

BREACH BETWEEN MINERS AND OPERATORS IS WIDENED; MORE INDUSTRIAL PLANTS TO CLOSE

CO. PLEDGES AID TO STOP GUN TOTTING

The closest co-operation will exist between the Ranger police and the county forces to quell the promiscuous use of firearms in Ranger, according to a letter which has been received by Mayor M. H. Haganman from J. E. Ingram, first assistant county attorney.

It was intimated sometime ago that an unusually large number of concealed firearms was being carried in this city. Alleged thugs and desperadoes were reported to have set the fashion and a number of private citizens, usually with a thought of totting them, were by the exigency compelled to carry guns for their safety on dark nights and in secluded parts of the city.

Chief of Police Byron Parrish upon assuming office a short time ago pledged himself and his force to put "gunmen" and gun toters to rout. He has kept his pledge so far as possible; but no officer can put down the practice without the co-operation of the citizenship.

The text of the letter from Assistant County Attorney Ingram to Mayor M. H. Haganman, in full, follows:

"In reference to my conversation with you a few days ago concerning the promiscuous use of firearms by our citizens and non-citizens, I took the matter up with your officers and place them under arrest for violation of a state law. The law is as follows:

"If any person in this state shall carry on or about his person, saddle, or in his saddle bags, any pistol, etc., he shall be punished by a fine of not less than \$100 nor more than \$200, or by confinement in the county jail not less than thirty days nor more than twelve months, or by both such fine and imprisonment."

"Whatever assistance the county attorney's office can render in the premises will be immediately forthcoming."

DENKINE SLAYS 50,000 TROOPS OF BOLSHEVIKI

STOCKHOLM, Nov. 22.—General Denkin, commander of the anti-Bolshevik troops on the southern Russian front, claims to have broken through the Red line between Cayal and Tambva, and annihilated 50,000 Bolsheviki troops, according to a Helsinki dispatch reaching here today.

MEXICO TO KEEP GOLD AND SILVER IN OWN COUNTRY

EL PASO, Nov. 22.—Mexico wants to keep all her gold and silver money in that country. Under orders from Mexico City, custom house officials on the Mexican side began today comparing persons crossing to the United States to exchange their money for currency.

NO AGREEMENT REACHED IN RED RIVER OIL CASE

Special to The Times. FORT WORTH, Nov. 21.—No adjustment of the receivership controversy in the Red river oil lands cases was reached at the conference here yesterday between Governor J. E. A. Robertson of Oklahoma and Governor William P. Hobby of Texas, with their respective attorneys general, despite the fact that some kind of an agreement seemed possible more times than one.

The final split came when Judges Calhoun and Jones failed to reach a settlement over the matter of their respective jurisdictions. At the morning session, after agreeing that it was of the utmost importance that an amicable adjustment should be reached, the matter was left in the hands of the two jurists for adjustment.

Following the final adjournment, the two governors issued a joint statement in which it was stated that inasmuch as the matters at issue could only be finally determined by the supreme court of the United States, it was decided to proceed no further until the attorneys general of the two states could obtain an order from the supreme court.

The attorneys general of the two states will leave at once for Washington. In the meantime, the two governors have issued a statement in which they declared that no violence or disturbance of any kind will be tolerated.

The matter is left just where it was before the meeting. Texas is at present in possession of the controverted property, which includes forty-five acres of the Burk-Senator Oil company and its well, and forty acres of the Burk-It company.

Service Cars Off Main Street Onto Commerce

Chief of Police Byron Parrish Saturday morning cleared the service cars from Main street, a move George Hemmingston, secretary of the Chamber of Commerce, has been advocating several days. The oil field johnnies and supers are now parked on Commerce street, between the Texas and Pacific Station and the Texas Pacific Coal & Oil company's office.

Half hour parking on Main street will be the rule, was the announcement of Chief Parrish. The service cars have made it a practice to stay until their loads were made up, he said, and the result was the blocking of business places.

There will be no parking where construction is going on, or at places opposite construction, the chief stated. This move will keep Main street open for two cars to pass, even at the spots where the street is blocked by huge construction houses.

Drivers of horses who leave them without hitching will be subject to a \$5 fine, Chief Parrish said.

Cottonseed Mills Will Get Coal

WASHINGTON, Nov. 22.—Special authority to supply cottonseed crushing mills with coal to meet the immediate demands was given to the regional coal committee at Atlanta by the railroad administration today.

Each application for coal will be handled on its merits and to obtain coal the manufacturer must show that increased stocks on hand will be damaged if it is held longer without crushing.

ONLY WOMAN TO WIN D. S. M. WILL AID DESTITUTE REFUGEES IN WESTERN ASIA

Miss Mary Vail Andress in her uniform and wearing the D. S. M.

Miss Mary Vail Andress, the only woman to be awarded the distinguished service medal for war work, is not planning to cease her labors just because the world struggle is ended. She has completed plans to sail for Tiflis to aid in the care of 800,000 refugees made destitute in Western Asia. She will take charge of a unit of women welfare workers, practically all of whom have been service in France. Miss Andress was one of the pioneers in the first canteen established by the Red Cross in France. She also was awarded the croix de guerre.

TORPEDO CO. WORKER DIES OF INJURIES

Don Ordway, aged thirty-five, an employee of the Eastern Torpedo Co., was fatally hurt in an accident on the J. E. Butler lease about 2:30 o'clock yesterday afternoon. He died about midnight last night, in the Ranger general hospital.

Ordway was making a twelve shell run on No. 18, on T. P.'s Butler lease, and was reeling out after his eighth shell when a kink in the line caused it to break. A broken end wrapped around Ordway's legs, dragging him into the flywheel and fracturing his skull. He was rushed to the hospital in a Milford ambulance and medical aid was given in an effort to save his life.

Ordway's home was in Bollinger, Ohio. The body is being held at the Milford Undertaking Parlor, on Rusk street, pending word from relatives.

RANGER HOMES.

It used to be called the "City of Shacks." These temporary structures rose ever night to meet the need for places of shelter for the flocking thousands. Unsanitary they were, and still are, in some sections, though the march of progress has moved them back from the business district and rigid rules have barred them from the choice residence sections that have been opened.

But some of us are not yet familiar with the beautiful homes that have arisen to take their place and make Ranger a place of permanence. By photographs, through the co-operation of the Hippodrome studio, and in news story, the Progress Edition of The Daily Times, Thanksgiving day, points out to you the beauty spots of the city that you may have missed. Better order those extra copies today.

SLAIN RANGER POLICEMAN IS LAID TO REST

J. R. Denning of the local police force returned last night from Texarkana, where he went as an escort for the body of Alf Jordan, who was killed here last Sunday night.

Mr. Denning stated on his return that an enormous crowd attended the funeral of Jordan, who had lived in Texarkana for a number of years. Many beautiful floral wreaths were taken of the casket in which he was held. The Texarkana papers devoted long articles to the tragedy and paid glowing compliments to the man who died in the performance of his duty.

Jordan was killed last Sunday night when he attempted to arrest Bill Shamlin, who was raising a disturbance and waving a pistol. Shamlin is in the county jail at Eastland, held without bond.

YAQUI INDIANS USE BULLETS OF MESQUITE WOOD

NOGALES, Ariz., Nov. 22.—Yaqui Indians are using bullets made of mesquite wood in their Sonora campaign, according to Dr. E. G. Moore, American physician, who has been caring for Mexican Federal wounded at Cumpas.

2 Men Die When Boiler Explodes

ROANOKE, Texas, Nov. 22.—Two men were killed, and a number of persons seriously injured, in an explosion of a steam boiler at the "farmers' gin" plant here last night. Glass doors and windows in several business houses were shattered and pieces of timber and the boiler were blown about 300 yards from the scene of the accident.

The property loss is estimated at \$25,000. STAMFORD, Nov. 22.—Cotton picking is stopped again on account of rain. About 30,000 bales have been ginned in Jones county. Most farmers say they have about half their cotton gathered.

JUGO-SLAVS TO "GET" ANNUNZIO IF HE ATTACKS

LONDON, Nov. 22.—The situation on the Adriatic as a result of Captain Gabrielle D'Annunzio's campaign has reached a crisis. Private advices leave no doubt but that he is determined to annex Dalmatia and attack Montenegro.

The Jugo-Slavs, it is stated, have concentrated their troops and are prepared to resist any aggression by him. Another reports says that a republican undercurrent, directed against the Italian monarchy, exists among D'Annunzio's forces. Advices today state that any further aggression by D'Annunzio will certainly precipitate hostilities with the Jugo-Slavs, who, however, it is declared, will direct an attack against D'Annunzio and not against the Italian Government.

It is not known whether the insurance pool shares the reported ambition of this military element to attack the government. D'Annunzio appears to have been stirred to further efforts by the fact that the Italian elections were unfavorable to his cause.

Many adventurers are flocking to his standard and reports state that among a certain element there seems to be a desire to make him president of Italy.

THIS CASHIER TAKES LITTLE "FRENCH LEAVE"

CHICAGO, Nov. 22.—The Illinois State Bank at Crete, Ill., today failed to open and it was announced that a warrant charging embezzlement has been issued for the missing cashier in connection with an alleged shortage of \$400,000.

The bank was capitalized for \$25,000 and its known assets were approximately \$300,000. "The cashier disappeared and the janitor says he didn't see him," said the state bank examiner today.

Speculation is blamed for the failure. When the bank examiners went to examine the institution, the cashier, according to the examiners, received them and turned over the books and keys and unlocked the vault.

"I'm going across the street a minute. Just make yourselves at home," he told them. An hour later the examiners found that they were locked in the building and the cashier had driven away in an automobile.

3 DEAD IN AN EXPLOSION AT ROANOKE GIN

DENTON, Nov. 22.—The death today of one of the men injured in the explosion of a boiler at a gin at Roanoke, near here, brought the death toll to three.

Five other men employed in the plant were injured.

National Party Meets to Name a Candidate

CHICAGO, Nov. 22.—Nearly 1,000 delegates, including labor leaders, representatives of farmers' organizations and of the Non-Partisan League were here today attend the convention of the National Party, called originally to nominate a candidate for President of the United States.

Many of the new party men went sleepy-eyed to the hall today after an all-night conference, caused by the attitude of the leaders, they said, of the American Federation of Labor.

DEADLOCK REMAINS AND ONLY FEW MORE WORDS "ARE YET TO BE SAID"

(By The Associated Press.) WASHINGTON, Nov. 22.—Bituminous operators declared that the proposal of Secretary of Labor Wilson for a joint wage scale committee has served only to widen the breach between the operators and miners.

"There are only a few more to say and they will be said soon," said Thomas Brewster, chairman of the operators, today.

CHICAGO, Nov. 22.—Additional shutdowns of industrial plants, mainly in the Central West, were in prospect today as the striking coal miners began the fourth week of idleness and the conference of the operators and miners at Washington remained deadlock.

COAL STRIKE TO END SOON, SAYS U. M. W. OFFICIAL

SPRINGFIELD, Ill., Nov. 22.—Predictions of an early settlement of the coal strike were received here today from Stephen Sullivan, president of the Springfield sub-district of the United Mine Workers, who is in Washington.

Sullivan telegraphed the local officers that he expected an agreement would be reached on 31 per cent wage increase and that work probably would be resumed in three days.

FUTURE OF THE TREATY IS NOW GREAT PUZZLE

WASHINGTON, Nov. 22.—Whether further compromise efforts are to be made to ratify the treaty or the whole controversy is to be thrown into the 1920 presidential campaign for decision, was the question which aroused lively speculation in official political circles here today.

