

SPIRITUAL SYNOPSIS

THE BEST WAY OF LIFE

by Ralph Perkins
 Pastor First Baptist Church
 "Christianity is a way of life." It is the best way of life there is. It is for "here and here-after." The Holy Bible tells us all about this way of life that we need to know, and guarantees us the Holy Spirit power to live that better way of life if we will just follow the teachings of the Bible and of the Lord Jesus Christ.

The right kind of parents teach their children about morals, lying, stealing, being clean and pure, living as to honor the parents and the family name. These parents even punish their children, or chastise them, or they should, if the child is naughty, ugly, unkind, or unfair.

Too often that parent fails to associate those "character lessons" with the Bible lessons laid down in the 20th chapter of Exodus when God gave to Moses the ten commandments. Many parents do not know that God commanded the children to obey the parents. The first commandment with promise. Many parents fail to realize the Jesus said, "If any one cause of these little ones to stumble it were better that a millstone had been tied around his neck and he drowned in the sea," or the he had never been born. Parents are to teach their children the moral teachings you might say based upon God's Holy Word. Any absence from these teachings, or otherwise, is Godlessness.

The Bible tells us that the Lord's Day is holy, sacred, and a day of worship. That we ought not to do anything that would prevent us from attending worship services on Sunday. It is not a day of play, of unnecessary labor, or a day of spiritual indifference. It is God's day.

Children ought not to be taken away from God's house on Sunday morning, or Sunday night. Neither should any community sponsor or support any organization that would weaken the faith and Christian teachings of the holy word of God. The world of pleasure is a world of pain. The world of pleasure is a world of pain. The world of pleasure is a world of pain.

Majorettes To Be Selected Aug. 6 For Bulldog Band

Tryouts for majorettes and drum major for the Ranger High School Band have been scheduled for August 6.

Tryouts will be held at the high school band room beginning at 7:30 a. m. The only requirement is that the student must have marched with the band for one season.

Selections will be on the basis of precision, combined routines, showmanship, military bearing, personality and charm. Each participant will be expected to perform with a group and in a prepared solo.

The judges have not been announced as yet. Dan Whitaker, director, states that at least two visiting band directors will be invited to attend the tryouts.

SENTRY IN SILHOUETTE—The Iron Guard? Cyprus? Algeria? No, this scene is at Travis Air Force Base in California. The air policemen and the "red" are protecting the out-of-bounds area for large air camp planes of the Military Air Transport Service (MATS). The "red" are the United States with its Pacific and Far East installations.

Parker Points To Bonds As Sure Savings

The slogan "Safer Than Cash" now applied to United States Savings Bonds doesn't begin to tell the full story, according to Guy Parker, chairman of the County Savings Bonds Committee.

"Not too many people know about the fine service the Treasury offers to bond holders," Parker declared. "This service is one of the outstanding features that make the Savings Bond one of the best investments ever offered."

A good many of us already now know that we can get our lost, destroyed, or stolen bonds replaced without cost. But this is just the beginning. The Bureau of the Public Debt, which is the branch of the Treasury that handles all bond records and redemptions, leaves no stone unturned to see that the original intent of the purchaser is carried out in the disposition of bonds.

Parker called special attention to the provision allowing for bonds to be issued to co-owners. He cited the example of the man who died suddenly without an adequate will. He had several thousand dollars in Series E savings bonds, issued in his own name and that of his wife as co-owner. The estate seemed to be in for a long period of litigation.

The widow, who needed funds badly, had been told that the savings bonds must become a part of the estate.

Upon advice of a friend, the widow wrote to the Treasury Department. She was quickly informed that the bonds were her property and could be cashed at her discretion. According to regulations, whenever a bond owner dies, the bond instantly becomes the sole property of the surviving co-owner.

"The Treasury has thousands of such cases in its files," Parker said, "proving once again that savings bonds not only make wonderful nest eggs for future security, but are an excellent means of providing for loved ones after death."

