

A boy and his dog are as inseparable as ham and eggs, grandmother and her knitting, or father and his pipe. Where there is a boy, there is a dog who loves his little master with all of his woolly heart. It seems that a small lad and canine animals speak the same language forming a relation of the utmost congeniality.

It matters not to the little keeper whether his dog is a thoroughbred or not—He may be 59 varieties but he is still loved with a boyish devotion. And in turn the dog cares not if his master falls short of ancestral and social prestige. Does he not feed him when he is hungry, sleep with him when he is cold, a romp in the sunlight with him when he feels the urge to play?

When the modern woman goes near a gas heater she silently gathers up her skirt four or five inches and proceeds to warm. It is beyond this writer's knowledge of human psychology just why she does this in nine cases out of ten. A man will back up to the stove and place his hands behind him in a crossed fashion. And then authorities say everybody is individual in all respects. What do you make out of it?

Many a maternal heart will be more than glad to be reminded of the remembrance of Mother's Day. Those who church members living will receive a good time in remembering those never-to-be-forgotten childhood days when mother was near to comfort and cheer in the slightest misfortune!

When I see an elderly woman wearing a red flower on Mother's Day with a smile of contentment and complete satisfaction, I think of him as a very unique and individual person. He has been called out of all the people in the Universe and allowed to keep his mother. It is evident that he has always enjoyed perfect felicity. Its person who dons a white flower and steps out in the morning light with a seemingly unguided stride and sorrowful countenance that my heart goes out to in deep sympathy, for he has lost a precious jewel—a jewel belonging to royalty. All of the King's horses and all of the King's men can never find her for him.

Travel is the greatest education and adventure in the world. It opens one's mind to broader views and strengthens one's vision to untold landscapes. Traveling permits one to realize the full significance of historical happenings and is self-explanatory concerning current events. No doubt ere now you have decided that I must be writing material for a travel book of the Yellowstone National Park-New Mexico, or Florida. Disappointment is bitter, but I am not going to tell you all of the world may be conquered by taking an extensive trip to any of the above named resorts.

Years ago I learned that St. Augustine was right when he said "The World is a great book of which they that never stir from home read only one page." Upon close observation I find that most of us have only reached the third page of a thousand page book. Unlike most books, one cannot turn from the first to the last page to see how it all turns out! One must travel the road to reach the end.

Heard on Main Street by tall tobacco chowers: "That was sure a swell rain we got wasn't it?"—Spat—Spat, with a happy landing right over the curb—"I told old Joe the other day hit was a gonna rain soon. Ha, Ha, and hit did, begosh. I reckon I'm something of a weather prophet myself."—"I wonder who that woman in the yellow dress is across the street. I don't remember ever seeing her afore—She's sho got perty legs, ain't she?"—Spat, Spat, s-p-a—right in the middle of the sidewalk, a trifle short of aim—"Now the government for instance could help us out of this depression if the President wasn't so dern rich himself that he can't

## "Planning Board" For Floyd County

Members Appointed By The Respective Official Of His District, Precinct or Municipality

Announcement was made this week of the creation of a "Planning Board" for Floyd County. Members of the board will serve for an indefinite period of time without remuneration. Those members were appointed by the respective official of his district, precinct or municipality.

This Planning Board was created for the same purpose the State Planning Board was created for, at the suggestion of Governor Allred. The State has its Planning Board, so it was thought wise to have a Board of this nature for Floyd County. The State Planning Board will look after the distribution of Federal and State funds that have and will be made available during the next twelve months, and it is hoped that the county and its various communities may profit materially from this united strength of the county when placed behind plans and proposals. We have come to realize there is strength in a united effort, and through this plan the county will avoid working at cross purposes.

This Planning Board does not displace the County Relief Board or its activities. It will be semi-official in nature and will have no authority save that of lending its support and aggressive backing to measures that may be proposed. Officials have pointed out the possibility of many accomplishments for the various sections of the county.

The first meeting of this newly created body will be held on Monday morning next at 9 o'clock in the office of the Chamber of Commerce in Floydada, it was announced, at which time it is hoped to have present, in addition to mayors of the two cities and independent school board heads, the county judge and all members of the Commissioners Court, together with Edwin Heald, County Relief Administrator, and County Agent Glen A. Lindsey, and possibly others.

