Number 40

DISTRICT MEETING EASTERN STAR LARGELY ATTENDED

Last Friday at 2 o'clock the district school of instruction of the order of Eastern Star, convened with the Lockney Chapter. The school was largely attended, and the sessions were intensely interesting.

The attendance were exceptionally large, which included as honorary guests the Grand Matron, Mrs. Maggie Moody of Corpus Christi, Texas; Mrs. Hattie Beadle Deputy Grand Matron of Chillicothe and Mrs. Edie L. Houghton Committee on Works of Memphis, Texas and Mrs. Bell Tolmlinson Com. on Resolutions, Wallis, Texas.

The meeting after convening immediately took up the explication of the secret work and the afternoon of Friday was spent most profitably in this manner. At night degree work was gone into when two candidates were initiated into the order. At six o'clock on Friday light lunch was served.

Saturday the session lasted all day and closed at night. At the noon hour a sumptuous dinner was spread also supper was served in the banquet room of the Lodge Hall.

Saturday night's session was devoted to installation of officers for the ensuing year. Officers were installed as follows:

Mrs. Ruby Sams, Worthy Matron; Ben F. Smith Patron; Mrs. Henry Floyd Associate Matron; Mrs. Charles Hatcher, Conductress; Mrs. Bob Ramsey, Associate Conductress; Mrs. Chas. Ramsey, Secretary; W. N. Brown, Treasurer; Mrs. Stapleton, Chaplin; Mrs. Kate McGehee, Marshall; Mrs. Stewart, Organist; Mrs. Brown, Warden; Chas. Hatcher, Sentinel; Mrs. Woodburn, Ada; Mrs. Frank Dodson, Ruth; Mrs. Greer, Esther; Mrs. Ben F. Smith, Martha; Mrs. Puckett, Electra.

List of visitors to Lockney School of Instruction:

Mrs. Maggie B. Moody, G. Matron, Corpus Christi; Mrs. Hattie E. Beadle, D. G. Matron, Chillicothe; Mrs. Edie L. Houghton, Com. on Work, Memphis; Mrs. Belle Tolmlinson, Com. on Resolutions, Wallis; Mrs. Willy McElroff, Canyon; Mrs. U. Simmons, Canadian; Mrs. Beatrice Smith, Floydada; Mrs. Bess B. Thomas, Amarillo; Mrs. Edna Myers, Amarillo; Mrs. Julia Perry, Plainview; Mrs. Ella B. Starks, Floydada; Mrs. Helen Vincent, Plainview; Mrs. W. W. Thomas, Plainview; Mrs. Ethel Porter, Tulla; Miss Mamie McPeak, Floydada; Miss Wynnette Britton, Floydada; Mrs. W. A. Willis, Floydada; Mrs. Ruth Green, Floydada; Mrs. Jennie Crum, Floydada; Mrs. Celia Picklesimer, Floydada; Miss Cleo Anderson, Floydada; Miss Anna Sims, Plainview; Mrs. Joe Wilson, Abilene; Mrs. Adella S. Drew, Plainview; Mrs. Little Britton, Floydada; Mr. R. Smyth, Plainview; Mrs. C. F. Vincent, Plainview.

BIG ROUND-UP AT HEREFORD JULY 1 AND 2

Hereford, Texas, June 21.—Hereford's second Roundup will be held on two days this time—July 1 and 2. Steer and pony riding, roping Chihuahua steers and Mountain goats, tackling outlaw horses, etc., will be features. Witherspoon and Miller of Silvertown have entered a big string of the finest pitching horses in the West, Don Miller, Leon Porter and others will do bull-dogging from horses and autos, several lady riders have signified their intention to participate, and there will be relay and sweepstake races. Premiums and prizes will be liberally distributed. Music by the Hereford Band, a splendid organization.

R baseball game will be played each day between the Hereford Whitefaces and the White Deer team. Each team has a string of victories this season to its credit, and a hot pair of battles is looked forward to.

A cordial invitation to all riders and ropers, and to the people of the Panhandle generally, is extended to attend this exhibition and enjoy the sports. Sheriff C. S. Purcell of Deaf Smith county is general manager, and will be glad to answer all inquiries.

SHEEP RAISES OF WEST TEXAS SEEK ORIENT EXTENSION

San Antonio, June 22.—A resolution indorsing the proposed extension of the Kansas City, Mexico & Orient Railroad from San Angelo to Del Rio was adopted at the opening session here today of the fifth annual convention of the Sheep and Goat Raisers' Association of Texas. The resolution asked the Interstate Commerce Commission to grant the Orient Railroad's application for a loan of \$3,500,000 for rehabilitation and construction purposes.

About 1,800 animals are entered in the association's official goat and sheep auction sale which begins late today. The annual report, presented today shows the association has 737 members, representing 1,151,641 head of goats and sheep.

John Finley, the Crayola Oil man was here from Turkey this week on business.

DISCUSSION OF LOCKNEY STREETS AND ALLIES

A. B. Brown, President of First National Bank, Suggests Way to Improve City Streets and Invites Suggestions From Others.

The Panhandle has world wide reputation as being one of the most beautiful table lands that can be found anywhere. And in the last few years has become a leader in production of farm products, and perhaps the largest shipping point on the Plains in proportion to its size, is the city of Lockney. It is acknowledged everywhere that Lockney is the grain metropolis of the Panhandle.

And while Lockney has gained a very wide reputation through its agricultural resources it is also gaining another very wide reputation and one that its citizens do not care so much for. This reputation is being built up on the conditions of the streets and highways in and out of Lockney. The traveling men that make our city from time to time are unanimous and express themselves very freely in stating that the streets of Lockney are worse than any other town on the Plains. Lockney is located on one of our largest highways, and large number of tourists are passing through our city every day to different parts of the country. These tourists and traveling men spill the glad tidings where they go, which is to the detriment of our city.

As a citizen of Lockney and Floyd county with its ever interested in heart I am very much interested in some kind of a movement whereby we can clear ourselves of this wide spreading and distasteful reputation, and would offer as a suggestion that the citizens of Lockney get together and adopt some plan and put forth some effort to improve the conditions of our streets. There are several ways by which we could improve our streets, and to my mind one of the most practical and inexpensive ways of accomplishing better streets would be by securing the co-operation of our county commissioners.

The county, I understand, owns three or four big army trucks that we might be able to get the use of for a couple or three weeks. I understand that there is a big gravel pit in the draw six or seven miles southwest of Lockney, and it seems to me that we could make up money enough to put a good coat of gravel on our streets that would be sufficient for the time being, and which would put the streets in a much better condition, at the same time would involve very little expense compared with the cost of paving. Our main street should be graveled to the depot, also the leading streets into town. I only offer this as a suggestion and ask that others study the situation and make any suggestion that will be for the benefit of Lockney and the entire community.

A. B. BROWN.

FEDERAL QUARANTINE ON COTTON AVOIDED

Austin, June 19.—Governor Hobby tonight signed the pink boll worm bill closing the emergency for which the special legislative session was called.

The measure meets requirements for continuation of Federal work in Texas, Dr. W. D. Hunter, member of the Federal Horticultural Board, declared "because it provides for the untrammeled inspection of fields to determine whether infestation is present."

"Federal co-operation with Texas therefore will continue and the Federal Department of Agriculture will use its funds liberally," Hunter asserted.

The Federal Department notified Governor Hobby that with the provisions of the new law a Federal quarantine against Texas cotton would not be established. Notification was in the form of a telegram from Dr. C. L. Marlett, chairman of the Federal Horticultural Board.

"There will be a Federal quarantine Marlett declared, "but it will be limited to territory known to be infested. Details will be worked out in Washington shortly."

TWO COWS KILLED BY ELECTRIC LIGHT WIRES

A few days ago two valuable milk cows belonging to Mr. Langfeldt, just west of town, were killed as the result of electric light wires breaking. Mr. Curtis Wilkinson, local manager for the Texas Utilities Co., went out and adjusted the claim and paid Mr. Langfeldt \$250 for the loss of his cows.

PADUCAH ANXIOUS FOR NEW RAILROAD

Paducah, Texas, June 19.—Reports of the proposed building of a road through West Texas to the Panhandle have awakened much interest in this section. Efforts are being made to get the proposed line to pass through this place. It is reported that the Motley County Railroad Company has offered its entire rolling stock in this connection, and Cottle county, through its chamber of commerce is offering other inducements.

W. B. WILSON ANNOUNCES FOR COMMISSIONER PRECINCT 3

In our announcement column this week will be found the announcement of W. B. (Bradford) Wilson for Commissioner of Precinct No. 3, subject to the action of the democratic primaries. Mr. Wilson lives in the east part of the county in the Cedar community. He does not need any introduction from us. He has lived in this county for a number of years, and is one of our early settlers. He is a man of extensive ranch and farm interests, and a successful business man. We have no better citizen than he, and if there are those who have recently moved in to the county who will vote in the coming July primaries, and are not acquainted with Mr. Wilson, the Beacon takes pleasure in saying that we have no better citizen than Bradford Wilson, nor one more trustworthy. He is well equipped to fill the office of commissioner with credit to himself and his precinct. He is thoroughly acquainted with the needs of the county, and if elected to this important position he will serve us with credit and efficiency. Bradford Wilson will do his best for anything he asks for.

COST \$2.15 BUSHEL TO RAISE WHEAT

Washington, June 20.—The average cost to the farmer of producing a bushel of wheat in 1919 was \$2.15, the Department of Agriculture has found through a study which included 481 farms.

At this figure half the farmers would have lost money on their grain at the Government guaranteed price of \$2.26 a bushel in Chicago, since freight and elevator charges must come out of the \$2.26.

The department found the cost as low as \$1 a bushel on two farms and on twenty it was \$5 or more. Most of the wheat was produced at a cost somewhat less than midway between these two extremes. The survey included nine winter wheat areas in Kansas, Nebraska and Missouri and five spring wheat areas in Minnesota and North Dakota.

"In the winter wheat areas costs ranged from \$1 a bushel for two farms to \$8.20 on one farm," said the department's report. "The average cost was \$1.87. If the price received had been \$1.87 more than half of these winter wheat growers would have produced wheat at a loss."

"In the spring wheat areas the average cost was much higher, \$2.65, the range running from \$1.10 for one farm to \$5 or over for seventeen farms. If the price received had equaled the average cost, between 50 and 55 per cent of these spring wheat growers would have failed to break even."

"Yields averaged 14.9 bushels per acre for the winter wheat farms and 8.4 bushels for the spring wheat farms, and the cost per acre \$27.80 for winter wheat, as against \$22.40 for spring wheat."

"Department specialists in cost of production studies point out in this connection that, for the farms covered in this investigation, the so-called 'necessary price'—that is, the price necessary to give the producer a fair degree of certainty of making a profit—would be found at a level considerably above that of the average cost of production."

"For example, to allow a profit on 80 per cent of the wheat produced on the farms covered by this study, the price would have to be about \$2.60, as compared with an average cost of \$2.15. As a price covering the average cost plus 10 per cent, 75 per cent of the crop would be covered, but 40 per cent of the growers would still fail to break even."

McADOO DENIES HIS STATEMENT HAD ANY RELATION TO WILSON'S

New York, June 22.—William G. McAdoo, in a statement here last night declared his recent announcement that he would not permit his name to be presented to the San Francisco Democratic Convention as a candidate for the Presidential nomination had no relation to the political interview with President Wilson published the day before. He declared he knew nothing of the interview until he saw it in print, that the President knew nothing of his withdrawal until after notice of it had appeared in the newspapers.

Mr. McAdoo's statement follows: "In order to set at rest absurd rumors and speculations which have been published to the effect that my letter of withdrawal had some relation to the President's World Interview or carried a concealed purpose, I wish to say first that I knew nothing whatever of the President's interview until I saw it in the papers, and second, that the President knew nothing whatever of my letter of withdrawal until he saw it in the public prints."

C. A. Wofford unloaded a car of four Chevrolet One-Ton Trucks Tuesday. He has been placing a number of these trucks in this and adjoining communities. When it comes to selling cars and automobiles Charley Wofford is there with the goods. He handles the Oakland and Chevrolet cars, and the Chevrolet Trucks.

AMERICAN LEGION HAS BANQUET

On Saturday night, June 19th, the Landrum Post No. 141 American Legion of Lockney gave a banquet for all its members and ex-service men. The meeting was largely attended, between sixty an seventy being present. A nice program was rendered, after which a four course dinner was served to the delight and pleasure of all present.

