

LAKESIDE ASSEMBLY FOR WICHITA FALLS

COMMITTEE FROM CONFERENCE LOCATES METHODIST CHAULTAUQUA AT THIS PLACE

JULY 24 TO 31 INCLUSIVE

Location is Permanent One and Will Attract Many People Each Summer.

Lakeside Assembly, the summer chautauqua of the North and Northwest Texas Conferences of the M. E. Church, South, will be held at Lake Wichita July 24 to 31, inclusive. This decision was reached by the committee from the two conferences at a meeting held in this city yesterday afternoon for the purpose of selecting a permanent location for a summer chautauqua for these divisions of the church.

The decision came after a conference with a joint committee from the local church and the Chamber of Commerce at which a written proposition was submitted on behalf of the city, which proposal was accepted during a later session of the conference commissioners. The proposition on the part of the Chamber of Commerce embodies a free use of all the buildings at Lake Wichita during the sessions of the Assembly, together with all the rental derived therefrom.

Immediately after the decision was reached by the commissioners to locate the Assembly here, committees were appointed and the work of organizing for the meeting this summer was begun. It was decided to hold the session this year July 24 to 31 inclusive, and it was the opinion of those in attendance that the occasion should be made a memorable one in the history of such features of the church work.

A number of committees were appointed, some of which could not be secured today as the secretary had returned to his home at Stamford with the list of the names, but the following comprise the more important ones, the members of which will have largely to do with the success of the movement.

General Board of Managers—Rev. J. S. Roach of Bowie, Dr. C. M. Bishop of Wichita Falls, Rev. L. S. Barton of Decatur and William Turner of Jackboro.

Local Executive Committee—T. B. Noble, C. W. Sulder and J. M. Bland. Local Advisory Committee—J. A. Kemp, Dr. J. M. Bell, R. M. Moore, T. L. Toland and W. J. Bullock.

Program Committee—Dr. C. M. Bishop, Rev. R. E. Goodrich and Gus Barnes.

Publicity Committee—Rev. L. S. Barton, S. M. Black and F. H. Day. Rev. L. S. Barton, Presiding Elder of the Decatur District, in discussing the matter with a Times reporter this morning stated that he considered the proposition made by this city a most liberal one and that the location would furnish an ideal site, equal to if not better than that of Epworth-by-the-Sea at Corpus Christi.

"The proposition made by your city is such," said Rev. Barton, "as will enable us to devote all of our available funds to the program and we expect to be able to secure a number of very strong attractions for the occasion." Continuing he said: "We expect to have one of the most successful assemblies of the kind ever held in Texas and I confidently expect an attendance of at least 1000, while some of our people have esti-

HARMON UNABLE TO ADDRESS LEGISLATURE

Austin, March 2.—A personal letter from Governor Harmon of Ohio announces that he cannot address the Texas legislature on account of the present session of the Ohio legislature. The letter was written to his nephew, Geo. A. Harmon, of Dallas, Texas.

Estimated the attendance as high as 2000. These people will spend anywhere from \$50,000 to \$100,000 during the eight days they are here, which will be worth something to the city, besides the educational and moral influences that will be wielded.

In discussing the matter Rev. Barton stated that he desired to call special attention to the work and cooperation of Secretary Day of the Chamber of Commerce, both in behalf of his city and in connection with the work of the conference committee.

Dr. Bishop when asked this morning as to the work accomplished and the plans for the assembly, stated that they were already at work outlining the program for the occasion, but would not have any definite announcements for perhaps a week or ten days. He stated that they had prepared a list of attractions with which correspondence would be had and that they had reason to hope that they would be successful in securing several of the best known lecturers and entertainers in the country. Included in the list are the names of ex-Governor Folk of Missouri, Senator Gore of Oklahoma, Mrs. Ballington Booth, Senator LaFollette and Congressman Morris Sheppard.

Outlining the daily program as contemplated by the committee at present, Dr. Bishop stated that it was planned to occupy the forenoon in a series of courses in the different branches of religious work for which some of the most noted leaders and lecturers would be secured. In the afternoons it is expected that a lecture will be provided, while for the evenings there will either be a lecture or some kind of musical or literary program.

Dr. Bishop is very enthusiastic over the matter, as well as very much gratified at the selection of Wichita Falls as the permanent location for this great movement.

Rev. Barton and Secretary Day of the Chamber of Commerce were busy for a time this morning preparing to begin the advertising campaign as well as outlining plans for carrying out the work proposed in making preparations for the assembly. Among the matters that were being considered was that of securing a supply of tents and cots, it being estimated that at least a car load would be required to supply the demand.

