"EVERYBODY WINS" IN THIS CAMPAIGN

2,000 Men Fight Forest Fires in Far West

Many Lives Sacrificed to Red De-
mon, and Thousands of Acres
of Timber Destroyed.

SEATTLE, Aug. 16.—Spurred on by unconfirmed reports that the forest fires in Northern, Central and Northeastern Washington had claimed three more lives, 2,000 men valiantly sought to bring the blaze under control today.

More than 50,000 acres had been blackened in the Chelan, Okanogan and Ferry counties in Washington.

Missing since yesterday and feared to have been victims of the flames, P. C. Ingraham, of the federal district forestry office in Portland, and Ermannie St. Louise Chelan youth, were being sought by fire crews.

Meanwhile the United States army moved to assist the exhausted fire fighters. Major-General John L. Hines, commanding officer of the Ninth Corps Area at San Francisco, issued orders to the commanding officer at Fort Lewis to report to the United States for-
ester for the district to render whatever aid is desired.

The fire situated in the Kootenai district in British Columbia was reported improved. Fires in the Kelso and Lardo districts were causing concern.

Forest Fires Rage in Oklahoma

OKLAHOMA CITY, Aug. 19.—Five forest fires are burning in southeastern Oklahoma and four new ones started today.

All nine are out of control. Continued dry, windy weather has fanned the flames causing tremendous loss of young timber and damage to growing ones.

It was estimated that 25,000 acres of valuable timber land in McCurtain, LeFlore and Pushmataha counties have been burned since August 1 in 120 fires.

FAMILY REUNION.

The annual family reunion of Mr. Green Berry Wise was held at the home of Mr. J. T. Kelly, 25 miles south and west of Sudan. It was enjoyed by all of the children and their families the neighbors and friends as follows:

M. C. Morgan and family, Levelland, Texas; J. E. Wise, Westlake, Texas; J. H. Lawson and family, Bula, Texas; Nolen D. Whitley and family, Bula, Texas; Clinton Wise and family, Bula, Texas; V. C. Weaver and family, Bula, Texas; C. M. Tidwell and family, Bula, Texas; J. H. Sheapher and family, Bula, Texas; Mr. and Mrs. J. M. Knighton, Ft. Sumner, N. M.; W. I. Maxwell and family, Portales, N. M.; Mr. and Mrs. Martin Maxwell and son, Vernon, Texas; Miss Ona Lamb, Bridgetown, Texas; Mrs. Juanita Smith, Anal, N. M.; Mr. and Mrs. J. L. Maxwell, Bluffton, Texas; Mrs. A. A. Warden, Coleman, Texas; Jesse James Ballard, Levelland, Texas; Green Wise, Jr. and family, Portales, N. M.; Zeek Wise and family, Portales, N. M.; Mr. and Mrs. E. E. Whitley and son, Bula, Texas.

This reunion was held for three days and was very much enjoyed by all. All departed for home feeling happy and thankful for being drawn together once more.

WILL VISIT N. T. T. COLLEGE.

Prof. and Mrs. W. I. Wilkins left Monday morning for Denton, Tex., to attend the summer commencement exercises of North Texas Teachers College. Their son, C. A. Wilkins, Jr., has conferred on him his A. B. degree at this time from this institution, from which Prof. Wilkins received his degree one day less than 15 years ago. C. A.'s major subject is chemistry, directed by the same man who instructed his father in the same institution 16 years ago. Another coincidence in the Wilkins family is that last year George Wilkins, another son, received his degree at Tech College, at Lubbock, where the elder Wilkins received his degree less than nine months earlier.

70-FOOT WHALE ASHORE NEAR MATAGORDA BAY

GALVESTON, Aug. 18.—A 70-foot whale was ashore on the Texas coast, about three miles west of Matagorda coast guard station, according to advices received Monday by Capt. Henry F. P. Holzeheuer of the coast guard headquarters here.

This was the first whale to be washed ashore upon the Texas shore line in several years.

The \$430,000,000 merger of Royal Baking Powder and Fleischmann's Yeast certainly possesses the means of raising the dough.—Louisville Courier-Journal.

News Announces Big \$2,000 Campaign

Pontiac 4-Door Sedan Heads List of 6 Big Prizes; Willing Workers Wanted. Send in your Nomination Today.

How would you like to have a brand new 1929 Four Door Pontiac Sedan for your own, all for a few days' work during your spare time?

That's just exactly what you, or someone reading these words, will receive. You can easily make it yours.

Today is the time to get started. Come to the News office NOW and get further information regarding this Big Prize Distribution.

We are out for 1,500 new subscribers. Are you with us?

Although The news now enjoys a large family of readers, we are desirous of increasing our circulation in this trade territory.

All of the prizes, as well as the cash commissions, will be given to workers free—in exchange for a little effort during their spare time—helping us get a larger circulation.

Remember that "Everybody Wins." If you don't get a prize you will be paid 20 per cent of your collections. What could be more liberal?

This is not a something for nothing scheme. In fact, it is no scheme at all; neither is it a charitable undertaking on the part of The News. It is a business proposition, pure and simple, to secure new and renewal subscriptions; and lastly, to afford our readers and friends an opportunity unparalleled to profit in a big way by utilizing their spare time during the next few weeks.

One wide-awake man, woman, boy or girl will be given a Pontiac Four Door Sedan, fully equipped, for his or her efforts in helping us extend our subscription list. Think what a wonderful gift this is, and how easily it can be won. Your spare time effort is all that is needed. No car near its price approaches the new big Pontiac in beauty, performance and big car comfort.

The Second Prize is a wonderful Vacation Trip to California, with Pullman car and hotel accommodations. What could be more ideal?

The Third Prize in the line of awards is a beautiful Diamond Ring, purchased from and will be on display at Ramby's Drug Store. This is a gift anyone would be proud to own. The stone is mounted in the latest mounting and is very attractive. The value of it is \$125.00.

The Fourth Prize is a Wrist Watch. The winner has the choice of either man's or woman's watch. The Elgin Watch is known as a standard timepiece the world over and makes an attractive and serviceable gift. In order to appreciate this watch fully, call at Ramby's Drug Store and see it. You will find that it is everything it is claimed to be.

The Fifth Prize is an Allen Portable Phonograph, valued at \$35.00. Everyone knows how popular these machines are. Stop at the Sudan Drug Store and see this machine.

The Sixth Prize is \$25.00 in Cash.

One desirable feature of this prize distribution is that "Everybody Wins." There will be no losers in this race as a 20 per cent Cash Commission will be paid to all active participants who fail to win a prize. Since every participant is guaranteed either a prize or commission, no one should hesitate to enter. Those who participate most heartily in this prize distribution will be better paid than the best sales people in this section of the country.

The art of salesmanship is being expounded by the leading business concerns of the country today. Potentially, we are all smart salesmen and saleswomen, lacking only that one big OPPORTUNITY to turn that natural gift into profit. You may have latent powers within you, which, when developed, may lead to heights of achievement.

Without investing one cent now or later, The News offers YOU an opportunity to test your ability in salesmanship. EARN WHILE YOU LEARN. Experience is not necessary to enable you to win one of the handsome prizes. All that is required is a little rightly planned and well directed effort. You may even surprise yourself, for it is exceptionally easy to take subscriptions to The Sudan News.

