Where a City
Belongs"

The Sudan News

Sudan's Slogan:
"Boost or Move"

VOLUME VII

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, JULY 30, 1931

NUMBER 5

Beautiful Lawn With Paint

Perhaps that sounds rather absurd, saying the lawns are made more beautiful with the use of paint, but it all depends on where the paint is used.

Mr. and Mrs. Carlisle Daniels did much to add to the beauty of their already lovely yard by painting the trunks of their shade trees with white paint. Worms were boring in the trunks, so Mrs. Daniels busied herself with the paint brush and soon had trees that were not only protected from the destructive worms, but that were twice as beautiful.

Why not let's keep up what they have started, and all paint the trunks of our trees along the street. Think how much more attractive that street would be!

Harris To Pampa

Bruce Harris, who has formerly been employed in the meat department of the B. & M. Grocery at Littlefield, has accepted a position as traveling representative for the Wilson Packing Company, and will make his home in Pampa.

Mrs. Harris and children were expecting to leave for Pampa the latter part of last week.

Mr. and Mrs. Harris are a Sudan boy and girl, and their many friends here trust that they enjoy great prosperity in their new home.

Mr. and Mrs. L. E. McClish and daughter, Martha, and Miss Evelyn Pippin, of Brownfield, were guests of Mrs. W. J. Carter and family Sunday.

It's Clean-up Here

Instead of "Boost or Move," Sudan's slogan might be said to be "Clean-Up or Move!" Everybody is doing it. Early in the morning, late in the afternoon, and sometimes all through the day, you'll see men, women, boys and girls out with a hoe or rake, cleaning up, raking up. Then you see a tall column of smoke and you know the weed burning is in progress.

The Mayor says "clean-up" and we're doing it. Back alleys, vacant lots, back yards and front yards and front lawns are all subject to the same rigorous campaign. These hot days the weeds soon dry and may be burned and front yards, and subject to the same rigorous campaign.

Produce On The Rise

Good news was received by the farmers of this section when they found that all kinds of produce is up slightly. Cream, that has been as low as 12c, was 15c the latter part of last week, according to local produce dealers, and eggs and fliers are worth a few cents more than they have been.

Fractured Collar Bone

"Grandpa" Jones, aged farmer residing east of town, was thrown to the ground Tuesday of last week while attempting to handle a yearling calf, and sustained severe injuries. The right collar bone was fractured and he was badly bruised and shaken up.

Mr. and Mrs. Whitwell were in Lubbock Sunday.

And No Wits Dr. Ford

Our troubles never cease, they get bigger instead! If we would only learn to quit making mistakes we'd get along pretty good. Just as we get over pulling one "boner" we up and do something worse than ever before.

Last week we left Dr. Ford's professional card out altogether. Don't know when or why. Just know we did, and didn't even know that much until the Doctor called us in and proceeded to express his opinion of us for slighting him! Good thing our friends do get up and talk or we'd remain in blissful ignorance all our young lives!

Revival At Amherst

Hear Lea Starnes at Church of Christ in Amherst in a ten day revival beginning July 30. Everyone invited to attend these services. Come as you are.

Methodist Revival Begins Sunday

The Methodist Revival will begin Sunday, August 2nd, and will continue for a period of two weeks, according to present plans.

The Reverend Watson and Nance, both noted preachers, will have charge of the services. Plans are being made to have the night services out doors, adjacent to the church.

The pastor, Reverend Hendricks, requests that all denominations come in and help make this revival a success. All who enjoy good singing are especially invited to come out and help with the music.

Opening Day Good

The White Rose Cafe enjoyed a splendid opening day Saturday, according to Mr. Musick, the new proprietor.

Mr. Musick is proving to be a splendid cafe man though he says his wife is the one who is really good. Mrs. Musick is still in Dimmitt, but is expected here within the next few days, having closed their cafe at Dimmitt Sunday.

Have you visited the White Rose Cafe? If not, drop in and get acquainted with Mr. and Mrs. Musick. They have a clean, nice looking cafe, freshly painted tables for the ladies, and are making a speciality of Sunday dinners.

Picnic At Fieldton

The lake near Fieldton proved a popular resort for many Sudanites last Sunday. Swimming, fishing, picnic lunches, all did their share in helping make a pleasant outing for town folks. There was one casualty of the day when Mrs. Guy Sharrock hooked her finger on the fish hook and was taken to a doctor at Amherst to have the hook cut out.

Among those seen at the lake were Messrs and Mmes. W. A. Clemens, Guy Sharrock, Tidwell L. T. Hunt, Earl Ladd, A. P. Lambert and Homer Doty.

Opening Of School

At a meeting of the school trustees, it was decided to open the Sudan schools on the first Monday in September, making it the seventh. There was quite a little talk of beginning the 31st of August, but several of the teachers are still in school, and this early date would give them only four or five days between the close of their summer work and beginning the fall term here.

Mr. and Mrs. Jimmie Aldredge spent the week-end here, returning to the Texas Tech Tuesday to complete the summer session.

Mr. and Mrs. R. B. Schrimpscher, residing ten miles southwest of town, are celebrating the arrival of a girl on the 24th, according to Dr. Foote.

Mr. and Mrs. Barnett of Bangs, have moved into the stucco house a block south of J. W. Briscoe, and will make this their home in the future. Mr. Barnett is employed on the highway, according to our information and is a brother of J. O. Barnett, this city.

Saturday, August 1 Is Dollar Day At Sudan

Are You Coming? A Glance Through The Ads In This Issue Will Convince You That Sudan Is Indeed The Bar- gain City Of The Plains.

If We Have Erred We Apologize

In publishing any news item, we always make it a point to learn all the details and to be sure of the facts before any attempt at publication is made. This requires no little time and effort but we feel it is well worth the trouble. Even so, however, it is not possible to always be right. Being human, we will make mistakes.

