COOKING SCHOOL MEETS WITH FAVOR OF LADIES

FIRST COOKING SCHOOL IN FLOYD COUNTY PROVES A GREAT SUCCESS

Good Rains Have Fallen Over Lockney Country This Week

Rainy Weather No Bar To Lockney Women

Merchants Respond With Good Prize List for Each Day of School—Friday Last Day of School

As announced in last week's Beacon, the Beacon Cooking School, under the direction of Mrs. Delta J. Jordan, late of St. Louis, Mo., but now of Plainview, who was furnished the Texas Utilities Company, opened Tuesday of this week, at which time she devoted the session to cooking and demonstrations on how to make various kinds of pies and pastry, and although rain fell most of the day in Lockney, more than 150 ladies of the town and nearby communities braved the storm and attended the school, and a thorough course in cooking and lectures were their reward.

On Wednesday, with mud everywhere, and rain falling at intervals, more than 250 ladies were in attendance at the school, and demonstrations and lectures were given on cake baking, and the interest shown by those attending was very manifest, even some men were interested enough to partake of the samples served at the close of the school.

Each day prizes were offered, about two dozen premiums, furnished by the merchants and business men of the town being distributed to those holding the lucky numbers, and more premiums will be offered this afternoon and Friday afternoon.

Today is meat and vegetable day, and several kinds of meats and vegetable will be cooked and lectured upon by Mrs. Jordan, and if the weather permits the audience is expected to be even larger than it was yesterday. Friday will be sandwich day, and Mrs. Jordan will demonstrate how to make many different kinds of sandwiches and give out more recipes upon this kind of cooking.

The ladies have shown their interest very pronounced in that they have all brought along their note books and pencils and copied down all the recipes that Mrs. Jordan gave out.

This is the first cooking school ever held in Floyd county, and to most of the people, it is new and entirely different from anything ever staged in the city. Heretofore cooking schools has been big town stuff, and no little towns have attempted putting on a cooking school, the Beacon school being the third school in the state attempted outside of the larger cities, and we are very glad to note the enthusiasm that has been shown by the women of Lockney and vicinity in our efforts to bring some thing new and worthwhile to our city, and we hope to even have a better school for the housewives of this community next year. We do not hope to have a better demonstrator than Mrs. Jordan next year, but expect to have her back with us again, but we hope to add more to the school in many ways, as this time it was an experiment on our part, as we knew little or nothing about cooking schools, and it was all new and out of our regular routine of business, but now that the first one has been a success in this city, we are assured that it is a good thing and worth the attention of all the people of our town, who we are sure will heartily co-operate with us in the next endeavor to hold such a school.

On Friday there will be more special prizes for those attending and we are very hopeful that the weather will permit more ladies from the farms to join with the ladies of the town in taking advantage of this school, as we are sure that what they hear and see at the school will be helpful to them in their daily menus.

To the men we would say, they are just as welcome at this school as are the ladies, and although the ladies as a rule, are the cooks about the place, there is a lot of knowledge that can be of value to the men, if they care to come and join us in these courses.

Those who have co-operated with the Beacon by giving special prizes to the ladies attending are Baker Mercantile Company, Dry Goods and Hardware, Higginbotham-Bartlett Lumber Co., South Plains Lumber

MRS. DELTA J. JORDAN Demonstrator and Lecturer in charge of Beacon Cooking School, in Session Here this Week. School closes Friday afternoon.

CONTRACT LET FOR FEDERAL BUILDING AT LUBBOCK

Price in Contract Announced Totals \$221,290 While Company is Given 420 Calendar Days for Completion—Start Indefinite

Lubbock, April 26.—Contract for the construction of the Lubbock federal building, bids for which were opened in Washington on April 10, has been let as of April 1 to the William McDonald Construction company of St. Louis, lowest of 23 bidders, John L. Vaughan, postmaster, was officially advised Saturday by the treasury department.

Price in the contract was \$221,290, and the company was given 420 calendar days in which to complete its work, the notice said.

Expect Earlier Completion "That is about 14 months," Mr. Vaughan said in making the announcement. "I expect that they will be able to complete it before that time."

"My notice said that the company has 420 days from the date of notice to the contractor. I have no idea when such notice will be given."

Mr. Vaughan is expecting a representative of the company here within a week or ten days. Their St. Louis office is room 311 Syndicate Trust building.

Broadway and G Ground for the location of the building is at the corner of Broadway and Avenue G. It was donated to the government by Lubbock county.

Twenty three bidders submitted proposals to the government. Next highest to the McDonald bid was that of Murch Brothers, also St. Louis, for \$221,850, with Ballbauer Labahn company of Chicago, \$223,500 and George Gricich company, St. Louis, \$226,475. Highest bid was \$289,548 by H. H. Shell of Lubbock.

Mrs. E. W. Ridings, Mr. and Mrs. R. C. Ridings and James Graves of Byars, Texas, arrived Monday to visit their son and brother, Olan Ridings, and family. Mr. and Mrs. C. C. Ridings and James Graves returned to their home Tuesday, but Mrs. E. W. Ridings, mother of Mr. Ridings, remained for a several days visit with her son and family.

Geo. Webster Jr., spent from Friday until Sunday in Memphis visiting with Royce Brooks.

Co., Stewart Drug Co., Lockney Drug Co., Brooks Dry Cleaners, H. P. Coleman Produce, Farmers Produce, Hamilton Bros. Red and White Store, Piggly Wiggly, Arthur Robertson's Feed Store, Smith's Hatchery, H. A. Brotherton, and Harvest Queen Mills of Plainview.

We are indebted to the West Texas Gas Co. for the heat to keep the house dry and warm during the school, and the Texas Utilities Company, through Mr. O'Hearn, local manager for the electricity for the school.

We urge every lady in the Lockney country to attend the school Friday afternoon from 2:30 to 5 o'clock and assure them it will be well worth coming through the mud to attend.

Boys Week in Lockney Is Being Celebrated

Boys Will Have Charge of Business of the Town All Day Tomorrow (Friday) and Will Fill All City Offices

In celebration of National Boys' Week, the boys of Lockney between the ages of 8 and 18 will have full sway over the city affairs and business institutions of the town tomorrow (Friday) and they will show the older heads how to operate a town in the right way. From one to two boys will be found in each business house of the city, and they will have full charge of the operations of the business they are running. There will be a mayor, five aldermen, a chief of police, with a number of deputies, and these officials will enforce the ordinances of the town to the letter, and most especially the traffic laws.

The officers elected at the schools in Lockney to preside for the one day, are:

Mayor—Y. F. Walker. Aldermen—Wood Stevenson, Gerald Sams, Ralph Arreneau, Glen Stevenson, and James Fox. Chief of police—Lowell Williams. Police Force—Bud Still, Jno. Smith, Weldon Dodson, and Vernon Hodel. City Secretary—Andrew Moore.

These boys will see that Lockney abides by the laws all day Friday, and if you think they will not pour it on you, just try them once and see, and you will most certainly help take care of the deficiency in the regular city affairs.

The boys week will be closed on Sunday with services at all the churches of the city, where the boys are to have charge of the services and will render special programs.

WOULD LIMIT HOUSE NUMBER

Solons Vote to Submit Amendments to Vote of People

Austin, April 27.—The House today voted to submit a constitutional amendment, which would limit representation of counties in the lower House of the legislature to five.

Vote on the resolution was 107 to 23. It was introduced by Representative Moffett of Chillicothe.

If approved by the Senate and adopted by the people, counties having a population up to 500,000 could have no more than five representatives, with a representative for each additional 100,000 population.

The House was placed under call immediately after the resolution was called from the table.

When up for final adoption before, it received 97 votes, three short of the number required for submission of constitutional amendments.

Moffett said he anticipated little opposition to the resolution in the Senate, believing the upper branch would not seek to interfere with the wishes of the House in the matter of representation.

PIONEER TEXAS RESIDENT DIES AT FLOYDADA

J. A. Martin, 85, a confederate veteran and a pioneer resident of Texas, died at 4:30 Saturday morning at the home of his daughter, Mrs. W. M. Massey, at Floydada. He had lived at Floydada for the past several years.

Mr. Martin was among the first settlers of Weatherford, Texas, where he lived for many years.

Besides his daughter, Mrs. Massey, he is survived by J. G. and Claude Martin, who own the Martin Dry Goods Co., at Floydada, Preston, Eugene, and Luther Martin of Weatherford and Bernard Martin of Wichita Falls.

The body was carried to Plainview Saturday night by the Lindsey Funeral Home and shipped to Weatherford where funeral services were held at 4 o'clock Sunday.

Mrs. J. H. Hohlaus returned Friday from Childress, Texas, where she had been called to the bedside of her sister Tuesday. Her sister was much improved when Mrs. Hohlaus returned home.

Report Loss by Forgery Of State Warrants

Senate Adopts Resolution by Beck from DeKalb for 'Sweeping Investigation'

Austin, April 28.—A sweeping investigation of alleged "gross irregularities in financial matters of one or more departments of the State Government" was ordered by a resolution adopted in the Senate Tuesday.

The resolution, which was drawn up by Senator J. W. E. H. Beck, chairman of the finance committee, disclosed that the committee, in passing upon claims and accounts presented for payment, had uncovered discrepancies. Their nature was not made public.

The Finance Committee, Beck said, already has discovered that \$100,000 was involved since 1923 through forged warrants.

The resolution did not name a particular department to be investigated, but authorized an investigation of all departments.

Five Senators, yet to be named, will constitute the investigating committee.

The resolution was taken before the Senate a short time after Senator Beck had asked newspaper men "for the good of the state," to withhold news of a resolution he proposed to introduce.

Appearing surprised and even hurt when the reporters declined to agree to the request of secrecy, Beck pointed out that floor privileges could be taken away from them.

Senators Beck of DeKalb, Hardin of Stephenville, Moore of Greenville, Purl of Dallas, and DeBerry of Bogata were named as members of the investigation committee authorized under the Beck resolution.

ALLEGED WOMAN THROWN OUT OF CAR IN MOTION

Was Struck By Another Car After She Fell to Street—Malice Is Indicated

Tucumcari Men Insist That Victim Fell and Was Not Pushed

Pampa, April 27.—Any further action in the murder charge filed against Roy Vest and T. A. McIntyre, of Tucumcari, N. M., today in the death of Vest's wife, killed on the street here last night, were pending the return tomorrow of District Attorney Raymond Allred, from Corpus Christi.

Vest, who was lodged in jail here along with McIntyre on a charge filed by Sheriff Lon Blansett before Justice of the Peace James Todd, Jr., claims his wife jumped from their automobile in a fit of anger while the officer charges the woman was thrown from the machine through malice.

Mrs. Vest was killed instantly after the fall when she was struck by a passing automobile driven by R. A. Williams of Pampa who took her to the hospital. McIntyre was driving the Vest car. The victim's neck was broken and her forehead crushed by the wheels of the car.

Vest Had Gash on Head

Vest and McIntyre claimed the body at a mortuary an hour later. Vest was bloody from a gash in the forehead which he told officers was made when his wife struck him with a pistol, en route to Pampa. McIntyre had severe scratches on his hands and arms which he said were made when the woman bit him while he tried to separate her from her husband during an altercation.

FLOWING WATER ENCOUNTERED IN HALE COUNTY TEST

Abernathy, April 28.—Flowing water at a depth of 394 feet was encountered in a well being drilled as an oil test by Groat, Prewitt and associates, according to J. P. Nystel, secretary of the Abernathy Chamber of Commerce. At shallower depth the water stood at fourteen feet.

The well is to be drilled to a depth of 2,000 feet. It is located thirteen miles west of Alley switch and eighteen miles southwest of Hale Center, being on the northeast quarter Section 27, Sabine county school land.

Methodist Church Will Hold A Revival

Spring Revival Will Start Sunday Morning With Rev. H. W. Hanks Doing the Preaching

Our Spring revival will begin next Sunday morning, May 3rd. Our first service will be Sunday morning at the eleven o'clock hour and the subject at this hour will be "Prayer."

At the evening hour there will be special service for the boys and men of the town. The subject for this hour will be "A Good Man's Hell." The boys and young men will have charge of this service.

Through the week there will be no day services. We will have services at eight o'clock each evening. During the day there will be prayer meetings among the various groups of the church organizations, also visiting in the homes of the community, praying in the homes, and inviting the people out to church and urging the unsaved to surrender their lives to Christ in the home.

The preaching will be done by the pastor and the singing will be done by the local people, being in charge of Reuben McGilvary. We not only invite you to these services, but we urge each and every one to attend.

We earnestly request the prayers of all the christian people of the town and community.

We will welcome you and try to help you. We believe there are christian men and women and boys and girls in all the christian denominations. We are all agreed that we must take Christ for our Saviour. We are all engaged in the same business, that of making this a better world and getting people home to heaven. We wish every christian God's speed, regardless of their denomination affiliation. Come and be with us, come and hear the old time Gospel preaching and the old time singing.

H. W. HANKS, Pastor.

WINS FIRST PLACE IN TAILORED COSTUMES

Leon Jones Mullings of Aiken, who is attending high school at Plainview won first place in The Home Economics contest in tailored costumes. She will go to Lubbock April 13th to May 2nd, along with the other first place winners in the various contests. They will be accompanied by their instructors, Miss Johnnie Christian and Miss Ruby Wood. The various contests will take place throughout Friday. A tea is to be given the contestants at the noon hour, followed by a banquet at the Lubbock Hotel, Friday night, and a trip to Carlsbad Cavern Saturday. We, of the Aiken community, are very proud of Leon, as she has, after a lapse of three years entered school again to finish her last year's work, and is taking six subjects, and one subject through correspondence, and is making high grades in each of them. Leon entered school in January after the death of her husband in November, and in spite of the handicap of grief, and nervous strain under which she has labored will finish with flying colors.

ANSIL LYNN UNION HELD IN LOCKNEY FRIDAY NIGHT

The Ansil Lynn Union of the Epworth League of the Methodist church was held here Friday night and a very large audience was in attendance.

