Wilton King Jr., driver of the negro car has been lodged in jail at Floydada and charged with aggravated assault with a motor vehicle. Bond was refused him.

The Knight family had been in this area about three weeks pulling cotton. They were working on a farm west of Lockney. They have been living at Honey Grove, Texas and Hugo, Oklahoma.

He was born May 1, 1886 at Perry, Ill., and moved to Texas when he was about 20 years of age. He lived at Petrolia and Wichita Falls until 1945 when he moved to McLain. He moved from there to Abilene in 1937.

They visited with Chester Brown near Delores and he accompanied the local men on the hunt, furnishing the mules to pack the deer out of the mountains. Mr. Brown, as most people around Lockney remember, is the man who grows certified seed potatoes.

Legion Sponsoring Home Talent Show

The Landrum Post of the American Legion is sponsoring a home talent comedy show, "Cornzappoplin" which will be presented at the Legion home Thursday and Friday nights of next week, October 26 and 31.

Tuneful choruses, gay costumes, and dances are featured in the hilarious new musical comedy. The play is a novelty comedy based on the life of a hillbilly family and has been presented in many other towns in the United States. Miss Cleo Krumholz is directing the play.

Among the featured specialty numbers is a curtain riser headlining the "farmerettes" singing and dancing "I Like Mountain Music." Another featured chorus is the "Mazie Mae" number which has as its background music "Put Your Little Foot."

Two other features certain to please the audience will be the "Rug Cutters" who swing out in 1948 style and the "Debutantes" whose long flowing evening dresses are as graceful as the music is tuneful. Thirty chorus girls from high school will have part in the numbers.

Although the comedy has six women and four men parts, the cast will be all male and includes the following: John Bihrey, Jodie Williams, George Atwood, Wayne Bybee, Tom Marr, Doyle Casey, Revis Harris, Arthur Barker Jr., Marvin Sams, J. W. Channell.

Baby Contest A sidelight of the program will be a baby contest and parade, Miss Krumholz said. The contest will be for babies between the ages of one day and six years. It opens today and will close at 4:00 p. m. on October 31. Pictures of entrants will be placed in a show window at the Lockney Dry Goods. Voting is one cent a vote and a silver loving cup will be presented to the "King" and "Queen" of toyland on the stage October 31. Other prizes will also be awarded. Mmes. O. C. Allison, Claude Brown and C. L. Record are in charge of the baby contest. Standings of the various entrants will be posted each day in the baby window.

A parade of the baby contest entrants will be held Saturday afternoon at 5 o'clock on Main Street. Weldon Dodson and Revis Harris will be in charge of the parade.

The Legion's share of the money derived from the show and baby contest will go toward completion and furnishing of the local Legion Home.

Those attending services from here included Mr. and Mrs. J. W. Jones, Mr. and Mrs. V. O. Crawford and daughter, Mr. and Mrs. Richard Jones and baby, R. L. Crawford of Sterley, Mr. and Mrs. J. W. Longhorns and Spur Clash Here Tonight

An acid test for the Longhorns is the rating given the clash here tonight between the local team and the Spur Bulldogs. Both teams have won two conference games and the tilt tonight will decide a lot in the way of final district standings. The game will be called at 8 o'clock on the Longhorn field. A record crowd is expected to witness the game.

The Spur Bulldogs are perennial contenders for the district crown and won that coveted honor three years in a row—1942, 1943, 1944. The Floydada Whirlwinds ousted them off the perch in 1945 and 1946 but they are reported to be out to regain that title this year and have a team that is good.

The Longhorns realize that this is going to be a tough battle and are preparing for the fray. Coach Kelley said. Most of the boys will be in good shape physically, although Bobby Carthel, swivel-hipped tailback may still have a lame ankle.

The closest comparative score shows the Bulldogs to have about a touchdown advantage but in another comparison the Longhorns have the advantage in first downs. The Bulldogs defeated Paducah 12 to 0, Paducah defeated Crosbyton 14 to 13 and the Longhorns defeated Crosbyton 12-7. However, Paducah out first downed Spur in their contest 10-9, Crosbyton out first downed Paducah 14 to 12 and Lockney out first downed Crosbyton 15-7.