Mr. A. B. Brown, President of the First National Bank rendered an appreciative address to those present. Mr. Brown outlined a very interesting and profitable program for the Legion, and assured them that they could accomplish great things both to their interest and the community at large, and ask the cooperation of the Legion in helping bring about a number of civic improvements that Lockney is greatly in need of, and also assured the Legion the business men of Lockney will cooperate and assist in any undertaking that they undertake. Mr. Brown brought special emphasis upon the condition of the streets of Lockney, and suggested that while the Legion was only a social organization, and that with a little cooperation on both the parts of the Legion and the business men of Lockney that great things could be accomplished in a commercial way and ask that the Legion work out a plan whereby it could cooperate in a commercial organization.

The Legion is going to launch a campaign to secure the membership of every ex-service man in the north half of Floyd county, and an invitation is extended to all ex-service men in adjoining counties who are not affiliated with other posts are urgently invited to become members of the Landrum Post.

At the business session the following officers were elected: David Bates, Adjutant, J. B. Houston, Historian, and also a committee was elected for entertainment.

109 INDIAN GRAVES FOUND IN EIGHT WEEKS

Within the last eight weeks, 109 Indian graves and more than 400 stones graves of prehistoric people have been discovered within 100 miles of Amarillo by a party of scientists from the east under the direction of Prof. W. K. Moorehead. It was announced yesterday upon the return of the party from its expedition in the Canadian river valley. Besides Prof. Moorehead, the party consists of Eldridge R. F. Johnson, University of Pennsylvania; Ralph Door, Bucksport, Maine; Sam Handley, Perryton, Texas; George McEwan, student, University of Pennsylvania; Prof. J. B. Thoburn, Oklahoma Historical society; and Norwood Eldridge, Orland, Maine. Upon their arrival at Amarillo they had in their possession many treasures and much information of local, historical and scientific interest.

When the prehistoric graves were opened, Prof. Moorehead said, many of them were found to contain broken pottery, stone knives, hide scrapers and grinding and polishing tools, specimens of which the party brought with them.

The explorers visited a butte 300 feet high on the Landerin Brothers ranch, and on its steep sides were found the foundations of 21 small buildings. The structures were from 12 to 25 feet in diameter and laid with stones three to four feet in height. Prof. Moorehead believes that Comanche and Apache Indians lived in the structures in the early days. Some 200 objects of stone, volcanic glass and clay were found within the rooms.

The explorers are stopping at the Amarillo hotel preparatory to beginning their journey back east. Prof. Moorehead director of the expedition is one of the widely known archeologists of the country. He has spent 35 years exploring various Indian remains in the United States.

CARS TO HANDLE PANHANDLE CROPS URGED BY BANKERS

Clovis, New Mexico, June 22.—R. A. Underwood, of Plainview was elected as the new president of the Panhandle Bankers association at today's session of the organization here. Other officers are: First vice president, F. E. Chamberlain, Clarendon; Second vice president, C. W. Harrison, Clovis; secretary, D. L. C. Kinard, Memphis; treasurer, Grady Oldham, Canyon.

A resolution passed today asks the interstate commerce commission to furnish cars to move the grain in the Panhandle country. It is estimated by the bankers that 10 per cent of last year's grain crop remains unmoved on account of car shortage and immediate action is urged in order to prevent heavy losses by farmers.

Condie Davis returned Wednesday from New York City where he took his 15 year old son for medical treatment. He gave him the radium treatment under an eminent New York Specialist. He will return to New York in 8-p-tember for additional treatment. The boy is much improved which information is most gratifying to the friends of the Davis family in this and other sections of Texas.

LOCKNEY COUNTRY LAND OF TRACTORS

The Lockney section and Floyd county in general is becoming a land of tractors. During the past year or so there has been a great many tractors sold in this section of the various makes. The reason that tractor operation has become so popular in this section is the fact that we have become the leading wheat producing section of the state, and the additional reason that our country is especially adapted to the use of the tractor.

The Beacon has obtained some figures regarding the sales of tractors in Lockney by four dealers covering a period of six months. The total number of tractors sold is 41, representing the sales of John Livesay, Neaves & Griffith, Lockney Auto Company and the Rankin Brothers. The Rankin Brothers are agents for the Hart-Parr Tractor, and they have sold 14, John Livesay sells the Rumley OilPull and he has sold 11, Neaves & Griffith sell the Cleveland or Cletrac and their sales total 11, The Lockney Auto Company with Arthur Barker as manager, handle the Fordson and his sales are placed at 5.

We give below a list of parties buying tractors and the kind they have purchased:

Hart-Parr, Sold by Rankin Brothers

Wiley Fort, Briscoe county; Goree Applewhite, Lockney; Carl Wimberly, Briscoe county; Lee Rushing, Floydada; W. E. Phillips, Floydada; Tell Nix, Lockney; Doc Burleson, Briscoe county; Joe Ed Burleson, Briscoe county; Oliver Savage, Briscoe county; Tom McGehee, Lockney; John Stevenson, Lockney; F. F. Evans, Briscoe county; Mr. Anderson, Briscoe county. All of the above have purchased Hart-Parr 30, and Mr. Truelove, an Aultman-Taylor 22-45.

Rumley OilPull sold by John Livesay

Carl Daniels, 2 to Odie King, Charley Grey, Mr. Readhelmer, Van Martin, T. E. Leckle, Rowe Bryant, A. H. Murchison, J. H. Hatjen, one to a party below Floydada, and one west of Amarillo.

Cleveland or Cletrac, sold by Neaves & Griffith

Homer Howard, W. C. Watson, W. H. Smith, W. K. Early, 2 to W. L. Montgomery, Floydada, Mr. Connard, George Cox, T. A. Neaves, Jim Davis, Floyd county.

Fordson, Sold by Lockney Auto Co.

Champ Blackwell, A. J. Smith, Myrth Yeary, G. C. Rambo, W. J. Fite. In addition to the above named tracing adding the Wallis Tractor agency to their firms, E. P. Thompson & Son are their large business, and they expect and will doubtless sell a large number of these tractors.

COMMUNITY CLUB MEETING OF METEOR

Twenty-seven members of the Community Club met with Mrs. Samuel Pettie Thursday afternoon, June 17th. The meeting was opened by a scripture reading and prayer by the chaplain, Mrs. Wm. Tate, after which each member responded to the roll call with a well chosen quotation from a favorite author.

The regular business of the Club was then enacted, followed by the discussions concerning the improvement of the schools. Each member showed a lively interest in the subject, as each member realizes it will be her duty to accomplish things along this line.

Mrs. John Maloney extended an invitation to the members of the Club to meet with her Thursday afternoon July 1, when the following program will be given:

Music—Star Spangled Banner. Prayer and scripture reading—By Chaplain.

Roll call, each member respond with quotation from our Presidents or Generals.

Preamble to the constitution—Mrs. Le Van.

The Declaration of Independence.—Mrs. Willard.

How the President of the U. S. is elected.—Mrs. Bond.

The life of our Republican Presidential nominee and platform of the Republican party.—Mrs. Kern.

Sketch of our Democratic Presidential candidates.—Mrs. McAvoy.

Parliamentary Drill.

Open discussion of our candidates for Governor.

TEXAS DELEGATION LEAVES FOR COAST

Dallas, June 22.—The Texas delegation to the Democratic National Convention at San Francisco left on a special train tonight headed toward the Golden Gate.

The train carried 165 persons. The delegation, it is said, will work for the nomination of William G. McAdoo for the presidency.

Henry Ratjen, a prominent farmer and citizen of the Providence community was in the city one day this week on business. Henry is building a handsome home on his place and otherwise improving and beautifying his property.

WHEAT HARVEST UNDER WAY IN FLOYD COUNTY

Wheat harvesting started in earnest in Floyd county this week. Many headers and binders are going and with favorable weather the crop will soon be harvested. As to yield nothing will be known for several days yet, and not until threshing is begun. A number of farmers have stated to the writer that their crop will be better than they anticipated a few weeks ago. There is some smut in wheat of this section, but it is not thought that the yield will be materially lessened as a result. In some fields there is no smut at all, while in others there are more or less.

There are plenty of harvest hands to handle the crop. Each day trains have brought in hands from other sections of Texas, which added to local supply has given us sufficient help to harvest the crop. The acreage this year sown to wheat is larger than has ever been known in Floyd county, and this additional acreage will make up for any fall off we may have in yield compared to last year's crop. The grade of wheat will be much better than it was last year. The abundance of rain at the right stage to fill out the grain has added largely to the promised wheat yield of this county. The prediction is that the yield will run around fifteen to twenty bushels to the acre.

Other crops in this section are in fine shape and growing off nicely. There has been abundant season lately to bring up all stuff planted and caused that which was already up to grow off in a way that has been most gratifying to farmers.

The future outlook for Floyd county was never better than at present. The wheat crop will add a large volume of money to our already prosperous condition, and with additional crops to come on and to be harvested this fall will place Floyd county in most excellent shape.

DETERMINED TO NOMINATE McADOO AT SAN FRANCISCO

Kansas City, June 22.—Indications that friends of William G. McAdoo will "stop at nothing" in their efforts to force his name before the Democratic National Convention stood out clearly in a statement issued by Dr. Boris Jenkins here today.

In his statement the Kansas City Post's editor and publisher sets forth the following:

"Thomas B. Love, National Democratic committeeman from Texas, called me over long distance telephone from Pueblo, Monday night, while en route to San Francisco and said:

"I've traveled west from Kansas City with the Alabama delegation and eighteen of the twenty-four delegates favor putting McAdoo in nomination, consent or no consent. The former treasury head, they declare is the one and only leader with whom the Democrats can feel sure of victory. McAdoo must, they insist, be nominated!"

"Similar sentiment continues to pour in from various sections of the country. His name is on everyone's lips. It is inevitable that his name be placed in nomination."

"Someone without doubt will put him before the convention whether the writer does so or not. The country might just as well understand first and last there is no stopping the attempt to put McAdoo across as the Democratic presidential nominee."

WANTED—SPURS

Las Vegas, N. M., June 22.—Whenever there's a swell party or a wedding in Las Vegas, there's usually enough dress suits in the town to go around. Judicious borrowing and lending usually turn the trick.

But there's some doubt if there are enough spurs in the town to provide admission requirements for the young chaps who will want to attend the cow boys ball on July 5. The cowboys won't let any man dance during the first hour of the ball unless he has on boots, spurs, chaps and soft shirts.

"The girls who are going are planning to wear boots, it is reported, to save their ankles from the spur rowels. The preachers all say if the cowboys can make the girls hide their ankles even for one evening, they have accomplished something."

CHANGING OF CREEK BANKS CAUSES FIGHT IN COURT

Memphis, June 14.—Onks creek, an early day landmark and a most peculiar valley stream in the center of Hall county's best farming land, and a freak of nature in that it is confined by banks for several miles and then suddenly spreads over a vast stretch of valley with no banks at all, has become the cause of a bitter court fight by one set of citizens suing others for damages.

The case occupied the district court during the past week. The first trial resulted in a hung jury and will be retried as soon as possible.

W. P. Hewitt was in the city Tuesday on business. He is one of our prominent farmers of the east part of the county.

Editor Moody announces that he has purchased the Model 5 Linotype of the Canadian Record. Loomis also announces that Ira Bacon has sold him a new machine of a speedier make, presumably a Model 14. The Beacon congratulates both Editors Moody and Loomis in their future equipment.

Leading democrats now in San Francisco for democratic convention say that reservations to the League of Nations are almost certain to be made. They also favor the shelving of the issue for that of domestic questions such as the high cost of living, and the wet and dry question should be the paramount issues before the democratic convention.

The American Federation of Labor at Montreal endorsed amid a stormy session the League of Nations without reservations. Laboring people favor the League and will doubtless stand by the party who comes out for the League. Since the Republican party has repudiated the League of Nations in full it is a cinch that Republicans will not receive the labor vote.

A call for the organization of a new party to be known as the National Party, has been made by William Randolph Hurst. Hurst was for Senator Johnson of California for President and is proved because his name was not nominated. This new political party is destined to aid in the defeat of the Republicans.