The entire district was well represented. About twenty members from Floydada were in attendance. Lockney won the banner for having the largest number present, however, it was a close race with Fairview.

Immediately following the program a social hour was enjoyed by all, at which refreshments of ice cream and cake were served.

The next meeting of the Union will be held at the Fairview church, on Friday night, May 29th.

MRS. PERKINS WILL PRESENT HER PUPILS IN RECITAL

The pupils of Mrs. Frank Perkins will be presented in recital next evening, May 1st, at 8 o'clock. A public is cordially invited to attend.

One and Half Inches Rain Tuesday and Wednesday

Two Small Twisters Reported Wednesday Afternoon, But Little Damage As No Houses Were Hit

The much wanted and looked for rain over the entire plains country fell Tuesday and Wednesday of this week, and reports say the amount was from one to three inches, and the rain was general all over the western part of the state. The rain means that in the wheat belt, as far as moisture is concerned, there will be some wheat made this year, however, the moisture from now on will determine the size of the yield per acre. The rain has put the ground in good shape for planting feed and cotton crops, and will bring up and start off all the crops that are already in the ground.

At Lockney the rain amounted to about one and a half inches, 8-10 of an inch falling on Tuesday afternoon and night, and about the same amount on Wednesday, and the weather began clearing up on Wednesday afternoon.

Two small twisters were reported Wednesday afternoon. One struck near Munev switch and traveled north, destroying some chicken houses at the J. Frank Copeland place, we are told, but other damage has been reported. Another small cyclone was reported west of Lone Star, but no damage was reported.

CHILD'S DEATH DESCRIBED BY KNIFE KILLER

Mexico Delays Extradition of Confessed Slayer of 11-Year-Old Texas Girl

Laredo, April 26.—A smouldering desire born of daily watching her pass the field where he was at work led to the fatal shooting of 11-year-old Edna Merle Springer, Alberto Sanchez, 20-year-old San Antonian, wanted in connection with the murder, said in a statement to a San Antonio Light correspondent late Sunday from the prisoner's cell in a Nueva Laredo jail.

Extradition proceedings for the alleged murderer of the girl, who was found with 27 stab wounds near Laredo, Texas, Wednesday night, have become tangled in legalities with Mexico asserting its right of protecting Sanchez because he is a citizen by the southern republic.

District Attorney John Valls of Laredo, who entered the case late Saturday, indicated Sunday that extradition would have to be effected through the national governments of the two countries. He said:

"The Clause of the treaty which mentions extradition between border States such as Texas and Tamaulipas has long been inactive, and both countries have always insisted that extradition proceedings be conducted through their respective national governments."

"While it is true that the treaty between the United States and Mexico provides that neither shall be compelled to surrender its own citizens, yet Mexico should remember that in the first case that arose under this treaty the United States surrendered to the Mexican government a woman wanted for an atrocious crime."

Sanchez was arrested at Nuevo Laredo Friday night and was placed in jail pending the outcome of extradition proceedings.

When arrested, Sanchez offered no resistance to officers and readily admitted he was the man wanted in connection with the murder. He stated Sunday, however, that had he been armed, arresting officers would "have met with considerable resistance."

Sanchez said he was born in New Braunfels, Texas.

Lockney Circuit

We are in a meeting at Sterley this week. Rev. J. F. Michael, pastor of the Methodist church of Turkey is doing the preaching, and his preaching is highly appreciated by all who have expressed themselves.

Bro. Michael is a strong preacher and will be with us over next Sunday. Let all our people come and enjoy these good services and assist in a good work.

W. H. STRONG, Pastor.

SOAKING THE PUBLIC

Ex-president Coolidge, in his daily writings, propounds some hard questions for the politicians to answer. He recently pointed out the simple fact that when Congress passes laws for spending money, the people have to pay for them.

The smaller the business and the smaller the income, the harder the tax load hits it. The small earner and the small business, in paying rent and buying supplies, are charged with all the taxes that accumulate on land and manufactured goods.

So, when a single Congress appropriates \$10,200,000,000 during one session, as did the last one, the man on the street—the taxpayer and voter—is the one who will ultimately dig up the money to pay the bill.

It makes no difference how well the politicians camouflage their tax-raising schemes as assessments against the wealthy, as inheritance taxes, intangible taxes, excise taxes, special taxes or what-not, the laboring men and women will feel the effect in higher prices, higher rents, depressed business, fewer jobs, lower wages, or actual lack of employment.

Tax money does not grow on trees. It comes out of the pockets of the people. You can't "soak" a corporation without "soaking" the consumer, and you can't "soak" the consumer without "soaking" the corporation—in both cases you "soak" the buying power of the nation and tend to cause depression and stagnation.

State Agricultural Commission News

J. E. McDONALD, Commissioner
GOV. COLQUITT URGED
LAW FOR REGULATING COTTON PRODUCTION

Austin, Texas, April 27—Distinguished precedent for the principle of reducing cotton production by legislative enactment was cited today by J.

E. McDonald, commissioner of agriculture, as answer to those who say the Olsen cotton bill is unprecedented departure from governmental practice.

Back in 1914, Governor O. B. Colquitt proposed as an imperative emergency need a law to reduce cotton acreage, and as his precedent cited the fact that several southern states passed cotton production control laws during the Civil War.

The Texas legislature now has under consideration a bill by J. J. Olsen of Yoakum to conserve soil and regulate acreage, in an attempt to halt the depletion of Texas soils and to assure the farmer a fairer price for his cotton.

In his message to the legislature Gov. Colquitt proposed the "passage of an act to bring about a reduction in the cotton acreage in this state for the year 1915 so that a price commensurate with the cost of production may be obtained for the present crop; and to prevent a financial demoralization of our industrial system x x."

"Production of cotton for the present year," the message said, "is very large. The price is not one-half the value, and will not pay the cost of production. It is contended by many that the only practical and effective way to secure anything like a fair price for the present crop is to enact a law which will curtail production for 1915. I am willing to resolve all doubts in favor of any practical plan which may afford relief to those who are now suffering from shrinkage in the value of their products."

"I present the question to you for your patriotic and earnest consideration with the hope you will find some safe and effective way of dealing with the questions presented in the interest of the producer and for the welfare of the state generally. When men are confronted with emergencies they often have to yield some of their preconceived and established convictions in order to meet such emergencies in a practical and effective way."

Governor Colquitt also stated he believed all southern states were looking to Texas, the largest cotton producer, to point the way, the contention today of those supporting the Olsen bill. Gov. Colquitt's bill was drawn and approved by the attorney general, B. F. Looney. In commenting, Commissioner McDonald declared that conditions today, as regards price, are comparable to the conditions existing then, and added it is now evident that continued cotton planting is impoverishing the soil, our greatest natural inheritance, which must be built up to support future generations.

LAW FORBIDS SALE OF PLANTS UNLESS STATE INSPECTED

Calling attention to statutes governing nursery stock inspection, J. M. Del Curto, state entomologist, in a statement today said that "peddling" of nursery stock without state inspection not only was a violation of the law, but constituted a serious threat of spreading plant disease.

The law requires, Del Curto said, that every person selling plants first have those plants inspected for any of the numerous diseases—galls, fire blight, root rot, canker, scales, and many others. The statutes were enacted solely to prevent the spread of these diseases as far as possible, and reputable nurserymen over the state cooperate to the fullest extent, he said.

Most violations of the law, as reported by state inspectors, result from ignorance of the statute. An amateur gardener finds the sale of his excess plants profitable, and gradually widens his sales until he finds himself in the nursery business. Usually this type of nurseryman is not aware when his plants are diseased; and it is only after the disease or pest has got a firm hold on his plants and on those he sold his neighbors that his error is discovered.

The inspection fee, which precedes issuance of a license to sell nursery stock, is so small that any person selling plants can well afford to pay it in return for authentic information regarding the condition of his plants, Del Curto said. Violation of the law is punishable by a fine of \$25 to \$500.

FARMERS URGED TO BUY HIGHEST GRADE OF PLANTING SEEDS

The imperative need for farmers, specially those operating on borrowed capital, to buy only the best grade seed was emphasized in a statement from J. E. McDonald, commissioner of agriculture.

McDonald declared that investing borrowed money in seed of unknown quality was, at best, risky business. Seed bearing the tag of the state department of agriculture, he pointed out, have been tested for their actual growing qualities, under laboratory conditions approximating actual growing conditions, and the farmer may learn, by reading the results printed on the tag, just what per cent of it may be expected to sprout.

Besides the possibility of obtaining seed of unknown germination qualities, farmers run the risk of introducing plant pests, such as Johnson grass, on their farms when they purchase seed of unknown quality, he stated.

STRICT RULES MADE FOR INSPECTION OF SWEET SPUD GROWERS

Texas' seventh most important agricultural crop—sweet potatoes—promises to assure even greater importance in the Texas farm picture, according to figures given in the sweet potato annual report now being prepared in the state department of agriculture.

The number of growers of certified seed and sweet potato slips has virtually tripled since last year's report, according to E. T. Crozier, chief inspector for the sweet potato work. Last year's report listed 100 growers of certified seed and slips. More than 300 were included in this year's report.

Progress of the department's campaign of eradication against the sweet potato weevil was indicated by the fact that twenty counties have been added since the 1930 report to the quarantine area, which now embraces a large portion of north and east Texas, as well as sections in the extreme southwestern part of the state.

Rigid standards have been promulgated this year for certified seed potatoes. Seed potatoes must be free from breaks, smooth, cracks, decays, rots and all signs of insects or diseases. They must be not less than 7-8 inch in diameter, and have no appearance of a mere root. Not more than five per cent of oval or turnip shaped seed potatoes are allowed, and these must measure up to strict specifications.

Care in selecting ground and implements, so that there will be no danger of transmitting the weevil from an old field to a new one, is stressed. Only certified seed potatoes may be used for bedding.

Crozier declared that acreage of sweet potatoes had been greatly increased this year. Value of the crop last year was \$7,248,000, leading all truck crops and with only the major crops of cotton, corn, wheat, oats, grain sorghums and tame hay having greater value.

OFFICIALS INSPECT EXPERIMENTAL GIN

An experimental gin capable of being adjusted to 39,000 different combinations of speed and ginning conditions has just started operation at Stoneville, Miss., under the U. S. department of agriculture. It was visited recently by R. V. Miller and W. A. Canon, Texas department of agriculture officials.

Every moving device on the gin is connected separately so that its speed may be adjusted. After a certain type of cotton has been put thru the gin, it will be carefully examined to determine just what combination of speed, density, and feeding, is best suited to it.

Results of the tests will be invaluable to Texas growers and farmers, the state officials said. Every type of gin manufactured has been installed at the experimental station.

Care of Young Turkeys

By D. H. Reid, Head of Poultry Department Texas A. and M. College. Well-hatched baby turkeys, that is, turkeys that have been hatched under a turkey hen or in an incubator that has been run at an even temperature with plenty of moisture, are much easier to raise than those that come from poorly incubated eggs. Keep the baby turkeys dry and slightly hungry for the first ten days. Keep them dry, avoid cold, dewy mornings. Feed them a good starting mash and plenty of green feed. Keep them away from chickens and constantly change or clean the soil in front of their brooder. See that their water fountains are clean and their mash troughs dry and sanitary. Give them fresh feed each day, feeding what is left from the day before to your laying flock, or getting rid of it in some way.

Litter in the brooding house should be changed at least once each week. Baby turkeys confined to a small yard will require more feed and more careful feeding than will the flock that is under its mother's care. Remember that milk will cure coccidiosis in turkeys just as well as it will in chickens.

When the poult reaches twelve weeks of age, it is wise to worm them and vaccinate against fowl pox. The amount of feed fed to baby turkeys will depend entirely on the sort a range they have. Where all feed is furnished, it takes 60 to 70 lbs. to produce a market turkey. Where they are on good range, it requires very little feed. Keep your baby turkeys clean, warm, moderately fed, with plenty of clean water and green feed.

SAVINGS PASSBOOKS SOUGHT BY CROOKS

Use Them to Steal Money by Forged Slips—Should Be Guarded as Carefully as Cash.

Continual vigilance in safeguarding savings passbooks, as well as blank and cancelled checks, against theft by crooks, who use this material in forger operations, is urged on bank customers by James E. Baum, Deputy Manager of the American Bankers Association, in charge of its Protective Department. This department is continually vigilant in promoting means, both among bankers and the general public, to thwart the operation of bank crooks. It annually investigates hundreds of crimes against banks and is responsible for the majority of arrests among this class of criminals.

"In a large majority of cases of forgeries on checks or savings withdrawal orders investigated by the American Bankers Association, stolen blank checks or savings passbooks were the forgers' chief stock in trade," Mr. Baum says. "In many instances the temptation presented through the careless handling by depositors of cancelled or blank checks or passbooks so that they fell into the hands of others was the immediate stimulus for hitherto honest people to commit their first criminal offense."

Banks should educate their depositors to exert the same degree of care in handling these instruments and to avoid leaving them about unguarded as they exercise in respect to actual money because they represent money, he declares.

For dealing with the bank robbery situation, Mr. Baum recommends the use of electrical alarms actuated by any tampering with the wires or mechanism and also wider adoption of the plan of state police forces now employed in a few states, declaring that last year in seven eastern states where state police forces were maintained there were only 10 bank holdups as against 164 similar attacks perpetrated against banks in five states in the central and far west, where banks are denied the advantages of the speedy and coordinated action given by state-wide police forces.

"The records of the American Bankers Association Protective Department reveal that for many years the odds in favor of state police protection have been at least 8 to 1 when measured by the experience of banks in states where efficient police protection is missing in the rural districts," he says.

INTERESTING BREVITIES

The largest telephone booth ever built was in the White House during the administration of President Taft.

The average American family pays four times as much for groceries as it does for electricity, telephone, gas and street cars.

The 100,000 slaves who labored twenty years building the Pyramids developed the equivalent of the horsepower generated in only seven weeks by the electric power companies of any one of several different American States.

