SUDAN, LAMB COUNTY, TEXAS, OCTOBER 25, 1928

N. O. 18

## JUNIOR CLASS SUDAN HIGH NEWS NOTES

Athletics, Social Features, 200th Visitor, P. T. A. Meeting, Absentees, Advancement in Equipment, Banquet.

Contrary to all the expectations of outsiders, underdogs in the contest at least four touchdowns, fighting from the first whistle to the last, the Sudan High School Football team gave a splendid exhibition of nerve and grit in defeating the heavier Amherst team on the local gridiron last Friday afternoon. The contrast in the two teams was remarkable from the beginning. Amherst devoted almost its entire attention to an overhead, running, passing game, resorting to line plunging and charging only two or three times in the entire game. The most notable instance of their vicious line plunging came in the second quarter. After resorting to running and passing to within four yards of Sudan's goal, they started a charging attack with four downs to make the distance. In four attempts they carried the ball to within six inches of the line only to lose through lack of punch to put the ball over. At no other time in the game were they able to make a serious threat at scoring. Sudan resorted to straight football, making gain after gain by plunging through the line. At this plunging Hilden, captain of Sudan's team, showed exceptional ability seldom failing to make two to six yards. There was no shirking, however, on the part of any player on either team. Furious and cheerful might be used to describe the action of both contending hosts throughout the warm afternoon. Amherst lost forty-five yards in penalties and Sudan lost twenty-five. The lineup was as follows:

|                  |           |
|------------------|-----------|
| Fisher           | Center    |
| B. Lenderson     | R. Guard  |
| Allen            | R. Tackle |
| A. Shuttlesworth | R. End    |
| Simpson          | L. Guard  |
| M. Shuttlesworth | L. Tackle |
| Lynch            | L. End    |
| Rarby            | Quarter   |
| Scott            | R. Half   |

Findley L. Half  
Holden (Capt.) Full Back  
Final score Sudan 8; Amherst 0.  
Substitutes for Sudan: Scogin for Scott, Crain for Simpson, Scott for Scogin.

Officials: Hopping, Referee; Gray, Umpire; Grissom, head linesman.

The program of last Monday afternoon was enjoyed by every one present. It was a departure from the routine. The sixth grade who were to present the program gave way to a visitor, Warren P. Knox, who entertained with a roap stunt program for forty minutes, keeping all present in a highly interested, or an amused attitude by expert stunts played with a rope. It seemed certain to pupils on leaving the auditorium that he could make a rope misbehave, talk and sing.

The two hundredth visitor to the school registered Monday of this week. It was a coincidence that Mr. Knox, our entertainer should be this personage. Mr. Knox was educated in New Hampshire, receiving his bachelor's degree from the University over ten years ago. He came to Beaumont where he was Scout Executive for three years. In all he has served the boys of America in this capacity for more than ten years. From Beaumont he came to Lubbock to serve the South Plains boys as Scout Executive, a position he has held for the past three years. He enjoys camping, and other outdoor activities, being an expert outdoor cook. His hobbies are archery and rope work. He can make a roap do most every thing but dance. It even sings and talks under his direction. He is a master in sign language and speeches or makes written signs of several Indian Languages. For the past several years he has made a special study of totem poles as an example of Indian social history. He has erected these totem poles in nearly every portion of Texas, two of them being now on the South Plains. Of these two poles one is at post, the other at Lubbock. The Post Boy Scout Camp holds the last, while the Fair Grounds at Lubbock holds the first. He is an entertainer and director of boys par excellence, and is our 200th, Visitor. It is prophesied that the three hundredth visitor will register before another week goes by. We wonder who it will be? Next week we hope to be able

to report the happenings at the football banquet, which will take place Thursday evening of this week after our paper goes to press. It will make interesting reading matter to tell how this important social function happened, but we juniors shall leave it to the sophs. to tell that.

