

## Teachers Re-Elected For Lockney Schools

At a recent meeting of the Board of Trustees of the Lockney Rural High School district, all teachers except those who asked to not be considered, were re-elected, according to an announcement this week by Supt. Sidney Reeves.

Teachers re-elected were: Mrs. Maudie Muncy, Mrs. Opal Page, Mrs. Nora Ayres, Mrs. Mary McBroome, Velah Reeves, Weldon Dodson, Mrs. Alma Dutton, George Atwood, Miss Minnie L. Harris, Miss Janice Hall, F. L. Montandon, Curtis C. Kelley, Mrs. Emma Thomas, and Miss Virginia Norris.

Mrs. Mary G. Degge and Mrs. Margaret Hansard did not wish to be considered for re-election nor did John Hansard, assistant coach the past year, who had previously accepted employment as head football coach at Cisco High School.

Ray Williams, elementary principal for the past school year has accepted the superintendency of the Alvord Public Schools in Wise County and will assume his duties there July 1.

## Irrigation School Draws Good Crowd

Approximately 200 farmers and others interested in agriculture attended the one-day irrigation school held here last Friday at the Plains Theatre.

An interesting program held the crowd through the day with lunch furnished at noon by the Lockney business men.

County Agent A. L. Hartzog, co-sponsor with the Lockney Business Men's club of the school, acted as chairman of the meeting. Mr. Hartzog arranged the program for the day.

Agriculture men on the program included John Box of the Lubbock experiment station; Dr. R. E. Karper of the Texas Experiment Station; Kenneth B. Porter of the Amarillo Experiment Station; Dr. A. W. Young of Texas Technological College; C. E. Fisher of the Spur Experiment Station and Ray Grace of the Soil Conservation Service.

Especially interesting to farmers was the talk of Mr. Fisher on "Weed Killers at Work," it was reported.

## "Feudin' In The Hills" Will Be Presented By Seniors

The Senior play, "Feudin' in the Hills" will be presented at the City Auditorium, Friday night, May 7 at 8:00 p. m.

The play with a mountain setting, tells the story of the Martins, a typical backwoods family of the mountains, who are blood enemies of the Pruitts, across the valley. How the Martins become civilized in spite of all the efforts of Grandma to keep the feud alive is told in a hilarious manner that will keep the audience in an uproar from the opening sentence to the final curtain.

The cast of characters has been announced as follows:

Mr. Martin—"Give me my guns Ma, or I'll start breaking up things around here"—Glenn Worsham  
Mrs. Martin—"Go right ahead Pa, you can't hurt anything"—Marvella Ginn.

Edna Mae—"I never lied to you Pa, I'll tell you just how I feel; I love him"—Erma Hall.

Zula—"Glory be, ain't them purty words, I wish I knowed what they mean"—Vera Jo Rogers.

Grandma—"I'll git this feudin' going again if it's the last thing I ever do"—Emma Thomas.

Jed—"Yeah, I guess I am pretty at that. You're not so bad yourself once somebody gits used to you"—Bob Logan.

Dina Pruitt—"Jed, you say the nicest things"—Glynnie Earle Norman.

Sam Pruitt—"But Mr. Martin, you're fooling with Uncle Sam when you try to blow up that power plant"—F. L. Montandon.

Dr. Ambecrombie—"I am a student of Philosophy and psychology, not to mention astrology"—Edwin Langford.  
Myrtle, his daughter—"This is indeed an insult. Give us back our clothes this instant"—Martel McDonald.

## 15 BOY SCOUTS ATTEND CAMP

Fifteen local Boy Scouts with Scoutmaster Arthur Barker Jr. attended Camp Haynes, near Silverton last Friday and Saturday. More than 200 boys from over the Blanco district were present for the two day camp.

Mrs. Raymond Nelson and daughter of Petersburg spent Tuesday here visiting Mr. and Mrs. V. D. Harris.

## District Soil Tour Next Thursday

The itinerary for the Floyd County soil conservation tour next Thursday was announced as follows:

8:30 A. M. Group leave Agricultural Building in Floydada enroute to Lockney.

10:00 A. M. Group leave Beacon Office for the following morning stops:

Leslie Ferguson farm—Mixed grass pasture.

G. D. Russell farm—Terracing and vetch cover crop.

G. F. Wier farm—Alfalfa seeded with barley nurse crop.

S. I. Jones farm—Ditch border irrigation.

Ben Quebe farm—Wheat variety demonstration (preliminary).

12:30 P. M. Barbecue Lunch—Lockview Farm—Courtesy Lockview Farm and Soil Conservation Board of Supervisors.

1:30 P. M. Group leave for the following afternoon stops:

Lockview Farm—Vetch overgrown with wheat.

Lockview Farm—Vetch in Grain Sorghum stubble.

Oscar Golden farm—Mixed grass pasture.

Rhea Mitchell farm—Controlled Grade Irrigation.

R. C. Mitchell farm—Bindweed control.

Clark Harris farm—Knot grass in lake.

H. R. Patterson farm—Spray irrigation system and mixed grass pasture.

The annual spring tour of the Floyd County Soil Conservation district will be held next Thursday, May 6.

Aim of the tour is to observe what farmers of Floyd County are accomplishing in the way of soil saving and soil building.

The tour will begin at 10 a. m. Thursday and the group will gather in front of The Beacon office in Lockney. A free barbecue will be served at noon at the Lockview farm, just north of Aiken, and the tour is scheduled to be over about 4 p. m.

All farmers and business men in the county are invited to go along.

Dooley Dawson, vice-president of the Second National bank of Houston, will speak at the noon barbecue at Lockview and will also speak Thursday night at an open air meeting at Wester Field in Floydada. The night meeting, which includes a supper, is sponsored by the Floydada Lions Club.

## Father Of Mrs. Phenis Dies

Sam W. Waddell of Plainview, father of Mrs. G. H. Phenis of Lockney, passed away at his home at 2 o'clock Tuesday afternoon. Mr. Waddell had been ill for several months.

Funeral services were held at a Plainview Funeral Home at 4 o'clock Wednesday afternoon conducted by Rev. G. K. Rogers, pastor of the First Presbyterian Church. Masons had charge of graveside rites.

Mr. Waddell had been active in the Masonic Lodge for 53 years. He served in several high offices of that order.

Survivors include his wife, his daughter, Mrs. Phenis of Lockney, two sisters, Mrs. Jim Heard and Mrs. Gele Haines, both of Plainview, and a brother, Seth Waddell of Bentonville, Ark.

## Adding Machine Thief Hits Lockney

An adding machine thief that has been working in West Texas for some time struck in Lockney on Monday night of last week. He took two electric machines from the offices of the National Alfalfa Co. here and took one hand operated machine from the Patterson Gin Co. office.

The alfalfa company machines were Remington and Barris and the Patterson machine was a Sunstrand. Local officers had no clue as to the identity of the thief Thursday.

Mr. and Mrs. John Lucas of Plainview visited Monday afternoon in the W. E. McClure home.

Gospel formerly meant "good story" or "glad tidings".

## National Alfalfa Starts Dehydrator

The National Alfalfa Milling & Dehydrating Co. plant here started their dehydrator Thursday morning on the first crop for this season. The plant was dehydrating hay from the farm of Wyatt McLaughlin, 15 miles northwest of Lockney.

The mill was offering \$15.00 per ton for dehydrated hay, according to J. D. Wood, local manager.

The hay is an extra good quality at this time, Mr. Wood said.

## Patterson To Build New All-Steel Gin

Work has been underway the past two weeks on clearing a site just south of the Patterson Gin on which the Patterson Gin Company will build a new all-steel gin.

The new gin will be modern and up-to-date in every way, R. E. Patterson told The Beacon Thursday. It will be a five-eighty saw Continental gin and will be completed in time for the fall ginning season.

The company will continue to operate the old gin when ginnings demand it, Mr. Patterson said.

The new gin will be considerably faster than the old, Mr. Patterson said. It will turn out from 125 to 150 bales every 24 hours when in full operation. The old gin averages around 60 or 70.

## Board Offers School Buildings For Sale

At a recent meeting of the Board of trustees of the Lockney Rural High School district it was voted to hold a public sale of buildings and properties at the Prairie Chapel and Pleasant Valley school building sites on Tuesday, May 11. Public auction of the buildings will be held with the Pleasant Valley building selling at 1:30 p. m. and the Prairie Chapel building at 2:30 p. m.

The Pleasant Valley school building is a two room brick building with small cloak rooms and closets. Also to be offered for sale at the same time will be four acres of tillable soil which was the school campus.

The Prairie Chapel properties offered for disposal include a five room brick and tile building, one 50x30 frame 8 room teacherage, one old double garage, one well house with overhead cypress tank, one complete windmill tower with steel wheel and succor rods, and two or three outside frame buildings of small size. Also offered for sale will be five acres of good tillable soil.

## Mary L. McPherson Asks For District Clerk's Office

TO THE CITIZENS OF FLOYD COUNTY:

I wish to announce that I am a candidate for the office of Clerk of the District Court of Floyd County. I have been reared and educated in Floyd County. I am a daughter of the late C. P. McPherson and Mrs. McPherson. After graduating from high school in Lockney, I completed a business course in Lubbock, and since then I have been continuously employed in Floydada.

I feel that my education and training qualify me to serve you as district clerk. For more than a year now I have been deputy county clerk. Prior to that I was employed in the office of the Floydada National Farm Loan Association for two years; I was deputy tax assessor and collector for two years, and I worked in the county agent's office for a year and a half. I believe the experience I have had in serving the public in these offices, together with the specialized training with records and court matters in the county clerk's office, have equipped me to serve you efficiently as your district clerk. I want all of you to know I will appreciate your vote and your influence, and, if I am elected, I promise you the best service of which I am capable.

