

DEATH CLAIMS TWO OF COUNTRY'S STATESMEN

VOLUME V

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, MARCH 13, 1930.

NUMBER 35

LET US CONTINUE TO GROW

(An Editorial)

The time has arrived in the history of Sudan when its citizens should unite on the question of paving and sewerage.

Last season saw a water system installed in Sudan, second to none on the Plains. We now have an abundant supply of the finest of water for all purposes.

And Sudan needs paving—needs it badly. We can never come into our own as a community until this is done.

The News is pleased to note that the Kiwanis Club is agitating this question. A strong sentiment is also developing in the Chamber of Commerce.

Our people should get together and decide on the calling of an election to vote bonds for the purpose of developing these systems.

What say the citizens of Sudan? Shall we not have an election called and submit these questions?

TEXAS HOUSE WOULD TAX CHAIN STORES

AUSTIN, March 10. — Chain stores felt the bite of a revenue-hungry house today when that body, by a vote of 76 to 25, with 11 present but not voting, passed a bill by Representative Eugene Giles of Austin to place a tax of one per cent of the gross receipts upon them.

The tax would apply specifically to any group of more than five general merchandise, drug, grocery, sporting goods, shoe, ladies' ready-to-wear, jewelry, millinery, men's clothing, furnishing or fruit stores, beauty shops, undertaking establishments, pressing shops, meat markets, tailoring establishments, cab service establishments, shine parlor systems, drive-yourself automobile or automobile storage systems.

PAINT AND GLASS STORES WERE EXEMPTED FROM THE BILL.

Representative Polk Hornaday of Harlingen, co-author of the bill, estimated the tax would produce \$3,000,000 annually.

F. Z. PAYNE GIVEN CONTRACT COUNTY ANDITOR

At the meeting of the Lamb County Commissioners Court on Monday of this week, Mr. F. Z. Payne of Sudan was given contract to audit the county books. This work was set for the coming month of July.

Mr. Payne is a finished accountant, and the court is fortunate to secure his services.

Wholesale establishments and

KIWANIS NOTES

Boys, I'm telling you! This business of having to write a letter this week gives me what is commonly known as "a pain in the neck." I don't know nuthin and I can't find no one that does.

Let's all get behind Duckworth and his Boy Scouts. Let's all get behind Simon and his City Park.

Let's all get behind our School System.

Let's all be "ALL FOR SUDAN!" Let's all get behind Kiwanis for WE BUILD.

So, let's all come out Tuesday at 12:15 at the H-B. office building.

F. E. MILLER, Secretary

LAMB COUNTY FARMERS SHIP COTTON AND SHARE IN FEDERAL FARM RELIEF

On Saturday of last week three Lamb county farmers living near Fieldton shipped more than three hundred bales of cotton to Texas Farm Bureau Association.

Mr. J. Pickrell shipped his entire crop, from the first bale to the last, consisting of 140 bales.

Mr. H. C. Pickrell had the next largest amount, 123 bales, and Mr. C. E. Pickrell had sold all his low grade cotton, but shipped 54 bales of the very best produced of the 1929 crop.

These farmers report an average yield on their farms of 3 1/2 bales per acre the past season, which evidences that Lamb county can produce cotton equal to any part of the state as far as yield goes and without fertilizer.

Texas farmers who have cotton on hand at this time may still sign the marketing contract, and ship to the Texas Association if they wish to take advantage of the loan made possible by the Farm Board loan.

The News is pleased to note that the Kiwanis Club is agitating this question.

Our people should get together and decide on the calling of an election to vote bonds for the purpose of developing these systems.

What say the citizens of Sudan? Shall we not have an election called and submit these questions?

The risk is all being shouldered by our Uncle Sam, through the agricultural marketing act and the Federal Farm Board.

Lamb county cotton growers, who have cotton on hand and do not know what to do with it, should ship it at once, if they intend to, for the pool may be closed soon.

J. W. HAMMOCK, Representative Farm Bureau Cotton Association.

BAPTIST CHURCH EDIFICE TO BE ERECTED SOON

Work was resumed this week toward the erection of the building for the Baptist congregation.

The erection of this building will give Sudan its third church edifice, and marks a forward stride in spiritual affairs for the community.

NOTICE TO USERS OF CITY WATER

All water bills are due on first of each month, and become delinquent on the 10th, at which time a 10 per cent penalty will be added.

I. G. MORROW, Mayor.

We doubt very much whether harnessing the atom, if and when accomplished, will be found to be much harder than pulling leggings on to an active citizen of four.—Detroit News.

ECHOES FROM SCHOOL PLATEAU

Approach of the Interscholastic League Meet, the great school affair for the county, of all the year makes every school in the county a veritable bee-hive of industry.

The senior boys of the high school have already entered two invitation meets this spring, both of them over last week-end.

The seniors are having hard times in their work this semester.

The juniors are already busy beginning the work of their class play.

The work of such a nature that more originality is expected of them than of the grades below.

The evening class of the vocational agriculture class reports satisfactory progress and growing interest.

Next Monday we meet with Rev. McAbee for our Bible Study.

Next Monday we meet with Mrs. J. O. Covington on Monday for their lesson in W. M. U. Manuel.

The purchase of the famous old Williams plantation, 14 miles west of Savannah with its 4,000 or 5,000 acres was announced today.

The plantation fronts for five miles along the Ogeechee river directly opposite Ford's vast holdings in Bryan county, in the good land country, where Edison experiments are now in progress.

Mr. J. A. Saylor has had erected on the lot fronting Second Street the rear of the "M" System store, a neat brick and tile building to be used as a produce house.

The ladies of the Church of Christ met at the usual hour, Monday afternoon, for Bible study at the home of Mrs. Brown.

