Volume 19

Lockney, Floyd County, Texas, Friday, November 28, 1919

Number 10

## LOCKNEY BANKS REACH MILLION DEPOSITS

The two banks of Lockney have reached and passed the million mark in deposits. On their call of November 17, they showed a combined deposit of \$1,083,754.29. The First National Bank showed deposits of \$548,219.15, the State Bank \$535,535.14.

This is the biggest showing our banks has ever made, and is the result of the harvest of three leading crops, namely, wheat, maize and cotton. There is yet a great deal of these crops to be marketed, practically all the maize crop and above a third of the cotton crop. So when all these crops are marketed the bank deposits will be greatly increased.

The two banks of Floydada show a combined deposit, according to the Hesperian, of \$1,022,000. Lockney banks are ahead of the Floydada banks Hesperian, of \$1,022,000. Commenting upon the financial situation of the county the Hesperian says:

"The increase in deposits is due practically entirely at this time to the cotton and wheat crops, neither of which is all marketed, by any means. Cattle and hogs have contributed little in proportion to their former value in the county. Hogs have brought in little money because of the depletion of the herds in the county during the past two years, and cattle are at a standstill because of the prevailing low market prices.

"It may safely be stated that cotton and wheat crops of this territory alone will run above \$3,000,000 and that probably an almost equal amount of the money will be made by farmers in the north end of the county, who are in the Plainview and Lockney territory.

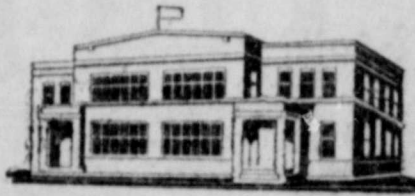

"People of Floyd county will finish the year with an unusually good year's credit on balance. Perhaps collections

## OUR THANKSGIVING SEASON

Yesterday was our annual Thanksgiving season, and accordingly, the day was observed in various ways in Lockney. The business houses enjoyed a half holiday, and bounteous dinners were served at the homes of our people. The day was a blustering one and very disagreeable, and as a result the union service at the school auditorium did not take place.

The Lockney people, along with the people of the entire American nation, have much to be thankful for during the past year. Many things have happened to make us happy. We have made bounteous crops in this section and the health of the people has been excellent. Thanksgiving should come from the heart gladly of every person in Floyd county. As a nation, we are in the midst of the reconstruction period following the great world war which ended a little more than a year ago, in which America participated, and notwithstanding the fact that this period is considered perilous, no great disaster has yet befallen our people. We have industrial unrest broadcast over the land and country, with the strikes of certain class of labor now going on. While this industrial disturbance is disturbing the peace of the country, yet we are hopeful that right will prevail and that industrial justice will soon be established. The Beacon editor feels indeed grateful for so many blessings he has received along with other people, and on this occasion we thank the Giver of all perfect gifts. Let your hearts be thankful for the many blessings during the past year.

we never better, bankers and merchants agree, and the banks are showing large surpluses of unloaned money above the legal requirements."

Editor-in-Chief—Roy Pennington.  
Sport Editor—Emery Burns.  
Assistant Sport Writer—Fay Guthrie  
Society Writer—Gem Downs  
Assistants—John Visor, Lucile Griffith, Thelma Thomas.

## High School Corner

Staff Poet—Thelma Dial  
Hack Writer—Conn Thomas  
Feature Writer—Mable Reeves  
Class Reporters—Jewel Shelton  
Miss Evans—Thelma Thomas.

The students held a "pep" rally Tuesday morning. President Burns of the Senior class took charge of the meeting. The rural schools were to be notified. The services of the best auctioneer in town were secured. Reports from each of the classes were made and all the students were "for" the box supper.

New song books for almost every one in school have been ordered.

School was held last Saturday, so that three holidays might be given this week.

### SCHOOL ACTIVITIES

"Where were you Friday night, at the Junior party at the meeting of the annual staff?"

Do you mean to say that neither of these affairs actually occurred? Why not?

Patrons of our school, we invite you to attend chapel or visit our school at any time. We are just getting started to work after two weeks, "vacation". New pupils are entering every week and no student can remember ever having seen so many "stags" stand around the school house.

The Seniors are awake at last. They have talked the faculty into letting them "pull" a stunt, which feat will occur in December. Watch these columns for exact date. The Seniors are

to be complimented as there are some members of the faculty who seem to think we should do nothing but sit all day with our heads in our backs, and who, in turn, use theirs for only a hat rack. Substitute teachers at times are valuable assets to any school, and such was the fact in our case.

Miss Evans—"Yes, a fool can ask questions which a wise man cannot answer."

Emery—"Ist that the reason so many of us failed in Physics?"

### Speaking of Athletics

Since football has been discontinued at an early date, one might think that Lockney's athletics have met their Waterloo, but this is no so. Our boys and girls are preparing to meet the basketball season with lots of pep. While waiting for our basketballs to come we have been busy organizing and throwing at the goals with an old relic of better days. Both boys and girls are showing lots of pep and there has been much talk of individual class teams. Well, why not? Even the Senior boys are five strong and when they do get started, "Wee unto you."

We predict winning teams and there is no reason why this should not be the case.

### THE COUNTY AGENT

Much has been said and written the last few years about the new woman, but you seldom ever hear anything about the new man.

But the truth is, it is a man's new day the same as a woman's. The past few years has created as many, if not more new places and positions for men as women. In fact, it was the progress of the world on earth and in the air and sea, revealing millions of new places for men, that caused women throughout the world to rise and fill the old deserted positions of men. Women never took men's places. Men just naturally grew up and out of their old shells, and women crept in to keep the old part of the world going. There is no crime in natural growth and development nor is it limited by sex. The world needs every useful man and woman. There is more work to be done today than ever before in the history of the world. And unless more people, including more men, women and children, can be retained for service, millions of human beings will be forced to go cold and hungry and homeless.

But our grand old government has been seeing this for several years, and about eight years ago our Uncle Sam created a new man, and named him the County Agent. Funny name! Don't seem to have any meaning at first, but the more you study his mission the greater the meaning of his name becomes. First, he represents the business firm of U. S. A. & Co., and his special function is to go about from one state and national institution to another and gather up the very latest and best models in agriculture, stock raising, horticulture, marketing and everything new or old that is of use on the farm and peddle it out free to the farmer and his family.

But there is one branch of his work that is of more importance than any other in our estimation and that is his work for and with the boys and girls' clubs. The first reason for this conviction is, we believe the boys' and girls' clubs on the farm will interest them in such a pleasant and profitable way that it will hold them on the farm. Most boys and girls leave the farm for the sake of a cash job. If a way is provided for them to grow some cash so that their natural inclination to become business men and women, good financiers and influential human beings on their father's farm, they will want to stay there. And the next great benefit to the nation is, boys and girls learn to love high grade stuff, and how to produce it, no matter whether it be a baby, beef or a can of beans, they learn how to prepare it for the best market and

discover that it costs less to produce the best than the poorest, no matter what it may be.

When every county in the United States has at least one man in it whose business is the development of better farming and better farms, better stock and better stock raisers, by developing the latent faculties of all the boys in that county, there will be more home owners in our nation. And when every county supports a home demonstration agent to teach all the girls how to produce more and better food and how to save and store away for winter use every dollar's worth of food on the farm, land will take on a new value and the wealth of the nation will be increased.

When the rural girls are given a chance to make their spending money, their Christmas money and their college money, there will be more contentment in their hearts. It is blighted hopes and dwarfed ambitions; stunted growth and suppressed energies that make the world unhappy, restless and hard to manage.

Give every boy and girl a chance to live their real life and we will have a different generation of men and women in a few years. Give the god in them a chance to grow and there will be no time and less desire to exercise and develop the wrong in them. The United States Government never did a better thing for the nation's boys and girls than to provide these county directors to develop the business sense of our children.

Has your county a county agricultural demonstrator and a home demonstrator to help the boys and girls to grow into useful men and women? If not, you are sleeping on your opportunities and cheating your children out of their natural rights while you pay tax to provide these helpers for other counties.—Phebe Warner, in Star-Telegram.

