## SCHOOL NEWS

Departments Fully Organized and  
Going On to Higher Accom-  
plishments.

**English Department.**  
We are asking for fourth unit affiliation in English again this year. This action must be taken every year until this rating is secured. The effort is being made this year to keep all required English in the same group to see if we can not maintain a more completely organized schedule.

**Mathematics Department.**  
Our department is being extended to cover more thorough work. Bookkeeping has been brought back into the department, together with other commercial courses and placed under charge of Mr. Talbot. Mr. Alldredge has been placed in this department in addition to his coaching. The typewriting and shorthand, with the bookkeeping has come to be one of the most popular in the whole system. Two former graduates Miss Frances Weinhold and Miss Virginia Lumpkin, are in this department for the commercial training. There are ten typewriters, all Royals, being used in this division. The courses, including two groups daily in every one of the three, will be carried throughout the year. Another pupil than those mentioned above, Martin Shuttlesworth of last year is back making a total of three former graduates back with us. The class in solid geometry deserves special recognition for figures they are making and placing in their department.

**History Department.**  
Here is being begun the first Group Study work of this system. The department is badly in need of men to replace the ones destroyed the last day of school. It may be possible to "patch" the ones torn up and Mr. Talbot, Miss Creighton and Miss Kirk are working on it. One change is being carried the entire year instead of half a year. This change is made to accommodate the requirements of the law that 18 hours be given each subject, State and National Constitutions. After this year no Texas pupil can graduate without these courses and a full year in American History. Sudan History Department is merely taking time by the forelock and asking the full unit credit on this work before being compelled to do so. The only subject dropped in place of this half credit is a half year subject of Economics, and it was never affiliated, so we are not losers.

**Spanish Department.**  
The growth of the first year Spanish class has been the wonder of the school. Last year the total enrollment in Spanish was 36. The first year class alone this year enrolled 40 pupils and had to be divided into two sections. It and the bookkeeping classes were the only classes requiring re-division during the first month of the term.

**Science Department.**  
Our Science division has had nothing additional placed to its credit this year. We think we have one of the best instructors of the whole school. He was good enough to be made assistant at Tech during the past two years, so we are not uneasy about our work. Many of our chemicals were ordered after school began. Delay in receiving them is our only complaint. We think it best that such supplies always be ordered in vacation so we may have access to them early, and we wonder what happened to the bill we helped Mr. Talbot make out last spring.

**Vocations, Agriculture.**  
The Agriculture boys met Sept. 12 and organized the "Future Farmers of Texas." The following were elected officers: Doyle Terrell, president; Coleman Terrell, vice-president; Elmer Simpson, secretary-treasurer; W. D. Caldwell, reporter.

The F. F. T.'s adopted the following aims for the coming year:

1. Every member learn the F. F. T. Creed.
2. Beautify school campus.
3. Go no camping trip next summer.
4. Have Father and Son Banquet.
5. Every member finish project work.
6. Finance judging teams to A. & M. contest.
7. 75 per cent of the members to start a savings account.
8. Organize a milk testing association by mail.

The National Dairy Cattle Judging team of Texas located at Sudan is working hard for the national contest that is to be held at St. Louis, Mo., the 12th of October. This team has worked on some of the outstanding herds of the South Plains, and on the 24th and 25th will work at the Amarillo Tri-State Fair. These boys will meet real competition at the national contest due to the fact that the leading dairy states of the union will have teams that can find cattle to work on in most every back yard. The team is composed of Coleman Terrell, Donald Robertson, Jack Lenderson and Noel Lumpkin.

The F. F. T.'s have gone on record as endorsing a cow-testing association to be operated through the Agriculture department or the high school by mail. They have

endorsed this as a result of the study of the problems facing the farmers in the community. They realize more than most people would judge that the farmers of this section are faced with the problem of improving herds of dairy cattle without any accurate record of their butter fat production on the individual cows. In an association of this kind a sample of the milk would be sent to the high school where it would be tested for butter fat content. The man owning the herd of cows would weigh the milk on each individual cow for three days in each month. The number of pounds of butter fat the individual cow produced would then be calculated. In this manner the actual earning power of the cow for the month could be readily found. The approximate cost of each cow's feed is kept for the purpose of finding each cow's net earnings. There would be some expense attached to a thing of this kind but it would be very small compared to the service performed. Organizations of this kind are working in the state with very good success. The one at Cisco, Texas, having some 400 cows on it. Anyone interested in a proposition of this kind, see the Vocational Agriculture teacher on the school ground Saturday or sooner and a better explanation of the purpose of the association and the cost will be made.

**Home Economics Division.**  
Here again, we are making progress. Third year has been added to the course. The division has all the girls that one teacher can teach. Three full years are being devoted to this course. Just at present we are learning how to prepare and serve different meals. This is a pleasure for we can put it into practice at home. Later in the year we shall include in this, courses in dressmaking, designing, etc.

**Grammar School.**  
This division, if not as old or wise as high school, is at least much larger. We are trying to make our enrollment reach 500 in the near future, with the present increase in numbers it bids fair to do so within a very few weeks. Already we have added our fifteenth teacher in this division. She is Miss Mabel Shaffer, and has charge of section number 11 of low first grade. It has been necessary to move high second grade over to the high school building. There are now over in that building five teachers of the intermediate department. Both sections of third and fourth grades are over there since the first of the school, and now the high second is over there.

Little Floyd Venable had the misfortune to break both bones in his right forearm Tuesday. Mr. Wilkins took him to a doctor and had the bone set, then took him home. Floyd is back in school Wednesday morning but says he is not going to try to sit on anybody else's lap.

**Football Division.**  
We are having a few men out occasionally. Last Monday at noon we took a "weighing." Our team tips the scales at 141 pounds average. This is probably the lightest football team on the Plains. We hope to make up for this fault in weight with football sense and speed. In our last game against Clovis we gave them a good scrimmage. We could not say much more for ourselves. The score was 66 for Clovis. Sudan never crossed the goal line. It was not due to lack of coaching, but to the light weight of our team. Clovis was heavier than Sudan by nearly 40 pounds to the man. They were also older by an average of four years to the man. On Friday of this week we meet Littlefield on their gridiron. It is nearly impossible for us to play at home and pay visitors their expenses. When will we have a park like other schools about us? Go with us, friends, to Littlefield and help us win this game against a heavier team than ours. Last Monday at noon, Mrs. Wilkins, one of our former teachers, gave us a melon feast. We certainly enjoyed every bite of the melons. Invite us again, Mrs. Wilkins. Such evidence of desire to help our little team out is much more than simply appreciated by us boys.

**The Pep Squad.**  
Tuesday afternoon the Pep Squad met and completed the election of officers. The following were elected: President, Marie Walker; vice-president, Wanda Potts; secretary and treasurer, Elsie Carpenter; reporter, Lillian Hunt; yell leader, Mildren Hunt; assistant leader, Vivian Pippin.

Plans were made to sell candy, sandwiches and popcorn at school, Thursday at both the high school and grammar school.  
The pep squad is learning new yells and songs, and hope that soon we will make our appearance in pep uniforms. The uniform is a gold jacket trimmed in black with a dark skirt.  
Friday afternoon following the game the boys and the high school faculty will be served a picnic lunch on the high school campus after returning from the game at Littlefield. At our last game, which was at Clovis, there were not many present, but the pep squad gave their best to the boys on the field. Everybody is invited to attend the game at Littlefield Friday.  
Reporter.

## Second Period Ends Wednesday, October 2

Wednesday, just one week away, will be the close of the Second Period of the campaign, the last big vote period. This community is about to see some of the hardest and most spectacular campaigning ever witnessed. All through Lamb and Bailey counties the campaign is assuming its logical place as the one affair of importance. This distribution of gifts to energetic workers is the most liberal and far reaching ever undertaken by a newspaper the size of The News in this section of the state, and it is only natural that the best prizes should be keenly sought.