A boom has been launched for Governor Hobby for Vice-President on the Democratic ticket. Hobby is claimed to have defeated Bailey in his attack on the National Administration and as this was of more than local interest his claims for recognition is strong. All Texas would be glad to see Governor Hobby played on the ticket as the mate for the man that is nominated for President.

William McAdoo, formerly Secretary of the Treasury, has announced that he can not accept the democratic nomination. McAdoo was the most popular democrat available for the democratic standard bearer, and his decision is regrettable. Since his determination not to become a candidate for President on the Democratic ticket a boom has been launched for Governor Cox of Ohio. Should Cox receive the nomination both the Republican and Democratic nominees would hail from Ohio.

The Beacon regrets to learn of the misfortune that befell our friend, Fred Whiskey, editor of the Colorado Record, in the loss of an eye. The Record states that Fred was working around

his home, presumably driving nails, when a steel particle hit him in the eye, causing the loss of the member. Fred will make better headway in the newspaper with one eye than lots of us with two perfectly good eyes. We do not know whether he will be able to catch as many fish as he used to.

R. E. Thomason, candidate for governor of Texas, threw a wrench into the political machine of Pat Neff at Austin a few days ago when he charged that Neff took \$500 off of Jim Ferguson in the chicken salad litigation. Neff appeared as attorney in the case, and the money he received was funds that has been appropriated for the capture of criminals. Thomason also charged and cited proof that Neff was riding around over Texas on railroad passes. He also charged and proved that he was opposed to woman being allowed to vote in Texas. Thomason's revelations has caused a political sensation in Texas.

The editor of the News recently bought an automobile. What's worrying him now is the regularity with which six cylinders are pounding on one flat pocketbook.—Plainview News.

This seems to be Jess' first automobile offense. He is now destined to become stranger to some of the money he has made for his sale of alfalfa tea. His car is new and gasoline expense is about the only expense he will have for a while, but just wait till that car of his begins to run down and has reached the trading off stage and he will think he has gone up against a "shell game."

Harvest throughout the wheat growing belts of America started Monday. The estimated yield of wheat is placed at 504,000,000 bushels. Reports as to the labor situation is to the effect that there will be ample help to harvest the crop. Here in Floyd county, while the crop will not reach that of last year, a splendid crop will be made, and with anything like favorable weather a speedy harvest will result. Laborers have been coming in on every train, which added to the present home supply it is thought that there will be no labor shortage felt here.

The World War Veterans of Oklahoma administered a roast and a complete salt down of Senator Gore for his unloyalty during the war and his un-American course before and during the prosecution of the war. The soldiers of Oklahoma are pledged to the defeat of Gore. Rah, for the boys who fought our battles. We trust that they will get the goat of Senator Gore good and plenty before it is over. The man that was disloyal to this government in word and act during the crisis we had to pass through should never be honored in this country. Senator Gore's course was that of an obstructionist, who did all he could to hinder our boys at the front.

Secretary of Agriculture Fred Davis has written the Governor of the Federal Reserve Board to aid Texas farmers in financing their crop marketing. Mr. Davis says in his message: "Financial institutions will themselves go to the wall, if producers are not assisted in caring for their products, until they can be disposed of at remunerative prices. The Nation will commit suicide if it refuses to assist the growers of cotton, wool, livestock and all other staple products in their struggle against market conditions which mean bankruptcy to the producers, if not overcome. I trust that every possible aid within the means and sphere of the Federal Reserve Board will be given to the producers of this Nation."

The withdrawal of William McAdoo from the presidential race has revived the possibilities of President Wilson accepting the nomination for a third term. A dispatch from Washington on the subject of President Wilson accepting the nomination says: "That there will be sharp differences of opinion on the subject of the platform at the San Francisco convention is recognized. With McAdoo, who by many has been considered in the lead for the nomination, out of the race, and with Attorney General Palmer possessing only a doubtful degree of strength, administration Democrats admit that they might find it necessary to rally their forces around the President as a candidate in order to put through his platform intact."

Perhaps by the time the next paper is issued we will know the personell of the democratic nominee. Since Mr. McAdoo's refusal to accept the nomination predictions are rife as to where his strength will land. Cox, Owen and Edwards are claiming to be benefited by his retirement from the field. Amidst all this speculation McAdoo follows have not given up hope of nominating the Ex-Secretary, believing that he will finally accept the trust in the interest of the party. It now looks almost certain that McAdoo can get the nomination if he will allow his name to be presented. Texas delegates, numbering forty, would draft McAdoo. We would rather see a man occupy the position McAdoo is occupying than those who enter a political scramble for the nomination. It is evident that the party is seeking the nominee rather than the man seeking the party. The Beacon will be much gratified to see McAdoo nominated, believing that he is the strongest man available for the nomination.

The rivalry between Lubbock and Plainview has taken large proportions. Recently the Plainview fire boys noted the Lubbock boys that they would not attend the Panhandle convention at the latter place for the reason that in the various contests that would take place there, the Plainview boys did not believe they could get justice. It is regrettable that towns in their efforts for supremacy should lose confidence in one another. We feel like the Plainview boys have taken the wrong view of the situation. Surely Lubbock, acting as host, would not discriminate against a rival town. Lubbock could not afford to do this if she felt disposed to do so. The Beacon has more friends in Plainview than it has in Lubbock, but at the same time we believe that the time has come when the hatchet should be buried between these two splendid South Plains towns, and that regardless of our friendly feeling towards Plainview we think that she has made a grave mistake in offering this insult to Lubbock.

Congress should come to the relief of the postmasters and the postal employees of the country. The pay is so small and the cost of living is so high that experienced men are resigning at an alarming rate in this branch of the public service. It is crippling the mails and retarding business to a serious extent, and creating a state of public uneasiness over the country.—Quamah Chief.

Congress and the government has been short sighted in these matters, and as a result the public has suffered in the service they are getting. Government employees of all kinds, along with the postal, should have had an increase in their salaries many months ago in-keeping with the high cost of living. It is impossible to obtain and keep capable help in our post offices at the salaries that are being paid, and we cannot expect relief until the government steps in and pay these people more money.

Lockney country is soon to become a land of tractors. There has been much activity in the tractor business in this community during the past six months. The Beacon representative made a canvass of our tractor agents last Saturday and obtained the number of tractors they have sold during the past six months. The total number runs to 38. The Plains country is an ideal section for the use of tractors and other modern farm machinery. This section is becoming important as a wheat growing section, and this fact have brought the tractor proposition to the forefront. The Beacon believes that farmers are making no mistake in buying these tractors, but would offer this suggestion: That each tractor owner prepare himself sheds for the housing of his tractor and other farm machinery. The practice of letting farm machinery stand out in all kinds of weather is expensive. These tractors, separators, harvesting machines, etc., cost too much money to be allowed to rust out from year to year. Half the cost of farm machinery in Texas could be saved if people would house their machinery when they get through with them instead of leaving them at the end of the row, or at some faced convenient place.

A dispatch from Montreal, where organized labor has been in session, the information is given out that that organized labor will soon launch a campaign for an 8-hour-a-day. No decrease is proposed in wages but a decrease of two hours for a day's work. This is production to be further decreased if organized labor should be successful in putting over their demands. Should they win this fight they will demand a further reduction, and will next ask for a four-hour standard for a day's work. Organized labor is demanding all and giving nothing in turn. These demands, unreasonable in every sense of the word, will have to be checked. They will be

checked, and the method to do the checking is an open-shop policy. Labor unions are seeking to ensnare the American people, and they are losing what little respect the people formerly had for them. When a bunch of men get it into their head that society and government was created specially for them they are entering on dangerous grounds. This is the course of modern organized labor. They boldly make this declaration in their conventions, and their demand upon society as embodied in their strikes and walk-outs. If the Federation of Labor adopts this 6-hour demand then organized labor should be out-lawed in this country, and restrictive laws passed governing them.

The special session of the Thirty-Sixth Legislature adjourned sine die Saturday. Approximately 30 bills of general nature were introduced and passed during the special session. Some 300 additional bills were introduced, but failed to receive consideration in this length of time. Two measures of the greatest importance passed at the special session were the pink boll worm and the one making an appropriation of \$4,000,000 for our public schools. Our state institutions, including our schools were dealt with liberally, \$1,570,000 being appropriated for our educational institutions alone. This appropriation is for emergency needs. Measures were enacted increasing the salaries of county school superintendents 50 per cent, and public school teachers over 30 per cent. Sheriffs of the state will get an increase in their salaries over 50 per cent, while deputy county officials were granted an increase of salaries of \$25 per month. The special session was an important one to the people of this State. The school relief measures were very important and will relieve a distressing situation. With the 30 per cent increase of salaries coming from the state added to what the independent districts and counties can do in way of increase salaries we ought to be able to obtain capable teachers in all the schools of the State. In reviewing the pink boll worm legislation we wish to say that the measures passed does not meet the approval of the Federal authorities, and if the threatened quarantine against Texas cotton is made good, the matter will have to be settled in the courts. The Beacon is of the opinion that it would have been better to have met the government's requirements and thus avoid the uncertainty of court decisions in our favor.

NATIONAL LUBBOCK BANK BOUGHT BY COMPETITOR

Lubbock, June 14.—Negotiations were closed here yesterday whereby C. E. Maeden, president of the Security State Bank & Trust Company of this place, purchased from Wm. M. Peck of Concordia, Kans., the entire capital stock, assets and fixtures of the Farmers' National Bank at this point. The total resources of the latter named bank were approximately 155,000 and this transaction brings the total resources of the Security State Bank & Trust Company to approximately \$750,000.

Buy Your Coal Now

We are informed by the coal mines that they will not be able to supply summer coal storage except in limited amounts. Heretofore we have been able to buy all the summer coal we wanted, but it is evident that the storage this summer will be limited. Therefore, in view of these facts, it will be to you advantage to place your orders promptly that we may be able to supply you this summer.

May will be the cheapest month for your coal. After May prices will begin to advance from 25 to 50 cents per ton per month. There has yet been no definite price as to what the winter coal will be.

PLENTY FEED

Plenty of Feeds of all kind for Dairy Cattle, including Bran, Shorts, Cotton Seed Meal and Alfalfa Hay.

ANOTHER WINTER COAL SHORTAGE PREDICTED

The local coal dealers have called attention of the writer to the promised winter coal shortage and asked us to say something in way of warning to the people to prepare themselves against the threatened famine this coming winter. The Beacon gladly undertakes the task in view of what took place last winter, and the bitter experience the people had to go through with.

The Federal government is sending out warning to the people to prepare themselves against a coal famine next winter. The transportation facilities are even worse than they were this time a year ago. The labor situation is not improved, and with these things in mind we can not expect anything else but a serious shortage of coal when winter again comes on us. Commenting upon the coal situation the Plainview News has this to say:

"Local coal dealers inform the editor of the News that serious coal short ago faces the country, especially those sections far from the mines, next winter. Even now, the movement of coal is very slow and unsatisfactory. One Plainview dealer had a contract for fifteen cars to be delivered to him last month, and he got only four. Other dealers are "shorted" almost as badly.

"If it is so hard to get coal in the summer time, what can be expected next winter?"

"This is the time of year to play safety first in the matter of filling your coal bins, and not only fill them but be sure you have enough to supply you through the winter. There is a strong likelihood of the price of coal being much higher a few months later than at the present time, and even if the price is no higher, it is almost sure to be hard to get. There is still a great scarcity of cars and there will likely be a congestion of freight shipments, caused by strikes and other things that will effect the coal supply very materially. We expect that most of us said that we would not let this happen again last winter when the town was out of coal and could not get but 500 pounds at a time and then have to scramble for that, but we soon forget, and a reminder at this time might do you good. Buy now, if possible, what you will need for the winter and prevent as much as possible a recurrence of last winter's suffering on account of the scarcity of fuel."

ARRESTED ON CHARGE OF SELLING INTOXICATING LIQUOR

Toney Percy, said to be a Choctaw Indian, was arrested by Sheriff Burton and Deputy Sheriff Cobb at his drink stand on Buchanan street between First and Second streets yesterday afternoon about 5 o'clock and was placed in jail pending the filing of complaints against him on charges of selling intoxicating liquor.