Sincerely,  
MARY LOUISE MCPHERSON  
Candidate for District Clerk

## Solicitors Working For Telephones In The Lockney Area

Solicitors for the Southwestern Bell Telephone Co. are now making personal interviews with farmers in the Lockney area, it was announced Thursday by C. A. Myers of Plainview, district manager.

One hundred and fifty farmers had signed up for the new improved rural telephone service scheduled for this area up to Thursday. Mr. Myers stated that the company expected to secure a total of 350 new subscribers for the Lockney exchange which will be more than double it. The canvass will be completed by Thursday of next week.

Making the canvass in this area are A. W. Case, Chris Barber, E. M. Hunter, and Roy Goldston. The men started Tuesday of this week. The above number, 150, were signed up the first three days.

The purpose of the interviews, Mr. Myers said, is to find out how many farmers in the Lockney rural area want the new service so that when final construction plans are made they will include sufficient lines and equipment to take care of all who want far telephone service in this area.

The new lines, which will be two-wire to provide better service, will be built and maintained by the telephone company. The company will not use REA lines in this area because most of them are three-phase lines.

The modern handset instrument will be installed by the company. A maximum of eight parties will be placed on each line but each subscriber will hear only three rings besides his own under the new system of ringing.

Monthly rates for rural telephones in the home will be \$2.00 per month, and a business establishment will be \$3.25. A slight increase in charge will be made where the telephone is more than five miles from the Lockney exchange.

A connection charge of \$1.50 for the home telephone and \$2.50 for the business telephone will be made, which is the same charge that is made in town.

For those customers who now have service over their own lines no charge will be made for the connection of a telephone to company owned lines.

The local project is part of a nationwide program by the Bell Telephone Co. to provide more and better service to one million rural subscribers within the next three to five years, Mr. Myers said.

Floydada Job Progressing

The company crew is just about through with the pole setting on the Floydada project, Mr. Myers said. They expect to start stringing wire there about May 15. In the meantime the pole crew will move immediately to Lockney and start work, possibly next week some time.

Some parts of the Floydada lines will be ready for service within 30 days, Mr. Myers said.

## Drug Stores Announce New Closing Schedule

The Lockney drug stores, Lockney Drug Company and Powers Pharmacy, this week announced a new closing schedule which will be effective Sunday, May 2. The new schedule calls for the alternate closing of one of the stores every night at 7 o'clock while the other remains open until the regular closing time. The alternate closing will also be practiced on Sunday afternoon.

Both stores will be open on Saturday nights and Sunday mornings until 11 a. m.

Starting Sunday the Powers Pharmacy will be closed Sunday afternoon, Tuesday and Thursday nights, while the Lockney Drug Co. will be closed Monday, Wednesday and Friday nights. The following week the schedule will be reversed.

The new schedule was arranged because of the lack of help and for the benefit of present employees, it was said.

In case of emergency or for the refilling of a prescription, either pharmacist will be available by calling the home telephone.

## Will Preach Here

REV. CHARLES J. EASTES

Rev. Eastes will begin a two week meeting at the Assembly of God church here Sunday, according to announcement by Rev. Olan Beauchamp, pastor. Services will be held each evening at 8 o'clock and the public is cordially invited to attend, it was said.

## Precinct Conventions To Be Held Saturday

Democratic precinct conventions will be held at several places in the county Saturday, according to announcements made this week.

T. B. Mitchell, chairman of precinct No. 18, which is West Lockney, issued a call Wednesday for a precinct convention to be held at The Lockney Beacon office Saturday afternoon at 2 o'clock. J. G. Weathers, chairman of Precinct 5, which is East Lockney, asked that his precinct meet at the same time and place.

Ben Quebe, chairman of Precinct No. 7 which is Providence, called a convention for his precinct to meet at the Providence school at 2 p. m. Saturday.

The Beacon was unable to contact R. L. Knox, chairman of Precinct No. 8 which is Lone Star. If Mr. Knox holds a convention it will probably be at the same time as other conventions.

The Sterley voting precinct does not have a precinct chairman according to information furnished The Beacon.

Purpose of the precinct conventions is to elect delegates to the County convention which will be held at Floydada on Tuesday, May 4 at 2 p. m. The precinct conventions will also decide whether or not their delegates will go instructed or uninstructed as to a presidential nominee. Homer Steen of Floydada is county Democratic chairman.

The Floyd County Republican Convention will also be held on Tuesday, May 4 at Floydada, according to an announcement by E. E. Wells, chairman.

## Dagley Elected State Head Pension Assn.

J. L. Dagley of Lockney was elected president of the Texas United Pension Association at the annual meeting held at Fort Worth on April 24. Mr. and Mrs. Dagley attended the meeting as delegates from the local organization.

The local people also attended a meeting at Waco and visited in Corpus Christi while gone.

Vice president of the state organization will be J. J. Davis of Fort Worth and secretary is O. H. Moore of DeLeon.

Mr. Dagley succeeds O. H. Moore who has served the state organization the past year as president.

The state organization is made up of 27 local clubs, two of which are in Floyd County.

Approximately 150 attended the state meeting of which 25 were certified delegates.

## G. C. Tubbs Asks For Judge's Office

To The People of Floyd County:  
I am announcing as a candidate for the office of County Judge of Floyd County subject to action of the Democratic Primaries. I solicit your vote and influence and will make an effort to see all the voters of the County before election day.  
G. C. TUBBS

## Edward Cargile Is Electrocuted Monday

Edward Daniel Cargile, 14 year old son of Mr. and Mrs. H. P. Cargile, died by electrocution Monday afternoon about 4:30 at his home four miles southwest of Lockney.

Edward with his brothers had been wading in an irrigation pit near his home. He took hold of a guy wire on a power line pole as he was leaving the pool and received a charge of electricity which apparently killed him instantly.

A later investigation revealed that a line running to the electric motor on the irrigation well was shorting out against the motor terminal cover, causing the water to be energized. It was reported to The Beacon. When the boy took hold of the guy wire it made a perfect ground hitting him with approximately 220 volts of electricity.

Edward's younger brother, Woodrow, was shocked in attempting to free his brother from the guy wire. After several attempts he rolled the boy away from the guy wire and called for help. Edward was rushed to the Floyd County hospital here but could not be revived.

Charles Simpson and Harmon Handley who were working in a nearby field brought the boy to the hospital. Justice of the Peace T. Z. Reed, after investigation, rendered a verdict of "death by electric stroke."

Edward was a member of the Freshmen Class of Lockney High School. He was a Boy Scout, a member of the Future Farmers of America chapter, and at a recent FFA Father and Son banquet was given special honor for having won first place as local and district parliamentary in recent contests.

Edward was the oldest son of Mr. and Mrs. Cargile. He was born at Roaring Springs on December 15, 1933. He spent most of his childhood there but after a brief stay in California he came with the family to Lockney in December of 1945.

The family first lived just east of the Pleasant Valley school but last year moved to house on the W. L. Thomas Jr. farm southwest of Lockney.

He was converted in June of 1946 and joined the Methodist church here with his younger brother, Woodrow.

Funeral services were held at the Lockney Methodist Church Wednesday afternoon at 3 o'clock conducted by Rev. R. H. Campbell assisted by Rev. Oscar Bruce of Matador. The Lockney schools were dismissed for the afternoon and many business houses closed during the funeral.

Carter Funeral Home had charge of arrangements and burial was in the Lockney cemetery.

Pallbearers were Raymond Rucker, Harmon Handley, F. L. Montandon, Geo. D. Turner, Delbert Shearer and Billy Toney.

Honorary pallbearers were Vannie Toney, Edgar Hartley, Ray Jetton and all class mates and members of the Lockney FFA chapter.

Flower girls were Patsy Harris, Gene Harris, Betty Jean Myers, Dora Lee McDonald, Roylene Hall, Freda Bybee, Lanora Poe, Velma Seale, Elizabeth Ann Tannahill, Ann Cooper, Geraldine Sims, Arlene Turner.

Survivors include his parents, four brothers, Woodrow, Freddie, Gary and James Lee; grandparents, D. S. Cargile, and Mr. and Mrs. E. D. Hutson; and a number of other relatives.

Out-of-town friends and relatives attending the funeral here were D. S. Cargile and Mr. and Mrs. Watt Holley of Dickens; Mr. and Mrs. W. D. Cargile and family of Sudan; Mr. and Mrs. E. D. Hutson of Hatfield, Ark.; Mr. (Continued on back page.)

### EFFORTS FOR PEACE

The way some of the fire-eating commentators sound off these days, all hope for peace has been abandoned and the only question yet to be answered is when the shooting war will start. But such expressions are definitely misleading. The attitude in the best informed circles is one of realistic grimness, but not of unrelieved pessimism. The feeling still remains that peace can be secured and maintained, and some of the top minds of the country are dealing with the ways and means on a seven-day-a-week basis.

Obviously, the work in behalf of peace has two phases. First, there is the diplomatic phase—the effort of the State Department and other civilian agencies to lay the groundwork for an eventual agreement with the Soviet Union and the nations within her orbit, and to cement the Western powers. The principals underlying this effort are pretty well agreed upon for the present. The European Recovery Plan is the most momentous step taken thus far.

Second, there is the military phase—the feeling that we must back up

## SCHOOL DAYS

By DWIG

dollars and supplies with sufficient military preparedness to make belligerents wary of tackling us. When it comes to this, there is a world of honest disagreement as to how it can best be done.

Unless the international situation takes a serious turn for the worse, universal military training has almost no chance to win Congressional approval. The draft has a much better chance, but if it is approved it will be on a severely limited and temporary basis. A program which is almost sure to be approved, on the other hand, calls for swift and extensive enlargement of our air arm.

A short time ago, the President's Air Policy Commission, which was made up of a number of well known civilians in the fields of law, education, journalism, finance and manufacturing, made an exhaustive report called "Survival in the Air Age." Its explicit recommendations are likely to be the framework on which a plan for military air development will be built.