TRYING TO RUN DOWN HOLDER OF BIG "RED" FUND

NEW YORK, Nov. 22.—A search for the holder of the \$68,000 fund, reported to have been raised in New York to purchase arms and ammunition for radicals, "for the coming revolution," occupied the attention of Federal agents today.

LETISH FORCES ADVANCE

LONDON, Nov. 22.—Lettish forces yesterday captured Milan, the capital of Corsica, according to the Lettish delegation here. The Letts are continuing their victorious advance.

DENVER, Nov. 22.—The possibility that the train bandit, William L. Carlisle, is in Denver was forced upon the police today by letters mailed here to Denver newspapers and a postcard addressed to Chief of Police Armstrong, purporting to have been written by Carlisle.

"The next time you hear from me, I'll be in Texas," the postcard said. "I've had a nice time. You have a bunch of good fellows and they showed me around."

RANGER-ROCK ISLAND WILL PAY DIVIDEND

Special to The Times. FORT WORTH, Nov. 22.—C. W. Brooks, vice president of the Ranger-Rock Island company, operating headquarters here, has announced that the company will pay a dividend of 10 per cent on its outstanding capitalization of \$430,000 on Nov. 25.

The authorized capital of the company is \$750,000, but only \$430,000 of this has been issued. The Ranger-Rock Island would have paid dividends sooner had it not been for the steel strike, Brooks said. Anticipating a struggle between the steel workers and the plant owners, the Ranger-Rock Island rushed into the market and contracted for material for nine wheels. The company has production in the Desdemona and Ranger fields.

Between 1,500 and 1,400 shareholders will profit by the November dividend, Brooks declared. The company expects to bring in a well on the Shellenberg tract, Desdemona, Brown No. 1. Another well, Kamper No. 1, in the same tract, is on the sand. The company also has two wells on the sand in the Wright tract near Ranger.

Fast Progress On New Cisco & N. E. Railroad

Special to The Times. LEERAY, Texas, Nov. 22.—The Cisco & Northeastern railroad is now laying steel on the switch tracks in the yards at Cisco. Three hundred and sixty tons of steel are on the road and shipments are arriving. The grade between Cisco and Leeroy is 90 per cent completed and filling in the gaps.

It is the belief of officials Leeroy will be running to Cisco for the first of next year. Grade work east of Leeroy, to Cisco, is progressing rapidly. Five plays all the teams that are on the southwest of Leeroy will be switched to the eastern portion of the road.

YUDENITCH AT REVAL

STOCKHOLM, Nov. 22.—General Yudenitch, anti-Bolshevik commander of the northwest front, arrived at Reval, capital of Estonia, with his staff today.

PRINCE OF WALES CONCLUDES U. S. VISIT

NEW YORK, Nov. 22.—The Prince of Wales concludes his visit to the United States today. Numerous farewell functions have been arranged to keep him busy until he sails to Halifax.

TWO

POLYGAMY IS PRACTICED IN ENGLAND TO AN ALARMING EXTENT

International News Service.
LONDON, Nov. 22.—There is a hundred times more polygamy in London than there is in the Mormon city of Salt Lake. There are more men living with more than one woman in London than there are in Salt Lake.

We are in England very much excited over the tales of polygamy in Utah, but we ignore the actual polygamy at home. English clergy should not use up their efforts against the religious belief in polygamy in Utah. They should reserve some of their thunder for the practice of polygamy in England. I know Utah well, and I can speak of things there exactly as I know them. In England a husband can live with another woman besides his wife and this fact does not give the wife grounds for divorce. This makes what is in fact actual polygamy by law permissible in England. It still is practiced to an alarming extent.

Which is worse—to believe and not practice, or to not believe and practice?

Here in London keeping a mistress is not called bigamy, and it is not punishable by law unless the man has gone through the form of marriage with the second woman. The lawful wife cannot get a divorce in England when her husband has committed adultery, while in Utah any wife can get a divorce if her husband commits adultery.

The laws of marriage in Utah are very much more moral than the laws of England. Polygamy is believed in, but the Mormons declare it is not now practiced in Utah. So far as I could see in my visits to Utah that declaration is true; and I write as one who detests both polygamy and Mormonism.

Indian women who came to England, which has been held up to them as the beacon light of civilization, are shocked at the looseness and immorality of women in London.

Polygamy has increased 400 per cent in England during the year. The Bishop of Norwich has suggested that everybody should carry a certificate of registration recording life facts. This record would tell whether a man was married or single, and the law would compel men to show these identification cards whenever asked.

The divorce courts of England are overflowing. When the courts opened this autumn there were 2,000 cases down for hearing. Nine-tenths of these were cases based on a charge of adultery against the wife or of

adultery with some other charge against the husband.

The divorce court is such an endless round of adultery cases that I came away from my visit there with a bad taste in my mouth. It does not seem that wayward husbands confine themselves to one mistress. I listened to three cases. A landlady in the first case gave evidence that three or four women came to visit the offender. The judge asked her if they all came at once and she said: "Oh, no, your honor; one at a time," occasioning much laughter on the part of the court.

Judged from the divorce petitions—though, of course, it is not the case actually—adultery is as common among women in England as it is among men; but there is no adultery among Mormon women in Utah. There seems to be an endless chain of cases in which the husband has come home from France and found his home closed and his wife living with another man.

Another case was that of a working man whose wife, the mother of his four children, was in the habit of going to spend the night at another man's house even while she was living in the house of her husband.

How many poor, ambitious girls who marry for titles or money—perhaps even for love—suffer in silence, knowing that their husbands are committing adultery, but being unable to free themselves because adultery is not sufficient grounds for divorce? Look at the men of England, rich and poor, and count the numbers who are not living with their wives, but the wives dare not say anything because they have no legal rights in the matter.

Some people think that sanctioning polygamy by law would do much good in England. There are not enough men to go round, so they say; therefore, why not portion several women to one man. This would put the expense of the mother and child upon the man and not upon the state. With such a law girls would insist upon a marriage ceremony and there would be practically no unmarried mothers; but all the deepest instincts of the race are against any such solution of the pressing problem.

There is at the moment a great hue and cry about the Mormon elders who have come to this country to lure girls into the snare of their religion. Let the pages of the newspapers and the speecifying of England's professors of piety be turned against the practice in England instead of against the theory in Utah.

BOOTLEGGERS IN IOWA STEAL PRIVATE BOOZE

OMAHA.—Omaha bootleggers have found an easier way of getting booze than running it across state lines from Missouri and other states, where large quantities were cached before prohibition days. They "high-jack" the stuff.

"High-jacking" in bootlegging parlance, is robbing private stocks—that is, burglarizing the private stock of men who were wealthy enough to have laid in supplies to last them for years.

In the last thirty days \$100,000 worth of liquor has been "high-jacked" in Omaha, and not a single "high-jacker" has been captured. They have hauled the stuff off in automobile trucks and in wagons.

As a result Omaha bootleggers are supplied with some of the very finest whiskeys, wines, brandies and other liquors and their customers are getting a better class of booze than they could obtain even in "wet" days. However, they do have to pay the price.

By high-jacking the bootleggers lay themselves open to charges of burglary, but since the liquor is a contraband, there is a question as to whether they could be punished even if captured. Furthermore, the general public looks upon high-jacking as a sort of good joke on the man who could take advantage of his money and lay in a supply, whereas the poor man has to buy from the bootlegger or go without. Even if brought to trial there is a question whether all twelve of the men on the jury would find guilty any bootlegger charged with robbing the private stock of some wealthy man who was going to dodge the prohibition law.

Louis Nash is one of the latest to offer. Nash, head of the Burgess-Nash department store, lives at Thirty-eighth and Burt streets. The other night \$8,000 worth of fine whiskeys, wines, champagnes and other liquors disappeared from his wine cellar. The burglars took every bottle Nash had laid by. The high-jackers passed entrance through a basement window. They carried the stuff away in two motor trucks. The Nash home is on the brow of a hill. Indications are that the high-jackers loaded on the trucks and gave them a push down hill, not starting the engines until the trucks had come to the foot of the hill. Although Mr. and Mrs. Nash, three children and five servants were in the house, the burglars worked so smoothly no one was awakened.

GERMAN COLONY IN TEXAS SUED FOR \$51,000

DIMITT, Tex., Nov. 21.—One of the most remarkable damage suits ever filed in the district court of this state will come up for trial at next term. The case is that of John McCormick against forty men who are members of the German co-operative colony at Nazareth, a town situated in the eastern part of the county, and is for \$51,000 damages.

McCormick alleges in his position that a can of kerosene which he bought from the co-operative store was really gasoline and that it exploded while one of his children was kindling a fire in a stove last April, and burned the house, two of his small daughters perishing in the flames.

Nazareth colony is a co-operative community of German Catholics. It is composed of about fifty families and they have the reputation of being thrifty, peaceable and clean. The whole social life of the colony centers in the Catholic church, and the priest is the leader of the people. They own and conduct a store co-operatively. They buy their farm implements and other supplies together, and often in carload lots. The older members of the community came from Germany many years ago and they are said to hate German socialism and militarism. During the war they always subscribed their quota to Liberty bonds, Red Cross and other war activities; the first day. None of the members ever has figured in court actions.

McCormick was a member of the county council of defense and it is alleged that because of this fact he made enemies of some of the Nazareth colony. The Germans say the oil was bought at wholesale price in view for kerosene and that it was bought a "wet" year before the accident and had nearly all been used.

LUXURY TAX ON COSETS FOUGHT BY FAT WOMEN

CHICAGO.—Unconstitutional discrimination against the rights of women possessing a "necessity" and not a "luxury."

By Associated Press.
RIO DE JANEIRO, Brazil.—(By Mail.)—Results of coffee crop failures are seen in the large number of high grade automobiles available for public hire in this city. Most of them were originally purchased for private use in times of prosperity, but their owners were compelled to sell them when the crop failed and financial distress ensued.

The widespread use made of them for business, pleasure or social purposes is a striking feature of life in the Brazilian capital. They are not of the usual taxicab type but expensive cars.

The broad, smooth avenues and boulevards are admirably adapted to the use of automobiles, and as there is no speed law the one great object in life for the native chauffeur apparently is to go at top speed whether in city or suburb. That there are not numerous daily accidents is, perhaps, mainly due to expert handling of the cars.

The Germans say the oil was bought at wholesale price in view for kerosene and that it was bought a "wet" year before the accident and had nearly all been used.

LATEST IN MARRIAGE; SEE YOUR WIFE JUST ONCE EACH WEEK

NEW YORK.—The newest thing in marriages has arrived. The bride and groom live in separate establishments in different towns. Hubby keeps his name; wifey keeps hers. Both wear a ring. They visit each other over week-ends or run away together for a couple of days whenever the mood seizes them. In this way "love will never grow cold," the two will remain sweethearts all their lives, wifey will not be a mere housekeeper or husband a furnace-ender—in short, perfect bliss is to be obtained.

The experiment is that of Nina Wilcox Putnam, who has just married Robert J. Sanderson. The bride is the widow of Robert Faulkner Putnam, a member of the well-known publishing firm of Putnam. She is a novelist and a feminist. Mr. Sanderson is district manager for the Southern New England Telephone company.

"Miss Putnam," as she calls herself, has her country home in Madison, Conn., and Mr. Sanderson lives in Bridgeport. They will keep an apartment in New York which they share in their "play time," as they call it. Their four-day honeymoon has been spent in New York and they are going back to their respective homes until one of them decides to visit the other or "run away" over a week-end in the big city.

