

# Lockney Beacon

Volume 20

Lockney, Floyd County, Texas, Friday, Nov. 3, 1920.

Number 11.

## A. B. BROWN SAYS FINANCES ARE EASING UP RAPIDLY

Lockney Banker Says Crest of Waive of Depression Has Passed and that Much Better Times are very Close at Hand.

The financial outlook is better than it has been for weeks, and it is the opinion of leading financiers that we have weathered the worst of the storm, and the best evidence that we have that things are going to be better in the near future, is that call money on Wall Street the past two weeks reached a lower level than it has for three years, having dropped as low as five per cent, a low level that had not been reached since 1917.

The financial thermometer of the country, as a whole, shows a decided increase for better, and perhaps nothing could be more encouraging to us at this time than the fact that the Federal Reserve Bank of this district has increased its reserve from 8.9 per cent to 18.3 per cent over a period of only a few weeks, and Kansas City shows an increase from 15.9 to 24.8 per cent over the same period, so it can readily be seen that conditions are growing much better. The Federal Reserve Banks act as the thermometer of the nation, and all of the Federal Reserve Banks show a substantial increase of reserves. They reached the lowest ebb on October 15th, and since that time have had a tendency to loosen up, and they will continue to loosen as a very heavy process of liquidation is now on, and as soon as the people have retired their debts to the proper degree everything will again be leveled.

Locally speaking, we have no reason whatever to become alarmed over the situation, as we are perhaps in better shape to stand the shake-down than any other part of the United States. We produced this year the largest

crops of all kinds that we have ever produced. The farmers have an abundance of feed to run their hogs, and our future outlook for a wheat crop could not be better at this time, and what more should we expect? Of course the low markets have hurt all lines, but we have been expecting this for three years, and everyone has been longing for the day when the high prices of everything would come down, and it was inevitable to avoid the big drop that we all knew was sure to come sooner or later. A fat man seldom reduces without a sick spell or its equivalent, so we have nothing to be discouraged about since our longing desire for lower prices are now being realized. Every farmer should strive to save every grain of maize, and every boll of cotton, and the man that will be hardest hit will be the man who does not use his best efforts to save the crop that he has worked all the year to make. Every farmer should strive to save and care for this crop just as though he did not expect to raise anything next year, and when this little flutter in the markets are over we will all be the better off, and the dollar will be nearer its normal size than it has been for some time. The country is not hurt but is merely shaking down the inflation that has had its grip on the people for the past three years, and therefore, we should cheerfully and agreeably welcome the day when our big American dollar returns to its 100 per cent value with cheerful hearts as is becoming of big-hearted and patriotic American citizens.

## NEW OFFICERS TAKE CHARGE

Floyd County New Officials Qualify and Take Charge of Their Offices.

Floyd County's new officials took the oath of office this week, executed their bonds and have now entered upon the discharge of their duties. The new officials are W. B. Clark, county judge; Mrs. Lola Walling, county clerk; Mrs. Lillie Britton, treasurer (re-elected); John Grigsby, sheriff (re-elected); G. C. Tubbs, district clerk; A. P. McKinstry, county attorney (re-elected); G. A. Linder, surveyor (re-elected); D. I. Bolin, assessor.

If the commissioners court there are several changes. J. B. Teaff succeeds Mr. Barber from Precinct 2; Mr. King succeeds Mr. Trowbridge from Precinct 4; Mr. R. L. Orman, re-elected commissioner Precinct 3.

Mr. O. T. Prickett becomes Public Weigher of Precinct 2, succeeding Dewey Floyd.

## W. N. BROWN OPERATED ON

President of Lockney State Bank Underwent Successful Operation

Mr. W. N. Brown, president of the Lockney State Bank, was operated on at Plainview yesterday afternoon for appendicitis. Mr. Brown has been suffering for some time, which finally resulted in an operation. Phone message from Plainview Sanitarium stated that he stood the operation nicely, and was doing as well as could be expected. The many friends of Mr. Brown hope that he will speedily recover and will soon be back at the bank.

**HOW THE EDITOR GETS RICH**

A child is born in the neighborhood, the editor gives the loud-lunged youngster and the happy parents a send-off; the doctor gets \$25 and the editor gets \$50.00.

It is christened; the minister gets \$5 and the editor gets \$50.00.

A marriage takes place. The editor pushes his pencil and tells a dozen lies about the "beautiful and accomplished" bride. The minister gets \$10 and a piece of cake; the editor gets \$50.

In the course of time she dies. The doctor gets \$15 to \$100; the minister perhaps gets another \$5; the undertaker gets \$150 to \$500; the editor publishes a notice of the death, an obituary two columns long and a card of thanks, and gets \$500.

No wonder so many country editors get rich. Have you paid your subscription? Claude News.

## LOCKNEY BANKS SHOW MOST HEALTHY CONDITION

Nearly a Million Dollars On Deposit in Local Banks. No Cause for Panicky Situation, and People Should Be Optimistic.

Now that we hear so much about hard times and scarcity of money matters, it might be well to call attention to the financial statement of the two banks of Lockney, and then ask the question, "Why all this aching about close money matters, about business stagnation, etc.?"

The two banks of Lockney, the First National and the Lockney State, show combined deposits on call of the condition of their business on the 15th day of November of \$881,098.13. This is a little less than one million dollars. This money belongs to the people of this community. As a rule it is scattered among all the people. There are very few if any large depositors with either of the two banks.

This money is subject to check and is sufficient to liquidate the outstanding obligations of the people. This financial condition is such as to enable the people to carry on their business as heretofore, not in a speculative or extravagant way, but in a conservative manner.