The bulk of Toney's wares, which also were taken in charge by the sher-

iff, consisted of two kegs of "Mexican hot," three one gallon demijohns and eleven quart bottles of various and sundry brands and flavors of intoxicating substitutes, according to the officers. In addition, three bottles of vanilla and orange extract, marked "40" per cent alcohol on the label, and one bottle of what was believed by the officers to be tincture of Jamaica ginger were taken in the haul.

Mr. Roach, when asked the proper names of the various liquids, frankly acknowledged he was no familiar with them, but said that the only name they were called by Toney was "something to drink." Mr. Roach declared that the prisoner was dispensing the drinks over the counter at his place of business and that the non-suspecting proprietor did not know that the two strangers standing in plain view in the main room of the building were officers when he sold a drink to a customer.—Amarillo Daily News.

H. F. BRUNNEMAN, ASSISTANT COUNTY AGENT, NOW HERE

H. F. Brunneeman, who is to be assistant county agent of Floyd county during the next sixty to ninety days, reached Floydada Tuesday afternoon to take up his work with the local agent.

Mr. Brunneeman was a student at A. & M. College when the war broke out. Entering the service he was with the A. E. F. in France. Upon his return home he has entered the county agent work and is being assigned here by the A. & M. College Extension Service authorities for training before undertaking work on his own initiative in another county.

Mr. Brunneeman will likely be assigned to some West Texas county in the fall.—Hesperian.

THREE WAYS TO GET MONEY FOR OUR TEACHERS

Dallas, June 21. "Appropriations for Texas schools made by this Legislature should be used to increase teachers' salaries next year," said G. O. Clough of the Texas State Teachers Association today. "The state superintendent and the governor requested \$5,000,000 for this purpose; legislature in making an appropriation approved the purpose. If \$5,000,000 is appropriated, each school will receive about \$3.75 more per pupil than otherwise; if \$4,000,000 is given the excess will be about \$3 per pupil. So each district can calculate its surplus that should be used for increasing teachers salaries next year. If contracts have been made they should be revised and teachers given increases contemplated by the governor and legislature.

About \$250,000 in donations was used in 125 Texas schools last year for increasing teachers' salaries according to an incomplete report to State Superintendent Blanton. Although taxation is considered a more equitable means of raising funds, donations are approved for schools seeking classification, unable otherwise to maintain the required term or pay adequate salaries. "Pay term" of one or more months where pupils are excluded for non-payment of tuition, does not comply with requirements. Trustees seeking or trying to retain classification must show the schools have available funds; guaranteed donations or subscriptions are acceptable, but they must be arranged before recognition is given.

Teachers' salaries may be increased in schools with less than 500 pupils and one-half the increase be met by the state provided certain requirements are met. Schools eligible to receive aid for the rural aid fund may obtain it for salary increases not to exceed more than one-half the salary increases; provided no school shall receive more than \$500 in one year for this purpose. Further requirements are that state aid applies only to increases made reelected teachers who have made certain professional advancement during the year. Trustees should keep these facts in mind when electing teachers and fixing salaries for the coming year.

Coal

Is Going Up

And from all account is going to be very scarce later on, so you had better lay ind your winter supply while we have plenty on hands.

C. A. Wafford

THE COAL SITUATION IS CRITICAL

At present we do not know of any coal available from the Western fields that is obtainable. In order to help out the situation we have arranged to get coal from the East. This is Bituminous lump over 1 1-4 screen, and while this coal takes a higher delivery price than coals you have been using, and is not a yood storage coal if placed in the open.

Better place your order now. Newspaper reports indicate daily how serious the situation is and with no chance of improvement. If you wait till winter you will not be able to get sufficient quantities of coal.

Baker Bros.

Lockney, Texas

Personal Mentions

John Broyles, Cashier of the First National Bank, attended the District Bankers meeting at Clovis this week.

Turner Stevenson was here from Floydada Thursday enroute home from the Bankers meeting at Clovis.

BORN—To Mr. and Mrs. Jesse Moore, June 2nd, twin girls.

Mrs. Lillie Britton of Floydada attended the Eastern Star school here Friday and Saturday, and visited with friends.

Mrs. Picklesimer, Starks and Smith were among the visitors here last Friday afternoon and night from Floydada attending the Eastern Star meeting.

E. L. Woodburn returned Friday from Dallas where he went before the Board of Pharmacy. He stood the examination, and is now a registered druggist.

Mr. and Mrs. Walter Wood of the Cedar community were in the city Thursday shopping.

Mrs. Porter of Tulla attended the O. E. S. district meeting here last week.

Mayor Vincent and wife of Plainview attended the Eastern Star school of instruction here the latter part of last week.

Dr. J. M. Floyd returned Wednesday from a visit to Dallas.

F. M. Kester left Sunday for his home at Mertson, Texas, where he will help his family move to Lockney where they will make their home.

Judge J. N. Stallbird was a Plainview visitor Wednesday.

D. P. Carter was in Plainview Wednesday on business.

C. R. Pennington and uncle, Ernest Northerton, were over from the Rock Creek neighborhood Wednesday afternoon, after binder repairs.

Dr. J. C. Guest returned last Sunday from Colorado Springs where he took a special course in block anesthesia used in the general practice of dentistry. The Dr. reports a most pleasant and profitable trip to Colorado.

G. F. Self and little son came in Wednesday from Arkansas to work in the harvest fields. Mr. Self left here about a year ago and moved to Arkansas. While he has made no confession or statement regarding his future activities, but we could tell by the cut of his left eye that he was pinching for the Plains of Floyd county, and would at some future date take up his abode again with us.

Mr. D. C. Overturf and family have gone to Arkansas on a visit. They are making the trip overland in a large truck which they had specially equipped for the trip.

Mr. J. B. Harper living east of town was in the city Tuesday shaking hands with his many Lockney friends. Mr. Harper has not been in the best of health the past year, but we are glad to report him much improved and looking fine. He is one of Floyd county's old timers, and has many friends not only in Lockney but throughout the Plains country, who will be glad to know that he is now enjoying robust health again.

W. E. Taack was here Tuesday from his place west of town. Mr. Taack is one of Floyd county's big wheat growers.

C. R. Hatcher has been in Amarillo this week on business connected with his Buick-Overland car agency.

Arthur Barker manager for the Lockney Auto Company, was in Amarillo the first of the week on business.

W. A. Smith of the Gasoline country was in the city Tuesday visiting his parents, Mr. and Mrs. W. L. Smith.

TWO MEN AND TWO WOMEN BURGLARIZE JACOBS STORE

It is now quite certain that two men and two women robbed the store of Jacobs Bros. Co. Thursday night of last week, and escaped in the Ford car of Clay Barrow and J. B. Bradley, which they stole.

The four were seen at Lockney and later at Floydada, going east, with the black steamer trunk in which they placed the \$1,000 worth of silk garments and other costly articles, strapped on the back of the car.

Before they reached Matador the two women had been dropped and the trunk put inside the car. The car was next seen near Wichita Falls. Thursday afternoon the clerks in Jacobs Bros. store remembered two strange women coming in and looking at the very goods which were stolen that night.

Nightwatchman P. H. Andrews and Clay Barrow left Monday morning for Wichita Falls, on the trail of the thieves. Clay was at Matador Sunday and traced them beyond there.—Plainview News.

NOTICE OF APPLICATION FOR ORDER OF SALE—ESTATE

THE STATE OF TEXAS,
To the Sheriff of any Constable of Floyd County—Greeting:

You are hereby notified to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Floyd, State of Texas, and you shall cause said notice to be printed at least once each week for the period of twenty days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR ORDER OF SALE—ESTATES

THE STATE OF TEXAS,
To all persons interested in the Estate of Mrs. R. C. Lile, Deceased, R. F. Fry has filed in the County Court of Floyd County, an application for an order to sell the following property of said Estate, to-wit:

The East 1-2 of Lot No. 2, in block No. 1, in Brewster Addition No. 2, to the town of Lockney in Floyd County, Texas, for the purpose above stated, which will be heard at the next Term of said Court, commencing the Third Monday in July A. D. 1920, at the Court House thereof, in the County of Floyd at which time all persons interested in said Estate are required to appear and show cause why such sale should not be made, should they choose to do so.

HEREIN FAIL NOT, but have you then and there before said Court this writ, with your return thereon endorsed, showing how you have executed same.

Given under my hand and the seal of said Court, 21 day of June A. D. 1920.

(seal) TOM W. DEEN,
Clerk County Court, Floyd County, Texas.

PLANS FOR FINANCING WOOL GROWERS UNTIL MARKET OPENING OF MARKET

Washington, June 22.—Plans for financing the wool growers until a market for wool is re-established, have been worked out at conferences between the growers and the federal reserve board, it was announced today by F. R. Marshall of Salt Lake City, secretary of the National Wool Growers' Association.

Under the plan as approved by the board, Mr. Marshall said, "a wool grower may ship his wool to one of the usual points of distribution, obtaining from the railroad a bill of lading for the shipment, the grower may then draw a draft against his bank for such an amount as may be agreed upon by the grower and the bank, secured by the bill of lading."

BAPTIST CHURCH

Sunday school 9:45.

At 11 a. m. instead of preaching there will be given An Education program by the Sunday School.

Preaching services at the evening hour as usual.

Public welcome to worship with us.

AN ADDITIONAL \$3 PER CAPITA FOR SCHOOL PURPOSES

Austin, Texas, June 19.—About \$3 per pupil will be added to the school per capita for next year by the passing of the five million dollar school relief appropriation by legislature, according to officers of the Texas State Teachers' Association. "Many persons are unaware of the fact that there is sufficient money in the state treasury, unappropriated by legislature, to give the schools this needed relief," said G. O. Clough, following an investigation made for the Association.

"At present it is evident additional taxes will not have to be levied either this or next year to give this relief. The money is on hand; the schools need it; the people of Texas want the schools to have it, and as they have said it, we have every reason to believe legislature will grant their wish. The imperative duty of school people now is to advise legislature that

You won't fear fire or Burglars if your Valuables are in our Safety Deposit Vaults.

It is not only careless to keep valuables in your house, but it subjects you and your family to Grave Danger. Not only may you lose them by fire, but burglars might break in and steal them. Burglars always "spot" the house where valuables are kept and they will stop at nothing—not even murder—to steal them. Put your valuables in our Safety Deposit Vaults where they will be safe.

citizens of Texas are demanding this be done for the schools. School boards pressed for funds should participate in this movement.

STATE SCHOOL BILL PASSED BY THE SENATE

Austin, June 14.—In the upper branch of the legislature was passed finally late today a senate bill carrying an emergency appropriation of \$5,000,000 for the public schools for the next fiscal year.

This is \$1,000,000 in excess of the

amount carried in a similar bill passed by the lower house last week. An adjustment of the difference will likely be determined by a free conference committee.

Pink Boll worm legislation was finally referred late today to a free conference committee of five representatives and five senators, the two branches having failed to reach an agreement on a bill.

An increase of approximately fifty per cent in salaries of county school superintendents is provided in a house bill passed to engross in the house.

Can You Lift Yourself by Your Boot-Straps?

TYPE OF HART-PARR 30 MOTOR SAME AS TWENTY YEARS AGO

The motor is the heart of a tractor. It is the source of power, and you buy a tractor for power only.

The motor that was used in Old Hart-Parr No. 1, built in 1901 was fundamentally the same type of motor that is used in the Hart-Parr 30 of today. It is built in the Hart-Parr factory and had they found a type that was better for tractor power they would build it.

For a long time Hart-Parr Company have had out a questionnaire asking for arguments for the two-cylinder and four-cylinder type of motor in a tractor. To date it stands as follows:

ADVANTAGES OF HART-PARR 30 TWO-CYLINDER TWIN MOTOR

- | | |
|---|---|
| 1. Less engine experience to operate. | 11. Less power lost in transmission. |
| 2. Handles kerosene better. | 12. Less jacket walls on cylinder, hence more uniform cooling. |
| 3. More accessible. | 13. Easier to cool with radiator. |
| 4. Lower cost per horse power. | 14. Sturdier, more rugged parts. |
| 5. Half the ignition trouble. | 15. Slower speed, hence longer life. |
| 6. Half the valve trouble. | 16. Less wearing parts. |
| 7. Only two main bearings. Cannot get out of line and break crank shaft. | 17. Heavy duty engines have always been one or two cylinders. |
| 8. Few bearings, and these may be oiled by mechanical oiler. | 18. With cranks at 180 degrees, they may be very well balanced. |
| 9. Less gearing because of lower engine speed and less reduction. | 19. Similar to stationary engine. |
| 10. Best type of bearing may be used because of less reduction to wheels. | 20. Better belt power. |

MAKE A LIST OF FOUR-CYLINDER ADVANTAGES IN COMPARISON Can you doubt the evidence that is shown in this comparison and by the superior performance of the Hart-Parr 30 on the farms of thousands of owners? Let us show you the tractor or send you literature. Buy now—You may not be able to get one in the spring.

