MR. AND MRS. ALEXANDER ENTERTAIN FRIDAY EVENING

CHOIR PRACTICE AT METHODIST CHURCH

WOMAN'S MISSIONARY SOCIETY

Cow For Every Poor Man is Mitchner Plan

Candidate for United States Senate Thinks Every Poor Man Needs Cow Instead of Bull.

From San Angelo comes the report that C. A. Mitchner, candidate for the senatorial position now held by Morris Sheppard, announces his platform in an address there.

Planks in his platform include closing the New York and Chicago Exchanges with federal troops; allowing citizens of Canada to vote on whether or not they wish to enter the Union; States navy the beer of any flotilla on the seven seas; recognizing the trading with Soviet Russia.

"I'm not an anti-prohibition fanatic," said Mitchner. "I am a red-blooded American, proud of my citizenship and interested in public questions. I believe in constitutional government and in law observance. I do not want to see the Eighteenth Amendment repealed, but I do want to see the Volstead Act modified so that those who want it can have light wines and beer and will not be molested by prohibition snoots."

What a sorry plight this country will get into, when these prohibition fanatics will sanction and applaud the killings that are being committed every day in the name of law enforcement. It is the good Lord had wanted to, he could have created man a complete abstainer from strong drink. Did he do it? No, he wanted a real man.

Mitchner said the first plank in his platform favored giving every poor man a cow, and "if he is too poor to drive her home we'll drive her for him." As an afterthought, Mitchner asked, "now, I wonder if my opponents will swipe this plank out of my platform?"

Mitchner is 60 years old. He is former school teacher. Mitchner failed to state what he proposed to do with the people of Marrs in the event they wanted some special legislation, but he will probably get around to this at a later date.

A very large crowd met at the home of Mr. and Mrs. C. B. Alexander last Friday evening and they were delightfully entertained.

Choir practice will be held at the Methodist church Wednesday night and perhaps Thursday and Friday night, so the News has been asked to state.

The Womens Missionary Society met with Mrs. Carpenter on Monday. There were seven members present. Next Monday we are to have W. M. Manual Lesson.

Everybody be there as this is work we need to see about. Announcement will be made Sunday morning of the place of meeting.

The evening was the singing of the Taylor Trio.

The Taylor Trio consists of Miss Evelyn Taylor, one of our teachers, her father and her sister. The two later live at Clovis where Miss Taylor makes her home when she is not busy in school work. These three are splendid singers, and any program on which they appear will be enriched by them.

Misses Taylor and Oglesby wish to extend their thanks and appreciation to the visitors of the evening for their presence. Their program was originally intended for a chapel program, but the destruction of the assembly hall rendered it impossible to present it, so they changed it to an evening program instead, and gave it to friends. The proceeds of the evening will be used in Grammar school equipment.

F. O. Boles of Littlefield was in Sudan on business during the early portion of the week.

**WEALTHY COTTON PLANTER ADMITS NEGRO PEONAGE**

James E. Pigott, wealthy middle aged cotton farmer of near New Orleans, La., is awaiting transfer to the penitentiary at Atlanta, after having plead guilty to charges of peonage.

Pigott admitted to Federal Judge Wayne G. Borah that he often chained negroes to trees when they tried to escape from his plantation. He said he advanced food and lodging to the negroes during off months but when crop time came would deduct these advances from their pay, so that they almost always were in debt to him.

Pigott had practiced this so long that he is said to have been at a loss to understand just why he was to be sent to the pen. He denied having beaten negroes, although one of them exhibited a number of deep scars said to have been made by Pigott's snake whip.

**WHAT'S GOING TO HAPPEN TO SUDAN'S MAIN STREET?**

Recently The News cited the fact that Sudan needed a little paving, and several have expressed themselves as being heartily in favor of paving Main Street and several cross streets for a block or two north and south. The fact that so many have expressed themselves as favoring the paving program, and we have yet to have a single criticism of our position on the matter, we are prompted to ask the question "what are we going to do with Main street if it is not paved very soon?" It is plainly to be seen that something will have to be done and that very soon or we are going to have no Main street.

The lowest point at any portion of this thoroughfare throughout the entire business section is squarely in the center of the street, and it will take a good piece of engineering skill to devise a means of grading the street and raising the center to where it should be without resorting to hauling several hundred tons of dirt. This is going to be a rather expensive operation to say the least of it, but it is facing us and will have to be solved sooner or later.

And, again, the spring rains are sure to come after a time and with every rain we will have a much lower street and a harder proposition to handle. It is a fact that this problem will have to be solved, and we are of the opinion that the sooner it is done the less expensive it will be.

