

# The Sudan News

VOL. 3

SUDAN, LAMB COUNTY, TEXAS, SEPTEMBER 1, 1927

NO. 10

## Lets Stand By Those Who Stay By Sudan

Now that the fall season is just around the corner, one could not help but notice, if he has paid any attention at all, to the large number of Catalogues, that have been carried out by the patrons of Uncle Sam's post office during the past week or two.

We're going to admit that the articles shown in these catalogues look nice. Pretty indeed when printed in two or three colors—but what about the article itself? In all probability worth as much as you paid for it—but what if it does not suit? Or even if it does did you save enough to pay you to send the amount you paid for it out of Sudan and Sudan's vicinity for all time? You are sending it to these places to be used to help to beautify other towns and obtain the things that Sudan would be proud to have, and possibly could have with the proper cooperation. Oft times a person thinks: "I'll just send these few dollars away. Such a small amount will never be felt nor would it amount to much." This is true if it were just one or two individuals, but hundreds of catalogues have been received in this territory and thousand of dollars will be sent away—out of this community—gone forever.

Whenever we want to put over something for the betterment of Sudan, who do we go to for donations? To the mail order houses of Chicago or New York?—Not hardly. The local merchants and business men of the town are called on—if our house burns down, if we bring in the first bale of cotton, if we want to build or beautify our park, improve or remodel our parsonages—and a thousand and one other things we want to do—the ones who live here and pay taxes here and are making it possible for us all to stay, are the ones who are called on first, and in Sudan especially, the call for the worthy is very seldom, if ever, refused.

What would be fairer than "staying with those who stay with us?" When you send your dollar away from home you are bidding them goodbye—when you spend them with your home merchant you are only loaning them out, or starting them on a trip—and when they make the rounds they will return to you. And the merchandise bought? We'll venture to say that nine times out of ten you're not satisfied and in the long run you pay just about as much. Let's start right this fall by keeping our money at home and spending it with home merchants—you can't build Sudan by sending your dollars away. But you can make it possible for your home town merchants to grow, enable them to carry larger lines of merchandise and help your entire community—by spending your money where you make it.

Mr. and Mrs. Marshall Miller and daughters, Misses Zona Mae and Irene were week end guests in the Thomas home.

## Urging Orderly Marketing of Cotton

The Federal Reserve Bank of Dallas has again gone solidly and emphatically on record as urging the orderly marketing of the cotton crop and has placed its resources at the disposal of member banks to bring this about, according to information received yesterday by J. W. Hammock, field service representative of the Texas Farm Bureau Cotton Association.

In this connection Mr. Hammock stated that the association represented by him was now advancing \$80 a bale on cotton, and as a result of this substantial advance and passing power, material increased deliveries to the channels of cooperative and orderly marketing are to be looked for.

"Bankers over the entire State are more than ever appreciating the importance of orderly and cooperative marketing", he said, "and of the importance of properly grading and storing of the commodity and its ultimate and gradual disposition to the spinners themselves—thereby enabling the producer to get the fullest value for his production, more rapidly decrease his indebtedness and more rapidly get into the depositing stage rather than the borrowing state".

Excerpts from the position taken by Mr. Lynn Talley governor of Dallas Federal Reserve Bank, and received by Mr. Hammock yesterday read:

"The Federal Reserve Bank is ready to throw its resources into such a position that the cotton crop can be marketed orderly, but whether this will be done depends on the farmers and the other people of Texas. We are ready now and will be ready to finance farmers until the real value of their crop is grown and can be marketed orderly. Warehouse cotton is much safer security than cotton in the field and bankers regularly loan money on the growing crop.

## 4 Potatoes Weigh 2 3-4 Pounds

T. Fife who recently returned from a business trip to Teague was a pleasant visitor at the News office Tuesday. Mr. Fife brought 4 nice smooth Irish potatoes to us, that totaled 2 3-4 lbs. These potatoes were grown on Mr. Fife's fine farm south of town and he stated that the yield was excellent.

