THE AMERICAN PRESS ASSOCIATION

Recognition of Mexico by this government is urged by Mexican officials. It seems that Mexico has at last established a constitutional government, and one that is able to keep the peace. We see no reason why they should not be recognized.

The Plainview News announces that Plainview takes third place at Dallas Fair in farm products. Congratulations! Wonder if any Floyd county products got tangled up in Hale County exhibits, and labelled Hale County Products? We wonder?

Ex-President Taft is now on the stump for Harding. He endorses President Wilson's League of Nations stand, but now says that it was by reason of Mr. Wilson's stubbornness in insisting on Article 10 that caused the defeat of the League in the States. It looks to us like Mr. Taft has side-stepped the League issue, and joined hands with his old political side-partners in their efforts to destroy the League compact. Party ties are stronger with some men than principle. This seems to be the case with Mr. Taft.

A Washington dispatch announces that the Price Fixing Committee's work carried on in connection with the attorney general's department is to be discontinued for lack of funds. For all the good this price fixing business has done, it could have been discontinued at the inception of its inauguration. If there ever was a farce this price fixing business was one. The attorney general's department fixed the price through the various price fixing committees and the high cost of living

continued to go higher regardless of these activities.

"The credit bars will not be lowered at the banks for the benefit of the farmers," is the substance of a Washington dispatch, announcing the attitude of the Federal Reserve Bank in reference to rediscout paper on behalf of cotton growers. This is the government's answer to the plea of the farmers to extend them financial aid in order that they might hold their cotton until prices are readjusted. The ruling of the Federal Reserve Banks in these matters is simply an outrage. Is not this government for all the people, and not a class distinction? The Federal Reserve Banks have used their machinery for other commercial purposes. Why not use it for the aid of the farmer in this crisis? The government should step in between the Southern farmer and these cotton gamblers and save them from bankruptcy. It seems there is a general conspiracy to destroy the farmer in this price reduction proposition.

The Southern Division of the American Cotton Growers Association has asked President Wilson to fire David B. Houston, Secretary of Agriculture, alleging that he has worked against the farmers' interest in various matters. The trouble with the administration of our public affairs is the fact that there are too many politicians in office and not enough practical business men. The office of Secretary of Agriculture should be held by a man with knowledge of farming and farmers' interests. Houston is a college professor, and doubtless knows about as much about farming as a hog does about the Sabbath.

Sanctimoniousness is not always righteousness. What the world needs more today than ever before is pure, unadulterated right living—righteousness. Give us that and all other differences, man to man and nation to nation, will be settled.—Clarendon News.

Recently a Chautauqua speaker in Lockney proposed a change in the golden rule which would bring happiness to man kind, and the right kind of living. He stated that instead of man saying that he was as good as his fellows, say that his fellows were as good as he was.

While there is a great deal of agitation and unrest about the present cotton market, Floyd County has much to be thankful for. While we have a great deal of cotton to gather and will be effected to a large extent by the decline in the cotton market, yet we are not in as bad shape as the people of other sections of Texas, who have staked their all on cotton. We have a large wheat and other grain crops to fall back on. The wheat

market still holds its own. It is around two dollars per bushel. Floyd county can get by on its wheat crop, regardless of the cotton situation. In fact this section could discontinue cotton altogether and not be hurt in the change. This section is primarily a wheat, maize, sorghum, hog and cattle feeding country. We can diversify and other sections cannot, or want. If we were not to raise a pound of cotton in Floyd county we would still be in excellent shape if our other crops make their usual yields. Why should we worry?

Congressman Blanton, of the Abilene District, sends us a circular letter, offering the suggestion that there is 373 bonded warehouses in the United States containing liquor, and each one requires a guard or guards to protect contents of same against stealing. He suggests that the government either destroy this liquor, paying the distillers for same, or else concentrate all the liquor in one big warehouse and let one set of guards do the guarding. Congressman Blanton asks the question, "Would it be economy and wise statesmanship for our government to take over this liquor, paying the wholesale price of April 6, 1917, poison and destroy its possible use as a beverage, then convert and dispose of it commercially as fuel. Would you mind giving us your opinion of the above?" We certainly are in favor of taking over this liquor, and destroying same, or else concentrate it in one bonded warehouse, and let it be used for medicinal purposes. The best way to enforce the prohibition-laws would be to destroy it wholly.

A Dallas News dispatch says that the agricultural exhibits this year at the Dallas Fair are from West Texas a the Panhandle-Plains country. There are twenty-nine booths at the Fair, and West Texas and the Panhandle-Plains country has twenty-four of them. Hale and Lubbock counties are the only counties on the Plains that are represented this year at the Fair. Floyd County the banner agricultural county of all the Plains country, is not represented with an exhibit. Floyd county did not hold a County Fair this year, and no efforts were made to get together exhibits for the Dallas Fair. Next fall Floyd County will stage a County Fair that will rank first of County Fairs of this section. Already plans are maturing for an all-county fair. Floyd County can stage a Fair that will make people sit up and take notice. This year Hale county held her Fair, and Floyd and other counties adjoining took a majority of the premiums, Floyd county ranking first in the number taken. If Floyd county can go to a district county fair and take a majority of the prizes, why not stage a fair of our own, and take all the credit and benefits in way of advertising? The Beacon favors an all-county fair next fall for Floyd County, with permanent buildings, grounds, etc.

The suggestion of W. M. Messie in last week's issue of The Hesperian that plans should be started now for the establishment by next fair season of a permanent fair association, properly financed and with grounds and buildings, will meet with the approval of many Floyd County people who have felt for some time that this county should have such a permanent organization. That a thousand and one details must be worked out before even the solicitation of funds can begin is one of the things that must be realized. And with this thought in mind, it becomes a very urgent matter that some steps be taken now to put the matter before the people. It is altogether heartening to have an assurance from Lockney that people of that part of the county are heartily in favor of a permanent organization and that they will support it. Folks all over the County are talking in the same strain. And they are awaiting some forward active step on the part of Floydada citizens to make the dream of a dozen years become a realization.—Hesperian.