This contest will not be a long drawn out affair of several months, but will extend over a period of a few weeks. Think of being able to secure in a few weeks spare time effort, prizes that would ordinarily require months and possibly years of saving and self denial to acquire. Yet here they are offered to you in exchange for your spare time during the next few weeks in helping to enlarge our subscription list.

This contest will be more interesting and far reaching than any other undertaking of its kind in this section of the country. The prizes are not only rich in material value but are in keeping with the broad, liberal lines along which the enterprise has been drawn. AMBITION and ENERGY are the only requisites for success.

In order to give everyone who enters the competition the best possible assistance, a campaign department has been created and an experienced manager placed in charge who will devote his entire time and attention to those who take part. Participants living at the remote parts of our trade territory will receive the same careful attention as those living in the immediate vicinity of this office.

The early participants in this race will secure the easiest subscriptions. The three coupons appearing in this issue of the paper are for your immediate use. Fill them out and mail or bring them to this office. Be the first in the field. The vote schedule is so arranged that subscriptions bring more votes in the early part of the campaign. Decide today that you will win the Pontiac Sedan. ACT NOW! Subscriptions may be taken following this announcement.

SEVEN THOUSAND MILES HIGHWAYS IMPROVED

During the fiscal year 1929 the federal government cooperated with the states in the improvement of 7,022 miles of federal aid highways, bringing the total mileage of the system improved with federal aid to 78,096, according to figures of the bureau of public roads of the United States department of agriculture. The year's mileage was improved in the 48 states and Hawaii by state highway departments working in cooperation with the federal bureau. There are approximately 188,000 miles of main interstate and inter-county highways in the federal aid system, of which the above mileage and approximately an equal mileage built by the states without federal assistance is now improved.

The 7,022 miles improved include 1,056 miles of graded and drained earth roads, 563 miles of sand-clay, 1,293 miles of gravel roads, 198 miles of macadam, 728 miles of bituminous macadam and bituminous concrete pavements, 3,101 miles of Portland cement concrete pavements, and 43 miles paved with vitrified brick. Forty-four miles of bridges and approaches were also constructed.

MILLIONS OF DOLLARS LOST AT THE GINS

COLLEGE STATION. — Millions of dollars worth of good cottonseed for planting purposes are lost annually to Texas farmers by becoming mixed with poor quality seed at the gins. The simplest way out of the difficulty, and the most profitable, is for every farmer in a community to plant one variety of good, pure seed. Where this has not been done, the only course remaining is to hold back the cotton from which planting seed is to be saved, and gin it late enough in the season to enable the ginners to take time to clean out the gin rolls.

CRITICISM OF A. & M. POLICY DRAWS FIRE OF SUPERVISOR

An article in The Sudan News of August 8 seems to have not found favor with authorities at A. & M. College, and The News is in receipt of a communication from Supervisor Davis of the Agricultural department of that institution. The letter, together with matter pertaining thereto, will be found in the editorial columns on page 2 of this issue.

COLLEGE STATION. — Millions of dollars worth of good cottonseed for planting purposes are lost annually to Texas farmers by becoming mixed with poor quality seed at the gins. The simplest way out of the difficulty, and the most profitable, is for every farmer in a community to plant one variety of good, pure seed. Where this has not been done, the only course remaining is to hold back the cotton from which planting seed is to be saved, and gin it late enough in the season to enable the ginners to take time to clean out the gin rolls.

These facts are pointed out by E. A. Miller, Agronomist in the Extension Service, who explains that the problems of mixed seed came about when the South shifted from the old private plantation gin to the public gin. Experiments show that a farmer may get as high as 25 per cent of seed from the bale preceding his at the gin, and that some mixtures also occur in the second and third bales, and may even continue to some extent in the fourth bale. If the seed be allowed to go through the seed conveyor.

"It's no wonder that cotton seed runs out so fast," declares Mr. Miller. "If the bale that was ginned before yours happened to be of poor variety, or if it was grown from mixed seed, you will get a bad mixture that will usually reduce your next year's yield and give a mixed staple that is very objectionable to the spinner. The ginners should not be held responsible for these losses because it takes time to clean out the gin rolls and many customers would be lost in the rush of the season if this were attempted. But if farmers will wait until the slack part of the season to gin their cotton from which seed is to be saved, part of the inferior seed losses may be avoided.

"On account of the danger of becoming mixed in the seed conveyor, it is best to run the seed on the floor and then sack it or shovel it directly into the wagon box. Another method is to take several bales to the gin at one time, not saving seed for planting purposes until the first, and preferably the second bale, has passed."

A grouch suffers in some ways, but he always knows where his lawnmower is.—Illinois State Register.

Mrs. Stallworth Not Guilty, Says Jury

Verdict Returned After Seven
Hours' Deliberation. Elder Wo-
man May Not Be Tried.

CANYON, Aug. 15.—Mrs. Levi P. Stallworth of Amarillo was found not guilty of the murder of Mrs. Grace Morrison of Plover, Tex., by a jury here late today after it had deliberated seven hours.

It was the second time the small wife of the Fort Worth & Denver railroad man had gone to trial for murder. The first hearing in Amarillo resulted in a hung jury.

Mrs. E. M. Stallworth of Fort Worth, mother-in-law of the younger woman, probably will not go to trial. She also was charged as a defendant accomplice in the murder and is alleged to have accompanied and helped her daughter-in-law in the fatal march of the victim for a block where a scuffle ended in the fatal shot.

Mrs. Stallworth did not attempt to deny killing Mrs. Morrison. She based her plea on self defense, alleging she wrested the big pistol from the other woman and later fired when she feared a physical attack, and on the plea of the sanctity of her home.

LITTLEFIELD COLLEGE TO SERVE THE PLAINS

President R. F. Duckworth and Business Manager R. O. Conner were in our city this week, getting acquainted with our citizens and talking Littlefield College. "It is our purpose," said Mr. Duckworth, "to get acquainted with the people of the Plains country and let them know we are here to serve them. We would be glad for you to tell your readers," continued Mr. Duckworth, "that Littlefield College is and will be just such a school as the people of this section will be glad to call 'Our College.' The growth and development of the Plains has just begun, and we propose to keep pace with its most wonderful promise of agricultural, business, and intellectual development."

"Our plan for maintaining the college is so unique," said Mr. Conner, "that all who investigate become interested at once. So sound, sane, and effective are our plans that other schools have made inquiries, and are adopting them, and we believe this fact is sufficient to cause your readers to investigate, and learn first hand of Littlefield College and its possibilities."

LOSSES FROM POULTRY PARASITES REDUCED 80%

GOLDTHWAIT.—Losses from internal and external poultry parasites in Mills county are estimated at about one-fifth of what they were last year, as a result of continued campaigns begun a year ago in the control of lice, mites, worms and chiggers. The most serious poultry menace has been worms and these have been successfully checked by the use of tobacco dust and other expellants. In addition to keeping poultry premises drained and clean, W. P. Weaver, county agent, has shown that one of the most valuable preventives is the periodical feeding of tobacco dust in the mash at the rate of two pounds to 100 pounds of feed. This is continued for three weeks and then repeated at the end of a rest spell of the same length.

