

LABOR GROUP MAY WITHDRAW FROM THE INDUSTRIAL CONFERENCE, THUS CAUSING FAILURE OF THE PLAN

RANGER FIELD INCREASE FOR TWO WEEKS 10,000; FUTURE GROWTH CERTAIN

Albers Oil company's Turner No. 3, a 2,500-barrel well, sends production of that tract to over 6,000 barrels, with No. 1 making 1,200 barrels still, and No. 2, a recent completion, holding to around 3,000 barrels. Sand on No. 3 was struck at 3,500 and the well was drilled in nine feet.

LEAGUE MAY MEET NOV. 9 PARIS RUMOR

PARIS, Oct. 22.—Formal ratification of the German peace treaty probably will be accomplished October 30 and the call will be issued that day for the first meeting of the council of the League of Nations, to take place within ten days.

CARRANZA TO AID THOSE WHO SEEK JUSTICE

MEXICO CITY, Oct. 22.—Candidates in the presidential campaign of 1920 and their supporters are promised every guarantee by President Carranza, who likewise pledged himself to see that the present administration remain neutral, according to an interview with Gen. Francisco Sarzano, published today.

PORT OPPOSITE KRONSTADT HAS BEEN CAPTURED

HELSINGFORS, Oct. 22.—The capture of Krasnaia Gorka, on the Gulf of Finland, opposite Kronstadt, was captured by the Northwestern Russian army Monday after severe fighting.

RULES GERMAN OPERA CAN SHOW IN NEW YORK

NEW YORK, Oct. 22.—Supreme Court Justice Brandeis today granted a temporary injunction restraining the police and city authorities from interfering with the production of a German opera in the Lexington theater.

STREET WORK TO BE DONE IN 450 DAYS

Ranger has let a new paving contract and though the time clause gives the contractors 450 working days in which to complete the work, the size of the firm and its equipment give some basis to the belief that the work will be done in less time. The bid includes fifty-eight blocks, or the major part of the paving program, not including the six blocks in the business section which will be finished by the General Construction company.

McKenzie Construction Company of Texas, with headquarters in San Antonio, was the winning bidder, and the cost per yard will be \$4.80, with no maintenance bond. With maintenance bond the price named was \$5.10. The work will be the same grade as that already done, with three-inch vertical brick on a five-inch concrete base, with sand cushion. Work will start as soon as the company can get material on the ground.

Janes Construction company, whose work on the city sewer system has been satisfactory, and the General Construction company, whose work on the streets has not been, were other bidders. The price named by the Janes company was \$5.18 per yard. No price was named by the General Construction company, which wished to take the work on a cost-plus basis.

Total amount of the contract as let is \$613,000. This is in excess of the former contract, which amounted to \$434,500, at \$4.33 1/2 per yard. Railroad avenue, which parallels the Texas & Pacific tracks on the south, probably will be the first street on which work will be done by the new company, from the power plant on Ross street, to Hunt street, a block east of the Ramsey Wholesale Grocery company. This section not only nets heavy oil traffic, but the loads from many freight cars are carried over it. A large wholesale business centers in this section.

One and a half blocks, Lamar and Houston probably will be the next to be paved. These are in the same section and the plan is to keep the same company at work on that side of the tracks on streets where work is most needed, until the General Construction company winds up its contract on Main, Rusk and Austin streets.

The McKenzie company, which has recently done \$3,500,000 of work for the government in paving cantonment roads in San Antonio and Fort Worth, will also do the work in those places, first asked 600 days in which to complete the job, because of conditions in Ranger. This was reduced to 450 days after some consideration. The McKenzie company will out a combination steam tractor and concrete mixer at work laying concrete blocks, eliminating the need for horse-drawn concrete wagons. The tractor travels the length of the paved street and a swinging boom distributes the concrete from curb to curb.

IT'S WATCH YOUR STEP AS ARMY SHOES GO ON SALE

Truckload of army shoes being delivered to Washington shop for repairs before being placed on sale. All soldier shoes left on hand are now being disposed of by the war department through community sales. Old as well as new shoes are being sold. The old ones are being repaired before being placed on the market. The sale of shoes recently opened in Washington and the capital folk are taking to the shoes, which means that they'll make it a point to keep from being stepped on during battle service.

4 RESERVATIONS ADOPTED BY THE SENATE TODAY

WASHINGTON, Oct. 22.—Four revised reservations of the peace treaty were adopted today by the senate foreign relations committee with the administration leaders voting coldly against them. The reservations approved related to article X, the Monroe doctrine withdrawal and question. The committee also adopted the preamble to the reservations providing that the treaty should not become effective until three of the other allied powers had agreed to the senate's reservations. This also was opposed by administration leaders.

2 BOLSHEVIK DESTROYERS ARE SENT DOWN

LONDON, Oct. 22.—Two Bolsheviki torpedo boat destroyers were sunk in Korpola Bay, Gulf of Finland, when they attempted to attack Estonian vessels and British destroyers Tuesday, the admiralty announced today. Six survivors from the Bolsheviki vessels were picked up by British and Estonian vessels, which sustained no casualties.

TRINITY RIVER FLOOD DUE AT DALLAS TODAY

DALLAS, Oct. 22.—Heavy rains will cause the Trinity river to leave its banks, probably late today, according to the federal weather observer here. The stage of the river at 7 o'clock this morning was 25.7 feet and it was rising. The full effect of the torrential rains throughout North Texas, the forecaster said, have not been felt here yet but he would not predict the probable extent of the threatening flood.

NO N.Y. DOCK WORKERS GO BACK TO WORK

NEW YORK, Oct. 22.—No longshoremen went to work at the Chelsea piers in response to the whistles at 1 o'clock this morning. Although hundreds of dock workers congregated in the vicinity of the big trans-Atlantic piers at that hour, none of them fulfilled their promise, made yesterday, that they would return to work today.

ROME SHAKEN BY A QUAKE; NO DAMAGE DONE

ROME, Oct. 22.—Rome was shaken by an earthquake at 7:05 o'clock this morning, the rumor waking the population still in bed and lasting for a few seconds. No reports of any damage have been received today.

PAWNBROKERS' ACT OF TEXAS IS HELD ILLEGAL

AUSTIN, Oct. 22.—A pawnbroker's act passed by the thirty-fourth legislature, which requires a bond of \$5,000, was held to be unconstitutional today when a motion for a restraining of judgment against C. O. Juban of Collin county was reversed and ordered dismissed.

COTTON OPENING FAST IN VICINITY OF BIG SPRING

Big Spring, Oct. 22.—It is estimated that 3,000 bales of cotton are open in the fields hereabouts. Cotton picking was resumed here this week when sunshiny weather appeared. Thousands of pickers have been placed in the fields. The cotton crop this year was the largest in the history of the Big Spring country.

LITTLE HOPE FOR AVERTING COAL STRIKE

WASHINGTON, Oct. 22.—There was little hope of averting by government mediation the strike of the bituminous coal miners, set for November 1st next, when representatives of the miners and operators resumed their joint conference today with Secretary of Labor Wilson. While union leaders and operators were frankly doubtful of success of the coalition efforts, they readily agreed to President Wilson's request to meet again today after failure yesterday to reach an agreement.

RELIEF OFFICE OF U. S. AT RIGA IS DESTROYED

LONDON, Oct. 22.—The offices at Riga of the American relief administration of the European children's fund were destroyed by a high explosive shell Monday, according to a dispatch to the organization's offices here. None of the three officers engaged in the relief work was hurt and the feeding of the children is proceeding.

WARN STRIKING EXPRESS MEN TO RETURN AT ONCE

WASHINGTON, Oct. 22.—Striking express employees of New York warned the Railroad Administration that unless they returned to work, their places would be filled immediately and any interference with express business by the employees would be prosecuted.