"I believe in monogamy," Miss Putnam declares. "It ought not to be regarded as failure, because it never has been tried honestly as a whole. Upon one side there have been all the evasions, the hypocritical arrangements tolerated by a professedly moral and monogamous civilization, while on the other side the marriage relation has been hooked up with so many irrelevant conditions—the joint household, the woman's skill as a cook, her dependence upon the man as a bread-winner."

Miss Putnam also holds that there is another reason why a man and wife should not live together—because there is a constant temptation to devote too much time to each other and not get any work done. There will be no difficulties about money—each party to this marriage earning a living, and all the living

TEXAS SEVEN WELL IN BURK FIELD MAKES 500

Special to The Times.
FORT WORTH, Nov. 22.—The Texas Seven Oil company's No. 1, block 89, northwest Burkburnett field, is in and is estimated as being good for 500 barrels initial production. The No. 2 on the same block is nearing the sand and should be completed within a few days.

GOVERNMENT LAND SELLS FOR \$827.50

Special to The Times.
ARDMORE, Okla., Nov. 22.—At the Government land sale held at Ardmore this week, the highest price paid per acre was \$827.50, located in section 14, 4s, 2w, bid in by the Westheimer and Double oil interests. The same people bid in a tract in section 13, paying \$360 per acre.

Special to The Times.
FORT WORTH, Nov. 22.—The advance in the price of crude oil to \$2.50 a barrel, which was announced Thursday, does not affect the fields at Electric, Iowa Park, Holiday and Petrolia. The price of crude oil at these places at present remains at \$2.25 per barrel.

LONDON, (By mail)—Shortage of physicians in this country which was greatly increased by the war, is giving women a golden opportunity to enter the medical profession. Hundreds of demobilized war workers, especially nurses, are taking advantage of it.

Before the war, few facilities were offered English women for training as physicians and furthermore they encountered a prejudice on the part of all classes that was strong enough to daunt even the most determined. That prejudice against "women doctors" was almost entirely swept away by the heroic and efficient medical service performed by women during the war.

Hospital schools of medicine from which women students formerly were barred are now open to them. Many hospitals and other health institutions include women on their boards of management, and public positions

A BASIL RAT! IS WAR CRY OF RANGER PUPILS

The night before Christmas will not find the lone, proverbial mouse stirring in Ranger this year. War—grim, relentless war—has been declared upon the whole rat and mouse family by Mrs. Grace Harrington, public school nurse, and all the kiddies of the public school system of Ranger.

The idea originated with Mrs. Harrington. It is known to everyone that the whole crop of rodents which infested Hamelin town in the days of the Pied Piper have miraculously come to life and settled in this city. Rats carry fleas and fleas carry the bubonic plague. Mice and rats are disease carriers. Mrs. Harrington wants to rid the city of disease carriers and she has appealed to the pupils of the public schools to help accomplish this end.

Entering into the chase in the spirit of friendly rivalry that characterizes all the "drives" of the school children, the pupils of each room in the different wards have a contest on, to see which room can trap the most rats and mice. In order to keep ambition from overleaping itself, the teachers must keep a check on the success of their pupils. So the night's catch of dead mice and rats is brought to school and tenderly deposited at the feet of the teacher.

In some cases the teacher objects. "Light take them away, Johnny," she cries, with a feminine terror of apprehension. "Are you sure they all are dead?"

But the catch must be counted and a record kept and it is up to the instructor to do it. The winning room is to receive a handsome picture as a gift from Mrs. Harrington.

No limitation is placed upon the number or model of traps to be used. Some of the boys are winning their faith on rat terriers, while every variety of trap known to the ingenuity of American youth is being brought into play.

Texas National Guard Is Below Standard, Says

By PASCOM N. TIMMONS.
WASHINGTON, Nov. 22.—Charges that the National Guard of Texas, which on paper is the strongest in the United States, is in reality a paper guard, that Adjutant General Harley of Texas, has not properly administered his office, most officers of the Texas Guard are not living up to their obligations, and that Federal money has been unnecessarily wasted by the State authorities are some of the charges made by Major General Jesse Carter, chief of the Militia bureau, in his regular annual report which was submitted to Congress today.

General Carter's report deals with National Guard matters in every state in the Union, but by far the greater part of it is devoted to the Texas National Guard, organized during the war to take place of the old Guard which had been drafted into the Federal service to form the bulk of the thirty-sixth division.

"The guard of Texas is mainly paper strength," the report says. "Only nine out of the 141 units in Texas are holding any kind of drills. In the Oklahoma Guard 28 units out of 31 are holding drills more or less regularly. Very few men are joining the guard. There is some feeling on the part of the old National Guardsmen against the National Guard during the emergency. It is the opinion of this office that very little progress will be made until this feeling disappears and the cooperation of the returning old National Guard is secured."

The charges against the administration of Adjutant General Harley of Texas in the report to Congress are specific.

"There appears to be no coordination with the officers of the U. S. Adjutant General's Department and the United States property and disbursing officer, the latter officer forwarding uniforms and equipment to organizations that have been disbanded or moved to other stations, his object being that information relative to the changes has not been furnished by the adjutant general's office. He also shipped property in violation of the provisions of Memorandum No. 49, National Guard of Texas, referred to above. One instance is reported where without authority he shipped property to the station of an organization; the property was returned to storeroom at State headquarters and again re-shipped without property authority. There has been apparent an unnecessary waste of government funds in the shipment and handling of Federal property in the hands of State authority.

"The large majority of officers in the Texas Guard appear not to be alive to the obligations they accept when volunteering in the State organizations. In Oklahoma the conditions are much better and it would appear that the obstacles to be overcome in that state are not materially different from those existing in Texas.

"The Regular army officers detailed and assigned to duty as instructor-inspectors in Oklahoma and Texas have been greatly interested and have more than complied with the requirements of the regulations and instructions given them. They appear all to be excellent officers and they have entered most heartily into the spirit of earnest endeavor to make the recruits with which they are serving dependable organizations. That they have not done so is no reflection upon these officers."

For the fiscal year ending June 30 there was paid as rent for armories in Texas \$5,920. There was no public-owned armories in the state.

RUDE GOLDBERG'S BOOBS

Eight instructor-inspectors were assigned to Texas and 23 sergeant-instructors.

Texas lead the states in the number of machine gun units organized, there being companies at Houston, San Antonio, Paris, Ellettsville, Austin, Bowie, Dallas, Texarkana and Genantown.

Marriage License

The following marriage licenses were issued by the office of County Clerk Earl Bender at Eastland:

Bruce Ogle to Victoria Hamilton, Ranger.

E. E. Burris to Myrtle Hamilton, Ranger.

Rufus Albert Tanner to Kate Saunders, Cisco.

Fred J. Parker to Myrtle Horton, Enice, Okla.

New Hamilton Addition Being Put on Market

Moore & Freeman, real estate agents with offices over the Ranger Drug company, are placing Hamilton addition on the market. This addition comprises fifty lots with a 250 foot frontage on Hunt street and a two block frontage on the Strawn road.

W. S. Hollifield is interested with Moore & Freeman in the sale of the property. The lots will be offered for warehouse and business sites and sold for a cash consideration and terms.

Moore & Freeman also have the exclusive agency for the Commercial addition, three blocks north of Main street. The Moore Investment company is another organization of this live-wire firm. The company has built several stores and an apartment house on its property on Hodges street, in the west part of town, and contemplates erecting a theater in the near future. At a recent meeting of the directors Bart L. Freeman was elected secretary of the company. Raymond Teal is vice president and other business men are stockholders.

IMPERIAL OIL LEASES
13 ACRES AT IOWA PARK

Staff Special to The Times.
FORT WORTH, Nov. 22.—The Imperial Oil company, composed of California oil men, has leased thirteen acres in the Iowa Park field, for the purpose of development for oil.

