks from Mrs. Ralph Perry of Plainview. The stocks had a face value of \$93,000 when Mrs. Perry donated them in May 1970 for the construction of a new public library here. Since then, their face value has climbed while they were yielding dividends.

IF GAILEY'S low bid were accepted with his 210-day time stipulation, completion of the building could come in mid-June next year.

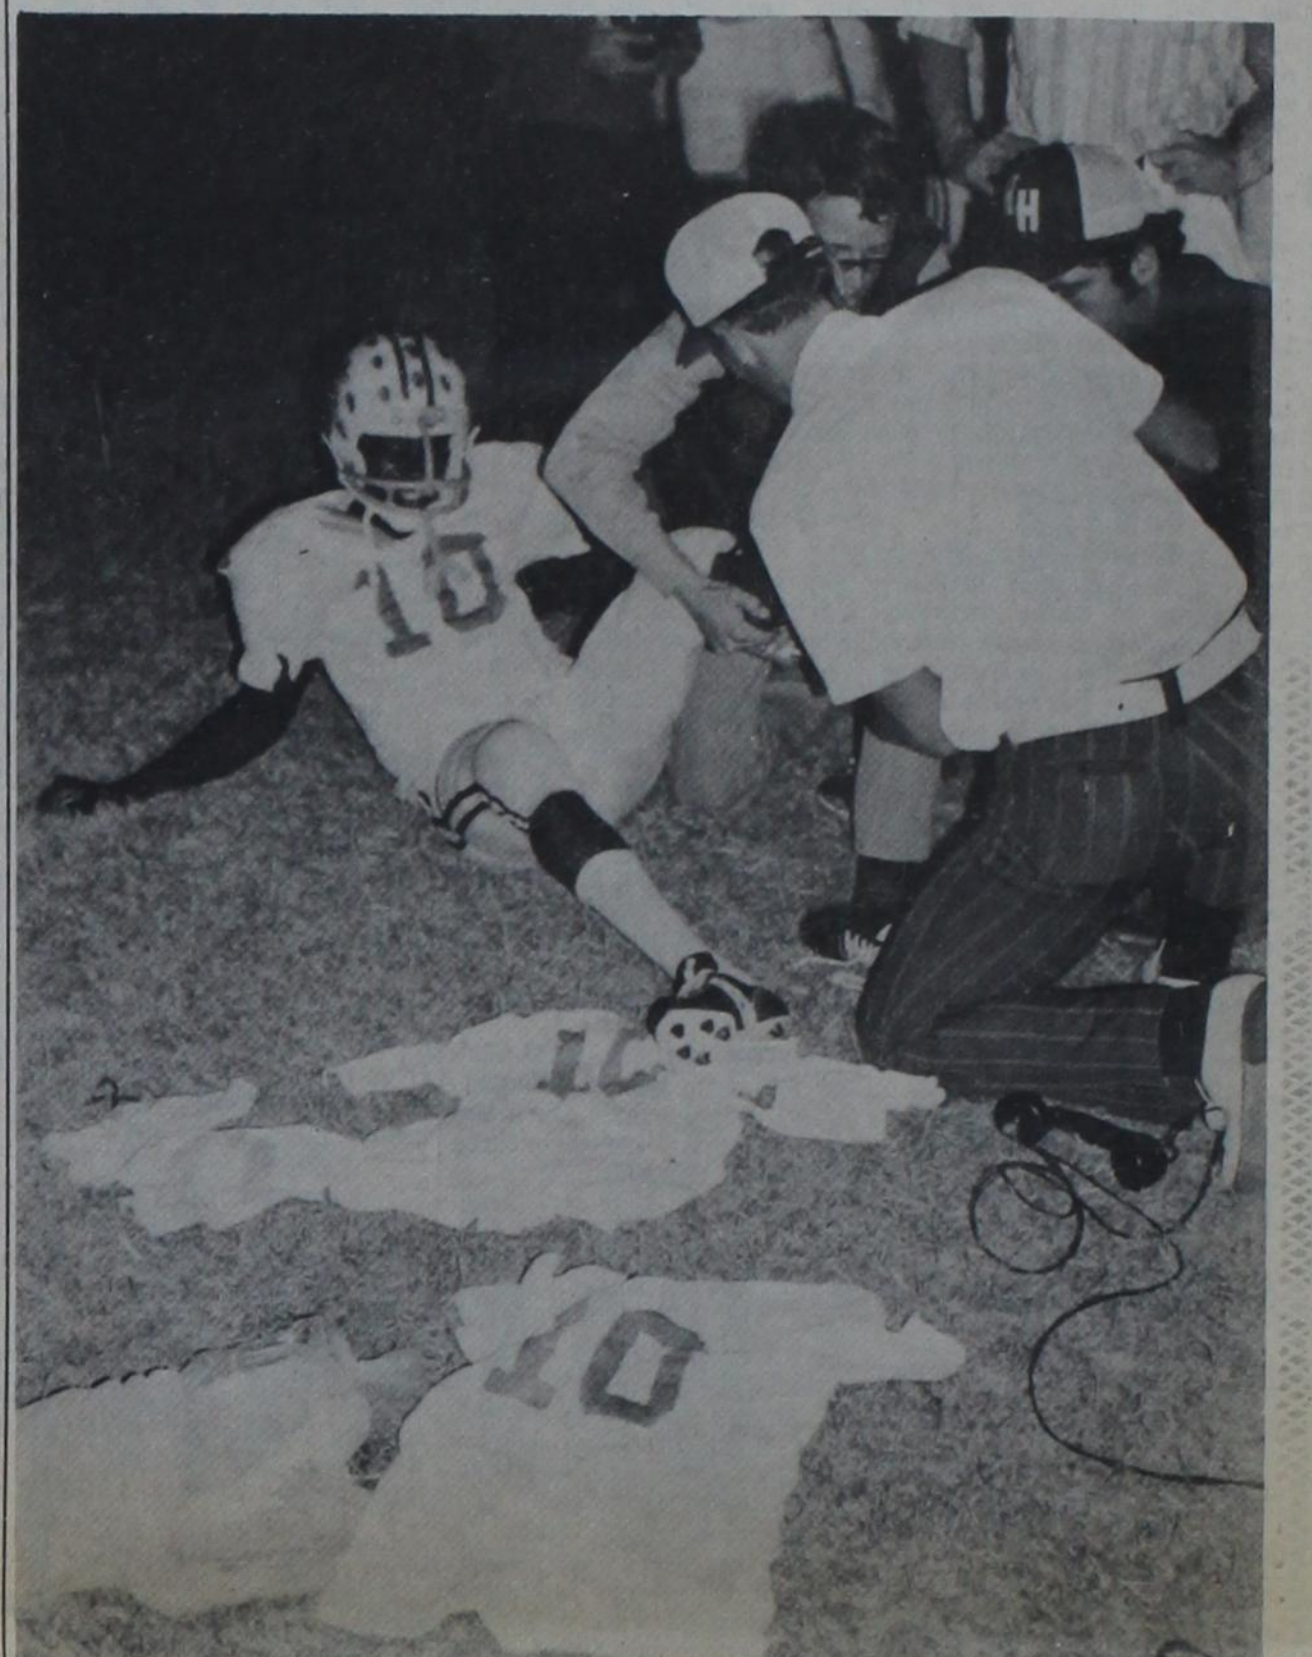

Miller said he was well pleased with the bids submitted Tuesday.

"Now that we have a bid base, and once we liquidate the stock, then we'll have a true figure of the funds in hand and will be able to establish a definite goal of how much we still need," Miller said. "I feel good about the prospects of a successful project at this point."

TOTAL COST of the library project—property, building, additional books, furniture and fixtures—has been estimated at \$207,500. The Texas State Library will provide \$50,000 to go with Mrs. Perry's gift, and the additional amount needed will be raised through a local fund drive.

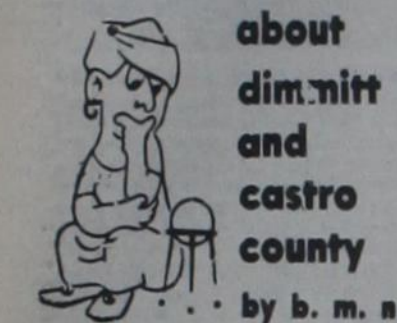

Miller said approximately \$10,000 in additional donations already have been raised. This figure does not include the value of books donated so far, he said.