All contestants are preparing for the final dash, and speedy work until the end, and especially up to next Wednesday night, the close of the Second Period. Also, friends of the contestants are, with one accord, determined to help their FAVORITE win in the race for the Pontiac Four Door Sedan and—VICTORY.

### No Candidate Certain.

In the last fight for a commanding lead and supremacy, every nook and corner of the entire trade territory of Sudan is being combed for subscriptions. The energetic contestants are leaving no stones unturned for new and old subscriptions alike. Many votes are being showered upon campaign headquarters and present indications unquestionably point to a hair-breadth finish. From the outlook of conditions now, the prizes will be won by narrow margins.

As no candidate can be certain of victory, there is abundant speculation as to the outcome. First one candidate then another is picked to win the big prize, and this is undoubtedly due to the closeness of the race. Only those who rise to the occasion, brushing aside every obstacle that presents itself have the opportunity of winning.

### Race Very Close.

The race is too close to count on possibilities. Relaxation at this stage of the race is suicidal to success. Determination to win, supported with relentless activity in vote getting will make any candidate a winner.

If there ever was a time that candidates should be up and working, it is NOW. The prizes are worth every bit of the effort put forth to win them. Where else, or how else can your time be as productive and remunerative?

No one has anything "cinched" today. No candidate is resting so easily that she need not put forth every ounce of energy possible. Everyone needs to work as she has never worked before, for it is still anybody's race. The liveliest time of the competition is now at hand. All the contestants are on the same footing at the same time and those who want to—and will—are afforded the opportunity of the entire campaign to forge ahead and secure the winning votes.

Time waits for no one. Each hour brings the close of the Second Period nearer as well as the end of the campaign when the big prizes will be awarded. The contestant who lags now will be the one who will be left out when the big distribution is made. The one who works with all their might now will be rewarded when the end comes. After the six prizes are awarded to the six highest contestants, in order, others in the race will get twenty per cent of their individual sales. The Pontiac worth \$1041.50 should be your goal. Why not make up your mind now to win it?

### How Period Will Close.

Wednesday night, October 2, the Second Period will end; thereby bringing into effect the third and last Period, which is only 3 days long, and incidentally carries the smallest vote schedule of the campaign. There will be no more Second Period credits issued after Wednesday night, except where subscriptions have been mailed to the contest department and the post mark on the letter is dated not later than 12 p. m., October 2.

From now until the close of the Second Period is the time to make reasonably sure that you will win the prize you most desire. After the close of the Second Period there will be no more double votes on new subscriptions or advertising. Neither will there be any extension votes.

Again we urge you to DO YOUR BEST WORK NOW!

### CLUB BOY GETS BIG CORN CROP

RUSK, Texas, Sept. 23.—Morris Mayfield, Cherokee county club boy, has gathered 52 bushels of corn from his club acre. It was fertilized with 200 pounds of 10-4-2 fertilizer and was side dressed with 100 pounds nitrate of soda. The seed used is said to have had much to do with the big yield. It is described as Johnson county white dent corn bought from a club boy for \$5 per bushel. Mr.

Mayfield says this is the best money yet spent on his farm for farming operations.

### JOHN GUMALT DREW THE BEDROOM SUITE

The bedroom suite given away by Everybody's Cash Store, Stuart Furniture Store and the M System Store was drawn by John Gumalt of the Fairview community, Saturday.

## SUDAN ELEVATOR IS REOPENED FOR SERVICE

During the past few days the Sudan Elevator has been reopened for business, with P. E. Boesen, manager; George Rector, buyer, and W. N. McNeely, bookkeeper and weigher.

The elevator is owned by Mr. Boesen and other local citizens, and was leased to the Beasley Grain Company of Amarillo for the twelve months ending Sept. 1st of this year. This lease has expired and the elevator has resumed business under new management and purposes to give satisfactory service.

The Sudan Elevator was built three years ago by Mr. Boesen and a small company, and until last year was operated by local people.

The Sudan Grain and Elevator Company will handle coal, will buy all classes of grain, and will at all times pay prevailing market prices.

Sudan people are pleased to see his industry resuming business.

## MEETING OF W. M. U.

The W. M. U. met Monday at 3 p. m. with Mrs. W. W. Carpenter or our Royal Service Lesson on "Woman's Responsibility in the New World." We had a very interesting lesson and several good talks; lesson led by Mrs. Clyde Robertson. There were eleven members and one visitor present. We are proud to note this many and hope we may grow in numbers and faith.

We will meet next Monday at 7:00 o'clock for workers' meeting. Be on time and bring thimbles and scissors as we hope to complete our quilts. Place will be announced at Sunday School, and also we will serve pie and coffee every Saturday at 11 a. m. at the Sudan Mercantile Co. Pie 10c per slice and coffee free. Come and eat your favorite pie.

Reporter.

## FARMERS GIN BUYS SEED HOUSE—COTTON STALLS

The Farmers Gin has added to its equipment a 20-100 foot seed house and cotton stalls. The building was originally erected on the P. E. Boesen farm just south of town, and had been used as a storage room for grain for the past two years by the Sudan Grain & Elevator Company.

The Boesen land was recently platted into town lots and the building was moved the first of the week to the Farmers Gin Co. property where it will be repaired and used for the purposes stated.

## BENEFIT SHOW WAS WELL PATRONIZED

Two shows Monday night were necessary to accommodate the crowd attending the C. C. Benefit Show at the Garden Theatre. The show was given by Sudan Community Chamber of Commerce for the purpose of defraying expenses of the Sudan Band. The large attendance showed a fine cooperative spirit and the promoters appreciate the interest manifested.

## KING FEED MILL SOLD.

J. C. Whaley closed a deal Monday for the L. J. King Feed Mill, and will move this additional equipment to his new mill next the Santa Fe tracks.

Mr. Whaley has employed Mr. King as superintendent of the new Whaley Mill. Mr. King is a finished mechanic and has been a resident of Sudan for several years.

Tourists looking for Sunday parking places will be glad to learn that a few choice ones may still be found near country churches.—Cincinnati Times-Star. More of them in town.

Little Girl (radio fan disturbed by her prayers by scratching on the screen door)—"Please stand by, God, while I let the cat in."—The Pathfinder.

## COLLEGE NOTES

Second Year of Littlefield College Starts Off With Bright Prospects for Successful Term.

The readers of this paper will be glad to know that the Littlefield College has opened its second session with a growing interest and firmer foundation.

Students began arriving Monday. More of the teachers came in Saturday and Sunday. Miss Helen V. Bell reached the city Saturday night. Miss Stella Strange and Miss Mary E. Robertson arrived Sunday. Mrs. Bertie Baker, matron of the dormitory, arrived last Wednesday, and she is showing herself to be a housekeeper of ability.

The members of the faculty this term are: R. F. Duckworth, E. K. Kitchen, Sam H. Cantrell, Helen V. Bell, Mary E. Robertson, Maudie J. Field, Stella Strange, D. L. Shelton, Consuelo Flattery, Mrs. Rosa Micky, Vivian A. Burton, and Nova Austin.

The following statement from the catalogue will be of interest:

**Purpose:** The great need of the world has always been, is now, and will continue to be, qualified leaders, leaders of thought, leaders of development, leaders of clean, honest, upright, broad-minded activities. Honesty, integrity, and unselfish service when found in men and women of natural ability and education make of them qualified leaders in their respective spheres.