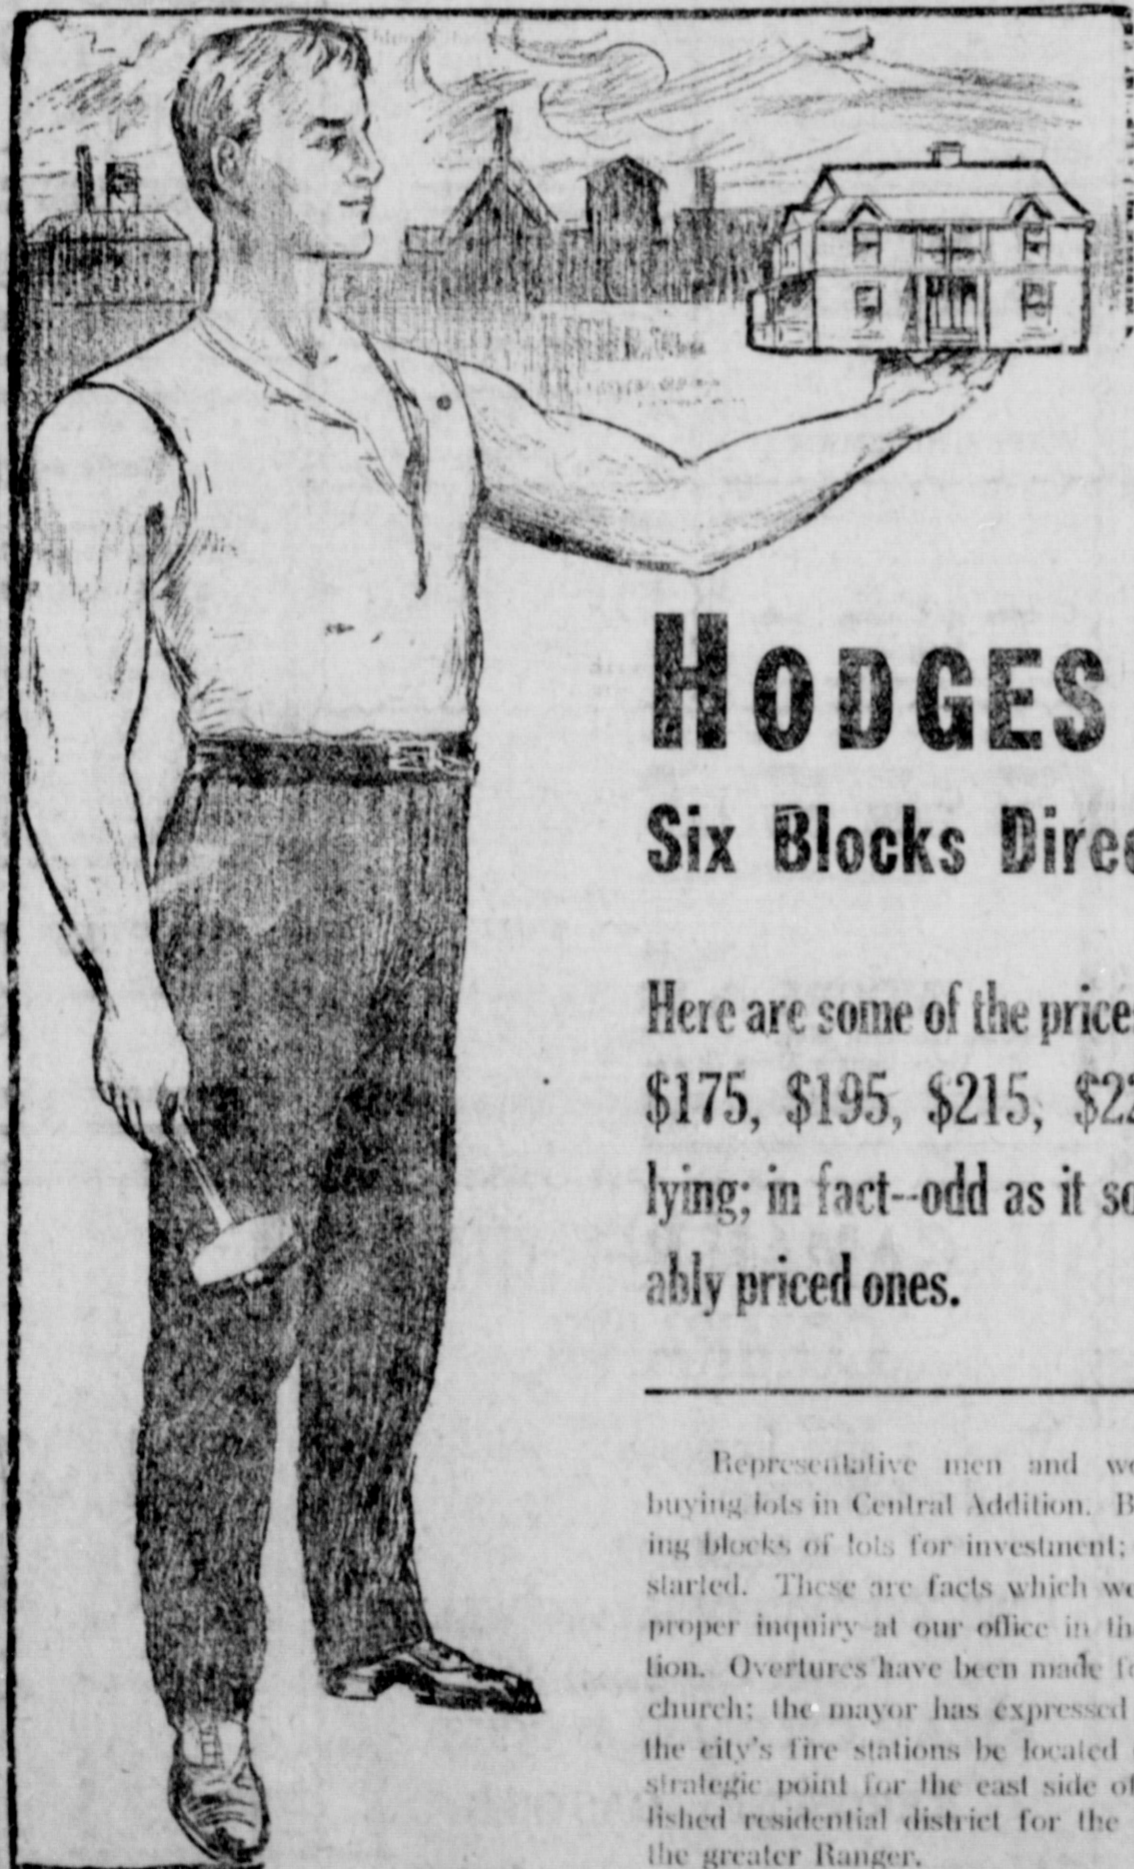

"WAFFLES, WAFFLES AND MORE WAFFLES"

They sure are good at

Coles' Cafeteria

118 S. Austin St.

Open from 6:30 a. m. to 9:00 p. m. You can eat here at any time of the day.

They're Going! and Building Has Started!

HODGES CENTRAL ADDITION

Six Blocks Directly East From the Heart of the Town

Here are some of the prices: \$90, \$95, \$105, \$115, \$125, \$135, \$145, \$155, \$165, \$175, \$195, \$215, \$220, \$225, \$245 and up--and they are all fine lots beautifully lying; in fact--odd as it sounds--some of our very finest-lying lots are our most reasonably priced ones.

Representative men and women of Ranger are buying lots in Central Addition. Business men are buying blocks of lots for investment; building has already started. These are facts which we will substantiate on proper inquiry at our office in the center of the addition. Overtures have been made for the site of a costly church; the mayor has expressed a desire that one of the city's fire stations be located on the addition as a strategic point for the east side of the city--the established residential district for the high-grade homes of the greater Ranger.

Much favorable comment is being made on all sides on the finely graded streets of the plat and they have become the mecca for automobilists of the town and all traffic that leads out past the addition. Central Addition is the one place in Ranger where the speed limit is exceeded every hour of the day and as yet the traffic cops are not wise.

The next time you have an idle hour, just drive out for a spin or hail one of our "Free Ride Hodges Central Addition" autos. Come out Sunday and look us over. You will be delighted with our beautiful property. We'll wager that you never imagined there was such a delightful place to live in Ranger.

EXOTIC CITY TIGHTWADS!
Tightwads in city development should be exposed.
Get their "numbers."
Boycott them.

Just now Ranger is entering the most critical cycle of growth.
It has reached the stage where permanency is more pronounced.
The "fly-by-night" has scampered to other parts.

In his stead is the citizen who will remain.
Loyalty to Ranger is not to be predicated upon residence here.
Neither does it consist in declaration of intention to become a permanent fixture.

Loyalty to Ranger consists wholly in contributing to its growth, expansion and development along lines calculated to make it a desirable place in which to live.
The man not sharing in this task is a slacker.

The individual making but, niggardly hoarding dollars made here should be publicly branded.
The moral laws will at least uphold a citizenship in withholding its patronage from him.

Citizens should be extremely wary of the gentleman who comes here to make all the money he can, but who, when asked to help in civic campaigns, resolutely declines in hackneyed excuse that he does not believe in the chamber of commerce, the Y. M. C. A., the newspaper, the Salvation army, the public library, ad infinitum.

Just at the present time The Times is reminded of just such a character, who makes not barrels but hogheads of money in Ranger, but who firmly denies advantage in contributing to a worthy cause.

Such men are fit objects of censure and boycott.
They should be so squeezed with lack of patronage that they would be glad upon being released to support a chamber of commerce and other worthy causes without the contributions of the remainder of the citizens, who might "rest up a spell."

Such ilk remind us of those addicted to cursing preachers and churches, calling them "graters."
Men of that stripe are material from which "reds," syndicalists, bolshevik and I. W. W. come.

They should be expatriated from Ranger.
The world detests a stingy person.
The world loves a cheerful giver.
There is reward for the latter, none for the former.

Ask any man, firm or corporation that annually expends sums to foster worthy causes, and they will appraise you of the fact that the contributions are profitable investments.
"There is that gathers and there is that scatters."
To pull down all the grapes and refuse to share with the owner is just incentive to perpetrate manslaughter.

Granted that there are people earning small wages whose contribution to a worthy cause is insignificant in comparison with the munificent donation of a wealthy man, it is like the widow's two mites—the greatest offering of them all, because it was given out of her penny and out of her heart.
But what about the individual who is making "hogheads" of money and refuses—absolutely refuses—to give even a red penny because he "doesn't believe" in the cause.
The sooner patrons of such an individual get his number and soak

which his back seems to be so full.
Saint Peter will not bear to countenance such a man when he steps up to the pearly gate.
If Saint Peter, the Merciful, would not have him about the heavenly place, why in the eternals should we be bothered with him in Ranger?

London Beauty Kills Herself

LONDON.—"Suicide while of un sound mind" was the verdict returned by a coroner's jury Friday at the inquest over beautiful 28-year-old Alma V. Steane, wife of a British army officer, who died under tragic circumstances in her luxurious West End apartments. Mrs. Steane took her life with quick poison.

It was not until the husband, Capt. Anthony Steane, took the witness stand that the mystery which had veiled the tragedy was lifted.
"Oh, Tony, I have done it this time," cried Mrs. Steane to her husband, as he rushed into her sleeping apartment in response to her screams. Capt. Anthony Steane testified that between 3 and 4 o'clock, after they had returned from the second Victory ball at Claridge's, Captain Steane said there had not been any quarrel between his wife and himself. He gave a dramatic description of the death scene and their final parting.

"I did not understand what had happened," said he. "After my wife called me I entered her bedroom. She was taking a drink of water. She extended her arms to me and exclaimed: 'Tony, kiss me for the last time.' It was not until then that I knew what she had done."
Mrs. Steane was often hysterical, her husband said, and during those hours she thought she could hear her mother calling her from the great beyond.

"At those times Alma said she wanted to die," continued the husband. "My wife always believed her parents had committed suicide."
Mrs. Steane was moody during the Victory ball and did not dance. She said her husband drank one bottle of champagne between them, he testified.
Captain Steane said this was not the first time his wife had tried to end her life. She was subject to fits of despondency that were in sharp contrast with the usual gaiety of her nights.

Mrs. Steane was not an American, as was at first supposed, but was of Polish ancestry. To friends she confided she was the daughter of Prince Rupprecht of Bavaria. She met Hayne, a Canadian, and her first husband, when she was seventeen, but was later divorced from him. Then, according to friends, she met a man named Andrews, whom she is said to have married in New York. She did not live with him long.

Returning to London the beautiful young woman lived at hotels in apparently modest circumstances. She was noted for her artistic taste in dressing and was seen at the smartest dinners and dances. During and after the war she was a popular figure in a circle of fashionable friends, including officers of the guards.

State Capital News
By Associated Press
AUSTIN, Nov. 22.—The intercollegiate debating schedule is beginning to take shape, and the subject for these debates has been selected. The subject for this season is "Resolved: That teachers should affiliate with the American Federation of Labor."
Texas university takes the affirmative of this question in debate here with the University of Utah next April. The Texas side will hold the negative side of the question in contest with the University of Oklahoma at Norman, Okla., April 2. Arrangements for debates with other universities are under way.

Preliminary tryouts for the intercollegiate debating team which is to represent Texas begin the first week in December. A squad of twelve will be selected in the preliminaries, and the final elimination contest is set for the second Tuesday in February. The Barrett prize in debate, consisting of \$50, \$30 and \$20 as first, second and third prizes will be awarded after this contest, which shall decide the university team.
Texas has a larger number of schools teaching vocational agriculture than any other state in the union, according to an announcement from the state board of vocational education which recently approved applications of seventy-six schools for federal aid in this work. Of these seventy were for whites and six were for negroes.
Approximately 900 students have enrolled in the course and each has selected a one-fourth acre vegetable project and an acre crop project, or the animal project.
The largest uniformed college band in the United States will accompany the university of Texas football team to the annual clash with Texas A. & M. at College Station on Thanksgiving day, according to local claims.
Uniforms of white trousers, orange coats and orange and white caps for the fifteen varsity band have been donated by Luther Stark, a member of the board of regents, and the new repairs is expected to appear for the first time on Kyle field Turkey day.
There has been an unusually large number of hay fires in Texas this fall caused by spontaneous combustion arising from dampness of the hay, according to T. F. Baker, head of the fire prevention department, Texas fire insurance commission.

Today

Wise and Frivolous.
Too Many Chinese.
Luxurious Brutality.

By ARTHUR BRISBANE.

Great oaks grow from little acorns, great results from little ideas and particularly from little prices. Henry Ford, who knew enough to build an automobile for millions, proves it. So does Mrs. Woolworth, widow of the man who started 5 and 10-cent stores. She gets \$421,194 yearly income, and that's not all he left.

A business built upon many customers is like a foundation that spreads over a great deal of ground—it will not sink.
The learned editor of a great Sunday newspaper will devote an entire page to the question: "Why do intelligent men often marry frivolous wives?"