It would seem from the following affidavit that the Sudan News erred in its writing-up of last week in which it published in the Saturday boxing program. Again we repeat, if we have erred, we are sorry. The following affidavit, brought in by A. C. Finley, father of T. J. is self-explanatory:

Before me, H. W. Fillmore, a Notary Public in and for said County, State of Texas on this day personally appeared W. I. Wilkins, F. B. Talbott, J. T. Aldredge, R. E. Duckworth and E. P. Jones, to me well known, and who after being duly sworn to me, depose and each of the first four swears that they have taught in the public schools of Sudan for the past three school years, and each of the next two named have taught in the public schools of Sudan for the past two years, and the last named person being E. P. Jones, has been janitor in the public school of Sudan for the past two school years.

Affiants further swear that to their certain knowledge, that T. J. Finley and Rex Hammock have never engaged in a fight while in school or on the school grounds. Affiants further swear that to their certain knowledge that no other teachers have never reported any kind of dispute or fight between the said T. J. Finley and the said Rex Hammock.

James Aldredge
R. E. Duckworth
W. I. Wilkins, Supt
F. B. Talbott
E. P. Jones
Subscribed and sworn to before me this 28th day of July, A. D. 1931.

H. W. Fillmore, A Notary Public in and for Lamb County, Texas.

G. L. Musick spent Sunday with his family in Dimmitt.

Our Bull Pup Says

Have you ever noticed that one soldier out of step can throw the entire regiment into confusion?

In the same way, one citizen out of line can throw his entire town into an uproar of confusion and dissension. One knocker can do more damage than the balance of the town can undo in a life time.

Why not turn the spotlight on your own behavior and let the other fellow rest a while? Perhaps you are doing as much harm in your own way as he you have been criticizing!

If you find it impossible to work for the betterment of your home town, step back and give your place to one who can. Remain silent if you can't boost.

Fire Destroys Stool's Dept. Store

According to a letter received from Mr. Stool, new owner of the Sudan Bargain Store, fire of an unknown origin destroyed the Stool Department Store at Portales, N. M., last Friday night. Practically everything was a total loss, according to our understanding.

Included in the loss was about \$5,000.00 worth of merchandise boxed and waiting to be shipped to the store here that Mr. Stool had planned to open the latter part of next month.

In the letter, Mr. Stool stated that he would be unable to open the store here as result of the loss.

Program For Saturday

Visitors here on Dollar Day are promised a real treat at the boxing exhibition Saturday afternoon. Pollard, weight 145, will meet an opponent from Muleshoe, while his younger brother, lighter in weight, will draw a local boy as his opponent. "Nigger Red", from Lubbock, will be here to fight it out with another negroe equally as proficient in the ring.

Jack Doss, famous welter-weight boxer, wishes to have it announced that he is co-operating with the local merchants in putting on these programs, and that he alone will be responsible for them. Mr. Doss assures the public that they may always see clean, sportsman-like boxing at Sudan.

Seriously Injured In Car Wreck

John Briscoe, 35, of Amherst was seriously injured last Friday when the car which he was driving struck fresh graveled road at a high rate of speed and overturned. Mr. Briscoe threw his hand out the window as the car started over, and the weight of the car crashed his fore-arm and hand. The hand, especially, is badly mangled, and Amarillo doctors deemed it advisable to amputate the thumb. The other fingers are in bad shape, but physicians state they can be saved provided blood poisoning or other complications are escaped. The arm was broken in two places between the wrist and elbow. Mrs. Briscoe and their guests, Mr. and Mrs. Amel Zennemon of Cleburne, escaped with a few bruises.

Passing motorists carried Mr. Briscoe to the hospital in Amarillo, but relatives here stated he would be transferred to the Lubbock Sanitarium as soon as his condition permitted the removal, he being considerably weakened by the loss of so much blood.

Geo. Briscoe, father of the injured man, and his son, R. E. Briscoe, left immediately for Amarillo, remaining there with him until Sunday afternoon.

It seems that Mr. Briscoe was driving the Zennemon car—a new Chrysler, and the brakes had never been adjusted properly. The left wheel brakes were tighter and when the brakes were applied, the car had a tendency to swing to the left. The roads were in fine shape, however, and the party was making good time. All at once, with no warning, they came upon freshly graded road. Realizing that they would overturn at such a rapid speed, Briscoe threw on the brakes and over the car turned in the soft grade. One side of the car was badly demolished.

It is understood that the injured are using the state highway department for failure to place warnings as to the fresh graded road.

BRUISES SHOUL- DER SEVERELY

J. S. Maynard, better known as "Dad" came near having a serious accident the latter part of last week while attempting to free their milch cow from the tangles of her stake rope. In some manner, Dad got tangled up and the cow hit him on the shoulder, leaving a most painful bruise.

Though sore and stiff, Dad is still having his fun down at Nichols Grocery.

B. Y. P. U. PICNIC

The B. Y. P. U. class composed of the younger married couples of the Baptist Church enjoyed a picnic near Fieldton last Wednesday evening. Fishing and swimming furnished amusement to the crowd. A most enjoyable picnic supper was spread and enjoyed by Mr. and Mrs. G. G. Hazel, Harold Griffiths, Melvin Robertson, W. A. Clemens, Mrs. Guy Sharrock and Miss Dorothy Sparland.

Claude farmers making flour. Claude, July 26—Some of the wheat growers of this section have combined to purchase small mills and are keeping their low-priced wheat at home and grinding their own flour. Thus, with their pork, beef, chickens, vegetables, fruits, milk, butter and cream, there is little left to buy but sugar and coffee. Some are even making their own breakfast foods out of the wheat raised on their own farms.

Many of the farmers of this section are using much of their wheat in fattening hogs both for market and for home use the next year or two. Large flocks of chickens and turkeys are also being fed wheat.—Ft. Worth Star-Telegram.