Start the ball to rolling. You can count us in on an All-County Fair. We are tired of furnishing advertising matter in way of farm products to other counties. We may as well take advantage of our wonderful resources, and stage a Fair of our own.

John Barlycorn and Fritz Beer are down and out forever so far as America is concerned. The U. S. Supreme Court Monday refused a rehearing in the national prohibition cases.—Plainview News.

While technically and legally this is a fact, yet John B. and Fritz Beer are still with us in the form of boot-leggers and an unlawful distilling of intoxicating liquors. National prohibition is passing through the experimental stage. It will pass this stage triumphantly. Every effort is being made to discredit national prohibition. The boot-legger is busy, and the moonshiner is working over time to bring about a situation that will disgust the people with national prohibition. But the people will not be easily disheartened in these matters. They know that prohibition and sobriety is right as a matter of principle and truth, and will wait patiently until a reaction sets in, and the people rise up and enforce the law against the illegal distilling and boot-legging of liquor. It will take time to enforce the laws relative to these matters, and that they will be finally enforced we have no doubt. The man that opposed prohibition in the outset is welcome in all the consolation he can get in claims that National Prohibition is a failure and that it can never be enforced. It has doubtless never

curred to him that it is his duty as a law-abiding citizen to frown down on every violation of the law, and to aid in prosecuting the violators of prohibition wherever they are found. The law has been placed on our statute books by a majority of the people, and it is the duty of the minority to abide by the wisher of the majority in these matters and assist in enforcing the law against boot-legging and distilling of liquor. No amount of prohibition violation will cause us to conclude that prohibition is a failure. It was once thought that cattle stealing could not be stopped, but the people took a hand in the matter, and today you rarely ever hear of a man stealing a yearling. So will it have to be with prohibition violators—the people will have to rise up and enforce the laws they have made in reference to the sale of liquor.

The daily newspapers carry dispatches to the effect that there is a general apathy on the part of the people in reference to the coming Presidential election. Political writers cannot account for it. The people do not seem to care whether the democrats win or the republicans gain the victory. The reason is evidently the people have worries of their own. The present high cost of living and the low markets have absorbed all other questions. They can not see any relief in either the Democratic or Republican future administrations. The people have reasons to be concerned over the situation, but we doubt their wisdom in their attitude of indifference. The future administration of our national affairs are bound to have something to do with the future prosperity of our people. The League of Nations proposition is weighty in itself and should command the interest of the people. In the delay in ratifying the League either in whole or by compromise we are still at war in a sense with Germany. As a result we have no trade relations with Germany. Germany heretofore and before the war bought a large portion of our low grade cotton. They would buy today if she could get it. A lack of trade relations incident to a failure to make peace with Germany has caused that country to remain out of the cotton markets. The South has on hands a great deal of low grade cotton carried over from last year's crop that they can't sell at any price. So they are directly interested in seeing the matters straightened out. The only hope of the South and the country at large is to have the League of Nations disposed of, peace made with Germany and her trade relations restored. The interests of the South are the interests of all other sections of the country. We should take a lively interest in the coming Presidential election and elect Cox and Democrats back to power.

The Beacon installed last Saturday another valuable and modern piece of machinery. The installation was a 32-inch Diamond Power cutter. We think we can boast of having the only power cutter outside of Amarillo and north of Wichita Falls. Some may say we went too strong and did not have any more use for a power cutter than a hog would have for a side-saddle. The Beacon had to install a new cutter, and the best was none too good for us and Lockney's modern newspaper equipment. Incidentally we might say that the Diamond is the best jam-up piece of machinery we have ever installed in a printing plant. This additional piece of machinery equips us with nothing but first-class and modern machinery. Our equipment now consists of the No. 14 line-type, two jobbers, a late series No. 15 C. & P. Cranston 6-col. press, Mentes Folder, Diamond Power Cutter, one 3-horse power motor and four other smaller motors. Some printing plant for a town of less than 1500 people. The beauty of it all is the fact that the people of Lockney and surrounding country appreciate our enterprise and are giving us a fine patronage. This late piece of machinery costs us \$900.

C. W. Warwick, editor of the Randall County News, announced last week that he has bought all stock in the News, and is now sole owner. The News was for years owned by a stock company. Mr. Warwick has been connected with the News as editor for ten years, and has given the people of his town and country a splendid paper. In his announcement he states that he has recently communicated with more than 200 newspapers and investigated various towns, with the intention of leaving Canyon, but has found none as inviting a field as Canyon. He, therefore, elected to stay with the Randall County News, and accordingly bought out all the stockholders. The writer is a personal friend of Editor Warwick, of which fact we are proud, and it is with much joy we learn of his intentions of staying on in Canyon, and that he assumes complete control as owner and publisher. While Mr. Warwick announces that he has had complete control of the News as to paper, yet he will find it more pleasant to be owner and publisher of his paper. The Beacon is owned outright by the writer. Not a soul owns a nickel in the Beacon plant save Ben F. Smith, who shapes its policies, writes all the editorial and feature articles, and only has to answer to his own conscience on any stand he takes on public questions.

The bottom has dropped out of cotton, so to speak. The market continues to decline. Last week cotton sold for from 18 to 20 cents per pound. This week, begging Monday, it sold for 14 cents on the streets of Lockney.

## Just Ask the Oil Pull User

THE most satisfactory evidence of a tractor's performance is the work it does for its owner over a period of time.

So before you buy your tractor just talk with tractor owners in this locality and get their real opinions.

Ask them about the cost of operation—learn whether they can use kerosene under all conditions and at all loads—find out the cost to plow an acre of ground.

Ask them about their experiences with their cooling systems—of any troubles from overheating—freezing—time taken for filling or draining, of any inconvenience and delays caused by rusting, clogging, etc.

