Where a City
Belongs"

The Sudan News

Sudan's Slogan:
"Boost or Move"

VOLUME IV.

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, APRIL 11, 1929.

NUMBER 42

SUDAN BOYS WIN HONORS AT TEXAS TECH.

Lamb County 4-H Club Boys Win at Plainview

Donald Robertson of Sudan high school, competing against 58 boys from schools of the entire Great Plains, was high point man in the judging of dairy cattle in the contests conducted by Texas Technological College at Lubbock, Monday, April 9, thus winning a scholarship at the college.

The Sudan team, composed of Donald Robertson, Coleman Terrell and Noel Lumpkins won second place in the entire division through Donald's winning first in judging Holsteins and third in judging Jerseys, and Coleman's placing third in judging Holsteins. McLean took the cup by 21 points more than Sudan's 1246.

In plant production, Doyle Terrell ranks as high point man above all other contestants, and the Sudan team took third place.

Orville Nance ranked second in the judging of exhibition poultry and fourth in the judging of eggs. Sudan's poultry team won fifth place in all four divisions of the contest.

The livestock team won fifth place in judging hogs.

Results of the farm shop contest had not been officially announced when Sudan contestants returned home.

The five teams were accompanied to Lubbock by their coach, R. J. Newton, instructor of Vocational Agriculture, and Clyde Robertson, president of the School Board. The boys and their teacher were highly commended by Ray C. Mowery, who conducted the contests, for having entered and placed in so many of the contests, thus showing careful training in all branches of the work they are studying. Nine of the 22 schools which entered received not a single mention.

The dairy judging team from Sudan, accompanied by Ross J. Newton, their teacher, went to the Panhandle-Plains Dairy Show at Plainview, Tuesday, April 2, and won second place in the judging of Holsteins. Coleman Terrell won a cash prize of \$2.50 as second high-point man in the Holstein division. The team, whose members were Donald Robertson, Coleman Terrell and Noel Lumpkins, won sixth place among the 19 teams contesting in the three divisions, Holstein, Guernsey and Jersey.

Federal Board Warns Banks to Cut Loans

WASHINGTON.—The federal reserve board has warned member banks that unless they voluntarily comply with its request for cooperation in restraining use of federal reserve credit in speculation the board might adopt other methods in order to release credit for use of trade.

Protection of the country's gold reserves, the board said, was one of its most important functions but that these reserves also "need protection primarily against the wasteful absorption into the base of an unduly expanded domestic credit structure rather than against demands from abroad."

The board recalled that in its statement of February 7 it said use of credit for speculative purposes was increasing money rates at a time of year when they usually were easy.

"In case the desired readjustment not brought about by voluntary cooperation the federal reserve system may adopt other methods of influencing the situation," the announcement warned.

McDiarmid Scouts New Deity Idea

"I have no quarrel to make with the thesis of Dr. Harry Elmer Barnes of Smith College, Northampton, Mass., that 'we need a new conception of God or the Ten Commandments replaced' if he can give us something better that will help mankind."

That was the statement of Prof. E. W. McDiarmid, head of the department of philosophy and psychology at Texas Christian University, in an address before the Churchman's Club of the First Presbyterian church of Fort Worth.

"There is no doubt but that our speech is inadequate to express our thoughts about God and that God is much greater than we are able to conceive him, even in our thoughts," McDiarmid declared. "However, I am sure that Dr. Barnes has not read the old prophets very closely if at all, or he could not intelligently say that men of today need a higher conception of God than they had and even expressed."

BAPTIST CHURCH SERVICES

We are dismissing all services of our church because of the Methodist meeting, except the 11 o'clock service on the Third Sunday in April, which is the 21st day. All members of our congregation are urged to be present. A deciding hour of both church and pastor, J. M. HARDER, Pastor.

Aerion, of the Fair Store, was going to business matters in to this last week-end.

Huge Crowd Cheers Winners at Plainview

PLAINVIEW.—With crowds cheering and applauding prize winners Thursday at the Panhandle-Plains Dairy Show, and with a dairy-minded delegation and band from Shamrock parading the decorated Plainview streets, one of eight that have staged similar demonstrations, officials developed this outstanding feature: There are 300,000 "manufactories" in the 54 counties of the organization that are improving its product and increasing in number. For her majesty, the dairy cow, is regarded and handled as a factory, whose output is rapidly solving the diversification problem and putting heavy deposits in the bank.

Where 10 years ago there was hardly any dairying in the 54 counties region, in 1924 the movement began to make headway and in the last five years the number increased nearly 100 per cent, until now the Panhandle-Plains area is recognized over the United States as one of the big leaders in dairy products.

From the wild long horned steers that once roamed the prairies to the mild but hard working Jerseys is a far cry, but one of the many instances of development of West Texas.

Dairying here is what oil production is to other parts of West Texas, and it is an industry in which the entire population is enthusiastic, as evidenced by no less than 30,000 visitors during the last three days.

While no exact statistics as to the value of the dairy products are available, many of the show officials Thursday agreed that they are bringing in \$15,000,000 annually, likely more, for the average dairy animal will give its owner at least \$100 a year profit in butter fat. While herds consist chiefly of Jerseys, Thursday's judging was also of Holsteins and Guernseys in all divisions.

As a result of the show, which closes here Friday after a four-day run, D. F. Eaton of Lubbock, president of the association, predicted that the policy of the organization to induce every farmer and rancher to raise and improve dairy cattle will meet with surprising success.

Wisconsin Wets Vote To Repeal Dry Laws

MILWAUKEE.—Anti-prohibitionists scored a victory in the referendum election when an overwhelming sentiment in favor of repealing the severest state prohibition enforcement act was registered.

Returns from 1,494 of the state's 2,751 precincts, representing every section of the state, showed 212,261 in favor of repealing the enforcement act and 106,399 opposed to repeal. On the other question of removing the home brew penalty the vote in 1,308 precincts was: Yes, 158,250; no, 96,740.

As returns continued to add to the majority in favor of eliminating the prohibition enforcement act from the statute books through legislative action, wets claimed that the margin of victory would exceed 125,000.

This claim was made by State Senator Thomas M. Duncanson, socialist author of the referendum, the result of which he maintained would be regarded as a mandate to the legislature at its present session, to carry out the expression of the voters.

Producers Set Low Level in West Texas

SAN ANGELO.—While eight fallures were being marked up and two locations abandoned, West Texas last week listed only five completed producing oil wells in three counties, rating a total of 6,923 barrels. This was a new low level for the year. The week before there were 11 completions in the five counties for 23,359 barrels.

