VOLUME 32

LOCKNEY, FLOYD COUNTY, TEXAS THURSDAY, July 20, 1933

NUMBER 45

Floyd County Farmers To Receive \$251,847.72

We give below the final summary of Floyd County's cotton reduction program as prepared by Mr. Payne, general manager of the program in this county. Lockney farmers will receive in cash \$251,847.75 for their part in the cotton acreage reduction program. This does not include cotton that an option was taken on which amounts to 4,655 bales and with the present margin in this cotton above six cents would amount to a little over \$20 per bale or in round figures \$100,000.00 and that added to the above figures makes a grand total of \$351,847.75 which our farmers will eventually receive, if not more. Following is the report given us by Mr. Payne:

Contracts signed 1,015, acres in cotton 76,024, acres to be plowed under 30,596, total cash without option \$130,605.50, cash with option on cotton \$121,242.25, number of bales that option was taken on 4,655. Net lint cotton per acre in 1932 was 184 pounds, for 1933 it was set at 134.

Floyd county acreage reduction was set at 18,516 acres to be taken out of production, we exceeded that amount by 12,080 acres. That is what we call "putting the program over."

"I have been notified that all contracts signed by myself and the various committees over Floyd county were accepted a 'Washington' said Mr. Payne. In short that means that all Floyd county contracts have been accepted and farmers will be paid for plowing up the acres that they contracted to plow up. This speaks well for the work of Mr. Payne and the committees.

"Permit blanks will be in my office by Monday and all those that signed contracts are requested to call and get their permit to plow up their cotton. When they have one this, their local committee will inspect it and sign their permit and it will be returned to my office and I will forward it to Washington," said Mr. Payne.

Don't plow up your cotton until you receive this permit from Mr. Payne, to do so would be at your own risk. After these permits have reached the Washington office it will only be a short time until checks will be received in Floyd county.

This \$251,847 distributed over Floyd county just at this time is going to do a world of good. It will give the people a little ready cash to spend for the many things needed.

NO RAIN OUT HIS WAY

Ten Rankin, wheat farmer of nine miles north and a little west of Lockney, reports that he did not receive any rain this week, but said "he did not need it as he had previously received pretty good rains." Tom's wheat crop was practically a failure this year, high winds and dry weather just at the wrong time cut his yield to almost nothing. He is preparing wheat land at this time for another crop.

Today's Market

Poultry	
Hens, 4 lbs. and up	60
Leghorn hens and hens under 4 lbs.	40

Peter Finds Home

Because his picture resembled a son who had drowned, Peter Christopolis, 13, in an Omaha Orphan Home since being 2 years old, is now living in the home of Jean Stranga, a wealthy silk manufacturer of Paterson, N. J. It is a 3 month trial. If satisfactory to both Peter will then be adopted.

Olin Harris Goes To Elk City Okla.

Olin Harris, who has been bookkeeper and cashier for the Lockney Cotton Oil Company has been transferred to Elk City, Oklahoma where he becomes manager of the oil mill at that place so we understand. He will be with the same company at Elk City, but this is a promotion for him. Olin has been with the Lockney Cotton Oil Company for some time, and his many friends here are glad that he has received this promotion, of which he was worthy. He assumed his duties at Elk City last Monday.

Mr. E. F. Wilson, of the Richmond Cotton Oil Co., at Richmond, Texas, is now in Mr. Harris place at the mill. We welcome Mr. Wilson to our city. The editor of the Beacon has known Mr. Wilson for a good many years and we know him to be a man of ability and an upright gentleman in every respect.

We wish Mr. Harris much success in his new undertakings. He was one of our very best citizens, a leader in all worthwhile undertakings within the city and community. He was secretary-treasurer of the Rotary Club of Lockney and the club has lost one of its loyal members and he will be missed by the entire citizenship of this community.

Oil Mill Resumed Operations Monday

The Lockney Cotton Oil Co., began operations again Monday, after a shut down for some time. They are using fifty per cent more men than was previously used, running three eight hour shifts, employing about 80 men in all. The Mill is contributing their part in National Recovery Act in employing more men and working them shorter hours. This helps the community quite a bit and Mr. Mason, manager of the mill, is to be congratulated on taking the initial step under the new set up, in Floyd county. This payroll means more than you think to Lockney. It gives 80 men employment where only 40 were used previous to this time.

MR. AND MRS. N. H. HUMPHRIES MOVE HERE

Mr. and Mrs. N. H. Humphries and family moved back here this week after about a years absence. Mr. Humphries is employed at the Lockney Cotton Oil Mill of which he is a former employee. We welcome them to our town again. You just can not keep people away from a good city.

VISITING HERE FROM PERICO

Mrs. Grady Brewster, of Perico, Texas, up in Dallas county, is here visiting with her parents. Mr. and Mrs. Z. T. Riley, and mother-in-law, Mrs. Geo. Brewster, since arriving in our city Monday night, Mrs. Brewster has been quite ill, but is some better a this writing.

Good Rains Over Floyd County This Week

Practically every nook and corner of Floyd county has received rain the past ten days, and this week some parts of it received good rains, ranging all the way from a half inch up to two inches. Floyd county has been pretty fortunate all along in receiving rains, although they have been spotted, but it rained in a different spot almost every time, and this week it just spread out all over the county and closed up the gaps, so we are sitting pretty for the time being and everybody is happy.

Wheat farmers are busy preparing their wheat land and those that have cotton and feed crops are busy as a one-armed paper hanger with the hives, killing weeds. This sure is a busy country and we don't mean maybe. People are happy because they are busy. When people can keep busy they are happy and contented. This is a fine county, it sure is and we are mighty glad we didn't trade it back to the Indians last year.

About fifty per cent of our cotton has been sold to the government, but we are going to make plenty of cotton on the other fifty per cent. The price still looks good for the fleecy staple this fall, and don't be surprised if it hits the 15c mark, but don't spend your money in advance expecting this price, we might be wrong, for we usually are.

Mrs. Pearson, Pioneer Dies Wed. July 12th

Mrs. M. C. Pearson, 71, died Wednesday, July 12th, at the home of her daughter, Mrs. C. L. Jarrett. Mrs. Pearson moved to Floyd County 42 years ago.

Funeral services were held Thursday morning at the South Plains Baptist Church with the Rev. Willis J. Ralston, pastor of Lockney Baptist church officiating. Interment was in the Lockney Cemetery under the direction of the Crager Funeral Home.

Pallbearers were: Messrs. Walter Wood, Carl Daniel, S. Yeary, Homer Campbell, Truman Bradshaw and Paul Sims.

Surviving her is three daughters and four sons, Mrs. Della Wootton of Westfork, Ark., Mrs. Luther McIntyre of Gainington Park, and Mrs. Grace Jarrett of South Plains; Mr. Joe Pearson of Orchoo, N. M., T. N. Pearson of Plainview, Lee and Willard Pearson of South Plains, Mr. Joe Pearson, Mrs. Wootton, and Mrs. McIntyre were unable to be present.

BACK FROM SULPHUR SPRINGS

Robin Baker returned last Friday from Sulphur Springs, Oklahoma where he enjoyed a few days of rest far removed from the trials and tribulations of a business world. Robin looks like a new man since his return and says that he "feels as fit as a fiddle" and is ready for another twelve months of hard work. "That sulphur water sure is fine, the best water 'til the world" states Robin. If it beats this Plains water, it sure must be fine it sure must.

MRS. MCGHEE HERE FROM LONG BEACH, CALIF.

