Number 22

Actual Paid Poll Tax List Of County is 3,250

Estimate of Voters of County This Year is 3,500, Counting Overs and Unders

There were 3,250 residents of Floyd county that paid their poll tax before February 1st, according to the final count of the tax collectors' office, the number being approximately the same as last year. There are a good many poll taxes in the county went unpaid this year, as this is what is termed an off year, and many of those who had no property tax to pay failed to call for a poll tax. The tax payments in the county were about 90 per cent of the total rendition, only about 10 per cent allowing their property to go over into the delinquent column.

The voting strength of the county, as shown by voting boxes is as follows:

No. 1, Floydada	601
No. 2, Starkey	132

WILLIAMS BUYS MORRIS' MEAT MARKET

Mr. H. Williams, local meat cutter, last week purchased the meat market from Mr. G. S. Morris, in the Hokus Pokus Grocery, and is now in charge of same.

Mr. Williams needs no introduction to the people of Lockney, as he has been in the city for several years, and has been connected with various meat markets here, having resigned as meat cutter in the Helping Selfy market, to become proprietor of the market in the Hokus Pokus Store.

He extends an invitation to the public in general, and most especially his many friends, to visit him in his new location, and give him a share of their business.

J. L. WHEELER SHIPPED TO MISSOURI FOR BURIAL

Mr. J. L. Wheeler, aged 68 years, who dropped dead at his home in the Irick community, near Lockney, last Thursday afternoon, from heart failure, was shipped to his old home in Missouri Saturday for burial. Funeral services were held at the home by Revs. J. E. Stephens and E. D. Morgan of Lockney Saturday afternoon, and Mrs. Kate Collier of Lockney accompanied Mrs. Wheeler on the trip to Missouri with the remains, where they were buried on Monday. The remains were prepared for shipment by Grady R. Cramer, Undertaker.

Mr. Wheeler is survived by his wife and one brother.

He had been a resident of this county for the past fourteen years.

BABY OF PAUL BOX DEAD

A girl baby was born to Mr. and Mrs. Paul Box of Lockney, Wednesday morning, and died at 5 o'clock Wednesday afternoon. The infant was buried this afternoon in the Lockney cemetery at 2:30 o'clock, Rev. E. D. Morgan conducting the service.

Miss Anna Mae Collins Becomes Bride of Leslie Gilbert

Miss Anna Mae Collins and Mr. Leslie Gilbert, both of Lockney, were married Friday afternoon at 5 o'clock, at the court house in Plainview, District Judge Charles Clements performing the ceremony.

Mrs. Gilbert is the daughter of Mr. and Mrs. W. M. Collins of Lockney, and has been a teacher in the grammar grades of the Lockney Public Schools for several years, and Mr. Gilbert is the son of Mr. and Mrs. T. J. Gilbert, who live four and one-half miles northeast of Lockney.

The contracting parties were both practically raised here, and are very prominent among the young people of this community, and have a host of friends who wish them all the happiness possible in their new relations.

JOE HUTSON IS ACCIDENTALLY KILLED SUNDAY

Bullet from Fellow Officers Gun Is Fatal to Pioneer Borger Officer

Borger, Tex., Feb. 10.—Joe Hutson, Chief of police and pioneer officer of this town was fatally wounded today by a bullet accidentally discharged from the gun of Tom Hughes, a fellow officer.

The bullet first struck Hughes in the ankle, breaking both bones, and then ricocheted from the cement floor ranging through Hutson's thigh. Hutson died from loss of blood. Hughes will recover.

Hughes was replacing his gun in its scabbard, but shoved it into the loop of the scabbard instead and it dropped just as Hutson entered the room. The impact discharged it.

Hutson was 39 years old and was one of the first peace officers in this community. He is survived by a widow and five children and his parents and eight brothers and a sister. His parents, Mr. and Mrs. J. H. Hutson live at Hereford. One of his brothers, Lee, is a member of the police force.

R. C. JACKSON OPERATED ON FOR APPENDICITIS

R. C. (Carl) Jackson went to Lubbock Tuesday of this week, and underwent an operation for appendicitis that afternoon, at the West Texas Hospital in that city. At last reports he had withstood the operation in good shape, and was resting well.

LOCAL MEASURES PASSED BY HOUSE

Austin, Texas, Feb. 11.—With the House short a quorum Saturday afternoon, the only accomplishment was the engrossment of a number of bills of a local nature, as follows:

By Young: Placing a closed season on prairie chickens in Collingsworth, Donley, Wheeler, Gray, Hutchinson, Jefferson, Wharton, and Jackson Counties.

By Heaton: Panola County road law.

By Mullally: Authorizing an Assistant District Attorney for the Forty-Ninth Judicial District.

By Graves of Earth: Earth County road law.

By Johnson of Scurry: Dickens County road law.

By Minor: Denton County road law.

By White: Hutchinson County road law.

By Kincaid: Foard County road law.

By Petsch: Permitting Gillespie County to pay its sheriff for summoning jurors.

Senate bill by Greer: Anderson County school law, applying the county unit system used by Dallas county.

By Jones of Atascosa: Validating the bonds of LaSalle County Water Control and Improvement District No. 1.

By Land: Two Childress County road laws.

The House engrossed a bill by Johnson of Dimmitt County providing a limitation of ten years on the period in which suits may be brought affecting defects on land titles.

NOMINATION OF TEXAN IS SUPPORTED BY 8 TO 6

Washington, Feb. 11.—A favorable report of the nomination of Pat M. Neff of Texas to be a member of the United States Board of Medaition was made to the senate Monday by its Interstate Commerce Committee over the protest of Senator Mayfield of Texas.

Chairman Watson said the vote was 8 to 6.

Opposition to the appointment was voiced by labor organizations on the ground that Neff was not "temperamentally" suited to act as a mediator in labor disputes. Neff himself testified that in the past he had always sought to exercise fair judicial demeanor.

After testifying in open meeting of the committee, Neff, at his own request, testified further in his own behalf at a session held Jan. 29 behind closed doors. He said that he would go into details as to political conditions in Texas.

Two charges against him meant nothing, Neff told the committee. These related to his alleged attitude toward labor, especially as a result of sending troops to Denison in 1922, when Governor of Texas, during a strike of railway shop crafts there. The third charge alleged bias and prejudice. He said he had settled 36 cases and declared that telegraphers railway clerks maintenance and way laborers and yardmasters, with whom he worked, had approved of his methods.

Total Valuation of County in 1928 \$11,439,764

90 Per cent of Taxes Have Been Collected by Tax Collector's Force to Date

The total tax collections collected in Floyd county for 1928, which was completed on January 31st shows that the total valuation in the county for 1928 was \$11,439,764 and the total amount of taxes collected was \$217,729.50, which was divided as follows:

State tax	\$73,214.86
County tax	57,198.83
Road and Bridge	17,005.63
Common School	70,310.18

Total \$217,729.50

The poll tax payments in the county were as follows:

State Poll Tax	\$6,673.50
County Poll Tax	1,112.25
Poll tax collected:	
State	\$4,875.00
County	812.50

Total \$5,687.50

The classification of the taxable values in Floyd county are as follows:

All Lands in the county	\$8,001,380
City Property	1,432,835
Personal Property	1,645,680
Railroads, telephone, telegraph, banks, etc.	284,445

The assessment for this year (1929) will be increased considerably by the rendition of additional railroad mileage, additional telephone, telegraph, and electric light lines, that were not assessable in 1928. The railroad mileage has increased from 28 miles to about 125 miles in the county the past year. The telephone lines have increased as much as the railroad mileage. The telephone lines have several additional lines in the county that run into many miles of extensions for the telephone system, also much improvement has been done with the electric company, and some long lines built the past year in the county. The taxable values in Floyd county will show an increase of more than two million dollars for 1929, and may reach three million dollars increase.