Frankly we do not see how the task is to be done if it is put off until after we have a big rain or two, and for that matter we are of the opinion that the sooner the question is solved and work begun the less expensive it will be to the people of the city.

Let us hope that something will be done very soon as Sudan is one of the Plains cities that is noted for its very bad streets.

**A HUNCH TO THE SUDAN CHAMBER OF COMMERCE**

Every person who tries to get to Sudan is not familiar with the roads leading to the city, and as there are a number of ways to get here from most every direction, why not have a few sign boards placed along the highways for several miles out of Sudan, telling the motorist just how far it is and giving some idea of the best and nearest route that will lead to the city?

Just a few days ago the writer had occasion to drive to Sudan from the east. We were not familiar with the roads and we looked in vain for some sign post or marking that would direct us to Sudan. We observed that Olton, Muleshoe and several other towns had markers up and we kept looking for some kind of a marker that would direct us to Sudan. Finally, becoming disgusted, we asked a hiking station proprietor, and he directed us over a cut-off, one of the worst roads that we have traveled in a long time. But, we arrived here after one of the worst snafus we ever experienced, only to find that we had been directed over the wrong route.

Sudan should have some markers along the highways. As soon as you leave Plainview you begin to hear of Olton and Muleshoe and any number of other towns no larger and no better than Sudan, and we see no reason why people who come to Sudan should

not know where they are going, the distance and the best road to take to get here.

And, again, we say that we need a better road to the Clovis-Plainview highway. This road is almost impassable in some places and shows to have had no work in some time. Something should be done about getting this road improved, if it can be done, as most of our Oklahoma friends who come to Sudan have to get across to Sudan by taking one of the roads out of here to the Clovis-Plainview highway and all of them are simply very bad.

**E. C. BARBER TAKES VACATION**

E. C. Barber, who for the past thirteen months has looked after the publication of the News and during the entire time has never asked for nor had a vacation, is now at the home of his daughter at Clovis where he will rest and visit until the force in the office sees that we can no longer do without him.

Mr. Barber is our main stay if you know what that means, and we are glad that he can now take the rest he so much deserves and hope that after he rests and regains his former pep that he will be again associated with us in the publication of the News. However,

**SNOW AND RAIN MEANS MUCH FOR SUDAN SECTOR**

The rain and snow of the past few days means a great deal to the farmers of the Sudan sector many of whom had begun to complain of the continued dry weather, and the high winds that had prevailed throughout the entire month of March. The moisture was badly needed on small grain and it will be worth a great deal also to farmers who are wanting to break the sod and prepare new land for planting, although cultivated lands still contained considerable moisture and farmer-

were going ahead preparing their farms for the coming crops.

The snow is reported to have extended from Wichita Falls as far west as points in New Mexico, the heaviest fall being reported around Amarillo and Pampa where it is stated the snow measured as much as six inches in depth.

Friday morning was very cold here and considerable ice was to be seen here, but it is said by a great many that the fruit crop will not be injured due to the amount of moisture that was in the air and also due to the fact that snow covered most of the foliage on the trees.

Many farmers state that the fruit crop this year will be as good or better than in previous years and that the freeze has done no damage whatever.

D. A. Banderen, manager of the W. T. C. C. is preparing a constructive program for the 12th annual convention to be held in Abilene May 29, 30, and 31.

**Two Rows at a Time SAVES MONEY**

**YOU OUGHT TO see this Case 2-Row Cotton Cultivator "double time" through the rows. It meets every requirement of clean, fast cultivation—so necessary when you've got to hurry—so important to low production costs and maximum profits.**  
Smooth working parts and simple construction provide easy operation. A slight pressure on the convenient foot pedals shifts the gangs and pivots the wheels—providing a wide dodging range. Easy to follow the rows.  
Cultivating depth is controlled by easy-working hand levers. Spring-assisted master lever raises and lowers all gangs easily. Equipment includes a variety of standards, spring trips, shovels and sweeps.  
You want to see this long-lasting, light-running Case 2-Row Cultivator. Come in any time—we're always glad to see you—always on the job.

**BIRTHDAY PARTY**

On Thursday, April 3rd, Mrs. C. L. McKinley entertained a few friends, honoring the 71 birthday of her mother, Mrs. E. C. Locke, of Muleshoe.

After the guests had arrived, Mrs. Locke asked that they sing, and with Mrs. Ormand at the piano and Mrs. Berkley as leader, quite a nice selection of sacred songs were given, as much to the enjoyment of the singers as to Mrs. Locke, after which Mrs. McKinley very amusingly presented the gifts to her mother, read the greeting cards, and passed the gifts for the guests to see. Mrs. Locke received many nice gifts with the very best wishes from the givers.