MACHINERY ON GROUND FOR TEST AT DENISON

DENISON, Oct. 22.—Machinery for the Westover No. 2 well is on the ground and is being hauled to the location, eight and a half miles northwest of Denison on the Foster road. Derrick hoists for the 85-foot well is now en route to Denison and it is the plan of the company to have work start on the erection of the rig within ten days.

WILSON IN LETTER; SAYS PUBLIC IS LOOKING TO GROUPS FOR SOLUTION

WASHINGTON, Oct. 22.—In a last effort to prevent dissolution of the national industrial conference, Chairman Lane today read to the delegates the letter dictated by President Wilson from his sickbed yesterday, in which he urged upon the delegates the necessity for some action by the conference to insure the industrial peace of the nation during the reconstruction period. The President said that the public expected the conference to stay together until a way was found to establish a surer and heartier co-operation between all the elements engaged in the industry of the country or until it revealed that the men who work and the man who manage American industry are so set upon divergent paths that all efforts at co-operation fail. If the nation's industrial leaders and workers have no faith in each other, constantly struggling for the advantage, the President said that the situation thus created "would be a national disaster." Immediately after the letter was read, the conference adjourned and the labor group went into private session to determine its further course. Members are plainly impatient and some public and capital delegates seemed doubtful whether the labor representatives would continue in the conference.

SEEK RELIEF OF CAR SHORTAGE IN OIL FIELDS

Special Licensed Wire. WASHINGTON, Oct. 22.—A committee of Texas congressmen were scheduled for a conference here today with Director General Hines of the railroads, for the purpose of discussing ways and means for the relief of the car situation in Texas. The congressmen will seek some relief from the car shortage for the movement of grain, oil and coal in Texas. It is said the situation will be gone into exhaustively and the congressmen are confident some relief will be obtained for Texas citizens.

NO MINISTERS TILL GERMANY FULFILLS PACT

WASHINGTON, Oct. 22.—Charge of embassy will be the rank of the first American diplomatic representative to Germany after ratification of the peace treaty. Until sufficient time has elapsed to test the workings of the treaty and the spirit in which the present government of Germany undertakes to carry out its provisions, no fully accredited ambassador will be named. This plan, it was learned today, also will be followed by the entente governments.

UNION RY. MEN AT STEEL MILLS CAN WALK OUT

PITTSBURGH, Pa., Oct. 22.—William Foster, steel strike leader, received word today that the Railroad Brotherhoods have consented to the strike of union railroad men employed in and around the steel mills not under contract to the Amalgamated Association of Iron and Steel Workers.

BIG RENEWAL OF OIL ACTIVITY IN WILBARGER

Special Licensed Wire. VERNON, Oct. 22.—Renewed oil activity is seen in this section and beams and stacks are changing hands at a rapid rate. There is a strong demand for acreage here. Sixty-two tracts are under way in Wilbarger county, which exceeds other tracts in wildcat territory by twenty-two.

GERMANS USE GAS SHELL IN RIGA ATTACK

COPENHAGEN, Oct. 22.—German artillery at Riga fired on a British war ship at the mouth of the harbor Sunday, according to the Lithuanian general staff. A heavy German bombardment of Riga with gas shells also is reported to have taken place Monday. Great damage is reported to have been done to the city, many civilians being killed and wounded.

WILSON SHOWS BIG CHANGE FOR BETTER TODAY

WASHINGTON, Oct. 22.—Physicians reported that President Wilson had one of the best nights last night since he became ill.

SYMPATHY FOR PRESIDENT.

CINCINNATI, Oct. 22.—King Albert and Queen Elizabeth, who were guests of Cincinnati today, sent a message to President Wilson expressing hope for his early recovery and the regret that he was unable to receive them during their visit in Washington.

WILHELM SUES ACTOR WHO RAN "KAISER FILMS"

BERLIN, Oct. 22.—Former Emperor William of Germany has commissioned Herr Siebert, attorney, to institute suit against actor Ferdinand Bohn, who prepared the films known as the "Kaiser Films" were tarred in Berlin but admitted to be shown elsewhere. The ex-emperor charges insult and misuse of his portrait and asks for suppression of the film. The Bohn films referred to were to be produced in Berlin Oct. 10 but were suspended by the government that day. The title of the pictures was "Wilhelm's Good Fortune and Bad Finish."

**MEN AND WOMEN REPRESENTING CAPITAL LABOR AND PUBLIC ARE SNAPPED AT INDUSTRIAL CONFERENCE IN WASHINGTON**

Above, left to right: Harry A. Wheeler, T. C. Atkeson, Thomas L. Chadbourn, William G. Lee, Edwin F. Green, Bernard Baruch, John D. Rockefeller, Jr., Matthew Well and W. D. Mahon. Below: Ida M. Tarbell and Miss Lillian Wald.

The men and women shown in the accompanying photographs, which have just been received from Washington, are counted among the leading representatives of capital labor and the public at the

great industrial conference in Washington. Representatives of the public in these groups are Ida M. Tarbell, Miss Lillian Wald, T. C. Atkeson, Thomas L. Chadbourn, Bernard Baruch and John

D. Rockefeller, Jr. Representatives of capital are Edwin F. Green and Harry A. Wheeler. Representatives of labor are William G. Lee, Matthew Well and W. D. Mahon.

**COMPANY WILL BUILD HOUSES IN THIS CITY**

The Ledian Building association is taking steps for the erection of a large number of California bungalows in Dewey Heights addition to Ranger according to announcement made by Messrs. Halloway yesterday.

Messrs. Halloway were in the contracting business in California prior to coming to Ranger. They saw many possibilities here and purchased two blocks in the new addition, upon which they already have erected a number of beautiful bungalows. More will be built as the demand grows. At present they are thinking of putting up several four-room and five-room structures. The great abundance of gravel near by has been used for foundations for the structures.

The construction of concrete houses is to become a means of "cheapening" home construction in Ranger. The houses would be of double walls, dead-air spaces, preventing sweating, and the walls can be poured in sections. This means of building homes will revolutionize building construction if the price of lumber does not go down within the next few months. I believe it can be practiced here with the greatest success.

**FORT WORTH AD MEN TO VISIT RANGER FRIDAY**

Friday is the day of the visit of the Fort Worth Ad club to the Ranger field and they will see much of it as the mud will permit. There will be no postponement. Plans for the guidance of the sight-seeing party through the field and through the oil metropolis of West Texas are being made by the Chamber of Commerce.

The following letter has been received from Roscoe Ady, director of publicity of the Fort Worth Chamber of Commerce:

"The Fort Worth Ad Club will make its trip to the oil fields, leaving Fort Worth Thursday night at 8:45, and will spend the day Friday in Ranger. Practically all of our members are engaged in some form of publicity work and they want to know what is going on in the oil fields.

"We believe the trip will accomplish a great deal of good for our members and may result in Ranger getting some valuable publicity."

Although the ad clubbers ask in their letter that Ranger be no trouble because of their visit, it is important that the men be shown the city and the field by representative men. Those who can co-operate in the program of the day, which will include lunch at the McCleskey cafe as guests of the Chamber of Commerce, should get in touch with Secretary George Hemmingson.

**FARMERS WILL HAVE NEW SCHOOL BUILDING**

**FARMERSVILLE, Oct. 22.**—Farmersville will erect an \$80,000 high school building. Plans and specifications have been accepted and bids will be received within a few days.

S. C. Galbraith of the Abilene-Reevey Realty company was in the city Monday and Tuesday on business connected with the Ranger headquarters of the firm. Mr. Galbraith is very optimistic over the outlook for Ranger, predicting it will have a phenomenal growth.

R. D. Clancy, manager of the Crystal Baths, has returned from an extended visit to Dallas.

**Alleged "Con" Man Who Operated in Ranger Taken at Paducah, Tex.**

A man using the name of S. W. Escue and claiming to be president of the Escue Oil company, of Breckenridge, has been arrested at Paducah, Texas, according to information received at police headquarters this morning.

