(Continued from Page One) but Jerry Wharton added the third six point from the five yard line and also booted the extra point.

The fourth and final Ranger touchdown was set up when David Wharton, outstanding defensively, pounced on a Cross Plains fumble at the 81 on the Buffalo end of the field.
Charles Wolford, relieving the injured Hinds most of the second half, efficiently maneuvered the Bulldogs to the Cross Plains 17 in three plays and then sent Jerry Wharton around his own left end for 16 yards to the Cross Plains one-yard line. The one-yard plunge was cake for the pile driving Sutton.

Practically as rugged defensively, the Bulldogs did not allow Cross Plains to penetrate the 20-yard line. Ranger gobbled up 190 yards rushing to the Buffalo's 96 and completed four of eight passes or 92 yards while Cross Plains hit two of 11 for 22 yards.

Halloween Traffic Warnings Are Given

"The witches ride on Halloween, and far too often death rides with them!" That warning was given today by E. C. McFadden, President of the Texas Safety Association, Inc. today as he warned parents of the dangers that beset children on the streets and highways at Halloween.

Speaking in support of the night traffic hazards program, which is being sponsored throughout October by the Texas Safety Association, Department of Public Safety and the National Safety Council, Mr. McFadden said that each year many youngsters meet death or serious injury as they gaily roam the streets dressed in Halloween costumes.

"In the excitement of tricks or treats or other Halloween fun, youngsters forget about traffic danger," Mr. McFadden said. "Safety rules practiced at other times go by the board."

This is especially dangerous when the youngsters are wearing masks and dark costumes. Mr. McFadden said. He pointed out that the masks prevent the children from seeing automobiles, bikes, etc. and the dark costumes prevent drivers from seeing the youngsters. Mr. McFadden had two suggestions for parents. One was that parents make sure their children are dressed in light costumes or costumes trimmed with white or reflectorized material, and that they do not wear masks on the street. "But the best way of avoiding danger is to see that all trick and treating is done in the daytime," Mr. McFadden said. "At night see that the youngsters are entertained indoors."

He also warned drivers to be on the alert for young goblins roaming the streets both in the daytime

and at night. After dark, he said, drivers should drive slowly and with the greatest care.
"Those ghosts that haunt our streets on Halloween are very much alive," Mr. McFadden said. "Let's see that they stay alive!"

Safety Practices Should Begin At Home

"Many so-called model parents are far from model in setting a good example to their children in safety practices." Mr. E. C. McFadden of Dallas, President of the Texas Safety Association, Inc., said that state- ment in behalf of the child safety program being sponsored by the Texas Safety Association, the Department of Public Safety and the National Safety Council.

"Too often parents treat children as if they were deaf, dumb, and blind," he said. "They don't realize that children have keen minds and pick up their first habits, good and bad, from their parents. This is especially true of safety habits which are a responsibility of parents, and a grave responsibility which they are sometimes inclined to overlook."

"Safety begins at home," Mr. McFadden said, and parents should be sure they set good examples in their own safety practices for their children to follow. He asserted that parents themselves often are victims of their own carelessness, or are responsible for accidents to their children through failure to stress safety measures in their own behavior around children.

"How many fathers go through red lights, weave in and out of traffic and ignore other safe driving rules while their own children are riding with them?" he asked. "How many mothers jaywalk, beat lights, and disobey good safety precautions while accompanied by their children? Yet these parents scold their children for doing the same thing."

Mr. McFadden reminded parents that National Safety Council figures show that more than 4,000 children under 15 will die in traffic casualties this year unless these accidents are prevented by better safety education of children at home.

"It simply doesn't add up," he said. "If parents want to do right by their children, they must set a good example for their children." Mr. McFadden outlined basic lessons in safety which parents should check themselves on before teaching them to their children. "Be safe parents, he urged, and you'll have safe children."

We Keep on Repeating—
... that it is better to be safe than sorry. The rule holds good under all circumstances like driving a car, working at your job or buying a home. You must drive carefully, do your daily chore with safety in mind and know what you are doing when you buy a home, if you want to keep out of trouble. Buying a home is often a dream of a lifetime but playing safe with the title at the time of purchase is far more important.

First Christian Members Will Attend Area Assemblies Soon

The members of the local congregation of the First Christian Church will attend the area assemblies of the Disciples of Christ in Fort Worth, November 2-4 at the Will Rogers Auditorium.