H. C. Kell and wife of Quitaque were in the city Thursday on business.

J. C. Whitely and daughter, Miss Madaline of Silverton were here Wednesday doing some shopping and visiting their sister Miss Irene at the First National Bank.

Misses Olga Honea, Deliah Ayres and brother, Lee, visited at Olton Sunday.

Mr. E. Guthrie is home again this week from Wichita Falls.

Mrs. Morgan Lawson and children of the Lone Star community were here Tuesday, visiting with her parents, Mr. and Mrs. T. Z. Reed.

NO DEPOSITOR EVER LOST A DOLLAR IN A STATE BANK IN TEXAS

WHAT WILL YOU BE WHEN YOU ARE 65?

You will be ahead or behind the game that is certin! But it all depends on what you do now.

Of the average 100 people just 1 is wealthy at 65; only 3 are well-to-do; merely 6 are living on their incomes; 54 are living on friends and charity; 36 die before reaching their 65th birthday. It is easy to tell who had a bank account.

The odds are stacked against you 87 to 1 if you don't save a little every day.

IS YOUR BANK ACCOUNT GROWING? MAKE IT GOW A BIT NEXT PAYDAY!

L. Buchanan is reported on the sick list this week.

Little Miss Emma Lou Connor of Wichita, Kan., is here visiting her aunt, Mrs. E. L. Woodburn.

Mrs. Ralph Stapleton of Flomot is here this week, visiting her mother, Mrs. G. J. Stapleton.

L. C. Hicks of Amarillo was here this week visiting with his family.

Don't Buy a Tractor

Until you see and know what the Wallis, America's foremost Tractor, has to offer. A few of the features that make it a superior and economical tractor are—

SUPERIOR DESIGN—The U-shaped boiler plate steel frame gives greatest strength and lightest weight. The Wallis is from 1500 to 4000 pounds lighter than any other 15 H. P. tractor built.

MOTOR—Four cylinder, valve-in-head motor, with a very sensitive hydraulic governor, superior pump and splash oiling system, and large size centrifugal water pump.

TRANSMISSION—All hardened steel cut gears running in a bath of oil, with roller bearings throughout, including front and rear wheels.

CAPACITY—The Wallis has ample power for a 5-disc plow and other far motols of a like draft at the draw bar and a 24-inch fully-equipped separator at the belt.

ACCESSABILITY AND SIMPLICITY—All parts of the Wallis are easy to get to and so simple that the machine is easy to take care of and keep going. The twin-disc clutch can be adjusted in one minute with the fingers—no tools required.

We have a Wallis at our store in Lockney and a car in-transit. Come in and let us show you America's Foremost Tractor. The Wallis will stand up under the sever strain of farm work, and prove an economical factor in your production. We will be glad to demonstrate for you.

Lockney, Texas

A BIT OF ADVICE REGARDING FUTURE FURNITURE PRICES

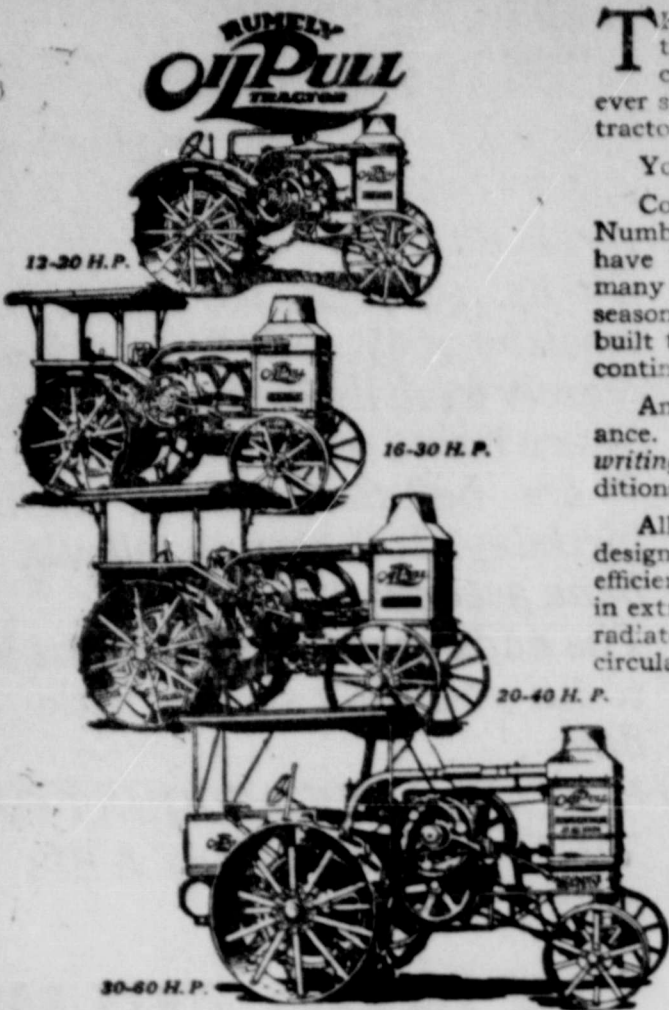

Do not put off buying furniture thinking that prices will be down in the near future.

Raw material, machinery and labor, the three great essentials in production are scarce and high priced. Consequently we cannot expect prices to come down. They are bound to be slightly higher inside of the next sixty days.

You can save money if you come in now and select the furniture you want.

NORTON BAKER HARDWARE & FURNITURE

The Advance-Rumely Line for 1920

There is one tractor above all others that has proved that it can give dependable service at an economical cost—proved it over a number of years—proved it ever since the beginning of the tractor industry, and this tractor is the Rumely Oil Pull.

You buy Oil Pulls on performance—not promises.

Consider that "Old Number One," Number Nine, Number Eleven, Number Fourteen and other old Oil Pulls have been giving dependable service year after year for many years, and that they are still good for many more seasons of day-in and day-out work. There is no tractor built that can match these records of years of dependable, continuous service.

And Oil Pull economy is as remarkable as Oil Pull endurance. The Oil Pull is the only tractor that is *guaranteed in writing* to successfully operate on kerosene under all conditions, at all loads.

All Oil Pull tractors are oil-cooled. The Oil Pull was designed to be cooled by oil instead of water to increase efficiency and decrease trouble. No freezing or boiling over in extreme temperatures. No scale deposits in cylinders or radiator, no rusting of internal parts, no clogging of the circulating system.

Advance-Rumely puts quality first and always will—it believes in and practices the policy—"The life of a tractor, not price, determines its value." Remember, that in anything you buy "You get just what you pay for."

For 1920, there are four sizes of this famous tractor—rated as follows: 12-20, 16-30, 20-40 and 30-60 H. P.

The same features that for years have characterized the "Save-all-the-Grain" Rumely Ideal Separator will be maintained for 1920. One new size is added, however,—the 28 x 48.

This gives a lineup of five models for 1920, ranging from 22 x 36 up to 36 x 60. It offers a size from the small outfits for individual use to the big outfits that will meet the needs of the largest custom thresherman.

The superior characteristics of the Rumely Ideal are recognized everywhere.

The straw is kept constantly on the move in a steady even flow from cylinder to stacker, due to the exclusive Ideal design. No possible chance for bunching, clogging, winding or choking.

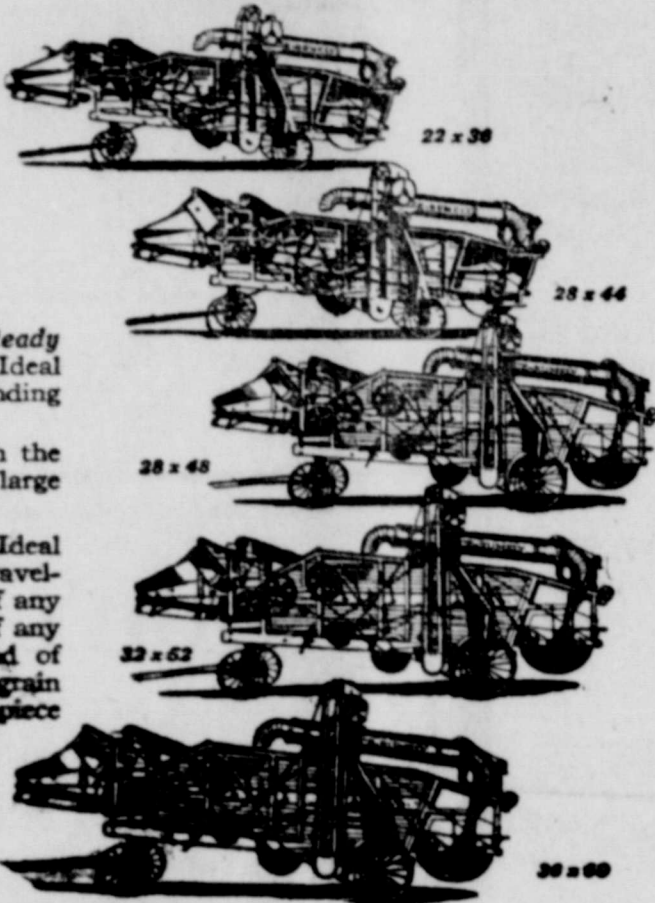

It is this sound fundamental principle upon which the Ideal is built that is responsible for its now famous large capacity, complete separation and thorough cleaning.

Among the exclusive features that have made the Ideal the foremost separator on the market are: patented traveling slatted chain rake and the largest grate surface of any separator built; size for size, the longest straw rack of any separator built; lifting fingers on straw rack instead of common shakers; seven feet of extra chaffer length in grain pan, on larger models—smaller sizes in proportion; one-piece frame construction; all adjustments, oil and grease cups on the outside.

The five sizes of Ideals for 1920 are 22 x 36, 28 x 44, 28 x 48, 32 x 52 and 36 x 60.

Your careful investigation and thorough study of the Advance-Rumely line is invited.

ELECTION NOTICE

Pursuant to an order made by the commissioners court of Floyd County, on Thursday the 27th day of May, A. D. 1920. Notice is hereby given that an election will be held in each of the respective voting places in commission districts, precincts No. Two (2) and Three (3) Floyd County, Texas, on June 29th A. D. 1920, to determine whether a majority of the legally qualified property taxpaying voters in said commission districts, precincts No. Two (2) and Three (3) desire to tax themselves for the purpose of raising a special road fund in said precincts, and to determine whether the commissioners court of said precincts, shall be authorized to levy assess and collect annually a tax of not to exceed 15 cents on the \$100 valuation of taxable property in said Commissioners precincts as a special road tax.

And all persons who are legally qualified voters of this State and county, and who are resident property taxpayers in said Commissioners precincts, No. Two (2) and Three (3) shall be entitled to vote at said election.

J. W. HOWARD,

County Judge, Floyd County, Texas

SPECIAL SESSION IS USELESS EXPENSE

Capt. T. J. Tilson returned Sunday morning from Austin, where he has been attending the special session of the legislature.

He says the present session is un-called for, useless and a waste of the people's money, and that it will accomplish very little. The session was forced upon Gov. Hobby on account of the federal department of agriculture demanding legislation relative to the pink boll worm. The legislature refuses to pass bills that are demanded by the federal "experts" and the bills that are about to be adopted by the legislature are not endorsed by the experts, and they threaten to quarantine the state. This will mean that the courts will be asked to enjoin the federal department.—Plainview News.

MATADOR WORKING FOR PROPOSED RAILROAD

Matador, June 19.—Matador, county seat of Motley county, is bidding for the Fort Worth and Northwestern railroad project from the Panther City to the wheat belt of the Plains.

At present Matador is the terminus of a shortline railroad connecting with the Quannah, Acme & Pacific. The service is not always what it should be, according to a local business man. Matador is surrounded by good agricultural land, has a population of 1,200. It has two banks, two gas, two lumber yards, two garages and several business houses. Two tests for oil and gas are now being put down. Large cattle ranches give the town a ranch character.