FIFTEEN DIE AS SHIPS COLLIDE IN NORTH SEA

LONDON, Aug. 18.—Fifteen persons were drowned when the Spanish steamer Ogono and the British tug Kings Cross collided in the North Sea, 30 miles off Humber, early Sunday morning.

The Ogono was struck amidship and sank in six minutes, giving the crew of 25 no time to launch the life boats.

The Kings Cross succeeded in picking up eight members of the crew, who clung to a life boat, and two others struggling in the water, including the wireless operator. The drowned included the captain and all officers, with the exception of Second Mate Ugaida.

LADIES OF THE CHURCH OF CHRIST BIBLE STUDY

We had five members and three visitors present at our study with Mrs. Foster. We had a very interesting lesson on the Life of David, and our next lesson will be a continued study of his life.

We insist that all come that can, for I am sure you will become interested after a few lessons.

Our next meeting will be with Mrs. E. Pope.

We extend a cordial welcome to all.

"BOOST OR MOVE."

A VOICE IN PROTEST.

Austin, Texas, August 16, 1929.

Editor, The Sudan News,
Sudan, Texas.

Dear Sir: I have just read your editorial in your issue of August 8. It is quite apparent that you have been misinformed concerning the plan of employment of teachers of vocational agriculture as well as concerning the policy of continued service.

Briefly, our policy is this: Qualifications are set up by the State Board, the A. & M. College certifies to the State Board a list of graduates who meet these requirements; from this list of eligibles or from others who already meet the State requirements, the local board chooses its teacher just as it chooses the other members of the faculty. This teacher is just as much a part of the faculty as any of the other teachers and as such is subject to the jurisdiction of the local board.

In case a teacher is unable to retain his job for only a year or so and then is fired by the local board, we always investigate carefully to determine the reason for the teacher's dismissal. If it appears to us that the teacher might have a chance of succeeding somewhere else, we help him get another job; if he has done work of less than average value, we permit him to get a job without our recommendation; but if the work has been entirely unsatisfactory, we refuse to permit him to continue as teacher of vocational agriculture.

To do otherwise would in our judgment constitute an unnecessary waste of public funds. If you will be specific in your statements, I will be glad to give a definite reply to the questions raised in your article.

Very truly yours,

C. L. DAVIS,
Supervisor Agricultural Education.

When the News writer penned the article to which Supervisor Davis takes exception, he had no thought that it would draw the fire of the agricultural head of state education; but since this has been the result, so be it, and The News will be as specific as possible.

However, before framing its list of specifications The News wishes to advance the broad assertion that in the opinion of The Sudan News, the farmers of the state of Texas are not deriving from vocational agriculture, as emanating from Texas A. & M., those benefits due them and which that department is under every obligation to furnish.

Now, to be specific, The News has a few questions to which it would greatly appreciate categorical answers.

- (1) If a teacher in the field of vocational agriculture is to be considered a member of the faculty should he not be considered under the regulations governing other members of the faculty?
- (2) Is not the leadership of the teacher of vocational agriculture as much to the community as a whole as to members of the class in school?
- (3) Is it not as important to train future citizens as to train future farmers?
- (4) Is the importance of a work at a great distance to be ranked with the importance of that work near by?
- (5) Should practical experience be a part of the training of the vocational agriculture teacher?
- (6) How often have men been highly recommended without careful investigation of actual work?
- (7) Are the reports to the home office of more importance than the actual work in the field?

If Supervisor Davis will kindly answer the foregoing questions, The News will be enabled to determine very shortly whether or not it has been "misinformed," as the Supervisor's letter asserts.

FAKE ADVERTISING.

Our neighbors, Jack Stricklin of the Terr, County (Brownfield) Herald, and T. A. Landers of the McLean News, are becoming muchly wrought up over the ubiquitous fake advertising promoter. I seem that both these communities have been pestered plenty by this specimen of the genus homo and the boys have donned their war bonnets and seized their trusty blades to do battle.

Well, if there is one species of reptile that cause a newspaper man's gorge to rise, it is the fellow with a fake scheme to separate the business man from his dollars under a specious pretense of "advertising." A few display blocks on a worthless card, or circular, or folder, that is consigned to the waste basket without a glance, is about all these gentry have to offer. Yet every once in a while some fellow is caught and stung—stung aplenty, then he cusses all advertising, cuts loose from his home town paper—and incidentally "cuts off his nose to spite his face."

We have heard no complaint of this pest infesting Sudan, but perhaps a friendly warning to our business houses might be in order.

School days are looming.

Money makes the married go.

Fall is just around the corner.

MAN'S BEST FRIEND.

A southern newspaper is crusading against stray dogs, and picking holes in the famous defense of the dog advanced by Senator Vest. Stray dogs are the product of shiftless humanity.

If men were intelligent enough to know that dogs cannot, unassisted, earn their way without committing depredations, there would be no stray dog nuisance. Shiftless owners should be jailed, instead of the stray pups shot.

The dog is the only animal that has succeeded in bridging the gap between the brute world and ours. He is the most expressive of all animals and the most candid. On a farm, especially, a dog is indispensable. He fits so perfectly into the farm environment.

RENDER VALUABLE SERVICE.

Thirty-five thousand rural mail carriers sent dimes to buy a car for a farewell gift to Harry H. Billany on his retirement from the postal department. "R. F. D. Billany" as he was called, has served for years as chief of the country mailmen, with an official title of fourth assistant postmaster general. The greatest tribute to the work he has done in the department is the statement by his superior that he humanized it.

The tradition of the R. F. D. carriers, that the mail must come through, and the spirit of friendly helpfulness between him and the farmers along his route, is partly the result of Billany's work. He can well be proud of the work done under his regime.

The rural mailmen make their trips, rain or shine, wet or dry, hot or cold, and they render a most valuable service to the community. They are courageous and conscientious, and many of them now in the service have long records of integrity and public usefulness.

Ever hear of a shortage in the fly crop?

It will soon be fair time over the country.

Just keep your mind cool and you'll be cool.

There is nothing half-hearted about the summer of 1929.

WORTH-WHILE EDITORIALS

THAT HODGEPODGE CALLED POLITICS
(The Southwest Plainsman.)

There is one thing certain, and that is that, notwithstanding the fact that the citizens of the state refused to increase the salary of our chief executive, there is no lack of candidates for the job. They are getting their propaganda out early and most of them have announced a "plank" or two of their proposed platforms—usually a plank which will appeal to the prejudices of some group of malcontents who are "agin" one thing or another. The candidate who can stir up the biggest mess is the one most likely to get elected. One after another, the little political puppets ride into office on the shoulders of the clamorous multitude with a deafening din calculated to drown right and reason and obscure the real issues at stake. It is more than likely if a real statesman were to make a campaign for public office, he would be overwhelmingly defeated, so much more effective is the appeal to prejudice than the appeal to reason as a vote-getter. Prohibition, Ku Klux, the Catholic Church, Tammany, Child Labor, Immigration, and a dozen other issues are used to work up class and other animosities with little or no regard to the principles and capabilities of the man behind them. What a wonderful thing it would be if a man with the qualities which make for real statesmanship might be elected Governor of Texas. But, on second thought, it probably would not do much good. He would be so surrounded by political puppets and wire pullers that his efforts at reform would be hackmated. Texans are wont to cast aspersions at gang-bidden Chicago, but the condition existing in Hidalgo county as revealed by the recent investigation are every bit as bad. We send good men to the legislature and they are obliged to compromise with their conscience and the ruling leaders in order to secure the passage of measures useful to their constituency. No section of the state has more earnest and devoted representatives at Austin than the Panhandle, but most of them are new in the "game" and the multiplicity of bills and resolutions and discussions is most confusing—and often disgusting. It is probable that there is nothing quite so complicated and inexplicable to the layman as the "ins and outs" of law-making. We howl for business men in our legislative halls but when we send them there, they find themselves out of place. Their business experience is of little value because the real merit of a bill is so often swallowed up in such a maze of red tape and politics that they are left aghast at the result when the votes are counted. Is it too much to hope that there will come a day when the taxpayers will rise up in wrath and clean out the Augean stables of our present day political system?