Mrs. Will McGhee of Long Beach, Calif., and former resident of here came last week end to visit with her father, W. C. Nichols, who celebrated his 88th birthday last Fourth of July. Mrs. McGhee has many friends here, since this was once her home. She gets the Lockney Beacon and reports that she reads every line in it, which all goes to prove that one never appreciates one's home paper until one is from the fold.

Pioneer Of West Texas Dies Sunday Morning

C. C. Holt, 62, pioneer of West Texas since 1891, died Sunday at 7 o'clock at the Plainview Sanitarium where he had been for four days. He had been ill for two weeks.

Funeral services were held here at the church of Christ with Rev. Earl Campbell of Silverton officiating. Burial was in the Lockney Cemetery under the direction of Roy G. Wood Funeral Home.

Mr. Holt is of Silverton where he was employed as an agent for the Case Implement Company. He is survived by his widow and the following children: Willie of Silverton, Mrs. Avie Dickerson of the Lone Star Community also Mrs. Lorena Hamilton of that community, Edna of Hart, Texas, Mrs. Milford Earhart of Lockney, Charley and Blain of Lockney, and Mrs. Annie Armbrister.

Mr. Holt was born in Tennessee October 11, 1871. He moved to Brisco County in 1904 and settled 12 miles west of Silverton, later moving near the Floyd County line.

About The Cheese Factory For Lockney

We know that our readers have anxiously been waiting for some news about the cheese factory for Lockney. We have had nothing to say about the matter for some time due to the fact that a deal has and is pending with parties and first one thing and another has caused delay and we were of the opinion that we would have something definite to tell you about the cheese factory before this time. Quit a bit of time has been lost trying to get this deal over and if a definite deal is not made within the next few days with this party other connections will be made with parties interested in locating a cheese factory at Lockney. Every days delay means lost revenue for our dairy farmers and the community.

B. J. PHILLIPS OPERATED ON

B. J. Phillips, 14 year old son of B. Phillips of the Lone Star community, underwent an operation for appendicitis Monday at the Plainview Sanitarium at Plainview. B. J. is reported as going along nicely and will soon be able to return to his home.

British Open Champ

Densmore Shute, 28, Philadelphia professional, strung four rounds of golf at even par over the historic St. Andrews course, to win the British Open Championship for 1933, thus bringing the cup back to the U. S.

So Betty Jumped

All her life Betty La Grand wanted to make a parachute leap. She got her chance at the National Air races and before 85,000 people made the leap, the chute opened, she landed safely, then Betty smoked her pipe to steady the nerves.

Mr. and Mrs. A. J. Crager Have A Family Reunion

All of the children of Mr. A. J. Crager were present last Sunday with the exception of one, in a family reunion. Mrs. Henry Haywood of Amarillo was unable to be there but plans to come this next Sunday.

Those present were Mrs. J. M. Johnston and daughter, Mildred, and Mr. Robert Foster of Plainview, Mrs. John T. Tucker and son, Robert Crager of Wortham, Texas, Mr. and Mrs. Ray Light and children, Mr. and Mrs. Grady Crager and family of Atlas, Okla., Mr. and Mrs. Arch Crager and son, Ted of Lockney, Edwin Rook Tucker of Lockney, and Mr. and Mrs. A. J. Crager.

Mr. and Mrs. Grady Crager left Monday morning for their home in Atlas, Okla. Mrs. John Tucker and son returned home with Mr. and Mrs. Arch Crager last week from Corpus Christi.

MRS. TOM MCGHEE SUBMITS TO OPERATION

Mrs. Tom McGhee, of the Lone Star community, underwent a serious major operation at the Plainview Sanitarium at Plainview Monday. At last report (Wednesday) Mrs. McGhee was not doing so well and was considered as being in a serious condition. Her many friends will regret to hear of her illness, and are anxiously awaiting word that she is improving.

J. H. Gillam and R. P. Ward of Ardmore, Okla., are here this week on business and visiting Mr. Ward's aunt, Mrs. O. C. Bailey.

Had Not Seen Each Other For 36 Years

Mrs. N. C. Dagley had not seen her brother-in-law, Mr. Joe Dagley of Gatesville in thirty six years until Tuesday afternoon Mr. Dagley and his wife and son, N. T. Dagley and daughter, Mrs. H. A. Kimbrough, of Valley Mills, Texas, came Tuesday to visit with relatives and friends. Mrs. Dagley did not know her brother-in-law for so many years had elapsed since their last meeting. Mr. Dagley is employed at the Gatesville Training School.

REV. OSBORN WILL BEHERE SUNDAY

Rev. B. J. Osborn, pastor of the Methodist Church, will be in his pulpit Sunday morning. Rev. Osborn has been absent from the city the past ten days attending a meeting at Waco of the General Board of Directors of the Methodist Orphan Home, of which he is a member. The Board met for the purpose of electing a superintendent of the home to fill the vacancy caused by the death of Mr. Barnett recently.

City Secretary Takes Off "Trial Balance Recently

Ernest Fowler, City Secretary and Treasurer, handed us recently a trial balance sheet for the city of Lockney as of June 30th covering the period from April 11 to June 30th, 1933.

We notice in this report, listed as assets an item of \$2,820.28 as "Old Lockney State Bank Claim." We fail to see wherein this is an asset. The Old Lockney State Bank passed out of existence quite a few years ago, and we believe that it should be "charged off" as collection of this item will perhaps never be made, and it will make reports in the future look and sound better.

In the general fund as of June 30th we find \$60.47, and in the sinking fund \$3,212.95 and cash on hand \$147.64. Delinquent taxes for the years 1929, 30, 31, 32 amounts to \$27,739.91 on June 30th as against \$28,080.03 on April 11, 1933, which shows that \$340.12 has been collected in taxes in the three months period.

\$1,041.50 which gives a total of \$1,635.25 as revenue. Expense for this period is as follows: Pump expense \$147.64, general \$535.00 miscellaneous labor \$206.75 and officials salaries \$628.34 making a total of \$1,319.96. Official salaries includes salary of secretary, water engineer and city marshal as well as Aldermen and \$15 per month for the Mayor.

This is a good report for the first three months of the new administration. They are gaining ground and as times goes on we will be receiving better reports.

Prohibition Rally Friday Night July 21

The county wide committee against the repeal of the Eighteenth Amendment and legalization of beer are calling a meeting Friday night at Floydada and announce the following program for the evening.

Antis as well as prohibitionists are respectfully invited to attend and are invited to furnish one speaker for the evening as provided in the program.

A large and representative crowd from over the county is expected. Ladies should come. The men, put the eighteenth Amendment in the constitution will the women allow it to be taken out.

Program
Repeal and sale of beer as it will effect the State—Judge C. E. Hamilton, of Matador.

Repeal of beer as it will effect business—W. Edd Brown

Repeal and sale of beer as it will effect education—J. C. Woster

Repeal and sale of beer as it will effect the church—Rev. S. R. McClung

Repeal and sale of beer as it will effect the home—Mrs. Geo. Linder

How repeal and sale of beer will promote temperance in Texas and Floyd County—Any repeal advocate from any where.

Speakers—Privilege of rejoinder by one of the affirmative

REV. G. W. TUBBS, Chairman.

Stamps Quartet To Give A Concert At Sterley Sat.

The Stamps Quartet, of Lubbock, will put on a concert Saturday evening, July 22nd at Sterley. A small admission charge of 10c will be made the proceeds to be used in helping defray expenses of a singing school taught at Sterley recently. Everybody is invited to attend this concert. If you enjoy good singing, this will be your opportunity to enjoy a few hours of entertainment.