Figures on the production of this section are being compiled for presentation to the West Texas Chamber of Commerce and for use in presenting Matadors claims to the proposed new line.

BIND GRAIN AND PLOW AT SAME TIME

Crowell, Texas, June 19.—Farmers in this section are pulling disc plows behind their binders. This is done to keep from losing any of the power of their tractors, at the same time get their land broken early and conserve the moisture as much as possible.

LUBBOCK CHURCH WILL ERECT NEW BUILDING

Lubbock, June 19.—The members of the Church of Christ at this point recently voted to erect a new brick church building to cost approximately \$30,000 exclusively of furnishing which will be second to none on the Plains in appearance in point of cost. Preliminary plans have been prepared by W. E. Taylor, architect, and these will doubtless be accepted at the meeting of the church officials after which contract will be awarded and actual construction begun at the earliest possible date. Building will consist mainly of brick and tile with perhaps light stone trimmings.

MEAD CYCLE COMPANY
5 No. Canal St., CHICAGO

THE BOX CAR SITUATION

"The box car situation shows only slight improvement," said R. J. Parker, General Manager of Western Lines of the Santa Fe Railway, when asked about the car situation this morning.

Mr. Parker considers conditions grave and that they can only be met by cooperation of all interested.

"The car shortage is nation wide," continued Mr. Parker. "The Interstate Commerce Commission estimates that the minimum and immediate needs are 100,000 additional freight cars. The country has advanced and produces much more freight. The railroads on the other hand have not before the war.

"The car shortage has been intense—been able to add much equipment since freed by labor trouble at ports and terminals and by the lack of shipping. Long strings of cars under load choke at the principal ports. United effort is now in progress to break blockades under the supervision of the Interstate Commerce Commission and the car service commission of the American Railroad Association. Open top cars are moving east and box cars coming west for distribution where they are most needed.

Another feature adds seriously to the shortage," said Mr. Parker. "Many thousand cars are out of service, undergoing repairs. Every repair track is crowded with cars in bad order. Only about ten per cent of the box cars on hand out here are fit for grain heading. The greater percentage being foreign cars. Every day a car remains on the repair track adds to the car shortage."

The wheat crop now being harvested can not be moved as rapidly as readily for market and Mr. Parker considers the suggestion to provide farm storage or to stack the wheat as impractical. The Santa Fe has had no cars to store this year, because no cars have been available.

New equipment has been ordered and Mr. Parker states that additional orders will be placed soon. In the meantime it is necessary to make the best possible use of cars at hand by heavy hauling and handling and unloading promptly all cars as received.

A. M. HOVEY.

POLITELY BREEDERS ORGANIZE

Saturday evening, June 12th, some twelve breeders of standard bred poultry met with the County Agent and organized the Pined County Poultry Ass'n. The following officers were elected: President, H. P. Coleman; Secretary, Treasurer, Oliver Albert; and Directors, Mrs. Albert King, Mrs. A. R. Steiner and Earl Coward. The officers, which includes the three hundred above and the president and secretary-treas, form a board to formulate plans for any undertaking the drive.

N. W. MORGAN & CO.

Local Club Advisable

Mrs. John L. West was appointed to use any means she thought best in securing a price above the market price for granulated fresh turbotella eggs to be furnished by members of the Association during the summer months when there is no demand for setting eggs. Mrs. West will make further announcement of the results of her work.

One of the purposes of this organization is to put on a poultry show this fall or winter that will be a credit to our county and State. We have a number of real live breeders here who should put forth every effort to make this organization go. We can put on a show this fall. In all probability in connection with our County Fair that will have a far reaching effect in helping more of our people to become interested in better poultry.

The annual dues of the Association were set at \$2.50 subject to change by the organization at a later meeting. It was decided to make a membership campaign by use of a circular letter and plans have already been started for carrying on the work out hand above.

Oliver Allen, Sec-Treas.

DEMOCRATIC STATE TICKET IN PITH

For governor, Joseph Weldon Barber; Pat M. Saff, McLennan county; Robert E. Thompson, El Paso county; and R. F. Longene, Hunt county.

For lieutenant governor, J. W. Culp, Bell county; J. B. Davidson, Harris county; W. A. Johnson, Hall county; M. McNeals, Dallas county; W. T. Price, Dallas county; and R. B. Hump-hury, Dallas county.

For attorney general, C. M. Carleton, Bosque county.

For state treasurer, John W. Baker, Crosby county.

For judges of court of criminal appeals, W. L. Davidson, Travis county; F. B. Martin, Greer county.

For judges of supreme court, William E. Hawkins, Travis county; William M. Key, Travis, and William Pleson, Hunt county.

For commissioner of agriculture, Sam P. Dixon, Harris; George B. Terrell, Cherokee county.

For railroad commissioner, John L. Hoskins, Dallas; Earl B. Mayfield, Bosque county.

For superintendent of public instruction, Annie Webb Blanton, Denton; J. M. Carlisle, Swope county.

For state commissioner, J. T. Robinson, Harris county.

For comptroller of public accounts, Sam H. Gardner, Travis; Lon A. Smith, Henderson and Mark L. Wiggins, Hill county.

The committee unanimously voted for the selection of Fort Worth for its meeting in August.

Following receipt of more than five thousand petitions the committee voted to place on the ballot the Hobby home ownership amendment which was defeated by a small majority last year.

BILLION DOLLARS FOR YEAR ALLOWED BY PAST CONGRESS

Washington, June 11.—Approximately five billion dollars was appropriated by the sixty-sixth congress at its session ending June 5, according to a statement prepared today by Chairman Good of the house appropriations committee for the final issue of the congressional record. The exact total as given by Mr. Good was \$4,580,800,527 of this \$4,572,396,279 is for government expenses in the fiscal year beginning on July 1, and \$486,405,048 is to meet the deficiency for the fiscal year ending with this month.

Chairman Good said congress had reduced estimates of government departments for next year by \$1,474,422,062; the total appropriations in only two of measures exceeding the estimates. Congress added \$94,120,000 to the pension bill and \$70,801,000 to the postal bill. The latter increase was to meet advances in pay to postal employees while the pension increase was absorbed in part by increased pensions.

LARGE TRACTS OF PLAINS LAND TO BE DIVIDED

There is approximately fifty thousand acres of the finest of South Plains lands that will be cut into small tracts of 100 acres and sold to homesteaders this year. Already nearly eight thousand acres have been sold out of one of these tracts in Dawson county. There was approximately ten thousand acres of this land known as the Shalinger ranch, part on the market recently. Approximately twenty thousand acres in Lambek county and part of the W. L. Ellwood ranch was sold to eastern men this past winter. This land will also be divided into small farm tracts.

The division of these large land holdings is one of the biggest steps in the development of this great country.

SIXTEEN YEARS' EXPERIENCE

For sixteen years a corps of master-forgers have been adjusting and constantly perfecting the steel that goes into every part of the Ford car and the Ford One-Ton Truck. Each separate part has been studied to find the type of steel best fitted for it. Parts receiving constant surface wear are made of hard, thin-like metal; parts subjected to great vibration or resistance are made of softer, springy steel. Every part is made according to its use—that is, every genuine Ford part is. But there are also counterfeit "Ford" parts. They are sold as side-line by mail-order houses, down town stores, and many strangers. The misperceiving customer accepts them because they are called "Ford parts."

To make sure of getting the genuine Ford made parts, come to authorized Ford headquarters.

The Advance-Rumely Line for 1920

THERE is one tractor above all others that has proved that it can give dependable service at an economical cost—proved it over a number of years—proved it ever since the beginning of the tractor industry, and this tractor is the Rumely OilPull.

You buy OilPulls on performance—not promises.

Consider that "Old Number One," Number Nine, Number Eleven, Number Fourteen and other old OilPulls have been giving dependable service year after year for many years, and that they are still good for many more seasons of day-in and day-out work. There is no tractor built that can match these records of years of dependable, continuous service.

And OilPull economy is as remarkable as OilPull endurance. The OilPull is the only tractor that is *guaranteed in writing* to successfully operate on kerosene under all conditions, at all loads.

All OilPull tractors are oil-cooled. The OilPull was designed to be cooled by oil instead of water to increase efficiency and decrease trouble. No freezing or boiling over in extreme temperatures. No scale deposits in cylinders or radiator, no rusting of internal parts, no clogging of the circulating system.

Advance-Rumely puts quality first and always will—it believes in and practices the policy—"The life of a tractor, not price, determines its value." Remember, that in anything you buy "You get just what you pay for."

For 1920, there are four sizes of this famous tractor—rated as follows: 12-20, 16-30, 20-40 and 30-60 H. P.

THE same features that for years have characterized the "Save-all-the-Grain" Rumely Ideal Separator will be maintained for 1920. One new size is added, however,—the 28 x 48.

This gives a lineup of five models for 1920, ranging from 22 x 36 up to 36 x 60. It offers a size from the small outfits for individual use to the big outfits that will meet the needs of the largest custom thresherman.

The superior characteristics of the Rumely Ideal are recognized everywhere.

The straw is kept constantly on the move in a steady even flow from cylinder to stacker, due to the exclusive Ideal design. No possible chance for bunching, clogging, winding or choking.

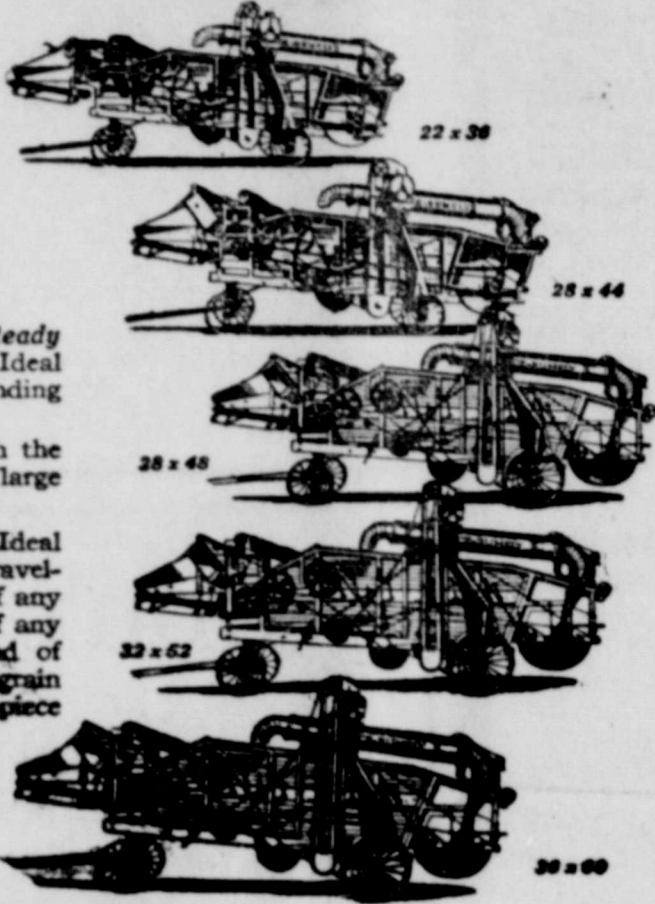

It is this sound fundamental principle upon which the Ideal is built that is responsible for its now famous large capacity, complete separation and thorough cleaning.

Among the exclusive features that have made the Ideal the foremost separator on the market are: patented traveling slatted chain rake and the largest grate surface of any separator built; size for size, the longest straw rack of any separator built; lifting fingers on straw rack instead of common shakers; seven feet of extra chuffer length in grain pan, on larger models—smaller sizes in proportion; one-piece frame construction; all adjustments, oil and grease cups on the outside.

The five sizes of Ideals for 1920 are 22 x 36, 28 x 44, 28 x 48, 32 x 52 and 36 x 60.

Your careful investigation and thorough study of the Advance-Rumely line is invited.

THE BOX CAR SITUATION

"The box car situation shows only slight improvement," said R. J. Parker, General Manager of Western lines of the Santa Fe Railway, when asked about the car situation this morning. Mr. Parker considers conditions grave and that they can only be met by cooperation of all interested.

"The car shortage is nation wide," continued Mr. Parker. "The Interstate Commerce Commission estimates that the minimum and immediate needs are, 100,000 additional freight cars. The country has advanced and produces much more freight. The railroads on the other hand have not before the war."

