NUMBER 19

LAMB COUNTY 4-H CLUB BOY WINS FREE TRIP TO CHICAGO ON COTTON

Congressman Jones Seeks Abolition Of I. C. C. And F. T. C.; Returns To Washington

Mrs. A. K. Boyd's Mother Died In Lubbock Nov. 8

Mrs. Floral Herrel, mother of Mrs. A. K. Boyd, died in a Lubbock hospital Wednesday of last week shortly after an operation following a week's illness.

Mrs. Herrel, 49, was a member of the Presbyterian church and is survived by two daughters, Mrs. A. K. Boyd, Sudan, and Miss Idaleen Herrel, Tech student, Lubbock; two brothers, M. J. Spinks, Dallas, and R. C. Spinks, Vera; and one sister, Mrs. W. P. Florence, Slaton.

Funeral services were held in Slaton with Rev. Rayburn in charge, and burial was made in the Slaton cemetery.

We join with the many friends of Mrs. Boyd in offering her condolence in her hour of sorrow.

LOCAL BASKETBALL TEAMS TO PLAY AT GOODLAND 19

The local boys and girls teams of the high school will play the corresponding teams of the Goodland high school Saturday night of this week at Goodland.

A complete schedule for both teams of the local school will be printed in this paper in the near future. Watch for it and plan to attend every game, if at all possible. The games will all be scheduled for Friday and Saturday nights in order not to conflict with school.

Cheese Factory To Be Installed At Levelland

At a meeting held recently, in Levelland an organization was perfected among the farm dairy men of that section for the purpose of building and operating a cheese factory at that place.

The organization is now ready to accept stock subscriptions to finance the project and as soon as a sufficient amount of the stock is subscribed to guarantee the financing of the plant, the company will be incorporated under the Texas Cooperative corporation laws.

GINNING REACHES 29,858 IN LAMB

According to a report sent out by special agent of the Department of Commerce, J. W. Hopwood to the various ginning counting round as half bales, ginned in Lamb county this season to November 1, 1932, as compared with 25,723 bales ginned to November 1, 1931.

Bailey county has ginned 3,881 bales of cotton from the 1932 crop up to November 1, as compared with 5,197 bales ginned to November 1, 1931.

Train Changes Schedule Sunday

The East Bound passenger train which did arrive here at 5:50 p. m., changed time last Sunday, and now arrives here at 4:43 p. m. The change was made to make better connection on the south end of the line.

The West Bound train still arrives at 11:27 a. m.

Opens Jewelry Store

L. C. Kester, Jeweler of Hereford, moved part of his stock of jewelry from that place to Sudan where he has opened a jewelry store in the City Hall.

Representative Marvin Jones, of Amarillo, chairman of the important Agriculture Committee in Congress left Tuesday night for Washington, D. C. determined to do his part toward reducing expenses of the national government. Congressman Jones is going to the national capital to help get affairs in shape for the coming legislative session, opening on December 5.

Phases of a plan he will submit to Congress for cutting expense of the government include the abolition of the Interstate Commerce Commission, the Federal Trade Commission, and the consolidation of the Emergency Fleet Corporation and the Shipping Board.

According to Mr. Jones the I. C. C. and the trade commission are needless but costly bureaus to the government. He believes that both measures have a splendid chance of approval by his fellow law-makers.

"The Interstate Commerce Commission," he said, "has served its usefulness. Railroads don't need such regulation this day and time. The I. C. C. is an injustice to both the railroads and to shippers. It stands in the way of beneficial traffic reforms and rate adjustments which people need and should have. The I. C. C. is one governmental bureau that can and should be abolished at once."

Mr. Jones said the same is true of the Federal Trade Commission, a federal bureau which is "supposed to investigate trade practices." The bureau is merely an investigating, or he termed it "a smelly committee," without authority and which is not needed. In case of unfair trade practices the government can act through the department of justice and other branches, said Mr. Jones.

The shipping board and the Emergency Fleet Corporation he termed as over-lapping bureau, which should be consolidated or one of the other scrapped.

Mr. Jones is returning to Washington confident that policies for improved conditions in America are in store during the Roosevelt administration. He believes there has been too much favoritism for special classes under Republican rule. He considers the tariff wall which has been built around the United States as one of the gravest blunders in history.

"It must be adjusted," he said. "It is silly for us to talk about selling our surplus when we build a tariff wall which makes it impossible for other countries to buy from us."

War debts, balancing of the budget, relief measures and beer comprise the major items for consideration in the new Congress, he believes. He is doubtful, however, over much actual legislation of major importance before the special session after March 4.

"There will be a lot of talk and much discussion this winter of the various big measures," he said, "but the time is too short for much actual legislation."

About the only business he expects to be transacted will be the passage of the necessary supply bills for the operation of the government.