Using the telephone, the director general of the Chilean Railways recently ordered four American electric locomotives valued at a half million dollars, the entire transaction being completed by conversation over thousands of miles.

Recent survey of available parking space in ten large cities of the United States showed there was curb space for less than 2 per cent of the cars registered in those cities. A new York survey showed 50 per cent of

the public garage space vacant throughout the day and that it would require ten miles of street space to provide parking for employes in four new skyscrapers in the Grand Central district of the city.

A Variety of Main Dishes For Every Day Dinners

By JOSEPHINE B. GIBSON
Director, Home Economics Dept., H. J. Heinz Company

Every busy housewife is constantly on the look-out for suggestions regarding practical main dishes. Planning the remainder of the dinner is not a very serious problem, once you have decided upon the principal course. And in most homes this main dish usually is meat, or some nourishing meat substitute—such as beans, fish, eggs or cheese.

Today I am giving you recipes for some oven casseroles, and braised dishes which are both practical and economical. These, however, should be chosen for serving on those days when one expects to remain at home, since they require long, slow cooking. However, I also am including several recipes for excellent courses that are quickly prepared. And you will find all the suggestions listed below most helpful in planning reasonable dishes for the every-day dinner.

Smothered Veal Chops: 6 veal chops; 1 cup Cream of Tomato Soup; 1/2 cup water; 1/2 cup cracker crumbs; 1 egg; 1 large onion.

Flank Steak: About 3 lbs. flank steak; 1 tablespoon Malt Vinegar; 1 teaspoon Prepared Mustard; 1 teaspoon salt; 2 cups dry bread crumbs; 1/2 cup melted butter; 1/2 teaspoon salt; 1/2 teaspoon pepper; 1 cup milk.

Surprise Potato Balls: 1/2 lb. mashed potatoes—white or sweet; 1 tablespoon Tomato Ketchup; 1 egg; 2 tablespoons flour.

Spaghetti and Dried Beef: 1 large can Cooked Spaghetti; 1/3 lb. dried beef; 2 tablespoons butter; 1/2 cup milk; 1/2 cup bread crumbs.

Salmon and Pickle Loaf: 1 lb. salmon; 1/2 cup bread crumbs; 1/2 cup milk; 1/2 cup Preserved Sweet Gherkins, chopped; 1 egg; 1 teaspoon butter; 1 teaspoon salt.

Mix ingredients and pack into a small buttered can. Bake, covered, in a moderate oven for about one hour. The last few minutes uncover and brown slightly. Remove to a platter and pour 1 cup white sauce over the top. Arrange thin slices of hard cooked eggs on the meat and in the center of each slice lay thin slices of stuffed Spanish Olives. To make the white sauce, melt 2 tablespoons butter, add 2 tablespoons flour and blend thoroughly. Gradually add 1 cup milk and 1/2 teaspoon salt, and stir over hot water until thickened.

Fricassee Veal on Toast: 2 lbs. veal cutlet; 2 cups bread crumbs; 2 tablespoons melted butter; 1/2 cup milk; 1 teaspoon salt; dash of pepper; 6 Preserved Sweet Gherkins, chopped.

Chutney: Cut veal cutlet into six pieces, about twice as long as they are broad. Mix the bread crumbs, melted butter, milk, salt, pepper and chopped sweet gherkins. Spread a thin layer of this over the veal. Roll and fasten with skewers or toothpicks. Broil with flour and fry until golden brown. Pour 2 cups thin white sauce around the rolls, cover and bake in a moderately hot oven—400 degrees F.—for 45 minutes. Baste frequently. To prepare the sauce, melt 2 tablespoons butter, add 2 tablespoons flour, stirring until smooth. Gradually add 2 cups milk and stir until thoroughly heated. Last add 1/2 teaspoon salt, a dash of pepper and several chopped sweet gherkins.

Remove some of excess fat from meat, and score both sides. Rub mustard and vinegar into meat and let stand two or three hours. Mix the crumbs, butter, milk, salt and pepper and spread on one side of meat. Roll tightly and fasten with skewers or toothpicks. Fry in butter until brown. Pour 3 cups water around roll, cover, and bake for 1 1/2 hours. Cut around roll, remove with gravy that remains in the pan.

Why Corona is the CHAMPION PORTABLE of the World

CORONA is the World's Champion Portable on the following 8 exclusive points:

- Strength: Corona has a rigid one-piece solid aluminum frame.
Simplicity: Fewer parts than any other standard keyboard typewriter.
Completeness: More big-machine features than any other portable typewriter.
Easy to Learn: Corona design is the result of 20 years' study of the needs of beginners.
War Service: An unequalled record for durability as the official portable of the Allied Armies.
Popularity: As many Coronas have been sold as all other portables combined.

Durability: Coronas purchased 20 years ago are still giving satisfactory service.
Beauty: Graceful in line; exquisitely finished in every detail.
Drop into our store today and see Corona. The minute you lay eyes on it you will realize why a million people use it—why so many business men, novelists, newspaper men, and students in schools and colleges prefer Corona to any other portable.
Come in and try Corona with your own hands. See how speedy it is—how smoothly it operates. If you can't come to the store, simply telephone us and a Corona will be sent to your home or office for examination. There is no obligation.

ERNEST FOWLER, Associate.

And sure enough we got that long looked for rain. I wonder what we can find to worry over now. You can just bet we can find something, worrying is just a habit most of us have gotten into and can't get out of. But any way things are going to look a lot brighter. The wheat will get a good start, and that brings on more talk. We think it would be a good idea to come in and let us figure with you on that new granary. A good time to build it would be right now while you have more time. Don't wait until you are almost ready to start your harvesting and then rush the job too much.

Just after this nice rain would be a good time to do that painting job you have been thinking of doing. The materials for painting your house and barns won't cost you very much and the benefit you get from a good paint job is hard to estimate in dollars and cents. You can look all around you and see what your buildings will look like in a few years if you neglect painting them. Come in and talk this over with us; we will be glad to give you an estimate on the cost and advise with you on the best materials to use for your particular needs.

A friend is a person who keeps on laughing at our stale jokes.

Child: Mamma, why do elephants have such big trunks?
Mother: Well, they have to come all the way from India.

Charlie Mitchell, one of the vocational boys in high school is building a new home for his hens. Vocational agriculture in our schools is doing a wonderful work in getting our boys interested in staying on the farm, and in the better methods of farming.

We have all the materials for a modern poultry house, and we also have plans of almost any type you desire. The price is not at all high either.

Hold your temper and your tongue will hold itself.

Prof: "Which is correct: a herd of camels or a drove of camels?"
Student: "I always thought they came in packs."

Phone No. 9

If the opportunity presented itself, but is generally recognized that businesses and industries are seeking only a fair deal and to that end are sending high class gentlemen to represent them before the legislature.

When the constitutional amendment was proposed to limit representatives to the legislature in the larger counties it was rather scoffed at as being unfair. Sentiment has changed regarding this bill as it is realized that before many years the cities would absolutely control the legislature. A constitutional amendment will very likely be submitted before the end of this session asking the voters to limit the members of the House in the larger counties. The experience of New York and Illinois is having considerable weight in the discussion of this matter. The people may have an opportunity to pass upon the measure.

Another constitutional amendment of engrossment nature is the road bond issue. Governor Sterling was placed in the second primary on the road bond issue. He was not elected on that platform but no doubt it carried considerable weight in his final election.

The home rule constitutional amendment will very likely be submitted to the people. It passed the House and should be adopted by the Senate the people will no doubt approve it. If this amendment is adopted, the larger counties to which the amendment applies will very largely run their own affairs without coming to the legislature to pass local bills. The practice of local bills has become somewhat of a nuisance. It is consuming entirely too much time. However, so far as the 42nd Legislature is concerned, this session would have little to show for its work so far were it not for the passage of these local measures.

The House has twice refused to raise the gasoline tax from 4c to 5c. The gasoline bill has been amended to place the tax upon the refiners instead of the wholesalers as at present imposed. It is said this change will bring in several thousand dollars annually which is now escaping taxation.

Of the fifty or more tax measures introduced in this session not more than half a dozen will likely be considered before the end of the session. Most of the measures are impracticable and would work a hardship upon the citizens of the State.

It has been suggested that during the coming two years a committee of citizens together with members of the legislature make an intensive study of the tax problem of the State. It is recognized that the tax system of Texas is entirely inadequate. The best minds of the Texas business world should be drafted to assist the legislature in thinking out the tax problems of this State and make recommendations to the 43rd Legislature.

One thing is certain the State must collect taxes. The State government must be maintained. The State departments and institutions must function. The only way to raise the money to support the government is by taxation.

Several attempts have been made along this line but have always ended in a most unsatisfactory manner. Most of these reports have been sidetracked by the legislature as in the past too many members have looked upon such non-political boards as interfering with legislative prerogative. With the mounting cost of government it is now believed that the time is ripe for this non-political board to study the State's business and attempt to inaugurate some means of reform.

A study of the appropriation bill will reveal the fact that the committee having striven to maintain the operation of the various departments and institutions on about the same level as provided the past two years, in reality of four years, as the legislature two years ago refused to make provision for the natural increase in these institutions.

The managing boards and heads of most of the institutions have been very charitable toward the work of the committee. They have taken into consideration the fact that the cost of living is being reduced and therefore there is no necessity for an increase in salaries. The financial depression may continue for an indefinite period of readjustment and therefore it is impracticable to attempt new projects, which are not absolutely necessary.

Some department heads cannot understand why they suffer a reduction or are not given an increase. Some have been disagreeable in their demands and are demanding their projects be favored above other institutions and departments regardless of whether or not the latter might suffer. The committee is trying to play fair and to hurt no one and to take care of all to the best of their ability.

The matter of appropriation is about as complicated as the matter of taxation.

The school apportionment upon actual attendance. West Texas children attend school. East Texas children do not, but the fact that apportionment is drawn for every negro and very meager school facilities are provided for the negro. It is conservatively estimated whereas the white children of West Texas draw \$17.50 per capita, the white children of East Texas are drawing double that amount on account of the small attendance of the negro.

While discussing financial questions, it is well to explain the fallacy of the eleven million dollar deficiency in the state treasury at the end of the present biennial as was presented this week in the daily newspapers. This deficiency was based upon false premises. It is agreed that the state will have an actual deficiency upon September first of this year. The eleven million dollar deficiency as set forth for September first, 1933, was based upon the supposition that the legislature would pass the appropriations bills just as written by the Board of Control; and that the state tax rate would remain at 27c.

The legislature is making the recommendations of the Board of Control to a very great extent, and it is quite certain that Governor Sterling will not make the serious mistake that Governor Moody made in demanding a low tax rate. Of course he is going to demand economy in all branches of government but he is not afraid of a tax rate which will adequately support the state institutions.

The highway situation remains unsolved. The Senate has passed the constitutional amendment providing for a double-barrel proposition in the bond issue.

The House has passed a bill using one-fourth of the gasoline tax to refund the bond issues made in the past by the counties for highway construction. This latter project was proposed in the House by those opposed to the bond issue and was passed for the purpose of killing the submission of the bond issue to the people. Just what will happen to the bond issue in the House or the refund bill in the Senate is problematic. As a result of the varying opinions the bond proposal may fail.

The bill allowing A. & M. College to benefit from the oil royalties of the University of Texas was signed by the Governor last week. As a result of the agreement for the div-

ion of the proceeds of this seventeen million dollar permanent fund, the A. & M. College will no longer benefit from direct appropriations for buildings but will rely upon interest as has the University in the past.

The Senate has passed a bill providing a local option feature for Sunday picture shows. This bill was passed two years ago but was vetoed by Governor Moody. It is the position of most people that the present Sunday closing law should be repealed or modified. It is impossible to enforce the law as at present on the statute books.

The Senate has passed the constitutional amendment providing for the repeal of the state ad valorem tax, in the course of seven years. It certainly would be folly for Texas to outright repeal its only certain tax in order to rely upon a proposed income tax or a special tax upon industries and businesses.

Authors of bills sometimes find themselves in the peculiar circumstances of being forced to vote against their own measure. This was true last week in the truck regulation bill when so many amendments were tacked on the measure the author repudiated his own child. The same is true of the intangible tax measure introduced by Gilbert of Eastland.

He introduced a measure placing an intangible tax upon public utilities. By a chain of peculiar circumstances, the utilities were exempt and about fourteen thousand corporations found themselves facing this intangible tax as a result of amendments tacked on the bill in the committee room. The measure will likely fail in passage, but this simply shows how the author sometimes loses complete control of his project.

Rotarians out in Australia
Are silent men, brooding and shy—
They gather in bunches for brotherly lunches
And stuff on tough kangaroo pie.
They scowl and they glare at each other
They sulk, and they're poor
—but they're proud!
Their speakers sit down and respond with a frown
And for songs they crunch celery out loud.

Texas produced in 1930 one-tenth of the entire mineral output of the United States. Total: United States \$4,735,000,000; Texas \$470,000,000.

Texas is the site of the largest natural gas compressor station in the world, part of the system that will convey Texas gas to Chicago and other Mid-western cities.

Weekiv Review of Texas Legislature

By CLYDE W. WARWICK
(Representative 123rd District)

Austin, April 21—(Special)—The legislature of Texas has three weeks before the end of the 120 day period. Confronting the legislative body is a great mass of bills unacted upon and the majority of those now pending will not be considered. This legislature is grinding slowly. Bills which are acted upon have been debated much more thoroughly than in previous sessions of the legislature. Too much time, no doubt, has been consumed in debate on immaterial bills while measures of vast interest lay on the calendar unacted upon.

Governor Sterling, Lieutenant Governor Witt and Speaker Minor have all announced positive opposition to a special session. Governor Witt issued a statement that it was absolutely unnecessary to have a special session if the appropriation bills should be passed. These bills are pending and should be passed so the free conference may start operating.

Governor Witt is of the opinion that the legislature should stay in session until May 20th, as this will give an extra week in which to close up the really important matters which are pending. Tired members are sincerely hoping that the session will end approximately upon time, but

realize that it will likely be necessary to remain in Austin for a week or so in order to clear up important measures.

