SUDAN, LAMB COUNTY, TEXAS THURSDAY, JUNE 15, 1933

NUMBER 50

JUNE FROLICS AT LITTLEFIELD, 21

The second June Frolics carnival for Lamb county will be held at Littlefield June 21, 1933. All Sudan mothers are invited to enter their children in the parade at four o'clock and also in the morning events. Cash prizes will be given for the most artistic and most unique floats and trophies for the other events. There will be twelve prizes in all and Sudan ought to carry off some of them.

The program of the day is as follows:

From 9:30 to 10:30 at the City Hall, babies under three years of age will be judged for beauty and physical perfection.

From 10 to 11:30: Children between three and six years will be judged for beauty and for physical perfection.

From 1 to 4 p. m.: Special 10c matinee at the Palace.

Promptly at 4 p. m. the beautiful parade of floats followed by the coronation and the awarding of prizes.

At 9:30 p. m.: Jitney street dance.

Grocery Installs A Cream Station

The McLarty Grocery has installed produce equipment, and will buy poultry, eggs, and cream for Swift and Co. The Produce opened for business Thursday morning.

The exterior of the store has been remodeled and rearranged to provide ample space for the new addition of the business firm.

The store is offering specials for Saturday; read their ad in this issue of the News.

SingSong at Lubbock Saturday and Sunday

LUBBOCK, June 15.—With exception of a brief business session Saturday afternoon, June 17, the Plains Panhandle Singing convention here June 17 and 18, will be strictly a singing convention with everything except the invocation in song.

The welcome address will be sung instead of a speech and the response will likewise be a song.

Odis L. Echols, Lubbock, president of the organization, will preside during the two day convention. A singer and a teacher, Echols is well qualified to direct the convention and his friends expect a program far above the average under his direction.

Five delegates are expected from each of the Plains counties to participate in the business session Saturday afternoon at which time adopting the constitution and by laws of the organization, election of officers for the coming year, selection of the next convention city and other matters will be handled in a democratic manner by the entire congregation present in a minimum of time.

Saturday evening big free concert with only professional singers on the program will be rendered. Sunday morning and afternoon class singing, quartets, trios, duets, solos and specialty numbers will be on the program.

Over 5,000 singers are expected here from a radius of three hundred miles, Echols says.

NEGROES TO CELEBRATE

June the 19th is Emancipation Day, and in commemoration of this fact the Negroes of Sudan and surrounding territory are preparing to celebrate in due form.

An all-day picnic with programs and a baseball game will be present. Free drinks will be served. The ball game which will be played in the afternoon is free, and the public is invited to attend.

Local Seed Farm Sells 165,000 Lbs. Certified Seed

The Fairacre Seed farm has sold 165,000 pounds of certified seed since the first of December, 1932. This seed has been shipped to chamber of commerce and farmers from Canadian, Texas, on the north to Corpus Christi on the south.

Morris Morgan, owner and pilot of Littlefield, attempted to land the plane on the old baseball field, but did not have enough room to land. He went east of town and landed in a pasture. In the landing he broke one of the shock absorbers on the landing gear.

After mending the shock absorber he taxied the plane over to smoother ground. Before getting up flying speed, the right wheel of the landing gear caught in the sand and threw the plane toward a fence.

Mr. Hammock is one of the four state certified seed growers in Lamb county and one of the twelve in Texas. He has sold more seed than any other certified seed grower this year as he had two years' crop of seed on hand.

The seed Mr. Hammock has sold consisted of 750 sacks cane, 100 sacks maize, 200 sacks kafir, and 600 sacks of hegarl.

MISSIONARY BAPTIST ARE HOLDING REVIVAL

Rev. H. E. Simpson, formerly of Wellington but now of Sudan is conducting a Missionary Baptist revival this week on the vacant lots just west of Dills Grocery. Seats have been constructed to accommodate the large crowds.

The revival which will last ten days to two weeks began Tuesday night. Services will be held each evening at 8:30. Plenty of music is assured those who attend. Everyone is invited to attend the services.

PAVING THIRD BLOCK

The work on the third block of pavement on Main Street is progressing and it will only be a short time until Sudan has three blocks of pavement.

W. A. Peachey is foreman for the crew of men working on the street. The concrete curbs have already been run, and the forms will be removed soon. The gravel and caliche is also being hauled to furnish the base.

This is certainly making a big improvement in Sudan's Main Street as well as giving men, who need work, employment. This block needed paving badly, as it has been washing out and had gotten low. In rainy weather the street was very muddy.

BIBLE CLASS

The Ladies Bible class of the Church of Christ met Tuesday afternoon at 3 o'clock with seventeen members present.

An interesting discussion was led by Mrs. Barnett. Mrs. J. B. Foster leading in the devotional.

We are always glad to have new members or visitors.

Next Lord's day Brother Garner preaches his last sermon for us until his summer meetings are over. All that enjoy hearing the Gospel preached, come!

Sunday School, 10:00 A. M. Preaching, 11:00 A. M. Communion at 12:00. Evening services at 8:30.

RETURNS FROM FT. WORTH

Mrs. John A. Dryden returned from Fort Worth Friday morning where she has been at the bedside of her daughter, Mrs. Clark for the past two months. Mrs. Clark has improved. Mrs. Dryden was accompanied home by her grandson, who will visit here this summer.

Mr. and Mrs. C. M. Furneaux and son were in Lubbock Wednesday.

AIRPLANE CRASHES NEAR SUDAN AFTER ATTEMPTED TAKE-OFF THURSDAY AT 7

An airplane crashed one and one-half miles east of Sudan Thursday evening about seven o'clock as it was attempting to take-off. The pilot and two passengers were uninjured, although the plane was badly wrecked.

Morris Morgan, owner and pilot of Littlefield, attempted to land the plane on the old baseball field, but did not have enough room to land. He went east of town and landed in a pasture. In the landing he broke one of the shock absorbers on the landing gear.

After mending the shock absorber he taxied the plane over to smoother ground. Before getting up flying speed, the right wheel of the landing gear caught in the sand and threw the plane toward a fence.

S. S. Team Beats Town Team 17-7

Last Thursday afternoon at the ball park the Methodist Sunday school baseball team walloped the business men's 17 to seven. The game was cut to only six innings.

Alton and Jack Lumpkin did the pitching for the Sunday school boys, while Jimmie Alldredge, Lefty Toten and Walter Grissom pitched for the business men. In the third and fourth innings when Toten started pitching for the business men it looked like the church boys were doomed; but in the fifth inning the boys started hitting.

A large crowd attended the game and a good time was had by all.

The Sunday school boys are playing the mechanics and oil men of Sudan this afternoon at five o'clock.

LADIES HONOR MRS. H. TAYLOR WITH PARTY

A party honoring Mrs. Herman Taylor was given by Mrs. Floy Breeding, Monday afternoon from three to five o'clock. After a short program consisting of reading selections, the honoree was presented with a basket of pretty and useful gifts.

Ice cream and cake was served to the following:

Mesdames E. P. Jones, Lee Crosby, Frank Taylor, E. E. Ivey, R. E. Luttrell, L. V. Rea, Len Olds, Hershel Olds, L. C. Garrett, Floy Breeding, Grandma Smith; Misses Faye and Cleo Walker, Inez and Gladys Gordon, Vivian Oglesby, Flossie Belle Cole Zora and Stella Withrow, Mary and Frances Luttrell, Nadine Rea, Nannie Marie Breeding, and the honoree, Mrs. Herman Taylor.

EARTH DEFEATS BULA; SUDAN DEFEATS EARTH

Last Thursday evening two croquet teams from Bula were beaten by one team from Earth, and then the Earth team was beaten by the local team, on the Hunt croquet court.

J. W. and C. W. Parkman of Bula were the first to be defeated by Jack Moss and Miller of Earth. Then the Earth boys played C. R. Brown and Frank Thomas of Bula and defeated them.

A. C. Phillips and Jimmie Alldredge local players then defeated the Earth boys.

Mr. and Mrs. W. F. Lynch are in Roswell, New Mexico, for Mr. Lynch's health. They will probably stay in Roswell until the first of September. Although Mr. Lynch has had to go to many different places for his health, he always reads The News. His many friends here hope that the treatment at Roswell will be successful.

He cleared the fence with only the tail strut hitting one post, but the plane did not have flying speed, and as he started to make another run for speed, the landing gear came off.

The propeller broke, and the plane hit the ground and scooted along for 200 feet, breaking off the wing and smashing one side of the fuselage.

The plane was a monoplane which had been assembled by Morgan, and this was its first flight out of Littlefield. Paul Willingham and Hershel Stevens were with Morgan in the crack-up.

Morgan and Willingham were here Sunday with a truck and carried the wreckage to Littlefield where it will be repaired.