The above taxes does not include city taxes or taxes of independent school districts.

BILL TO BAR BOLTERS IS VOTED DOWN

Austin, Texas, Feb. 11.—The House of Representatives this afternoon amended the proposed bill to require party candidates to have supported the party nominees in the last general election by providing that it shall take effect after 1930. The vote to save the Hoover Democrats from its provisions was 79 to 22.

Austin, Texas, Feb. 11.—The Texas House of Representatives today refused to bar as primary election candidates those who bolted their party farther back than the last general election. Recess was taken before voting on a proposal to bar the Hoover Democrats.

The vote against excluding all who ever bolted their party was 70 to 42. Debate on barring the Hoover Democrats was to be resumed this afternoon.

While Hoover Democrats are not specifically named, the members referred to them frequently. Luke Mankin, author of the bill, declared Tom Love of Dallas, prominent Hoover supporter, already is preparing to run for governor next time.

Representative Roundtree declared passage of the bill would be playing into the hands of Alvin Moody, Tom Love, and ex-Governor Colquitt, Hoover leaders.

"They can't exist except on strife in the Democratic party," Roundtree said. "Passage of the bill will mean formation of an independent party in Texas and probably election of a Republican governor. It would be doing just what the Hooverites want."

The senate this morning made some headway down its calendar.

It created a State Bureau of Criminal Identification, to be located in Austin, which will keep on file a compiled State criminal record made up of reports from cities and counties in Texas, augmented by outside records. The bill was introduced by Senator J. W. Hornsby of Travis County.

YOUTH KILLED, TWO IN- JURED IN CAR CRASH

Crosbyton, Feb. 11.—Horace Denison, son of Mr. and Mrs. T. L. Denison of the Dry Lake community, was killed and Dallas Hisey, 21, and Ernest George of Spur were injured seriously in an automobile accident six miles south of Ralls Sunday night.

Road Meeting Held at Floydada Tuesday

Opposition to Highway Along Denver Road Attends in Body to Keep Road District From Being Cut

Quite a party of men from the Lockney country attended a meeting at Floydada Tuesday and discussed the proposed opening of the highway along the Denver railroad across Floyd county.

A petition had been circulated by J. F. Dollar and John Cooper, both farmers, in opposition to the cutting of a road district across Floyd county in order to open and bring up to grade Floyd county's part of the highway from Lubbock to Silverton, which they claimed had two hundred names signed to same. A hearing was to have been held on the matter at this session of the court, but instead of a hearing it terminated in a discussion of the best means of opening the road, or whether there should be a road opened at all. Judge Wm. McGehee taken the opportunity to further his pet county bond issue proposition, and was favorable to selling the road district proposition in order to take a chance on getting a bond issue on the entire county of something in the neighborhood of \$100,000 to be distributed to the four precincts of the county, and took up most of the time in talking to those present instead of taking up the matter in hand, and limiting the hearing to the matter in hand.

W. M. Massie of Floydada made a half dozen short talks opposing the road, and opposing all road bond issues. The road bond question was the question discussed mostly instead of the question of allowing or refusing the road district, and as a consequence the proposition of creating or rejecting the road district had very little to do with the meeting in any way. The opposition to the road district even voted that they did not want a road along the Denver at all. What the decision of the court in respect to the creating of the district might be is still a question unanswered as far as this writer knows and we were present at the meeting; but we believe that the proposition was completely lost, as only seven men favorable to the creation of the district was present, while there were seventy-five present opposing the district.

The opening of the road along the Denver is not a trivial matter to be set aside just because a few men do not favor it or some certain men or set of men have other axes to grind, and want to put over some pet idea. It means more to Lockney and the people living along the route, and we don't just mean the people who live just on the side of the road, but all the people who live within a radius of several miles, than does another road project in the country, because it will not only give the people a good road in and out of town, but connects on the shortest and most direct route with four prominent highways on the north and seven highways on the south, and is on the main highway from Saracuse, New York, to the Carlisbad Cavern in New Mexico.

The people of Floyd county should, whether they do or not, want good roads, and especially the people of precinct No. 2 should be interested in this project. With the expenditure of a few thousand dollars they can open and grade this road, it will then be taken over by the state and maintained, this would take the burden of maintaining the road off their hands and give them a first class highway across the western part of the county, and connect them with some of the best highways in the nation. The west part of the county has more roads than any other part of the county, but only has one main road that is maintained by the state. We are paying between seventy-five and one hundred thousand dollars into the state highway department and getting back only \$12,000 each year, and as long as we have just one highway across the county \$12,000 per year will be all that we will get back, it is only good sense and good business judgment to meet the requirements of the state and get certain roads in shape so that the state will take them over and maintain them for us, and this proposed road is one of the roads that the state has already said they will take over and maintain if we will open and grade up the road. We are standing in our own light when we refuse or fail to do this, and are hurting nobody but ourselves. The sooner we quit squabbling over whether it runs by my front door or not, and listening to the calamity howlers, the sooner we will develop the country and make this part of Floyd county a better place in which to live.

This proposal was lost. Commissioners Rankin and Henderson voting for, Commissioners Payne and Taylor voting against, causing a tie, and Judge McGehee was called on to settle the tie vote, and he voted against allowing the Commissioner of Precinct No. 2 using part of his funds to open and grade the road, thereby, voting his opposition to the proposed proposition.

W. R. CHILDERS ANNOUNCES FOR MAYOR OF LOCKNEY

We are authorized to announce the candidacy of W. R. (Walter) Childers for mayor of the City of Lockney, to be voted on at the election to be held the first Tuesday in April, 1929.

Mr. Childers needs no introduction to the people of Lockney as he has lived in and around Lockney ever since the "canyons were dug." He has been engaged in the insurance business in this city for the past several years and is a wide awake citizen, taking part in all affairs for the advancement of the town in both financial and civic affairs.

Walter says that he has been solicited by many of his friends to make the race, and that in announcing for the office, he pledges to serve the city to the best of his ability, if the people see fit to elect him. He will appreciate the vote of the people at the election on the First Tuesday in April and respectfully solicits your vote and influence.

FIRE DESTROYS PACKING HOUSE IN PLAINVIEW

Plainview, Feb. 10.—Fire of undetermined origin completely destroyed the O. B. Jackson wholesale meat packing house here this afternoon.

A loss of \$25,000 including a stock of meat on hand valued at \$2,000 is estimated. The loss was partially covered by insurance.

The plant which was owned and operated by Mr. Jackson of this city, was the first packing plant established on the South Plains.

The fire apparently caught in the roof and was discovered at about 2 o'clock in the afternoon.

The local fire department could not extinguish the blaze on account of the plant being located in a remote part of the city and some distance from a fire plug.

The loss is the heaviest sustained as the result of a fire here for the past five years.

ers Rankin and Henderson voting for, Commissioners Payne and Taylor voting against, causing a tie, and Judge McGehee was called on to settle the tie vote, and he voted against allowing the Commissioner of Precinct No. 2 using part of his funds to open and grade the road, thereby, voting his opposition to the proposed proposition.