We have seen the time in Lockney when the combined deposits of both banks did not amount to \$200,000. Now we show more than \$800,000.00. Of course there are some more people here than then, but not near in proportion to the deposits as shown in these recent statements.

The truth of the business is the people have become panic stricken on account of the low markets. There are several classes of people in this

world. There is one class that are glad of any excuse to stall around about the discharge of their obligations. There is another class that are good for their obligations at any old time, but when times like these come on they become panicky and are afraid of the future. They lose faith in everything, and are afraid to turn loose of what they have for fear they will not see any more. This attitude cripples business, and brings on a general stagnated situation. If a man has a bunch of money and takes it out and buries it, it is taken out of circulation and it might not have existed at all for the good it will do in the business world. So it is if in banks and not used to discharge obligations, or purchase necessities.

What the country is in need of just now is confidence. This section, and Lockney community in particular, is in fine shape, with plenty of money on deposit to meet outstanding obligations and carry on business in a lively manner.

Our banks show a more healthy condition than any bank or banks in Texas, according to the size of towns. We have twice the amount of money on deposit as other towns in the Panhandle twice as large as Lockney.

Confidence is the thing. Buy what you need. Trade with your merchants. Pay your bills. Put your money into action. You will make more next year than you have this. The market condition is only temporary.

## LANDRUM POST HOLDS MEETING

A Library Will Be Established—100 per cent Membership is Sought

At seven o'clock last Friday night, when games of billiards, checkers, forty-two, dominoes, etc., were in full swing, the command "Attention" quickly brought the members of the Landrum Post American Legion, which marked the beginning of a very interesting, enthusiastic meeting, and one of much interest to the local Legion members. Although the time for this meeting had not been thoroughly or satisfactorily announced, a large number of the boys were there. Some came because they had heard that it was meeting night, others were there through force of habit, the habit of making the club rooms their headquarters for recreation and enjoyment.

One of the main features of this meeting was the decision to establish a library and comfortably equip a club room for the convenience and benefit of the members. A large room is now partitioned off this week, in the west end of the Legion Hall, and it will be immediately furnished with tables, chairs, a book case, a Victrola and other paraphanelia that go to make a library attractive, comfortable and convenient for the boys. Books for the library will be purchased with funds appropriated for that purpose from the Legion treasury. We shall also cheerfully accept good books from anyone wishing to make such donation. If you have a good book that you do not intend reading any more, and would like to see it put in active use, kindly leave it at the Lockney Drug Store for the Landrum Post, and we assure you that it will be greatly appreciated.

Never mind if it's a little soiled, bring it right along. A book that is soiled by usage is invariably a good one, and that's the kind we want—and need.

Other business matters were discussed and favorably disposed of. Four applications for new membership were unanimously accepted. In fact everything voted on at this meeting, save the election of the new Post Historian, was unanimous. This honor, we are forced to record, was "wished" upon us by a majority, despite our protest. Now, that we have this distinction, and no legitimate means by which to unload it onto some comrade, we shall make the best of it, and with the co-operation of everyone, the Landrum Post shall be of the liveliest and most successful of the American Legions.

drive for a hundred per cent membership every day who are not members but who, we know, will be the service during the world war if you are an ex-service man are not a member of the American Legion, you are doing yourself an injustice. It is a very inexpensive organization and one of which every ex-serviceman, who was honorably discharged by all means be a member.

## LANDRUM POST HOLDS MEETING

A Library Will Be Established—100 per cent Membership is Sought

The Landrum Post has an up-to-the-minute club room, and improvements are rapidly being made. The doors are always open to members. On cold evenings and nights there's always a hot fire, and you will find someone there, at almost any time, who can make it warm for you in a game of "call-shot" or billiards, or who will put the gloves on with you without being badly out-classed.

A meeting will be held at the club rooms on the third Friday of each month, at seven o'clock p.m. Let everyone be there next meeting night. If you are a world war veteran and are not a member of the American Legion, come out and join us. You do not have to wait until the time of regular meeting. Either Post Commander Griffith at the Hi-Way Garage, or Post Adjutant Bates at the First National Bank, will gladly accept your application at any time, upon presentation of your Honorable Discharge, and will issue to you a membership button and card which will entitle you to full access of the Legion rooms everywhere, and of which you will surely be proud. Let your conscience be your guide.

R. W. C.

## PRICES OF FARM PRODUCTS GO LOWER

The prices of farm products continue to decline, and most of them are now lower than for several years.

The prices of farm products continue to decline, and most of them are now lower than for several years. The prices of turkeys, eggs and butter are the only ones that keep high, with butterfat staying up very well.

Today the price of middling cotton on the local market is a shade above 15 cents, though not much is grading middling. There is much low grade cotton and the price ranges from 7 to 15c a pound.

Wheat is selling about \$1.55 to \$1.65, which is the lowest since before the war. Maize is from \$10 to \$11 a ton for heads and \$1 to \$1.05 per hundred pounds for threshed stuff.

Hides are selling at only 3c a pound, less than it is worth to skin the animal.

The price of hogs is about 10c in Plainview, and cattle dropped today 50c in Fort Worth—Plainview Herald.

## BAPTIST CHURCH

Preaching morning and evening hours by the pastor. Sunday School 9-4:5. Sunbeams 3. Deacons meet at 3. B. Y. P. U. 5:30. Public cordially welcome to worship with us. Jno. P. Hardesty, Pastor.

