

What's Doing in West Texas

Llano is looking for a man financially able to furnish and lease the new up to date, 36 room modern Llano Community Hotel. This building will be completed April 15 at a cost of \$85,000. It has steam heat, fans, phone, and hot and cold water.

Word comes from Del Rio of a new dam to be built on Devil's River to have a storage capacity of 8,460 feet. Permission to use water to the extent of 550 cubic feet per second for generation of hydro-electric power goes with the permit. The other dam is complete and has been in use for some time.

Friona is experiencing a building boom. Many new residences are going up, and three permanent store buildings are being constructed on main street. Many of the new residences are of brick and stucco.

Two miles of gravel base of the Highway No. 7 have been laid near Sweetwater. Work has started at the Coke county line and the crews are working northward. A gravel base 11 inches deep has been rolled to about 8 inches.

Eastland is to have an exhibit at the Western States Exposition which is to be held in connection with the 75th anniversary of the California State Fair at Sacramento. An expressive display of western products and resources has been planned.

A prize winning pen of ringlet Barred Rocks chickens has been purchased by a Dalhart poultryman. The pen cost \$85.00 and won first honors at the Madison Square Poultry Show in New York. The formation of a poultry show in Dalhart recently has aroused considerable interest in poultry raising.

The first shipment of certified seed which is being purchased through the efforts of the Canyon Chamber of Commerce, has arrived and been sold to farmers at cost. Dwarf maize, Texas Blackhull kaffir, and redtop su-mac was included in the shipment.

An ornamental lighting system is

being installed along the main thoroughfare of Brady's residence streets. All important streets in North and South Brady will share in the new system of illumination which is being done by the Brady Water and Light Works.

Forty blocks of paving of alleys and down town, residential section streets will be started in Stamford beginning April 1. The contract was let for this several weeks ago. The work will be done of brick and concrete.

Doney county cream shipments continue to increase. At Clarendon 214 ten gallon cans worth about \$12 per can formed a shipment which recently brought \$2500 to the town. Some cream is shipped out by truck to nearby creameries.

Plainview is building up. The new Hilton Hotel will bring the skyline from four stories to eight. Montgomery Ward, J. C. Penney, and other well known companies are building in the town, and permanent buildings are being erected for the Panhandle-Plains Second Annual Dairy Show.

Stamford—(WTCC) Manager Homer D. Wade, of the West Texas Chamber of Commerce has advised J. M. Del Curto state entomologist of the interest of the regional organization in the adjustment of the fumigation expense incurred under the legal order of the state and federal department or agriculture. This followed a conference of one of his departments with Mr. Von Roeder, of the Pink Boll Worm Commission.

Letter from China

C. P. O. Box No. 1234, Shanghai, China, February 18, 1929.

Dear Friends,
Recently in a Bible Class I heard strange statements on Genesis and the origin of man. How they did try to explain away the clear teachings of God's Word! The thought came that Chinese teachings could "go them one better," and you'd like to hear the Chinese creation story.

The male and female principles, "yang" and "yin," gave birth to Pan-Ku, the first man, how none knows.

Faith must accept that. He had two horns and was a short stubby fellow; but endowed with the ability to grow. He proceeded to grow. He grew six feet every day and as he lived 18,000 years, you can see how big he got. He, in some way, got possession of an ax and with that he managed to "K'ai-p'i-t'ien di," hew out the universe. This was seemingly out of nothing or at least out of chaos. He was eighteen thousand years doing the work, and in order to complete it all he had to die. His head is said to have become "the mountains, his breath the winds and clouds, his voice the thunder, his limbs the four quarters of the earth, his blood the rivers, his flesh the soil, his beard the constellations, his skin and hair the herbs and trees; his teeth, bones and marrow became the metals, rocks, and precious stones, his sweat the rain," and (most suggestive of all to evolutionists!) "the insects creeping over his body became human beings!"

I hope we are proud of our ancestry! Chinese speak of three kinds of insects that delight in man's "fellowship," the "crawlers, the jumpers, and the smaller." I asked a Chinese to which race he belonged. He said he did not know but that the "foreigners must belong to the crawlers for they are white." The picture I send shows Pan-Ku and his apron of leaves and his ax. In his hands he holds up the sun (red) and moon. He failed to put them in their proper places, and they went away into the Han (sea) and the people were left in darkness. A messenger was sent to ask them to go into the sky and give light. They refused. Pan-Ku was called and at Buddha's direction wrote the character "zeh," gun, in one hand and "yuih," moon, in the other and going to the sea, he stretched out his hands and called the sun and moon repeating a charm devoutly seven times, when they ascended into the sky and gave light day and night. There are many more things told of Pan-Ku; but I cannot tell all in one letter. In the creation he made 51 stories. Of these 33 were for heaven and 18 were for hell below the earth. The heavens were graded for good men and the floors below the earth were for bad men. If one is the very best of all he can go to the 33rd heaven and be worshiped as god. If one be very bad he'll go down to the 18th hell.

These are some of the teachings of Chinese Doctors to boys in the schools. We teach, not these myths, but the dear old infallible Bible to our little Brownies and it saves their souls through faith in Christ. Can you think of a better way to lay up treasure in heaven than to help these little ones to get there? And, by the way, Christmas! The generous gifts of friends at home made it possible to give lots of little ones the best Christmas yet. As I close my eyes I can see stacks of dolls and balls, marbles and whistles, hankies and soap, oranges and apples, candy and toys ready to put into paper sacks and then the heaps of filled church packed then the big borrowed church packed full of 800 excited kiddies and I can hear again the singing of Christmas carols and our best hymns, "Ya-su Ai-ngo," "Jesus Loves Me," and, "Ten Tso Tsai Lai," "When He Cometh," and then see the long line of little ones as they filed past to receive their "Christmas" sacks, and I see their glad smiles as they receive their gifts and I hear their sweet "Zia-zia Noong", thank you, and then see them run down into the yard and sit on the ground and eagerly open their precious bundles to "see what I got!" I wish you could have seen and heard it all.