Most local fans are giving the Longhorns at least a 50-50 chance to win the game and, providing they play ball as they did in the last half of the game against Crosbyton, a better chance than that. The dope is that the team that plays alert football, blocks hard and tackles accurately will win.

THE PRESS—HERE AND IN RUSSIA

The enormous difference between the Russians and the American ideas of government is perfectly illustrated by the recent denunciations of our press of high Soviet officials, and their demand that restrictive measures be taken to stop "unfair" criticism of Russia.

The Soviet spokesmen seem to be all in favor of a "free press"—so long as its comment agrees with their curious ideas of right and wrong. In Russia, the press is "free" to print government-inspired editorials and official bandwagons from the Politburo, the Foreign Office and the

SCHOOL DAYS

By DWIG

Kremlin. If the deviation from the party line is found in a Russian newspaper, the usual practice is to send the editor in charge on a long voyage from which there is no return.

The Russians may be perfectly sincere when they say they cannot understand American newspapers. This is one of the very few nations left on the face of the earth where any editor, so long as he stays within the laws covering libel and other crimes, can say what he pleases. The Russians seem to think that the growing criticism of Soviet actions in our press is the result of order from the government. Nothing, as every American knows, could be further from the truth. It is, to the contrary, the simple consequence of the fact that the majority of editors believe that the principles underlying U. S. foreign policy are correct and inevitable.

The free press is the basis of all other freedoms. Destruction of the right to criticize, to speak one's mind, must be followed by the destruction of free government, free enterprise, freedom of religion. The Soviet press is used as a weapon to turn the Russian people into mental robots—and to make every man and woman slavishly think alike and repeat the same phrases. The Russians don't realize it, but their recent violent denunciations of the American press are a fine tribute to it—and to the system of government which makes its existence possible.

October is a month that can make or break a fruit orchard as far as the next growing season is concerned, depending on whether the orchardist gets his pruning work done, plants his winter cover crop and removes and replaces old and unhealthy trees.

Dairy cows don't need horns. De-horning them as calves makes dairying safer for both the dairymen and the animals.

FIRE AND YOUR CHILD

"Fire is the leading accidental killer of children", writes the Star of Saugerties, New York. It then points out that while the battle against disease as a cause of child fatalities is being won, the battle against accidents is being lost.

Some 6,000 children under the age of five die in home accidents each year. More than a third die from burns and scalds—a larger toll than is exacted by the dread disease of polio. On top of that, for every child who is fatally burned, many more are crippled or disfigured for life.

No child is burned through his own fault. The blame comes straight home to parents who, through carelessness or ignorance or downright inertia, permit the child to be exposed to hazards. The Star cites some suggestions, made by the National Board of Fire Underwriters, which should be memorized by every parent:

1. Never leave children unattended in the home, and be sure the sitter is responsible.
 2. Keep matches, hot liquids, lamps, etc., out of the reach of children.
 3. Don't permit children to play with bonfires or fireworks. Such amusements as popcorn roasts should be held under close adult supervision.
 4. Avoid dressing children in highly inflammable clothing, such as net dresses.
 5. In case of fire, get children out of the house, then call the fire department.
- If all parents will follow these easy rules, the horrible toll fire now takes in the coin of children's lives and health will be sharply reduced.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Longhorns Edge Out Crosbyton 12 to 7

Coach Curtis Kelley's Lockney Longhorns hung up another District 4A victory last Friday night when they turned back the Crosbyton Chiefs 12-7. As in most other games this season, the Longhorns came from behind to win.

Crosbyton scored first when they recovered a Lockney fumble on the Lockney 36 yard line mid way of the second quarter and drove downfield for the marker. Fullback Alton Wallace carried the ball over with quarterback Bill Simmons kicking the point. The Longhorns took the kick off at this point and drove down field to the Crosbyton three yard line where the half caught them with two downs to go.

Both the Crosbyton high school band and the Lockney band drill team gave very pretty performances at the half. Band Director George Atwood sent his group through a complicated drill maneuver that was very impressive.