There were twelve present and an interesting lesson was given from the "Ascension to the Death of Saul" was discussed.

Our next lesson will be the "Definition and Growth of Church," scriptures cover the book of Acts.

Next Monday afternoon the class will meet with Mrs. Daniel at 2 p. m. Each and every one invited to be there.

This "parrot fever" is perhaps the worst thing of the kind since vertebrate been thought of repeating a word a few dozen times and calling it a poem.—Detroit News.

Chamber Commerce To Banquet at Janes Tabernacle

Tuesday night, March 18th, will be the date of the next regular meeting of the Sudan Chamber of Commerce, and at that time the meeting will be held at Janes Chapel, ten miles south of Sudan.

Get your tickets early. Ticket may be purchased from B. O. Byrly, Joe Wilkinson or J. E. Dryden, Secretary.

WEIMHOLD HATCHERY MAKES RECORD HATCH

The Weimhold Commercial Hatchery at Sudan took off a hatch from its mammoth Smith Incubator, this week, which we believe to be a record.

From 44 trays of 150 eggs each—a total of 6,600 eggs—there were taken out 4,700 fine healthy husky chicks.

The senior boys of the high school have already entered two invitation meets this spring.

The juniors are already busy beginning the work of their class play.

The work of such a nature that more originality is expected of them than of the grades below.

Nation Mourns Passing of Ex-President Taft and Justice William Terry Sanford.

William Howard Taft, ex-President of the United States, and ex-Chief Justice of the U. S. Supreme Court, is dead.

Mr. Taft died at his home on Wyoming Avenue, Washington, D. C., on Saturday, March 8, after an illness of a month from a combination of disorders.

Mr. Taft was the only man in American life ever to hold the two highest offices in the government—President and Chief Justice.

The federal government he served over four decades will observe a period of official mourning by proclamation of President Hoover.

Flags on government buildings and Army and Navy stations throughout the world will be put at half-mast.

William H. Taft will probably be remembered by his countrymen more from his high standing as a jurist than from any great or outstanding qualities exhibited as a statesman.

After treatment, the jurist collapsed in the office of a dentist. Medical aid proved of no avail. He was rushed back to his home in an unconscious condition.

The passing saddened Washington from President Hoover down. Mr. Sanford was buried in his native city, Knoxville, Tenn.

U. S. JUSTICE SANFORD DIES IN WASHINGTON

WASHINGTON, March 8.—Death took Justice Edward Terry Sanford at 12:20 p. m. Saturday after an illness of less than three hours.

The distinguished son of Tennessee had left his home after breakfast, seemingly in excellent health and as cheerful as usual.

He was looking forward to joining his supreme court colleagues at noon in honoring Justice Oliver Wendell Holmes on his eighty-eighth birthday. He never reached the court.

After treatment, the jurist collapsed in the office of a dentist. Medical aid proved of no avail. He was rushed back to his home in an unconscious condition.

The passing saddened Washington from President Hoover down. Mr. Sanford was buried in his native city, Knoxville, Tenn.

NEW BUSINESS COMING TO SUDAN EACH WEEK

Almost every week some new business is announced for Sudan, and it is the opinion of the ones who are locating here that Sudan is soon to be one of the very best cities on the South Plains.

Last week a new variety store was opened for business, and the proprietor states that his volume of sales was considerably more than he anticipated, and that he had sold out many items of merchandise by the close of his first week's business in the city.

Speaking of the business outlook for Sudan this gentleman stated that he was entirely pleased in every way, and that he had been forced to order new goods by express in order to have some lines of merchandise for his usual Saturday crowds.

Several other merchants report business to be on the increase, and it is the opinion of all with whom we have talked that as soon as farmers begin preparation for their crops there will be a noticeable increase in all lines of business.

True, we have had a panic over the country, and in many portions of the agricultural belt conditions are anything but satisfactory, but on the South Plains and especially in the Sudan sector people generally are in very good condition.

J. P. ROGERS ANNOUNCES FOR LEGISLATIVE GOVERNOR

AUSTIN, March 8.—James P. Rogers of Houston, a member of the thirty-seventh and thirty-eighth legislatures, has announced as candidate for legislative governor.

Mr. Rogers says he is opposed to capital punishment, believing that "this intelligent age should provide intelligent forms of punishment to meet the crimes without going back to the methods of the dark ages."

LADIES' BIBLE CLASS

The ladies of the Church of Christ met at the usual hour, Monday afternoon, for Bible study at the home of Mrs. Brown.

There were twelve present and an interesting lesson was given from the "Ascension to the Death of Saul" was discussed.

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes."

"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE"

KEEP THE HOME FIRES BURNING.

"Hello World" Henderson is telling you to patronize your local grocery store for your own sake and your friends' and neighbors', your town and your community. The home stores are home owned and home operated.

Here are a few reasons why you should patronize your home grocer:

- They own and operate their own stores.
They employ men to give service who live here.
They pay these people a satisfactory living wage.
They pay taxes and license every year.
They contribute to all worthy causes presented by the community.
Their insurance is bought of home agents.
All local products are given preference.
They patronize the home town bank.
They reinvest any profits they make in our home community.

They bring to this locality quality, full weight, fair price, fair dealing.

When you support your home merchant you are making an investment in your own town.

The courtesy, service and prices they give you make Sudan a better town in which to live.

Stop, look and listen before you pass by Sudan merchants.

THE OUTDOOR SEASON.

Everywhere the topic of conversation is the weather. "Just like spring, isn't it?" Spring arrives officially on March 21, according to our almanac. Spring is the one just right season for every one. Then the joy of life is at its height. At this season of the year the outdoors is pleasant again. And a good dose of outdoors would cure almost anything. Outdoors is cheap and plenty.