Wichita Falls people may well congratulate themselves on this valuable acquisition, which means a great deal for the city, not so much in dollars and cents perhaps, but in the attractions and influences that it will bring and in the advertising that will accrue to the city as a result. The committees having in charge the work of securing the assembly, both that of the local Methodist church and the Chamber of Commerce, have done faithful work and are due, and no doubt have the thanks of our entire people.

It is now in order for our people, without exception, to co-operate with the Assembly committees in making the 1911 meeting so successful and attractive that it will materially increase the attendance another year and from time to time.

RUBY'S FAILURE TO TESTIFY CONSIDERED

New Trial Granted Because of the Discussion by the Jury White Out.

Judge P. A. Martin left this afternoon for Graham, where he was called to sit in a habeas corpus case. He intends to return tonight and tomorrow expects to close court for the term.

He granted a motion for a new trial in the case of G. E. Ruby found guilty on a forgery charge last week. The new trial was granted for the reason that it was shown that the jury had discussed the failure of Ruby to testify in his own behalf. The courts hold that such discussion is improper and is ground for a new trial.

SHEEHAN IS TO STAY IN RACE

New York, March 2.—"I shall remain as my party's candidate for United States Senator so long as the party desires me to do so, no matter what the personal consequence to me may be. If, however, the majority of all the elected Democratic Senators and Assemblymen shall sign a letter that the Democratic caucus be reassembled and shall designate another than myself shall be chosen to carry the party standard I will give to such candidate my unqualified and wholehearted support."

This is William F. Sheehan's ultimatum in the senatorial situation as expressed tonight in a long letter addressed to the Democratic members of the Legislature. He devoted his statement in the main to the principle of majority rule and defends the regularity of the caucus which nominated him and says that before the caucus he offered to retire if Edward M. Shepard would take the same course.

Supporting his statement that he can not now retire Mr. Sheehan says: "I bear no contractual relations with those who are voting for me; if it be possible to release them the party must do so, but I must be the party candidate."

PLAN EXTRA SESSION AT AN EARLY DATE

It is Believed That Call Will Be Issued for March 20.

Washington, March 2.—Congress has informally received word that President Taft will call an extra session before April 4 unless the senate approves the Canadian reciprocity measure. It is believed that March 20 will be the date selected. The Democrats wanted to wait a month, but the Republicans would be glad to have the date prior to that time.

By a vote of 55 to 23 the senate this morning agreed to take up the tariff board bill today. Attempts were made by Democratic senators to take up the appropriation bills instead of the tariff board measure but the Republicans out-voted them. The Democrats admitted privately that they were maintaining filibuster, which they said would be continued long enough to force a consideration of the appropriation bills.

AMENDMENT TO BE SUBMITTED

OKLAHOMA WILL AGAIN VOTE ON RAILROAD AMENDMENT TO CONSTITUTION.

ELECTION ON APRIL 25TH.

Friends of Measure Says That It Will Carry Without a Doubt This Time.

Special to The Times. Oklahoma City, Mar. 2.—The house of representatives of the Oklahoma legislature has passed by a big vote the senate resolution submitting a proposed constitutional amendment to amend Article 9, Section 9 of the Oklahoma constitution so that railroad building will be no longer barred in that state.

The vote by which the proposed constitutional amendment passed the house was 82 for and 14 against, 12 absent, and Jones not voting. Jones is one of the few members of the constitutional convention serving in the legislature, and refused to vote on the proposed amendment unless he should be granted unanimous consent to explain his vote. This was denied, in the eagerness to get the roll call through. It is understood, however, that Jones favors the amendment.

The amendment proposed Tuesday is approved by the corporation commission and allied labor, so it has been stated in the senate and house; has the backing of the business interests of Oklahoma and the support of every county needing a railroad.

The house did more than pass the resolution. An amendment was added, calling for a special election on April 25, to vote for the amendment. The resolution goes back to the senate for concurrence in this amendment, and will then go to the governor.

Once previously the legislature submitted almost an identical question, which lost on November 5, 1910, although receiving a majority of 27,000 of the votes cast on the question. It failed because of the lack of the vote-casting majority of all the votes cast at the general election held at the same time.

On June 11, 1910, the first article 9, section 9, amendment failed, by a straight majority against it of 35,000 votes. That amendment, however, was written by the railroads and was fought bitterly by the corporation commission, the state federation of labor and nearly all of the state offices. Friends of the measure make the claim that the amendment will carry beyond doubt.