ARE WE ADVANCING?

(Slamrock Texan.)

We are told by scientists and other supposedly learned persons that we are living in an advanced age, that this is the day of culture and refinement, and that the world is rapidly becoming fused into one great people, united in thought and action.

If that is true, how do they account for the actions of the man in Wisconsin who deserted his sick wife and left her to die; the girl of 15 years who shot her father to death in Middleton, N. J., because he reproved her for going to a dance; the couple in Michigan who slew a man because he had an "evil eye", and countless other cases reported daily by the press?

Regardless of how far science has advanced, regardless of how much culture may have spread in a general way, we will always have with us throw-backs to a dark age when man's instincts were entirely brutal. We will always have with us the ignorance of those who will not learn, and the primitiveness of people living too far from civilization to be affected by it. If organized society, which puts itself on the back for the worthy things it has accomplished, would look around, it could find innumerable instances of misery and suffering that it could alleviate by the simple application of a little money and human feeling.

As for the world becoming fused into one people, united in thought and action, that is the product of a dreamer's imagination.

Our Neighbors

Morton

(Cochran County News.)

One of the saddest happenings that ever occurred in Cochran county was witnessed last Saturday evening, when Jimmie Jackson, tractor man in the highway department, received burns from gasoline which caused his death in a few hours.

The Morton Singing School which has been in progress for several days, is having a record attendance, more than a hundred daily attendance.

At the meeting of the Chamber of Commerce last Monday night the subject of organizing a band for Morton was discussed, and it was concluded that there was quite a lot of available material, some with experience, that could and would be glad to affiliate in having a band.

Reports reach us this morning that eighteen of the one hundred twelve tracts of the C. C. Slaughter land have been sold.

The assessed valuation of Cochran county for the year 1929 is a fraction over six million dollars.

Ivy Fulgham, of Brownsboro, Texas, is here looking after the establishment of a national bank in Morton.

Revival meetings will commence at the Church of Christ in Morton, Friday night of this week, and continue indefinitely.

Dimmitt.

(Castro County News.)

The city of Dimmitt, through the council at a meeting held on Monday night of this week, has contracted for the purchase of a modern fire truck, with a three-hundred gallon pump, chemical attachments, and one thousand feet of hose.

What was pronounced as the most successful Old Settlers' Picnic in years, was held in Dimmitt on the beautiful court house lawn Wednesday of this week when their 38th Annual Frolic was held. The attendance was estimated at from 2,000 to 2,500.

At the regular monthly meeting of the commissioners' court of Castro county held Monday, three new voting boxes were created in the city of Dimmitt, giving the municipality a total of four. Three others were established, one each at Nazareth, Flagg and Easter.

Superintendent C. A. Cryer of the Dimmitt schools announces this week that school will open on Monday, September 16.

The semi-annual session of the Plateau Singing Convention for Castro county will meet for an all-day singing on Sunday, August 25th, at Flagg.

Amherst

(Amherst Argus.)

The 6th birthday for Amherst is now history. It was a success. During the three days fifteen thousand people were in attendance despite the rains and continued threatening weather. Everything went off in lovely style. No disorder of any kind. Everyone seemed to have a good time.

The past ten days rain fell over this section amounting to from two to four inches, thereby putting this section in fine condition and assuring a bumper crop for this year.

The Chevrolet coach belonging to Mr. and Mrs. Allan White was stolen some time around 10 o'clock Friday night, while the dance was in progress. No clue to the thief or thieves has been obtained by the sheriff's department to date.

A suit brought in district court this last week by M. E. Thornhill and others, seeking to dissolve the city charter, was successful. The jury returned a verdict dissolving the charter last Saturday. Several of the tract owners had met with the city council several months ago asking for the council to let them out of the city, but the council, according to law, could not do it, and the only way for them to get out was the procedure they took.

A new charter will be submitted to the voters within a short time. This has not been worked out, but when completed will likely mean about the same revenue as before. A new set of city officials will have to be elected as soon as the charter is carried.

Dr. and Mrs. A. C. Gettys of Belton, Tex., are here this week visiting in the home of Mr. and Mrs. James B. Dickson near the city. Dr. Gettys stated that the crops in this immediate territory were the best he saw enroute. He is very enthusiastic regarding our fine lands here, and to the extent that he owns a very fine farm where the Dicksons are now residing.

Dr. J. D. Boren of Lamesa, Texas, will begin a revival meeting at the Church of Christ, August 30.

Mr. Edison says he once went 174 hours without sleep. Possibly some neighbor forgot to turn off the phonograph.—Arkansas Gazette.

ANNOUNCING AN "EVERYBODY WINS" CAMPAIGN

\$2,000 in Prizes, Commissions

WILL BE AWARDED FREE

THE SUDAN NEWS

Saturday, October 5th, 1929

Campaign Officially Opens MONDAY, AUGUST 26
Subscriptions May Be Taken Any Time Following This Announcement

Campaign Plan in Brief

The object of this big prize distribution is two-fold. Primarily, to increase the already large subscription list of this newspaper, to collect arrears and advance subscription payments from present or old subscribers, and at the same time to afford the live-wire, energetic hustlers of this city and surrounding territory an opportunity to profit, and in a BIG way, through their spare time during the next few weeks. So it is a plan that works both ways, and to the ultimate good of all concerned.

In order to gain this end quickly and advantageously, the most valuable list of prizes ever offered by any newspaper in this section has been made ready for distribution among those

How To Enter - What To Do

The first thing to do is to clip the Entry Coupon appearing below; fill in your name and address and mail, or deliver, to the campaign department of this newspaper at once. This coupon entitles you, or the person whom you might wish to enter, with \$500 FREE VOTES. These votes are given as a starter—so speed you on your way to win. Only one such Entry Coupon will be accepted for each entrant.

The next step is to call on, or write, the campaign department

How Votes Are Secured

It takes votes to win, and they are secured in the following ways: First, by clipping the Free Vote Coupons appearing in each issue of this newspaper. There is no limit to the number of these coupons you may secure. Get your friends to bring them for you. They all count. Begin gathering them NOW while they are good for 100 votes each. After next week these coupons will be reduced to 25 votes; the following week to 10 votes, and after that they will be discontinued entirely. The only restriction placed on voting these coupons is that they must be cast before the expiration date appearing thereon.