The opening of the road along the Denver is not a trivial matter to be set aside just because a few men do not favor it or some certain men or set of men have other axes to grind, and want to put over some pet idea. It means more to Lockney and the people living along the route, and we don't just mean the people who live just on the side of the road, but all the people who live within a radius of several miles, than does another road project in the country, because it will not only give the people a good road in and out of town, but connects on the shortest and most direct route with four prominent highways on the north and seven highways on the south, and is on the main highway from Saracuse, New York, to the Carlisbad Cavern in New Mexico.

The people of Floyd county should, whether they do or not, want good roads, and especially the people of precinct No. 2 should be interested in this project. With the expenditure of a few thousand dollars they can open and grade this road, it will then be taken over by the state and maintained, this would take the burden of maintaining the road off their hands and give them a first class highway across the western part of the county, and connect them with some of the best highways in the nation. The west part of the county has more roads than any other part of the county, but only has one main road that is maintained by the state. We are paying between seventy-five and one hundred thousand dollars into the state highway department and getting back only \$12,000 each year, and as long as we have just one highway across the county \$12,000 per year will be all that we will get back, it is only good sense and good business judgment to meet the requirements of the state and get certain roads in shape so that

TENNESSEE MADE RAPID DEVELOPMENT AFTER WEEVIL HIT

By M. B. Oates

Marshall County, Tennessee, located in the southern part of Middle Tennessee had been engaged in stock farming to some extent before the

advent of the boll weevil but had not gone in for dairying. However, when the boll weevil hit in 1921, the people immediately turned to dairying.

After one year's experience with the boll weevil a co-operative creamery was built at Lewisburg. There was another creamery at Chapel Hill in the same county and these two creameries (both co-operatives) now have 750 patrons. Then early in 1927 the Borden Company completed a condenser at Lewisburg which is valued at \$1,000,000. This plant has 80 employees and 1000 milk patrons from which it receives 85,000 pounds of milk daily. The plant also has receiving stations which bring up the total daily milk receipts to 140,000 pounds. Lewisburg also ships a car load of milk daily to Chicago. Dairy products from Marshall County total \$1,000,000 a year. Sales of dairy cattle bring 250,000 more to dairy farmers of the county. There are now 25,000 cows and heifers above one year of age in the county. There are 2700 farms in the county and 65 per cent of the farmers have dairy cows.

It is said that there are a thousand owners of registered cows in the county which probably explains why there is a quarter of a million a year from sales of dairy cattle. There is not a scrub bull in the county. The county has a Jersey Breeders Association which has 150 members. All of this development has attracted the interest of the U. S. Department of Agriculture and as a result, Lewisburg is to get a Federal Dairy Experiment Station.

Such a record of accomplishments in the short space of six or seven years is almost spectacular; certainly it is remarkable. However, if you had been at the banquet reception given us by the Chamber of Commerce you could realize that such a representative group of citizens could, by united effort, do almost anything. Present at the banquet was J. M. McCord, Jersey Cattle Auctioneer and present Mayor of Lewisburg, also editor of one of the local papers. He was toast master and a good one too. Then another local editor was present and the county agent, the Chamber of Commerce Secretary and Mr. Buchanan, Manager, of the Borden Southern Company, Mr. Marshall, President, of the Marshall County Jersey Cattle Association was present and told of his faith in the Jersey cow. A. B. Harmon, District Agent, Extension Service, University of Tennessee, was present and also accompanied us for two days. Then there were eleven bankers present, almost every bank in the county having a representative there. Also several other business men of Lewisburg were there. That was a wonderful reception to give to a little party of only eight men and all of us total strangers. We were not only grateful for the wonderful reception given us but we were profoundly impressed with the fact that almost every business interest in the county was represented and eager to meet a group of visitors who were studying the dairy development in their county. In this particular respect, Lewisburg gave us the best reception on our tour. With these men all present and boosting dairying it was no wonder to us that they had done big things.

After the banquet, we asked for a conference with some of the bankers and two or three others. We then learned that the county was forced into dairy business by the boll weevil. The bankers confessed that they were skeptical at first about the dairy business, however, they took a chance and began to make loans for purchasing cows. They were still doubtful about the success of dairying but so far as the loans were concerned consoled themselves with the fact that they had the farmers notes and they had their mortgages and they also had patrons with a common interest. Their doubt was finally dispelled by the success of the new venture and the bankers dismissed this part of the story by saying that "everything worked out O. K."

Although the bankers were at first skeptical, their deposits have increased 50 per cent in six years. The number of depositors has increased 25 per cent and savings deposits now equal individual deposits. Six years ago there were very few savings accounts. Credit business has been reduced 50 per cent. One banker stated that "in a one crop cotton section bankers lie awake at night worrying over their business but they can sleep at night because they have twelve pay days a year."

The farmers are doing well too because they have twelve pay days a year and for the further reason that their crop yields have already increased 25 per cent due to the use of barnyard manure. All of them save manure and 20 per cent of them use manure spreaders. Although this is an old cotton country very little commercial fertilizer is used. Farmers are also improving their pastures. There is now an average of 25 acres of tame grass per farm. Again someone made the statement that "the foundation of the dairy business is good pastures." The University of Tennessee recognizes the need for pasture improvement in order to make dairying more profitable with the result that many of the county agents are conducting pasture demonstrations as a part of their regular program of work. Al-

so Tennessee has the most extensive pasture experiments in the United States at their Sub-Experiment Station at Columbia, Tenn., which we visited in company with Mr. Harmon, District Agent. At this station there are many grasses grown both separately and in combinations. We were told that, up to the present, sudan grass has produced the most milk per acre. My, what a lesson for us! We from Northwest Texas where sudan is grown so easily and so well. It should be recalled that Chillicothe was the first place in the United States that sudan grass was grown. And every farm in northwest Texas can successfully grow this wonderful grass which has now become a common grass yet one of the best summer grasses known for milk production.

Let's start a program that will give us more grass and "milk and money."

Citation by Publication

THE STATE OF TEXAS, Floyd County—GREETING:

You are hereby commanded, that you summon, by making Publication of this Citation in some newspaper published in the County of Floyd if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, C. D. Potter, whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Floyd, at the Court House thereof, in Floydada on the Fourth day of March, A. D., 1929, then and there to answer a petition filed in said court, on the 21st day of January, A. D., 1929, in a suit numbered on the docket of said Court, No. 2123, wherein Wanda Potter is plaintiff and C. D. Potter is defendant. The nature of the plaintiff's demand being as follows, to-wit: That plaintiff is now, and has been for more than twelve months prior to the filing of her petition an actual inhabitant in good faith of the State of Texas, and has resided in Floyd County, Texas, for more than six months next preceding the filing of her suit.

That plaintiff and defendant were lawfully married in Hale County, Texas, on or about March 31, 1923, plaintiff then being a single woman. That they lived together as husband and wife until on or about September 15, 1924; that plaintiff was at all times a dutiful wife, conducting herself with propriety, and treating defendant with kindness; but that on or about said 15th day of September, 1924, while they were living at Snyder, Texas, where plaintiff had obtained employment as a teacher in the schools, and which she was compelled to do in order to provide herself with the necessities of life, defendant without provocation, and without fault on the part of plaintiff, secretly abandoned plaintiff, and left for parts to plaintiff unknown, and since which said date defendant has never directly nor indirectly in any manner communicated with plaintiff nor contributed in any manner to plaintiff's support; that since which said date, the place of residence of defendant has all along been, and is at this time to plaintiff unknown. Plaintiff prays that defendant be cited as the law directs to answer this petition, and that upon hearing hereof, she have judgment dissolving the marriage relations between plaintiff and defendant, and that her maiden name, "Wanda Montague" be restored, and plaintiff prays for general and special, legal and equitable relief.