As to Governor Roosevelt and his leadership, Mr. Jones is optimistic.

"He is a highly-trained executive and he is capable of making decisions when the opportunity presents itself," he said. "The talk of Mr. Roosevelt being evasive is unfair. He does not go around looking for controversies but on the other hand he never hesitates in making a decision when the time arrives that he must act."

ODD—BUT TRUE

TO INSTALL NEW SOUND SYSTEM

According to G. W. Chesher, owner of the Garden Theatre, he will install a new sound system in the theatre within the next week.

The new sound on film system is a Melaphone and is supposed to be one of the best on the market today. This will add much to the show, altho it has a good sound system, this new machine is expected to improve the tone.

Mr. Chesher is to be commended on the high class pictures he has been bringing to Sudan.

REV. McMICKEN GOES TO GRUVER

Rev. and Mrs. W. P. McMickin left early Wednesday morning for Gruver, Texas, which is located on the North Plains close to the Oklahoma line. At a recent meeting of the Northwest Texas Methodist Conference Rev. McMickin was transferred to that place from Sudan for the coming year.

PLANS BEING MADE FOR BASKETBALL TOURNAMENT

C. A. Whittle, high school coach of the local school, and Supt. O. L. Davis are making plans for a basketball tournament to be held in Sudan Friday and Saturday, January 13 and 14, 1933.

The tournament will be open for both boys and girls teams of the various high schools of this section. All of the schools in this part of the state will be invited to compete in the local tournament which will probably be the largest tournament of its kind in this section.

About 36 teams competed in the tournament last year that was held here and won the distinction of being the largest in this part of the state. It is believed that this many or even more will participate in the tournament.

The local boys and girls teams are going to make strong bids for the first place in each division, it is thought. The girls team won second last year.

WANT ADS IN NEWS TO BE SOLD BY H. D. CLUB WOMEN

The Editor of the Sudan News recently made the Sudan Home Demonstration club an offer to print free of charge for them 100 want ads to appear in one issue of the Sudan News the first or second week in December.

These want ads will be sold by the ladies of the club for 25 cents each to anyone wanting them excepting local business men. The want ads can advertise only one item and if one person has more than one item to advertise he must use more than one ad.

The reason for this proposition being made to the Sudan Home Demonstration club was not only to help the ladies in their work but to also show the farmers of this territory the value of advertising their "needed" equipment, etc.

The charge for the want ads is only 25c. If you are not approached by some of the ladies on this subject and have something to advertise you will be doing the club a great favor to look one of the members up and give them the ad. These ads are sold and collected for by the ladies, and the paper has nothing to do with it other than printing the ads as turned in, in one issue of the paper.

PRIZE WINNERS LAST SATURDAY

- Winners of the prizes given by the Sudan business men last Saturday were as follows:
- C. L. McKinley \$5.00
 - W. M. Slaughter \$3.00
 - A. M. Johnston \$2.00
 - Clarence Dyer \$1.00
 - G. C. McAdams \$1.00
 - Clifford Finley \$1.00
 - Mrs. W. P. McMickin \$1.00
 - Marie Morrow \$1.00
 - J. H. Williams \$1.00
 - L. W. Walker \$1.00

The Arizona Cowboy At School House On Thanksgiving Night

"The Arizona Cowboy" is the name of the play that is being put on at the local high school auditorium Thanksgiving night by the Anton Band under the auspices of the Eastern Star ladies of this city.

In addition to the play many prizes will be given away, including a four piece bed room suite.

The Anton Band will play a concert down town Thursday, November 24, afternoon at five o'clock which will be free.

Everyone is invited to attend the play.

LOCAL SUPERINTENDENT TO ATTEND MEETING OF EDUCATORS OF TEX.

Superintendent O. L. Davis is planning to attend the State Teacher's association meeting in Fort Worth during Thanksgiving, November 24, 25, and 26.

Not only will all of the leading educators of Texas but also the leading educators from all over the United States will be present and have a part on the program.

Goes To Market To Restock Store

Joe Salem of the Salem Dry Goods company is purchasing new merchandise for his store in Kansas City and St. Louis, Missouri this week.

Mr. Salem will return Friday.

ABERNATHY POULTRY SHOW EARLY IN DEC.

Abernathy's fourth annual poultry show will be held the first week-end in December, according to V. S. Payne, teacher of vocational agriculture in Abernathy public schools. The show will be under the sponsorship of the chamber of commerce and under the supervision of Payne and his agriculture students.

As in preceding shows, poultry judging contests will be held for aggie students. Teams from several neighboring towns will compete, Payne stated.

Allerita Loomis Players Are Here

The Allerita Loomis players are showing here this week under the auspices of the Sudan Fire Department. Large crowds have been attending so far this week and still larger crowds are expected to attend Friday and Saturday night.