The 110 x 70 ft. library building will be built on a two-lot site at the corner of West Bedford and Southwest Second Streets. Work is now underway to clear an existing building from the inside lot to make way for construction of the new resource center.

BIG INVENTORY—When Hart's Longhorns go into a game, they always carry an extra supply of breakaway jerseys for speedy Jimmy Brown (10), the region's highest-scoring tailback. Here, Brown gets an ankle faped amid a supply of extra shirts during Friday night's Homecoming game against Sudan. He started the game in a standard jersey (left foreground), but after Sudan's

tacklers started grabbing him by the shirt-waist as he streaked past, he switched to an easy-tearing breakaway jersey. Moments later the first substitute jersey was ripped completely off his back, leaving a would-be tackle with nothing but a handful of cloth. The jersey Brown wears in this photo was his third one of the game.

Corn harvest is best ever

The biggest corn harvest in the Panhandle's history has just ended in Castro County.

AS THE corn harvest wound down here, grainmen prepared for a milo harvest that promises to be equally bountiful.

Bill Clark, elevators manager for Dimmitt Agri Industries, Inc., said per-acre corn yields appear to be 15 percent higher than last year.

Castro County established it-

self last year as the leading corn-producing county in North Texas, and even more acreage was devoted to the yellow-grain crop here this year.