Miss Findley and Lynn Kester Wed

Miss Katherine Findley and Lynn C. Kester were quietly married Saturday evening at 8:30 in the home of Mrs. Joe Covington by Rev. Sam A. Thomas. Only the immediate family was present to witness the ceremony.

After a delightful dinner was served, the couple left immediately on their honeymoon which will take them through Eastern New Mexico. The first stop was Clovis.

Miss Findley is the daughter of Mr. and Mrs. J. B. Findley of this city. She is prominent in the social activities of Sudan, and graduated from the local high school in 1931.

Mr. Kester is the son of Mr. and Mrs. F. M. Kester of Hereford, and has taken an active part in social affairs here since establishing a jewelry store here eight months ago. They will be at home in Sudan.

CHILD HEALTH'S HABIT CONTROLS MENTAL ACTION

According to the State Department of Health a child's habits are responsible, in a large measure for their mental actions in later life. A child of five or six years may have a bad temper. He can be taught as he grows older, to exercise self control so that it will not often be manifested. It would be better for him though if he had acquired a good temper instead of a bad one.

Perhaps the child had learned while yet an infant, that he could get what he wanted if he cried long and loud enough. Perhaps he had learned when a little older, that bad behavior, as tantrums, screaming, rolling on the floor or sulking, brought him what he wanted after his request had been refused or ignored. If he had this experience once you may be sure that he would repeat the action the next time the occasion arose. If he found that such actions did not bring the desired results he would not try it again.

Other behavior habits, good and bad, are acquired from imitating older children and adults. In this way many likes and dislikes, tastes and ambitions which in later years become crystallized into character habits have their beginning. Calmness and poise, as well as in the presence of an emergency and panicky behavior, are nothing more than behavior habits established by imitation and madly permanent by repetition. The elders are responsible far more than they realize for the conduct of the child in the family. In this we see a new meaning of the old adage, "As the twig is bent the tree is inclined."

Bus Will Take Sudan Women To Short Course

A school bus that will accommodate a large group has been secured by the Sudan Home Demonstration club to take those women who are interested in the A. and M. Short Course to College Station.

A large group is planning to make the trip from here; therefore in order to cut the expense and make it possible for others to go, this arrangement is being made. The round trip on the bus will cost \$6.00; room for five days while in College Station \$1.25; a meal ticket which entitles you to eat in the college mess hall, \$3.75. This includes the actual expense of the trip, as lectures are free.

If you are interested in the trip you should see Mrs. H. B. Teal, president of the Sudan Home Demonstration club, and make reservations. All reservations must be made on or before June 24th, because names must be sent to College Station; so plans can be made to accommodate the large crowd.

A large group is expected to attend from Sudan. This is a wonderful trip for the ladies, and is very educational.

ODD FELLOWS RETURN FROM FISHING TRIP.

Eight Odd Fellows returned Monday from Lake Kemp near Quanah where they spent several days fishing and boating. The group left here Friday morning. They report that they caught all the fish they could eat.

Those who made the trip were Henry and Walter Dameron, Louis Knall, and Duncan of Circle Back; and Elwin Hamilton, E. E. Ivey, Buck Slaughter, and Vess Garner of Sudan.

W. M. U.

The W. M. U. met Monday, June 12, in a business and social meeting. A splendid program was rendered and was thoroughly enjoyed by all present.

The program consisted of: Prayer—Mrs. Townsend. Special Song—Mrs. Shore and Mrs. Townsend.

Scripture Reading—Mrs. Harris. Special Song—Eunice Moore and Wilda Townsend.

Special Song with guitar accompaniment—Ora and Carrol Preston.

Talk: "The Duty of Mothers"—Mrs. Clyde Robertson.

Reading—Alice Jean Barnett. Musical reading—Ouida Townsend.

Prayer—Mrs. Cole.

The quilt that the ladies have been piecing on was given away. It was given to Mrs. Harvey.

Refreshments consisting of punch and cake was then served.

United States mail trucks have the right of way over all other vehicles including firewagons and emergency ambulances.

A novel idea in the way of rodeo entertainment being planned for the 1933 State Fair of Texas, it has been announced by Otta Herold, president of the exposition. Plans have not yet been completed, but if worked out successfully, will be one of the most novel cowboy engagements ever presented.

BUSINESS MEN MEET

The Business Men's club met Tuesday at noon with 21 present. Joe T. Salem acted as chairman of the meeting and discussed many important problems.

Miss Mary Will McNeely gave a musical reading.

The business men are laying plans for Sudan's next Trades Day, as well as plans for improving our streets and park. nmorrone kwee,ede r a

Local Boy Completes Pharmacist Course

Pfeiffer Ramby received his certificate from the Texas Board of Pharmacy last Friday, upon the completion of a five year druggist and medical course.

The certificate reads in part "This is to certify that Pfeiffer Ramby has complied with all of the requirements of the law regulating the practice of Pharmacy in the State of Texas and is licensed as a Pharmacist and is entitled to practice as such in accordance with the revised statute."

Pfeiffer graduated from the local high school, and set in to work in 1929 on the five year medical course. He was an undergraduate of his father, H. G. Ramby, who received his certificate exactly 27 years ago. The same doctor held the examination for Pfeiffer and his father.

Armour Installing Cream Station Here

Armour's Creameries of Woodward, Oklahoma, have secured Melvin Robertson to manage a cream station for them in Sudan. The cream station will be open Saturday in the old Farmer's Produce stand next door to Higginbotham-Bartlett lumber company on Main Street.

Harry Bauman, field man for the Creameries of Woodward, was here the middle of the week making preparation to open the produce. He is establishing stations all over the South Plains.

SUDAN H. D. CLUB

The Sudan Home Demonstration club will meet at the home of Mrs. H. B. Teal June 23 at 2:30 o'clock. "Achievement Day Program" will be discussed. The public is cordially invited to attend this program.

SELF-SUSTAINING FARMERS

The Department of Agriculture predicts that American farmers during the coming year will produce a far higher proportion of their own foodstuffs than has been the case for many years.

An ever-increasing percentage of farmers the department has found, are grinding their own flour, keeping more eggs and milk for home use, canning and preserving more fruits and vegetables and slaughtering more animals for their own consumption.

Although this development was brought about by hard times, it probably represents a healthy trend. The one-crop farmer, who buys all his food at the village grocery and turns his farm into a kind of factory for the production of one staple commodity, is especially vulnerable to any depression. The farmer who raises his own food is at least sure that he will never go hungry. And that, in times like those through which we have been passing, is an assurance worth having.

STATE FAIR TIPS

Many attractions are being planned for the 1933 State Fair of Texas, it has been announced by the heads of various departments. Otto Herold, president of the association has given orders that all departments offer something new for the 1933 exposition. He hopes to make the 1933 exposition stand out even more than did the 1932 State Fair of Texas.

Texas waters produced 2,212,325 pounds of fish in 1932. The catch was taken from the 230 different kinds of salt and fresh water fishes found in this state. The fishing industry in Texas is one of numerous industries which are large, but of which little is generally known. This poundage does not include shrimps, crabs or oysters.

THE SUDAN NEWS

Entered as second class mail matter July 2, 1925, at the Postoffice at Sudan, Texas, under the Act of March 3, 1879.

Four Problems

Perhaps we are not aware of the neglect that is going on in Sudan, but it looks like we have come to a point where we must stop and consider things in the light that they appear at this time.

There are some important matters which should have the earnest consideration of our citizens; action should be taken.

First, Sudan's hog and chicken ordinance has been suspended for the remainder of 1933. This is a serious error, and the commission should be consulted and asked to reestablish the ordinance and place same in force and see that it is obeyed.

Second, there is the question of occupation tax, which we understand has never been enforced. We are of the opinion that the occupation tax should be paid. (It is an Ordinance and according to law should be collected.) We cannot see where the business men have a right to say whether this tax be paid or not, as it is up to the city officers to collect occupation taxes. This tax if collected would work two folds good; first, it would protect the merchants from street peddlers and auctioneers; second it would go a long way toward improving our streets.

Third the attitude of our citizens toward our city officers is appalling and unless it is checked harm to Sudan is sure to come. We cannot understand why a good citizen would want to trample the law into the street. If it is a good law enforce it; if not have the city commission repeal it.

Fourth Sudan was incorporated at considerable expense to the people; for the protection of the people; people have come to Sudan to make their homes to receive this protection, and it appears that we are duty bound to see that our laws are upheld and enforced.

A Few Facts

The only way to let people know that you sell as cheap or cheaper than your neighboring city is to advertise your prices. That is the plan our larger cities use to get trade.

A good neighbor is the one who will not permit his chickens to run at large and destroy the gardens of the neighborhood. Neither will he keep hogs in town to annoy his neighbors.

