STAY WITH YOUR JOB IT IS VERY LIKELY NOT SO BAD ANYWAY

You know a lot of us are griping these days when we are really better off than we think. Some of us don't know we are well off. We think that just because we are making a little less salary than two or three years ago, everything is shot to pieces. I picked up a copy of a letter from a father to one of his married daughters giving her some good advice and pointing out some facts which are worth considering. Read the letter:

My Dear Daughter: You ask me if your husband should stay on at an "adjusted" salary but you forgot to tell me what he would do if he didn't. You and he couldn't very well come here just now. Your brother Sheridan's salary has just been "re-considered" so he moved into his old room at home and brought his wife.

Your sister Eloise telegraphed the next day that Wilfred has just been offered a new contract that was an insult so your mother is airing out her room. Wilfred never could endure insults. Your sister, Frances, whom you recall has been a private secretary, wrote last week that if anybody thinks she is going to drop to the level of a common typist, they are mistaken, so we expect her any day.

So with these and the younger children, I imagine that as long as Rupert's salary is merely being "adjusted," he had better stay. An adjustment is nothing like a reduction. It's hard for one to keep up with the new language of big business, but as I understand it, an "adjustment" is the equivalent of a raise, of course, Rupert wouldn't know that because he has been working only since 1928; he should ask some old timer to explain what a raise is.

My business is coming along fine. It was sold on the court-

house steps last Friday, but there were no bidders so the sheriff let me keep it. That makes the best month I've had since the upturn. Your affectionate father.—Times Herald Wink.

FOR SEPTEMBER
By Betty Webster
HOUSEHOLD HINTS

In September—our thoughts turn back to entertaining. The simple afternoon teas are now in order. Sandwiches are a natural refreshment. Not the filling ones of the good old Summer Time, but pretty and dainty ones. The "open" sandwiches especially.

Open Fruit Sandwiches
Fresh currants—mashed and mixed with cream cheese. Crushed Pineapple and cream cheese.

Fresh strawberries—sliced thin and sprinkled with powdered sugar. Then placed between buttered home-made bread. These are very delicious.

An Unusual Filling—Take cucumber, celery, pineapple and black walnuts. Chop together and mix with French dressing. Dates and Nuts—Dates and nuts chopped together and mixed with cream cheese is always a good filling for sandwiches.

COOKING HINTS
A New Salad

2 cups of crushed pineapple (drained).
1 cup of diced celery.
2 red pimientos (chopped).
Method: Drain pineapple. Cut up celery. Chop pimientos. Mix well with mayonnaise and serve on crisp lettuce.

Grape Jelly

6 pounds of grapes.
3 cups of water.
1 pound of sugar to each pint of juice.
Method: Crush grapes. Pour the water over them. Boil together 30 minutes. Strain juice through jelly bags. Add 1 pound of sugar to each pint of juice. Mix well. Cork. When this comes to a boil—boil 20 minutes. Take from fire and pour immediately into jelly glasses. Seal with paraffin.

BAKING HINTS
Baked Ham With Scalloped Potatoes

9 potatoes.
Flour.
Milk.
1-2 pound slice of ham.
Method: Par eand slice the potatoes. Place a layer of sliced potatoes in bottom of buttered baking dish. Sprinkle with butter, flour and a little seasoning. Repeat until you have used all potatoes. Cover with milk. Lay ham on very top. Keep in ice box until time to cook. Allow at least 1 hour for this to bake.

Baked Apples
Baked apples are always a nice dessert. They may be varied by filling the centers with—
Dates.
Nuts.
Little cinnamon.
Sugar.
Method: Core apples. Fill cavities with dates, nuts, little cinnamon and sugar. Surround with water and bake.

Insist upon Puretest Aspirin when you want QUICK relief from headaches and pains. For it disintegrates fastest and therefore brings comfort in the shortest time. And it does not depress the heart or irritate the stomach. Always say Puretest Aspirin!...