Two wells were completed in Pecos county for 6,602 barrels, three in Winkler county for 242 barrels and one in Howard county for 79 barrels. Irion and Jones counties each abandoned two tests and Crockett, Glasscock, Menard and Winkler counties one each. Winkler and Crockett counties each abandoned a location.

Huge Strawberry Crop Is Expected

CHICAGO.—Millions of quarts of strawberries are now in sight. A report from the government bureau of Agricultural Economics says the six early producing states were expected to total 71,427,000 quarts this season, compared with 62,645,000 quarts a year ago.

A bumper crop of 20,000,000 quarts was produced in Louisiana, and the Texas yield was increased to about 5,000,000 quarts.

April Session to Be Under Moody Plan

AUSTIN.—Clearing the underbrush of bills out of the \$265,000 regular session, opens the road to the important legislative business of the year.

All the principal measures of this administration are yet to be acted upon. The legislature will return to Austin April 22 to a session far more directly under the control of the governor than was the "trial session" which lasted 35 days and which its members admitted had accomplished little. Of the administration program proper, not a single measure was enacted.

Here are some of the things the special session will take up:

1. Higher gasoline tax, promising the most picturesque strategic battle of the year.
2. Reduction of motor license fees, a powerful "trading" factor in dealing with revenue measures.
3. Prison concentration, after a bitterly futile effort to pass it at the past session.
4. Public utilities control.
5. Abolishing the industrial accident board.
6. Enacting some type of civil service measure.
7. Tax survey report and legislation revising the taxation system.
8. All general appropriation bills.

Joint Meeting on Boundary Line

AUSTIN.—The joint senate and house committee of 16 appointed by the legislature to visit the area affected by the Oklahoma-Texas boundary dispute, will meet in Quanah Wednesday, it was announced.

The committee will be joined by a similar group from the Oklahoma legislature for an inspection of more than 40,000 acres of land to be placed in Texas and taken from Oklahoma subsequent to the fixing of the 100th meridian as the dividing line between the two states, as recommended by the boundary commission appointed by the United States supreme court.

Oklahoma is anxious to retain the land and may purchase it from Texas.

Mrs. Sabin Quit Post To Fight Dry Law

NEW YORK.—Mrs. Charles H. Sabin, whose resignation from the republican national committee a few weeks ago caused wide comment since it was generally known that she was not in harmony with the party's present leadership on the subject of prohibition, announced Wednesday that she had resigned in order that she might work for a change in the dry law.

Federal prohibition, she said at a luncheon given in her honor at the Women's National Republican Club, "has led to more violation of and contempt for law, both by private individuals and public officials than anything else in our national life."

"I feel it has created the greatest organized criminal class that ever existed in this or any other country," she added.

Had to Find Some Charge to Pin On

EVANSTON, Ill.—Now that an Evanstonian is no longer Vice President of the United States, the police are doing what they can to keep the old home town on page one.

Wednesday night they came upon what, in its day, would have been called a 12-passenger touring car. In it were 15 high school boys, and by "in it" is meant in, on, about and clinging to. Rattling along behind onto a rope attached to the heroic vehicle, were five girls on roller skates.

The 17 were arrested. It was a bit difficult for the police to determine what charge should be made, but they finally decided to bring the young people into court for violating the ordinance against "hitching rides on bob-sleds."

Wandering Hippo Damages Golf Course

CAPTOWN.—The people of Durban were alarmed by the appearance of a hippopotamus which had been previously seen by motorists in the vicinity, the first encounter being a week ago near the swamps in the lower reaches of the Umgeni river close to the northern border. At first it was treated as a joke and named Hubert the Hippo, but now it is taken seriously because it wandered at midnight on the grounds of a country club, almost wrecking the golf course, and later it was seen from the tram lines on West Street, Durban's principal thoroughfare.

Mex. Planes Be Shot Down if Cross Border

EL PASO, April 7.—Orders to attack any Mexican plane flying over United States territory were issued today to commanders of 18 American army planes which later left here to patrol the international border in the vicinity of Naco, Ariz.

Brig. Gen. Frank S. Cocheu, in charge of American border forces at Naco, where Mexican rebels and federalists yesterday fought a bloody battle, telegraphed the instructions to the flight commanders, it was learned.

Mexican federalists at Naco, Sonora, Mexico, were advised of the instructions and were told that the inability of American airmen to distinguish between federalists and rebels, in the air, resulted in the ultimatum.

General Lucas Gonzales, in command of federalists at Naco, Sonora, was advised to keep his ships on the ground lest they be caught accidentally on this side of the border and shot down.

The United States planes, 12, from the Third Attack group at Galveston, Texas, and six from Fort Dood, San Antonio, arrived here at Fort Hachuca, Ariz., near Naco, this afternoon, heavily armed and ready for action.

This country's air base will be established at the fort for the protection of American lives and property at Naco, Ariz.

Help by Tariff Also Advised at Hearing

WASHINGTON.—A strong federal farm board with power to solve the diverse problems which confront agriculture was recommended to the senate agriculture committee by Secretary Hyde as the pressing need in bringing about improved conditions for agriculture.

Emphasizing that he was speaking for himself alone, the secretary asserted that it would appear to be "the clear mandate" of the people for congress to pass such a bill as was introduced last Fall by Senator McNary of Oregon and that while other legislation affecting tariffs and waterways would be needed, it was necessary to set up immediately a board with power to regulate surpluses for crops through stabilization agencies.

Ranges Good and Cattlemen Rejoice

FORT WORTH.—Cattle, having stood the winter well, are grazing on fine grass in most parts of West Texas, the ranges are good and prospects for the cattlemen are exceptionally bright, according to reports received by the Texas and Southwestern Cattle Raisers Association with headquarters in Fort Worth. Inspectors for the organization in the latest series of reports tell of growing grass, general rains and improved ranges.

Along with good weather conditions for the winter, high prices prevail for cattle with the demand rapidly gaining, with a number of ranches holding their animals for breeding purposes in order to increase the herds.

Although severe weather was reported in February in some sections, the most of the winter was not hard on the cattle.

"Range conditions are very good," says a report from Charles Burwell, Jr., of Kingsville.

One to two inches of rain fell recently in the Laredo section and livestock is "doing fine," states W. T. Hill in his review as an inspector for the cattle raisers association.

Other reports follow:

A. T. Jeffries, Clarendon: Grass growing fast; cattle wintered fine.

Lem Chester, Lubbock: Range good, two to three inches of warm, general rains.