The first six weeks' of the school has been marked a thing of the past, and it is appropriate that the grammar school be permitted a "place in the sun" here. Mr. Wilkins promised the honor pupils of that division of the school honor certificates. These are to go to all who are neither absent nor tardy during the six weeks and who make no grade lower than B. They are as follows: Six grade: Odessa Barbee, Margaret Dean, Mildred Miller, Willie Massey, Bessie Lee Rollins, Monte Smith, Louise West, Alta Mae Ray, William Sturges, and Eddie Schlottman. Fifth grade: Charles Simmons, Gracie McName, Robert Hawkins, Mary Slaughter, Leatha Belle Shafer, James David Stone, Mary Holt, Linnie Mae Northcutt, Thelma Moore. Fourth grade: Ethel Callicut, Billy DeLoach, Roberta Halbert, Leo Mann, Allen Nelson, Elmer Pruitt, Willie Mae Seymore, Dave Scogin, Martha Louise Stuart, Bill Whitwell, Lou Ida White. Third grade: Byron Ford, John Rae Hammock, T. J. Stanley, Floyd Venable, Christine Bewley, Fannie Willis, Lois Wofford, Martho McName, Nelda Mae Benton. Second grade: J. R. Guin, Herbert Womack, June Campbell, Dorothy Humphries, Margaret Hunt, Hazel Miller, Vera Lee Templeton, George Weimhold, Bill West, Addie Lee Edgeman. High first, Owen Stephens, Teil Melton, A. C. Mann, Arthur Stanley Crain, Julia Allen, Shirley Freiley, Mooseline Fulcher. Low First: Truett Hammock, Wayne Kittley, Dyer Love, Zeb Payne Jr., W. L. Ferguson, Ray Massey, Minnie Kate Grissom, Faye Sigman, Ila Ruth Bridges.

The grammar school misses Mr. Smallwood, who is away on business matters and is not expected back for another week; however in his absence Mrs. Talbott is acting ably the part of a grammar school principal.

The volleyball net ordered for our school many weeks ago has finally arrived and we are busy using it every play time. This help means much to us even if it meant little to Mr. Wilkins in ordering it for us.

The box supper given by the pep squad last Friday evening was a financial success. Many of the business men made up boxes containing articles for sale in their respective stocks. These boxes helped much in a financial way and as an added amusement feature. "Col. Jack Rowan" gave his services as auctioneer, an aid that was much appreciated. A partial list of the business men who aided is: Sudan Mercantile Company, Hutto Chevrolet Company, Sudan Bakery, Sudan Cafe, Woods' Dry Goods Company, Hokus Pokus Store, Stuart's Hardware Company, The M System, Ramby Drug Store, Sudan Drug Company, Patterson's Shoe Shop, Everybodys Store, Holt and Alexander, Hunt's Barber Shop, and Sudan Cleaners.

We were sorry to have Mr. and Mrs. Newton and Miss Runnels absent from school last Monday afternoon. They were called away by the death of a

friend at Dimmitt. They returned after the funeral to Sudan and were back in school Tuesday morning.

After close of school Monday afternoon, the Parent Teacher Association of Sudan had their first called meeting of the year. We pupils have been told that much interest was manifested in the meeting, and from all appearances there will be a successful program carried out this year; however their own reporter will cover their meetings throughout the year.

The laboratory and the home economics department have received additional equipment since last week, and some flower shelves have been put in some of the high school rooms. Mr. Findley says that he will now have a rush of work building flower shelves for all the teachers.

This is the last issue for some months for which the juniors will be responsible. During the next month the sophomore class with Mr. Newton as sponsor, will have charge of the school news. They will possibly do better than we.

The Junior Class.

## Future Farmers Of Texas News

The F. F. T. Club will hold its first regular meeting on Monday night Oct. 29, at 7:00 o'clock in the Agricultural Room.

A very interesting and educational program will be held illustrating the Correct Methods of procedure in Parliamentary Law. There will also be some interesting talks by the members of the Club outlining the program for this year's work.

The fathers of the Club Members, farmers, business men, and the general public who are interested in the Future Farmers Club and their program of work are especially invited to be present at this first meeting. Present once you'll always be present.

Tact, after all, is merely thinking of the point of view of others, considering others and saving the feelings of others.

## Band Concert Sunday 5 P. M.

The Sudan Band will give a concert on main street next Sunday at 5 p. m. This will be the first appearance in concert since playing for the Lubbock Fair.

## Notice of Meeting

Hoover Club will meet Friday at 7:30 p. m. at V. C. Nelson's Land Office. All are invited to attend. G. R. Crim, President.

## Business Men's Meeting

A meeting of the Business Men of Sudan is called for tonight (Thursday) at 8 o'clock. There are some important matters to be discussed and all business people of Sudan are urged to attend.

Miss Opal Carter, of Amherst, spent Sunday with her mother, Mrs. Anna Carter and family.

Horace Holt, who is attending the Tech at Lubbock, spent the week end with his parents, Mr. Mrs. H. C. Holt and family.

## Terracing Valuable to Plains

D. A. Adams, County Agent

It has been said by many that terracing was not profitable on the plains, or rather that we did not need it, but this theory has been disproven many times by the State Experiment Station, and by the many farmers in the adjoining counties who have been doing this work for many years.