Sod House H. D. Club

The Sod House Home Demonstration club met July 17 with eight members present for a lesson on "Health and Sanitation." The discussion was very interesting—those who did not come missed something that was worth while.

The next meeting for the club will be August 7th. All members are urged to come and bring someone with them. Visitors always welcome.—Reporter.

Says Conditions Here Are Fine

Mr. and Mrs. J. D. Hassell and children, of Lubbock spent Sunday here the guests of Mr. and Mrs. F. E. Miller and family. While here Mr. Hassell, who is credit manager of the Hemphill-Wells Dry Goods Co., drove out, looking over the crops in this section. Mr. Hassell seemed well pleased with the prospects and thought Sudan had fine future for crops this year.

Is Burned While Canning

Miss Ruby Mince, who is here from Dawson, visiting with her sister, Mrs. Vestus Patterson, was severely burned Friday while canning green beans.

Lifting the jar from the pressure cooker, Miss Mince undertook to tighten the lid, though she had heard it said that this could not be done. Just as she tightened it the jar exploded, throwing the boiling liquid down her arm, burning the arm badly from the shoulder down. Mrs. Patterson who was in the next room, was hit on the cheek by two beans and received slight burns. First aid was administered at once, and Miss Mince seems to be recovering nicely.

Mr. and Mrs. Sam Saunders left Saturday evening for Post, returning late Sunday afternoon, accompanied by Mrs. Saunders' sister, Mrs. R. J. Doss, and son, Otho Doss.

Judge J. E. Dryden accompanied by Mrs. Dryden and baby of Olton, spent a short time in town Monday.

Craver Locates Here

Albert S. Craver, D. C., a specialist in Chiropractic and Physio-Therapy, is now giving half his time to Sudan, and the balance in Muleshoe. Dr. Craver has been located in Muleshoe for sometime, but has just recently decided to spend the morning and until two o'clock each day at his office here in the Sudan Hotel. Dr. Craver comes here well recommended.

HUNDRED OF FIGHT FANS WITNESS DOSS-OWENS FIGHT THURSDAY

The Doss-Owens boxing match at Clovis, N. M. was witnessed by hundreds of enthusiastic fight fans last Thursday evening.

It is reported that Owens has a broken nose and a fractured jaw bone as a result of this exhibition, while Doss seems in as fine a shape as ever. The final decision of the referee gave Doss eleven complete rounds and a draw on one. The purse was awarded to Doss.

From the general reports, it seems that Owens was pretty well done for at the close of the last round, and there was a rumor going the rounds that he passed out completely a few minutes after leaving the ring. This report, however, has not been verified.

Judge J. E. Dryden accompanied by Mrs. Dryden and baby of Olton, spent a short time in town Monday.

"CAN ALL YOU CAN"

"Can all you can" and eat what you can." Those words of wisdom were spoken by Herbert Hoover during the trying days of the World war.

That was splendid advice then, and is even better advice today. Today there are millions of people all over the world going hungry, doing without the very necessities of life. It then becomes the duty of every American to preserve every drop of food that is raised about his place. He may not need all he puts up, but there is plenty of needy ones not so far from our own doors, and there are organized charities to place this food where it will do the most good.

Rains have fallen nicely, and most everyone has a garden of some sort. These gardens will soon be in their prime, and much foodstuff will go to waste unless the housewife busies herself storing away the surplus for the winter months.

Have you more vegetables than you can use? Then offer the surplus to some less fortunate than you. Have you had no chance for a garden? Was there not enough water available? Then, find some-one with a good garden, offer to can on the shares—you do the work and they furnish the vegetables or fruit.

But, manage for a few cans of food to help out through the winter.

Lamb county will have no excuse for going hungry this winter, even should business go as some of the pessimists predict it will. Personally, we think it is on the up-build, but even so, it will take time for conditions to get better. It took years for this depression to hit, and it will take time for it to lift.

With the fine weather conditions and the splendid gardens and feed stuff, we see over this country, there is no excuse for everyone not having plenty to live on.

Start the canner and "can all you can."

We Need Food! You Need The Sudan News! Let's Trade! See Ad On Another Page.

THE SUDAN NEWS

Entered as second class mail matter July 2, 1925, at the Postoffice at Sudan, Texas, under the Act of March 3, 1879.

Published every Thursday by H. H. Weimhold & Son At Its Office In Sudan, Texas

H. H. Weimhold . . . Editor
\$2.00 PER YEAR, IN ADVANCE

What a sewer system can do

A sewer system helps to get the full benefits out of a water system. It allows the abandonment of cesspools and privies and helps toward a general cleanup of the town.

It dries the soil and that has an important bearing on health.

It reduces the deaths from typhoid probably 50 per cent.

In some towns it reduces the tuberculosis death rate 50 per cent.

It results in saving money because it's the cheapest way to dispose of sewerage.

It increases the value of the property drained.

Then it increases it again by attracting the right kind of people and industries to the town.

Sanitary Sewers and pure water have done more to fortify towns and cities against germ and disease than any other two agencies. Where they come in, the general death rate is reduced.

Industrial Texas

(Will H. Mayes in his syndicated feature in Texas newspapers)

The Texas Weekly for July 18, calls attention to one rapidly developing Texas industry, to which most of us have given little thought. There are 3 dress factories of appreciable size operating in Texas and a number of smaller ones. They have a combined total of 3,800 machines an investment of a round half million dollars exclusive of buildings, capacity of 936,000 dozen dresses annually or 11,232,000 dresses that sell at a from \$1.00 to \$10.75 each. These are mostly in the cities, but there is no reason why a dress factory may not be operated just as advantageously in any small town where factory and living conditions are good. The process of making dresses from the fabrics increases values a about 120 per cent. which goes to Texas labor and Texas capital.