G. O. Stover, Houston: Range good, Dod Good, Lovington, N. M.; Range fine; one and one-half inches of rain.

R. F. Kellon, Pecos: Range fine; one-half inch of rain. Cattle putting on weight rapidly.

J. B. Hogan, Midland: Range good; one to two inches of rain.

Lee Bell, El Paso: Range good; light rains.

John E. Rigby, Beeville: Range in good condition.

Moody Vetoes the Sunday Movie Bill

AUSTIN.—Governor Moody vetoed the Dunlap Sunday movie picture show bill and the measure which proposed to create a Court of Civil Appeals at Greenville. The picture show bill would have repealed a portion of the Sunday blue laws, which have been on the statute books for many years, to allow showing of theatres on Sunday after 1 p. m. Most cities now are disregarding the law, proponents of the repeal stated.

For a Texas Children's Hospital

DALLAS.—John W. Carpenter, president of the Texas Power and Light company, has just accepted the leadership in the appeal for \$1,500,000 throughout this section of Texas to build and endow the Texas Children's Hospital, the first complete child hospitalization in Texas.

J. Edgar Pew, vice president of the Sun Oil Company, is chairman of the executive committee of the hospital, and P. R. Freeman, Texas philanthropist, is president of the board of directors. Mrs. C. H. Huvelle, leader in child welfare work in Texas, is chairman of the women's division in the activity.

The hospital will be a 100-bed non-sectarian institution which will serve sick children throughout the state. The building will cost \$600,000. One million dollars will also be sought to provide endowment, this amount never to be spent but its interest income used to finance free service for the sick children of the poor in Texas. The fund appeal will be carried to the people of this section of Texas within a few weeks.

Civic leaders in 25 Texas cities are already members of the board of sponsors of the hospital and others from other cities and towns are joining constantly.

24 Counties Share In Road Program

AUSTIN.—Twenty-four counties will share in about \$3,500,000 worth of highway work, contracts for which will be awarded by the State Highway Commission on April 23 and 24. New construction will aggregate 316 miles.

Construction has been advertised for the following counties:

- Archer, highways 79 and 30; Hale, highway 9; Poard, highway 25; Cherokee, highway 37; Freestone, highway 32; Ward, highway 82; Jones, highways 92, 30 and 4; Dimmitt, highways 55 and 85; Harris, highway 6; Aransas, highway 57; Cottle, highways 4 and 28; Bell, Highway 2; Panola, highway 8; Montgomery, highway 19; Dallas, highway 15; Hall, highway 5; Galveston, highway 8; Uvalde, highway 55; Childress, highway 4; Hardin and Jasper, Highway 8; Lavaca, highway 109; Falls, highway 14, and Gillespie, highway 9.

Broad Powers to U. S. Board Are Favored

WASHINGTON.—Farm legislation has been defined by the Hoover Administration as embracing broad discretionary powers to federal agencies to deal with each commodity as may be dictated by experience.

Although President Hoover has not expressed his views, the national capital is convinced that the testimony of the new Secretary of Agriculture, Arthur M. Hyde, reflects absolutely the viewpoint of the Administration.

What Hoover wants is a federal farm board "clothed with broad and general authority" and an appropriation of approximately \$300,000,000 to be used as a revolving fund. This is in a sense a revival of the principles successfully applied by the War Finance Corporation under Eugene Meyer and later in the President's cotton committee.

Desolate Lake is Scene of Murder

VICTORIA, TEXAS.—Another murder mystery, the fourth in recent years, revolved around a desolate lake near Rains, ten miles west of Victoria.

In the same thicket where three other bodies have been discovered, the unidentified body of a well-dressed woman, her face and head beaten, was found today.

T. N. Reeves, Jr., 15, discovered it and notified his brother-in-law, Lee Williams, who got in touch with officers.

At a coroner's inquest, a verdict of murder was returned.

LADIES OF THE CHURCH OF CHRIST BIBLE STUDY

The ladies met with Mrs. C. A. Daniel Tuesday for their study. There were eight present and we had a very interesting lesson led by Mrs. John Briscoe.

We insist that more try to be out at these meetings, for we are sure that you will enjoy them after once getting started.

We are sorry that we failed to get a report in last week's paper.

The class will meet with Mrs. J. B. Foster next Tuesday, and all are urged to come.

Reporter.

Some people's brain children seem pretty well spoiled.—Jackson News.

The Lamb County 4-H Club stock judging team was right on the spot at Panhandle-Plains Dairy Show in Plainview last week. This team has been doing some fine work under the competent coaching of County Agent D. A. Adam, and the results of their work were shown at the show.

The personnel of this team is composed of Forrest Weimhold, Edwin Holland and Leslie Habgood, with Albert Green, alternate.

At the Dairy Show Edwin Holland won highest individual of all breeds, drawing down a prize of \$25.00 cash and a \$125 calf. He also won 2nd high on Jerseys.

The team won 1st in Guernseys, 4th in Jerseys, 1st and 4th high individuals in Guernseys.

Weldon Shaffer, a 4-H Club boy of Sudan, purchased a fine 3-year-old Jersey heifer at the Plainview show.

High Students See "Ancient Mariner"

An unusual opportunity such as is only offered to students of much larger schools, was given to sixty-five students of Sudan High School last Thursday when they were permitted to see the film version of one of the most famous poems in the English language, "The Ancient Mariner," by Coleridge. Every pupil in high school studies the poem twice during his course and seeing it on the screen is a great help.

All of the students who attended were those who lived in the country and would not have been privileged to see the picture had not arrangements been made for their benefit. Mr. Chesher, of the Garden Theatre, arranged the presentation so that only two classes were missed by anyone, and many who went declared that the time was more profitably spent than in the school room. The picture was rented by Mr. Chesher at the suggestion of E. E. Talbot, principal of the high school.

Luncheon Club in Regular Meeting

Friday evening April 5, the Sudan Luncheon Club held its regular meeting in the dining room of the Palace Cafe. More than 30 members were present.

C. R. Hooton led in some good songs. A new member, Ed Aerion, was present and pledged his support to the civic development of the town.

The most prominent visitor present was Mr. Whaley of Greenville, president of the Whaley Lumber, Grain and Feed Company.

After a round table discussion of our streets, led by E. E. Roosen and Mayor Clyde Barron, the club adjourned to meet again April 13. At that date something is expected in order to develop milk runs among our adjacent farms.

The Methodist Revival

Crowds continue to grow at the Methodist revival now being conducted by Rev. Lewis N. Stuckey of Amarillo, one of the leading preachers of Methodism. Sudan is enjoying two weeks of unusual opportunity in the rare privilege of the kind of preaching Brother Stuckey is giving us.