After killing the cigarette tax twice in the House, it bobbed up again when tacked on the natural gas tax in the Senate. Coming back to the House the measure was confronted by the largest lobby so far convening against a single measure. The tobacco companies are charged with distributing excessive salaries and stock dividends to their officials and employees.

Teachers, school boards and school patrons are swamping members of the House in an appeal to favor the cigarette tax which has now been shorn of its nuisance feature, if there is any tax which is not a nuisance tax. It is claimed that this one tax alone would raise several million dollars and would solve the present financial difficulty. It would not be at all a surprise to see the House accept the cigarette tax before the end of this session.

The bill to limit lobbyists before the legislature has been killed. The attitude of most members is that they are not afraid of the lobbyists as it is now a well recognized fact that the majority of the lobbyists are high class men sent here to protect the interests of their companies. Time was no doubt when unscrupulous methods were used by lobbyists and no doubt there are some who might stoop to such methods today

You get MORE for your money when you say: "I will buy only the leading make of tire!"

The famous Goodyear All-Weather Tread is superior in traction. Note how the deep-cut tight-gripping blocks are placed in the center of the tread, where they belong. Press the palm of your hand upon this tread and feel how the blocks grip and pinch the flesh. This illustrates the All-Weather Tread's holdfast action on pavement or road.

The patented Goodyear Super-tread Cord Carcass is superior in vitality and long life. Under continued flexing or sudden road shock, where ordinary cords fatigue or snap, the extra-elastic Super-tread cords stretch and recover, like rubber bands. Ask us to show you our cord-testing machine the extra stretch—enormously greater—of Super-tread cord over the best standard cord.

HERE'S PROOF WHY GOODYEAR IS THE LEADING TIRE

See these demonstrations of superiority. Then consider the fact, true for 16 years, that more people ride on Goodyear Tires than on any other kind. The public has made Goodyear THE leading tire! The public buys millions more Goodyears annually and enables Goodyear to give the greatest value. We have the latest types . . . all sizes . . . all prices. Trade in your old tires!

Simple Lunches to Tempt Fickle School Appetites

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
U. S. Health Company

PLANNING luncheon for the children—and having it ready when they come home hungry from school—is a problem that constantly confronts millions of women. And about this time of year the task becomes even harder, since fresh Spring fruits and vegetables are not yet procurable in most markets, and children are tiring of the foods served through the long winter months.

The school-day lunch is a most important meal, too. While little surprises—in the way of new dishes, or old ones dressed up a bit—are invaluable in making it a bright and happy occasion, the menu must be well-balanced, and should include a generous amount of the milk so necessary for growing children.

Below are a number of easily prepared lunches that have been worked out with busy mothers in mind. And they have been carefully planned to appeal to the children, too:

- Cream of Tomato Soup**
- Pineapple Pinwheel Salad**
- Creamed Eggs on Toast**
- Apple Butter**
- Cooked Spaghetti in Tomato Sauce**
- Brown Bread Sandwiches Made with Sandwich Rolls**
- Creamed Tuna Fish Sandwiches**
- Baked Apples with Currant Jelly**
- Peanut Butter Cutlets**
- Hot Rolls**
- Lettuce Salad with Russian Dressing**
- Sliced Oranges with Coconut Drop Cookies**
- Pineapple Pinwheel Salad**

Spread a slice of chilled pineapple with Peanut Butter and cover with a second slice. Cut into quarters, and arrange on a bed of lettuce to form a pinwheel. Place a cherry in the center and garnish with Mayonnaise Salad Dressing mixed with a little pineapple juice.

Melt butter, add flour and stir until well blended. Then add salt, Worcestershire Sauce and milk, and cook until thick. Add Tomato Ketchup and pour over the eggs. Serve on buttered toast.

Mix Peanut Butter with hot milk and seasonings. Drop slices of bread into this mixture and fry in 2 tablespoons hot fat. Garnish with Pickles or Stuffed Spanish Olives.

Cream shortening with sugar, and add well beaten egg. Sift flour, soda, ground cloves, nutmeg, cinnamon, and add alternately with sour milk. Then add Rice Flakes that have been crumbled with a rolling pin. Add nuts and raisins. Drop by teaspoons on a greased baking sheet, and bake in a hot oven—425 to 450 degrees F.—for 8 to 10 minutes. This makes about two dozen cookies.

CHURCHES

Baptist Church
Sunday, May 3rd, 1931

9:45 a. m., Sunday school. If you are not attending Sunday school elsewhere, come and be with us. 192 came in time to report last Sunday. We want 200 reporting on time next Sunday. Come!

11:00 a. m. Lots of good singing. The pastor will preach on the subject: "The Picture of the Local Church."

7:00 p. m. B. T. S. or Baptist Training Service for all ages. 109 reported last Sunday. Come on time and let's move up a notch. Will you answer this question? Why am I not training with my church for service?

8:00 p. m. Brother M. H. Curb will preach his first sermon. Come and hear him.

Baptismal service following night service, five to be baptized.
C. S. BOURNS, Pastor.

Services at Prairie Chapel
J. Frank Copeland will preach at Prairie Chapel next Sunday, May 3rd at 11 o'clock for the Church of Christ. Everybody invited to attend.

The Missionary Society Has Good Spiritual Program

The Woman's Missionary Society of the Methodist church had a spiritual cultivation program, Monday, April 27, 1931. Mrs. J. J. Harris read the fifteenth chapter of John, the trial and crucifixion of Christ. Mrs. Bryan Wells told of some of the spiritual values of Good Friday.

The lesson of the woman's being healed by Jesus after eighteen years of affliction was given by Mrs. H. W. Hankins, after which testimonies of God's blessings were given by each one.

Announcements: The Woman's Missionary Society of the Methodist church will meet in social and business meeting with Mrs. Frank Dodson in the dining room at the Baker Hotel with Mrs. Luther Cooper joint hostess, May 4, at 3 o'clock.

The Zone meeting for the Society will meet at Dougherty Tuesday, May 5th.

Busy Mothers Class
The Busy Mothers Class of the Methodist Sunday school met in an all-day social at the home of Mrs. I. S. Webb and a general good time was had and everyone enjoyed working and having a good time. Quilting and piecing quilts was our days work. All brought a nice plate of food for serving at the noon hour.

We had nine members of our class present and four visitors at the noon hour. All enjoyed the occasion very much and are sure we will soon find another home in which we can meet again.—Reporter.

W. M. S. Entertained
Mrs. E. A. Cox and Mrs. Woodworth entertained the members of the W. M. S. Monday afternoon at the home of the former.

The meeting was opened by singing "Sweet Hour of Prayer." Mrs. Allen led a very interesting devotional on prayer, after which Mrs. Woodworth sang a solo in keeping with Mothers Day. After a short business meeting we entered into the social hour.

The hostesses had planned a ball game for those present, so we chose sides. Mrs. Ed Whitfill was captain of the White Sox and Mrs. Allen captain of the Cubs. In place of hitting the ball we had to answer questions in the bible. The score was four and five in favor of the White Sox. This was very interesting and the Cubs are ready for another game.

We were served with delicious angel food cake, jello and punch.

The W. M. S. will meet Monday at the church for Bible study.—Reporter

Grammar School P. T. A.
At the last meeting of the Grammar School P. T. A. officers were elected as follows:

President, Mrs. Humphries; Secretary, Mrs. R. C. McGilvary; 1st Vice-president, Mrs. Artie Baker; 2nd Vice-president, Mrs. Olan Ridings; 3rd Vice-president, Mrs. J. H. Hobbs; Reporter, Mrs. Deck Wells; Corresponding Secretary, Mrs. John Broyles.

The last meeting of the year will be the first Thursday in May. We urge a good attendance.

Intermediate B. Y. P. U.
Subject—"Choose Ye."
Song.
Prayer.

Bible Quiz.
We Must Choose.—Hazel Ford.
A Wise Man's Choice.—Roach Allen.

Choosing Friends.—Delbert Hamilton.
Choosing Conduct.—Charles Truitt Bourns.

Choosing When to Speak and When to Keep Silent.—Essie Mae Hamilton.
Jesus Makes His Choice.—Eva Mae Woods.

The Greatest Choice of All.—Opal McMinn.

FOX AND WOLF HUNT TO BE HELD IN KENT

The Spring meet of the Texas Fox and Wolf Hunters Association will be held at Clairemont, Kent county, May 4-7, according to word received Monday morning from J. W. Elliott, secretary of the association, who lives in Mexia. Jesse Carter, Fort Worth, is president.

The meet will be open to all, according to Elliott, and as many dogs may be entered as desired. The first race will be made early Tuesday morning, May 5. A barbecue will be given by the Clairemont citizens on Wednesday, followed by a bench show. Judge H. W. Davis, Clairemont, is in charge of the arrangements.

"42" Party
Misses Wauline Raines and Johnnie Moore entertained several of their friends with a "42" party at the home of Miss Lena Moore on April 22. We were entertained with piano selections by Bena Cox. All guests reported they spent a very enjoyable evening.

Delicious refreshments of fruit punch, angel food cake and jello delight were served to the following: Misses Clara Gunn, Bena Cox, Faye Royal, June Guthrie, Lena Moore, Estelle Byars, Johnnie Moore, and Wauline Raines; Messers: Andy Moore, Elmer Orr, O. V. Wilson, Ernest Lee Thomas, Bill Bobbitt, Martin True, Ray Adams, and Bailey Bean.—A guest.

AMARILLO'S GAS PROBLEM TURNS OUT TO BE NOT SO SIMPLE AS INDICATED

Establishing a politically owned gas system at Amarillo turns out to be not the simple problem it seemed to be a few weeks ago when, with a blare of trumpets and wide publicity, Amarillo's Mayor announced that he had put through plans for a city-owned system that would furnish citizens 22 cent gas. For a million dollars, he added, a system duplicating that of the Amarillo Gas Co. could be put in.

When time came for receiving bids, however, it transpired that the Mayor's cost idea was a gross underestimate. Scant or no publicity was given the fact that only one bid was received and that for \$2,219,000 or almost two and a quarter times the Mayor's preliminary figures. This cost would be about \$200 per meter. Rejecting the one bid, new bids were sought. When the date for opening bids arrived, it was announced that plans had been changed; that a number of bidders would not bid on the basis of revenue bonds, and that general city bonds, for the payment of which all property in the city was liable, would be necessary.

Criticism of the contract tendered the city for supplying gas at the gate also developed. It was pointed out that while the contract provided for 5 cents at the gate, it also required the city to pay for a minimum of four million feet a day, regardless of the fact that between the volume of gas used in the winter months and that in the spring, summer and fall is a wide divergence. In other words, if the winter peak is 4,000,000 feet and the summer minimum 1,000,000, the city would still have to pay for 4,000,000 feet a day or at a rate of 20 cents per thousand for the million feet actually needed. Another objection was that while the city was bound to the use of or payment for at least 4,000,000 cubic feet a day, there is no corresponding obligation on the concern as to the amount it must furnish. The contract, indeed, as critics pointed out, sets forth that the concern agrees to furnish such gas supply only so long as the wells it owns are producing and only such that it does not otherwise use or sell. Critics charged that was tantamount to saying that if the concern has a chance to dispose of its output at a better price than 5 cents a thousand, it could accept it and let Amarillo citizens with their distribution system "whistle for their gas."

Experience proves that the peak winter demand for gas in Amarillo is not less than 1,000 feet per 24 hours for each domestic consumer. The maximum daily domestic requirement to provide adequately for Amarillo's 11,000 customers, therefore, is in excess of 10,000,000 cubic feet a day.

Based on experience in Texas, 11,000 customers in Amarillo would require a peak hourly demand of more than 700,000 cubic feet when the temperature is in the neighborhood of zero. This would mean a field line with a capacity of not less than 700,000 cubic feet per hour, which is equivalent to more than 16,000,000 cubic feet for every 24 hours of line capacity. Since the pipe line company guarantees to supply only a maximum of 4,000,000 cubic feet per 24 hours, they are guaranteeing to deliver less than 25 per cent of the expected maximum hour demand to give full protection to Amarillo in extreme weather.

Still another side of the picture that proponents of the municipal project have not brought out is the financing problem. Opponents have furnished data for this. Assuming that it will cost approximately \$2,000,000 to build a proper distribution system for the city of Amarillo, the expense items of the city plant would be approximately as follows:

Customers account expense would be \$9 a year, or \$99,000 for 11,000 customers. Depreciation at 3 per cent on \$2,200,000 would be \$66,000. Bond interest on \$2,200,000 on 5 per cent bonds would be \$110,000. Bond retirement fund would be about \$40,000. Cost of gas purchased and unaccounted for gas would be about \$75,000. This would make a total of approximately \$360,000 as operating cost.

FORT WORTH & DENVER CITY RAILWAY
THE WICHITA VALLEY RAILWAY

Revenue would be at the rate of about 125,000 feet per year per customer at 22 cents per thousand feet, amounting to \$302,500. Who is going to make up the difference between the revenue of \$302,500 and the operating cost of \$360,000?

The expense of approximately \$500,000 does not provide for any possible taxes nor is there any allowance for reserves that conservative private ownership provides to take care of contingencies such as expensive damage suits due to explosions or any of the other expenses which cannot be definitely determined and allocated from time to time.

Wherein is a reasonable explanation of why contractors have refused to bid on a job, payment for which was contingent on the profits of the system, and are demanding a bond issue, which, backed by all property in the wealthy city, is worth 100 cents on the dollar.

Port Aransas announces that a new \$90,000 Federal quarantine station will soon be built, serving Port Aransas, Corpus Christi and Ingleside. Actual construction work on the Gulf and West Texas involving a total expenditure of \$6,000,000 and providing work for hundreds of workers has the Want Ad Columns.

Neptune Vies with Broadway for Musical Talent

BERT LOWN

In your Sunday days, your picture hat, You look so sweet when you look like that!