The biggest reason that every man should terrace is because it is the moral obligation of every land-owner to conserve the soil for the use of future generations. The benefits to the present generation are many, it increases farm revenue by adding three dollars or more to the annual income per acre for all time to come; It gives higher valuation to the land; It prevents gullies from washing in the field; It prevents sheet washing from taking soil and plant food; It insures a better stand of crops; It prevents washing away or gamic matter, commercial fertilizer and manure; It prevents the hillsides from washing down and covering of bottom lands and filling waterways; It allows greater absorption of rainfall which is desirable, especially to the plains region of Texas; It prevents questionable security; It builds better communities; and finally it promotes better business, and creates prosperity.

The cost of terracing is very cheap in comparison to the results that are obtained. The average cost per acre for the entire state of Texas is \$2.00 to 2.50 per acres, but on the plains region it is somewhat cheaper for there are fewer terraces to be built, and they stay on the ground with a little less care. Where gullies are frequent, and the labor to build these has to be hired this original cost comes higher, but where a community goes together to build the terraces, or several farmers cooperate for that work the cost is cut considerably.

The best time to terrace is as soon the crops are off the land so that the lines can be laid off and the terraces built. In order to do this work, every farmer that is interested in this work should get in touch with the county agent as soon as possible to get in line for many farmers are already getting to do this valuable piece of work this fall.

A few facts to be remembered are that narrow terraces that do not allow cultivation, even though they prevent washing, should be discounted because so much of the best land is removed from cultivation, and are a source of weed contamination for the whole farm. Rows should run parallel the terraces and should continue over, but where rows are run at right angles or in any way across the terrace it is only a question of time until terraces will be destroyed. Terraces require some work each year to keep them up, yet when they are properly constructed the outlay to keep them up is small. For the plains, it prevents washing, and the biggest thing is to conserve moisture when we need it.

## 90 Bales of Cotton

According to the report from the various gins, 90 bales of cotton were ginned here last Saturday. This is the largest days run so far this season. As pickers are secured, it is predicted, that all gins will be running over time to accommodate the cotton farmer. Sudan will probably receive 8000 bales this season.

## Hallow'en Carnival Staged By Parent Teachers Ass'n

The parent-teachers Association at its regular meeting decided to put on a carnival of fun and frolic on the evening of Wednesday Oct. 31st, and help the kiddies and older students of our school celebrate the great event that was long consecrated to harmless fireside revelries in England and Scotland and has come down to us as a season of pranks and school life festivities. This carnival is staged for the purpose of raising funds for the payment on the piano.

You are promised a big time and should be on hand to enjoy it.

Friends of Mrs. C. L. McKirley will be glad to learn that she is still improving, but was unable to be brought home Sunday, as was stated in last week's issue of the News. She will probably be home the latter part of this week.

A few facts to be remembered are that narrow terraces that do not allow cultivation, even though they prevent washing, should be discounted because so much of the best land is removed from cultivation, and are a source of weed contamination for the whole farm. Rows should run parallel the terraces and should continue over, but where rows are run at right angles or in any way across the terrace it is only a question of time until terraces will be destroyed. Terraces require some work each year to keep them up, yet when they are properly constructed the outlay to keep them up is small. For the plains, it prevents washing, and the biggest thing is to conserve moisture when we need it.

## Don't Forget About COAL

Just a reminder:

This is the best time to order your coal.

Get it now before possible price increases.

Make sure of prompt delivery!

We handle only the best grades of coal.

Our rates are reasonable, our service is prompt.

When you put your coal problem in our hands, you have nothing to worry about!

J. N. Beasley Grain Co.

E. C. Shuman, Manager

## The Wisdom Of Nature

The wisdom of nature is seen everywhere; By instinct its creatures are taught to prepare. The squirrel quits playing around the trees To store nuts for Winter; he knows it will freeze. And the busy bee, also, knows just what to do. It stores honey the whole Summer through. It looks like a lesson from this we should take To not only work but save what we make. The First National Bank knowing Nature is wise Would not undertake to better advise.

First National Bank

A weekly paper in Cooper county carried an editorial last week in which it was stated that Al Smith would draw his votes from the boot-leggers, the gangsters, of the underworld generally, while the good churchgoing Democrats would vote for Hoover. It would be safe to say that about fifty per cent of this paper's business comes from ardent supporters of Al Smith who are neither bootleggers, gangsters nor members of the underworld. Can you beat it?

And while our editor friend believes that none but the lower stratum of society can be found on the Smith side we believe that more than likely this vote will be about equally divided between the two candidates, which neither of them can help. Further than that, we believe in the fairmindedness and good judgement of the American voter and while the most of us are partisan yet the vast majority of us grant to our neighbors and friends sincerity of purpose even though their views are opposed to ours.