Escue is said to be one of the smoothest "con" men of the oil districts. He was arrested at a local hotel several weeks ago, on instructions from Dallas. He offered to pay the expenses of a county officer and his own expenses, if the officer would take him to Dallas.

About a week later, the local police received word from Desdemona, stating that Escue had bought a Ford car there and given a certain draft on a Ranger bank. A little later an officer from Clyde, Texas, came to Ranger and arrested Escue for alleged misdeeds in connection with a Buick car he is said to have bought from a dealer in Clyde, giving a draft for \$2000 on a Ranger bank. The draft was refused.

Escue told the officer from Clyde he wanted to see his attorney a min-

ute. He went into the office of an attorney of this city, and his attention was attracted by a valuable diamond which the lawyer was wearing.

"What do you want for it?" he is said to have inquired. The lawyer stated that he told Escue he would take a certain sum for it and Escue replied that he would buy it if his jeweler said it was alright. The lawyer pulled the diamond off, he stated, and gave it to Escue, telling him to take it to the jeweler and let him examine it.

Escue took the diamond to a local bank, instead, police say, and mortgaged it and his car for a large sum of money, paid off the debt he owed at Clyde, and left Ranger.

According to information telephoned from Morant, he entered a Moran bank, mortgaging himself to be a large teaming camp operator and got the bank to advance him \$5000 on 80 head of mules. The bank later became suspicious and made an investigation, but failed to find the mules.

He was arrested at Paducah in response to a wire from the sheriff at Albany.

Indications are that the stratum, if further drilled will not only be productive in good paying quantities, but that it will sustain long-lived wells.

**LITTLE VADA MOORE TO BE BURIED AT LACASSA.**

Vada Navelle Moore, age four years and three months, died yesterday at the home of Fred Drinshofer, an old friend of the child's parents, Mr. and Mrs. Bedford Moore, of Lacassa.

Burial will take place at the Lacassa graveyard.

**RICKARD SAYS RANGER FIELD BEST IN WORLD**

Special to The Times.

FORT WORTH, Oct. 22.—G. L. Rickard, oil operator and fiscal impresario, registered at the Westbrook recently and bubbled over with optimistic news from the Ranger field.

"Texas is the greatest oil country in the world," said Rickard. "I am getting in stronger than ever. The Rickard-Texas Oil company is a winner. We have sold more than \$190,000 worth of oil from our Cotton No. 1. This well came in for 2,500 barrels and now is running 500 barrels.

"The Rickard-Texas owns a well on the Barker tract, Eastland, that promises to become one of the best in the field. Barker No. 1 came in for 35,000,000 feet of gas and is spraying 150 barrels of oil daily. Barker No. 2 looks like it will be a shoofer. We are drilling another hole on the Barker farm.

"I predict Sipe Strimer will prove to be another Desdemona. I was here last week and picked up some good stuff. The Humble Oil & Refining company has a lot of acreage in the Sipe Springs field and will drill twenty-eight wells, they told me. The Moorman well is producing oil now."

The Rev. J. W. Hunt, pastor of St. Paul's is doing the preaching. Horace Hay of Fort Worth is to conduct the singing.

C. S. Heffers has returned from a two weeks visit in St. Louis.

**Can Aluminum Crank Cases Be Welded?**

Modern Methods, Skillfully Applied, Are Saving Truck Owners of This District Thousands of Dollars in Parts and Time Saved—Brown Welding Company of Ranger Does the Work.

For a long time it was thought impossible to successfully weld aluminum. We don't mean just stick it together—camouflage it—but to make the welded crank or transmission case as strong or stronger than a new one and not warp it. This has now been overcome. Modern science and welders who think while they work have conquered these difficulties so that a well equipped shop with a welder who never uses the "get by" expression can handle crank and transmission cases that are actually wrecked and pulled out of line, with chunks gone at the breaks so that when they are finished they are straight and stronger than before.

If you want a job of welding done you want a good job.

It don't pay to trust this work to amateurs—you know this.

Respectfully,

### NEW ROADS TO AID JAKEHAMON AND OIL BELT

Special to The Times.  
**JAKEHAMON, Oct. 22.**—The first improved roads to be built by the county commissioners of Eastland county out of the proceeds of the \$4,500,000 bond issue recently voted will be between Gorman and Deadman. This road is one of the best in the county and carries the heaviest traffic, as it must accommodate a great deal of the haulage of oil well supplies. It will reach the Comanche county line at Deadman and will be extended by the Comanche county authorities and the people of Jakehamon to the railroad at this place, a distance of about a mile and a half this side of the county line. It is the opinion of County Judge Starnes of Eastland county that work can begin on this road within sixty days. It will be either of concrete or macadam with a bituminous topping.

County authorities and the people of DeLeon and Jakehamon are preparing to make an improved highway out of the DeLeon-Jakehamon road which will connect at the Eastland-Comanche county line with the Gorman-Jakehamon road, thus forming a sort of oil field highway through the Hog Creek pool, connecting three railroad points.

The east and west road through Eastland county connecting Cisco, Eastland and Ranger probably will be the longest highway to be constructed under the big bond issue, according to Judge Starnes. It has not been definitely determined what character of construction will be employed here, but it probably will be a part of the distance, at least, of concrete. This highway is one of the most important in the oil fields.

### AMERICA LOOKS GOOD TO WAR REFUGEES FROM EUROPE

Italian immigrants arriving at Boston on board liner Canopic.

The United States is more a land of hope to Europeans than ever since war swept through the European countries. This photo shows a boatload of immigrants arriving from Italy to seek homes and happiness in this country. Many women and children can be seen in the crowd waiting on deck to land. Congress is considering legislation that would bar such immigrants for several years.

### FRANKELL NAME OF NEW TOWN ON RAILROAD

Special to The Times.  
**JAKEHAMON, Oct. 22.**—With the progress of grading on the Wichita Falls, Ranger & Fort Worth railroad being made north from Ranger into Stephens county it is learned that the second town of the Hamon & Kell interests to be opened on that line will be called Frankell. It is eleven miles north of Ranger on the 320 acres of land acquired by Hamon & Kell from H. L. Goswick. The new town is in the Parks oil pool district and is surrounded by a great deal of development that began early in the history of the Stephens county oil field. It is situated about two miles northwest of the celebrated Veale well, that came into vogue months ago as a gasser of great volume and later developed into a big producer of oil, giving a start to the pool that has since been extended in every direction thereabouts. The Veale well was drilled by the Texas-Pacific Coal & Oil company and that company owns a great block of lands in the vicinity of Frankell.

The new town is named in honor of Frank Kell of Wichita Falls, banker and business man, who has been active in the development of West Texas and who is a partner of the Hamon in the railroad enterprise that is building through the oil fields. This town is being put into shape by Jack Langston, who prepared Jakehamon for opening, and the work of clearing and opening streets will be followed by the opening of the town next month. Grading of the railroad toward Frankell is well advanced and the railroad probably will be in operation to that new town in December.

**WACO, Oct. 22.**—The religious census of Waco was taken Sunday afternoon by one thousand church workers in three hours. The results have not been tabulated and announced.

### THEATERS

#### ANOTHER SATURDAY POST STORY FOR BERT LYTELL

"The Lion's Den," the latest Metro play in which Bert Lytell is starred, is the feature of the opera house today. This is the second story from the pen of Frederick Orin Bartlett, the noted author, in which Bert Lytell has appeared, the first being "The Spender," a production which caused country-wide acknowledgment for its unusual charm. Both of these stories first became popular through the medium of the Saturday Evening Post.