As well ask, "Why did Darwin read fairy stories when he had finished his hard day's work explaining how a single cell floating in the water managed to worry itself into becoming a man?"
Darwin read fairy stories in the evening because he had had enough hard work during the day. Some intelligent men marry so-called "frivolous wives" because they want to stop thinking occasionally.
Some lives have been made miserable because the intelligent man married a highly intelligent wife and the intelligent wife wanted occasionally to vary the monotony by talking about herself instead of always talking to the intelligent husband listening about himself.

A sad peculiarity of intelligent men is inability to concentrate upon anything but themselves. Also, the Sunday editor probably will observe that intelligent man, to paraphrase Zola, often "has within himself a monkey asleep" and it happens sometimes that the monkey wakes up and chooses the bride. An intelligent man is made up of various kinds of animals and it isn't always the man part that does the choosing.
Four hundred million people live in China. Sixteen millions of them die every year. Scientific methods would reduce the deaths to 6,000,000, saving 10,000,000 a year. Mr. Rockefeller, who has done much with his institute to study and defeat diseases, is interested in the Chinese problem and will assist in the effort to save 10,000,000 Chinese every year.

To improve the health of China is an excellent thing for the world. Many of our men start on their travels from China and other Oriental countries. But if Mr. Rockefeller and other philanthropists save 10,000,000 Chinese lives every year, what will the world do with so many more Chinese? Ten millions a year would mean 500,000,000 in fifty years, and 1,500,000,000 in 150 years.
In other words, if the philanthropic, scientific work turned out well, there would be on this earth 150 years from now 1,900,000,000 Chinese—400,000,000 more than the total population of the world at present.

Mr. Johnson, who represents the American prohibition movement in England and is irreverently called "Pussfoot Johnson," learned recently that the English do not take kindly to sudden changes.
Mr. Johnson was making a magnificent prohibition speech, one that would have moved the congress of the United States to tears, when the English crowd suddenly seized him, lifted him high in air and carried him to the top of a procession, shouting "We want beer."
Prohibition will move slowly in England at first, even more slowly in France, and quite slowly in Italy; but the greater the grind the greater the glory.

"It is worse than a crime, it is a blunder." Napoleon's remark may be taken to heart before long by the so-called "radicals" that deliberately shot and killed marching soldiers. Many more than 90,000,000 people in this country need to have order and peace during the reconstruction period now beginning; and they will have peace if they have to do some disagreeable thing to get it.
Two new things, England could use ships in place of ordinary exhibitionism. The government has the ships; consumptives need very fresh air. They can be taken up 5,000 feet to breathe, brought down again and made better.
College are going to have races in the air, which will gradually become more important than the old-fashioned caveman games such as football—games that prove nothing in particular except that one man is more like a gorilla than another.

The newest sensation of watching brutality from a comfortable seat is being organized on a big scale in New York. The organizers are pleased to call it "The International Sporting club." It has respectable names at the head, a member of the cabinet, a rich powder man, an animal, a judge and a young gentleman distinguished as an amateur fighter. All of which does not change the fact that it is disgraceful in this age of civilization to organize on a great scale the pleasant pastime of watching carefully selected brutal punish each other with their fists. The enterprise probably will be profitable, but it will not be creditable.

SHAWNEE, Okla.—Two valuable vines on the farm owned by M. F. Merrill in the Asher neighborhood, were reduced to large yellow masses this week. When the suckers were marketed by Mr. Merrill they were the product of the two vines made a wagonload.

Fears Unseen

By Paul C. Yates

"I believe in things I never see," said Grandma Craddock—"Yes-sir-ree. I never saw a ghost," she said, "But yet they've caused me awful fears; I've looked for one beneath the bed Every night for fifty years."

"And burglars—every time a mouse goes racketing across the house, Or when the sbingles make a sound, I think a burglar's prowling round. If I did see one I would dive Right out the window—Sakes alive! I've never seen a burglar yet, But they've caused me a heap of fret."

work in the newly-liberated territories of the east, and a large increase in the tonnage of supplies destined for these regions. Six new field units recently added to the Red Cross in Poland will facilitate the execution of the new relief program.

INSANITY CASES ON INCREASE IN KANSAS.

International News Service.
TOPEKA, Kan.—The trying of an average of one of more insanity cases a day in the Shawnee County Probate Court for the past few weeks has brought this question: "Is the high cost of living driving people mad?"
The record for the first nine months of 1919 shows the number of insanity cases has increased 500 per cent above previous years. There has been an average of more insanity cases filed in the court than marriage licenses issued in the past few days, which used to be filled only by men are now open to women doctors as well. Resident hospital posts have been made available for qualified women physicians, enabling them to secure extremely valuable experience. Except Oxford and Cambridge, all the British universities have opened their medical degrees to women.

TRY A DAILY TIMES WANT AD

WILL BE SONG IN ENGLISH IN N. Y.

NEW YORK, Nov. 21.—German opera sung in English will be one of the unusual features of the Metropolitan Opera company's season. Wagner's "Parsifal" will be sung but not in German. It has been announced that "it is not probable that the German language will be heard on the Metropolitan stage for many years."

Another opera by an American composer will be produced. So far no American work has remained permanently in the Metropolitan repertoire but Mr. Gatti-Casazza has expressed his determination to pursue the policy of presenting American operas which he adopted on his taking management of the company two years ago.

"Cleopatra's Night" is the title of the American opera scheduled for this season. The book, in two scenes, is based upon a story by Theophile Gautier while the music is by the American composer and conductor, Henry K. Hadley. A young American scene painter, a young dramatist, Goldes, has provided the stage setting. The Egyptian Queen will be impersonated by Mme. Frances Alda.

Eight Americans are among more than a dozen new artists engaged for this season. In addition all the old favorites have been reengaged. Whether another Rosa Ponselle has been found among the Americans remains to be seen when each is put to the test of singing before a Metropolitan audience. An interesting newcomer from Italy will be Mme. Gabriella Bezzantini, a young dramatic contralto, who has won a high reputation in her native land and in Spanish America.

During Christmas week there will be produced here for the first time on any stage an operatic version of Maeterlinck's "The Blue Bird." The music was composed by Albert Wolff, of the younger school of French composers. Mr. Wolff, who has been engaged as French conductor of the opera company, to succeed Pierre Monteux, now with Boston Symphony orchestra, will conduct his work.

A stage setting has been painted for "The Blue Bird" by the Russian artists Boris Anisfeld. The first performance of the Wolff-Maeterlinck opera will be given for the benefit of the French-Belgian and American Relief Committee for the restoration of Belgium. Maurice Maeterlinck, it was said, is expected to be present.

Revival of Wagner's "Parsifal," but not in the German language will be an important item of the season's repertoire. To sing it in English, a special translation has been made and there will be new scenery, quite different from the traditional setting heretofore in use. Giovanni Martinelli will sing the title role and Mme. Matzenauer that of Kundry. Mr. Bodanzky will conduct.

During the opening week Caruso will be heard for the first time in "La Juive," the masterpiece of the French composer Halevy. This work is almost unknown in America.

Miss Farrar also will be heard in a new role during the season, that of Zaza in Leoncavallo's opera of the same name. It is based on the play in which Mrs. Leslie Carter appeared twenty years ago.

One of Rossini's early operas, "L'Italiana in Algeri," will be sung as a real novelty in this country. It is of the buffa type with a mezzo soprano in the leading role. This part will be sung by Mme. Bezzantini.

Another Russian opera will be added to the repertoire—Tchakovsky's "Eugene Onyegin," never before given in America and Massenet's "Manon" will be revived with Miss Farrar as the heroine of the Abbe Prevost's famous romance.

The Metropolitan Opera Season lasts for twenty-three weeks. Sixteen visits are made on Tuesday nights to the Metropolitan Opera House in Philadelphia. It is also probable that the company will give its annual week of opera in Atlanta, Ga., the first week in May at the close of the New York season.

Expenses of producing grand opera have enormously increased during the past few years, according to Mr. Gatti-Casazza. It is estimated that the average cost per performance at the Metropolitan is now between \$10,000 and \$11,000. Prices of orchestra and dress-circle seats have been advanced but the cheaper seats remain as before the war.

CHINA PLANS AERIAL TRANSPORT SYSTEM

LONDON, Nov. 21.—China wants an aerial transport system so badly she is borrowing money at 8 per cent interest in order to establish it. China has placed an order with the Vickers Manufacturing company for a large number of commercial machines, and to meet the cost has authorized \$7,500,000 worth of 8 per cent bonds issued at 98 and redeemable in ten years.

It is said on behalf of the Chinese government that it wishes to avail itself of the most up to date appliances of aeronautical material in order to organize communications with districts not served by existing railways.

Big Credit for Freight Relief Due to Rangerite

ABILENE, Nov. 22.—Credit for improvement in freight traffic conditions in this section is due largely to the work of J. B. Shackelford, division freight and passenger agent of the Texas & Pacific, with headquarters at Ranger.

Mr. Shackelford has visited many of the towns in his district, running from Ranger to Big Spring, in the last few days, and left a wake of improvements behind him. He spent a day or two in Abilene and succeeded in relieving the condition here, and later visited Sweetwater.

The traffic man says Cisco is giving considerable trouble now, owing to an embargo on freight put on by the Katy. Much of the freight consigned to points along the Katy and delivered by the T. & P. at Cisco is held in the yards there, and there is much freight at Ranger for points along the Katy. Mr. Shackelford said.

He expressed the hope that conditions would be vastly better in the immediate future, and marked improvement is already noticed in conditions here.

GENIUS HAS LOST COUNT OF HIS MANY INVENTIONS

BOSTON, Nov. 21.—Inventions while you wait. Can you thread a needle, oh man? Can you make good candy in the twinkling of an eye, oh maiden? Would you like a better harness, faithful old Dobbin? Charles R. Amidano is your man. He has invented so many things he has lost count, but a device for lasting machines to be used in the manufacture of shoes makes his 12th contrivance he has furnished to the industry alone. He has devised a number of improvements in harnessmaking, and now is at work on a scheme by which the most button-fingered old bachelor will be able to thread a needle as quickly as he can strike a match.

Mr. Amidano was born in Quebec fifty-nine years ago. Among his inventions are special belts for medical purposes, which have brought him testimonials from all over the country.

HAIRDRESSER SAYS CURLY SIDE-PUFFS MUST GO

BOSTON, Nov. 21.—The girls have decided to haul in their hair from both sides of their faces and give the back bones a chance to get unburned.

No less an authority than an exclusive Boston hairdresser assures the public that the curly side-puffs have no place in the forecasted winter fashions.

Now, men that hard luck, with a cold winter coming on and the "ear waves" giving way to flat curls or waves! The new curl must be done all at once, to give the fashionable "flathead" effect.

False hair also is taboo. Those who bought bobs and ear muffs will have to take them back or use them to stuff sofa cushions. The idea is to follow the natural line of the head.

BITTER TASTE SOUR STOMACH

Pills and Strong Medicines Made This Lady's Troubles Worse, But Thedford's Black-Draught Improved Her Appetite and Took Away Her Bile.

Nancy, Ky.—Mrs. Cora Waddle, a resident of this place, gives out this statement: "I have taken Black-Draught and found it to be the best liver medicine I ever used. It has just been fine for indigestion, sour stomach and a bitter taste in the mouth.

I used to get bilious and constipated and had to take something. Pills and other strong medicines would only tear my stomach up and leave me in a worse fix than before taking. I began to have sick headache.