## MARVIN JONES WANTS OLD TIME

Will Ask Congress to Put the Panhandle Back in Central Time

Washington, Nov. 27.—People of the Texas Panhandle will ask Congress to enact a law under which they may be returned in the zone of central time, as was the case before the Interstate Commerce Commission changed the lines two years ago, which placed a goodly portion of Western Texas in the district of mountain time. Representative Marvin Jones of the Amarillo district has a bill prepared which will enable West Texas to obtain this relief.

Some time ago Mr. Jones filed a complaint with the Interstate Commerce Commission asking that the line dividing the time zones be restored to the eastern boundary of New Mexico, thence south to the southeastern corner of that State, thence west to El Paso, thus placing all of Texas in central time. The new line, upon which the hearing developed complaint, causes a change in time a Childress, Big Spring, Del Rio and San Angelo. It was shown that the people of the western part of the State had business almost exclusively with sections of West Texas, using central time, and practically none with sections having mountain time. Every traveler from West to East Texas is compelled to change the setting of his time-piece twice causing considerable inconvenience, to say nothing, Mr. Jones said today, of the disturbance to the people of that section in their other affairs of life.

Sunday afternoon three young men were rather severely bruised up and two of them sustained broken bones on the Falls Road south of Floydada, when a car overturned and pinned them under it. Hesperian.

by four daughters, Mrs. Mike Robinson of Snyder, Mrs. Floyd Ewing and Mrs. Mike Pauley of Lockney and Mrs. Smith of Memphis, and one son, Mr. Sanford Hamilton. Mrs. Pauley was with her mother, on a visit to her sister, when she passed away.

In her death Lockney and Floyd county loses one of its oldest and most respected citizens. She was truly a mother in Israel, and was a zealous member of the Church of Christ. She was always present at all services of the church and loved the worship and the gathering together of her brethren and sisters. The Polar Star of her course was the Star of Bethlehem, and she died within sight of its matchless glory. She passed away peacefully, and she has gone to join the happy throng and to be with her Savior in that home prepared for those who love and serve the Lord.

She was a fond parent, and was devoted to her children, their welfare being her ever thought. In her death they have sustained an irreparable loss. They now mourn her departure, but not as those who have no hope, for some day they will meet mother in the Heavenly Home, there to dwell with her forever and ever.

To the bereaved children and relatives the Beacon extends its deepest sympathy.

**MARTHA ANN HAMILTON**

Mrs. Martha Ann Hamilton, aged 76 years, 8 months and 14 days, died suddenly while visiting her daughter at Snyder. The death occurred the first of the week, and her remains reached Lockney for burial Wednesday morning. The funeral was held at the college, conducted by Elder Liff Sanders. Interment followed in Lockney cemetery.

Mrs. Hamilton had gone to Snyder to spend some time with Mrs. Mike Robinson, her daughter, and she died very suddenly. Pneumonia was the immediate cause of her death.

She had been a resident of Lockney for a number of years, where she owned her home and other property. She was a noble Christian woman, a member of the Church of Christ, worshipping at the College. She was bereft of her husband a number of years ago, and at her death she was survived

THE AMERICAN PRESS ASSOCIATION

The home merchants all over the country are invading mail order houses' customers and showing them that home prices and home quality are beating catalog prices a mile and a half this fall. It pays better now to do a little shopping than it ever did before. Investigate prices and quality and you will save money and also trade at home.—Miami Chief.

Never in the history of advertising have merchants awakened to the value of advertising as now. For many years the mail order concerns seem to have had had a complete monopoly on advertising. Local merchants finally came to the conclusion that mail order competition must be met intelligently. So they began to advertise, and the results were so gratifying that they kept it up, and increased their space from time to time until it is no uncommon thing now to pick up a country newspaper and count from one to three full page ads of local merchants, chock full of prices. They have been putting the prices to the people in order to convince them that goods are sold at home just as cheap as the mail order concerns can sell them. Merchants use to whine and complain about the people sending their money away to mail order houses, but no good was accomplished in this regard, and they finally discarded the policy of complaining

and began to shoot the prices and argument to the people. The mail order business is on the decline. The local merchants finally got them on the hip and threw them good and hard.

Say, why be so scared about the money shortage. Some people are almost scared stiff because they think money is short. Possibly it is, but isn't people going to live on just the same? Why if we had no such thing as money, everybody must live. There is not such a shortage of money as there is a plenty of production. But why be so scared about the money shortage. Can't the cowman trade a beef for some corn and wheat? Can't the miller take a toll instead of cash for grinding? and the blacksmith swap work for some hogs, and a hundred other ways people will get by even if money does get short? The world has got to go on and people will live just the same, eat, wear clothes and enjoy life. Main thing is, don't worry.—Miami Chief.

There is no money shortage in this country, but a lack of confidence. The United States has more money than ever before in its history. It has all the money it had before the war and all that Europe had before the war. The "ants of this nation are running over with coin. Because you and I happen to be without the necessary funds, is no sign others are without. Money represents wealth. America has the wealth of the world. The trouble with markets and financial conditions in this country is that we have all the money and Europe has neither money nor credit. Europe has always furnished a market for our surplus, and now she is bankrupt. She hasn't anything to buy with. America won't sell her on a credit. When a man becomes insolvent his credit is gone. So with nations. As to the suggestion that you and I may not have money at this time, is a result doubtless of our reckless expenditure when money was plentiful. We doubtless thought these high prices would last always and there would never be another pay-day. We were mistaken, and the result of our extravagant living has caught many of us without much money on hand. Discussing the loss to farmers and producers in general, we will say that it has hit them hard, and we believe unnecessary. Prices should have been brought down gradually, and not a tumble all at once. But as to the how this could have been brought

about we have no suggestions to make. There is no need of alarm and the prevalence of the idea that we will all starve to death. A lack of confidence is the main trouble. Business should go right along, and every body make the best of the situation possible. In 12 months from now a dollar will be worth as much as ever.