SOCIETY

SHOWER GIVEN AS COMPLIMENT TO BRIDE TUESDAY

Miss Wauline Rains and Beatrice Nicholas gave a fruit and vegetable shower Tuesday afternoon at the home of Miss Rains complimenting Mrs. H. H. Nicholas of Falls who is a recent bride and formerly Miss Essie Smith. The honoree is spending the week with Mr. and Mrs. J. M. Nicholas.

Musical numbers were given by Miss Gene Dyer and Miss June Guthrie throughout the afternoon. A huge basket of canned vegetables and fruits were presented to the guest of honor by the hostesses, Miss Rains and Miss Nicholas.

The guest list included: Mesdames

Wilford Jones, Milford Carthel, Sullivan, Wesley Jones, Oren Martin, Fred Samman, Hershel Claws, and the grooms mother, H. H. Nicholas; Misses Bena Cox, Gene Dyer, June Guthrie, Hazel Raper, the honoree, and hostesses. Those not present but sending gifts were: Mesdames Jerry Mudgett, E. L. Woodburn, Bob Shelton, Frank Ford, and G. D. Tate; Misses Delyla Ayres, Rowena Ewing, and Jeanne Suits.

RENDEZ VOUS BRIDGE CLUB ENTERTAINED WEDNESDAY

entertained Wednesday afternoon at

3 o'clock by Miss Mary Leda McAdams at her home. Three tables of bridge were played during the afternoon. The guests included: Miss Glenna Collins, Miss Gene Dyer, and Miss Jean Suits. Members present were: Mesdames Cullen Riley, Baxter, W. Cooper, T. J. Honea, Wilma Dagley, and Raymond Meriwether; Misses Rowena Ewing, June Guthrie, Virginia Collier, and hostess, Miss Mary Leda McAdams.

BRIDE COMPLIMENTED WITH INFORMAL TEA WEDNESDAY

Amid bouquets of perennial flocks and yellow zinnias an informal tea was given honoring Mrs. C. J. Taylor Wednesday afternoon in the home of Mrs. H. M. Mason from 4:30 until 5:30. Mrs. Taylor is a recent bride and formerly Miss Joe Martin of Vernon. She taught school in the Aiken Community last year.

The hostess, Mrs. Mason, the honoree Mrs. Taylor, and Mrs. Earl Wilson, who moved here recently, were standing in the receiving line. Mesdames Wait Griffith, Sam Miller, and Ray Wall presided at the tea table which was laid with a sardis lace cloth centered with a miniature bride clad in a cream satin gown and bridal veil caught with orange blossoms.

Miss Frankie Dodson gave a reading, "Too Late for the Train." Miss Ruth Stapleton gave "Three Wishes for a Bride" after which she presented Mrs. Taylor with the miniature bride.

Those calling during the afternoon were: Mesdames Frank Perkins, Carl McAdams, O. E. Stevenson, E. G. G. C. J. McGhee, Henry Hodel, M. E. Steel, Frank Dobson, Gordon Berkley, Carl Meriwether, Arch Crager, N. E. Greer, Stapleton, Roscoe Snyder, Clyde Applewhite, W. M. Brown, O'Hearn, Bess Rankin, and Mattie Griffith; Misses Velma Marble, Frankie Dobson, and Ruth Stapleton.

Mr. and Mrs. Taylor are at home in the Fay Guthrie house in the south west part of town.

Makes Gold Strike

Robert Hoard, 61 year old negro of Colorado, is in "pay dirt" at last, after 47 years of futile prospecting. He made a gold strike near Westfield, Col. the find assaying \$80 to the ton. Now the town, Copper Gulch, has sprung up.

all of them cannot possibly be enforced, but I do think the one just mentioned is of importance. The state laws are the same way—many of them are petty while others are important. I think we should have a house cleaning and shove out the rubbish and retain those we really need to enforce. Pruning the trees would not only improve the looks of them but would be much more pleasant for the pedestrians.

We went to several of the homes this week and gathered up some more magazines for our periodical library and we are inviting you down to make your selection of your favorite reading materials. When you have finished with them we asked that you return them and then you may get others. This is absolutely free and at your service. If you have magazines and do not have a way to bring them just call the Beacon office and we will gladly come after them. This is your library.

The newest in lingerie—bias lines which follow the natural curves of the body. Try them and if you are slim it will work wonders. Materials are varied—satin, voile, nylon, or flat crepe all trimmed in Alencon lace or hand applique. Peach and rose are leading in colors but white is fast coming into its own. Unusual colors in night gowns may be in apple green or Egyptian blue. Slips are trimmed with lace yokes and sometimes repeated in the hem line. Striking lingerie is utterly feminine and lends a perfect charm.

Since time and space is limited this will be all for this week. You see the more news I have the less you will see of this woman's line. Good bye until!

REV. WILLIS J. RAY HOLDS MEETING AT HALE CENTER

The Rev. Willis J. Ray, pastor of the Lockney First Baptist Church opened a revival meeting at Hale Center last Sunday night. This will be a two weeks revival in which Bro. Ray is the main speaker. After this engagement he plans to hold several other meetings before the first of September.

GOOD RAINS AT STERLEY

W. E. Grimes superintendent of schools at Sterley, was in town Wednesday. Mr. Grimes reports about a quarter of an inch of rain last Friday and another half inch again Monday in the Sterley community. "Cotton looks good, however feed is not doing so well, but since the recent rains no doubt it will snap out of it in the next few days," according to Mr. Grimes. The Sterley community is a splendid farming section, and is more of a wheat country than other parts of the county.

WOMAN'S COLUMN

By Jeanne Suits

Congratulations Everybody! If you are a "bow legged" paper this week you'll know that its bulging will be the news of our inhabitants. Prissy, everyone I encountered this week had a smile over his face like a cat with glue and "showered down" with plenty of news. I appreciated this and I hope that all of you want a good newspaper. Even though I did have to make a house to house canvas I got just the same. From the looks of things I think we'll have to tack on an extra border in order to hold the contact but that's the way I like it, what do you say?

What a pleasant week this turned out to be—not too warm nor too cool, a trifle damp but isn't that what we've been calling for? I am so glad we received the moisture for it was needed. Sometimes I believe we fail to appreciate it as we should. Parts of Texas have not had any rain and cannot plant their crops. Lamesa received their first rain last week but it was too late to do the farmers any good as far as cotton is concerned.

I wish to congratulate Mrs. F. S. Byars, Sterley correspondent, for her splendid news items sent in for that community. She is a real "hustler" and has a nose for news because every thing she sends is of interest to all the people as well as those in her community. I don't mean to say that the others are not good for they are, perhaps not in the same way. Instant if you visit your neighbor's lives across the lane that is not especially news, although it interests others might not consider it as being important. You see the news really worth while is things concerning the churches, schools, parties, visitors from other towns and community as well as your visiting other places, and general conditions of your community. I appreciate all of the correspondents and I only hope we may have bigger and better news.

Have you ever struggled down a walk lined with tall trees which have overhanging branches and limbs getting in your face and obstructing your view? You feel as if you were walking through the jungles of Africa, expected to encounter some vicious animal any moment perhaps a lion, or ape. Its a terrible feeling I have experienced it while enroute to town. Now I may be wrong, if I don't stop me, but I think there is a law regulating the height of branches over the walks in any city. Of course I know that there is a law concerning practically every move we make.

Mr. and Mrs. Geo. Kenyon, of Lubbock were week end guests in the McGilvary home.

J. D. Orr left Monday for his home at Jean, Texas.

Miss Lena Moore left Monday for Olney, Texas, where she is visiting friends.

Mr. and Mrs. A. F. Harvey and children and Wiley Fox of Dumas visited J. W. Fox and family last Sunday.