Several hours of high class entertainment is being arranged for the people who attend Sudan's Trades Day, Monday, July 3, which will be free.

A good neighbor is one who respects the rights and comforts of others and will not tolerate a nuisance of any kind on his premises.

Garner's vote untied the vote of the senate, and limited the reduction of pensions to only 25 per cent.

Miss Anna Jewel Shuttlesworth was one of the 53 students who made the John Tarleton college semester honor roll, according to Dean J. Thomas Davis.

Eldon Nichols returned last Saturday from Abilene where he has been attending a General Assembly of Epworth Leaguers. He reported that a good time was had by all who attended, and expressed the desire to attend next year.

THINK ON THESE THINGS

(By the Parson)

PURPOSE OF FARM LOAN

A prospective borrower must state in his application how he intends to use the proceeds of the loan if it is made. If his application is granted, he must use the money for the purposes stated in his application. The act defines the purposes for which a loan is made. These are: (a) to provide for the purchase of land for agricultural uses; (b) to provide for the purchase of equipment, fertilizers and livestock necessary for the reasonable operation of the mortgaged farm; (c) to provide buildings and for improvement of farm land; (d) to liquidate indebtedness of the owner of land mortgaged incurred for agricultural purposes, or incurred prior to January 1, 1933; (e) to provide the owner of the land mortgaged with funds for general agricultural uses.

The cost of loan shall not exceed more than one per cent of total amount borrowed, or it may be only enough to cover actual cost of proving titles, paying appraisers and etc.

Every farmer may borrow up to fifty per cent of appraised value. Get in touch with the Federal Loan association in the county in which land is located. \$60.00 per year (annual or semi-annual will pay interest on \$1,000.00 loan, provided you take the 36 year loan.

I want to go to a picnic! when does it take place?

Fault-finding never hurts anyone worse than it hurts the man who manufactures it. It is a perfect boom-a-rang.

A reason is a FACT. Excuses have to be made.

A father told his little son to quit eating ice-cream or he would give him a whipping. After the freezer containing a large amount of cream was safely put away, the father went back to his work. Upon returning home he heard a groaning noise in the boys bedroom. Passing by the freezer and looking in, he saw nothing, then opened the door from which the noise issued. His son was rolling all over the floor holding his stomach. The father very much enraged said, "If you weren't so sick from eating the cream I would give you a licking." The son meekly replied, "Pa it aint the cream that is hurting me, my breech-

es are choking me to death."

Some people are not lazy; they were just born tired and have never gotten rested.

The town needs a sewer system, the people need the money, R. F. C. liquidating funds will do it.

A baby was born recently to Mr. and Mrs. E. M. Tomlison Akron, Ohio, and they sent the following to their friends:

The Tomlison Production company, 448 Malvern Street, Akron, Ohio, announces the 1933 Tomlison "Baby Boy" Model No. 1. E. M. Tomlison Designer and Chief Engineer; Dorothy Tomlison, Production Manager; Dr. Leslie Botteford, Technical Assistant. Model released January 19, 1933. Two lung power, free squealing, economical feed, water cooled exhaust, changeable seat cover. The management assures the public there will be no new models during the balance of the year.

A good will tour to inland community centers would create a friendship and fellowship that other towns couldn't break. Get your Band Boys lined up. Load up your trucks with good snappy and noisy advertising and lets get going. You will see the difference.

Bula will have another gin this fall. Sudan ginners ought to be getting better acquainted with the people. Systematic advertising will pay big returns.

It takes a lot of gasoline to bring one thousand people to town for "Special Days." Whole sale and retail oil companies ought to support "Trade's Day" one hundred per cent.

I am wondering if a Sudan cotton buyer at Bula and James wouldn't have a tendency to bring the trade this way. It would at least add to Bank deposits.

A wonderful opportunity for the public! Merchants of Sudan are offering splendid prices on their merchandise.

Have you noticed The Sudan News of late? It is the best little paper in Texas. Lots of news and hundreds of special prices in advertising. Read the ads.

Not only is a newspaper a source of news, but it is a means of economy if you read the ads and take advantage of the prices offered. The ad in your paper is a personal message from the merchant to you.

Boy howdy! Did my Sunday school boys wallop the business

ment last Thursday in their first baseball game? I'll say they did! The business men like to have lost their pants trying to beat the kids. I thought sure we would have to wrap two or three of them in a blanket to get them home. Come out and enjoy the games. All free. Not even a collection taken.

Horse Sense

In shoeing filer or hauling freight
It's wiser to co-operate,
For better jobs are sooner done
If two take hold and work is one.

Now, that's a truth all horses know
They learned it centuries ago.
When days are hot, and flies are thick
Co-operation does the trick.

One tail, on duty at the rear,
Can't reach the fly behind the ear.

But two tails, if arranged with care
Give full protection, fore and aft.

Though fools pursue a lonely course,
Let wise men emulate the horse
Two make a burden half as great:
Use HORSE SENSE and co-operate.

EVEN DOZEN AMENDMENTS UP TO VOTERS

Wide Variety of Proposed Changes in Constitution Must Get Ratification

An even dozen of the myriad measures passed by the Forty-third Legislature at the regular session remain to be approved by the voters of Texas before becoming law.

They are proposed constitutional amendments, most of them of far reaching effect. Their submission required a two-third majority vote of both houses and adoption will take a majority popular vote.

Four of the amendments will be submitted at the special election to be held Aug. 26. One of them (H. J. R. 43, by Sullivan), legalizing beer of 3.2 percent alcoholic content by weight, will be the issue of an active Summer campaign. Upon its adoption the Mathis-Anderson alator bill automatically will go into effect.

Arguments also may be heard during the next 12 weeks on the proposed amendment (S. J. R. 30 by Woodul) to authorize issuance of \$20,000,000 of state bonds by the Legislature for unemployment relief.

After the Federal Government cut off Texas' \$1,500,000 monthly relief allotment until the Legislature should submit the bond amendment, a clamor arose from all over the State and it went over with a bang. What will happen if the people refuse to adopt the amendment to match federal funds is not known.

The Rawlings-Morse amendment (S. J. R. 3), permitting large counties to adopt home rule charters, will arouse interest principally in Harris and Tarrant counties, where home rule movements have been started. However, the main campaign on this measure will be in the counties that may become interested after its adoption by the State as a whole.

Home Rule Amendments

Under this amendment any county of 62,000 population or more may adopt a self-governing charter, within limits prescribed in the amendment, by a majority vote of all cities, towns and unincorporated areas in the county—all voting separately. It also provides for consolidation of city and county governments by two-thirds vote of the people.

The foregoing three proposals and a corrective homestead exemption amendment (H. J. R. 32, by Nicholson), affecting only those South Texas counties that have tax remission, will be voted on Aug. 26. The \$3,000 homestead exemption amendment adopted last November excluded from its benefits all counties receiving tax remission for storm and flood protection. It was intended to exclude them only as to that part of their taxes which had been remitted by the Legislature to build protective structures. The new amendment is designed to correct this error, so they will enjoy the \$3,000 homestead valuation exemption on the part of their state ad valorem taxes which never were remitted by law.

Nearly a score of counties along the Texas coast will benefit from the new constitutional amendment. The error in the original homestead amendment. The error in the original homestead amendment is now costing them an aggregate of nearly \$500,000 a year.

The other eight amendments submitted, to be voted on at the 34 general election are:

Would Limit Tax Rate

S. J. R. 13, by Woodward, to limit the state tax rate and appropriations so that total state tax rate and appropriations so that total state expenditures, tax levies will not exceed \$22.50 per capita for a biennium.

S. J. R. 16 by Oneal, authorizing the classification of personal property for taxation purposes, so stocks, bonds, notes and other securities may be graded and taxed.

S. J. R. 21, providing for

RESULTS TO BE ANALYZED AT MEETING

Feeding experiments of beef cattle, hogs and sheep, fed on the first Texas Technological college Livestock Feeders' Day here June 16.

Several hundred feeders, cattlemen, county agents, vocational teachers, packers, commission men, and others interested in producing, feedings, marketing and packing of livestock are expected here for the first Feeders' Day.

Results of the feeding of 40 steers in 4 lots with four comparisons, 120 sheep in 6 lots with 11 comparisons, and 40 hogs in 4 lots with 4 comparisons will be discussed and analyzed.

The program opens at 10 a. m. Friday morning and will be held at the Stock Judging pavilion at the college.

At noon the Lubbock Chamber of Commerce will be host at a luncheon to those present at the meeting.

Among those on the program are the following: Dr. Bradford Knapp, President of Texas Tech; A. H. Leidigh, Dean of Agriculture at Texas Tech; R. C. Mowery, Department of Animal Husbandry, Texas Tech; D. L. Jones, Superintendent Substation No. 8 Texas Agricultural Experiment Station; J. M. Jones, Chief Division of Range Animal Husbandry, Texas Agricultural Experiment Station; and W. L. Stangel, Department of Animal Husbandry, Texas Tech.

changing county boundaries by the Legislature, permitting counties to merge for economy of administration.