First of all, the report assumes that other nations may have the planes and missiles capable of delivering a sustained attack on the United States mainland by the end of 1952. It then reasons that by that time, we must increase our Air Force to a minimum regular establishment of 70 groups with 6,869 first-line planes, an Air National Guard of 27 groups with 3,112 first-line craft, and an adequately equipped Air Reserve of 34 groups. It says that the Navy Air Arm is sufficient in size, but that it must have ample funds for the constant replacement of obsolescent planes. It estimates that all of this will require an increase in the Air Force budget from its present \$2,850,000,000 to \$4,150,000,000 for the current year, and \$5,450,000,000 for 1949.

Next, it points out that a strong aircraft industry is essential—we can't obtain the planes unless there are going plants capable of producing them at the desired speed. As of now, the military services are buying 21,000,000 pounds of airframe weight annually. It believes that this should be increased by 12,900,000 pounds for 1948 and by another 22,800,000 pounds next year. It urges that procurement be planned as far in advance as possible, and that orders call for the gradual delivery of planes over a 5-year period. This would make for stability in the manufacturing end, which hasn't known from one year to the next what it will be called upon to produce.

Going on, the Commission urges intensified and better coordinated research in all phases of air warfare—atomic energy, guided missiles, gas turbines and rocket engines, landing aids, etc. In that connection it points out that, while other nations keep mum about their aeronautical research, we widely publicize our advances and says that "rigid enforcement of wartime security measures" is necessary.

The Commission then recommends strengthening and improvement of civilian aviation and goes into detail as to extensive changes in governmental organizations which it believes necessary to its program.

There, in brief, is one projected phase of the preparedness program, and the other arms are advocating theirs. The point is to create a highly developed but relatively small peacetime establishment.

The cost will be tremendous. But anything is cheaper than war. The Commission's report states that 80 per cent of the Federal budget for this fiscal year is in payment for past wars and the maintenance of our present military establishment—and that 85 per cent of our total Federal budget since 1915 have been for war or preparation or payment for war. And no one is bold enough to even attempt to estimate the cost of another war if it should come.

The effort to reinforce peace plans grows more intense daily. No one thinks that the people of any nation—the millions who would do the fighting and the dying—want war. The long-range goal is to find some means by which this mass repugnance toward war can find its reflection in the policies of governments. Until then, the billions will flow out of military needs.

### SHOWDOWN

During the war and since, John L. Lewis and his union have made monkeys out of all of us. Time and time again they have crippled production in our country. Their latest act demonstrated their disregard for the welfare of the people and the prestige of the government in a time of world crisis.

The report of the President's fact finding board on the coal dispute shows the UMWA is a monopoly. Commenting on it, John D. Battle of the National Coal Association said: "The board places blame for the coal

mine strike on John L. Lewis." "The country is confronted with one man exercising dictatorial powers over a commodity that is vital to the welfare of all the people. The performance of Lewis in recent weeks should clearly prove to the people that labor unions do not deserve exemptions from the antitrust laws where a labor monopoly is so injurious to the public interest."

"For years all forms of business monopoly have been prohibited by law and properly so. The country is now faced with a monopolistic union that surpasses any form of business monopoly ever known."

"Lewis has been arrogant and wholly unresponsive to every approach made by the coal mine owners' representatives for a resumption of operation. The orderly processes of government as provided by law have been sneered at by Lewis. The efforts of the United States Conciliation Service to get the mines back in operation

by the same tactics of ridicule and evasion used by Lewis against the coal mine owners. The President's fact finding board was impeded in its work and its findings delayed as Lewis had to be forced by a Federal court to submit testimony. Lewis has delayed real consideration of any alleged grievance arising under the contract and has completely ignored provisions of the contract providing for handling disputes."

Steps must be taken to prevent any man or any organization from exercising monopolistic control over the American economy.

Lint cotton that would have made more than 464,700 bales worth approximately \$35 million dollars, were destroyed by insects during the 19-year period 1937-47 in Texas.

A majority of U. S. presidents have been lawyers.

Tributes To Edward Daniel Cargile

In behalf of the Freshman class, I think it is my privilege to express my deepest appreciation to your son whom we have loved and held ever in highest esteem.

It has been a privilege, truly, to have been pals, more than friends with Edward. He has played with us, romped with us, laughed with us, has ever been a part of our hearts.

The second desk in the last row will always be hallowed to me, sacred, held ever in the honor as an empty throne. We will never forget.

The years will be many, and long, but the deepest feelings, never expressed because of lack of word to express them, will always be there.

A friend, Sid Thomas

MY FRIEND

Edward was a friend of every one he knew. His vacancy has brought

many tears of sorrow to me, and the rest of the freshman class.

Edward was my dearest, and deepest, friend I ever have had. He was the best sport I ever knew, and could take what the foe had to give him.

Edward never said a harsh word to me while we were friends. The tragic accident could have happened to me or anyone.

God has a place for Edward I am sure. I look at his vacant seat and turn my eyes away in sorrow.

My love for Edward will stay in my heart forever.

The memory of Edward shall not be forgotten by me.

Ronald Reecer

EDWARD CARGILE (A Real Pal)

I still cannot believe that he is gone. He was one of the best friends I have the pleasure of knowing. He always had a cheery word and a tender smile for everyone.

When I come to school something is missing. A seat is empty. A spot is quite.

When working, he was the go-gettingest of them all. When playing he

EDUCATION... Now that her leg is in a splint after she was hit by a truck, nine-month-old Poochie listens gravely while little Janet Harlow of Pittsburgh, Pa., reads a pointed lesson on first-aid.

was the fairest of them all. I know that heaven is beautiful and I also know that he is, at this very moment enjoying a portion of that beauty. I thought he was about the finest person I knew and I only hope that he thought the same about me.

No one is perfect but he came as near to it as anyone else and I know he was better than I.

W. L. Rowell

A REMAINING FRIEND

One day after playing a hot, sultry game of football, we were gathered in the drug store drinking that awful stuff, water!

We were broke! A boy from our room strolled in, kidded us quite a while, then this generous black headed galoot bought drinks and candy for all of us.

We won't meet this boy in person, but we will see him many times as remembered thoughts of mischievous incidents and of the contagious energy of a thoughtful, kind, boy.

Rex Rogers

A FRIEND

Today there was a vacant chair, a chair not only in my class room but in my heart no one can fill, yet we have the love he showed us when he was here, with us.

Oh! We did so little when he was with us. Yet, we all loved him, "as a friend Edward was true."

It was always a smile a tender touch never a word of harshness.

"Honesty, truth and love to his fellow man" was his by words.

Yes, Edward was a true friend. We all loved him.

I feel God had a place for a boy and no better one could be found.

One Who Loved Him
And Will Love Still

Experiments On New Cooling System

AUSTIN—An experiment in combining ice, evaporative cooling, and a fan ventilating system for air conditioning is underway in the University of Texas Bureau of Engineering Research.

The unit, designed in one piece suitable for use as an addition to a back porch, will be for small four and five room homes unable to afford the luxury of a machine air-conditioning unit, Dean W. R. Woolrich explained.

When commercialized, the "package units" may be purchased from factories and installed by ice companies.

The project is sponsored by the U. S. Department of Commerce, and after results are presented to them, reports probably will be available to the public next fall, the Dean said.

Mrs. Maggie Kirkland of Roscoe, Texas, is here visiting her niece, Mrs. Frank Perkins and Mr. Perkins.

Judge Moss Attends Democratic Meet

Judge A. S. Moss attended the State Democratic meet and barbecue at Fort Worth Tuesday of last week. Mr. Moss reports that Governor Beauford Jester's speech, which was published in all daily papers expressed generally the feeling of the delegates to this meeting.

Jester's speech brought out the thought that the Democratic party members in Texas could have more influence with the National party and bring more weight to bear in that convention by sending delegates uninstructed as to a nominee for the president's office.

Especially as to disputed issues, such as the Tideland question and the issue of civil rights does the state need to make their voice heard, it was pointed out.

Mr. and Mrs. C. C. Hackney spent last week end with relatives at Carlsbad, N. M.

Friedrich Elbert was the first president of the German Republic.

SUB ROSA... Secretary of the Navy John L. Sullivan informed congress that submarines 'not belonging to any nation west of the iron curtain have been sighted off our shores.' He said that Russia has five times as many subs as Germany had at beginning of World War II.

Mrs. Zeb Baker of Dallas was here last week visiting her mother, Mrs. E. M. Whorton, who accompanied her home Monday for several days visit.

You Can STEP OUT AHEAD with Mc CORMICK-DEERING HAY MACHINES

The farmer who chooses a McCormick-Deering Hay Machine is getting a great background of equipment leadership and success on his side.

Through all the years of hay tool development, McCormick-Deering has played a leading role. McCormick-Deering QUALITY early became a standard by which other equipment was judged.

To farmers interested in perfecting a speedy, dependable method of harvesting hay, we want to say this: "Look into the complete McCormick-Deering line. There's a modern machine for every step in your job, and we'll be glad to show or tell you all about them."

MASTER CLEANERS MR. AND MRS. REECER

HAVE YOU SEEN THE NEW Sargent Side Delivery Rake?

We have sold a number of these new Rakes here. They are of tubular construction, sturdy and built to last a life time. Enclosed bearings keep out dust and dirt. Equipped with 16 inch drop center rims.

The Sargent Side Delivery Rake will rake more hay per hour cleaner and faster than any other rake. The Sargent Rake will treat your hay easier and make smaller wind rows without bunching or knotting the hay, making it much easier for the pick-up baler to get it.

To fully realize the potentialities of the Sargent Side Delivery Rake and know what it will do for you, you must see it in action.

If interested in one of these rakes, see us very soon. The supply is limited.

**Sterley News**

By B. A. HOWELL

The Baptist meeting is still in progress and will likely close Wednesday evening. We are having very nice crowds who seemingly are both attentive and appreciative. Rev. Campbell is doing some wonderful preaching and Rev. Johnson is doing some mighty good singing with his wife as organist.