Ask them about the power and dependability of their tractors—if the power is sufficient—if there is reserve power for the "pinches"—if they can depend upon their tractor for day-in and day-out, year-after-year service without delays and interruption.

Ask them how long they have used their tractors, cost of upkeep, and how many more years service they can naturally expect.

Ask them about the lubricating and ignition systems—their effectiveness and dependability.

Ask them anything you wish to know about a tractor. Then sum up what Oil Pull owners tell you and make your own comparisons—draw your own conclusions.

We shall be glad to furnish you with the names of Oil Pull owners.

There are four sizes of Oil Pull tractors—12-20, 16-30, 20-40 and 30-60 H. P.

**THE UNDERTAKER**

The midnight hour, the darkest hour  
That human grief may know,  
Sends forth its hurried summons  
Asks me to come—I go!

I know not when the bell may toll,  
I know not when the blow may fall,  
I only know that I must go  
In answer to the call.

Perhaps a friend—perhaps unknown—  
'Tis fate that turns the wheel,  
The tangled skein of human life  
Winds slowly on the reel.

And I! I'm the undertaker,  
"Coddled," you'll hear them say,  
"Trained to the shock and chill of death,  
With a heart that's cold and grey."

Trained—that's what they call it  
How little they know the rest—  
I'm human and know the sorrow  
That throbs in the aching breast.

**HUNT'S LIGHTNING OIL**  
For Sale by Stewart Drug Company.

Last season cotton sold for 45 cents per pound. This year's crop was made on high cost of living. There is no reason for cotton to decline in the manner it has. Forty cents per pound may have been too much for cotton, but everybody can see that cotton below 30 or 35 cents per pound is below cost of production. There is various reasons given for the decline of cotton. It is said that the mills have a year's supply of cotton goods manufactured and laying on their shelves waiting buyers. Merchants are not buying. They see no chance of selling to the people when the people will not have the money with which to buy. The spinners made their present supply of cloth on basis of 40 cent cotton and high wages. They are not willing to take their losses like the producer is compelled to do. The producer has no alternate but to accept the situation and take his losses. The mill men are undertaking to buck the game by holding the market up on finished goods. We haven't brains enough to foresee the final solution of these problems. This we do know, viz the Southern farmers are carrying the load of reduction, and have this year's profits completely wiped out. They get the hot end of the poker, and can't turn it loose. Our sympathies are with the farmers. He should not be compelled to carry this load, but as far as advising him is concerned, we are unable to do so. We can't see any further before us than the naked facts as they present themselves.

England is now in the midst of an industrial upheaval. The coal miners have gone on a strike, which threatens to paralyze all industries. The miners demand for higher wages, and lower cost of coal to consumers. The English government has resisted the demands of the miners. It is stated that if the demands of the miners were conceded the government would lose \$320,000,000, thus representing their profit on export coal. The hauling of coal production will inflict the sentence of starvation on millions of British and other subjects. There is a danger, as an outcome of this strike, of plunging England into

an industrial war, the result of which cannot be foretold. The English government denies the right of the miners to plunge the country into the dangers of an industrial war. The trouble with miners of England and organized laborers everywhere is they do not recognize the rights of others. They have not been willing to carry their share of the load incident to the world's reconstruction. The labor question is more acute than any other question before the people of the world. The governments of the world are staggering under a great weight in their efforts to readjust conditions and return to normal living. Organized labor is unwilling to sacrifice in any manner in order to aid the balance of society in carrying their burdens. If England should be thrown into civil revolution the peace of the entire world will be in danger. Already America has seen the effects of the present English coal strike, inasmuch as cotton went off two cents a pound in one day. Coal shortage will shut down English cotton mills, therefore the demand for American cotton will be curtailed.

**BLANTON, WOULD DESTROY LIQUORS IN STORAGE**

Being a part of the Constitution of the United States, it is therefore now a part of the fundamental law of our land, that intoxicating liquor can neither be manufactured nor sold. This law undoubtedly is a permanent one, for before it could be changed Congress by a two thirds vote of both the House and Senate would have to submit its repeal to the States, and such repeal would have to be ratified by the legislatures of three fourths of the States, a consummation practically impossible. Whether you are an Anti or a Pro, being a law abiding citizen, you favor upholding the Constitution.

At my request, Prohibition Commissioner John F. Kramer had his Mr. J. M. Young make a careful survey of the number of warehouses and the amount of intoxicating liquors stored therein, as of date August 1, 1920, and he has just certified to me that:

On August 1, 1920 there were in the United States 280 distillery bonded warehouses and 27 general bonded

warehouses, which contained in storage the following: 48,380,687.3 gallons of whiskey; 410,569.8 gallons of rum; 963,295.3 gallons of gin; 6,826.3 gallons of high wines; 871,356.6 gallons of alcohol; and 748,279.3 gallons of eucalypti spirits. In 23 special bonded warehouses there were 864,743.8 gallons of brandy, and in 4 industrial alcohol bonded warehouses there were 3,230,687.42 gallons of alcohol.

These 376 warehouses have to be guarded by the Government day and night, requiring 3 shifts for each eight hours, or a total of 1,128 shifts of guards maintained, supported and paid for out of the Treasury. It requires 376 times as many guards to guard 376 warehouses as it would to guard only one. It is necessary that these guards be fearless, reliable men of strict integrity, for there is a constant effort being made to steal or unlawfully extract liquor. These 376 warehouses are a constant temptation to lawless bootleggers and thugs. Our guards must be bribe-proof. The expense of guarding 376 warehouses in naturally 376 times greater than guarding one. With 376 warehouses there are 376 times as many chances of leakage. Congress must promptly require this liquor to be concentrated into one large Government warehouse, and stop this one enormous item of expense. Will you help influence this action?

Would it be economy and wise statesmanship for our government to take over this liquor, paying the wholesale price of April 6, 1917, poison and destroy its possible use as a beverage, and then convert and dispose of it commercially as fuel?