Mrs. Ed Reeves of Abilene visited friends here the first of this week and returned home Tuesday.

Mrs. Bob Harrel and daughter, Glenn and brother, Elmer Seward, of Perico, Texas, spend Monday night in Lockney. They are relatives of the editor and family. They were on their way to Lubbock to see about placing Miss Glenn in the Tech this next fall term.

Mrs. S. M. Henry, of San Antonio, is here this week visiting friends and looking after business affairs.

Mrs. H. H. Nicholas of Falls is here spending the week with Mr. and Mrs. J. M. Nicholas.

Miss Juanita Simpson of Amarillo was here this week end visiting her parents and friends.

OF INTEREST TO WOMEN

First Fall Suit

Worn by Lucile Browne.

Above is shown one of the first models of fall styles. It is a street suit of navy blue and white diagonal striped wool which features, first of all, the epaulet shoulder and then the hip-length jacket.

WASHINGTON.—White organdie is proving a favorite for Summer among the debutantes. Miss Dorothy Kurtz, daughter of the Representative from Pennsylvania, has a long white organdie afternoon frock with which she wears a garden hat trimmed with bright-colored flowers.

Sleeved evening gowns are worn by a number of the smartest Parisians this season. The model most often chosen is one with elbow-length puffed sleeves shaped like a bell.

National Crew Trophy

Among other things that inspired the University of Washington crew to put on steam and win the National Inter-Collegiate... was the R. J. Schweppé Trophy, presented by pretty Gwen Seager, as shown above.

Thurber, Once Busy Texas Industrial Center Is Vacated

The town of Thurber, once the largest industrial center in central-west Texas and most populous town in Erath county, was closed up and vacated July 1. Only a few persons remained to operate the garage and care for a warehouse.

Thurber is owned by the Texas and Pacific Coal and Oil Company and has been headquarters for the company for many years. The offices have been moved to Fort Worth.

The town had seen lively days with the opening of coal mines in that region almost half a century ago. Thurber was established as headquarters for the company, the population at one time reached nearly 8,000.

Besides the coal mining industry the Texas boom town was the site of the largest brick manu-

PARIS.—The Princess Sixte de Bourbon Parme wears a Schiaparelli ensemble of navy and light blue checked jersey. It is designed with a slender skirt and three-quarter-length coat and is worn with a blouse of light blue linen.

WASHINGTON.—A lively print of red and blue flowers was worn to a recent luncheon by Miss Vera Bloom, daughter of the Representative from New York. Her dark blue straw hat was trimmed with a band of cornflowers.

Hats which show the top of the head are a new note in Fall headgear. One smart Parisian attended a recent racing meeting wearing a narrow brimmed black velvet hat with a crown made entirely of heavy black net which revealed her blond hair. The net was studded with white camellias.

Representative Edith Nourse Rogers of Massachusetts, who wears white almost constantly in the Summer, has a white lace dinner frock with bands of Jap mink bordering the wide sleeves.

Red looks cool when worn by the right person—such as Senora de Espallat, wife of the counselor of the Dominican legation. Her frock and hat, for a recent garden dinner, were both of red.

The smart young miss keeps her wardrobe brim full of cool, cotton frocks. And if she's an active young lady they're sleeveless and backless models designed for freedom and swing and plenty of sunshine.

There's a new era in fur fashions grown out of the Schiaparelli influence. It creates the illusion of tremendously broad shoulders and very slim hips. It places the loose swagger and the box coat in the center of the stage. How is this magic silhouette achieved? Through miraculously soft pelts, so easy to cut and sew that you will see draw-string necklines, sailor and peter pan collars, Norfolk pockets, adjustable sleeves. To the perennial black and brown are added the glorious yellow of Manchurian ermine, the flattering eel-gray of kidskin, the rich logwood-brown of Alaskan Seal.

Save your love letters, you swains, young and old! They may be valuable some day! Someone saved one of Benjamin Franklin's and now it's going up at auction in New York along with some other famous ones. They were all collected by the well-known book-man and he values them at half a million dollars.

PETTICOATS RETURN While we haven't seen any of them, they do tell us that petticoats are back in style—that is if you want to be fashionable, especially for evening wear. And some girls are wearing stiff linen ones, pleated all they way around.

Wood has been trimming leather handbags for quite some time. Now it is making the entire bag and gives a particularly trim and tailored look to the bag.

Pink, rose, blue and other pastels in organdie and linen are being used for collars and cuffs on black, navy blue, and dark print dresses. If your hat, bracelet and gloves match the collar color, so much the smarter.

facturing plants in the state. The mines, the brick factory, the town are all closed leaving a ghost-like silence on the vacated streets once crowded with noisy wheels.

Thurber always was an unusual town, being company-owned and having only a single business establishment of each type, a drug store, hotel, hardware store, dry goods store, grocery store, and garage. Many persons doubt less marveled at seeing only one filling station in the town.

Persons afraid of the silence of empty vacant houses should not go to Thurber.

A clergyman, on hearing some one remark that liberalism was creeping into the churches, made the comment: "If that is so, I hope it will soon strike the contribution boxes."

A GOOD CHANCE FOR A CIRCUS

The Tahoka Produce Company has in its display window a rooster that is somewhat handicapped when it comes to rustling for a living. This rooster

All Day Wear

For A PATTERN, size 34, 36, 38, 40, 42 or 44, send 15 cents in coin, your NAME, ADDRESS, STYLE NUMBER and SIZE to Kay Boyd, 103 Park Avenue, New York City. Complete and simple sewing chart with each pattern.

Cool and comfortable for general model. It also makes an excellent house daytime wear is this easy-to-make frock.

The shoulder line is extended to form short sleeves, while low placed pleats lend fulness to the skirt. A smart rolled collar ends in a bow and like the belt is made of contrasting material.

Linen, gingham, pique, cotton prints or tub silk are suitable for this style. Designed in 6 sizes—34, 36, 38, 40, 42 and 44. Size 38 requires 3 1-2 yards of 35 inch material, and 3-4 yards 35 inch contrasting material for collar and belt.

Place one or two grains of flaxseed in your eye to remove a cinder, or use castor oil freely in it.

Faces East Again

Pearl Buck, who returned home to America to win great fame and the Pulitzer prize for her book "The Good Earth", has again faced East, sailing for China again last week. She plans to meet husband and daughter in England, then on to the Far East.

has no bill. His mouth looks more like the mouth of a horse than that of a fowl; and Mr Jones says that he drinks like a horse. Not only does he have a time picking up grain and other things, but it is also difficult for him to breathe at his own skin as all normal roosters do occasionally. Still the bird is reasonably fat and looks healthy.

This rooster is also somewhat handicapped in his personal appearance. He has no comb or gills. He must be an object of contempt among his barnyard companions, for every normal rooster is proud of his comb. Having no mirror in his apartments, however this rooster is perfectly unconscious of his pitiable aspect. But a lot of men are like that rooster; we are not able to see ourselves as others see us.—Lynn County News.

Fold a clean cloth and put under ink spot, pour alcohol over spot and rub briskly. Repeat process until all spots are removed. A suit of dress that is entirely ruined can be made to look new if this method is used.

\$75,000,000 Expenditure In 10 States Is Approved

Plans for spending \$75,000,000 on roads in 10 states were approved by the Public Works Administration Saturday to carry out President Roosevelt's program of pouring the entire \$3,300,000,000 construction fund into the channels of trade as soon as possible.

At the same time, the administration accelerated work on proposals for spending on federal public works projects several hundred thousand dollars in addition to what has been allocated already in an effort to have one million men who are idle at work by October 1.

