

"Building a City
Where a City
Belongs"

The Sudan News

Sudan's Slogan:
"Boost or Move"

VOLUME IV.

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, MAY 2, 1929.

NUMBER 45

A Vote For Amherst Is a Vote FOR OLTON

In canvassing the returns from the coming County Seat election, the canvassing committee should discard every ballot cast for Amherst. The election call plainly specifies that the vote shall be a choice between Olton and Littlefield and no voter should permit himself or herself to be duped into casting a useless vote. Read carefully the election call as printed on another page of this issue of The Sudan News.

Chicken Thieves Busy In Lockney County

Asking cooperation in an effort to cope with what he terms "almost an epidemic" of poultry thefts in Floyd county, Sheriff P. G. Stegall this week gave warning to poultry owners that poultry thieves are operating over a large number of counties in this vicinity and are not overlooking Floyd county farms in their dirty work.

Owners of stations where poultry is bought from the public can be of great help to his department in curbing the poultry thieves, Sheriff Stegall thinks, and he makes the further suggestion that owners of flocks of poultry should be on the alert. "It is not only in Floyd county that these thieves are operating," he said, "but in practically every county, if not all of them in this territory." Modern transportation methods make it possible for a thief to rob a Hall county farm of its chickens in the night and, for instance, have them on a Floyd county market the next morning.

A number of farmers are members of the Anti-Poultry Theft association and have their flocks insured. This, however, is not as general over the county as it is desired.—Lockney Beacon.

Railroad Building In the Panhandle

Approximately \$7,000,000 will be expended by the Rock Island Railroad in the construction of new lines in Texas, work on which will start as soon as authority is received from the Interstate Commerce Commission, according to an announcement from President James E. Gorman's office in Chicago.

One new line of railway will be built south from Shamrock, through Wellington and Quanah, there connecting with the Frisco construction between Vernon and Seymour. It is planned through this route to secure a short line for the movement of business from the Texas plains territory to Fort Worth and beyond. The Shamrock-Quanah line will cost around \$5,000,000.

Another new line will be built from Dalhart to Pringle, Texas, a distance of 60 miles. This line will open up a most fertile territory in the Texas plains country, as well as serve a productive oil territory. This line will be constructed at an expense of approximately \$1,700,000.

In this issue of The Sudan News we shall endeavor to lay the facts of the situation, as regards the proposed removal of the county seat, plainly before the voters of Lamb county. The News has confidence in the judgment of our people. It believes that the average voter, when he or she sees and knows the situation as it exists, will use sane judgment in casting a vote.

As the News views the situation, there is one question of prime importance before the voters: Shall we or shall we not move the county seat? If this question is answered in the affirmative, then there remains but one more question to decide—the location.

The Sudan News has gone to some pains to obtain facts which it wishes in this article to lay before the people of Lamb county in plain words—and figures.

According to the best information obtainable (the tax records) there are in the county, qualified to vote in the coming election, just 3525 persons. This number embraces every voting precinct in the county. We'll take the county by precincts:

Olton	701
Spring Lake	192
North Littlefield	234
Littlefield	1072
South Sudan	268
Y. L.	22
North Sudan	153
Amherst	517
Fleldton	151
Sod House	65
South Olton	29
Bainer	100
North Pep	21
Total	3525

Now take your pencil and do just a little calculating. Suppose for the sake of argument (but which is clearly absurd) that Amherst were to poll every vote at every precinct save the four precincts of Olton, South Olton, Littlefield and North Littlefield. What would be her total? We make the total 1489. The total vote of the county is 3525; subtract from this figure 1489, which for the sake of argument we would concede to Amherst, and this still leaves that city 547 votes short of the required majority. Does she hope to take these 548 votes from Olton and Littlefield? There is nowhere else to get them.

Bear in mind that it was only for the sake of argument that we conceded Amherst all but those four precincts. Not that we for one moment have had the slightest thought that she could carry them. The News has the judgment of reliable citizens that a large part of Sudan's vote will be cast for Littlefield. Doubtless other precincts will do the same.

BUT—Now pay careful attention, please. Adding together Olton's total vote and Amherst's total vote, we have a total as opposed to Littlefield of 1247. This taken from the total of the county—3525—would leave 2278. As 2350 would be required for a two-thirds vote for Littlefield, it does not, as we have stated, require a Solomon to understand that all under the heavens Amherst can hope for is to defeat Littlefield. Do the voters of Lamb county approve these tactics? We don't believe they do. Rather, we believe that when the straight thinking citizens of Lamb county go to the polls on the 11th inst., they will register their disapproval in no uncertain terms.

The News firmly believes there are many fair minded citizens of the Amherst precinct who will not be willing to countenance such a move. Littlefield was first in the field with her petition. This was accepted, and the election ordered before there was any move made by the Amherst committee. Are the citizens of the Amherst precinct willing to lose the chance of bringing the county seat to the railroad, by playing into the hands of a group who seek only to herd them to the polls like sheep to the slaughter? We do not think so.

We vote we have made the situation clear to all. Remember that A VOTE FOR AMHERST IS A VOTE FOR OLTON. If you want the county seat on the railroad, go to the polls and vote for Littlefield.

Fire in Feed Yard Causes Heavy Loss

Fire which broke out in the feed yards of Mr. George Rector, Sunday evening resulted in the destruction of a 1925 Chevrolet Coupe, the property of J. C. Harper of the Sudan Bakery, together with a large quantity of corn and other feeds.

The fire is understood to have caught from the exhaust of Harper's car, as he undertook to turn the vehicle among the pumice which littered the yard. The car is said to have become stalled in the deep refuse, and in seeking to move it, backfire from the engine ignited the inflammable material, quickly enveloping the car and feed piles adjacent.

The estimated loss of feed has not been ascertained, but will no doubt be considerable, as the fire spread rapidly and burned for several days before being extinguished.

A prominent doctor told an audience in Boston the other day that laughter not only is exercise, but aids digestion. That's why so few Washington correspondents have stomach trouble.—Jackson News.

Sheriff's Force Round Up Law Violators

Sheriff Len Irvin and Deputy Walraven have been walking the booze barrels, in fact all equipment for a complete beer joint. Stevenson was placed under \$1,000 bond to the grand jury which convenes August 5.

On Saturday morning of last week these officers arrested Valentine Zuber at his home in Littlefield. At this place was found 10 gallons of beer, cappers, bottles and all equipment for the business, together with some booze that so far has not been analyzed. Mr. Zuber was placed under \$500 bond to the grand jury.

On Monday morning the same officers gathered in M. Harris in Room No. 7 of the Littlefield tourist park. Here were found 8 half-gallons of red corn whiskey. Mr. Harris also is under \$1,000 bond to explain to the grand jury.

Sam Hawkins, 15 miles southeast of Littlefield, had the misfortune to attract the attention of these officers and was promptly gathered in along with a large quantity of beer. Here also were found all the equipment for a flourishing beer garden, and every evidence of a complete distillery excepting the still, which had been successfully removed.

It would seem that our officers are not always asleep or looking the other way when the boys get busy with the dizzy stuff. We are still of the same opinion, namely, that if given the proper cooperation by the law loving public they will accomplish satisfactory results.

Will Arbitrate the I'm Alone Incident

WASHINGTON, April 27.—The United States and Canada have agreed to arbitrate the dispute over the sinking of the Canadian runner I'm Alone by the American coast guard.

This decision was disclosed by diplomatic correspondence on the I'm Alone case, made public by Secretary Stimson.

The case will be submitted to two arbitrators, one selected by each government, under the liquor smuggling treaty between the United States and Great Britain. They will decide whether Canada is entitled to redress.

Highest Wind of the Season on the Plains

Wednesday of this week witnessed the highest wind of the Spring season throughout this section.

Tuesday was warm and pleasant, just a delightful breeze stirring, and people had begun to felicitate themselves that good weather had opened up. But about 4 o'clock Wednesday morning the wind began to blow from the west and gradually increased in volume up to 12 o'clock, at which time and throughout the afternoon the blow was little short of tornado proportions.

At the splendid new building of the Hilliard Service Station, the new concrete block walls of which had just been erected, almost the entire rear wall was pushed in by the wind and demolished.