Herein fail not, and have you before said Court, on the said first day thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Floydada, Texas, this, the 21st day of January, A. D., 1929.

T. P. GUIMARIN, Clerk District Court, Floyd County, Texas.

WORTH YOUR WHILE

YOU HAVE TO PAY for the gas you burn, but you do not need to burn any more than JUST ENOUGH to get the results you want.

IT IS A UNIQUE VIRTUE of natural gas that RESULTS ARE BETTER when you burn just enough than when you burn more than is necessary. Economy and satisfaction make a happy combination that comes from burning gas in the RIGHT WAY.

THESE RIGHT WAYS of burning gas are worth your while. The recommendations and suggestions which our experts offer you mean money and satisfaction to you if you will but use them.

You may be satisfied, and, yet, we can show you how to get still better results. It's very simple and easily done. The great rub of the matter is that the better you burn gas, the less gas you need to burn. It is an actual fact that improving the results you get from the gas also cuts gas bills. We want you satisfied.

Founders Day and Fathers' Program

The Fathers' Program published in last week's paper will be given Friday night, Feb. 22, at the high school auditorium. In addition, Founders' Day will be observed, and a unique feature will be the auctioning of the birthday cake. The auctioning of the cake is conducted in the following manner: the president and secretary decide on the length of time to be allowed for this auction. No one else is to know the exact time limit. Two or three ushers receive the 10 cents in money that is charged for each bid. The first person who makes a bid says, "I will give 10 cents," the next person says, "20 cents," the next, "30 cents," and so on to the end of the time limit. Each person only gives 10 cents to the usher, but states the amount she bids in order to add up, so that at any moment you know how much money you have so far secured through this auction. The last person who happens to bid when the end of the time limit is called gets the cake for 10 cents. The amount of money she will pay is not a hardship to anyone, but it amounts to a large sum at the end of ten or fifteen minutes, especially if the auctioneer is clever and keeps the bidding brisk. As an illustration: if only ten persons were bidding you would receive \$1.00; but each person bidding would only have to spend 10 cents. No matter how many bid, the sum collected from each one is only 10 cents.

The room having the most parents present will receive a box of candy.

Dr. Alfred Walton M. D. one time president and chief of the Surgical Division of the Esix County Hospital, Esix County, N. J., has the following to say about Chiropractic.

"Untold millions have suffered all their lives and died of pain the cause never being understood." Also, "Other millions still suffer whose suffering can only be met by removing pressure in the spine from the nerves responsible for their troubles, and this is what Chiropractors are doing constantly."

Ask S. T. COOPER, D. C. Ph. C. Lockney, Texas, what Chiropractic can do for your troubles.

MINUTES OF EXECUTIVE COUNCIL COUNTY MEET INTER-SCHOLASTIC LEAGUE

The executive committee of the Floyd County Interscholastic League met in the county court room in Floydada, Saturday, February 2nd, 1929 with the following members present: W. D. Biggers, Director General; Price Scott, Director of Rural Schools; J. B. Hutchinson, Director of Spelling; Miss Alice Bridges, Director of Essay Writing; J. B. Allen, Director of Debate; and Miss Mary Chambers, Director of Music Memory.

No representative was present for Mr. Troy Jones, Director of Athletics, but the following substitutes were seated in the council: Mr. G. D. Tate of Sand Hill for Miss Ola Hannah, Director of Arithmetic; Geo. Gilpin, Lakeview, for Mr. Rucker, Director of Baseball; and Mr. Harper Scoggins of Floydada for Mr. Patty, Director of Declamation. Mr Scoggins came in late, but approved the proceedings of the committees, as given by the chairman and assured the class B schools that Floydada will entertain their preliminary meet on March 16.

Miss Mary Chambers of Lockney was unanimously elected secretary for the committee after which the following business was transacted:

The committee unanimously agreed that the meeting will be held in Floydada, Texas, on March 29-30, 1929

After a full discussion, it was agreed that an effort should be made to produce five judges from the West Texas Teachers College; three to handle the literary events, one for tennis, and one for play ground ball. Mr. Lockhart will be asked to handle the tennis and head the list of officials in all athletic events. Mrs. Montford, Miss Walker, and Mr. L. A. Osgood are to be invited to judge the literary events.

The committee unanimously agreed to the following requirements for junior play-ground ball: (1) The official game for the county meet shall be seven innings in length. (2) The official ball shall be an outside seam ball fourteen inches in circumference and will be furnished by the executive committee. (If the ball measures more than thirteen and less than fifteen inches in circumference, it shall be declared an official ball.) (3) All schools desiring to enter teams in this event are required to send entry to Mr. Rucker at least two weeks before the county meet. He will make drawings and will notify coaches the time and team they are to play at least one week before the said meet. (Junior base ball has reached such proportions in our meet that it is very necessary that it be played off in a prompt schedule. Schools are urged to comply strictly with requirements 3 above. W. D. Biggers)

It was unanimously agreed by the committee that Class B schools be allowed to hold a preliminary meet in Floydada, Friday night and Saturday, March 15 and 16 for the purpose of deciding the Class B championship and selecting representatives for the regular county meet. This class B meet is to be under the guidance of the regular executive committee and three judges are to be selected from outside the county, preferably Wayland College.

A motion by J. B. Allen of Lone Star prevailed whereby two additional events will be added to the program this year; declamation and story telling for sub-juniors. One contestant, either boy or girl, may enter from each school in each event. This contest will be conducted according to the rules and regulations of the Interscholastic League.

It was decided that the League would again conduct the "My Home Town Contest" sponsored by the Floydada Chamber of Commerce and the oral spelling contest sponsored by Judge Matthews of Floydada.

No other business coming up for consideration, the meeting was duly adjourned.

THE GIFT OF GOD

By Thelma Arterburn
Rest Cottage is situated in the heart of one of our rugged nature spots. It is not a pretentious building with a modern appearance.

What's Doing in West Texas

Fort Worth—(WTCC) A warning to West Texas farmers contemplating pecan planting, that trees which have been bred to high rainfall conditions will not develop properly in West Texas has been issued by Col. R. L. Penick, chairman of the Agricultural Committee of the West Texas Chamber of Commerce.

The West Texas organization, conducting an extensive pecan planting campaign at this time, advises planters to be constantly on their guard against any trees which were not developed for comparatively dry climates.

Col. Penick stated that many West Texas farmers have been interested in planting pecans to the extent that they have bought a few trees for experimental purposes and were very much disappointed when they died. This failure of the trees to live was because they had been raised in a climate where from 80 to 70 inches of rain fell each year and were planted in a climate which averaged 20 inches of rainfall per year.

The western varieties have smaller leaves than the eastern varieties and require less water. Reputable western nurserymen sell no other kind.

Originally the West Texas Chamber of Commerce undertook to distribute one thousand trees at very nominal prices but a new deal whereby all orders for trees during the season can be filled has been made. The orders will be received at the headquarters office at Stamford for Halberts, Nuggetts, Burckett, and Success, all proved western varieties.

Stamford—(WTCC) Thirteen different orders from twelve different towns for pecan trees have been forwarded by the West Texas Chamber of Commerce to the nurseryman who made reduced prices possible in this way.

Contract for the addition of ten stories to the Crawford Hotel at Big Spring will be let within 40 days according to the owner A. J. Crawford. A remodeled lobby, a large messanine lounge, private dining rooms, banquet hall with a seating capacity of 300, and a reception room will be added, with 102 guest rooms added to the present 150.

