Uncle Sam, your bank, and you

How this 20-year-old partnership helps keep America strong

Since May 1941, America's banks have sold nearly 2 billion separate U.S. Savings Bonds at no cost to the Government or the purchasers. To give you some idea of the time involved: if you merely handed out that many Bonds at the rate of 1 a second for 10 hours a day, it would take you 152 years to reach the bottom of the pile.

Why have the nation's banks and bankers carried on this vast project of information, service, and issuance of U.S. Savings Bonds?

A winning team. For one reason, the Bond Program and the Banking business have grown together. Hand in hand, they've helped make Americans the saving-est people in the world.

Folks who **save** Bonds get the thrift habit. They soon learn other forms of saving and investment. They become better all-around

bank customers. And Bond owners are better credit risks.

Another thing bankers are interested in: Bond dollars help keep America strong. A good reason for the banking business or any business to get behind the Bond program.

What you buy at the Bond Window. When your banker advises you to buy U.S. Savings Bonds, he's recommending an investment guaranteed to grow: \$18.75 becomes \$25 in 7 years, 9 months, and grows to \$36.25 in another 10 years. They can be cashed in anytime with interest. And if they're lost or destroyed, the Treasury Department replaces them free.

Why not take this advice offered by the nation's bankers. Buy and hold U.S. Savings Bonds—for the things you want, and the Peace to enjoy them.

"America's Banks are proud to be part of the Bond Program,"

says Carl A. Binson, President, Valley National Bank, Phoenix, Arizona, and President, American Bankers Assn.

"We believe it is good for America, an economic stabilizer; it is good for the individual and the community; and it is good for banking. The promotion of Savings Bonds has helped to make savers out of non-savers, to revitalize the American tradition of thrift, and to build savings in all forms to record levels.

"The American Bankers Association congratulates the Nation and the public on the 20-year success story of the U.S. Savings Bonds Program, and pledges its vigorous continued support."

Carl A. Binson

You save more than money with
U.S. Savings Bonds

For 20 years America's newspapers have published U.S. Savings Bonds ads at no cost to the Government. The Treasury Department is grateful to The Advertising Council and this newspaper for their patriotic support.

ABOUT YOUR HEALTH

A comprehensive report on tuberculosis control resources in Texas was distributed this week as Gov. Price Daniel's coordinating committee on tuberculosis took another step toward meeting the governor's instructions to "launch a frontal attack against this disease."

Publication of the factual, no-frills report marks the first time in history that information on TB control activities of seven state-wide agencies has been compiled into a single volume.

Contributors to the report were the Texas Tuberculosis Association, Texas Medical Association, State Department of Health, Board for Hospitals and Special Schools, Department of Public Welfare, Veterans Administration, and the Texas Education Agency.

The report contains such diverse information as the location of 92 local tuberculosis associations, control functions performed by the State Health Department's sections on laboratories, preventive medicine and special health services, and the location of 35 public TB clinics.

It covers eligibility for admission to state and Veterans Administration TB hospitals financial aid to dependent children, and rehabilitation of tuberculosis patients.

The new semester, which began January 26, has brought many new faces to the Ranger College campus. There are fourteen new boys in W. P. Newell Hall and two in Cell Block athletic dorm. Three are beginning their college work and the others are transfers from other colleges.

Three young men are from Rottan, Leroy Hill, a major in electrical engineering is a sophomore transfer from the University of Texas. Charles Thornton, a physical education major, is a freshman transfer from San Angelo Junior College. Joe Morrow, who has not decided on a major, comes as a freshman transfer from San Angelo Junior College. Morrow has also attended Schreiner Institute.

We have two young men from Perryton, Keith Shaffer, a freshman business administration major, who transferred from West Texas State, and Sammy Blalock, a freshman transfer from the University of Texas, who is also a business administration major.

Four young men are from Fort Worth, three of them from Arlington State College. Transfers from Arlington State College are Dennis Cox, Terry Truax, and Lynn Corn, who are all business majors.