CORN brought to Bruegel & Sons Elevators averaged 145 bushels per acre, according to Manager J. R. Brown. High yield per acre reported to Bruegel's was slightly over 200 bushels per acre.

Brown said it appeared that the '72 corn crop would turn out to be a better cash crop than milo this year.

Yield averages in the Hart area were 150 bushels of dry corn per acre, DeWayne Brown at Farmers Grain reported. The high yield at Farmers Grain was 190 bushels.

REPORTS on the milo harvest which is just beginning point toward a good harvest on that grain crop, too.

J. R. Brown said the milo harvest will begin peaking in two to three days if the good weather holds.

"Milo looks exceptional this year, both in yield and quality," he said.

DeWayne Brown at Hart said that with no rain, the milo harvest would get in a full day Wednesday. "The crop looks good," he commented.

GEORGE BLANTON of Flagg Grain Co. said the milo should begin to roll in at Flagg the last of this week with quality and stands good.

The first of November should see the milo harvesting peak at Community Grain, Inc., in Easter. Bill Waldrop said the milo crop should average more than 71, but that '71 yields were down from previous years.

The grainmen all agree hot, dry weather is all that's needed to finish the corn crop and get the milo harvest under full steam.

All signs still point to a record year for crops in Castro County in '72.

Student injured in Lubbock wreck

David Perez Jr., 23, of Dimmitt received critical injuries in a car-motorcycle accident last Thursday evening in Lubbock.

THE ACCIDENT occurred in the 3900 block of North University Avenue. Perez, an architectural engineering student at Texas Tech, was riding his motorcycle to work when the mishap occurred at 6:15 p.m.

Perez received severe facial and bodily injuries. He lost most of his teeth and suffered fractures of the jawbone and cheekbone, plus a bodily injury that has left him paralyzed on the left side. He was admitted to the intensive care unit of Methodist Hospital in critical condition.

He was reported improving Wednesday morning, although he was still confined to the hospital's intensive care unit.

HE IS scheduled to undergo surgery to repair the broken jawbone today (Thursday), with dental surgery to follow soon.

Perez is the son of Mr. and Mrs. David Perez, 305 SW Fifth St.

Firm asks permit to develop park for mobile homes

The City of Dimmitt has received an application from Diamond Valley Grain, Inc., for a permit to build a new mobile-home park on Northwest Twelfth Street, in the Westhaven Addition.

THE Hereford-based company proposes to build a 38-space mobile home park along both sides of NW Twelfth Street.

At their meeting Monday night, commissioners set Nov. 6 as the date for a public hearing on the application. The commission advised Norman D. Bartlett, president of Diamond Valley Grain, that it will act on the application after the public hearing.

IN OTHER action Monday night, the commission:

—Tabled a request from Dennis Funeral Home for an increase in the public ambulance service subsidy.

—Read a petition from residents of East Dimmitt complaining of airborne debris in their area. (The petition will be forwarded to the Texas Air Control Board.)

—Read a copy of a letter from the Texas Air Control Board to Dimmitt Agri Industries, Inc., concerning air pollution levels and asking DAI to advise the board of its plans for air pollution control.

Final rites held for Lois Hall, 80

Mrs. Lois Mae Smith Hall, 80, a Dimmitt resident since 1968, died last Thursday evening in the Golden Spread Nursing Home.

FUNERAL services were conducted at 2:30 p.m. Saturday in Dennis Memorial Chapel with Cecil H. Shelton, minister of the Northside Church of Christ officiating. Burial was in Frisco Cemetery, under the direction of Dennis Funeral Home.

Mrs. Hall, who was born Jan. 10, 1892, in Birmingham, Miss., moved from Frisco to Dimmitt with her husband, Virgil, four years ago. Her husband, a retired carpenter, died here in 1969.

Survivors include two sisters, Mrs. Lottie Hall of Muleshoe and Mrs. Lula Lesley of Memphis, Tenn.; and a nephew, Murray Hall of Dimmitt.

Active pallbearers were Bill Harman, Don Hargrove, Harry Roberts, Earl Griffith, Lester McDermitt and Marshall Langford.

Chaff spurs complaints; elevators seek solution

Elevators in East Dimmitt faced air-pollution complaints this week from two directions—nearby neighborhoods and the Texas Air Control Board.

THE COMPLAINTS came to light at Monday night's meeting of the city commission.

Residents on Northeast Fifth and Sixth Streets sent a petition to the city, complaining of debris in the air in their neighborhoods. After reading the petition, city commissioners said they would forward it to the Air Control Board.

Corn chaff is the main factor behind the complaints. Elevators throughout the county have been busy for weeks taking and storing a record corn crop, and the yellow grain comes from the fields bearing more chaff than does milo. Much of this chaff drifts out into the air during the elevators' processing of the corn.