The first sermon of Brother Stuckey resulted in the conversion of a fine young man and his wife, just moving into Sudan.

We understand Brother Harder has called in his second Sunday service in order that members of the Baptist church may join in the revival campaign. We deeply appreciate this fine spirit of cooperation, and pray God's blessing upon this pastor and his people.

Our services will continue twice daily, 10:00 a. m. and 8:00 p. m. We urge that you join with us in a sweeping campaign for the salvation of souls.

C. R. HOOTON, Pastor.

DIXIE REVUE POSTPONED.

Owing to the Methodist revival now in progress, the presentation of the second Lamb County Band Attraction has been postponed until Monday, April 22.

The entertainment will be given at Amherst on Friday, April 12, and at Littlefield Wednesday, April 17.

Director Lam reports that his company of singers and musicians is in good shape, and promises the people of Sudan some real, side-splitting entertainment at the high school auditorium on Monday, April 22.

"BOOST OR MOVE."

MEDIATION'S COURSE

(Fort Worth Star Telegram.)

The machinery set up by the Railroad Labor Act for obviating transportation tie-ups due to strikes has functioned satisfactorily thus far in the case of the Big Four Brotherhoods and the Texas and Pacific. The procedure under the law is somewhat automatic in its nature. When it becomes apparent that negotiations between employes and a railroad have reached a deadlock and that a strike is to be resorted to by the employes, the President appoints a special emergency mediation board. This board goes into the case thoroughly and makes recommendations for settlement of the dispute. These recommendations, returned to the President, are made the basis of the decision which the executive promulgates. The presumption is that the settlement will be an equitable one and that both sides to the dispute will accept it. There is, of course, no power under the law to compel either side to accept if it does not wish to do so. The Texas and Pacific case is moving along according to this schedule. Mr. Hoover was a bit late with his part, his announcement of his decision to appoint an emergency arbitration board coming only a few hours before the time set for the beginning of the strike, which had been voted by the Big Four brotherhoods. But the readiness with which the employes accepted the President's intervention enabled it to be immediately effective, and this same spirit augurs well for the final result.

The board appointed by Mr. Hoover is composed of men of high type, amply fitted to act as a mediation board. Three of its members have served in similar capacity before. There seems every assurance that the interests of the three parties to every rail labor dispute—the roads, the employes and the public—will receive each its due consideration.

In the meantime, matters remain in suspended status. The board has 30 days in which to hold its hearings and complete its recommendations. Then the President has 30 days in which to promulgate the decision. It is likely that Mr. Hoover will not require so much time, and that the state of uncertainty which holds with respect to this railroad, will be ended within a month.

"ONE MORE HURDLE TO CLIMB."

(Shamrock Texan.)

In announcing the Clint Small land bill would be given an early court test of its legality the attorney general's department says, "We regard it as just one more hurdle to climb." What a human attitude of a question whether landowners be permitted to keep property they bought. What a sympathetic spirit to manifest,—one more hurdle to climb and we'll show those poor saps whose brains are biggest. To hell with common sense and fairness, the law says those dry creek beds are navigable. Just one more hurdle to climb and we'll prove it. What a laudable attitude.

"We don't believe in throwing up our hands and quitting," says the attorney general's department. "We aren't going to do that now. We are going ahead, until we meet up with the decision of a court on this question." No, don't throw up your hands and quit. Make the West Texas farmers throw theirs up. Make them quit. In the name of the law take their hard earned property. Our sovereign state must protect its waterways. Leap high, Mr. Attorney General, clear that hurdle and make Texas safe for honest, hard working people.

YOUR PASTOR.

Give a thought to your local pastor. He is a busy, hard working man. During 1928 President Coolidge wrote 22 public speeches and messages to congress. These required much hard work and concentrated thought. The industry of the President was commented on everywhere. True, the feat was remarkable and the work it necessitated was heavy indeed. But give a thought to your minister. During each year he prepares around 100 sermons, in addition to other public talks and addresses. Each time the congregation expects something new and worthwhile and true of him.

This comparison in no way detracts from the importance of the messages delivered by Mr. Coolidge. We only make the comparison to picture to you vividly the big task that is required of every preacher, obscure or famous, of every denomination.

THE PIE HABIT.

Washington gossip has it that President Hoover is always insistent upon his piece of pie on the menu for his luncheon. In this respect he will strike a responsive chord in the bosom of the politicians of his own or any other party.

The old time barber never dreamed of the day when he could say "next" and a half dozen flappers would step up for a shingle.

Poison "likker" has never yet hurt any one who did not drink it.

Passing of great war leaders is a reminder that most of the beardless boys they led are now too old to fight.

If a special session of congress can accomplish all the work laid out for it, it may enable a regular session to enjoy almost a vacation.

Spring gardening time is here, and the old man of the house with his handsomely illustrated catalogues has growing pains.

IMPORTANT FACTS REGARDING THE BUILDING OF A NEW COURT HOUSE IN LAMB COUNTY

AUDITORS REPORT SHOWS INCREASE OF ONLY 10 CENTS PER \$100 VALUATION WILL BE REQUIRED

AS COUNTY VALUATION INCREASES THE TAX RATE DECREASES

\$1.77 per Labor of Land (one cent per acre) Added to Regular Taxes Paid (a Sum Less Than the Cost of One Automobile Trip to the County Seat) Will Build \$150,000 Court House in Littlefield.

The following is a statement prepared by A. B. Short & Company, public accountants and auditors, based on the facts of record as obtained from local documents and officials of Lamb County, Texas, and are certified to by the company as being true and correct. They are herewith published as a matter of general information to the citizens and qualified voters of Lamb County.

April 6, 1929.

Mr. A. C. Chesher, Campaign Manager, Lamb County County Seat Movement, Littlefield, Texas.

Dear Sir:

Pursuant to engagement we have set up cost schedules which show what the cost to Lamb County will amount to if the proposed bond issue of \$150,000.00, for the erection of a new Court House and Jail is voted upon and carried.

Briefly stated, our calculations are based upon the following facts: The taxable valuation of Lamb County property for the year 1928 amounts to the sum of \$7,642,407.00. The Commissioners' Court of Lamb County has set for taxable purposes, the valuations of \$8.00 and \$10.00 per acre for land in the county. The present tax rate of Lamb County is \$1.59 per \$100.00 valuation.

Our calculations based upon the above mentioned facts, will be to show what the new tax rate will have to be in order to provide for the payment of bond interest and retirement of bonds of the proposed \$150,000.00 bond issue for the erection of a new Court House and Jail for Lamb County.