BIG WOLF PROGRAM AT LITTLEFIELD 29TH.

According to H. A. (Hackberry Slim) Johnson of Lubbock, a Big Wolf Program will be held in Littlefield Sunday afternoon at two o'clock.

All local dog fans are invited to attend the program and also to take their dogs. A cowboy wolf roping will be the special feature of the day.

The proceeds will go to the Littlefield band boys. Every one is urged to attend.

Mr. and Mrs. Paul Dill and Mrs. G. W. Masten visited in Lubbock Armistice Day. They were accompanied home by G. W. Masten who was operated on recently for appendicitis at a Lubbock hospital.

Joe Foster was in Otton Tuesday attending to business.

Lamb county won another honor recently when a Lamb County 4-H club boy won one of the four trips offered on cotton production by the Santa Fe railroad to the International Livestock Exposition in Chicago, November 27 to December 3.

This is the fifth time that a Lamb county boy has won a free trip to the exposition. The first two trips were won by a Sudan boy and a Littlefield boy in 1928. The former on poultry and the latter on beef production.

Then in 1931 another Sudan boy won a free trip to the exposition on beef production while a Springlake boy won on hegar. This year, Ansel Miller of Amherst won a trip on cotton production. He is one of the four boys of the plain section to win such a prize.

Ansel Miller, 4-H Club boy belonging to the Amherst 4-H club was named county Cotton Champion in the contest just closed in the county November, and his record as a result of this was entered in the Santa Fe Contests for 4-H Clubs of the state, and word was received this week, by D. A. Adam, county agent, that this boy won one of the four trips offered on cotton production to the International Live Stock Show at Chicago Illinois, November 27 to December 3. This is a distinct honor to the boy and his club; but is also, another big honor for the cotton growing ability of Lamb county soils.

Following is the story of his demonstration as told by Ansel in his records.

My Cotton Demonstration

Last winter 1932, when Mr. Adam, our county agent began to talk 4-H club work to us boys, I became interested at once in a cotton demonstration. As Half and Half is most generally grown in this locality, I wanted to demonstrate that a better staple cotton could be grown under the same conditions as Half and Half and at a better profit.

My land had already been listed February 10 before I joined the club. I did nothing more to it until planting time. I then bought through our county agent 3 bushels of State Certified Acala Cotton Seed and patiently waited for planting time. On May 20 I planted 6 2-5 acres with my 3 bushels of seed. It came up to a perfect stand, properly spaced 4-6 inches between hills two stalks to the hill. I then, knifed it once on June 7, this requiring 6 hours of work. I plowed it 3 times, each operation requiring 8 hours, June 28, July 4, and July 12. On July 23 I hoed it, this taking 11 hours.

The total number of hours I worked was 49. Total number of horse hours was 100. My labor was \$9.80, horse labor 10.00 and \$3.75 for seed, making the crop cost me in labor \$23.45.

On October 21, I started picking my cotton, and on the first going over, I picked one bale weighing 1530 pounds which gave me 502 pounds of lint, and 942 pounds of seed; and also, snapped four bales, which weighed 7789 pounds of seed cotton and turned out 1530 pounds of lint cotton, and 2630 pounds of seed, and in addition, 1093 pounds of snapped cotton on another bale.

Then to finish estimating what was left in the field, I used the rule given me by D. A. Adam, county agent, and H. T. Bower of the Texas Department of Agriculture on their visit to inspect my crop on October 19. I counted the number of bolls on 21 feet (measured) in six different places in the field and averaged the number which was 43.5 bolls. I then multiplied this by 10 and then this amount by 70 which gave 30,450 bolls per acre left to be picked. Then by dividing this by 96.9 (this being the average number of bolls per pound) I

\$2.00 PER YEAR, IN ADVANCE

Reading Notices, Obituaries, Card of Thanks, Resolutions of Respect, Etc., 10c per line.

THE DIFFERENCE

The railroads of the United States operate every day in the year, on regular schedule.

The New York State Barge Canal, one of the principal railroad competitors, is open seven or eight months of the year and service is contingent on high or low water.

The barge canal cost the taxpayers \$286,710,629 up to June 30, 1931. Its average annual cost to the taxpayers has been \$10,239,655.

The railroads receive no tax money, and pay their own way. In case of loss, they and their stockholders must shoulder the burden.

The waterway is free to all users. Boats moving over it pay no tolls.

During 1931 the railroads paid in taxes to the state of New York the neat sum of \$28,000,000.

The commerce moving over the canal is subject to no regulation whatsoever.

The railroads are completely regulated by both the federal and state governments.

Here is the difference between the railroads and the government subsidized waterways—and the New York canal is used simply as an example of the general condition.

PAVING OUR STREETS

The trend of city paving seems to be definitely toward an increased use of asphaltic types.