## Wyatt Arrested at Haskill

Sheriff Irvin and Deputy Walraven, returned Tuesday night from Haskill, with D. H. Wyatt who was indicted by the Lamb County grand jury two years ago for disposing of mortgaged Property and has been sought by the Sheriff department since. Sheriff Irvin and his force of deputies never let up their search for a fugitive when a warrant is placed in their hand. After nearly two years Wyatt was caught and brought back and placed in jail at Olton.

## Lamb Co. Has Page Ad in Fair Catalog

"Lamb County, the county with a future. Good Schools, Good Churches, Good Water, Fertile Soil. Numberless Opportunities, Chamber of Commerce, Littlefield, Amherst, Sudan, Olton", reads a page in the 5,000 catalog for the Panhandle South Plains Fair that come off the press last week.

The page was given gratis by the fair association as another means of assisting in the growth and development of Lamb county and the Panhandle Plains section. The catalog are being mailed out over the entire southwest, and distributed over the plains.

The fair is being held Sept. 27, 28, 29, 30, and Oct. 1, and Thursday, Sept. 29 has been designated as Lamb County day. On that day The Littlefield High School Ball Team will play the Tahoka eleven. W. G. Street and Gus Shaw of Littlefield are preparing an agricultural exhibit for the county and many other matters of local interest will be found at the fair to attract hundreds of people from this city in addition to the regular attractions of the fair which are of the best.

A ten foot roller bearing windmill will be awarded to the farmer entering the largest and most uniform ten heads of maize at the fair and many of our farmers are expected to enter this content.

Prospect for the biggest fair ever held are good. Exhibits, attractions, crowds, amusements and prizes are lined up for the exposition. County exhibits from Bailey, Lamb, Hale, Floyd, Hockley, Crosby, Yoakum, Terry, and Garza counties are already signed up and several other counties expected to fall in line within a few days. Lubbock county will not compete in the race for the \$200 first money and other prizes down to 20 places but will have a community exhibit contest with practically every community in the county competing. The Sunshine Carnival, three free act troupes that will put on two daily acts, a bang up good foot ball game each day and fire works each night are on the attractions and amusement card. Five chevrolet cars, a ten foot ball bearing standard windmill, and thousands of dollars in cash will be given away as prizes and premiums.

The schedule of football games includes the following: Tuesday, Spur vs Lamesa; Wednesday, Plainview vs Slaton; Thursday, Littlefield vs Tahoka; Friday, Lubbock vs Floydada; and Saturday, Texas Tech vs St. Edwards University.

Mr. and Mrs. John A. Webb and daughters, Misses Floy and Rina Belle spent the week end in Tahoka.

Mr. and Mrs. F. P. McCuffin returned to Dallas, Monday, after a pleasant visit with Mr. and Mrs. T. Fife and Mr. and Mrs. Aubrey D. Newman.

## Insect and Disease Control

It is more satisfactory and less expensive to use prevention toward off trouble with an insect or disease than to control them with direct measures. Often a very little effort will destroy the rubbish. Clean fence rows and the rotation of crops will keep insect under complete control. This destroys their hibernating places, and gets the insect in the stage it passes the winter.

There are two kinds of sprays for controlling diseases and insects known as fungicides and insecticides. The fungicides are used for the different bacterial and fungous diseases appearing in the orchards and truck gardens. The two most important sprays of this type are lime sulphur which can be obtained ready prepared, and Bordeaux mixture which consist of Copper Sulphate, lime, and water. The summer or standard government Bordeaux consist of six pounds Copper Sulphate, eight pounds lime, and fifty gallons of water, for a dormant spray add one or two pounds more of Copper Sulphate.

Insecticides are divided in two kinds stomach and contact poison, indicating the two classes of insects as to mouth parts, biting and sucking. The larvae of the moths millers and butterflies are the most destructive of those having biting mouth parts taking into their bodies portions of the foliage of the plant. These insects require a stomach poison as some of the arsenical compounds, as arsenate of lead, Calcium Arsenate Parris Green etc. A good spray for cabbage and tomato worms is two pounds arsenate of lead and fifty gallons water. Calcium Arsenate is used at the rate of two to four pounds per acre for leaf worms on cotton.