This is the clean-up season of the year. Every housewife is about to begin her annual task of making everything bright and clean. Spring is the time for planting shrubs, perennials, flowers and vegetables. Women are making dates with paper-hangers and painters. It's the time of year for bonfires of dead grass, open windows, warm rains, budding trees. It's springtime and Nature's busy.

NOT TO BE ENVIED.

Statistics show that the United States has 42,000 millionaires and one man in the billion-dollar class. It is not likely that any other country in the world can show so many millionaires, and it is just as well that should be the case. No man living and in his right mind needs a million dollars. That may strike some readers as an exaggerated statement, but it is not. He can't take a copper of it with him when he is through with this world, and the chances are that he will leave vast sums to his children, and money secured in that way has done more to spoil young folks than poverty ever did. The greatest wealth earth has been poor—Wagner, Rousseau, Poe, Lincoln, Whitman—and Jesus poorest of all, who had not where to lay His head.

THE CAR BEAUTIFUL.

Great crowds in attendance at the 1930 automobile shows, according to reports in the daily papers, indicate that the car is the thing, and this year there is a model to suit every taste. Old and young are attracted by the magnificence of the new automobiles that during the summer are going to make traveling one of the delights of life. Hand in hand with graceful lines goes strength in its utmost compact form, with passenger comfort waiting for all. The color scheme of the cars this year is a delight to the eye even of an artist.

DO YOU REMEMBER—

- When the ladies padded and wore bustles?
When it was the nifty thing to wear a white duck vest?
When it was considered immodest to wear skirts less than ankle length?
When lemonade was the chief drink on Main street in most towns?
When the fair sex wore long hair?
When in the cradle days of the motor car the buyer's chief question was, "Will it run?"

George Doe has just died at 90 years. But his well known brother John Doe is far older and is still going strong.

You never know what a poor opinion people have of you until you happen to overhear them talking about you.

Those who are not attending to their own business are busy trying to attend to the business of others.

Your money spent with your home merchant means better merchandise service for you.

THE BETTER WAY.

There is no better way to teach boys and girls to be thrifty than to give them young animals to care for as their own. By doing this, responsibility is imposed upon children and they are given opportunity to study livestock and learn how to feed and manage them. The 4-H clubs of the country are in a fair way to teach the older generation some new truths along these lines.

It took us years to learn the proper spelling of "pneumonia." We're now starting on the word "psittacosis."

Judging by the reports of incubators going over the state, there is going to be a lot of good frybs by July 4th.

This old world would be a terribly silent place if everybody spoke the truth and nothing but the truth.

Speed! Speed! The world is continually looking for more of it, and at the same time paying dear for it.

If in another thousand years the automobile develops us of our legs we will have no kick coming.

The days are like the new spring skirts in that they are getting longer and brighter.

The best way to read into the daily press is to ask some kind of a record.

Admiral Byrd is returning from the Antarctic leaving us there hard and cold.

Old Dame Nature is the greatest spender and spender in the world.

The back yard gardeners will soon be in their glory.

Lift your head and not your hat to the garage man.

The first dent in the new fender is always painful.

You can file your income statement any time now.

Any flapper is a splendid exterior decorator.

Congress is in cuts a jam over prohibition.

Easter comes late this year—April 20th.

CHANGE IN POSITION

The Assembly of Arkansas must have been as touched at the turn of Washington events which abruptly transferred him from the plaintiff's side of the court to the defendant's. The president of the Independent Petroleum Producers' Association is a plain-spoken man. His plain speaking was suddenly taken up by the Senate, which not only refused his plea for a tariff on crude oil and the related products but insisted on grilling the independent producers on lobbying.

Mr. Franklin says he has nothing to conceal. To be sure he had to be in the interest of his proposal and every effort had been made to line up the Senators who were pledged to his tariff cause and to trade votes with sugar and lumber. The program might not see with the theories of utter need by the independent oil folks, on which the brief Congress is based, but the main idea was to get the tariff. Mr. Franklin is not interested in sugar and lumber, but if they got a good protective rat along with oil all right. The main thing was to get the vote for an oil tariff.

In good truth, there is ready sympathy for Mr. Franklin's position. Trading in votes is nothing new in the Senate or in the house. It is part of the old pack barrel theory on which legislation has been getting along for a good many years. Mr. Franklin, however, did not realize that it is not polite to keep records of the facts and to talk about them. A vote is a vote; it is not supposed to be a barter.

Meanwhile, Representative Stone's plan to call for an investigation of the relationship between low oil prices to the consumer and high oil prices to the producer may serve the independents better than their clamor for a tariff. After all, what they want is a cure and they are not especially keen on the means.—Dallas Morning News.

STANDARD OIL HELD WHIP HAND

In spite of the favorable reports sent out previous to the final vote of the Senate on the oil tariff, it is probable that few people were greatly surprised when the amendment was made that the Standard Oil company held the whip hand. Oil produced by independent companies may be an "inferior" but because of its growth, would interfere with the desires of the big oil corporations whose holdings in other lands now enables them to flood our domestic market with cheap oil, thus one "mistake" that last going to be accorded protection even under the Republican rule. The fact is that Standard Oil has the independent producer just where it wants him and it would be an open case matter, who could persuade himself that that great and powerful company would not take advantage of the situation. Texas independent oil producers have presented irrefutable evidence in support of their argument but they didn't begin to cover the colossal expenses. The independents are possibly involved in the present situation and want quietly about fixing things so that at the psychological moment, the deluge could be turned on—and allowed to continue. Knowing beforehand just how things would turn out, it has, of course, been necessary for the big companies to make any material reduction in the price of gasoline and the "spread" has doubtless, been quite a help in covering the colossal expenses. The independents will have a slender hope of getting the matter before the Senate when it sits as a "committee of the whole" and whether or not they meet with success, they have put up a valiant fight for West Texas independents and landowners.—Southwest Plainsman.

