

# The Sudan News

VOL. 4

SUDAN, LAMB COUNTY, TEXAS, SEPTEMBER 13, 1928

NO. 12

## GRAIN CROPS ON SOON COTTON ABOUT OCT. 20TH

There is every indication of both grain and cotton harvest in abundance.

Thus far no reports, except in other counties, of worm destruction has reached The Sudan News of any alarming proportions.

This is gratifying—particularly so as the Indian summer now on will continue some time yet.

In the southern part of the state, where ginning is on, prices are favorable, and when the gins start up in Sudan the market will bring indications point, good price.

Six thousand bale crop 1927 started at 17c pound and usual fluctuations.

It would be impossible to give any stated price at the present time.

### Feed and Other Products In Fine Shape And Encouraging To All

Feed coming in 1927 crop started at \$8.00 a ton, and finally reached \$20 a ton.

Having had more moisture this year an enormous crop is assured.

This being the case the market will start firm first and then a slight decline, but will gradually come back again and \$20 a ton or more is expected.

More investment in cattle in 1928 will mean more home consumption which offset any flood conditions in the market and as the season goes on producers can hold on to the commodity and gradually form a stable market.

### Other Productions in Fine Shape—Hogs, Cattle, Chickens, Turkeys A Big Saving To All Farmers

Besides being profitable market production, hogs, cattle, chickens, turkeys, etc., as valuable assets to farm consumption. We are not making an effort to instruct the farmers as to conditions, we simply refer to it as being the fruition of recent diversifications and other by-products enhanced by the golden opportunities of CO-OPERATION.

## Soon Another Carload Chickens and Turkeys Will Be Rolling On

And the birds should be well fed and cared for. Two months will bring about most favorable results if the birds are properly rationed.

The dollar has its earning capacity—we all know. Put them at work at once—numbers of them—feed the birds plenty mixed grain and plenty fresh water.

The dollars will all come back in greater numbers and all to the profit.

Yes, all of us know talk is cheap, but neglect is cheaper—but the earning capacity of the dollar does its own talking when the market is on.

### Demonstration Made Saturday Afternoon At News Office Success

Poultry demonstration held at this office Saturday was a success and much interest was shown by the poultry producers. Caponizing, vaccination and worming were demonstrated and a vivid exhibit of what proper care does.

D. H. Adams, county agent; Ross J. Newton, agricultural instructor, Sudan High schools, and F. H. Weimhold put on the program and about twenty-five pro-

ducers were present.

More demonstrations will be held and the instructors will be glad to hold community demonstrations if notified.

A circuit has been determined on for a series of demonstration work.

New Mexico's cowpuncher, Attorney General Robert C. Dow, who has slept on the range many a night with his saddle for a pillow, is the democratic nominee for governor of his own state.

Have you paid your subscription?

## TRICKS OF THE 'STREET'

But The Farmers Are Getting  
"Wise" To Them

Time was "con" men could put a third of his stuff over, but not now and they know it.

High-hatted, loud-striped shirt and paste diamond, with a woman accomplice—in their vernacular his "Jane," have all disappeared.

The Wall-street trickster is still with us. He has the advantage of having a camouflaged code of ethics in finance unknown to everybody but themselves, and the buyer, in all the different producing states, get their instructions through this "code," be it telegraph, phone or otherwise.

One of those tricks, about as old as the history of the "street" itself, is given by The Farm and Ranch. It follows:

### "How Long This Farce?"

"On Aug. 8 the Government Bureau gave out its first cotton crop estimate of the year. In a few hours the exchange gamblers ran the price up \$8 a bale. The next day it ran it down again lower than before. It is safe to say that almost no farmers were able to sell at the peak and as safe to guess that little spot cotton changed hands of either the rise of Wednesday or the slump of Thursday. The trades that were chalked up on the boards were almost exclusively futures, into which no actual cotton will enter at any stage.

It is also a safe guess that no spinner bought cotton during this flurry. Then who benefited by the wild fluctuations of the two days? Nobody but the speculators and the exchange operators who collected commissions for making the trades.

On Wednesday when the market closed at its peak it was freely predicted that it would go down the next day. Not because conditions would have changed, but because that is the way the speculative system works. It must have fluctuations in price to exist. The slump came according to prediction. The excuse given that it was due to "a feeling that the government estimate was too low and that favorable weather during August would cause an ample yield to meet the spinners' needs."