Ocean Going Liners to Rival Night Clubs With Entertainment

New York City.—Making both Broadway and Main Street at home on the ocean is the job just taken on by Bert Lown, who is also musical director of the Hotel Biltmore here. Lown is to be musical director of a number of steamship lines and will put the same type of men on the ocean that he has at the Biltmore, with the idea of having the passengers step out at sea and in the evening just as at home.

"Gradually the dance orchestras have come into prominence on shipboard, and now most of the ships are out to get the best talent available," he explains.

"Previously, many ships carried native orchestras of the country of origin, and sad attempts were made to play American dance rhythms. For no matter in what waters transoceanic boats are, demands are always for American tunes. That is why it is becoming customary to have an American orchestra on a ship as it is to have a French chef."

"Many boys from the interior who have dreamed of the sea all their lives now have a chance to realize these dreams with well-paid jobs.

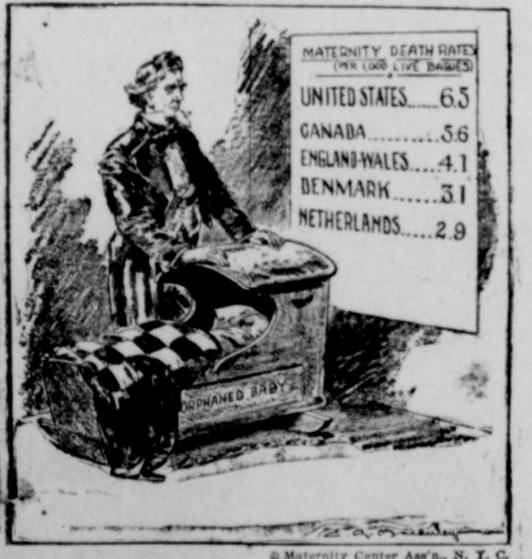

"Musical programs at sea differ very little from those on land. The numbers which are in demand on land get the first call on the ocean. 'The Talk of The Town,' the new fox-trot song, is also the talk of the sea just now, and the many different boats on which I have orchestras all tell the same story."

TEACHERS ELECTED, FLOYDADA SCHOOLS

Floydada, April 27.—The Floydada school trustees for the Floydada Independent School District, elected teachers for the next year's school term as follows: W. E. Patty, superintendent; A. D. Cummings, principal of the high school; O. K. Davis, principal of the Andrews Ward school; J. M. Teague, principal east ward school. Others re-elected are: Miss Daltis Rea, Miss Sudie Miller, J. H. Myers, L. T. Barksdale, Mrs. Len V. Smith, Miss Evelyn Dennis, Mrs. Joe Breed, Mrs. J. M. Teague, O. T. Williams, Mrs. Richard Stovall, Mrs. Odus Stephen, Miss Lena Pennington, Odus Stephens, Miss Lula Belcher, Miss Ruby Norton, Mrs. O. T. Williams, Mrs. J. H. Green, Richard Stovall, Miss Fannie Bolding, Mrs. G. E. Bond, Mrs. O. K. Davis, Mrs. Mariam McDonald, Miss Daisy Lee Gresham, Miss Edythe Walker, Mrs. J. N. Johnston, Mrs. Jennie Irene Winters, Miss Vera Meredith, Mrs. Hazle Hughes, Miss Vera Hamilton, Mrs. T. W. Whigham, Miss Emma Lou McKinney.

Facing Facts on Mother's Day

UNCLE SAM is troubled—sixteen thousand mothers every year fall to answer roll call on Mother's Day. They lost their lives performing woman's greatest duty, maternity. Of these sixteen thousand, two-thirds could be saved by adequate maternity care, according to leading health authorities. The Maternity Center Association, a philanthropic organization supported by voluntary private contributions, located in New York City, supplies information without cost on the subject of maternity care. Public spirited citizens are trying to make Mother's Day mean a better chance for expectant mothers everywhere.

Bad Form and Bad Business

This man is making two serious mistakes. He is writing a letter by hand, which, in the business world, is bad form . . . and he is not going to have a carbon copy, which is bad business.

And on top of all this he is punishing himself by doing the job in the hardest possible way.

It is much easier to write with Corona than by hand.

Corona is ideal for the small office, store, garage—as well as the home. Phone us and we will bring you the latest Corona for examination. Sold on convenient monthly terms.

LOCKNEY BEACON

COUNTY BRIEFS

IRICK

April 29—About 1-2 inch of rain has fallen here today. The wheat is looking fine and there will be plenty of moisture for planting cotton and feed stuff.

Bro. Herman Coe filled his regular appointments Saturday night and Sunday.

A number of Irick folks attended the B. Y. P. U. program at Sterley Sunday afternoon.

Miss Imogene Hanna left Tuesday for a month's visit with relatives at Tucumcari, N. M.

Mrs. Treaver Ashby and little son, who have been visiting Mr. and Mrs. H. D. Ashby, left Thursday for Bellefonte, Ark., to visit her parents and other relatives.

Mr. Caruthers and son spent the week-end at Tulia with his daughter. Mr. and Mrs. J. A. Dollar of White-deer, Texas, and Mr. and Mrs. C. E. Hargis and Winfred of Silverton, spent Sunday with their parents, Mr. and Mrs. J. F. Dollar.

Mr. and Mrs. J. W. Mitchell, James Jr., and Maxine, of Elk City, Okla., spent the week-end with her brother and family, Mr. and Mrs. Baylor

Byars. Mr. Largent Ferguson will leave Thursday for Pie Town, N. M., where he intends to go into the barbering business.

Mr. and Mrs. Bill Sammann are the proud parents of a new girl, named Ruby Alice.

Mr. and Mrs. Wall of Tucumcari, N. M., are visiting her brother and family, Mr. and Mrs. John Hanna.

Mr. Leonard Dollar is visiting at Whitedeer, Texas, this week.

Miss Connie Roberson of Canyon spent the week-end with her parents, Mr. and Mrs. Dawson Roberson.

PLEASANT VALLEY

April 28—Anna Mae Bloxom entertained a bunch of girls with a slumber party. At sun down they roasted weenies and played all kinds of games. Everyone had such a good time they hated to go to bed till a late hour. Mrs. Bloxom served breakfast Saturday morning and the girls left later voting Anna Mae and Mrs. Bloxom a wonderful hostess. Those partaking of the good time were Vernola Reecer, Gladys Collis, Katherine Harris, Leota and Leona Shelton, Henrietta Kunkel, Hazle Ford, Patricia Patterson, Virginia Hohlaus, and Marie Hubbard.

Orvell Orr was ten years old Saturday, April 25th and a few of her little girl friends were guests in her home Sunday. They played games all afternoon and had a good time. The girls were Melba Turner, Mary Dean Carroll, Lillie Hamilton, and Gladys Pratt. Mr. and Mrs. Roy Turner and family were dinner guests of Mr. and Mrs. Orr Sunday also.

Mr. and Mrs. N. T. A. Byars and Robin spent Sunday afternoon with Mr. and Mrs. C. F. Harris.

Mr. and Mrs. T. B. Mitchell spent Sunday afternoon with Mr. and Mrs. Wilbur Jones of Lockney.

Mr. and Mrs. Lee Reeves and Fay spent Sunday with their parents, Mr. and Mrs. Mathis.

Chester and R. C. Mitchell spent Sunday with Leslie Ferguson.

Essie Mae Hamilton spent Sunday afternoon with Marie Hubbard.

Anna Mae Bloxom spent Sunday afternoon and Sunday night with Katherine Harris.

Mr. and Mrs. Lee Reeves spent Sunday night with Mr. and Mrs. Lovell of the Cedar Hill community.

Mrs. W. H. Fields, Evelyn and Dorris spent last Friday in Lubbock. Doris won 3rd place in the Junior girls' declamation.

Mrs. Lee Reeves spent Friday afternoon with Mrs. McClure.

Mr. and Mrs. W. M. Ferguson spent Sunday with Mr. and Mrs. Sam Lane of Rails.

Miss Lucile Marr spent the week-end at home with her parents, Mr. and Mrs. J. T. Marr.

Mrs. McClure and Zelma spent last Thursday with Mrs. W. M. Ferguson.

Mr. and Mrs. T. B. Mitchell spent last Thursday with Mr. and Mrs. Mosley of Plainview.

Mr. and Mrs. Albert Bloxom spent Friday night with Mr. and Mrs. Lee Reeves.

Mr. and Mrs. F. U. Payne spent Thursday evening with Mr. and Mrs. Mitchell.

Mr. and Mrs. Jeffreys spent Monday with Mr. and Mrs. Lee Reeves.

Mrs. W. E. McClure and Mrs. Lee Reeves spent Friday evening with Mrs. Leslie Jones.

Leslie Ferguson spent Monday night with his grandparents, Mr. and Mrs. W. M. Ferguson.

Mr. and Mrs. A. B. Collis and family were Plainview visitors Saturday.

Mrs. N. T. A. Byars and Mrs. Bloxom spent Tuesday afternoon with Mrs. F. U. Payne.

Mr. and Mrs. Crawford spent Sunday afternoon with Mr. and Mrs. C. F. Harris.

Mr. and Mrs. Hillery Shurbet spent Monday with Mr. and Mrs. Lee Reeves.

Mr. and Mrs. Wadsworth spent Saturday night with Mr. and Mrs. D. P. Childress.

Mr. and Mrs. Jimmie Belt spent Sunday with Mr. and Mrs. Fields.

Mr. and Mrs. Spence and family spent Sunday afternoon with Mr. and Mrs. H. M. Orr.

Mr. and Mrs. Eugene Harris spent Sunday with Mr. and Mrs. C. F. Harris.

Mr. and Mrs. Edd Pratt spent Sunday afternoon with Mr. and Mrs. H. M. Orr.

SAND HILL

April 28—We had regular attendance out for Sunday school Sunday morning and a large crowd out for singing Sunday night and had some good singing. Every one is invited to come and take part with us.

Elder J. J. Day of Floydada preached to a large crowd at the Church of Christ, Sunday morning.

W. H. Pope and family spent the week-end at Swenson, Texas, with their daughter and sister, Mrs. Harold Ellis.

Mr. and Mrs. Heston Bennett of Lockney spent Sunday with Mrs. Bennett's parents, Mr. and Mrs. Walter Tinnin.

Ina Rae Cummings gave a dinner Sunday for the graduating classes.

Mr. and Mrs. W. M. Knight gave a birthday dinner Sunday in honor of their little daughter, Opal. There was a large crowd present.

C. L. Bradford, J. U. Hobdy and wife attended church at Floydada Sunday night.

Mr. and Mrs. Poe of Starkey spent Sunday in this community visiting their daughter, Mrs. Henry Bollman.

Myrtle Bradford spent Saturday night and Sunday with homefolks.

Mr. and Mrs. H. H. Graham took dinner Sunday with Mrs. M. B. Holmes.

Mr. and Mrs. Hardin Jackson visited in Lockney Sunday evening.

Bennie Lotspeich of Hale Center and Ted Standifer took dinner Sunday in the C. L. Bradford home.

Mr. L. Mickey and family of New Mexico are here visiting his mother, Mrs. C. R. Mickey.

J. P. Bradford and family spent Sunday in the J. W. Morton home.

Lewis Lotspeich of Hale Center took dinner Sunday with Lee and Dee Cates.

We had another nice little rain this evening, which was very much appreciated.

Irick Home Demonstration Club Friday afternoon, April 24th, the Irick Home Demonstration Club entertained the Pleasant Valley Home Demonstration Club at the home of Mrs. Will Taack. There were eleven

Pleasant Valley club ladies and thirteen Irick club ladies present. We also had visitors. After we all got acquainted we played games, which were enjoyed by all. The Pleasant Valley club ladies received all the prizes.

Delicious refreshments of ice cream and angel food cake were served.—Reporter.

SOUTH PLAINS

April 28—There was a good attendance at Sunday school last Sunday. Bro. Bourm filled his regular appointment Sunday morning and Rev. Aulick of Plainview preached Sunday night.

There was a number of our people went to Sterley Sunday afternoon to attend the B. Y. P. U.

Mrs. Walter Wood and daughter were Plainview shoppers Saturday.

Mr. G. Milton went to Floydada Monday.

Misses Oleta and Willie Muriel Field spent Sunday night with Trula May and Muriel Fay Phegley.

Our school closes Friday, May 1. There will be a school program Wednesday night, graduation exercises Thursday night, and a school play Friday night. There will be no charges to any of these. Everyone has a cordial invitation to come.

Mr. and Mrs. Everett Jarrett and family, Mr. and Mrs. Menard Fields and family, Mr. Frank Jarrett, Mrs. Lena King and daughter, Mrs. Will Hewett, Mr. Judson Jarrett, Mr. and Mrs. N. D. Clark, Mrs. Phegley and daughters, Misses Pauline Gilliland and Gail Garnagin and Lowell, Bobby and Carl Jarrett spent Sunday with Mr. and Mrs. H. Baustic.

Miss Lowell Haverty of Silverton attended B. Y. P. U. and church at South Plains Sunday night.

Mrs. Hewett visited with Mrs. Ralph Childress in the Smith Sanitarium last Saturday. Mrs. Childress is doing as well as could be expected.

FLOYDADA GRADS TO BE MOST NUMEROUS

Floydada, April 27—Commencement exercises are beginning to absorb the interests of the high school boys and girls of Floydada. The graduating class is the largest ever in the history of the school this year, there being 72 members in the graduating class which is composed of 36 girls and 36 boys.

Rev. E. C. Comfort, pastor of the local Presbyterian church has been chosen by the class to deliver their baccalaureate sermon on Sunday, May 17. Walter Cline of Wichita Falls, Texas, has been invited to make the commencement address to the class on May 22.

T. B. Brooks spent from Friday until Sunday in Wellington and Memphis, visiting with relatives. He was accompanied home by his mother, Mrs. D. C. Brooks, who is visiting with Mr. Brooks and wife this week.

Try These Menus Sunday And Enjoy a Day of Rest

By JOSEPHINE B. GIBBON
Director, Home Economics Dept.,
H. J. Heinz Company

SUNDAY meals should be planned very carefully, so that they may include attractive and nourishing foods, and yet will not force you to spend too much time in the kitchen.