THE MOODY LOGIC

Another sample of the peculiar logic of Governor Moody is afforded by the dispatches from Austin reporting the gubernatorial "warning" to the Legislature that if it adjourns now it, and not he, will be responsible for the lack of funds for the Summer schools of State educational institutions.

Mr. Moody can make it possible for the Legislature to consider the subject of appropriation for the Summer schools, and Mr. Moody has not submitted the subject. He has, however, notified the legislature that the subject will be submitted after the Legislature has enacted revenue measures. Here, the logic seems good, because appropriate money, and Mr. Moody points out there are no available funds in the Treasury.

But, Mr. Moody is insisting, and has been insisting for the past several months during four previous special sessions, that the penitentiary removal bill be passed, and that bill must carry an appropriation.

If the prison relocating bill can be passed ahead of the revenue measures, why cannot the Summer schools appropriation bill be so passed?

The answer will provide an insight into the confusing quality of the Moody logic.—Fort Worth Star-Telegram.

How to Raise Poultry
By Dr. L. D. LeCoeur, V.S.
St. Louis, Mo.
Dr. LeCoeur is author of "Complete Veterinary Culture, 1924," "Complete years of veterinary practice," "Complete of the poultry and the poultry industry," "National Poultry and Poultry Industry," "Poultry and Poultry Industry."

How to Start a Turkey Flock

The Way to Profitable Results From a Few Dollars Investment is One of the Best of the "Get-Go" Plans.

Judging from many reports from readers of this paper, the subject of turkey raising is uppermost in the minds of thousands of people. Therefore, in answer to numerous requests, I was going to devote two or three more articles to that subject.

Turkey raising is profitable, it is not nearly so difficult as most people imagine. First, the sum of money invested on a farm in the United States has hardly steadily declined for the last forty years. Like the real estate value of the stock market, it would appear the bottom has been reached and I am hopeful that turkey raising will soon boom and again as profitable as ever.

Two things tend to discourage the raising of turkeys. One is the "blackhead" disease known as "Blackhead" the other is the "M" taken idea that turkeys must have a long tail and a long neck. These subjects in subsequent articles and attempt to show how "blackhead" can be avoided and to correct the idea that turkeys cannot be raised in confinement. But first let us consider some of the essential things in starting a turkey flock.

In selecting a breed, consideration should be given to size and weight. I prefer 15 pounds or less for most production. The Bronze variety seems to be the most popular because of its size and its tendency to lay a large number of eggs. Other popular breeds are the White Holland, Bourbon Red, and Narragansett. The Black and Blue are also raised in the United States because they are smaller than the others. There are three ways to start a turkey flock. One is by buying

hatching eggs. Another is to purchase baby poult, and the third is the purchase of adult breeding stock. Under favorable conditions you can have turkeys for market the first year.

If you start with breeding stock, take every precaution possible to see that your adult turkeys are free from disease. Examine them carefully for size and build. Breed big stock should have large, firm, broad backs and big, firm legs. See that the legs are sturdy and set well apart.

It hardly seems necessary to point out the advantages of purebred stock. The small cost makes a fine profit but it costs more to raise a purebred than a mixed and the same both of birds breeding and eggs for hatching will more than make up the difference.

A good time to get in the turkey business is now, especially if you follow the plan of starting with breeding stock. One mistake made by many turkey raisers is that the best birds are taken to market and the small stock kept for breeding purposes. Do not try to spurge in the beginning. Start in a small way and develop gradually.

Again I say turkey raising is a profitable business. It should be one of our leading activities along with chickens and live stock. The turkey is a native product. It is as American as the eagle or the buffalo. New wealth will be added to the agricultural coffers of the United States once the turkey takes its rightful place in the poultry world.

MEETING OF EXECUTIVE COMMITTEE OF UNIVERSITY INTERSCHOLASTIC LEAGUE

The executive committee of the Lamb County Division of the University Interscholastic League was called to meet Tuesday night of this week at Amherst. This committee is composed of the following members: W. I. Wilkins, Sudan, General Director; J. T. Carter, Olton, Athletic Director; Edna Tumlinson, Amherst, Director of Arithmetic Contest; O. L. Smith, Fieldton, Director of Declamation; Martha Tannery, Earth, Director of Essay Writing; Mrs. Pat Boone Littlefield, Director of Debate; Mrs. Ruth Gautier, Hart's Camp, Director of Spelling; S. D. Hay, Sudan, Rural School Director.

The committee decided upon the following important issues: Each athletic coach will be given permission to use rooms of the Sudan school building for headquarters for his organization. Rules for spelling and arithmetic will be followed as given in the Constitution and By-laws of the League, but no papers shall be destroyed until permission is given by the executive committee, and after the convening of the committee. Letters as recognized by Palmer or Graves systems of penmanship shall be recognized by the graders of spelling papers, also no person shall pronounce words in any sections where there are contestants to whom the pronouncer may have pronounced in preparation.

There shall be junior contests for both high school and grammar schools, but there shall be no representation of one group by pupils in another group.

There shall be only high school tennis and no grammar school pupil shall enter the contest.

No track contestant shall take part in any contest unless he is wearing both trunks and jersey. One appearing without jersey shall

be put off the field.

Winners in first, second and third places shall be awarded medals except in volleyball and baseball where pennants shall be granted to winners of first place.

Hart's Camp entered no grammar school team, and there is no rural school entry in the county.

The following temporary schedule has been arranged, beginning at 9:30 Friday morning:

9:30. Debate, girls' tennis singles, all tennis doubles, volleyball, and playgroundball, arithmetic and subjunior spelling.

10:00. All spelling contests except subjuniors.

11:00. Extemporaneous speaking.

12:00. Intermission for lunch.