"The Lion's Den" tells of a young playboy who desires to save the lives of his flock from the jaws of the street by offering them, instead, a well-equipped club. How his project seems to be doomed to failure through the lack of funds, and his ultimate decision to enter the "lion's den" and "conquer" are among the money himself are incidents which make a play of unusual strength and human appeal. It is those with grivous moments though generously lightened by flashes of humor distinctive to the young actor. There is also a romance of charm and beauty which crowns the efforts of the young clergyman with deserving happiness.

#### Nature Cure in Surplus of Women

International News Service.  
**LONDON, Oct. 22.**—While much printer's ink is being spilled over the fact that England has a great surplus of women, the problem is a real one for the present generation, but in the eyes of the scientist or statistician it presents nothing worthy of worry. The scientist is confident nature will correct the error in its own mysterious way.

There are 1,888,000 more females than males in the country.

"The present increased surplus," says Mr. de Jastrzebski, acting secretary of the general census office, "is almost entirely the work of nature. Normally the population of any country depends upon three causes—two physical and one economic. There is the ratio of the sexes at birth, the ratio of the sexes at death, and the economic cause is migration."

"In this country at the present

time 105 boys are born to every 100 girls, but we have 112 to 114 males dying to every 100 females. Those facts point to a majority of females in the population; but actually this is not so.

"In round figures, let us say, there were in England and Wales 800,000 births and 500,000 deaths. If you work it out on that proportion you find the sexes regularly balance, and if the question were left to physical causes alone the population would almost balance; but the number of men who emigrate is much larger than women."

"Thirty years before the war the increase in the population of this country was due greatly to emigration."

"There is little reason to fear a big increase in the female surplus. The present figures seem to confirm the theory that after a great war or disaster nature adjusts the balance between the sexes by increasing the number of male babies in proportion to the female."

#### "HORIZONTAL HEART" BARS HIM FROM MARINES

International News Service.  
**PORTLAND, Ore., Oct. 21.**—Emley W. Chamberlain, a farm hand, working near this city, attempting to enlist in the Marine Corps, has discovered that, on account of the size of his heart, he is barred from service as a defender of Uncle Sam. The medical examiner found that Chamberlain is the possessor of what medical men denominate a "horizontal heart," extends across his body to the right of his chest, and after exercise it beats violently. The young man came to Oregon from Rockford, Ill.

#### BUSTLING BRITISH PITSBURGH PREDICTED

International News Service.  
**LONDON, Oct. 21.**—One hundred and fifty-seven good, sizable, clear-cut cities in the United States may well chant a chorus of "why" over the newly announced ambition of Norfolk.

Norfolk wants to become and really hopes to become a second Pittsburgh.

Renewal of experiments which were interrupted by the war convince experts that petroleum products already "in sight" in the shale of the district exceed 200 million tons. A bustling British Pittsburgh is predicted.

## CHILLS, COLDS, FEVERISHNESS

Black-Draught Is Used by Virginia Lady for Colds, Fever and Other Troubles With Fine Results.

Rocky Mount, Va.—Miss Mae Chittwood, of this place, recently stated: "I have used Black-Draught for colds and stomach trouble and certainly have found it very satisfactory."

When I would feel bad and feverish, as though I was taking a fresh cold, I would make a good cup of Black-Draught tea and it would soon set me all right.

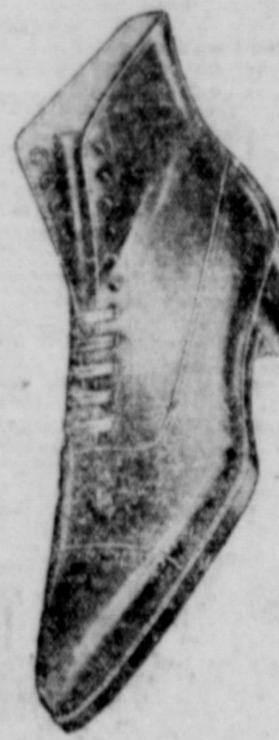

I can recommend it as a splendid laxative and gladly do so. You may publish my statement."

When you feel chilly, tired, feverish, headachy and fear that you are taking cold, take a good dose of the old, reliable, liver medicine you have heard so much about—Theford's Black-Draught. It is made from purely vegetable ingredients, acts in a gentle, natural way, and by helping to drive out poisonous waste matter from your system, it will often, if taken in time, prevent a chill from developing into a cold.

Thousands of people, during the past 70 years, have found Black-Draught of benefit in such cases.

Try it, the next time you chill or sneeze.—Advertisement.

## Have Your Shoes Fitted by an Expert

The fit of your shoe is perhaps the most important single item. If it is too large it will lose its shape and look cheap. If it is too small it will hurt your foot.

You will find in our Shoe Department an expert in fitting your foot. And we have a large stock of good looking, long wearing shoes to choose from.

### TEAMSTER HURT WHEN RUNAWAY OCCURS TODAY

When a team ran away this morning from near the Oil Well Supply company's repair plant at Commerce and Railway avenues, one man was hurt, receiving a scalp wound and some abrasions to his body. He was given medical treatment at the company's office.

It was said the whistle of the company's plant at the noon hour caused the team to break away. Another team of four mules also started to run away and the injured man rushed out to prevent them. He was knocked down and run over by the entire team and wagon, a hoof of one of the mules striking him on the head. The team which first ran away with a heavily loaded wagon extricated itself from the wagon when the latter struck an electric light pole at the alley between Railway avenue and Lamar streets, breaking the pole. The team ran south and was brought to a stop near the Walker-Smith wholesale house.

Oil Well Supply company employees did not give the name of the man who was injured. He is said to live near Eastland. The injuries were not serious, according to the employees.

### LACKLANDS TO OPEN LEERAY NOVEMBER 10

According to Col. Rufus J. Lackland, who with his brother, Sidney C. Lackland and E. S. Love, of Eastland, has charge of all townsite work of the new Cisco and Northeastern railroad, the first town opened on the new line will be named Leeray, after the men who are promoting the road.

Leeray will be opened on Nov. 10, according to plans now being matured. It is located on the Eastland-Stephens county line, twelve miles northeast of Cisco. An ideal site has been secured for a town, and there are no nearby towns to compete with or injure Leeray. Col. Lackland states that he will follow his well-known policy of selling lots at a moderate figure, so that the purchaser can always feel that he has secured the worth of his money. It is his policy of protecting the customer and taking an interest in him after he has sold him real estate as well as before that has made Col. Lackland one of the best known and largest real estate operators in the Southwest.

Sidney C. Lackland has gone to the Rio Grande Valley, to look after a new townsite he has opened there sometime in the next few months.

### No Inflated Real Estate Values in Jones County

Special to The Times.

STAMFORD, Oct. 22.—Although real estate in Jones county is being transferred more rapidly than ever before, no inflated values in property have been noticed. Many Jones county farms are being sold each week.

Few renters are selling their crops. In one instance a crop of sixty acres of cotton, two mares and two mules sold for \$4,000. The purchaser in such cases pays the rent, which is one-fourth of the value of the crop. West Texas has such a cotton crop been produced.

The housing problem is acute, but a number of prominent property owners will build homes suitable for sale or rent. This will greatly reduce the seriousness of the situation. The new homes will be sold or rented at the lowest rate possible.

**BRECKENRIDGE GROWS ON STRENGTH OF ROAD**

BRECKENRIDGE, Oct. 22.—The impetus to building is seen here on every hand as a result of the coming of the Wichita Falls, Ranger & Fort Worth railroad through this city. Breckenridge is in the middle of an oil territory that is developing more rapidly as the prospecting proceeds to show good results. It is expected that the new railroad will be operating into this place early in the coming year, the track being planned to reach Frankell, a new town south of here, in Stephens county, about the last of December.