Last year asphaltic types constituted 81.1 per cent of all paving laid, as against 73.8 per cent in 1929. This year, with many cities having increased paving budgets, asphalt, as usual, keeps the lead.

The reason for this is that asphalt has decisively shown its merits in competition with other pavements. In thousands of communities throughout the country, asphaltic type streets have given more service, on a dollar for dollar basis, than have other kinds of streets. Both original cost and maintenance have been low.

This is likewise true in the case of secondary roads. Asphaltic type farm-to-market highways seem to be the answer to agriculture's dream. They are inexpensive, weatherproof and as skid proof as a road can be made. They will stand up under fairly heavy traffic and require a minimum of maintenance. The fact that thousands of miles of such roads have been laid in recent years is the best testimonial to their quality.

LONG PULL OUT OF THE RED

A certain percentage of American farmers refrain from joining cooperatives because those organizations haven't been able to bring prices back to former high levels or solve various other problems perplexing agriculture.

The success of the whole cooperative movement must depend on the long pull—not on a temporary success of the moment, but on the eventual development of a strong loyally supported and adequately financed concern which achieve a fair deal for the farmer all the time.

There are times when the individual farmer can get a better price for his product by selling it independently, instead of through a cooperative—but the dollars made that way are dearly won indeed. The middle men who offer higher prices to so-called "independents" in an effort to wreck the cooperatives, are not the farmers' hope for the future. Every farmer who deserts a worthy cooperative is simply delaying permanent agricultural progress.

The cotton growers of the South, the milk producers of New York, other producers in

other sections, have found the value of cooperation. The fundamental principle behind the movement represents sound economics and sound sociology too. It can bring the farmer out of the red.

CONQUER FIRE

Fire destruction again shows slight increase. For the first 9 months of the year it was \$341,050,639, compared with \$340,713,487 in the same period last year.

We will soon learn whether any good results followed Fire Prevention Week, which was observed in October. As a general rule, the loss goes down during the week and in the period immediately following, only to rise again soon after. When it comes to fire, the public has a short memory. That shortness costs the nation ten thousand lives and a billion dollars each twelve months.

In normal times the waste is a disgrace. In these times it is an unmitigated tragedy. The actual destruction of property is the least of the total fire bill—more important by far is the unemployment, loss of business and increased taxes that inevitably follow. Cases are on record where whole communities have seen progress come to an end because of a single great fire—which could easily have been prevented.

Remember what you were taught during Fire Prevention Week. Apply it to the course of your daily life. And help diminish this terrific yearly loss.

CHURCH OBSERVANCES TO MARK CLOSE OF BICENTENNIAL CELEBRATION

The George Washington Bicentennial Celebration will be brought to a close on Thanksgiving Day, November 24, in the same manner in which it began on February 22—with religious services in honor of George Washington Bicentennial Commission estimates that more than 75,000 churches will participate in separate Thanksgiving Bicentennial exercises. In many cities and towns, the Bicentennial Commission reports, churches of all denominations will hold joint commemorative Thanksgiving Day exercises in honor of the Father of his country.

The reports from the religious societies of America indicate that every church of the land will participate in this closing tribute, either by holding separate Bicentennial exercises or by joining with the other churches of their community in a combined celebration.

The Bicentennial Celebration has been going on in all parts of the world for the past nine months. More than 700,000 separate committees, representing the schools and churches as well as civic, fraternal and patriotic societies, have been actively engaged in honoring the memory of George Washington on the Two Hundredth Anniversary of his Birth. Every state, city and town in the United States has participated. Besides, the celebration has been carried out in all our territories and dependencies as well as in seventy-eight foreign countries.

The records of the United States George Washington Bicentennial Commission indicate that to date more than one million separate Bicentennial programs have been held in all

parts of the world. This unprecedented Celebration—the greatest tribute ever paid to a national hero—will come to an official close with observances of simplicity and respect. A united nation will show reverence and admiration for its founder.

The United States George Washington Bicentennial Commission announces that it has prepared special booklets to assist organizations in arranging their Thanksgiving Day celebration programs. More than 25,000 of these booklets have been distributed. In addition the Commission had prepared a book of sermons made up of contributions from the leading clergymen of the various denominations of America. These sermon books have been distributed primarily to churches in small cities and towns where facilities for research are not abundant. Copies may still be procured by writing to the United States George Washington Bicentennial Commission in Washington, D. C.

CHEVROLET OFFER NEW CAR FOR DEC.

Detroit, Mich. Nov. 15th—That a radically new line of Chevrolet passenger cars would be introduced next month was made known officially here today by W. S. Knudson, president and general manager of the Chevrolet Motor Company.