Friday Afternoon

1:00. Continuation of tennis playground ball and volleyball.

Senior Declamations, followed by junior declamations.

Picture Memory Contest.

Saturday Forenoon

9:30. Finals in volleyball, tennis, basketball.

10:00. Junior track and field events, both high school and grammar schools.

Saturday Afternoon

1:00. Senior track and field events.

Directors of Special Events

Playground ball—Mr. Shelton of Amherst.

Volley ball—Mr. Boles of Littlefield.

Tennis—Mr. Dodson of Fieldton.

School exhibits—Mrs. McKelvey of Sudan.

Officials for athletic events except track and field—Messrs. Wagner, Smith and Akeson of Amherst; Messrs. Boles, Tucker, Box, Jones, Rochelle and Chisholm of Littlefield; Messrs. Terry, Kerr, Copeland, Gladson, and White of Olton; Messrs. Talbott, Jenkins, Duckworth, Alldredge, Herren, Gee and Butts of Sudan; Mr. Dolson of Fieldton; Mr. Gautier of Hart's Camp; Mr. Wilkins of Spring

Lake. Other officials will be added as needed.

Friday evening of this week the final drawing and bracketing of first round in team contests and in tennis singles will take place at Amherst. At this time a representative of each school is expected and any interested person is invited to attend.

W. I. WILKINS,

County Director General of University Interscholastic League.

Employee of Continental Oil Gives Out Facts

"I Really Enjoy Living Now Since Taking Orgatone, and I Suffered for Ten Years," Says Wichita Man.

"It has been a mighty long time since I felt as well as I do since I have been taking Orgatone," said Marvin Cummings, of 1205 N. Seventh Street, Wichita Falls, Texas. Mr. Cummings is a refinery operator for the Continental Oil Co., and is well known here in this vicinity and has many friends.

"I had been suffering with my stomach and indigestion for about the past ten years," said Mr. Cummings, "but it has been in a worse shape lately than ever before and guess I suffered with every kind of a pain and misery that a disordered stomach could cause. My food soured and I had to be very careful what I ate. Gas formed on my stomach, and the suffering it caused was terrible. My back and side ached all the time and I had sharp shooting pains. I had frequent headaches and was just tired and worn out all the time, and just dragged around, until I had just about reached the point where I wanted to give up my work. I was very nervous and restless and didn't get but a few hours sleep at night. My sisters had tried Orgatone and were greatly benefited and finally persuaded me to give it a trial. I really enjoy living now since taking Orgatone and I have more vim and energy and feel simply fine. I eat anything I want without the slightest hesitation or having indigestion. The several pains have disappeared from my back and side, and my kidneys are back to normal. The gas ceases to form on my stomach, and I can work all day, without feeling at all tired. When I get to bed at night I do not have to get up and sleep all night long, and get up in the morning feeling refreshed and ready for my day's work. I know from my own experience what Orgatone will do. I have gotten such wonderful results. I hope owners will benefit from my experience."

Genuine Orgatone may be brought in Sudan at the H. G. Ramby Drug Store.

OFFICERS HUNT TWO MEN WHO ATTACK COUPLE

DUNCAN, Okla., March 10.—While a sheriff's posse scoured Stephens county, Okla., Monday or two white men, one of whom Sunday night attacked and then shot Miss Leota Bosley, 22, of Gainesville, and wounded Chad Thurman, 24, Nocona, her companion, the girl lay between life and death in Patterson Hospital here.

Shot through the left breast just above the heart about 11 o'clock Sunday night on a lonely road near Loco, Stephens county the girl walked back almost two miles to where their car had been forced into a ditch by the two men in another machine. She did not reach the hospital until 2 o'clock Monday morning.

She and Thurman were returning to Loco, where she taught school, from Comanche when a motor car containing the two men, crowded them into a ditch and the couple at pistol point to get out of their machine and enter the other car.

They were driven about two miles north of that place into a lonely section of the country where they were ordered to get out of the car. While one of the men held Thurman at bay with his revolver, he attacked the girl. The other man stood by.

The first man then attempted to make Thurman, Miss Bosley's companion, attack her. When he refused, officers were told, the man shot at Thurman, grazing his side. The bullet struck the girl in the breast. The couple was deserted immediately and they walked back to where their car had been abandoned.

Bleeding considerably, Miss Bosley then was driven to Loco, where she received medical attention.

LAMB COUNTY UNIT OF PLATEAU SINGING CONVENTION

Next Sunday, March 16, is Lamb County Day for the meeting of the Plateau Singing Convention. This convention was organized a few years ago by lovers of good singing on the Plains of Texas and New Mexico. Its only object was to spread the Gospel of Good Singing. Its success has been something wonderful from its inception. An effort is now being made, and it seems it will succeed, to make this convention a permanent institution on the Plains and to make it possible for boys and girls of the region to have expert training in vocal music.

The Lamb county officers of this association are as follows: J. S. Laing, Amherst, Pres.; H. C. Carey, Littlefield, V. Pres.; L. C. Briscoe, Amherst, Sec.

Advisory Committee: Joe Covington, Sudan; L. L. Dunn, Amherst; Zed Robertson, Littlefield; W. I. Wilkins, Sudan; A. L. Dennis, Olton.

The meeting Sunday will be held with Lum's Chapel, six miles south from Littlefield. Everybody is invited. A big day is expected. Bring your family and your friends and spend the day at Lum's Chapel.

JNO F. TAYLOR, Pres., Plateau Convention, Clovis, N. M.

125 HEAD OF STEERS BRING \$11.50 AT FORT WORTH

M. G. Perry of Robstown sold on Monday's market at Fort Worth 125 head of steers, completing an experiment in diversification and marketing farm products. These cattle were fed cottonseed meal and ground hogan. They were smooth and evenly finished weighing 850 pounds. The price paid for them was \$11.50.