One of the main features of the afternoon was the nice readings by Daphne Berkley, Little Billie Ruth Berkley, and Francis Lou McKinley, granddaughter of Mrs. Locke.

More songs were requested, and several more appropriate numbers "Where We'll Never Grow Old." Then, all were allowed to talk and to any passers-by it was evident that none were timid. Delicious refreshments of limeade and cake were served, and again all of the guests were at their best. There was an abundance of such, we were sure, as Mr. McKinley made his appearance and a glass of limeade.

All regretted the hour for leaving as the afternoon was so pleasantly spent.

All wishing Mrs. Locke many more happy birthdays, and thanking Mrs. McKinley for a pleasant afternoon, Mesdames L. D. Covington, A. W. Ormand, A. D. Linton, M. Dudley, D. B. Sebring, W. R. Berkley and L. P. Gibbs. —A Guest.

**KIWANIS NOTES**

Fellow Kiwanians:—

Now that April 1st is past let's settle down and do something.

So far we have had no entries in our "Yard and Garden Contest." Come on now, let's talk it up. Work is progressing nicely on our park, so let's get gone on our yards.

Let's all clean up as well as dress up. Get rid of trash and practice neatness around our homes. In this windy season it is hard to keep things neat, but why not burn the trash instead of throwing it on the street to blow into someone's front door?

Let's all get behind each other and do something to Main street. We have all the city facilities now except sewer and paved streets, so, let's give them a thought.

LET'S MAKE SUDAN A REAL CITY!

And, let's all stay behind Kiwanis. Keep our attendance up. Get new members! BUILD!

What became of the report on Baby Beef Feeding? What has become of the various committees that were going to do so much the first of this year? How many of you still remember the part you were to play? Are you carrying your end of the load? Are you doing your part of the BUILDING?

So, all together for KIWANIS. F. E. MILLER, Secretary.

**CANYON BUFFALO BAND PLAYS IN SUDAN TUESDAY**

Tuesday the 30-piece Buffalo Band of West Texas State Teachers College at Canyon, gave two performances in Sudan Monday, one at the public school and the other on the streets of the city.

The audience was very good considering that they arrived entirely unannounced. We hope the college may see fit to send them here again and continue keep sending them, as this band is composed of very fine musicians.

Some of our high school boys may be attending Canyon College next year, and we hope to see them visit us as members of this very excellent band.

**ATTEND GINNERS CONVENTION**

Joe Barnett, J. R. Dean and E. Lam have returned from Dallas where they attended the state cotton ginner convention last week.

They report a nice trip and a very instructive program that will be worth a great deal to the ginnermen of the state.

Mr. Lam states that the display of new and improved machinery was one of the most enjoyable portions of the program from his viewpoint.

**HOME DEMONSTRATION CLUB HAS MEETING**

The County Council of Home Demonstration Clubs met at 3:30 at the Amherst school building on April 5th.

Mrs. L. L. Massingill of Littlefield acted as president and a business meeting was held.

On April 22 a short course for club women will be held at Canyon. Miss Mashburn has asked that if possible that she would like for at least fifty women from each club to attend. It being so near the trip can be made in one day.

It would be a decided boost for the county if five women could go from each club.

The Lubbock Nursery has made a special price on asparagus and rhubarb roots to the women of Lamb county.

The plants are two years old and the rhubarb comes at 3c each, and the asparagus at 2c each. If interested see your club president or club secretary so she can send the order in to the council secretary, as they must all go in one large order.

Miss Mashburn gave a demonstration on quick yeast bread. One hour from the time she started it she had hot rolls out of the oven, ready to eat, and they certainly were delicious.

**BIBLE STUDY CLASS**

The Ladies of the Church of Christ had a very interesting Bible study this week.

The ladies met in the home of Mrs. Beck. Their next meeting will be with Mrs. C. A. Daniels. Everyone is invited to come and help them out. —Reporter

**QUARTERLY CONFERENCE AT METHODIST CHURCH**

Quarterly Conference will be held at the Methodist church in Sudan on Easter Sunday, April 20th.

Rev. C. A. Beckley will preach in the morning and conference will be held in the afternoon.

Mrs. W. A. Elmore is teaching at Circleback during the absence of Mrs. Lois Tooms who is ill at this time.

Rev. A. V. Hendricks, pastor of the Methodist church here, is assisting Rev. Storey in a meeting at Morton.