### AGRICULTURE AT CANYON NORMAL

The Board of Normal School regents last summer designated the West Texas State Normal College for teachers training in agriculture under the Smith-Hughes act of Congress. Immediately thereupon the Department of Agriculture prepared a course of study for submission to the Federal Vocational Board for approval. Word has been received by local authorities that the course has been approved by Federal Board and the College has been instructed to introduce this work at the beginning of the winter term.

This means that the West Texas State Normal College and the Sam Houston Normal Institute at Huntsville the Federal aid allotted to Tex-

### NATION-WIDE FREIGHT EMBARGO IS PROBABLE

Chicago, Nov. 18.—Director General of the Railroads Walker D. Hines and seven regional directors will meet here today to consider the necessity of declaring a nation-wide freight embargo to conserve the nation's meager supply of coal.

If Hines approves the recommendations of the regional directors an order may be issued immediately closing all non-essential industries and cutting passenger train service throughout the country forty per cent.

Fifteen million workmen would be thrown out of employment if the order is issued and goes into effect.

Youngstown, Ohio, Nov. 18.—The steel mills of Mahoning Valley will have to close within ten days under a general freight embargo, officials said.

The local fuel director said the district has less than ten days' supply of fuel, including the domestic supply.

Mesdames Charles Wilson and T. Z. Reed were Plainview visitors Tuesday.

Miss Thelma Gallegly visited at Plainview Tuesday.

Intermediate League Program Program for November 30, 1919. Topic—Christianity and Health in America.

Leader—Jewel Hammons.

Scripture, Ezek. 47:1-12.

Song: The Great Physician.

Lesson Talks.

No. 1—Bert Wells.

No. 2—Lloyd Catlin.

No. 3—Ruby Catlin.

For discussion:

What preventable diseases have wrought most havoc in our town the past year.

How much was due to the carelessness of the individual?

How much was due to the carelessness of the community?

What public health program is in operation in our town?

What can we do to help?

Vocal Duet—Elva Johnson, Velma Still.

Piano Solo—Nova White.

as. The amount which the Normal will receive this year is small, but will be distinctly advantageous to the Department of Agriculture.

The college has also been approved by the Federal Board and the College has been in Vocational High School Agriculture and will receive Federal aid for this work, too. In this connection it is intended that this school shall become the center for vocational high schools for this section of the state. It is understood that the work here will run largely in the direction of stock farming, as this section is rapidly becoming noted for the stock farming industry. The adding of this new course will require an early increase of teachers and equipment for the agriculture department of the college.—Canyon News.

### VERY IMPORTANT NOTICE TO OUR SUBSCRIBERS

There are quite a number of subscribers, both locally and those scattered over this and other counties, whose subscriptions to the Beacon are now due and past due. This is to ask you to come in and renew for your paper, or send by mail. We will drop all from the list on December 15th, who are behind with their subscription.

Another matter both important to you and ourselves is the fact that in all probability, we will be compelled to raise the price of subscription after January 1st. This seems to be very necessary on account of the constant advance in the price of paper, and scarcity of same. Manufacturers and press associations are advising raising the rates and limiting the size of the publication. Next year is going to be the hardest year the newspapers have had to face, and it is a question whether newspapers will be able to get blank paper on which to print their publications. Hence the importance in way of conservation of print paper of discontinuing all those behind with their subscriptions, and the limiting of the number of pages of the paper. In order to meet the increasing cost of production, advertising rates will have to go up, or else publishers sustain a great financial and ruinous loss. If we are compelled to limit our pages and curtail the amount of space we carry in order to conserve the print paper supply, we will therefore have to increase rates to make up the deficiency.

Finally, the Beacon urges each subscriber to come forward promptly and pay his paper in advance, and all back arrears, and help us to overcome the problems that we are facing. We assure subscribers and advertisers that this change in rates will only be made as a last resort and to protect us against financial disaster. We have no disposition to profiteer, and want to furnish you the service as cheaply as possible. Will you not help us to overcome our difficulties?

### SHIPPING CARLOAD DRESSED TURKEYS TO SAN FRANCISCO

The Panhandle Produce Company is shipping a solid carload of dressed turkeys to San Francisco, for the Thanksgiving trade. A refrigerator express car will carry the shipment which will be made up of fifteen hundred turkeys.

The firm has a force of people preparing the turkeys. They are killed by having their throats slit in order to bleed them, then the feathers are picked off—and the turkey is then shipped in an ice car—without removing the entrals, head or feet.

The poultry firms of the town will likely ship from one to two cars of turkeys each week for several weeks. Most of the turkeys are of this year's growth.

The rice paid the grower is 25c a pound.

Dr. Cypert was here this week from East Texas on a visit to his family.

## "GLAD SNODGRASS"

### DID YOU EVER BUY A TOM MOORE CIGAR FOR FIVE CENTS?

Can't be done. The same with clothes. You can't buy a \$50 suit for \$25.

\$35 and up for an all-wool suit Made-to-Measure this season is big enough event to convince any man what it means. ONCE YOU do it you will never wear any thing but clothes made to YOUR measure. IT'S THE ONLY WAY. I've delivered hundreds this season in fifteen days, and I am going to continue until January 1. The price will remain the same until this date, then I can't say. But would suggest that you fellows that want summer suits, better get 'em now.

We are offering some keen numbers in Silk Shirts, Wool Shirts, Mackinaws, Overcoats and Bostonian Shoes this week and would suggest you look them over—you may buy. Last week our business was beyond all expectations. There's a reason. Thanks. I've had a few suits made up, may fit you.

One Price—Cash

## What Kind of a Loan Do You Want?

Your answer to that question will be that you want a loan that will be a benefit and not a burden to you; a loan that will carry low rate of interest and that you can pay off practically any time you want to.

We are in a position to close your loan now and give you your choice of loans, carrying up to \$25 per acre and maturing from two to ten years, where you pay only a moderate interest and you are responsible only for the payment of your own loan. There are many other features we will be pleased to tell you of and we cordially invite you to come in and talk the matter over with us.

Display advertising rates on application. Classified advertising 10 cents per line. All advertising matter will be run until ordered out, unless otherwise arranged. All advertising charged by the week. All bills payable monthly.

It now develops the meanest man on earth is an Oklahoma. Republican crossed with an Indian.

If there were no other reason, the editor of this great moral guide of the Plains, if we were left a widower would never remarry, for heaven could hardly be really heaven or safe for a man with two women claiming him.—Plainview News.

It is quite evident that Jess Adams has never attended a Sunday School in his life. If he had he would have known that in heaven we are told there will be no marrying. There is not much danger of Jess ever marrying the second time. It is hardly likely that a man would fool two good women in a life time.

We understand that when Editor Smith of the Lockney Beacon read in the newspapers that a Kentucky distiller proposes to give a five-gallon jug of liquor to every family in the country, he at once wrote out and sent in applications for a jug for each Ben Smith, B. F. Smith, Benj. F. Smith, B. Smith and F. Smith.—Plainview News.

It is quite evident that Jess believes we intend to get drunk. If our application goes through, we will invite him down. Hic, hurrah.

A Chicago dispatch says that a nationwide freight embargo is inevitable. This is being considered by Walked D. Hines, railroad director, in order to preserve the nation's meager supply of coal. All industries of a nonessential nature would be shut down and passenger train service reduced 40 per cent. This order would throw fifteen million men out of employment. If this comes to pass there is destined to be trouble all along the line. With fifteen million idle men, with four times that many depending upon them for bread, there would result a situation in this country that would be disressing to contemplate. Thus has 500,000 miners taken in charge the destinies of 120,000,000 people.

Te News believes in kidding the country of every I. W. W., Bolshevik and anarchist. It is willing to pay taxes to provide ships for deporting those who are aliens; to build prisons and asylums for those who are natives,

to erect gallows for the execution of those who commit murder. But the News is opposed to mobs lynching I. W. W.s or anybody else.—Plainview News.

We need some stringent laws that will reach down and take charge of these I. W. W.s in earnest, and in going after them take charge of not only foreigners, but all American-born who do not care a tinker's damn about our government. The Beacon is also opposed to mob violence, and we want to see our laws upheld and justice accorded to all men equally. But at the same time we want it understood that we are bitterly opposed such damnable doctrines as taught and practiced by anarchists in this country, whether he be foreign or American-born, and if it takes mob law to put it down, then come on with it. However, we do not believe this is necessary if proper laws are enacted and men will enforce them as becomes true Americans.