COERCION NOT NECESSARY

The American position on the moratorium proposal, say The Texas Weekly in its issue of last Saturday, "may be said to be that the American government is prepared to coerce France if that should become necessary."

Well subsequent events have happily made it unnecessary for the American government to resort to coercion in bringing France into line on intergovernmental debts suspension as proposed by President Hoover and presented in person by Secretary of the Treasury Mellon.

The American program is founded in such wisdom and is so enthusiastically acclaimed throughout the world. France finally decided, without some reluctance, she could not afford the isolation which her refusal to join the World War allies in this most noble of gestures for world betterment most certainly would have brought upon her.

Everybody should be happy that once again the United States and France have given proof of their willingness to travel along together in mutual goodwill and helpfulness.

May coercion never be needed to bind them as one in times of stress or danger!

Too many thousands of America's sons are forever at rest under the poppy fields of France for them ever to become enemies, or even long estranged.

TAXATION RETARDS PROSPERITY

"I do not believe the next session of Congress will increase Federal taxes nor do I see any necessity for so doing. Federal, State and local taxation is as heavy as the country can bear—Combined taxes are more than three times as great as prior to 1914. Taxation has become a great burden and it continued, much less increased will be a great detriment not only to our home enterprises but to our foreign trade and commerce.

"It would be unwise to retard the return of prosperity by the imposition of any additional tax burdens at this time"—Senator Swanson, Democrat, Virginia.

Advertising is the education of the public as to who you are, where you are, and what you have to offer in the way of skill, talent or commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service.—Elbert Hubbard

REGULAR ADVERTISING

From a speech by C. W. Johnson, Oakland, Neb., merchant. "I have been in business twenty-seven years, and seldom miss an issue of the local paper with an ad of some kind.

"I believe that the constant plitting of a machine gun does more execution than the occasional boom of a big Bertha. Its spat-spot shot gets results. So it is with advertising; the small ad run every week is better for results than the larger ad run hit or miss. Consecutive advertising gets the business.

"We are told that American business now has hit the bottom, and that things will be better. Now is the time to advertise our wares and get the public to start buying.

There will be all kinds of advertising schemes and I have dabbed in them all, but the advertising in the local papers is the best and gives the greatest results for money spent.

"Put more time in writing your ads, and then talk it over with the printer. It pays in the long run to spend this extra time.

"Create a desire to possess, in your ad and will get the business.

"If you had a whole bushel of chain links it would not pull a load. Put them together in a continuous chain and you have a strong and powerful thing with which to pull a load. So it is with advertising. Link your ads together, run them in a continuous string, week after week, and you will have a powerful thing that will produce results."

—Bovey (Minn.) Press.

One drop of medicine does not cure a sick person. One ad will not cure a sick business. Even a sheriff's sale has to be advertised three times to be effective.—Susquehanna (Pa.) Evening Transcript.

EASY WAY TO CAN KRAUT

The old time way of putting up kraut at home was generally in barrels or kegs. Sometimes it kept all right and again it didn't. The best way is putting it in either quart or half gallon jars. The good part of it is that it is just as good as the bought kraut. Shred your cabbage fine, use a shredder made for that purpose, place a jar very tight. Put one teaspoon full of salt on top of the cabbage if you use quarts, but if half gallons, use two teaspoons full. Pour boiling water until jar is filled. Seal tightly at once. Never leave the cap loose. It will make in a month or a little over. When it is ready to use the water will have been drained off before using or it will be too sour.

If you like Kraut, we suggest you give the above recipe a trial. It's good 'cause we've tried it, and is no trouble at all.

THE BETTER JOB

By Edgar A. Guest

If I were running a factory I'd stick up a sign for all to see.

I'd print it large and nail it high.

On every wall that the men walked by.

And I'd have it carry this sentence clear:

"The better job you want is here!"

It's the common trait of the human race.

To pack up and roam from place to place;

Men have done it from ages and do it now.

Seeking to better themselves somehow;

They quit their posts and their tools they drop.

For a better job in some other shop.

It may be wrong, but I hold to this—

That somehow something must be amiss.

When a man worth while must move away.

For the better job with the better pay;

And something is false in our own renown.

When a man can think of a better town.

So if I were running a factory I'd stick up this sign for all to see.

Which never an eye in the place could miss:

There isn't a better town than this;

You need not go wandering far or near—

The Better job that you want is here!"

FOR BRAINY PEOPLE ONLY

How much does Toledo, O.?

How much does Harrisburg, Pa.?

How many eggs did New Orleans, La.?

Whose grass did Springfield, Mo.?

What made Chicago, Ill.?

You can call Minneapolis, Minn.

So why not Annapolis, Ann.?

If you can't figure these out, why

We'll bet Topeka, Kan.

Avoid Typhoid Fever

Typhoid fever continues to appear over the county according to Dr. W. H. Ford, city health officer, and unless precautions are taken at once to provide well supplies protected from the inroads of sewage contaminated matter the toll will be great. Milk supplies should likewise be guarded against this enemy that too often effects an entire family.

Typhoid fever is spread thru the careless disposal of human excreta. Man alone appears to be the sole source of typhoid infection. We have typhoid fever because we swallow some of the typhoid bacilli that have come from the excreta of an infected person. This is not a pleasant thought yet we cannot dispute the truth of the statement. Ordinarily the typhoid bacillus does not grow and multiply outside the human body, but there is one exception. Milk furnishes a good medium for its growth and milk should therefore be given more careful attention than perhaps any other food.

There is a method of preventing typhoid fever which Dr. Ford is encouraging and that is by becoming "immunized" through anti-typhoid inoculation or "vaccination". Immunity obtained in this way will last about two years and at the end of that time the inoculation should be repeated. The use of anti-typhoid vaccine proved of great worth in time of the World War but it is less useful in this time of peace. Every person should immunize where practicable and especially those between the ages of 12 and 45 years. It is well to keep in mind, however, that artificial immunization is not intended to take the place of sanitary measures around the home.