Sincerely yours,  
Thomas S. Blanton

Wichita, Kansas, October 16.—The International Wheat Show closes tonight, making a new epoch in agricultural progress. No less than 50,000 people visited the forum today and all who saw the Panhandle display made remarks complimentary to it.

Prizes awarded only to individual county exhibits as for display. The Panhandle-Plains Chamber of Commerce came first even from the beginning.

**Tire Prices**

**Some False Ideas About Them**

**Should an extra price buy an extra grade tire?**

It should not. Any first-grade tire should be built as well as a tire of that type can be built.

Cord Tires cost more than Fabrics, and are worth the extra price. Men who figure cost per mile are coming to Cord Tires.

But any tire, Cord or Fabric, should be built for the utmost service which that type can give.

**Some Men Over-Pay**

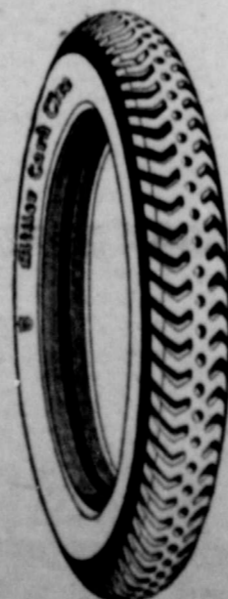

Some men pay extra prices, expecting extra mileage. Some pay under prices for an under-grade, and hope to save in that way.

Both are wrong. There may be exceptions—there are always freak tires. But countless tests have proved that Miller Tires at Miller prices, on the average, give the lowest cost per mile.

And Miller Tires, both Cord and Fabric, cost about the standard prices.

Here we constantly compare the best other tires with Millers. Also in ceaseless road tests. Thus, day by day and week by week, we are guarding the Miller supremacy.

**Tread Patented**  
Center tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-road side treads mesh like cogs in dirt.

**We Insist on This**

There are three requirements which Miller Tires must meet.

First, they must average greater mileage, type for type, than any rival tire.

We constantly prove this. Eight machines in our factory run two tires each under rear-tire conditions. Each tire is run 650 miles daily by running extra-fast.

**Won Over 21 Makes**

The Eldorado Stage Co. of Los Angeles tested 21 other makes against Millers on 12-passenger Packard Buses, weighing 8,600 pounds loaded. In this supreme test Millers won by long odds, on long-distance uniformity.

Here we constantly compare the best other tires with Millers. Also in ceaseless road tests. Thus, day by day and week by week, we are guarding the Miller supremacy.

**Miller Tires**

Winners in Million-Mile Test

Cords or Fabrics

Geared-to-the-Road  
Registered U. S. Patent Office

**Pennington Motor Co.**  
Lockney, Texas

**Every Tire Signed**

We insist that Millers must be uniform. Each tire is signed. A record is kept of the maker, the inspector and the process.

If a tire comes back for adjustment we learn the reason. If the workman is at fault he is penalized. If the inspector overlooked a flaw he is held responsible. If any process or material is at fault, we correct it.

After years of this checking we've attained uniform tires. There are whole large cities from which not a Miller Tire came back last year.

**Treads Must Endure**

Miller Treads, by our standard, must outwear the balance of the tire.

We have attained a tread which outwears rivals by 25 per cent.

Every day our tread stock is vulcanized, then tested, in our laboratory. We permit no variation.

Not a single Miller Tire with these new-grade treads has ever come back with the tread gone.

**Not 20,000 Miles**

Countless reports come to us on Miller Cord Tires showing 20,000 to 28,000 miles of service. And tales of that kind are told everywhere, we learn.

But mileage depends on conditions—on size, care, load and road. Millers are uniform, but they are not used under uniform conditions.

In our factory tests we average 15,000 miles on Cords.

But a Miller Tire will outlast—almost always—any tire that you place opposite, no matter what it costs. Compare them under like conditions, and see what mileage modern tires can give.

You will gain a new criterion.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.

THE MILLER RUBBER CO., Akron, Ohio

# Abreast of The Times

YOU WILL ALWAYS find us abreast of the times in serving our trade with only the best quality goods at the very lowest prices obtainable---Our prices have been reduced fully in line with recent wholesale declines---Don't let the cold weather catch you wishing you had bought those warm clothes---come let us show you that our prices will really save you money. ## LONG FIGHT PROSPECT IN BRITISH COAL STRIKE

London, October 16.—Final preparations for the expected strike of 1,000,000 British miners tonight were being made today throughout the United Kingdom. Emergency measures recommended by the government were being perfected by local authorities and

there seemed to be a disposition on the part of the government, the miners' federation and the people generally to carry on a long stern battle to settle definitely the issue on which the coal diggers have decided to walk out.

Large stocks of coal have been accumulated and private customers have laid in supplies, but the public has been informed that rigid economy will

be necessary. Many large industrial concerns have considered at least partial shutdowns, and this movement may develop into one of the most serious phases of the strike.

Parliament will convene on Tuesday and hope is still entertained that this event may tend to bring a solution of the trouble. Neither the government nor the miners' federation has

closed the door on further negotiations. The miners in Derbyshire and Nottinghamshire already have ceased work at the end of their shifts. This morning the executive committee of the National Union of Railway Men decided to call a special conference of delegates for Wednesday next when the fateful decision would be taken as to whether the Railway men shall support the miners through a sympathetic strike. Meanwhile, the railroad employees will remain at work. Some of the iron and steel works in

## ANNOUNCEMENTS

We are authorized to announce the following for county, precinct, state and district offices, subject to the action of the general election in November.

For District Attorney: Charles Clements.

For County Clerk: Miss Lola Walling.

For District Clerk: Tom W. Deen, G. C. Tubbs.

For Tax Assessor: D. I. Bolding.

For County Judge: W. B. Clark.

For County Attorney: A. P. McKinnon.

For Sheriff and Tax Collector: J. A. Grigsby.

For County Treasurer: Mrs. Lillie Britton.

For Commissioner Precinct 2: J. B. Teaff.

Public Weigher, Precinct No. 2: O. T. Frikett.