After learning of Black-Draught I took it and was cured of sick headache. One or two doses a week, or a pinch after meals, kept the bowels open and took away all bile. I have a good appetite, due to my use of Black-Draught."

If your liver is not acting properly you may suffer from such symptoms as headache, biliousness, constipation, indigestion, etc., and unless relief is obtained serious trouble may result.

In its 70 years of successful use, Thedford's Black-Draught has been found to relieve these ailments and stimulate the liver to do its work.

LEMBURG, (By Mail).—Gulf

has been swept within a few weeks by a new wave of typhus which reached greater proportions than ever before at this time of the year, say Red Cross reports. Hundreds of people have been stricken and died without medical attention in villages that could not be reached by doctors.

After more than five years of continued warring, the country is almost without the elemental hospital necessities. It has been the battleground of one army after another and the zone for changing forces of occupation. Large areas are burned away. The best equipped hospitals have been completely ruined and pillaged.

According to Lieutenant Colonel Hallan, chief sanitarian of the Polish government for the Galicia front, the typhus situation eclipses anything ever known in this land where typhus has always been more or less an epidemic. With an unprecedented beginning in the summer months, it is feared the winter will see it increase with even greater force. The vermin which cause typhus incubate and multiply in the cold season.

The American Red Cross has established headquarters here, in response to the appeals of the military and government authorities. Intense activity is already in progress for relief to cope with the distressing conditions.

Requests for hospital supplies come into the temporary headquarters from all sides. Centers have been selected for vitally needed hospitals but there is such an utter lack of material for equipping them that all efforts to cope with the situation have failed. The military and government authorities are lending every possible aid in hastening the immediate distribution of the American medical supplies in an attempt to check the disease before it gains too much headway.

EMPLOYMENT SERVICE WANTS 1175 WORKERS

One employment bureau in Ranger is advertising for 1175 men for work in Ranger and vicinity. Other employment services are seeking workers. The oil companies and others with their private means of finding workers are also asking for help.

From the great number of men needed Ranger is going forward as the city with a future.

by Salt Water

Special to The Times.
TAMPICO, Mex., Nov. 22.—Salt water has appeared in the famous Tepeyac oil fields. This has a record of having produced 100,000,000 barrels of crude petroleum since the first well was brought in. The wells that have gone to salt water are two of the Mexican Gulf Oil company, one of 60,000 barrels and the other 60,000 barrels daily flow, and of the Texas company, one of 75,000 barrels and the other 5,000 barrels daily production.

Salt water first made its appearance in the wells from which it then spread until it ruined production.

Information gathered will then be compiled into a booklet to be presented to members of the next legislature.

WELL KNOWN OIL MAN DIES AT FT. WORTH.

Special to The Times.
FT. WORTH, Nov. 22.—Schenberger, aged 63 years, probably the most widely-known independent oil operator in this country, died at his home here yesterday morning. Death was caused by complications following pneumonia from which he was rapidly recovering. He was known in every oil field in the United States.

Oil men who have known Schenberger declare that he was the best business man in the country. For the past year or more he made his home in Fort Worth, coming here from the shallow fields of Kentucky at the time of the opening of the Ranger field.

MADISON BARRACKS FOR MEN WITH FOREIGN BRIDES

International News Service.
SACKET HARBOR, N. Y., Nov. 21.—Madison Barracks has become known as the married men's post. This is because the war department has set this post aside for men who have married foreign brides, to keep the married men from scattering the foreign brides live in known as French Row. Some of the girls speak English very well. They are about evenly divided between peasant girls and those of better parentage.

WELL ABANDONED IN 1917 TO BE FINISHED

Special to The Times.
SAN ANGELO, Nov. 22.—The San Angelo Oil & Gas company's test well in the John W. Harris place, three miles north of this city, is to be finished. It was abandoned in 1917 at 2,465 feet. It will be drilled to 2,750 feet, or a new well will be sunk to the latter depth.

KANSAS CITY AWARDED MINOR LEAGUE MEETING; NEW RULES ARE ADOPTED

SPRINGFIELD, Mass., Nov. 21.—With the choice of Kansas City, Mo., as the 1920 convention city and the transaction of considerable minor business, the annual meeting of the National Association of Professional Baseball Leagues closed much earlier than a majority of the delegates had expected.

E. W. Dickerson, sporting editor of the Grand Rapids (Mich.) Herald, was elected class B member of the National Board of Arbitration; A. R. Tonnery, president of the Western League, was nominated to class A membership on the board.

A ruling was put through regarding liens on baseball territory with the result that liens may be exercised for only three causes: Unpaid players' salaries, debts due one club to another, and nonpayment of dues to the National Association.

The main business transacted during the convention was the appointment of a committee to confer with the Major leagues on re-establishing the draft.

CONTRABAND BOOZE SENT TO CITY DRUG DEPT.

DETROIT, Mich.—The Detroit Police Department has just shipped six thousand quarts of whiskey to the State pure food and drug department at Lansing. The contraband wet goods were captured from boot-leggers and whiskey runners during the last three months and was sent to Lansing in a special car, guarded by armed constabulary.

LEGAL NOTICES

R. C. Stuard tract 187.4 feet to an iron stake for corner; thence south 15 degrees, 30 minutes, west along the west boundary line of an alley, as shown by the recorded plat of Blackwell's addition, 1,636.6 feet to an iron stake for corner on the S. E. L. of said Blundell survey, 276.6 feet to the SE corner of said 14.9 acres; thence 276.6 feet to the SE corner of said 14.9 acres; thence 21 degrees 10 minutes, east with the E. B. L. of said 14.9-acre tract, 1,142.3 feet to the place of beginning."

And, whereas, the use of said portions of said streets and alleys by the public would necessarily endanger the lives of those passing over the same.

Section 1. That those portions of streets and alleys included within the metes and bounds description herein above set out, be, and the same are, hereby closed for the exclusive and perpetual use of the Prairie Oil & Gas company, a corporation, or its assign.

Sec. 2. That the city of Ranger shall at no time be called upon to improve or maintain the same.

Passed this 18th day of November, A. D. 1919.

Approved this 18th day of November, A. D. 1919.

M. H. HAGAMAN, Mayor.

ALEX. G. ARMSTRONG, City Secretary.

THIS PASTOR IS LENDING AID TO PROPER DANCES

MADISON, Wis.—Probably the first Wisconsin pastor to assist the dance-masters to rid the dance of objectionable features is Rev. Harry Milford, pastor of the Congregational church of Seymour, Wis. His plan is to go right in with the dancers and analyze the dance. He even is sent for to go to the country dances held in neighboring regions and he spends a good share of the night helping the dancers.

Milford was for eight years superintendent of the Superior Seaman's mission, which ministered to 30,000 men annually. He then went into lumber camps and later got into Y. M. C. A. work in Waupaca county. When the war broke out the national war work council sent him to Great Lakes station, where he had charge of the athletic features.

Milford is an exceptional student of human nature. While at Great Lakes he would find large companies of men afflicted with a "grouch." He desired to help them, and did it by means of dances. He founded the Silver Grays, a dancing group, of people whose hearts are crowded with grief. Many of his own parishioners, Lutherans, Catholics, Methodists and others, all sought a good time at dances. When midnight came there was a lull in the dance and while the players were getting their lunch he got permission to talk to the dancers.

He invariably is his first step. He gives them a talk on the athletic side of the development of man. He shows that the pagan Egyptians always danced at their religious ceremonies and the reason men want and need the dance is that they are a God-given instinct of the physical body.

He proceeds by giving them exercises to supplement such physical movements as are not covered by the dance. He uses all sorts of games, makes all sit on the floor and gives them a community sing. Then he tells young and old why the modern dances are wrong. He tells why he considers the "shimmy" borders upon the immoral, and why churches are opposed to dancing because the dance is thrown into bad company. He insists that dancing can be a community sing, or food, but just because it is abused is no reason proper use should not be made of it.

People are going to Milford. They invite him to help rid the country dance of objectionable features. He tells them this is real athletics minus all objectionable dogmatism and fanaticism.

UNEARTHED BONES OF PREHISTORIC ANIMAL.

(International News Service.)
SAN DIEGO, Cal.—Fossilized remains of a prehistoric animal measuring eleven feet long and six feet around have been unearthed in one of the canyons of the local park. The bones appear to be turned to stone or are heavily incrustated with a stone foundation, making them smooth and symmetrical.

W. O. Bourne, an amateur paleontologist, has been doing the excavating. He believes the remains belonged to some animal existing in the "tertiary period." He does not know whether it is one of the marine, mastodon or dinosaur groups, or something entirely new that has not been classified.

Mr. Bourne discovered the head of a fossil last August at one of the nearby beaches which he believes is of the marine family. The distance between the eyes is four feet six inches.

DROUTHS HIT MUCH OF BRAZIL HARD BLOW

RIO DE JANEIRO, (By mail)—One of the most serious internal problems with which the Brazilian government has to deal is that of relieving the population of three states in northeastern Brazil from the effects of periodic droughts. These states—Paraiba, Pernambuco and Rio Grande do Norte—have a combined area of 91,250 square miles and a population of approximately 2,000,000. It is officially estimated that, since 1877, more than 1,000,000 persons and an untold number of livestock have died from hunger and disease as a result of these droughts.

In a message to the Brazilian congress President Pessoa has called attention to the situation. He asked authorization for the government to arrange loans, either domestic or foreign, amounting to about \$10,000,000 a year for a period of not more than five years, for the purpose of constructing reservoirs and irrigation canals in affected region, and for supplementary projects.

"LOOP RADIO" TO GUIDE PLANES THROUGH FOG

International News Service.
WASHINGTON—Otto Prager, second assistant postmaster general, announced recently that the landing fields for the air mail at College Park, Newark and Bellefonte, Pa., will be equipped with the new device known as "loop radio," by which an airplane is guided to its field through fog, darkness or storm. The device will eventually find its way to all postal fields and planes.

A new non-magnetic and non-gyroscopic compass has also been developed which will be adapted to the air mail service.

TUBERCULOSIS CAN BE WIPED OUT, HE SAYS

International News Service.
NEW YORK—Dr. John S. Billings, former deputy health commissioner of this city, and now medical director of the Bell telephone system, says that New York can wipe out tuberculosis by adopting the methods used by leading corporations. Supporting the Red Cross Christmas seal campaign, he said:

"So sure am I that such methods insure success that I would be willing to take a contract to eliminate tuberculosis from any group of people."

BRITISH "SOAP KING" TO ADDRESS BOSTON CHAMBER

International News Service.
BOSTON—Lord Leverhulme, "soap king" of England, speaks at a Chamber of Commerce luncheon here today. He is founder and chairman of Lever Bros. Ltd., at Port Sunlight, the famous model town. Lord Leverhulme recently introduced the six-hour day into his establishment. His subject before the Chamber of Commerce is "Facing the Facts of Human Relationships in Industry."

UPHIUM TRAFFIC INTO U. S. SAID TO BE THRIVING

LAREDO, Tex.—According to the United States customs authorities on the Mexican border more than \$1,000,000 worth of opium is smuggled into the United States from Mexico each year. The trade seems to be growing instead of diminishing, in spite of the fact that several men who were believed to have been leaders in the organized traffic have been arrested and convicted. Until a few years ago the importation of opium to Mexico was permitted and at the time the law was passed placing a ban on the product an enormous store of it was in the hands of dealers of that country.