Yours in Christ's glad service,
(Rev.) H. G. C. HALLOCK.

MRS. HOOD DIES LEAVING 146 DESCENDANTS

Pioneer Plains Woman Was Busy During War of Nation

One hundred forty-six living descendants were left by Mrs. Nancy Jane Jones Hood when she died at her home in Claude, March 15th, at the age of 97 years and 24 days. Of these, seven are her children, 41 are grandchildren, 92 are great-grandchildren, and six are great-great-grandchildren. Two of her own children are dead.

Mrs. Hood had lived in Claude for the past 25 years and until nearly the time of her death was extremely active for a woman of her age.

Born in Tennessee, February 19, 1832, Mrs. Hood moved with her parents to Carthage, Mo., when she was a girl. Here she married, in 1853, Norris Franklin Hood who died in the service of the Confederate army. Five children were born to them: Laura Elmira Hood Thornton, who died a year ago at Lockney, Texas; C. A. Hood, who died in his youth; Mrs. A. A. Hudman of Alamogordo, New Mexico; Mrs. E. L. Richardson of Fargo, Texas, and N. F. Hood of Claude.

In 1866, she married W. W. Hood, a brother of her soldier husband. They moved from Missouri into Arkansas and later came in a prairie schooner to Johnston county, Texas. Into the second family were born four sons: J. A. W. W. H. A., and F. A. Hood, all residents of Claude except H. A. Hood, whose home is in Vernon. After the death of her second husband, 25 years ago Mrs. Hood went to Claude where she made her home with her son, Warren Hood, and family.

Always busy, the aged woman knit hundreds of yards of beautiful lace,

and made an unknown number of quilts. During the World War, she knit more than 50 pairs of socks for soldiers. Until her death, her mind was alert. She read extensively and had knowledge of all of the events of the times. She was a devout churchwoman, often preferring to walk the three blocks to her church rather than going in an automobile. She completed her last quilt just a few days before her death and gave it to her 80-year-old niece, Mrs. Millie Edleman of Joshua, Texas.

Primary Department

First Grade A

Revis Neil Harris returned to school Monday after a few weeks visit in Lasara, Texas. We are so glad to have Revis Neil back with us.

Mary Elizabeth Broyles won a place in the story telling contest last week. We are hoping that she will win in the final contest.

The third grade entertained us Thursday afternoon with a little play. We enjoyed having them visit us and invite them back again.

We have been learning some interesting things about bird life. In connection with this study many bird pictures have been colored and sentences written about each bird. These pictures and stories will be made into little booklets.

Easter posters were made last week. We are making Easter baskets this week, and putting green grass in each basket so the rabbits will visit our room and leave easter eggs for all the little boys and girls who have been good.

Second Grade

The second grade won the prize for having the most mothers present at P. T. A. Thursday. There were eleven mothers representing the second grade. We, as a room, want to thank our mothers for their splendid spirit and co-operation.

The following program was rendered at the P. T. A. meeting Thursday afternoon:

The Elves and the Shoemaker
 Characters
 Shoemaker — Harris Ball, Jr.
 The Good Old Woman — Billie Jean Biggers
 First Elf — Mary Alice Baker
 Second Elf — Billie Whitfill
 Customer — B. J. Wofford

Song: Spring is Here—Second grade girls.

Song: Glad Arbor Day.—Second grade boys.

Sailors Hornpipe—Harold Ormon, Charlie Prickett, Billie Whitfill, and Harris Ball, Jr.

Jack Harris returned to school Monday.

Juanita Hutchinson entered school here Monday. She comes from Los Angeles, California.