The following are the members of the Board:  
Frank Probasco, Commissioners Precinct No. 1;  
J. E. McAvoy, Commissioners Precinct No. 2;  
Wilbur Wilson, Commissioners Precinct No. 3;  
C. S. Ray, Commissioners Precinct No. 4;  
W. G. Collins, Floydada Independent School District;  
J. L. Suits, Lockney, Independent School District;  
Lon M. Davis, City of Floydada;  
Sam Miller, City of Lockney;

see us little fellows—I don't see why the Government—Whew but I narrowly escaped a nicotine bath on that one!

### "Mothers Day"

One of the nation's most sensible holidays, "Mother's Day," is approaching and Floyd County citizens will need no urging to join in its observance. They know the meaning of this holiday and they take a genuine delight in honoring those to whom it is dedicated.

If your mother is living, you have a two-fold reason for honoring her on this occasion. It doesn't have to be done through the purchase of an expensive gift; mothers seldom look at the price-tag. It is the spirit back of that gift that brings her happiness. But no matter if it is nothing more than a simple little flower picked from the yard or a nearby wood—your thoughtfulness will cheer the one whose love and loyalty knows no end, and cannot be measured in words. If you have suffered the loss of your mother and cannot be with her in person—then you can at least be with her in spirit—observe the day in her memory by wearing a red ribbon. That will be sufficient tribute to her.

The world is burdened with troubles these days. Vexing problems weigh heavily on the shoulders of everyone. Maybe the sun isn't shining for you as brightly as you wish it were. Don't let these material things prevent you from dedicating your tribute to one whose faith in you is unshakable and you cannot be shaken. Greater than all other loves is mother love. It has existed throughout the centuries. The world is founded upon it; without it the world would not long exist. All the joys and the happiness, all the success you have ever had—you can ever have—you owe to your mother. Make a little payment on this debt now, by some sort of tribute to the noblest of all human beings—Mother.

### Double-Header Ball Game Sunday

Lockney ball fans will get a double-dose for their money Sunday when a double-header will be played with Plainsview. Nine and seven inning games will be played. First game will start at 2:00 p. m. sharp, according to Manager Jimmie Hodel.

T. J. Roberson will be on the mound in the first game and Raymond Roberts in the second. These two lads are mighty powerful hurlers and a mighty good class of base ball should result. In last Thursday's game Roberts let Hale Center down with four scattered hits and chalked up 13 strikeouts, winning the game by a score of 2-1. In this game each team made one error each.

In the game Wednesday at Petersburg the local boys lost by a score of 8-5. Seven errors were made by Lockney and 9 by Petersburg. Lockney's errors coming just at the wrong time and were costly.

Roberts and Chilton did mound duty in this game and Petersburg collected 14 hits while Lockney marked up 10 off of the offerings of Monroe and Suratt. In the scoring, Rives crossed the counter plate a couple of times and L. Reece, J. Reece and Holmes one time each. Reece Bros. made a couple of errors each and Rives, Mitchell and Holmes contributed one each.

Gregory and K. Billberry, who parade in the outer garden for Petersburg, hit the bulls-eye for a couple of scores each, while Holloway, who cavorts with the above boys in the outer garden made 4 trips to the plate, secured 4 hits and crossed over for one counter. Others who made the counting machine click were Gray Presley and Eason for one mark each.

The Lockney team is fast rounding into shape and you will see some mighty fast ball playing during the season. Don't miss a single home game, see 'em all.  
An admission charge of 25c will be made Sunday for both games. Ladies admitted free.

### FUNERAL HELD FOR 30 YEAR RESIDENT OF FLOYD COUNTY

Funeral rites were held Tuesday May 7, at the West Side Church of Christ for Mrs. Martha Catherine Carthel, 75, who died Monday at the home of her daughter, Mrs. Carl Huddleston, who lives five miles northeast of Plainsview. Services were conducted by Charles Watkins of Lubbock and assisted by Leland Knight of Boonville, Ark.

Mrs. Carthel had been sick only ten days preceding her death. She has made Floyd County her home for the past thirty years living four miles north of Lockney a good part of that time. Her husband preceded her in death March 30, 1915. She and her family moved to the Plains in 1905 from the state of Oklahoma where she had lived for sixteen years. She became a member of the Church of Christ at the age of sixteen in Johnson County in Texas where she moved from Mississippi when she was fourteen.