We understand that there is some suspicious throat trouble in our vicinity. It would be wise for parents to have their children's throats looked into, and provide them with a tooth brush and some good antiseptic solution.

**The Home Newspaper**

If there is anything in your town worth talking about 10 chances to one your own newspaper had a hand in putting it there. If anybody beyond the walls of your burg ever learns that there is such a place as Three Corners it will be thru the home paper.

Every town gets its money's worth thru the home paper. It's the wagon that carries all goods to market. It ought to be kept in good repair. It will pay to grease it, paint it and keep its running gears in good shape and shelter.

They are the guardians and defenders of every interest, the forerunners and pioneers of every movement and the sturdy tdocates of law and order.

Clide Florence has taken a position as salesman with the Hutto Chevrotet Company and has gone to work in earnest. He reports two sales, or a sale a day, for the first two days of his service. Mr. Florence is a baker by trade and has been supplying Sudan with bread. If he makes as good a salesman as he did while baking he will be a "hum-dinger" of a salesman.

Clyde Florence purchased the J. B. Foster residence the first of the week.

**Nature Thought of Everything**

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from

**Obituary**

The peoples hearts of this community were made said this afternoon when they heard of the death of one we had learned to know and love so recently, Bro. Breeding. He had begun a meeting at Friendship church, near here, and the people were enjoying it so much, so many souls were up lifted and so many sinners becoming interested.

It is beyond our understanding why he should be struck down in the midst of such a meeting and be called home in the prime of life. But in the after awhile we will understand. To his bereaved wife and children we say grave not, for there is one that is able to heal our deepest sorrow, and you know where to find your loved one. May Gods richest blessing rest upon each one of you, is the prayer of one that sympathizes with you in your breavement. Tis hard to break the tender cord When love has bound the heart. Tis hard, so hard to speak the

words,

We must forever part.

Dear loved ones I know for you earth has lost its look of gladness Heaven seems to you more bright. Since the spirit of your loved one has taken its homeward flight. Dear ones let me beg you to look to God for he alone can help at such a time. Don't forget to ask Him to help you for he has promised to help every one that shall ask and I know he will for I have tried Him time and again.

You may awake many times at night and sleep will be a stranger to you but remember when these dark clouds over hang and you seem to be losing ground just go to God and ask him to make you able to bear your burdens.

May God bless you in this sad hour and may you remember that Heaven is nearer and dearer to you than before your loving husband and father was waiting you there.--Written by one who enjoyed his meeting at Friendship Church.

Mrs. C. N. Hutto and Mrs. J. B. Hutto, the former of Olney and the latter of Post, mother and aunt of our townsman J. A. Hutto underwent minor operations at a Lubbock Sanitarium in Lubbock, Tuesday, both ladies are getting along nicely.

# Hidden Values in this amazing TIRE

No man knows the hidden values in this tire until he has driven it many thousands of miles.

In tens of thousands, as a rule, you will measure its troublefree mileage.

The body or carcass of the tire is made of that seemingly indestructible SUPERTWIST. And now slow, even tread wear is insured by its new tread design.

It is the World's Greatest Tire.

Time alone reveals its full worth. But somethings about this amazing tire, you will know from the very start.

You will sense its uncanny ability to grip the road, its

sureness and safety under all dividing conditions. You can see its smart pattern, which stamps it the aristocrat of tires. We bank our reputation on this Goodyear All-Weather Balloon. Come in and see it. We have your size at the right price.

### WHAT'S DOING IN WEST TEXAS

A new school house at Allmon embracing three class rooms, an auditorium, teachers office and library, and costing \$14,000 for the building, and \$1500 for the equipment has been turned over to the school district by the contractors.

Plainview is to have a new

eight story Hilton Hotel on the corner of Sixth and Austin Streets. Construction will begin this week, and is expected to continue for six months, at which time the building will be completed.

Big Springs is to have a new church. The Church of Christ denomination is to be the owner of the new church, and will

build the place of worship on South Main Street, of buff colored brick veneer at a cost of \$15,000.

The first 4-H Club for Boys and Girls has been organized in Turkey for the school children. Miss Ruby Adams, county demonstration agent organized the club and will meet with its members twice each month.

Machinery for the laundry being installed by F. H. Turner in Rotan is being set up as it arrives. This is to be one of the most modern equipped small laundries in the country, and capable of doing first class work.

The Coleman Gas and Oil Co. is making a \$40,000 addition in the form of a six inch welded line laid from the city to the Santa Fe junction and a mile south. Another reservoir is to be constructed to the 10 inch truck line of the Lone Star Co.

Approximately 4000 head of spring lambs have been shipped from Farnsworth, lately. Six carloads of lambs were shipped by E. W. Biggers, and five carloads by J. W. Rogers. The farmers in this section are finding this a profitable sideline.