Ex-Lieutenant General Ben Looney of Hunt county announces for governor in 1920. Mr. Looney has been prominent in state affairs for a number of years, and has a strong following. With Mr. Looney's announcement, we have three avowed candidates for governor next year, namely, Pat M. Neff, of Waco; Speaker Thomason, of El Paso. Governor Hobby has not announced his intentions relative to the governor's race.

The peace treaty in the Senate failed, and Congress adjourned, leaving us in a state of war. The republicans amended the treaty so that it was not acceptable to the democrats and some of the republicans, and on the advice of the president it was killed. We say killed, it was side-tracked and left pending, and will come up before Congress when it meets next month. The republicans played a cheap game of politics all the way through in the matter and they will have to face their failure to ratify this treaty when they enter politics in 1920. There will be a strict accounting demanded of them in these matters, as the yank and file of the American people wanted ratification, and are not in sympathy with the Republican's political tactics.

**PAY US**

We have a large list of subscribers whose subscriptions are now due and past due. We need the money very badly. It is likely to prove to your interest to come in at once and put your figures ahead, for we are likely to be forced to raise the price of subscription before January 1st. We have that matter under advisement now. With the increase of cost of production, it looks like we will have to put the price up or go out of business. Our subscribers can greatly relieve the strain by coming forward and paying arrears and in advance. Think this matter over and come in and see us at once.

There is now strained relations between this government and Mexico over the arrest and jailing of Consular Agent Jenkins of Puebla. The State Department has demanded his unconditional surrender. The Mexican government at this writing has not replied

to the American note. Of course Jenkins will be turned loose when Carranza thinks he has gone as far as he can in the matter. The Mexican government acts like a disobedient child. A child will disobey his parents, but stops short of the whipping post. So it is with Carranza. He goes so far with this country and then backs up.

Ex-Congressman J. Adam Bede says that Minnesota will go Bolshevik in 1920. He says: The strangest situation that could ever be imagined in the face of a presidential election is being staged in Minnesota, the two Dakotas and in the Northwest States generally," Mr. Bede said. "Take my warning now and let yourselves get next to the idea that the next presidency may be determined by the Non-partisan league, that will bear no relation in practice or theory either with the Republican or Democratic parties. As has been said, it is a condition and not a theory that confronts the nation, and the only noninterested party apparently, is the nation itself."

If we were called upon to name the cause of all the world's industrial unrest today we would lay it at the door of such doctrines taught by the Appeal to Reason. It has poisoned the minds of people in this country, and driven many into the ranks of anarchists. A man who reads along one line and is told over and over again that the reason of his ill luck or his lack of gain in this world is discriminating of the wealthy class, he invariably turns anarchist, either in action or sympathy.—Colorado Record.

There has been a strong sentiment in this country for years for proper immigration laws, but those who wanted cheap labor stood in the way of legislative reform in this regard. Today we are reaping the harvest we have sown for a number of years in this country. This harvest is a full crop of foreign anarchists.

An article in last week's paper stated that the kaiser would be tried. This was written by our Washington correspondent. He may know what he is talking about, but we doubt it. The world has forgotten that there is a kaiser, or rather, ex-kaiser. The world is threatened with industrial revolution and has its hands full. Europe is seething with sedition. America is over-run with anarchists. The fate of the kaiser is nothing in view of these conditions. Make the world safe by first hanging these outlaws. The kaiser's case can wait.—Canyon News.

A great deal of enthusiasm is being raised over the words of acting president Lewis of the miners when he said, "We are Americans and cannot fight our government."—Canyon News.

John Lewis had done his work thoroughly before those words were spoken. He had sown the seeds of discension broadcast among the miners and they have brought forth a full crop of anarchy. He called them out on this strike, and now he can't get them to return to their occupation of mining coal. At the bottom of this whole damnable mess in this country is the doctrine taught and advocated by such men as John Lewis, the doctrine that the laboring man has and always been entitled to all consideration. The whole world is now tottering and seething with sedition. Industrial unrest is everywhere, and there is no place that it is more conspicuous than here in America. John Lewis has started something that he cannot stop. He has started the ball rolling and it is gathering momentum as it goes. The miners are still out regardless of the decree of their bosses calling them back. They are inoculated with anarchy and no reasonable adjustment of the difference between them and their employers will be satisfactory to them.

There is a great deal of dissatisfaction now in the Panhandle relative to our new time. No one is satisfied with the time we have. The day is unequally divided, and it is hard to regulate one's affairs to conform with same. The entire Panhandle country should unite in its efforts to induce the government to give us back our old time. This can be done by taking us out of Mountain Time and giving us our original time. What business had them Washington guys to monkey with our time, anyway? We hope Congressman Marvin Jones will take this matter up and see what can be done.

Charles E. Hughes, addressing the Christian Citizenship Conference, says that the time has come for establishing of permanent justice in the industrial world, and the setting in order of suitable machinery to carry out a program between the working and employing classes of industrial justice. Mr. Hughes advocates profit-sharing as a means to the end. He says: "We have made progress

# Camel

## Cigarettes

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. *No matter how liberally you smoke Camels they will not tire your taste!*

**R. J. REYNOLDS TOBACCO CO.**  
Winston-Salem, N. C.

in providing the machinery for industrial justice and in this respect we are still uncivilized. We are still at the stage corresponding to that of trial of battle and trial by ordeal in the early laws of procedure. But we cannot go on indefinitely in this way. What is absolutely necessary, as I have pointed out in the case of basic industries upon which the community's life depends, is clearly advisable through the field of industrial activity—although when the vital interests of the community are not involved, the plan should not go farther than to facilitate and enforce agreements."

A mysterious killing took place near Menard recently in which James Callan, ex-president of Texas Cattle Raisers Association, figured as the man with the gun and the party killed was a stranger, passing through his pasture with a bunch of horses. Callan was returning home after dusk, and came upon the man setting upon a horse. He immediately ordered his car stopped, and getting out he potted his man in a few minutes. The man killed was V. R. Billings of Nopal, Gonzales county, who was taking some horses to Santa Anna, Texas. Callan's examining trial took place at San Angelo last week, and bail granted. We read the testimony of Callan's son and it lead us to the opinion that the killing was uncalled for, and was an act of a quarrelsome, overbearing, sensitive person. Callan represents the old type of cattlemen in Texas. Someone had left his gates open, and he disliked it. He met a stranger, and got into a fuss and killed him. Too much temper, too much pistol "toting", etc. What will be the outcome of the trial? Acquittal on some cock and bull story.

**EUGENE DEBS**

There is an organization in the country, composed chiefly of socialists, who are seeking the liberation from prison of Eugene V. Debs, convicted of the violation of the espionage law and given ten years in the federal pen. The branch of this organization is in North Texas, and has at its head T. B. Williams, president of the North Texas Manufacturers Association. The I. W. W. is also active in Debs behalf, and whether the two are working in a pre-arranged understanding is not learned, but it is our opinion that the Texas movement is an anarchy movement directed by the I. W. W.s. Recently the editor of this paper got a bunch of literature, mailed locally in Debs' behalf. This anarchy stuff came from I. W. W. headquarters in Chicago. The Texas friends of Debs wrote Ex-president Taft in behalf of this ex-socialist leader. Mr. Taft answered as follows: "I have your letter in respect to Eugene V. Debs. I don't sympathize with you in your views of Mr. Debs. His is a most pernicious influence in the community. He did advise treason in seeking to paralyze the arm of the government when it was needed to defend this country in

hour of peril and not for the purpose of vengeance but for the purpose of deterring other dangerous fools like him a proper punishment had to be inflicted. I have no doubt that whenever the object of the punishment is obtained the executive will discharge his duty and exercise such clemency as may be proper."

As far as the editor of this paper is concerned, we have no personal grievance against Debs and would not be a party to undue persecution of any man, but in the Debs matter there is a national issue at stake of vast

importance. Just look for a moment at the kind of influence that is back of the pro-Debs movement in this country. It may be that Debs has served long enough and that the ends of the law has been fully met. If such is the case or when that time arrives, we are sure that executive clemency will be extended. The same influence undertook to override our courts in behalf of Mooney of California, the bomb-thrower. If Debs is to be freed let it be done in fulfillment of the ends of justice, and not to satisfy the anarchist class in this country.