In line with this program, the chief executive will consider over the week-end an allotment of \$90,000,000 to river and harbor and flood control projects which his cabinet board has approved. The board on Monday took up recommendations for about \$750,000,000 for federal buildings.

Secretary Ickes, public works administrator, and Hugh S. Johnson, national recovery administrator flew down the Potomac Sunday to board the yacht Sequoia and confer with President Roosevelt on the administration's recovery program. The river and harbor and flood control projects may have been approved at that time.

Ickes announced he had approved plans submitted by Indiana, Kentucky, Oklahoma, Oregon, South Carolina, Vermont, Virginia, Washington, Missouri, and Wisconsin to spend 74,643,445 and the District of Columbia, an additional \$1,912,909 on roads.

The total of expenditures from the \$400,000,000 set aside for roads which have received approval. Four states already have taken action on plans for spending about \$50,000,000.

Plans approved by Ickes for road expenditures include:

Oklahoma: Allotment \$9,216,798; 50 per cent on federal aid systems; 25 per cent on extensions through municipalities; 25 per cent on secondary roads; expenditures in all 77 counties.

Audit Company Will Audit Accounts Of Floyd County Officials

A Houston Audit Company of Houston, has given a contract on their formal bid for the audit of accounts of Floyd County Officials for the year of 1932 by County Officials for the year of 1932 by the Commissioners' Court Monday, a fee of \$300 being allowed for the audit and for assisting with the preparation of the county's budget for 1934.

Of the \$300 fee \$125 is to be paid when the work is completed and the balance when the report is delivered to

and approved by the Commissioners' Court.—Floydada Hesperian.

WHAT'S IN A SACK OF FLOUR?

Mrs. Harry Clark of the Harris Home Demonstration Club, Muskogee County, wanted to know just what could be made from a forty-eight pound sack of flour, so she purchased the flour on January 28 costing her \$1.38. The last of the flour was used February 23, making a total of 27 days that it was used.

The following is the report submitted on March 16: "Biscuits were made four times, using 15 cups of flour; these she usually served for supper. Sixteen loaves of bread, weighing on an average of 1 1-2 pounds each were made. Mrs. Crank set her sponge at night and used half milk and half water for the liquid and butter for shortening. She used yeast-foam in making bread. She also made 160 hot rolls, 1 tea ring, 1 coffee, and 1 pecan roll and 15 pieces of Baptist bread. The Baptist bread is made in this way: in the morning pieces of light bread dough, about the size of an egg, are pinched off before the bread is worked and dropped into hot deep fat and browned quickly. These are served hot for breakfast. Twelve maple bars and fifteen cinnamon rolls were also made from the light bread dough. She made ginger bread twice using six cups of flour; she also made cornbread twice using 1 1-2 cups of flour with her corn meal each time. Mrs. Crank uses half flour and half meal in the cornbread. They like this bread for the evening meal. Ten cup cakes and ten fried pies were made during the time as well as five pan pies. Noodles and dumplings were made three times, using six cups of flour. These Mrs. Crank cooked with her canned beef and chicken broth. One Devil's food and one apple sauce cake were made with 8 cups of flour being used.

There are four members in the family—two men, a nine year old boy, and Mrs. Crank.

Shaw Awaits Mandate To Enter Prison

In a long distance telephone communication with Sheriff Nath Burkett Wednesday evening the Review learned that "on good authority" L. P. Shaw,

convicted early this year of the murder of Joe Ramsey, is now awaiting a mandate to enter the state penitentiary at Huntsville.

"Shaw did not file a motion for a rehearing of his case as we first thought" Sheriff Burkett said. "The fifteen-day limit for filing the motion is up this week, and we are now awaiting a mandate to enter him in the penitentiary."

"I understood on good authority that he is down there now awaiting the mandate and as soon as it is issued, he will enter the pen to begin his three-year sentence."

Shaw's case was affirmed by the Criminal Courts of Appeals two weeks ago. He was found guilty in the Hale county court of firing the shot that killed Ramsey September of last year.—Abernathy Review.

The boys that have been setting their pegs for a postoffice job sure were dealt a blow last week when President Roosevelt announced that he was about ready to place all postmasters under civil service and take these places out of politics. He had reference to first second and third class offices as all offices below that class are already under civil service. A bill of this nature will more than likely be introduced at the next session of Congress. What is bothering us is how are the congressmen going to be re-elected if they have no postoffice to give away. When a Congressman goes out campaigning for re-election he has in the past had a few postoffice jobs dangling from his belt to attract the voters. No Congressman can be re-elected on his past record, so what are they going to do? And another thing, in order to stand a civil service examination to become a postmaster one has to have a pretty good education. That is something that has not been required in the past and it is certainly going to make it pretty hard on the Democrats to qualify. We thought all they had to do was to be able to read postcards, hang the picture of the president in the postoffice, and say: "No, nothing came for you today." We have just about made up our mind to withdraw our application for a postoffice. Don't believe we can qualify.

Now that we have received good rains all over this country, let's not go wild about planting wheat. Let's keep our program of farming well balanced along diversified lines and we will be better off financially. If the whole country is planted to wheat and next year turns off dry we will be in hard shape again. Save a few acres for cotton and feed and get away from this all wheat program. A one crop country is no good as has been proven time and again. A third wheat, third cotton and a third in feed is a well balanced program. One or two of these crops are almost sure to make, whereas if it is all cotton or all wheat you might miss out entirely. Crop failures is what puts a crimp in things. It is not our intention to tell farmers what and when to plant, but let's look at the matter in a reasonable way, for we are anxious that you prosper in all of your undertakings, an from many years of observation we find that the one crop plan is absolutely a failure over a period of years. We have reference to dry land farming. In the irrigated belt they have practically a cinch on making a crop and it makes no difference what they plant, however, we find that our irrigated farmers are diversified farmers almost to a man.

What did we tell you, what did we tell you. Jim Ferguson and his shock-absorber Lawrence Westbrook, are returning from Washington just about as wise as they were before they made the trip, and it looks as though Jim will have to continue to toast wood and water for a while at least. Jim did all talking to the newspaper boys and got on the front page almost every day. He had a conference with Jim Farley and President Roosevelt, but it seems that these conferences turned out to be social calls. They promised him nothing and told him nothing of any importance. He was just a casual visitor during the days run. Mr. McDonald of the wet forces of Texas, was right at Jim's elbow all the time telling the boys at Washington that Texas was going wet August 26th. Maybe so. One thing you can say about Jim, he sure does have nerve to but in where Angels are afraid to tread, and if you don't watch out he will grab something off worth while. He visited them all from the janitor in the capitol building up to the President.

The only code of fair competition promulgated thus far under the industrial control law is the cotton textile code which went into effect Monday when nearly 1,000,000 workers went to their benches, machines and shovels to increase wages. Almost every spinning and weaving plant in the country, however has joined the textile program. Some factories over the country

labor and working them long hours in an effort to fill their warehouses with finished goods before they adopt their Code of Ethics. They may think they are going to get away with that kind of a proposition, but we doubt it. President Roosevelt and Hugh Johnson are not asleep at the switch. They have their eye on just such birds, and they are going to have to pay the fiddler if they continue to dance.

Foiks it sure does keep us guessing what the London conference is going to do next, or in fact we have been all this time figuring out if they have done anything at all. Just when we were of the opinion that since we were of the opinion that since we were France "told" and that being out of the way, we might be able to do something, the announcement comes forth that they are figuring on adjourning about July 27th. But nevertheless that is the best news we have received since the conference convened. Our representatives have had a nice visit to London at Government expense, and now they should be ready to return to the homeland and make a few glowing speeches about what they accomplished at the conference and then forget it.