Two more young men are from Woodson, Larry Sullivan, a freshman agriculture education major, transferred from Tarleton State College, and Larry Brockman, a sophomore business administration major, who transferred from North Texas State College, is back in Ranger College after a semester's absence.

We have one young man from Knox City, Shirley Parks, a sophomore agronomy major, who transferred from Cisco Junior College. Lee Mays, a freshman physical education major from San Antonio finished high school in the service. He was in the Marine six years. His parents now live at Metcalf Gap, which is between Strawn and Palo Pinto. From Haskell comes Wayne Collins, a freshman business administration major, who has just returned from a two-year hitch in the Army. He is the older brother of Jerry Collins, a sophomore in Ranger College.

The two new men in Cell Block athletic dorm, are Bob Thomson and Don Faulkenberry. Coming from the greatest distance is Bob Thomson, a sophomore physical education major, whose home is Regina, Canada. He is a transfer from North Texas College. Don Faulkenberry, a freshman business major, is a transfer from Howard County Junior College. His home is Loop, Texas, and he is the brother of a former student and Ranger College Ranger, Dean Faulkenberry.

Our New Year's Resolutions—

... are as simple and timely as they are sincere. We resolve again that better service to our customers will be foremost in our efforts and that we shall ever strive to add to the quality of the product we sell. We further resolve that property owners both present and future will be reminded from time to time that abstracts of title will not only save them money but will help to safeguard them against fraud and errors in real estate ownership.

Production of Fish Bait Offers Many Possibilities

Texasans love to fish. There are over 1 1/2 million fishermen in our state and they spend an average of 123 million dollars annually in pursuit of this popular sport. A considerable amount of this money is spent for bait, especially minnows. Many of these minnows are raised in Texas, but the demand is so much higher than the domestic supply that millions must be imported annually, says Ed Cooper, extension wildlife specialist.

Since this deficiency in the supply of home-grown minnows does exist, there is some opportunity to make a profit in the commercial minnow business. Minnow raising is not a "get-rich-quick" operation, Cooper warns. It has been the experience of those in the business that a considerable investment in time, labor and capital is necessary for a successful operation.

In order to be successful, you must have minnow ponds of the correct size and depth. There must be an adequate, dependable water supply available, and you must have pumps, water lines, drainage structures and other equipment to completely control the movement of this water. Cooper says that the use of well water instead of runoff or stream usually assures a more uniform chemical composition and reduces the likelihood of introducing undesirable fish, minnow diseases and parasites. In general, the initial cost of equipment is rather high.

A person interested in going into the commercial minnow business must have or acquire some knowledge of water chemistry and the biology of minnows and other aquatic animals. Experience in fish cultural methods is vital to success, thus you must be prepared to accept some failures and even financial losses the first few years. For these reasons it usually pays to visit successful minnow farms to learn techniques and obtain advice instead of plunging into the business ill prepared, Cooper points out.

Information on licenses required for commercial bait operations can be obtained from Texas Game and Fish Commission, Austin, Texas. Cooper also says that a booklet entitled "Raising Bait Fishes" can be obtained from the Superintendent of Documents, U. S. Government Office, Washington, D. C. This publication sells for forty-five cents per copy.

it's saving **REGULARLY** ...

that's important!

Saving part of the EXTRA money that comes your way — gifts, bonuses, dividends, and so on—is a fine idea. But it's those FEW dollars taken out of EVERY paycheck and put to WORK in an insured savings account here that really mount up. Try it and see. You won't need a "windfall" to get the things you want, when you've saved for them!

Baptist College Selected Choir To Tour Orient

Fourteen college students have been named members of a select state Baptist student choir that will tour the Orient on a two-month

mission of peace and goodwill this summer.

The choir will sing in Hawaii, Indonesia, Thailand, Hong Kong, For 1958, Okinawa, and Japan.