YOUTH AND THE CHAPLAIN—Six-month Reserve trainees from Kentucky take a break from training at Fort Knox to talk with Chaplain (Brigadier General) Frank A. Tobey, Deputy Chief of Chaplains. Believing that they have a major responsibility for the success of the program for training enlistees, chaplains are giving special attention to these 17 and 18½-year-old youths. Above-average chapel attendance is being noted at Army posts where the young men are becoming soldiers.

Giants, Indians Score Wins In Ranger Little League Play

The Giants and Indians scored wins in Little League ball Thursday night.

The Giants took the Dodgers 19-1 in the first game of the evening. Richey pitched the first three innings without allowing a hit or run. Goodwin took the mound in the fourth allowing only 3 hits and one run for the Dodgers, which was scored by Corby on a walk by Joyner with the bases loaded.

The Indians slipped past the Yankees in the sixth with Santos providing the hit that tied up the game as Bobby Owens came in to tie the score with Santos scoring on a fielders choice hit by Squires. They had 5 runs on 4 hits, Smith 1 single, Nealey 1 single, Matthews 1 single, Butch Owens had the only home run of the night. Nealey and Butch Owens worked the mound for the Indians.

Bob Koenig, the starting pitcher for the Yankees had the only double of the tilt with Billy Johnson, short stop, picking up 2 singles for the hits on the Yanks. The Yankees had four runs on three hits.

EASTLAND JUMBOS SCORE 13-3 VICTORY OVER RANGER FRIDAY

Ranger could not stop the big bats of Eastland's White Elephant Jumbos Friday night and couldn't get started at the plate themselves to fall 13-3 in a A.B.C. Teenage League game played in Ranger.

Butler Humphreys pitched Eastland to the victory, allowing only three hits in six innings. He gave way to Jimmy Sandlin in the final frame, and Sandlin faced just three batters. The loss was charged to Ranger's Anderson, who pitched good ball, but got poor support.

Eastland got nine hits, including four home runs and an over the fence ground rule double. Knocking four base blows for the victors were Jack Hilliard, Larry Hollis and Sandlin, who had two for the night. Humphrey got the double.

SPRING TONIC—Mix moonshine and a bubbling, spring-fed creek and your "recipe" should produce romance. In this case, something went wrong with the formula. Police officials of Marmet, W.Va., are shown diluting a mountain creek with gallons of illegally distilled liquor. The spring "tonic" produced acute anemia of the bootleggers' pocketbooks—they were fined heavily and given suspended jail sentences.

PEE-PUL POD—A newly developed passenger pod will solve the problem of getting people to jet aircraft. The pod, capacity 16 people, is picked up by a straddle carrier and carried out to the plane. Then the carrier raises the pod to the runway and the passengers simply walk from pod to plane. The system, being shown, above in Cleveland, Ohio, traffic has been developed by Clark Equipment Company's Industrial Trucks Division.

New Equipment Installed By Ranger Manufacturing Firm

The Ranger Manufacturing Co. will start operations again Monday, July 9, according to Clayton Stanton, superintendent of the local plant.

Since shutting down two weeks ago, for installation of new equipment, 296 feet of cutting tables

have been installed and 18 additional sewing machines have been moved to Ranger from Dallas. The factory operations now will include complete operations in the making of dress shirts and pajamas, including the cutting of the materials here instead of in Dal-

las as was previously done.

Number Of New Tries Are Staked In Area

A wildcat try six miles northeast of Ranger highlights this week's area oil news.

The well is being put down by J. C. Dempsey of Fort Worth. It is the No. 1 Jim Ingram and spots 2696 feet from the south line and 330 feet from the east line of the John R. Carter Survey No. 116 on a 46.7 acre lease in the southeast part of Stephens County. Proposed depth is 2999 feet.

Another Stephens County try is being put down by Duncan Drilling Co. of Big Springs. It is the No. 1 Vick, eight miles southeast of Breckenridge of a 120 acre lease. It is located in Section 56, Block 5, T&P Survey. Elevation is 1354 feet and proposed depth is 4200 feet with rotary.

Stanton stated that they will start with the same group that was working when they shut down for expansion and that others will be gradually added.

Rivalry Between Services Pointed Out By Burleson

President Eisenhower has stressed the importance of inter-service rivalry in the development of defense, but certainly there must be a limit to such rivalry.