The toilet should be repaired and the well or cistern cleaned and made safe.

A well with a pump and protected by a concrete cover is not likely to need cleaning or disinfection. Should disinfection be considered advisable, it can be accomplished economically, efficiently and safely by means of chloride of lime. A 12 ounce can of the chemical may be bought at the drug store and emptied into enough water to make a thin paste. When the paste has been reduced to uniform texture and all lumps smoothed out, dilute with five to ten gallons of water. Pour this solution into the well and mix as thoroughly as possible. After three or four hours pump the water out until no chemical odor or taste remain. Then install a

cover for permanent use and cover the well according to the methods recommended by the State Department of Health. Underground cisterns should be protected with concrete covers and pumps.

Cisterns may also be disinfected with chloride of lime in the same manner as wells while the cistern is full of water. If the cistern is empty, make a paste of 1-4 of a 12-ounce can of chloride of lime and dilute in 10 gallons of water, wash down the sides of the cistern with the solution then rinse with clean safe water.

Cistern water will be cleaner and more satisfactory if the first washing from the house roof are by-passed and wasted. This may be done by putting a branch pipe in the inlet pipe. The inlet pipe should make a tight connection with the cistern to prevent dust and insects entering. It is advisable also to place a screen in the inlet pipe to exclude insects, leaves, etc. A drain pipe or faucet leading from the bottom of an over-ground cistern will allow rusty, dirty water and sediment to be drawn off as it accumulates.

WILSON HAD FORESIGHT

At the close of the World War the Republican party fought the proposal for the

United States to enter the League of Nations on the ground that it would involve this country in entangling alliances. They succeeded in keeping the United States out. They have since stood aloof as far as possible. But now they find it necessary to send the Secretary of State Stimson, Secretary of the Treasury Mellon, and Ambassador Dawes to an international conference to be held in London to try to help solve the economic problems of Europe and to save the nations with which we trade from absolute bankruptcy. They crucified Woodrow Wilson because he had sufficient foresight to see that the nations of the world must cooperate to prevent war and to recover from the effects of the last one. But now they are coming to see that Wilson was right after all. History will probably write Woodrow Wilson down as the greatest President this country has had thus far.—Lynn County News.

Did you ever notice that the guy who sits around on the dry goods boxes all day and makes slightly remarks about the people who pass by always has a string of tobacco juice stains on his shirt bosom, and usually has a pretty tolerable sharp knife.—Exchange.

COME TO SUDAN

Newspaper Gleanings

From the Muleshoe Journal we see:

That Messrs. F. E. Miller, P. H. Estes and A. P. Lambert represented the Sudan organization at the Kiwanian Gala Day in Muleshoe Friday of last week.

That Bailey county has 2,486 cows, according to the 1930 census.

That Clarence Golins is suing the West Texas Gas Company for \$25,000 damages alleged to have been sustained in a gas explosion in Muleshoe last spring. It seems that Golins and an assistant were connecting a gas type water heater, when the explosion occurred that did quite a little damage to the house, and burned the men badly.

That the schools of Watson and Wilson will begin the first Monday in August, continue two months, and then dismiss for cotton picking.

The State Line Tribune States That Bill Mathis of Farwell, was painfully injured when a wild horse with which he was working kicked him in the abdomen.

That both Texico and Farwell had elected the same faculties they had last year. This seems to us a pretty good recommendation for both the teachers and the school boards. Rarely ever do you hear of a school board keeping the same faculty without some slight change, but for two schools to do this, is news indeed!

That the Women's Study Club has just caused a grandstand to be erected in front of the Texico postoffice.

From The Lamb County Lea-

der we note:

That Mrs. J. E. Brannen has been elected chairman of the Adult Health club at Littlefield.

That Editor Drake has returned from a visit in Canada and intermediate points.

That there is a general epidemic of chicken stealing around Littlefield.

That Mrs. R. E. McCaskill suffered severe burns Monday noon of last week while frying fish. In some manner the handle of the hot frying pan, which contained the grease for frying the fish, caught in part of her clothing, and the pan overturned throwing the smoking grease down her limbs. The grease caught fire, but fortunately Mrs. McCaskill escaped the fire. She was confined to her bed for several days following the accident.

That five Texas farm women will be given special recognition as winners of the Texas Master Farm Homemaker title for 1931. Those winning are: Mrs. Noah Staggs, Weatherford; Mrs. Herman Schilze, Kerrville; Mrs. Edgar Lumpkin, Buffalo Springs; Mrs. A. R. Hanna, Floydada and Mrs. J. P. Impson, Beville. In selecting the winners emphasis is placed on how well the homemaker managed with funds at her disposal rather than on the existence of the farm home equipment.

Cut the weeds is a good idea before the typhoid, cholera or some other germs infect the weed patch. Mosquitoes also inhabit such places and water, usually where the water runs out and over the wells.

LADY LOSES GARDEN: CANS ON THE HALVES

Destruction of her home garden by drouth did not deter Mrs. E. B. Terry of New Lynn from trying to get enough canned fruit and vegetables for her own table for the winter.

"Mrs. Terry has made arrangements to go to another county and can fruit and vegetables on the shares," Miss El Fleda Harrison, county home demonstration agent says. The drouth took her garden but she did not want to go without canned fruit.—Lynn County Herald.

Our hats are off to Mrs. Terry! Fill the nation with such people as Mrs. Terry, and this world depression would soon be lifted.

If you find yourself without anything to can, follow Mrs. Terry's example, and at least put up enough to help through the winter.

