#### Your Money Is Being Thrown Away

Secretary of the Treasury Humphrey, at one of those hundred dollar plate dinners, said there would be no more fifty-two cent dollars. How foolish can politicians get? This dollar we have now less than fifty-two cents. When you go to the grocery store you have a thirty-five cent dollar. This is not the fault of the grocer. It is the fault of politicians and their give away program.

The farmers are getting fifteen cent dollars in some instances for their products.

The give away plan of our farm surplus is really getting attention in the United Nations which we tax payers support.

A fellow there by the name of Mordecai Ezekial wants to feed our farm surplus products to the elephants. No kidding. He also wants the American working man to finance the development of timber in the Andaman Islands in the Indian Ocean.

Out there, work is done by natives with elephants and Ezekial figures our farmers can give away our surpluses to feed the elephants and natives, and our tax dollars-well, why go on.

These natives don't believe in work. They use bow and arrows, and they speak in an unknown language not even the experts can understand .

As long as the general public believes the rich pay most of the taxes, our greedy politicians will keep grabbing the poor man's money. You, you, and you, the working man, is footing most of the tax bills while the rich are getting richer and you are getting poorer. Stop this foolish give away program and abolish this evil communistic in

# new way to get rid of

Rats cost money. It doesn't take many rats to eat enough feed to winter a steer. And that's aside from what they ruin and contaminate.

Research has recently moved far ahead with control work. From this work has come two exciting compounds called Pival and Pivalyn. They're hard to pronounce, but they really kill

Actually, you don't have to remember these names. Just ask us for the new Purina Rat Controls. Both Purina products carry one of these "bleeder" type killers that all the farm magazines are playing up so big.

They're easy to use; cost next to nothing when you consider the terrific job they do. And best of all, rats never get wise ... neves develop "bait-shyness". Yes, these products work ike a charm. We're happy

to recommend them to you. Pick up a supply next time

#### **VACATION TIPS**

I guess everybody looks forward to that once-a-year vacation, and probably wishes it came round more often. And since this is the start of the vacation season, it's a good time to remind you how your telephone can help you have a better vacation.

After you have the fishing gear and everyone's

bathing suit tucked away in the car ready for an early morning start, why not call ahead Long Distance? It's the courteous thing to do if you're visiting re-latives or friends. That way, they'll know about when

to expect you. It's the smart thing to do if you're stopping at a motel or hotel on the way. With reservations, you can drive a couple of more hours and put more miles behind you. No need to stop early in order to get accomodations.

More and more, nowadays, people count on Long Distance to help them enjoy their vacation more. Remember: Your calls go through twice as fast when you call by number. And rates are lowest on station-to-station calls every night and Sundays.

#### A FAMILY FRIEND

You know, the telephone has always seemed to me to be a real "friend of the family Mother uses it to do a lot of her shopping, and to

For Dad, it's a big help in carrying on his business, and keeping in touch with what's happening in community affairs.

"visit" with friends around town.

And for the growing children at your house, it's probably a "must" for asking their friends over to visit, or asking them where's the best place to meet for the weekly walk to the movie.

These are probably just a few of the ways in which the telephone proves itself as a family friendalways ready to help you and your family keep in

#### YOU'LL LOVE THE CONVENIENCE

If you already have an extension telephone in your home—or your office—you know first-hand how many steps and how much time you save every day.

If you haven't ordered an extension yet, why not do it today, and find out how much you'll like the convenience of an extension telephone, installed wherever you want it.