THE CITY commission also

read a copy of a letter from the Air Control Board to Dimmitt Agri Industries, Inc., advising DAI that an investigation by the board revealed emissions of chaff that constitute a condition of air pollution.

tion. DAI was asked in the letter to advise the Air Control Board by Oct. 27 of its plans for air pollution control.

Bill Clark, elevators manager for DAI, told the News this week that the cooperative started a pollution control study of its own before the Air Control Board's recent investigation. He said the cooperative will answer the board's letter in a few days, outlining a long-range plan for solving the problem.

THE SOLUTION will be expensive, Clark said.

"We've had our elevators engineered for complete pollution control, and the cost estimate for doing it was almost \$400,000 at the time," he said. "But as soon as we can do it, we'll be putting in some kind of equipment to take care of the problem."

He added, "We recognize the (See CHAFF SPURS, Page 4)

Barbara Hardin ran up a total of 4,670 to come in High last Friday during the weegly CCCC Novice Bridge Club. Coming in a close second was Loretta Hucks with 4,630; Josie Bradford had a 2,660 for third; with Bobbie Dameron scoring a 2,540 for fourth.

MY WIFE says that Barbara Hardin, hostess for last week, wore a beautiful multi-colored long gown, which she swears contributed to her coming in high for the day—so now my wife has to have a new multi-colored long gown?

Hostess for Friday will be Ellen Hrabal. Play starts at 9:30 a.m. Fridays, with a 30-minute break for lunch, and closing down between 2 to 2:30 p.m.

WE HAVE 18 players signed up so far for night bridge, of which four want lessons. Dee Williams, chairman of the CCCC Novice Bridge Club, has volunteered to help the beginners. A separate table will be set up for them, and as they feel knowledgeable enough, transfer to the playing tables.

My wife plans to call the night bridge prospects to see what night will be convenient for the most of them. No one night will be possible for everyone—what with church on Wednesdays; Junior High basketball on Thursdays; football on Fridays; dieters and Duplicate

Bridge on Mondays, etc. so we will have to take the night where the most people can play.

After this information has been acquired, an organizational meeting will be held to decide such matters as date, time, refreshments, and type play.

THE HIGH Plains LGA End of the Year Golf Tournament was held in Friona last week with four Dimmitt linksters placing within prize range.

Local Grandmas took the spotlight here Wednesday of last week with eleven ladies competing in the 1972 9-hole Special Golf Tourney. Bobby Vilas shot a 42 for Low Gross in the Championship Flight; and Kathy Thomas coming in with a 36 for Low Net. First Flight winners were Joannis Robertson with a 48 Low Gross; and Dorothy Hopson a 36 in the Low Net Bracket.

Youths to become slaves Saturday

Youths of the First United Methodist Church will have a "Slave Day" Saturday hiring out for odd jobs throughout the area.

YOUNG SLAVES can be hired for any type of work all day by calling the church office, 647-5306.

"You pay what you think the kid's work is worth, and they donate their earnings to several church funds," said Larry Altman, youth coordinator.

Money earned will go into the Methodist Youth Service Fund for mission projects in the U.S., an orphan fund and the Methodist Youth Fellowship building and remodeling fund.

"IF YOU know of any jobs you will want the kids to do Saturday, it would help if you could call the church office during the week so we can start arranging the work schedule in advance," Altman said.

Two new men join bank

Two new executive trainees joined the First State Bank of Dimmitt Monday.

THEY ARE Charles Hodges, who will work in agriculture-related banking services, and Pete Garza, whose assignment is public relations.

Hodges, 31, is a native of Hale Center. He received a bachelor of science degree from Texas A&M this year. He taught in public schools at Hale Center, La Junta, Colo., and Bryan. Before joining the bank here, he was employed by Dimmitt Feed Yards 18 months.

Hodges' wife, Countess, is a native of Happy. They have a year-old daughter, Kathy, and live at 705 Oak St.

"I like Dimmitt very much," Hodges said. "I worked with Dimmitt Feed Yards here for a year and a half, so I'm already familiar with the town."