Perry and his partner, B. B. Simmons of Temple, farm a tract of about 5,800 acres. They are planning to plant about one-third of this in feed each year, reducing their cotton acreage. By rotating, they figure they can raise much more each year as by planting the entire acreage continuously, they say.

FRIENDLY COP HELPS MAN STEAL CAR IN SHERMAN

SHERMAN, March 10.—Patrolman Bev Atnip of the Sherman police department has taken literally the instructions of his superiors to be accommodating to strangers. Saturday night, seeing a stranger having difficulty in starting an expensive car, he volunteered his assistance and gave the car a push down the street to start it. Coming to the station a short time after, he arrived just in time to hear the owner of the car, Jack Hannah, reporting it stolen. Atnip furnished an excellent description of the thief whom he had assisted.

"M" SYSTEM INSTALS REFRIGERATION SYSTEM

Sudan's progressive "M" System Store has been engaged the past week in installing an up-to-date refrigeration system. This store always alert to the demands of the trade, has within the past year become one of the best appointed grocery stores and meat markets on the Plains.

HORSE MEAT.

A new horse meat canning and processing plant is soon to be opened at Topeka, Kansas. Horses for slaughter will be shipped from western states, and the meat distributed to Norway, Sweden and the Netherlands. Slaughtering of horses in the United States, for hides and meat, has become a fairly large industry. In ten months last year the slaughter was over 101,000. Dog and fox farms use a large quantity of the meat. No horse meat is sold in

this country for human consumption.

Wall Street reports that "money is easy." The guessing, however, is as hard as ever.

AVERY Sled and Two-Row Listed Corn Cultivators

Give a good crop a good start

When your listed corn is young, is the time to lay a foundation for profitable growth. Careful cultivation at this time brings a generous reward. Listed corn farmers who work their corn through the early stages with Avery Sled and Two-Row Cultivators, bring down to the young crop exactly the required amount of finely pulverized soil and give their crop the best possible start. They do the most for the crop, in the easiest and best way, when good care is most needed. In designing the Avery Sled Cultivator, which runs in the furrow astride the row, every essential has been provided for doing the work easily and accurately. The Avery Two-Row Listed Corn Cultivator offers a broader development of the same principles, but due to the exclusive Avery equalizers and other features, it cultivates two rows with the same ease and accuracy as does the single-row machine. Avery Sled and Two-Row Cultivators bear the unmistakable quality characteristics of all Avery tools. Because they do better work and last longer, they are the most economical in the end to buy. They are built in America's finest implement factory—to meet a need that springs direct from the soil—by men inspired by 100 years of implement-building leadership. Ask us for the details. We will gladly give you all the facts upon request.

There is a full line of famous Avery walking, riding and tractor plows, tillage implements, and Champion harvesting and haying machines.

Konjola Wins Triumphs Every Day Everywhere

New and Different Medicine Welcomes Any Test—Results Are What Count.

MR. RAYMOND SCHMIDT

Results are what count; mere words and promises mean nothing. Konjola has won fame and friends just by making good, and that is the medicine sufferers want and should have. Imagine the joy of Mr. Raymond Schmidt, R. F. D. 1, Sedalia, Mo., when he was able to say:

"Though I know it to be true, I find it hard to believe Konjola in just three months, ended my sufferings of nine years duration. For that long time I suffered from indigestion, constipation, kidney trouble and catarrh. No food agreed with me; every night I had to get up numerous times, and the catarrh certainly added to my misery. In those nine years I tried no end of medicines and treatments; and every one was a miserable failure. But how different with Konjola! Week by week I grew better, and in three months I was my old self again. To me Konjola is the most wonderful medicine in the world, and I recommend it with all my heart."

Konjola is sold in Sudan at H. G. Ramby's Drug Store, and by all the best druggists in all towns throughout this entire section.—Adv.

Asks \$100,000,000 More For Board

Thought President Contemplates Money for Use in Wheat Stabilization.

WASHINGTON, March 6.—President Hoover Saturday asked congress to appropriate \$100,000,000 to be immediately available as a part of the \$500,000,000 revolving fund authorized under the agricultural marketing act.

This sum is in addition to the \$150,000,000 already authorized for the farm board by congress.

The presidential communication was addressed to Speaker Longworth. It said that the time had arrived when further funds were needed by the board.

The communication from Mr. Hoover read:

"Under date of June 14, 1929, \$150,000,000 was appropriated in response to my estimate of June 15, 1929, in which it was stated that 'if the board finds it necessary to have further funds it should be possible to make provision for them in simple form, as congress will no doubt be in session by the time they are required.' The need for additional funds has now arisen."

Director Root of the budget bureau, in a communication accompanying the president's letter, said it was estimated that the additional \$100,000,000 will be required in the revolving fund to carry out projects now planned by the board and this sum should be made immediately available.

While only a terse declaration of the need for the additional sum went with the president's message, it was recalled that the board has been a heavy purchaser recently in the wheat market.

Ordinary operations of the board, including loans to cooperatives, took only about \$70,000,000 of the \$150,000,000 originally approved, but the wheat stabilization corporation was set up recently, and since that time the board has loaned money on or has bought outright millions of bushels of wheat.

The board's policy of buying wheat at the low value price was changed recently after protests from private traders and producers outside the cooperatives, but Chairman Legge recently said that the board's program for stabilizing wheat was to be carried forward in a vigorous manner. Additional confirmation of this statement was seen in the request by the president for the \$100,000,000.

"If you want to live long, go as much walking as possible," says a doctor. And if you are tired of living, sometimes a walk through any city's congested area will solve that problem, too.—Ashville Times.