Burial was in the Lockney Cemetery. The Croger Funeral Home was in charge.  
Three daughters and seven sons survive her and one sister. The daughters are Mrs. John Belt and Mrs. Della Huddleston, both of Lockney, and Mrs. F. A. Cuyus of Lubbock. The sons are Guy, W. A., Ray, Ross, Milford, Francis, and John, all of Lockney. Mrs. Nancy Honca of Tulsa is her sister. She is also survived by a number of grandchildren.

Pallbearers were her grandsons: Wayne Carthel, Dimmitt, Hershel Carthel, Tulsa, J. R. Belt, Wilham Carthel, Alvin Carthel, and Jayward Carthel all of Lockney. Her granddaughters were flower girls: Mrs. Morris Tannahill, Rosa Carthel, Maxcine and Cathryn Huddleston, Retha Belt, and Bernice Carthel, Mrs. Oscar Goldin, all of Lockney, and Martella Cuyus of Lubbock.  
Other relatives attending were Will Boone of Tulsa, Mr. and Mrs. Charlie Goen and Mr. and Mrs. Stanford Goen, all of Floydada, and Mr. and Mrs. Henry Reeves of Tulsa who are old friends of the family.

### MRS. RAY CARTHEL DIED TODAY 5 P. M.

Just as we go to press the death of Mrs. Ray Carthel was reported to this office. Mrs. Carthel resides in the Prairie Chapel community northwest of Lockney a few miles. She died at 5:00 p. m. Funeral arrangements have not been announced. We understand Mrs. Carthel had been ill sometime and gradually grew weaker and weaker until the end came.

Winner Is Presented With A University Silver Cup and Gold Pin; Fort Stockton Wins 2nd and Crockett 3rd

Bonnie Faye Goodrich, 12, of Lockney won first place in the Ward School Ready Writers' Contest, formerly called essay, at the University Interscholastic League held in Austin last Friday, May 3. She was presented with the University silver cup and will be allowed to keep it until next year. Her name will be engraved on the cup along with all of the state winners in this particular division since 1919. She was also given a gold pin.

Competing with eight other students, she chose "The Community in Which I Live" as her subject. The contest began at 9 o'clock Friday morning in the Architecture Building of the University of Texas and contestants were given two hours in which to write their essays. The decision was reported by 3 o'clock in the afternoon.  
Fort Stockton was awarded second place and Crockett third place.

Dist. 2 was honored with two first places in essay writing, the first school being Afton in the Class B high school division.

This is the first time in the history of the state that two essay writers from the same school have been eligible to attend the State Meet twice in succession. Last year Georgia Belyeu entered the University League in the same division, winning second place.

Bonnie Faye is in the sixth grade of the Lockney Grammar School. She is the granddaughter of Mrs. J. H. Henson of Lockney.

She was accompanied by her teacher, Miss Eunice Coleman, Mrs. Mont Darnell, and Wayne Coleman. They left Thursday afternoon and returned Saturday night coming via Fort Worth.

This is the first place the Lockney school has won in State in several years and is an award that this community should be proud of. As a general rule a state winner cannot enter the same contest and division for any two years, but upon close observation J. W. Jones, superintendent, finds that the State League book of rules fails to mention that a state essay winner is ineligible for the second year. If not Bonnie Faye will probably enter next year.

## TUMBLEWEED PICK-UPS

Here's mud in your eye! The old Tumbleweed has had an opportunity to pick-up some real mud for the first time in a year—Although my spirits have been a bit dampened I can still dish out those little uncomfortable remarks that have a way of making some people very unhappy and tickling the fancy of others. NOT LONG since Arthur Barker abandoned all of his important duties for a few minutes to demonstrate his house on wheels to me—Can you feature such consideration for a mere plant? It is really quite elegant and modern in every sense of the word—I have often heard that the people of today practically live in their automobiles, using their houses only for a medium of changing clothes. But he goes even one better by being able to do away with the medium! THE Kitchenkook gal was laid off from work last week so that automatically makes her the Homekook gal. She finds that housework requires more physical energy than a whole month of keeping books with the exception of that time she mopped her office!—IF YOU see Watt

Griffith limping with one foot in a sling you'll know it was polo that got him!—I'VE HEARD that a number of people in this vicinity have invested in the send-a-dime letters. Whether they will reap any returns only Uncle Sam can tell. They have accomplished one marvelous deed—Removed Martha from the high stool before the barred window and put her in circulation behind the boxes. The only glimpse you admirers will get of her now for a while will be through the tiny glass of your box and I'm afraid that won't show her up so good. You will discover that she looks much better with the bars running up and down her face!—OH, DEAR, what has become of the old fashioned girl in Lockney who had just as soon stay at home in the parlor as go to the theatre. Did she by any chance go out with the depression?—THE WEED can't decide if Harrold Huggins is the printer's devil or a devil of a printer. It is rumored that Roy Thornton was the most widely discussed or may be it was cussed boy in the world Sunday for failure to appear for an engagement!—NUFF said 'or this week and I'll be seeing you maybe soon!