FOR THE WELL BEING OF CATS AND DOGS

Dr. Frank J. Sullivan of the Merwin Free Clinic for Animals, Boston, Mass. recommends a dry borax shampoo to rid dogs and cats of fleas which are so prevalent during the hot weather season.

"Powdered borax sprinkled all over a dog's coat or a cat's either, is safer and better than washing them as a usual thing. The fur must be brushed very vigorously, both lengthwise and crosswise of the coat. The result will be clean dog and sweet smelling one, also a flealess dog. It is the same with the cat. Washing a cat or dog does not get rid of the fleas as borax and a good brushing does.

A CHINAMAN'S GRATITUDE

A Chinama who had been very ill expressed his gratitude as follows:

"Me velly sick man. Me get Dr. Yuan Sin. Takee him medicine. Velly more sick. Me get Dr. Hang Shi. Take him medicine. Velly bad—think me go die. Me callee Dr. Kal Kon. Him busy—no can come. Me get well."

THE MODERN BABY

The stork having visited the home of a citizen of Eddyville, Iowa, and the proud daddy wishing to proclaim the arrival far and wide in a manner to attract the greatest amount of attention sought counsel as to methods with the town's oracle, adviser and chief sympathizer, K. C. Crabb, publisher of the Eddyville Tribune. And Brother Crabb was right there with the idea. Sure! give it three-quarters of a page in the Tribune and follow the style of an automobile company in announcing a new car! The advent of Mildred Louis Knox (the child's name) was heralded as the "New Knox—the latest 1931 model" accompanied by the following rhapsody: "Its beauty challenges and holds the eye. Weighs seven pounds. Streamlined, one piece. Body bright red trimmed in blue. Headlights blue. Rumble seat well padded and enclosed. Klaxon automatic. It is absolutely the sweetest thing in diapers." The large display was illustrated with a New Year's cut showing a smiling infant just breaking from an egg shell.—E. F. Clipson.

"Eyes have they but they see not." This scriptural phrase, however, does not apply to Marion Kennedy, believed to be the only blind telephone operator in the United States, who has guarded the destinies of this city thru constant vigilance at his switchboard, the only medium of communication with other communities.—The switchboard is equipped with a bell that sounds when a 'drop' falls. Kennedy's sensitive fingers detect the fallen drop and close the proper key to complete the circuit." This associated Press dispatch from Trowbridge Ill., appeared in the Lincoln Evening Courier.—Mouth Piece.

BLIND OPERATOR USES SENSITIVE FINGERS

"Eyes have they but they see not." This scriptural phrase, however, does not apply to Marion Kennedy, believed to be the only blind telephone operator in the United States, who has guarded the destinies of this city thru constant vigilance at his switchboard, the only medium of communication with other communities.—The switchboard is equipped with a bell that sounds when a 'drop' falls. Kennedy's sensitive fingers detect the fallen drop and close the proper key to complete the circuit." Mrs. L. N. Yarbrough and Miss Ted Medley, of Baner, are visiting in the home of Mr. and Mrs. E. L. Yarbrough.

Curtis Chisholm was a Littlefield visitor Saturday and Sunday.

The revival meeting closed at the James Tabernacle Sunday and the baptizing was held at Bull Dam in the afternoon. Eleven were baptized.

BLUE BONNET CLUB

The Blue Bonnet Home Demonstration Club met in the home of Mrs. H. F. Meyers last Thursday afternoon. Following a business discussion, Miss Mashburn took charge and discussed the preparations that should be made for the County Fair.

Mrs. Charlie Crawford and Mrs. W. P. Davis were appointed by the president to meet with other club women at Amherst the 28th of August and learn the preservation and crystallization of water melon rinds.

On the 27th, all who care to learn this art will meet at the home of Mrs. E. L. Scovajsa, bringing sandwiches and a melon if possible.

On the 28th the women will entertain their husbands at the home of Mrs. J. McGee. Each lady is requested to bring sandwiches and melons. Don't miss this frolic, for everyone is sure to have a good time and lots of fun.—Reporter.

THE ROOSTER

The rooster is a lusty bird. In all the land his voice is heard.

A proud and haughty bird, by heck, Who flaps his wings and curves his neck.

From East to West, from perch to pole His morning bugle echoes roll, Arousing men from snoring sleep.

And maidens from their beauty sleep, He hunts for worms with main and might And finding one, with hugh delight,

To whet his harem's appetite, He calls his wives with trill and hum, Then—humor great but manners bum—

He eats it up before they come, Now, whether Red or Plymouth Rock, One-half is he of all the flock.

And chickens mostly favor dad In qualities both good and bad, But when the hatching season's over,

We must restrain this gallant rover, Must shut him up in lonely state And keep the layers celibate.

Their eggs will thus repay our toil When fertile ones would quickly spoil.

The man who'd be a fresh egg booster, Must segregate that old herooster.

—Adam

WILL FEED GROUND WHEAT

W. A. Bradney finished his harvest Thursday and reports the finest crop he ever harvested. Now that prices are so low, wheat is not worth much, Mr. Bradney is going to invest in a grinder and feed the wheat to his calves. He estimates by so doing, he will get an average of one dollar a bushel for his wheat and be ahead in the game. And this is a logical thing to do even if cattle are not bringing a big price just now. Putting the wheat on a low market only bears down on the price, while feeding the wheat to the calves uses the grain to a good purpose and an average of one dollar is certainly more to the purse than the pitiful sum of twenty some cents.—Higgins News.

F. Z. Payne has taken the wholesale Continental station over and is back in business at the old stand.

Spring Lake School Opens September 4

Just about a month now, until back the youngsters will go to school, some happy, some not so elated. But school it will be, nevertheless.

On the 16th of August, football practice will again begin. All interested in making the team will please report on the morning of the 16th.

On the 4th of September, all grade students are requested to register and secure their books.

On the 5th, the High School will report for registration and fill out their schedules and receive their books.