Miss Evelyn Bobbitt of Amarillo visited over last week end with her father and brother, Bert and James Bobbitt north of Sterley.

The W. T. Perry home enjoyed a visit last week end from their daughter and family, Mr. and Mrs. Bob Rochell and Patsy and their cousin, Mr. and Mrs. Elvin Galloway all of Paducah.

H. C. Presler, special agent for the Denver was transacting business in Sterley Thursday.

Mr. and Mrs. Joe Reeves and Mrs. B. A. Howell was in Lubbock on business last Thursday—in some rain, too.

Mrs. Jessie Foster and J. D. accompanied Mr. and Mrs. Nolan and Strawn Friday and returned Monday.

Everett Rivers had his parents from Turkey visiting in their home over the week end.

Mrs. L. A. Claborn left Monday for several days visit with her sister in Phoenix, Arizona, and from there she anticipates visiting her mother and brother in Elcentro, California. Mrs. Claborn motored to Amarillo where she finished her journey via Rock Island.

Mr. and Mrs. C. E. Russell, our night operator with the Denver, with their son, Ronnie, visited in Jayton over Sunday, returning for his regular duties at nine thirty that evening. They report a pleasant trip and enjoyable visit.

Mr. and Mrs. Moon Mullins spent a very happy week end with their daughter, Mrs. Denton from Lovington, New Mexico, and their son, W. B. Mullins Junior, and his wife from Brownfield, Texas.

**Soil Conservation District News**

Don't forget our annual field day Thursday, May 6. It will start at 10 A. M. in front of the Beacon office at Lockney. All farmers and business men are invited. There will be a free barbecue at noon at Lockview farm. The tour should end round 4 o'clock.

Lines have been run to develop an irrigation well for E. O. Cates of Floydada and C. W. Bond of South Plains.

J. B. Smitherman of South Plains had some lines run to water wheat.

Contour guide lines for contour planting have been run for T. C. Herring and Leighton Dorrell, both of Floydada.

A high point for an irrigation well was set for Jim Simpson of Floydada and one for W. H. Mayo of Sand Hill.

Mrs. M. P. Bales, son and daughter, of Albuquerque, N. M., and Mr. and Mrs. R. D. Proffitt of Capulin, N. M., were visitors in the home of J. B. Johnson the past week.

Huguenots were French protestants of the 16th century.

REAPPEARANCE... Apparently considered harmless by the Communists, President Eduard Beneš of Czechoslovakia was permitted to make his first speech since the Red coup in that nation. He presented a renewed charter to Charles university at Prague.

**Commissioners Contract Sale Of Road Bonds**

Sale of the \$500,000 road bond issue of Floyd county contracted for tentatively by the Commissioners court of Floyd county Wednesday April 14, was formally ratified by unanimous vote of the Commissioners the following Monday.

Rates of interest which the bonds will draw under this contract, if the sale is finally consummated:

For the first \$84,000 in bonds maturing April, 1949 to April 1, 1954, 2 1/2 per cent;

For the next \$116,000 in bonds maturing April 1, 1955, April 1, 1960, 3 1/4 per cent;

For the next \$200,000 in bonds, maturing April 1, 1961, to April 1, 1972, the rate will be 3 1/2 per cent.

The bond buyers put a check for \$5,000 on the deal, as evidence of good faith, but the county is to hold the check uncashed pending delivery of the bonds.

The bonds contracted for at par plus accrued interest, H. L. Sheaffer signed the contract for H. L. Sheaffer and company of Amarillo, Jack Morris for Hatcher & company of Dallas. All the commissioners and the judge signed for the county Chas. Smith, Commissioner of Precinct No. 2, made the motion that the only bid submitted be accepted and the motion was seconded by Fred N. Clark, Commissioner of Precinct No. 1.

All bonds will be in denominations of \$1,000, numbered 1 to 500. The first bond will be dated April, 1948. They will mature as follows:

\$5,000 worth of the bonds will mature April 1, 1949, \$15,000 in each of the years 1950 to 1952, \$17,000 each in 1953 and 1954.

In 1955 and 1956 the maturities jump to \$18,000 per year, and beginning in 1957 the maturities total \$20,000 for four years to and including 1960. For the four years 1961 to 1964 the bonds mature in totals of \$22,000 per year, and in the four year period 1965 to 1968 the maturities are \$25,000 per year. In 1969 and 1970 years each \$27,000 will be due. In 1971 the county contracts to pay \$28,000 and in 1972 the last year \$30,000.

Confidence that the state's surplus

highway fund account may be taking care of the payments for Floyd county taxpayers long before the heavier maturities accumulate has been expressed. However, no promise has been made in this connection.

Oliver Cromwell who ruled England between 1649 and 1658 was a commoner.

Mr. and Mrs. Edwin Hammonds and children, Mr. and Mrs. Oscar Phillips visited Sunday with Mr. and Mrs. A. C. Carthel and children at Floydada.

From the cotton seed destroyed annually by insects in Texas more than 50 million pounds of cotton seed oil could have been produced in the 10-year period 1937-47.

## B&PW Club Meets With Mrs. Sams

The Business and Professional Women's club met Tuesday night, April 20 at the home of Mrs. Edsel Sams for a forty-two and bridge party. During the business meeting Mrs. Elsie Kunkel was voted as a new member.

Hostesses for the occasion were Mrs. Sams, Mrs. Clara Copeland and Mrs. Lucy Dean Record.

Refreshments of strawberry short cake, coffee and mints were served to the following: Meses, Velma Cox, Faye Messer, Wilma Brown, Mary Ida Rose, Bernice Miller, Pearl Martin, Margaret Dorman, Wanda Baker, June Bybee, Alma Dutton, Lucille Maier, Rex Jackson, Estelle Powers, Elsie Kunkel and the hostesses.

## Mrs. Louis Cummings Hostess To H. D. Club

The Lockney Home Demonstration Club met on Thursday, April 22, in the home of Mrs. Louis Cummings.

After the business meeting Miss Lella Petty, county home demonstration agent gave an interesting demonstration on "Home Improvement and Lighting the Living Room."

All members and former members of the club, were urged to attend a tea given in the Legion Hall at Floydada on Friday, May 7 at 2:30.

Lovely refreshments served to 13 members and one visitor.

The next meeting the club will entertain the Pleasant Valley club with a musical program in keeping with National Music Week. The meeting will be held in the home of Mrs. Joe Parrish on Thursday, May 12, at 3 o'clock.

TYPEWRITER RIBBONS — Any make, 85c up at The Beacon office.

## Junior-Senior Banquet Is Gala Affair

DIAMOND JIM'S TAVERN, April 23, 1948—Yes, Diamond Jim's Tavern was the scene of the LHS Junior-Senior banquet. It was gaily decorated with streamers of pastel shades hung from the ceiling and balloons, bars singers, a quartet of waiters with mustaches and derbys, and tables. All these made the night perfect.

As the guests arrived they were escorted to their reserved tables by the waiters, who were Sophomore boys. They then had their choice of drinks—white or pink zombies. Awaiting the arrival of the other guests they were entertained by the old fashioned "barber shop quartet" composed of Jack Cole, Sid Thomas, Herbert Watson, and Larry Godfrey, and music by Joyce Carthel and Beth Kellison.

The toast of welcome was given by Bobby Carthel, the Junior class president, and the response by Bob Logan, the Senior class president. Martel McDonald then told the class history and Eldora Jameson sang "She's Only a Bird in a Gilded Cage."

Patsy Harris read the class prophecy and Mary Pearl Carthel read the class will.

Darkness then flooded Diamond Jim's Tavern and the banquet favorites were presented in the spot light. The favorites were:

Best Citizens—Patsy Harris and Edwin Langford.

Most Representative—Glynne Earle Norman and Roy Glover.

Most Popular—Erma Hall and Robert Daniels.

The girls were given pretty compacts and the boys tie clasps. The sponsors were also presented with compacts.

After the presentation of the favorites the dramatization of "The Shoot-

ing of Dan McGrew" was given. Miss Harris, the Junior sponsor, recited the words as Jimmy McGowan, as Dan McGrew, played solitaire, as Janelle Ferris, as Lou, watched. Then from the cold winds Herbert Watson, as the stranger, entered the tavern and ordered drinks for the house from the bar tender, Delbert Shearer. The Stranger seeing that Dan McGrew had taken his girl, Lou, drew his guns and thus ended the life of the Stranger and Dan McGrew.

Concluding a wonderful banquet, the group sang the school song, "Dear Old Lockney High."

April 23, 1948, will long be remembered by all who attended Diamond Jim's Tavern thanks to the careful planning and decoration by the Junior Class and their sponsors, Miss Harris and Dan McGrew.

Mr. and Mrs. J. J. Harris, Mr. and Mrs. Jesse Harris and family and Rev. and Mrs. H. G. Walton visited their daughter and sister, Mrs. Z. D. Davis and family at Clarendon Wednesday.

Mr. and Mrs. Doyle Raper of Plainview visited with his parents, Mr. and Mrs. Norvell Raper Sunday.

Mrs. Maud Shurbet of Sandhill spent the week end with her sister, Mrs. V. D. Harris and Mr. Harris.

## P. T. A. Will Meet Tuesday, May 11

The Parent Teacher Association of Lockney will meet on Tuesday night, May 11, it was announced this week. This meeting will be held to make up for the April meeting which was postponed.

The program will include showing of some films and the installation of officers for the coming year.

All parents and other interested in the school are urged to be present.

Mrs. C. E. Turner of Pueblo, Colo., Mr. and Mrs. Curtis Turner of Amberst, Mrs. Alice Turner and mother of Plainview visited in the V. D. Harris home here Sunday.

Rev. and Mrs. H. G. Walton of Center Point, Texas, visited her parents, Mr. and Mrs. J. J. Harris this week.

A very pistol is one used to fire illuminating rockets.

COMING—The Senior play, "Feudin' in the Hills," on May 7. Don't miss it.