**A WONDERFUL CLIMATE. A GOOD PLACE TO LIVE. A SAFE AND PROFITABLE INVESTMENT.**

In the lower Rio Grande Valley. If you are going to look for a place in which to establish a home, or for an investment join our excursion, leaving Dallas, Tuesday at 3 p. m. Oct. 28, 1919. A full pullman train, round trip, \$25.

It will pay you to personally investigate this wonderful country, and know what the success and profits are from the growing of the following crops: corn, cotton, broom corn, alfalfa, and rhodes grass, also citrus, and other fruits. A cotton, hog, and poultry country, too.

Get the information from the man on the ground, that is doing it, also as to whether under our irrigation system, they can get water for their land any time they want it.

**THE W. E. STEWART LAND CO., Kansas City, Mo.**

**HOW DO THEY DO IT?**

Advertisements are funny things sometimes; for example, these that were actually printed:

A respectable woman wants washing.

I will make coats, caps and boas for ladies out of their own skins?

I want an overseer who can take care of 5,000 sheep, who can speak French fluently.

Wanted—A girl who can cook; one that will make a good stew.

I want a husband with a strong Roman nose with strong religious tendencies.

I will sell a fiddle of old wood that I made out of my own head, and have wood left—enough for another.

For Sale—A small stock of the same whiskey drunk by his majesty on his recent visit to Dublin.

One hundred dollars reward for the recovery of the body of Hale Short, drowned in the river on the night of the 17th. The body can be recognized by the fact that Short had an impediment in his speech.

**RAIN AND BAD WEATHER DAMAGE CROPS IN FISHER**

Special to The Times.

ROBY, Oct. 22.—Thousands of dollars' damage has resulted from the continued cool and rainy weather. Out of fourteen days just passed, only two were dry enough to pick cotton. Many East Texas pickers brought here have gone home, adding to the labor scarcity.

Unless relief comes soon the loss in this section will be very heavy.

### JURORS WHO DID NOT APPEAR GET \$50 AT ABILENE

ABILENE, Oct. 22.—Judge W. R. Chapman of Anson, who was sitting in district court here for Judge Harry Tom King, assessed a fine of \$50 each against seven men who failed to appear as summoned as jurors. Two of the men who came in later had their fines remitted.

Judge King is holding court at Breckenridge this week.

### New Postoffice Needed at Cisco

Special to The Times.

CISCO, Oct. 22.—Postmaster R. A. St. John of this city is about the busiest man in this city keeping the affairs of the Cisco post office going. The business of his office has increased to such enormous proportions since the coming of the oil boom that although the attaché of his office work day and night shifts he is not able to catch up with the truck loads of mail that are delivered several times each day.

A new building is badly needed for the Cisco postoffice.

### DUBLIN GETS READY FOR JAKEHAMON ROAD

By Associated Press.

DUBLIN, Oct. 22.—Location of the line of the Wichita Falls, Ranger & Fort Worth railroad is almost completed. J. J. Harrison, engineer in charge of the work has carefully selected a proper route into the city and the result of his work will be that a good grade will be established into that rather difficult region immediately about Dublin. The new railroad will maintain joint yards with the St. Louis & San Francisco railroad here. Laying of track north out of Dublin toward Jakehamon will begin within a short time by the Wichita Falls, Ranger & Fort Worth railroad.

Office, 206 P. & Q. Realty Building, Ranger

# Vulcan Oil Company Waits On Neither Time nor Tide Nor Weather nor Embargo

By Larry Smith.

Less than three months in the field, with fourteen drilling operations under way, three wells on the black line today, a camp complete to bunk-houses, mess halls, cottages, main office siding and warehouses at Tiffin, in the record of the Vulcan Oil company, \$2,600,000 corporation which in August purchased half interest with the Texas Pacific Coal & Oil company in 1,880 acres of rich oil lands in the Ranger, Lucas and Gunsight districts.

Frank C. Armstrong, associate of George "Tex" Rickard, president of the company; chief officers are B. W. Dudley, vice president; Elton Parks, secretary; E. Townsend, treasurer, Nicholas P. Brady, chairman of the board; J. Horace Harding, J. G. Hopkins and J. A. McCall, directors. J. W. Hutchinson is general manager of the company's operations and in his work in this field he has demonstrated the lessons in efficiency and management he learned as manager of large mining interests in Nevada.

The Vulcan Oil company is a Delaware corporation, with provisions to transact business in Texas. All the officers are New York men.

Five hundred acres of the company's rich holdings are in the Ranger field, including the C. F. Hamor tract, the C. B. Bryant tract and 100 acres of the W. T. Davis tract. No. 1, W. T. Davis is on the line, No. 2, No. 1 and No. 2 B. A. Davis. In the Lucas district, the company holds 1,000 acres, and in the Gunsight territory 350 acres.

That no time has been lost in getting development of the holdings is shown by the record of the company. Lease No. 1, 2, 3, rigs; W. T. Davis tract, No. 2, rig; C. F. Hamor, No. 1, 850 feet; Nos. 1, 2, 3, drilling; B. A. Davis tract, No. 3, No. 4, rigs; and in the Lucas district, in Stephens county, Fletcher tract, No. 1, 1,600 feet, drilling; No. 2, 100, feet, drilling; S. S. Decker No. 1, 1,500 feet, drilling; No. 2, 100, feet, drilling; S. S. Decker No. 1, 1,200 feet, drilling; No. 2, 1,100 feet, drilling; Millhouse No. 1, 1,100 feet, drilling; No. 2, spudding; Nannie Walker tract, No. 1, 1,900 feet, drilling; No. 2, spudding; O'Neal tract, Nos. 1, 2, rigs.

The camp at Tiffin promises to be one of the best located and most attractive of the camps adjacent to Ranger. The site is prettily wooded, those trees in the way of construction have been cut away. The main offices in a building 57x64 feet, are completed, as are two bunk houses and a mess hall and kitchen and a ware house and at present the cottages are contemplated. The 750 foot spur from the T. & P. is completed.

The Lucas camp already has five bunk houses, mess hall and kitchen and four cottages and the Hamor camp, four bunk houses, mess hall and kitchen and two cottages.

Water is abundant at Tiffin. The Tiffin headwaters is assured Vulcan employees by 200 foot water well, with a twenty foot water stratum, furnishing 3,000 gallons daily of the best drinking water. The camp has its own sewer disposal system and septic tanks and at present the Texas company has lines for lighting and heating. The company's own electric plant will be in operation soon.

The Vulcan Oil company, with fourteen strings of tools in operation now will keep at least twelve of these busy all the time. It promises to be the most active independent companies of the Ranger field.

The boots must be used as cattle feed or in the fields, and, incidentally, the German people must get along without sugar. There is no coal for the cement industry and under the peace terms Germany is obliged to make heavy deliveries of cement to the entente. There is little prospect, therefore, of Germany delivering 20,000,000 tons of coal annually to the entente, which is less than one-half of the original demand specified in the Versailles treaty, leaders declare.

In the face of this situation the German coal miners demand a six-hour day with eight hours' pay, and quit their jobs because their demands are not fulfilled. The railroad laborers, recently granted a large wage increase, are threatening a new strike because the government has promised a small subsidy to the long-underpaid clerical force without offering a similar subsidy to the already well-paid section and shop hands.

FOR LEASE—I offer for the owner Oil Lease, usual form and terms to govern, 600 acres of land, more or less, in Callahan county; half way between Baird and Puhman, at Chautauqua Switch. The railroad runs right thru the land, with depot on the property, giving railroad shipping facilities to the property. Geologists say good oil prospect. Will take \$20,000 for the lease. Wells now being drilled by large and responsible companies on all sides of this section. A good bet and chance to make a fortune for the party who has nerve to play the game. First come, first served. The offer is made subject to prior sale and confirmation by owner, J. M. Radford, Abilene, Texas.