S. J. R. 2, by Purl, abolishing the fee system of paying county, district and precinct officers in counties of 20,000 population or more, and placing them upon a salary basis to be prescribed by the Legislature. It leaves abolishment of the fee system optional with counties of less than 20,000.

H. J. R. 14, by Coombes, providing for reorganization of county government under management of the County Commissioners Courts, and for consolidation of offices and other economies.

H. J. R. 30, by Haag, providing for taxation of University of Texas lands for school purposes and by counties.

H. J. R. 41, by Morse, permitting cities to hold elections to amend their charters every 12 months, instead of every two years, as now restricted.

H. J. R. 42, by Moore, authorizing cities to amend their charters to provide for four-year terms for city officers.

Wells Will Broadcast Second Vir. Program

On Wednesday night, June 21, American radio audiences may tune in on the second Continental Oil Company broadcast of the season to be dedicated to the nation's most historical state—Virginia.

The numberless bits of history and scenic descriptions included in the program will be combined into one colorful story and presented by Carveth Wells, well known explorer. Wells himself claim that he is almost a Virginian because his father was a resident of Bermuda, Virginia. Wells adds it is just as famous outside of the United States as it is within the States.

The Conoco program may be heard by local listeners who tune in on station WFAA, Dallas, Wednesday night at 8:30 o'clock.

M. E. CHURCH

Next Sunday is "Father's Day." A special service for fathers will be held at the morning hour. Every father and husband is cordially invited to bring the family for worship.

Sunday school 10 a. m. Preaching services 11 a. m. and 8:40 p. m.

Choir practice Wednesday evening 8:40 p. m.

All Leagues meet at 7:45 every Sunday evening.

We especially invite you to attend choir practice. Have lots of new music which will add greatly to worship services.

This is God's church; will you help promote it? The public is cordially invited.—Rev. S. A. Thomas, pastor.

Palo Duro Canyon To Be Improved As A National Park

The 30 year dream of Texas Panhandle citizens for a national park in the Palo Duro canyon became a reality last week when President Roosevelt signed a document to that effect. On the other hand, owners of the 14,466 acre tract in that canyon have agreed to convey the land to the state under consideration of the Federal government establishing at

least three forestry camps there for improvement.

The Federal government has agreed to establish four camps in this particular canyon and to expend the sum of \$72,000 during the coming six months in building roads, bridle paths, water dams, forming lakes, establishing boating, swimming and fishing places, erection of stone buildings for administration purposes, trimming the trees, planting additional trees and cleaning out the under brush. None of the money used by the government for these purposes will have to be repaid.

The president's signature also provided for another state park in the Panhandle to be known as Palsades park and located about 12 miles south of Amarillo. Two hundred men will be given work for six months on this one park.

It has been estimated that \$90,000 will be expended on the two projects.

ABOUT FOLKS YOU KNOW

Charlie P. Neal of Rule was here the first of the week attending to business. He owns two farms north of Sudan. He was accompanied back to Rule by Miss Katherine Hunt who will spend the summer visiting her grandparents there.

Mrs. Lester Dudley of Dallas is visiting her parents and family, Mr. and Mrs. E. Lam, this week.

Mayor W. W. Carpenter, John A. Dryden, H. G. Ramby, Rev. Sam A. Thomas, and H. H. Weimhold were attending to business in Lubbock Thursday.

Joe Foster, manager of Higgin botham-Bartlett Lumber yard at this place, was in Olton Tuesday.

R. E. Doss is repainting the shelves and is also making other improvements in his store this week.

Mrs. H. H. Weimhold and two children, Forrest and George, and Joyce Stone were in Lubbock Friday.

Mr. and Mrs. Joe Covington and two children spent the week-end in Sudan, but returned this week to Dalhart where Mr. Covington and Jim Head are hauling gravel.

Mr. and Mrs. Joe Loewenstein of El Paso visited in the home of Mrs. Loewenstein's sister, Mrs. J. E. Dryden and family Sunday. They left Monday for Chicago where they will attend A Century of Progress. They were accompanied by Mrs. Dryden, and will visit in Detroit and other northern cities while away.

Misses Vest Little and Oueta Trammel spent the week-end at Bula with Vesta's sister, Mrs. C. L. Jackson and family.

Dr. M. McNeeley of Memphis, Texas, visited in the home of his brother, W. N. McNeeley the first of the week.

Wesley Evans and family left Sunday afternoon for Hollis.

College Degree Worth \$100,000, Experts Find
 Statisticians and research investigators have at last run down the elusive and much discussed dollar and cents value of a college education and have fixed it at \$100,000. Their survey reveals that the average untrained boy goes to work at the age of 14, earns less than \$1,700 a year, so that his income from 14 to 60 totals \$64,000. The high school graduate, they find, starts work at 18, reaches his maximum income of \$2,800 at 50 and by 60 has earned a total of \$88,000. The college graduate, they learned, starts his career at about 22, has caught up with the high school graduate by 30 and at 60 is earning from \$6,000 to \$8,000 a year with a total earning of 60 of between \$100,000 and \$200,000. Figures from the same survey produced by the statistical department of Union Central Life Insurance Company show that out of 1,000 children entering grade school only 23 graduate from college. Lack of funds is revealed as the main reason for leaving school and educational insurance is now advocated as a means of giving a higher percentage the "break" which a college degree assures.

Lucky Scrap Jelly
 Chip up pieces of candied fruit—you must have at least one-half cupful and you can use twice that amount if you like. If no candied fruit is around, use broken nut meats or small bits of candy or raisins or dates stoned and finely cut. Make 2 cupfuls of lemon or orange gelatin. Pour the gelatin into a mold and, when it is cool and begins to "set" add the diced candy. When serving time comes, turn the mold upside down over the serving dish. Wrap it tightly with a cloth wrung out of very hot water and the jelly will fall onto the dish. A garnish of whipped cream or condensed milk, whipped, makes the dish prettier.—Child Life Magazine.

Size of the Stars
 How large are the stars? To the average individual their size is hard to comprehend, but Dr. Edwin B. Frost, famous blind astronomer in Child Life Magazine, solves the problem. The sun, he says, is 350,000 times as large as the earth, and yet some huge stars are forty million times larger than the sun.

Oklahoma, where they will make their home for the summer.

Jiggs Nichols is spending a few weeks at the J. P. Robertson ranch south of Sudan, visiting J. P. Robertson, jr.

DINING GETS JUST DESSERT!

In a world turned topsy-turvy, what could be more appropriate than an upside down cake! And if it's made with luscious discs of canned pineapple, set in a caramel goodness, browned to a golden whole, it's enough to right the appetites of any family.

And the pineapple upside down cake has much more than its mere golden goodness and simplicity of preparation to recommend it. Now that nutritional studies have found canned pineapple to be a valuable source of essential vitamins and minerals, an important aid to digestion, housewives and hostesses are seeking new ways of including pineapple in some way daily on the menu.

PINEAPPLE UPSIDE DOWN CAKE
 1/2 cupful of butter 1/4 cupful of chopped dates
 1 cupful of brown sugar 1/4 cupful of pecans (in perfect halves, if possible)
 8 slices of canned pineapple
 8 maraschino cherries

Melt the butter in a wide shallow pan or skillet. Add the sugar, distributing it evenly. Lay the pineapple, dates and pecans in this sugar mixture, and place a cherry in each pineapple center. Then prepare the Sponge Part—

SPONGE PART
 4 eggs 1 tsp. of tartrate baking powder
 1/2 cupful of sugar 1/2 tsp. of salt
 1/2 cupful of flour 1/2 tsp. of lemon extract

Beat the egg yolks until light and lemon-colored. Gradually add the sugar which has been sifted. Fold in the beaten whites of 2 eggs. Sift the flour, baking powder, and salt together 3 times, and fold into the mixture. Fold in the beaten whites of the other 2 eggs and add the flavoring. Pour over the pineapple mixture and bake in a moderate oven (350 degrees) until done. Let cool in the pan for 5 minutes before turning the cake out upside down.

The Sudan News

VOLUME VIII

SUDAN, LAMB COUNTY, TEXAS THURSDAY, JUNE 15, 1933

NUMBER 50

JUNE FROLICS AT LITTLEFIELD, 21

The second June Frolics carnival for Lamb county will be held at Littlefield June 21, 1933. All Sudan mothers are invited to enter their children in the parade at four o'clock and also in the morning events. Cash prizes will be given for the most artistic and most unique floats and trophies for the other events. There will be twelve prizes in all and Sudan ought to carry off some of them.