## This Man Favors A 'Dickle' Cup Of Good Coffee

NEW YORK.—Edward Walsh Mehren is going to Washington with an idea he says will save the public 5 billion dollars a year.

The billions of dollars savings estimate comes from Mehren's figures shown: Americans drank 25 billion cups of nickel coffee in 1939. Today that coffee ranges up in price to a dime. Drinking nickel coffee would save 625 million dollars a year, he says. It is the same with other such things.

He wants a 'dickle' or maybe a jime.

That is, he wants the United States to make coins worth 2 1/2 cents, 7 1/2 cents, and 12 1/2 cents.

His friends suggested the coin halfway between a dime and a nickel be called a "dickle," or "jime" for jimey and dime. That would make the 2 1/2 cent piece a "pickle" for penny and nickel, or "jenny" for jimey and penny. The 12 1/2 cents coin of course would be a "bit," two bits being a quarter.

For nearly a year Mehren has been on his crusade for fractional coinage. Now the Beverly Hills, Calif., soft drink manufacturer is heading directly for President Truman.

Mehren argues this way: America has only four coins worth a quarter or less. But Britain has six, and The Netherlands and Sweden each have seven coins worth a quarter or less.

With the addition of three new coins, the United States would have seven, too.

They would be used for soft drinks, sales taxes, telephones, street car and bus tokens, magazines, newspapers and all other commodities and services that are too cheap at 5 cents and too expensive at 10 cents," says Mehren.

"Everybody is for it," he said. "I've got hundreds of letters from all over the country. This is a thing America needs. The people want it. And I'm going to get a plank in both the Democratic and Republican platforms at Philadelphia calling for this currency reform."

"It will take a lot of silver. Western Senators would not oppose that. But then I also propose to abolish the silver dollar and half dollar."

"Nobody ever uses them any more."

Brother, can you spare a jime!

## Doctors Discover Method To Keep Flowers Forever

PATERSON, N. J.—Two brothers, Drs. Philip and Sidney Joffe, announced the discovery of a solution that will preserve freshly cut flowers forever.

Their secret process fixes the cell structure of the flower and preserves its color, form and texture. The flower loses its fragrance, however.

The brothers had worked on the solution in collaboration with an uncle, Philip Joffe, for the last eight years.

The preparation will go on sale in a department store in New York at "a reasonable price," they announced.

There are three steps in the preservation process, Joffe said, and they will be simple enough for any housewife to perform.

First, the flower is dipped into a solution that dehydrates it, fixing its form and stopping bacterial decay. It is then dipped into another solution and dried.

A third solution establishes a permanent acid-alkaline balance in the flower.

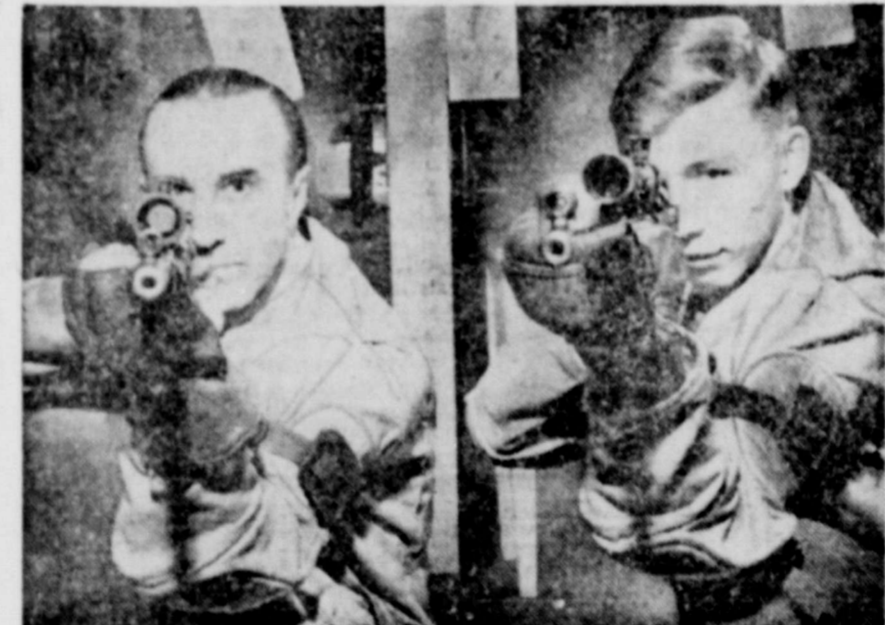

When finished, the flower is in a fixed state of preservation that is impervious to heat, cold or time.

When a fellow buys his gal an orchid for a dance, she can put it away after the dance until the next time. All she'll have to do is dust it and pin it on again, Joffe said.

Misses Beulah Fae and Eugenia McClure of Lubbock visited last week end with their parents and sister, Mr. and Mrs. W. E. McClure and Zelma.

SHIPBOARD WATCH IN EGYPT...As a welcome relief from pictures of profound significance, this is just a photograph of an Egyptian camel driver standing on top of his camel in front of one of the pyramids of Giza and looking for whatever camel drivers look for in Egypt. Probably more camels.

BIG SHOT COMBINATION...Number one father-and-son combination rifle team in the U.S. in 1948 were Harry J. Grimesey (left) and son Robert, 17, of Janesville, Wis. Grimesey, senior, a supervisor in the Parker Pen company plant in Janesville, recently set a national record of 199 for the prone and kneel positions. Bob is an Eagle scout as well as a champion marksman.

PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

### NEW SHEEP DISEASE REQUIRES WATCHING

A relatively "recent" disease of sheep—listerellosis—is posing a potential threat to the sheep industry in this country.

A typical case of listerellosis.

ken out in several new areas, and the locusts in each outbreak have been very severe.

Listerellosis is sometimes known among sheep raisers as "circling" disease, because the germ damages the brain and causes the sheep to walk in circles, or to stagger, push their heads into fences, or fall to their knees. It may also cause inflammation of the eye, and it sometimes causes eyes to lose their luster. Sick animals frequently become completely paralyzed before death.

Thus far, no effective vaccine has been developed for controlling outbreaks of listerellosis. If an outbreak of the disease is suspected, the first control step is to obtain an immediate diagnosis by a veterinarian. This is essential because listerellosis resembles several other sheep infections, and laboratory diagnosis may be needed to determine the exact germ responsible for the illness. Sick animals should be isolated from the rest of the flock, and every possible sanitary measure should be taken, to help save the rest of the animals from exposure.

LETTERS from our READERS

(Editor's Note: This column is for readers to give their views on matters of current interest and the opinions expressed herein are not necessarily those of this newspaper.)

To the Voters of The Great State of Texas:

I am not a candidate for any office. Nor am I trying to serve any interests other than our aged Pensioners of Texas.

There is a proposition on foot to deliberrize our aged fathers and mothers to put a lein on any property they may own if and when they get welfare assistance from the State of Texas.

It is a shame and disgrace to our aged to even suggest such a thing. After they have stood the hardships of storms, floods, cold, dust storms, prairie fires and all other privations to make Texas one of the richest states in the U. S.

The good people voted for pensions more than 4 1/2 to one, and for the money to pay pensions more than 3 to 1, and to have our senators and representatives juggle with the moneyed interests of our state and out of state to starve our aged is a shame and a disgrace to the Lone Star State of Texas.

I am for the aged 100%. I love their cause and will be glad to give any information I can if you will only write or call on me. My address is J. L. Dagley, Box 216, Lockney, Texas. President of Texas United Pension Association.

Los Angeles, California April 26, 1948

Dear Mr. Hays,

While reading the Beacon I saw Mr. Harris' suggestion of a reunion in Los Angeles, I think it would be a good idea too so I am sending my address. It is Mrs. Ray Fox (formerly Lois Mangum) 1785 Beloit Avenue, West Los Angeles 25, California.

The Beacon has been coming regularly each week for the past five years

I've been here and I wouldn't miss getting it.

Sincerely, Mrs. Ray Fox

Gainesville Circus Coming To Lubbock

Gainesville Community Circus, "the only show of its kind in the world" is coming to Lubbock.

Arrangements have been made by Federation of Women's clubs and Lions club of Lubbock which is sponsoring the appearance of the big amusement enterprise in Lubbock, for four performances to be given on Friday and Saturday, May 7 and 8 at 2:30 p. m. and 8:00 p. m.

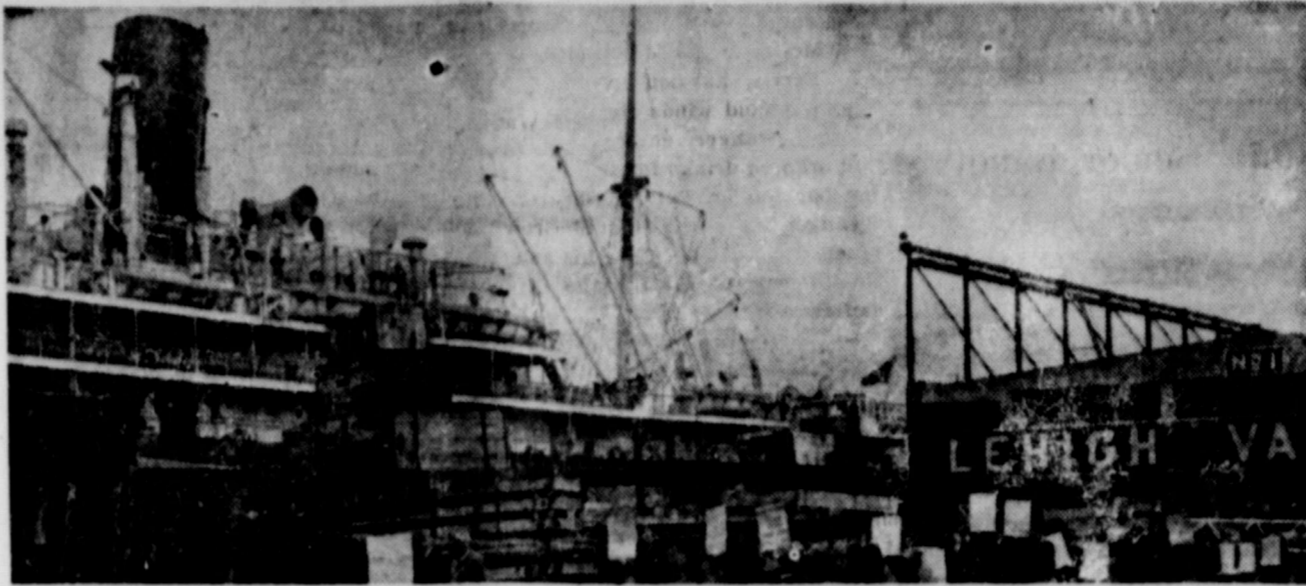

Gainesville Community Circus is a complete three-ring exhibition of artists, including acrobats aerialists, tight wire performers, trained horses, ponies, dogs and monkeys and two score clowns, but it is presented entirely by citizens of Gainesville, Texas, who in every-day life are lawyers, doctors, business men, clerks, housewives, soda dispensers, school teachers, delivery boys and students.