Parents who have such ambition for their children, who are instilling into their minds and hearts the great ideals of citizenship and service to humanity and to the God who made them, will find that in Littlefield College these qualities will be enlarged as the education and development of the mind enables the boys and girls to see with quicker, deeper, and broader vision the great possibilities for themselves. When you have sent your boy and girl to us, we will endeavor to send them back to you with a healthy growth and development, and in every case shall try to keep them from getting into narrow, selfish conceptions of their duties and responsibilities. We will try to teach them so as to fit them for whatever occupation they may have in life, fit them that they may go into the home of the poorest or unlearned, and act with such consideration as to lessen or eradicate the embarrassment of their host, while at the same time we will try to develop them that they may go into the most fastidious homes of the wealthy or educated, and act in such a way as not to embarrass their host. We will try to qualify them to press for principles, for facts, and to stand unyielding for well grounded convictions without being discourteous, rude or disgusting to those they would try to influence. Littlefield College is not in any way a religious institution. The teaching of the Bible is not its function. It is a secular institution and claims no place among religious institutions. Yet, we propose to select only teachers who will declare themselves opposed to Darwinism, organic evolution, or any other form of infidelity, which denies the Bible story of Creation and the birth of Christ.

"We will not countenance the teaching of anything in the school room or on the playground that will cloud the mind or dull the child's ability to hear and follow the teachings of Divinity."

Several of the students have advised they would be late but are coming. It is understood the school will give them the advantage of the term if they arrive in time to register this week or next.

We will give a fuller write-up of the opening in next week's paper.

The College Scribe.  
(The News regrets the above contribution arrived too late for insertion in last week's issue.)

## TIME IS FLYING! ARE YOU TRYING?

The candidate who expects to win the Pontiac Four Door Sedan will make every minute in the remaining part of the Second Period count BIG.

Following is the standing of candidates based on the reports for this week:

Miss Jewel Hammock, Sudan	491,000
Mrs. Bell Lollis, Littlefield	488,500
Mrs. J. H. Shepherd, Bula	485,200
Mrs. Wade Davis, Amherst	359,500
Miss Frances Parish, Earth	356,000
Miss Bonnie Belle Lyle, Sudan	230,000

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.  
"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE."

WATCHING THE PROCESSION GO BY.

Go where you will in any part of this good land—search the country over—you will find it the invariable rule that where a community has grown in a healthy, wholesome way, there has been united, harmonious cooperation of all civic agencies: a standing together and working together of all elements of the people for the advancement of their community. Some may think The News too prone to repeat itself in this statement, but we think not. We believe the truth needs driving home again and again. Not that Sudan is greatly lacking in cooperation—on the contrary, Sudan has splendid cooperation. Yet there are still a few who should be working heartily with our Chamber of Commerce, who are selfishly standing aside and watching the procession go by. Capt. Nusbaum noticed this attitude and remarked on it. True, these parties are few in number, and, let us hope, not strong in influence. Now The News freely admits that each man is entitled to his own view of all public movements. Yet this dissenting attitude on the part of even a very few individuals must prove more or less embarrassing to the progressive majority, and this majority is entirely justified in censuring the dissenters when their attitude interferes with the smooth progress of movements calculated to better community interests.

The News hopes that this selfish aloofness may be overcome and the parties brought to see the unenviable light in which they must stand with their fellow citizens—with men and women who are making every possible effort to forward the interests of Sudan community. The News has no severe censure for these parties—simply a profound sorrow that persons in every way equipped for effective public service should carelessly let golden opportunities pass them by.  
Why not "all get together, stick together, pull together, and trade at home"?

ALMOST ANYTHING MAY HAPPEN.

Following the assassination of District Attorney John A. Holmes at Borger, affairs in that turbulent little city are rapidly assuming disquieting shape. Not only has a large force of Texas Rangers been ordered to Borger to solve the mystery of the assassination, but the National Guard has been called into the mess, and Brig. Gen. Jacob T. Wolters is now at Borger and it is stated will inform Gov. Dan Moody by today whether or not martial law should be proclaimed.

Capt. Hamer of the Rangers is quoted as saying there was in Borger "the worst bit of organized crime" he had seen in years. To this statement Sheriff Joe Ownby and many Borger citizens have taken exception, and the Borger Herald editorially calls on Capt. Hamer to prove his charges or retract.  
With the prospect of martial law in Borger the situation increases in tenseness as the hours pass, and the surrounding region is expecting meet anything to happen in the immediate future.

Meanwhile, if any clues as to the assassin or assassins of Attorney Holmes have been discovered, they have not become public.

JUST A "BAD BREAK."

"The plane accident was terribly unfortunate and it no doubt will have a tendency with some of the more skeptical ones to say that aviation is unsafe," says Will Rogers in commenting on the recent air liner tragedy in New Mexico. The tragic mishap will not interrupt the travel by airplane. Aviation will continue to go forward, despite its temporary setbacks.

Last year more than 25,000 lives were sacrificed to speed and carelessness in automobile accidents. Every Monday comes reports of fatal accidents on the main highways of the country and the streets of the cities in this locality. Despite the number of airplane crashes from time to time, statistics show that the chances of the average aviator escaping death by violence are better than those of the average automobile driver. Air transport has made rapid strides in the last few years. It is unfortunate that there can be no guarantee of absolute safety in any form of transportation today.

SIGNS OF FALL.

The summer is gone. Fall is here. There is a touch of Autumn in the air, bringing us comfort and spirit. There may be warm days yet, but they will be fall days. Sleep is now more refreshing, and we are better able to meet the tasks of the day.

The fly swatter may now be laid aside and the radio will lose many of its strange sounds. This delightful season witnesses increased activity in business. Coal dealers especially become cheerful in their demeanor. There is an overhauling of clothing for colder weather. After the world series, sport fans turn from baseball to football. Lodges and other or-

ganizations open their activities for the fall and winter season. Larger congregations greet the ministers in their pulpits on Sunday. All around the signs of fall stand out.

Autumn with its so-called melancholy days, is a glorious season of the year

THE MARATHON CRAZE.

A deplorable sign of the times is the prevalence and popularity with a certain class of people of "reak" "marathons." Time was when the marathon represented a feat of human endurance in some realm of athletics. Today a marathon may mean anything. The great word has fallen upon evil days. It may be pushing a peanut with one's nose for 21 miles up a mountain, or most anything else. So long as one is "champion" that is all that matters.

READY FOR FALL.

You will find the merchants ready with a splendid showing of new Fall and Winter merchandise. Shoes, dress goods, notions, etc., in Autumn's up-to-the-minute styles. No matter what you need, you can buy to your best advantage in Sudan. From tooth brush to tractor, lead pencils to linoleums. You'll find just about every item you need. Do your Fall and Winter shopping in the Home Town, which means greater satisfaction for you and greater prosperity for everybody.

Brother George E. Lance of Morton has recently enlarged his Hockley County Herald to a six-column paper. Brother Lance is doing yeoman service in Hockley county, and The News is pleased to see that his publication is growing apace as he assists in building up his community.

Henry Ford has bought a historic gold mine in Virginia. Will he try to move it to his Dearborn museum?

Wouldn't it grand if some bug with a heavy appetite for backyard weeds would make his appearance?

"Good resolutions too easily forgot," says a headline. For goodness sake, is it New Year already?

Varying estimates of the 1929 wheat crop indicate the greatest guessing contest of the season.

One endurance contest that is never the object of enthusiasm is the payment of taxes.

Picnic days are fast passing.

Hurrah! Picnic season's over.

September is just about gone.

WORTH-WHILE EDITORIALS

TAMING FIRE'S MINIONS.

(Fort Worth Star-Telegram.)