And did the wind blow Friday evening? A sixty mile gail from the northeast pounced down upon us all at once and the sand and dust sure did cut up. A real old West Texas shower, the kind that we have never learned to appreciate, although we have been right here in the middle of them for the last thirty years. But this is a fine country to live in regardless of the dust storms. You can't get all the coons up one tree in any mans country. All the sand in the craw now and then is good for a fellow, so they say, but it sure does make the house-keeper mad, plenty mad.

We are at last beginning to turn again to the simple things of life. We are finding out that real wholesome enjoyment can be had without flying high. That the kids have fun without spending all of Dad's earnings, and then some. No, we are not going backward, we are going to continue to make progress, but we are just coming to our senses regarding some things.

The time is not far away when the young fellows of today are going to find out that "that strolling along the boulevard, or sitting on a lawn beside the sweet girl friend watching the moon come up, is much more romantic, much more dignified, than beating it off to a lousy night club and drinking gin."

Our paved streets are badly in need of a coat of tar, asphalt or some such topping. The brick are gradually wearing away and soon will be full of holes. We are sure the City will have this done at the earliest possible moment. R F C labor might be used in this work to a good advantage.

Somebody browsing around in the secret diplomatic correspondence of the closing days of the World war, which has been locked in files at the State Department since the end of the war, has discovered that Germany and Austria-Hungary had sought peace at least 10 months before the conflict ended. The secret notes show that America prolonged the war by insisting on its own peace terms.

Information comes from the White House the requests for funds from the National Recovery Act to build municipally-owned light and water plants would likely receive favorable consideration should be of much interest to towns and cities that have under advisement the building of their own light and water plants.

With camp kits \$1.40 apiece and cement costing \$1.40 a barrel—it might be well to make it unanimous by letting wheat go to \$1.40 a bushel.

We are heartily in accord with the policy of inflation which has sent wheat up, cotton up, oil up, live stock up and commodities up, but we didn't know they intended to include the

Time To Cut Bound

By Albert T. Reid

Now that butter and eggs are beginning to bring money again, the gold digging girl will cultivate the "tax butter and egg men," as they did in the other boom days.

Should there be no other way, a grocerman can get some cash out of his credit customers by also running a filling station.

About the only thing that can lay down on the job and still get results is a hen.

LETTERS FROM THE PEOPLE

FROM BUCK CRICKETT

Editors Note: We overlooked the following last week as a part of Buck's letter. So are now passing it along to you as it is very interesting.

There is only one crew doing forest work a crew of twenty four, all of us were chosen by a Forest Ranger. Bob is in this crew and I think we are lucky to be chosen for this work.

We are clearing out dead and infested trees. There is also pruning to do. There is a fungus growth on trees caused by Mistletoe that saps the trees and causes them to die, all of this has to be cut off. We also learn the different kinds of trees and the class they are in. The trees and classes are as follows:

Yellow Pine, White Pine, Douglas Fir, Quaking Aspen, Colorado Blue Birch, and Post Oak.

I am learning to pull a cross saw right along. It is hard work but fun to see a hundred foot tree fall, especially one about four feet in diameter. When we fall a green tree we have to cut all limbs off and scatter the brush to hold the soil and so it will decay. We also have to peel the bark off to keep the beetles from brooding under it. It is all quite interesting.

Robin Gentry is driving a tractor on the road grading, there are only two tractors. Bob and I are sub-foreman of our crew. We are responsible for our tents, have to see that all bunk beds are left made up and everything in order. We have authority over men in our tents and have to see that they are quite by nine o'clock.

RARE TREASURE AT CHICAGO

The great chalice of Antioch, part of the famed Kouchakji silver treasure, is now on display at the Century of Progress Exposition in the Hall of Religions. This cup is unique and of such value that it will be guarded night and day until the Fair closes. The insurance valuation on the chalice is \$300,000.

Sir Galahad of the legendary Knights of the Round Table spent most of his life in a fruitless search for the Holy Grail, the cup believed to have been used by Christ and His Apostles at the last Supper. But in 1910 a silver chalice was unearthed at the ruins of

archaeologists, art and Biblical scholars to be the long sought treasure.

Standing nearly eight inches high with a capacity of more than two quarts of liquid, it could well have been the sacred cup. It is of two parts, the outer being of silver coated with gold, the inner of crude silver.

A controversy has waged over the date of the chalice, some experts contend that it was not earlier than the fourth century, others that it was of the first century, but additional data has come to light since then and it is generally conceded to be of the earlier date. It is thought also that only the inner cup may have been the one used by the Apostles, and that it was set into the outer cup at a later date. Dr. Gustavus A. Eksen who was the first to clean and examine the treasure of the golden age in Greek art. An eminent authority on Oriental art, Prof. A. T. Olmstead, head of the Oriental Institute of the University of Chicago, declares positively that the cup is of the first century, for it is known that glass blowing was discovered in the middle of the first century, and after that the shape of the vessels become changed. Likewise in the portraits on the chalice there is a form of brutal realism here, particularly in that glorified gorilla, St. Mark, which was characteristic of "late Greek times." He says further, "We can take each element of design: the ivy leaves, the manner in which the vines are tied, the Roman art, of this period, proves with absolute certainty that the chalice was made by an artist who was no doubt a converted pagan, thoroughly familiar with the art motifs of his time, and withing 50 years of the death of Jesus, when there were still men who had known Jesus in the flesh."

During the World war the great chalice was brought to America from Paris for safe-keeping, and deposited in a vault in New York where it has

been until it was moved to Chicago to go on display.—Pathfinder.

buoyant rise over 1932 figures a more weekly reports had indicated.

With reactionary tendencies conspicuous by their absence—even after 15 weeks of steady business expansion—last week's news was marked by constantly enlarging orders for many lines of trade, including shoes, ready-to-wear clothing, millinery, machinery and equipment, steel, and to some extent building materials.

One of the most important effects of the general improvement continues to be the weekly decline in the number of unemployed. There were additional announcements last week of wage boosts from several manufacturing centers.

At the same time several observers contend that current statistics reflect the efforts of manufacturers to "beat the gun," namely, to build inventories of finished goods before higher wages and materials costs result in additional prices.

Insky—When I began in business I had nothing in the world to guide me but my own intelligence.

Bascom—That sure was a bad beginning.

It has been estimated by Chairman J. E. Hill, of Amarillo, that at least 5,000 farmers will obtain government wheat loans this year.

GOOD THINGS TO EAT

Eggs, Swiss Style
 2 hard cooked eggs
 3 tablespoons butter
 3 tablespoons flour
 1 1/2 cups milk
 1-3 cup cheese
 1-4 teaspoon salt
 1-8 teaspoon paprika
 1-8 teaspoon celery salt
 1-4 teaspoon chopped parsley
 Melt butter and add flour. Blend and add milk and cook until creamy sauce forms. Stir constantly and add eggs, sliced, and rest of ingredients. Cook 1 minute, serve poured over toast or crackers.

Sour Cream Chocolate Cake
 1-3 cup fat
 1 cup sugar
 1 egg
 2-3 cup sour cream
 1 teaspoon vanilla
 1-8 teaspoons salt
 4 tablespoons cocoa
 1 1-2 cups flour
 1 teaspoon soda
 Cream fat and sugar. Add rest of ingredients and beat 2 minutes. Pour into shallow pan which has been lined with waxed paper. Bake 30 minutes in moderately slow oven. Cool and frost.

Chocolate Frosting
 1 square chocolate, melted
 2 tablespoons butter
 1 tablespoon cream
 1-8 teaspoon salt
 1 teaspoon vanilla

1 cup sifted confectioner's sugar
 Mix ingredients and beat 1 minute. Let stand 5 minutes. Beat well and frost cake.