Early Start Means Easy Finish

The advantages of an early start are manifest. The campaign is of such short duration that immediate action is necessary for success. Orders taken during the early part of the campaign carry the MAXIMUM number of votes. Then, too, the first in the field will undoubtedly get the cream of votes

who participate most actively. Ambition and energy are the only requisites for success.

The plan adopted is the fairest and most impartial conceivable. There will be no "special vote cities" inaugurated during the life of this campaign; neither will there be any "special prizes" given. The plan is straight-forward and simple, and is fully outlined in this announcement.

Let it be understood at the very outset that this is not a "beauty" nor "popularity" contest, but a strictly legitimate competitive proposition for enterprising men and women, and one into which no element of chance enters. One feature of this campaign is the fact that "Everybody Wins." There will be no losers in this race!

for a free working outfit. Thus equipped, you have but to see your friends and acquaintances and have them to pay up their subscription through you. That's all there is to it! However, let us say, you will never get anywhere unless you make the start—the earlier the better. Once started, let us discourage you. Anything worth having is worth striving for. Six and a half short weeks and you may be riding in your own BIG automobile!

The other, and much faster way to accumulate votes in this campaign is by securing new and renewal subscriptions to this newspaper (the right is reserved to include job printing and advertising if so desired). On each order secured a certain number of votes are issued, the number varying according to the amount paid and during which "period" same are received at the campaign department. See schedule of votes opposite.

and subscriptions, while those who put off entering until a later date will have to take what is left.

Don't lose valuable time "wasting to see what the other fellow is going to do" but pitch right in and show the "other fellow" how to do it!

In a six and a half weeks' Subscription Campaign, just starting. Competition is open to Men and Women, married or single, and boys and girls of the more ambitious sort residing in this city and surrounding territory. It costs nothing to try, and every active participant is guaranteed a prize or a liberal cash commission. Read this announcement carefully—every word of it—then clip the coupons below and send them in today. Remember, a good start is the battle half won.

SCHEDULE OF VOTES AND SUBSCRIPTION PRICE OF The Sudan News \$2.00 PER YEAR

FIRST PERIOD	SECOND PERIOD	THIRD PERIOD
Embracing the first three and one-half weeks of the contest terminating Wednesday, September 18. The following number of credits will be given for subscriptions:	Embracing the next two weeks of the contest (terminating Wednesday, October 2). The following number of credits will be given for subscriptions:	Embracing the last three days of the contest (terminating Saturday, October 5). The following number of credits will be given for subscriptions:
1 year, \$2.00..... 2,000	1 year, \$2.00..... 1,500	1 year, \$2.00..... 1,000
2 years, 4.00..... 10,000	2 years, 4.00..... 7,500	2 years, 4.00..... 5,000
3 years, 6.00..... 30,000	3 years, 6.00..... 20,000	3 years, 6.00..... 15,000
4 years, 8.00..... 60,000	4 years, 8.00..... 40,000	4 years, 8.00..... 30,000
5 years, 10.00..... 100,000	5 years, 10.00..... 80,000	5 years, 10.00..... 60,000

Double credits will be allowed on all new subscriptions reported during the first and second periods ONLY.

The above schedule of votes which is on the declining scale will be in effect throughout the contest. However, a special ballot good for 150,000 club votes will be given on each \$20.00 worth of subscriptions reported. Every ten clubs will bring 1,000,000 extra votes. This arrangement is to be considered as a part of the regular schedule and will be in effect throughout the contest.

Also, four 5-year or ten 2-year subscriptions reported during the first period will bring 100,000 extra votes.

The right is reserved to use a special prize in the second period.

Third Prize

DIAMOND RING, VALUE \$125.00
A beautiful large stone surrounded by several smaller stones set in the latest mounting.

\$513.50 IN GOLD FREE

A special fund of \$513.50 has been reserved to pay active non-prize winners on the basis of 20 per cent on their sales.
This arrangement assures compensation for all and means there will be no losers in the race.

Sixth Prize

\$25.00 Cash
Ready Money for a Few Hours' Extra Work

For Further Information Regarding This Distribution of Prizes, Communicate with Contest Manager, care Sudan News—Phone 65.

Campaign Closes SATURDAY, OCTOBER 5
Just A Few Short Weeks To Win Prizes Worth Thousands of Dollars

Rules and Regulations

- No salaried employee of this newspaper is eligible to enter this competition. (This does not apply to country correspondents.)
- Any other reputable man, woman or child residing in this city or surrounding territory is eligible to enter this campaign and compete for the prizes.
- The winners of the prizes will be decided by their accredited votes, said votes being represented by ballots issued on subscriptions and coupons clipped from the papers. This newspaper reserves the right to include advertising and job printing if so desired.
- Participants in this campaign are not confined to their own town or community in which to secure votes, but may take orders anywhere in this section; or, for that matter, anywhere in the state or United States.
- Cash must accompany all orders where votes are desired. Candidates will be allowed to collect back subscriptions and renewals as well as entirely new subscriptions, and votes will be issued on all alike.
- Votes are free. It costs the subscriber nothing extra to cast votes for their favorite. Votes must be asked for at the time of paying subscription, otherwise subscribers waive this privilege.
- Votes are not transferable. Candidates cannot withdraw in favor of another candidate. Should a candidate withdraw from the race, his or her votes will be cancelled. Neither will it be permissible for candidates to give or transfer subscriptions to another candidate. Votes on such transferred subscriptions will be subject to disqualification at the discretion of the management.
- Any collusion on the part of candidates to nullify competition, or any other combination formed to the detriment of candidates or this newspaper will not be tolerated. Any candidate taking part in such combination stands liable to forfeit all rights to a prize or commission.
- All votes issued on ballots may be held in reserve and cast at the discretion of candidates or this newspaper. The free vote coupons appearing from time to time in the paper must be cast before the expiration date appearing thereon.
- In the event of a tie for any one of the prizes, a prize identical in value will be given each tying contestant.
- Participants in this campaign are authorized agents of this newspaper, but it is understood and agreed that they will be responsible for all moneys collected and will remit such amounts in full each day to the campaign department.
- No statement or promise made by any representative or candidate varying from the rules and statement appearing through the columns of this newspaper will be recognized by the publisher.
- In case of typographical or other error it is understood that neither the publisher nor campaign manager shall be held responsible except to make the necessary correction upon discovery of same.
- Candidates who remain ACTIVE to the finish, but fail to win one of the regular prizes offered, will be paid a twenty per cent cash commission on all subscription money turned in to their account. It is distinctly understood, however, that in the event any candidate becomes INACTIVE, failing to make a regular cash report, he or she will, at the discretion of the management, be disqualified and thereby forfeit all right to a prize or commission.
- To insure absolute fairness in the awarding of prizes, the race will be brought to a close under a sealed ballot box. During the entire last "period" of the campaign, a ballot box—locked and sealed—will repose in the vaults of a local bank, where candidates and their friends will deposit their final collections and reserve votes. In this way no one, not even the campaign manager, can possibly know the voting strength of the various candidates, which precludes any possibility of favoritism and insures fairness to the minutest degree.
- 25,000 EXTRA VOTES will be given a Candidate for each group of 5-one year Subscriptions, or the equivalent turned in during their first week of the campaign.
- This newspaper guarantees fair and impartial treatment to all participants, but should any question arise the decision of the management will be absolute and final.
- In becoming a candidate, participants agree to abide by the above conditions.