The other kind of insects that causes considerable damage to melons, cucumbers etc are the sucking insects as plant lice and aphids. They can only be controlled by contact poison entering

## Tent Meeting Begins Sunday

The Revival Meeting of the Methodist Church which will be conducted by Rev. C. H. Ledger, will start Sunday at 11:00 A. M. A large tent has been set up across the street from the Sudan Drug Store, and brother Ledger hopes to have every seat taken each service.

Rev. Ledger closed a successful meeting at Amherst last week, and it is reported by those in attendance, that the largest crowds in the history of Amherst, attended the services.

## Rev. Kercheville Will Preach

Rev. W. A. Kercheville, Christian Minister for Lamb County, will preach in the school auditorium, Sunday at 11:00 a. m. and 8:00 p. m.

He will also preach at Circleback Saturday night at 8:00, and Sunday afternoon at 3:00 o'clock.

Mrs. Lucile Folgerson spent Friday and Saturday with Miss Mabel Thomas.

their bodies through the respiratory system. Two of the most affective poisons of this type are Black leaf 40, and Kerosene emulsion. Nicotine Sulphate is a compound obtained from tobacco and is probably the best contact poison on the market. The formula for making it is, half a pint Nicotine Sulphate, two pounds soap and fifty gallons of water or smaller quantities 8oz Nicotine Sulphate 3oz soap and 5 gallons of water.

In making kerosene emulsion dissolve half pound soap in one gallon of water heat and stir in two gallons of kerosene away from fire, delute this 1 to 9 for summer spraying and 1 to 3 for the dormant period.

These are all economical control measures to use and will pay good dividends if used at the proper time, and according to directions. For orchards these sprays can be used to advantage in combination which have given excellent results.

## How Small an Accident Could Upset Your Plans?

That uncomfortable knowledge that a little sickness or other misfortune would work tremendous hardships for you and yours, may be entirely dissipated with SURPLUS FUND in the bank. Hard to do, you say? Yes—but the sooner the beginning the sooner the accumulation! TODAY is a good day for it.

### American Opportunity

A Georgia negro, who had been a slave in his youth, died at Atlanta recently, leaving an estate of a million dollars, and what is still better, the esteem of all who had known him, regardless of race.

He started as a barber in his early 20's and industry and courteous manner won him the respect of white customers who steadily grew in number. When he died he had many outside interests, but retained his original shop, which had grown from a one-man affair, to one requiring the service of 42 men, and this negro capitalist had more

than 700 negroes working for him in one capacity or another at the time of his death.

There ought to be a lesson for all of us in this negro's career. He did not have the priceless heritage of American liberty at the time of his birth. But by using industry and sound judgment, coupled with courteous manners and strict attendance to business he was able to make a success of his life under what, to most of us, would appear to be insurmountable difficulties.

The life of this negro is only another evidence of what can be done in America. Even the humblest child may later in life win some sort of success by proper and strict attention to business. The qualities most required are honesty, industry, a reasonably amount of intelligence and everlastingly staying on the job.

Opportunities are greater in America than ever before. The country is expanding and developing in a way that was undreamed of a few years in the past. All of this expansion and progress means new opportunities for America youth.

Surely, if a negro born in

slavery with a handicap of color can win his way to success, there is no reason why the average American youth should feel afraid.—Aannabal Courier-Post.

### Note Pianist in Lubbock

LUBBOCK, Aug. (Special) Seven years ago, Mme Maude Powell, the late famous violinist was in Texas and discovered a courteous young musician with talent. She offered him the position of accompanist on her tour which he accepted and made a big success.