The circus has won renown for the entertainment quality of its two-hour performance during which 100 feature acts are presented, and has been filmed 11 times for motion picture shorts, newsreels, and television, and been featured on several coast-to-coast network radio programs. Likewise, it has been the subject of feature articles in Saturday Evening Post, American Magazine, Readers Digest, Coronet, Magazine Digest, Readers Scope, Popular Mechanics, Popular Science and scores of others.

Despite the fact that it is a non-professional show, it is, nevertheless, the third largest circus in America in number of performers participating in the program, and it's likewise the third oldest circus in this country, having been established in 1930.

The circus will be brought to Lubbock in its entirety, and will exhibit under its huge flameproof big top seating 2,500 persons.

Reserved seat tickets for the performance may be obtained in Lubbock at the ticket booth in the lobby of the Hilton Hotel.

VETERANS PICKET RUSSIAN SHIPMENTS . . . It seemed to the Catholic war veterans of Jersey City, N. J., that there was little or no moral parity in a situation where the U.S. was, on the one hand, going all out in the fight to stop communism and, on the other hand, continuing to ship materials and machinery to Russia. So they protested. Picture shows the Catholic war veterans of Hudson county, N. J., as they picketed the Russian freighter Chukotka at the Lehigh Valley docks at Claremont terminal in Jersey City. One sign says: "Supply today, draft tomorrow."

Last Band Concert Has Large Attendance

The final concert to be presented this school year by the Lockney High School band was well attended. The concert was held last Friday night and the city auditorium was well filled for the performance.

Mrs. J. B. Seale, president of the Band Mothers Club announced that the club was now free of debt and had approximately \$150 in the treasury.

At the concert last Friday night, J. B. Seale bought an International Freezer, which had been donated to the Band Mothers by Hammond & Company of Lockney. The freezer was auctioned off by Wilbey Baccus and brought \$195.

Little Miss Reba Cook, daughter of Mr. and Mrs. A. B. Cook, was awarded the Frigidaire refrigerator which was given away.

"We certainly appreciate the fine support the people of the community have given the band this year," Mrs. Seale said. "You have been very loyal and we all appreciate your support."

Plan Party

The Band Mothers Club will give a party for the band members and their families at the Hilburn Casey home, eight miles northeast of Lockney on Monday night, May 10.

Luther Cooper New President Of Rural Letter Carriers

PETERSBURG, April—The South Plains Rural Letter Carriers association met in Petersburg Saturday evening at 8 o'clock. The association is composed of several south plains counties and carriers attended from Rosaring Springs, Silvertown, Lockney, Plainview, Floydada, Kress and Idalon.

Officers were elected for the coming year. Luther Cooper, Lockney was elected president; S. L. Powell, Floydada, vice-president and Tom Holland, Floydada, secretary.

The retiring officers were G. N. Shirley, Floydada, president and W. O. Foote, secretary.

At the meeting of the Ladies Auxiliary, Mrs. Clyde Martin was elected secretary. There were 14 carriers and 10 ladies present for the quarterly meeting.

Mrs. Harve Pennington was returned home from the Plainview hospital Monday after receiving treatment for several days.

Maine Farmer and Wife Refuse to Accept Charity

BOSTON.—A Maine farmer and his wife, trying to live on \$15 until their very ill son recovers at a hospital, refused to accept help.

Residents of Boston deluged them with offers of food, clothing, money and transportation. But Lawrence Leeman, 31, and his 30-year-old wife, Marilyn, of Dover-Foxcroft, Me., responded with a firm "no thanks."

"Didn't know city people could be so nice and neighborly," said Leeman, whose year-old son Victor, is being operated on for malignant tumor at Children's hospital.

"Guess these people heard about us spending our money to bring the boy here for treatment. Mighty nice of them, but we still have \$15 left and all we want is for the boy to get well. Guess we can hitch-hike home well enough."

"Our switchboard has been tied up all day," a hospital official said. "Rich people, poor people and just everyday people have been calling up offering help. Two families who were dispossessed from their homes in Dorchester called to say they'd like to help."

But Leeman, a slow-talking Yankee, insisted he wanted no help. "Not to us," he said. "We're hard-working people. We handle our farming by ourselves and we don't believe in asking other folks to share our burdens."

Mrs. Leeman nodded agreement. "Thank you kindly," she told the hospital officials, "but we don't believe in being beholden to folks. It's just our way of doing things up in Maine. No offense meant."

Mice Perish in 25 Minutes At 35 Degrees Below Zero

WASHINGTON.—Survival time of various warm-blooded animals kept in cages at a temperature of 35 degrees below zero has been determined by the Army Quartermaster corps. The series of tests were conducted in the cold room of Harvard's fatigue laboratory.

Mice succumbed quickest under such an exposure, dying in less than 25 minutes. Canaries were next, surviving for only 36 minutes. White rats lasted between 45 minutes and 2 hours. Some rabbits died in three and a half hours while others not for six and a half hours.

Some white leghorn chickens perished in less than three and a half hours while others managed to stay alive for twenty-nine and a half hours.

Army carrier pigeons put up the greatest resistance to the frigid temperatures: None died in less than 22 hours, and one lived for 78 hours. This hardness may provide clues to the high survival of half-wild park pigeons under tough city conditions.

None of the animals hopped or fluttered about in an effort to keep warm. Instead, they hunched themselves up as compactly as possible, presenting a minimum body surface to the cold.

Walter Camp is regarded as the father of American football.

WHATEVER HAPPENED TO CHOP SUEY?... Introduced at Lake Success, N.Y., to the traditional American dish of bread soaked to the saturation point in meat gravy, Florence Wu registers complete and wide-open approval, while Charles and Roger Langston, British twins, look with some suspicion upon her ladylike use of a fork. The children's parents are United Nations personnel.

Fewer Veterans In College Make Room for Others

CHICAGO.—It's going to be much easier for non-vets to get into college.

Alonzo F. Myers, president of the National Conference on Higher Education, said at a press conference here that colleges throughout the country report a dropping off in the number of vets applying for admission.

As a result, he said, there will be more room for other applicants in most colleges.

But despite the reduction in vet applicants, Myers emphasized, colleges still can accommodate only a fraction of those applying for admission. And from present indications, he said, the number of those seeking to enter college will expand in the coming years.

Myers, who is chairman of the department of higher education at New York university, said he was hopeful that colleges would offer a greater variety of courses.

"I can see nothing wrong," he declared, "in a college offering a course in auto fender and body reconditioning, as one college out west has done."

"This business of rationing education is crazy," he added. "There ought to be adequate provisions to give everyone who wants education that amount and that kind which his potentialities warrant."

College Men Reject Jobs As Models for Art Classes

WASHINGTON.—Despite its record enrollment, the University of Maryland has hung out a help wanted sign among the students at College Park.

Girls are clamoring for the jobs, but there are no vacancies for them.

All Joe College has to do to earn about 50 or 60 cents an hour is sit still. But there have been few takers. Art Director Maurice R. Seigler gave a clue to the shortage.

He wants the men to model for his art classes.

Jeff H. Fowler of Lang Branch, N. J. is here visiting his parents, Mr. and Mrs. J. H. Fowler.

COMING—The Senior play, "Feud in the Hills," on May 7. Don't miss it.

### Use 2, 4-D Weed Killers Carefully

While farmers and others are urged to use 2, 4-D as an effective agent for killing or controlling bindweed and other broadleaf weeds, the weed killer 2, 4-D will also kill your tomatoes, cucumbers, sweet potatoes, peas, beans, fruit trees, ornamentals, and some field crops if you are not careful in using it. County Agent, A. L. Hartzog, warned this week as the weed control season gets under way.

Last year cotton at several points along the Gulf Coast was injured when 2, 4-D dust drifted in from nearby rice fields. In many cases, cotton has been planted right along side rice. When the rice was sprayed with 2, 4-D, the wind carried it on over into the cotton field, badly damaging the cotton plants. Since the esters of this poison evaporate and drift away in the air so easily, they should not be applied close to plants they are likely to kill.

The chemical 2, 4-D should not be stored in buildings where seeds, fertilizers or insecticides are handled because there is a very good chance the 2, 4-D will ruin it.

### TCU JUNIOR CLASS BEAUTIES

Selected by vote of their classmates for full-page pictures in the "Favorites" section of the 1948 Horned Frog—TCU yearbook—are Jeanne Webb, Waxahachie; Mopsy Morrison, Midland; and Jo Ann Rutherford, Waxahachie.