# THE LOCKNEY BEACON

Established 1902

Published Every Thursday

TOM SUITS, PUBLISHER  
J. L. SUITS, EDITOR  
JEANE SUITS, ASSOCIATE EDITOR

Entered April 14, 1902, as second class matter at the postoffice at Lockney, Texas, by act of Congress, March 3, 1879.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Beacon will be corrected gladly upon its being brought to the attention of the publisher.

The greatest desire of people at this time is to "get something for nothing, more especially money." This is proven by this Dime Chain Letter Business. It seems everybody wants to manipulate a graft of some sort, get rich quick scheme without doing any kind of work. This whole dime letter business is the baloney. Keep your dimes in your pocket and you will be better off. The only ones that perhaps made anything out of the proposition were the boys that "took up the first collection." You cannot play second fiddle and cash in on the proposition. You must earn your living "by the sweat of your brow" and not by some wild dream graft. Some of the chain letter senders are even trying to graft on one another. They are sending the chain letters along but not sending the dimes, thinking they will get dimes back and not be out anything. Uncle Sam's post office is the only one that is coming out winner. He is selling stamps hand over fist. Don't do another dime chain letter. You are making a monkey out of you. Keep your dime safe in the collection plate at church next Sunday and you will receive a greater blessing and larger return.

by the States and we don't know just how this will work out. Senator Carter Glass must be on his way out, as we do not hear and read so much about him here of late. If you will remember, President Roosevelt has won every battle with Glass. The Senator in the past has been a power in Congress, and had just about his own way about legislative matters. Although Senator Glass is a Democrat, he has opposed FDR all along down the line, but has constantly met defeat. Yes, we believe the Senator from Virginia is on his way out.

**"BRAIN JEWELS" FROM OUR EXCHANGES**

And why not let the radio crooners do it—it's their job and they're probably paid for it—it has no place in any business establishment today or any other day.

The other day I was in a local store, when a country customer came in. I know he was a customer, because I took the trouble afterwards to find out, and he told me that he had come to town to buy a few groceries, a pair of shoes, a little cloth, and minor articles of hardware. He had bought the groceries, and was in a dry goods store, and that's where he backed out and changed his mind. He didn't buy, and the merchant missed a sale—a cash sale.

I personally heard the fellow in the store tell him how dry it was, how it didn't look much like rain, didn't know what the people were going to do, and tell him exactly how bad business was. He took it all in, decided maybe the store fellow was right after all, and decided to delay his buying.

Maybe it is dry, maybe it hasn't rained, and maybe business isn't so good; but there is no need telling everybody who comes in, or anybody who stays out for that matter about it.

It hurt business for sure in this one instance, and it might do it again.

Gosh! or is it spelled Josh! did you see how Col. J. W. Smith of the Lamesa Reporter got all over Sharley Guy of the Hubbock Havalanche-Shurnal last week. Boy, he took all the starch out of Sharley's shirt, and left him hanging high and dry on a hickory limb with the admonition not to go near the water. It all came about because poor Sharley wanted Ely instead of—what was that fellow's name at Lamesa who wanted to be the Hy Com? Anyway, they (Allred) slipped in a dark pony on us and he won the race. And now Sharley and the Herald want to know "who-in-hell is Hines." But Sharley and Shack are going to be for Hines from apple to appetite as long as he surfaces roads in this section. This is the first time we ever agreed on anything, but we are together on this, and we don't give a ding if W. J. has to pull sand in low for the next 20 years—we are for Bro. Hines, ain't we Sharley? And say, Bro. Smith, while a lot of Brownfield sports—like Lamesa sports—slip off to Lubbock to buy their step-ins and their two-piece affairs, you can always detect a bunch of those afternoon—not for a coke—but Hubbock lads here on Sunday suds. ### WALKS 14 MILES, WORKS 8 HOURS, FOR 1 DOLLAR

About the most contented man in Parmer county is P. A. Lee, Oklahoma Lane farmer who has had a job the past several days assisting in the Federal Seed Loan office of this county.