Starvation is stalking many a land these days, and while America is going through the period of travail, our difficulties are due to inability to sell our surplus at a profit. On the contrary in other lands their troubles are because of inability to buy the surplus which we desire to sell. And so it may truly be said that the American people should be thankful, and more especially those who are of the favored number who live in the bread basket of Texas—the great Panhandle.—Hesperian.

All of which are truths, and a practical size-up of our present economic difficulties. Never in the history of America have we experienced the same difficulties as we are now experiencing. There has never before been a time when we could not ship our surplus to Europe. The United States can not live without the aid and co-operation of the balance of the world. We must have a market for our surplus products. We produce more than we can consume, hence this surplus must be sold to some one if we are to make a profit on our labor. We used to hear the argument that America was rich and powerful enough to live by herself, but our present difficulties have disproven this theory. The only silver lining to the cloud is that sooner or later we will have peace with Germany and other Central powers, and that trade relations will be established with these and other countries. England and France have not begun to reconstruct properly, by reason of the unsettled European conditions, and as a result these countries have not re-established their financial structure. These nations spent all their money in the war, and they have not had time to make more. They have no credit with this country. Until these matters are adjusted, and Europe gets in shape to buy our products we may expect to see low markets. A speedy signing of some kind of peace treaty with Germany, and a disposition of the League of Nations issue will hasten the time when we can sell our products to Europe.

H. C. Walker furnished the pumpkin pies for the Thanksgiving dinners of seven families, including his own. Thursday, Wednesday he brought in from his farm a big yellow pumpkin fourteen inches in diameter and thirty-two inches long. It was cut into seven big slices and a slice presented to each of seven of his friends. The Herald family received one of the slices of pie material, and it was "some pumpkin."—Hall County Herald.

As Governor Johnson remarked, that must have been "some pumpkin," or else these Memphis people are not much pumpkin pie eaters. If a pumpkin can be raised large enough to feed 7 average-size families it is, indeed, some pumpkin. However, we have our doubts about this pumpkin pie story, not that we would doubt for a moment the veracity of the Governor (under normal conditions) but lately there has been rumors of distills being located in Hall County. These distills and the products therefrom may have had something to do with the size of the pumpkins raised over in Hall county. The Beacon insists on a further explanation of this pumpkin story, and if possible its size dissociated with the discovery of distills in that section. They tell us that Hall county moonshine liquor broadens a man's vision. They say that it will increase not only the pumpkin yield, but will really make our imagines be gain living in the times when cotton sold for 40 cents per pound.

The Clarendon County News says: "Donley county farmers are forced to diversify—there is no other way out." This is sound advice. The community that stakes its all on any one crop is taking a long chance. Farmers should diversify in every community in Texas where it is at all possible. The advantage of the Panhandle-Plains section during these low markets and tight money is the result of their system of diversification. If this section had staked its all on cotton it would have been in as bad shape as North and Central Texas.

The bond issue to build a county hospital in Randall county, which was recently voted on failed to carry. It is rather an inopportune time to ask people to increase their taxes. Tax increase is unpopular at any old time much less when the markets are giving the farmers less than a living for his past years labor. A county hospital is a progressive move, and doubtless is needed at Canyon and in Randall county very badly, but you can't blame

the people in turning the proposition down under the circumstances.

The entire official staff of Clarendon has resigned. It seems there was no more decision on the part of the people, and between those who stood for a progressive city administration and those of the tight-wad element. The same situation exists in all towns in Texas. There is always to be found a class of people in every town who are opposed to civic pride and advancement along lines of commercialism. They are opposed to any move that costs them a nickel. They are tight-wads, who would like to live in modern towns and cities, but who want the other fellow to pay for these things.

Germany has sent a message to the League of Nations through Dr. Bernard Dernberg, stating that Germany was no more criminal in her practices during the war than her adversaries. Dr. Dernberg says that Germany is willing to prove the means and measures were no more criminal than those used by the Allies, and that Germany neither seeks excuse nor asks forgiveness of others for her conduct. All of which goes to prove that the fighting stopped a little too soon and that Germany should have been whipped to her knees. The allied forces should have marched on to Berlin, and given German people a real taste of war. The trouble with Germany is, she is whining and complaining at the terms she had to sign, and in spirit she is as rebellious today as when the war started.

The Lord's Day Alliance is said to be planning a Congressional campaign for federal Sunday closing laws, placing the lid on so tight that the regulations will resemble the old Mosaic law. Religious people in their zeal can become as extreme in their demands as any people. This move of the Lord's Day Alliance would take the free-moral agency away from man, and make him go to church whether he will or not.

General laxity in Texas National Guards is charged by Major General Jess M. Carter, chief of the Military Bureau. Because of the deplorable conditions twenty-five infantry units and thirty-three cavalry units are ordered disbanded.

At the State Teachers Meeting at Ft. Worth last week much optimism prevailed as to the future of Texas schools. Over four thousand teachers attending this meeting. The recent amendment to the State Constitution allowing communities to vote a tax rate in any sum they may deem proper has added to the bright future outlook for the schools in this state.

A hobo in New York has refused an inheritance of a million dollars, saying he preferred to continue his tramp existence. This goes to prove that all the ants are not to be found in the pecan groves of Texas.

Cash on hand in State Treasury is over four million dollars, according to the figures compiled by the Comptroller. The total valuation of Texas for 1920 is \$3,285,000,000. It is thought that the state tax rate this coming year will be placed at 22 cents.