**ORGANS**

We have four nice organs that must be traded by the 5th of November. So bring in some fillies and trade with us. Remember that your price is our price, as they must be traded.

**J. W. Boyle & Son**

Ford

**THE UNIVERSAL CAR**

Weak Links in a Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough, but the metal isn't there—the strong, durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat treated, each according to its use.

Ford metallurgists have been studying that problem for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by the use of special formulas for different parts.

We carry complete assortments of genuine Ford parts; and give careful, prompt Ford service. Drive in, it's better to be safe than sorry. Come to the authorized Ford dealers for service.

LOCKNEY AUTO COMPANY

E. BAKER, Clerk

**Kind of Old Style . . .**

But it lasted a long while because it was built of the best lumber obtainable in its time.

Why not build your erections with the same A—No. 1 Lumber?

It does not pay to put up crumbly frame works. Come and look through our display yards where there are piles of the finest woods in the country.

Build your home sure. Build it with our materials.

### HISTORY OF MY CLUB WORK

(Alice Smith, Sand Hill School.)  
This is my first year as a member of the club. I am very interested in the work being done.

To begin my work in the Poultry Club it was necessary to start a flock of full-blood chickens. By information gained from reading on agriculture and the booklet which the county agent gave me I found that I desired Barred Plymouth Rocks for my breed.

I bought three settings of eggs at \$1.00 per setting of fifteen eggs. This cost me \$3. That was on May 10th. The next morning I set three hens, 15 eggs under each. Then came the three weeks of waiting. The last week I had my dady build me some coops out of left-over boards. When the chickens hatched I had a nice clean place for them where they would get plenty of sunshine and fresh air.

Out of the forty-five eggs hatched thirty-three chickens, all lively and perfectly shaped, except one which died two days after it was hatched. This left me only thirty-two chickens. These I kept in coops with hens for four days.

The second day after they all hatch-

We folded it in a six inch square and put embroidery stitches on the edges. We sewed with the sewing machine, diagonally from corner to corner.

The next meeting we started a sewing bag. This was made from a half yard of cloth. I made mine out of a remnant, dark blue in color, and made two rows of chain stitch out of white thread, one half inch apart, through which I ran a cord of dark blue to match the color of the bag. Our next meeting was rained out. We were sorry because we knew it would have been nice to have been together. But we made the required things at home from written instructions. An apron was one thing I made.

In these meetings I did my best and I want to follow the motto, to "Make the best better."

We can supply you with dry cell batteries.—Lockney Garage.

## City Meat Market

Handles Fresh meats of all kinds, also dry meats. We have fresh oysters. Come to us for your meats.

## City Meat Market

## Who's Your Lumberman?

The J. C. WOODBRIDGE LUMBER COMPANY solicits your lumber business. Best of service, a complete stock carried. Let us figure your house bill, or your repair job. We are sure we can please you.

## J. C. Wooldridge Lumber Company

I fed them some corn meal and clabber milk, stirred together in the form of dough. I found that mixing black pepper in their food the first few days would help to strengthen. I gave them good clean water in a tin pan to drink. After the second day I fed them cooked corn bread, boiled eggs and milk. When they were 4 days old I turned the old hen out of the coop.

When they were about a week old I began to feed them meat scraps and other scraps from the table. I fed them maize grain that had been beaten from the maize head and some wheat seed that had not been used. As they were running loose I did not have to feed the grit and green stuff. When they were about two months old, black and white feathers began to come on their wings. I noticed that three chickens were not like the others—one gray one and two black ones with no white on them. I knew that they were not full blood but I left them with the others until they could grow big.

I lost seven chickens by disease and accident, five by the disease which was diarrhea. To cure this I mixed sour milk and soda and fed this to the chickens. I did not have any further trouble with this disease. The mites began to trouble them next and I rubbed salty meat grease on their heads and under their wings. This did not kill the mites in the coops so I cleaned them out and moved them to another place. Then I put kerosene on all the cracks and this killed most of the mites.

My chickens then were four months old. Fighting seemed to be their main exercise. They could ruffle up their neck feathers and fight real hard. They are now five months old and I intend to enter one pullet and one cockerel for the fair which will be October 2, 3, and 4.

Now I want to tell you about our club meetings and the work we did while there. Counting both clubs, we had seventeen girls enrolled but only ten came to our first meeting. The boys' club met at the same place and we played a game of scrub before beginning our work, which, with the girls, was making a cup towel out of a flower sack. I made a good many mistakes as this was my first trial in this kind of sewing. We spent a very interesting day. We all brought a lunch which was spread for everyone to eat at lunch time.

The next time we met was in the evening. We made a hot vessel holder. This was also made out of a flour sack measuring 2x18 inches.

## PUBLIC SALE

The following described property will be sold at the place where I live 1-4 mile west of the Pleasant Valley school house, 5 miles south of Lockney, on the old Burgan place, on—

## Thursday, December 4th

Consisting of 30 head of horses and mules, 9 head of cattle, from 10 to 25 head of hogs, farm implements, household goods & chickens.

# SHOE PRICES

A world of rumors and a world of tales, some true, most of them false, are being circulated about shoes and the shoe industry today.

Here are a few facts, not rumors, regarding shoes and shoe costs which you as a consumer, ought to know.

## THE MOST GRAPHIC EXAMPLE OF RISING PRICES

A chart of shoe costs, started by the "Boot and Shoe Recorder" in 1905 and continued to date—always based on same quality of materials, same class of workmanship and including the same items of expense.

### COST OF MANUFACTURING A PAIR OF MEN'S SHOES

	1905	1908	1912	1916	1918	1918	Aug. 1919
Upper stock	.59	.60	.735	.92	.121	.178	.4057
Sole	.28	.29	.295	.374	.593	.74	.95
Inner Sole	.12	.12	.11	.14	.185	.22	.27
Heel	.09	.09	.1075	.123	.162	.17	.18
Top lift	.04	.05	.0425	.06	.08	.12	.132
Welt	.05	.055	.06	.07	.082	.10	.118
Royalty	.052	.055	.055	.055	.055	.055	.055
Counter	.057	.067	.0625	.075	.078	.132	.129
Lining	.044	.053	.0529	.06	.079	.104	.112
Trimming	.062	.076	.077	.09	.102	.132	.10
Labor	.602	.602	.6144	.65	.71	.82	1.02
Findings	.173	.183	.2158	.26	.30	.3E	.361
Manufacturing Ex.	.201	.2168	.2226	.232	.27	.32	.529
	2.284	2.4677	2.6502	3.109	3.915	5.073	8.026

Similar rising costs prevailed in women's shoes in comparatively the same ratio. The significant figure is in the royalty—the one constant price in all these years, demonstrating the capacity for service of a master organization, and that equality is universal in the use of the machinery, for factories, large and small, pay the same rate on the same kinds of machines used.

This table absolutely accurate, shows the true conditions. Read it. Then read it over again.

This table shows that during the past fourteen years shoes and shoe making costs have steadily increased, the last few years by leaps and bounds.

This table does not show also greatly increased wholesaling transportation and retailing expenses in getting these shoes to you as a consumer.

### WHAT CAN BE DONE ABOUT IT?

FIRST—For many years past due to advanced purchasers "BAKERS" have been able to sell a considerable portion of their shoes under existing market prices.

SECOND—During the past two years and today more than ever we are in the strongest possible position in this respect. Practically every shoe in the Baker's Store is being sold at least 10 to 20 per cent under today's market; under replacement values. This is only possible because of heavy extra purchases we made last spring anticipating present conditions, and a very large proportion of the advances, all that is possible and still enable us to buy more shoes and stay in business, is being saved for and by you as our customers. This policy will be continued by us as long as possible.

THIRD—We now have as a special contribution to present high living costs a line of standard, substantial built for service not for style shoes, at an even greater saving than our other lines.

You should come to us and see our shoes before buying—our price and quality will save you money.

# These Cool November Days

Remind us of the real cold weather that is not far off, and that possibly you may need some more suitable apparel for both indoors and out. In completing your preparation for fall and winter do not fail to visit our store, we believe you will find quality and value here that are unequalled elsewhere.