The Fifth Annual meeting of the Texas State Teachers Asso-

ciation will meet in San Antonio on November 30, with a heavy bill of well known and interesting speakers on the program, including Dr. R. G. Reynolds of Teachers College Columbia University.

W. P. Weaver, County Agent of Mills County, states that he will be available to any group of farmers in the community who want to learn terracing. If they will secure a level and select leaders. Farmers of Mullins are taking advantage of the offer.

The \$125,000 bond issue for the purpose of building a new courthouse in Callahan County was carried by a 125 majority recently. The new Temple of Justice will be erected in Baird.

### "Degrees Do Not Make Teachers"

The above title is a verbatim quotation from a letter in the Dallas News. The writer, X. Carson, assures us that this is no indictment of teachers, and pays tribute to their sterling qualities, while deploring the mystic vision of school boards, superintendents, and others charged with the selection of teachers, who place a college degree in the front ranks of qualifications.

The point is well taken. To be sure a degree is a sort of certificate of achievement, and a desirable goodluck piece for the young teacher, but it gives no assurance that its holder has other qualifications for teaching than learning. Hear Mr. Carson further:

"Physical excellence, health, courage, firmness, love, sympathy, selfcontrol, brevity of speech are qualifications of a real teacher. 'I want, first a man; second, a teacher; third, a scholar,' wrote a superintendent to a college president inquiring for a teacher. Dr. Thomas Arnold's view was similar. He wrote: 'What I want is a man who is a Christian and a gentleman, an active man and one who has common sense and understands boys. I do not so much care about scholarship; well, on second thought, I do not care for it, but if one must give way, I prefer activity of mind and interest in his work to high scholarship.' When you have read a 'teacher wanted' in the News that sounded like these? A country is just what its homes and teachers are."

We commend this to the young teacher, and most of all to those who employ teachers.--Farm and Ranch.

### Hallow'een Party

The spirit of Hallow'een prevailed at the birthday party, given in honor of Miss Ople Rollins, last Saturday evening.

The room was artistically decorated in black and orange crepe paper. The guest enjoyed the many new games, with Arnold Purtell named as the winner of the prize for the evening.

Delicious refreshments were served from the brightly colored booth.

Those present to enjoy the delightful hospitality were: Misses Jewel Hammock, Lorene Brewster, Virginia Lumpkin, Reba Hutto, Mable Thomas, Addis Rollins and the honoree, Miss Ople Rollins. Messrs Leon Gill, Buster Hamilton, Howard Preston, Arnold Purtell, Marvin Thomas, J. D. Thomas, Joe Tucker; Clovis West, Frank Rone, Mr.

### Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from H. G. Ramby Drug Store.

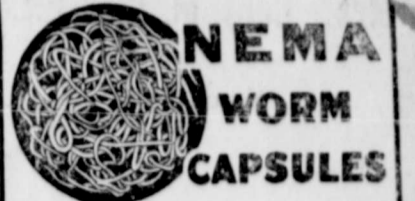

and Mrs. A. E. Rust, Mr. and Mrs. E. E. Ivey and children and Mr. and Mrs. S. L. Rollins and children. --Contributed.

Thomas, son of Mr. and Mrs. T. A. Nelson underwent an operation for appendicitis at a Lubbock Sanitarium the first of the week.

Miss Ruby Damron, of Circleback, was taken to Lubbock where she was operated upon for appendicitis the first of the week. She is reported as getting along nicely.

Miss Reba Hutto, of Olney, who has been visiting with her brother J. A. and family left Sunday for Lubbock where she was married to Herman Foreman. The couple will make their home in Roby.

Mr. and Mrs. W. A. Cure, 4 miles south of town are the proud parents of a baby girl born October 22nd. Dr. Foote reports both parties getting along nicely.

# ATWATER KENT RADIO

That Voice...  
you'd know it anywhere!

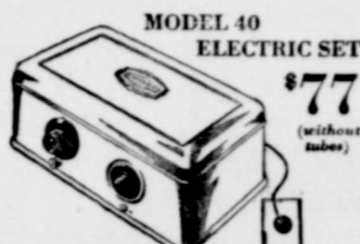

"Did you hear Hoover? What did you think of that speech of Smith's?"  
Hear this historic campaign clearly through an Atwater Kent. You won't miss a word—a syllable. Atwater Kent tone is famous for clarity. Atwater Kent workmanship can be relied upon. Atwater Kent resources make prices low.