## BUSINESS STREETS OF ABILENE ARE BEING REPAVED

Special to The Times.

ABILENE, Oct. 22.—With the Abilene Gas & Electric company laying \$30,000 worth of new gas mains in the main business sections and the Texas Bitulithic paving the bitulithic pavement on the principal business streets downtown, Abilene automobile traffic is demoralized.

The streets will soon be back in better condition than ever, however, and no one is kindling. It is estimated that automobile traffic here is twice as heavy as it was a year ago, and it steadily increases.

## TAX COLLECTOR TO BE IN RANGER NOVEMBER 4, 5, 6

The Times has received a communication from Tom Harrell, county tax collector, saying he will be in Ranger November 4, 5 and 6 for the purpose of collecting taxes. The communication states that "there will be only one collecting tour this year and people who desire to pay their taxes in person and do not appear on the days named will find it necessary to pay at the tax collector's office in Eastland."

Tax Collector Harrell will be in Desdemona November 11 and 12; in Cisco, November 14 and 15; in Gorman, November 18 and 19; in Tudor, morning of November 21; in Tanner, afternoon of November 21; in Phoenix, November 23; in Scurry, November 26; in Rising Star, December 2 and 3; and in Carbon, December 25.

## GETTING READY FOR EX-KAISER'S TRIAL, REPORT

LONDON, Oct. 22.—All necessary preparations for the trial of the former German emperor William are being made, Andrew Bonar announced in the House of Commons today.

A request to the Netherlands Government for the surrender of the emperor, Mr. Law explained, could not be made until all the powers have signed the peace treaty.

## Severe Cases of Diphtheria Are Found at Cisco

Special to The Times.

CISCO, Oct. 22.—This city has shared some cases of diphtheria of a severe type that are found in many sections of the State. Several deaths have occurred within the past two or three weeks.

Physicians say that the type is an malignant form and unless the cases are seen at the earliest stage of the disease the patients become so thoroughly impregnated with the toxins that are produced by the diphtheria germ that the reliable dose of diphtheric anti-toxine fails to check the disease. The type of diphtheria seen in this city recently is obtained by local physicians to be the most severe form witnessed in many years.

## RANGER MADE HEADQUARTERS FOR OIL FIELD

The Texas and Pacific railway company will establish a division freight and passenger agency at Ranger to serve the oil field territory according to an announcement made today. J. B. Backford has been appointed agent here. The agency will serve Ranger, Strawn, Eastland, Cisco, Gorman and other oil towns.

B. F. Bush of St. Louis, Southwestern regional director, has approved the new order. The constantly increasing business of the oil fields has necessitated such an agency. Cooperation between shippers and the railroad will also be urged.

The appointment of such agents in other oil fields over the country is found in effect. The same agents were taken to extend the service to this field.

J. B. Backford, the appointee, was until several months ago, general freight and passenger agent for the Abilene and Southern railroad. His new headquarters will be in Ranger. He was here a few days ago looking over the situation.

Business interests will accept the institution of such an agency here as one of the best means employed by the company to make possible expanding and constantly increasing traffic of this field.

## GERMANY'S RUIN IS SEEN IN BIG LACK OF COAL

International News Service.

BERLIN, Oct. 22.—All in Germany, including the striking miners, are pretty well convinced that unless some relief in the coal situation is forthcoming the nation will be thrown into economic ruin; and relief does not seem to be forthcoming. Strikes, inspired by Communist propaganda, continue.

The railroads and the Berlin gas works are on the point of closing. The Prussian railroads at this moment have only enough coal to operate for a few more days. The Berlin gas works reports a scanty supply on hand. Other cities are in the same predicament. Physicians predict thousands of deaths from pneumonia due to lack of coal, during the winter.

Berlin street cars and subways are working half time. Several large industrial plants already have closed or are working half time. The entire coal supply of one plant was seized yesterday and turned over to the gas works to give Berlin housewives another day of grace. The bid probably will be clamped tight on all cafes and theaters.

There is no bunker coal for fishing steamers. That means no sea food, and soon there will be no trains to transport what little there is. There is no coal for the sugar industry.

## CLAY BOILER & MACHINE COMPANY

Expert Repairing done on Boilers, Engines, Pumps, Turbine Generators, Automobiles and Trucks.

Acetylene and Forge Welding. Work guaranteed. Satisfaction assured.

We Buy and Sell Second Hand Boilers.

BLACKWELL ROAD AND SOUTH RUSK ST.

## DOCTORS SAY GUN VICTIM'S CHANCE SLIGHT

The body of Curtis Shiner, who was shot in a fight Monday morning, was last night sent to Tulsa by the Milford Undertaking company. John Shiner, brother of the deceased, and V. L. Nowlin, his brother-in-law, accompanied the body.

Carl Gallagher, who received a bullet wound in the neck, was taken to Dallas yesterday for an X-ray examination to locate the bullet, which ranged downward into his body. Dallas physicians say pneumonia has set in and his chance for recovery is slight.

Leon Wilson and Alonzo Barnes.

## It's H—I to be Poor, But No Disgrace!

We can't all be rich! But rich or babes to provide them with comfortable homes in which to live and be happy! It's all right to start out in a tent or a shack—but man! "Come out of it!" Own your own home—the world is with you. So are we. Let's get together on one of these bargains:

## SAYS COULD HAVE SAVED HUNDREDS

"It's the honest truth—I would have saved hundreds of dollars I spent for treatment and medicine if I had taken Orgatone several years ago," said Delbert Allen, who resides at Arlington, Texas. Mr. Allen made a trip to Fort Worth the other day to call upon the Orgatone man at Reford's drug store, to give him this statement regarding results he had derived from this treatment.

"I certainly know what it means to suffer from indigestion, for it has kept me in misery for years. Everything I ate turned sour in my stomach, and I had to eat nothing but soft food all the time, in spite of all the treatments I had taken and doctoring I did trying to get well. Nothing I ever took gave me anything more than temporary relief. I got so worried and depressed over my condition, that I hardly knew what was going to become of me.

"I felt tired and sluggish all the time, because I couldn't get any strength out of what I ate. My meals seemed to poison me instead of digesting and giving me nourishment. Everything I ate turned sour in my stomach and formed gas that pressed against my heart and made me gasp for breath. Many a time I would sit down and find it was almost impossible for me to get up again. I was so weak and run-down. My kidneys bothered me so much I hardly knew what was going to become of me.

"I felt tired and sluggish all the time, because I couldn't get any strength out of what I ate. My meals seemed to poison me instead of digesting and giving me nourishment. Everything I ate turned sour in my stomach and formed gas that pressed against my heart and made me gasp for breath. Many a time I would sit down and find it was almost impossible for me to get up again. I was so weak and run-down. My kidneys bothered me so much I hardly knew what was going to become of me.

## HIGH SCHOOL GIRLS AND BOYS STRIKE FOR HOLIDAY

International News Service.  
SUMMIT, N. J., Oct. 21.—Fifty pu-  
pils of the 300 boys and girls who  
attend the Summit High School left  
their classes on a holiday strike. The  
students formed a parade at the school  
at the opening hour and marched  
through the town singing and cheer-  
ing. Superintendent of Schools Sprague  
treated the matter lightly and said  
the most serious way it would be  
considered would be to mark the pu-  
pils who failed to appear with an ab-  
sent mark, the same as on any other  
day they failed to report.

## COLLEGE SWAMPED WITH STUDENT APPLICATION.

International News Service.  
BOULDER, Colo., Oct. 21.—Matri-  
culation at the University of Colorado  
was stopped when the faculty could  
find no more room for students. Sev-  
enteen hundred scholars had regis-  
tered, and many other applications  
were on hand. The pre-war maximum  
attendance at the university was 1,000  
according to President Norlin.