Congressman Wood, of Indiana, says that 50,000 useless government employees will be dropped this winter through congressional legislation. If private concerns are compelled to curtail expenses, why not the government? There has always been too many government employees.

You have heard the question asked, at the beginning of winter "What have I done with my summer wages?" The question is asked now, "Why in the tender did I spend my money for silk socks and shirts, and not save a little of it to buy a cheaper living?"

We are passing the age of silk shirts, and entering the period of brogans and the shirt tail, the time when you were asked and made to pay \$1.25 an hour for any old kind of mechanic when labor will be darn glad to get a job at any old price.

### TEXAS POOL HALL LAW WILL STAND

Washington, Nov. 30.—Three cases attacking the constitutionality of the Texas law prohibiting the operation of pool halls for hire were dismissed by the Supreme Court, thus allowing the law to stand.

Those attacking it, the Dallas Labor Temple, the Galveston Artillery Club and several hotels failed to provide funds for the record after an adverse decision in a lower court, the clerk of the Supreme Court said.

# COAL! COAL!

We have just received a limited supply of coal for domestic and steam purposes. If you have not laid in your winter supply you had better see us while we are in position to fill your orders.

### FLOYDADA NEWS ITEMS

Floyd County had a total registration of automobiles with the State Highway Department of 1,267 on October 1st, according to a report just made public by highway officials, an increase over 1919 of 329 cars.

R. F. Terry, of Colorado City, brother of J. R. Terry, of Floydada, also last Thursday morning at an early hour at his home on a farm near that city.

With the return of better cotton picking weather gaining figures for Floydada have begun to climb with more spirit once more, though the figures are largely disappointing because of the indifference of many farmers to gathering the crop, and the shortage of labor where efforts are being made to gather it.

Mrs. Geo. M. Todd, for nine years a resident of Floyd county, died at her home northeast of Floydada last

Thursday morning. She was ill only a short time, her death resulting from apoplexy. The funeral services were conducted Saturday afternoon at 2:30 by W. A. Darden, pastor of the First Baptist Church, at the Floydada cemetery, where the remains were laid to rest.

A wedding of considerable interest in the Campbell neighborhood last Sunday afternoon was that of Miss Blanche Gray, daughter of Mr. and Mrs. W. T. Gray, who was married at the home of her parents to Mr. Roy Brewer, a young man of the same community.

Sheriff J. A. Grigsby returned last Friday from Stamford, bringing with him a 20-year-old boy who plead guilty in county court Saturday morning to the theft of some bridle bits from D. D. Shipley several weeks ago. The young man was fined \$10 and costs and six months in the county jail—Hesperian.

### PLAINVIEW NEWS ITEMS

During the past three years farm labor on the Plains has ranged from \$5 to \$8 a day and higher. Now, so we are told, plenty of such labor can be secured in Hale county for \$4 a day.

L. J. Mathis returned Tuesday from East Texas towns where he has been securing cotton pickers for Lorenzo farmers. Judge Mathis made a trip week before last and brought back thirty hands and this week he secured the same number making a total of 60 negro cotton pickers in the Lorenzo territory. A good portion brought their families. Lorenzo Enterprise.

The Kibbe Tractor & Implement Co., of Amarillo, write to us that they will put a branch house in Plainview for the handling of the Cletrac tractors and other farm machinery. This will be their fourth branch house in Texas, the others being at Dallas, El Paso and Amarillo. J. Lee Jackson, who has been general manager of the Dallas house for over a year, and prior to that time connected with the Inter-national Harvester Co., will be manager of the Plainview house.

The Green Machinery Co., which recently sent out nearly one thousand letters to farmers and others of Hale county with a coupon attached asking answers to several questions relative to tractors, informs us that the replies are now being received and are interesting. This tractor survey will be of importance to the county, and everyone who received a letter will please send in the coupon at once, so the survey can be closed up at once. Plainview News.

## WHAT FARMERS NEED

Every Farmer wants to keep track of farm income and expenses with as little book-keeping as possible—but he wants it kept absolutely accurate.

That's why every farmer needs a checking account. Many farmers have already found our checking account service indispensable. Our service will fit your requirements, too

An election will be held in Plainview Wednesday, December 1st to vote on a proposed \$100,000 bond issue, the funds to be used to pay for the extension of the sewerage system and for extensions of the water system. This is a very important matter, and the people of the town should take an interest in this election. The News is favorable to the proposition, as the city must have money with which to pay for these improvements.

The Lockney Beacon states that people of the South Plains are using Eggs to kill rats. They back one up to the rat hole, use a rubber hose to connect the exhaust with the hole, start the engine and goodby rat. That is not all they will do. A fellow once told us of one in a large gathering of automobilists that got hot and began stinking until it burst up the meeting. —Miami Chief.

### METEOR COMMUNITY MEETING

The Community Club met with Mrs. T. I. Bonds last Thursday afternoon. The meeting was opened with scripture reading and prayer, led by Mrs. Wingo.

Music "Down by the Meadow Brook," Reading, "Because" — Miss Mary Bungartner.

Discussion on good things to read this winter, led by Mrs. Day, and the advantage we have over our Pilgrim mothers, led by Mrs. R. E. Jones. Both were very interesting.

The Club voted to meet every two weeks, on Friday nights. The next meeting will be with Mr. and Mrs. R. E. Jones, December 3rd. All the parents that are interested are requested to be present.

Delicious refreshments of cake and punch were served.

Reporter.