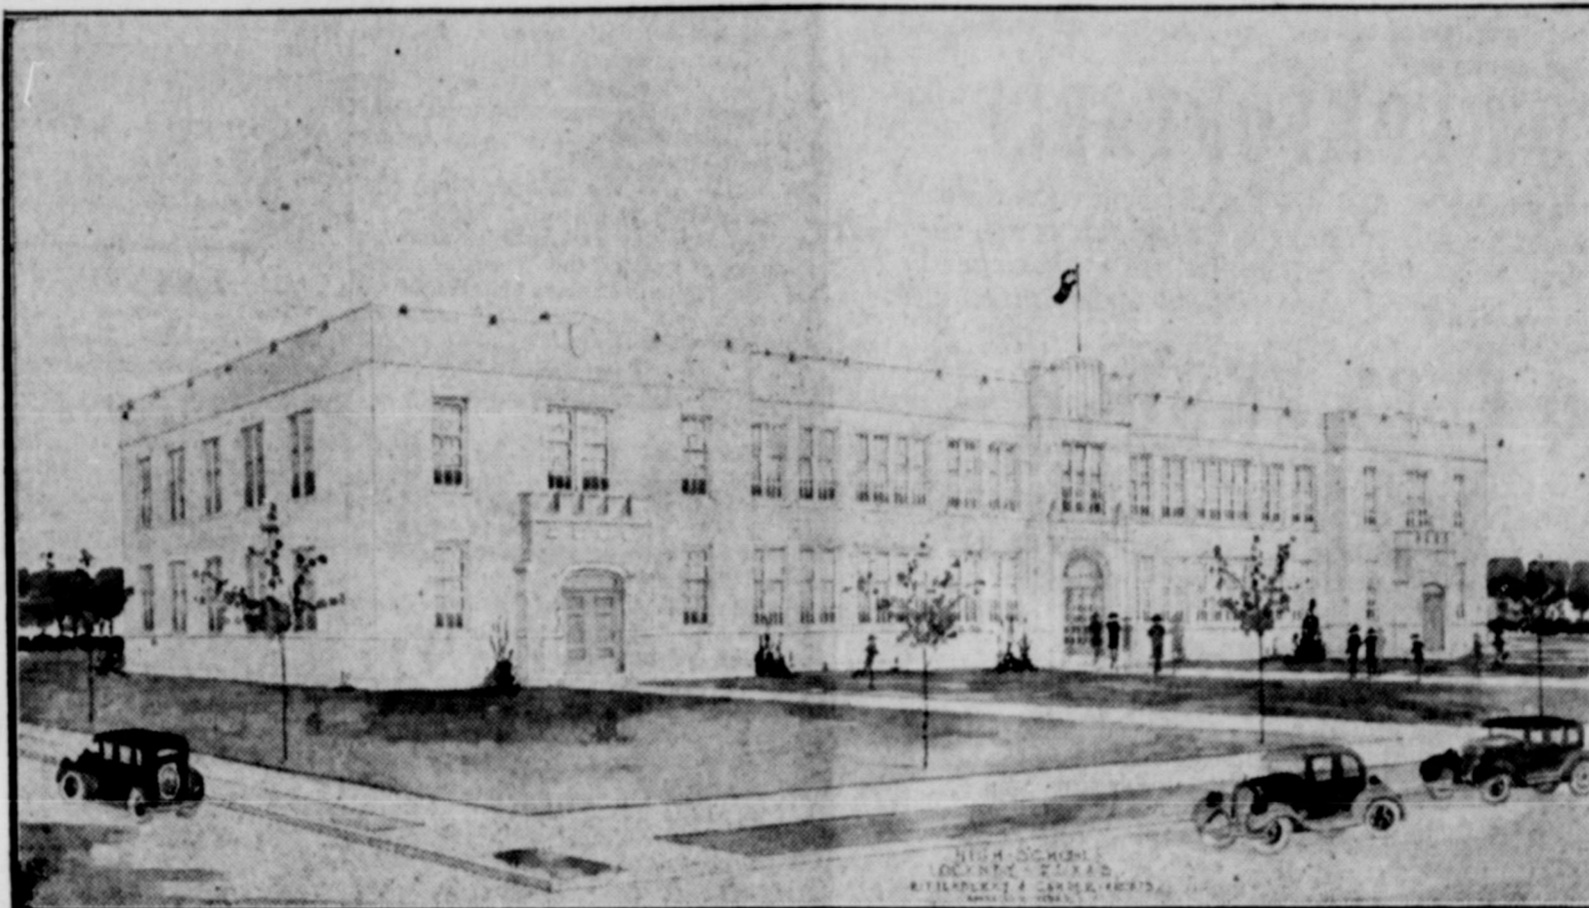

Bruce Dines was absent Monday.

Mrs. Artie Baker was a visitor in our room Friday morning.

Mrs. R. A. Turner and Mrs. H. A. Roberson visited in our room Monday afternoon. We were glad to have them with us and invite them back. We also invite other mothers to visit us.

The following pupils have completed the 49 combinations in the required amount of time which is 30 seconds: Mary Beth Trussell, Harris Ball, Jr., Francis and Kathryn Henderson, Dorothy Lee Williams, Jack Cox, Georgia Belyeu, James Cope, Imogene Carter, Harold Ormon, and

THE NEW SCHOOL BUILDING

Our Voters and Our School

Broad-minded people are not exceptions; they are the rule. We have fallen into a bad habit of criticizing people for being narrow-minded, but Lockney people are very considerate. This fact has been effectively proved in the last school election. The bonds carried with a large majority, where-by we are to have a fine new high school. Our parents realized that such an act was necessary for the mental training of the girls and boys who are to make Lockney a progressive, outstanding town in the future.

The school condition in Lockney was indeed distressing to believers in an adequate education. The rooms were so crowded that very little personal attention could be given to each child, and the teacher had to spend all of his time trying to keep his sixty or seventy students quiet. The teachers did not have sufficient and necessary equipment with which to instruct the children. We wondered, before the voting of the bonds, if this lamentable condition were going to last for a number of years, but the citizens of the Lockney district answered our prayers with enthusiastic zeal. The future students of the Lockney High School will be very proud of the new building and keep it ever a shining example to the other high schools of Texas.

Our new school building will be practicable and durable as well as beautiful in architectural lines. It will be provided with the equipment needed and will have a long wished for gymnasium. The future students of Lockney High will therefore have physical training as well as mental education. The future of the Lockney schools has, indeed, a bright outlook, and let us hope that the citizens of the district will always have the enlightened foresight that they have shown this year.—June Guthrie.

Third Grade

Pupils Have Perfect Spelling Lesson
 Every pupil was rewarded with a surprise package last Friday morning for having a perfect lesson in spelling. It was the first time this year when every pupil had a perfect lesson.

Visited School

Mrs. Hutsell, Clynell, and Esdell, and Mrs. Humphries, Sonny, and Pat visited us last Friday afternoon. We were glad to have these patrons.

Wins Place In Contest

Riddell Hutsell tied for third place in the story-telling contest which was held last Friday afternoon. While the other third grade pupils who entered the contest did not win a place, we were very proud of them.