Doubtless much damage has resulted from the high wind throughout the surrounding territory, but as The News goes to press on Wednesday evening reports have not yet come in.

House Passes New Farm Relief Bill

WASHINGTON, April 25.—The new farm relief bill was passed today by the house.

The vote was 367 to 34.

The clerk had passed but little beyond the half way mark in calling the roll when the 215 votes necessary to give a majority vote of the house had been recorded in favor of passage.

The measure was approved virtually in the form reported by the

At present the hatchery is full to capacity, and prospects are that there will be no slackening of output for at least a month to come, if not longer.

The breeds favored by the Weimhold Hatchery are White and Barred Rocks, R. I. Reds, White and Brown Leghorns, White Wyandottes, Jersey Black Giants, Cornish Games, Black Orpingtons, Buff Orpingtons and Black Minorcas.

Several thousand turkey eggs also have been set, and the young poults begin hatching this week.

There is no country on earth better adapted to the growing of high class poultry than right here in Lamb county, and farmers all over the territory are fast coming to a knowledge of the great profits in this branch of agriculture. In the near future this is going to count largely in the growth and prosperity of this section of Texas.

Increased Tariff on Wool, Mohair, Seen

WASHINGTON, April 27.—An increase of not less than three cents a pound in the tariff on wool and mohair, as well as an increase in the duties on substitutes for these two commodities was predicted by Representative C. E. Hudspeth following a conference today with other members of congress interested in these items.

The West Texas congressman declared he based this prediction upon what "I deem to be absolutely authentic sources of information."

In the matrimonial market, we presume that a girl who marries an aviator may be said to be taking a flyer.—American Lumberman.

Mexican Revolution Collapses and Commanders Surrender on Assurances of Safety by Federals

NOGALES, Sonora, April 30.—This former rebel city was completely federalized late this afternoon when General Lucas Gonzales, Mexican general commander at Naco, arrived and assumed control. All public offices now are under federal control.

The relinquishing of revolutionary control followed the surrender at Nogales, Arizona, a few hours earlier of rebel commanders whose terms were accepted by the federal government at Mexico City.

NOGALES, Sonora, April 30.—With dramatic flourish Mexico's latest revolution virtually passed out of the formal military stage here today.

Sudden and unexpected proposals of surrender by the few revolutionary leaders who had not fled from this city to the United States for safety were accepted by the Mexican government with assurances of safety, food, clothing and shelter as requested.

The parade of rebel chieftains to safer soil was followed today by an aerial attack on the city by federal planes, which, although apparently doing little damage, evidently hastened the decision to surrender. The feeling of uneasiness was enhanced when 500 Yaqui Indian troops at the rebel garrison bolted. It was asserted they had left to join the forces of General Gonzalo Escobar, commander-in-chief of revolutionary armies, who is supposed to be at Pulpita Pass personally commanding the only remaining body of rebel troops of importance in the republic.

The offer of the rebels to surrender was made at a hastily summoned conference of the insurgent leaders with Rafael Avelayda, Mexican consul in Nogales, Arizona. The conference was attended by Brigadier General Frank S. Cocheu of the United States Army. The proposal asked that the lives of rebel soldiers and commanders in Nogales be spared. The request was referred by wire to President Portes Gil in Mexico City who promptly replied accepting the

Sudan Team Best in State in Dairy Judging Contest at A. & M. Boys Bring Home the Cup

Twenty-five eager and enthusiastic young agriculturists of Sudan returned last week from College Station where they had attended the twelfth annual judging contest, April 22, in which 1750 vocational agriculture students from the best schools in the state participated. The welcome extended the boys who brought back the most coveted prize of the contest, the dairy-judging cup, for which 109 teams competed, showed that Sudan is really interested in progressive farming and the improvement of agriculture.

The preparation for the contests gave the students of agriculture a real object to work for in their classes. Every student had the opportunity of working for a team in dairy judging, in livestock judging, in plant production, in farm shop, and in the study of insects. Not only did they have to work on their regular text books, but they read and studied extensively in other sources. Besides learning a great deal of agriculture, they had the prospect of improving themselves by the opportunity to mix with other people, to meet boys from the whole state, to hear noted experts speak, to visit one of the South's largest schools.

To the boys who were chosen to represent Sudan High School, the sum paid out by the school board for their transportation seemed small, indeed in comparison with the knowledge and inspiration they gained on the trip. At A. & M. they saw 2,500 young men working and studying in buildings on a campus which cost the state of Texas more than \$6,000,000—a real college. They saw the best of stock, modern farm equipment and methods, and unusual agricultural experiments. They were shown the advantage of relying on more than one source of income.

But, aside from this result of the trip, the state contest served to stimulate the boys to harder work, not only in agriculture, but in other subjects, for they had to be making

Lamb County Making Great Strides in Poultry Raising. What the Great Smith Hatchery and Mr. Weimhold Are Accomplishing for Lamb County People

By the time another growing season arrives, the territory surrounding Sudan promises to be well stocked with a superior grade of poultry, and that industry should—and will—take a long stride forward.

On March 6th, the Weimhold Hatchery (a 5,000 Smith machine) made its first setting, and since March 31st has been operating at full capacity. Perhaps some may not understand all that this statement means to this community. For the benefit of such persons, let us state that since March 31 there has been turned out from this hatchery an average of 5,000 baby chicks every three days, which would amount, to date, to something in the neighborhood of 55,000 chicks.

The bulk of these have found a market in the home territory, on the farms of Lamb county; although some fine shipments have been made to Amarillo, Vega, Lubbock, Clovis, Muleshoe, Littlefield, and other points.

A feature of this thriving, growing industry is that the larger portion of the hatching eggs used have been bought—often at almost exorbitant prices—from reliable dealers handling none but the purest and best strains of their particular breeds. This, the poultry raisers of Lamb county have fully appreciated, as is attested by the fact that the entire output is easily disposed of, and the hatches have usually been contracted long before they were off, and continue so.

At present the hatchery is full to capacity, and prospects are that there will be no slackening of output for

Elk Bulls Freed Near Carlsbad

CARLSBAD, N. M., April 25.—Five elk bulls were received by express early this week and were hauled in trucks to McKittrick canyon in the Guadalupe west of Carlsbad to supplement the shipment of about 40 elk which arrived 10 days ago. The elk were released on the property of the Hunter-Graham interests.

Citizens Military Training Camps

Dr. W. H. Ford requests The News to announce that he is supplied with application blanks for young men desiring to take training in the Citizens Military Training Camp, and asks that all such see him at once.

The Texas camp will be held at Fort Sam Houston, from June 14 to July 13, inclusive.

This is splendid training for young men, and all youths of good physical condition and good moral character are encouraged to attend.

Dr. Ford will be pleased to explain in full to all applicants, all particulars of procedure, as well as the benefits accruing from this training. See him at once, as the time for enrollment is drawing near.

LADIES OF CHURCH OF CHRIST BIBLE STUDY

The lesson we had Tuesday afternoon was very interesting. We had twelve members and one visitor, Mrs. C. H. Simmons, present at Mrs. Hutto's.

Our next lesson will be the study of the Egyptian Bondage. Scriptures covered Gen. 42 to Ex. 2.

Our class plans to motor to Plainview next Tuesday to meet with Mrs. B. C. Linn. We are to start early enough to shop awhile, then have a picnic lunch before we have our lesson. We meet at Mrs. J. B. Foster's before leaving, which will be promptly at nine o'clock. Try to be there to go, for we plan to have enough cars for all to go.

Reporter.

MEETING OF W. M. U.

The W. M. U. met Monday, 2:30 p. m., at the home of Mrs. Wells, for our social, with 17 present, including several visitors; and to say everyone enjoyed themselves is putting it mildly. The visitors expressed their desire to come again. After the social we had a business meeting. The ladies gave a donation to the church building and to the parsonage also.

Next Monday we will meet with Mrs. Horn for Bible study. After the lesson, we will start work for our bazaar, so bring some piece of embroidery of various purposes, meet with us at 2:30 p. m. Everyone invited.

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.

"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE."

"DIRT" FARMERS AND OTHERS.