After seven years of experience which has carried him to the four corners of the nation, the young artist, Francis Moore, formerly of Lubbock's sister city, El Paso, Texas is coming back to his native state for a tour and he will be in Lubbock to give a piano recital Tuesday, September 6, during the South Plains Teachers Institute.

The artist is coming to Lubbock under the auspices of the South Plains Music Teachers Association. Miss Mary Dunn, president of the organization has announced that the program will be held at the Texas Tech Pavilion. Over 2,000 teachers from 18 surrounding counties will be in Lubbock for the institute and a majority of the teachers will be expected to attend in addition to Lubbock and South Plains music lovers.

"His debut recital established Francis Moore as a pianist well above the rank and file", the New York World stated October 11th, 1921 following the recital which took the artist from the accompanists rank to a popular concert pianist. Other press comments written by the critics from the Evening Sun, Tribune, Herald, Evening Mail, Globe, Times, American, Evening World and other New York City Papers paid high tribute to the success of the new artist.

The Times said: "Francis Moore had often assisted other artists here. Up to six months ago he was one of the many who wear 'the ball and chain' as accompanists, and for life. But he has become a popular soloist, if last night's spontaneous ovation may be believed. What obviously did take place was that Mr. Moore last evening played his program with rare finish, artistic poise and astounding success. An Audience that packed New York's hall call him back for swift oncores."

### Notice

Hereafter we will not accept copy of any description for the News later than Wednesday at 6:00 P. M. It is out of the question to get the paper out on time when copy comes in during Thursday which is press day.

Our readers as well as ourselves, are anxious to get the paper out on time, and when the paper is late, the advertisers do not get results from their advertisements, as the paper does not reach their customers on time for Saturdays business. We hope all will see the necessity of getting their copy into the News office, not later than Wednesday 6:00 P. M.

A card reminder is printed elsewhere in this issue, which if tacked up in some conspicuous place will help to remind you that copy for the News must be in the office not later than stated to be published that week.

### Automobile Etiquette.

Authorities on etiquette agree that when a man and woman are riding together in a carriage or automobile the woman should be seated on the right. If the vehicle is not so placed that the woman, in stepping in, can easily move over to the right side, good form permits her to take her seat and allow the man to step across to his seat. Some authorities regard it as extreme for a man to walk to the left side of the car to enter. In case there is no doorman in attendance the man can close the door as he steps into the car.

### Suicide.

Invention is the most interesting ramification of the human intellect—and sometimes the most startling. There is hardly anything that has not received the attention and midnight oil of inventors. In London an old inventor, George Stevens, is found dead—killed by his latest apparatus, a machine for committing suicide painlessly and scientifically. It worked all right. But did you ever hear of a stranger inventive quest?

### Much From Little.

It is claimed for the hundreds of millions of bushels of Marquis wheat produced annually in the United States and Canada, that all originated from a single grain planted by a scientist in Ottawa in 1903.

### Books of Buddha.

The sacred books of Buddhism are: The Pitaka, containing the discourses of Buddha; the Dharma, setting forth the doctrines of ethics of the people; the Vinaya, containing the rules for the priests, and the various ceremonies. These books contain 1,200 pages and nearly 30,000,000 Chinese characters.

### England's Prime Ministers.

The title of prime minister in England was first used by Sir Robert Walpole, who was in office from 1721 to 1742. By this time ministers were being chosen from one political party, and they had begun to act together, so that they obtained the name of the ministry. Their leader was then called the premier or prime minister. This title was not recognized by until 1805.

### Some Hope.

The superintendent of the Sunday school was bubbling over with enthusiasm at the regular attendance of his pupils. "Dear children," he announced, "now today out of the whole school only one of us is absent—little Maggie. Let us hope that she is ill."

### One Thing at a Time.

It is impossible, either in action or in thoughts, to attend to two things at once, especially if they are of any importance.