Vegetable Salad
 1-2 cup cooked peas
 1-2 cup cooked lima beans
 1-2 cup diced celery
 2 tablespoons chopped green peppers
 1 tablespoon chopped pickles
 1 teaspoon chopped onions
 1-4 teaspoon salt
 1-4 cup salad dressing
 Mix and chill ingredients. Serve on lettuce.

Fried Chicken, Serving Six
 2 three-pound chickens
 1-3 cup flour
 1-2 teaspoon salt
 1-4 teaspoon paprika
 1-2 cup fat
 1-3 cup water
 Thoroughly wash and clean chickens and store in ice box until ready to cook. Sprinkle with flour, salt and paprika. Heat fat in frying pan and add and brown chicken quickly. Add water and cover. Cook over moderate fire 30 minutes. Turn frequently to allow even cooking. If gravy is desired, after removing chicken from pan add 3 tablespoons of butter, 3 table spoons of flour and 1 1-2 cups of water. Cook slowly and stir constantly until gravy thickens.

Fresh Vegetable Salad
 6 slices tomatoes
 1 cup sliced cucumbers
 1-2 cup sliced green peppers
 1-4 cup sliced onions
 1-2 cup diced celery
 1-3 cup French dressing
 1-4 teaspoon salt
 Mix ingredients and pour into bowl. Cover and chill 2 hours or longer. Serve on lettuce leaves.

Vanilla Ice Cream
 1 cup sugar
 2 tablespoons flour
 1-4 teaspoon salt
 2 eggs or 4 yolks
 3 cups milk
 3 cups thin cream
 2 teaspoons vanilla
 Mix sugar, flour and salt. Add eggs and milk. Cook in double boiled until mixture thickens a little. Stir frequently. Beat well and chill. Add rest of ingredients. Freeze stiff.

Duane Meriwether and Buster Stalcup of Amarillo were here this week end visiting their respective parents.

Ford Shows 60 Per Cent Increase

Detroit, Michigan, July 18—A decided increase in the use of eight-cylinder engines for haulage units is shown in the sale of Ford V-8 commercial cars and trucks in the United States since the first of the year. The increase has been most pronounced during the last two months.

The sale of Ford eight-cylinder commercial cars and trucks during June showed an increase of more than 60 per cent over May. The production schedule for July indicates that of the total four and eight-cylinder units to be produced during the month, approximately 75 percent will be eight-cylinder types.

NOTICE OF EXECUTION SALE

THE STATE OF TEXAS, COUNTY OF FLOYD.

By virtue of an execution issued of the Justice's Court of Precinct Number Two, Floyd County, Texas, on a judgement rendered in said court on the 9th day of June, A. D. 1933, in favor of The First National Bank of Lockney and against T. L. Griffith, in the case of The First National Bank of Lockney against T. L. Griffith, No. 78g in such court, I did on the 9-day of July, A. D. 1933, levy upon the following described tracts and parcels of land situated in the county of Floyd, State of Texas, as the property of said T. L. Griffith, to-wit: Lots 9 and 10, Block 32, South Side Addition to the town of Lockney, Floyd County, Texas, and on the 1st day of August, 1933, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the Court House door of said county, I shall offer for sale and sell at public auction, for cash, all the right, title and interest of the said T. L. Griffith in and to said property.

Dated at Lockney, this 5 day of July, A. D. 1933.

E. S. RANDERSON
 Sheriff of Floyd County, Texas

TIRE PRICES Going Higher BUY TODAY AND SAVE

EVERY FIBER CORD EVERY PLY IS BLOWOUT PROTECTED BY Gum-Dipping

Blowouts are caused by frictional heat generated in the fibers of the cotton cords in a tire. Firestone is the only tire built with every cotton fiber saturated and coated with pure rubber—to prevent destructive heat. This is one of the reasons why Firestone Tires have been on the winning cars in the 500 mile Indianapolis Race for 14 consecutive years—the world's most severe blowout test.

Rubber has gone up 242%, cotton 115%—substantial tire price increases must follow. We will give you an attractive allowance for your old tires on new Firestone High Speed Tires.

BAPTIST CHURCH NOTES

Sunday School 9:45, G. D. Tate, Supt. Preaching at eleven o'clock by Rev. H. R. Harrison, pastor of the First Baptist Church Falls.

B. T. S. 7:30 Mrs. Sillas Ellis, director.

Preaching at 8:30 by Rev. B. H. Warren, Plainview.

The pastor is in a two weeks meeting at Hale Center which started last Sunday and in his absence the pulpit will be supplied by visiting brethren. Rev. R. E. Harrison spoke here during the spring meeting and the members that heard his message enjoyed it to such a degree that his return to the pulpit here has been requested. The pastor is desirous that the membership will be faithful during his absence and that the attendance will be kept up to normal. The visiting preachers are worthy of your support and it speaks well for a church if the attendance can be maintained when the pastor is away.

Rev. Warren, who is loved by all West Texas for his labors in Wayland College will speak at the evening hour and the membership is asked to show their appreciation to him by bringing him a liberal pointing at the evening service. Through a misunderstanding he was unable to be with us two weeks ago.

Staked Plains Assn. is putting on a Mission School at Wayland College next week, the 27th and 28th and it is hoped that a number of the local members will avail themselves of the opportunity to attend this school.

Remember our fall meeting starting the last Sunday in August with Rev. Douglas Carver of White Deer doing the preaching.

WILLIS J. RAY, pastor

Acceptance Of All Contracts Signed By Farmers

WASHINGTON, July 18.—Farm administrators to day ordered acceptance of contract offers signed by cotton growers to reduce their acreage which have been approved by county agents and county committees in the campaign to reduce the output of the staple in the sixteen growing states this year by 3,500,000 bales.

They authorized county agents to issue permits to farmers to begin plowing up their crop, whenever it is covered with a contract which has been approved, so that farmers may plant feed crops for home consumption without waiting for formal acceptance of each individual contract.

Policy is Changed

Last week administrator said they intended to forward an individual acceptance to each farmer and warned them in the crowd now and then is good for a fellow, so they say but it sure

them against plowing up their crop until this had been received. Numerous requests for early plowing have been received however, with many farmers believing that by planting at once they could grow a feed crop before the end of this season.

Another reason for approving early plowing was that in the lower portion of the cotton belt the harvest has begun and administrators are eager to see the crop destroyed before it is mature in order to eliminate prospects of cotton being picked on acreage which the government will pay for having destroyed.

No Scaling Down

Administrators said their order means that offers to destroy a given area of cotton will not be scaled down, that when a farmer has agreed to plow up ten acres and his contract has been approved as to estimated yield and other elements by county agents, the administrators are waiving their right under the contracts to cut down the amount the farmers may destroy, for example, eight acres, and to curtail payment to the farmer proportionately.

The order amounted to acceptance "site unseen" when contracts have not been received at tabulating headquarters here from counties where agents and committees are just winding up their inspections of the acreage offered. Agents have until Wednesday night to get the contracts into the mail.

Administrators estimated that more than 10,500,000 acres have been offered by farmers and that about 1,000,000 individual producers have signed contracts. They estimated that approximately \$100,000,000 will be distributed in cash payment to growers.

BACK FROM VISIT TO ANTON

Mrs. B. J. Osborn returned Wednesday from a ten day visit with her son Clifton, at Anton. Mrs. Osborn stopped at Plainview on her return and attended a meeting of Sunday School teachers and superintendents of the Plainview District of the Methodist church.