When, some years ago, the agriculture college began turning out graduates in agriculture, there was much argument as to the practical benefit of a "degree" to aid the ambitious farmer in solving the many vexing problems of the farm. Farmers who had spent lifetimes in "bucking nature" on the farm, learning by hard experience to bind her to their will, were contemptuous of the new departure and had small use for the graduates of the agriculture institutions. On the other hand, the "grads" in their new cocksureness were inclined to ridicule the so-called "dirt" farmers as out of date. Both were wrong.

Of late years, however, the two extremes have been gradually drawing closer together. While the man of experience has come to realize that a thorough course in the science of agriculture is conducive to a more rapid advance in his calling, the young man who has merely acquired the theory must (and the intelligent ones have) realized that without practical experience their theories are valueless. We say many have come to realize this fact but on the other hand some have not yet come to this knowledge. Occasionally the spectacle is afforded of some beardless youth, still wet behind the ears, with his little book of instructions, disputing the judgment of mature men who have long ago mastered the problems of which they (the youngsters) have so far nothing but theories. This would be laughable if the results were not frequently serious. It often happens that the important question of success or failure hinges on a single decision, and where practical experience is lacking this decision certainly should not be lightly given.

Take, for instance, diseases of live stock. No doubt the youngster may know the remedy for any particular ailment, but not having the necessary experience, how shall we know that his diagnosis is correct? Animals, like humans, are subject to many ailments the symptoms of which closely resemble one another. It is often the case that only the man of both theory and practical experience can form a true diagnosis. To rely on a snapshot judgment is extremely hazardous.

Would it not be to the betterment of the service if some of our youthful agriculture "experts" were required to serve a few years' apprenticeship, not alone in the theory, but in the actual practice of agriculture? We believe such a requirement would be beneficial.

DO YOU REMEMBER—

When in taking down the stove-pipe at this season of the year there was danger of getting soot all over the what-not and the tidies?

When joy riders used horses and buggies? When appendicitis was plain cramp colic and everybody had their tonsils and adenoids?

When there were no high heeled shoes and rolled stockings?

When there were no dollar watches and no five-and-ten-cent stores?

When the girls used to wear their hair done up with a long red ribbon?

THE HARD WORKING DOLLAR.

Recently, to show how much work a dollar does, a new greenback was put into circulation in another town. Attached to the bill was a note asking each spender to record thereon the transaction in which it played a part. The result showed that in 14 days the dollar changed hands 27 times. Five times each for salary, tobacco and cigarettes; three times for candy; twice each for men's furnishings and shoes; and one each for automobile accessories, bacon, garters and tooth paste.

AT THE SOUTH POLE.

Commander Byrd and his polar associates are enjoying a spring temperature of 47 and 48 degrees below zero. With the zephyrs zooming by at the rate of 80 miles an hour, the country may hardly be said to be ready to welcome the robins. Only one Byrd can stand it.

NO WOMEN JURORS.

For the next two years at least, women who yearn to be jurors in Arizona courts will just have to go on yearning, since the statesmen who make the Wyoming laws have ruled against such an innovation.

THE POPULAR WAR.

General Motors and Henry Ford are reported as having a fight for motor domination in the markets of Germany. This is our idea of the right kind of a German war.

An auto that cannot turn over in the ditch at least three times has no pep.

TRY AND STOP 'ER.

Spring used to arrive with bare feet and flowing robes. Now she speeds past with cheeks aglow and driving a super-eight.

The News sincerely hopes that when its farmer friends are given their much-promised relief they won't quit their farms.

Mr. Hyde has something to do with farm relief, and it is hoped there will be no hide-and-seek game about it.

Who can explain how Lindbergh manages that his personal mail can keep up with him?

Chevrolet Features Sousa in Air Program

John Philip Sousa and his world famous band will be heard over the radio for the first time on Monday evening, May 9th, in an hour broadcast, sponsored by Chevrolet Motor Company to signalize the achievement of placing on the road over a half million new six cylinder cars in four months time.

The radio debut of the famous "March King" will come through the National Broadcasting Company coast-to-coast chain during the regular General Motors "Family Hour," starting at 8:30 p. m.

According to the Hutto Chevrolet Company, local Chevrolet dealers, Chevrolet was particularly fortunate in seeking an attraction to emphasize its latest record to secure the first radio performance of this famous director-composer who has been an American institution for the past two decades.

"Naturally, we Chevrolet dealers are proud that our company has been instrumental in introducing Sousa and his band to the microphone," Mr. Hutto said. "We are equally proud, however, of the occasion marked by Sousa's first broadcast. By putting on the road over 500,000 new Chevrolet sixes since January 1, we have established a record never before duplicated by any dealer organization distributing six cylinder automobiles. In fact, no other dealer organization in the history of six cylinder manufacture has ever equalled this record in the course of a full year."

3 Glasses Water Help Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass.

Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and soothes stomach in TEN minutes! Relieves constipation in two hours.—H. G. Ramby, Druggist.

Fined for Working Waitresses Overtime

AMARILLO.—Charged with violation of the state labor laws, Mr. and Mrs. C. W. Johnson, operators of a boarding house at 1905 Polk street, were fined \$50 and costs in the justice court of Judge J. W. Minter after entering a plea of guilty.

According to the complaint, Mr. and Mrs. Johnson had worked female employees more than the 54 hours a week fixed as the limit by the state law. The complaint was filed by C. H. Huffaker, deputy state labor commissioner.

CURES THAT TIRED FEELING

Members of a tribe in the Kalahari desert are said to bury their sick people alive, and we'll bet that is one place where people don't go around all the time complaining about being sick.—Albany Knickerbocker Press

PRESS LETTER
Compiled by A. & M.
College of Texas

Look Now For Infertile Egg Markets.

COLLEGE STATION, April 29.—It is wise for poultry raisers to begin now to look for markets that will pay a premium for infertile eggs, for with the coming of warm weather next month farm eggs will likely be discriminated against in price because of the wide prevalence of fertile eggs. Producers who follow the good management method of selling off most of the roosters now and penning the remainder will be well repaid, provided they make arrangements to dispose of fresh infertile eggs for extra prices. It is usually possible to do this either individually or through egg circles or associations for the public demands good eggs and is willing to pay extra to get them.

In suggesting such a course of action, E. M. Holmgren, poultry specialist in the Extension Service of the A. & M. College, calls attention to the great increase in recent years of cooperative selling of fresh, infertile eggs in Texas. Last year alone groups of farmers and farm women in more than 100 counties sold eggs for premiums ranging from two cents to seven cents per dozen. In most cases local merchants handled these quality eggs on a small margin or bought them outright for re-sale. "Summer poultry success," says Mr. Holmgren, "depends on keeping up production and getting premiums on infertile eggs. With the coming of warm weather broodiness increases and production falls unless something is done about it. Put the broody hens into coops in order to break up broodiness and maintain high production so necessary to profits."

Demonstrating Successful Crop Growing.

COLLEGE STATION, April 29.—Using the slogan, "You can come out on top if you take the proper steps," county agents throughout East Texas have organized the most comprehensive series of corn and cotton demonstrations yet attempted in that section. More than 150 farmer demonstrators in 30 counties have thus far been lined up by agents to undertake this year to grow at least five acres of these two staple crops by the best approved methods as outlined by E. A. Miller, agronomist in the Extension Service. The object of the work is to show the way 1 more dollars per acre from cotton and corn, and to establish enough of such demonstrations that neighboring farmers may watch the procedure and judge the results for themselves.

There are twelve steps leading to more dollars per acre, as outlined by Mr. Miller, and as D. R. Carpenter, county agent in Gregg county, is telling his farmers: "The lift is no working; take the steps." The steps consist of: 1. Terrace the land if it is subject to washing. 2. Prepare the land well by bedding and re-bedding, or by flat breaking and bedding; 3. Fertilize with manure or commercial fertilizers; 4. Plant at the usual time that cotton is planted in the locality; 5. Plant one bushel of seed per acre, maximum yields cannot be made without a good stand; 7. Plant the seed from one to one and one-half inches deep, depending on condition of soil and moisture; 8. Plant cotton on a bed in East Texas; 9. Chop cotton early when it has from four to six leaves, spacing twelve inches

apart; 10. Cultivate shallow frequently enough to conserve moisture—deep cultivation injures plants and causes shedding; 11. Lay by when cotton laps in the middles; 12. Poison the insects if necessary, especially the leaf worms.