Last fall when cotton speculators and politicians were tearing their shirts and cursing the government for a slump in the price, they won the plaudits of unthinking growers. This year, in the face of a bullish government estimate, the same speculators bring about a slump by denying the validity of the government report. Why didn't they bet the price of last fall if the bureau prediction was wrong?

The smoked screen they created to cover their own machinations resulted in congress cutting down the crop estimates to one a month, beginning in August. The commercial estimates and the "feelings" of the gamblers under the new law now have full sway for a month at a time and the market will be subject to no balancing factor until another government report. That is what the gamblers want. Were the government's unbiased reports compiled twice a month, as they were last year, there would be too little lee-way for guess-work, rumor, innuendo and all the other tricks by which the prices is influenced in the exchanges.

Speed the day when cotton growers recognize in the government reports their only protection against the guesses of the "cotton trade"; when the growers will demand that the privilege of gambling in phantom cotton be taken from the exchanges by law and the natural law of supply and demand be allowed to function without so much arti-

## JOY-RIDING PUBLIC MENA CE IN OUR STREETS

SHOULD BE MADE A MISDEMEANOR BY  
A TOWN ORDINANCE

There are several drivers of machines in and around Sudan, some of them mere children, who on Saturdays principally specialize in a circuit riding of certain streets. It is kept up an hour or more at times, jumping off and on the running board, besides pulling off stunts, many of them at night, without the red light behind—and some have no red light to turn—should be rectified by a town ordinance.

If such people can't keep up to requirements of law to have tail and front lights on at night, whether it be negligence or the inability financially to keep within the statutory limitations of such a law, they should be ruled off the streets.

There are frequent cases of the red light not being on and others without any front lights on—and other cases where machines had no lights to turn on and the "ONE-EYED" monster, with a one-eyed "petting" driver, racing and then turning around corners at dangerous speed sometimes the drivers being quite young—sixteen years and less, oftentimes two girls or two boys hanging on each side, the driver's attention is diverted thereby, is a nuisance and menace to the citizens of Sudan and their children.

Common thing to see automobiles going through Sudan at 40 miles an hour.

The marshal of a town can only be at one place at a time. A town ordinance granting the power of arrest by the business men of the town of these flagrant violations of law and turning them over to the marshal would greatly facilitate matters.

If there is such an ordinance we do not know of it. If you see a violator in one part of the town, the marshal having business in another part of the town and you have the power to make the arrest and place him in the hands of the marshal would function just right.

facial interference."

Exactly so. But suppose Wall street and the corporate interest seated in congress functions the same? It was no doubt that the congress cut the crop estimate to once a month by the means of a powerful, rich lobby. They are the sleek graduates of the old high-hatted "con" man of the old days who, after beating up his "Jane" because she didn't bring in enough dough, he intends to beat the cotton farmer up in every way he can.

Just show him he can't

## HOUSE BUILDING ON YET IN SUDAN

And More To Come—Some  
Brick Structures In View

Building progressing, more taxable property coming up in our midst means many things.

One of them is that in less than two years we will be able to vote on a bond issue for water works that will fall considerably easier on the present taxpayers by reason of the future taxable valuation visible in our midst.

Prosperity of the town is apparent also from the fact that as the structures go up they are immediately occupied.

Whilst other prospective tenants are putting up with as best they can with temporary quarters until the buildings are ready for occupancy.

There are others in view which haven't materialized as yet, but bound to come.

When it is noon in New York it is 6:30 in Honolulu, Hawaii.

## CREEDS ARE 'NIL'

In Appointment Of Public  
Men To High Office  
In The U. S.

If creeds cut no figure then in appointments of public men to high office in the U. S. why shouldn't they function the same when candidates RUN for office?

Ex-President Taft, now in the Supreme Court, is a Unitarian. Alfred Smith, governor of New York, is a Catholic.

A Catholic accepts divinity. A Unitarian is 2 per cent and don't believe very much in anything.

The late Chief Justice J. D. White, of Louisiana, was a Roman Catholic and upheld the vote of the people on the 18th amendment, being appointed to that high office by a president of an entirely different faith.

Creed has always been a negligible quantity in the appointment of competent men to public office in the United States.

But when a man runs for public office that's a different thing. All creeds then take a whack at him.

Herbert Hoover comes of Quaker stock. If you know anything about Quakers you know as far as creed is concerned there is no difference between Quakers and the Mennonites. Yet they drove the Mennonites out of the United States because they "were opposed to war." These people first migrated to Canada, but left there shortly afterward and migrated to Chihuahua, Old Mexico, where they were received in open arms—and at that time a Catholic country—and is yet in belief—only the abolition of the Catholic church by President Calles, deprived them of the right of public worship. W. J. Bryan was also opposed to war, but instead of driving him out of the country Wilson, out of gratitude to the man in his receiving the nomination appointed him Secretary of State.