## BEEF, IRON & WINE JAG IS LATEST.

International News Service.  
DENVER, Oct. 21.—A new source  
of inebriation was discovered here  
when Fred Ferris pleaded guilty to  
petit larceny before Judge G. W.  
Whitford, in West Side Court. Ferris  
claimed he committed the act while  
intoxicated from indulging in "beef,  
iron and wine."

## SHREVEPORT WILL GET NEW PASSENGER DEPOT

Special to The Times.  
SHREVEPORT, La., Oct. 21.—A new  
passenger station is promised this  
city according to the Daily Journal  
which says it is not at liberty to dis-  
close the source of its information.  
It is said it will be on the same  
site as the present station, the Kansas  
City station of the Kansas City  
Southern railway.

## THE TIMES' DAILY SHORT STORY

### A STEAM SHOVELIER

By R. Ray Baker

(Copyright, 1919, by the McClure Newspaper Syndicate.)  
"There is no accounting for the tastes of some women when it comes to men," Glenquist observed, flicking the ashes from his cigar. "Maybe it's their intuition," he added, drawing his lungs full of smoke and exhaling through his nose.

The lawyer appeared more than usually loquacious this evening. He had a reputation for being rather taciturn when he was not in court, but with me he always threw off the cloak of reserve and chatted freely.

During our after-dinner chats, which always took place in his office on the seventh floor of the Holtwood building, we had decided the fate of Glenquist, solved the problem of H. C. L., settled the railroad ownership issue and thoroughly thrashed out theology, spiritualism and new thought. Yes, we were congenial souls, were Glenquist and I.

As yet we had never discussed the most perplexing problem of the ages—love. Maybe it was because we were both confirmed bachelors and did not feel in a position to talk authoritatively on the question. However, the marriage of a mutual friend had brought the matter before us this evening, and casually I had inquired why Glenquist had never selected a lifelong companion.

"Suppose you tell your story," he suggested when I broached the subject. "Then I'll burden you with mine."  
"I'll burden you with no story," I replied. "There's no story to it. I just naturally didn't take to the fair sex, or rather they didn't take to me. I guess it was mutual. Have you a story?"

"For a moment he did not reply, and when he broke the silence it was to utter the words that opened this tale. "Furthermore," he went on, "it is strange that brains do not appear to be considered much of an asset to a man when he asks a woman to become his wife. At least that is the case with some women, and very good, bright and capable women, too, I mean. Perhaps, as I say, it is their intuition, or their ability to see far ahead."

"In my case perhaps I deluded myself into thinking I had brains. Maybe I mistook my education for gray matter. Yes, there is a difference. A man may be fairly well educated and still lack an adequate amount of brains. On the other hand, without being conceited, it seems that I may lay claim to having at least a normal supply of thinking machinery. I am what you would call a successful criminal lawyer."

"I was terribly fond of Cassie Weldon, six years ago. This was my home town and also hers. We were classmates in high school and when we were graduated I went to the university and she became a typist in a real estate office. During our last year in high school we had become very closely associated in social work and before we realized it were keeping steady company."

"When I was at college we corresponded regularly, and it seemed to me that she cared almost as much for me as I for her. I pictured her presiding in a nice little home when I got started on the road to success in my chosen profession, and although I did not broach the subject, I felt convinced she would see it that way. Perhaps I was somewhat egotistical, but really I do not believe it was that. To be sure I was proud of the showing I was making in my studies and very hopeful of the future."

"Whenever I came home she professed to be happy over being with me, and I really believe she was. Our favorite pastime was walks in the woods with a camera, and I must confess that, deep down in a trunk, I still have a number of those snaps. Just for fun, I think I'll dig down and take a squint at them tomorrow."

"Things went on like this for some time, and I am sure that she did not keep company with any other particular fellow, although she occasionally went to dances and other entertainments with some male acquaintance who happened along and needed a partner for some special social event. This was only to be expected, seeing that we were not engaged and it not being natural for a young girl to stay home and spend her evenings reading 'Robinson Crusoe' and 'Red Riding Hood.'"

"It finally dawned on me that I had better get busy. I was in the fourth year of my law course, but Cassie was growing more attractive each day, and as I was not home to look after my interests it behooved me to get an option on her hand."

"I had spent that summer working in an attorney's office in Clarksburg, and so had not seen Cassie any more during vacation than during the school term. It was in the fall, and I was home for a few days, when I felt that the opportune time had arrived."

"We were walking down one of the back streets on our way to the woods for a skyscraper, and the noise seemed to give me nerve. 'Cassie,' I blurted out, 'don't you think that er—er—it's about time we got—got—down to business and—well, became engaged?'"

"She was looking intently at the steam shovel. The thing appeared to fascinate her with its chug-chug-booming and its snorting, as if strained at its base and seemed several times on the point of overturning itself. Frustrating the huge shovel against the dirt wall and forcing it upward, it gradually filled in the tremendous, vibrating power of the machine winning against great resist-

tance from the bank of dirt, as well as the law of gravitation.

"She watched the big crane swing the shovel around and dump its contents into a waiting wagon. Then the hoisting apparatus was again set at work on the bank of dirt and the process repeated. A lapse came with a break in the chain of wagons which carried the dirt away. Then Cassie turned to me.

"I knew this was coming—some time," she said, "and I dreaded the moment. Jim, I think a lot of you. You're very clever, but—there's one thing, a tremendous big thing, lacking in you. It's physical power. You may have a great mind, but you are puny physically. I admire strength, I admire power. If you were only like—like that steam shovel there, tearing away at the earth, crushing all resistance, I could be nappy with you. Some day there'll be a mammoth building there where the machine is working."

"I can't help it, Jim, and probably it seems foolish to you, but I must tell you, no matter how it hurts, that if you were the engineer on that steam shovel you would stand a much better chance with me than you would as a lawyer. At least, you would be earning money with your strength, for the man that operates the shovel must be strong."

"I confess that little speech floored me. We started to walk away, but a wagon arrived, and the steam shovel started operations again, and Cassie had to watch it some more. I struggled, gulped and finally managed to say, weakly:

"Yes, and some day I'll have an office in that mammoth building."

"That was the last time I was ever with her. With mingled disgust, bitterness and sadness I went back to college and finished my course. I came home with my diploma and it was not long before I began to win success—success such as it is. I'm making good as a criminal lawyer. I'm winning victories right along in court, but when it comes to finances I admit I'm not overburdened."

"I have a few thousand in the bank and I'm making more every day, but I'll never be rich. Perhaps I would be more if I had an incentive—like that steam shovel engineer has."

"You mean—" I broke in, my eyes popping with astonishment.  
"Yes, I mean that Cassie somehow got acquainted with the engineer of the steam shovel and married him. She took that man, grimy and ignorant, who worked with his hands, instead of me, clean and educated, who lived with my brains."

"Glenquist's cigar had gone out, and he rose and went across the room to a shelf where he kept his matches. His cigar stand, at his elbow as he sat and talked, was never known to hold a match, although there was a place for a box of them. He took a few puffs and came back to the chair."

"Well, at least I made good on my boast that some day I would have an office in the skyscraper that was going up where the shovel was excavating," he observed.

"He leaned back and looked dreamily into a nicotine cloud.  
"It's the owner of the building," he explained. "He usually collects my rent at rather a late hour, but he's pretty sure he'll find me here."

"We returned to our chairs, and Glenquist partook of a few puffs on his cigar."  
"He'll be up here in a minute," he said, "and I wish you'd observe him closely. He's the man I've been talking about—Cassie's husband."

### MANY TOPICS DISCUSSED BY COUNTY DADS

Proceedings of the county commission's session last week, furnished by County Judge C. R. Starnes, follows:

A practice has grown up in the county of having the County Clerk charge the recording fees of instruments in his office. This has made necessary the employment of a book-keeper, and in this manner, a great many hundreds of dollars are lost by persons leaving instructions to be recorded and charge to them and then leaving the address to be forwarded. The Court decided and passed a resolution at this time to instruct the Clerk not to charge any recording fee to any person.