It is said that one Chinese firm in the City of Mexico had a stock of about \$2,500,000 worth of opium when the confiscatory law went into effect. In order to prevent this store falling into the hands of the government the Chinese importer secretly turned all of it over to a German banker, who is alleged to have been active ever since in disposing of the contraband.

It is alleged by the United States government secret service agents who have been devoting their time for several months to uncovering opium smuggling conspiracies that an organization exists, with headquarters in Mexico and with agents scattered throughout the United States, having for its purpose the smuggling of opium and its sale in this country. Two of these alleged agents have been arrested and convicted. One is Jose Delforido y Monrubio, who was arrested in San Francisco. Another was Jose Cuevas, arrested at El Paso.

The federal authorities claim that in the recent capture and conviction of George Henriquez, one of the largest of the independent opium smugglers was put out of business. Henriquez is an Englishman who was formerly a business man in the City of Mexico. For several years he traveled between England and Australia, having relatives in both countries. Sometime in 1916 he came to the United States and thence to Mexico. In August, 1917, he was arrested in San Antonio with three other men in connection with an opium raid.

Upon a plea of guilty to having opium unlawfully in his possession Henriquez at that time was let off with a fine of \$1,500, according to the testimony of H. S. Creighton, special agent of the treasury department.

Henriquez again went to Mexico, ostensibly for the purpose of spreading allied propaganda. Early this year he returned to New York, where he was again arrested.

TEACHERS WARNED STRIKING AGAINST

International News Service.
ATLANTIC CITY, N. J.—Public school teachers were warned against joining the American Federation of Labor by Dr. George A. Strayer of Columbia University, addressing 500 instructors of South Jersey here recently. He pointed out the sentiment of the people against the Boston police who went on strike, and said that the teachers invited the same punishment if they struck as organized labor units for increased salaries. Even an organization and affiliation with the A. F. of L. would invite suspicion and fear.

He said that teachers' salaries were beggarly, in a way, but that they could secure improved conditions only through fair play with the public.

YOUR 1919 TAXES

for the City of Ranger and the Ranger Independent School District are now due. Office at old Fire Station, 310 Elm St.

205 Pine Street.

Ranger's Biggest Real Estate Deal

Are you keeping in touch with local real estate? Then you can't help but realize what rapid strides are being made in Ranger's development. Just this, the deal just made for the 50-foot corner on Main Street (now occupied by the Guaranty State Bank) involved \$100,000. Yet Rev. Ray, who disposed of it, paid only \$200 for the entire ground and held on to it for 14 years—until Saturday. This is only one of our recent deals. We will tell you about others shortly. Of course we can't all be ministers' sons nor can we all do as well as Preacher Ray, but some of us are just naturally sleeping on opportunities. Why not let us show you some of these?

Just skim over these, too:

A BUSINESS LOCATION—Lots on Main street and every other street, 25-ft. to 150-ft. frontage; which owners will sell, or lease, or build on for you.

A HOTEL—20 rooms, fireproof, in the heart of Ranger's business district. Clearing about \$750 per month. Ample insurance. Requires \$2,500 to handle. We have many others.

A RESTAURANT—Near McCleskey hotel. Clearing about \$2,000 per month and good for more. Selling at a sacrifice. Look over our list of other restaurants.

A CLOTHING STORE—Best location available; excellent stock and lease. Doing big business. Price is right.

A STORE ROOM—20x50, well located and reasonable rent; also spaces 16x20, 20x40, 25x40, 20x100, and many others.

TRACKAGE—From 50 feet square to 50 acres, and in the choicest locations.

HOUSES—Ranging from \$1,500 to \$25,000 and from shacks to bungalows and mansions. Something for everybody.

Here's success—we are with you.

KANSAS CITY AWARDED MINOR LEAGUE MEETING; NEW RULES ARE ADOPTED

SPRINGFIELD, Mass., Nov. 21.—With the choice of Kansas City, Mo., as the 1920 convention city and the transaction of considerable minor business, the annual meeting of the National Association of Professional Baseball Leagues closed much earlier than a majority of the delegates had expected.

E. W. Dickerson, sporting editor of the Grand Rapids (Mich.) Herald, was elected class B member of the National Board of Arbitration; A. R. Tonnery, president of the Western League, was nominated to class A membership on the board.

A ruling was put through regarding liens on baseball territory with the result that liens may be exercised for only three causes: Unpaid players' salaries, debts due one club to another, and nonpayment of dues to the National Association.

The main business transacted during the convention was the appointment of a committee to confer with the Major leagues on re-establishing the draft.

CONTRABAND BOOZE SENT TO CITY DRUG DEPT.

DETROIT, Mich.—The Detroit Police Department has just shipped six thousand quarts of whiskey to the State pure food and drug department at Lansing. The contraband wet goods were captured from boot-leggers and whiskey runners during the last three months and was sent to Lansing in a special car, guarded by armed constabulary.

LEGAL NOTICES

R. C. Stuard tract 187.4 feet to an iron stake for corner; thence south 15 degrees, 30 minutes, west along the west boundary line of an alley, as shown by the recorded plat of Blackwell's addition, 1,636.6 feet to an iron stake for corner on the S. E. L. of said Blundell survey, 276.6 feet to the SE corner of said 14.9 acres; thence 276.6 feet to the SE corner of said 14.9 acres; thence 21 degrees 10 minutes, east with the E. B. L. of said 14.9-acre tract, 1,142.3 feet to the place of beginning."

And, whereas, the use of said portions of said streets and alleys by the public would necessarily endanger the lives of those passing over the same.

Section 1. That those portions of streets and alleys included within the metes and bounds description herein above set out, be, and the same are, hereby closed for the exclusive and perpetual use of the Prairie Oil & Gas company, a corporation, or its assign.

Sec. 2. That the city of Ranger shall at no time be called upon to improve or maintain the same.

Passed this 18th day of November, A. D. 1919.

Approved this 18th day of November, A. D. 1919.

M. H. HAGAMAN, Mayor.

ALEX. G. ARMSTRONG, City Secretary.

"KATY" FREIGHT DEPOT
OPENED AT STAMFORD
Special to The Times.
STAMFORD, Nov. 22.—The
"Katy" freight depot here has been
opened for business. Ed Howard,
formerly "Katy" agent here, is again
in charge. One of the requests of
shippers here, when asking for dis-
solution of the unified system of
handling freight, was that Howard
again be placed here, if possible.
At the present rate the out-of-
town business of local jobbers is
more than \$7,000,000 annually.
Cotton has been ginned at the rate
of 956 bales daily for the last two
weeks.
Some farmers are putting large
frames on wagons and hauling two
bales of seed cotton at once. Every
farmer trots his team to gin.

SOME SOLDIERS OF U. S. BECOME RICH IN FRANCE

PARIS.—Several thousand dis-
charged American soldiers who re-
mained in France to try their for-
tunes are faring so much better all
around. A few have become reason-
ably wealthy. Some are "reporting
progress." The majority, however,
like their fathers before them, in the
United States, are trading on life's
way, over or around obstacles, with
their carts hitched to stars that are
flying rather lower than they were
when the young men set out to
"Americanize France."

Most of the men really are pio-
neers, because they are striking out
for themselves, along new lines. As
yet there is no organization to put
these men in contact with their fel-
lows for the exchange of ideas and
experience. Another group took various small places to
pay their way while studying. The
majority of the men, int was said,
started to make good by capitalizing
American methods. Many of them
saw what they considered defects
in French life, and made ready to
furnish the supply and, if necessary,
create the demand.

Most of them agree that easy
money is not one of the natural re-
sources of France, but a few have
proved that it is. A negro made
125,000 francs buying and selling
army and navy supplies at Brest.
His case is vouched for by a well-
known American commercial execu-
tive.

The most striking success reported
is that of "The Fox Trot Kings of
Paris," they term themselves—
Gerald Kiley, who drove the Chicago
Press club ambulance, and Harold
Fitch of St. Paul, who was at the
wheel of one of Mrs. W. K. Van-
derbilt's ambulances and later went
to the front.

Kiley and Fitch, the former said,
got their start over here when the
wife of an American banker in busi-
ness here "pressed 500 francs upon
us" when they played in a three-
man jazz band at a dance she gave.
They organized a Wilson welcome
ball at a leading hotel when the pres-
ident arrived in Paris and secured
10,000 francs on the affair. This
success, they said, they often
duplicated at the Dixie club
dances they organized, with an ad-
mission charge of 20 francs a person.

Knowing that "good things" must
not be overlooked, the men took over
the ice cream making department of
the Y. M. C. A., which has a ca-
pacity of a thousand gallons an hour,
and late in October began wholesal-
ing "Dixie ice cream," cutting the
market price 50 to 100 per cent.
They said they invested 100,000
francs in the venture.

Some of the most interesting of
the American business experiences
here are those of men who married
French girls. Three of these are
farming east of Paris, "making more
money than they ever thought pos-
sible in the United States," their
business adviser said. One man mar-
ried into a dairy shop. Another re-
turned to his trade of tailoring in
the same way. Scores of American
boys are in business with their
French fathers-in-law.

"Rebuilt" typewriters, familiar to
Americans, have been introduced to
the French by Lieut. J. L. McCann
of Tuscaloosa, Ala., and George E.
Howard of Pasadena, Cal. Their diffi-
culty is too much business. With
typical aggressiveness they are buy-
ing American used machines from
French dealers to sell to other French
dealers. Meantime, Howard said,
they are preparing to open "The
American Stenographic Bureau," be-
cause, he said, an American business
man is up a blind alley trying to
find a public stenographer or to get
out his correspondence when an
"English spoken" variety type is lo-
cated.

"KATY" FREIGHT DEPOT
OPENED AT STAMFORD
Special to The Times.
STAMFORD, Nov. 22.—The
"Katy" freight depot here has been
opened for business. Ed Howard,
formerly "Katy" agent here, is again
in charge. One of the requests of
shippers here, when asking for dis-
solution of the unified system of
handling freight, was that Howard
again be placed here, if possible.
At the present rate the out-of-
town business of local jobbers is
more than \$7,000,000 annually.
Cotton has been ginned at the rate
of 956 bales daily for the last two
weeks.
Some farmers are putting large
frames on wagons and hauling two
bales of seed cotton at once. Every
farmer trots his team to gin.

"Tender" Defined in Oil Circular

Special to The Times.
AUSTIN, Nov. 22.—Major George
C. Butte, chief supervisor of the oil
division, has issued the following cir-
cular letter as an answer to the ques-
tion of what is a tender of oil for
transportation sufficient:

The pipe line regulation act of
Feb. 20, 1917, does not use the word
"tender." It says when there shall
be "offered for transportation more
petroleum than can be immediately
transported, the same shall be equi-
table proportioned." Rule 16 enacted
by the commission, substituted the
word "tender" for the word "offer-
ed." The two words are synonymous
and clearly do not require a tender
in any particular form.

1. The tender or offer for trans-
portation may be orally to an officer
or owner of the pipe line, who has
authority to accept or reject it.

2. It may be made in writing ad-
dressed to this company and delivered
in person at its office, or deposited
in the mail. Registry of a letter of-
fered is recommended.

3. The shipper must ask for trans-
portation of a definite number of bar-
rels which shall not be less than one
tank car load of oil when oil is of-
fered for loading into tank cars at
destination, nor less than 500 bar-
rels in other cases.

4. The offer should state that the
shipper has the amount to be shipped
on hand, specifying the exact loca-
tion of the tank or tanks.