The Advisory Board

It is the sincere aim of this newspaper to conduct this campaign from start to finish in a fair, honorable and impartial manner. Every precaution has been taken to safeguard the interests of participants, and absolute honesty in all dealing is guaranteed.

However, not all wisdom lies with any one man or institution, and for that reason an Advisory Board has been decided upon, whose functions shall be to decide any question of sufficient moment that might happen to arise, and from which a committee shall be selected to act as judges and award the prizes.

The personnel of this board is as follows:

Judge **S'MON D. HAY.**
W. W. **CARPENTER,** City Clerk.
W. I. **WILKINS,** Supt. of Schools.

All of these gentlemen are well known to everyone in this vicinity and the final results, as given out by them, will be beyond dispute.

HOT PRICES FOR Hot Weather

FARM NOTES

D. A. ADAM, County Agent

The Lubbock Experiment Station is holding its annual field day for Lamb county farmers on Tuesday, August 27, 1929, in Lubbock. The county agent will be in charge, and anyone interested is invited to attend. This is Lamb county's day, and it is hoped that a good crowd of folks from this county will take advantage of this, and see the results of the experiments that are going on over there. Those who are going, please notify the county agent if possible so he can notify the superintendent of the number coming.

Cotton leaf worms are present in greater numbers than before as far north in the state as Georgetown, according to information received by the county agent. Their spread into this section depends largely upon weather conditions. If the weather stays hot and dry, as it has been for the past few days, there is not so much danger, but should it start to showering regularly, an infestation can be expected. Millers are present in rather large numbers in Lamb county, but no worms to amount to anything at present.

Our recommendation for their control should an infestation appear, is that calcium arsenate be applied, either in the dust or spray form, preferably spray for this country. In spraying, the poison should be applied at the rate of two to three pounds to the fifty gallons of water, being sure to keep the mixture well agitated, as calcium arsenate does not dissolve in water.

When calcium arsenate cannot be obtained, lead arsenate is to be used in the same proportions, but will prove to be much more expensive. Paris green and others are likely to prove injurious to the cotton, and farmers should be very careful in applying or buying some patent mixtures sold by some insecticide companies. Calcium arsenate is available but the stocks are very low throughout the country.

The county agent during the past week helped lay off terrace lines on wheat stubble land for A. Clark west of Littlefield.

Last week Mr. Jess Elms and the county agent began work on several bull circles in the Littlefield community. Two bulls were placed, and about fifteen more will be available under the bull circle plan. Every man who is interested in the bull circle proposition should get in touch with the county agent within the next week or so. It is planned that five circles be completed in the Amherst and Littlefield territories within the next 45 days. Much interest is being taken, and is going with great success. Bulls have been placed southeast and east of Littlefield.

It has been found that butterfat cost per pound increased three cents when cows were taken off sweet clover pasture in the Geo. Bohner herd at Olton. Cost per pound of butter in the month of May, according to cow-test-by-mail association figures, was \$0.652 while in the month of June the cost increased to \$0.68 as the sweet clover pasture played out, and cows were placed on native grass pasture.

During the past week the county agent has inspected several fields of pure seed being grown by farmers in the county for seed, and is finding them all in good shape, and most of them are in the process of roguing at present. Inspection was made at the George Bohner farm, Martin White farm, Robert L. May farm, and others to be made within the next week.

Grape yields on the O. D. Lair farm 1-2 miles northwest of Littlefield are good, but hardly as heavy as could be expected on account of hail damage. Mr. Lair has fifteen 180-foot rows which are giving him a yield of 250 lbs. per row, and he is receiving 6c per pound for them. This is one crop of fruit that can be had each year in the vineyard if properly taken care of. This particular vineyard is one of the very best in the county, and is well worth the time taken to stop and look it over.

Farm Bureau Department

J. W. HAMMOCK, Correspondent

LAMB COUNTY MEMBERS HAVE GIN MEETING AT LITTLEFIELD

Lamb county members met in Littlefield Thursday, August 15, for a report on the Farm Bureau gin located there. Mr. Lynn Stokes, president of the Cotton Association, was present and had a very fine report to make to the members and patrons of the gin. He had only words of praise and encouragement to the kind of people we have in Lamb county, and told them that if they would say with their gin that it would not be many years until they could be able to draw their "own money on their own cotton" instead of being forced to borrow from the banks at harvest time.

This gin was completed in its present state, together with the five acres of land adjoining the

railroad property, for the sum of \$47,467.32. After allowing 10 per cent for depreciation, there was a net profit earned of \$23,783.06, or more than six dollars per bale on the cotton ginned.

With the gin about half paid out, and a prospect of as much cotton as we produced last year, there should be a chance to pay out this gin next year. Then the members who patronize this plant most, will profit most, as they will receive 75 per cent of all earnings on the per bale patronage basis, in the shape of a dividend check, and 25 per cent to go in their reserve fund. In this way, when the farmers pay for a gin, they will get a deed to it and can use it for any purpose, even to using it for collateral to carry out their program of putting cotton in a merchantable package, and carrying it direct to the man that uses it for consumption.

LARGE INCREASE SHOWN IN ADULT EDUCATION

WASHINGTON, D. C., Aug. 29.—The number of grown people going to school last year, according to the United States Bureau of Education, increased thirty per cent over the number that had registered for class work the year before. In 1926-27, 290,000 adults were enrolled and that number increased in 1927-28 to 390,000.

Youth has no advantage in learning over maturity, the bureau states. It is inclined to believe, in fact, that when a man of forty-five and a youth of twenty are set to wrestle with any problem that constitutes an element in education, the older man, because of his experience and judgment, will more thoroughly master it. The psychologists have held this view. The fact that they have done so has greatly stimulated expectations as to what may be accomplished in the field of adult education.

As the attendance of parents in schools for adult education increases it has been found that the attendance in day school also increases. The interest on the part of parents to gain education inspires them to greater effort to keep their children in school. Thus the result is greater than it seems to be.

Brother Vernon is holding a Holiness meeting at Friendship.

PREPARATIONS MADE TO CONSTRUCT BOULDER DAM

DENVER, Colo., Aug. 20.—Chief Engineer R. F. Walter, of the Denver office of the Bureau of Reclamation, has been authorized to increase his engineering staff because of the additional work that has fallen upon that office in the preparation of the designs incidental to the construction of Boulder Dam. This is the initial enlargement of personnel because of the approach of the time for the execution of this great engineering task. All appointments will be made in strict accordance with the Civil Service rules, selections being made from eligible registers maintained by the Civil Service Commission at Washington, D. C.

No appropriations have yet been made of monies for actual construction of Boulder Dam. It is not expected that those appropriations will be made until the next regular session of congress. That will be the long session and, since appropriations usually wait until congress are nearing their ends, it is probable that no construction money will be available until some time next summer. There will be no opportunity for those seeking work on the great project until that time.

FIFTEEN KILLED IN TRAIN WRECK IN OKLAHOMA

HENRYETTA, Okla., Aug. 13.—Fifteen persons were killed when the St. Louis and San Francisco fast passenger train No. 113, en route to Tulsa from Sherman, Texas, ran into an open switch here early today.