### MUSIC CLASS ENTERTAINED

A very pretty entertainment was given by Miss Thelma Wise, assisted by her sister, Miss Vera, at her home in East Lockney Tuesday night, complimentary to her music class.

Shortly after the pupils all had arrived in the reception room, the hostesses had them engaged in a few out doors games, such as "Sailing Ship," "Riddle Guessing," etc. These games seemed to entertain the pupils delightfully.

After these games, the hostesses had the pupils repair to the reception rooms, where a musical program of twenty-six numbers was rendered. Each pupil rendered their part exceptionally well, reflecting their training.

After the program had been rendered the pupils were led to the dining room, where a spread of hot chocolate and cake were served. After refreshments all regretfully departed after pronouncing their hostesses as charming entertainers.

#### IMPORTANT MEETING OF METHODISTS AT ABILENE

The Presiding Elders of the North-west Texas Conference, of the Methodist Church, met in the city of Abilene the first of this week in a meeting preparatory to making a drive for the purpose of collecting all Centenary pledges now due. Dr. W. B. Rix, of Nashville, Tenn., assistant secretary of the Centenary, addressed the meeting on the importance of a full collection, as early as possible. Dr. J. T. Griswold, of Lubbock, was also present looking after educational matters. Judge J. H. Moore, also of Lubbock, was present, taking active part in the proceedings of the meeting.

From the 13th to the 19th of December was decided on, and set apart, as the time for collecting all pledges due on the Centenary subscriptions in the North West Texas Conference. All pastors are urged to preach a sermon on the importance of paying up to date all pledges made to the Centenary. Let every one who has made a pledge to this most important cause, remember that the pledge made is an obligation, and should, if at all possible, be promptly met.

Work on the new Methodist College, to be located in the city of Abilene, is to begin April the first, according to present plans. The first group of buildings is to cost \$300,000. Rev. J. W. Hunt, Commissioner for the new college will arrive in Lubbock next Monday enroute to Falls where he will speak before the preachers and laymans missionary institute in the interest of Christian Education. Rev. Geo. W. Shearer, who was also present in the Abilene meeting stated to a representative of this paper that the Southern Methodist University had received \$1,000,000 for endowment purposes, one-third of this amount coming from the Rockefeller Foundation, the other two-thirds coming from the city of Dallas.—Lubbock Avalanche.

#### WANTS TO ESTABLISH A HOG FEEDING PLANT

Secretary Barron of the Chamber of Commerce is in correspondence with a man of El Paso who wants to come to Childress and establish a hog feeding plant. He states that he hopes to feed out 1,000 stocker hogs this season and will probably increase his capacity by another season. In a letter this man makes an inquiry for information about the price of feeds of different kinds and other particulars.

All desired information has been furnished and it is thought the chances are good for securing this enterprise. Feed is both cheap and abundant in this country and there appears no reason why hogs may not be profitably fed for market at this point.—Childress Index.

#### TWO MEN CHARGED WITH TRANSPORTING WHISKEY

Canadian Record.—Two men, Vernon Cole and Gus Cree, of Wichita Falls, Texas, were arrested Saturday night in Canadian by Marshal J. C. Killebrew, charged with transporting whiskey. They were placed in jail and a preliminary trial was held before P. H. Lohms, justice of the peace, Wednesday. They waived preliminary and were bound over to await the action of the grand jury, their bonds being placed at \$1,000 each. They expressed an opinion that they could supply the bond.

A Mrs. Anna Bell Connell, also of Wichita Falls, has been held as a material witness in the case, her bond being placed at \$500 for appearance, and a cash bond was given by her husband, W. A. Miles, who married her just before the preliminary trial of Cole and Cree.

It seems that the men were coming to Wheeler county, they announced, to visit relatives, and Mrs. Connell, who desired to visit parents near Wheeler, was given an opportunity to ride with them. After visiting her parents Mrs. Connell was brought by the young men to Canadian to take the train back to Wichita Falls.

At the Hotel Moody people soon were made aware that there was good corn liquor somewhere near by the odds that came from the car the men came in. Mr. Killebrew was notified, and he soon interviewed the lady, who readily told him all she knew about the whiskey odor that came from the car.

She stated that after leaving the home of her parents near Wheeler the men drove to the Oklahoma line and left her at a farm house. They went into Oklahoma and were gone about three hours, and on coming back stated that they had had the trouble, which kept them away so long.

On her information and with her as a guide, Mr. Killebrew secured 3 gallons of whiskey in fruit jars, real genuine home brewed moonshine from Snaky Bend. The whiskey being in fruit jars, had leaked some and saturated a wagon sheet, and this trail of attractive atmosphere had led to the apprehension of the men under the charge of having whiskey in their possession illegally. The whiskey had been buried about two miles outside of Canadian.

The men appear to be about twenty-five years old. Their lady passenger is a young woman. An interesting sequel to the affair developed when W. R. Miles, the fiancée of the woman, on hearing of the trouble, came to Canadian from Wichita Falls, and he and Mrs. Connell were united in marriage in the court room immediately before the preliminary trial of the men.

#### Catarrh Cannot Be Cured

with LOCAL APPLICATIONS as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best local purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials free.