## ARE YOU LISTENING?

Electric or battery—your choice  
Some homes have central-station electricity, some don't. Both kinds want fine radio. So Atwater Kent offers modern instruments in two forms.

batteries. Your radio is operated in the same way your lamps are lighted—from the house current, either A. C. or D. C. The current costs considerably less than a cent an hour—about as much as reading a newspaper by the light of a single 40-watt lamp. Think of hearing Smith or Hoover for less than a cent!

the leader in sales and popularity. The nearest Atwater Kent dealer will be glad to give you a demonstration and advise you in the selection of your model.

MODEL 40 ELECTRIC SET \$77 (without tubes)  
MODEL 40 A. C. set. For 110-120 volt, 50-60 cycle alternating current. Requires six A. C. tubes and one rectifying tube. \$77 (without tubes). Also Model 42, with automatic voltage regulator, \$105 (without tubes), and Model 44, an extra-powerful "distance" set, \$106 (without tubes).

With an Atwater Kent battery set the programs will also come in clearly and strongly—whether you want speech or music—for the Atwater Kent name-plate on any set spells good, reliable reception.

On the air—every Sunday night—Atwater Kent Home—listen in!

Prices slightly higher west of the Rockies

ATWATER KENT MANUFACTURING COMPANY  
A. Atwater Kent, President  
4764 Wissachickon Avenue Philadelphia, Pa.

Nearly 2,000,000 owners prove it  
There's nothing untried about Atwater Kent Radio. Each year for six years it has set the pace in improvements, performance and price. Among rural families as well as in the cities, it is far and away

Solid mahogany cabinets. Panels satin-finished in gold. Model 42, \$105; Model 44, extra-powerful, \$106. Prices do not include tubes or batteries.

**Tiny Lemon**  
A new lemon developed in Japan is being imported into the state of Washington for the first time. It is a miniature fruit about the size of a pigeon egg, thin skinned, and has a very tart lime flavor. One is sufficient for a glass of lemonade.

**Sister's Bob?**  
Visitor (speaking of little boy)—He has his mother's eyes.  
Mother—And his father's mouth.  
Child—And his brother's trousers.—Tit-Bits.

**Honest, Anyway**  
Lawyer—Well, if you want my honest opinion—  
Client—No, no. I want your professional advice.—Life Magazine.

**For Good?**  
Cole—Who's that fellow you just threw out of your house?  
Scuttle—He's my first cousin once removed.—Answers.

Seldom can you make an intimate friend of a popular man. Too many claim him.

**Immense Monolith**  
The largest marble monolith in the world, standing 65 feet high, measuring 18 feet across and weighing 40 tons, has been extracted from the famous marble quarries at Carrara, and will be presented to Mussolini for the new Fascist stadium to be erected at the Farnesina outside of Rome.

**He Wants to Know**  
"What's the town up to, Zeke?"  
"Hauling sawdust."  
"Revival or circus?"  
Hostelry makers should encourage knee britches. You can't wear stockings visibly darned.

## POULTRY

### HOUSE PULLETS EARLY IN FALL

The mistake is often made of allowing the pullets to remain upon the growing range too long. If the birds are healthy and all other conditions are correct, there is no reason why they should not be removed to the laying houses just as soon as they reach maturity.

Flocks hatched in March or earlier are ready for the permanent quarters after midsummer. If we leave them on the range too long, they will start laying, and the result is that a later removal to the laying house will stop production or slow it up. One of the surest ways to bring on a premature molt is the removal of pullets, already laying, to new quarters.

We naturally expect pullets, which start production in the summer, to have a late molt, but it is a serious matter when this molt comes on two months before we ought to expect it. I believe we should hatch the pullets at a time that will bring them to maturity at just the time we want them to start laying, says a writer in the Indiana Farmers' Guide. At any rate, the mature birds should not be left on the range after they are ready to start laying. Leghorns, and other egg breeds, should be ready for housing at five months of age, while the large breeds need another month to reach maturity.

It is a good plan to start feeding the egg mash at about the time the birds reach maturity. We should not feed too heavily of egg-making mash until they are mature. It is a mistake to force early production at the expense of size. Immature pullets lay small eggs and that is not a desirable condition.

Clean up the houses and be ready for the pullets just as early as you begin to find eggs about the range. House them at this time and you will find it will make a good deal of difference in the production of the flock during the fall and winter.

### Supply Needed Minerals to Aid Egg Production

It has been estimated that the shell of an average egg is 8 per cent of the egg, and that a hen with a yearly production of 190 eggs requires 1.6 pounds of minerals to cover her egg production, besides what she needs in the line of mineral matter for the upkeep of her own body. It is the lack of this mineral matter that causes a hen to start the egg-eating, or the feather-picking habits. Both of these vices are due to a large extent, to a deficiency in the ration of some element that the fowls are craving.