Without any means of conveyance, P. A. arises early enough every morning to be able to cover the distance between his farm and the county courthouse, a distance of 7 miles, on foot, and report to work on time. After putting in his allotted eight hours he hikes back home late in the afternoon.

And what's most interesting—he draws a grand total of a dollar a day for his services.

"You won't find me complaining," he commented, in speaking of his duties and the salary he receives. —Farwell Tribune.

The case had come to a close and the loser asked the lawyer what his bill would be. "Well," remarked the attorney patronizingly, "your father and I were old friends and I'm going to ask you \$250."

The victim made no check and handed it over. "I've got to say," he remarked, "is that I am glad you didn't know my grandfather."

### PRETTY PLAIN TALK

A man couldn't say it and get a way with it, but a woman can and has done so. Speaking to a group of women in Chicago recently, Mrs. Anne Richardson, noted woman's club leader, had this to say about members of her own sex:

"Women are getting uglier every day. They diet until they look haggard, and then wear low-backed dresses which show the little chain of bones down their backs. I wonder how any of them ever got a man. I'm fed up with this cigarette smoking, too. It isn't the smoking I object to—but women are so rude about it. I'd like to go into the washroom of a Pullman just once and not find ashes all over the washbowl." As concerns women's club work she said the principal worry of such clubs is where to seat the past-presidents. "The trouble is that all the members want to be president, and after they've been president they want to be honored as founders, or what-nots. They act like a lot of ugly-ump mugwumps," she concluded.

### DRIVE IS LAUNCHED TO FILL VACANCIES IN ARMY

A recruiting drive has been launched to fill vacancies in the Regular Army at Fort Bliss, Tex. These vacancies are in the Field Artillery, Cavalry, Quartermaster and Medical Corps. Approximately 180 vacancies in the enlisted personnel are to be filled at that post.

American citizens, (WHITE), between the ages of 18 and 35 years, who are single and have no one dependent upon them for support; in good physical condition, and possessed of the equivalent of an eight grade grammar school education, are eligible for enlistment.

The nearest Recruiting Station is located in the Post Office Building, Lubbock, Texas, and the Recruiting Agent in charge will be pleased to interview all young men who desire information relative to enlistment in the Regular Army.

**EMPLOYABLE FARM FAMILIES NOT TO RECEIVE RELIEF FROM GENERAL FUNDS**

**Aid Will Come From Rural Sub-sistence Funds—Advances Secured By Note and Mortgage**

Effective immediately, county relief administrators no longer will be permitted to extend any form of relief from general relief funds to any employable farm family, it was announced by Adam R. Johnson, state director of the Texas Relief Commission.

"A farm family," Mr. Johnson explained, "is one residing outside the limits of incorporated or unincorporated towns, villages and cities and who depend upon farming operations for the major portion of their income. It is not intended to include in this group families who live on small plots of land which are sufficient only to produce a part of their sustenance and upon which they can not produce a commercial crop."

"Farm families," henceforth, may receive aid only in the form of advances through the rural rehabilitation corporation. County administrators are instructed to recall any work cards issued to rural families for work relief in May and to make advances, secured by notes and mortgages, instead.

All families affected by this change will immediately become rural rehabilitation families, Mr. Johnson said, and will receive aid in the future from rural subsistence funds in accordance with their needs as established by case-workers.

At the same time, administrators will contact all landlords at the earliest possible date to obtain waivers on the landlord's interest in the tenant's share of the crop. This procedure was adopted in to secure advances which the rural corporation will make to the tenant.

"If a client transferred under these regulations receives subsistence advances, executing notes for them, and later it develops that a waiver form can not be obtained from the landlord or other creditors, then the case will be dropped completely from our records," Mr. Johnson declared.

"In such instances, the notes taken will be written off as a loss, but the client will receive no further advances after the date on which creditors refuse to execute waivers. Creditors will be notified when these cases are dropped from the records."

Explaining the new regulation, Mr. Johnson said it is in line with the long established method of sharecroppers. "This is what bankers and other creditors have always done," he said. Our former practice of furnishing the tenant with subsistence needs as an outright grant just encouraged

creditors to allow the relief administration to finance the making of their crops. This new regulation will help to correct that situation and dignify the air extended farmers by eliminating the outright relief grant."