The Longhorns came back from the half time rest period with a determination to score, which they did without losing the ball. The Longhorns received on their own 37 yard line and in nine plays had carried the ball over for the marker. Fullback Bob Quisenberry ratted the ball over. The try for the extra point fizzled, but the Longhorns weren't through. After Wyman Guthrie covered a Crosbyton fumble on the Crosbyton 27, the locals stated another touchdown jump and on the fifth play from scrimmage J. D. Williams, quarterback carried the ball over for the score. The try for point failed again.

The remainder of the game was spent with Crosbyton trying to pass and the Longhorns throwing them for losses. The Chiefs vaunted passing attack failed to materialize with the Longhorns letting them complete only one pass all night.

The Longhorn line played a whale of a defensive game allowing the Chiefs only one first down the entire last half. In addition End Calvin Pyle broke through the Crosbyton interference many times to spill the ball carrier or the passer for a long loss. Tackles Jack Adams and Ewell Dee Kelley, Guards Red Daniels, Roy Glover, Center Don Bybee and End Joe Keeter were all stalwarts on defense and opened nice holes for the carrier when the Longhorns were carrying the ball. The blocking was very good in the last half of the game.

In the backfield Fullback Robert Quisenberry carried the brunt of the attack, gaining most of the yardage for the locals on straight line bucks. Quisenberry's hard driving reminded many fans of the plunging of Milton Zimmerman. Longhorn fullback in 1941 and 1942. Zimmerman lost his

RITUAL DANCE . . . Historic Indian ceremonial dances of the Smoki Indians are performed by an organization of townspeople at Prescott, Ariz., to perpetuate lore of life in World War II.

Another bright spot in the back field was the running of J. D. Williams, who substituted at tailback. Williams got off to several nice gains along the latter part of the game and showed lots of promise as a ball carrier.

Tailback Bobby Carthel was handicapped with injuries and did not play very much of the game.

Statistics showed that Lockney had 15 first downs to Crosbyton's seven, and had two penetrations to Crosbyton's one.

A standstill on defense for the

Crosbyton Chiefs was big Bill Blackwood, left end, who managed to get into most plays.

Other Games
Results of other games involving District 4A teams were as follows:

Spur 12, Paducah 0
Despite a Paducah advantage in first downs 10-9, the Spur Bulldogs came off with the highest score. The Dickens County boys scored in the first and fourth periods, a long pass figuring in the first touchdown and a long run making the last. Paducah drove to Spur's seven yard line one time and the ten another but were unable to put the ball over.

Ralls 20, Matador 0
The Ralls Jackrabbits had a fairly easy time in defeating the Matadors 20-0. Bonner Nelson, ace Matador back was troublesome but failed to get away for a score. Ralls had one touchdown called back because of a penalty.

Floydada 33, Abernathy 0
The Floydada Whirlwinds ran over the Abernathy Antelopes 33 to 0 in a non-district game. The Longhorns defeated the Antelopes 39-6 in a early season game.

Activities Planned For County H. D. Club

The Exhibit and Education-Expansion Committees of the Floyd County Home Demonstration Council met at the Extension Office Monday afternoon to plan some county-wide activities for the Home Demonstration Clubs.

It was decided to have an all-day meeting at the County Court Room on Thursday, October 23 for the "Around the World" Program. Each club has had one country of the world to study during the year and they will give a short skit, exhibit, or talk at the county-wide meeting. The meeting will start at 11:00 a. m. A covered dish luncheon will be served at noon.

A window exhibit of wool and down filled comforts was planned for Nov. 12-15.

Two county-wide tours were planned. These will be visits in Home Food Supply and Living Room demonstrators in the Home Demonstration Clubs over the county. November 11 and 12th were the dates set for the tours. The itineraries for the tours will be made public when plans are complete.

The education-Expansion committee chose the 1947 Gold Star girl from reports that had been sent in. Genevieve Boyd of the Baker 4-H Club was chosen for this honor.

Those present at the meeting were Meses. C. A. Caffee of Dougherty, W. A. Lovell, W. C. Sims and G. N. Shirey of Sunnyside; A. R. Bloxom of Pleasant Valley; Lynn Miller of Sand Hill; and Miss Lella Petty County Home Demonstration Agent.