"The car shortage has been intensified by labor trouble at ports and terminals and by the lack of shipping. Long strings of cars under load choke the big terminals or lie idle for weeks at the principal ports. United effort is now in progress to break blockades under the supervision of the Interstate Commerce Commission and the car service commission of the American Railroad Association. Open top cars are moving east and box cars coming west for distribution where they are most needed.

"Another feature adds seriously to the shortage," said Mr. Parker. "Many thousand cars are out of service, undergoing repairs. Every repair track is crowded with cars in bad order. Only about ten per cent of the box cars on hand out here are fit for grain loading, the greater percentage being foreign cars. Every day a car remains on the repair track adds to the car shortage."

The wheat crop now being harvested can not be moved as rapidly as ready for market and Mr. Parker considers the suggestion to provide farm storage or to stack the wheat as practical. The Santa Fe has had no cars to store this year, because no cars have been available.

New equipment has been ordered and Mr. Parker states that additional orders will be placed soon. In the meantime it is necessary to make the best possible use of cars at hand by heavy loading and unloading and unloading promptly all cars as received.

A. M. HOVE.

POULTRY BREEDERS ORGANIZE

Saturday evening, June 12th, some twelve breeders of standard bred poultry met with the County Agent and organized the Floyd County Poultry Ass'n. The following officers were elected: President, Mrs. W. M. Masie; Vice President, H. P. Coleman; Secretary-Treasurer, Oliver Allen; and Directors Mrs. Albert King, Rev. A. R. Mendor and Earl Coward. The directors, which includes the three named above and the president and secretary-treasurer, form a board to formulate plans for any undertaking the directors think advisable.

DEMOCRATIC STATE TICKET IN FULL

For governor, Joseph Weidon Bailey Pat M. Neff, McLennan county; Robert E. Thomason, El Paso county, and B. F. Looney, Hunt county.

For lieutenant governor, I. W. Culp, Bell county; Lynch Daddison, Harris county; W. A. Johnson, Hall county; J. M. McNealus, Dallas county; W. T. Pace, Dallas county and R. B. Huspberry, Dallas county.

For attorney general, C. M. Cureton, Bosque county.

For state treasurer, John W. Baker, Crosby county.

For judges of court of criminal appeals, W. L. Davidson, Travis county; F. B. Martin, Gregg county.

For judges of supreme court, William E. Hawkins, Travis county; William M. Key, Travis, and William Pierson, Hunt county.

For commissioner of agriculture, Sam P. Dixon, Harris; George B. Terrell, Cherokee county.

For railroad commissioner, John L. Anderson, Dallas; Earl B. Mayfield, Bosque county.

For superintendent of public instruction, Annie Webb Blanton, Denton; J. M. Carlisle, Nueces county.

For land commissioner, J. T. Robinson, Harris county.

For comptroller of public accounts, Sam H. Gordlett, Travis; Lou A. Smith, Henderson and Mark L. Wiginton, Hill county.

The committee unanimously voted for the selection of Fort Worth for its meeting in August.

Following receipt of more than five thousand petitions the committee voted to place on the ballot the Hobby home ownership amendment which was defeated by a small majority last year.

BILLION DOLLARS FOR YEAR ALLOWED BY PAST CONGRESS

Washington, June 14.—Approximately five billion dollars was appropriated by the sixty-sixth congress at its session ending June 5, according to a statement prepared today by Chairman Good of the house appropriations committee for the final issue of the congressional record. The exact total as given by Mr. Good was \$4,859,800,327 of this \$4,373,395,279 is for government expenses in the fiscal year beginning on July 1, and \$486,495,048 is to meet the deficiency for the fiscal year ending with this month.

Chairman Good said congress had reduced estimates of government departments for next year by \$1,474,422,602, the total appropriations in only two of measures exceeding the estimates. Congress added \$64,120,000 to the pension bill and \$70,861,000 to the postal bill. The latter increase was to meet advances in pay to postal employees while the pension increase was absorbed in part by increased pensions.

LARGE TRACTS OF PLAINS LAND TO BE DIVIDED

There is approximately fifty thousand acres of the finest of Southplains lands that will be cut into small tracts of 100 acres and sold to homeseekers this year. Already nearly eight thousand acres have been sold out of one of these tracts in Dawson county. There was approximately ten thousand acres of this land known as the Slaughter ranch, put on the market recently. Approximately twenty thousand acres in Lubbock county and part of the W. L. Ellwood ranch was sold to eastern men this past winter. This land will also be divided into small farm tracts.

The division of these large land holdings is one of the biggest steps in the development of this great country.—Lubbock Avalanche.

FANCY PRICE PAID FOR LUBBOCK FARM

Lubbock, June 14.—Negotiations were closed here Saturday whereby Ed Putty purchased the improved 80-acre farm of R. C. Burns, situated about two miles south of this point for a cash consideration of \$225 per acre. Mr. Putty moved to this district a few months ago from Desdemona, Texas, and now owns something over 800 acres of land in this vicinity. Negotiations for this purchase were made through Messrs. Alexander and Posey of the Texas Land Exchange. This is one of the highest figures ever paid for land in this section.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . . . It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

Ford

THE UNIVERSAL CAR

SIXTEEN YEARS' EXPERIENCE

For sixteen years a corps of metallurgists have been studying and constantly perfecting the steel that goes into every part of the Ford car and the Ford One Ton Truck. Each separate part has been studied to learn the type of steel best fitted for it. Parts receiving constant surface wear are made of hard, flint-like metal; parts subjected to great vibration or resilience are made of softer, springy steel. Every part is made according to its use—that is, every Genuine Ford part is. But there are also counterfeit "Ford" parts. They are sold as side-lines by mail-order houses, down town stores, and many garages. The unsuspecting customer accepts them because they are called "Ford parts"

To make sure of getting the genuine Ford-made parts, come to authorized Ford headquarters.

FLOYDADA TEXAS

SPEAKER THOMASON GOES AFTER NEFF IN AUSTIN SPEECH

Defending his record on prohibition and woman suffrage and referring to one of his opponents, Pat Neff, Speaker of the Texas House of Representatives, R. E. Thomason of El Paso, was greeted by a large and enthusiastic audience addressed by him in the hall of the House in the interest of his candidacy for Governor.

As a special courtesy the Texas Representatives yielded their seats on the floor of the House to Travis county citizens who came forth to hear the candidate from the West, the overflow crowd being seated in the galleries. The Texas Legislature adopted a concurrent resolution tendering the use of the House to the Travis county Thomason for Governor Club for Monday night's occasion.

Mr. Thomason discussed his views of the general problems confronting the State of Texas, as well as devoting some time to prohibition, free passes, woman suffrage and "chicken salad" fees in reply to an attack made by Pat Neff supporters on Mr. Thomason's

record. The Texas Speaker also voiced his sentiment on the Texas election system.

"In referring to the questioning of his legislative record, Mr. Thomason said:

"I observe from the daily papers that an authorized spokesman for Mr. Neff at Dallas a few nights ago severely criticized and condemned me for having voted against submission in the early days of the Thirty-fifth Legislature, and charged that I was lined up with Governor Ferguson in that fight.

"The truth is that I did vote against submission at that regular session, because my district had voted against submission and I have never yet failed to carry out the instructions of my district on any question. I have supported prohibition in Cooke county and also in El Paso county. I helped to make the fight for local option in El Paso county when it was of hopeless task. The first race that I made for the Legislature was on a platform that

I would do everything in my power to help amend our election laws so as to eliminate the illiterate foreigners. I am author of the present literacy law requiring every man to make out his own ballot unless over 60 years of age or 'physically disabled. I actively supported woman suffrage in the race, because I wanted to trade off the Mexican men for the American women I think I did right in voting the instructions of my district, but if there be those who think I did not, I paid that debt with interest, because later I was joint author of the zone bill, which was the first law to really make Texas dry. I later supported statutory Statewide Prohibition, as well as voted for the ratification of the national amendment.

"After I had discharged my obligation to vote against submission, I told my people that I was going to vote for these other measures and they re-elected me without opposition. It is, of course a joke for any man who knows my legislative record to say that I was ever in harmony with Governor Ferguson, as I was a member of the Board of Managers of the impeachment trial also writing the first investigation report. It comes with poor grace from a supporter of Mr. Neff to accuse me of such, because after the Legislature had condemned the action of Governor Ferguson in the purchase of chicken salad, automobile tires, groceries, etc., Mr. Neff appeared as leading lawyer in the "chicken salad" case of Middleton vs. Terrell, and Governor Ferguson paid him \$300 for same, including a hotel bill of \$76 and this entire amount was paid Mr. Neff by Governor Ferguson out of the fund which had been appropriated to pay rewards for the apprehension of criminals. The entire record of this transaction can be found in the Comptroller's office. When the fight for clean government came on in Texas I was on the stump in fourteen counties and if Mr. Neff took a stand I have never heard of it.

"It also comes with poor grace from the friends of Mr. Neff who saw fit in Dallas a few nights ago to attack my record and to praise Mr. Neff for his alleged support of woman suffrage when I have a copy of a letter written by Mrs. W. E. Spell of Waco, who is one of the delegates-at-large to the National Convention, in which she writes of a lady in Cameron that she was in charge of the woman suffrage campaign at Waco last year and that Mr. Neff declined to sign his name to any indorsement, and that she had asked Dr. Brooks to telephone him and that Dr. Brooks told her that Mr. Neff would not indorse the move. She also says in the same letter that Mr. Neff refused in every way to assist her in the campaign. I have given my active personal and official influence toward enfranchising the women of this State.

"I also notice where Mr. Neff sought

to leave the impression at Wichita Falls that I should not be elected Governor because I live in the western portion of the State and to use his expression, "live nearer to San Francisco than I do to Wichita Falls." I did not know before that it made any difference from what section a man comes, just so he has the character and ability to fill with credit the office he seeks. I do not know whether Mr. Neff wishes to divide Texas or not. We now have a distinguished Senator who lives very near the Arkansas line and we have had many distinguished public men who came from near the eastern border of the State.

"Mr. Neff should not complain of the great distances in Texas, nor should he complain because a good friend of mine has offered to act for me without expense as campaign manager while I am away on official duties, and especially when Mr. Neff has been at different times during the campaign riding on free railroad passes. The records show that he holds pass No. 10677, issued to him on account of his being district attorney for the International & Great Northern Railroad, and pass No. 55754, issued to him on account of being local attorney for the San Antonio & Aransas Pass Railroad. It is a violation of the law to ride to political meetings or conventions on free passes. I know that it is unfair, because it is an indirect contribution to the campaign. I helped last year to pass the campaign limit expense bill and I expect to live up to same to the letter.

Mr. Thomason went into some detail concerning his ideas of a business administration of the State's affairs.

He said that he favored the consolidation of several offices as well as the abolition of all boards that have not legislative or judicial duties to perform.

He expressed himself as being anxious for a complete budget and audit system. He favors economy in the administration of affairs, but is not willing to cripple eleemosynary and educational institutions.

Reference was made to the statement made in Mr. Neff's opening speech at Waxahachie, in which he said that he favored the graduated land tax, while Mr. Thomason said that he had bitterly fought the same ever since being in the Legislature, as he was not willing to put a limit on the amount of land or any other property that had been honestly and justly acquired.

He said that he preferred to put a premium and not a penalty on the thrift and enterprise of our citizens.

Mr. Thomason discussed at some length the educational problems in Texas, and said that during the past

week he had used his official influence in the passage of the appropriation bill of \$4,000,000 to the public schools of Texas.

In his judgement a crisis exists in our educational affairs and he said that he would do everything in his power to remedy same.

Mr. Thomason said he favored the granting of pardons in deserving cases where there were extenuating circumstances, but believed absolutely in the enforcement of the laws of the state and that sure but not excessive punishment was the greatest deterrent to crime.

He also favored the amending of the suspended sentence law so it would apply only to young offenders, as he thought the present law was much abused, especially in the case of hardened criminals.

"I favor the payment of a poll tax and have been misquoted about my position concerning same.

"I believe that all persons should be required to pay something toward the support of the Government.

"I have said that I thought we should promptly amend our institutions so that none but American citizens could vote in any of our elections.

HOBBY IS PROPOSED FOR VICE PRESIDENT

Austin, June 19.—Each delegate from Texas to the Democratic National

Convention has been sent a letter by Sam Sparks of Austin, Barry Miller of Dallas and others, urging him to support the candidacy of Governor Hobby of Texas for the Vice Presidency on the Democratic ticket.