### TEXAS CCC ALLOTMENT HAS BEEN INCREASED

Texas quota of young men to join the Civilian Conservation Corps has been nearly doubled by an increase from 14,200 under the old program to 28,880 under the new program, it was announced last week by Neal Guy, enrollment supervisor for Texas.

Enrollment under the new quota will take place between June 15 and August 31, Guy stated, at which time county relief administrators will receive applications from young Texans desiring to go to civilian conservation camps. Heretofore, applicants had to be between the ages of 18 and 25 which has now been stretched to a ten-year bracket of from 18 to 28. Part of the men accepted will be sent to camps in nearby states, the rest to camps in Texas.

Applications should be made to the county administrators," Guy instructed applicants, "and not to the Texas Relief Commission. The administrator is the selecting agent for his county's quota, and the delay entailed in making application through this office invariably lessens the applicant's chances of acceptance."

### POLITICALLY SPEAKING

And Other Wiggles  
(By Lance Suits)

The big meeting is all over. The election is now in the hands of the voters. We have followed the latest meeting of the United States Chamber of Commerce at Washington. The "hard-riders" and "top-hands" and "Wagon Boss" and the cook have moved camp after the Spring Roundup. These are the big boys of the organization and are bosses of big business. All they did was to gather around the camp-fire and attack the Roosevelt administration. They don't like the way things are going in Washington, it has kinder cramped their style. They want "free range" again so they can graze wherever pickings are the best. Herb Hoover gave them that privilege and look what they did to us. They say if Washington and FDR will listen to them they will show us "the way out of the woods." They had that opportunity during the Hoover and Coolidge administrations, but they lead us deeper into the woods and then get lost themselves and if it had not been for Roosevelt they would have still been in the forest. "Big Business" was master of ceremonies for a good many years and the only thing they did was to enrich their private coffers at the expense of small business concerns, farmers and our government. But their days of dictating just what shall be done are over, at least while Franklin Roosevelt is occupying the throne seat at Washington. One of their "horse wranglers" was in Lockney about three weeks ago rounding-up the scattered "remuda" and placing new brands on them in the way of membership in the organization a long with a years subscription to their official publication. Said he was doing this to help out the small business man. Oh, yes, help him out entirely.

The Railroad Retirement Law has been held unconstitutional by the Supreme Court. This decision affects more than a million employees. We have been of the opinion all along that Congress could not pass laws to compel private corporations to retire employees on a pension at a certain age, and make it stand up. It seems to us that will have to be done voluntarily by the corporations or the Government will have to pay the pension, and a bill of this nature has already passed the House, but it was only for the small sum of \$15 per month and it will have to be matched

### WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning 'Rarin' to Go

If you feel sour and sick and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a more movement doesn't get at the cause. The reason for your sour and out feeding is your liver. It should pour out 100 pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just rots in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is light, skin often breaks out in blotches. Your head aches and you feel slow and out. Your whole system is poisoned.

It takes these good, old CARTER'S LITTLE LIVER PILLS to get those two points of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, acting when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name. Carter's Little Liver Pills on the red label. Haven't a substitute. Local drug stores. Q. 1831-C. M. Co.

### WHEAT CONTRACT PAYMENTS MIGHT BE DELAYED SIX MONTHS

If Roughage Crops Planted It Will Have To Be Disposed Of Before Payment Is Made

At a district meeting of wheat growers at Amarillo last Thursday, A. H. Kreis, secretary of Floyd County Wheat Production Control Association, was informed by Mr. Farrell, Chief of the wheat section that pasture, roughage crops planted on contracted or left out land on wheat contract would delay payment on these contracts for about six months as compliance papers could not be filled out until these crops had been disposed of by cutting for hay or had been pastured off until too late to make grain.

Mr. Farrell stated that pasture or roughage crops are permitted on these contracted acres and that full payment would be made but payments would be delayed from four to six months after other producers without crops on this left out land had received their checks.

Twenty-two teachers of Spanish from Amarillo, Lubbock, Canyon, Plainview and Lockney were present Saturday night at a meeting of the Llano Estacado chapter of the American Association of Teachers of Spanish held at the

Hilton Hotel in Plainview. Texas Tech, West Texas State Teachers College, Amarillo and Wayland junior colleges were represented along with the high school teachers from the five cities.