It seems the time has come for greater coordination and cooperation in planning the use of new weapons and tactics. There are strong indications that the White House is now studying proposals that would drastically change the present three-service structure.

It is more than rumor that a ten-year program is now shaping up to convert our military establishment into a nuclear, single service defense force, operating on land, sea and air.

Materials for the shirts and pajamas for expansion and that others will be gradually added.

County Ministers Association To Meet July 2

The Eastland County Ministers Association will meet Monday, July 2, at 12 noon, in Eastland at the White Elephant cafe for lunch and a business meeting.

There will be an election of officers and it is necessary that ministers of all faiths who are interested in cooperating in making for a better spirit and stronger spiritual program in the county are urged to be present.

This association meets the first Monday in each month and functions for the betterment of all concerned. Ministers from many faiths have served as officers and all the cities and communities of Eastland County are urged to have their pastors attend as many meetings each year as possible.

Materials for the shirts and pajamas for expansion and that others will be gradually added.

State Stops Free Supply of Color Photo Material

The State Game and Fish Commission has discontinued the supply of some wildlife study materials to school children of the state, it has been announced.

In the past seven years, it was noted, the commission distributed about 300,000 wildlife packets containing color pictures of Texas wildlife in its native state, informational leaflets and other conservation education materials.

The department will continue free distribution of bulletins, pamphlets, law digests and other printed matter on request but the colored pictures and packets will not be available because of budget limitations, it was said.

Most of the color packets were sent directly to schools and used in the classrooms.

WEATHER

Partly cloudy and continued hot with widely scattered afternoon and evening showers Saturday and Sunday. High temperatures both days 95 to 100 degrees. Low Saturday night in the mid 70s.

THIS EVIL INCOME TAX LAW MUST BE ABOLISHED

The Federal government is abandoning all attempts to reduce taxation.
 After World War I taxes and the Federal debt were reduced materially. Now, the Federal government tells us we must continue a mortgage on the future of our younger generation, and the generation not yet born for the rest of their lives too, so our foreign friends will continue to like us.
 These politicians of ours, these moneylenders, are actually giving our money away.
 The American people never gave it a thought that our politicians were going to bail the British Empire out of trouble forty years ago, then again just a few years ago by giving away for free our money and services. Now, we not only support the victors but also the defeated Germany, Japan, and the rest of our foreign friends.
 You hear the politicians trying to scare us with Russia's might and great successful foreign policy so they can give still more of our tax dollars to our foreign friends. If our politicians cared to study the Russian foreign policy then they can see how weak it really is and how only a bunch of idiots are ram rodding it now.
 We made a blunder when we allowed our politicians to let our foreign friend at that time, Stalin, to dictate the terms of peace where the balance of power in Europe was completely destroyed. And now these politicians are giving away billions of our tax money without our consent to our foreign friends to keep them free. Free from what? West Germany is getting rich on our tax dollars. In all of 1936, Germany exported only \$249,000,000. In 1955 because of our big give away program West Germany exported \$11,900,000,000. Our tax dollars even increased West Germany's crude oil production by 237%.
 This defeated nation can cover its paper money with 100% gold because of our give away program. That is more than we Americans can do.

The rich are getting richer while the working ployer, employee, in America lets the politicians away his money without his consent to these foreign friends, the politicians explaining that Russia is a mighty country and we must have friends.

Because of our give away program Japan has become the biggest exporter of ships in the world while our own shipping industry is suffering and men are out of work. Japan has low taxes and low debts because of our give away program. This defeated nation is really the victor and never had it so good while the middle and low income man of America has become a tax slave giving one-fifth of his wages and more so our foreign friends can reduce their taxes and compete against us and at the same time laugh at us and tell us they will join the Russian family if we stop giving our money to them.
 Our politicians in Washington are more Russian than the Russians. The politicians yell that unless we give away more money the Russians will get ahead of us.

This is a fraud to get the poor working men in America to keep from protesting as he gives away his money.
 The Russians are nothing to be scared of. Over 70% of the population is in the agricultural stage and cannot produce enough food to feed its people. These thousands of technicians and engineers the Russians are turning out have about the type of training as graduates from our technical high schools. One good college graduate in engineering in America can do the work of 50 Russian engineers.