This Issue of Longhorn Dedicated To The "Spirit of Progress"

This week's issue of The Lockney Longhorn is dedicated to "The Spirit of Progress," which is being manifested in the growth of education in Lockney. The pupils of Lockney Public School are, indeed, appreciative of the interest and forethought of the Lockney citizens in obtaining the new high school building, which is an important factor of the spirit of progress. Boys and girls realize now, as they have never before, that an education is an essential in this day of modern development. Parents are also realizing their duty in the field of education. They are awakening to the fact that they need higher learning. Their experiences have

been their best teachers, but it takes experience a long time to teach people the proper lessons of life. So the mothers and fathers of this generation are looking far into the glimmering and uncertain future, endeavoring to save their children from the "hit or miss" methods of achievement and to vouch safe for them a release from the hard rule of experience.

May the impetus gained by "The Spirit of Progress" in the building of a new school be replenished by continued efforts of Lockney's citizenship. May they remain constant to the forward look and never be satisfied with anything below the best in educational facilities.

History of the Political Parties of the United States

During the colonial period political parties, as the term is now understood, did not exist. The issue which divided people centered about the relation of the colonies to the mother country, and upon these at first there was little difference of opinion. About

the middle of the eighteenth century, however, England began developing a more rigid and harsh colonial policy. About this time two factions arose in America. One favored, or at least was willing to yield to, the attitude of the home government; the other declined to obey. About 1760 the latter called themselves Whigs, while the former were known as Tories. During the Revolutionary war a large number of Tories left the country and returned to England or went to Canada.

Buffalo Band Gave Program at High School

Tuesday afternoon at 3 o'clock the Buffalo Band of the West Texas State Teacher's College entertained the student body with a series of numbers. After several selections talks were made by Mr. Strain, the band director and Mitchell Jones, the college athletic coach.

This band is making a good will tour over the country and the students of Lockney appreciated the concert very much.

Timmons, visited our room Thursday afternoon. We were very glad to have Mrs. Phenix and Mrs. Timmons and invite other patrons to come.

Those absent from school last week were: Herman Ashby, Paul Teuton, Thelbert Edwards, Beatrice Lawrence, Jack Wright, and Annie Mildred Cheek.

Viva Baxter returned to school Monday after an absence of two weeks. She has been out because of illness.

We are enjoying the reading of a new book, "The Bobsey Twins in the Country."

Fourth A

Hollis Harris has come home. We are glad to have him back at school. Malva Turner has been sick. She is not at school today. We hope she soon will be back in school.

We have learned a new song this week. It is "I've Got the Mumps."

The Fourth A was presented a bar of Palmolive soap, with interesting stories, etc. to go with it. They are entering a contest in which they will use this soap. The contest will last six weeks and we know the children will be extra clean for that period of time.

The Fourth A pupils are getting excited over the fact that Friday and Saturday are the days of the school fair. Most of them are planning to be there at least one of the days.

In the subjunior declamation try-out last Friday, Ivana Simpson was given first place and Doris Fields second. We are proud of them.

New High School Building to Be Modern

Architects Rittenberry and Carter of Amarillo have planned for Lockney a school building which is modern in every respect. It will make possible the use of most efficient methods of teaching complemented by convenient and comfortable provisions for the students.

The building, 228 feet long and two stories high, consists of three units—a gymnasium, an auditorium, and the administration department. The gymnasium is on the north end and the auditorium on the south end of the administration unit through which runs a long corridor to connect the first two.

On the first floor of the central unit will be the offices of the superintendent and principal, laboratories for all sciences, a cafeteria, a dining room, and a room for teaching home nursing.

On the second floor are the class rooms, a study hall, a music room, public speaking room, and a rest room for teachers. In the corridor on this floor are lockers for the individual students—a feature much to be appreciated after five years of being in a crowded study hall. On this floor also are the balconies to the gymnasium and auditorium.

On the whole this plan provides one of the most modern high school buildings on the Plains. It is thought that the building will be completed and the doors opened for the faculty and students to start work when school begins in September.

P. T. A. to Meet Thursday, April 4th

The following is the program to be rendered at the meeting of the Parent-Teachers Association on Thursday afternoon, April 4, at 3:30 o'clock:

Piano, Frolic of the Frogs.—Patricia Patterson.
 Playlet—Weldon Dodson and Gerald Sams.
 Piano, Fairy Footsteps.—Leona Shelton.

Our Health Play—Miss Honea's Room.

Round Table Discussion, How Can Team Work be Taught in the Home?—Led by Mrs. T. H. Stewart.

The Boy Scouts—Mr. Roberts. Members are urged to be present.

TRY-OUTS IN JUNIOR TRACK HELD MONDAY

Monday afternoon, Coach Reid held a try-out in Junior track with grammar grade boys. The boys entered the contest with much pep and enthusiasm. Out of 150 entrants the following placed:

150 yard dash:
 1st, Buster Broyles 2nd, Henry Brotherton; 3rd, Novice Livingston;

4th, Leo Mason; 5th, Paul Bybee; 6th, Gordon Suits.

100 yard dash:
 1st, Buster Broyles; 2nd, Henry Brotherton; 3rd, Leo Mason; 4th, Ben Whitfill; 5th, Novice Livingston; 6th, Paul Bybee.

These six boys were the fastest, but in the field the other boys will have a chance to place. The field events are: high jump, broad jump, and chinning the bar.

The high school junior team is made up of: Maclea Johnson, R. C. Mitchell, George Webster Jr., Douglas Adams, and others.

Schools of Floyd County Hold Meet

By the time the Lockney Longhorn for this week is being read, the pupils of the Lockney High School will be competing with Floydada in the Interscholastic League Meet. The school students have been preparing for this event for some time, and Friday and Saturday of this week will find them in readiness. The try-outs in track events and most of the literary events have taken place and the contestants are working with enthusiasm and pep.