Mother of 7—Still Young

THE woman who gives her organs the right stimulant need not worry about growing old. Her system doesn't stagnate; her face doesn't age. She has the health and "pep" that come from a lively liver and strong, active bowels. When you're sluggish and the system needs help, don't take a lot of "patent medicines." There's a famous doctor's prescription for just such cases, and every druggist keeps this standard preparation. It is made from fresh laxative herbs, active senna, and pure pepsin. Just ask for Dr. Caldwell's syrup pepsin. Take a little every day or so, until every organ in your body feels the big improvement. The next time you have a bilious headache, or feel all bound-up, take this delicious syrup instead of the usual cathartic. You'll be rid of all that poisonous waste, and you haven't weakened the bowels. You'll have a better appetite, and feel better in every way. The constant use of cathartics is often the cause of a sallow complexion and lines in the face. And so unnecessary! Would you like to break yourself of the cathartic habit? At the same time building health and vigor that protects you from frequent sick spells, headaches, and colds? Get a big bottle of Dr. Caldwell's syrup pepsin today. Use often enough to avoid those attacks of constipation. When you feel weak and run-down or a coated tongue or bad breath warns you the bowels need to be stimulated. Give it to children instead of strong laxatives that sap their strength. It isn't expensive.

Change Made in Schedule

We have made a change in the High School schedule, having 40 minutes for lunch now, instead of 30 minutes as before.

Goats and Kids
 Davis and Smith are using High School kids to pick the wild grass on the high school lawn. They expect soon to install a herd of goats. We suppose that they will work the kids and goats in relays.

How The Teachers Spent Their Vacation

The teachers of the Sudan Schools spent the summer in various ways and places.

Mr. Davis spent the summer on his farm in Lometa, Texas. He passed the time building fences, shocking wheat, sheering sheep and also by rocking the twins.

Mr. Smith spent his vacation in Graham and in Mineral Wells, Texas.

Mr. Branch spent the first part of the summer at his home in Branch, Arkansas, the latter part was spent in Ft. Smith as a boy scout leader.

Miss Lewis was at home, during the summer at Bertland.

Mrs. Moore spent the summer in Stephenville, Texas.

Miss Bobo was in school at Denton the first of the summer and the remainder was spent at her home in Canton.

Mr. Whittle was at home in Lawn.

Miss Sikes spent the summer in Eastland.

Miss Reeves spent the first six weeks of the summer attending school at the University of Texas in Austin. The remainder of her vacation was spent in New Braunfels.

Mr. Butts attended the summer session at Texas Technological College in Lubbock.

Miss Jenkins also attended the summer session at Texas Tech.

Mr. McElreath spent the summer in Topeka, Kansas, and East Texas.

Miss Kitley attended college at Canyon.

Miss Foote spent the summer in Boulder, Colorado and Roswell, N. M.

Miss May visited in McGregor and Oglesby.

Miss White attended school at Las Vegas, New Mexico.

Miss Jones spent the summer Haskell.

Mrs. Stone spent her vacation in Amarillo and Haskell.

Mrs. Boyd spent the summer their home in Sudan.

Miss Branch attended Peabody College, Nashville, Tennessee, and she also visited relatives in Oklahoma and Arkansas.

Miss Mable Shaffer spent the summer in Sudan.

Miss Clifford Shaffer visited in Haskell, Hamilton, Austin and San Antonio.

Miss Dodgen spent the summer in Sudan and Littlefield.

Mrs. McKelvey spent the summer in the teachers college at Denton.

Athletics

The senior boys and girls basketball team are continuing their work and they are working very hard to obtain all the practice possible before Friday night. Friday, September 9, 1932 both boys and girls will play Bula on the Sudan court at eight o'clock. The games will be absolutely FREE and we invite every person in and around the Sudan district to attend the game. We will assure everyone that the teams will do their best to make everyone appreciate their time at the game.