Carload shipments of various items out of Ralls during 1928 excluding cotton, included 30 cars of wheat, 2 cars of corn, 321 cars of grain and calves, 2 of hay and straw, 2 other mill products, 26 of pumpkins, and 4 of other commodities.

Stamford—(WTCC) The West Texas Chamber of Commerce agricultural motorcade to California which was postponed from January 15 to February 2, is being postponed again, this time on account of the illness

is just what the name implies; it is a cottage of rest. The building is made of logs; it only has three rooms with a porch that faces eastward. No delicately tinted paper can be found on the walls of the interior. The place will appeal only to those who love the West, its vastness, and the brooding mysteriousness that hangs over its crags and canyons.

I enjoy sitting in the doorway of Rest Cottage when the spring nights are fast growing old, and those of summer are yet in their infancy. A lover of nature cannot sit there and not experience a feeling of spiritual uplift as he gazes on the scene before him. I never fail to feel contented as I sit there and watch the soft twilight deepen into darkness.

Especially do I recall a night last spring when I went to spend a few days at Rest Cottage. I was tired and weary, and all day I had felt ill at ease. As twilight was falling, I sat down in a comfortable, crude little rocker out on the porch. Breezes, gentle and sweet, swept over me. I gazed out over the mountain tops to the rapidly darkening sky beyond. Twinkling stars soon made their appearance there. Ere long the great, full moon peeped over the rim of a mountain and shed its soft, silvery light on the earth below. Everything took on an air of mystery. The mountains loomed larger than ever in the light of the moon; they impressed me with their enormous proportions and their ability of endurance throughout the ages. All the feeling of weariness passed from me. I gave myself up to the spirit of the night, and all my doubt and fears of the day were stilled.

There in the quietness of the night Nature spoke to me. I love Nature in all her forms. She is truly a gift of God. The gift is universal too, because Nature takes no thought of wealth, fame, or position. She offers comfort to the beggar and to the lord if they will only pause and listen to her voice. God must have foreseen the sorrows of man when He created Nature.—The Prairie.

CENTER

Feb. 11.—Had fairly good crowds out to both services Sunday, considering it was so cold. A few others would have come if they could have gotten their cars started. Mr. and Mrs. Clifton Crabtree attended church here Sunday. Mr. and Mrs. Elvis Gill spent Sunday with her parents, Mr. and Mrs. Hollums. Mr. and Mrs. Ross and children visited her parents, Mr. and Mrs. Guffee of Fairview. Mr. and Mrs. C. O. Spence, Mr. and Mrs. Claud Carpenter and children ate Sunday dinner with Mrs. Montgomery and children. Had a pretty good singing Sunday afternoon. Our visitors were Mr. and Mrs. Bee Nicholas, Mr. and Mrs. Flippin, Mr. I. J. Loyd, his brother, and two other young men. Had another couple from Campbell. Mrs. G. C. Tubbs and children visited with Mrs. W. B. Jordan a while Sunday afternoon. Miss Lillian King spent Saturday night at the Lightfoot home and Sunday and Sunday night with Mrs. Jordan and family. Mrs. Bryant and daughter, Miss Georgia, and Mr. and Mrs. F. O. Bryant took Sunday dinner with Mr. and Mrs. Marion Carpenter and attended singing here. Mr. and Mrs. H. B. Mankin and Miss Bernice took Sunday dinner with Mr. and Mrs. W. B. Jordan. Mr. and Mrs. E. W. Lightfoot had a daughter born to them Friday morning. The little one only lived about nineteen hours and was buried Saturday afternoon. The funeral was from the home, with Rev. O'Brien in charge, with burial at the Floydada cemetery. Our sympathy goes out to them in the loss of the little rose bud which only lingered long enough to endear herself to the fond hearts of her family. Rev. and Mrs. Merle Weathers spent Thursday and Friday with his parents at Plainview, were called home on account of illness in Mrs. Weathers's home. Mr. J. W. Cole spent Saturday night and Sunday with Roy O'Brien at the home of Mr. and Mrs. C. M. Meredith. Remember next Friday night is club night, weather permitting we hope to render the program prepared for last meeting night, when it was too cold to have our meeting.

PLEASANT VALLEY

Feb. 11.—Several pupils were absent from school Friday of last week on account of bad weather. Most of the cars were hard to start and some just refused to go at all. Foris were not the only ones that refused to go, for cars as good as Chevrolets and Buicks could not be coaxed out into the bad weather. Mr. and Mrs. W. E. Lowrance spent Sunday with Mr. and Mrs. S. L. Holmes of the McCoy community. Mr. and Mrs. C. F. Harris and family visited Mr. and Mrs. Casey Yarbrough Sunday afternoon. Mr. and Mrs. N. T. A. Byers spent Sunday evening with Mr. and Mrs.

W. E. McClure. Mr. and Mrs. W. C. Hubbard and family spent Sunday afternoon with Mr. and Mrs. T. B. Mitchell. Mr. and Mrs. Bowers are spending the week with Mr. and Mrs. Lee Reeves. Misses Merrell of Lockney spent the week-end with Mr. and Mrs. W. F. Barnes. Mr. and Mrs. Cox and daughter and little Stephens boy spent Sunday with Mr. and Mrs. W. H. Fields. Mr. and Mrs. Shearer of Prairieview spent Monday of this week with

her parents, Mr. and Mrs. T. J. Marr. Mr. and Mrs. W. C. Hubbard are the proud owners of a new four door Ford, having sold the one purchased a short time ago. Mr. and Mrs. Lawrence were Floydada visitors Monday of this week. Mr. and Mrs. F. U. Payne visited Bro. Muncy Sunday evening. Most of the numbers already had been taken when San Antonio officers seized a punchboard, which promised drinks of whisky to the lucky punchers.

FIND THE WAY EARLY

Every boy should find the way to the bank patronized by his father. And his father should find the way to show his son the tremendous importance of saving early in life. It is the step-ladder to success. Open a Bank Account for your boy and see that he wears a path to the Receiving Teller's Window! For it is likewise the pathway to Influence and success.

Golden Krust Bread
THE TRADE MARK OF QUALITY
In days gone by, what was the food most depended upon by all people's and nations—BREAD—of course the bread made in those by gone days was possibly made in crushing between heavy stones, the grains—but just the same it was bread, and upon it the strength of many nations were made—it gave the nation's people's strength, as it will in the years to come.
GOLDEN KRUST Bread will give you strength and health—and along with this good feature it is appetizing. M'mmm what creamy goodness, covered with a delectable golden brown crust of tempting appearance—pleasing to palates—both young and old.

"ALL IS VANITY"

"Vanity of vanities," said the preacher, "vanity of vanities; all is vanity." What profit hath man for all the labors wherein he laboreth under the sun? One generation goeth and another cometh, but the earth abideth forever. All the rivers run into the sea, yet the sea is not full. All things are full of weariness; man cannot utter it; the eyes are not satisfied with seeing, nor the ears with hearing. There is nothing new under the sun. That which is crooked, and that which is lacking cannot be numbered. Each individual seeks every worldly works and their glamour.

In much wisdom is much grief. The wise man's eyes are in his head, and the fool walketh in darkness, and yet I perceive that one event happeneth to all men. Then I said in my heart that as it happened to the fool so will it happen even unto me, and why was I more wise? Then I said in my heart that this also is vanity. So says Solomon, the wisest man who ever lived.

There is hardly a day in the span of man's life when he does not bear some pain, some humiliation, and some grief. There is hardly a day in which we enjoy complete happiness. Vainly man seeks eternal earthly joy.

The fellow who reads many books is continually meeting up with characters, plots, and speeches which he has not met before with only slightly different circumstances.