The new series will be the fifth annual Chevrolet model to employ a six cylinder engine, the first volume Chevrolet Six having been announced in November, 1928. Since that time, building sixes exclusively, the company manufactured nearly 3,000,000 units.

A longer wheelbase, extensive changes in body design, and a "price which takes account of today's incomes" are promised in the 1933 car. The extended wheelbase, coupled with many improvements in the body, in performance, economy, power, safety and other factors, indicate a model much improved over the present line, and set at rest rumors current in trade circles that the new Chevrolet would be a "stripped" model design to meet the bare needs of transportation.

Nearly 50,000 of the new 1933 series, valued in excess of \$20,000,000, will be required for dealer's announcement purposes alone, and the manufacture of at least that number is assured within the next few weeks.

LUMBER PRODUCTION INCREASES AT MILLS

Austin, Texas, Nov. 16.—Lumber production at mills in the Southern Pine area during October increased for the third consecutive month, according to the University of Texas Bureau of Business Research. October production per unit averaged 181,646 feet, an increase of 7.2 per cent over the previous month and a decrease of only 8 per cent from production during October a year ago.

Average weekly shipments per unit declined 11 per cent from 269,590 feet in September to 239,694 feet in October. It was the first time in four months that average weekly shipments have not shown a substantial gain as compared with the previous month. However, average weekly shipments per unit were still 32 per cent above production and were 58,000 feet more than output for October; last year in October, shipments were greater than output by 45,000 feet, or 23 per cent.

Unfilled orders dropped each succeeding week since the high for the year was established on October 1. At the close of October, unfilled orders averaged 585,609 feet per unit as compared with 674,752 feet at the close of the previous month, a drop of 13 per cent. Unfilled orders were one fourth greater than those at the close of October last year, however.

An Oil that reaches vital parts of your Motor as quickly as possible

Or An Oil that is already on all the parts before your motor starts!

DID YOU KNOW THIS . . . that half of all your motor wear occurs while you're starting your car and letting it warm up! Here's why: Your motor makes 3,000 to 5,000 revolutions before oil circulates from the crankcase to all parts of the motor. Your motor runs with vital parts receiving no oil from your crankcase reservoir! . . . What protection do other oils offer you against this half of your motor-wear? The best of these oils "reach all parts in the shortest time," say their makers.

periods, leaving parts "dry." Conoco Germ Processed Motor Oil actually penetrates and combines with metal surfaces and never leaves any part unlubricated. It cuts starting-wear to the minimum and gives your car longer life!

Like other good oils, Conoco Germ Processed Motor Oil is thoroughly de-waxed and circulates freely at subzero temperatures.

Avoid the terrific wear of winter's long warming-up periods. Change today to Conoco Germ Processed Motor Oil . . .

CONOCO
GERM PROCESSED
MOTOR OIL

ON TEXAS FARMS

Growing "soup beans" brought \$50 from one acre of land to Frank King this year in his 4-H club demonstration in Brown county. He says "soup beans" are a small white bean much like navy beans. In beating his dad's old adjoining acre Frank explains that three loads of barnyard manure did it.

From a half acre of cane Ward Brackeen of Powderly, Lamar county, made 140 gallons of syrup this year at a cost of \$16. He also made 45 bushels of peanuts on an acre. He is a 4-H club boy.

After a period of 5 years, says Andrew Taraba, successful farmer living near Moulton in Lavaca county, terraces will increase crop yields 50 per cent. He adds that diversified farming and manure will still further increase yields.

Jim Matthews kept smut out of his 50-acre hegari field in Menard county this year by dusting with a small amount of copper carbonate mixed up in a home-made cement mixer according to county agent suggestions. Two to three ounces of the chemical were allowed to each bushel of planting seed and the mixer revolved until every seed was covered with a fine coat of dust.

"Terracing has even changed the color of my ground," declares Watt Collier of Mitchell county. "By holding leaves, stalks and soil on the ground the color has become darker than before I terraced," he re-

cently reported to the county agent.

Leslie Combs of Bonita, Montague county, has made a total profit of \$129.50 on three 4-H club demonstrations this year. He fed out 4 beef calves and 23 pigs and has raised 78 turkeys from 5 turkey hens.

Brenham—What does it cost to dress? Ten members of the Central 4-H club in Washington county reply with carefully kept records showing an average of \$24.20 spent for dress in the last 10 months. They made their own garments at a saving of \$325.21, mended 141 garments and did practically all of the family sewing besides. Their average expenditure item by item shows \$5.77 for shoes, \$8.14 for dresses, \$2.48 for outer clothing, \$2.31 for hats, \$2.13 for underwear, and \$3.38 for accessories.

Paducah—An October first check-up of glass jars and tops, tin cans and lids, sold in Cottle county this season indicates total home canning of at least 307,628 containers, reports Miss Elizabeth McCurdy, home demonstration agent. The grand total will exceed this figure, she thinks, because many are using old jars and cans on hand. About two-thirds of the containers used are of glass.

