Old Man Had Suffered For Four Years

"I have at Last Found Something That Has Put an End to My Troubles," Says Mr. Trippit.

"For four years I suffered with stomach trouble, bloating and the without getting any relief I have at last found something that has put an end to my troubles and I feel that I ought to tell what it is," said A. N. Trippit, well known oil field worker, who lives in Seminole, Okla.

"I had no appetite and what little food I did force down formed gas that swelled me up and I was miserable. I was always worn-out and part of the time I was unable to work. I was constipated and had severe pains in my sides and back.

"I heard so much about Orgatone that I decided to give it a trial. Atter I had taken a bottle it was almost unbelievable how much better I felt. My appetite had returned and I was able to eat anything and as much of i as I want without any trouble My digestion is all right, m nerves are quiet and I sleep and rest at night. I have regained my strength so that I can work as well as I ever could, and I fee better in every way than I have in years. Orgat me certainly fixed me up in fine shape and you ca.

DR. A. E. LEWIS DENTIST Permanently Located TEXAS MULESHOE +:-

There is one sure way to get greater value in a low-priced car todaychoose a Six!

This greater value is instantly obvious when you drive a Chevrolet Six. You notice first of all its greater smoothness. There is no tremor in the steering wheel-no rattle in the floor boards-norumble or drumming in the body.

In addition to the finer performance of its six-cylinder motor, the new Chevrolet gives you truly remarkable economy.

Its six-cylinder smoothness saves the entire car from the strain and wear of vibration. This, of course, lowers the cost of maintenance and assures a longer-lasting, longersatisfying automobile.

From the standpoint of operating expense. Chevrolet is equally economical. No other automobile consumes less gasoline and oil. No other shows a lower expense for tires. And

no other car costs less for service. Because of its modern engineering. Chevrolet also assures a high re-

sale value. Chevrolet gives you fully-enclosed, weather-proof, 4-wheel brakes; a modern fuel system-with the gasoline tank mounted in the rear; four long semi-elliptic springs, mounted lengthwise in the direc-tion of car travel. It gives you beautiful Fisher bodies built of combination hardwood-and-steel. It gives you a heavy, rigidly-braced channel-steel frame. And it gives you a full ball bearing steering mechanism.

Before you decide on any car in the low-price field, see and drive the Chevrolet Siz. The more thor-oughly you investigate, the more certain you are to conclude that it's wise to choose a Six-for value, for performance . . . and for eco-nomical transportation!

The Good Old Days

HOW OFTEN DO YOU HEAR SOME ONE PINING FOR THE GOOD OLD DAYS?

But, do you really think you would like to return to the kerosene lamp, the coal stove, the old back-breaking ways of doing your house work, and the many scores of other old-time methods that modern electrical equipment has made so easy?

Household worries fade away when electricity is put to work. Sweeping, cleaning, laundering, cooking, and scores of other tasks are done easier with electric equipment.

The modern home is finding new uses for electricity each day. The modern home manager has proven to her entire satisfaction that electricity is the most effective service in her employ-and the cheapest.

Texas Utilities Co.

R. E. McCASKILL, Manager.

Littlefield, Texas.