For Commissioner Precinct No. 3: R. L. Orman.

### "SMILES OF 1920" IS STATE FAIR FEATURE

A message from Mars is coming to the State Fair of Texas, dates of which are October 9 to 24, at Dallas. The message from Mars is the theme of an elaborate scenic extravaganza, taking the form of a musical revue, staged by the noted French producer, Emile de Recat, and known as De Recat's "Smiles of 1920."

De Recat and his scenic artists are already on the grounds at Dallas preparing for the extravaganza. An afternoon and night performance will begin each day at the State Fair of Texas. This will be the first time that the production has been shown to the public, the French producer choosing the State Fair of Texas' gigantic coliseum to offer his elaborate revue to the theatre world.

### 1921 MODELS ARE COMING - TO STATE FAIR OF TEXAS

Dallas, Texas—State Fair of Texas officials have never doubted that the 1920 automobile exhibit at the 1920 fair would exceed previous exhibits at these grounds, but it has come seriously to the attention of officials now preparing for the exposition that the huge automobile building, despite

the added space made available by extensive improvements, is not going to be able to accommodate the large list of entries. To provide for an overflow the merry-go-round and figure eight, former landmarks of the state fair grounds, have been torn down. All automobiles exhibited at the State Fair this year will be 1921 models, the State Fair of Texas having the distinction of showing these models first in the United States, as all other exposition dates are too early for manufacturers to release their 1921 designs.

Bernie Stone returned from Dawson county this week. He has purchased land down there and will move his sheep to same.

No depositor ever lost a penny by depositing in a state Bank in Texas

Mrs. Pruitt left Wednesday for her home at Abilene, after a few days' visit here with her son Vestal.

### LUBBOCK NEWS ITEMS FOR THE WEEK

C. L. Pierce, a farmer living near Idalou, while returning home from the thresher where he had been working Tuesday, was seriously hurt. While passing under a telephone wire the team became frightened, ripping away the standard which caught on the wire broke and struck Mr. Pierce on the side of the face, and it is feared the jaw bone is broken. Mr. Pierce is in the city for medical treatment.

At a called session of the Panhandle

Swine Breeders Association which was held in Childress during the Childress State Fair the dates for the annual winter meeting and contribution sale of the Panhandle Swine Breeders Association were set—January 12 and 13. The Association will meet in Lubbock. Thirt odd head of Poland Chinas and Duroc Jerseys contributed by members of the Association and not to exceed five head of each other breed are eligible.

A sad accident occurred Wednesday in Slaton when Weldon Preston, 12-year-old son of Mr. and Mrs. J. L. Preston, was seriously injured from

which injuries he died in a local sanitarium a few hours after the accident. The little Preston boy with some other boys, we understand, were swinging on to a moving car. The little fellow being thrown on his head, injuring him about the head and neck. This is a most sad occurrence and one from which the boys in this city would do well to take warning.—Lubbock Avalanche.

### NEWSY ITEMS OF THE FERRY FROM FLOYDADA

A fire, discovered and put out in its incipency Friday night, burned two bales of cotton but did no other damage. The fire was found on the cotton yard about 11 o'clock Friday night, the way the bales were burned indicated that the fire was not incendiary.

Floyd County's grand jury is furnishing all the District Court activities this week, the jury for the week, which was the last to be summoned for the term, having been dismissed Monday. The grand jury began its adjourned work Monday morning and are hearing many witnesses from all sections of the county. One indictment on a felony charge was given the court Tuesday.

Construction work on residences in Floydada and the surrounding country was considerably slow down Monday of this week, when all but eight or ten of forty or fifty workmen quit work, following a reduction by contractors in wage scale. The scale has been for the past several months on the basis of \$1.25 per hour for the best workmen with 75 cents for the minimum. A large percentage of the men were reduced from the \$1.25 scale to \$1.00 on Monday, the walk-out following.

County Judge J. W. Howard, announced the latter part of last week that the county apportionment per capita for the scholastics of Floyd County would be \$2.50. This followed the receipt of interest payment from Enchs & Flowers Floyd County school land note. The total apportionment in Floyd County this year will be \$17, the state apportionment of \$14.50 to be paid in installments later in the year and next having been announced some time ago by the State Board of Education.—Hesperian.

Floyd Huff has moved into his new home, just completed, in the West part of town.

G. C. Tubbs, candidate for District clerk, was in the city last Saturday, and remembered the Beacon with an appreciative visit.

### A METHOD THAT MADE MORE WHEAT

Here is a true story of how an old farmer in the State of Kansas practically doubled his yield of wheat, year after year:

This farmer always stacked his wheat just as soon as possible after it had cured a few days in the shock. He then slapped three big, heavy horses onto a stirring plow, and proceeded to stir that wheat stubble to a depth of from 8 to 12 inches. Nothing more was done to the ground till the period for sowing wheat, when the soil was given a thorough harrowing with the spike tooth harrow, and the seed wheat was put down to the packed through, well pulverized, moist soil.

Unhitching from the grain drill, a land roller was put on the field, giving it a good rolling, which not only crumbled the clods, but packed the ground, confining the essential moisture and leaving the ground in a good level condition for next season's harvesting.

These conditions gave the wheat quick germination, and it made a rapid, healthy growth before winter set in. When the wheat plants secured a good start, the owner turned three hundred head of sheep on his quarter section of wheat, and pastured it through the entire winter (keeping the animals off the field when it was wet, or extremely dry).

This man claimed the trampling of the sheep packed the seedbed still better than was done by the rolling. Then, aside from furnishing green, succulent pasturage for the sheep at a time when it is the scarcest, the droppings of the sheep went a long way toward keeping up the fertility of the soil—and it was evenly distributed at no cost for the distribution.

When the wheat was threshed the yield was thirty bushels per acre. Just across the fence, a field of wheat yielded about fifteen bushels to the acre.—The Agricultural Review.