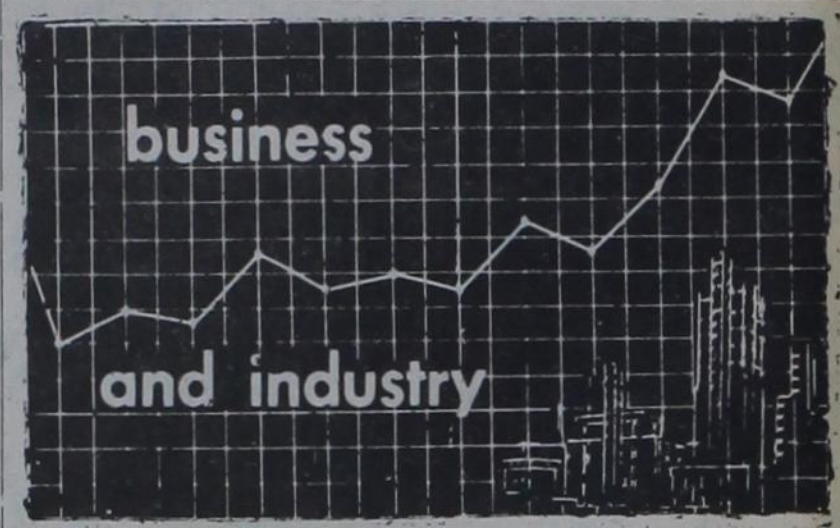

GARZA 23, is a native of Dimmitt. The son of Mr. and Mrs. Tony Garza, he graduated from DHS in 1968, then studied accounting at Texas Tech four years.

Garza served as a salesman for the Aluminum Company of America briefly, and before joining the local bank he worked with Sav-A-Food, Inc., pharmaceutical merchandising firm in Amarillo.

Garza's wife, Dominga, is a native of Shallowater. Married

on New Year's eve, 1970, they now live at 405-B NW Third St.

"I'm glad to be back in Dimmitt," Garza said.

Price reports:

Small businessmen may suffer with defeat of OSHA exemption

By BOB PRICE
Congressman, 19th District

Last week House liberals delivered an almost fatal blow to the small businessmen and their employees when they voted down an amendment to the Occupational Safety and Health Act which would exempt employers of 15 or less people from the stringent OSHA regulations.

THE financial burden placed on small businesses by OSHA will in effect cut employee chances for extra income and in some cases may cost employees their jobs. Some businessmen have indicated to me that the cost of meeting these requirements will cause them to cut back their number of employees to pay for meeting arbitrary health and safety standards.

I firmly believe that all people should have adequate, safe working conditions but this should be worked out between labor and management, and not by legislative decree. This is just one more function of private business that we are yielding to federal government interference.

In April, I introduced an amendment to the HEW-Labor Appropriations Act which would exempt employers of 25 people or less. The defeated amendment was a modified version of my bill.

WATCH DOG AWARD
For the third year in a row it has been my honor to receive the Watchdog of the Treasury Award from the National Associated Businessmen. This award is in recognition of my fiscally conservative voting record.

It has long been my contention that our policy of chronic deficit spending is largely responsible for the many problems of inflation, the balance of payments deficit, the dollar-confidence crisis and the like which have seriously eroded our nation's position as a world economic leader and placed great burden on our taxpayers.

It gave me a great deal of satisfaction this week to follow this fiscal policy and vote for the \$250 billion debt limitation. Passage of this measure is the first ray of hope I have seen in this free-spending, majority controlled Congress. I hope this attitude will continue.

In national magazine

Local vets are featured

Dr. David Bechtol of Dimmitt and Dr. Aaron Hutto of Hereford are featured in a special veterinarian issue of "Agri Dynamics" magazine.

DR. BECHTOL is a partner in Dimmitt Veterinary Clinic. Dr. Hutto, son of Mr. and Mrs. S. R. Hutto of Dimmitt, owns a fairly new veterinary practice in Hereford.

"Agri Dynamics" is a quarterly publication of Pfizer, Inc., printed for the agriculture industry, and is distributed nationally.

The front cover of the magazine features photos of Dr. Bechtol going about his daily routines—checking feed, performing an animal autopsy, discussing animal health with a local feedlot worker. The back cover shows Dr. Hutto discussing a pet poodle's health with its owner, a young Hereford girl.

IN AN article entitled "Communism," the magazine focuses on Dr. Bechtol's belief that thorough communication between feedyard personnel and the consulting veterinarian is vital to herd health and efficient management.

The article states: "Dr. Bechtol, a 1965 Texas A&M graduate, consults for eight Texas Panhandle feedyards—six of which feed more than 25,000 head—and several large swine operations in the area. He began his practice just when the cattle feeding industry in the High Plains began to boom and admits he was in the right place at the right time. He loves his work and thinks consulting programs will prevail in large-scale livestock operations in the future."

"DR. BECHTOL wants to be part of the management of every feedyard for which he consults. Although it isn't always the case, Dr. Bechtol believes he can be most productive when he is informed of management decisions and can suggest how a decision might affect herd health.

"Communicating with management is vital, he says, as is communicating with feedyard personnel such as pen riders, or crewmen who process new cattle and do routine vaccinations and other treatments. He sees himself basically as an advisor, coordinator and overseer.

COVER OF CURRENT 'AGRI DYNAMICS' ... Featuring Dr. David Bechtol, Dr. Aaron Hutto

He doesn't generally do the actual doctoring, but he sees that it gets done.

"Most of the yards for which Dr. Bechtol consults are in a 50-mile radius of Dimmitt, and for a reason. 'I feel to be effective as a consultant, I have to be in a position to service that yard when a problem develops,' he explains. 'This is one reason why accounts in distant areas are not workable in my practice.'