The letter points out that the defeat of Joseph W. Bailey in his fight against the national administration was watched with intense interest all over the Nation and that its significance was more than local. It claims much of the credit for the defeat of Bailey for Governor Hobby, and concludes:

"We think it would be a just recognition of the services performed by Governor Hobby . . . especially for his splendid co-operation with the national administration, that the Democrats from Texas put his name forward as a candidate for Vice President."

DAVENPORT SELLS HOME SECTION

W. A. Smith of Coleman has bought from F. Davenport what he calls his "home section" which is a well improved farm, northeast of Plainview seventeen miles and seven miles north of Lockney. Mr. Smith and wife were recently here prospecting. They expect to occupy the place.

Mr. Davenport still owns several sections in that community. Plainview News.

GRIST MILL

We grind on Tuesday and Saturdays. We have meal to exchange for corn.

Pull Together for an American Merchant Marine

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$3,000,000,000.

Everybody agrees that we must keep this fleet on the seas.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—

We shall be in the position of a department store whose goods are delivered in its competitor's wagons.

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

Send for free copy of "For an American Merchant Marine."

THIRTY GENERAL LAWS PASSED AT SPECIAL SESSION

Austin, June 18.—Approximately thirty bills of a general nature were enacted into laws during the special session of the Thirty-sixth Legislature which adjourned sine die today, although 310 bills were introduced during the session, 200 in the House and 110 in the Senate. With the exception of the thirty general measures all others were of a local nature.

The two measures of greatest importance were the pink boll worm and the one making an appropriation of \$4,000,000 for the public schools of Texas for the next fiscal year. The Legislature in fact dealt liberally with the educational interests of Texas, having also passed a bill appropriating \$1,057,000 for the educational institutions for their emergency needs. Measures were enacted increasing the salaries of county school superintendents approximately 50 per cent and teachers over 30 per cent, also authorizing reciprocity with other states in granting certificates and emphasizing professional training.

Sheriffs Get Raise.

Sheriffs of Texas were granted an increase of slightly over 50 per cent in fees, also allowed additional compensation for ex-officio services, while deputy county officials were granted an increase of \$25 per month in the counties of Dallas, Tarrant, Travis, Bexar, El Paso and McLennan. Salaries of county treasurers in Tarrant, Dallas, Bexar, Harris counties were granted an increase from \$2,000 to \$2,700 a year.

The gas industry of Texas was placed under the regulation and control of the Railroad Commission by the enactment of the so-called Cox gas bill, and the tick eradication law was amended so as to cure defects shown in the decision by the Court of Criminal Appeals.

Texas corporations are permitted to do a brokerage business in Mexico and other foreign countries in a bill. An increase of 10 per cent was allowed in the salaries of employees of the State Fire Insurance Commission and the maximum that may be expended annually by the Commission was raised from \$130,000 to \$212,500; safety automobile zones were created as well as zones for automobiles near schools. An appropriation of \$100,000 for the militia while on duty at Galveston was authorized.

Among the bills defeated were the boxing bill, the measure which sought to exempt municipal and county bonds from taxation and one which had for its purpose the making of an educational survey of the state. Three new district courts were created in Stephens, Wichita and Eastland Counties.

A resolution was adopted authorizing the Government to appoint a committee of Legislators and citizens not to exceed seven, to make an investigation of the advisability of removing the medical department of the University from Galveston.

The Governor today signed the bill providing that revenue derived by the University of Texas from oil leases on its lands shall be set aside as a permanent building fund; also the bill reducing the war amounting to \$185,000 quarterly reports of traveling expenses to the State Board of Control.

Other measures signed today by the Governor are:

Reimbursing the board of regents for expenditures made at Camp Mabry during the war amounting to \$185,000; authorizing the county commissioners court of various counties in Texas to create drainage districts; granting authority to certain State banks to become members of Federal Reserve Banks; increasing salaries of school teachers about 30 per cent; providing for the collection of delinquent taxes by incorporated cities; donating adva- lorem taxes to Freeport, Port Lavaca, Rockport and Aransas Pass for shore protection.

WHO EVER HEARD OF SUCH A THING BEFORE

King Solomon was the wisest man the world ever saw, but when he declared "there is nothing new under the sun" he was talking about happenings prior to 1000 B. C. and not of 1920 A. D. It was Brudner Jasper who hit the nail on the head when he declared "De sun sho' do move."

Since John Wesley began the Methodist church until last week you can search the pages of history and you will not find an instance where Methodist preacher ever sold a chicken, especially a frying sized chicken. Methodist preachers have devoured chickens by the countless millions—but nary one have they sold.

That is, none of them did until last week.

Rev. S. J. Upton, who lives near Seth Ward is a life-long preacher of the Methodist church and in high-standing in the denomination. He serves Abernathy mission as pastor. Last week he brought in and sold seventy chickens of frying size, and not only that he informs us that he has over three hundred more which he is raising that are nearly ripe and he will sell them. He did not say whether he intends to establish a fourth bank in Plainview or endow a Methodist mission on the foreign field. However, we are informed that Mrs. Upton intends to take a trip back in Tennessee or Kentucky to visit her old home.

Doubtless at the next Northwest Texas Methodist annual conference Bro. Upton will be called upon to explain why he sold all these chickens instead of eating them before his "character is passed."

Will wonders never cease! It is enough to make the Wesleys turn over in their graves.—Plainview News.

Owner of complete abstract of Floyd County Lands and town lots.

And give me your abstract of title work

Have had 25 years experience with Floyd county lands and land titles.

Address—

ARTHUR B. DUNCAN

Floydada, Texas

NOT MUCH TO RAILROAD

Of late the Fort Worth Star-Telegram has published several articles amount the extension of the Fort Worth & West Texas Railroad from Throckmorton or thereabouts to the Plains, thus connecting Fort Worth with this section.

Last week Col. R. Smyth went to Fort Worth to see about the matter and urge Plainview's claim for the railroad. Col. Smyth returned this morning and reported that the matter is mostly talk and the line will hardly be built, at least at no time soon.—Plainview News.

WITH EVERY NEW SUIT

We give an extra pair of pants. Let us outfit you.

A SUIT CLEANED LOOKS GOOD AND COSTS BUT LITTLE

These are very unusual times. None of us have ever seen anything like it. Dollars are worth but fifty cents. The National Government is encouraging thrift on every hand. If you save some of these fifty cent dollars they will probably be worth one hundred cents by this time next year. In that case you will have made 100 per cent on your savings. No body ever saved anything by buying Groceries on credit. Pay cash and spend your dollars where they will buy the most goods. We invite comparison. In addition to a complete line of groceries we have lots of Queens ware, tires, tubes and pumps, oil stoves, water bags, etc. Make headquarters with us

G. S. MORRIS & COMPANY

ARMY SHOES—We have an assortment of army shoes, priced from \$5 to \$6.—Cragor Furniture Co. 37-1f

FOR SALE—A new cook shack with new trucks. See J. L. Jones at Hil-Way Garage. 38-1f

LOST—A brown checked coat between town and depot. Return same to me and receive reward.—Weaver Mitchell 38-21p

CREAM PATRONS TAKE NOTICE

We are compelled to receive cream only on Tuesday and Friday. Beginning Friday June 18th, we will receive cream on Tuesday's and Friday's. What cream we have been receiving on Saturdays have been kept in our house until Monday. It gets in a poor condition on summer days and hurts both us and the producers. We must have all cream by 4 o'clock in order to bill it out by 5 o'clock. We thank you for your cream business and ask you to bring us more of it. Ask those who bring us cream if it pays them more than churning it. IT PAYS TO TRADE WITH US.

THE WISE GROCERY

MOTHERS CLUB SOCIAL

The members of the Mothers Club entertained their husbands with a picnic supper on the McAdams lawn last Thursday evening. The lawn was beautifully lighted. After a most delicious supper consisting of fried chicken, all kinds of salads, pies, angel food cakes and ice tea, tables were placed for Forty-Two. Several games were played, Bud Broyles and Mrs. Roy Griffith coming out as winners. Those present were: Messers. and Mesdames, Bud Broyles, Jno. Broyles, W. N. Brown, Charley Hatcher, J. W. Dines, Frank Dodson, S. M. Henry, Bob Ramsey, Ben F. Smith, E. Guthrie, Griffith, Norris, Sellers, George Morris, Burton Thornton, W. L. Whitt Buck Sams, Ossie McCollum, Carl McAdams, Mesdames Daff Griffith and Burns. Miss Velma Griffith. REPORTER.

HARVEST IN ARMSTRONG COUNTY IN FULL SWING

Claude, June 22.—Monday June 21 opened the harvest season in Armstrong county. Only a few fields were ready for the reaper at this time. By the latter part of this week almost every farm will have a reaper going. Another heavy rain Monday night will delay the work for a few days.

More than twenty combination reapers and threshing machines have been purchased, and thousands of bushels of wheat will go direct from the field to the granary.

Five dollars pay with board and no discount for lost hours in rainy days or damp mornings is the fixed price for harvest hands. Three hundred and fifty men are needed to save the county crop, which promises to be one of the best in the history of the county.

BURLESON'S STAND ON 'PRO' QUESTION DRAWS ATTENTION

San Francisco, June 22.—Postmaster General Burleson's statement today at San Antonio, regarding democratic platform issues, drew particular attention among party leaders here for the national convention next week, because of its frank declaration of modification of the Volstead prohibition enforcement act. Mr. Burleson's demand for repeal of "drastic and absurd" provisions of the act expressed in more direct fashion views which some party leaders here previously had voiced privately. Coming from a member of President Wilson's cabinet the statement was regarded as a possible intimation for the administration attitude of the prohibition issue before the convention. Senator Glass of Virginia, who is due here tomorrow, is understood to have been entrusted with a formal expression of President Wilson's views as to the platform.

ANNOUNCEMENTS

We are authorized to announce the following for county, precinct, state and district offices, subject to the action of the democratic primaries:

O. T. Prickett.
For Commissioner Precinct No. 3: R. L. Orman.
W. B. Wilson.
Public Weigher, Precinct No. 2: For County Surveyor: G. A. Linder.

PLAINVIEW NEWS ITEMS

Clyde Peters, a youth, escaped from the county jail Tuesday night of last week, by sawing two bars on a window, and then squeezing through. Several hours later he was arrested by Deputy Sheriff Ferguson south of Hale Center and brought back to jail.

J. Frank Norfleet has just sold 7,696.6 acres of his ranch in the western part of Hale county to W. M. Lou A. and Clark M. Mullan of Hill county, the consideration being \$138,538.80. This tract is known as the "Slaughter Land," which Mr. Norfleet bought years ago from the Slaughters. The deal was made through Frederick J. Hurlbut of Plainview and Andrew Wilson of Lubbock.—Plainview News.

C. W. Howard and wife and son, of Paris, Texas, are here visiting their sons, and brothers, Homer Howard of Lockney and Judge Howard of Floydada.

Mrs. Jane Condon of Indianapolis, Ind., is here on a visit to her brothers Homer Howard and Judge John Howard of Floydada.

Mr. and Mrs. Joe Wilson of Abilene were here this week visiting relatives in the city.

George T. Meriwether came in Wednesday from California on business. When asked if he was going to move back to Lockney he said his plans were not definitely determined, but this country certainly looked good to him. George is looking fine, and shows evidence of having enjoyed to the fullest California and its delightful climate.

Henry Crane was in the city Wednesday from his place in the brakes section. Henry is just back from a several months visit back east.

The writer, Mrs. Smith and sister, Mrs. Tomlinson and daughter, Miss Mildred, were Plainview visitors Wednesday.

The New Overland 4

Is ready for delivery and deliveries can be made at once for a short time. If you are in the market for a REAL Automobile you had better place your order NOW as we have no assurance that we can make deliveries for any definite length of time. The car shortage when grain begins to move will naturally slow down the movement of automobiles of all kinds and so you can see why you had best place your order at once.

The new Overland is a real Automobile and reasonably priced.

Come in and let us SHOW you how she performs

Can also make deliveries on

Republic Trucks

and if you are going to need a truck don't wait till you need it to place your order because then you can't get them. If you are a wheat farmer you will need a Republic to handle that grain with. Let us figure with you on a Truck and Automobile.