Actual class work will begin Monday morning, September 7th in all grades.

The Spring Lake faculty consists of fourteen teachers with S. A. Davis as superintendent.

Following is a list of the teachers and their respective positions:

W. D. Williams, principal of high school and coach.

Miss Aline Harton, history and other social sciences.

Miss Rose Marie Stout, English and Spanish.

Miss Gady's Henderson, Home Ec. Biology and Gen science.

Miss Jessie V. Morgan, Physiology, Physical Geo.

Grade School

O. B. Ginn, principal and seventh grade.

Eugene Woods, sixth grade.

Jessie V. Morgan, fifth grade.

Mrs. O. B. Ginn, fourth grade.

Virginia Phipps, third grade.

Edna Davis, second grade.

Mrs. S. A. Davis, first grade.

Mrs. Wilson, music.

Mr. Miller, engineer.

Nine truck drivers are yet to be employed. The Spring Lake school transport about 425 children to school each day.

Arrangements have been made to carry the Spring Lake School news each week. All school items will come through the superintendents' office, thru the courtesy of Superintendent Davis.

Anyone wishing to contribute school items, please send it through Mr. Davis.

JUST PLAIN SAVING

The plain everyday savings of the American people were the source and foundation of all American finance.

Without savings the banks and building and loan associations could not survive.

The savings of the people financed and won the war.

Savings make possible our commerce, our industry, the moving of our crops.

But of more direct importance to each of us, savings control life's pleasures and life's achievements.

Our savings brings us our homes, our businesses, the education of our children.

In our savings lies our independence.

Or, as one observer put it, when we are \$50.00 ahead we are free; when we are \$5.00 behind we are in bondage.—Guardian.

Bank Criticism

The daily press is full of communication from people condemning the banks for taking so much precaution in making loans, and demanding that obligations be met. It is the unthoughtful person who makes such criticism. It is true that bank deposits show a healthy situation; but this money does not belong to the banks—it is the property of those customers who trust its safe-keeping to the banks. The state and federal government attempt in every way to see to it that banks are conducted in a safe and sane manner so that those who have money in the banks may get it at any time they need it. It is a compliment to bankers of Northwest Texas that there has been hardly a single bank failure during these trying times when in other states and other sections of Texas there have been many failures. Officers of banks which fail are severely criticized and rightfully so in many instances, for making excessive and unsafe loans. Banks which are safe and remain open to look after the people's business should be complimented rather than criticized for demanding that the money they loan be properly secured and any will be repaid when due.—Canyon News.

Bull Pupp— You've felt like it—just sitting down and telling an unreasonable customer what you think of him. It's a fine idea. Let yourself loose tell him all there is to tell, call him every name you can think of, read the letter over to make sure you haven't missed a bet, sign it, fold it—and tear it up. It will do no harm in the waste basket.

TOWN and COUNTY

Mr. and Mrs. R. E. Duckworth returned the latter part of last week from College Station where they spent six weeks in A. & M.

Don't forget that Saturday is Dollar Day at Sudan. Interesting program, lots of fun and merchandise priced at a decided saving.

W. T. Alderson, general manager of the Foxworth-Galbraith Lumber Company, and a brother to T. W. Alderson, this city, was in Sudan Friday. Mr. Alderson's home is in Lubbock.

Dan Welch, cotton buyer of this city for the last few years, was in town Friday.

Messrs. Pfeiffer Ramby and Shorty Hamilton attended a druggist's convention in Lubbock Thursday.

If many of our young men would put as much endeavor and push in their work as they do in their endeavor to push the ball into a hole on the green sward or the green table, there would be fewer applications for old age pensions in the days to come.—Heavy Stuff.

A visiting British lecturer says that Americans have a bored look. If he'd just stay away from his own lectures, perhaps he wouldn't notice it.—New York Evening Post.

Miss Opal Carter, accompanied by her friend Miss Velma McClish, of Brownfield, arrived Sunday to spend her two-weeks vacation here with her mother, Mrs. W. J. Carter, and other relatives. Miss Carter is a telephone operator at Levelland.

Mr. and Mrs. Ralph Davis and baby, of Plains, N. M. spent the week-end here with Mrs. Davis' parents, Mr. and Mrs. W. A. Clemens.

Mrs. Lola McCashey, of Berger, is visiting her parents, Mr. and Mrs. L. D. Covington, and other relatives.

Clyde and Mary Holt, of Mule shoe, spent the week-end here with their aunt, Mrs. W. J. Carter.

Mrs. H. C. Hart was a guest in the home of Mrs. W. J. Carter, Sunday. Mrs. Hart has recently moved to Amherst.

Misses Willie May Clemens and Geneva Smith returned Sunday from a visit in Clovis with friends.

Misses Mable and Clifford Shaffer have returned from attending a summer course at the Texas Tech. They were accompanied home by their cousin, Miss Hazel Boatwright, who will visit here for a time.

Sam Saunders left Sunday evening for a business trip to Dallas.

Mr. and Mrs. Marvin McLarty and children spent Sunday in Lubbock with Mrs. McLarty's parents, Mr. and Mrs. O. V. Alexander.

James Carter has returned from a two week's visit in Levelland, the guest of his cousin, Mrs. Billie Carter, and sister, Miss Opal Carter.

J. M. Carruth and family spent Sunday in the B. E. Lee home southwest of town.

Mrs. A. K. Boyd was up from the Texas Tech this week-end to visit her husband, Mrs. Boyd is now entering the second term of the college.

Mr. and Mrs. R. E. Duckworth are boarding with Mrs. J. P. Earnest this school term.

Mr. and Mrs. H. C. Edmonds and small son, Clyde, of Mule shoe, visited friends here Sunday afternoon.

Mr. and Mrs. Joe Rone are expected to return from a visit in Arkansas with relatives the latter part of the week.