SHAUGHNESSY AND RUSSELL FIGHT DRAW

Pete Shaughnessy of Fort Worth, and "Unk" Russell of Philadelphia, lightweights, went ten rounds to a draw before a large crowd of fight fans in Joplin, Mo., Tuesday night.

Russell is one of the hardest propositions the Fort Worth boy has tackled. This is evidenced by the fact that Russell fought Harry Brewer of Kansas City with even honors a short time ago. Brewer has whipped Shaughnessy.

HAMMON GROWING AT RAPID RATE

Frank Keil, vice-president and general manager of the Wichita Falls Route has just returned from a trip to Hammon, Oklahoma, the present terminus of the Wichita Falls & Northwestern. He says that a heavy snow fell there and that snow covers most of that section of Oklahoma.

Hammon, he reports, is growing at a rate to excite wonder. Ninety car loads of lumber have been shipped into that place since traffic was opened over the Northwestern in January and nearly all of this lumber has gone into the construction of buildings there.

Less than a year ago the site where Hammon is now being built was a bare tract. The town now has about 800 inhabitants and at its present rate of growth will triple this population within less than a year.

CHARTER OPPONENTS SCORE A VICTORY

MORE DETAILS OF WIRELESS TROUBLES

Alleged Improper Use of Mails Leads to Prosecution—Federal Sleuths Working Up Case.

Dispatches in this morning's Fort Worth and Dallas papers give additional details of the arrest of the officials of the Texas Fiscal Agency of the Wireless Telegraphy Company. This agency attempted to secure stock subscriptions in Wichita Falls and offered the Chamber of Commerce a number of propositions which were turned down when the standing of the Texas Fiscal Agency became known.

A San Antonio dispatch in this morning's Fort Worth Record says: John B. Dickinson, manager, and William A. Bomar, secretary of the Texas fiscal agency, with offices at Houston and Soledad streets, were placed under arrest this morning at 11 o'clock by United States Deputy Marshal Holloman. On the complaint of William E. Greenaway, a postoffice inspector, United States commissioner R. L. Edwards issued warrants charging a conspiracy to commit a crime against the United States in the operation of a scheme to defraud by use of the mails in violation of section 5440 and 5480, of the United States statutes. Both men were immediately taken before the commissioner and furnished temporary bonds.

Dickinson in the amount of \$2,000 and Bomar in the sum of \$1,000 for their appearance at a preliminary hearing Monday morning.

For the last three weeks postoffice inspectors have been at work on the case and in that time have gathered a mass of evidence. Greenaway, who is stationed at Louisville, Ky., has been a leading figure in all the raids made upon wireless companies and he stepped in here quietly with Inspector Emmens Rolfe of Fort Worth early in February. Also working on the case is R. C. Clark, an inspector stationed here.

The government's witnesses for the larger part will be residents of other parts of the state. From these have been obtained circulars, copies of the prospectus of the wireless companies, receipts for stock and other documents that will be used in the case. It is not probable that more than four or five witnesses will testify in the preliminary hearing.

Inspectors of the postoffice department will be in the city until the middle of next week at least. If any further action is contemplated it is being kept under cover until such time as the officials believe the public should know about it.

ACTION ENDORSING COMMISSION GOVERNMENT WAS RESCINDED LAST NIGHT.

THE MATTER IS DEFERRED

Question Left Open For Consideration At a Future Mass Meeting.

The movement for a commission form of government and for the adoption of a special charter received a severe setback last night when at a meeting at the Chamber of Commerce a motion prevailed to reconsider the vote of the previous night whereby the mass meeting went on record as favoring a commission form of government and directly opposite action was only averted last night by an agreement by the charter and anti-charter advocates to "drop for the present at least all consideration of the proposed charter as drafted and to call a mass meeting before the matter is again taken up.

Even at the opening of the meeting last night it was seen that something was in the air as the room was crowded and packed. No sooner had Chairman Bean called the meeting to order than the meaning of the presence of the crowd developed. It was there with a determination to defeat the commission form of government. The first move was made by Len Jackson who moved to reconsider the vote of the previous meeting in favor of the commission form. Chairman Bean at first refused to entertain the motion. N. M. Moore, W. W. Robertson and Judge Scurry insisted that the motion was in order. R. E. Huff who entered the room at this juncture said that while he believed the motion was in order according to strict parliamentary rules he did not believe that there was any use in again recalling a vote on the question of a commission government. He pointed out that if the meeting voted against that form of government another meeting might vote another way tomorrow night and so on ad infinitum without accomplishing anything. He said that the whole proposition would finally be passed on by the people at the polls.