Canyon—After his crop was planted on newly terraced land last spring, J. W. Spencer of Randall county served notice on the county agent that never again would he bother with point rows but would plow straight over the terraces. With a feed crop fully 30 per cent greater

than nearby unterraced land in a dry season he has changed his mind and plans to continue running his rows with the terraces rather than across them.

CARD OF THANKS

We wish to thank our many friends and neighbors for their kindness during the sickness of our beloved son and brother and we also thank those for the beautiful floral offering.

May God bless each of you is our prayer.

Mr. and Mrs. J. B. Mixon.
Mr. and Mrs. D. H. Bryant.
Mr. and Mrs. L. L. Mixon.
Mr. and Mrs. Alua Mixon.
Mr. and Mrs. Clem Roman.
Mrs. W. B. Austin.
Mr. and Mrs. James Mixon.

MIXON'S DEATH

Hubert Luther Mixon, son of Mr. and Mrs. J. B. Mixon of Tipton, Oklahoma, died at 10 o'clock at the home of Mr. and Mrs. E. W. Parmer, November 9, 1932.

He was born February 4, 1908 at Cushing, Texas. Hubert had suffered with asthma for several years, and later became disabled to work. He departed from this life by taking a deadly poison.

He joined the Methodist church about three years ago, and had been working with Mr. Parmer near Friendship for the past six years.

He is survived by four brothers and three sisters, his father and step-mother, and a host of friends.

Services were conducted by Rev. O. E. Dickerson at the Baptist church at Amherst, at 4 o'clock Thursday.

He was laid to rest in the Amherst cemetery.

FEDERAL JOBS OPEN

The United States Civil Ser-

vice Commission has announced open competitive examinations as follows:

Senior clinical photographer, \$2,000 a year, less a furlough deduction of 8 1-3 per cent and retirement deduction of 3 1-2 per cent; Veterans' Administration, Hines, Ill.

Engineering side (gyro compass), \$1,800 a year, less a furlough deduction of 8 1-3 per cent and retirement deduction of 3 1-2 per cent; Navy Yard, New York, N. Y.

All States except Delaware, Iowa, Vermont, Virginia, Maryland, and the District of Columbia have received less than their share of appointments in the apportioned departmental service at Washington, D. C.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office in any city which has a post office of the first or the second class, or from the United States Civil Service Commission, Washington, D. C.

FAMOUS BARRON RANCH SOLD INTO FIVE UNITS

Sweetwater, Nov. 12.—Five ranches where on was before, is the story of the famous Barron ranch, owned by W. W. Barton at one time, and once one of the largest ranch properties in this section.

The property originally contained about 125,000 or 130,000 acres of grazing land. It was famous for the high quality of cattle sold off it. About a year ago a Chicago concern took over the ranch with about 10,000 head of cattle. Since then

Ladies Nite. One Lady adm. with each paid adult ticket

We want to thank our many friends for the wonderful business they have given us and in appreciation for same, we are installing the best sound on film system that the market offers.

We hope to have it installed by the middle of next week.

all of the property has been either leased or sold and there are more ranches operating than under the old method.

Lewis and Whaley of Lubbock and Sudan have bought the famous Paddle ranch, among the best known properties in this area. It is located in Kent county and in the purchase a thousand head of cattle changed hands.

The Robertson River Ranch, consisting of 15,000 to 18,000 acres, was sold to J. C. Stanley of Llano. The Boss Robertson Ranch was sold to Patt and Winn Jackson of San Angelo. It consists of about the same area as the other ranch.

FOR SALE—1 Span Mules, 6 and 7 years old, weight about 1300 each; a few milk cows and two-year-old heifers to be fresh soon. See E. L. Cain, 3 miles southwest of Amherst. 3tp.

NOTICE

The City Commission has eliminated all interest and penalties on delinquent taxes up to December 15th, 1932, after which time the City Attorney is notified to file suits.

H. G. Ramby, Mayor

ACID STOMACH comforted in 3 minutes

No need now to suffer from acid stomach and other digestive ills. No longer is it necessary to take medicines that relieve for a time but do nothing to prevent the return of the gnawing and uncomfortable feeling.

Just take Bisma-Rex! Relief is prompt and complete. And its comfort lasts. That's because Bisma-Rex contains ingredients that counteract acid and gas—protect the stomach and assist digestion. Try it!

GROCERY AND MARKET

MONEY

DEPOSITED—

In a local bank is money used in this community for paying taxes, conducting schools, for agricultural purposes, including feeding and fattening of livestock, elevator men and other enterprises engaged in the employment of labor and the distribution of merchandise in this (our) community.

Money deposited elsewhere than in a local bank is not used in this community, and does not pay any taxes, and helps no school or school children in this town.