It is hoped that the readers of this page have attended the events at the meet by the time they have read this article. If they did go to Floydada and boosted their school, they will have been an instrument in helping the Lockney students toward winning the Class A championship cup.

Local Try-Outs in Declamation Held Tuesday

The students of Lockney school assembled in the auditorium at one o'clock Tuesday afternoon to hear the speaking try-outs. The Junior girls declamation and extemporaneous were the first to speak. The entries were Opal Floyd, Frankie Dodson, Mary Rosalee Jackson, and Louise Arceneaux. Each declaimer delivered her reading unusually well. The judges had a difficult task in deciding the winner. The decisions of the judges were cast in favor of Opal Floyd.

Following the girls came the Junior boys. The entries were Garland Sams, Guernice Baker, Owen Thornton, and Rowan Ward. After a momentary decision, first place was given to Owen Thornton.

The Senior girls declaimers were Opal Ashby, Estelle Byars, Leona Griffith, and Martha Meriwether. Estelle Byars was given first place and will represent the Senior girls declamation at Floydada.

The boys entering Senior declamation were Gerald Sams, Winfred Cooper, Ernest Lee Thomas, Wayne Coleman, and W. C. Hubbard. First place was given to Wayne Coleman. Weldon Dodson was the only entry for the grammar school Senior declaimer.

The two entrants for the extemporaneous speaking contest were Mary Nell Meador and T. H. Stewart. First place was given to T. H., who will represent Lockney next Friday and Saturday at Floydada.

Raymond Gentry was absent Thursday and Friday.

Miss Simpson has been reading "Two Little Confederates" to our history class. We enjoyed the book very much.

There are a number of pupils in our room who are entering various contests for the Interscholastic Meet. They are all putting forth every effort to win, and we want them to know we are proud of them and are backing them to the limit. In the sub-Junior story telling and declamation try-outs last Friday, Estelle Hodel from our room, won second place in story telling, and Meda Ruth Thomas won third place in declamation. Mary Louise Woodworth won fourth place in the music memory contest, and will be one of the team at the county meet.

The ones that were absent part of this week are Buster Broyles, Lowell Williams, Donald Williams, Rachel Graves, and Hubert Witte.

Mae Belle Lewis returned to Lockney and entered school here again. We are glad to have her in our class again.

Does Your Cow Pay Off?

The average farm cow in this community does not produce as much milk as she should to be profitable—nor does she produce as much as she could were she given proper feed and care. On many farms she is forced to shiver in the cold wind and rains through the winter and to exist on a scanty ration of grass, stalks, and weeds, with often a stagnant pool as her only source of water, and tormented with flies, during the summer.

MAKE THE COW COMFORTABLE

Does not this faithful friend of mankind deserve better treatment than she gets? The first consideration should be the animal's comfort. It is not necessary to erect an expensive barn, but in winter she should have a warm box stall and in summer plenty of shade, and good, pure water. Spraying at milking time will help keep away the flies.

IT PAYS TO FEED ENOUGH

The greatest single cause of low milk yields is lack of sufficient feed and a balanced ration. It takes about one half of a cow's feed to maintain her body and if she is fed on a half ration she has nothing left to convert into milk. Many people think that the less feed they give the more profit they get, while just the opposite is true—up to the capacity of the cow.

HOW MUCH IS ENOUGH?

Under average conditions feed all the roughage the cow will eat—Cottonseed Hulls and legume hay, with or without silage. The average Jersey cow will eat from twenty to twenty-five pounds of Hulls and hay, mixed, (for two roughages should be fed), per day.

Feed a grain mixture in proportion to the amount of milk produced at the rate of from two to three pounds of grain for each gallon of milk produced per day. The grain mixture should include at least two ingredients in addition to cottonseed meal, such as wheat bran and ground kaffir or maize, or barley, and should contain at least one ounce of salt per ration.

Call at this office, or phone or write us and we will be glad to furnish you with a bulletin on proper feeding of animals as well as the formulas for different rations.

For a short time only, in order to encourage the trial of products made by ourselves we are offering sacked or loose hulls mixed hulls and meal at the following prices:

- SACKED HULLS 65c Per 100 lbs.
- 80-20 MIXED FEED \$1.10 Per 100 lbs.
- (Ten cents per sack on all sacks returned)
- LOOSE HULLS 45c Per 100 lbs.

During the months of April and May we shall maintain a feeding specialist out of our office to advise you on any feeding problem you may have.

SUNDAY, APRIL 14

SONG SERVICE DIRECTED BY BRO. R. M. MORGAN
WE BELIEVE:

1. Men should not only be religious, but should be religiously right. We do not believe whatever a man thinks is right is right. "O Lord I know that the way of man is not in himself; it is not in man that walketh to direct his steps."—(Jer 10:23). "There is a way which seemeth right unto a man; but the end thereof are the ways of death."—(Prov. 14:12).
2. That God has spoken. Heb. 1:1. He has revealed his will to men. We believe that we must do His will in order to be saved. Matt. 7:21. His word is to be our guide, not human opinions. "Trust in Jehovah with all thy heart, and lean not upon thine own understanding: in all thy ways acknowledge him, and he will direct thy paths." (Prov. 3:5, 6)
3. That the revelation of God's will is finished, complete and perfect. Jno. 16:12, 15; 2 Pet. 1:3; Jas. 1:25.
 1. All scripture is given by inspiration of God. This at once puts the Bible in a class by itself infinitely exalted above all other books.
 2. The Scriptures are able to make a man wise unto salvation. He needs no other wisdom religiously. The Bible should be studied that one may know the will of God. 2 Tim. 2:15.
 3. The Scriptures are profitable for doctrine (teaching), reproof, correction, instruction in righteousness.
 4. That the man of God may be perfect, "furnished completely unto every good work." (2 Tim. 3:15-17). Read and study this great passage.
 4. These things being true, it follows that all other standards should be set aside. All human creeds and confessions of faith should be, in loyalty to the word of God, discarded. One great cause of division would thus be removed.