If the proposed bond issue of \$150,000.00 is voted upon and carried the bonds are to be retired serially over a period of forty years; The bonds will carry a 5 per cent interest rate. In order to retire the bonds within forty years it will be necessary to retire \$3,750.00 of bonds every year. The interest, at 5 per cent on the bonds for the first year, will amount to the sum of \$7,500.00. The interest decreases every year in the amount of \$187.50.

The first year the cost to Lamb County will be as follows: Bond interest \$7,500; bonds retired, \$3,750.00, making a total cost to the county of \$11,250.00; the cost to the county the second year will be \$11,062.50, the third year will cost the county the sum of \$10,875.00, etc., the cost being reduced \$187.50 every year until the total issue is retired.

The total interest cost to the County on the bond issue of \$150,000.00 will amount to the sum of \$133,750.00, adding the total bond interest, mentioned above, to the bonds we arrive at a total of \$302,750.00. The last figure mentioned above will be the cost to Lamb County of building a Court House and Jail costing \$150,000.00.

In order to provide for the bond issue of \$150,000.00 it will be necessary to increase the tax rate ten cents over the old rate of one dollar fifty-nine cents, making the new rate one dollar sixty-nine cents. Our calculations are as follows: As stated above the total cost to Lamb County will be, bond interest \$133,750.00, plus bonds of \$150,000.00, making a total of \$302,750.00. As the last mentioned amount is to be spread over a period of forty years, the average yearly cost will be the sum of \$7,568.75. The last mentioned figure is the average yearly cost over a period of forty years, but as stated in paragraph five the cost the first year will be \$11,250.00, the second year, \$11,062.50, the third year, \$10,875.00, etc. The cost being reduced \$187.50 every year.

For purposes of establishing a new tax rate we

are forced to take the average yearly cost of \$7,568.75, mentioned in the preceding paragraph.

The taxable valuation for 1928 is the sum of \$7,642,407.00 and the rate is \$1.59 on the \$100.00 valuation. The taxable valuation multiplied by the rate of \$1.59 per \$100.00 valuation will produce a revenue of \$121,514.27. In order to take care of the proposed bond issue and interest thereon it will be necessary to have revenue in excess of what it is at the present time. The revenue will have to be increased in the amount of \$7,568.75. By adding to the present revenue of \$121,514.27, the amount which it will have to be increased we find the total revenue should be \$129,083.02 if the bonds and bond interest are to be taken care of.

In order to find the new tax rate it will be necessary to divide the required revenue, mentioned above (\$129,083.02) by the taxable valuation (\$7,642,407.00), the result being the new rate of \$1.69. It is plainly seen that the new rate has been increased just ten cents on the \$100.00 valuation.

As to what effect this increased rate has upon the tax payer we will take the following example: suppose the tax payer owns one labor of land and it is valued, for tax purposes, at \$100.00 per acre, his valuation will be \$1,770.00. By applying the old rate of \$1.59 on the \$100.00 valuation his tax will amount to the sum of \$28.14. Using the same valuation and applying the new rate of \$1.69 his tax will amount to the sum of \$29.91. His taxes have been increased only \$1.77. The taxes have been increased 6.29 per cent.

Based on the above mentioned \$100.00 valuation per acre the new rate going into effect will increase the tax just one cent per acre.

We are of the opinion that the above information we have supplied you is what you desire and trust that our method of presenting it meets with your approval.

We hereby certify that the facts, as ascertained by us, are based upon figures taken from the Lamb County records and it is our opinion that they are true and correct.

Respectfully submitted,

A. B. SHORT & COMPANY.

By A. B. SHORT.

COMMENT: In arriving at the total cost of a new court house, it must also be understood that the tax rate will not remain the same throughout the entire period of the bonds; but as the county valuation increases and bonds are paid off, thus reducing the amount necessary to be set aside for interest and sinking fund, the rate will be gradually lowered. It has been estimated that, over the entire period of 40 years the bonds run, the average tax rate per labor of land will not exceed 75 cents per 177 acres, although the average is \$1.77 per labor. The valuation of Lamb County, during the past five years, has increased at the rate of over \$300,000.00 per annum. Taking this sum as a basis of calculation, it can be readily computed how the tax rate will be decreased by increased valuation during the coming years that the serial bonds are in force.

Also, there will be a saving of several thousand dollars in furniture from the old court house which can be used in the new one as well; the amount realized from the sale of the old court house will also count in the reduction of tax rate.

The "Expert Witness" Nuisance

One of the expert witnesses in a murder case, a Missouri alienist, has been suspended, we read, by the State Medical Society. This action, thinks the San Francisco Chronicle, "gives reason to hope that the medical profession itself is about to do something toward abating the 'expert witness' nuisance. It goes on:

"The employment of highly paid physicians to befuddle courts and juries at so much per day is nothing less than a scandal in American administration of justice.

"The theory of the law is that witnesses are summoned to tell the whole truth with a view to getting at the vital facts and doing substantial justice. It shocks the public to feel that there are so-called 'experts' who are exempt from this rule, and are expected to give only such testimony as will help the side that is paying them a high fee.

"This sort of 'expert testimony' has brought a degree of contempt both on the administration of justice and on the profession of the 'experts.' It has developed a class of alienists openly on sale to whoever can pay their charges.

"The medical profession, in the main an outstanding example of high-minded devotion to exacting ideals, has frequently indicated its discomfort under the blot which the 'expert witnesses' cast on the public esteem to which the profession is in the main entitled. Now if the medical societies disown those members who auction their services in defense of criminals, the 'experts' will lose much of their value in court and nearly all of their professional standing.

"California's new insanity law has done much to mitigate the evils of the expert witness by requiring that the question of a criminal mental capacity shall be tried apart from the facts of the crime itself.

Hail Insurance on Growing Crops
Farm Loans
Agents for The Southwestern Life Insurance Company

BARRON & PAYNE
Sudan, Texas

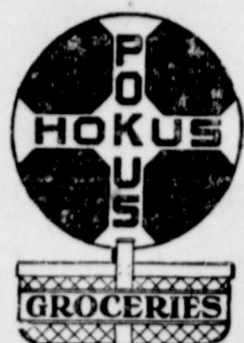

"Massachusetts has gone even farther by providing that the question of insanity shall be determined by an impartial commission appointed by the state.

"But whatever steps are taken by the law do not excuse the medical profession for responsibility for its own members. If the Missouri action on the Hickman witness means that

there is to be a housecleaning in the matter of 'experts' will redound to the prestige of the medical profession and to the improvement of criminal justice in America."