Improved Living Rooms to Be Judged Soon.

COLLEGE STATION, April 28.—Recognition of the home as the center of, and reason for, the farm is increasing rapidly in Texas as judged by the interest among farm women in making beautiful and comfortable living rooms, home demonstration authorities of the Extension Service assert. It is pointed out that 1097 women in 86 counties are this year remodeling their living rooms as demonstrations of what can be accomplished by small expenditures of money, and that for every one of these improvements carefully supervised by county home demonstration agents, there are an average of five others made by neighbors who learn from the demonstrators.

This living room improvement is conducted in the form of county, district and state-wide contests, the final judging for which will be done in May by members of the home demonstration staff of the Extension Service. Preceding the judging, during "Better Homes Week," many home agents are conducting tours to these recently improved homes to enable as many persons as possible to get ideas for use in their own homes. How darkening the floors, lightening the walls, hanging suitable pictures, establishing reading and music centers, making rag rugs and removing the family bric-a-brac tones up a room will be shown to visitors to these occasions, to sketch only a few of the changes this contest is working.

Last year reports of home demonstration agents showed that 3553 women improved their living rooms, 468 beautified bedrooms, 1496 changed their diningrooms about for greater convenience and beauty, and that 1747 remodeled other rooms in the house. Indications point to even greater progress in this line the present year as the demonstrations of past years continue to exert their silent influence on larger and larger numbers of people.

Capital Policeman Kills Rum-Runner

WASHINGTON, April 24.—A policeman here today shot a fleeing rum-runner through the head, a mile from the capitol, and protests were voiced immediately by two senators that the police were too handy with their guns.

Policeman C. O. Rouse killed Otter Herman Fleming, 21, through a smoke screen ejected by the exhaust of Fleming's automobile, which carried sixteen cases of liquor. Rouse said he aimed at the tires, and one of his bullets went too high. Senator Blaine, Republican, Wisconsin, said the policeman's action was "extremely reprehensible," and suggested that the slayer should be sent to the electric chair. "He had no moral right to take his life," he said.

Senator Blaise, Democrat, South Carolina, condemned the shooting. "The more stringent they make the laws, the more lawlessness there is," he said.

What's Doing in West Texas

WELLINGTON.—The Wellington postoffice moved to their new building Saturday after closing hours, and by midnight Saturday the equipment and fixtures were practically all replaced.

PLAINVIEW.—Pampa was chosen as the next convention city for the Panhandle Association of L. O. O. F. in the business session at the twenty-sixth annual session here.

TEXARKANA.—Texas may cede Arkansas a small portion of a city block as a solution of the Texarkana federal building problems, under plans being discussed by citizens of both states and by federal authorities at Washington.

AUSTIN.—Gov. Dan Moody's administration leaders will ask a four-cent state gasoline sales tax, and will offer a one-third reduction in the license fees of passenger cars, it was revealed early in the new session.

SLATON.—Work began here Monday on Slaton's new \$125,000 hospital building which, including furnishings and equipment, will cost approximately \$200,000 when completed.

LUBBOCK.—In an attempt to save her chickens from a threatening hail and wind storm, Mrs. M. E. Ryther, 42, of Crosbyton, was seriously injured when wind blew the chicken house down, crushing her.

TULLA.—The Magnolia Petroleum company wholesale station was a complete loss by fire Thursday afternoon with an estimated damage of \$20,000.

PORT WORTH.—Entering the First National Bank of Quapaw, nine miles northwest of here, at closing time today, two young men robbed the institution of between \$7,500 and \$8,000 and escaped with a companion who waited outside in a small sedan.

BORGER.—More than 700 tax suits are scheduled to be heard by Judge Newton P. Willis of the 84th district court which convened here Monday, April 29th.

AUSTIN.—A determined effort will be made in the legislature to get a \$1,500,000 appropriation for fire-proofing dormitories of the Austin state hospital and of other institutions for the state's unfortunate wards.

PLAINVIEW.—R. J. Preston, 26, was instantly killed late Wednesday afternoon when his car hit an embankment where the detour on State Highway 28 comes into the main road, four miles east of Plainview.

LOCKNEY.—While attempting to cut off the head of a chicken at her home in Lockney Thursday evening of last week, Mrs. Floyd Huff happened to the accident of striking the thumb on her left hand with the axe, cutting that member practically off her hand.

SHAMROCK.—Men who are without visible means of support are going to have to work or leave Shamrock, Sheriff W. K. McLemore declared after he had received several complaints by citizens that the situation had reached the stage of a nuisance.

SAN ANTONIO.—Chased back to Brooks field by half a dozen army airplanes ordered out to bring him down after numerous complaints of low stunting over a residential district, had reached the flying field, Private F. Fietz, 62nd Service Squadron, Brooks field, was ordered arrested by Major S. W. Fitzgerald, commander of the flying field. Major Fitzgerald said Fietz had taken the plane without authority and that court martial charges would be filed against him.

QUANAH.—Miss Katherine Marshall of this city won a state oratory contest at Fort Worth in competition with eight other high school pupils and will represent Texas in the southern finals at New Orleans May 10th.

VEGA.—This week the Landerger Bros. Co. shipped 3200 yearling steers to Kansas grass. A portion of these cattle were sold, others are to be placed on the Landerger ranch near Wichita, Kansas.

SLATON.—Taking advantage of a good moisture supply now in the soil, farmers of this section have been planting considerable cotton during the past week. It is about two weeks earlier than the usual cotton planting time here.

SHAMROCK.—Purchase of a 160-acre tract of land adjoining the Walker-Martin Addition, for use as a landing field for Shamrock has been announced.

TEMPLE.—A peanut kernel safely removed from her lung, Dorothy Ruth Lane, 13-month-old daughter of Mr. and Mrs. R. W. Lane of Chilton, was recovering here tonight. The kernel lodged in the child's throat while she was eating peanut candy.

CORSICANA.—An egg laid by the hen member of a blooded pen of chickens en route to the formal opening of the Corsicana airport here, brought \$25 in auction at the port.

LAMESA.—Graduation day for the high school boys and girls is approaching, there being only three more weeks of school. Lamesa has 77 candidates for graduation from the high school in the 1929 class. And there are 65 candidates for graduation from the grammar school into the high school this year.

Ladies' Spring COATS

A beautiful assortment of Spring Coats, Black, Tan, and Checks. These Coats are priced from \$10.95 to \$22.50, and we will sell them for the next Ten Days at HALF PRICE.

Dresses and Hats

A splendid showing of Dresses, priced from \$6.50 to \$22.50, and all Hats, will be sold at a 20 per cent discount until Saturday, May 4th.

Come in and look them over. These are values that need only to be seen to be appreciated.

The Fair Store

Baileyboro News

(Received too late for last issue.)
The play put on by some of the high school pupils and a few of the outsiders was enjoyed by every one last Saturday night. The title of the play was "Mother Mine." In connection with the play was a reading given by Mr. H. G. Harvey, song by Beatrice Booth and Miss Billie Barrington, a reading by Mrs. Verna Howard, and a reading by Mrs. Opal Wallis.

The P-T. A. met Friday night. A nice crowd attended and a splendid program was given. Everyone is interested and working in the P-T. A. In a ball game, Baileyboro vs. Sudan, here last Wednesday the scores were 12 to 4 in favor of Baileyboro. We are very proud of our baseball club.

The Baileyboro team was organized last week, the officers being: Charlie Coffman, captain; Clifford Wallis, manager, and T. G. Gaddy, field manager.

Miss Sybel Morris is on the sick list with a good case of measles. Little Miss Faye Ruth Howard also has measles.

Quite a few from Baileyboro attended the ball game at Mulshoe Sunday.

The men of this community are at work on the Teacherage for the school.

Mr. G. L. Blackshear, our merchant, bought out the Enoch stock of groceries last week, so we have a big supply of groceries at Baileyboro.

The Baileyboro W. M. U. meets every Tuesday afternoon. All are invited.