STARKEY

March 19.—Everyone is especially invited to the play given at the school house Thursday night, March 21st. Mr. T. R. Atkinson and family returned home yesterday, after spending several days visiting in Vernon with his daughter, who is attending school there. Miss Blanche Bass met with the girls last Thursday evening. Miss Roberta Ferguson spent the week-end with her parents. Roberta is attending school at Lubbock. Mr. T. M. Mara and family are spending a few days visiting at Denton. Mr. Mara's son is attending school there. Little Alle Fae Burgett has the measles, but is getting along fine. Rufus Kelley has returned from an extended trip of the Western states. Superintendent Scott paid the school a visit last week and also made an inspection of the building.

LONE STAR

March 25.—Mr. and Mrs. Albert Rains and daughter visited Mr. W. H. Workman and family Sunday. Mr. Arthur Roberson and family of Lockney visited Mr. Walter Griffith and family Sunday. The P. T. A. met on Friday evening. A short program was given by our declaimers and two declaimers from the Providence community. Louis Buth, who is now a student in Wayland College, preached at the Sterley Baptist church Sunday morning and night. A meeting was held at the Christian church last Saturday night and will continue through the week. Rev. Johnson of Turkey is doing the preaching and Mr. Godfrey of Plainview is conducting the singing. Mr. W. H. Johnston and son, and Mr. G. B. Johnston and son spent Tuesday in Ralls visiting the Mr. Johnston's mother and sister. Mr. and Mrs. Albert King spent a few days of the past week visiting Mrs. King's mother, Mrs. Thomas, of Amarillo. Miss Pauline Stevenson spent the week-end in Canyon. Mr. and Mrs. E. C. Brown and family visited Mrs. C. H. Brown and family of Roseland Sunday.

IRICK

March 25.—Health is not very good at this writing. Miss Ethel Murphy is out of school with an attack of appendicitis. Mr. and Mrs. Baylor Byars and family spent Sunday with Mr. and Mrs. H. D. Ashby. Mrs. Pogue spent Monday afternoon with Mrs. Crawford. Miss Gladys Murphy, who is attending business college at Plainview is at home for a few days. Misses Opal Ashby and Donna Nell Murphy spent Sunday with Miss Dorothy Glass. The young people enjoyed a party at the home of Mr. and Mrs. Baylor Byars Saturday night. Mr. Robinson, who has been on a business trip to New Mexico, returned home last Wednesday. Mr. Elton Cole of Tulia was a visitor in the Glass home Sunday. Mr. Melvin Glass accompanied him home.

"The Greater Commandment", was very much enjoyed by us last Thursday night. It was presented by Prairie Chapel.

Miss Edith Glass, who has been in Tulia for several weeks, returned home Sunday.

Mr. J. H. Hannah and family are the proud owners of a new Ford sedan.

Mrs. Graham called on Mrs. Milton Monday afternoon.

We certainly do thank everyone who has helped us on our pastor's salary. If we do our part, however small it might be, our services will reward us. We invite everyone who does not attend Sunday school and church elsewhere, to come and be with us.

LAKEVIEW

March 25.—Bro. Jameson filled his regular appointment here Sunday and Sunday evening. He will work in this community this week in the interest of the new Methodist church, which will be built soon.

The Senior B. Y. P. U. entertained with a social in the basement of the Baptist church last Friday night, re-

freshments of cake and ice cream were served to a large number of young people.

Many of this community enjoyed the party given by Mr. and Mrs. Fielding Roy last Saturday night.

Smallpox in the surrounding communities has been the cause of many pupils of Lakeview school being vaccinated.

Mr. and Mrs. O. M. Conway and daughter, Florrie, returned from Dallas last Saturday night. They report the doctors to be well pleased with little Florrie's operation.

Mr. Bert Battey and family and Mr. and Mrs. John Conway and family were guests of Mr. and Mrs. Geo. Gilpin last Sunday.

Miss Ona Phifer spent the week-end with homefolks at McAdoo.

Mr. and Mrs. Elmer Newton visited friends in Tahoka last Sunday.

Lamesa will soon have new federal building.

Why the Gold Medal Is So Light-Running—

You will say the Gold Medal is the lightest-running cream separator on the market once you've operated it. And you will find one of the biggest reasons for its lighter running in its self-centering, self-adjusting, completely-enclosed ball bearing upper-neck bearing. (See cross-section view at right).

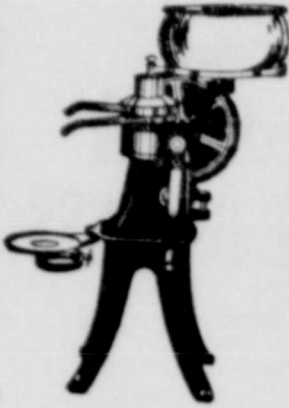

SELF-CENTERING, SELF-ADJUSTING, DIRT-PROOF BALL BEARING
A—Spindle. B—Wear-resisting brass bushing. C—Smooth-running ball bearing. D—Bearing collar spring—makes bearing self-adjustable and bowl self-centering. E—Bearing is effectively enclosed. F is neck-bearing shield; F is bearing cover. Metallic particles, milk, water or other foreign substances are kept from getting into ball bearing. B—Insulating gasket breaks magnetic action created by high-speed action of ball bearing.