The news out of Washington that the scientists of the Bureau of Statistics are at work on a self-extinguishing cigaret butt and a fireproof match is no joking matter. It represents a serious effort to reduce a fire hazard that has grown to alarming proportions within recent years. And, of course, the effort is to save the consequences of human carelessness, since it is not the cigaret butt itself nor the match that makes the fires, but the failure of somebody to extinguish it before it has caused damage.

Cigars naturally expire from lack of draft wherever they may be dropped, and the danger of fire starting from them is small. Cigarettes, especially the tailor-made kind so popular now, will, on the other hand, continue to burn until they are reduced to ashes, and the fire they contain is exposed on all sides to whatever the discarded butt may touch. With total national consumption taken into consideration, it was found that cigarettes are a 40 to 1 fire hazard as compared with cigars. The angle at which matches fall, and the conditions under which they fall determine to a large extent the amount of danger they offer to property and life. The recently announced treatment by which it may be reasonably assured that cigaret butts will not burn and that matches will go out quickly will place the cigaret and the match on the same comparative innocuous plane that the cigar now occupies.

Carelessness of smokers causes an annual fire loss of something like \$90,000,000 in the United States. Therefore, the efforts of the Bureau of Standards scientists, and the results obtained, may be regarded as anything but a joke. It is a public service they have rendered, and thanks are due to a woman member of congress, Mrs. Rogers of Massachusetts, for instigating the experiments. It is likely that they will prove of much greater benefit to the country than would a thousand rousing speeches in congress.

## Draughon Business College

For twenty years a WEST TEXAS business training institution and which has recently been established in the Hub of the Plains

### Lubbock, Texas

invites you to visit our school rooms during the Fair and see for yourself how we train ambitious young men and women for responsible, worthwhile positions in a short time.

Our courses are Internationally Accredited and thoroughly modernized; our graduates are found in every West Texas town in fine positions.

If you desire to be trained to fill a similar position to one of the 18 positions we were unable to fill last month, or desire to be trained to fill a similar position to one of the 46 positions we did fill last month, then write for Catalogue F, Box 451, Lubbock, Texas.

The Panhandle South Plains Fair is the greatest attraction of the fall season. It is bigger and better than ever. The promoters have spared no pains or expense in making it the greatest event of like nature in the history of Texas.

Lubbock extends a cordial invitation to every citizen of the Panhandle South Plains to visit this great Fair and learn of the wonderful progress made.

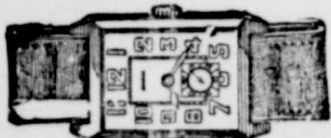

And along with this invitation goes one from the enterprising business firms of Lubbock to visit them also. All have prepared a wonderful showing in their lines for this event, and are anxious to show you what the South Plains can afford in the way of creature comforts and conveniences.

### Peppy Football Games At South Plains Fair

LUBBOCK, Texas, Sept. 25.—Twelve of the best high school football teams in the South Plains section will be seen in action at the Panhandle South Plains Fair, September 30 to October 5 as a free attraction.

No charge will be made for the football games as everyone inside the grounds will be admitted free, a record breaking crowd is expected each of the six afternoons. Paul Wright, Slaton coach will bring his Slaton high school team here Saturday, October 5, for a game with T. P. Hayes Plainview high school Bulldogs. The two teams have played here at the fair several times in the past and each game has proven to be a spectacular contest.

On Friday, October 4, the district champs of 1928, Harry Taylor's Post high school Antelopes will be here for a game with Coach Elvis E. Glibreath's fast O'Donnell high school squad.

W. W. Nichlaus, former Texas Tech star will bring his Tahoka high school team here Thursday, October 3, for a battle with the Littlefield high school team. Littlefield and Tahoka have been rivals on the fair park gridiron in past years and every game has been a stirring contest for honors.

Crosbyton, capital of Crosby county on the east of Lubbock and Levelland, capital of Hockley county on the west of Lubbock will lock horns here Wednesday, October 2, when H. E. Lewis, coach, will bring his Levelland squad in to the fair to play Finis Vaughn's Crosbyton eleven.

Ralls and Brownfield, another set of rivals are matched on Tuesday, October 1, the second day of the fair. Marlin Hayhurst, another Tech star, coach of the Brownfield high school squad will put his team up against G. F. "Froggy" Lovvorn's Ralls Jack Rabbits.

The first day, September 30, will be featured a game between Coach Henry E. Frnka's Lubbock high school second team squad and Jack Agee's Lorenzo high school team.

Maybe the boss' daughter will refuse to marry the snob after all. What would that eastern professor advise then? — Minneapolis Journal.

We are not among those astonished at Mabel Willebrandt's retirement to private life. She has been prying into it for quite a while.—The New Yorker.

Seventeen boys are taking a course in cooking in a Buffalo high school. The time is coming soon, of course, when no girl will marry a man who can not cook.—Albany News.

### What Fifty Cents Will Buy at P. S. P. Fair

LUBBOCK, Texas, Sept. 25.—"The people of the Plains will find that their fifty cents will go farther in buying entertainment at the fair this fall than it ever has before," Eyrone C. Dickinson, president of the Panhandle South Plains Fair says, in commenting on the fair that will be held this fall, Sept. 30 to Oct. 5.

"Fifty cents will take you to everything on the grounds with the exception of the carnival shows," Dickinson says. "And the word 'everything' applies to a free football game each afternoon, six vaudeville and circus acts daily, fire works each night, and many other forms of special entertainment as well as to all the exhibits in the agricultural building, the industrial building, the machinery building, the live stock barns, the poultry building, the women's building and other exhibits over the grounds."

Many improvements this year are expected to attract a big number of new people to the fair to smash the 1928 record attendance of over 120,000 people.

County agricultural exhibits are expected from every South Plains county. First prize in this class is \$200 and other prizes in proportion. Premiums on live stock, poultry, articles in the Women's department and other prizes are in line with prizes and premiums of leading fairs of the Southwest. "We're offering the people of West Texas a real fair for a total cost of fifty cents and we are expecting a big attendance," Dickinson says.

### AID TO VETERANS.

General Summerall, chief of staff of the army, gives credit to the American Legion's efforts in behalf of disabled veterans and government's extraordinary provisions for them. He reports that a million veterans have now been hospitalized, and that of 179,519 who have entered training for vocational rehabilitation, 129,749 have been so aided that they have been able to take a sound position in civil life. General Summerall remarks that "certainly this is evidence that the government is devoting itself to the care of the man and woman who went forth consecrated to a great cause" for mankind.

The old pension system, always a prolific source of abuse, was wisely amended in the case of the World War veterans. But without the pension system more money has actually been disbursed by the government for relief of veterans than the entire pensions of Civil War veterans in 60 years. General Summerall stated that total disbursements for World War veterans now aggregate \$4,750,000, while in addition there is government insurance in force of more than \$3,000,000. Adjusted service certificates total nearly \$3,500,000,000, and insurance awards exceed \$1,500,000.

In this report General Summerall complimented the American Legion on its constant aid and support of the government Veterans Bureau. "They may regard each other," he said, "and should be regarded as members of a single team, working for the furtherance of that happiness that has always been our country's goal."—Fort Worth Star-Telegram.

An army colonel has just been retired for "humiliating" a general. What the world is really waiting for is a colonel who could humiliate a second lieutenant.—San Diego Union.

And to think that we could have been rich long ago just by letting one another have everything on credit.—Publisher's Syndicate.

## Why Not Have a Farmers' Trust?

Thomas J. Sullivan of American Press League, Asks a Pertinent Question.

Time and the courts have so stripped the anti-trust laws of their legal efficacy that most of the people are of the opinion that whatever in the way of a trust or monopoly was a restraint of trade fifteen years ago can now be legalized with the aid of skillful lawyers. Otherwise, how can the prolific brood of trusts, combines, consolidations and mergers with which the country is increasingly blessed each day be explained? Having evidently consigned the future prosperity of the country to the dogs, old Mother Wall Street gives birth almost daily to a new trust or merger of one sort or another.