The program of the day is as follows:

From 9:30 to 10:30 at the City Hall, babies under three years of age will be judged for beauty and physical perfection.

From 10 to 11:30: Children between three and six years will be judged for beauty and for physical perfection.

From 1 to 4 p. m.: Special 10c matinee at the Palace.

Promptly at 4 p. m. the beautiful parade of floats followed by the coronation and the awarding of prizes.

At 9:30 p. m.: Jitney street dance.

Grocery Installs A Cream Station

The McLarty Grocery has installed produce equipment, and will buy poultry, eggs, and cream for Swift and Co. The Produce opened for business Thursday morning.

The interior of the store has been remodeled and rearranged to provide ample space for the new addition of the business firm.

The store is offering specials for Saturday; read their ad in this issue of the News.

SingSong at Lubbock Saturday and Sunday

LUBBOCK, June 15.—With exception of a brief business session Saturday afternoon, June 17, the Plains Panhandle Singing convention here June 17 and 18, will be strictly a singing convention with everything except the invocation in song.

The welcome address will be sung instead of a speech and the response will likewise be a song.

Odus L. Echols, Lubbock, president of the organization, will preside during the two day convention. A singer and a teacher, Echols is well qualified to direct the convention and his friends expect a program far above the average under his direction.

Five delegates are expected from each of the Plains counties to participate in the business session Saturday afternoon at which time adopting the constitution and by laws of the organization, election of officers for the coming year, selection of the next convention city and other matters will be handled in a democratic manner by the entire congregation present in a minimum of time.

Saturday evening big free concert with only professional singers on the program will be rendered. Sunday morning and afternoon class singing, quartets, trios, duets, solos and specialty numbers will be on the program.

Over 5,000 singers are expected here from a radius of three hundred miles, Echols says.

NEGROES TO CELEBRATE

June the 19th is Emancipation Day, and in commemoration of this fact the Negroes of Sudan and surrounding territory are preparing to celebrate in due form.

An all-day picnic with programs and a baseball game will be present. Free drinks will be served. The ball game which will be played in the afternoon is free, and the public is invited to attend.

Local Seed Farm Sells 165,000 Lbs. Certified Seed

The Fairacre Seed farm has sold 165,000 pounds of certified seed since the first of December, 1932. This seed has been shipped to chamber of commerce and farmers from Canadian, Texas, on the north to Corpus Christi on the south.

Morris Morgan, owner and pilot of Littlefield, attempted to land the plane on the old baseball field, but did not have enough room to land. He went east of town and landed in a pasture. In the landing he broke one of the shock absorbers on the landing gear.

After mending the shock absorber he taxied the plane over to smoother ground. Before getting up flying speed, the right wheel of the landing gear caught in the sand and threw the plane toward a fence.

Mr. Hammock, owner of the in delivering this seed. The largest order was delivered to the Canyon Chamber of Commerce, Canyon which consisted of 32,000 pounds of seed.

County agents and chamber of commerce have handled most of the Fairacre seed, as they were trying to introduce better seed into their territories.

George E. Ehlinger, county agent at New Braunfels, is a strong booster of Fairacre seed.

Mr. Hammock is one of the four state certified seed growers in Lamb county and one of the twelve in Texas. He has sold more seed than any other certified seed grower this year as he had two years' crop of seed on hand.

The seed Mr. Hammock has sold consisted of 750 sacks cane, 100 sacks maize, 200 sacks kafir, and 600 sacks of hegari.

MISSIONARY BAPTIST ARE HOLDING REVIVAL

Rev. H. E. Simpson, formerly of Wellington but now of Sudan is conducting a Missionary Baptist revival this week on the vacant lots just west of Dills Grocery. Seats have been constructed to accommodate the large crowds.

The revival which will last ten days to two weeks began Tuesday night. Services will be held each evening at 8:30. Plenty of music is assured those who attend. Everyone is invited to attend the services.

The work on the third block of pavement on Main Street is progressing and it will only be a short time until Sudan has three blocks of pavement.

W. A. Peachey is foreman for the crew of men working on the street. The concrete curbs have already been run, and the forms will be removed soon.

The gravel and caliche is also being hauled to furnish the base.

This is certainly making a big improvement in Sudan's Main Street as well as giving men, who need work, employment. This block needed paving badly, as it has been washing out and had gotten low.

In rainy weather the street was very muddy.

BIBLE CLASS

The Ladies Bible class of the Church of Christ met Tuesday afternoon at 3 o'clock with seventeen members present.

An interesting discussion was led by Mrs. Barnett. Mrs. J. B. Foster leading in the devotional.

We are always glad to have new members or visitors.

Next Lord's day Brother Garner preaches his last sermon for us until his summer meetings are over. All that enjoy hearing the Gospel preached, come!

Sunday School, 10:00 A. M. Preaching, 11:00 A. M. Communion at 12:00. Evening services at 8:30.

RETURNS FROM FT. WORTH

Mrs. John A. Dryden returned from Fort Worth Friday morning where she has been at the bedside of her daughter, Mrs. Clark for the past two months. Mrs. Clark has improved. Mrs. Dryden was accompanied home by her grandson, who will visit here this summer.

Mr. and Mrs. C. M. Furneaux and son were in Lubbock Wednesday.

AIRPLANE CRASHES NEAR SUDAN AFTER ATTEMPTED TAKE-OFF THURSDAY AT 7

An airplane crashed one and one-half miles east of Sudan Thursday evening about seven o'clock as it was attempting to take-off. The pilot and two passengers were uninjured, although the plane was badly wrecked.

Morris Morgan, owner and pilot of Littlefield, attempted to land the plane on the old baseball field, but did not have enough room to land. He went east of town and landed in a pasture. In the landing he broke one of the shock absorbers on the landing gear.

After mending the shock absorber he taxied the plane over to smoother ground. Before getting up flying speed, the right wheel of the landing gear caught in the sand and threw the plane toward a fence.

S. S. Team Beats Town Team 17-7

Last Thursday afternoon at the ball park the Methodist Sunday school baseball team walloped the business men's 17 to seven. The game was cut to only six innings.

Alton and Jack Lumpkin did the pitching for the Sunday school boys, while Jimmie Alldredge, Lefty Toten, and Walter Grissom pitched for the business men. In the third and fourth innings when Toten started pitching for the business men it looked like the church boys were doomed; but in the fifth inning the boys started hitting.

A large crowd attended the game and a good time was had by all.

The Sunday school boys are playing the mechanics and oil men of Sudan this afternoon at five o'clock.

LADIES HONOR MRS. H. TAYLOR WITH PARTY

A party honoring Mrs. Herman Taylor was given by Mrs. Floy Breeding, Monday afternoon from three to five o'clock. After a short program consisting of reading selections, the honoree was presented with a basket of pretty and useful gifts.

Ice cream and cake was served to the following:

Mesdames E. P. Jones, Lee Crosby, Frank Taylor, E. E. Ivey, R. E. Luttrell, L. V. Rea, Len Olds, Hershel Olds, L. C. Garrett, Floy Breeding, Grandma Smith, Misses Faye and Cleo Walker, Inez and Gladys Gordon, Vivian Oglesby, Flossie Belle Cole Zora and Stella Withrow, Mary and Frances Luttrell, Nadine Rea, Nannie Marie Breeding, and the honoree, Mrs. Herman Taylor.

EARTH DEFEATS BULA; SUDAN DEFEATS EARTH

Last Thursday evening two croquet teams from Bula were beaten by one team from Earth, and then the Earth team was beaten by the local team, on the Hunt croquet court.

J. W. and C. W. Parkman of Bula were the first to be defeated by Jack Moss and Miller of Earth. Then the Earth boys played C. R. Brown and Frank Thomas of Bula and defeated them.

A. C. Phillips and Jimmie Alldredge local players, then defeated the Earth boys.

Mr. and Mrs. W. F. Lynch are in Roswell, New Mexico, for Mr. Lynch's health. They will probably stay in Roswell until the first of September. Although Mr. Lynch has had to go to many different places for his health, he always reads The News. His many friends here hope that the treatment at Roswell will be successful.

He cleared the fence with only the tail strut hitting one post, but the plane did not have flying speed, and as he started to make another run for speed, the landing gear came off.

The propeller broke, and the plane hit the ground and scooted along for 200 feet, breaking off the wing and smashing one side of the fuselage.

The plane was a monoplane which had been assembled by Morgan, and this was its first flight out of Littlefield. Paul Willingham and Hershel Stevens were with Morgan in the crack-up.

Morgan and Willingham were here Sunday with a truck and carried the wreckage to Littlefield where it will be repaired.