The self-centering, self-adjusting feature of this ball bearing is an exclusive Gold Medal feature. It permits the bowl and spindle to find automatically the exact center and spin with perfect balance and least possible friction.

Gold Medal Separator With the Curved Disk Bowl

These other important factors in the construction of the Gold Medal add to its easy-running qualities:

1. All gears and bearings are kept bathed in oil.
2. Because of its curved disks, the bowl is smaller and more compact than a straight-disk bowl of equal capacity. Revolves without vibration.
3. The spindle rests on a hardened steel ball, which revolves in an oil bath between two hardened steel points.
4. The upper and lower spindle bearings are anti-friction, carefully machined to fit snugly.
5. The gears are simple and are arranged to give maximum skimming force from minimum power.

Before you buy a new cream separator, be sure to see the Gold Medal at our store. Remember the Gold Medal is the separator with the CURVED disks that mean CLOSER SKIMMING.

SHERIFF'S NOTICE OF COUNTY JUDGE'S ORDER FOR SCHOOL ELECTION IN COMMON SCHOOL DISTRICTS NUMBER 14 AND 25 FOR THE PURPOSE OF CONSOLIDATION

It appearing that Floyd County contains a population of 9758, according to the last United States census; and

It further appearing that Lone Star Common School District No. 14 was heretofore to-wit on the 2nd day of May, 1927, redefined and rebounded by the County Board of School Trustees by order which is of record in Book 1, page 68, Minutes County Board of School Trustees, and Prairie Chapel Consolidated Common School District No. 25 was heretofore to-wit on the 2nd day of May, 1927, redefined and rebounded by the County Board of School Trustees, by order which is of record in Book 1, page 70, Minutes County Board of School Trustees; and

It further appearing that said districts are contiguous in their territory;

Now, therefore, I, Wm. McGehee, in my official capacity as County Judge of Floyd County, Texas, do hereby order that an election be held in

THE STATE OF TEXAS, County of Floyd. Whereas, on the 26th day of March, A. D. 1929, a petition was presented to me for an election to be held in Common School District No. 14 of this county, and whereas on said date a petition was presented to me for an election to be held in Prairie Chapel Consolidated Common School District No. 25 of this county, on the question of consolidating said districts for school purposes, both of said petitions bearing the requisite number of signatures of legally qualified voters of the respective districts, and being in every respect in conformity with law; and

each of said districts on the 20th day of April, A. D. 1929, the election in said District No. 14 to be held at Lone Star School house in said District No. 14, and the election in said District No. 25 to be held at Prairie Chapel School House in said District No. 25, as said districts were established by the respective orders herein-above referred to, to determine whether a majority of the legally qualified voters of each of said districts desire that said districts be consolidated for school purposes.

T. S. McGehee is hereby appointed presiding officer of the election to be held in Lone Star Common School District No. 14, and Clayton Weathers is hereby appointed presiding officer of the election to be held in Prairie Chapel Consolidated School District No. 25; and each of them shall select two judges and two clerks to assist them in holding said elections, and the said T. S. McGehee and Clayton Weathers shall within five days after holding said elections, make due return thereof to the Commissioners' Court of this county as is required by law for holding a general election.

All persons who are legally qualified voters of this State and County and who are residents of the respective school districts aforesaid shall be entitled to vote at said election held in the district of which they are residents, and all voters who favor the proposed consolidation of the aforesaid districts shall have written or printed on their ballots the words:

"FOR CONSOLIDATION OF SCHOOL DISTRICT" and those opposed to the proposed consolidation shall have written or printed on their ballots the words: "AGAINST CONSOLIDATION OF SCHOOL DISTRICT"

The sheriff of this county shall give notice of said elections by having this order published for four weeks prior to said elections in some newspaper of general circulation that has been continuously and regularly published for more than one year previous to the date of this order, in Floyd County, Texas.

Dated at Floydada, this 26th day of March, A. D. 1929.

P. G. STEGALL, Sheriff Floyd County, Texas. Wm. McGEHEE, County Judge, Floyd County, Texas.

NOTICE OF HEARING ON PETITION TO ISSUE ROAD DISTRICT BONDS THE STATE OF TEXAS, County of Floyd.

To the Legally Qualified property tax-paying voters residing in Road District No. 1 of said county:

TAKE NOTICE that at the court house of Floyd County, in the City of Floydada, Texas, on the 9th day of April, 1929, at 2:00 o'clock p. m., will be heard all persons concerned who shall appear and contend for or protest the ordering of an election to determine whether said Road District No. 1 shall issue certain bonds, and whether an ad valorem tax shall be levied in payment thereof in obedience to an order for said hearing entered by the Commissioners' Court of Floyd County, Texas, on the 21st day of March, 1929, which order is substantially as follows, to-wit:

AN ORDER FIXING DATE FOR HEARING ON THE PETITION FOR ISSUANCE OF BONDS BY ROAD DISTRICT NO. 1

WHEREAS, there came on to be considered the petition of Artie Baker and 75 other persons praying the court to order an election to determine whether or not the bonds of Commissioners' Precinct No. 2, Floyd County, Texas, and said Commissioners' Precinct No. 2 was designated by the Court as Road District No. 1 shall be issued in the amount of TWENTY FIVE THOUSAND (\$25,000.00) DOLLARS, bearing interest at the rate of not to exceed five and one-half per cent (5 1/2%) per annum, payable semi-annually and maturing at such times as may be fixed by the Commissioners' Court serially or otherwise, in not to exceed thirty (30) years from the date thereof, for the purpose of the construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid thereof, throughout Road District No. 1, and whether or not an ad valorem tax shall be levied on all taxable property in said Road District No. 1, sufficient to pay the annual interest and to provide a sinking fund sufficient to redeem said bonds at their maturity; and

WHEREAS, it appears to the court and is so adjudged that said petition is signed by at least fifty (50) of the resident property tax-paying voters residing in said District; and

WHEREAS, said Road District has heretofore been legally created by the Commissioners' Court by an order duly entered on the 21st day of March, 1929, which order is of record in the Minutes of the Commissioners' Court, Volume 6, page 281, et seq.