"Although I changed the number of my house from 15 to 14," says a correspondent, "my luck has not improved." It takes more than a little dodge like that to deceive a postman armed with income-tax demands and bills.—The Humorist.

NOTICE OF ELECTION FOR COUNTY SCHOOL TRUSTEES

State of Texas, County of Lamb.

Be it remembered that the following persons have been qualified by law, I hereby certify, and notice is hereby given, that there will be an election held on Saturday, the 5th day of April, A. D. 1930.

Very truly yours,
S. M. N. MARSH
State Superintendent.

Olton, Texas, March 6, 1930.

To All School Superintendents and School Board Presidents, Gentlemen:

Enclosed I am sending you a copy of the Attorney General's ruling, dated March 25, 1929, affecting the election of county school trustees. This was received too late last year to order a county-wide County School Trustee election, but this year I have pasted notices for such an election as required by law.

Due to the fact that prior to this ruling only the qualified voters of the Common school districts were permitted to vote for county school trustees, the election was impossible in this county as there is but one Common school district in the whole county.

Since Lamb county has not held such an election for a number of years, and the public generally not familiar with the duties and powers of the County Board of Trustees, I ask your cooperation in stressing the importance of the board and also in stressing the importance of the following, taken from Sec. 53 of the Public School Laws of Texas, 1929:

"The County School Trustees shall be elected from the county at large by the qualified voters of ALL of the school districts except such school districts as are known as MUNICIPAL, independent school districts; that one trustee is to be elected from each Precinct in the respective commissioner's precinct and who reside in any district not a municipal independent school district."

The effect of this opinion is that the member of the county board to be elected by the voters of the county at large is to be elected by ALL of the qualified voters of all of the school districts in the county except those residing in the cities having assumed control of their schools. The Attorney General has arrived at this conclusion in the interpretation of the expression that the county school trustees shall be elected by the "voters of the districts under the supervision of the county trustees."

The records of the office show the following cities as constituting municipal independent school districts, and the voters residing within their limits should not participate in the election of county trustees:

Abilene, Alvarado, Austin, Bartlett, Eastport, Bonham, Brookham, Brownwood, Bryan, Childress, Comstock, Clifton, Commerce, Dallas, Denton, Gainesville, Garrettsville, Odessa, Greenville, Hampden, Hillsboro, Hubbard, Kaufman, Lampasas, Laredo, Marshall, McKinney, Navasota, Palestine, Rockdale, Rockport, San Angelo, Sherman, Taylor, Terrell, Tyler, Van Alstyne, Vernon, Waco, Waxahatchie, Weatherford, Whitesboro, Whitewright, Yoakum.

tees shall be of good moral character, shall be of good education, and shall be in sympathy with public free schools."

No doubt all of you have copies of the school laws above referred to. I beg to call your attention to Chapter IV, page 14, in regard to the County School Trustees.

Very truly yours,
S. M. N. MARSH
County Judge, Lamb County, Texas.

SORE GUMS NOW CURABLE.

You won't be ashamed to smile again after you use Leto's Pyorhea Remedy. This preparation is used and recommended by leading dentists and cannot fail to benefit you. Druggists return money if it fails.—H. G. Ramby, Drug Store.

The suspicion grows in literary circles that the move for the thirteen-month year was instigated by the associated book-of-the-month clubs.—Virg'nian-Pilot.

This Case Cotton and Corn Lister SAVES EXPENSE

causing forward pull of team to aid in raising—also places bottoms in line with wheels which causes bottoms to penetrate uniformly over rough ground.

Single seed cell drop cotton and corn plates. Also plates for sorghum and other row crops. Tip over seed hoppers—you change from one kind of seed to another, quickly, or change plates from bottom without removing seed. Drops one seed at a time—no bunching; no cracking.

The purchase of a Case Lister is an investment for greater farm profits. Drop in soon and look it over. Try our service on all farm equipment.

COMPLETE LINE OF QUALITY IMPLEMENTS

ONE THIMBLEFUL -
A DAY'S FEED
FOR ONE CHICK!

THINK OF IT! One tiny thimbleful... all the feed a chick can put in its little crop in one day. On this tiny bit it must live... grow... build bones... build muscles... start feathers. Think of the job feed has to do!

They must depend on feed for so many things! They get them all in Purina Chick Startena (mash) or Purina All-Mash Startena Chow... 12 different ingredients in every thimbleful. Cod-liver oil... dried buttermilk... alfalfa flour... granulated meat... these and eight others are there!

These 12 ingredients... think how carefully they must be mixed to make every thimbleful alike. Purina Startena and All-Mash Startena Chow are mixed over and over again... 960 times just to be thorough! You will find the same care taken with Baby Chick Chow (scratch)... to be fed with Startena until your chicks are six weeks old... and with Purina Growena (mash) and Purina Intermediate Hen Chow (scratch)... to be fed from then on until the pullets are laying at 16 weeks.

How little feed a chick eats... just one thimbleful a day... yet how important it is... how much depends on it... the chick's very life... its growth... what the pullets will do for you next fall and winter when eggs are sure to be worth good money. You can afford to feed only the best... Purina Poultry Chows.

TOWN AND COUNTY

C. S. Bailey of the American National Insurance Company of Dallas, Texas, is in Sudan this week.

Mr. Shattof of Plainview, district manager of the Maytag Company, was attending to business matters in Sudan Tuesday.

G. C. Holden and Jack Foust spent Sunday in Plainview.

Mrs. Porter Ernest, who has been visiting her parents at Memphis, Texas, for the past few weeks, returned to her home in Sudan the first of the week.

Mr. and Mrs. J. P. Ernest and Mrs. James Courtney of Dimmitt and Mrs. Dan Broyles spent Tuesday in Lubbock with Mr. Ernest's sister.

Oran Roark and brother spent the week-end in Wellington with relatives and friends.