Miss Findley and Lynn Kester Wed

Miss Katherine Findley and Lynn C. Kester were quietly married Saturday evening at 8:30 in the home of Mrs. Joe Covington by Rev. Sam A. Thomas. Only the immediate family was present to witness the ceremony.

After a delightful dinner was served, the couple left immediately on their honeymoon which will take them through Eastern New Mexico. The first stop was Clovis.

Miss Findley is the daughter of Mr. and Mrs. J. B. Findley of this city. She is prominent in the social activities of Sudan, and graduated from the local high school in 1931.

Mr. Kester is the son of Mr. and Mrs. F. M. Kester of Hereford, and has taken an active part in social affairs here since establishing a jewelry store here eight months ago.

They will be at home in Sudan.

CHILD HEALTH'S HABIT CONTROLS MENTAL ACTION

According to the State Department of Health a child's habits are responsible, in a large measure for their mental actions in later life. A child of five or six years may have a bad temper. He can be taught as he grows older, to exercise self control so that it will not often be manifested. It would be better for him though if he had acquired a good temper instead of a bad one.

Perhaps the child had learned while yet an infant, that he could get what he wanted if he cried long and loud enough. Perhaps he had learned when a little older, that bad behavior, as tantrums, screaming, rolling on the floor or sulking, brought him what he wanted after his request had been refused or ignored. If he had this experience once you may be sure that he would repeat the action the next time the occasion arose. If he found that such actions did not bring the desired results he would not try it again.

Other behavior habits, good and bad, are acquired from imitating older children and adults. In this way man likes and dislikes, tastes and ambitions which in later years become crystallized into character habits have their beginning.

Calmness and poise, as well as in the presence of an emergency, and panicky behavior, are nothing more than behavior habits established by imitation and mad permanent by repetition. The elders are responsible far more than they realize for the conduct of the child in the family. In this we see a new meaning of the old adage, "As the twig is bent the tree is inclined."

Bus Will Take Sudan Women To Short Course

A school bus that will accommodate a large group has been secured by the Sudan Home Demonstration club to take those women who are interested in the A. and M. Short Course to College station.

A large group is planning to make the trip from here; therefore in order to cut the expense and make it possible for others to go, this arrangement is being made. The round trip on the bus will cost \$6.00; room for five days while in College Station \$1.25; a meal ticket which entitles you to eat in the college mess hall, \$3.75. This includes the actual expense of the trip, as lectures are free.

If you are interested in the trip you should see Mrs. H. B. Teal, president of the Sudan Home Demonstration club, and make reservations. All reservations must be made on or before June 24th, because names must be sent to College Station; so plans can be made to accommodate the large crowd.

A large group is expected to attend from Sudan. This is a wonderful trip for the ladies, and is very educational.

ODD FELLOWS RETURN FROM FISHING TRIP.

Eight Odd Fellows returned Monday from Lake Kemp near Quanah where they spent several days fishing and boating. The group left here Friday morning. They report that they caught all the fish they could eat.

Those who made the trip were Henry and Walter Dameron, Louis Knall, and Duncan of Circle Back; and Elwin Hamilton, E. E. Ivey, Buck Slaughter, and Vess Garner of Sudan.

W. M. U.

The W. M. U. met Monday, June 12, in a business and social meeting. A splendid program was rendered and was thoroughly enjoyed by all present.

The program consisted of: Prayer—Mrs. Townsend. Special Song—Mrs. Shore and Mrs. Townsend.

Scripture Reading—Mrs. Harris. Special Song—Eunice Moore and Wilda Townsend.

Special Song with guitar accompaniment—Ora and Carrol Preston.

Talk: "The Duty of Mothers"—Mrs. Clyde Robertson.

Raeding—Alice Jean Barnett. Musical reading—Ouida Town send.

Prayer—Mrs. Cole. The quilt, that the ladies have been piecing on was given away. It was given to Mrs. Harvey.

Refreshments consisting of punch and cake was then served.

United States mail trucks have the right of way over all other vehicles including firewagons and emergency ambulances.

A novel idea in the way of rodeo entertainment being planned for the 1933 State Fair of Texas, it has been announced by Otto Herold, president of the exposition. Plans have not yet been completed, but if worked out successfully, will be one of the most novel cowboy engagements ever presented.

BUSINESS MEN MEET

The Business Men's club met Tuesday at noon with 21 present. Joe T. Salem acted as chairman of the meeting and discussed many important problems.

Miss Mary Will McNeely gave a musical reading.

The business men are laying plans for Sudan's next Trades Day, as well as plans for improving our streets and park. mmmrone kwee,ede r a

Local Boy Completes Pharmacist Course

Pfeiffer Ramby received his certificate from the Texas Board of Pharmacy last Friday, upon the completion of a five year druggist and medical course.

The certificate reads in part "This is to certify that Pfeiffer Ramby has complied with all of the requirements of the law regulating the practice of Pharmacy in the State of Texas and is licensed as a Pharmacist and is entitled to practice as such in accordance with the revised statute."

Pfeiffer graduated from the local high school, and set in to work in 1929 on the five year medical course. He was an understudy of his father, H. G. Ramby, who received his certificate exactly 27 years ago. The same doctor held the examination for Pfeiffer and his father.

Armour Installing Cream Station Here

Armour's Creameries of Woodward Oklahoma, have secured Melvin Robertson to manage a cream station for them in Sudan. The cream station will be open Saturday in the old Farmer's Produce stand next door to Higginbotham-Bartlett lumber company on Main Street.

Harry Bauman, field man for the Creameries of Woodward, was here the middle of the week making preparation to open the produce. He is establishing stations all over the South Plains.

SUDAN H. D. CLUB

The Sudan Home Demonstration club will meet at the home of Mrs. H. B. Teal June 23 at 2:30 o'clock. "Achievement Day Program" will be discussed. The public is cordially invited to attend this program.

SELF-SUSTAINING FARMERS

The Department of Agriculture predicts that American farmers during the coming year will produce a far higher proportion of their own foodstuffs than has been the case for many years.

An ever-increasing percentage of farmers the department has found, are grinding their own flour, keeping more eggs and milk for home use, canning and preserving more fruits and vegetables and slaughtering more animals for their own consumption.

Although this development was brought about by hard times, it probably represents a healthy trend. The one-crop farmer, who buys all his food at the village grocery and turns his farm into a kind of factory for the production of one staple commodity, is especially vulnerable to any depression. The farmer who raises his own food is at least sure that he will never go hungry. And that, in times like those through which we have been passing, is an assurance worth having.

STATE FAIR TIPS

Many attractions are being planned for the 1933 State Fair of Texas, it has been announced by the heads of various departments. Otto Herold, president of the association has given orders that all departments offer something new for the 1933 exposition. He hopes to make the 1933 exposition stand out even more than did the 1932 State Fair of Texas.

Texas waters produced 2,212,325 pounds of fish in 1932. The catch was taken from the 230 different kinds of salt and fresh water fishes found in this state. The fishing industry in Texas is one of numerous industries which are large, but of which little is generally known. This poundage does not include shrimps, crabs or oysters.

THE SUDAN NEWS

Entered as second class mail matter July 2, 1925, at the Postoffice at Sudan, Texas, under the Act of March 3, 1879.

Published every Thursday by **H. H. Weimhold & Son** At Its Office In Sudan, Texas

Four Problems

Perhaps we are not aware of the neglect that is going on in Sudan, but it looks like we have come to a point where we must stop and consider things in the light that they appear at this time.

There are some important matters which should have the earnest consideration of our citizens; action should be taken.

First, Sudan's hog and chicken ordinance has been suspended for the remainder of 1933. This is a serious error, and the commission should be consulted and asked to reestablish the ordinance and place same in force and see that it is obeyed.

Second, there is the question of occupation tax, which we understand has never been enforced. We are of the opinion that the occupation tax should be paid. (It is an Ordinance and according to law should be collected.) We cannot see where the business men have a right to say whether this tax be paid or not, as it is up to the city officers to collect occupation taxes. This tax if collected would work two folds good; first, it would protect the merchants from street peddlers and auctioneers; second it would go a long way toward improving our streets.

Third the attitude of our citizens toward our city officers is appalling and unless it is checked harm to Sudan is sure to come. We cannot understand why a good citizen would want to trample the law into the street. If it is a good law enforce it; if not have the city commission repeal it.

Fourth Sudan was incorporated at considerable expense to the people; for the protection of the people; people have come to Sudan to make their homes to receive this protection, and it appears that we are duty bound to see that our laws are upheld and enforced.

A Few Facts

The only way to let people know that you sell as cheap or cheaper than your neighboring city is to advertise your prices. That is the plan our larger cities use to get trade.

A good neighbor is the one who will not permit his chickens to run at large and destroy the gardens of the neighborhood. Neither will he keep hogs in town to annoy his neighbors.