And they down Hoover because he is an Englishman. "Do you know what the oath of allegiance to the throne means?" quite a few will ask of others. Well it simply means that Hoover has taken out his papers here and thus automatically became a citizen of the U. S. and if there ever existed, as claimed, the oath referred to is nil for the simple reason that he is now a United States citizen.

If you are going to vote a mixed ticket this coming election be sure that the name of

V. C. NELSON

Republican Candidate For  
CONGRESSMAN

18th Congressional District  
remains on your voting slip.

He is for the horny-handed sons of toil of the farming districts and for all men, irrespective of race or creed.

Coolidge, is still unengaged and jobless. He says he don't know just what he would like to do.

It is said that any fool can make money, but it takes a wise man to save it. It seems to be the reverse.—It takes a smart man to make money, but any fool can save it or spend it, as the notion strikes him.

## NEAR FATAL ACCIDENT

George Weimhold's Narrow  
Escape Crossing St.  
Unavoidable Is Claim?

What came being near a fatal accident occurred on a street in Sudan Sunday afternoon as the folks were gathering to hear the band concert and returning from the train when George Weimhold attempted to cross the street

Two cars were traveling side by side, making one invisible to the child. She attempted to cross and was past when she discovered another, but too late to avoid being struck. Fortunately the child had presence of mind to throw her hands on the fender and in this way avoided being run over.

Other than receiving a severe jarr she was unhurt.

It is the opinion of Commander Byrd that there is a continent of great production equal in area to the United States somewhere in the vicinity of the South Pole. If there is there might be a war fought over the possession of it notwithstanding its present international provision of all nations being neutral until discovery, if discovery is ever made.

The Constitution of the U. S. has been amended 19 times.

Gov. Moody denies report of his preparing to begin an active speaking campaign in Texas for the democratic national ticket.

John Coolidge, son of Pres't

The W. M. U. met with Mrs. Wells Monday for our workers meeting and quilted out a quilt. We are glad to report that eleven members were present and four visitors Mrs. Shirley of Littlefield was a welcome visitor in our midst.

The W. M. U. will meet with Mrs. Clyde Robertson next Monday at 2:30 for the Royal Service lesson will be conducted by Mrs. Robertson.--Reporter.

### Diseases In Poultry

It is surprising to know how many poultry flocks in Lamb County are affected with common poultry diseases, such as, colds, roup, chicken pox and parasitic insects, states D. A. Adams, County Agricultural Agent. These diseases take a heavy toll each year among the infected flocks, and the surprising thing is how little attention is paid to this, when these maladies can be controlled at so small an expense. It is estimated that every hen in Lamb county can be treated for 2 1-3 cents per head, and this cost is saving of death, and the increase in egg production, and marketable poultry. It is imperative that every farmer who has a flock to look into this matter, and begin this type of work immediately. Another estimate is that 90 per cent of all the trouble originate from worms. Why, disease wears down a chickens vitality which in turn makes it susceptible to these easily controlled diseases, which if let go will take away many costly birds.

A campaign is being carried on now, and everyone should fall in line. Call on your County Agent for he wants to save you and help make this campaign a great saving to the farmers of Lamb County. September and October are ideal months in which to do this work.

NOTICE--Now is the time to repair your Harvest Machinery. Get your number, we have the repairs.--Sudan Mercantile-

J. A. Hutte --Sudan, Texas-- J. M. White.

**Don't take our word for it.**

Ask the man experienced in building--and he will tell you that the best materials are always cheapest in the end. Why? Because good materials resist both age and weather. Wherein so many fail, is the reasoning that the best always costs the most. This is true--because in lumber often more waste will be sawed from seconds than the saving hoped for--as compared to first grade material. Our yard is now completely stocked with first grade lumber. We want to serve you.

### THOMPSON OPENS STORE AT MULESHOE

Mr. Thompson made announce-  
ment in last week's issue by the  
means of a display ad. of his hav-  
ing opened up a new store at  
MULESHOE, TEXAS.

Through an omission of the  
letter "L" it made the name  
Muleshoe appear as it did in his  
ad. and naturally we feel that  
we are indebted to Mr. Thomp-  
son to a news article correcting  
the same.