Preparedness will prevent war, they say. You've noticed how peaceful gangs are since they got machine guns.—Buffalo News.

WEIMHOLDS' COMMERCIAL HATCHERY

TOWN AND COUNTY

Mrs. J. R. Dean and F. C. Broyles, and Mesdames Lester LaGrange and Wheatley of Amherst were delegates from Sudan and Amherst to attend the District P-T. A. meeting, held at Floydada. This is the first meeting since the district was divided, this being the 14th district.

Mr. and Mrs. J. O. Barnett and children, Alice Jean and J. O., Jr., spent Sunday in Muleshoe.

Mr. and Mrs. Porter Earnest spent Sunday in Clovis, N. Mex., visiting their children, Mr. and Mrs. James Courtney. Mr. and Mrs. Courtney are both employed in Everybody's Store there.

Mr. and Mrs. J. W. Wills of Littlefield were in Sudan Monday visiting their daughter, Miss Myrtle Wills, who is manager of the Fair Store at this place.

Porter Earnest, Jr., spent the week-end in Memphis with friends.

Mrs. T. L. Blakely of Rule is here this week visiting her son, Howard Cline, who is confined to his room with measles.

Mr. R. L. Rone happened to a painful injury the first of the week. He ran a large splinter into one of his fingers making it necessary to split the finger in two places to remove it.

W. H. Horn, who underwent an operation Friday at the Lubbock Sanitarium for the removal of several inches of his intestines which were diseased, is said to be getting along nicely.

Mr. and Mrs. A. E. Ketchum left Tuesday for Farwell where Mr. Ketchum has purchased a cafe. Mr. Ketchum has been in the restaurant business here for the past four or five years. He is an accomplished restaurant man and has a most pleasing personality that no doubt will make many friends in his new location. Sudan regrets to lose "Dad," but most heartily commends him to the people of Farwell.

Mr. and Mrs. L. E. Slate were in Amarillo Tuesday attending the hardware convention held at that place.

Misses Sue and Lulabel Wilson spent the week-end with their sister, Mrs. Humphrey, and family at Clovis, N. Mex.

Mr. and Mrs. J. P. Robertson and little son, Junior, spent this last week-end in Brownfield and Plains, where Mr. Robertson was attending to business matters.

The ball game between Sudan and Muleshoe on the Muleshoe diamond, Sunday afternoon, resulted in a score of 16 to 9 in favor of Sudan.

Mr. and Mrs. J. O. Covington returned the latter part of last week from Canyon, where they were called to the bedside of Mr. Covington's sister who was critically ill. She is reported to be somewhat improved at this time.

Miss Ida Ruth Carruth and Leon Gill, and Mr. and Mrs. Albert Findley spent Sunday in Portales, N. M.

Mrs. J. V. Bond, who teaches at Farwell, spent the week-end with her daughter, Miss Dorinda Bond.

Miss Gladys Tranthum of Abilene spent the week-end with her sister, Mrs. Clyde W. Robertson.

Mrs. G. G. Herring and son of Dawson, who have been visiting Mr. Herring, one of our teachers, returned to their home the latter part of last week.

ORDER FOR COUNTY SEAT ELECTION.

State of Texas,
County of Lamb.

WHEREAS, on the 28th day of March, A. D. 1929, a petition was presented to me, as County Judge of Lamb County, Texas, by W. H. Harris, and 621 others, stating that it is desirable to remove the County Seat of Lamb County, Texas, from Olton, Texas, to Littlefield, Texas, of which number more than two hundred are legal and qualified voters and free holders of Lamb County, Texas, residing in said county, praying that an election be held in Lamb County, Texas, at the various voting precincts of said county, for the purpose of submitting to a vote of the people of Lamb County, Texas, the question of whether or not the County Seat of Lamb County, Texas, shall be removed from Olton, Texas, to Littlefield, Texas; and

It appearing that said petition bears the requisite number of qualified voters and free holders who are residents of said county; and is in every respect in conformity to law;

THEREFORE, I, Simon D. Hay, in my capacity as County Judge of Lamb County, Texas, do hereby grant said petition, and do hereby order that an election be held in the various voting precincts of Lamb County, Texas, on

Saturday, the 11th Day of May, A. D. 1929

for the purpose of determining whether or not the County Seat of Lamb County, Texas, shall be removed from Olton, Texas, to Littlefield, Texas.

The said election shall be held in Voting Precinct No. 1 at the Court House of Lamb County, Texas; and B. A. Dodson and Mrs. C. M. Owens are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 2, the said election shall be held at the Spring Lake School House; and J. P. Kelly and Jack Henson are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 3 the said election shall be held at the residence of H. L. Woods; and Archie Brown and H. L. Woody are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 4 the said election shall be held at the City Hall in the City of Littlefield, Texas; and R. E. McCaskill and C. L. Harless are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 5 the said election shall be held at the High School Building of Sudan Independent School District; and C. C. Prentiss and J. J. Blanchard are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 6 the said election shall be held at the Pleasant Valley School House; and Fred Determan and R. L. Robineck are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 7 the said election shall be held at the City

SOME NEW BEATITUDES

"Blessed are the merchants who advertise because they believe in it and in their business; for their prosperity shall increase many fold," sagely remarks an exchange, and adds:

"Blessed is the woman who sends in written account of a party or wedding; for she shall see the details of a function and the names of her guests correctly reported."

"Blessed are all those who do not expect the editor to know everything, but who call up and tell him whenever an interesting event occurs for them; for they shall have a newsy paper in their town."

"Blessed are they who get their copy in early; for they shall occupy a warm place in the editor's heart."

"Blessed are those who cooperate with the editor in his efforts in behalf of the community; for their town shall be known far and wide as a good place in which to live."

LEFT-HANDED COMPLIMENT.

It transpires that Mr. George Gershwin, take it from the advertisement, is never bored from a—book. If some night club wants to offer us a price to indorse it in that fashion, we are willing to say that we never are bored by this or that Night Club. As a corollary we never have been bored by a week-end at the North Pole.—F. P. A. in the New York World.

Foxworth-Galbraith Lumber Co

Our Neighbors

Amherst

(Amherst Argus.)

Next Saturday is the date the voters of Amherst Independent School District will go to the polls and elect four trustees for the next term, to fill the vacancy of the retiring four members.

The Cadmean Chautauqua will open their engagement at the high school auditorium Friday night of this week, in one of the best arranged programs that ever came to the city.