All the politicians are doing is throwing you statistics. The smallest of the major oil companies in our country has a tanker fleet bigger than that of all Russia. The Russians have only 9 merchant ships. We have 412.
 If we don't have enough air craft, atomic bombs, hydrogen bombs and strategic weapons, and the plans worked out to wipe Russia off the map and keep it starved half to death, and keep our foreign friends from shaking us down continually for more and more of our money, we better go to Washington and find out what has been going on all these years and get rid of some politicians and military men who were supposed to be serving we the people. We better start getting rid of the weak-kneed politicians now at the polls.
 We have been duped into giving away over \$35 billion dollars a year in bribe money all over the world with our politicians telling us how strong Russia is.
 Russia's industrial and agricultural machine is so poor that it would collapse over night if we even threatened a preventive war. They may have bombs and aircraft but as I have said, if we have not made plans and prepared for this, we better go to Washington and find out what has been going on all these years.

Our politicians have never attended a conference in Europe that we did not lose out on and end up giving away again billions of dollars. Russia is poor. Bulganin and Kruschev are not giving anything away but hot air. A strong and powerful nation such as ours should not have to humiliate itself before this Godless country and these foreign friends who would keep blackmailing us and make us all tax slaves of a Federal government bent on reducing the power of our states to zero and encroach upon our individual liberties and freedom. God willing, we will bring the government back home to we the people.
 Paid Pol. Ad.

Living and in parent-teacher work. Although the treatment of the mentally ill must be left to trained professional people, it has been discovered by research that parents are the number one builders of mental health, and their chief assistants are teachers and others who work closely with children.

The Congress with one-half million members in Texas has long worked in the field of parent education and the purpose of this new emphasis on mental health is to increase the understanding of how healthy personalities can be developed.

Some of the leaders of the workshop were—Dr. Bernice M. Moore, Dr. A. C. Murphy, Dr. Henry A. Bowman, Dr. Charles Dent, Mr. Charles Mitchell and Dr. Robert Sutherland.

Within the next few months, a district workshop will be held in this area, at which time all who are interested in this field may attend. Mrs. Herweck will be a part of the planning committee for this workshop.

new way to get rid of RATS! Rats cost money. It doesn't take many rats to eat enough feed to winter a steer. And that's aside from what they ruin and contaminate. Research has recently moved far ahead with control work. From this work has come two exciting compounds called Pival and Pivalyn. They're hard to pronounce, but they really kill rats. Actually, you don't have to remember these names. Just ask us for the new Purina Rat Controls. Both Purina products carry one of these "bleeder" type killers that all the farm magazines are playing up so big. They're easy to use; cost next to nothing when you consider the terrific job they do. And best of all, rats never get wise... never develop "bait-shyness". Yes, these products work like a charm. We're happy to recommend them to you. Pick up a supply next time you're in the store. Christian Science Weekly Schedule For St. Rita's Catholic Church

Man's God-given right of self-government will be brought out at Christian Science services Sunday in the Lesson - Sermon entitled "God."

Gideon's answer to the men of Israel who asked him to rule over them will be included in the readings from the King James Version of the Bible (Judges 8:23) "And Gideon said unto them, I will not rule over you, neither shall my son rule over you: the Lord shall rule over you."

The basis of proper self-government will be emphasized in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (106:7): "God has endowed man with inalienable rights, among which are self-government, reason, and conscience. Man is properly self-governed only when he is guided rightly and governed by his Maker, divine Truth and Love."

A nationwide audience will hear a program entitled, "Why Prayer Can Heal You," to be broadcast by

the CBS Radio "Church of the Air" series, in cooperation with the Christian Science Church on Sunday, July 1.

Originating from Boston, Massachusetts, the program will be heard at different times in the various time zones. The speaker will be H. Phelps Gates, Circulation Manager of The Christian Science Publishing Society. A quartet and soloist will supply the music.

This program will be heard locally on Sunday, July 1, at 2:30 on Station KWFT (620kc.).