His stock consists of dry goods,  
ready-to-wear, millinery, com-  
plete department for children  
and babies, men's hats, clothing  
and shoes.

Featured big line of Nelly Don  
Dresses, in wool, crepe, Kasha  
and cotton fabrics, priced from  
\$1.95 to \$10.95.

T. Fife and Family, of  
Teague, Texas, Visit  
Their Old Home--Sudan

Mr. T. Fife, wife and two  
boys, of Teague, Texas, are vis-  
iting relatives and friends here.

It was a pleasant surprise to  
meet our old friend on the streets  
of his former home once more  
and to learn of his intention of  
being with us again.

The editor, as well as many  
other of his old friends in Sudan  
are glad to extend Mr. and Mrs.  
Fife and family a cordial welcome.

Mr. and Mrs. L. E. Slate, and  
son, Crosby, who have been  
visiting Mrs. Slate's father, Mr.  
G. W. Smith, and other relatives  
at Henderson, returned Sunday.

Mr. and Mrs. C. M. Furneaux,  
and Junior, returned from an  
extended visit in Dallas and  
other Texas points, the latter  
part of last week.

Mr. and Mrs. John Hilliard,  
and children, who have been  
visiting relatives at Killeen,  
returned to their home at Sudan  
the first of the week.

Mr. and Mrs. Fred Kipley of  
Farwell, were guests of Dr. and  
Mrs. G. A. Foote, Sunday.

The small daughter of Jim  
Allen's, who makes her home  
with her grandparents, Mr. and  
Mrs. O. L. Allen, had the mis-  
fortune to fall and injure her  
limb. It was necessary to take  
several stitches.

#### An Unpleasant Subject

All of the functions of life are not  
pleasant to consider. Perhaps this is  
why some mothers refuse to think that  
such symptoms as restless sleep, loss of  
flesh, lack of appetite or itching nose  
and fingers in their children, can be  
caused by round or pin worms. Many  
mothers have proven, however, that a  
few doses of White's Cream Vermifuge,  
that sure and harmless worm  
expellant, will make these symptoms  
disappear. You can get White's Cream  
Vermifuge for 25 cents per bottle from  
H. G. Ramby Drug Store

**PEGGY AND JULIE**

"Are we going to be shown at the dog show?" asked Julie.

"Yes," said the other dog, named Peggy, "but not in the way you would think."

"You know, of course, we are dogs who have been seen a great deal, for we both act for the moving pictures, and lots of people and children have seen us as we have ran across the screen and wagged our tails and barked and performed tricks."

"But of course we haven't really been running on the screen which the people were watching," said Julie.

"Of course not," said Peggy. "The people and children know that pictures are taken of us when we are acting and then that these pictures are sent about from place to place."

"Well, we are to be seen at a dog show, but we, ourselves, aren't to be there."

"Neither are they to have moving pictures in which we act."

"I don't understand at all," said Julie. "I am more in ignorance than ever before."

"I know what that means now," said Peggy, "and I will tell you right away about this dog show."

"I am waiting to hear," said Julie. "They're to have photographs of all sorts of dogs and they will give

"I Am Waiting to Hear," said Julie.

prizes to the owners of the dogs which look the best, judging from their photographs.

"There will be all sorts of dogs whose photographs will be at this show," continued Peggy, "just as all sorts of dogs would be at a real show."

"There will be dogs like ourselves, who act for the movies, there will be Red Cross dogs, dog heroes and dog heroines."

"There will be dogs who are trick dogs, dogs who come from very fine old families—but none of these dogs will be at this show themselves—only photographs of all these kinds of dogs."

"I hope our photographs came out well. I don't remember which ones they meant for the show."

"They turned out splendidly, I've heard," said Peggy. "And I also have heard that the show was a great success though it was funny to hear no barks and to see no tails wagging but simply to see photographs, oh, so many photographs."

"And one more thing I heard."

"Tell it to me," begged Julie. "You are telling me such interesting things today."

"I heard that our photographs won prizes," said Peggy, and Julie barked with delight.

"Well," said Julie, "it was a funny kind of a dog show, and I have enjoyed hearing about it, but best of all, hearing that we won prizes."

"I am so glad that you did not keep me waiting for such news any longer."

"I saved the best for the last!"

**TEASERS**

Why is a handsome woman like bread? She is often toasted.

What makes every one sick except se who swallow it? Flattery.

Why would you call a small boy who eats green apples? A pains-taking urchin.