Keeping oyster shell before the hens continually helps to supply minerals to a considerable extent. Fresh bones run through a bone grinder supply much needed elements. In some towns bones may be obtained from the local butcher shops.

In Ohio a good formula for supplying the mineral matter to the hens' ration has been worked out. This consists of 60 per cent finely ground bone meal, 20 per cent finely ground limestone and 20 per cent salt. This is thoroughly mixed, and 4 per cent is added to the mash in place of meat scraps. If less than 10 per cent of meat scraps is used both the mineral ration and the meat scraps may be included in the mash.

### Poultry Items

Sweet or sour milk seems to give equally good results in chick feeding.

Colds and roup are preventable diseases. If we remove the causes the diseases will not occur.

Watch for the pullets that lay early, and mark them. They make the high producers—the ones to get next spring's hatching eggs from.

A chicken may now be hatched by electricity, raised and grown with an electric brooder and electric light, and finally cooked for your table by the same energy.

The vitality and vigor of the stock must be conserved. If one breeds from weak and diseased stock there will be constant trouble with colds and roup.

Leghorn pullets should not begin to lay until they are from five to six months old. General purpose breeds take about a month longer.

Carbolium, cresote, or crude carbolic acid make the best spray material to use in poultry houses to keep down red mites.

Although it may seem that the birds are foraging an adequate food supply during the summer, their ration is often incomplete, and is very frequent-short in protein. Feeds rich in this material are not always grown on the farm, and is a direct result of the deficiency.

Geese are the best grazers of all poultry. A large part of their diet after the first four weeks is composed of green feed. For this reason they cannot be raised successfully unless feed of this kind is furnished.

### This Little Girl Got Well Quick

"Just after her third birthday, my little daughter, Connie, had a serious attack of intestinal flu," says Mrs. H. W. Turnage, 217 Cadwalder St., San Antonio, Texas. "It left her very weak and pale. Her bowels wouldn't get right, she had no appetite and nothing agreed with her."

"Our physician told us to give her some California Fig Syrup. It made her pick up right away, and now she is as robust and happy as any child in our neighborhood. I give California Fig Syrup full credit for her wonderful condition. It is a great thing for children."

Children like the rich, fruity taste of California Fig Syrup, and you can give it to them as often as they need it, because it is purely vegetable. For over 50 years leading physicians have recommended it, and its overwhelming sales record of over four million bottles a year shows it gives satisfaction. Nothing compares with it as a gentle but certain laxative, and it goes further than this. It regulates the stomach and bowels and gives tone and strength to those organs so they continue to act normally, of their own accord.

There are many imitations of California Fig Syrup, so look for the name "California" on the carton to be sure you get the genuine.

**Past Turned to Account**  
A new profession has sprung up in France to meet popular demand, that of "rent agent for prehistoric deposits." These are agencies which have obtained options on fields suspected of hiding rich archeological deposits or prehistoric cemeteries and allow them to be worked at a fixed rental.

**Changed His Mind**  
"Why didn't you shoot at that tiger?" "I decided I didn't really need such a ferocious rug."—Chicago Tribune.

Every department of housekeeping needs Red Cross Ball Blue. Equally good for kitchen towels, table linen, sheets and pillowcases, etc.—Adv.

What if the world isn't reformed while you live? The human race has a million years ahead of it yet.

### Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia! When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescription product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

FLORESTON SHAMPOO—Ideal for use in connection with Parker's Hair Balsam. Makes the hair soft and fluffy. 50 cents by mail or at drug-gist. Hiram's Chemical Works, Patagonia, N. Y.

### WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly.

Do not let a day go by without a bowel movement. Do not sit and hope, but go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

### BAD LEGS

Have You Varicose or Swollen Veins and Bunches Near Ankle or Knee?

To stop the misery, pain or soreness, help reduce the dangerous swollen veins and strengthen the legs, use Moore's Emerald Oil. This clean, powerful, penetrating yet so fee antiseptic healing oil is obtainable at all first-class drug stores.

In hundreds of cases Moore's Emerald Oil has given blessed relief. Splendid for Ulcers, Old Sores, Broken Veins and Troublesome Cases of Eczema.

### MOORE'S EMERALD OIL

### The Carpers

Teacher—What are people called who are always trying to point out other people's defects?

Willie — Teachers. — Karikaturen (Oslo.)

A hollow flint picked up by a boy at Chute forest in Wiltshire, England, contained a handful of gold coins 2,000 years old.