Dr. J. M. Bell declared that there was evidence of too much feeling and that the discussion ought to be postponed until a time when there would not be so much feeling in the discussion. Several voices disclaimed any feeling in the matter and there were calls of "question," "question." Dr. Bell declared that while he might be out of order he did claim the right to speak when the interests of Wichita Falls were at stake.

Judge Scurry intimated that the charter advocates were unwilling for a vote when they had not counted noses and found themselves in a majority. Mr. Huff answered that nobody had counted noses either at last night's meeting or at the meeting on the previous night, and that free opportunity had been given to discuss the matter. He disclaimed any disposition on the part of anybody to "crum the charter down the people's throats" as had been charged. He said that the charter advocates were perfectly willing to submit the matter to a vote of the people before the charter was submitted to the legislature. Myra O'Reilly, Judge Felder, Attorney J. M. Blankenship and others spoke and all the time there were cries of "question," "question."

Finally Chairman Bean put the question and the motion to reconsider carried by a large majority. An anti-charter man then moved that it was the sense of this meeting that a commission form of government and the special charter were not for the best interests of Wichita Falls. Before this motion could be put before the house a number of the charter and anti-charter people after a conference advised the withdrawal of the motion and a substitute motion that further consideration of the proposed charter be dropped and that the matter should not be taken up again until a mass meeting of all the people had been called was unanimously carried and the meeting was adjourned with the anti-charter advocates rejoicing over their victory.

VETERAN DIPLOMAT SEVENTY-FIVE TODAY

John W. Foster, One of Best Known Men in Washington Celebrates Birthday Anniversary.

Washington, March 2.—John W. Foster, veteran diplomat, international lawyer, former Secretary of State of the United States, and counselor to ambassadors, ministers and diplomats generally, received the congratulations of a multitude of friends today on the occasion of the seventy-fifth anniversary of his birth. President Taft, former President Roosevelt, former vice president Fairbanks and a host of other men prominent in the official life of the nation were among those from whom messages of greeting were received.

Few men of America today have had a more distinguished career than General Foster and probably none has rendered his country more valuable services in varied capacities. His career is a striking illustration of the success that follows well-directed effort. Born in Pike county, Indiana, he received his education in the State University and the Harvard Law School. He was admitted to the bar in 1857 and pursued his profession in Evansville until the beginning of the civil war. He served from the beginning to the end of the war and was mustered out with an excellent record. He returned to Evansville and a few years later was appointed postmaster, which was his first official position. In the ten years beginning with 1873 he served successively as United States minister to Mexico, Russia and Spain.

During the past quarter of a century General Foster has served the United States on many special missions abroad. To this diplomatic experience he added that of Secretary of State, which position he held during the latter part of the Harrison administration, succeeding James G. Blaine. In official circles he is regarded as the best informed man in the United States, if not in the world, upon the details of the many intricate treaties which have been made by this country and other nations affecting boundaries or matters of internal as well as external concern to the governments of the world.

J. W. Stiff has closed his interests here and will leave today for Benton, Arkansas.

NEW RAILROAD SCRIP PLAN BEGINS APRIL 1

Thirty-Dollar Books Will Be Sold for \$25—Sold Only by Texas Roads.

Houston, Tex., March 2.—To clear up the mass of misinformation that has been going the rounds of the commercial travelers of the State concerning the new money scrip books which are to succeed the old credential books on the railroad, a committee from the commercial travelers' associations has prepared some data regarding the new books, giving information which is declared to be reliable.

The books will be purchasable on and after April 1, 1911, on the railroads of Texas only, and can not be used on railroads outside of Texas. They have been approved by the Texas Railroad Commission and will be good for mileage only. Thirty-dollar books will be sold for \$25.

Commercial travelers will readily appreciate that these books will be of benefit to those who travel in Texas, but will not be satisfactory to traveling men who make adjoining States. Especially will the arrangement be troublesome for those carrying trunks or baggage, which would have to be rechecked at the State border if the book is used.

William J. Rau of the railroad committee of the Order of United Commercial Travelers of America and J. W. Graves and D. W. Michaux of the Travelers' Protective Association have been in frequent consultation with the committee appointed by the railroads, consisting of General Passenger Agents Kennan, Crush and Helten, for the purpose of securing unanimous action among the railroads of the Southwest in the matter of a scrip book which will be good for interstate as well as intrastate passenger travel, but up to the present time the desired unanimity among the railroads has not been secured.