## What We Have Accomplished

On September 13th we shipped our first car of Grain. On October 21st our plant and contents were entirely destroyed by fire. We were operating only about six weeks until the fire stopped our activities. Our existence assured the farmers of this vicinity a reasonable market price for their grain. Besides this, and from a strictly business viewpoint, our business has been a success as will be shown by the following statement:

ASSETS	LIABILITIES		
Cash on Hand .....	\$10,172.53	Notes Payable .....	\$9,000.00
Office Equipment .....	400.74	Due on Grain .....	6,295.00
Insurance Money Rec'd .....	16,378.76	Bills Payable .....	1,791.00
		Allowed for Account	
		Sales .....	1,000.00
		Profits Earned .....	9,845.15
Total .....	\$27,952.03	Total .....	\$27,952.03

As shown by the above statement, after setting aside one thousand dollars for protecting claims for shortage, etc., we have earned, in about six weeks' operation, \$9,845.15. This statement is of October 1st, 1920, at which time the insurance money had not been paid. However at this writing it has been fully paid. In fact was paid about three weeks ago.

We are not operating against anyone. But we are "of the farmers and for the farmers," and we believe that our activities have justified our existence and assured our success. We believe that every farmer who has his individual interest, or the interest of the farmers generally, at heart, owes it to himself, his family, and the community at large, to become a member, and you are cordially invited to do so. As everyone knows money is tight at present and our members and others could not show their interest in their welfare, and our success better than by immediately subscribing, the full amount that they can afford, and all worthy, and honest farmers are earnestly invited to do so. If interested in the work we are doing please drop in at our office and talk it over or write to us.

**KEEP THE NECK YOUNG**

AGE shows itself in so many places, that the woman who seeks to keep young in spite of increasing years, must do more than massage her face, to preserve her youthful appearance. She must keep her neck young, as well as her face, for a flabby-lined throat will give away all the years the well-cared-for face might hide. And here massage is excellent, provided it is gently given. The neck should be massaged with flesh-building cream, for as age comes on, the supply of natural oils diminishes in the glands beneath the surface of the skin. This means a drying of the skin, a weakening of the muscles, inasmuch as these oils have been continuously repairing the natural breaking down of all fleshy matter. The cream will help to take the place of these oils. The neck is stroked crosswise in front, with the tips of the four fingers of each hand. The left hand

Exercise and Massage Will Keep the Neck Youthful.

starts under the right ear, the right hand under the left ear, the strokes alternating. The fingers naturally leave the neck after they have passed the windpipe. Then the fingers are started at the top of the shoulders, and run upwards to the hair and to the ears. Front again, the tips of the fingers start at the chin and press downwards to the chest, cross and smooth the lines that run about the throat. Superfluous cream is wiped off, and a piece of ice is rubbed all over the throat, to close the pores upon the cream and to strengthen the muscles. This also helps prevent sore throat.

**Turtle Serum**

The famous "Turtle Serum" invented by Professor Friedmann, which created such a sensation several years ago when he announced it as a cure for tuberculosis, is now under investigation by a committee of the most eminent German doctors, including Professors Kraus of Berlin, Kruse of Leipzig and Braun.

Around Boston.

"This crumpled fellow belongs to the plain people."  
"Ah! Did he ever spit rails?"  
"No, but when he was a boy he used to spit an infinitive occasionally."  
— Birmingham Age-Herald.

**CHARMING SUIT OF HOMESPUN**

A suit of homespun in an odd and attractive shade of blue. It is quite the thing for the frosty fall days. It gives plenty of warmth and makes it unnecessary to wear a heavy coat.

**NOW THE CORSET IS TO GO**

Tendency Among Women Is to Discard as Many Garments as Possible, Modiste Asserts.

American women are returning to the days of Greek goddesses when carefree figures and gowns which hung straight from the shoulders were the style, according to dressmakers attending a semi-annual convention of dressmakers.

Women in this country says Madame Marguerite, New York modiste, are getting thinner and do not have to wear corsets. Madame Marguerite said the tendency among women nowadays is to discard as many garments as possible.

"She discarded the girdle and it isn't coming back," she said. "Now she is getting rid of the corset."  
"Women are doing more than ever," she said. "They want to lose weight. It gives them their natural figure and allows the graceful use of their body minus the tightening corset."

Non-corseted gowns, dressmakers said, are having a great sale, indicating women are having considerable success in their dieting.

**NECK LINE IN ULTRA FROCKS**

Elevation Is Note of Interest to Women for Street Dress With Neckpiece.

A detail of interest is the elevation of the neck line in what may be termed ultra frocks.

It is the closing of the back or front quite up to the neck and the use of the onwathing stock in lieu of the open neck snaps collar; exceedingly smart for the street frock worn with the fur neckpiece, but not so attractive when worn beneath the top coat or fur jacket with its own great collar.

Each of these is a reflection, indirectly, of the revived interest in the modes of the Directoire, along with the revers and waistcoats seen in connection with the redingote dress.

Of interest to the woman who adores the soft neck line is the assurance that she may wear a bit of white about the throat and be quite in the latest fashion. This is especially true of the velvet dresses (particularly liked in black), which are made much more beautiful by a touch of real embroidery or lace.

**LINGERIE OF FRENCH DESIGN**

Piece Bag Usually Contains Supply From Which Dainty Articles May Be Made.

When nearly every feminine wardrobe numbers one frock of organdie, it is not difficult to find in the piece bag enough of this crisp, dainty fabric to bind the top and bottom of the new straight, Paris-inspired chemises, and to edge the short drawers to match.

Plain white voile or handkerchief linen usually forms the foundation of these charming garments, though white striped or crossed-barred dimity may be used with success.

If no patterns of just the straight simple designs desired are to be found use a bodice-top chemise pattern, turning the lower edge up six to ten inches.

Velvet in Thread Stripes. Velvets in thread stripes, closely placed are displayed. This broken surface wears longer without showing shabbiness than the plain colored.