Mrs. W. H. Huckabee spent the evening with Mrs. Luther Townsend last Sunday.

The high school party given by Mr. Stringer was heartily enjoyed. Numerous games were played and refreshments were served, and at a late hour the young folks departed hoping to have another party soon. Reporter.

STAR PARASITE REMOVER

How to Raise Poultry
By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. There are years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

"Eggs Is Eggs"—But Not For Hatching

Too Great Care Cannot Be Observed in the Selection of Eggs for Hatching—In Choosing the Right Eggs for the Purpose Lies Much of the Secret of Successful Incubation.

"Pigs is pigs," according to the famous story by Ellis Parker Butler, and to a great many people eggs is eggs, regardless of the way in which they are to be used. When it concerns eggs for any purpose but hatching, that view may be as good as any other, but eggs for hatching should certainly be selected with extreme care if best results are to be obtained. There is no great mystery about the process of making proper selection. On the contrary, it is a very simple matter. I have seen so much of random selection, however, that I am sure a few pointers on the subject will not be amiss.

First of all, let me say what kind of eggs not to use. Discard all eggs that are small, abnormally large, very dirty, irregularly formed and those with cracked, rough, thin or irregular shells. I would especially warn everyone against accepting the common belief that large eggs are best for hatching. Years of careful experimentation and close observation of the work of others has convinced me that the average size egg of regular form and color is the best for hatching. The exact size will vary, of course, with different breeds. The same is true of color. Any chicken raiser can easily judge the size of eggs to use according to this advice and detailed instructions are not necessary.

The hatching egg should be sound of shell. It should be smooth, free from uneven or rough spots, should not be mottled or uneven in color; should not be thinner in one part than in another; should not have ridges, bumps, humps or bulges, but should be as near to the true egg shape as possible. A slight unevenness or variation from the ideal shape does not necessarily mean poor hatches, but if the unevenness of whatever kind you may use is very noticeable, better use such eggs aside for market or table use.

Eggs with unusually thin or porous shells are undesirable for hatching. The thin shelled egg is easily broken in turning.

To many people it will come as a surprise when they learn that dirty eggs should not be used. I speak from experience, however, when I say that such is the case. Slightly soiled eggs may be used if they are first carefully cleaned by rubbing lightly with a damp cloth or sponge. If that will not clean them, they should be put aside for other uses. Under no circumstances should eggs be washed thoroughly. The thorough wetting and hard rubbing will destroy nature's protective surface film, thus hastening evaporation of the contents and allowing harmful odors to penetrate the porous shell.

All eggs in any one hatch should be as nearly uniform as possible in size, weight and thickness of shell. They should also be of approximately the same age and from the same variety of fowl. Thin shelled eggs hatch more easily, as a rule, than thick shelled ones. White eggs usually hatch more quickly than darker ones. Leghorn eggs will probably hatch 24 hours sooner than those from Plymouth Rocks. It will, therefore, be easy to see why uniformity in all the ways just mentioned is desirable whenever practicable. If this rule is followed, practically all eggs will hatch at or very near the same time, thus far greater chance for complete success than would be possible where eggs of widely varying characteristics are mixed together.

I do not recommend the use of pullet eggs for hatching. All breeding hens should be of good size for the breed and from 1 to 2 years of age. If pullets are used at all for breeders, they should be well matured, lay good size eggs and be mated to old roosters.

Another important factor that greatly influences the chances for successful incubation is the relative freshness of eggs. Those from 1 to 4 or 5 days old show little difference as to hatching quality, but after that they deteriorate rapidly. This is easily explained. A fresh egg contains just enough water to develop the embryo while it is gradually developing into a chick. As an egg shell is porous, the water will evaporate more or less rapidly, the exact degree depending on the temperature and relative humidity of the place in which the eggs are kept. After that natural internal moisture has passed out of the shell, there is no way on earth of restoring it in such a way that it can contribute to the building up of bone, muscle or nerve tissues in the baby chick. Exactly how long eggs may be safely held before their hatching qualities are seriously affected cannot be arbitrarily stated. It is worthy of note, however, that many commercial hatcheries invariably show a very high percentage of eggs successfully hatched in each setting, and they are often set when from 10 to 12 days old.

It may be that the delay in announcing what cigaret it was that pulled King George through his recent illness is due to the rumor that the good old boy is left with a little mental trouble.—Ohio State Journal.

School Chronicles as Seen by Freshmen

This is our last appearance for the year, and our last as Freshmen. When we reappear in print of our own accord we shall have sophomore rank. Next week the seventh grade begin their work as news reporters. That class is nearly forty strong for graduation and over fifty strong as a class. They are divided into high and low seventh, and have made marked advance this year. The high seventh will make their debut as high school folks on May 23 at 3 p. m. On that date they will receive their certificates of promotion and we shall advance a step to keep out of their way.

It is well that a calendar of events for the next month be printed this week for the convenience of our many friends and readers.

Monday, May 6, Low Fourth Chapel Program.

Tuesday, May 15, Third Grade in Chapel.

Friday Evening, May 10, Senior Play, "A Country Town." (This will mark their last Senior appearance.)

Sunday Evening, May 19, Baccalaureate Sermon.

Thursday Afternoon, May 23, at 3 o'clock, Seventh Grade official program, presentation of their certificates.

Friday Evening, May 24, Senior Class Program, presentation of diplomas.

Let us all bear in mind that the above is given us at the office as the official calendar for the last month of school. Keep this copy of your paper if you take it. If you do not, go and subscribe for it, for the school news of the next three weeks will be worth the price of the paper.

Before this paper even goes to print we shall have seen The Patay, a benefit play for the band boys. Next week the seventh grade will tell you about it.

It is well to state here that Brother Hooton, our own Methodist minister, will deliver the baccalaureate sermon. This is a wise selection as Brother Hooton is an accomplished linguist, a college trained man with the college man's viewpoint, and the youth of one to inspire him. He is all these things in addition to being a real man of God. We expect the seniors to have a wonderful lesson. Dr. J. M. Gordon of Texas Technological College will deliver the Commencement Address. Dr. Gordon is dean of the school of liberal arts of that college, and is a trained and gifted speaker. He will come to instruct and entertain young people.

From the office comes the following letter delivered by Mr. Newton, Mr. R. J. Newton, Sudan, Texas.

Dear Mr. Newton: This note is for the purpose of expressing to you and to the members of your class our sincere congratulations on the wonderful showing made by your judging team in winning highest score for all events in the Dairy Cattle contest at A. & M. College on April 22nd, and we wish also to commend Coleman Terrell for making high individual score.

Very truly yours,
C. L. DAVIS.

We were proud of this letter, and next year we Freshmen boys, as Sophomores, will try to equal or better their record.

The junior baseball team won over Fairview last Friday, that date being the last day of Fairview school. On the same date the younger boys of the seventh grade were defeated by Amherst small boys.

Last week-end was gladdened for Mr. and Mrs. Wilkins by a visit from the family of Mr. Wilkins' brother, C. A. Wilkins, Sr., of Throckmorton. It was the first time in nearly ten years that the two families had had an opportunity to visit together.

The seventh grade class motored over to Bull Lake Saturday afternoon, spending their time there eating wellies and playing pranks and jokes. They returned at an early hour tired but happy.

On Friday afternoon, the science classes under their teacher, Mr. Talbot, made a trip over to Bull Lake, taking their lunches with them and hunting things of scientific interest. Many of the lakes of the West Plains are the seats of vast information for the scientist, and Bull Lake is no exception to the rule.

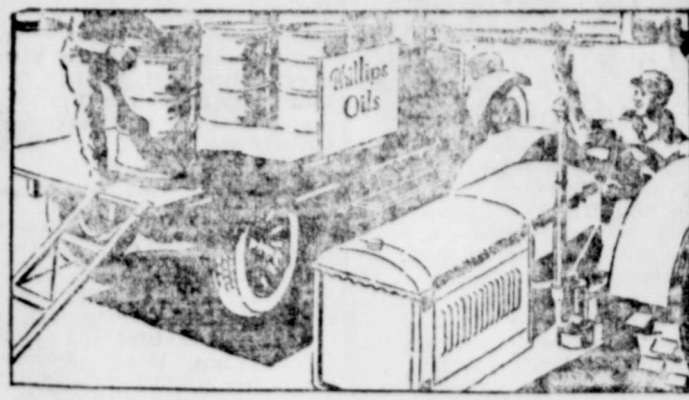

Mr. Wilkins delivered the Commencement Address at the exercises of the Fairview school last Friday evening. There are three graduates of that school this year. Our school being the nearest source for the schools to the west of us, should grow in popularity with the young people there, and they should come to us for preparation for college.