A committee of research and extension workers, crop growers and chemical manufacturers appointed by Dr. R. D. Lewis, director of the Texas A. & M. College Agricultural Experiment Station, has issued the following warnings on the use of 2, 4-D:

1. It is not a good idea to use 2, 4-D in the dust form because it may drift several miles onto field crops or gardens.
2. If a good strong wind is blowing, even the spray form is dangerous.
3. Be sure your equipment is in good condition before you start.
4. Use a separate sprayer for 2, 4-D: it is hard to thoroughly clean 2, 4-D out of a sprayer.
5. Pressures blow 75 pounds per square inch for your ground sprayers, and the nozzles producing coarse sprays are the best.
6. When using planes for spraying, don't get closer than half a mile to susceptible crops downwind. Don't spray when wind is blowing more than 3 miles per hour.
7. Employ only pilots who know their business. (See No. 6)
8. Esters evaporate quicker than other forms of 2, 4-D. These fumes can cause quite a bit of damage, so it's best not to use them except under competent supervision.
9. If you can prevent the drifting sprays, dust and fumes you will save many of your crops which would otherwise be damaged.
10. Talk it over with your county agent or other men who know about the best times to use 2, 4-D. Don't overdose your crops.

Mr. and Mrs. R. P. Shelton of East Afton were here visiting friends and relatives, this week. They recently moved from Lockney to East Afton.

### Farmers Urged To Rotate Pastures Also

COLLEGE STATION—Since the war, English farmers have seen a big increase in their pasture land. During the war, they plowed up pasture land and used it for crops. Since the war they have put that land back into pasture, and have got better yields than they had before. They found that a short-lay pasture gives bigger yields than a permanent pasture.

The USDA is trying the same thing on pastures at Beltsville, Maryland. Side by side with their permanent pastures, they are growing meadow crops as part of a rotation, and find the rotation pastures yield more than the permanent pasture. What's more, the cows are getting more nutritious feed from a better mixture of legumes and grasses through the use of temporary or rotational pastures.

Robert R. Lancaster, extension pasture specialist of Texas A. & M. College, says this might also apply to bermuda grass in Texas which is difficult to destroy. After a few years it can be allowed to return to pasture. Rhodes grass seems to weaken after four to six years, and may be profitably replaced by cultivated crops.

Weeping love grass also may be changed to a new location after a few years. It will give better yields if moved on rotation, and is an easy grass to establish.

When a pasture is plowed under, an appropriate fertilizer, especially nitrogen, will be needed, says Lancaster.

Have you seen this amazing new Range?

### The MAYTAG Dutch Oven Gas Range

- Cooks superbly by conventional cooking methods
- Cooks automatically; you don't even need to be there
- Cooks by the never-equalled Dutch Oven method

Come in today and see its many features. See the Sizzle Service Broiler, shown at left. See how the Spiral Flame burners focus the heat—and save gas. Note how easily it's kept sparkling clean, because top and burner bowls are all in one piece of porcelain. In every way you'll find the Maytag Dutch Oven Gas Range is truly outstanding. **Watch Your Kidneys!**  
Help Them Cleanse the Blood of Harmful Body Waste  
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.  
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.  
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Ya kin git lonesome on th' range fer another feller t'talk to; but in town ya sometimes git lonesome fer yerself!

Increase Production Cut Labor Costs with this **3 Purpose Machine**  
for Dirt Moving, **LAND LEVELING**  
... and Seed Bed Preparation

HERE'S A LABOR-SAVING, MONEY-MAKING MACHINE.

With an Eversman you get land in table top condition quickly and easily. Eversman-leveled fields irrigate themselves. You save time, labor, water, grow better crops—mechanized equipment works faster, more efficiently. The Eversman levels land **AUTOMATICALLY**—when wheels go on high place blade lowers to take a cut, when wheels go into a low place blade raises to release dirt—breaks clods, firms and packs the surface, forming a finely pulverized seed bed as the machine moves along.

Same machine is fastest dirt mover on the market today for power required. Excellent for rebuilding fields. After dirt is moved it can be graded down and **AUTOMATICALLY LEVELED** with the same machine. Here's a 3-way machine used for dirt moving, leveling, for maintaining contours, soil conservation work and preparing seed beds year after year.

UNVEILING OF F. D. R. STATUE IN LONDON... Some of the distinguished guests stand in front of the 10-foot statue of former President Franklin D. Roosevelt after the unveiling ceremony in London's Grosvenor square. British people subscribed more than \$160,000 to honor the wartime President of the United States. Mrs. Eleanor Roosevelt, Prime Minister Clement Attlee and King George and the royal family were present for the occasion.

## Weekly SURPLUS NEWS

Two locations near San Antonio will be swept clean of unneeded war surplus by a War Assets clearance sale on May 12, 13 and 14. The goods are stored in WAA's San Antonio Warehouse Number One and at army depots of Kelly Field. The total offering will represent materials which cost the government originally a quarter of a million dollars. The lots to be awarded on a high bid basis will include office machines, furniture, textiles, hardware and plumbing, portable electrical power units, industrial machines and miscellaneous automotive vehicles. It will be one of the few remaining sales of surplus personal property involving sizable inventory to be held by WAA in Texas. Priority groups and commercial buyers are invited to inspect May 12, with veterans buying May 13, and all others buying May 14.

War Assets extended its rules further this week to accommodate emergency needs of the armed forces. Hereafter sales announcements will carry the line "Items currently being purchased by the federal government for National Defense are subject to withdrawal up to time of a commitment for sale." This will mean that on all sales offerings of materials conceivable of use to the military the army, air force, navy and maritime commission will have the right to claim goods any time prior to their award to any buyer or claimant. Generally, any withdrawals will have to be in whole lot rather than in separate items.

Eight more buildings unclaimed by priorities will bring to 215 the number of Pampa Army Air Field structures available for civilian housing at a War Assets location sale scheduled for May 4, 5 and 6. The field will be open for inspection by prospective buyers beginning April 22 and continuing to the sale date. Each of the buildings will be sold without regard to priority to the highest bidder.

Another powerful institution against tuberculosis in Texas, will

## Pioneers Set Get-Together

Pioneers of Floyd county will have their annual get together or reunion on Friday, May 25, this year.

This was the decision Saturday of a gathering of officials and members who had a session in the county court room to make plans and appoint committees. The date is the same day in the month as that 58 years ago when the county was founded.

W. A. Gound, president of the association, called the advance meeting, and a meeting to check on progress was set for Saturday May 1.

The parade, the memorial ceremony the display of relics of early days, the annual dance and the special dinner were planned in a general way. Committee chairman who are to read and committees named to get arrangements under way for them.

Report on progress on May 1 were named as follows:

Chairman Are Named

Seating committee chairman, R. H. Willis;

Parade chairman, Oscar L. Stansell, Registration chairman, Mrs. S. W. Ross;

Chairman of Memorial committee: Mrs. L. M. Honea;

Relics and antique chairman, C. L. Anderson;

Chairman of old-fashioned dance committee Ray Jones;

Chairman of table arrangements Ham Smith;

Special dinner chairman, Geo. L. Fawver.

spring into being as the result of transferring 2,323 acres and 493 buildings of former Camp Fannin, near Tyler, to the state board of control last week. The War Assets Administration approved the transfer at nominal cost. Many of the present buildings will be converted and the state will begin the installation of what will become a 2,000 bed tubercular sanatorium. This second such transaction approved by the government for Texas in less than a month. The other transfer involved property of the Moore Army Air Field, near the Rio Grande valley cities of Mission, McAllen and Edinburg.

Schools and similar non-profit institutions will benefit under an expanded discount program put into effect this week by WAA. Public benefit discounts of 9 per cent of fair value hereafter will be allowed on most types of materials needed by qualified institutions and available in surplus stocks. However, as pointed out by Grand Prairie Regional Director Karl Wallace, eligible schools and others claimants already have received about ten million dollars worth of surplus in the five states of the southwest, pretty well exhausting supplies of a type usable by them.

Surplus chapels are appearing less frequently on WAA sales lists. But two such church structures are now available at government installations in the state of Arkansas. One chapel is located at the Blytheville Army Air Field, while the other is at the air field near Stuttgart, Arkansas. Both structures are for future use as houses of worship shrines or memorials. Application blanks and further information will be furnished by the Grand Prairie office of real property disposal.

**SHATTERED BUNKER HILL . . .** The word "tornado" invariably calls to mind two accompanying descriptive terms, "death and destruction," and in the case of the twister that howled through west-central Illinois those adjectives were as appropriate as ever. It cut a furious swath through an area 50 miles wide and 100 miles long, leaving behind a death toll of 31 and a trail of shattered residences. Hardest hit community was Bunker Hill, almost completely destroyed by the force of the tornado. Inset shows a closeup of one of many houses that were shattered like cardboard toys.

**Mother Of H. P. Parker Dies**

Mrs. Louisa Parker, 93, mother of H. P. Parker of Lockney and a resident of Wilbarger County for 41 years, died at her home in the Fargo community, near Vernon, about 2:30 p. m. Monday of last week after a short illness.

Mrs. Parker, a member of the Baptist Church, was preceded in death by her husband, Joseph H. Parker, who died January 26, 1940. She was born in Tennessee in 1854 and married on November 5, 1875.

Funeral services were held in the Fargo Baptist Church at 2:30 Tuesday afternoon with the pastor, Arvil Richardson, officiating. Burial was in Vernon's East View Memorial Park.

Survivors include three sons, H. P. Parker of Lockney, Jesse T. Parker and Lee Parker, both of Vernon; one daughter, Mrs. Allie Emmett of Vernon; 20 grandchildren, 44 great grandchildren and 11 great, great grandchildren.

Mr. and Mrs. Parker of Lockney attended the funeral services returning home Monday of this week.

Rats alone destroy or damaged 200 million bushels of grain last year. If this much grain were all wheat, it would be enough to give one pound of bread every day for a year to 36 million people.

To straighten yarn that has raveled from a knitted or crocheted garment, wind it around a board, dampen it with water, and let it dry on the board. It will be as straight as a new skein.

**Univeristy Offers Radio Broadcasting**

AUSTIN—When University of Texas radio students complete studies in radio broadcasting and production, they know many fine points of the work, including how to make sound effects.