"HE TRIES to call on his client-feedyards at least twice per week. To improve further on the service he can provide, Dr. Bechtol obtained a pilot license and bought an airplane. 'If a yard loses one or two head from a pen and feels the problem might be spreading, I want to get there in a hurry,' he says. 'Many of the feedyards in the area have landing strips suitable for small planes...'

Also featured in the "Communism" story was Dr. James Allison of Independence, Kan.

DR. HUTTO was one of two vets featured in an article entitled "The Veterinarian as a Businessman," in which he and Dr. Joe Glenn of Minneapolis, Minn., explain their fee, billing and collection systems.

The article stated:

"Dr. Hutto lists three elements that are essential for a successful veterinary practice:

1. "You must have good people working for you. This obviously includes any veterinary partners, but it also includes that girl who ushers people in, collects the money and answers the telephone. When a patient leaves the office mad, the happy often depends on her."

2. "Good equipment is important. You can go overboard on equipment, but to offer quality service, you have to have good equipment you can depend on."

3. "You must educate the client. Educating the client as to why you do certain things, and having that client believe in you, are vital."

URBAN 4H programs are rapidly expanding. Chicago, Newark, Indianapolis, Los Angeles, Cleveland, Atlanta and Boston are just some of the metropolitan areas offering 4H programs for urban youths.

THE LESS work some employees perform the more pay they expect.

FARM BUREAU SERVES FARMERS AND PARTICIPATES IN CIVIC ENTERPRISES

The Farm Bureau entered the insurance business to give service to its members in 1946. The lines of insurance carried are those needed mainly in the agricultural field.

Jack Flynt joined the Castro County Farm Bureau in 1964 and in 1968 became the local manager. Nelda Tuttle has been secretary at the agency since 1964. Ray Davis, who primarily works in the Hart area and southern part of the county, joined the staff in June of this year.

Flynt is presently pursuing his certified life underwriters certificate which is comparable with other professional certification. The course involves 10 classes offered by the American College of Life Underwriters through West Texas State University. Flynt has also completed a number of company schools of insurance.

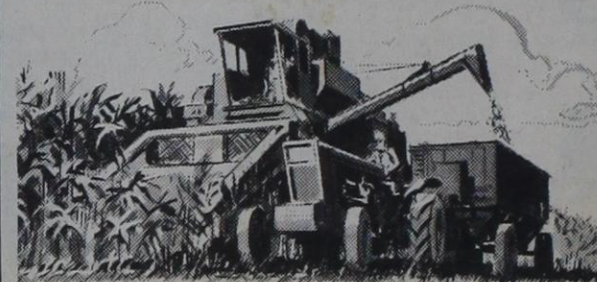

Davis has completed the company sponsored schooling and will pursue more training in the future.

The office is open from 9 a.m. to 5 p.m. Monday through Friday. Flynt said in case of emergencies they can always be reached at their residence telephones.

"The insurance business helps the Farm Bureau to pursue its programs," Flynt said. "Farm Bureau helps send high school representatives to the student citizenship seminar each year, helps the county fire departments attend firemen's training school, and helps the county youth programs."

Among the lines of insurance carried by Farm Bureau are life, auto, fire and farm liability—the principal day-to-day needs of farmers. In the health insurance field the Farm Bureau offers Blue Cross-Blue Shield insurance.

Couple establish home in Louisiana

New home products unveiled in Denver

This month is certainly going by in a hurry.

LAST WEEK I attended our National Association Extension Home Economists meeting in Denver. We had beautiful weather all week and had an exciting time. We heard many interesting speakers and had about 100 exhibits by manufacturers who are involved with home-making items.

One of the new items is a self-cleaning iron that is just like a regular deluxe steam iron except that it also is self-cleaning by simply pressing a button. It retails for about \$30.

Another company is introducing a "today iron" that is a steam iron, smaller than conventional, and excellent for sewing or ironing. It sells for about \$20. It would be excellent for travel, as it also is used as a steamer.

I HAD the opportunity to see the newest in electric ranges, the smooth surface drop in range top that has instant heat and when you turn it off it goes cold instantly. This range is still in the stage of being completely hand-wired, and costs \$1,500, which is already \$500 less than last spring when it was new. Hopefully, soon the price will be reasonable and it can be used in homes.

The newest trend in ranges is to the smooth surface. The biggest advantage is in the easy maintenance of such a unit. Also, I got some interesting booklets on ways to use plastic bleach bottles, trimmings, etc. You're welcome to come to the office and look at these any time.

THE FRIO Jolly Workers 4-H Club achievement program and supper will be Saturday night. I always enjoy these special events that our 4-H clubs have. Remember that our coat construction workshop will begin Tuesday. We'll meet at 1:30 p.m. in the assembly room of the courthouse.