The fellow who goes to the show meets up with plays that have the same plots and the same conclusions, it is as Solomon says, "There is nothing new under the sun." All that is, has been before. Vanity is demonstrated in man's search for happiness and satisfaction.

The eye is not satisfied with seeing nor the ear with hearing. The more man sees, the more he wants to see. If he climbed the ladder of success to the topmost round, he would still gaze lovingly at the blue vaults above him desiring "a place in the sun." The man who has millions is not satisfied until he has many millions; and even then his desires are not satisfied. There is scarcely a man in the slums who would not rejoice to be president, but yet with the attainment of the presidency, he would not be satisfied. It is a question as to whether anyone is really satisfied. It is hardly human nature to be satisfied. Humanity might be likened to the youth in Excelsior who could not rest until he had reached the highest peak of happiness; like that youth every man is happier when he has overcome some obstacle.

Man is always hoping that some day he will be "sitting on top of the world." Hope is the anchor of the soul, and if it were not for the hope that we have we would sink into oblivion gladly. We must have hope of reaching greater things—or our actions would be like a huge engine running full throttle with nothing to pull. We must have a purpose for our lives or they will never amount to anything. The reason so many commit suicide is because the last ray of hope has faded, and death with rest is welcomed. When the sick give up all hope, they are ready for the grave. When the poor give up their hope of being finally permitted to live in that far-famed utopian land of plenty, their life is no longer an asset to them.

It's the one who keeps up hope, who works toward a good object, and who lives by the Golden Rule, who finally wins out in the end and makes himself happy; he who strives only for temporary insatiable things in life realizes sooner or later that "all is vanity."

Professor Biggers

This is about our professor, His Affable smile ad beaming face; No other one could take his place. When we do anything wrong, His face looks clouded and long. But when we do right His face looks happy and bright. He has won Our admiration and love Because he knows What is right for us. We love our professor Biggers. —Lurla Witte.

Mrs. McPherson—I caught the maid making love to the iceman again. You had better speak to her. Mr. McPherson—What? The iceman—when we still owe for last month's ice.

Outlawry is Becoming An Epidemic

An epidemic of "outlawry" seems to be abroad in Lockney. Within the last month, two young men of this city have fallen victims. Mr. Leslie Gilbert, the latest victim, joined the ranks of the "outlaws" when Miss Anna Mae Collins, daughter of Mr. and Mrs. Collins, became his bride on Friday evening, February 8. The marriage was performed in Plainview where Mr. and Mrs. Gilbert remained until some time Saturday when they left for Lubbock and Ralls.

Mrs. Gilbert is well known to the people of Lockney having attended high school here, and for the past few years having been teacher of geography in the grammar school. She is a former student of West Texas State Teachers College, Canyon, and of Peabody College for Teachers, Nashville, Tennessee.

Mr. Gilbert is a son of Mr. and Mrs. Gilbert of Lockney and is also well known here. He, too, is a former student of Lockney High School. The students and faculty of L. H. S. join their many friends in extending congratulations and best wishes.

Much Progress Made In Music

Two more music pupils have completed the twelve sets of major scales which are required for the scale honor roll. They are Wood Stevenson and Estelle Hodel.

Virginia Toblaus was the first to finish the reciting of the thirds and fifths and there are now five others who have finished this work. These are Anice Stewart, Frankie Dodson, June Guthrie, Wood Stevenson, and Patricia Patterson.

Those who have played the fifteen scales and recited the signatures are Virginia Hohlaus, Frankie Dodson and Patricia Patterson. They are on the third honor roll.

Mary Leda McAdams is now at the head of the class in the scale contest. She has moved from a tempo of 50 to that of 84. A prize is being offered to the one making the most progress in this work by March 14.

Virginia Norris, five years old, memorized five pages of music last week.

The school piano has been tuned with the studio piano, and the pupils are beginning their practice on ensembles for the Lubbock Festival. The registration for the contest numbers forty-two entries. The following have entered for solos, ensembles, or both: Virginia Norris, Billie Jean Biggers, Mary Alice Baker, Estelle Hodel, Patricia Patterson, Milton Adams, Harris Ball Jr., Frankie Dodson, Virginia Hohlaus, Agnes Cooper, Anice Stewart, Doris Brown, Mary Leda McAdams, Evon Griffith, June Guthrie, Kenneth Hohlaus, Wood Stevenson, Leona Shelton, Leota Shelton, and Gene Dyer.

INTERMEDIATE DEPARTMENT

English Honor Roll

Delbert Hamilton, Jimmie White, Nellie Mae Orr, Helea Ruth Lard, Mary Louise Woodworth, Wilm. Pearson, Vivian Pittman, Juanita Still, Homer Lee, Billie White, Vernola Reece, Gaynelle Smith, Vernon Williams, Faye Cook.

Seventh Grade

Lucille Quisenberry, Mauretta Brotherton, Hubert Witte, Ouida T wnsend, James Cox, and Weldon Dodson were absent this week.

The two seventh grade rooms have been studying "The Merchant of Venice" together in English class and the pupils are now writing it into a play, consisting of four acts.

Civics Report

The grand jury met Friday and decided on four cases. One case, concerning counterfeit money, was dismissed with a five hundred dollar fine. Cases of forgery, highway robbery, stealing, and counterfeiting are all to be tried in criminal court next week, all being "felonies" except stealing, which is a misdemeanor.

FIFTH GRADE

Room 5B

The following pupils were absent this last week: Gwen Wofford, Walter Reeves, Joe Brannon, Emma Lois Huggins, Inez Baxter, and Lee Kinney.

Room 5A

The absent pupils from room 5A this week are: Lodean Carter, Meda Ruth Thomas, Vera Taylor, Jennie Lynn Henderson, and Percy Edwards. They were absent on account of bad weather and sickness.

Senior Class Meeting

A senior class meeting was called Tuesday at twelve o'clock, and each senior gave his order for invitations. The school term is rapidly drawing to a close, and the seniors are anticipating the coming of the commencement exercises. Several hundred invitations were ordered, and the order will be sent in a very few days.

Ralls Jackrabbits Defeat Longhorns

Basket ball fans witnessed what appeared to be the best high school game yet played on the Floydada court this season when Coach "Froggy" Louverin's Jackrabbits from Ralls defeated Coach Reid's Longhorns by a score of 32 to 25. At the end of the first half, Ralls was leading by a score of 14 to 5. The second half was perhaps one of the hardest fought battles witnessed in a high school game in West Texas this year. During this period the Longhorns scored twenty points and the Jackrabbits eighteen.

Those starting the Ralls game were: Spence and Miller, forwards; Phillips, center; Fowler and Biggers, guards; Brotherton substituted in the second quarter.

PRIMARY DEPARTMENT

Honor Roll

The following pupils were on the honor roll for the month of January:

First Grade A—Mary Taylor Ball, Mary Elizabeth Broyles, Melba Teaver, Charles Baker, Earl Beck, Arthur Barker Jr., Leon Comer, Bobbie Ewing, Ballard Graves, Bob Miller, Wendell Newman, Bill Teuton Jr., Hugh Trussell, C. W. Woodworth. Room 1B—Helen Phillips, Edith Gray, Charles Hartley, Helen Ruth Beard, Christine Reeves.

Second grade—Mary Alice Baker, Georgia Belyeu, Billie Jean Biggers, Burlaine Persons, Mary Ruth Thornton, Mary Beth Trussell, Harris Ball Jr., Gordon Fore, Jack Harris, Harold Ormon, Leland Turner.