Mahon Reports On Greek Conditions

By GEORGE MAHON

This is about Greece, written from London while I am awaiting a ship for New York. Our Committee on Foreign Aid has recently returned from a week in Greece.

Before going there, I had to see people dying in the streets from starvation and want. I believe Greece is in worse shape than any nation in Europe, but the aid program of the U. S. and the efforts of the people are preventing the complete collapse of the country. The Greeks made a heroic effort during the war to hold the enemy and give aid to the Allies and since VE Day vast sums of money from many nations have been spent there to arrest the ravages of disease and starvation.

At present our nation is in the midst of the 300 million dollar aid program to Greece which is being administered by former Governor Griswold of Nebraska. The object of the program is to help stabilize the country and prevent the further extension of the Russian Iron Curtain.

It is no secret that the principal object of American foreign policy in Europe is to assist democratic peoples and prevent the extension of Communist terrorization and domination of the Atlantic Ocean, enveloping all Europe. If the Iron Curtain of Russian Communism comes to the Atlantic, billions of additional American security will be in jeopardy. For right or wrong that is the prevailing viewpoint of our government. No one knows for certain just what may develop; history will record whether our policy is right or wrong. We are taking a chance and if we lose, our efforts and our money may go for naught.

Greece has about the same population as Texas, but it is only one-

COMMUNIST LEADER . . . Italy's Russian-trained Communist boss, Palmiro Togliatti, told 100,000 shouting followers in Florence that the U. S. is a "world dictatorship" trying to "spread another war." Togliatti threatens to install leftist government in Italy.

fifth the size of our state. And what is more important, most of the country consists of a series of rugged mountain ranges and the land available for agriculture is very limited. Moreover the people depend principally on agriculture for a living as there is practically no industry. The annual rainfall is about the same as in West Texas.

We first went to Athens and then to Macedonia in northern Greece where much of the guerrilla warfare is being carried on. In company with Greek soldiers and officials, we went as far north as the Bulgarian and Yugoslav borders. In this part of Greece I saw scores of farms which would normally be planted to wheat lying idle because the people had fled from their farms and villages as a result of the so-called bandits and guerrillas. It is estimated that 250,000 have fled from their homes because of the guerrilla menace, and they are about 16,000 of these bandits in widely separated areas who hide out in the mountains and conduct sporadic raids upon the villages.

Some of the bandits are accepting the offer of the Greek Government to surrender on a promise of no punishment. I talked to a number of these surrendered bandits in different localities. Most of them were quite young. Their stories and everything I heard in Greece confirmed the charge that the bandits are being inspired and supported by the Communists across the Greek borders to the north.

The primary need in Greece is employment and freedom from the reign of terror of the bandits. Governor Griswold and his staff are actively pressing for action in the American aid program but their job is difficult and success is not assured. The Greek Government has been reorganized under Prime Minister Sophoulis, age 86, but the Government is still weak and the Greek army at present is doing a poor job of suppressing the bandits and restoring order. I found no one who thought American troops should take over this task. Such policy in my opinion is not only unnecessary but would be a tragic mistake otherwise.

The top men in the agriculture program of the American Mission in Greece are E. N. Holmgren and B. F. Vance, both of whom were former administrators in the AAA program in Texas. Perhaps they were selected because Greek agriculture is similar in some respects to our own. I visited many dry-land farms and many farms where underground water is pumped for irrigation. The average farm is 7 acres in size. The irrigation program seems to offer the quickest way to increase production.

The Greek cotton crop will not be adequate to meet the needs of the country. Greece normally raises about 60,000 bales of cotton. There is a surplus of olive oil and tobacco for export but the Greek currency is on such a weak footing that the export program is far from satisfactory. There is little confidence in the value of the currency.

The war devastation in Greece was terrific and many of the highways and railroads are impassable and the great ports for Athens and Salonika are not yet in full operation. It takes time to repair the ravages of war.

Of one thing I am sure, the rank and file of the people in Greece do not want Communism and they will not willingly accept it. They are close to the Communist states of Bulgaria, Jugoslavia and Russia and the rank and file want no part of it. But Communism operates through

terrorists methods and when a police state is established freedom is lost. That is the principal reason why Communism is such a threat throughout the world.