Thirteen of those killed were negroes, none of whom has been identified, so badly burned were the bodies. Pete Wolfe, engineer, and H. A. Bryan, fireman, were buried in the wreckage of the engine. Both bodies were recovered.

An army tank has been driven at a speed of sixty-two miles an hour, but what's that compared to the pace often set by the human tank on a joy ride?—Boston Transcript.

Archaeologists have found in Arizona an unfinished dam, claimed to be more than a thousand years old. We thought Muscle Salls was in Tennessee.—Atlanta Constitution.

Wall Street Journal says cork is selling at the highest price since 1919, and believe it or not, some of it is being used on fishing lines, too.—Macon Telegraph.

The cotton-growers still have hopes of a campaign to induce women to wear more cotton garments, but what hope is there for cotton when the dear creatures won't even wear silk?—Kansas City Star.

We call them flappers since they no longer wear anything that flaps.—Detroit Free Press.

At Last—A Roof That Cannot Leak!

MADE OF COP-ROLOY THE COPPER ALLOYED STEEL

There is a big difference between Channelrain Roofing and ordinary roofing although both cost about the same. Channelrain Roofing can't leak; the patented lap construction forms a perfect drain and prevents water from getting under the roof.

In addition, Channelrain Roofing is fire-proof and lightning-proof. A highly durable pure zinc coating gives

extra protection to the special Copper Alloyed Steel base, insuring longer life and freedom from expensive repairs.

Channelrain Roofing is easy to apply; no special tools are required. Everything considered, it is the most economical roofing for you to buy and we recommend it unqualifiedly for the benefit of all our customers.

SUDAN, TEXAS

INTERESTING LETTER FROM FAR-OFF CHINA

C. P. O. Box No. 1234, Shanghai, China, July 18, 1929.

Dear Editor: Here comes a letter from this land of intrigue, graft, warfare, famine, suffering, chaos, to tell you and the readers of your excellent paper about China's new woman who has a share in the "goings-on."

If a woman in China, twenty years ago, had been given a Rip Van Winkle sleep, she would be more surprised than he was, should she awake today. Then women had so stay indoors and work something like domestic animals. Or, if of a better family, be cooped up at home and stay there. She was allowed to be seen only by her husband or brothers.

Now what a change! The modern Chinese young women skip around the streets with a spring, grace and freedom that's quite refreshing when one remembers the women formerly hobbling along on bound feet supported by amahs. Now, girls bob, shingle or permanent wave their hair. That's a sign of freedom. They ride bicycles, play tennis, basketball, and engage in other athletics. Formerly the parents arranged their marriages. Now one often sees the young ladies walking very affectionately arm in arm with their "best boys," and the young people often do the arranging. The dress used to be the most modest of any nationality. Now women are often seen with short sleeves and very low-necked frocks even at mid-day. Sometimes they're seen with the most up-to-date up-beyond-the-knee short frocks and flimsy silk hose and very high-heeled shoes. Indeed, the Chinese girls are quite amusing flappers sometimes—shocking sometimes.

So much so that the officials have felt it necessary to issue proclamations commanding them to dress modestly. The girls have even learned to flirt in the most up-to-date way. That's freedom! They dance in the latest style. They ride horses astride, with boots and riding breeches. "That's English, now."

Once the ideal for girls was that they be able to do beautiful needlework at home. Now they are doing other things. They are clerks in stores. Some are typists and stenographers. Some are bankers. They play the organ or piano or other musical instruments. Some are becoming movie artists or actresses. Some are lawyers and judges and doctors, are teachers and kindergartners. They even become soldiers and sometimes they become generals' secretaries! Women also become street-corner politicians and scream the revolutionary platitudes such as "Down with imperialism!" "Give the people freedom!" to beat the most zealous revolutionaries. Rarely do you see meetings for propaganda or riot without seeing girls or women taking active part in them, urging on the rioters. I am glad to say that some few of them are taking part in the Red Cross work in relieving the suffering of those wounded in battle. Women too, occupy places of influence in the government in Nanking. Once women's faces lacked all hope and

Firestone SAFETY for EVERYBODY

It is on the bathing beaches that the ladies' costumes come nearest to the comic strip.—Boston Herald.

After paying four-fifty for a ham sandwich at a night club, we can not understand why the farmers are in need of any more.—Syracuse Herald.

A breach of desert hospitality led to a fight in which 2,000 Arabs were killed. The Arab is determined to be courteous at all costs.—Buffalo Courier-Express.

TOWN AND COUNTY

The small son of Mr. and Mrs. Jack Campbell has been quite sick the past few days.

Bill McGlamory is starting a new store building on Main street.

Mr. Whaley is spending several days in town looking after his various interests here.

Mr. Beecroft, of the Foxworth-Galbraith Lumber Co., was in Lubbock Monday.

Mr. and Mrs. Weaver of Bula were in town Monday.

Mrs. Floyd Davis and little daughter Theresa, are visiting relatives at Mt. Pleasant.

Dave Covington of Canyon is visiting his brother, Joe Covington and family.

Mr. and Mrs. Foster Lumpkins and children are visiting relatives in East Texas for a few weeks.

Mr. and Mrs. Maurice Small, who have been several weeks in Dallas, returned to their home in Sudan the latter part of last week.

Miss Opal Carter of Brownfield and sister, Mrs. John Husband of Kansas City, are visiting their mother, Mrs. Annie Carter, and family.

Mr. and Mrs. J. R. Evans of Dallas are here visiting the former's sister, Mrs. J. B. Findley and family.

Mr. and Mrs. Clyde Robertson and children returned Saturday from Ruidoso, Carlsbad and other points of interest.

Mr. and Mrs. A. W. Ormand and children are leaving today for several days' outing at Ruidoso and other points.

Mr. and Mrs. W. A. Clements and daughter, Willie Mae, and Mr. and Mrs. Ralph Davis are spending a few days at Ruidoso.

Bernard Hillen and Rudie Gryder of Dallas county are visiting the latter's sister, Mrs. Charles Crawford and will visit relatives New Mexico before returning to Dallas.

Property in East Texas to trade for Lamb county property. 215 acres in Vanzant county. R. W. Campbell, care C. D. Campbell, Sudan Star Route. 1tp

L. E. Slate returned the first of the week from Temple, where he had been to place Mrs. Slate in the sanitarium for treatment. Mrs. Slate will remain several weeks longer or until her health is improved.

Mr. and Mrs. Chris Furneaux and Junior are spending a week or ten days with their home folks at Dallas. They were accompanied on the trip by Mrs. G. A. Foote and Miss Fay, who will visit with their daughter and sister, Mrs. E. C. McSpadden, also in Dallas. They left Tuesday morning by automobile.

J. B. James has returned from a stay at Abilene. He says crops are very poor all the way from there up to about Shallowater, and from that point on this way the crops look like a garden. A similar report is given by most traveling salesmen and others who have recently been over the territory.