Several hours of high class entertainment is being arranged for the people who attend Sudan's Trades Day, Monday, July 3, which will be free.

A good neighbor is one who respects the rights and comforts of others and will not tolerate a nuisance of any kind on his premises.

Garner's vote untied the vote of the senate, and limited the reduction of pensions to only 25 per cent.

Miss Anna Jewel Shuttlesworth was one of the 53 students who made the John Tarleton college semester honor roll, according to Dean J. Thomas Davis.

Eldon Nichols returned last Saturday from Abilene where he has been attending a General Assembly of Epworth Leaguers. He reported that a good time was had by all who attended, and expressed the desire to attend next year.

THINK ON THESE THINGS

(By the Parson)

PURPOSE OF FARM LOAN

A prospective borrower must state in his application how he intends to use the proceeds of the loan if it is made. If his application is granted, he must use the money for the purposes stated in his application. The act defines the purposes for which a loan is made. These are: (a) to provide for the purchase of land for agricultural uses; (b) to provide for the purchase of equipment, fertilizers and livestock necessary for the reasonable operation of the mortgaged farm; (c) to provide buildings and for improvement of farm land; (d) to liquidate indebtedness of the owner of land mortgaged incurred for agricultural purposes, or incurred prior to January 1, 1933; (e) to provide the owner of the land mortgaged with funds for general agricultural uses.

The cost of loan shall not exceed more than one per cent of total amount borrowed, or it may be only enough to cover actual cost of proving titles, paying appraisers and etc.

Every farmer may borrow up to fifty per cent of appraised value. Get in touch with the Federal Loan association in the county in which land is located. \$60.00 per year (annual or semi-annual will pay interest on \$1,000.00 loan, provided you take the 36 year loan.

I want to go to a picnic! when does it take place?

Fault-finding never hurts anyone worse than it hurts the man who manufactures it. It is a perfect boom-a-rang.

A reason is a FACT. Excuses have to be made.

A father told his little son to quit eating ice-cream or he would give him a whipping. After the freezer containing a large amount of cream was safely put away, the father went back to his work. Upon returning home he heard a groaning noise in the boys bedroom. Passing by the freezer and looking in, he saw nothing, then opened the door from which the noise issued. His son was rolling all over the floor holding his stomach. The father very much enraged said, "If you weren't so sick from eating the cream I would give you a licking." The son meekly replied, "Pa it aint the cream that is hurting me, my breech-

es are choking me to death."

Some people are not lazy; they were just born tired and have never gotten rested.

The town needs a sewer system; the people need the money. R. F. C. liquidating funds will do it.

A baby was born recently to Mr. and Mrs. E. M. Tomlison Akron, Ohio, and they sent the following to their friends:

The Tomlison Production company, 443 Malvern Street, Akron, Ohio, announces the 1933 Tomlison "Baby Boy" Model No. 1. E. M. Tomlison, Designer and Chief Engineer; Dorothy Tomlison, Production Manager; Dr. Leslie Botteford, Technical Assistant. Model released January 19, 1933. Two lung power, free squealing, economical feed, water cooled exhaust, changeable seat cover. The management assures the public there will be no new models during the balance of the year.

A good will tour to inland community centers would create a friendship and fellowship that other towns couldn't break. Get your Band Boys lined up. Load up your trucks with good snappy and noisy advertising and lets get going. You will see the difference.

Bula will have another gin this fall. Sudan ginners ought to be getting better acquainted with the people. Systematic advertising will pay big returns.

It takes a lot of gasoline to bring one thousand people to town for "Special Days." Whole sale and retail oil companies ought to support "Trade's Day" one hundred per cent.

I am wondering if a Sudan cotton buyer at Bula and James wouldn't have a tendency to bring the trade this way. It would at least add to Bank deposits.

A wonderful opportunity for the public! Merchants of Sudan are offering splendid prices on their merchandise.

Have you noticed The Sudan News of late? It is the best little paper in Texas. Lots of news and hundreds of special prices in advertising. Read the ads.

Not only is a newspaper a source of news, but it is a means of economy if you read the ads and take advantage of the prices offered. The ad in your paper is a personal message from the merchant to you. Boy howdy! Did my Sunday school boys wallop the business

ment last Thursday in their first baseball game? I'll say they did! The business men like to have lost their pants trying to beat the kids. I thought sure we would have to wrap two or three of them in a blanket to get them home. Come out and enjoy the games. All free. Not even a collection taken.

Horse Sense

In shoeing flier or hauling freight It's wiser to co-operate, For better jobs are sooner done If two take hold and work is one.

Now, that's a truth all horses know They learned it centuries ago. When days are hot, and flies are thick Co-operation does the trick.

One tail, on duty at the rear, Can't reach the fly behind the ear.

But two tails, if arranged with crate Give full protection, fore and aft.

Though fools pursue a lonely course, Let wise men emulate the horse

Two make a burden half as great: Use HORSE SENSE and co-operate.

EVEN DOZEN AMENDMENTS UP TO VOTERS

Wide Variety of Proposed Changes in Constitution Must Get Ratification

An even dozen of the myriad measures passed by the Forty-third Legislature at the regular session remain to be approved by the voters of Texas before becoming law.

They are proposed constitutional amendments, most of them of far reaching effect, their submission required a two-third majority vote of both houses and adoption will take a majority popular vote.

Four of the amendments will be submitted at the special election to be held Aug. 26. One of them (H. J. R. 43, by Sullivan), legalizing beer of 3.2 per cent alcoholic content by weight, will be the issue of an active Summer campaign. Upon its adoption the Mathis-Anderson regulator bill automatically will go into effect.

Arguments also may be heard during the next 12 weeks on the proposed amendment (S. J. R. 30 by Woodul) to authorize issuance of \$20,000,000 of state bonds by the Legislature for unemployment relief.

After the Federal Government cut off Texas' \$1,500,000 monthly relief allotment until the Legislature should submit the bond amendment, a clamor arose from all over the State and it went over with a bang. What will happen if the people refuse to adopt the amendment to match federal funds is not known.

The Rawlings-Morse amendment (S. J. R. 3), permitting large counties to adopt home rule charters, will arouse interest principally in Harris and Tarrant counties, where home rule movements have been started. However, the main campaign on this measure will come in the counties that may become interested after its adoption by the State as a whole.

Home Rule Amendments

Under this amendment any county of 62,000 population or more may adopt a self-governing charter, within limits prescribed in the amendment, by a majority vote of all cities, towns and unincorporated areas in the county—all voting separately. It also provides for consolidation of city and county governments by two-thirds vote of the people.

The foregoing three proposals and a corrective homestead exemption amendment (H. J. R. 32, by Nicholson), affecting only those South Texas counties that have tax remission, will be voted on Aug. 26. The \$3,000 homestead exemption amendment adopted last November excluded from its benefits all counties receiving tax remission for storm and flood protection. It was intended to exclude them only as to that part of their taxes which had been remitted by the Legislature to build protective structures. The new amendment is designed to correct this error, so they will enjoy the \$3,000 homestead valuation exemption on the part of their state ad valorem taxes which never were remitted by law.

Nearly a score of counties along the Texas coast will benefit from the new constitutional amendment. The error in the original homestead amendment. The error in the original homestead amendment is now costing them an aggregate of nearly \$500,000 a year.

The other eight amendments submitted, to be voted on at the 1934 general election are:

Would Limit Tax Rate

S. J. R. 13, by Woodward, to limit the state tax rate and appropriations so that total state tax rate and appropriations so that total state expenditures, tax levies will not exceed \$22.50 per capita for a biennium.

S. J. R. 16 by Oneal, authorizing the classification of personal property for taxation purposes, so stocks, bonds, notes and other securities may be graded and taxed.

S. J. R. 21, providing for

RESULTS TO BE ANALYZED AT MEETING

Feeding experiments of beef cattle, hogs and sheep, fed on the first Texas Technological college Livestock Feeders' Day were June 16.

Several hundred feeders, cattlemen, county agents, vocational teachers, packers, commission men, and others interested in producing, feedings, marketing and packing of livestock are expected here for the first Feeders' Day.

Results of the feeding of 40 steers in 4 lots with four comparisons, 120 sheep in 6 lots with 11 comparisons, and 40 hogs in 4 lots with 4 comparisons will be discussed and analyzed.

The program opens at 10 a. m. Friday morning and will be held at the Stock Judging pavilion at the college.

At noon the Lubbock Chamber of Commerce will be host at a luncheon to those present at the meeting.

Among those on the program are the following: Dr. Bradford Knapp, President of Texas Tech; A. H. Leidigh, Dean of Agriculture at Texas Tech; R. C. Mowery, Department of Animal Husbandry, Texas Tech; D. L. Jones, Superintendent Substation No. 8 Texas Agricultural Experiment Station; J. M. Jones, Chief Division of Range Animal Husbandry, Texas Agricultural Experiment Station; and W. L. Stangel, Department of Animal Husbandry, Texas Tech.

changing county boundaries by the Legislature, permitting counties to merge for economy of administration.