One of the high school boys brought to the office this week eight small catfish. These fish are an evidence that cat and other native fish will thrive in the artificial and natural lakes of the West Plains, an every farmer having a good tank with a supply of fresh water should immediately stock this water with food fish, thus giving himself the inexpensive treat of a fish from time to time. They will cost nothing after stocking and the returns are more than enough to pay many times over the cost of stocking. It does not take a deep tank, three or four feet being ample for their keep.

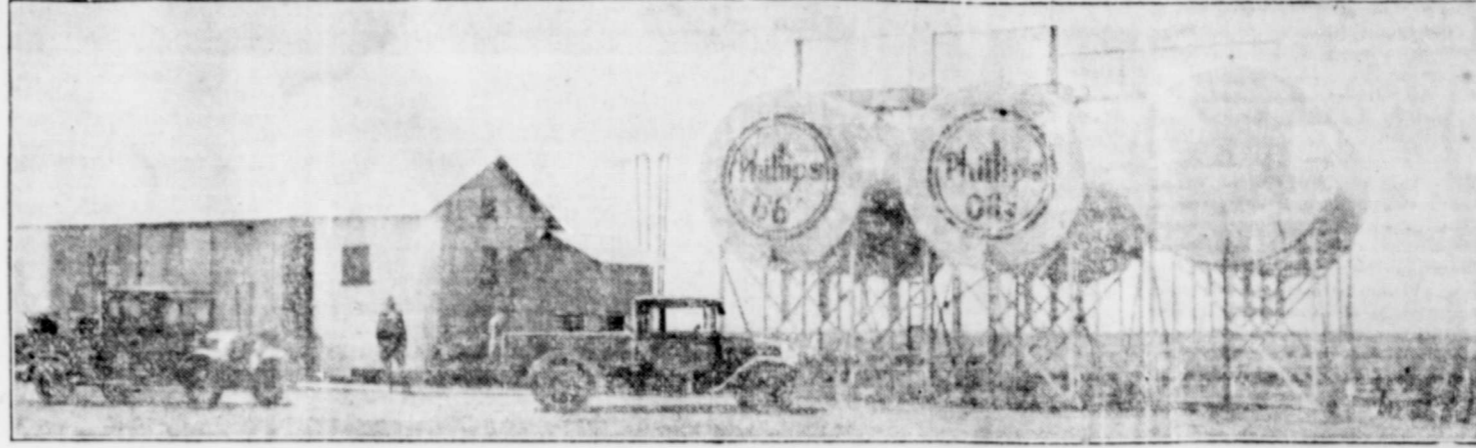

Sunday a telegram came to Mr. and Mrs. Wilkins from their oldest son who is high school principal at Colorado City. The telegram announced the death of his wife's father at Stephenville. The two families are old friends and the death of Mr. Gray has saddened the family of our superintendent.

Before this letter appears in print Coach Brown will be on the way to Austin with two of our athletes, Arnold Purcell and Otto Workman. These two pupils will represent Sudan and the entire Plains country, in several athletic events at our state capital Friday and Saturday of this week. They will also be accompanied by Robert Wilson, an eight-grade pupil, who is driving a car for them. The state meet is the big event in scholastic circles in the state

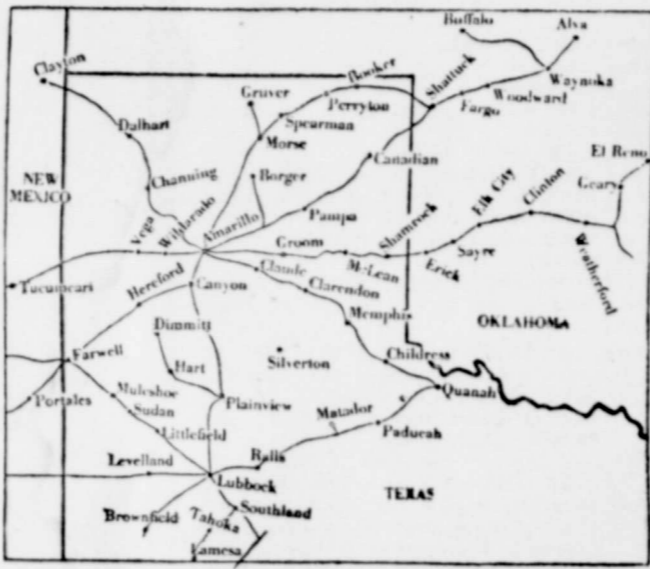

Quick Deliveries to Your Farm

Phillips Oil delivered when you want it

One of the many Phillips Bulk Stations located in Texas and western Oklahoma

THE map at the left shows the location of Phillips stations in west Texas and southwest Oklahoma.

Free deliveries of Phillips Oil, Kerosene, and 66 are made to any farm. All of these stations keep on hand a good big supply of Phillips products. You don't have to wait to get what you want. You won't be told "that we are just out and that a supply is coming in a few days." You get your kerosene, oil and gasoline within a few hours after you order it.

Phillips knows what it means to the farmers to get prompt service, especially at harvest time, and guarantees fast delivery on a quality line of products.

Look over this map. Pick out the Phillips station nearest you and drift over right soon to see the Phillips agent about your harvest supply of oil, kerosene and gasoline. Phillips products are favorably known in the entire Southwest. It will pay you to use them.

There's full satisfaction in Phillips Products

There's Full Satisfaction in Phillips Products

Phill-up with Phillips

C. P. Co. 1923

J. L. SERRATT, Agent, Sudan, Texas

today, and the right to compete in it is the biggest event in the life of an athlete. Clovis West is the only Sudan boy ever to enter into these contests before this year.

A recent recount of the attendance and enrollment shows that we have made an error in reports heretofore. The total enrollment in our two schools is 752. Well, here we are headed for 900 next year.

The Spanish classes are considering a motorcade into New Mexico at the coming week-end. They want to see some real Spanish civilization, and New Mexico is the nearest region where this may be seen. They will be accompanied by several teachers. Contributed by the Freshmen.

EARLY CHICKS MAKE HAPPY FARMER PROFIT

CANYON, April 27.—How 578 pullets netted him \$752.50 in nine months' time from egg production alone is told by J. H. Morgan, Happy, Route 2. Although raising chickens as a sideline to his wheat farming, Morgan stated that a few chickens furnished an income to farmers that often looks as attractive as that of a wheat or cotton farm.

Morgan originally purchased 1,000 baby chicks from an early spring hatch. Of this number, 898 survived. Exactly 526 roosters were sold for enough to pay the initial cost of the flock, besides furnishing a profit, and the 378 pullets were kept for egg production.

From April 1 last year to January 1, 1923, eggs from the flock brought \$1,060. Feed, none of which was raised on the farm, cost Morgan \$307.50, leaving a profit of \$752.50, or a little more than \$84 per month as the chickens' part in making the farm a paying proposition, according to Morgan.

FINANCIAL PRIMER

Five-year-old Mary was teaching three-year-old Audrey the value of different coins.

"That's a dime; it will buy lots of candy. That's a nickel; it will buy an ice-cream cone. That's a penny; it's only good for Sunday school."—Children.

President Hoover has asked everybody to obey the prohibition law. We're all glad that's settled.—Jack. News.

METHODIST NOTES

There will be services of worship in the Methodist church next Sunday morning and evening. The Amherst revival comes to a close Thursday night of this week, and the pastor will be back in the local pulpit Sunday morning.

Following the sermon Sunday morning, Sacrament of the Lord's Supper will be administered. Preceding the service the doors of the church will be opened for any new members who may desire to be received.

Sunday night the pastor will preach on "False Foundations." Some recent developments in our community will be discussed. Are we doomed to further tragedies in Sudan because of the lethargy of our people toward law violations and immorality all around us?