The grammar school boys and Mr. McElreath have begun a very interesting practice in basketball. Mr. McElreath has started in such a manner that the boys can't be any other way except interested in the practice.

He has formed eight teams from his group which are to play a series of games.

The teams have been, I am sure, well picked and very cleverly named. They played part of their games last week. In the following list is the names of fall of Mr. McElreath's teams and how each stand in the series of games. The most interesting part of it is that

the winning team gets a prize which will be very much appreciated by the winner.

First Week of Play

Leading	Played	Won	Lost
Jellies	2	2	0
Gents	2	2	0
Fire Crackers	2	1	1
Sissies	2	1	1
Cubs	2	1	1
Giants	2	1	1
Tuffies	2	0	2
Chiefs	2	0	2

We are expecting a very good team of boys from grammar school this year from the way the coach has started their training.

Grammar School News

Low First: Mrs. Stone reports 80 beginners in the first grade this year with a splendid attendance.

Low Third: The low third grade with their teacher, Mrs. McKelvey, have completed their circus project which they have been working on for some time. They are now using various games in an English project stressing the usage of verbs such as "see" and "did". Next week they expect to have a story telling feature stressing correct voice and posture. They report the following new pupils:

Low Fourth: Miss Foote who has the largest class in the school system, which is 55, reports the following new pupils: Corine Stenson of Wellington, Lorene McAdams of Channing, Evelyn Lancaster of Circle Back.

Back
 Wilma Jean Kitley of Canyon
 Mabel Kent of Circle Back.
 Lois Fraim of Tucumcari, New Mexico.
 Doris Forgason of Goodland
 Ruth Cockerham of Hereford
 Maldean Benton of Haskell.

Other new pupils entering since August 15 in grammar school are: Varnel Padgett, James King, Inez Harkrider, Bonnie Barbee, Willie Mae Love, Inez and Boslee Long, Thomas Brown, Sedrick and Gladys Minor, and Mary Jo Dryden.

High Sixth: Mr. McElreath and his class plan to make a great showing. They expect to organize their class just as a high school class. There are only twenty six in this class, but the majority, both boys and girls, play basketball.

P. T. A. Social

The Sudan P. T. A. honored the faculty Friday night, September 2, with a lovely get-acquainted social at the high school auditorium. The following program was given: America—sung by audience, with Mr. Branch leading.
 Violin Solo—Margaret Earle

Gibbs, accompanied by Mrs. Cole.

Quartet—High school girls accompanied by Weldon Finley on the guitar.

"Value of Cooperation"—Miss Jinkins.

By way of introduction, every teacher was called on in turn to give her first impression of Sudan.

There were a few minutes of social chatting, after which Mr. McNeely called all out on the lawn to enjoy a watermelon feast.

Personals

Norma Lawhon from Level-land visited Mary Slaughter at school Monday.

Margarete Erle Gibbs was absent from school Monday on account of illness.

Miss Jones spent the week end on Johnnie Robinson's ranch near Plains, Texas.

Gerale Moore has just returned home from a hunting trip.

Thresa White from Stamford spent the past week in Sudan visiting Marjorie Alderson.

Annie Jewel Shuttlesworth visited school Monday.

Lee Royce Crump of the high second grade is leaving for Petersburg where he expects to make his home with his grandmother.

A. C. Phillips of the high fif-

th grade is absent from school this week owing to a severe cut on his jaw.

Nina Fisher, a former student of Sudan High School, spent the week end with her cousin, Clara Mae Fisher.

Lois Fisher of Pampa visited Miss White over the week end.

Dick Mabry of the high fourth was visited with his parents to Dallas where he will attend school.

Jokes

Mr. Smith: "Blanch what excuse have you for being tardy 'this' noon?"

Blanche F.: "I ran so hard I

Mr. Smith dancing to the tune "Turkey in the Straw?"

Shorthand as "snap" course?

High school students writing love notes?

Miss Lewis not saying "all right?"

Sophia Salem not being late?

Ethel Alexander not playing basket ball?