L. T. Hunt and family spent Sunday in Lubbock with friends.

Mr. and Mrs. Sam Beecroft were Littlefield visitors Sunday.

Maurice Small spent Sunday in Lubbock with his wife who is visiting her sister.

Rev. and Mrs. C. R. Hooton of Fort Stockton were visiting friends in Sudan and Amherst the first of the week.

Mr. and Mrs. Vernon Head spent Sunday in Clovis, N. M., with relatives and friends.

Mr. and Mrs. Levi Howard of Hale Center were guests of Mr. and Mrs. Emory Horn Sunday.

Messrs. Joe Covington and J. E. Dryden were attending to business matters at Olton Wednesday.

Mr. and Mrs. Vernon Head, Mrs. Emory Horn, Mrs. L. D. Covington and Miss Lois Grundy spent the week-end in Amarillo, Borger and Canyon with relatives and friends.

Mr. and Mrs. Williams and three daughters of O'Donnell spent several hours Sunday at the Weimhold Hatchery. Mr. Williams, who operates two hatcheries, was much impressed with this hatchery's brooding system.

Work is being done on both the Baptist and Methodist churches this week.

Miss Evelyn Taylor spent the week-end in the home of her parents, Mr. and Mrs. John F. Taylor.

Mr. and Mrs. W. W. Carpenter and daughter, Elsie, were shopping in Lubbock Saturday.

Mr. and Mrs. G. G. Herren made a business trip to Lubbock Saturday.

Mr. and Mrs. W. I. Wilkins and family spent the week-end with Mr. and Mrs. B. C. Wells.

Mrs. Herman Lyle gave a "show-er" at her home in honor of Mrs. R. E. Duckworth. Mrs. Duckworth received several nice presents from her many friends in Sudan.

Messrs. Andrew and Edgar Jenkins were in Lubbock Saturday.

Misses Tumlinson and Pointer, members of the Amherst faculty, were visitors of Mr. and Mrs. W. I. Wilkins Sunday.

Mr. James Alldredge took the high school track team to the West Texas track meet, held at Snyder, Saturday.

Mr. and Mrs. C. A. Wilkins and daughter of Spring Lake attended church in Sudan Sunday.

Miss Venda Young and two friends of Lubbock met with an accident Saturday night when they overturned a car. No one was hurt.

Mr. F. M. Boles, high school principal of Littlefield Public Schools, was in Sudan Sunday.

Rev. C. R. Hooton of Fort Stockton was passing through Sudan Tuesday and was a guest of the Kiwanis Club.

The babe of Mr. and Mrs. Tobc Vereen was hurt Sunday afternoon when it fell from a truck. Mr. and Mrs. Vereen were on the road between the Furneaux home and town when the accident occurred. Mrs. Vereen suffered a sprained ankle in trying to catch the baby. The child was reported not seriously hurt.

While the wind blows sometimes and often at this season of the year in West Texas some of us are almost tempted to return to our former places of abode, still when we consider the fact that there is no country under God's sun that is so productive as the plains section of the west, and especially this immediate section, then it is that we begin to see the better side of things and but few of us are ready to move now or later. This country just gets into your blood and you can't get away even if you wanted to.

Mr. A. M. Holt has gone to Levelland where he has been engaged for a short time to set up and arrange a large stock of goods for a merchant at that place. Mr. Holt is an accomplished merchant and will start the business off in the best of shape. The parties are fortunate in engaging his service.

E. C. Barber of the Sudan News spent the week-end in Clovis, N. Mex., with his daughter and son-in-law, Mr. and Mrs. T. J. Anderson.

W. A. Locker of Bula was in the city Saturday morning and made The News office an appreciated call. Mr. Locker is an old Oklahoma friend of the publisher and we are always glad to have him visit us. Mr. Locker has been very successful since locating here five years ago, and stated to a News reporter that he considered this one of the very best sections of the west and that he had never had cause for regret for having bought a good farm in Lamb county, the best section of the plains.

FIRST ANNUAL BABY BEEF SHOW GREAT SUCCESS

Fourteen 4-H club boys of the county brought in 28 head of baby beeves which they have been feeding out during the past winter months for exhibition at Amherst and after the judging to be shipped to the Fort Worth market for sale.

County Agent McGee from Levelland was the judge for the affair, and in his opinion the Lamb county boys had a mighty good group of Baby Beeves.

Records on the calves show that the feed that was fed through these calves netted the boys from \$30.00 to \$45.00 per ton which would have brought only about \$15.00 to \$20.00 on the open market.

In the judging the following new placings are available: Dow Hester, Fieldton, first, and grand champion of the show; Edwin Holland, Fieldton, second; T. W. Chapman, Fieldton, third; Weldon Shaffer, Sudan, fourth; and T. W. Chapman, fifth.

Dow Hester won a free trip to the fat stock show in Fort Worth \$15.00 individual prize given by Ewing Halsell and \$5.00 first prize given by the bank he does business with, which was the First National of Amherst. Edwin Holland won \$5.00 for second place, \$10.00 individual prize by Ewing Halsell, and won the \$5.00 prize given by his bank, which was the First National Bank of Littlefield.

More than 400 people from the farms attended the First Annual Baby Show, and much interest was displayed by those present. It is hoped that such as this is a forerunner in making Lamb county the greatest cattle feeding center in the United States.

NEW BILL PROPOSES TAX ON CARBON BLACK

AUSTIN, March 8.—A proposal to tax gas used in the manufacture of carbon black was made in a house bill offered Friday by Representatives Mike Hogg and Phil Sanders, estimated to bring \$285,000 a year. No tax is now imposed on gas so used.

The tax proposed is one-fourth of 1c a pound on all carbon black manufactured. The tax is on the carbon black but Texas gas is used in its manufacture.