BE IT ORDERED BY THE COMMISSIONERS' COURT OF FLOYD COUNTY, TEXAS:

(1) That a hearing shall be had by this Court at the courthouse in the City of Floydada on said petition on the 9th day of April, 1929, at 2:00 o'clock p. m., which date is not less than fifteen (15) days or more than thirty (30) days from the date of this order;

(2) The clerk of this court shall forthwith issue a notice of the time and place of hearing, which notice shall inform all people concerned of the time and place of hearing and of

their right to appear at such hearing and contend for or protest the ordering of such bond election;

(3) Such notice shall state the amount of the bonds proposed to be issued, and shall describe the road district by its number, and shall describe the boundaries thereof as contained in the order establishing the district;

(4) The clerk shall execute said notice, posting true copies thereof in 3 public places within said road district and one at the courthouse door of the county. Said notice shall be posted for at least ten (10) days prior to the date of said hearing. Said notice shall also be published in a newspaper of general circulation in a sub-division or district, if a newspaper is published therein, one time, and at least five days prior to such hearing. If no newspaper is published in such district, then such notice shall be published in some newspaper in the county if there be one; the duties herein imposed on the

clerk may be performed by the clerk in person, or by the deputy;

(5) Said hearing shall be conducted under the provisions of Chapter 16, Acts of the First Called Session of the 39th Legislature.

(6) The metes and bounds of Road District No. 1, as created by the Commissioners' Court on the 21st day of March, 1929, are as follows, to-wit:

Mental pictures every car buyer should have

SOME DAY you will consider buying a new car.

Keep in mind these pictures made from photographs of scenes at General Motors' 1268-acre Proving Ground. A car wallowing in a sunken road with water over the hubs... a car bucking a long stretch of cruel bumps and pot-holes... a car straining to reach the top of a heart-breaking hill... a car doing twists and turns and other acrobatics that few cars are ever called upon to do.

Such are the tests given advance models of a General Motors car at the Proving Ground. The tests involve speed, power, endurance, braking, riding comfort, handling ease, fuel, oil and tire economy, body strength—every phase of car construction and performance. When every test has been met, the factory goes ahead and builds your car like these proved models.

Keep these pictures in your mind. They will come in handy next time you are buying a car.

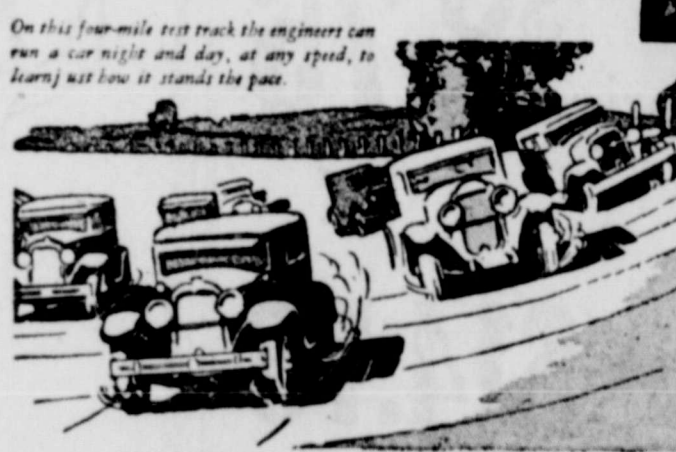

Rough going on a Proving Ground road, made had to test various parts of General Motors cars under harshest possible conditions.

A scientific "bath tub"—not to wash cars, but to show the Proving Ground engineers exactly what happens when a car is driven through water.

Very seldom are hills as steep as this. The average grade of highway hills is seven per cent. This hill is 25 per cent and a car must be good to make it.

On this four-mile test track the engineers can run a car night and day, at any speed, to learn just how it stands the pace.

Pull Your Discs with Three-Fuel Power

Built for tractor power, the one-way-disc pulled by a three-fuel Hart-Parr cuts to full width at any depth. You need not just skim your land, for Hart-Parr power enables you to set the plow down where it belongs and keep it there. Two and even three one-way-disc plows are common behind the larger Hart-Parrs. They pay their way. Hart-Parr is the one tractor that develops tremendous power from gasoline, kerosene or distillate. We are now showing the improved 1929 line equipped with three forward speeds to speed up hauling and field work. Hart-Parrs are built for small, medium or large farms. Come in and see them.

ALWAYS BE PREPARED TO GIVE FIRST AID

The time is at hand when the children will be free to play, as the weather gets warmer and the spring advances. Be sure that you have at hand at all times those necessary articles for First Aid, as you will probably need them many times in the near future. Stewart can supply you with just what you will need for First Aid treatment. Take an inventory of your medicine chest to do, and fill in the necessary items.

Sir Wm. McEwin M. D. has performed more operations for appendicitis than any other surgeon in England and has become so thoroughly convinced of the usefulness of the appendix that he no longer removes it.

He discovered a clear thick alkaline fluid pored from it into the colon. This secretion when added to the pancreatic juice dissolves the white of an egg in three to ten minutes. The pancreatic fluid alone took six hours. Its removal should never be attempted unless all other means fail.

Above is a quotation from a book by Dr. Alfred Walton, M. D. and Surgeon.