### FARMERS ASK PRESIDENT TO OUST HOUSTON

Atlanta, Oct. 16.—Removal of David F. Houston, Secretary of the Treasury, from the Cabinet is urged upon President Wilson by resolutions adopted by the Georgia division of the American Cotton Association at the concluding session of its annual convention today. A consistently unfriendly attitude toward the farmers while Secretary of Agriculture and Secretary of the Treasury is charged to Houston. Propaganda disseminated by him is said to have been an important factor in depressing the prices of cotton and other farm products.

The convention also added a resolution calling for a reduction of cotton acreage by 50 per cent in 1921 and complete elimination of the crop next year, if it is necessary to sell the present crop at a price lower than the cost of production.

We have strived earnestly and have finally overcome almost insurmountable obstacles.

SEPTEMBER THIRTEENTH we shipped our first car of wheat. We have been doing business, in a business like manner ever since.

We are in the market for wheat and all kinds of Grain and will pay the market price for same. FURTHERMORE, our members secure all the profits made, IN OTHER WORDS we are getting you the very highest market price for your grain and handling same at cost. Our modern elevator insures a minimum expense in conducting business. OUR MEMBERS PAY NO MIDDLEMAN'S PROFIT, this saving is yours. It pays to be a member of The Lockney Farmers Co-Operative Society. If you are not a member it will pay you to become one. BRING US YOUR GRAIN, drop in and talk it over. Its no trouble to explain the merits of Farmers Co-Operation.

**Lockney Farmers Co-Operative Society**

Official confirmation of press dispatches from Detroit, announcing that there would be

## No Reduction

IN THE PRICE OF

# Dodge Brothers Motor Cars

Has Been Received by Carter White Motor Co., the Dodge Brothers dealers in this city. A telegram from C. W. Matheson, acting general sales manager to the local dealer reads:

**"Dodge Brothers policy has ever been to give full value for the price asked. There will be no reduction in the present price of Dodge Brothers Motor Cars. Newspaper reports to the contrary are absolutely untrue."**

"Dodge Brothers announcement was no surprise to us," said Carter White Motor Co. "In fact it is only a substantiation of Dodge Brothers business principles. At no time have they demanded an excess amount for their product. As in the past, they will continue in the future to demand a fair return for their efforts."

"The mere fact that the demand for Dodge Brothers motor cars is still greater than the supply, despite the great expansion program at the factory, has absolutely nothing to do with the decision to continue the present prices. In marketing their car, Dodge Brothers have never made a point of price and will never sacrifice the quality of their product to enter price competition."

Orde Kidd, who was freed on a charge of murder in the last term of the Randall County district court, was indicted Monday by the Federal Grand Jury on a charge of automobile stealing. He is held under two counts, A. N. Henson and J. A. Guthrie were called before the Federal Grand Jury to testify in these cases, since young Kidd came to Canyon to make out a

bill of sale on a car which was said to have been stolen.—Randall County News.

A petition is being circulated in Randall, Swisher, Deaf Smith and Castro counties asking that J. H. Messimer be pardoned from serving his sentence in the penitentiary for killing George Ward. The case was tried in Randall

county two years ago and resulted in a mistrial. Mr. Messimer was given a five years' sentence a few weeks ago in the Potter County Court, and has now been in the penitentiary for a month.

A large number of signatures have been secured on the petition.—Randall County News.

## WHITFILL & SONS NEW GIN

At Lockney is now in operation, and can take care of all the cotton brought them. We have a four-stand gin, modern in every detail. Our capacity is 35 bales per day, and 35 bales at night. Are prepared to run day and night.

We have recently rebuilt our gin at a cost of \$20,000, and have spared no pains in making it the most modern 4-stand gin on the plains.

Our equipment includes modern Cleaners, 4 stands, Double press, etc. We are prepared to give you as good turn-out and sample as can be found anywhere.

We urge the farmers to pick their cotton and take as good care of same as possible. The price of cotton this year is governed largely by sample. In order for you to get the best price, care should be taken in picking and the way you protect your cotton. Bring us your cotton and it will be ginned speedily. We want to do your ginning on the basis of the best of service possible.

## WHITFILL & SONS GINNERS LOCKNEY, TEXAS

### PLAINVIEW ITEMS

Monday Bob workman was arrested by City Marshal Chas. Wilson and turned over to Deputy Sheriff Knupp, who placed him in jail. Workman is charged with having stolen an automobile tire and also a pair of shoes from Carter-Houston's store.

Ebeling Bros. bought Valleyview Sensation, the grand champion Duroc-Jersey boar at the recent Northwest Texas State Fair held in Plainview; he also won the championship at the Randall County Fair. Mr. Alexandria, who judged the Durocs at the fair, declared him to be the best pig in the state. He is five months old, and was bought from R. E. Prewitt, late of Happy, but who now lives on Helen-Temple farm, five miles northwest of Plainview. The Ebelings have added him to their growing herd of thoroughbred Duroc-Jerseys.

John W. Alexandria sent in the item on page 3, relative to the farmers holding wheat for three dollars with a note saying: "We as wheat growers should join in this movement to force up the price of wheat by becoming members of the Wheat Growers' Association of the United States, of which there are more than 70,000 members. We should make haste and get into this organization by applying to W. H. McCreery, National Secretary, Wichita, Kans."

D. C. Aylesworth, of one mile north of Plainview, has made a profit of \$2,000 on two acres of celery this fall. Not only is he supplying the local and tributary markets, but he is also shipping by the car lot to Waco. Mr. Aylesworth has found the culture of celery so profitable that he will plant a large acreage of it next season. He finds that the climate and soil conditions of the Plainview country are ideal for raising of late celery crop. The abundant water supply from shallow water irrigation makes it possible to produce the immense yield and the consequent large profits.—Plainview News.

### SENIOR B. Y. P. U. PROGRAM (Rendered by Group No. 2)

Subject—"Sin and Sorrow."  
Leader—Maurice Hardesty.  
Scripture Lesson—Isa. 53—Tom Foster.