Mr. Henderson, whose home is south of Balleboro is quite sick at the home of his daughter Mrs. W. J. Florence.

Friends received word from Mrs. C. R. Hooton of Fort Stockton, stating that her mother, Mrs. Eberheart, had her tonsils removed some time ago, and is not getting along as well as she should. Mrs. Eberheart has many friends in Sudan who will be sorry to hear of her illness.

**Konjola Only Medicine That Did Any Good**

New Medicine Banished Kidney and Stomach Ailments After Others Had Failed.

MR. M. D. ABBOTT

"I suffered for two years with kidney trouble," said Mr. M. D. Abbott, 600 East Hattie street, Fort Worth. "I have scarcely been able to do my work. Lifting, or turning my body was the signal for severe back pains. Night risings were frequent. My stomach, too, added to my misery. Anything I ate caused gas and a severe pain in the pit of my stomach.

"Konjola is the only medicine that did me any good. I now feel better than I have for many a day. I can eat what I wish without suffering and the pains in my back are gone. My kidneys now are functioning normally. Konjola has gone right to the spot in my case and I praise this wonderful medicine for all that it has done for me. A medicine that did all Konjola did for me can help others and I am recommending it to a lot of my friends who are suffering as I did."

Konjola is not a "cure-all." There is no such thing. But when taken for from six to eight weeks, Konjola will produce amazing results. The countless thousands of endorsements of Konjola have proven that it makes good, even in the most stubborn cases.

Konjola is sold in Sudan, Texas, at H. G. Ramby's Drug Store, and by all the best druggists in all towns throughout this entire section.—Adv.

**BLEEDING SORE GUMS**

If you really want quick, certain and lasting relief from this most disgusting disease, just get a bottle of Leto's Pyorrhoea Remedy and use as directed. Leto's is always guaranteed.—H. G. Ramby Drug Store.

**FARMERS OF MULESHOE MAY BUILD ELEVATOR**

At a meeting of farmers of the Muleshoe section held at the court house on last Saturday, a movement was started for the building of a farmers elevator in that city this spring, the plan being to have the building completed in time to handle the grain crop that will be harvested this year.

It is understood that this matter has been under discussion by the farmers for some time, but no action was taken until the meeting Saturday.

It is also stated that at a meeting last Friday night additional steps were taken for the organization of a co-operative grain company.

Several farmers of the section between this city and Muleshoe are interested in the movement, and it is stated that the elevator company will be organized and all the stock in the company will be taken by farmers of the community adjacent to Muleshoe.

**NEW COTTON GIN PROPOSED**

W. F. Rayburn of Marlow, Oklahoma, was in Muleshoe last week looking for a location for a cotton gin, and it is stated that he is very favorably impressed with this portion of the Plains as a suitable location.

Mr. Rayburn is an experienced ginner, and now owns five gins on the Plains. After checking over the territory it is stated that Mr. Rayburn stated that he was confident that enough new land in the Muleshoe section had been broken and prepared for cotton to insure the success of a modern and up-to-date plant and it is very likely that he will begin construction of the plant during the early summer.

Mr. Rayburn is president of the Oklahoma Cotton Ginner Association. He is well known to many Oklahoma farmers and business men of this section.

For Pool's Field Seeds for planting purposes call at Criswell's produce.

**2 Glasses Water, Not Too Cold, Help Constipation**

One glass water is not enough—take two glasses a half hour before breakfast. You get quicker and better results by adding a little simple glycerin, saline, etc., (known as Adierka) to one glass. Unlike other remedies, Adierka acts on BOTH upper and lower bowel and removes old poisons you never thought were in your system. Adierka stops GAS and soothes stomach in 10 minutes! Relieves constipation in 2 hours.—H. G. Ramby, Druggist.

EACH SAVING YOU MAKE AT "M" SYSTEM has a real CASH ring. The real Money comes back to you in change. The best food in the world goes into your home and the saving builds your Bank Account.

**The Good Old Days**

HOW OFTEN DO YOU HEAR SOME ONE PINING FOR THE GOOD OLD DAYS?

But, do you really think you would like to return to the kerosene lamp, the coal stove, the old back-breaking ways of doing your ho"se work, and the many scores of other old-time methods that modern electrical equipment has made so easy?

Household worries fade away when electricity is put to work. Sweeping, cleaning, laundering, cooking, and scores of other tasks are done easier with electric equipment.

The modern home is finding new uses for electricity each day. The modern home manager has proven to her entire satisfaction that electricity is the most effective service in her employ—and the cheapest.
