

As I See Ranger

By Gene Townsend

"Let Jones Do It" is the unofficial slogan adopted by the citizens of this area.

And Believe it Or Not he is going to do it.

So far on his side is common horse sense, a fierce determination (hardheadedness) and right. The lack of cooperation among some groups who should be the first to strive for a safer city has been very noticeable.

When we as citizens put personal feelings and other things before the safety of our children and the attitude of "let's wait and see" what happens before we act, can be fatal.

As parents and citizens, it is our duty to actively support any civic improvements that will be of benefit to our city.

How many of us could sleep at night should another such tragedy happen again unless we knew that we had done our best to help correct the situation that exists at the railroad crossings.

If you are sincerely interested in improving the safety of the railroad crossings, contact your local club, PTA, School Board or City Commission and express your feelings, or do you want to "Let Jones Do It."

This attitude is not only evident in the current situation but has been apparent in Ranger and this area for many years. Why haven't we got more industry in this area? Because everyone has adopted the attitude "Let Jones do it" to getting new industry to come into our town. Ideal location and abundant natural resources, transportation and a labor force make Ranger an ideal location for new industry. So why hasn't there been more new industry located here. It could be because we haven't made an honest effort to get it here, we have "Let it to Jones."

Lake Leon is one of the few things in this area that has been undertaken with a look at the future of the area. But when people get together and talk about Ranger, more than likely it's not Lake Leon that they talk about, it's the oil boom and winning the State Football championship in 1953. Ranger talks about the past and leaves the future to someone else. When anyone starts living on their reputation they may live pretty good for awhile, but sooner or later people will forget about that reputation and then the living is not so good.

We have one person in Ranger in particular who is not "leaving things to Jones," and that is C. B. Pruet. He has enough faith in Ranger to dream of a housing project, in fact he has done more than dream, he has started building houses in the new development. It is people like this that has faith in something that will keep a town alive. The only thing that we need in more people with this kind of faith.

When the results of the new census comes out, is the population going to be changed to a larger number or a smaller one. More than likely it will read smaller than the one that is now reading 3089. Cinc shows an estimated 4 percent increase in population and Eastland a 17 percent gain. Gorman and Rising Star are estimated to have remained even. What can Ranger estimate? It won't be a figure that we can be proud of, that is for sure. When the results of the census is available we will be able to see just what we have accomplished in the past ten year. It will show that (Continued On Page Four)

EMERGENCY TELEPHONE NUMBERS
The Ranger Times has prepared a list of the new emergency telephone numbers to be delivered with the Thursday editions of the Ranger Times.
The list of numbers has been printed on Orange-Red Radiant Pressure Sensitive paper with gummed back. Just peel the protective paper off the back and stick to your telephone or in a convenient place. It is easily removed and will not damage furniture.
Only those customers served by carrier will receive the list, anyone else wishing a list of the numbers can pick them up at the Times office.
We hope that this bit of service will be a reminder to you that the Ranger Times is here to serve you in every way.

Pasture Is Cheapest Feed for Livestock

Grass planting season is here again. Pasture is almost without exception the cheapest feed that can be grown for livestock on any farm. Good pasture is also about the best of feed for any livestock. Hundreds of old fields in this vicinity no longer profitable for crop production could be changed into profitable pasture by seeding to adapted grass mixtures. Thousands of acres of rangeland growing inferior grasses could be improved through reseeded better grasses.

Covered Sugar

By Mrs. Cubian Perry

Let's get with it and have a laugh or two or three, maybe four! Let's try anyway! Are you willing? Let's go.

There was a large family living in Fort Worth on their way to church on a Sunday morning dressed, of course, in their Sunday best. The oldest child, a boy, was very very self conscious about the size of the family; and on this particular morning everyone they met began chucking and turning to gaze after them.

When Mother and Dad commented about the amusing expression they seemed to be causing he said: It's all these kids sticking out of the car. Since the church they attended was some six miles across the main part of Ft. Worth, there was quite a few chucklers.

When they parked at the church, everyone in sight became hilarious and as they walked around the car, there on the front bumper, set their pet setting here!

She had gotten off the nest and parked herself for a cooling spell just as the family had got into the car and had had herself one exciting ride.

Mrs. T. J. Spindle told this as a true life incident and she is a gal!

Fire Department Answers Call Sunday Evening

The Ranger Fire Department answered a call to a fire at Wilson Guest's home on 808 Cherry Street at 7:26 p.m. Sunday.
The fire caught from the fireplace which was recently installed in the Guest home.
Guest estimated the damage to be about \$500. Mainly it will consist of replacing some studding and paneling that had to be torn out to get to the fire. There was no water damage.
Guest was very complimentary in his statement about the Fire Department being "Johnny on the spot." He said that there was no water damage and that they did a real good job in handling the fire and getting it out with a minimum of damage.

Dial System Brings New Era to Ranger

Sunday will mark the end of an era in Ranger's communications history.
That's the day the new dial telephone system goes in operation here.

The change will be made while most of the city's residents sleep. The new system will be "cut" into operation at 1:01 a.m. Sunday morning, Archer Marx, manager for Southwestern Bell Telephone Company, said.
Ranger residents will find one of the world's finest, most modern communications systems at their fingertips when they start their day Sunday.

The change will mean an end to the manual telephone system—a system which has served the city since telephones were first installed here.

Everything is ready for the switchover, Marx said.
As the time for the change to dial approaches Sunday, a few last calls will be trickling through the present switchboard and the dial system will be "cut" into operation. At 1:01 a.m., a final check of calls being handled will be made to assure that no emergency calls are involved. Then the cutover order will be passed to telephone men who will go into action at the present central office and at the new building.

Key cables which have been "half-tapped" so that they would be connected to both central offices while the new dial system was under construction will be cut so that all lines will tie only to the new dial office. Simultaneously at the new dial building, hundreds of small "blocking tools" will be quickly yanked out of the dial equipment by men pulling away hundreds of them at a time by means of counting cords. Then each telephone line in the city will be connected directly to the new dial switching equipment. The power switch in the old central office will be thrown and the new dial system will be in operation.

With these moves, too, every telephone number in the city will change.
The actual change to dial operation will take less time than it takes to tell about it. But the job to be done in a few seconds climaxes months of painstaking effort by telephone technicians all over the country, Marx pointed out.
A new telephone building was constructed; loads of dial telephone equipment was engineered, built to order, delivered, placed and wired. A group of Western Electric's installers were on the job. Installation of the new system required several thousand hand-

Revival Is In Progress At First Baptist

A great interest is being shown in both morning and evening services in the revival at the First Baptist Church. Evangelist for the services is Rev. J. B. Fowler. Both congregational and special music has been enjoyed at each service, as Dale Coady leads the music program.
Morning services begin with breakfast at 7 a.m., followed by singing and preaching from the parables of Jesus. The benediction is spoken before 8 a.m. The evening services begin at 7:30 p.m. with a choir of some fifty people singing the gospel hymns that thrill the souls of those who are present.
Friends are always welcome at both services and are urged to come and to pray for the revival. The nursery is open for all services.

Born After His Daddy Died—

... did little Tommy cloud the title to his mother's home? Or suppose little Tommy was born out of wedlock would this affect the titles to the properties owned, if any, by his father, or mother, or both? These and many other heirship problems may arise in any title which the lawyers or the courts must finally decide. The abstract, which presents the facts and conditions surrounding such circumstances, is and always has been, the most important part of any real estate transaction.