Mr. and Mrs. Charles L. Langston arrived in the city this week where Mr. Langston will conduct a subscription campaign for the Argus for the next seven weeks.

The voters of Amherst turned out very lightly at the polls Tuesday, but regardless of the light vote they elected a mayor and two commissioners for the next two years.

Mrs. E. L. Neve of the Education Association, from Lubbock, has been here the past week on business.

Mr. and Mrs. C. A. Duffy returned this week from Lubbock sanitarium where they have been the past ten days with their children who were under treatment. The children are improving nicely.

Mr. and Mrs. Harris Brantly and son have been at the bedside of their daughter who has been seriously ill at Vernon.

Last Friday morning at the regular time the Yellow Jackets enjoyed a short Easter program. Readings were given by Mary Neal Collins, Exa Allen and Alice Jennings. The story of the Resurrection of Jesus was read from the Bible by R. C. Shelton.

On Friday night, April 19, the faculty of Amherst public school will present "And Home Came Ted" at the school building. This is a Denison Royalty play, a comedy in 3 acts.

Levelland

(Hockley County Herald.)

The Texas Utilities company, owner of the Levelland electric system together with about fifty other towns in this part of Texas and eastern New Mexico, voluntarily and on its own motion reduced the city pumping rate here not less than 25 per cent.

G. C. Perry has recently completed the choloastic census of the Levelland independent school district and on making a tabulation finds that there are 837 children between the ages of 7 and 18 years.

The Levelland high school cast won first honors in a dramatic tournament held in Lubbock Saturday, competing against the high schools of Plainview, Ploydada, Lubbock, Slaton, Littlefield, Amherst, Fairview, Meadow, Ropesville, Southland and Close City.

Two new faces will be seen on the city commission for the coming two years as a result of Tuesday's election. Sam Combs was elected mayor and C. A. Luck and J. A. Stroud selected as the two remaining members of the commission.

At a recent meeting of the school board of the Levelland school district Prof. L. T. Green, superintendent for the past school year, was employed for another year.

C. E. Jones, proprietor of the Jones Dry Goods chain of stores operating in ten towns in West Texas, was here Tuesday and purchased a lot on the east side of the Square and announced that he would put up a modern brick building as soon as a tenant could be obtained.

The revival meeting which began at the Methodist church Sunday is drawing large crowds and much interest has been shown. The preaching is being done by the pastor, Rev. J. W. Shepherd, who is delivering strong sermons on timely topics. The music also is good.

J. D. Singer, for several months district manager of the State telephone company with headquarters in Levelland, was transferred to the Crosbyton district and he and family left for that point last week.

Conservation not Served, Letter Says

DENVER.—The conclusions of the conference between the governors of Wyoming, Utah and Colorado held here over week-end, on the government's oil conservancy policy are embodied in a letter to President Hoover, signed by the three state executives, released to the press Tuesday night.

The governors "respectfully but in great earnestness urge upon" President Hoover that "wholehearted cooperation between the several states and the United States" on the matter of public lands policies is to be desired and suggest that changes in these policies should not be made without conference and consultation.

"In approaching the problem of conservation of the oil resources of the nation we have carefully reviewed the facts and come to the definite conclusion that the new policies as applied to public lands under order No. 338 of the Secretary of the Interior will have little or no effect upon the problem of conservation or overproduction, but will have a disastrous effect upon the development and progress of the oil producing land states," the letter asserts.

The governors reached the conclusion that there is "no overproduction of oil in the Rocky Mountain states;" that there is "no waste of oil in the

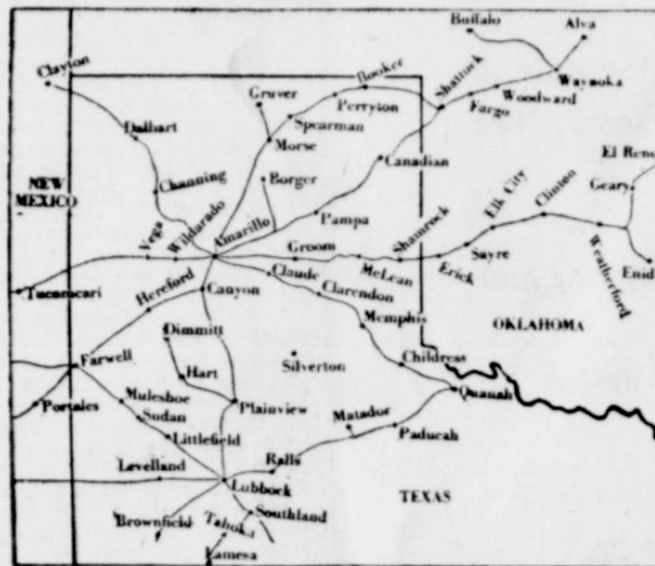

An Airplane Oil For Tractor Use

West Texas (Near Vega) From a Phillips Airplane

A Group of Satisfied Users of Phillips Products

This map shows where Phillips Stations are located

IMAGINE driving your automobile 100 miles an hour for 16 hours without stopping. That's what an airplane engine must do. Only the finest oil can be used or the motor will go to pieces quickly.

The Phillips Petroleum Company uses Phillips tractor oil in their own airplanes which are used by Mr. A. M. Hughes and other company officials. These men have the same confidence in this oil that they want you to have. It's exactly the same oil that is ready for your car or tractor at any Phillips station. It warms up quickly, and fully lubricates in both hot and cold weather.

The picture at the top shows E. H. Simpson, H. D. Hill, O. D. Frazier, Geo. J. Rempel and their boys all seated on their farm machinery. These men all live in the neighborhood of Vega and Hereford, Texas. All of them use Phillips products.

This spring E. H. Simpson broke 220 acres of land with a gang plow. All of this land was worked over 3 times and 80 acres 4 times, ready for the drill. His total fuel and lubricating cost was 30c an acre. He used Phillips kerosene and oil. Many other west Texas farmers report great savings and complete satisfaction in using Phillips products. Write or talk to the Phillips agent when you need oil, kerosene or gasoline. They are quality products.

AVERY FARM IMPLEMENTS

The symbol of better farm implements

The Avery trade-mark is universally recognized as the symbol of America's finest implements.

Over 100 years have passed since Benjamin Franklin Avery hammered out his first plow and in this past century his motto, "To build well—to deal square" has been the watchword of all who have succeeded him.

When you see the Avery trade-mark on a farm implement you are assured of more than its genuineness—you are given positive promise of unfailing service and lasting satisfaction.