**Why Not a Farmers' Trust?**  
With the examples set by industry and the financial barons in the formation of trusts, merger, and combines, why not an agricultural trust? Consider the exceptional fitness of things in agriculture for a successful trust. It is the most important and fundamentally basic business in the world. Taken as a whole, the agricultural population of America is its sturdiest group, and the least given to speculative and unsound ventures. Its strength has rested in the success of its individualism, but this same individualism would admirably lend itself to collective effort. The farmer, however smarted under the belief that American industry has enjoyed favored discrimination at the hands of both the government and the general public. Today, for the first time, as the result of recent legislation, agriculture seems to stand on a parity with industry, at least, so far as opportunity is concerned. And the vicious objective of capitalistic America is too obvious for even agriculture not to see its eventual assimilation into the power of industry and capital.

**Agriculture's Opportunity.**  
If agriculture were to combine and form a trust, or merger its fundamental and allied lines of production into specializing trusts it would come forth the greatest business combine in the world directly and indirectly controlling the channels of trade which serve the wants of mankind. The grip of the agricultural trust would be felt on all food stuffs, foods, clothing, etc., and on the material and ingredients which make up three-fourths of the world's consumption of living necessities. That opportunity is tempting the farmers is self-evident in the present trend of events. After all the farmers perhaps would be justified in organizing an agricultural trust to protect themselves against being gobbled up by the industrial trusts and capitalistic combines.

There are certain peculiarities in American national life. The inherent tendency of Americans is reactionary following patient tolerance of a disagreeable situation. Whenever inertia appears in the American attitude toward a repugnant condition, it arises more out of the grip of habit than through digression from American traditions and ideals. That farmers in the past have not acted in concert is no criterion by which to judge their future reaction, nor any assurance that agriculture will not ultimately become king among the peerage of American trusts.

## Bobbitt Refuses Job as Attorney General

LAREDO, Sept. 19.—R. L. Bobbitt of Laredo has been offered appointment as attorney general by Governor Dan Moody and has declined it, authentic information Tuesday night revealed.

He declined the proffered office Wednesday or today.

This was regarded as a definite decision on Bobbitt's part to be a candidate for governor.

## Our Neighbors

### Littlefield

(Lamb County Leader.)  
Little Ramer Tilton, three year old son of Mr. and Mrs. F. L. Reed, was crushed to death Tuesday afternoon, when a wagon loaded with maize heads passed over his body. The parents came here from Childress county about 18 months ago and are living on a farm adjoining Oklahoma avenue, and about six miles east of Littlefield.

The Rev. Hoffmeyer of Chicago was installed last Sunday at the Lutheran church at Abernathy. Rev. Luecke, local Lutheran pastor, officiated at the ceremony.

That the "First State Bank" will be opened in Littlefield within the next thirty days, is the statement of C. B. Sullivan, Austin, who was here the first of the week relative to the new financial institution.

Manager Max L. McClure has a force of workmen busy this week making considerable changes and improvements in the Palace Theatre building getting it ready to receive the new "talkies" that are soon to be installed here.

The Enochs gin turned out the first bale of cotton for this season last Tuesday, it being produced by J. E. Lynn, residing about eight miles east of Enochs.

Carl Alton Barnett, born April 22, 1909, died Sept. 12 as result of trying to catch a freight train. He died in Elk City, Okla. The funeral was held in Littlefield, Sept. 14, with Rev. Roy A. Kemp officiating.

The Lutheran church of this city has since last year opened a parochial school. The enrollment, naturally for a new enterprise, is small. This school, of course, seeks to give the children of the congregation, not only the regular branches of the public schools, but also a Christian training in faith as well as morals.

Miss Ruby Mashburn, recently appointed home demonstration agent for Lamb county, will begin her work here next Friday.

### Morton

(Cochran County News.)  
Slaughter-Marlin oil well No. 1, 12 miles south of Morton, is now undergoing the plugging operation, to the extent of 115 feet to the point where oil was struck. As it requires three or four days for materials to set, the probability is that it will get its dose of nitroglycerin about Sunday or Monday next.

W. L. Miller, north of Morton, has the honor of marketing the first bale of cotton in Cochran county, last Thursday evening, Sept. 13.

At a fair meeting held at the court room last Saturday, judges were chosen for Cochran county's fair, Sept. 26, 27 and 28.

The Morton high school started off last Monday with a large attendance.

Morton and vicinity had the pleasure of hearing for four evenings last week, Rev. Frank Wenger, of Heston, Kans., evangelist for the Mennonite church.

The big rotary drilling machine of Bryan & McCamey, drillers, is on the ground at the C. C. Slaughter tract, adjoining the city of Morton, and operations will soon be begun.

It was a humdinger. We refer to the two inch rain that spread all over Cochran county last Sunday night, putting the finishing touch to the late crops.

J. C. Whaley, wife and son, of Gainsville, were Morton visitors Friday. Mr. Whaley says that the South Plains have the world beat in more ways than one. This is not idle talk and he is showing his faith by his works, owning large tracts of land in this and Lamb county.

**KIWANIS NOTES**

**Air Sign—4-H Clubs—Club Extension — Directors' Meeting—Program.**

If Sudan is going to be a modern, up-to-date town, we should have the town name displayed in such a manner as to be visible from the air. Although our air lanes are not crowded, it would be good advertising for such travelers to see that we are alive to modern methods of travel. Let's have some suggestions.

Kiwanis Clubs all over the continent are very active in sponsoring 4-H Clubs. To date, we are falling down along this line and our boys and girls are missing a wonderful opportunity. Why not give this a serious thought?

I am in receipt of a letter from our Lieutenant Governor saying that Walter Humpton is back in Texas. Let's all get together and see if we can't sponsor a club in Amherst. It will only take six signers on the petition to get Walter back up here to work. Personally, I would be proud to show him the progress that our club has made, and I am sure he would be pleased to meet with us again.

Our president would like to meet all the directors this week as there is some very important work ahead of all of us.

"Cris" and "A. W." have promised to give us the best program of the year. Cris has even gone so far as to say that, if necessary, he will sing for us. In my opinion, should he carry out his threat, it would do harm to our present program system, for who knows what the next two men would try to pull if Cris is allowed to do this. Anyway, it will go good.

Come out Tuesday, 12:15.  
F. E. MILLER, Sec.

**WELL FED HENS PAY DIVIDENDS**

**COLLEGE STATION, Sept. 23.**—It pays to feed hens during the summer months, according to the poultry records of 204 poultry demonstration flocks reported by county and home demonstration agents in the Extension Service. Eggs were produced by some 30,000 hens in these flocks for 12 cents per dozen feed cost during June and July. The average number of eggs laid each month per hen was about 14, and the profit per hen above feed cost was a little more than 22 cents each of these months.

"The real gain will come this fall and winter, however, for the well fed hens will then be producing when eggs are high in price, whereas hens poorly fed last summer will probably defer their laying until spring," E. N. Holmgren, Extension poultry specialist explains.

Another point brought out in the demonstration records is the fact that the production per hen was lower in flocks of less than 100 birds, and the mortality higher. The feed cost per dozen eggs was about the same, but this is attributed to the fact that the laying hens in the larger flocks were charged with the feed bills of large numbers of growing stock.

**MORE CORN AND COTTON ON TERRACED LAND**

**CUERO, Sept. 23.**—Terracing has increased the corn yield 25 bushels per acre in two years for Gus Schaffner, who lives in the Westhoff community in DeWitt county. Two years ago he says he made only 10 bushels of nubbins an acre on this field, but that this year all the ears are big and that the yield will be at least 35 bushels an acre. Before the field was terraced the only big ears grew down in the flat, but now they grow just as big on the hillsides, he states. He plans to finish terracing his farm this fall and winter.