Third grade—Riddell Hutsell, Charles Beall, Muriel McGonigall, Terra Maude Pearson, Alton Thompson, Frances Humphries, Lurlene Pettigrew, Helen Ruth Busby, Thomas Sherman, Mertie Webb, Charles Robinson.

Fourth A—Muriel Trussell, Bob Collier.

Fourth B—Evelyn Beck, Hall Nall.

First Grade A

We have been very busy getting ready for a Valentine party, making Valentines and writing invitations to our mothers. We are going to entertain our mothers with the following numbers Thursday afternoon.

Valentine Song—All.
Molly's Secret—Mary Taylor Ball.
I Love You—Evelyn Stakeup.
Six Valentines—Six little boys.
Fun to Be an Eskimo—Charles Baker.

The Way of a Boy—Bill Teuton Jr. Folk Dance, Children's Polka. Folk Dance, Chimes of Dunkirk. For Daddy—Mary Elizabeth Broyles.

What a Good Idea—C. W. Woodworth.

The Man in the Moon—Bernadine Bennett.

Gay Valentine People—Mary Taylor Ball, Ten Valentines.

Song, Queen of Hearts—Mary Elizabeth Broyles.

Amariyllis—Melba Teaver, Mary Taylor Ball.

Valentine Song—All.

Mrs. Ball was a visitor in our room Wednesday morning. We were so glad to have her.

Second Grade A

The second grade is studying the life of Lincoln and Washington this month in language. The language lessons are being correlated with drawing and construction periods.

There will be a story contest in connection with this study and the pupils writing the best story will be awarded a prize.

The pupils of the second grade are manifesting great interest in the drills we are having in number work. These drills are to help the pupils master the multiplication tables both in speed and accuracy.

Several pupils were absent last week on account of sickness and cold weather.

The second grade will have a Valentine Post Office. The room will be named a town and each row of desks will be streets, the desk being numbered as a house. Pupils have been chosen to act as post master and mail carriers. Those chosen are: Gordon Fore, post master, Billie Whitfill, Harold Ormon, Leland Turner, Harris Ball, Jr., and James Whorton mail carriers.

Several games have been planned for the Valentine party.

Third Grade

Rapid Drill in Arithmetic

The pupils are studying the 2's, 3's, 4's, 5's, and 6's of the multiplication tables. A drill has been carefully planned in the study of these tables. This drill is intended to be given orally without aid of pencil and paper. A time limit of one minute for the 72 results has been given to furnish a standard of speed to attain. The fun of making records, and breaking them, is a strong incentive for the

Board of Strategy Added To Extensive Dep't.

Lockney Public Schools now boast one of the most efficient organizations of any school system in the Panhandle. A new department now, functioning at full capacity, is known as the "Board of Strategy." This department came into existence not by designation but by usurpation and is composed of the following active members: Messrs. R. C. Halthcock, Fay Guthrie, Bryan Wells, Luther Harris, Ray Wall, Less Gilbert, and Mesdames W. D. Biggers, Warner Reid, and J. W. Jones. The Board also contains several honorary members whose names will not be mentioned until they are eligible for active membership. At present they will act only in an advisory capacity and from time to time will be assigned to important posts in faculty activities.

No official meeting of the board has been held as yet, but the following temporary appointments have been made pending a permanent organization in the near future: Mr. R. C. Halthcock, President; Mrs. Warner Reid, Secretary; Mrs. J. W. Jones, Sergeant-at-arms; Luther Harris, Organist; Bryan Wells, Chief Room Father; Ray Wall, Chairman of the Board of Detectives; Less Gilbert, Official Bass Singer for the Music Memory Department; Mrs. W. D. Biggers, Confidential Adviser of the Superintendent; Fay Guthrie, Statistician.

All departments of the school system welcome this new organization and pledge them their hearty co-operation in carrying on their work of directing the destinies of Lockney High School.

pupils to put forth their best efforts, and it is a joy to see how enthusiastic they can thus become over such a dry subject as abstract number work. The pupils that have announced the 72 results in 60 seconds are: Riddell Hutsell, Helen Ruth Busby, Lurlene Pettigrew, Curtis Williams, Joe Murrell, Terra Maude Pearson, Marvin Brotherton, and Frances Humphries.

A Valentine Post-office

We are planning a Valentine post office for Thursday afternoon. The post office opens Wednesday, 8:45 a. m., Feb. 13th, and closes Thursday, 1 p. m., Feb. 14th.

Second Grade Presents Playlet for Third Grade

The second grade visited us Friday afternoon. They dramatized the story, "The Elves and the Shoemaker." The characters in the story were:

Billie Jean Biggers—Good Old Lady Harris Bill, Jr. Poor Shoemaker B. J. Wofford Customer Mary Alice Baker First Elf Billy Whitfill Second Elf

We were very happy to have these little folk visit us.

Fourth A

The fourth grade has had a very interesting study of Lincoln. As they answer the roll call, they tell something new they have learned about him.

We are coloring a flag this month in health. As this is the month of George Washington's and Abraham Lincoln's birthdays, we feel that it taxes a very clean and neat boy or girl to get to color on a flag.

The fourth grade children began working on Reading Projects after Christmas. They are progressing wonderfully. Raymond Spence has worked more than anyone. His number is sixteen. We have others following closely behind. They are: Pauline Beall, Muriel Trussell, and Rayborn Spence with fifteen worked; Bob Collier with fourteen; and Ruth Easter and Delbert Witte with thirteen.

Dahlia Fortenberry has moved to Tulsa. We hated to lose her. The fourth grade room received a letter from her last week.

The fourth B room came to our room this morning and we drew names for Valentines. We are planning to have our Valentine Box together.

Fourth B

The fourth B room is having a party Thursday afternoon in honor of Valentine day. We are having as our guests the fourth A room.

Several pupils were out of school last week on account of the bad weather. We hope to have everyone back in school this week.

Kathryn Barr has withdrawn from school. She is moving away.

Critic—To be frank, I don't like your picture; yet there is something remarkable about it.

Durgans, the artist—It's sold anyway.

Critic—Probably that's it.

County Basket Ball Meet at Floydada

At Floydada, Friday and Saturday, February 15 and 16, the County Basketball Meet will take place. As a preparatory game, on Wednesday night the Lockney Longhorns play the Floydada Whirlwinds at Floydada. Friday night these two teams meet again. The winning team will play either Aiken or Lakeview for the county championship. Are you backing your team? Then be at Floydada Friday night to see a real game and help your team.

YE SENIORS OF TWENTY-SIX

"Every day in every way we are getting better and better." So reads the motto of those who so gloriously finished L. H. S. 'way back in '26. The class prophet evidently looked into the wrong side of the crystal for some of us, but maybe the future will prove him true.

It seems that during the last two and a half years this group of people has become rather widely separated, both as to occupation and as to residence. Maybe it would be more interesting to go to the farthest one and gradually come home in giving an account of ourselves.

Edward Newman was back in Lockney last summer and gave an account of himself. He was in school in Kentucky for a while but he is in Chicago now working. We hear that he even acquired a boss for life, by marrying.

Paul Ragle and Marie Carter are the only ones whose high school romances have terminated on the vast sea of matrimony. They are in Santa Fe, New Mexico now.

Dame Rumor says that soon after Johnny Casey left Lockney for her home in East Texas she eloped with her "Lochinvar."

Florence Gorman became Mrs. H. L. Crowder, and is now living at Brownfield, Texas.

Edna Mann and Gladys Marie Rosenberg condescended to marry persons who were juniors when we were seniors. Gladys Marie married Grady Garrett and they are living in Fort Worth now. Edna Mann became Mrs. Earl Rives and is living in Lockney.