Messrs. Clint Dyer, Shorty Hamilton and Floyd Davis played golf in Muleshoe Sunday afternoon.

Judge Simon D. Hay accompanied by his wife and children, spent a short time here en route to the American Legion picnic at Amherst the latter part of last week. While here, they were the guests of Mr. and Mrs. F. E. Miller.

Messrs. Pink Close, Jr., Weston and Noble Stevens, of Kirkland were visitors in Sudan Wednesday.

Mr. and Mrs. Joe Covington, and Mr. and Mrs. Mevin Robinson have returned from spending several days at Lake Kemp near Wichita.

SOME ODD THINGS FOUND IN THE BIBLE

The word "Lord" is found 1858 times.

The word "Jehovah" is found 6855 times.

The word "Reverend" is found but once, and that is in the 9th verse of the 21st Psalm.

The eighth verse of the 97th Psalm is the middle verse of the Bible.

The 9th verse of the 8th Chapter of Esther is the longest verse in the Bible.

The 35th verse, 11th chapter of St. John is the shortest verse in the Bible.

In the 107th Psalm four verses are alike—the 8th, 15th, 21st and 31st.

Each verse in the 135th Psalm end alike.

No names or words with more than six syllables are found in the Bible.

The word "girl" is mentioned but once and that is in the 3rd chapter of Joel.

In both books of the Bible there are 3,538,483 letters, 773,693 words and 31,373 verses.

The 21st verse, 7th chapter of Ezra has all the letters of the alphabet.

The 6th chapter Second Kings and 37th chapter of Isaiah are alike.

The book of Obadiah is the shortest, consisting of 1 chapter which contains 354 words and 21 verses.

—Samuel J. Sharp

THEY'LL WEAR 'EM

Mi Gosh! Have you seen the latest? The female pajamas, I mean. Loud colors and hat to match. One leg of 'em would make a half dozen dresses of the 1929 model. Listen!

We have some stiff breezes some times, and both pajamas and girl may be carried up, making it necessary to shoot a hole in her pants to get her down before she starves.

The hat has the appearance of a dilapidated calf shed of the old days. Only it is mostly striped like the barn—red and white. Great rig! Brace yourself—they're coming and I don't mean maybe. Let 'em come. It's none of our business.

Not a bad idea, either—free and easy, nice and cool. From the fat ones will look like a circus tent in motion, but how can we help it? In horse days we might expect some wrecked ribs. A horse naturally shied at strange objects that appeared to be going some place. Am wondering what the good woman is going to do about this new fad.—Donley Co. Leader.

FOR SALE—40 Turkey Coops, \$2.00 each. Sudan News.

Fine lot of young canary birds; Harts Mountain, good singers. See Mrs. H. H. Weimhold, Sudan, Texas.

Sam Saunders left Sunday evening for a business trip to Dallas.

Fine lot of young canary birds; Harts Mountain, good singers. See Mrs. H. H. Weimhold, Sudan, Texas.

Sam Saunders left Sunday evening for a business trip to Dallas.

Mr. and Mrs. Marvin McLarty and children spent Sunday in Lubbock with Mrs. McLarty's parents, Mr. and Mrs. O. V. Alexander.

James Carter has returned from a two week's visit in Levelland, the guest of his cousin, Mrs. Billie Carter, and sister, Miss Opal Carter.

J. M. Carruth and family spent Sunday in the B. E. Lee home southwest of town.

Mrs. A. K. Boyd was up from the Texas Tech this week-end to visit her husband, Mrs. Boyd is now entering the second term of the college.

SUGGESTED PLAN
SANITARY PIT PRIVY
TEXAS STATE DEPARTMENT OF HEALTH
BUREAU OF SANITARY ENGINEERING
AUSTIN, TEXAS

CONSTRUCTION OF A PIT TYPE TOILET

LOCATION—An earthen pit toilet should not be located in close proximity of a ground water supply as a well spring or lake, and always down grade from the water supply. From the standpoint of protection, the distance between the toilet and the water supply is determined by the porosity of the sub-soil into which the pit is to be dug. Water will travel farther underground in stratified limestone than in sand or clay, therefore the likelihood of contaminating a water supply will depend largely upon the kind of soil through which liquid wastes will have to travel, both horizontally and vertically. However, 75 feet is considered the shortest distance available under the best of conditions.

THE PIT—Ordinarily a pit four feet square and five feet deep will be satisfactory for a one-seat unit. However, it is not desirable to dig a pit below the ground water level. Where the ground water level is within less than five feet of the surface, sufficient pit capacity may be obtained by digging the pit wider and longer and not so deep; or by raising the floor above ground far enough to insure a pit five feet deep, including the excavation. The pit should be cut vertically on all sides and braced the entire depth. The bracing must extend about four inches above ground to form a foundation for the floor or slab. The bracing should be well tamped

from the outside to insure a more substantial finish.

FLOOR AND RISER—The illustration shows wood construction which should be made absolutely tight throughout—no cracks. A vent pipe should be inserted through the floor and extended two feet above the roof, finished with 16-mesh screen at top and bottom as shown, to render the pit fly and mosquito proof. Seat covers or lids should be self-closing.

The floor and riser may be constructed of wood, as shown or of concrete, or of metal, or a combination of these materials. Also satisfactory slabs, risers and seats with self-closing lids made of various materials may be purchased complete from equipment companies; also vent pipes of galvanized iron.

THE HOUSE—The illustration shows the house construction in detail. When the house is finished over the pit, the excavated material should be banked around it to insure drainage away from the toilet.

Maintenance of The Pit Toilet

1. Keep the lid or seat cover closed and clean.

2. See that the floor, riser, seat cover and vent pipes are kept fly-proof and mosquito-proof at all times and it will not be necessary to use larvacides.

3.