Trigg Peebles, another local farmer whose terracing is reported by the county agent, declares that before his land was terraced nine years ago he got only 13 bushels of corn to the acre where he now gets 35 bushels. His cotton yields have been doubled also.

**MORE DEEP PLOWING RESULTS**

The benefits of deep plowing, as mentioned in these columns last week, can be observed in our own county on the farm of C. A. Amyx, who lives ten miles southwest of town in the Cobleland community. Part of the ground was plowed 8 to 10 inches deep last fall and the other listed later in the year. About April first the plowed land was bedded and the other listed again. When the crops of corn, cotton and grain sorghums were planted in May and June the middles were busted as before. The increase on the plowed ground can be observed at a distance. Mr. Amyx estimates that he will make a third more on all his crops on this ground or enough to pay for the deep plowing in one year.—W. T. McGee, Hockley County Agent.

**U. S. Asked For Worm Fund Probe**

**ODESSA, Texas, Sept. 23.**—At a meeting of farmers, representatives of chambers of commerce, and business men of Pecos, Barstow, Big Spring, Lamesa, Abilene, Stanton, Midland, San Angelo and Odessa, representing the towns of the pink boll worm area, held here today, resolutions were passed to petition the United States Congress to appropriate a sum equal to one-half of the total cost of reimbursement of farmers who may be penalized by reason of compliance with the provisions of the pink boll worm regulatory measures, and to ask that congress authorize an investigation of the so-called infected area to determine if regulatory measures now in effect are necessary.

The resolutions were passed in a final attempt by farmers and business men of this section, led by Representatives Carl Rountree of Lamesa, Penrose Metcalf of San Angelo and Henry E. Webb of Odessa, to solve the problems raised by the Governor's recent veto of the pink boll worm appropriation bill.

**FOOD FOR THOUGHT.**

By W. W. Warnstaff, Phelps City, Mo.

A farmer's sign on a high fence, Announcing hatching eggs for fifty cents.

A stranger passing in his touring car

Stops to ask the breed they are.

The farmer slowly shook his head.

"I'll call my wife," he finally said.

The farmer's wife came through the weeds.

Informed the stranger, "A mixture of breeds."

He turned and at the farmer glanced.

"Your birds," he said, "are not advanced;

You surely do not mean to say

The kind you have will ever pay?"

The farmer looked, but not surprised.

"You want my neighbor," he advised.

"He has chickens all one breed,

Claims they don't eat half the feed.

Their eggs they sell the year around

For top notch prices in all the towns."

Moral: Pure-bred chickens take the prize,

And it also pays to advertise.

Lost Child Is Found After 27-Hour Search

ALANREED, Texas, Sept. 23.—After wandering for more than 27 hours alone about the rough country 11 miles south of here, Buster Gray, 4-year-old son of Mr. and Mrs. Hugh Gray was found two and a half miles north of his home tonight.

The child apparently had not suffered from the experience of having been lost all Sunday night and today.

More than 300 men aided by an airplane piloted by Bobbie Deuel and Dee Graham of Amarillo, joined in the search for the boy. Several shallow pools in the vicinity of where the boy was last seen late yesterday were dragged and a large amount of earth, which recently had fallen from a cliff, was searched today.

The boy wandered away from the Gray home while playing with a number of other children.

Invites President to Attend Tri-State Fair

WASHINGTON, Sept. 23.—Hitching his pony, Mollie, to a tree on the White House lawn, Boyd Jones, 15-year-old Amarillo, Texas, lad, today delivered to President Hoover an invitation to visit the Tri-State Fair in his home town.

The youth rode his pony all the way from Amarillo to deliver the invitation. He wore chaps and spurs and a battered sombrero as he went to the executive mansion to keep his appointment with the president.

He also presented Mr. Hoover with a copy of the book "Them Texans," by Erasmus Tack, columnist of an Amarillo newspaper.

ROY COWAN, Mgr.

GASOLINE "CHEF" CONTROLS THE DIET OF YOUR CAR

Vitamins, calories, roughage, salts—for your car? Not exactly. But, according to experts on automotive fueling, your car has dietary problems just as surely and equally as important as your body. And it is the business of the "gasoline chef" to see that the car gets the type of diet that will give it the ambition, pep and resistance it needs to keep on the job, refrain from catching cold, and stay out of the class of sluggish auto disappetees.

Who is the gasoline chef? He is a scientist who spends his days and often his nights working, studying, testing, and discovering better ways to feed your motor. His kitchen is a great research laboratory maintained by the concern whose motor fuels you buy at the filling station.

"Yes," says R. C. Joplin of the Phillips Petroleum Company, Bartlesville, Oklahoma, "the research man in the motor fuel industry is really, among other things, a 'gasoline chef.' In our laboratories we have experts who are continually studying the dietary needs of the motor car and producing fare that meets those needs.

"For example, our experts realized that the gasoline in use a few years ago would not adequately fit the requirements of modern high compression motors. They knew, too, that a gasoline 'diet' upon which a motor could thrive in winter or in a cold climate was not necessarily the correct diet for that same motor during the summer or in the warmer climes.

"It was this knowledge which prompted our 'gasoline chefs' to discover how literally to take gasoline apart—then to combine and recombine its various parts so as to meet different seasonal and climatic requirements of the modern motor. The motorist naturally wants his car to start easily in any kind of weather, to accelerate quickly, to have plenty of pep for the open road, to deliver real mileage, to have a vast reserve of power and to run smoothly and quietly at all times of the year. Thanks to the 'gasoline chef,' who not only knows a motor's needs but knows how to supply those needs, the careful motorist is now in a position to keep his car on a healthful diet that assures uniformly high standards of performance."

Miss Marie Walker, who is attending school in Sudan, spent last week-end at her home in Baileyboro.

BLEEDING GUMS HEALED.

The sight of sore gums is sickening. Reliable dentists often report the successful use of **Leto's Pyorrhea Remedy** on their very worst cases. If you will get a bottle and use it as directed, druggists will return money if it fails.—H. G. Ramby Drug Store.

FATHER COPIES SON.

COLORADO, Sept. 23.—The method of feeding hogs used in 4-H club work by George Draper of Lone Star (Mitchell county) proved such a success that his father is now feeding two hogs ground threshed maize and tankage in a self feeder. They gained 44 and 53 pounds each in the first 30 days on feed, and at the end of three months weighed 104 and 109 pounds, respectively. The boy's pig weighed 296 pounds at six months of age but Mr. Draper expects his pigs to beat that record a little.

Miss Willie Massey celebrated her 13th birthday Saturday, Sept. 21st, from 2:30 to 4:30 p. m., with a party at the home of her parents, Mr. and Mrs. A. Massey. Refreshments of hot chocolate cake, marshmallows and watermelons were served to the following guests: Misses Mary Slaughter, Ruby Lee West, Hortense Blair, Margaret Dean, Louise West, Kathryn Hunt, Wanda B. West, Louise Stuart; Messrs. Crosby Slate, Chris Furneaux Jr., Ray Massey.

Mr. M. L. Duncan of Big Spring, Texas, is visiting his daughter, Mrs. A. Massey, and family this week.

THINKS TEXAS SHOULD HAVE BUSINESS ADMINISTRATION

Dan Moody's administration should serve as a warning to the people of Texas for many years to come that a lawyer, especially a young prosecuting attorney, is not fitted by training in the economic and practical affairs of life to be Governor of Texas. Moody's administration has been the most foolish and fruitless down through the years it has been my opportunity to observe.