Why is the world like a piano? Because there are so many flats and sharps in it.

Why is the crow the bravest of birds? Because it never shows the white feather.

What becomes of apple pie when an only son eats it? It vanishes into empty heir (air).

Why is a poor acquaintance better than a rich one? A friend in need is a friend indeed.

When does a farmer perform a miracle? When he turns his horse to grass, and also when he turns his cow to pasture.

Why is it that whenever you are looking for anything you always find it in the last place you look? Because you always stop looking when you find it.

If a thin man were to dress himself in a tall, fat man's clothes, what two cities in France would he resemble? Toulon, Toulouse (too long, too loose).

**Cuticura Soothes Burning Aching Feet**

Bathe the feet for several minutes with Cuticura Soap and warm water, then follow with a light application of Cuticura Ointment, gently rubbed in. For tired, hot, irritated feet this treatment is most comforting. Cuticura Talcum is cooling and refreshing.

Soap 5c. Ointment 25c and 50c. Talcum 25c. Sold everywhere. Samples each free. Address: Cuticura Laboratories, Dept. 24, Malden, Mass.

**YOUNG LADY SOLICITORS WANTED**

We furnish Complete Sample Book. Write today—References  
Chubb-Trammell Co.—509 West Main St.—Oklahoma City

**Rouses Painful Memories**

Talksmith—I should think you'd like to see your wife on the screen. Silent, you know.

Longsuffer—Yes, but I can't help noticing that all the time she's in the picture her jaw's wagging.

**STOP THAT ITCHING**

Use Blue Star Soap, then apply Blue Star Remedy for Eczema, Itch, tetter, ringworm, psoriasis, dandruff, children's sores, cracked hands, sore feet and most forms of itching skin diseases. It kills germs, stops itching, usually restoring the skin to health. Soap, 25c; Blue Star Remedy, \$1.00. Ask your druggist.—Adv.

**Let Conscience Guide**

Be fearful only of thyself, and stand in awe of none more than of thine own conscience.—Thomas Fuller.

**Tiring**

Post—"Your flower beds are a paradise, old man." Parker—"Garden of Weed'n", I call it."

**A Correction**

Mr. Laurels—Does it not move you strangely to watch the moonlight shimmering on the lake?

Miss Gazippe—You said it! But, say, you mispronounce that word. Didn't you mean, "the moonlight shimmering on the lake?"

**Powerful Vacuum Tube**

A vacuum tube with a power of 15,000 watts, sending out wireless waves of six meters in length, can produce a warmth in near-by spectators and cook sausages in a glass tube without fire.

Just say to your grocer Red Cross Ball Blue when buying bluing. You will be more than repaid by the results. Once tried always used.—Adv.

All is but lip-wisdom which wants experience.—Sidney.

Love fills unoccupied hearts and rattles unoccupied heads.

**How S. O. S. Helped to Win the World War**

The biggest business corporation of all time was the Service of Supplies—the S. O. S.—behind the American expeditionary forces, in France, 1917-18.

The S. O. S. built more than 1,000 miles of railroad in France; brought over 1,496 locomotives and 18,543 railroad cars; brought 135,000 miles of telegraph and telephone wire, which was hung on 2,500 miles of poles; put up innumerable buildings, including a refrigerator plant for 6,500 tons of meat daily; built 16,000 portable barracks, and two hospital cities, each with 4,000 beds.

The bakeries that were built turned out 800,000 pounds of bread daily. As to the personnel of this huge business, it varied from experts in repairing field glasses, to that indispensable genius with the acetylene torch mending locomotives.—Frederick Palmer in Liberty Magazine.

**Earth Not Yet Crowded**

Probably more than one-third of the people of the earth dwell in two countries—China and India. Such vast areas as Siberia, Canada, Australia and Brazil have populations of not more than two or three to the square mile.

**Coldest Material Known**

Experiments are being made with dry ice, which is solidified gas, as a refrigeration possibility. When it melts, it evaporates and is colder than the poles of the earth. A small piece of it will freeze a pitcher of water solid.

**Perfectly Sweet**

"Do you think Liz minded that awful lawsuit she was mixed up in?" "Why, my dear, I think she rather enjoyed it—I know she told me they had a grand jury!"

*The Easiest Way is the "FAULTLESS" way*

Nothing to add except boiling water

Every laundress knows that "SOMETHING" must be added to lump starch to make a perfect boiled starch.