Breakfast, of course, should be a rather substantial meal—to tide the family over until dinner, which is served rather late in most households. For the main feast, I am suggesting roast leg of lamb, since most women find a roast more practical on Sunday, and the leftover lamb can be sliced and served cold for supper the same night, or made into a savory meat pie or hash for Monday's dinner.

You will be pleased to find how easily and quickly all the meals shown here can be prepared—and your family will be sure to like them, too!

BREAKFAST

- Crushed Strawberries in Orange Juice
- Rice Flakes with Rich Milk
- Creamed Eggs on Buttered Toast
- Cubes
- Crisp Bacon Curls
- Coffee

DINNER

- Canapes or Cream of Pea Soup
- Stuffed Spanish Olives
- Roast Leg of Lamb—Cranberry Jelly
- Browned Potatoes
- Broccoli or Buttered Carrots
- Pimiento Cheese and Celery
- Salad with French Dressing
- Ice Cream, Devil's Food Cake with Caramel Frosting, or White Cake with Coconut Frosting
- Coffee

SUPPER

- Cold Cuts of Meat—Slices of Ham and Cold Lamb from Dinner
- Chili Sauce
- Potato and Egg Salad
- Fresh Cucumber Pickles
- Hot Rolls
- Quince Jelly
- Chilled Fruit Cap
- Cake

Canapes: Toast rounds of bread on one side and spread untoasted side with Mayonnaise Salad Dressing. Cover with a slice of tomato, then a slice of hard cooked egg. Top with a slice of Stuffed Spanish Olive and place strips of olive around the edge.

French Dressing: 1 teaspoon salt; 1 teaspoon paprika; 5 tablespoons Pure Vinegar; ¼ cup Pure Olive Oil.

Mix the salt, sugar and paprika together, add vinegar and oil, and beat thoroughly. Or, put all the ingredients into a glass jar, screw lid on tightly and shake thoroughly.

Caramel Frosting: 3 cups light brown 2 tablespoons butter; 1 teaspoon Distilled White Vinegar; ¼ teaspoon salt.

Mix ingredients together and bring slowly to a boil, keeping the lid on the pan. Cook to the soft ball stage (when a few drops form a soft ball in cold water,—236 degrees F.). Cool, add vanilla and beat until creamy. If the frosting becomes stiff while spreading, add a few drops of hot water.

Potato and Egg Salad: 4 cups cold potatoes, cut in cubes; 1 onion, chopped fine; 1½ teaspoons salt; ½ teaspoon paprika; 3 hard cooked eggs, chopped; 2 tablespoons chopped parsley.

Mix potatoes, onion, salt and paprika, and marinate in French Dressing. Chill. Just before serving, add eggs, parsley and enough Mayonnaise Salad Dressing to moisten well. Pile in crisp lettuce cups and garnish with strips of red or green pepper, or thin slices of Sweet Gherkins. Serve with additional dressing, if desired.

COUNTY BRIEFS

STERLEY

April 27—School closed on Friday and the commencement exercise was held Thursday night at the Baptist church. Rev. Bourns of Lockney delivered the commencement sermon. Those graduated from the seventh grade were Cheryl Pauley, Lottie Bell Haekey, Mary Thornton, and Harvey Hays. Ones who graduated from tenth were Bruce Roberson and Elton Griffith.

A delicious dinner was served at the school house Friday. In the afternoon Lone Star and Sterley played base ball. The score was sixteen to six in favor of Lone Star.

A play was presented by the Irick community Friday night. There was a large attendance there.

Mr. Lois Carthel went to Silvertown Friday on a business trip.

Mrs. Holt and daughter, Lorena, of Silvertown visited in this community Friday.

Mr. and Mrs. R. H. Tinsley and daughter, and Mr. and Mrs. Bert Bobbitt visited in Plainview Sunday evening.

Dennis Ford Jr., is in the Plainview Sanitarium, following an operation on his lung. He is reported to be improving.

Grady Gaines from Kansas City is

visiting his step-brother, Mr. Nicum. Mrs. T. B. Brooks of Lockney attended the commencement exercise Thursday night.

Rev. L. A. Blair filled his regular appointments Sunday. The monthly B. Y. P. U. zone meeting met at the Sterley Baptist church Sunday afternoon. There was a large attendance.

Mr. and Mrs. L. A. Clayborn and family are visiting relatives in Arizona.

LIBERTY

April 27—The play that was presented at Liberty last Friday night was well attended. Everyone enjoyed it.

Miss Marie Thomas returned to her home in Plainview Tuesday, and Miss Winnie Dunlap accompanied her.

Miss Crystalline Bean spent Sunday with Dorine Anderson.

Mrs. J. A. Dunlap visited Mrs. A. J. Jetton, Sunday evening.

Miss Jennie McCormick spent Wednesday night with Crystalline Bean.

Miss Lillian Wilson is on the sick list this week.

Mrs. J. W. Anderson visited Mrs. Frank Bean, Saturday.

Mr. and Mrs. C. A. Strickland returned from Haskell Thursday. Miss Altha Strickland remained there for an extended visit with relatives.

Mr. Joe Cypert spent Saturday night and Sunday in Lockney.

Mr. and Mrs. J. A. Dunlap and son, Willard, visited in the Frank Bean home Saturday night.

Miss Ruth McCormick spent Sunday with Miss Margie Hill.

Austin Strickland spent Friday night with Alvis Bean.

LONE STAR

April 28—Mr. and Mrs. John Stevenson, Mrs. C. D. Merrick, and Mrs. Ben Magee attended a cheese making demonstration at Mrs. J. J. Fowler's last week.

Mrs. Joel Nance happened to a very painful accident last week. While washing, she broke a needle off in her hand and had to have a doctor remove the piece.

The Lone Star baseball team played a match game with the Sterley team on the Sterley diamond on last Friday afternoon. The game resulted in a score of sixteen to six, in favor of Lone Star.

Mr. and Mrs. E. T. Cummings and Mr. and Mrs. Thurston Rankin were in Floydada on Thursday.

Last week was a busy time for the sheep men of our community. Both Mr. E. E. Bryant and Mr. C. D. Merrick had their flocks sheared.

The Sterley school closed on Friday. Commencement exercises were held at the Baptist church on Thursday night. Friday a picnic lunch was served on the school ground and a play was presented by pupils from Irick on Friday night.

Mr. and Mrs. E. T. Cummings

spent Saturday at Flomot.

Rev. Strong preached at the Sterley Methodist church Saturday night.

Rev. Blair filled his regular appointment at the Sterley Baptist church Sunday and Sunday night.

A district B. Y. P. U. meeting was held at the Sterley Baptist church Sunday afternoon.

A revival meeting began at the Sterley Methodist church on Monday night. Rev. T. F. Michael, pastor of the Methodist church of Turkey, will do the preaching.

Mr. and Mrs. E. T. Cummings left Monday for Snyder, where they will visit Mrs. Cummings' parents.

MUNCY

April 27—Miss Flossie Ferguson and little brother, Paul, have been very sick the past week, but we are glad to report them better now.

Last Friday night the school entertained the community with a program and spelling match. A large crowd was present.

Mr. Jewel Mara spent the weekend with homefolks.

Mr. and Mrs. E. E. Husky went to Lockney Saturday.

Mr. and Mrs. A. B. Muncy and family went to Abernathy Saturday afternoon.

Mr. Robert Muncy attended the sale in the Center community Monday.

Mr. George Webster was in Lockney Monday afternoon.

Rev. and Mrs. R. E. L. Muncy and Mr. and Mrs. A. B. Muncy and family attended the B. Y. P. U. meeting at Sterley Sunday afternoon.

ROSELAND

April 27—Mr. Winfred Cooper spent Saturday night with Buster Whitlock.

Several people of this community attended the B. Y. P. U. association meeting at Sterley Sunday afternoon.

Rev. and Mrs. L. A. Blair took Sunday dinner with Mr. and Mrs. F. S. Byars and family.

Mr. and Mrs. W. A. Whitlock were Plainview shoppers Saturday.

A large crowd attended the "42" party at Roseland Friday. Everyone reports a nice time.

P. M. Smitherman and wife were Lockney visitors Saturday.

Little Dennis Jr. Ford underwent a major operation at the Plainview Hospital Saturday night. At this writing he is reported better. We hope for him a speedy recovery.

Mr. and Mrs. A. H. Roberson had as their guests Sunday Mrs. Roberson's father and mother of South Plains.

Miss Celia May Wicker took Sunday dinner with Mrs. W. A. Whitlock.

Several people of this community attended the school picnic in the brakes. Everyone had a very enjoyable time.

COTTON SURPLUS ON APRIL 1ST \$510,000

Austin, April 27.—Supply of cotton in the United States on April 1 amounted to 2,510,000 bales, an increase of 2,214,000 bales over the supply on April 1, 1930, according to Dr. A. B. Cox, director of the University of Texas Bureau of Business Research.

"This heavy increase is in spite of the fact that the 1930-31 crop was 895,000 bales less than last year," Dr. Cox said. "The increase has been due to the fact that on last August 1, the carry-over was 2,217,000 bales more than the previous year, and consumption plus exports are down 1,087,000 bales. Imports have been decreased 193,000 bales, making a net gain of 2,215,000 bales in supply on April 1 over the supply on the same date last year.

"Changes in supply on April 1 in the past seven years totaled 8,581,000 bales and the changes in the deflated price for the same period amounted to 2,978 points or about 34 points change in price for each change of 100,000 bales in supply. If that ratio holds good at the present, the increase of 2,215,000 bales in supply should cause a decrease of 753 points in the New Orleans deflated spot price from last year, or a decline from 17.67 cents to 16.92 cents. When the 10.14 cent deflated price is converted to the present low wholesale price level of all commodities of 745 as published by the Bureau of Labor Statistics, it pulls the calculated actual New Orleans spot price down to 7.55 cents.

"The supply of American cotton in and afloat to Europe March 27 amounted to 247,000 bales more than last year. Applying the 34 points to this increase of stocks, the price should be only about 6.75 cents based on the heavy increase in supply and the drastic decline in the price level.

"At this time of year the prospect for the new crop becomes the dominating supply factor causing price changes. The anticipated decline in both number of acres to be planted and probable yield per acre are strong factors in sustaining present prices."

KNOW TEXAS

Texas has 15,062 churches with a membership of 2,280,336 and a Sunday school enrollment of 1,102,292.

Texas has inexhaustible supplies of many varieties of clay, more than 400 of which have been proved by tests to be commercially valuable.

IF ICHABOD CRANE HAD A FLASHLIGHT

By JOHN G. LONSDALE
President American Bankers Association

WE ALL remember the story of Ichabod Crane and the headless horseman. There was the dark form by the side of the road—thundering hoofs on the Sleepy Hollow highway—and Ichabod fleeing in confused terror before this terrible monster. If Ichabod had only known that his hobgoblin was an inventive rival disguised with a pumpkin head, he would have had a good laugh and gone on with the business of vanquishing his competitor.

What Ichabod really needed was a modern flashlight. Then he would have discovered the trickery at once. Many business men need the flashlight of analysis to uncover the hobgoblins in their business and then they might sit back and laugh at their rivals who hesitate to investigate and learn the truth.

At this time, when business and banking are making strenuous efforts to have a clear vision ahead, it is especially important that the power of research and analysis be employed to their fullest extent. When these twin brothers of good management have been pressed into service in all fields, I am confident we shall see a further lessening of periods of stress. However, I believe business in general has learned the valuable lesson that any prosperity that is not leavened with a little adversity would not seem basically safe or sound.

Various proposals that member banks in the Federal Reserve System should participate more largely in its net earnings through an increase in the dividend rate above the present fixed 6 per cent; "would be a very small financial inducement" to them, it is declared in a recent study of this subject by the Economic Policy Commission of the American Bankers Association. "This is shown, the commission says, by a theoretical forecast, on the basis of the past six years, of additional earnings that would be disbursed to member banks during the next six years under two plans introduced in bills before the United States Senate.

"The Fletcher bill provides that Federal Reserve Bank earnings, after present 6 per cent dividends to members and completion of a 100 per cent surplus, should all be distributed as extra dividends to the stockholder banks," the report says. "If the earnings of each Federal Reserve bank were distributed among its own members there would be no extra dividends in the Boston, New York, Philadelphia, Cleveland, Chicago and San Francisco districts during the next six years, but the other six Federal Reserve Banks would pay annual extras at the following rates: Richmond, 6.66 per cent; Atlanta, 4.09 per cent; St. Louis, 2.50 per cent; Minneapolis, 5.51 per cent; Kansas City, 5.46 per cent; Dallas, 4.31 per cent.

"If the earnings were pooled and paid out to all members in all districts each member would receive an average annual extra dividend of .78 per cent. Under this plan no franchise tax as now would be paid by the Federal Reserve Banks to the Federal Government.

Another Plan Analyzed
"The Glass bill would provide that, after present 6 per cent dividends, one-half the remainder should be paid to member banks as an extra dividend with the residue going to surplus and Federal Government as franchise tax. The average annual extra to members would be as follows: Boston District, 2.51 per cent; New York, .48 per cent; Philadelphia, 2.05 per cent; Cleveland, 2.09 per cent; Richmond, 2.26 per cent; Atlanta, 4.67 per cent; Chicago, 3.26 per cent; St. Louis, 2.62 per cent; Minneapolis, 4.75 per cent; Kansas City, 2.74 per cent; Dallas, 3.31 per cent; San Francisco, 1.87 per cent.

"If these extra funds were pooled the result would be an extra average annual dividend of 1.73 per cent for each member. Under this plan the system would still pay as now an annual franchise tax, amounting to \$1,941,996 on the average."

By way of concrete instance, the report says, a member bank having capital and surplus of \$200,000, therefore holding Federal Reserve Bank stock amounting to \$5,000 on which it is receiving \$360 under the present 6 per cent dividend arrangement, would with the addition of each 1 per cent to the dividend rate receive an additional income of \$50 a year.

