WAR REFERENDUM.

The Tulsa World takes William lennings Bryan to task because the "commoner" advocates the adoption of a law requiring a referendum on all questions of war. It belittles the female constituents of the nation because it intimates that ger, has shot its No. 1 well with 100 Bryan must needs present the "novel quarts from 3,438 to 3,424 feet and Tax paying in Ranger is not

will be drilled soon; the Wheat lease, All who owe taxes on personal litical fabric of the nation. Even on the Stephens-Young county line, avoid the rush the constitution of Oklahoma-the which the World is published-was framed by him. The state guaranty bank law of Texasand of other states, upon which we all look with sanction and praise, were evolved and given to the people by Bryan.

Bryan has been declared dead a number of times; but he has managed to "resurrect" himself whenever occasion required. When "most dead" he soon proves to be "most alive," Therefore, whenever he comes out with a new idea it is quickly snatched upon. It was declared that he "killed himself politically and influentially when he was brave enough to stand by his convictions and get out of the cabinet. His action is commendable. Most of us under the allurements of the office would have remained in the portfolio, regardless of whether or not our convictions were to be despised; but Bryan was too much man to usurp a place in which he realized he did not fit. The man himself is spotless, immaculate, and doubtless the most capable statesman in America today. Wilson and Bryan are not enemies, as many would wish us to believe, but they are fast friends and, if anything, Wilson does not condemn the action taken by Bryan in removing himself from the cabinet even during the

The Tuisa World has a Republican record to maintain. Bryan is a Democrat. Moreover, he has the "golden rule" sort of government that not only arouses the ire of Republicans, but goes against the grain of many Democrats. He hews to the right, regardless of where the chips may fly. If the largest chip must strike a Democrat in the eye, it matters not to Bryan. . Therefore, the prejudice of the World against Bryan is a convincing point against it in trying to stultify the efforts of Bryan to bring about the adoption of a referendum on all questions of war. The idea is not contrary to our democratic form of government, but rather is consonant with it. A democracy is a government of the people, for the people and by the people. Therefore, in Mr. Bryan's stand he is not seeking to put anything over the people. He has stood for the people to run their own business. He seeks to wean some of this war-making power from few individuals and to place it with the people. Mr. Bryan has been called a pacifist. He was, as we all know, opposed to the war; but after war was declared he was one of the principal workers throughout the na-tion to stimulate action. He threw

his hat into the ring.