At Radio House, workshop on the University campus, students learn to produce sounds from gunshots to turkey gobbles, Assistant Director Gale Adkins reports.

A library of 250 sound effects records is supplemented from time to

time as new demands are made. Most-called-for among all sound effects is that of galloping horses, for many programs presented by Radio House have a Southwestern flavor.

It's easy to make a sound of horses' hooves, Adkins says. All that's necessary is to pound rubber plumber plungers or coconut shell halves against dirt or rock! And as for the sound of a cake being mixed, the students literally make mud pies, by stirring water into mud.

When it is impossible to produce a sound satisfactorily in the studio, the students take a portable wire recorder to wherever the desired sound

**VA Relieved Of Training Supervision**

The Veterans Administration Regional Office at Lubbock today relieved its training officers of all responsibility for the direct supervision of 14,354 non-disabled World War II veterans in training under the GI Bill in the West Texas Region, Robert W. Sisson, VA Manager, announced.

He said that the change will permit VA's training officers to devote more time to the needs of the 2,242 disabled veterans in training under the Vocational Rehabilitation Act (Public Law 16) in this region. The law gives VA full responsibility for the training and rehabilitation of these veterans.

In suspending supervision of GI Bill trainees by direct contact, VA called on all schools and business firms conducting on-the-job training to meet fully their obligations under the GI Bill. VA will look, with an increased extent, to the State Approving Agency to carry out its obligation to approve only schools and establishments that are fully qualified and equipped

to give good courses of instruction and that are otherwise satisfactory on the basis of current inspections.

Schools and job establishments are obligated to furnish effective education and training to each veteran they enroll and to promptly notify the regional office when a veteran stops his training, VA said.

The institutions must not keep a veteran in training any longer than his conduct and progress warrant. They must provide VA with reports of the veterans attendance and progress. VA will use these reports, along with spot checks of veterans in GI Bill programs, to safeguard the veterans rights to adequate training and to prevent possible fraud against the government.

The new supervision policy varies among the different types of training institutions. No change was made among colleges and universities which already have the responsibility to supervise all veteran students they enroll. VA will use periodic conduct and progress reports and spot checks to supervise ex-servicemen and women in other schools and in job-training es-

tablishments. Spot checks will be used in supervising veterans taking institutional on-farm training.

**CARL DWAYNE WILSON CELEBRATES 6TH BIRTHDAY**

Carl Dwayne Wilson was entertained with a birthday party given Friday afternoon by his mother, Mrs. Carl Wilson.

Cake and punch was served to the following guests: Minnie and Winnie Thurman, Bobby, Gene and Roger Lummus, Mary Jean and Anna Mac-Catlin, John Perry Truett, Earnestine Duncan, Barbara, Janell and Ruby Wilson, Mrs. Vera Lummus, Carl Dwayne and Mrs. Wilson.

Families that live by a plan will be more likely to maintain a smooth family living than those which do things in a hit-or-miss fashion.

REA recently approved \$150,000 for improvement of 19 miles of lines in Fayette county, and \$470,000 for 175 miles of line serving 631 in Hondo and Bexar counties in Texas.

**NEW CLOSING SCHEDULE**

**Beginning Sunday, May 2nd.**

The Drug Stores of Lockney—Powers Pharmacy and the Lockney Drug Company—will institute a new closing schedule in which the two stores will alternate in

**CLOSING AT 7 P. M.**

during the week while the other store remains open until the regular closing time.

BOTH STORES will be OPEN on Saturday nights, and Sunday morning until 11 a. m. The stores will also alternate in closing Sunday afternoon with one of the stores always being open until the regular closing time—6 p. m.

**STARTING SUNDAY**

The Powers Pharmacy will be closed Sunday afternoon, Tuesday and Thursday nights.

The Lockney Drug Co. will be closed Monday, Wednesday and Friday nights.

The following week the schedule will be reversed.

This new schedule is arranged because of lack of help and for the benefit of our present employees. We will appreciate your cooperation.

**In Case Of Emergency**

or if you need a prescription REFILLED, either Pharmacist will be available by calling the home telephone.

**Lockney Drug Co.

NOW AVAILABLE IN LOCKNEY!

**CO-OP PRESENTS A GREAT NEW OIL**

**FURFURAL**, A NEW SOLVENT MADE FROM OAT, RICE, COTTON SEED HULLS AND CORN COBS, BY THE CO-OP'S NEW PROCESS, KNOCKS OUT THE IMPURITIES IN OIL

**NAPHTHENIC COMPOUNDS** THAT CAUSE SLUDGE, CARBON & VARNISH IN MOTORS

-- AND AS A RESULT, THE FARMER, THROUGH HIS CO-OP, HAS THE BEST AND THE PUREST MOTOR OIL THAT MONEY CAN BUY!

**CO-OP PREMIUM MOTOR OIL**

This great new oil that is big news to oil users is the new Furfural Solvent Refined oil... it is available in two types: CO-OP PREMIUM and CO-OP HEAVY-DUTY.

Furfural is an amazing new filter, now being used in the Co-Op refinery to purge oil of Naphthenes—those elements in ordinary oils that cause sludge and carbon to form in your motor.

That's why the Co-Op Solvent Refined Oil is big news for your engine. It means the virtual elimination of motor-wearing carbon and sludge. It means instant lubrication on starting. It is the oil that will retain full 'oiliness' under greatest heat and flow freely even in coldest weather.

You'll like the great new Co-Op Solvent Refined Oil... your engine will like it too! Buy it at your local Co-Op.

Furfural is made of oat hulls, rice hulls, cottonseed hulls, corn-cobs, and other farm by-products. It cleanses oil of impurities that refiners have sought for years to get rid of, the impurities that cause sludge and carbon to form.

*Hope*

Grace Noll Crowell

**T**HIS would I hold more precious than fine gold,  
 This would I keep although all else be lost:  
 Hope in the heart, that precious, priceless thing,  
 Hope at any cost.

And God, if its fine luster should be dimmed,  
 If seemingly through grief it may be spent,  
 Help me to wait without too much despair,  
 Too great astonishment.

Let me be patient when my spirit lacks its high exuberance, its shining wealth,  
 Hope is a matter, often, God, I know  
 Of strength, of health.

Help me to wait until my strength returns,  
 Help me to climb each difficult high slope,  
 Always within my heart some golden gleam,  
 Some quenchless spark of hope.

**Cotton Carryover Lowest In 20 Years**

**AUSTIN, Tex.**—The carryover of cotton in the United States at the end of this cotton year, July 31, will be one of the lowest for more than 20 years, according to Dr. A. B. Cox, professor of cotton marketing, The University of Texas.

An estimated 2,500,000 bales of cotton will be carried over July 31. Likewise, the world supply of all commercial cotton is exceptionally low, 13,900,000 bales, or the least since August 1929.

The outlook for production in the United States is for some increase as a result of expansions in both acreage and probable yield per acre, Dr. Cox said. The world outside of the United States will likewise increase acreage to some extent.

If the European Recovery Plan is enacted by Congress, world consumption of cotton may easily approach 28 million bales during 1948-49. However, it is very unlikely that world cotton production for the year 1948-49 can reach that amount, Dr. Cox added.

The prospective value of the dollar six or seven months from now is of paramount importance in the cotton market situation according to Dr. Cox. "The enactment of the European Recovery Program and tax reduction will be strong inflationary medicine in the United States. If substantial advantages as a crop to grow this year because it has an international mar-

**Retail Sales Are Above Last Year**

**AUSTIN**—Texas retail sales hit an estimated \$460,000,000 in March, a 28 per cent gain over February, according to preliminary tabulations of the University of Texas Bureau of Business Research.

March sales were 15 per cent above the March 1947 level.

Sales of durable goods stores rose 27 per cent above February. All types of stores reported increases ranging from 17 per cent in sales of farm implement dealers to 38 per cent in lumber and building material dealers' sales.

Except for a 1-per cent decline in hardware store sales, all types of durable goods stores shared in the 20-per cent rise over March 1947 sales. March-to-March gains ranged from 7 per cent in furniture store sales to 37 per cent in sales of farm implement dealers.

All types of nondurable goods stores contributed to the overall 29-per cent increase from February to March. Easter buying stimulated sales of apparel stores, as sales of shoe stores rose 74 per cent; women's specialty shops, 47 per cent; and men's and boys' clothing stores, 36 per cent. Sales of general merchandise stores gained 46 per cent, and department store sales were 43 per cent higher than a month earlier.

Sales of food stores were 13 per cent above February, but were only fractionally higher than a year earlier. Compared to March 1947, nondurable goods stores stepped up sales 10 per cent.

**NOTICE TO CREDITORS**

STATE OF TEXAS  
 COUNTY OF FLOYD  
 TO THE CREDITORS OF  
 WATSON HARDWARE &  
 FURNITURE

You are hereby notified that Zoel Watson, doing business as Watson Hardware & Furniture, of the County of Floyd on the 1st day of April, 1948 executed a deed of assignment, conveying to the undersigned all its property for the benefit of its creditors, and the said undersigned has accepted said trust, and has duly qualified as required by law. **Henry N. Schacht Will Be Honored On Tech Recognition Day**

Lubbock, April 25.—Henry Neil Schacht, son of Mr. and Mrs. Henry Schacht of Lockney, will be honored at the annual Recognition and Parents' Day ceremonies at Texas Technological College Sunday afternoon at 3:30 o'clock.

The service is planned to recognize the years' outstanding men and women students. Those qualifying for formal acknowledgment are students in the upper three percent of each division, provided no student in that rank has under a 2.25 average.

Students participating in the ceremony will be seated together. Parents of the honored students will be seated in another section and others visitors and students in the spectators section of the gymnasium.

Eminent scientist Dr. Robert A. Millikan, of the California Institute of Technology is to be guest speaker at the recognition service.

Fleeta Karon Carthel of Floydada spent the week end here with her grandmother, Mrs. F. S. Byars.