The revival meeting closed last week with sixteen conversions and a general upbuilding of church members. Let us keep alive in our hearts the revival fires and live up to our rights as Christian people in this section.

Bear in mind the session of Sunday school at 10:00 a. m. The classes were rearranged and one new one organized last Sunday. The school is growing by leaps and bounds. Come and join and enjoy this fellowship, worship and instruction. Remember also the Epworth H. League at 7:00 p. m. Night service at 8:00.

We take great pleasure in announcing the following additions to the membership of our church: Mr. and Mrs. R. E. Thomas, Mr. and Mrs. E. Lam and daughter Kathleen, Mr. and Mrs. Jim Crowder, Mrs. Pal Merritt, Mr. and Mrs. G. W. Bural and daughters, Alice and Esther Bural.

C. R. HOOTON, Pastor.

Perhaps Professor Clarke is right in saying that college does not increase a man's income. On the other hand, it teaches him how to live without hats and garters.—The New Yorker.

The senate agriculture committee will begin hearings on farm relief. And if the committee hears anything that has not been heard for eight years past, it will be very distressing.—San Diego Union.

They haven't the Daughters of the Revolution in Mexico, but we fancy the mother must live down there somewhere.—Boston Transcript

The average age of President Hoover's cabinet is sixty. And the government is beginning to run like that.—Dayton Journal.

**Find Mastodon Tusk
Near Wellington**

WELLINGTON.—A large tusk was unearthed seven miles north of Quail on the Bourland ranch this week by Otto Russell who brought in the specimen to exhibit.

The tusk is evidently that of a mastodon or other large prehistoric animal as it measured 6 feet in length when it was taken from under the ground. It was found 19 feet below the surface by Russell while digging in a sand pit. It was resting in moist sandy soil and was in such a bad state of decay that two feet of the tusk crumbled away after it was removed from the earth.

ORDER FOR COUNTY SEAT ELECTION.

State of Texas,
County of Lamb.

WHEREAS, on the 29th day of March, A. D., 1929, a petition was presented to me, as County Judge of Lamb County, Texas, by W. H. Harless, and 531 others, stating that it is desirable to remove the County Seat of Lamb County, Texas, from Olton, Texas, to Littlefield, Texas, of which number more than two hundred are legal and qualified voters, Texas, residing in said county, and freeholders of Lamb County, Texas, residing in said county, praying that an election be held in Lamb County, Texas, at the various voting precincts of said county, for the purpose of submitting to a vote of the people of Lamb County, Texas, the question of whether or not the County Seat of Lamb County, Texas, shall be removed from Olton, Texas, to Littlefield, Texas; and

It appearing that said petition bears the requisite number of qualified voters and free holders who are residents of said county; and is in every respect in conformity to law; THEREFORE, I, Simon D. Hay, in my capacity as County Judge of Lamb County, Texas, do hereby grant said petition, and do hereby order that an election be held in the various voting precincts of Lamb County, Texas, on

Saturday, the 11th Day of May, A. D., 1929

for the purpose of determining whether or not the County Seat of Lamb County, Texas, shall be removed from Olton, Texas, to Littlefield, Texas.

The said election shall be held in Voting Precinct No. 1 at the Court House of Lamb County, Texas; and J. A. Dodson and Mrs. C. M. Owens are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 2, the said election shall be held at the Spring Lake School House; and J. F. Kelly and Jack Henson are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 3 the said election shall be held at the residence of H. L. Woody; and Archie Brown and H. L. Woody are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 4 the said election shall be held at the City Hall in the City of Littlefield, Texas; and R. E. McCaskill and C. L. Harless are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 5 the said election shall be held at the High School Building of Sudan Independent School District; and C. C. Preston and J. J. Blanchard are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 6 the said election shall be held at the Pleasant Valley School House; and Fred Deiterman and R. L. Robineck are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 7 the said election shall be held at the City Hall in the city of Sudan, Texas; and W. W. Carpenter and J. M. Carruth are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 8 the said election shall be held at the public school building in the city of Amherst, Texas; and E. T. Phillips and W. L. Gentry are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 9 the said election shall be held at the Public School House of Fieldton School District; and J. E. Holland and Millard Phillips are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 10 the said election shall be held at Sod House

Camp; and Martin White and C. E. Presley are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 11 the said election shall be held at the residence of A. H. Scivally; and E. M. Sullivan and J. B. Blessing are hereby appointed judges of said election in said voting precinct.

In Voting Precinct No. 12 the said election shall be held at the residence of Fred Groom; and J. L. Dow and Roy Hutson are hereby appointed judges of said election in said precinct.

In Voting Precinct No. 13 the said election shall be held at the residence of J. G. Harrell; and J. G. Harrell and John Powell are hereby appointed judges of said election in said precinct.

The said election shall be held under the provisions of Chapter 5, Title 33, Revised Statutes of Texas, 1925, and the Constitution and Laws of the State of Texas; and shall be conducted as near as may be in accordance with the general election laws of the State of Texas; and all persons who are qualified voters under the Constitution and Laws of the State of Texas shall be entitled to vote at said election.

Should the voter be in favor of removing the County Seat from Olton, Texas, to Littlefield, Texas, he or she will write or cause to be written or printed on his or her ticket: "For removal to Littlefield, Texas;" or should the voter be in favor of the County Seat remaining at Olton, Texas, he or she shall write or cause to be written or printed on his or her ticket: "For remaining at Olton, Texas."

A copy of this order signed by the County Judge of Lamb County, Texas, and certified to by the County Clerk of said County, shall serve as proper notice of said election. And thirty (30) days notice of the time and place of holding said election shall be given by posting true and correct copies of this order in three (3) public places within each voting precinct in said county, and by publication thereof in the English language in four (4) weekly issues of a newspaper of general circulation which has been regularly and continuously published for at least one (1) year previous to the date of this order in Lamb County, Texas, and the date of first publication shall be thirty (30) full days prior to day of election.

It is further understood that this order shall be spread and recorded upon the minutes of the Commissioners Court of Lamb County, Texas. Ordered this 30th day of March, A. D., 1929.

SIMON D. HAY,
County Judge, Lamb County, Texas,
The State of Texas,
County of Lamb.

I, A. H. McGavock, Clerk of the County Court and ex-officio Clerk of the Commissioners Court of Lamb County, Texas, do hereby certify that the above and foregoing is a true and correct copy of election order issued by the County Judge of said County, ordering an election to be held in the various voting precincts of Lamb County, Texas, to determine whether or not the County Seat of Lamb County, Texas, shall be removed from Olton, Texas, to Littlefield, Texas, which order is of record on page 44 of Book 2 of Minutes of Commissioners Court of said County.

Witness my hand and seal of said Court, this 30th day of March, A. D., 1929.

A. H. MCGAVOCK,
County Clerk and Ex-Officio Clerk of the Commissioners Court of Lamb County, Texas.

(SEAL)
Commissioners' Court of Lamb County, Texas.

**Works Hard, Dances,
Gains 3 Lbs a Week**

"I work hard, dance, and have gained 3 pounds a week since taking Vinol. My nervousness is almost all gone."—Mrs. F. Lang.
Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very first bottle often adds several pounds weight to thin children or adults. Tastes delicious.—H. G. Ramby, Druggist.

THE NEWSPAPER.

Where do you obtain your knowledge of current events, science, politics and the greater part of your education?

From your newspaper.
When your merchants need business, through what medium do they obtain it?

Your newspaper.
When the community and the churches, schools, civic and welfare organizations of the community need community action and cooperation, to what do they appeal?

Your newspaper.
These are some of the reasons why the newspaper is your newspaper and why communities are only as strong and progressive as their newspapers. If there is one quick cure for community somnolence it is a wideawake newspaper.

The first duty of a newspaper is to transmit to its readers the thoughts and activities of humanity at home and abroad, but the value of that other department of the newspaper—advertising—should be overlooked by no one. The public anticipates its shopping by scanning the advertisements in the newspaper, and merchants anticipate their business by newspaper advertising. Advertising is a mutual proposition between all concerned.