This convention is one of the twelve area assemblies sponsored by the international convention of the Disciples of Christ being held this fall across the nation.

First Christian Announcements

The weekly schedule for the First Christian Church will be as follows: Sunday School will convene at 10 o'clock, according to L. N. Bryan, supt. The sermon topic for the 11 o'clock morning worship will be "Bring Back the King," by the pastor, Rev. James B. Starks.

Mrs. B. G. Pirkle will have charge of Chi Rho at 6:30 Sunday evening. The sermon topic for the 7 p.m. evening worship will be "The Heart of a Stranger." The yearly election of officers will be held and new board members selected.

At 8 p.m. the CeeDee's will be in the church dining room for the monthly meeting.

Members of the Mary Martha Bible circle will meet at 3 p.m. Monday in the home of Mrs. B. S. Dudley for their weekly meeting. Choir practice will be held at 7 p.m. Wednesday. The Christian Men's Fellowship will hold their monthly meeting in the church dining room at 7:30 p.m. Friday. The official board will meet at 8:30 p.m.

The purpose of this area assembly is to bring the International Convention to the greater number of people by having it in twelve different parts of the country. To reconsecrate ourselves to the Christian responsibilities that are ours, and to assess the success and failures which characterize the first half of the long range program to be concluded in 1960.

The members of the Christian Churches in this area will have a chance to meet many of our national brotherhood agencies, hear addresses by national, state and local personalities, learn what has been accomplished by the Disciples of Christ in the first five years of the ten year Long Range Program, help evaluate what the brotherhood is doing together, and share in formulating the plans for the concluding five years for the Long Range Program to be most effective on the national, state and local levels. Workshops designed for Christian Women's Fellowship, Christian Men's Fellowship, Christian Education, World Outreach, Church Development, Stewardship and the Ministry will be offered at this convention.

Those persons in positions of key leadership in the local church, men, women, and youth are expected to attend this meeting.

National magazine recently printed an issue, one page of which was a record. Tear it out and play in on the phonograph, was the idea. We wish that several magazines we can think of would print their issues on biscuit dough. Some editors we could mention ought to eat their words.

GOOD COWS... GOOD CARE... GOOD FEED... MEANS Success! IN DAIRYING

For maximum success use the RED CHAIN 6 POINT DAIRY PROGRAM

- 1 DAIRY COWS MUST HAVE PLENTY GOOD ROUGHAGE
- 2 DAIRY COWS MUST HAVE PLENTY GOOD CLEAN WATER
- 3 PROTEIN IN DAIRY FEED & ROUGHAGE MUST BALANCE
- 4 DAIRY COWS NEED MINERALS (Salt, Calcium, Phosphorus)
- 5 AN ADEQUATE SUPPLY OF VITAMINS IS A MUST
- 6 CORRECT MILK PROCEDURE GIVES BEST PRODUCTION

In order for a cow to get the most out of her feed, it is necessary to feed the bacteria in the stomach. These bacteria act with greatest efficiency when the cow's feed supplies the nutrients for maximum activity. These nutrients are: a quick source of energy, a slow source of energy, vitamin, proper protein and minerals. The best quick source of energy is cracked or rolled grains. RED CHAIN feeds furnish these, plus the vitamins, proper protein and minerals.

Contributing much to the atmosphere of the play was the background organ music created by Fred D. Baumgardner a n d Mrs. Al Lotspeich. The set and the lighting also added much to the general effectiveness. The sets, created by Dan F. Kelleher of Texas University, were executed by Richard Johnson, Les Campbell, and their assistants.

One of the most popular scenes was the party scene in which square dancers were featured. On Thursday evening square dancers were Mr. and Mrs. Roscoe Hopper, Mr. and Mrs. Pat Thomas, Mr. and Mrs. C. E. May Jr., and Mr. and Mrs. Pete Brasher with Mr. E. F. Arterburn as the caller. On Friday evening Don Wiggins did the calling, and the following college

students were the dancers: Sandra Sturdivant and Douglas Chitsey; Nancy Hamilton and Albert Raelbe; Bettie Lou Wilson and Lonnie Wood; and Betty Brockman and Dan Power.

Beverly Cary, as Ado Annie, practically stole the show.

County-

(Continued From Page One) sons were declared admissible to this country. Recent figures show slightly over 43,000 have obtained sponsors and have migrated to the United States.

Of this number it is estimated that less than 500 have been brought to Texas.