Mr. and Mrs. F. W. Dent and daughter, Miss Pauline, left Tuesday, Aug. 6, for a visit to the former's brother, H. B. Dent, and family at Canon City, Colo., in the famous Royal Gorge. From there they went to Pueblo, Colo., for a visit with Mr. Dent's nephew, Floyd Dent, and family. They returned by way of Las Vegas, Santa Fe and Carlsbad, N. Mex., visiting the Carlsbad cavern while there. They report 874 visitors at the cavern.

on the day of their visit, 600 of this number being from Texas. The family returned to Sudan last Sunday afternoon.

Mr. Blair of Littlefield, who represents the Kerr Nursery of Sherman, was before the Kiwanis club at their Tuesday luncheon and made a talk, suggesting the improvement of the city park with trees, shrubs, etc. A committee was appointed to go over the matter with him.

Dr. Foote reports the following new arrivals: To Mr. and Mrs. T. R. Snapp, eight miles south of town, a girl born Aug. 14th christened Margie Marie; to Mr. and Mrs. Elmer T. Shockley, fifteen miles west of town, a boy on Aug. 17th. He will be known as Roy Drew Elden Shockley; to Mr. and Mrs. E. W. Howard, who recently came to Sudan, a girl born Aug. 18th, named Helen Elizabeth; to Mr. and Mrs. Joe Essary of Sudan a girl on Aug. 19th.

Mr. Taylor White of Tahoka paid the News office an appreciated call Monday. Mr. White is teacher of vocational agriculture in Tahoka high school, and also operates a prosperous hatchery in that thriving little city. True to the old axiom that if you want a needed work accomplished, see a busy man, Mr. White was called into the breach to lead the son services in the series of revival meetings being conducted by the Baptist congregation. These son services under Mr. White's direction are proving an important part of the services.

Miss Billie Walker of Wichita Falls is here visiting with her sister, Mrs. D. B. Tucker.

O. D. HALSELL, 71, DIES AT LUBBOCK

LUBBOCK, Aug. 20.—O. D. Halsell, 71, one of the founders of Oklahoma's first wholesale grocery concern, but for the past five years active in his family's ranch colonization work in Lamb county died in a local sanitarium Tuesday, following a week's illness.

Mr. Halsell was a member of the firm which founded the Williamson-Halsell-Frazier Grocery Company in Guthrie during the first year of Oklahoma's territorial rights and during the 33-year period between 1889 and 1922 served as president and general manager of the concern.

Immediate survivors include Harold Halsell of Oklahoma City and Louis D. Halsell of Amherst; sons, H. H. Halsell of Lubbock and F. T. Halsell of Amherst, brothers W. E. Halsell of Kansas City, a uncle, and his former wife, Mrs. A. J. Provost of Oklahoma City.

Funeral services and burial will be held in Decatur, original home of the family, on Thursday afternoon.

Turkeys Wanted

We are in the market for several hundred turkeys. Will pay spot cash. We know there is a great deal of roup in the country but if your turkeys are not too far gone we are willing to take our chance and will buy them. See us at once, as this offer will not be for long. WEIMHOLD'S COMMERCIAL HATCHERY, Sudan, Texas.

Permanent Waving

Make appointments at Palace Barber Shop Friday and Saturday. Work done by experienced operators. Miss Walker of Wichita Falls.

Even if you can't tell a mother and her daughter apart now, there is very little that you can't tell them together.—Kay Features.

Officials didn't want to cut the raw money down to its purchasing power for fear of the bill being mistaken for postage stamps.—Arkansas Gazette.

Naturally, Uncle Sam, noting that \$673,000,000 has been cut of his national debt, can't help feeling that every little bit helps.—Manchester Union.

ONE MAN'S EXPERIENCE WITH SWEET CLOVER

E. R. Barger of west of Muleshoe has proved to his satisfaction that white sweet clover is the best all-season pasture for this part of the plains. The first reason Mr. Barger gives for preferring the clover is that dry weather does not have any serious effect upon it. One acre of clover will make ample pasture for three to four head of dairy cows under any conditions, with plenty to spare.

He has twenty acres planted to clover at this time which he will cut for seed about August 15th. When asked if sweet clover did not give the milk a bad taste when used as pasture, Mr. Barger said: "It is quite a common belief that clover will give milk a disagreeable taste. This is erroneous. When clover is not planted at the proper time a poor stand is the result. Consequently there are about as many weeds as there is clover. When cows are turned on this pasture they eat weeds with the clover, which will taint the milk."

"Clover may be planted in May or June, but I prefer fall planting," Mr. Barger said. "This will eliminate the weeds as a perfect stand may be obtained if the ground is prepared in the right way. August or September is the best time and 10 or 15 pounds of seed to the acre is about right. The pasture season is from about March 15th to December 1st. Stock should not be turned on the pasture when there is a heavy dew, as there is danger of bloat. The hay should be cut when the clover first begins to bloom and should be stacked as soon as it can be raked."

Mr. Barger said that stock seemed to prefer the hay to most any kind of green pasture. The cost of seed for planting is considerably less than alfalfa and anyone interested in planting clover and desiring further information or assistance should inquire at the Blackwater Valley State Bank—Muleshoe Journal.

Spare That Tree

A giant sequoia near Grannell, Humboldt county, Calif., is 308 feet tall, 30 feet in diameter and contains 361,366 feet of merchantable timber. Enough lumber there for the building of 22 homes of average size. "Oh woodman, spare that tree!"—Philadelphia Public Ledger.

Trout Fry Do Not Migrate

Trout fry, according to an expert on fish culture, have a tendency to stay near the point where they are planted in a stream, says Gas Logic.

If the new small paper money will stick a little harder than the other, we are willing to forget about postage stamps.—Detroit News.

Jewish Religious Sect

The Pharisees were a Jewish sect who were highly versed in the law and were extreme ritualists and formalists. The common people were exactly the opposite, namely, the unlearned and illiterate, who were content with fulfilling the absolute requirements of the Jewish law.

Take It All

If you are willing to assume part of the blame, you might as well take it all. You'll get it anyway.—Atchison Globe.

The Secretary of Commerce hopes that the federal census will cut the cost of living. We hope it also eliminates brake squeaks.—South Bend Tribune.

Punch Remarks—

Those who wish to sleep in comfort should follow the new fashion of wearing pajamas with plaid patterns. Nothing is more conducive to insomnia than the consciousness of being demode.—Boston Transcript.

Vitality of Children

As the result of investigating some 24,000 cases, it is said that the children of fathers of thirty-five and mothers of thirty have the strongest vitality.

If Miss Talley has the usual farm experience, she'll soon be encountering notes not included in the chromatic scale.—Arkansas Gazette.

Some Fine Handwork

To show how finely the human hand can work, H. E. Radley of Harrow, England, has engraved the Lord's prayer 12 times on a coin smaller than the American dime, leaving room for three more repetitions.

Loss That Makes Gain

It may serve as a comfort to us in all our calamities and afflictions, that he who loses anything and gets wisdom by it, is a gainer by the loss.—L'Estrange.

Cal. Coolidge gets \$2 a word and Al Smith will get only \$1. But Al always could talk twice as much as Cal.—Nashville Southern Lumberman.

Law of Gravity

The law of gravity, simply put, is the "pull" the magnetic power of the earth's mass exercises on everything not in contact with it. This "pull" is the cause of weight.

Hard Working Preacher

Blahop Asbury, "The Prophet of the Long Road," preached over 16,500 sermons.