## The Sudan News

**Poor Old Dad**

Jack—Father recently undertook to learn to drive the car. We all tried to dissuade him, but with characteristic fixity of purpose he adhered to his decision. And he has succeeded fairly well, although the trials of traffic have told on his nerves more or less. For instance, we had to take the alarm clock away from him. When it went off the other morning he thought it was a traffic signal sounding, and nearly kicked the foot off the bed trying to find the brake.—Yvonne.

**Magnetism**

The bureau of standards says that magnetism is a condition and not a thing. When you stretch an elastic band its condition is changed, but you do not add anything to it. When released the elastic band returns to its former condition. The electric current in the winding of an electromagnet causes a change in condition of the space near it. When the current stops the space returns to its original condition. It is not proper, therefore, to say that the magnetism goes anywhere.

**Patrolmen Save a Woman After Leap Into River**

New York.—Her hands clasped as if in prayer, a gray-haired woman, about fifty-five years old, plunged from the bridge at the Delaware, Lackawanna & Western railroad ferry slip at Twenty-third street into the Hudson river.

A throng in the waiting room saw the woman disappear in the icy water. An unidentified young man sprang to the rescue. As the crowd watched, he dived and brought the woman to the surface.

Patrolmen Young and Morrison lowered a ladder into the slip, but found it was three feet too short. As the watchers cheered, Morrison held Young by the ankles and swung him down until his hands grasped those of the rescuer. Assisted by several men, Morrison and Young hauled the two ashore. The rescuer shivered a few seconds, shrugged his shoulders and disappeared before police could learn his name. The woman, identified as Mary Regan, fifty-five, unemployed and homeless, was taken to Bellevue hospital to be treated for submersion.

**Young Men of Pennsylvania Town Losing Their Hair**

Kittanning, Pa.—A strange malady, which so far has defied diagnosis by physicians and scalp experts is rapidly denuding the heads of the town's young men of hair.

According to a local newspaper, physicians at a meeting here announced that they had received more than 300 applications for treatment for premature baldness from men ranging in age from nineteen to thirty in the past two weeks.

**MUST KEEP HER HAIR**

Mrs. Morris Wallach of New York city probably has the longest hair in the eastern states, and caring for it has become so burdensome to her

**Luther's Home, Built in 1483, Given to Church**

Berlin.—A quaint cottage at Eisleben, in which Martin Luther was born in 1483, has been transferred by the city to the Evangelical church.

The cottage is in a remarkable state of preservation. Though owned by the city of Eisleben, the Prussian government has been appropriating funds for its upkeep since 1817. The church now assumes the responsibility of keeping the property.

The city council has voted to add the word "Lutherstadt" to the name "Eisleben."

**Distrust of Ourselves.**

What commonly prevents us from exhibiting the bottom of our hearts to our friends is not so much any distrust we have of them as the distrust we have of ourselves.

**Farmers Produce Opens for Business**

What will be known as the Farmers Produce opened for business in Sudan yesterday in the Carruth building formerly occupied by the Sudan Hatchery. The new business will be under the Management of Marx Wells of Bovania and will be in the market for all kinds of farm produce.

Sudan now has three produce houses and will probably be one of the best markets for chickens, turkeys, eggs cream etc in this section.

**Financial Report For Business Mens Association**

The purpose of the organization has been Civic and Community development along different lines. The organization is young, however the results have been encouraging. There have been a number of signs made and placed on the leading roads to Sudan. The Trades Day featured by the business men was a success in every way. This statement will show the money collected, expenses, and the amount in treasury at present time.

J. A. Hutto, Pres.  
J. G. Bishop, Sec'y.

Mr. and Mrs. W. G. DeLoach, and children, returned Sunday, from a few days stay in Tahoka.

Where Folks Don't Know Him.  
"No man likes to stay home all the time," said Uncle Eben. "He wants to get some place where he has a chance of bein' took serious when he brags a little 'bout hisself."—Washington Star.

**Dangers.**

Thirty-nine people in a year slip on soap in the bathtub and are injured enough to collect insurance damages. This is the record for just one company, the Aetna, which also pays damages to 505 injured in a year by tripping over rugs and 369 who fell down stairs. Sixteen golfers collected damages for being hit by golf balls and nine others for falling into bunkers. Five dancers had valid claims from colliding with other dancers.