Contributions From Freshman Class of High School

With completion of the fifth term of school, examinations, beginning of the last term of the home stretch, news gathering becomes a complex matter for the Freshmen this week.

Last Tuesday Mr. Newton took a dairy husbandry team to Plainview for an invitation contest in that event with teams of the different schools of the Plains and Panhandle country. This team won sixth place in the total meet, second in Holstein cattle, and Coleman Terrell was second individual in Holstein judging.

Monday of this week, Mr. Newton took five teams for the judging contests at Texas Technological College. Here we won honorable mention fifteen times, more than any other contesting team. Our school, as represented by Donald Robertson, was high point man of the entire meet. There were only two members of our class in these teams, Walter Wayne Wilkins and Frank Sturges, but we are promising that when we enter the Sophomore class next year, we shall be represented on most teams that go out from the school. We are not making any report of these two contests as Mr. Newton has presented a special report of the meets.

Last Saturday a number of the boys visited the Cunyus Dairy Farm near Littlefield and then went on to Lubbock for additional judging there. Sunday the Animal Husbandry team made a tour of Dimmitt, Littlefield and Amherst, studying different types of animals there. All report a busy time.

Our visitors' list slowly but surely increases in length. The 500th visitor was in the school last week and mentioned made in our write-up of it last week. However, we sent our contribution down too late to get it into the paper. Mrs. W. W. Carpenter is the 500th visitor. Her husband is W. W. Carpenter, usually referred to as the Father of the Sudan School System. Mrs. Carpenter is mother of our noted twins, Elmer and Elsie. Asked what her aims in life are, she will probably say, "Preparing Elmer's and Elsie's meals, keeping them straight in the world and watching after Judge Carpenter to see that he gets into no children's affairs." Really, we Freshmen are glad that Mrs. Carpenter happened to be the 500th visitor to the school. The visits made since that time have run us far toward the 600th mark. We do not expect to reach the 700th this year, but next year we expect to go far beyond it.

Just as we are continually breaking records in school visitations, so do we go on breaking them in other things. Last week we broke our own records for school bus loads, carrying in one day 369 pupils. We have also enrolled additional pupils until now we stand at 748 enrollment. Our attendance has grown with fair weather and continued healthful conditions until now there have been additional seats put into four rooms, with calls for more in five others. There is no real room in these rooms for seats, but pupils must be seated, so we crowd them in.

On Thursday evening of this week, Mr. Talbot, Martin Shuttlesworth, Neal Wilkins and Elsie Carpenter will present at the theatre part of a program for the baseball boys. Mr. Chesher is giving half of the proceeds that night to the boys in return for this help. Our folks are playing that night, "That Rascal Pat." One other pupil than the ones named above is "That Rascal Pat," but you must attend to really see the Irishman in action.

At a date early in May, a cast of high school and grade school teachers will present one of the best plays on any circuit in the South as a benefit for the band boys. This play is "The Patsy" and while it has no Irish character, it is amusing and yet teaches a wonderful lesson. Miss Bond is getting ready for her final senior class play, "A College Town," to be presented soon. These, with a Dixie Revue by the band, cover the list of spring entertainments for the school.

Last week lovers of good singing had a rare treat in the Stamps Quintet. The performers in this group were two sets of Owen twins and Mr. Ellis. Their repertoire consists of hymns, songs, instrumental music and comedy skits that will appeal to any kind of an audience. They have promised to return to Sudan some future date.

W. H. Horn, father of our classmate, Lonnie Horn, is critically ill in a sanitarium in Lubbock at this writing. We are trusting that he will be able to return home at a very early date.

The first grade reports Margaret Ruth Shafer returned to school after an absence of seven weeks. The room were all glad to have her among them again.

The arrival of an airplane on the school grounds last Friday afternoon created a great deal of commotion. Messrs. Talbot and Herren dismissed the entire school several minutes early in order that all might get to watch its evolutions. This was a treat to many, especially among the younger children.

Contributed by the Freshmen.

Glycerin Mixture Stops Constipation

The simple mixture of glycerin, buckthorn bark, saline, etc. (Adlerika) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleaning and see how good you feel. —H. G. Ramby, Druggist.

A man suing for divorce out West charges that his wife kissed him when she wanted money. What an affectionate woman! — Greenville Piedmont.

SUDAN DRUG STORE

Scatter Your Risk

It has been taught, and many believed,

Much human want could be relieved

If all the farmers only knew

How to raise two blades where but one grew.

But it seems the farmer plays bad bets,

The more he raises the less he gets;

For the word goes out there is a big crop.

Then the market begins to drop and drop.

The First National Bank would like to impress:

By diversification your risk is less.

News of Texas Told in Brief

FORT WORTH.—Daily air passenger service between Fort Worth, St. Louis and a group of intermediate cities was inaugurated Wednesday morning by Southwest Air Fast Express, the million-dollar aviation concern recently organized by E. P. Halliburton of Duncan, Okla.

ABILENE.—Abilene will have shortly, as a result of action taken by the voters of the city in the municipal election here Tuesday, one of the best equipped airports in the Southwest. The field will be municipally owned.

DIMMITT.—The Castro County Interscholastic Meet and School Fair, held in Dimmitt Friday and Saturday, was probably the best in the history of this county's schools. The booths were the prettiest ever and the exhibits were exceptionally fine.

FORT WORTH.—One of the best loads of slaughter yearlings to sell on the Fort Worth market for some time was included in Monday's receipts. They sold at a top of \$13.75 and averaged around 750 pounds. They were good quality and well finished.

STAMFORD.—The annual meeting of the Central East Texas Poultry association convened in Stamford on the 40th inst. The meeting is held in the municipal auditorium and is attended by some 250 poultry breeders.

SCHULENBURG.—More than 15,000 people, more than three-fourths of them from surrounding communities, Wednesday afternoon took part in the celebration which marked the breaking of ground here for the plant of the Carnation Milk Company, the first branch of this large concern to become a part of the industrial life of Texas.

BRADY.—According to a survey made among breeders by the Brady Chamber of Commerce, Brady's famous "Turkey Trot turkeys" have been sold to practically every state in the union. Until recently the northern states have been prejudiced against the holiday birds of Texas, but this survey shows that this is not the case now.

Can't Talk to Wife, Too Cross and Nervous

"Even my husband couldn't talk to me, I was so cross and nervous. Vinol has made me a different and happy woman."—Mrs. N. McCall. Vinol is a compound of iron, phosphates, cod liver peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired, people are surprised how QUICK the iron, phosphates, etc., give new life and pep. Vinol tastes delicious.—H. G. Ramby, Druggist.