## Warm Blankets

in wool, and pure cotton "wool-nap"—solids and plaids. These blankets are well made, uniform in thickness and quality. Selections should be made promptly as possible, as quantities are limited. Very lowest prices.

## Luxurious Bathrobes in Many Designs

This store is well provided with bathrobes of excellent quality materials, in attractive designs. Very special values because of early buying.

We also have beautiful patterns in the bathrobe material for making.

## Monarch Underwear

give you the most for your money anyway you figure it—Best quality, perfect fit, all weights. The prices are low—the range of styles and fabrics complete.

## MILLINERY SPECIAL

For Saturday we are going to greatly reduce prices on our Ladies' Hats. If you have not bought yours, you should come in sure. These prices will save you money.

## Stunning Styles in Suits and Coats

Every garment of high quality. In these days of necessarily high prices, every woman should be doubly sure of "Quality." Look well to the quality of a coat or suit you buy.

Our prices are reasonable as they can be considering the higher cost of materials and yet give you that good quality from which you will receive satisfactory results.

"The Store of Service and Satisfaction"

## PERSONAL AND LOCAL

Stanley Mudgett returned Sunday from Oklahoma, where he has been on a visit to relatives.

Mr. Carlson Fish, of Lubbock, was here this week on business.

Mrs. Lindsey Busy of Plainview, is here visiting her parents, Mr. and Mrs. S. C. Wise.

Mrs. Chas. Wilson of the Curlew community spent several days here this week, the guest of her sister, Mrs. T. Z. Reed.

Rev. and Mrs. Watts, of Kress, visited here the first of the week with their son, Rev. H. Bascomb Watts, pastor of the Methodist church.

T. Z. Reed and wife visited with their daughter, Mrs. Lawson, of the Lone Star community last Sunday.

John C. Broyles, cashier of the First National Bank, went to Kansas City this week on business.

Rayburn Thompson went to Kansas City this week on business.

W. W. Angel, cashier of the Farmers State Bank of Quataque, was in the city last Sunday.

Miss Lee Baker of Canyon spent Sunday and Monday here visiting relatives.

Jim Tuckey returned this week from a visit at Dicey, Texas.

B. F. Rigdon and Z. T. Riley were Plainview visitors Tuesday.

Mrs. R. C. Bennett and daughter, Miss Fay, were Plainview visitors Tuesday.

Miss Winnie McLain of Mickey has accepted a position with Baker Bros. as saleslady.

Mrs. J. H. Byington underwent another operation last Tuesday at Plainview Sanitarium. At last reports she was doing nicely.

Mr. H. L. Reed, of Texoma was here visiting his sister, Mrs. J. H. Gruver.

J. H. Gruver, Sid Brown and Estell Davis visited here this week with home folks. Mr. Gruver has been on the North Plains for some time looking after his farm interests.

Mrs. Franklin of Oklahoma came in Sunday and will spend the winter with her daughter, Mrs. Wylie Mudgett.

Mrs. Maiben of the Leick community was shopping in the city Tuesday.

Mrs. J. H. Robertson left Tuesday for Glen Rose, Texas, to visit relatives.

Mrs. Ed Reeves has accepted a position with Baker Bros. as saleslady.

Mr. and Mrs. Will Duke of Amarillo came down Sunday evening and spent part of Monday here on business and visiting with friends. They are well pleased with Amarillo and their drug business.

## MOTHERS CLUB

A fine social meeting of the club was held at Mrs. B. F. Smith's home last Friday afternoon. The program was music by Mrs. Foster, Reading Maenon Meriwether, Reading Francis Sellars. Cutting turkey's head off contest. Songs by club. Thanksgiving contest.

It seemed the afternoon was an enjoyable one. The refreshments consisting of sandwiches, pumpkin pie, cranberry jelly and coffee, were served by the committee Mesdames Smith, Whitt, Brown, McAdams, Miller and Guthrie.

The club certainly appreciate the fine attendance the people gave our last Lyceum number. The next number comes some time in January, and we hope you continue your patronage.

We believe we are furnishing as good entertainment as it is possible for us to get.

The sidewalks have been a little slow on account of labor, but hope in a few days to be at the workagain. REPORTER.

## LOCKNEY SOCIAL CLUB

The young people met with Mr. and Mrs. Jno. C. Broyles last Friday evening for the purpose of organizing a club.

The first part of the evening was spent in the ever popular game of Forty-two, Watt Griffith being the high scorer.

The refreshments consisted of chicken salad, sandwiches, fruit salad, hot chocolate and cake.

A business meeting was called by Miss Whitley, and the purpose of the meeting was fully discussed. The officers were elected as follows: Rayburn Thompson, president; Irene Whitley, secretary. After a short discussion the name of the club was decided upon as the Lockney Social Club and will meet once every two

weeks. Those present were Misses Whiteley, Webster, Fry, McGhee, Trowbridge, Stark, McLean, Thompson, Gregory and Mrs. Martin, Messrs. Thompsons, Stark, Griffiths, Barker, Seaman, Speegal and McGavocks. The club is open for efficient new members at the next meeting.

At a late hour the guest departed declaring Mr. and Mrs. John C. Broyles charming entertainers.

## MESDAMES GUTHRIE AND BROYLES ENTERTAIN

Thursday night of last week Mesdames Guthrie and Broyles were hostesses to the married people of the town at the home of the former. The evening's pastime consisted of the ever popular game of Forty-two. Nine tables were played with the usual high and low scoring. Interspersed with the game was music.

After the contest delicious refreshments were served consisting of chicken sandwiches, nut cake, jello, whipped cream and coffee.

Those present were Mr. and Mrs. A.

R. Meriwether, Roy Griffith, Fred Griffith, Artie Baker, Alex Norris, C. C. Miller, Charlie Hatcher, Carl McAdams Ira Broyles, John Broyles, Frank Dodson, W. N. Brown, Mack Sellars, E. E. Dyer and Mesdames Smith, Harmon, Suits and Mr. Hill.

The evening was most delightfully spent by all present and Mesdames Guthrie and Broyles were the recipients of many compliments for their splendid entertainment, and all were agreed that the time could not come too soon when they would be again favored with the hospitality of these two charming hostesses.

## IMPORTANT MEETING OF WOODMEN CIRCLE

There will be an important meeting of the W. O. W. the first Tuesday night in December. All members are requested to be present. There will be election of officers and other important matters to be attended to.

Mr. and Mrs. Marshall were Plainview visitors Tuesday.

**YOUR DOLLAR HAS A "LONG REACH" AT OUR STORE**

Do not be tempted by what you may read about merchants giving you their goods for fifty cents on the dollar. It can't be done.

We will sell you groceries now and at all times a hundred cents worth for your dollar—and nobody can give you more than this without soon going broke.

When you buy from us the quality and price are there.

## BAKER BROTHERS

### CURLEW

Brother Meador preached an interesting sermon Sunday morning at 11 A. M. Brother McNealy preached in the afternoon. Also had Sunday School in the afternoon. These services were well attended.

Mrs. C. A. Wilson was the weekend visitor with relatives in Lockney. Mr. L. A. Puckett still continues

very sick.

Otto and W. B. Milton, Truman Huckabay and Murray Julian were the Sunday guests of Curtis and Gerald Wilson.

Dana and Vera Wilson were the Sunday guests of Helen and Geraldine Upton.

Mr. J. H. Upton was calling on Mr. L. A. Puckett Sunday afternoon. Harold Wilson was the guest of

Otis Milton Sunday.

Houston Upton was the guest of his sister, Mrs. Bernard Ferguson of Lone Star Sunday.

The good people of this community showed a fine Christian spirit Thursday, when all gathered at the home of Mrs. Mattie Umberson to help gather her crop. Those present were Messrs. Mabry, Upton, Hewit, Ormah, Gilliland, Sims, Haverty, Roy Chil-

dress, Jessie Loran, Wilbur Wilson, Otto and W. B. Milton, D. Leach, Lee and Willard Pearson, Clifford Julian, Gerald and Glen Wilson, Ess Yeary, Herman and Clyde Gilliland, Lee and Emmitt Solomon, Carlos and Floyd Reynolds, Messdames C. P. Julian, C. C. Reynolds, Solomon and West, and Misses Pauline Sims, and Ruby Milton. There were 26 men and boys, 15 wagons, 30 horses, besides the ladies, and some of them went to the field, too, and some helped prepare a hot lunch. They hauled in and stacked her feed, headed maize, and some picked cotton. No finer Christian spirit can be shown than to help the widows and the fatherless and to help each other in sickness and distress. "As ye have done unto the least of these, ye have done unto me."