Pink Ladies plan for Yule bazaar

The Plains Memorial Hospital Ladies' Auxiliary conducted their monthly business meeting with Margaret Wilson presiding, last Wednesday.

ELLEN Gregory gave a program on "Inspirations for Christmas Bazaar" in the coffee room of the hospital. Helen McLain presented some daisy blocks for one of the bazaar afghans.

Oletta Schumacher, first vice-president and co-chairman of the Hospital Gift Shop, said that our Dimmitt Auxiliary members freely give of their charity. "No job is too large, and no job is too small. A good volunteer is one who wants to give."

Courtney Armstrong gave orientation to six new members Oct. 6. It was announced that Boo Kemp had resigned as chairman of the Candy Strippers as she was attending West Texas in Canyon three days a week. A replacement is being sought.

JEANNIE Miller reported that she and Oletta Schumacher served 192 people at the LVN graduation reception. Mar-

Miss Kleman is a graduate of Nazareth High School. Pohlmeier is a graduate of Nazareth High School and has attended WTSU two years.

Fun Bluebirds tour News plant

The Fun Bluebirds met last Thursday and toured the plant at the Castro County News.

NINE Bluebirds and two leaders toured. Jill Brown served refreshments before the tour.

garet Wilson, Oletta Schumacher and Lucille Drerup reported on the Auxiliary's district meeting held in Pampa Sept. 22.

The Auxiliary holds their business meetings the second Wednesday of every month at the Plains Memorial Hospital, and anyone wishing to attend is welcome.

Mon Amis Club hears book review

The Mon Amis Study Club met last Thursday morning in the home of Mrs. Roy Botkin of Hereford. Mrs. Clint Formby reviewed the book, "The White Cliffs."

A SILVER letter opener was presented to Mrs. Formby by Mrs. Ernest Flood in appreciation. Refreshments were served to 12 members.

The next meeting will be Nov. 9 in the Flame Room in Hereford. Hostesses will be Mrs.

Jerry Lance and Mrs. Don Tindal. It will be a "Tasting Bee," with each club member bringing her favorite recipe and recipe cards to be sold.

Also on the program will be a white elephant sale, with each member to bring a gift to be auctioned.

John Steffens from Slaton is visiting the Ralph Steffens and other relatives for a few days.
Harvest has still been very slow, as the milo doesn't seem to be quite ready yet. Most of the corn has been harvested. The wheat is needing rain quite badly especially the dry land and where the rains were light this summer.
Mr. and Mrs. Pellen from Columbus, Neb. visited here a few days with the Frank Hoeltings. Mrs. Pellen's folks used to own land here. They were much surprised to see how much the country had changed. Thursday afternoon the Frank Hoeltings, Mr. and Mrs. Pellen and Agnes Brockman went through the corn plant in Dimmitt and visited Rosa Albracht in Hereford.

Mr. and Mrs. Warren Norris and family from Dallas are visiting the Frank Hoeltings for a few days.
The Senior Class said they will soon be selling Christmas cards, so let's help them out a bit and get our cards from them.

THE Florance Albrachts and A. P. Hoeltings returned home last week from Germany. You will probably hear about their trip next week.

Some of these are: "Needleweaving," "Container Gardening Indoors and Out," "Handmade Rugs From Practically Anything," "200 Ways to Streamline your Kitchen and Laundry," "Henry VIII and His Court," "American Popular Song," "The Show Business Nobody Knows," "The Sun Also Rises," "For Whom the Bell Tolls," and "A Farewell to Arms."
Congressman George Mahon sent the library a complimentary copy of the 1972 yearbook of Agriculture "Landscape for Living." The contents include: plants in the living environment, matching plants to the environment, selecting and protecting plants, understanding plant growth, plants in action, who can help, and planning for growth centers.

INTERESTING people in the library last week: Rev. Jim Pickens, pastor of the First United Methodist Church, was in the library visiting and he was telling us about the Mills-Mansfield Tax Policy Review Bill. We need to study more about this bill and write our Congressman... Tenny Bowden was in to give the library some more money. She gives us a percent of each book we sell for her. The title of Mrs. Bowden's book is "This Land We Hold" and we still have several copies that are for sale in the library... We have sold some of Father Stanley's books through the library. His latest book is "The Texas Panhandle, From Cattleman to Feedlots." Father Stanley is the priest at the Catholic church in Nazareth and he is an artist as well as a good author.
Beral Hance, who works in the County Agent's office, is so good to bring us "The Hereford Brand" and leave it for anyone to read here in the library... Donna Williams was in showing pictures of her recent trip to the Western States...

V.F.W. NEWS

By GERALD BROADSTREET
Greetings Comrades,

We are being blessed with some beautiful weather this time of the year. If I were a farmer and harvesting a bountiful crop like they are this year, I guess I would appreciate the weather that much more.