**What Women Love**

There is a world of pretty neckwear that every woman will love to receive and almost any woman can make. A favorite piece consists of a collar with vestee to match, like that shown above.

**Pretty Powder Bowls**

Pretty powder bowls and baskets are sure of a great vogue for Christmas gifts. The four pictured include a little basket covered with plaited silk, at the upper left, and just below it the puff attached to its cover and ribbon-covered handle. A similar basket, at the right, is surmounted by a little ribbon-dressed doll—a disguised powder puff. At the lower left a glass bowl supports a puff holding a doll's head and at the right a net-covered jar enthrones a Jap baby.

**Lace and Satin Piece**

Wide satin ribbon and Val lace give a good account of themselves in the attractive neck-piece shown above. It is a vestee and collar combined, with a small "V"-shaped chemisette of lace, set in the vestee. The collar and chemisette are edged with narrow lace.

**Charm to Ribbon**

A morning jacket, a boudoir cap, a powder puff and little hand mirror, all owing their charm to lovely ribbons, are gift suggestions appearing above. The jacket and cap are made by setting together strips of narrow satin ribbon and Val lace.

**Ford**  
THE UNIVERSAL CAR

FULL AND RUNNING OVER

Our stock room is full of genuine Ford parts. We have enough parts to build a Ford from the Ground up. Then, too, those parts are Ford-made. They are exact duplicates of the original parts now in your car, and will give the same constant hard wear.

Our shop is equipped with up-to-the-minute tools and machinery specially designed so that we can properly and promptly take care of your repair work—from a minor adjustment to a complete overhaul. And the mechanics who will work on your car understand the Ford mechanism and know the Ford way to make repairs.

We not only give Ford Service but sell Ford cars and Ford trucks, so it is easy to understand that we have more than a passing interest in your car. Be on the safe side of dependable repairs.

LOCKNEY AUTO COMPANY

**POULTRY AND CLUB SHOW  
ATTRACTS MUCH INTEREST**

Although twice postponed and otherwise largely handicapped, the Poultry Show and Boys' Club Shows, held on the southeast corner of the square from Tuesday to Saturday last proved a very interesting and attractive affair. The Poultry Club more especially pulling a wide variety of birds and creating wide-spread interest among fanciers of this section. Because of the delays experienced no attempt was made at a large show in any division but the grade of fowls, pigs and sheep shown were excellent, breeding of the fowls and pigs being especially high.

In the poultry division exhibits were here from many local growers, from Mickey, Lockney and Plainview. E. B. Miller was judge in this class.

R. E. Pruitt, a Poland China grower of state-wide reputation, was judge in the Pig Club division, and W. L. Boerner, for many years a grower of sheep judged in the Sheep Club Division.

T. Scott Wilson, Agricultural Agent for the County, said Tuesday that the show was indicative of what could be done by growers, breeders and members of the Boys' Clubs if preparations were made several months in advance, and a combined show put on, with ample publicity. Most of the Boys' Club members made excellent records, he said.

Oliver Allen, Secretary of the Floyd County Poultry Club, says that exhibitors in the poultry division, were well-pleased with the results obtained at the show, and he anticipates that next year's show will be on a much larger scale.

Discussing the poultry show Tuesday afternoon Mr. Allen said: "Our show was a success in every particular and we wish to start now laying our plans for a much larger show next year. We had quality that is hard to pass and is very seldom equalled in shows much larger than ours. We had something over 200 birds besides the turkeys, bantams and guineas. The Wyandotte, Brown Leghorns and Reds were the largest classes, and there were good entries in many other classes."

"We as an association wish to thank each and every one for their contributions, and assure you that we did our best to put on a show that was worthy of your support."

"With the co-operation of the people in general and the poultry raisers in particular we can have a much larger show next year. We are going to work to this end."

Awards in the various divisions are given herewith:

**Pig Club Winners**

Poland China breeding gilt: First, gilt owned by Alton Bonarden, second gilt owned by Chas. Splawn.

### LODGE SAYS TAXATION AND LEAGUE TO WAIT

Washington, D. C., Nov. 27.—Senator Henry Cabot Lodge of Massachusetts, Republican leader of the Senate, said today that in his opinion, it would be impossible to make any changes in present revenue or tariff laws until the special session of the new Congress called by President Harding after his inauguration.

The statement of the Senator would indicate there is scant hope for even slight changes in the tax laws before return of the calendar year of 1920 must be made, on or before next March 15, despite the many demands for simplification of several features of Federal taxation. Senator Lodge's position is that it is impossible to pass all regular appropriation bills during the short session of the Sixty-Sixth Congress, Dec. 6 to March 4, and the time is so short that virtually no other legislation can be enacted.

**FLOYD HUFF**

Men's & Boys Clothing & Shoe Store

We are watching the markets closely and are giving our customers the benefit of every decline. This means a loss to us in every instance, but we are taking it cheerfully, welcoming the opportunity of helping to reduce the high cost of living.

Come to See Us. We are Always  
Glad to Have You.

Why worry about coal? Burn gas. An Air Simplex Burner will do the job cheaper, better and cleaner. Will fit any kitchen range, heating stove or base burner. Burns common kerosene. For sale by G. D. Hess, phone 15-167. 11-4p.

# STILL IN THE COTTON MARKET

We are still in the cotton market, paying the highest market price. We will buy your cotton either in bale or seed.

We have recently installed and have in operation a Murray Cleaner. This cleaner is the latest improved, and removes all the dirt and trash from your cotton. This improves the sample and makes your cotton bring you more money.

Our force are all experienced gin-men. We can give you as good turn-out and sample as any ginners on the Plains. Bring us your cotton.