### LONE STAR ITEMS

Mr. and Mrs. W. W. Sanford, of Gates, Oklahoma, are visiting Mr. Walter Derry and family this week. Miss Mary Applewhite, of Amarillo, is visiting her parents, Mr. and Mrs. A. Applewhite.

Mr. A. S. Hanna was a business visitor in Amarillo this week. Miss Mae Weeks spent last Sunday with Miss Julia Johnson.

The Lone Star school is progressing nicely. We hope to have a full attendance soon.

The Mercer and Foster children started to school this week.

The Lone Star Literary Society met last Friday. There was to be a debate but as one of the debators, Douglas McGehee, found business in Lockney that afternoon, the debate was postponed.

Mr. W. B. Hatchett was in Lockney last Tuesday.

Mrs. E. G. Foster left Monday for Brownwood, for an extended visit with relatives.

Mr. and Mrs. J. B. Snider accompanied by Mrs. D. Marc Thomas were shopping in Plainview Wednesday.

Misses Ada and Myrtle Wilkinson spent last week end at Lockney.

Mr. Berry Hooten was seen going to town Thursday.

Mr. and Mrs. John Rankin visited Mrs. Applewhite last Sunday.

The farmers of this community are very busy hauling wheat and cotton to town.

### BAPTIST CHURCH SERVICES

Services at the Baptist Church for Sunday, Nov. 30, 1919. Sunday School, 9:45 A. M.

Sermon, 11 A. M. Subject: Isaiah's Vision.

B. Y. P. U. 5:30 P. M.

Sermon, 6:30. Sermon: By Products of the Campaign for "Millions for the Master."

The public invited, the members expected to worship with us.

JNO. P. HARDESTY, Pastor.

### MRS. HARMON'S RECITAL POSTPONED

On account of the weather the recital of Mrs. Harmon's was postponed from last night to Sunday afternoon at 3 o'clock. The admission will be free. The recital will take place at the Olympic Theatre.

## Better Clothes for Less Money

All the newest patterns and weaves guaranteed all-wool and to fit you perfect, made for you, not a dummy model. A visit will convince you.

You make a bad deal when you don't see us for feed.

Same firm at our ware house on the track.

**Farmers Exchange**  
E. M. RANDOLPH, Manager

**CURETON WILL SEEK BOUNDARY SHOWDOWN**

Austin, Texas, Nov. 17.—It was said at the Attorney General's Department today that the Attorney General has accepted the challenge of Oklahoma and other adjoining states for a 'fight' on boundary lines. This became known following a Washington dispatch advising that Attorney General Cureton had obtained data in the Federal records by which Texas will claim part of Louisiana and Arkansas.

As a result of attempted encroachment by other states, Texas may resurrect the original and historical boundary lines. The Attorney General's Department is making ready for it. Originally Texas territory ran up through the eastern half of New Mexico, part of Colorado and up to Wyoming on the west and nearly to the Mississippi on the east.

What Oklahoma will have to face as a result of disturbing the boundary along Red River will be a Texas contention for the observance of the 100th meridian as the Texas-Oklahoma line on the east side of the Panhandle. This involves a claim by Texas for 3796 feet for the entire distance of the line.

Louisiana threatened to make claims for Texas territory and Mr. Cureton is making answer by his Washington discoveries, and Miller county, Arkansas, also becomes involved.

Mr. Cureton is en route home from Washington and efforts are being made to divert him to Fort Worth for Thursday's conference between the Governors and Attorneys General of Texas and Oklahoma with regard to the controversy over the Burk-Senator oil well on the south side of Red River, claimed by Oklahoma. First Assistant Attorney General W. A. Keeling will go to Fort Worth with Governor for Thursday conference.

**That Crippled Car**

We want you to bring us that crippled car of yours and let us put it in first class shape. We have first-class mechanics and use best of material.

There is poor economy in running a car that is not giving you maximum service. If yours is poorly adjusted or needs worn parts made new, it will pay you to let us give the car attention. A sick man will not endeavor to labor. He first sees a doctor. So it should be with that sick car of yours. Ours is the hospital for the treatment of automobiles of every description.

If you want to play a winner, sure thing—put your money on Chesterfield.

In less than three years, more than three million smokers have become Chesterfield fans.

And no wonder! Never were finer tobaccos used in any cigarette. The silkiest leaves of aromatic Turkish and the choicest of ripe, sweet Domestic stock are put together by an exclusive blending method that brings out a new deliciousness of flavor.

"Satisfy"? Right down to your toes! Chesterfields have put added enjoyment into every puff—enjoyment that you don't get and can't get in any other cigarette because the Chesterfield blend can't be copied.

### FEDERAL FOOD ADMINISTRATION TO CONTROL SUGAR

Washington, Nov. 21.—In an effort to meet the situation resulting from the present acute shortage of sugar President Wilson today revived the war-time power of the Federal Government over the nation's food supply.

In a proclamation the President transferred to Attorney General Palmer the broad authority exercised by Food Administrator Hoover during the war. While it is Palmer's present intention to exercise this authority only so far as sugar is concerned, he is prepared to use it to meet any similar situations affecting other food supplies which might arise.

Among the first acts of the Department of Justice, it is understood, will be the establishment of a price of 12 cents a pound wholesale for all sugar, except the Louisiana crop, the price of which already has been fixed at 17 cents. This increase of price was said to be necessary to prevent a famine during the early part of next year.

Sharp curtailment of sugar consumption by candy and soft drink manufacturers also will be ordered as officials declare the present shortage is due in a measure to the increased consumption by candy and soft drink manufacturers which has followed the enforcement of prohibition. Details to the curtailment remains to be worked out. While the margin between the wholesale and retail price of sugar has not yet been determined, officials are known to have tentatively considered 1.54 cents, making the retail price approximately 14 cents a pound. This, however, is subject to change, depending upon a variety of conditions.

### Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. # The Whitfill Gin

Announces that the management has purchased and will install in the near future, special machinery for ginning bollies and snap cotton. This machinery is in transit and will be installed at an early date. We also have purchased one additional stand, which will give us a three-stand gin.

Our new machinery will enable us to clean cotton of hulls and bolls before it goes into the stand, thus making a better grade.

Our new lay-out will include three special pieces of machinery, especially adapted to ginning bollies and snap cotton.

Owing to the scarcity of labor in this country in the matter of gathering cotton has brought about this change in our plant. When we get our new equipment installed we will have greatly increased facilities in handling bollies and snap cotton in the bolls and hulls, and will guarantee you a better sample. Cotton growers are cordially invited to visit our plant and see our machinery in operation.

Machinery is here and will soon be installed. We want you to come and see it.

Yours truly,

# The Whitfill Gin

Lockney, Texas

# Foyd Co. Elevator Co.

Wants to buy your grain. Can take care of your wheat as fast as you bring it in. Also can handle your maize in the heads. While the coal situation is still acute, the same is relieved and we now have cars coming and on hand to take care of the wheat as fast as it comes to our elevator. So bring on your wheat while there is shipping facilities.

## The Coal Situation

The government has taken charge of the coal situation and are handling coal through the fuel administration. We expect to have coal as soon as the government begins distribution. Coal for domestic use will be furnished out of the available supply and that being mined by the independent mines. We will keep you posted on the coal situation, and would be glad to have you call us up at any time.

LATER—The strike has been called off by the miners union and the coal situation will soon become normal.

### SUCCESSFUL YEAR OF HOME ECONOMICS

January 1st will close the first year of Home Economics in Floyd county, under the supervision of Miss Jocie York. The work has been most successful in every particular, and has laid the foundation for greater future effort in this important work. This work will prove of inestimable value, besides an immediate money saving proposition. The county was put just five hundred dollars this year for the work, the balance of the salary of Miss York being supplied by the Federal government. During the summer Club girls sending in their reports put up \$520.15 worth of canned goods, and \$840.50 worth of poultry raised, making a grand total of money made by these girls of \$1360.65.