Author of "Nearer, My God," Sarah Adams (nee Flower) wrote "Nearer, My God, to Thee." It was contributed to W. J. Fox's "Hymns and Anthems" in 1841. We find in the book called "Hymns and Hymnology" that the hymn has been edited numerous times to meet the requirements of different persons. The changes and adaptations occurred in the 1890s as a rule.

**Lots of Binder Twine.**

Approximately 365,000 miles of binder twine, sufficient to stretch around the world nearly nineteen times if it was all tied in one string, were required to bind Alberta's 1923 bumper crop. Alberta's farmers used 35,000,000 pounds of binder twine in one year.

**The Sixth Sense.**

"Cupunctesthesia," a sixth sense that enables the possessor to intuitively perceive the truth, has been discovered by a French scientist. He asserts that this sixth sense is especially developed in women. A lot of husbands will wonder why this is hailed as a recent discovery.—Omaha Bee.

**Citation**

The State of Texas.

To the Sheriff or any constable of Lamb County—Greetings:

You are hereby commanded to summon Jack Hyde by making publication of this citation once each week for four consecutive weeks previous to the return day hereof in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county wherein a newspaper is published, to appear at a regular term of the Justice's Court Precinct No. 5, Lamb County, Texas, to be holden at my office in Sudan, on Saturday after the second Monday in September, the same being the 17th day of September, 1927, then and there to answer a petition filed in said court on the sixth day of August, 1927, in a suit numbered on the docket of said court No. 58, wherein J. K. Kerr is Plaintiff and Jack Hyde is Defendant, said petition alleging that about the month of July, 1926, defendant did purchase from plaintiff one suit of clothes of the reasonable value of \$18.00, that though often requested to pay the same or any part thereof to plaintiffs damages in the sum of \$18.00.

Herein fail not, but have you before said court on the 17th day of September, 1927, the same being the regular term of this court for September, 1927, this writ, with your re-

turn thereon, showing how you have executed the same.

Given under my official hand this the sixth day of August, 1927.

Issued same day.

**Unlucky Greek Letter.**

Theta is sometimes called the unlucky Greek letter, from being used in ancient Greece by the judges on their ballots when condemning a prisoner to death. It was used because it was the first letter of the Greek word for "death."

**A good night's rest**

There's nothing like it to put you in shape for the day's duties or pleasures.

There's nothing like **Dr. Miles' Nervine** to bring refreshing, restful slumber.

Buy a bottle. If it does not help you, we'll give your money back.

Your druggist sells it at pre-war prices—\$1.00 per bottle.

**Notice**

Our business is strictly on cash basis and nothing will be charged from here on. We positively pay cash for everything we buy and sell for cash. Our books are closed. Sudan Grain and Elevator Co.

## LIFE OF HERRING GULLS

"FIRST" said Harry Herring Gull to Billie Brownie, who had come to call on him and who was sitting by the edge of a great river. "I was a little olive-gray egg. I was spotted with black."

"I mean, of course, as doubtless you understand, that the egg which later became me, was spotted with black. That is not the way, perhaps, I should talk, but it's Harry Herring Gull's way."

"And if I'm not smart in book knowledge and in schooling and in talking and in all such ways, I'm smart as a gull, and gulls are smart."

"Oh, yes," Harry Herring Gull con-

"Indeed I Do," Billie Brownie Answered, "But Do Tell Me More."

tinued, "for years and years there have been gulls."

"Some of my ancestors were here when the Indians owned the country."

"Oh, yes, we have always been about, making our ways fit in with the ways of others, which is always wise."

"I am here now for the winter. I was born in an ugly little home."

"But that didn't make any difference. We fly about rather than stay much in our homes."

"For those who care for their homes it is well to make the homes beautiful, but not for us."

"We are quite satisfied with a shab-

by nest of weeds and any kind of nest-building trash."