I have been forcefully struck during our study of Europe with this fact. You do not learn too much about a country at the Embassy or at the seat of the Government. You learn more by visiting the people in the streets and in the work-shops—by visiting them in their homes, on their farms and in their villages.

If you start a conversation in a village the whole neighborhood gathers about you. The people seem anxious to express their opinions and I found the people in Greece were well informed and greatly interested in current problems. They are well aware of American aid and they are grateful for it. That is not true throughout Europe.

One who has not been in Greece cannot realize the abject poverty of the Greek people. The most they could hope for is a chance to earn a meager existence and live in peace.

Our nation is seeking to follow a policy of enlightened self interest in Greece. It is a gamble of our powerful country in the interest of world stability and peace. In six months we should know whether the chances of success are good.

In addition to conferences with

members of the American Mission in Greece, we met at length with Prime Minister Sophoulis and various other Greek officials. We made no promises in behalf of Congress or the American people. We sought to get facts which would be of assistance to Congress when further action is taken in Washington.

An ALL-ELECTRIC Kitchen In My 20 Year Old Home?

Here's how you can do it!
Install Adequate Wiring now.
When your present home was built, perhaps the builder never thought you'd want to cook, refrigerate, and heat your water electrically. So he installed just enough wiring to supply service to a few electric lights and possibly an outlet or two.
To find out how to have an all-electric kitchen just call a wiring specialist from your Public Service Company, or an electrical contractor. They will be glad to tell you more about the wiring you will need.
Adequate Wiring MEANS:
1. ENOUGH CIRCUITS for serving efficiently and safely all the appliances you have.
2. LARGE ENOUGH WIRE for serving your present and future needs.
3. ENOUGH OUTLETS AND SWITCHES for convenient living.
We have nothing to sell but good electric service.

more telephone calls

More and more calls from more and more telephones have taxed the capacity of switchboards and operators alike during these days of equipment shortages. Even so, most calls at most times go through promptly.

If, at times, you do not hear "Number, please?" immediately, it's because hundreds of other people are calling at the same time and operators are doing their best to answer each call in turn. This is especially true during the busiest hours of the day—midmorning and early evening.

We're putting in more equipment as fast as we can get it. Our aim is to eliminate delays and answer every call promptly.

LOCKNEY HIGH

By Martel McDonald and Glynn Earle Norman

Yeah, our conscience hurts for having deprived you good people of this column of wisdom for the past five weeks, but with your permission we'll carry on.

The Longhorns defeated the Crosbyton Chiefs 12-7 Friday night at Mitchell-Zimmerman Field. The game was a hard fought battle but we never once doubted the outcome. Those Longhorns really looked sharp in those new uniforms. The pep squad did a fine job too. Of course we don't have to tell you anything about that, you already know about that. But we promise you our best show yet if you will all come to the Spur game here next Friday night. The team will do their best to give you enough thrills to last you until we play Floydada on November 7. So let's all take our selves down to the field and show our loyalty to the Longhorns!

The band went to Canyon Saturday to take part in the parade and the Hardin-West Texas game. Will anybody let me in on the scoop? Did we really march three miles or did it just seem that far? Several hands participated in the parade and it was a very colorful sight. We had a wonderful time but oh, our aching feet and blistered faces. Incidentally, we want Trigger to sing for us in assembly soon. Accompanied by the snare drum of course. He serenaded us on the way back from Canyon and ask any of the band members if he does not make Gene Autry sound like he had a mouth full of potatoes.

This new faculty has the same bad habits that the old one had. Which means that we battle our way through a maze of six weeks tests this week. We are going to have a whole school of kids with inferiority complexes from all those bad grades. (Well, me anyway!)

Have any of you been over to see the new grade school building? It is a beauty. Say, you don't suppose that they'd consider trading with us, do you?

Lockney High Wonders!

Has everybody seen Water Lou? It's the Simpson twins' new 29 Ford. Quite an addition to the school I'd say. Tom also bought his woman a beautiful bracelet and necklace. That woman is a Silverton female at that.