Only 50 per cent of the girls turned in their reports, and the figures above includes only half thus saved the people of the county this year in Home Economics. Had it not been for the work of Miss York very little fruit and vegetables would have been saved by the girls, and the same situation would have existed in the poultry industry.

The immediate saving to the people of the county is a small item when the importance of this work is taken into consideration. These girls have received a training under Miss York that would have cost them up into the thousands of dollars had they been sent to school to obtain this information and learning. Both Canyon and the Denton School of Industrial Arts teach Home Economics, and if each girl belonging to the club in Floyd county had been required to have gone to college to obtain the training that they received under Miss York, the

cost to their parents taken collectively would have been great.

The Beacon is not informed as to the disposition of the court in regard to this work for another year, but we take it for granted that it will receive their most favorable consideration. We believe we would be conservative in our statement should we say that fully 95 per cent of the people of the county endorse this work, and are agreed that it should be carried on indefinitely. The training our girls are receiving would be cheap if it should cost the taxpayers ten times the amount it has cost them the past year. By all means the work should be carried on, and if possible Miss York's

### All Done Up

And ready to take home:

A nice, juicy, pallet tempting steak.  
A donez sweet whole tender loins,  
A group of well fed lean pork chops,  
A firm little-boned medium-fatted

Stew—  
Sound pretty nice but they will taste a whole lot better, especially if they are bought at

Having received and installed our ice box we are again in a position to serve you with the choicest meats.

## For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE

## CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . ." writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

## Eat Up-Speed Up

Grocery buying is made easy at this store—it is made economical, it is made pleasurable—because we hew to the line in everything we buy and we hew again when we sell. Hewing benefits us both. The acme of economy is to buy something good at a reasonable price. This eliminates the waste, which is always an item of expense. You buy no waste at this store.

## Theo Griffith

# Two Ways to Buy Clothes

One way is to look around until you find the lowest price.

The other way is go where you'll find the best quality.

The first way you'll save a few dollars at the start then in a few months you'll have to have new clothes; what you save on the price is taken out of the quality of the clothes.

The second way will bring you here for Hart Schaffner & Marx Clothes. They'll wear so long and give so much satisfaction that in the course of a year or so you'll save the price of a suit; because you won't need so many clothes

Which is your way?

### MAUDE BURSON BADLY HURT WHEN CAR OVERTURNS

The Ford belonging to Earnest Jones overturned last Friday night with six young people in it, hurting Maude Burson pretty severely, and she is still in a serious condition. It

is thought that some of her ribs were broken and she was hurt otherwise internally, but strong hope is felt that she will soon recover. Those in the car were Misses Maude Burson, Anna Mae Hays and Tweta Joiner and Messrs. Ernest Jones, Amos Turner and Wells McClendon. Some of the rest of them were considerably bruised up, but Maude was the only one who was seriously hurt. She was pinned under the car, while the others were thrown away from it.—Silverton Star.

MAKES APPLICATION FOR ORIGINAL TIME  
Amarillo, Tex.  
November 24, 1919.

Dear Sir:  
I desire to discuss with you on this occasion two topics.

The first with reference to the Panhandle having been placed in Mountain time. The application has been made today for a rehearing before the Interstate Commerce Commission who will send a man to Amarillo for this rehearing.

Of course we do not know what will be the ultimate outcome of this hearing but we are quite disposed to and believe that the Interstate Commerce Commission assures us to have the time that we want. Numerous applications have come to this office expressive of a very great desire to have this portion of the state returned to Central time.

If you desire this change you will please indicate it by a statement of your views to this office and make known the fact among your citizens that this application is being made and be prepared to have your community represented at the rehearing of this case when the time is named.

Next  
The shortage of coal over the Panhandle is a matter of the strictest concern. On last Saturday morning a meeting was held in this office with Mr. R. E. Johns, agent for the Santa Fe, Mr. J. W. Farley, agent for C. R. I. & P., and J. B. Gibbon for the F. W. & D., who defined specifically the plans which the railroads had instituted for the purpose of preventing distress in case of blizzard or zero weather. Coal which has been taken over by the various railroads has been so taken for the purpose of sending it out where it might be needed to establish comfort.

You are therefore notified in case of emergency to apply to your local agent with assurance that relief will be obtained.

Yours very truly,  
FRANK R. JAMISON,  
Secretary-Manager Panhandle-Plains Chamber of Commerce.

# Chevrolet and Oakland Cars

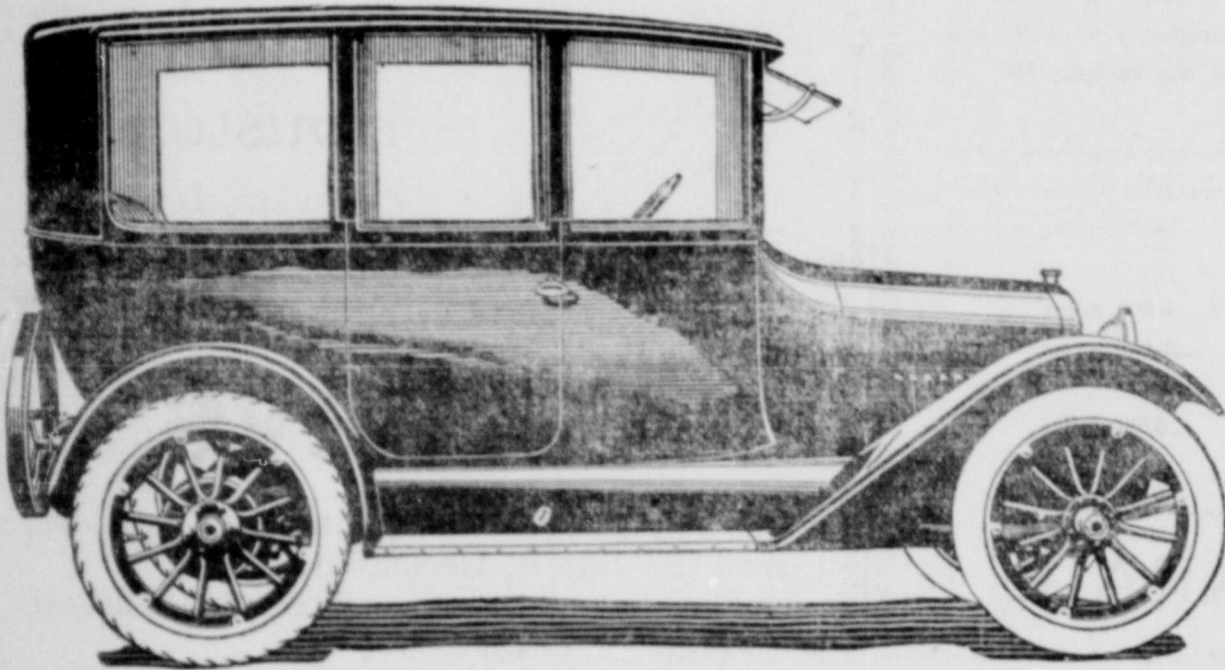

We are dealers in two of the best cars on the market—the Chevrolet and Oakland. The best advertising for either of these cars is satisfied customers. We have sold recently a number of Chevrolet users new cars. After having used the Chevrolet cars a number of months, they have bought new ones. This is the same story with Oakland users. They are satisfied with their cars and boosts for us.

We have new Chevrolets on the floor, both in 490 and Baby Grands. All we ask is an opportunity to convince you of the merits of our cars. 90 days free adjustment service on Chevrolet and Oakland Cars.

## A FEMININE MOTORIST WRITES:

I like my Chevrolet "Four-Ninety" very much indeed. It surely is a lady's car. I did not realize how dainty and pretty it is until I compared it at close range with a machine of another make. I consider it economical on gas and oil and it is a splendid hill climber.

If you want besides economy in first cost and later in operation, a car with dignified beauty, comfort and every convenience for year-round use, the Chevrolet "Four Ninety" Sedan will particularly appeal to you.