Assembly

Assembly was called Wednesday, August 31, for the first time since the opening of our new term. Mrs. Cole and members of the Choral Club presented a special number in song. Both Messrs Smith and Davis gave a talk on school matters in general. They were pleased with the high school group of students. There is a larger number this year than last, with several new pupils from other schools. Each class was requested to sit in its respective group during assembly. Mr. Smith called attention to several changes from last year. First, the house plan periods; the use of the gymnasium at all periods of the day; and the new courses which are shorthand, public speaking, and Home Economics III all of which classes are working for affiliation. And of course Mr. Smith never forgot to mention that "it was still hard times."

FORECLOSURES HELD UP

The Comptroller of the Currency, Washington, D. C. has ordered every national bank receiver to suspend foreclosure proceedings for 60 days.

"It would be shameful, with relief in sight so soon, the courage and hope of our men and women should be extinguished by taking away their homes and their life savings," he said.—Muleshoe Journal.

THE ROAD TO BETTER HEALTH

To Live Longer
By DR. WILLIAM J. SCHOLLS

In an article in Hygeria, Dr. L. I. Dublin of the Metropolitan Life Insurance Company says that the lengthening of life and disease-prevention go

hand in hand. Today the average length of life is about 18 years more than it was 70 years ago.

Up to the present, the increased expectancy of life has been largely due to scientific sanitation and the preventive measures established by health authorities. Reduction of the death-rate among babies has been the greatest single factor in increasing the average length of life. But other factors are also important. The campaign against tuberculosis has resulted in a considerable decrease in the amount of this disease. Improved sanitation has tremendously reduced the amount of typhoid fever. And better control of communicable diseases, such as diphtheria and scarlet fever, is gradually lessening the death-rate from these diseases.

Still High Death-Rate

There is still, however, a high death-rate from an important group of diseases of middle life. This group includes diseases of the heart, kidneys and arteries. These diseases are the result of the wear and tear of tissues as well as of infections. Dr. Dublin says that they reflect the kind of hygeria practiced by the individual.

He believes that periodic health examinations offer a way to prevention. Disorders would be detected during the early stages while there is still a chance for their arrest or cure. Nests of infection would be discovered and removed before they seriously undermine the health. Doctors would have an opportunity to offer the individual suggestions in regard to hygiene.

Of course, the individual would have to do his or her part. For the further lengthening of life is largely up to the individual. If told to diet, exercise, get more sleep, or give up habits that are injuring the health, one must be willing to do so in order to get results. But the results are well worth trying for. They mean added years of health and life.

WARNS AGAINST IMPURE SEED

College Station—Citing the Biblical command "Thou shalt not sow thy fields with mingled (mixed) seed" E. A. Miller, agronomist in the Texas A. & M. College Extension Service warns farmers at the start of the fall planting season to beware of buying seed from irresponsible parties. "The only seed that a farmer can afford to buy is good seed of high quality", he says. "Be sure that the seed is pure and at least carries a tag showing the per cent of germination, per cent weed seeds, etc. There is always a risk in buying seed from any truck peddler who

happens along and who has no business reputation to uphold

"In these days of low prices big yields are more important than ever, and they can only be obtained by planting seed of high yielding strains. The handicap of inferior seed cannot be overcome by good soil, good rainfall and good cultural methods although these factors are very important. Seed that looks good may have a very poor pedigree or none at all, and may be full of weed seeds or disease germs. Germination alone does not give a true idea of the value of seed for it often happens that poor seed looks good and germinates well. The safest way is to buy only tagged seed or seed of known origin."

Gonzales—A saving in seed cost of about \$30,000 is in prospect for cotton farmers in seven Gonzales county communities where the pure seed from the one-variety cotton block in Schoolland Community is to be sold. The county agent explains that under agreement with the cooperating Greenville Federal Experiment Station, Schooland farmers are to sell their pure seed at oil mill prices where-ever farmers arrange for one-variety blocks.