Before the rise of the present intensive newspaper advertising the public was powerless to plan its buying. Money, time and dissatisfaction was the price. At the same time merchants had to be content to wait for business and the most of it came on Saturday afternoon and evening, seldom on Mondays and never in the morning. Newspapers and universal employment and appreciation of newspaper advertising permits the public to plan its shopping and has made business for every week day.—Belleville (Ill.) Advocate.

Our Neighbors

Muleshoe
(The Muleshoe Journal)
At a meeting of the school board last Monday night, five teachers were elected for the 1929-30 school term. Mr. John C. Jenkins was again elected to head the Muleshoe schools. He has become widely known through his excellent work here and his cooperation with the schools over the county.

Mrs. D. O. Smith announces that she will open a beauty shop in the McCarty Drug Store at an early date.

Work of beautifying the court house lawns was started this week. Flower beds are being worked up and some flowers have already been planted. The lawns on the north and west of the building have been plowed and watered and blue grass and clover is to be planted within the next two or three days.

On last Thursday night Dr. Arthur Webb of Dallas spoke at the high school auditorium to a large audience. Everyone seemed delighted with the message. He is probably the best known speaker on the subject of temperance and law enforcement in the state. His aim seemed to be to clarify the public thinking on the question of enforcing our dry laws and to arouse the people themselves to demand and to back up the officers in the enforcement of the dry laws.

A rabbit drive was made in the Big Square community last Thursday, in which a number of the business men of Muleshoe participated. Owing to the high winds on that day, the drive was not as successful as it otherwise might have been. However, several hundred rabbits were killed.

Shipments of grain and feed stuffs are going far above the estimates made some weeks ago. Our after crop of maize, kafir and corn continue to move to outside markets each day and will likely keep up for another month at least. The demand for these feeds is good on account of their high quality.

D. L. Butt, highway superintendent for this division, informs us that markers are to be placed along Highway No. 7 and Lee Highway throughout this division. Work will start in a few days and the markers will be set every mile, alternating one on the right and one on the left hand side of the highway. Danger signs will also be placed at all curves.

Littlefield
(Lamb County Leader.)

The scholastic census of Littlefield independent school district, completed last week by Secretary J. S. Hilliard, of the school board, shows an increase of approximately 25 per cent during the year 1928-29. The scholastic census for 1928 showed a scholastic population of 1,361, while the census this year totals 1,644, an increase of 343 during the past 12 months.

Arrangements have been made to finance a carload shipment of Guernsey cows from Wisconsin into Lamb county, according to E. C. Cundiff, who is taking an active part in the movement.

R. O. Connor, business manager of the Littlefield College, advises that the Church of Christ plans holding a camp meeting here about the middle of August, which will continue for a period of two weeks, the meeting to be held on the college campus, and 5,000 people are expected to attend.

Wednesday a large motorcade of Littlefield Chamber of Commerce boosters attended the district convention of the West Texas Chamber of Commerce, held at Tahoka.

The manual training boys organized a club known as "The Home Mechanics Club." The objective or aim of this club is to make some useful projects for the home. Max Stansell was unanimously elected president; Lester Ployd was elected vice-president, and Earl Glover, secretary-treasurer. This club consists of about 25 members.

Rev. Walter J. Lueck, pastor, Lutheran church, this city, returned last week from Austin, where he attended the Texas district conference of the Lutheran church.

Amherst
(Amherst Argus.)

The senior play has been selected and practice will begin soon with the capable directors Miss Lora Mae McFarland, senior sponsor, and Mrs. Earl Bradley. The title is "Be An Optimist."

Mrs. Dewey Walker underwent a successful operation at the Plainview sanitarium this week, and from reports she is doing very well at this time.

Revival services began last Sunday night at the Methodist church, with the pastor preaching the first three sermons of the meeting. Rev. D. B. Doak arrived Wednesday evening to assume leadership of the meeting.

The Amherst ball aggregation sauntered over to Anton Sunday, where they staged somewhat of an exhibition of their baseball skill and prowess. . . . The Amherst boys won the game 8 to 4.

Dr. and Mrs. Barth Milligan were Sudan visitors Sunday.

Mrs. H. Slate and Lester La-

Grange were Sudan visitors Tuesday. The residence of Mr. Horace Melton and family has been repaired recently which improves the appearance materially.

The athletic play which was to have been presented Tuesday evening at the high school building was postponed to a later date.

Leveland
(Crocket County Herd.)

The Lubbock District Conference of the Methodist Church, which adjourned here Friday afternoon of last week selected Post as its meeting place for next year.

The Chautauqua furnished by the Pacific Coast Circuit and which will last for four days, began here Wednesday and will continue until Saturday night.

Officials of the Foxworth-Galbreath Lumber Company, who recently bought the Langford lumber yards and business at this place, were here last week and bought the 150 feet adjoining their yards on the south and fronting on West Austin street.

A permit was granted Wednesday for the construction of the Chas. Barnett building which will be erected on the east side of the Square. This structure will be 110 feet long by 25 feet wide, with concrete floors and other modern features.

Work began Saturday on the excavation of the new Shannon buildings, which are to be erected on the east side of the Square.

Sixteen new brick business houses were built here last year and the most favorable indication that Leveland is becoming a trade center over a wide trade territory is that they are all occupied and there is a demand for other structures in the business district.

A construction crew of the Gulf Refining Company has been here for the past few days putting in two large storage tanks at their wholesale station on the Santa Fe tracks.

C. E. Vardeman last week sold his farm, consisting of 177 acres situated four miles northwest of town for \$75.00 per acre. Jno. W. Steele of Amherst being the purchaser.

TOWN AND COUNTY

Mr. and Mrs. L. N. Rector and daughter, Miss Edna, returned the first of the week from a short visit with relatives at Rule.

Mr. and Mrs. L. E. Slate were attending to business matters in Lubbock Monday.

Mrs. James Lester La Grange and Dube Slate of Amherst were visiting in Sudan Tuesday.

G. C. Shirley of Littlefield was attending to business matters and visiting with friends in Sudan Tuesday.

Mr. and Mrs. R. M. West and daughter, Wanda B., and Miss Louise Stuart and Miss Kathryn Hunt spent Sunday in Farwell with relatives and friends.

Mr. and Mrs. Oscar Stone, Mr. and Mrs. A. J. Redding, Mr. and Mrs. Earl Myers and little daughter made a trip to Portales, N. Mex., Sunday.

Mr. W. H. Horn, who underwent an operation some time ago, and who has been in the sanitarium since that time, was able to be brought to her home the first of the week.

Farmer Finds Hogs Pay Farm Expenses

TAHOKA, April 27.—Lit Moore, prominent Lynn county farmer, finds that hog raising is one of the best side lines a farmer can have, if he handles the business carefully. In addition to raising a good acreage of both cotton and feed, he spends much time with his hogs, and during this month alone he has placed fattened porkers on the market bringing him \$1175.00. He still has 75 hogs left unsold.

Mr. Moore says that to raise hogs profitably they must have a good pasture to run on, preferably of wheat or sudan. His hogs have been on a wheat pasture and he is now preparing to sow sudan for summer and fall pasturage. He feeds his hogs grain only a month or two, ordinarily.

This farmer also finds that a small field of red-top cane is a money-maker nearly every year. This year he sold feed from 13 acres for \$232.86, and in addition kept 100 pounds for planting and had the bundles left for feeding purposes.

The Empire Known As West Texas

West Texas, which, according to the West Texas Chamber of Commerce comprises the area west of the M. K. & T railroad to Waco, and thence southwest through Fredericksburg and Rock Springs to Del Rio, includes 135 counties and approximately 91,000,000 acres of land. Into it could be dropped Maine, New Hampshire, Rhode Island, Connecticut, New York, New Jersey, Delaware and Maryland, and still leave unoccupied 10,000 square miles or eight more Rhode Islands.

Learn to Labor and Wait

The people, today, have no time to stay; They go in a hurry, come back the same way. The rush and the rumble they seem to enjoy. But when they must wait it causes annoy. An old adage says that the thing to do is to "Learn to labor and wait" too. So many who labor have not learned to wait. Keep spending their money at too fast a gait. The First National Bank would advise that you Not only labor, but learn to wait, too.