★ **OUR 1973 membership harvest** is coming along just as well as the other harvesting. Would you believe that out of a quota of 155 we have 121 members already? If you haven't paid your dues, please do it today. Let's all make a big effort to be a "Quota Post" by the first of November; together we can do it. Remember, I am keeping track of who collects who's dues and at the end of the year you will be awarded the appropriate cap device depending upon your recruiting ability.

★ **Comrades**, I received word the other day that our next District 13 convention will be Nov. 18 and 19 at Pct 4854, Littlefield. Please keep this in mind and make plans to attend; you'll be glad that you did. The post that has the most members present will win the traveling plaque, and I think it's about time we won it. Right?

★ **Last week I mentioned** that our house committee was planning a dance. Well, all the plans have been made and the dance is set for Saturday, Oct. 28.

★ **THIS WILL** be our Halloween Masquerade Dance, and a prize will be awarded to the best dressed "Spook."

★ **Our music makers** for this gala event will be the Western Swing Kings. This is the same group that played for our last dance, which everyone enjoyed so much. The party will start at 8:30 and end at 12:30. Admission price will be \$5 per couple. So y'all get dressed up in your Halloween suits and come on out and have a good time.

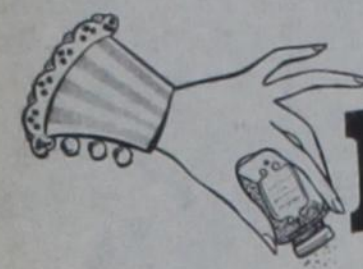

★ **LAST WEEK** Florene Leinen, president of the Ladies Auxiliary, told me that she and other members had collected a pickup camper load of clothing for the district service officer, C. L. Walker of Hereford. This clothing will be distributed to needy veteran families in the district.

★ **I do want to mention** that this makes four pickup camper loads of clothing that the Ladies Auxiliary has collected for Mr. Walker. You girls are doing a most commendable job and service for our veterans in need.

★ **I might add**, this clothing is distributed free and in no way, shape, fashion or form is it sold or used for barter.

★ **WE HAVE** initiated a new procedure at our Game Night activities. I think it adds to the excitement and it gives members of the audience a chance to participate a little more. I'm not going to tell you about it, I want you to come out and see it for yourself. We start at 8:30, but if you want a choice place to sit you'd better get there a little early.

★ **Post Custodian Howard Cook** reports that business has been very good and he reminds you that he's there to serve you from 4:30 to midnight on week days and until 1 o'clock on Saturdays.

'Mahon Day' set Tuesday

Tuesday will be "Congressman George Mahon Appreciation Day" in Castro County by official proclamation of County Judge Raymond Wilson.

COUNTY Farm Bureaus in the 19th Congressional District will honor the veteran legislator with a dinner at the Fair Park Coliseum in Lubbock. A bronze bust of Mahon will be unveiled at the dinner and presented to the congressman and his family. It is to be on permanent exhibit at the Texas Tech University Museum.

Although Farm Bureau is hosting the affair, all friends of Congressman Mahon are invited to participate, said Larry Hausmann, president of the Castro County Farm Bureau. Tickets at \$5 each can be purchased at the Castro County Farm Bureau office, he said.

In his proclamation, Judge Wilson noted that Mahon was first elected to the House of Representatives in 1934 and is outranked in length of service by only three of the 435 members of the House, and by no member of the Senate.

HE SAID Mahon "has served with distinction" as chairman of the House Committee on Appropriations, the largest and one of the most important committees in Congress, since 1964; is chairman of the Joint Senate-House Committee on Reduction of Federal Expenditures; and has served on the President's Commission on Budget Concepts.

Wilson also noted that the congressman is on the Board

of Regents of the Smithsonian Institution of Washington, D.C., has received honorary degrees from five colleges and universities, and was presented the Congressional Distinguished Service Award of the American Political Science Association and the George Washington Award of the American Good Government Society.

Mahon, he said, "has been an outspoken advocate of economy and pay-as-you-go policies throughout his House tenure, and has been interested in all legislation, but most active in defense and agricultural matters."

ANNUALLY, 10 to 15 4-H members are selected to participate in the Report to the Nation program. These young people report on the nationwide work of 4-H to the President of the United States, Congressional leaders and the general public.

TOUCHDOWN! — Hart's cheerleaders can't control their joy Friday night after the Longhorn's first touchdown in the Homecoming game. Halfback Erasmo Castillo teamed with quarterback Dirk Rambo

on a 69-yard pass-run play for the TD. There have been a lot of touchdowns scored by the undefeated Longhorns this year, but the enthusiastic cheerleaders still don't take them for granted.

More and more people are wising up to the low cost of electric heat

More SPS customers switched to electric heat last year because they found out, through a free estimate, they could operate an electric heating system for little more than they were spending already. Do you think they made a wise decision? Ask any of them. They're our most convincing salesmen. And, ask us for an operating cost estimate. It's free. It's accurate. It's a real eye-opener.