To be successful in helping displaced persons get a new start in life, the refugee program will need assurance from 300,000 to 40,000 sponsors by early in 1956.

A sponsor is required to give assurance that the refugee will be provided with employment and housing and will not become a public charge.

The refugee's qualifications to fill the job provided him are certified by overseas officials. The Governor's Committee noted that a large percentage of the refugees are classified as agricultural workers who could be absorbed easily in the farming and ranching regions of Texas. Many skilled craftsmen are also looking for new homes in America.

"These refugees have escaped, in many instances, from prisons and concentration camps to wind up spending years in refugee camps waiting for resettlement," said Winters. "Texas is lagging in doing its part in this humanitarian program to which our nation has committed itself. Mrs. Johnson, as representative of the Governor's Committee for Refugee Relief Program in Eastland County, will give the details of the program to any employer or citizen interested in providing a new opportunity to a refugee."

Mr. and Mrs. Jack Doyle Petree
Lillian Faye Beck Becomes Bride Of Jack Doyle Petree of Cisco

Miss Lillian Faye Beck became the bride of Jack Doyle Petree of Cisco at 8 o'clock Saturday evening, October 22 in the home of her parents, Mr. and Mrs. C. E. Beck. The groom is the son of Mr. and Mrs. Charlie Petree of Cisco. Rev. J. E. Lamb, pastor of the Pentecostal Church, officiated.

Decorations included baskets of white and pink glads and pots of giant ivy and white roses.

"I Love You Truly" and the traditional wedding marches were played by Miss Maxine Vandergriff of Ranger.

The bride, given in marriage by her father, wore an aqua and gold nylon faille suit with black accessories. She carried a corsage of white glads on a white bible.

The bride's only attendant was her sister, Mrs. W. E. Hart of Ranger, who wore a navy blue suit and a corsage of pink carnations. Jack Lee of Colorado City served as best man.

Immediately following the ceremony, a reception was held in the dining room. The refreshment table was covered with a white linen cloth and appointed with crystal and silver. The wedding cake, a pink and white confection, was served by Mrs. Wilson Simpson. Mrs. W. T. Eaton ladeled the pink punch.

The bride chose a black and yellow wool suit for her wedding trip to San Antonio, San Marcus and Austin.

Mrs. Petree will make her home in Ranger with her parents while her husband is in the army, which he will enter Nov. 3. He was formerly employed by T & P Railroad.

dressed as buxom dancing girls.

Circus Chairman Houston P. Hutchens told of dates — Nov. 18-27 — of the Fort Worth circus, a benevolence for the crippled children, and announced that Cross Timbers members would have tickets to it for sale. Patsy Pogue, local girl who was circus queen in '53, spoke briefly, giving the circus a verbal bouquet.

At the conclusion of the performance, Cross Timbers leaders, discussing the circus, anticipated that a large contingent from Eastland County this year, as always, would journey over to Fort Worth to see a thrilling show and help a worthy cause.

\$7.00 A TIRE DOWN

...AND YOU'LL BE TIRE SAFE FOR FALL DRIVING!

Firestone De Luxe CHAMPIONS
You Can Get This Tire Either With a Tube or Tubeless

We're Trading High
WHAT A DEAL WE CAN GIVE YOU
Come In TODAY!

Firestone De Luxe Champions Give You the Extra Non-Skid Protection You Need on Wet, Slippery Pavements

BLOWOUT PROTECTION There's no tube to pinch or explode! Inside this tire there's a Safety-Liner, which slows air loss, and reinforces the tire in the event it should be injured... instead of a dangerous blowout you get a harmless slow leak. You drive relaxed, with greater peace of mind.	PUNCTURE PROTECTION If a nail, or any sharp object should penetrate this tire, the Safety-Liner grips it and slows the air loss... no sudden flat tires, no need to change flats on the road, instead the Firestone De Luxe Champion Tubeless enables you to drive to the nearest service station.	SILENT-RIDE SAFETY-GRIP TREAD SKID PROTECTION... Newly designed silent tread has 70% more angles and skid-protecting edges. QUIETER RUNNING... Won't squeal even on sharp turns. No hum or whine because tread elements overlap to prevent rhythmic vibration.	SAFETY-TENSIONED GUM-DIPPING Firestone's new cord treating factory combines the famous Firestone Gum-Dipping process with Safety-Tensioning, a new process which takes the stretch out of tire cords, prevents dangerous tread cracking. The result is greater blowout protection and longer tire life.