The United States Department of Agriculture in Farmers Bulletin 1099, "Home Laundering," says—"The following is a good general receipt for making Cooked Starch:

1 to 4 tablespoons starch, according to stiffness desired  
1 cup (1/2 pint) cold water  
1/2 teaspoon borax  
1/2 teaspoon paraffin or white fat  
1 quart boiling water

Make a paste of the starch and the cold water; add the borax, the paraffin or fat, and the boiling water. Boil the mixture, stirring it thoroughly, until it is clear, or for about 20 minutes. Remove any scum that forms and strain the starch while hot.

But who wants to go to all that trouble?

FAULTLESS STARCH is already prepared. Our formula, we believe, will produce better results than the above. We know the materials we use are the purest we can buy. They are carefully blended to bring out the best results in starching.

That is why FAULTLESS STARCH users in more than a million homes agree that the "Easiest Way" is the FAULTLESS way. One trial will prove it.

**For 43 and 50 Years**

**Their Combined Ages 149 Years**

An Account of the Use of Thedford's Black-Draught by Mr. and Mrs. John Jones, 321 W. Arkansas Ave., Durant, Okla.

**Mr. Jones Says:**

"WHEN I lived in Illinois, as a very young man, I used to take Black-Draught. I believe I can safely say that I have taken it for 50 years, off and on. Black-Draught and quinine were then all the medicines I took. In all these years, I have used Black-Draught when I would get bilious. When I do get bilious, I have dizzy spells and my stomach gets all out of fix, and I just get sick all over. I found that, if I would begin taking Black-Draught in time, I could ward off these sick spells, and for years this is what I have done. I have kept my system cleansed with Black-Draught, just a few doses, now and then."

**Mrs. Jones Says:**

"I have been a user of Black-Draught for about 43 years, and find it just as good now as when I began its use. When I was young, I used to have severe headaches, and would have to go to bed. I found that by taking Black-Draught, I would soon get easy, and if I would take Black-Draught as soon as I began feeling bad, it would keep off the sick headaches. Now I take Black-Draught for a bad taste in my mouth, biliousness, and the dull, heavy feeling after meals. It surely does help this."

# The Verdict Of Numbers

More People know what they want. They may not get it at first.

Experience is often a bitter teacher.

But in the end they get the best--in tires, as in other things.

Among the baffling claims of rival manufacturers and the alluring inducements of price-cutting, special discounts and "deals," the judgment of numbers stands out undeniable.

It goes straight home:

## More Cars and Trucks Run On Goodyear Tires Than On Any Other Kind

Goodyear popularity is securely founded on the million of motorists that Goodyear makes the World's Greatest Tire.

The great army of motorists has tested Goodyears thoroughly--driving over 75,000,000 miles last year.

And Goodyear leads every tire maker by thousands in the volume made annually.

Goodyear used 168,000,000 pounds of rubber last year--50 per ct. more than any competitor.

Our Goodyear Service is of the same high quality as the tires we sell. We make it our business to see in every possible way that you receive 100 per ct. service from your tires.

You'll find that we are an expert, courteous and friendly establishment.

Won't you get acquainted with us and with The World's Greatest Tire--soon?

### Bring Home The Bacon

The man who always comes home with the bacon Knows what he's about, is seldom mistaken. He may not live in the greatest of style, But he gets what he needs that's really worth while. He always has money saved up in advance, Keeps his eye open, looks for the main chance. Some people may wonder how he gets along; It's saving his money, not doing things wrong. The First National Bank now has his account; It runs into figures, is quite an amount.

### A Good Thing To Know In Growth of Tomatoes

A government expert was sent to Florida to ascertain shortage in tomato production.

This expert, who of course was a competent geologist, discovered the absence of manganese in the soil.

The remedy, manganese mixed with fertilizer, brought forth a good crop.

In some sections here tomatoes went all to plant and no production. Several reasons have been given for this and we give one of them: Don't plant tomatoes in two successive seasons on the same ground. Mix manganese with your fertilizer.

If by too much moisture it seems to run all plant push away the topmost branches, placing latticed supports at centre so the sunlight and warm air can play well into it.

There is no authenticity of manganese being required in this soil--in may vary in different locations. Give it a trial and see how it works.

## Acknowledgment of Thanks FOR PATRONAGE

On the 16th day of September, 1928, we will have completed our 9th business anniversary. We have many pleasant recollections socially as well. May such conditions continue for many years yet.

We cordially invite you to be present on Saturday, Sept. 15, and join us with a dish of

### Ice Cream and a Souvenir Present

Which will be FREE to All.