Lula Wright, Leota Shurbet, and Alma Smith married boys who live near Lockney. Lula became Mrs. Douglas Watson, Leota, Mrs. Ruel McPherson, and Alma, Mrs. Edd Holmes.

Lloyd Wofford and Zelma Fowler went to Plainview to find their "better halves." Zelma became Mrs. Louie McMurray. Both couples are still in Lockney.

Ennice and Eva White decided to acquire an "Mrs." degree rather than a "B. A.", after one year in Wayland Ennice married Raymond Gibson and is living at Lubbock. Eva married Mr. Nance and is living at Sudan.

Louise McRee was not satisfied with doing one thing, that of teaching school; so she married the post master in the town where she is teaching.

The last time we heard from Loretta Hughes she was at her home in Vereta, Texas.

Robert Ayres is employed in the Baker Mercantile. Frederick is in a dry goods store at Midland.

Syphel Cook, our president, is working in Amarillo. Presley Garrett is down at the gravel pit, near Quitaque. Lendon Frizzell and Jessie Harris are still on the farm near home. Raymond Meriwether is about to turn painter. Joe Neeley has become a traveling salesman out of Abilene. Douglas Middleton was working with his father down near Fort Worth.

Roberta Barber began studying music at Plainview and intends to resume her studies as soon as her mother sufficiently recovers from her recent illness.

Wanda Stinebaugh and Weldon Logan are still studying at Canyon. Weldon has become quite an athletic star up there.

Anslay Fox is working on a ranch near Dalhart.

"And Mary Did" To Be Presented February 22

The seniors and all of high school are looking forward to the fulfillment of the contract made by the Floydada and Lockney Seniors,—that of exchanging plays in order to help pay for the projects of those two classes. The Lockney Seniors fulfilled their part of the contract on January 18, and the Floydada Dramatic Club will come to Lockney with their play, "And Mary Did," and present it in the Lockney High School auditorium at eight o'clock on Thursday evening, Feb. 21. "And Mary Did" is a comedy in which humor and pathos, thrills and adventures, folly and wisdom are entwined to furnish an evening of delightful entertainment. There will be music between acts. The cast of characters is:

Mary Sterling, a modern "Joan of Arc" Thelma Covington Laurence Grey, a modern "Lancelot" Maxine Norris Mrs. Sterling, an old-fashioned mother Ruth Jenkins Dressa Rand, the girl that men for (?) Maxine Norris Daniel Grey, father of Laurence and ambitious as to his matrimonial and financial career

Charles Mathews Edith Smith, Mary's chum whose chief aim in life is to "bluff" off the other fifty pounds Robbie Archer Willie Sterling, Betty Sterling, Mary's brother and sister—the dear little angels—ages between fourteen and seventeen—Carl Marshall, Ruth Rutledge.

(Miss) O. G. Whittaker, a masculine movement to feminine freedom Gene Smalley Matilda, helps Mrs. Sterling keep the little angel's wings clean and also the house once in awhile

Oleta Jackson Henry, supposed to be Daniel Grey's gardener, but spends most of his time in Matilda's kitchen. Pete Nelson.

The Gentleman from Georgia. The seniors urge everyone to remember the date and come to see "And Mary Did." It is sure to be a delightful entertainment, and is sponsored by the Lockney Seniors, so, if for no other reason, come to help the seniors pay for the clock system that they have purchased for the school. The entire proceeds of the evening go to the Lockney Seniors.

Virginia Hohlaus was the first to

Junior Class Meeting

The juniors attended a call meeting at noon Monday. The purpose of this meeting was to discuss a theatre party that had been planned for Monday evening. A meeting place was fixed at Griffith's Confectionery, and plans for a social gathering after the show were made. After the show the juniors were to return to Griffith's Confectionery for refreshments before returning home.

Misses Coleman and Honea Hostesses to Club

Misses Hula Coleman and Olga Honea were hostesses Friday evening, February 8, 1929, to a group of friends with a bridge party at the L. M. Honea residence.

Valentine suggestions were carried out in the decorations, tallies, favors, and refreshments.

In the games of bridge Miss Mollie Newman and Luther Harris were given high score prizes, and Miss Melba Thomson received consolation.

The guest list included: Mr. and Mrs. Bryan Wells, Mr. and Mrs. Luther Harris, Misses Pauline Stovall, Mollie Newman, Grace Wise, Melba Thomson, and Thelma Steele, and Messrs. Marvin Gilbert, Virgil Threet, Jimmie Hodel, Charlie Moseley, Henry Hodel, Marsh Collins, and Clyde Applewhite.

FRESHMEN GIRLS STRONG IN BASKET BALL

About twelve of the freshmen girls are playing basket ball this year, and all of them are making fine records.

Mary Leda McAdams and Ruby Cox have played on first team, Ruby, as running center and forward, has played in all but three of the first team match games.

The third team is made up of freshmen, and they have had two match games already, in which they have won one and tied the other.

Lockney High School can be assured of a winning team for the next four years at least.

Rah! Rah! Rah! Freshmen!

Merle Trapp is still in L. H. S., but she too, has taken a fatal step and become Mrs. R. C. Halthcock. "Pop" is still doing his best to make fairly decent American citizens out of the youngsters of Lockney.

Maybe some time in the future we will all come into our own as the prophet has predicted. If not we shall make the best of it and still fulfill our motto, by "growing better and better every day."—One of the bunch.

3 Glasses Water Help Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of single glycerin, saline compound (known as Adlerkia) to each glass.

Adelrika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours.—Stewart Drug Co.

SENATORS LOSE POWER TO VOTE 'NO' ON BILLS

Austin, Feb. 11.—Senators Monday morning seemed to have almost lost their power to vote 'no' on bills which came up for discussion.

Love's resolution asking a constitutional amendment to provide for continuous sitting of the Supreme Court passed without opposition. This proposed amendment would be submitted in the general election of 1930 only if the amendment, which would accomplish the same purpose and also enlarge the court's membership, should be rejected by the people.

The senate also passed without objection the Berkeley bill to pay for the United States survey which fixed the boundary line between Texas

and New Mexico. The bill called for an appropriation up to \$25,000.

Hornsby's bill, which would permit the increase of Confederate pensions to \$50 a month, pursuant to constitutional amendment adopted last year, was passed.

The senate also sent to the House the Small bill, allowing a member of the railroad commission to sit with representatives of similar commissions in other states on interstate bus matters. The bill would become effective only if Congress should pass proposed legislation allowing such procedure.

Farm Loans and Life Insurance

We have plenty of money to loan on Farm and Ranch land in Floyd and adjoining counties, at 6 per cent.

Don't you know it is better to have your insurance with a well known Company?

Don't you know it is better to have a well known representative write your business, who has a contract with the company for the territory in which he lives?

DE LAVAL AND DAIRY DAY AT OUR STORE

Call and see us during the day. Bring your wife with you, also your neighbors and friends. Every one who is milking cows or planning to do so will learn something of value.

An actual Demonstration showing the skimming efficiency of the "DeLaval with the Floating Bowl" will be held by reskimming the skimmilk from a cream-wasting separator.

We will explain why the DeLaval will skim cleaner under any farm condition and show why it lasts longer.

The DeLaval Milker will be in operation. See how it works and learn how it will save money and time for you.

SEE OUR WINDOW DISPLAY

There will be interesting and instructive talks in addition to the Demonstration of Reskimming the Skimmilk from a cream-wasting separator.

For further information see our window display. We suggest that you have your wife see this display.