### CAN'T PRAISE IT ENOUGH

Lydia E. Pinkham's Vegetable Compound Helped Her So Much

Kingston, Mo.—"I have not taken anything but Lydia E. Pinkham's Vegetable Compound for 18 months and I cannot praise it enough. I weighed about 100 pounds and was not able to do any kind of work. My housework was done by my mother and my out-of-doors work was not done. I have taken four bottles of the Vegetable Compound and now I am well and strong and feel fine. I got my sister-in-law to take it after her last baby came and she is stronger now. I cannot praise it enough."—Mrs. HATTIE V. EASTIN, R. 1, Kingston, Missouri.

## Notice of Election

Whereas, The City Council of the City of Sudan, Texas, deems it advisable to issue bonds of the said city for the purposes hereinafter mentioned:

Therefore, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SUDAN, Texas, that an election be held on the 14th day of November, 1928, at which election the following proposition shall be submitted:

"Shall the City Council of the City of Sudan, Texas, be authorized to issue the bonds of the City of Sudan in the sum of Forty-seven Thousand (\$47,000) Dollars, for the purpose of constructing a water-works system for said city. Said bonds to mature serially at such times as may be fixed by the City Council, not to exceed forty years from their date, and to bear interest at the rate of 5 1-2 per centum per annum, payable semi-annually, and to levy a tax sufficient to redeem them at maturity, as authorized by Chapters 1 to 7, Title 22, Revised Statutes of 1925, and the Constitution and Laws of the State of Texas.

The said election shall be held at the City Hall, in the City of Sudan, Texas, and the following named persons are hereby appointed managers of said election, to-wit:

I. G. MORROW, Presiding Judge.  
J. O. COVINGTON, Assistant Judge.  
J. M. SHUTTLESWORTH, Clerk.  
JNO. A. DRYDEN, Clerk.

The said election shall be held under the provisions of Chapters 1 to 7, Title 22, Revised Statutes of 1925, and the Constitution and Laws of the State of Texas, and only qualified voters who are property taxpayers of said city shall be allowed to vote.

All voters who favor the proposition to issue bonds for the construction of a water-works system for said city shall have written or printed upon their ballots the words:

"For the Issuance of Water-Works System Bonds."

All opposed shall have written or printed upon their ballots the words:

"Against the Issuance of

## Water-works System Bonds"

The manner of holding said election shall be governed by the Laws of the State of Texas regulating General Elections.

A copy of this order, signed by the Mayor of the City of Sudan, Texas, and attested by the City Secretary of said city, shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause said Notice of Election to be posted at the City Hall and at one public place in each of the voting places in the City of Sudan, Texas, for at least thirty days prior to the date of said election.

The Mayor is further authorized and directed to have said Notices of Election published in some newspaper of general circulation published in Lamb County, and having a general circulation in said city, and which notice shall be published once each week for four consecutive weeks, the date of the first publication being not less than thirty full days prior to the date of the election.

J. C. BARRON, Mayor.  
Attest: W. W. CARPENTER,  
11-4t Sudan, Texas. City Sec'y.

## We Wish To Serve The Public As A Newspaper

The Record has made it plain on numerous occasions that this paper is not a political organ nor a mouthpiece for any individual or concern. We are conducting a newspaper for the whole people of this section and it matters not what they may think of politics or religion we are not going to ridicule or belittle anyone. It is not within the province of a newspaper to undertake to say how our readers should vote or worship God. There are doubtless clerks

working in stores and banks that will vote differently in any political campaign and who go to different churches. Does the store or bank come out strongly condemning those of an opposite faith or following? No, they do not. Well, this newspaper is a business institution that wishes to serve the people as such. We do not propose to drag the columns of this paper down into the mire of political discussion. We do not propose to engage in a mudslinging campaign that could not possibly do anyone any good.

To show our readers how the majority of the newspapers over the country feel about such things we quote from the Albany News in which Dick McCarty, its veteran editor, said "Met a fellow this week, and he said to us, Dick, why don't you get up and

tear your shirt in this campaign? Seems to us you are kinder quiet in this fight—Why, yes, get up and shell the woods and pile it on the opposition, and if you don't the folks are going to boycott the News—Boycott us eh? He has already boycotted us, don't even take the News—and yet he wants us to make a sloop-pail out of our paper in a hot political campaign—Not a political rag, we thank you, but a business institution."—Colorado Record.

Mr. and Mrs. Elmer Shaffer of Brownfield, spent Sunday with the A. W. Ormand family.

Mr. and Mrs. W. H. Finley, and children of Fairfax are here visiting Mr. and Mrs. J. B. Finley and family.

Born to Mr. and Mrs. E. L. Davis, 2 miles southwest of town a boy on October 21st.

Guess the amount of money in the window at the Sudan Drug.

## Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers—washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at H. G. Ramby Drug Store