"Our homes are in hollows in the ground. I had one sister and one brother who came out of their eggs at the same time I did."

"We were covered with down and we could swim and run and were considered pretty smart little herring gulls."

"Of course all herring gulls in that way are alike. They're all smart, but the mothers say the same thing over and over as each new group of downy gulls begins to swim and run."

"Aren't they smart little gulls?"

"I am here for the winter, as I said. You will notice that my head and neck are grayish brown in color. In the summer I wear a white suit with a gray cloak and I have touches of black and white for style."

"My summer costume is gay and brighter than my winter costume, which I think is right."

"It is nice to see creatures put on their light clothes in the summer. Don't you think so, Billie Brownie?"

"Indeed I do," Billie Brownie answered. "But do tell me more about yourself."

"As you can see, I have a yellow beak with a red spot for a beauty mark."

"And my eyes are yellow. My feet are a pretty pink color."

"When I was a little fellow I had a pink beak, too, with a black spot."

"But of course the colors I now have show that I am a grown-up herring gull."

"For we do not get these colors at first. The older ones dress differently from the younger ones."

"When summer comes I go further north. Of course a few members of my family stay around here—but they are the ones who do not care about summer homes or little homes of any sort."

"They're not the home lovers among the herring gulls. For we love to build our nests and have our homes even though we don't care to make them beautiful. We don't care to make them beautiful because we like to fly away from them a great deal and have adventures."

"But we like to have them just the same. Yes, we like to build our nests and have summer homes."

"Cack, cack, cack, that is the truth."

And Harry Herring Gull flew off now for Billie Brownie had thanked him and had bidden him a most polite good afternoon!

(Copyright.)

## Dangers.

Thirty-nine people in a year slip on soap in the bathtub and are injured enough to collect insurance damages. This is the record for just one company, the Aetna, which also pays damages to 505 injured in a year by tripping over rugs and 369 who fell down stairs. Sixteen golfers collected damages for being hit by golf balls and nine others for falling into bunkers. Five dancers had valid claims from colliding with other dancers.

## Temperament.

"I should advise ladies always to avoid artists who are in search of new sensations and emotions either in friendship or love. . . . Never fall in love with a genius, ladies, nor a man of temperament. All that is left of temperament at home is temper."—Jaelito Benevente, Spanish Playwright

## Considered Smoking a Crime.

Sultans and priests of Turkey once considered smoking tobacco so serious a crime that in many cases torture and death was the punishment meted out to those indulging in it.

## Author of "Nearer, My God."

Sarah Adams (nee Flower) wrote "Nearer, My God, to Thee." It was contributed to W. J. Fox's "Hymns and Anthems" in 1841. We find in the book called "Hymns and Hymnology" that the hymn has been edited numerous times to meet the requirements of different persons. The changes and adaptations occurred in the 1860s as a rule.

## Entirely Unnecessary.

Hub—"A new set of furs? No, no; I have to remember my creditors." Wife—"That's a stupid excuse. As if they'd let you forget them."—Boston Transcript.

## Must Have Been Jealous.

Mr. Jack—"Isn't that skirt-dancer a peach?" Mrs. Jack—"I should say she was more like brown sugar; very sweet, but coarse; a little off color, and decidedly unrefined."—Boston Transcript.

## Some Hope.

The superintendent of the Sunday school was bubbling over with enthusiasm at the regular attendance of his pupils. "Dear children," he announced, "now today out of the whole school only one of us is absent—little Maggie. Let us hope that she is ill."

## Chinese Relish Their Ginkgo.

Pits of the ginkgo tree are roasted by the Chinese, and being similar to almonds, are served as a confection or an appetizer at banquets and dinners.

## Ancient Doors.

Greek and Roman doors always opened outward, and when a man was passing out of a house he knocked on the door so as not to open it in the face of a passer-by.

## England's Coal Output.

A wall 30 feet high and 13 feet broad could be built all round England with the coal annually mined in that country.