The election returns of the Good Road election was canvassed by the Court with 1260 votes for the bonds and 369 votes against the bonds. This is twice as large majority as required since only two-thirds majority is necessary.

The Prairie Oil & Gas company, having their attention called to the need of the county, paid their taxes which was about \$50,000; of needed road money, and the Commissioners' Court allowed each Commissioner \$1000 from the General Road Fund, and \$2000 from the Automobile Road Funds to use upon the roads in this precinct. This money will give some help, but we shall bear in mind that our traffic is unusual, at this time, and \$2000 does not go far.

A contract was made with the Barrow Furniture company of Eastland, Okla. and Desdemona and the Milford Furniture company of Ranger, to be charges of and bury all paupers in their respective towns as agreed, for one year, at \$25 a person.

Sam Nolley was continued as special traffic officer at \$185 per month, and to furnish his own transportation. One of the most serious problems confronting the Commissioners' was the problem of economically building the roads. The first item that presented itself towards this end was that this could be done only by the proper use of the best materials. An investigation showed that the classification and tests of materials was one of expert attention, and Mr. J. P. Nash of Austin, who has been doing this work for the Federal Bureau of Roads, the State Highway Commission and the University of Texas, was employed to make a survey and test of the various road building materials of the county. Any citizen that should know of any special good bit of gravel, sand or stone, should tell his commissioner, who will have a proper test of this made and find whether it is good or bad for our roads. Too much care cannot be taken in the selection of materials for one mistake of judgment will cost many thousands of dollars.

Another item of policy with reference to the road, was worked out in connection with the Advisory Committee, and it was decided by all that the job of engineering the roads in Eastland county, was big enough for a good engineer to give it all of his time. That an engineer, however, meant his reputation, who might live in Dallas, Ft. Worth or Kansas City, or any other place, could undertake, as a consulting engineer, to direct the road building program in this county, would not be as satisfactory as even as the man of lesser reputation, who came to this country to live, stay here all the time, might be seen and talked to and conferred with by the Court and the citizens. It was then decided by the court that any engineer that might be selected by the court would be requested to give this work his entire time and come to this county to live.

Arrangements were also made at the meeting of the court for the hearing of the Court House with ease. The formal orders canvassing the returns of the election were entered, and a general order authorizing the bonds were drawn and has been submitted to Attorney for approval or correction; and the court will meet again after that to pass it. It is estimated that all proceedings be gotten up and the County Judge take them to Austin, for approval of the Attorney General.

### PERSONALS

Mrs. Mabel Wilson has returned from a trip to New York and other points over.

Mrs. W. A. Roynton and daughter, Marjorie, of El Paso have come to Ranger to join Mr. Roynton, a local contractor and builder.

Mr. and Mrs. W. H. Stowe, with their little daughter, have returned home from Dallas, where they were guests of relatives during the fall.

### WALKING'S MAJOR SPORT IN ENGLAND ONE DAY A YEAR

T. Payne, winner of race.

Walking holds the limelight in British sport circles one day a year. That is the day the annual London to Brighton walking race is staged. Representatives from every walking club in the country participate. This year's race was staged recently. T. Payne of Yorkshire won it.

### Tiny Girl, Typhoid Stricken, Deserted, Finds Foster Mother

Ruth Gibbs, a pretty four-year-old girl taken to the Ranger hospital about six weeks ago, suffering from typhoid fever, is now without a parent. Her mother, who worked at the Prince Rupert rooming house until a few days ago, has not called for the child, who is almost well, although a little weak, and all efforts to locate the mother have failed.

A woman of Ranger, said to be well-to-do, has taken a great fancy to little Ruth and wants to adopt her. The woman said she will give the child all the education and a comfortable home.

Mrs. Blennie Malone, district humane officer, has been making an effort to locate the child's mother, who is thought to be in Ranger.

### H. S. Davis Retaken at Shreveport, La.

H. S. Davis, formerly a transfer of Ranger and under indictment by the Eastland county grand jury for alleged wire thefts, has been arrested at Shreveport, La. according to a wire received by the local police. Davis is badly wanted, and an officer will be sent to Shreveport to bring him back. He is said to have sold large quantities of stolen pinpoints to L. Harris, who is under \$11,000 bond for disposing of thousands of dollars' worth of oil well supplies alleged to have been stolen.

### MOUNTAIN VIEW ADDITION OPENS WITH LOT SALE

The threatening aspect of the clouds, intermittent drizzling spells and muddy streets between the city and the property conspired yesterday to restrict the size of the crowd which went out to the lot sales at the Mountain View addition, which was formally opened yesterday by Eff Perry Butler and associates. However, more than a hundred persons were present.

The distribution of money prizes was carried through and about fifteen or twenty persons received five-dollar bills in the drawing. This feature will be conducted again this afternoon and Thursday afternoon, according to announcement made yesterday, though the denomination of the bills will be larger. In all \$500 in money is to be distributed. On the first day the company will agree to build a \$2,500 bungalow for the lucky man in the drawing, provided he owns a lot, or will give \$2,000 in cash.

Mountain View addition lies about ten blocks north of the post office. It is west of the Sinclair company's reboiler plant. The drainage is to the east, being almost perfect. The soil is sandy. It is bounded on the west by the heavily-traveled Cadillac road and on the north by the Sinclair boulevard, reputed to be the best road in the entire oil fields.

Mounted upon a hay wagon, Eff Perry Butler announced the opening of the lot for sale. Auctioneer Mayfield increased the audience to great visions of Ranger's future, predicting it was to become a second Tulsa and that its population would increase to 100,000 within a few months. He drove home a strong conviction when he said the ordinary man could afford to spend a few hundred dollars in Ranger real estate if the big companies which are operating in this field had sufficient faith in its long duration to invest millions.

The first lot put out for auction was listed at \$750 on the company's plat. It was started at around \$150 and under the stress of talks of the auctioneer was boosted up to around \$850, when it was knocked down. This lot is one of the choicest in Mountain View addition, being on the Cadillac road, Mayfield and Clinton streets. Another lot on Terrell boulevard was knocked off with the hammer. During the afternoon a number of Rangerites walked over the great new addition and a number of sales of lots were made.

On the west of the property lies a beautiful hill studded with post-oaks. To the north lies another chain of hills, where abundance of water is procurable. To the east a panorama of the Sinclair properties, factories in the distance and the east "view" of Ranger loom up fascinatingly. To the south, one can see the skyline of the business section.

### New Jazz Quartet Entertains Diners at McCleskey Cafe

At Healding's has a new jazz combination for the benefit of his patrons at the McCleskey cafe and from present indications they will be permanent. They hail from Wichita Falls, where they have been entertaining guests of the St. James hotel. After dinner hours they will play for dancing at the roof garden.

Lieut. David Berend, from New York, was an observer in the air service during the war. He swings a cruel pick over a jazzsome banjo and an equally effective bow on the violin. His violin solos went over well with the cafe patrons. Other members of the orchestra are F. Cornelison, at the piano; O. T. Jamison, traps; both good. Lieut. W. H. Kelly, who arrives today, also was in the air service, as a pilot. In the service he went by the name of "Hips," because of his lack of any. He toots a telling trombone.

The new orchestra is equally good at jazz or more serious numbers and was frequently encored upon its first appearance.

### Mothers' Club Day Will Be Friday

Friday afternoon the work of organizing a mother's club in each school of the Ranger district is expected to be taken up, if the weather permits.

The work of the mother's clubs in different cities of the state has shown how important a part such organizations can play in the upbuilding of schools and the arousing of school interest among the pupils. It is the aim of school authorities to enlist as many women as possible in the local organizations.