S. J. R. 2, by Purl, abolishing the fee system of paying county, district and precinct officers in counties of 20,000 population or more, and placing them upon a salary basis to be prescribed by the Legislature. It leaves abolishment of the fee system optional with counties of less than 20,000.

H. J. R. 14, by Coombes, providing for reorganization of county government under management of the County Commissioners Courts, and for consolidation of offices and other economies.

H. J. R. 30, by Haag, providing for taxation of University of Texas lands for school purposes and by counties.

H. J. R. 41, by Morse, permitting cities to hold elections to amend their charters every 12 months, instead of every two years, as now restricted.

H. J. R. 42, by Moore, authorizing cities to amend their charters to provide for four-year terms for city officers.

Wells Will Broadcast Second Vir. Program

On Wednesday night, June 21, American radio audiences may tune in on the second Continental Oil Company broadcast of the season to be dedicated to the nation's most historical state—Virginia.

The numberless bits of history and scenic descriptions included in the program will be combined into one colorful story and presented by Carveth Wells, well known explorer. Wells himself claim that he is almost a Virginian because his father was a resident of Bermuda, Virginia. Wells adds it is just as famous outside of the United States as it is within the States.

The Conoco program may be heard by local listeners who tune in on station WFAA, Dallas, Wednesday night at 8:30 o'clock.

M. E. CHURCH

Next Sunday is "Father's Day." A special service for fathers will be held at the morning hour. Every father and husband is cordially invited to bring the family for worship.

Sunday school 10 a. m. Preaching services 11 a. m. and 8:40 p. m. Choir practice Wednesday evening 8:40 p. m.

All Leagues meet at 7:45 every Sunday evening.

We especially invite you to attend choir practice. Have lots of new music which will add greatly to worship services.

This is God's church; will you help promote it? The public is cordially invited.—Rev. S. A. Thomas, pastor.

Palo Duro Canyon To Be Improved As A National Park

The 30 year dream of Texas Panhandle citizens for a national park in the Palo Duro canyon became a reality last week when President Roosevelt signed a document to that effect. On the other hand, owners of the 14,466 acre tract in that canyon have agreed to convey the land to the state under consideration of the Federal government establishing at

least three forestry camps there for improvement.

The Federal government has agreed to establish four camps in this particular canyon and to expend the sum of \$72,000 during the coming six months in building roads, bridge paths, water dams, forming lakes, establishing boating, swimming and fishing places, erection of stone buildings for administration purposes, trimming the trees, planting additional trees and cleaning out the under brush. None of the money used by the government for these purposes will have to be repaid.

The president's signature also provided for another state park in the Panhandle to be known as Palsades park and located about 12 miles south of Amarillo. Two hundred men will be given work for six months on this one park.

It has been estimated that \$90,000 will be expended on the two projects.

ABOUT FOLKS YOU KNOW

Charlie P. Neal of Rule was here the first of the week attending to business. He owns two farms north of Sudan. He was accompanied back to Rule by Miss Katherine Hunt who will spend the summer visiting her grandparents there.

Mrs. Lester Dudley of Dallas is visiting her parents and family, Mr. and Mrs. E. Lam, this week.

Mayor W. W. Carpenter, John A. Dryden, H. G. Ramby, Rev. Sam A. Thomas, and H. H. Weimhold were attending to business in Lubbock Thursday.

Joe Foster, manager of Higgin botham-Bartlett Lumber yard at this place, was in Olton Tuesday.

R. E. Doss is repainting the shelves and is also making other improvements in his store this week.

Mrs. H. H. Weimhold and two children, Forrest and George, and Joyce Stone were in Lubbock Friday.

Mr. and Mrs. Joe Covington and two children spent the week-end in Sudan, but returned this week to Dalhart where Mr. Covington and Jim Head are hauling gravel.

Mr. and Mrs. Joe Loewenstein of El Paso visited in the home of Mrs. Loewenstein's sister, Mrs. J. E. Dryden and family Sunday. They left Monday for Chicago where they will attend A Century of Progress. They were accompanied by Mrs. Dryden, and will visit in Detroit and other northern cities while away.

Misses Vest Little and Oueta Trammel spent the week-end at Bula with Vesta's sister, Mrs. C. L. Jackson and family.

Dr. M. McNeeley of Memphis, Texas, visited in the home of his brother, W. N. McNeeley the first of the week.

Wesley Evans and family left Sunday afternoon for Hollis.

College Degree Worth \$100,000, Experts Find
 Statisticians and research investigators have at last run down the elusive and much discussed dollar and cents value of a college education and have fixed it at \$100,000. Their survey reveals that the average untrained boy goes to work at the age of 14, earns less than \$1,700 a year, so that his income from 14 to 60 totals \$64,000. The high school graduate, they find, starts work at 18, reaches his maximum income of \$2,800 at 50 and by 60 has earned a total of \$88,000. The college graduate, they learned, starts his career at about 22, has caught up with the high school graduate by 30 and at 60 is earning from \$6,000 to \$8,000 a year with a total earning at 60 of between \$160,000 and \$200,000. Figures from the same survey produced by the statistical department of Union Central Life Insurance Company show that out of 1,000 children entering grade school only 23 graduate from college. Lack of funds is revealed as the main reason for leaving school and educational insurance is now advocated as a means of giving a higher percentage the "break" which a college degree assures.

Lucky Scrap Jelly
 Chop up pieces of candied fruit—you must have at least one-half cupful and you can use twice that amount if you like. If no candied fruit is around, use broken nut meats or small bits of candy or raisins or dates stoned and finely cut. Make 2 cupfuls of lemon or orange gelatin. Pour the gelatin into a mold and, when it is cool and begins to "set" add the diced candy. When serving time comes, turn the mold upside down over the serving dish. Wrap it tightly with a cloth wrung out of very hot water and the jelly will fall onto the dish. A garnish of whipped cream or condensed milk, whipped, makes the dish prettier.—Child Life Magazine.

Size of the Stars
 How large are the stars? To the average individual their size is hard to comprehend, but Dr. Edwin B. Frost, famous blind astronomer in Child Life Magazine, solves the problem. The sun, he says, is 350,000 times as large as the earth, and yet some huge stars are forty million times larger than the sun.

Oklahoma, where they will make their home for the summer.

Jiggs Nichols is spending a few weeks at the J. P. Robertson ranch south of Sudan, visiting J. P. Robertson, jr.

For Sale or Trade a scholarship to the Tyler Commercial College, Tyler, Texas. This is a good business college and if you or any of your family plan to attend a business college, see F. H. Weimhold at The Sudan News office.

DINING GETS JUST DESSERT!

In a world turned topsy-turvy, what could be more appropriate than an upside down cake! And if it's made with luscious discs of canned pineapple, set in a caramel goodness, browned to a golden whole, it's enough to right the appetites of any family.

And the pineapple upside down cake has much more than its mere golden goodness and simplicity of preparation to recommend it. Now that nutritional studies have found canned pineapple to be a valuable source of essential vitamins and minerals, an important aid to digestion, housewives and hostesses are seeking new ways of including pineapple in some way daily on the menu.

PINEAPPLE UPSIDE DOWN CAKE
 1/2 cupful of butter 1/4 cupful of sugar
 1 cupful of brown sugar 1/4 cupful of chopped dates
 8 slices of canned pineapple (in perfect halves, if possible)
 2 maraschino cherries

Melt the butter in a wide shallow pan or skillet. Add the sugar, distributing it evenly. Lay the pineapple, dates and pecans in this sugar mixture, and place a cherry in each pineapple center. Then prepare the Sponge Part—

SPONGE PART
 4 eggs 1 tsp. of tartrate baking powder
 1/2 cupful of sugar 1/4 tsp. of salt
 1/2 cupful of flour 1/2 tsp. of lemon extract

Beat the egg yolks until light and lemon-colored. Gradually add the sugar which has been sifted. Fold in the beaten whites of 2 eggs. Sift the flour, baking powder, and salt together 3 times, and fold into the mixture. Fold in the beaten whites of the other 2 eggs and add the flavoring. Pour over the pineapple mixture and bake in a moderate oven (350 degrees) until done. Let cool in the pan for 5 minutes before turning the cake out upside down.

WORTH GROCERY

Announcement

Armour's Creameries of Woodward, Oklahoma, are glad to announce that they have secured Melvin Robertson to manage their cream station in Sudan, which will open Saturday, June 17, in the old Farmer's Produce stand next door to Higginbotham-Bartlett Lumber company.

They invite you to see them for efficient and prompt service, and a good market for your cream.