Lawyers have filled the Governor's chair for many years and Hobby has been the only constructive governor Texas has had since Hogg, and Hobby was not a lawyer. The people should resolve not to elect another lawyer for governor for many years to come and should see to it that not more than 50 per cent of the legislature are lawyers. Lawyers have their place in the cosmic scheme of things—like many others of us—they are a necessary evil, but they should not predominate in the legislative nor in the administrative affairs of the state. If the legislature were made up of all newspaper men or doctors or merchants, it would not be long before we would all be working for either one or the other class of which the legislature might happen to be composed as most of us are now doing for the lawyers. A lawyer legislature plants a new crop of laws every time they convene and the product is a crop of litigation by which only lawyers profit.

It is high time for a "new deal" and to call people from other walks of life to make our laws and administer our government.—San Antonio Light.

The movement for a woman president will, of course, take on greater importance among the women now that it has been announced that Mr. Hoover has lost fifteen pounds since assuming the office.—New York Evening Post.

An English magazine states that a new musical instrument combining the saxophone and bagpipes has been invented. If imported here, it is thought this will gradually do away with the electric chair.—Detroit News.

A Kansas newspaper says that if you put a pinch of pepper on strawberries it will keep you from having hives. And if you put two or three pinches of pepper on them it will keep you from having strawberries.—Louisville Times.

People had fewer "advantages" fifty years ago, but they had more time in which to enjoy and appreciate those they possessed.—Detroit Free Press.

HONOR TO WHOM HONOR IS DUE

The conspicuous success of any enterprise must invariably have behind it and guiding it some forceful personality. It is never the result of chance or "luck."

The above thought about the outstanding success of Sudan Public Schools.

The Sudan News does not deem it exaggeration to say that it is not on the South Plains of Texas a school which stands higher in public confidence and esteem than does our own. A truly accredited unit of the Southern Association.

W. I. Wilkins, A. B., M. A.

Sudan high school has in the short span of one year raised its credits from 21 to 28, placing it in the forefront of Texas public schools. It is constantly drawing students from other towns, other counties, and even other states.

Now, as we have suggested, such conspicuous success is never due to chance or "luck," but must have behind it a compelling, building constructive agent. This agent, in the case of Sudan schools, is to be found in the man now at the head of Sudan educational forces—Prof. W. I. Wilkins, superintendent of the public schools of Sudan Independent School District.

W. I. Wilkins is by temperament and training peculiarly fitted for the task set him by the Sudan school board. His is a forceful character without being at all violent. Unshakable determination is his, but that is far removed from mere stubbornness. A keen insight into the motives governing men, united to more than average executive ability, has enabled Mr. Wilkins to meet and solve many perplexing problems in his determined drive to success for the school system under his care. And along with these qualities goes a thoroughly likeable personality that rarely fails in winning an erstwhile opponent and converting him from a potential enemy into a warm friend and supporter.

Mr. Wilkins was recently re-elected to his position for a term covering the next two years. Judging by his pronounced success in the single year he has served Sudan schools, the next two years should witness an outstanding progress that will reflect credit upon the superintendent, the schools and Sudan District. Himself a ripe scholar, he is now ably assisted by a hand-picked faculty, and staunchly backed up and supported by a loyal board.

We repeat, Sudan schools should go far in the coming two years.

OPPORTUNITIES, ALWAYS.

Every generation, says Henry Ford, leaves more opportunities than it found.

Ford, of course, referred chiefly to the opportunities that are connected with jobs. But his remark holds good all along the line, everything that is done today is going to beget a challenge for the next generation.

We know pretty well what our own opportunities have been. We have made the most of some of them, and we have slipped badly on some others. But the next generation—what sort of opportunities will we leave for it?

It is hard to tell what will happen in the world in the next three years, but this much is certain: the human race is reaching a point where its chances to lift itself by its own bootstraps, on the one hand, or to ruin itself eternally, on the other, are greater than they ever were before.

Things have happened too fast in the last couple of decades, and the pace shows no signs of slackening. The world's possibilities for advancement have been enormously increased, and so have its possibilities for destruction. Sometimes it almost seems as if we would either reach the millennium or chaos during the next century.

For one thing, the earth has shrunk. Magellan circled it in three years and the Graf Zeppelin did it in three weeks. It takes a day and a half to cross the American continent now, as compared with six weeks a few decades ago. New York and London are closer now than New York and Boston were in Revolutionary times. New methods of transportation and communication have given every human being a billion next door neighbors.

Besides that, we have new tools. For the first time, it is possible for men to make things infinitely faster than they can use them. We are reaching a stage where, in theory, at least—there will be no shadow of an excuse for poverty or want.—Amarillo News.

One of the greatest questions of the day in Washington now is how much the British Embassy has on hand.—Boston Globe.

It is perfectly all right for a woman to want to hold on to her youth, but she should not do it while it is driving.—Louisville Times.

METHODIST NOTES

Next Sunday is Fifth Sunday, and services will be divided between Sudan and Amherst. We will preach here at the morning hour on the subject, "Patriotism in Religion." The members of the Kiwanis Club and the Chamber of Commerce are especially invited to worship with us on this occasion as the message is prepared largely for the men of this city. Ladies, however, are also invited and expected to attend in large numbers, as usual.

At the evening hour, this pastor will preach in Amherst on "Holy Boldness." Sudanites are invited to journey that seven miles and worship with the good people of that community Sunday night.

The Sunday School, with J. A. Dryden as superintendent, will meet at 10:00 o'clock. Reorganization of officers and teachers, as well as formation of new classes, is being now effected. You should get in on the ground floor of what is taking place.

The Junior Epworth Society will meet at 4:30 o'clock. The Hi-League, for those of high school age, will meet promptly at 6:15 and the Senior Epworth League will meet at 7:15 o'clock at the church. Get in on these fine programs and Christian fellowship among the young people.

You will find a hearty welcome and warm greeting in all the services of this congregation.

C. R. HOOTON, Pastor.

HOME DEMONSTRATION AGENT TAKES CHARGE

Miss Ruby Mashburn, Lamb county's newly appointed Home Demonstration Agent, was in Sudan Tuesday on her rounds of the county to familiarize herself with her new field of endeavor. Miss Mashburn paid The News an appreciated call, and kindly consented to furnish this paper with full reports of the activities of her department.

Miss Mashburn began her work on September 21 and is already showing marked enthusiasm in her work. On Saturday she assisted the District Home Demonstration Agent, Miss Myrtle Murray, as judge at the County Fair at Amherst.

At the invitation of Mr. Smith superintendent at Fieldton, the agent organized two clubs Monday. Thirty girls became members of the 4-H club, and will begin their sewing work at the next meeting. There are thirteen members of the women's club and the agent will give a discussion and demonstration on school lunches at their next regular meeting.

Miss Mattie Ruth Kyzer of Bula is visiting her sister, Mrs. Dudley Kent of Sudan this week.

SUDAN KIWANIS CLUB HAVE GOOD MEETING

The Sudan Kiwanians met at the usual place Tuesday at 12:15, and it is a good thing that some of the boys had all their laugh on Cris Furneaux the week before, as to how he would make a speech or sing for us, because Cris and A. W. Ormond put on one of the best programs the boys have attended since their organization.

Bro. Hooton made a very fine talk on the constitution, and some of the dangers that confront us as American citizens, and concluded his remarks by urging all present to use their influence to uphold our constitution, the 18th amendment being cited as about the most abused part of the constitution by the American people at present.

Then Cris arrived for a real treat for all present, by introducing Miss Lucile Jordan, expression teacher at Sudan high school, who was asked to deliver a reading, and the boys cheered so heartily that she had to return and speak again.