Here is a car combining in one all the advantages of a roomy, touring car, with the comforts of a completely appointed closed car. The side windows drop into receptacles, making it but a moments task to convert it from a closed to an open car, with permanent overhead protection.

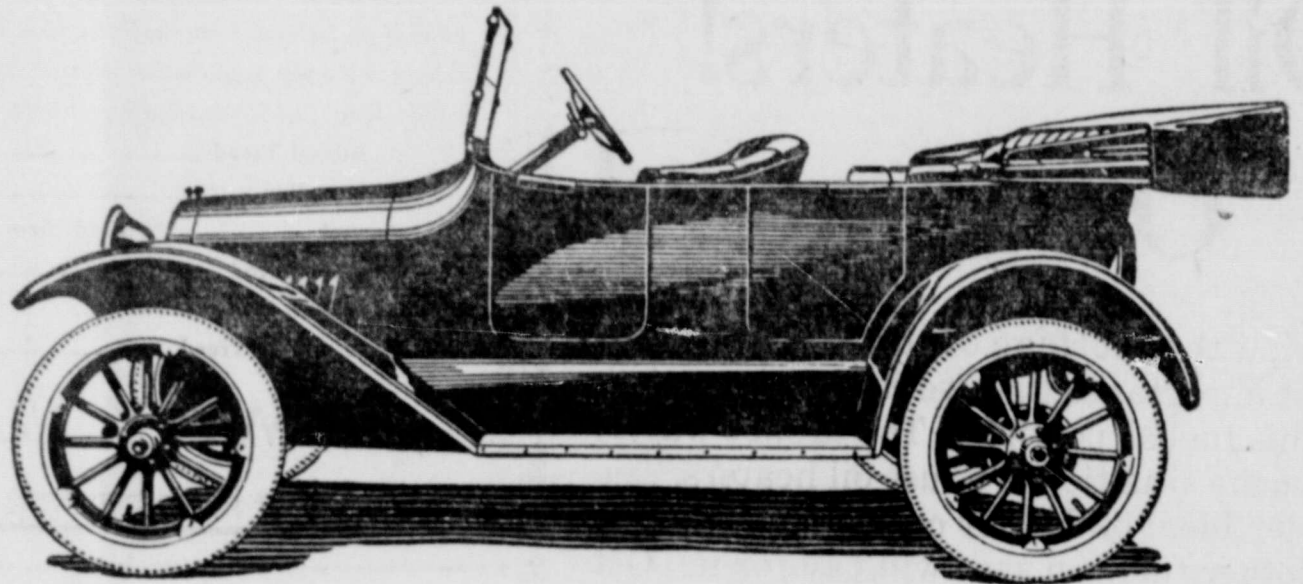

This Sedan fills a definite need for a comfortable, efficient all-weather car, as you will appreciate upon inspection.

Chevrolet FB Sedan \$1995.

## CHEVROLET "BABY GRAND" Touring, \$1385.

Some say it is the beauty of its streamline design that makes the new Chevrolet "Baby Grand" Touring Car so appealing. Others are equally enthusiastic over its mechanical perfection, the deep, wide seats and roomy body. But all agree that it is a car of unusual merit and well worthy of bearing the name "Chevrolet."

If you want an automobile that you can take genuine pride in owning—one that is economical to operate and dependable for all needs—you should inspect this new Chevrolet model. It is a car that leaves little to be desired at a price that pleases.

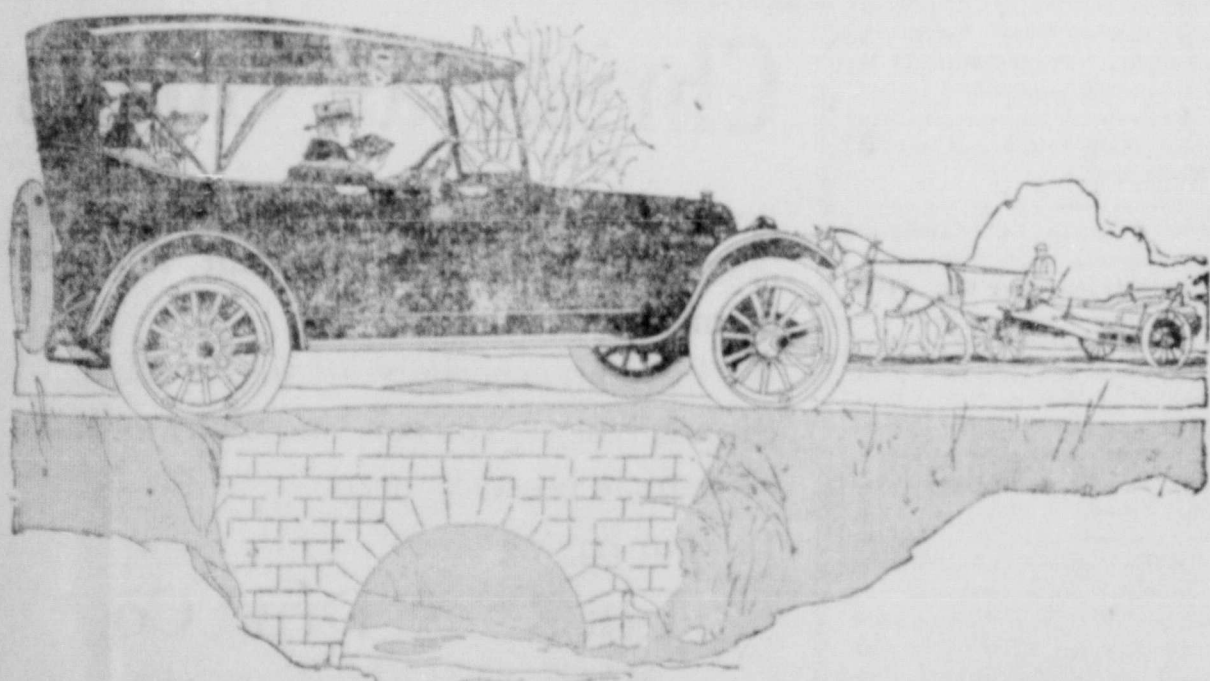

## Chevrolet "Four-Ninety" Touring Car \$860.

When you buy a Chevrolet "Four-Ninety" Touring car you purchase a convenient and reliable means of economical transportation. For Chevrolet cars are built to render the greatest measure of utility. Whether you want an automobile for family use, for business purposes or for both, the Chevrolet will give you all that is most desired in mechanical efficiency and motor car beauty, with the assurance of constant safety, comfort and dependability at a very low cost for upkeep.

Come in and inspect this model and the famous valve-in-head motor with which it is equipped—the motor that has achieved such remarkable records for fuel economy.

## The Second Hundred Thousand Oaklands

## Republic TIRES

With Staggard Studs

The longer life of Republic Tires is now generally accepted. The greater anti-skid effectiveness of Staggard Studs is another quality for which these tires have become famous. The reason for this longer life and better non-skid qualities are easily explained. The first is due to the Prodim Process, which toughens the rubber; the other advantage comes from the long oval studs, the studs which scientifically gives maximum grip with minimum friction. Their economy is so obvious that owners who have once used Republic Tires are never satisfied with any other make.

Steadily, continuously, and as good as modern machinery and expert workmen can build them they are coming out of the Oakland factories—the second hundred thousand Oakland Sensible Sixes to be dedicated to the efficient and economical service of discriminating buyers.

They are being machined and assembled with greater competence and skill than were the first one hundred thousand. For experience is a master teacher.

When first introduced four years ago, the Oakland Sensible Six was the pioneer of scientific lightweight construction. Today, with more than 100,000 Sensible Sixes in use, the Oakland is the leading exponent of the field that it so successfully pioneered.

The merits of the Oakland Sensible Six, the practicability of its lightweight construction have been conclusively demonstrated through constant and arduous use.

Economy is a paramount Oakland Sensible Six feature. Owners regularly report returns of from 18 to 25 miles from the gallon of gasoline, and from 8,000 to 12,000 miles on tires.

Combined with this economy is the efficiency of the famous overhead-valve Oakland engine, developing forty-four full horse-power—an efficiency which completes the comfort, reliability and value of the car.

Touring Car, \$1,225; Coupe, 1,995; Sedan, 1,995—Wire Wheels \$75 Extra.