WINS TRIP TO CHICAGO
(Continued from page 1)
find that I have 315 pounds of seed cotton per acre to be ginned yet, and figuring Acala to gin out 38 per cent I find that I have 119.8 pounds of lint cotton per acre yet to gather and gin. I estimated the remainder of the seed according to the average turnout of seed for the first five bales ginned.
In closing this demonstration I find that I produced 553.7 pounds of lint cotton per acre, and in addition to this have 6,250 pounds of seed, which I have taken care of at the gin, and therefore, I have been able to place every bushel of these at 60c per bushel.
I find that I have a total of (seed and lint) of \$323.49, and a total expense of picking, and ginning of \$84.95 leaving me a net return on labor and investment of \$238.54 or \$37.27 per acre.
My cotton sold for \$5.50 and \$5.75 while my father was selling his for \$5.00 and \$5.25.

Local Produce Men Bought 15,000 Lbs. Turkeys This Year

Local produce men bought around 15,000 pounds of live turkeys for the Thanksgiving market this year.
The dealers paid 12c per lb. for most of them. The same price was paid here as in any of the neighboring towns.

Good Brooms 17c each. Saturday only, at Saunders Variety Store.

CARD OF THANKS

The ladies of the Baptist church want to thank all of those who helped in serving the dinner and supper last Saturday in the King building. Also the public for the splendid patronage given them.
The Baptist ladies.

CONSTIPATED 30 YEARS AIDED BY OLD REMEDY

"For thirty years I had constipation. Sourcing food from stomach choked me. Since taking Adlerika I am a new person. Constipation is a thing of the past."—Alice Burns, Ramby's Pharmacy, Sudan, Texas.

MISSIONARY SOCIETY

The Methodist Missionary ladies met at the church Monday at 2:30 to observe their week of prayer.

A good program was rendered, also a nice offering was received. Refreshments of hot chocolate and cookies were served to those present.

Next Monday the 21st of November we meet at the church at 2:30 and will have our first lesson in our study "Korea the Land of the Dawn", with Mrs. J. R. Dean, Superintendent of Study, as leader.

This is a study really worth while and we hope all members will be present. Visitors welcome.—Reporter.

Mr. and Mrs. Don Boyles and the former's brother, Clark Boyles, all of Lubbock were visiting friends and relatives in Sudan over the week-end.

Children's house shoes 20c pair at Saunders Variety Store.

BIRTHDAY PARTY

On Tuesday evening at six o'clock the male members of the faculty met at the home of Mr. O. L. Davis for a surprise birthday dinner, planned by Mrs. O. L. Davis.

The guests were: Messrs. McElreath, Butts, Smith, Whittle, and Branch. After dinner when

every one was seated around the fire, there suddenly and unexpectedly came a rush at the back door and a group of boys and girls entered the room, singing "Happy Birthday to you, Mr. Davis."

After the gifts were presented the guests enjoyed several games, including bridge. The group then left the Davis home, wishing Mr. Davis many more happy birthdays.—Contributed.

ENTERTAINS H. D. CLUB

The members of the Sudan Home Demonstration club entertained their husbands with a party Wednesday evening at the home of Mr. and Mrs. Herbert Teal.

One of the most interesting features of the occasion was the ladies explaining how they had made the 50c, which they had pledged sometime ago.

A word of appreciation was extended to the Sudan News for the help and publicity given the club, by Mrs. Foster Lumpkin, in behalf of the club. H. H. Weimhold, editor of the News outlined a way in which he would help the club make a few dollars. The plan was to allow the members of the home demonstration club to sell one hundred want ads for 25c a piece which will appear in one issue of the Sudan News. The money made by selling the want ads will go to the club treasury.

The remainder of the evening was spent in playing "42" with Mr. Townsend and Mrs. Weimhold winning the prize as best players.

A lovely plate lunch was served to the following: Mr. and Mrs. C. A. Daniel, Mr. and Mrs. S. R. Roy, Mr. and Mrs. Foster Lumpkin, Mr. and Mrs. S. Townsend, Mr. and Mrs. W. O. Parrish, Mrs. J. E. Dryden and Mary Jo, Mr. and Mrs. R. H. Shaffer, Mr. and Mrs. H. H. Weimhold, and the host and hostess, Mr. and Mrs. Herbert Teal.