Members of the choir, picked from 92 applicants from 31 Texas colleges by a special 13-member state Baptist Student Union mis-

sions committee, represent the

"cream of the crop" of Baptist

Students in Texas, committee-

Primary objective of the tour are to promote goodwill and understanding in the fringe areas of Communist influence and to utilize religious music as a means of Christian witnessing, said Dr. W. B. Howard, director of the Texas

Baptist division of student work.

In addition to holding religious music concerts, the students will also lead revival meetings, assist in Vacation Bible Schools, youth camps, and work in Baptist churches in the Orient.

The venture will mark the first time that a college student group has toured the Orient completely financed by gifts from fellow students.

Baptist Student Union organizations in 68 Texas colleges will take up missions offerings and hold special work days, washing cars, mowing lawns, and doing odd jobs to help raise the \$26,000 to finance the trip.

Named to the 14-voice choir were Milburn Price of Ellenville, Miss. and Don Looser of Lufkin, Texas of Baylor University; Eason Nicholson of Richland, Wash., of Hardin-Baylor College; Jim Pfafflin of La Crosse, Wis., of Hardin-Simmons University; Leon Rodgers of Besant, Lamar Tech; Betty Jean Goodson of Dallas, East Texas State College; and Michael Stoune of Austin, University of Texas.

Others include Dolores M'ngus of Fort Worth, University of Corpus Christi; Karen Carpenter of Snyder, Howard Payne College; John Wheelock of Canyon, West Texas State College; Yoshiko Shiga of Kyoto-fu, Japan, and Albert Bent of San Andres, Columbia; both international students at Wayland Baptist College; Don Norris of Newark, East Texas Baptist College, and Donna Sue Meeks of Longview, Kilgore Junior College.

PRESS HONORED—The George Washington Medal for accomplishment in the field of advertising dedicated to preserving the American Way of Life, was presented the Texas Press Association at its January convention in San Antonio by Associate Justice Meade Griffin of the Texas Supreme Court. Judge Griffin presented the plaque, pictured above, on behalf of Freedom Foundation of Valley Forge, Pa. Receiving the national award for TPA, on behalf of the daily and weekly newspapers of Texas, was L. B. Smith, publisher of the Brady Standard-Herald, president of the press group.

Show Me, Is Teacher in Traffic Safety

SHOW ME — those two words are as much of a challenge, as filled with doubt, or stumbling with confusion in problems of safety today as they have been through the centuries, J. O. Musick, General Manager of the Texas Safety Association said today.

"In safety, we use the words as a challenge or as an evaluation because if we can see a man as he drives we can tell the sort of a man he is after the thin veneers of sociability have been peeled away.

"We can tell if he is interested in others. We can tell if he is truly concerned about the great religious teachings. We can tell, with some degree of accuracy, what sort of drivers his children will be," Musick said.

The safety manager went on to say that all Christian teachings has been based, to a certain extent on a "show me" principle. It doesn't matter so much what a man says he believes — it's what he practices that counts.

So it is with safety. "When fathers have exceeded the speed limit, eased through stop signs, lied to police officers about excessive speeds, ignore caution signs, they are in fact SHOWING their children what they believe about safety and how they think the game of life is to be played," Musick said.

Christ had a Doubting Thomas who had to be shown. Children of all ages in essence are saying, "Show Me" (how to drive) every time they get into a car.

"Driving can be compared to talk about World War II — sometimes you have the feeling we have talked too much about HOW we won the war instead of WHY. Perhaps the time has come when we apply this test to driving," Musick said.

SALUTING OUR LOCAL ...

BOY SCOUTS

51st ANNIVERSARY

We extend our sincere congratulations to all the Cub Scouts, Boy Scouts, Explorer Scouts and Scout leaders for their contribution in making our community a better place to live. These boys and men can be justly proud of being members of the Boy Scouts of America. This organization, locally and nationally, has done a marvelous job in helping boys to become well-informed, well-adjusted members of our society.