Introduction—By Leader.

"It is the Nature of Sin to Bring Sorrow"—Otis Carter.

"Sin Causes the Innocent to Suffer."  
—Alma Greene.

"Sin Brings Eternal Sorrow and Suffering."—Willie Hooten.

"How We are Saved from the Sorrows and Suffering of Sin."—Henry Box.

Paris, Oct. 13.—King Alexandria of Greece, who contracted blood poison resulting from the bite of a pet monkey, is worse and it is feared he cannot recover, according to information reaching the foreign office from there today.

It is possible if he dies that a republic may be proclaimed. If the monarchy is continued a foreign prince probably would be selected as the future king.

Prince Arthur of Connaught and Prince Sixte of Bourbon Parma are mentioned.

#### WEST TEXAS LEADS AT THE DALLAS FAIR

Dallas, Oct. 11.—Potentially the biggest cotton producing State in the United States, Texas is more of a stock farming and meat producing state than a cotton state, if the exhibits of twenty-nine of the Texas counties, in the Agricultural Hall in the State Fair of Texas are to be taken as a criterion. Practically everyone of the twenty-nine booths, filled with specimens of the agricultural resources of the counties represented were featured by displays of sorghum, grains, wheat and grasses. Most of them had cotton stalks and bolls of cotton, and the staple. The grain, however, predominated, just as West Texas counties predominated in the exhibits.

In this, of course, is found the explanation, in the main, for the preponderance of grain and grass samples in the exhibits. There are twenty-nine booths occupied by Texas counties in the hall. Of these twenty-four are West Texas counties. Hill, Harrison, Ellis, Smith and Gregg are the only counties not West Texas that have exhibits. Hill is a West Central Texas county. The most eastern of the counties included in the classification as West Texas are McCulloch and Brown, and both are essentially West Texas.

#### West Texas Exhibits Interesting

The major position given by the exhibitors to grain and grasses, and even to truck products, over cotton, is not due to any lack of cotton in the counties represented. Fisher county, one of the West Texas counties, will produce this year a bumper cotton crop. The Donley, Willbarger, Johnson, Lubbock and Hale County exhibits all feature crops other than cotton, yet in these counties there is now being gathered a good yield of cotton.

The fact that twenty-four of the twenty-nine counties which have exhibits in the agricultural building are West Texas is attracting much attention from visitors to the building. Some of the exhibits came over long distances. Three hundred miles and in some instances a longer distance than that was traversed by the people who came with the displays from counties like Bailey, Oldham, Dawson, Gray and Potter.

And of the West Texas counties which are exhibiting this year, the Panhandle-Plains counties are in the majority. Prosperous from the proceeds of a remunerative wheat crop, and now reaping the first fruits of a colonization movement from East Texas counties, the Panhandle-Plains counties are continuing the forward campaign they have always conducted. Hale and Lubbock counties have for years been in the vanguard of ad-

vance and the other counties in that section are no less active.

One area of 4,500 square miles is solidly represented in exhibits. Collingsworth is the center of this area, and Wheeler, Donley, Gray, and Childress counties are the other counties making up the representation. The booths of these counties are in different portions of the big hall, but the variety of products displayed, and the quality of the sampled products are in themselves a telling advertisement for the section. The whole gamut of agricultural products is run in the long list of articles that are shown.

#### Bailey County Shows Progress

Bailey county, the infant county of Texas, a plains county, is on the high road to success of progress that other of the Plains counties have achieved. Bailey county's bow to the world, announcing that it must be counted among the productive units of Texas, in a booth in the hall. A rising sun brightening the banner of the county, "Bailey, the Infant County of Texas," also lights the display the boosters of that section are making. An irrigated farm, in a miniature, with growing wheat and vegetables, is shown. Mrs. C. B. Eubanks wife of the cashier of the bank at Muleshoe, is responsible for the exhibit. Anxious that the resources of the county be known she went all over the county and raised a fund of \$500 to pay the expenses of the exhibit. She also gathered the products displayed, and has arranged them in one of the most attractive booths in the hall.

Muleshoe is the county seat of Bailey County, and is situated on the Santa Fe Railroad, the only railroad in the county. Wheat at present is the big money crop of the county. Mrs. Eubanks has some onions which prove the county she represents to be a serious contender with the Rio Grande valley in the growing of that vegetable. Thirty thousand pounds

of onions were grown in a single patch of one and one-half acres near Muleshoe. The onions averaged one pound apiece. The biggest values, in the output, are in the irrigated crops, but the dry farming land averaged forty to fifty bushels of corn to the acre. Abundance of water is gotten at a depth of from twelve to thirty feet, and the wells will pump from 1,800 to 2,000 gallons of water per minute. The fence about the booth is made of cane stalks.

#### SPOTS DECLINE \$10 PER BALE, MAXIMUM LOSS FOR ONE DAY

New Orleans, Oct. 16.—October contracts in the local cotton market today broke \$10 per bale under extremely heavy liquidations of long cotton inspired by the British coal strike and fear of its consequences. October, the "spot" month, was the weakest position on the boards and it dropped the full 200 points allowed by the rules of the Cotton Exchange. The market closed weak at the lowest of the day, at net losses of 105 to 200 points, October closing at 18.10 cents.

#### Low Records at New York

New York, Oct. 16.—There was a further severe break in the price of cotton on the exchange here this morning with all active deliveries making new low records for the season. Contracts for December delivery sold off to 10 cents a pound, or a full cent below the closing quotations of yesterday, owing to continued pressure of Southern offerings and liquidation by recent buyers who had anticipated a rally.

The unsettled British labor situation, including rumors that railway workers there might strike in support of the coal miners, and very unfavorable reports from the goods trade at home and abroad were among the influences responsible for the decline, but the persistent Southern selling was considered the chief cause of weakness.

### IT'S A COMFORTABLE FEELING

When you shave at our Shaving Parlors. Any person can have this comfortable feeling by visiting our place and having his barber work done by one of our experts.