"If each member bank will figure out for itself the dollar-and-cents gain it would enjoy we are confident it will be agreed that the gains are small as against the economic disadvantages which can be pointed out," it concludes.

San Angelo will be using natural gas from the Big Lake fields by May 1, construction of the Texas Public Service Co. lines being well toward completion. Pipe and construction material required 250 cars for transport and 400 men have been given steady work. . . . Contracts for \$1,300,000 worth of irrigation projects

are to be let in April in Cameron county. . . . If business conditions warrant El Paso within the next twelve-month will have a copper wire factory, extension of the \$3,000,000 refinery completed there last year.

CAR'S INTERIOR ATTRACTS WOMEN

Upholstery May Enhance Comfort, Smartness and Ultimate Value of Car.

WHEN it comes to selecting the family automobile, a good basis of procedure is that adopted by the sight-weary American tourist who said to the next important cathedral: "You do the inside and I'll do the outside." The average woman is quite content to have her husband concern himself with the ho-ho of the car, the wheel-base and general mechanics, provided she may have something to say about the inside. The car's clothing, as its upholstery may well be called, is equally important with the rest of the car, for upon it depends much of the comfort, smartness, beauty and ultimate value of the car.

In choosing the upholstery for the interior, a number of distinct features should be considered—good appearance, smart design, pleasing color, wearing quality, riding comfort, cleanliness and economy. The only material that can be depended on to embrace these important features in one fabric is velvet mohair, otherwise known as velmo, and made from the lustrous fleece of the Angora goat. Because of its original snowy whiteness, mohair can be dyed any shade, however subtle. Its lustrous sheen and soft, silky texture leave nothing to be desired in the way of beauty and luxurious appearance, while the long wearing quality of pile mohair, as contrasted with that of flat fabrics, is undisputed. A velmo upholstered car will be fresh and inviting long after the rest of the car has lost its good appearance or even given itself up to the infirmities of age. Because of the smooth surface of individual mohair fibres, discernible only under a microscope, dirt does not readily adhere to nor penetrate them, and the material is easily cleaned with a whiskbroom or by vacuum. Actual grease or dirt spots are removed by washing with pure soap and warm water.

Easy riding, an important feature when taking long trips, is assured with mohair velvet because there is no slipping and sliding about, as with smooth fabrics, and each fibre of the pile fabric acts as a resilient spring to absorb shocks. It is easier on the clothing, too, as the reduced friction avoids rubbing and subsequent shininess.

Added to these advantages is the additional one that they all add materially to the trade-in value of the car when the time comes to get a new one. In fact, it has been conservatively estimated that anywhere from fifty to two hundred dollars' difference can be looked for in a car whose upholstery is in perfect condition and inviting to the eye.

Offer Prize for Oldest Piece of Mohair

Have you a mohair-covered chair or sofa in your home? If so, you may be \$250 the richer for it!

This paper is in receipt of a message from the Household Science Institute, Chicago, asking for help in locating the oldest piece of mohair-upholstered furniture in the United States. The style of the sought-for furniture, its use or non-use at the present time are not important, providing it is in good condition. Its owner will be awarded \$250, and the piece itself will be exhibited with other old-time furniture during the World's Fair in Chicago in 1933.

Back of the Institute's offer is the desire of Grace Vail Gray, its director, to ascertain the longevity of mohair. It is claimed that unless deliberately injured no instance has as yet been found of a mohair wearing through.

Readers who feel that they have something of interest should communicate with Mrs. Gray at the Household Science Institute, 7 South Dearborn Street, Chicago, giving the history of the piece in mind.

HELPING TO BUILD TEXAS

Beville voted \$125,000 bonds for new school buildings and repair of older structures. Subsidiary contracts for the \$1,000,000 Spanish Acres high school, San Antonio, have been let. Dallas will spend \$128,000 on additions to two of its elementary schools. University Park, Dallas, will start on a new high school to be ready for the fall opening. Medical Department, Texas University, Galveston, let contract for \$264,640 laboratory.

Kyle Theater, Beaumont, will be razed and \$85,000 building for stores erected on its site. . . . Longview is to have a new \$150,000 theater. . . . Mountain States Telephone Co., El Paso, will spend \$925,000 for extensions and improvements. . . . Hamilton county voted \$65,000 court house bonds. . . . Lubbock county has let contracts for its new \$350,000 jail. Bids are ready for new \$350,000 post office at Lubbock. . . . Appropriation of \$80,000 for a post office at Henderson is available. Ditto \$375,000 for immigrant station at Galveston.

East Texas continues to get big play in the oil game. One big company plans a 265-mile pipe line from the Rusk field to its properties in Oklahoma. A 6,000-barrel skimming plant costing \$400,000 is planned for Tyler. Another 200-mile pipe line from the Lathrop area to the gulf coast is projected. And each day sees more wells brought in, new areas coming into production, new wild cat ventures starting in unproved territory.

Consumption of natural gas in the United States has increased from 300 billion feet in 1906 to one trillion, 800 billion feet in 1929. Texas is now leading all the States in production of natural gas, taking the lead from Oklahoma in 1930 with California, Louisiana and West Virginia following Oklahoma.

POWER INCREASING OUTPUT OF FARM WORKERS 6 FOLD

No more farm workers will be needed to provide food for a population of 150,000,000 in the United States (estimate for 1950) than were needed to feed the 25,000,000 that were here in 1850. Power, available on farms, will give each worker six times his former production capacity.

Mr. and Mrs. W. M. Sammann wishes to announce the arrival of their little daughter, Mary Alice, born Friday, April 24th.

TELLS HOW TO MAKE AMERICAN CHEESE

Littlefield, April 28—A profitable home market for part of the low-price milk on the farm has been demonstrated by Mrs. B. H. Hunt of the Spade Home Demonstration Club, Lamb county, in the manufacture of American cheese. Out of 20 gallons of milk worth \$1.63 for butterfat, she and her husband have made 20 pounds of cheese worth \$7 at store prices, at a cost of 15 cents and an expenditure of seven hours of labor. Valuing the milk at market prices and the labor at 25 cents per hour the cheese cost about 17 cents per pound. It makes a nourishing food that varies the diet and profitable disposes of part of the surplus milk. Mrs. Hunt claims.

The method of manufacture as demonstrated by Miss Ruby Mashburn, home demonstration agent, consists in heating the milk to 86 degrees temperature, adding 1-2 rennet tablet dissolved in two tablespoonfuls of water to 3 1-2 gallons of milk, and then adding 1-4 of a coloring tablet. The mixture is left for 30 minutes for the curd to set and then cut into small cubes and again heated, this time to 100 degrees, after which it is allowed to set until the curd and whey separate. The whey is drained off and the curd encased in flour sacking and pressed for 24 hours under 45 pounds pressure in a syrup bucket or similar container, the sides of which have been punched full of holes. The cheese is then dipped in unsalted melted butter, put in a cool place and turned once a day for 10 or 12 days. It is next dipped in melt-

Stomach Troubles Headache and Dizziness

If your stomach is sick, you are sick all over. If you can't digest your food, you lose strength, get nervous and feel as tired when you get up as when you went to bed.
For 10 years Tanlac has restored to health and activity many thousands who suffered just as you do.
Mr. Daniel Vinciguerra, of 6200 Stiles St., Philadelphia, Pa., says: "I have not had a dizzy spell or a headache since taking Tanlac. My nerves are in better shape and I can enjoy a good night's sleep."
Let Tanlac help you too. It corrects the most obstinate digestive troubles—relieves gas, pains in the stomach and bowels, restores appetite, vigor and sound sleep.
Tanlac is made of roots, barks and herbs. Costs less than 2 cents a dose. Get a bottle from your druggist today. Your money back if it doesn't help you.

ed paraffin and put in a cellar of about 40 degrees temperature to ripen for six weeks to 90 days.

TEXAS WEEKLY INDUSTRIAL REVIEW

The following record of industrial activity lists items showing investment of capital, employment of labor and business activities and opportunities. Information from which the paragraphs are prepared is from local papers, usually of towns mentioned, and may be considered generally correct.

Hargill—Pumping plant for local water system completed.
Gas pipe line, \$50,000,000 project, from Texas Panhandle to Chicago, will be ready July 1st.—Borger Herald.

Fredericksburg—GuY and West Texas railway constructing underpass on Harper Highway.
Buffalo Gap—Improvements to be made at Boy Scout camp at this place.
Sierra Blanca—Peak Theatre opened with talkies.

Crowell—Actual paving work on Highway No. 28 to start soon.
Sinnott—State took over maintenance of 11 newly graded miles of Highway No. 117 north of this city to Hansford county line.
Crosbyton—Highway from west precinct line to city nearing completion.

Paris—Liberty National Bank and Trust Co., with capital stock of \$150,000, seeks charter.
Crystal City—Local shippers organized ice company to build new \$200,000 ice plant.

Marshall—Texas and Pacific railroad shops reopened here, recalling several hundred men to work.
Denison—Work to start soon on underpass for M. K. & T. railroad on Highway No. 6 north of this town.
Canadian—Cemetery to be improved.

Pampa—Stockholders of Clinton-Oklahoma-Western Railroad Co. of

Texas will meet in this city May 21 to consider increasing capital stock of corporation from \$100,000 to \$300,000.

Tenaha—Natural gas system turned on.
Uvalde—\$25,000 theatre to be constructed here soon.

Tenaha—Waterworks and sewerage system to cost \$60,000 to be constructed here.

Longview—Mrs. I. E. Hathaway let contract for erection of 36-room apartment house in this city.

Commerce—American Legion purchased site at City Park for erection of club house.

Winter Garden Belt Railway Co. seeks permission to build 70 miles of railroad from Eagle Pass to Asherton.

Total of 3,886,141 bales of cotton ginned in Texas in 1930, compared with 3,893,211 in 1929, according to Department of Commerce at Washington.

Farwell—Bakery opened for business.
El Paso—Bectul-Kaiser Co. completing pipe line into Arizona and Mexico.

Bowie—Several streets in city to be paved.
Temple—City National Bank and Farmer's State Bank consolidated.
Sierra Blanca—Ground broken for new Williams building.

Beville—\$125,000 bond issue voted for erection of new school building.
Anson—Paving progressing rapidly on Highway No. 4 from this town towards Hamlin.

Austin—State Highway Commission awarded \$1,811,329 for highway contracts during March-April session.
Farwell—Cotton gin may be built here.

Cameron—Number of dipping vats under construction in county.
Refugio—Carbon black plant to be constructed here to consume waste gas in Refugio fields.

During year 1930, three sulphur producing companies in Texas produced total of 2,560,100 tons of sulphur, increase of 202,563 tons over production of 1929.—Sabinal Sentinel.

Texas led States in mohair production in 1930, producing about 75 per cent of total crop or 13,800,000 pounds, increase of 300,000 pounds over previous year.—Sabinal Sentinel.

Ahilene—Local Farmers and Merchants National Bank purchased State Bank.
El Paso—Bridge will be built across Rio Grande, opposite cement plant, at cost of \$16,000.

Contracts amounting to \$70,000 awarded to Watson and Son, Opelika, Ala., and J. J. Sheedy, Cheyenne, Wyo., for installation of 39 beacons on El Paso-Fort Worth air route.

Haskell—Sampson Construction Co. Lubbock, awarded \$109,400 contract for repairing and remodeling courthouse.
Add to Weekly Industrial Review

El Paso—"El Paso Evening Post" purchased "El Paso Herald" and will be published as "El Paso Herald-Post" in future.

3 "Inspiration" Menus For Weary Housewives

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

WHEN you feel as though you cannot possibly plan another menu, it is time to go to your cook book or read the food pages of your favorite newspaper for suggestions. And right now is the season when many housewives are making up their minds to allow someone else to plan the meals for at least a little while.

Accordingly, you will find below several menus that are especially suitable to serve this month; and they will be most helpful when you feel that your supply of ideas needs to be replenished. While most of these dishes are old favorites, they are so carefully combined that the menus are decidedly interesting as well as practical.

Try one of these dinners tonight:

- Swiss Steak
- Baked Potatoes
- Buttered Carrots and Peas
- Sweet Mustard Pickles
- Rice Flake Muffins
- Peach Custard Balls
- Coffee
- Cream of Tomato Soup
- Crisp Crackers
- Vegetable and Meat Salad
- Hot Rolls
- Quince or Grape Jelly
- Caramel Pudding
- Fruit Macaroons
- New Style Chicken Shortcake
- Buttered Asparagus
- Spiced Peas
- Hot Biscuits
- Molded Vegetable Salad
- Peach Tarts with Marshmallow Sauce

Swiss Steak: Have round steak weighing about 2 pounds cut 1 inch thick. Mix 1/2 cup flour with salt and pepper and pound into the beef on both sides, and sprinkle with 1/2 onion, chopped, and 1/4 green pepper, chopped. Add 1 1/2 cups boiling water blended with 1/2 cup tomato ketchup. Cover and simmer slowly until the meat is tender—at least one hour.
Rice Flake Muffins: 1 cup flour; 1/2 teaspoon salt; 2 teaspoons baking powder; 3 tablespoons sugar; 1 cup rice flakes; 1 egg; 1/2 cup milk; 2 tablespoons melted butter. Mix together flour, salt, baking powder and sugar. Add rice flakes crushed with a rolling pin. Beat egg and add to the

milk. Add to the dry ingredients and mix lightly. Add melted butter and bake for 15 minutes in a moderately hot oven—350-375 degrees F.—in well greased muffin tins. This makes six large muffins.

Peach Custard Balls: Drain juice from canned peaches and put two halves together with a spoonful of Currant Jelly in the center, to form a ball, and coat with thick boiled custard. Roll, just before serving, in chopped nuts or ground macaroon crumbs.

Vegetable and Meat Salad: 2 cups soaked meat cut in cubes; 1 1/2 cups cooked peas; 3 hard cooked eggs; head of lettuce; 8 Stuffed Spanish Olives; 1/2 cup French Dressing.