Then last, but not least, the Lubbock club sent Charles Whitacre to meet with the Sudan club and thank them for helping land the district convention of the Texas-Oklahoma district for 1930. Charles told about how the boys from Lubbock went to work quietly as soon as they reached Tulsa and made it their business to visit most of the delegates from both states. He said that Mr. and Mrs. Johnnie Robertson from Sudan worked so hard to help land the convention for the South Plains in 1930 that you could not tell but what they were from Lubbock. He closed his remarks by inviting all who could to meet with the Lubbock club during the South Plains Fair next week.

Reporter.

LADIES OF THE CHURCH OF CHRIST BIBLE STUDY

At the last meeting Tuesday the class pushed themselves on Mrs. Cooper.

On account of the illness of Mr. Hutto, we could not meet with Mrs. Hutto. We are sorry indeed that he is sick, and hope for him a speedy recovery.

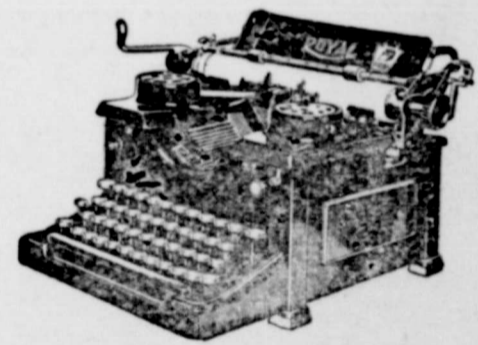

Our next lesson will be a continued study of the Divided Kingdom, scriptures covered, I Kings, 11 to 18.

The class will meet with Mrs. Cooper again next Tuesday. All are invited to come.

Reporter.

Mr. and Mrs. Herley Carpenter from Lubbock were visiting the former's parents, Mr. and Mrs. W. W. Carpenter and family.

Mr. and Mrs. Clarence King of Muleshoe spent Sunday with Mr. and Mrs. J. O. Covington.

J. C. BARRON F. E. MILLER  
SUDAN, TEXAS

TOWN AND COUNTY

Mr. and Mrs. L. C. Grissom and two children of Littlefield spent Sunday with their parents, Mr. and Mrs. R. M. Grissom and brother, Walter Grissom and wife.

Mr. and Mrs. E. A. Borland of Matador are visiting their daughter, Mrs. D. P. Keith and family.

Mr. and Mrs. D. W. Crain and children spent several days the past week in Crosbyton with the latter's parents.

Those who entered Texas Tech from Sudan this week were Phieffer Ramby, Lawrence Hicks, Clovis West, Kathleen Lam and F. A. Guinn.

E. Lam and family spent Sunday in Lubbock with their daughter and other relatives.

Mr. and Mrs. P. A. Mabon passed through Sudan Thursday enroute to Roswell, N. M. They stopped for a short visit with their daughter, Mrs. Dwain Kennedy.

Mr. and Mrs. Charles Langston and little daughter Martha Jean spent Sunday in Brownfield.

Mrs. J. H. Shepherd and Miss Frances Weimhold were attending to business matters and visiting in Lubbock Friday.

Mrs. C. L. Miller of Valleyview arrived the latter part of last week for an extended visit with her daughter, Mrs. T. B. Talbot.

Mrs. T. D. Humphries and children of Clovis, N. M., spent the week end with Mr. F. P. Wilson and family. Smiley Wilson and family of Lubbock motored over and spent Sunday with them.

Mrs. Emery Horn and little daughter, who have been visiting her parents at Gainesville, returned home the latter part of the week.

Mrs. C. L. McKinley and Mrs. L. G. Lenderson were Lubbock visitors Friday.

Mrs. H. H. Weimhold and two children, Forrest and George, and Rogers Ormand and Ledger Lam attended the football game between Sudan and Clovis, N. M., at Cloves Friday.

C. L. Gilbreath, a few miles south of Sudan, is repairing his barns and sheds and is also making other improvements on his farm.

H. J. McCarty and son A. J. are building two 4-room residences in Sudan. The former is building

north of the railroad track and the latter south of the track. Both houses will be of stucco, and modern.

Mrs. John Robertson is on the sick list this week.

P. T. Haynes of Lubbock arrived in Sudan the first of the week and is employed by the J. C. Whaley Lumber Company as bookkeeper.

Geo. Briscoe and Son will handle coal from the Freely Coal Yard this season.

Texas Utilities Company has a force of linemen at work running wires to the C. M. Furneaux farm one-half mile southwest of Sudan. Mr. Furneaux is having his farm electrified. Linemen are also running wires to the city well east of town. Electricity will be used to pump the water at the city wells.

Dudley Kent has been employed by the Whaley Grain and Feed Company, and will have charge of the feed yards and stock pens to be established on the tract recently set aside by that company. Mr. Kent is an all round cattle man, a thoroughly informed dairyman, and is peculiarly fitted to have charge of this newly promoted venture.

W. A. Clemons and family spent Sunday in Levelland.

J. A. Hutto, of the Hutto Chevrolet Co., was taken to a sanitarium at Lubbock for medical treatment last Thursday. He is reported as getting along nicely and will probably return home the latter part of this week.

Mr. and Mrs. C. E. Jaco of Fort Worth spent several days with Mr. and Mrs. A. D. Linton.

T. R. Snapps, who moved to Sudan from south of town, Tuesday, is reported ill.

Dr. G. A. Foote bought the Bruce Harris property and has rented same to Mr. and Mrs. Ves Terry.

J. H. Teel, who lives five miles south of town, had an attack of appendicitis Wednesday morning. It is not known at this time whether an operation will be necessary or not.

Born to Mr. and Mrs. J. P. McNamee, 7 miles southwest of town, a boy recently.

Mr. and Mrs. W. R. Baugh of the Bula community are entertaining a new boy at their house.

A. C. Findley has begun the erection of a four-room house on the lot adjoining the residence he recently purchased from Walter Grissom.

J. A. Nichols of Bula is building two new residences at Bula and has recently completed the new gin at that place.

C. E. Anderson, who has been visiting in Sudan for the past two weeks, went to Lubbock Monday where he will spend a few days. Mr. Anderson is a practical electrician and will probably locate on the South Plains. His home is in Alabama.

J. C. Wells made a business trip to Lubbock the first of the week.

"M" System Store recently purchased a new truck to be used to freight merchandise from Lubbock to the store. Business of this institution has grown to proportions that required this addition.

Mr. Duckworth, Donald Robertson, Coleman Terrell, Noel Lumpkin and Jack Lenderson, the dairy judging team, are attending the fair at Amarillo this week.

Mr. Lawrence McCramy of Sudan was visiting in Amherst Saturday and Sunday.

Mrs. Bertie Cook and children and Clifford Newman of Ennis, arrived Friday night in Sudan, where they will make their home.

Mr. W. M. Hayes of Mart, Texas, is visiting his daughter, Mrs. L. R. Capps, in Sudan.

Mr. and Mrs. T. A. Askew were visiting in Earth Sunday afternoon.

Mr. and Mrs. Irvin Onstead of Sudan spent Friday night in Amherst. They were accompanied home by the latter's sister, who spent the week-end here.

Miss Lillie Mae Carruth of Sudan was transacting business in Lubbock Thursday.

Miss Opal Rollins who is attending college at Plainview, was visiting parents and friends here last week-end.

Mr. and Mrs. Ernest Potts visited friends in Lubbock Monday.

Miss Lucile Jordan, the expression teacher of Sudan, spent the week-end in Lubbock visiting parents and friends.

Mr. and Mrs. C. W. Elmore and family of Muleshoe visited Mr. Elmore's sister, Mrs. Dudley Kent and family of Sudan Saturday and Sunday.

Miss Helen White of Sudan left Sunday for Lubbock where she will enter Tech College.

Miss Faye Foote left Sunday for Lubbock where she will enter the Tech college.