ORDINANCE NO. 23

AN ORDINANCE REGULATING THE SALE OF MILK AND PROVIDING FOR THE ISSUING AND REVOKING OF PERMITS FOR THE SALE OF MILK; PROVIDING FOR THE REGULAR INSPECTION OF DAIRIES AND MILK PLANTS; AUTHORIZING THE LOCAL HEALTH OFFICER TO PROMULGATE RULES AND REGULATIONS AS HE MAY DEEM NECESSARY; PROVIDING FOR THE GRADING AND LABELING OF THE MILK; PROVIDING FOR THE ENFORCEMENT OF THIS ORDINANCE AND FIXING A PENALTY.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF SUDAN, TEXAS:

SECTION 1. The regulation of the sale of milk within the City of Sudan, Texas, is hereby declared necessary and expedient for the promotion of health and the suppression of disease within the said City.

SECTION 2. The City Health Officer of said City, or his representative, is hereby authorized to issue permits to any person, firm, corporation, or association of persons making application therefor, authorizing the sale of milk within the limits of said City. The Health Officer is hereby vested with power and authority and it is hereby made his duty upon the filing of an application for a permit for the sale of milk, to ascertain and determine, and under such rules and regulations as he may promulgate, the fitness and ability of the applicant to furnish and sell pure and wholesome milk under proper sanitary conditions, and if he finds that any applicant for the sale of milk is fit and able to sell as aforesaid, he shall grant the application, and issue the permit. The City Health Officer is further authorized to make such rules, orders and regulations as he deems necessary for the proper production, handling and sale of milk, applying the current requirements of the United States Public Health Service Standard Milk Ordinance as his guide, and he is further authorized, and it is hereby made his duty to provide for the grading of the equipment and for the grading and labeling of the milk to be sold under the permits herein provided for; provided such officer shall have authority to grade such equipment and milk according to the current requirements of the United States Public Health Service Standard Milk Ordinance, with the assistance of the State Health Officer, or his authorized representative.

SECTION 3. No person, firm, association or corporation, shall, within the City of Sudan, sell, offer, or expose for sale, or have in his possession with the intent to sell, any milk or milk products, which are adulterated or misbranded. Any substance claimed to be milk or milk products defined in the United States Public Health Service Standard Milk Ordinance,

but not conforming with its definition shall be deemed adulterated and misbranded. The use of the word "pasteurized" and the use of the letter "A", unless such grade letter has been authorized and awarded by the City and State Health Officers, or their representatives, according to the grade 'A' requirements of the said Standard Milk Ordinance, shall be deemed misbranded.

SECTION 4. The City Health Officer at any time after three days notice to a holder of a permit, and after a hearing before said officer, at which hearing it shall be proved to the

satisfaction of such officer that a permit holder has failed, refused or neglected to obey any rule, regulation or order of the Health Officer, concerning the production, labeling, handling or sale of milk, such officer may suspend or revoke any permit issued.

SECTION 5. In the event a health officer refuses a permit to an applicant, or a permit is suspended or revoked by such officer, the applicant whose permit is refused, or the holder of a permit which has been revoked or suspended, shall have the right of appeal to the City Commission, by filing a written appeal with the said City Commission, within five days from the refusal to grant the permit, or the revocation or suspension of said permit by the City Health Officer. The City Commission, after a hearing at a time to be set by said Commission, shall either affirm, modify or otherwise change the action of the City Health Officer, and may, in the event the action of the City Health Officer is not affirmed, give such instructions as it may deem necessary to the City Health Officer, who shall carry out such instructions as given by the City Commission; provided that pending action on the appeal herein, a permit which has been suspended or revoked shall be considered suspended or revoked, and the holder shall not have any right thereunder, unless the action of the City Health Officer is changed. If a permit is revoked because of the unauthorized use

of the Grade "A", label such revocation shall not be included in this appeal, but may be submitted to the State Health Officer or his representative.

SECTION 6. Each permit issued by the City Health Officer shall be numbered and dated, and shall expire at midnight December 31st following its date.

SECTION 7. No permit herein authorized shall be assignable or transferrable.

SECTION 8. Any person, firm, corporation, or association of persons, who shall sell, or possess for the purpose of sale any milk within the city of Sudan without having a permit authorizing sale of the same, issued by the City Health Officer of the City of Sudan, Texas, or who shall sell or possess for the purpose of sale, any milk, after a permit has been revoked or suspended, shall be fined in a sum not exceeding One Hundred Dollars, and each separate sale or possession for sale shall constitute a separate offense. Or whoever shall violate Section 3 of this Ordinance shall be fined in accordance with the penalty provided in the Texas Food and Drug Act for adulteration and misbranding.

SECTION 9. Nothing in this ordinance shall affect or apply to any retail merchant, restaurants, or other persons selling milk at retail in the original containers which milk has been purchased from any holder of a permit, as herein provided for, authorizing the sale of milk, except as to the cooling and sanitary handling of the milk while

in their possession.
PASSED AND ADOPTED on this the 7th day of November, A. D. 1932, at a regular meeting of the City Commission of the City of Sudan, Texas.
Signed H. G. Ramby, Mayor.
Attest: John A. Dryden
City Secretary.