Mix meat and peas together, sprinkle with French Dressing and chill thoroughly for about 1 hour. Place in deep crisp lettuce cups or in a large bowl lined with lettuce. Top with Mayonnaise Salad Dressing and garnish with slices of hard cooked eggs. On each slice of egg place a slice of Stuffed Olive.

Fruit Macaroons: 4 egg whites; 1/2 cup granulated sugar; 1 teaspoon almond or vanilla extract, or 1/2 teaspoon of each; 1/2 pound pitted dates, chopped; 1/2 cup almonds or pecans; 1 cup Rice Flakes.

Whip egg whites stiffly and fold in sugar. Add flavoring. Mix together, and add the dates, nuts, meats and crushed Rice Flakes. Drop on a well greased baking sheet and bake for about 20 minutes in a slow oven—300 degrees F.

New Style Chicken Shortcake: 2 tablespoons butter; 3 tablespoons sugar; 1 medium sized can Cream of Celery Soup; 1/2 teaspoon salt; Dash of pepper; 3 hard cooked eggs, sliced; 1 1/2 cups dried soaked chicken.

Melt butter, add flour and mix until smooth. Then add celery soup and cook until creamy, stirring constantly. Add salt, pepper, hard cooked eggs and chicken. Serve between the halves and on top of hot biscuit. Garnish with slices of egg, stuffed Spanish Olives, and apricot parsley.

Spiced Peas: 1 large can peas; 1 cup sugar; 1/2 cup Distilled White Vinegar; 1/4 dozen whole cloves; 1 stick cinnamon.
Drain juice from peas, and add to it the sugar, vinegar, cloves and cinnamon. Boil until syrupy, about 10 minutes. Drop in the peas and simmer for 15 minutes. Cool in the syrup, drain, and serve with meat. A small amount of red coloring may be added to the syrup when cool, if a bright color is desired.

EVERY AD
AHIT!
When You Use
ZUCKERMAN
Illustrated Advertising Sales Ideas
FREE AT
Lockney Beacon

Dumas—L. D. Morton Co. store opened to public.
Donna—Baptist church to build addition to present edifice.

Del Rio—\$150,000 moving picture building to be constructed here.
Carrizo Springs—Plans proposed for establishing hospital in this town.

Alpine and Marfa to have natural gas supply in short time.
Highway No. 2 between Jarrell and Salado, will be paved by State Highway Department.

Nordheim—Extensive road work underway in this section.
Corsicana—Corsicana National Bank and First National Bank consolidated and in future will be known as First National Bank.

Jefferson—County roadways being improved.
Hebbronville—More than 80 cars of cattle shipped from this point during recent week.

Work practically completed on new river road, up Rio Grande from Boquillas 20 miles to Fort Hancock.
Hard-surfacing underway on Webb-Zapata highway.

Dallas—Work to start in near future on \$10,000 administration building at Hensley field.
Valentine—New bridge and road to be built in this vicinity.

Bowie—Aaron Miller's new dry goods building on Mason street nearing completion.
Port Lavaca—This city to have natural gas soon.

Walnut Springs—State appropriated \$30,000 for highway to Glen Rose.
Huntsville—State selected site on Harmon creek for hatchery and will stock 32 ponds with bass.

Fort Stockton—Construction underway on \$100,000 high school building.
Capital of new companies organized in State during first quarter of 1931 totaled \$25,695,000, compared with \$17,815,000 during corresponding period of last year, according to Bureau of Business Research of University of T—aa.

Crosbyton—Troy Noel now sole owner of Modern Tailor Shop on south side of square.

Coronated Letters are Good Form

No longer is an apology expected for a typewritten letter to a friend. On the contrary, most of us have to apologize when we write in longhand.

Love letters are the only ones that people are willing to take the time to decipher. All others should be coronatyped. And if more love letters were coronatyped, there might be fewer breach of promise suits.

LOCKNEY BEACON

Notice to All Car Drivers

Beginning tomorrow, Friday morning, the traffic laws of Lockney will be rigidly enforced. Tomorrow being Boys' Day as city officials, there will be four traffic cops on the job, one at each stop sign in the city, and these boys will turn in the name of the driver and number of car violating the city traffic laws to the city officials, and the violator will be fined for breaking the traffic laws, and from then on the city officials will enforce the law rigidly in accordance with the city ordinances. The stop signs in the middle of the streets coming into the main street, are not there for ornamental purposes, but for the safety of the people and other motor vehicle drivers, and mean "Stop", and all persons who fail or refuse to stop at these signs, will be fined for disobeying the traffic laws. Also, for instance, when a car drives out on Main street at the Ozark Filling Station, it should turn to the right and go around the post in the middle of the street, and those failing or refusing to do so will be fined for the offense.

The traffic laws of the city are few, but these laws must be obeyed for the safety of the public, and those caught violating them will be fined for the offense.

The fire truck has the right-of-way over all cars, and when the siren is sounded it is the duty of every automobile driver on the streets to immediately park and stay parked until the fire truck passes, and to refuse or fail to do so is a fineable offense and this ordinance will be enforced. Also, it is a fineable offense to run over the fire hose when they are laid on the ground, and this will also be enforced.

There is an ordinance against double parking, or parking in the center of the main business block of Lockney, and this law will also be enforced from now on. If it is necessary for a driver to stop his car in the main business block, and there is no parking room, for the purpose of running into some store to get some article, he or she must either leave their motor running, or leave some one with the car so that it can be moved, if necessary, before their return. The parking law will be enforced from this time on.

The traffic laws of the town are for the safety of the people, and every motor vehicle driver should try to do his or her part to help protect the public, and at the same time make it safe for them to drive on our streets. W. R. CHILDERS, Mayor. CONDE DAVIS, City Marshal. RUD PARSONS, Fire Chief.

SCHOOL NEWS

LOCKNEY HIGH SCHOOL HONOR STUDENTS

The following students are the six highest ranking students of this year's graduating class: Faye Morrison 1st, Vaud Teaver 2nd, Ralph Arceneaux 3rd, Ben Taack 4th, Mattie Belle Wofford 5th, and Wilma Cooper 6th.

The valedictorian will be Faye Morrison. The salutatorian will be Vaud Teaver.

Faye Morrison will receive the scholarship for the highest ranking girl and Ralph Arceneaux will receive the scholarship for the highest ranking boy.

The above ranking is based upon two or more years of high school work.

Primary Grades Honor Roll First Grade A—Francis Busby, Mary Glenn Huff, Lucy Dean Rose, Melba Turner, Louise Wells, John Ewing, Charles Quisenberry, Robert Lee Shick, J. R. Stoneman, and Pat Woodburn.

First Grade B—David Beck, Arlene Cooper, Jimmie Sams, Rudolph Singleton, and Katherine Cummings.

Second Grade A—Elaine Arceneaux, Lois Standifer, Virginia Norris, Irene Hall, Reuben McGilvary Jr., Leo Clark, Paul Shick Jr., and Buford Humphries.

Second Grade B—Mildred Ford and Bonnie Faye Goodrich.

Third Grade A—Grace Grubbs, Christine Reeves, Doris Sams, Charles Baker, Earl Beck, Eldon Hill, and

Wendell Newman. Fourth Grade A—Mary Alice Baker, Georgia Belyeu, Billie Jean Biggers, Marie Stowe, Mary Beth Trussell, Pauline Hutton, and Mary Margaret Ridings. Billie Ray Crager treated the second grade A room with lolly pops last Friday.

Grammar School News

Honor Roll for Past Term

7A—Edna Copeland 36, Estelle Hodel 34, Olin Huff 32, Lura Beall 31, Eugenia McClure 29, Meda Ruth Thomas 29, Thelma Williams 30, Delburn Rose 29.

7B—Jimmie White 32, J. R. Steele 30, Chester Carthel 29, Oleta Thornton 32, Vada Shadix 30, Frances Miller 32.

6A—Dora Copeland 40, Gladys Pratt 39, Pauline Beall 37, Doris Fields 36, Oleta Huggins 32, Muriel Trussell 32, Salvador Azua 36, Bob Collier 32.

6B—Evelyn Beck 32, Opal McMinn 37, Charles Bourns 35, Marvin Sams 32.

5A—Margie Brasher 29, Frances Humphries 36, Mertie Mae Webb 34, Ella Fay McMinn 29, Alene Wright 34, Charles Beall 30, Marvin Brotherton 32, Junior Hutton 30, Raymond Hutton 32, Muriel McGonigull 29, D. C. Sevier 34, Richard Mann 31.

Riddell Hutsell was a visitor in the fifth grade Wednesday and Thursday. He was on his way to Canyon to represent his county in junior declamation.

Hollis Harris has returned after being absent for several days with the mumps. We are glad to have him back.

THE LOCKNEY HIGH SCHOOL ORCHESTRA

At the first of the year the high school was without any musical organization whatsoever. Soon among some music loving students the need of a school orchestra began to be

felt. Then, about the first of October, an orchestra was organized with five pieces; later, five more pieces were added which constitutes our present ten piece orchestra.

Regular rehearsals have been held every Monday evening besides numerous extra ones. Their practice room has been a long, hard pull, sometimes tedious, many times difficult, but all the time enjoyable. The members have been extraordinarily faithful in attendance.

After the public requested so many times for the orchestra to play, the members decided suits would be appropriate. Black and white was decided upon as the color scheme. The girls wear white dresses with black jackets, the boys white trousers and black coats.

The personnel of the orchestra are: Miss Lillian Hoefflein, director, Virginia Hohlaus, Alice Stewart, Kenneth Hohlaus, Glen Stevenson, Douglas Adams, Hazle Ford, Melba Simpson, Milton Adams, Patricia Patterson, and Fred Beall.

Their repertoire consists of about fifty pieces composed by some of the world's most famous composers as well as popular pieces.

This group of musicians has appeared in public many times. By request they have played for the Rotary Club five times. They assisted with the Sunday evening services of both the Baptist and Methodist church by rendering a short program. For all the Little Theater and school plays the orchestra has furnished music. Again the group was featured at both the high school and grammar school in special chapel programs. On November 11, the orchestra and the chorus offered the high school's contribution to the Armistice program held at the city auditorium. At a musical tea given about Christmas time, the orchestra appeared with Miss Hoefflein's pupils. They also furnished some of the music at the Christmas pageant given at the Baptist church. The Floydada experimental station has broadcasted three of their luncheon programs.

On two occasions the Lockney High School Orchestra played at Plainview. Through the instrumentality of Mr. H. B. Adams these musicians were invited to furnish the luncheon music for the final sessions of the Panhandle Press Association, held at the Hilton Hotel, Plainview. Again, through the efforts of Mr. Adams, the orchestra furnished the luncheon program for some of the most distinguished members of the forty-first District Rotary convention held at Plainview.

The musicianship of this group has steadily improved until Lockney's orchestra is known throughout this part of the plains. Following their program in Plainview the "Amarillo News-Globe" made the following comment, "The Lockney High School Orchestra has won much praise throughout the South Plains for its aggregation of talent and art."

This English theme was written by Virginia Hohlaus as her regular school work.

AIKEN SCHOOL NEWS

On April 24th the Aiken school closed rounding out another full eight months school. At the eleven o'clock hour, Bro. Bourns of Lockney Baptist church preached a most interesting and helpful sermon to the student body, parents, and patrons of the school. His subject covered in brief the life of the child from the beginning to the finish of the school days. Lunch was served at the noon hour, followed by ball games and other sports in the afternoon.

On Wednesday night, April 22, Mr. Hutchinson and his high school pupils gave their play, "The Wild Oats Boy," which was enjoyed by a house full, to running over.

On Thursday night, pupils from the first to seventh grades had their play, sponsored by their teachers, Mrs. Hutchinson, Miss Walter, and Mr. Graham. Every part of the program was a success, showing the time, patience, and interest these teachers take in our children. Following their entertainment, presided over by Mr. Hutchinson, Mr. Hutchinson is justly proud of the work the pupils of his school have done the past eight months and spoke to them to that effect, praising them, not only for their efforts in their every day school life, but also for their interest and enthusiasm in working for points and places in the interscholastic league meets. His school walked away with several first places among the "B" class schools, and one first place over "A" and "B" class schools. He feels confident that they would have gotten the allround cup had the weather not been such as to prevent him from getting all his contestants to the fair. Another feature of our cap, is the fact that our senior boy declaimer, Rowan Ward, who won first place at the county meet also got third place in the preliminaries at the district meet at Lubbock. We understand he is the first senior boy declaimer from Floyd county to get placed at the District Meet.

We are pleased to know Mr. Hutchinson will have charge of our school another year. Also glad to have Mrs. Hutchinson and Mr. Geo. Graham back in their places. All three of them will enter school at Lubbock the first of June, returning here the first of September for what is hoped to be even a better school year than the one just finished. Miss Josephine Franklin will replace Miss Walter in the fourth and fifth grades.

SPECIALS

FRIDAY AND SATURDAY

- CAMAY SOAP 3 bars 19c
RED & WHITE JELL DESERT 3 for 19c

RED & WHITE STORES

Tenth grade pupils finishing here were: Miss Leona Hartley, making the highest grade, which was ninety, Ethel Dorman eighty-nine, Lenroy Weathers, Harold Perkins. Seventh grade graduates were: Mary Nell Mangum, grade ninety-two, Jewel Gilcrease, grade ninety, Charlie B. Elam, G. T. Wright, and Anita Morris.

High Cost of Government

(Editorial in Cleburne Times-Review) All people who pay taxes should be interested in the cost of govern-

ment. Since 1913, according to a financial exchange, national wealth and national income have doubled, while governmental expenditures in the same period have quadrupled. All government taxes collected in the United States are now \$13,000,000,000 per annum and are increasing at the rate of \$500,000,000 a year. Cost of government to the average family is now \$460 a year and one out of every 11 persons is a political employe of some branch of government with a strong tendency upward. A material factor in the cost of living is the heavy tax mule "and every line no small part of the margin between what the producer receives and the consumer pays is due to the ever-mounting burden of taxes." Freight payer Jones isn't in the saddle. He walks whilst he pays the freight.