5. The offer for transportation
should specify the consignee and des-
tination of the shipment.

Waurika No. 1 Brings \$650,000

OKLAHOMA CITY, Nov. 22.—Final
completion of the deal whereby the
Caldwell Oil company of Okla-
homa City purchased the property in
the Burk Burnett field of the Waurika
Oil association No. 1 is announced by
Walter Caldwell, president of the
former organization. The property
is in block 88 and when negotiations
began one well had been completed
and had its production turned into the
main line. The consideration was
\$650,000.

Well No. 2 on this property was
completed recently and began with a
production of 2,000 barrels daily,
which also was turned into the pipe
line. Well No. 3 is due in within a
day or two. No. 4 has been cemented
and Nos. 5 and 6 are drilling.

The Caldwell company has acquir-
ed some valuable tracts in Louisiana
fields and now has two wells drilling
in the Bull Bayou district. One of
these is an offset to the well of the
Depositors Oil and Gas company on
the Roberts tract.

Completion of the C. U. Connelley
well of this company, a few miles
north of Eastland, Texas, is expected
within a few days.
J. Steve Anderson, of the oil firm
of Anderson & Pritchard, is looking
after the firm's interests in the Des-
demona field.

Contracts for a short pipe line
from the main line of the Producers
and Refiners corporation from Burk-
burnett to Lawton to its plant at
Lawton are being made by the Law-
ton Refining company, according to
Attorney B. M. Parmenter of that
city, who has been recently.

"Would Not Be Without It," Says Mrs. Bailey

"Orgatone has done me so much
good that I would not be without it
in the house, because I know its
worth," said Mrs. M. A. Bailey, 1512
Taylor street, Wichita Falls, Texas,
recently.

"I suffered from stomach trouble
and nervous indigestion for several
months," continued Mrs. Bailey, "and
nothing I tried to do helped me like
Orgatone has done. I didn't have
any appetite to speak of and it ac-
tually seemed like even the little I
did eat just lodged in my stomach,
in a lump sometimes and felt heavy
like lead. I suffered a lot from head-
aches and dizzy spells and would of-
ten get so weak and rundown I was
hardly able to do my housework at
all while I tried different things for
trouble. I didn't find the relief I
looking for.

"Then I began reading about
Orgatone and saw where others
seemed to be troubled like
I claimed they had been relieve
taking Orgatone, so I thought
I'd give it a trial, and after I
finished my first bottle, I noticed
wonderful difference in my con-
dition. My appetite began to pick up
and I didn't get so weak, and I con-
tinued to improve right along till fi-
nally I got a good appetite and
everything I ate and drank perfectly
and I haven't had any trouble with
my stomach since. I feel like a new
woman, and I'm sure you can't
get a better result from any other
remedy."

Some farmers are putting large
frames on wagons and hauling two
bales of seed cotton at once. Every
farmer trots his team to gin.

TWO THEATERS GIVE RED CROSS BENEFIT SUNDAY

The Hippodrome and the Queen theaters will give a benefit performance Sunday, beginning at 1:30 p. m., all funds to go to the Red Cross.

Last Sunday the Queen Theater was the only picture show in town that turned its receipts over to the Red Cross. A total of \$357 was turned in by the Queen manager, R. H. Hanford, chairman in charge of the drive, hopes to receive \$700 from the two shows Sunday.

A full report of all concerns that went over the top in the membership campaign will be rendered next Monday, and the total receipts will be published then.

Me. Hanford is asking for the services of four patriotic ladies, to sell tickets Sunday at the Hippodrome and the Queen theaters.

Miss Mary Ann Cross, who organized and conducted the membership drive here, has gone to Dallas, and will proceed to department headquarters in St. Louis. Miss Cross rendered a very favorable report on the attitude of the people of Ranger toward the Red Cross. She sent her thanks to all who assisted in organizing and conducting the campaign and to the Daily Times for the publicity accorded the movement. Dallas papers commented favorably on the spirit and initiative shown by the people of Ranger in this regard.

Young School Over Top in Red Cross "Drive"

Pupils of three rooms at the Young school yesterday celebrated going over the top in the Red Cross membership drive by attending a special performance given for their benefit at the Opera House. The children marched in a column of twos from the schoolhouse and filed into the picture show in an orderly manner.

Pupils have worked hard to raise their rooms to the 100 per cent class and there has been great rivalry between the different rooms to see which room would be first to raise its "quota."

Church Services

METHODIST CHURCH
Services at regular hours, including Sunday School.
Promising Elder O. F. Senahaugh of the Cisco District, of which Ranger is a part, will supply the local pulpit at both the forenoon and evening hours. He is the successor of Rev. Vaughn. Withal he is a fluent speaker, a deep thinker and an audience inspirer.

BAPTIST CHURCH.
"See Who's in Ranger" at the First Baptist church Sunday. The pastor Wm. H. Johnson will preach at both services, and judging from the preceding Sunday service, when twelve joined the church, the name of one of the fastest growing churches in Texas is rightly put. The chorus choir led by J. E. Reburn will render several new songs.

Dr. Johnson's theme will be "Coupons worth Cutting and a Chance for Every Man." Work on the new building is temporarily stopped on account of non-arrival of common brick, but we have assurances they will be here before December 1, when work will be resumed.

Thanksgiving night a musicale will be given to which all residents of Ranger are cordially invited and an usual seats free.

FIRST PRESBYTERIAN
"Americanism" will be Dr. Collins' sermon theme Sunday morning at eleven o'clock.

Sunday School at ten o'clock. Business meeting of congregation after morning worship.

Every Presbyterian in Ranger must be there.
Evening service at 7 o'clock. Sermon on "Calvary."
Special music at both services, as always.

CATHOLIC CHURCH.
Mass will be held at 8 a. m. in the new church, located in the Blackwell addition, three blocks from the Prairie Oil and Gas company offices.

Callan Says His Life Was in Danger

Special Lensed Wire.
SAN ANGELO, Nov. 22.—Four witnesses were heard yesterday at the coroner's inquest of James Callan, well known in the county, charged with the murder of V. E. Billings, a young man of Dewitt county.

Callan, it was thought, was in danger at the time of the shooting.

Callan was shot in the back of the head while he was in a room located in the building at the intersection of 303 S. Austin and 5th streets.

Callan was seriously injured when the scaffold on which he was working collapsed and fell on him.

The scaffold was being built at the time.

The scaffold was being built at the time.

The scaffold was being built at the time.

WHEELER TAKES IN 81 MEMBERS FOR W. T. C. C.

"Like to have had a turnout yesterday," said W. T. Wheeler, organization manager of the West Texas Chamber of Commerce, yesterday in expressing his success with the day's work in the two weeks' campaign to put Ranger "over the top" in the organization.

"As it was," continued Mr. Wheeler, "I just made up my mind it couldn't be performed and Ranger should not have the least mark against its record of spontaneous contribution to the cause of West Texas."

"For thirty minutes I argued with the gentleman, who at first professed to see no good results came from affiliation with the organization; but they all 'flap' sooner or later, when they are shown otherwise. This man soon acquiesced and confessed that the organization had been of unold benefit to Ranger by aiding in fighting adverse oil legislation."

"The contribution of membership to the West Texas Chamber of Commerce by Ranger has reached eighty-one. This is expected to be increased today. It has not been definitely determined whether the campaign will be continued during the coming week, since Mr. Wheeler is almost completely by circumstances to be in Waco next week to participate in the great Waco organization's rally to the West Texas Chamber of Commerce."

"Ranger is growing stupendously," declared Mr. Wheeler, following a "tag" jump which he took to the outlying factories and industries in quest of members. "I am astounded at the development and expansion of this city. I predict for it a great future. It is fitting that it should identify itself with the West Texas Chamber of Commerce at this time, since the benefits it will receive by the concerted efforts and action of the remainder of West Texas, whose interests are identical with its own, will be monumental."

"A number of the large companies in Ranger, I find, have previously contributed to the organization from other points and these are given the credit they are due."

LOCAL P. O. SETS NEW RECORD IN OCTOBER SALES

During the month of October, 5,327 money orders were issued by the local post office, to the amount of \$109,185.00, an increase of over \$20,000.00 over September.

Postal receipts for the month were \$2,863.09. Expenditures of the office were \$3,785.76, leaving a net revenue to the government of \$2,077.33.

Over 9,000 registered letters and packages were handled by the office during the month. Paid money orders amounted to \$8,503.89.

All business showed a gain of more than 15 per cent over September and this month will show another large increase, according to Mr. Kelly, the postmaster.

ABILENE TAG DAY FOR ILL SOLDIERS

ABILENE, Nov. 22.—Thirty-five young women of Abilene, wearing Red Cross uniforms, are holding a tag day here today to raise the county's quota of \$1,918 for the construction of a sanitarium at Carlsbad to care for Texas soldiers who contracted tuberculosis in the war.

It is expected that the county's full quota will be raised in one day. Other places in the county also will be asked to contribute.

A fund of \$500,000 is being sought for the sanitarium. The government will defray all medical expenses and furnish the patient \$3 a day, provided the state will build the necessary sanitarium.

THEATERS

GOOD BILL AT LONE STAR TODAY AND TOMORROW

No wonder small boys run when they passed old Forbes house at night. Its scandals and crimes were capped at last by murder; and the only clue was the teeth of the "tiger."

The dead man's wife, her lover, the dark-eyed niece, the furtive doctor—all involved—all suspected; and the best detectives foiled by the tricks of Arsene Lupin.

A picture thrilling, baffling, amusing in its mystery, yet sparkling with laughs and warmed by a beautiful story of love. Played by David Powell, Myrtle Stedman, Marguerite Courtet, Charles Gilford and a big supporting cast. If you're looking for excitement see this at the Lone Star theater today and Sunday.

Also Mack Sennett's latest, "Up in Alf's Place," with the Sonnet Bathing Girls, not forgetting Charlie Murray, Ben Turpin and other lights of the real laugh-makers.

EARL WILLIAMS AT OPERA HOUSE IN VITALE STORY.

Men who have traveled around the world a lot are authority for the statement that the Scotch as a race have more pride in their race than other nationalities. Particular testimony leading to that belief is presented in Vitagraph's latest super-film, "The Wolf."

This feature, with Earle Williams as star, will be shown at the Opera House today.

It is a picturization of the famous play by Eugene Walters, which was a sensation for several seasons on Broadway and on tour.

Andrew MacTavish, a canny Scot,

Andrew MacTavish, a canny Scot,

Andrew MacTavish, a canny Scot,

is the character of the play who personifies the Scotch type and drives home the message of race pride. His tremendous racial egotism gives him almost contempt for all other men less fortunately born and extends the feeling to enshroud even his daughter, whose Scotch birthright happens to be impaired by the fact that her mother was Swedish.

The Scotchman permits his antagonisms to reach such a pitch that he becomes fanatical on the subject.

One of the dramatic touches of the picture occurs when MacTavish gives the girl for her alien blood.

"Pray God to forgive me for not being born Scotch," says he.

ABILENE VETERAN ON CONFEDERATE STAFF

Spelled to The Times.

ABILENE, Nov. 22.—For the first time in its history, it is said, West Texas has been honored in having a man placed on the staff of the commander of the United Confederate Veterans.

Gen. K. M. VanZandt has named Capt. W. C. Kinsolving of Abilene as his aide de camp, with the rank of lieutenant colonel.

The veteran chief of the Abilene fire and police departments, John J. Clinton, is major and inspector general of the Fourth Texas brigade, U. C. V.