HAD TONSILS REMOVED

Floyd Barber underwent a tonsillectomy Tuesday at the offices of Dr. Anders. Floyd has been having quite a bit of trouble with his tonsils here of late, so he decided to have them removed.

LETTERS FROM

them removed. We are sure they will be up and about in a few days, of course he is going to gain strength mightily slowly on soup, Hey, Floyd?

Texas To Retire 4,190,208 Acres Of Cotton Land

Texas cotton farmers have offered a total of 4,190,208 acres of land for retirement in the national cotton acreage reduction campaign, it was shown in tabulation made at Texas extension service headquarters late Tuesday afternoon. The tabulation included reports from 219 counties. At this time reports were lacking from only a small number of counties virtually all of which are estimated to have less than 1,000 acres each planted in cotton.

Extension service officials again are issuing warnings that farmers should not plow up or otherwise destroy their cotton offered for retirement until authorized to do so by proper governmental officials, even through the Secretary of Agriculture has put the plan into effect.

They say it will take some time for the thousands of contracts to be checked and accepted officially by the Government according to telegrams received at extension headquarters from Washington, more than 9,000,000 acres, or approximately 3,500,000 bales, have been offered for retirement in the campaign by cotton growers in sixteen States.

Mrs. Coke Oliver of Slaton, E. J. and Clifton Jr. Oliver of Amarillo were week end guests of their uncle, Charley Ramsey and Mr. and Mrs. Tab Meriwether. Clifton Ramsey left Monday for his home in Amarillo. Mrs. Oliver's sister, Mrs. Schaefer, T. J. Oliver, and Miss Martha Meriwether returned home with her last Monday for a few days visit. Miss Martha Meriwether plans to visit in Lubbock with Miss Geraldine Lawrence.

Lyle Case Is Affirmed

The case of C. A. Lyle Vs D. H. Collier, et al, was affirmed by the court of Civil Appeals Seventh District, at Amarillo.

This is the case in which Judge Slemmons in Plainview District Court joined J. P. Siler, Justice of the Peace, from trying the case, and ordered it transferred to Justice Court at Center, Texas. The District Court of Civil Appeals held that the lower court was correct and affirmed the case.

To Get Out First Of Checks Wednesday

Farm administrators kept tabulators on duty examining contract offers from cotton growers after setting Wednesday as the deadline when they will be accepted from county agents.

They also intend getting out the first checks to growers Wednesday to compensate them for agreeing to plow up from 25 to 50 per cent of their crop. Growers have offered in returns so far to plow up about 9,700,000 acres, administrators estimated.

This they indicate will reduce the potential crop by at least 3,600,000 bales of the contracts are all accepted. They are uncertain how many contracts still are outstanding and what acreage they will account for but expect 10,000,000 acres to be offered in all.

Acceptances of contracts will go out in large numbers this week. The peak of the movement is expected to be reached in about a week or 10 days. Another big job remains to be done by the county agents and voluntary workers in the South in providing proof that farmers have destroyed the cotton on land covered by the accepted contracts, which must be forwarded here before the contracts are issued.

J. L. Jacobs Named To Manage Levene's At Plainview

J. L. Jacobs, former owner of a department store in Plainview, has been named as manager of Levene's department store which is to open in the near future according to William Levene who was in Plainview Tuesday supervising installation of fixtures.

The store will probably open for business the first of August Mr. Levene said. Other Levene's stores are located at Lubbock, Amarillo, Pampa and Clovis.

Texas Land Bank Cuts Interest On New Farm Loans

The interest rate on new loans to be made by the Federal Land Bank of Houston through National Farm Loan Associations was reduced from 5 1/2 per cent to 5 per cent Friday according to a statement by A. C. Williams, president of the board of directors.

"This rate reduction is in accordance with action by the Land Bank Commissioner of the farm credit administration, making effective the 5 per cent in all Federal Land Bank districts," said Mr. Williams.

"In addition to the long time savings by the new rate which will be written in the borrower's note and mortgage, the emergency farm mortgage act passed by Congress in May makes a further temporary interest reduction by the bank prior to May 12, 1933, for a five-year period on all loans made during the five-year period the interest rate charged borrowers on loans through National Farm Loan Associations is automatically reduced to 4 1/2 per cent annually. The difference between the rate provided by the note and mortgage and the rate paid by the farmer during the five-year period will be paid to the Federal Land Bank by the United States Government.

Farmers who keep their loans in good standing may also postpone payments on the principal of their loans for the five-year period.

The territory of the Federal Land Bank of Houston embraces the entire State of Texas. All loans by the bank are being made through National Farm Loan Associations.

Five Hundred Die Each Year In Texas From Diabetes

Among the prominent causes of death in the middle aged group and older is the malady known as diabetes. Like many other diseases, its power as a cause of death can be traced to the lack of early diagnosis, or in other words, to the carelessness of its victims. In Texas about five hundred citizens die of this disease each year and the number is steadily mounting.

The periodic physical examination will disclose the unsuspected facts at a time when diabetes is most susceptible to scientific attack. Why should one refuse to use this great weapon of proven power against diabetes and other diseases is difficult to understand. The three first noticeable symptoms are thirst, hunger, and excessive elimination of urine. These are accompanied by a loss of vitality, strength and weight. In middle aged persons boils and carbuncles are quite common.

The immediate cause of diabetes is a lack of secretion of the pancreas, known as insulin. The main thing is

Lower Motor Costs Seen After A. A. A. Test

Oil Consumption is Cut 28.5 Per Cent in Run at Indianapolis

DRASTIC reduction in the cost of auto operation is forecast as a result of motor oil tests conducted at the Indianapolis Speedway under auspices of the A. A. A. Contest Committee.

During these tests a new oil, developed by the Gulf Refining Company, obtained 28.5 per cent more miles to the quart . . . and cost 28.5 per cent less to use, when tested against three popular, high-grade brands familiar to every motorist.

Fords, Chevrolets, Plymouths and Buicks, picked at random from the streets of Indianapolis, were used in the four-day run. Each car traveled 450 miles a day at a constant maintained speed of 45 M.P.H., using a different brand of oil each day. Oil consumption was rigidly checked by A. A. A. officials, and results were corrected for variations in temperature.

The new oil, which out-performed the other oils by a wide margin, is made from a 28 per cent para-

A. A. A. officials checking motor oil during test run at Indianapolis Speedway. (Lower) The cars rounding a turn on the Speedway.

fin base, and is refined three steps farther than ordinary motor oils. Introduction of this advanced process marks a definite step forward in the refining industry and, it is believed, will result in decreased operation costs for the average motorist.

Mr. and Mrs. Frank Busby and daughter, Frankie Beth, and Mr. and Mrs. Guy Sams and family left Sunday morning for Colorado Springs, Colo., where they plan to spend about two weeks fishing, camping, hiking and hunting.

Mr. and Mrs. Jim Hamilton and family were here last evening visiting the Hamilton brothers.

ONE WINDMILL for a Lifetime

Is all you will need to buy if you select with care. The Auto-Oiled Aermotor is made to last a lifetime. It oils itself, adjusts itself to the strong winds, and works quietly and efficiently in any wind. Day after day, year after year, you will depend on it to pump the water which you are constantly using.

If you choose an Aermotor of the right size for your well, and a tower high enough to get the wind from all sides, the Aermotor will do the rest. One oiling a year is all that it needs. The gears run in oil in a tightly enclosed gear case.

The improved Auto-Oiled Aermotor is stronger and better than ever. It is so skillfully designed and so well made that there is nothing to get out of order. Turn it loose and let it run, and you will always have fresh water when you want it.

ALWAYS HAVE FRESH WATER WHEN YOU WANT IT.