V. E. PRUITT, Proprietor

#### FORMER PLAINVIEWIAN AT BANQUET WITH GEN. VILLA

George Perdue, formerly of Plainview, son of Mr. and Mrs. J. L. Perdue of this city, recently attended a banquet in Parral, in the state of Chihuahua, Mexico, at which Villa, the erstwhile bandit, was the guest of honor. Villa has laid down his arms,

disbanded his army and is now farming and living at peace with the Mexican government. At the banquet, so Mr. Perdue writes, Villa wore a Palm Beach suit and a Panama hat, carried a gun and had a bodyguard with him. One hundred covers were laid at the banquet and it was a very important affair.

Mr. and Mrs. Perdue and child have been living in Parral for some

time, where he is cashier and auditor for the American Smelting Co., which he was connected with at El Paso, before going into Mexico. The Perdues live in the house which was occupied by Villa when he was in charge of Parral in past times. The house has heavy bars at the doors and windows. Villa's wife and two children have recently come to Parral to join him.—Plainview News.

## West Texas Gin Co.

Now Fully Equipped

—and prepared to gin all the cotton that comes to them. We are prepared to gin day and night, which gives us a capacity to take care of all the cotton that comes to us. Night ginning will be inaugurated whenever the picking situation demands.

Our crew are all experienced and first class gin men. Our gin was thoroughly overhauled this past summer and every piece of machinery is in first class shape. We feel sure we can give you as good service, turn-out and sample as any gin on the plains.

PICK YOUR COTTON

We urge the farmers to pick their cotton, and keep it in as good condition as possible. Cleaner the cotton, better the sample and better the price you will receive when you go to sell same.

In order to meet the farmers half way by reason of the low price of cotton, we have lowered our ginning price from 50 to 40 cents per hundred.

### Why Suffer?

Cardui "Did Wonders for Me," Declares This Lady.

"I suffered for a long time with womanly weakness," says Mrs. J. R. Simpson, of 57 Spruce St., Asheville, N. C. "I finally got to the place where it was an effort for me to go. I would have bearing-down pains in my side and back — especially severe across my back, and down in my side there was a great deal of soreness. I was nervous and easily upset.

TAKE

## CARDUI

The Woman's Tonic

"I heard of Cardui and decided to use it," continues Mrs. Simpson. "I saw shortly it was benefiting me, so I kept it up and it did wonders for me. And since then I have been glad to praise Cardui. It is the best woman's tonic made." Weak women need a tonic. Thousands and thousands, like Mrs. Simpson, have found Cardui of benefit to them. Try Cardui for your trouble.

### FARMERS' GIN FIRE WAS INCENDIARY IS BELIEF

Indications that the fire which destroyed the Farmers' Gin just before its completion Wednesday night of last week, was incendiary have caused the other two gins in Floydada to go to extra precautions to prevent a recurrence of the same. Besides a regular night watchman employed by business men over the town, each of the gins have employed a night watchman and have put electric lights in every dark corner of their gin properties and have lighted all the approaches to them as well.

It was developed that within 15 minutes after the fire was first discovered in the Farmers' Gin property the building was afire from one end to the other, although no cotton or other easily combustible matter except some carefully stacked bagging, was in any part of the building. This added to the fact that the building was a mere shell consisting principally of siding and dimension materials not readily ignited, with tin covering adds to the belief expressed by the owners that the fire could hardly have been due to any other cause. The three gin companies have joined in an offer of \$1,500 reward for "the arrest and conviction of any party or parties burning or attempting to burn, destroying or attempting to destroy" any gin property in Floydada.

The Farmers' Gin Company have begun the reconstruction of their gin and expect to have it ready within 30 days, and will help take care of this season's crop. W. L. Boerner left Monday for Dallas to buy a new gin and a telegram from him Wednesday stated that the machinery would start rolling that afternoon. A crew has been at work since Monday clearing away the debris of the fire, and patching the foundation in the broken places, while carpenters cut lumber for the building proper. Wednesday the frame work was begun.

The immediate reconstruction of the building was undertaken by officials of the company upon the insistence of business interests of Floydada and farmers of the surrounding territory who are of the belief that two gins cannot handle the crop here this season as it is offered. The loss sustained due to the rush of reconstruction will be born in part by donations, a full list of which will be given out next week. The loss due to the fire will not be covered in any part by this donation. This loss is estimated between \$5,000 and \$9,000.—Hesperian.

### HARVEST QUEEN MILLS IS ERECTING DRIER PLANT

The Harvest Queen Mills have begun the erection of a drier plant at their big 220,000-bushel concrete elevator and their milling plant in this city. We are informed that the drier will cost about \$10,000. It is being installed for the purpose of taking care of wheat that needs drying, thus saving the farmers much money in wet seasons.

The handling of wheat has become a very important business in the Plains country, and many elevators have been built this year, and several others are to be erected, as well as extensions made to those now operating.

### LESLIE FLOYD GRAIN COMPANY GRAIN, COAL AND FEED

Announces the opening of their elevator.

We solicit a share of the grain business of this section.

We are in a position to buy your grain outright.

See us before you sell or store.

We handle coal, and would be pleased to book your orders. Coal will be scarce and hard to get this winter, so you had better buy yours now.

We can take care of your needs in way of all kinds of feeds.

## No sir-ee, bob!

No premiums with Camels—all quality!

CAMELS quality plus Camels expert blend of choice Turkish and choice Domestic tobaccos pass out the most wonderful cigarette smoke you ever drew into your mouth!

And, the way to prove that statement is to compare Camels puff-by-puff with any cigarette in the world!

Camels have a mild mellowness that is as new to you as it is delightful. Yet, that desirable "body" is all there! They are always refreshing—they never tire your taste.

Camels leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor! Your say-so about Camels will be:

"My, but that's a great cigarette".

Camels are sold everywhere in individually sealed packages of 20 cigarettes for 20 cents, or ten packages (200 cigarettes) in a glassine paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.