The committees from the two commercial travelers associations feel confident that the Southwestern railroads will within a short time establish this scrip book for use on all the railroads, a book to be sold for about

DECLARES FOREIGN HUSBAND INFERIOR

Mrs. C. W. Fairbanks Thinks Social Fabric of Europe Is Below That of America.

Los Angeles, Cal., Mar. 2.—Mrs. Charles Warren Fairbanks, wife of the former vice president disapproves of the marriage of American girls and foreign men. Coming on the heels of the nuptials of Vivien Gould, and Lord Decies, her declarations are particularly striking. Mrs. Fairbanks has been in Pasadena for several weeks, resting and regaining her health after long tour with her husband around the world.

"I will frankly admit," said Mrs. Fairbanks, "that I do not approve of going to Europe for husbands. I do not think the men they choose as honorable as the men these girls could find at home. Especially is this so in regard to their marital relations. An American girl who marries a foreigner, I think, in a way, has retrograded. She is accepting ideals of life which American men have outgrown for something decidedly better."

"I think the whole social fabric of Europe far below that of America in quality," she said. "Our men in their dealings with women are more honorable and American women are more intellectual."

From the question of international marriages and foreign society, Mrs. Fairbanks switched to woman suffrage. She expressed herself as delighted with the stand California women have taken and the success that has rewarded their labors.

"While I think that holding public office is not compatible with the rearing of a family, I hold that women have an equal interest in the affairs of state with men. You can write me down as a staunch friend of woman," she added laughingly, "and just as staunch a friend of man."

In women's clubs Mrs. Fairbanks is also a firm believer. "Women's clubs differ materially from men's," she said, "and I am truly very proud that it is so. Women organize frankly for self improvement and culture. Their club houses are not merely places for smoking, drinking and card playing."

\$75, possibly \$50. It is expected that the scrip in the interstate books will be accepted for excess baggage as well as mileage, and the committee from the traveling men desire to extend its use to the payment of meals at railroad eating houses and on dining cars. They claim to have convincing reasons for believing that the use of this scrip on the dining cars will greatly stimulate the business of the liners, and as the railroads are anxious to place the dining cars on something like a paying basis, it is believed the railroad passenger officials will gladly adopt the suggestion of the traveling men.

While the representatives of the commercial travelers are unable at present to say when the interstate scrip-books will be placed on sale, they have been assured by the railroad men that all of the railroads in Texas, Louisiana, Arkansas, Oklahoma and Missouri, with two exceptions in Missouri, have agreed to the arrangement. The only thing that is holding up the issuance of the books is the Missouri roads and the passenger officials hope that the matter of the control of these two roads will soon be settled. Failing to secure unanimous action among the railroads of Missouri, the railroads of the four States will issue the books.

The railroads are said to be anxious to have the interstate arrangement installed because it will eliminate the expensive Southwestern Passenger Association necessary now because of the system of credential books in vogue.

PURIFY STAGE BY ORDINANCE

Anti-Profanity League Father of the Proposed Law Says He Counters Naughty Words.

New York, March 2.—Prohibition of profanity and vulgarity on the stage by a city ordinance is being urged upon the representatives of a hundred churches and religious societies. As an instance of loose language in the theatre, A. S. Colburn, president of the anti-profanity league, told the aldermen at its first hearing of a current play in which profane words occur fifteen times. An alderman who opposed the ordinance asked Mr. Colburn if he thought "damn" and "hell" were profane words. Colburn thought they were. "I think not," said the alderman. "I have looked them up in my dictionary and I find no warrant for such a belief."

Colburn added that he had counted "damn" 181 times and "hell" 150 times in Shakespeare's plays. "But, those were ancient times," observed the author of the proposed ordinance.

is good. It tastes good. It does you good as only a pure, unadulterated syrup will. Nature demands sugar. She needs it to carry on her work. Don't try to cheat her with impure, unwholesome kinds. She knows the difference. Your palate will instinctively say Velva is pure because the taste is right. Order from your grocer.

FORT WORTH'S MAYOR WANTS A CURFEW

Says Parents of Children Responsible for Monday Night's Rioting.

Fort Worth, Texas, March 2.—Attributing Monday night's rioting largely to boys and children, Mayor Davis issued a statement Wednesday declaring that if parents of the city do not keep their children off the streets at night the city will take steps to protect itself from further shame through rioting.

To accomplish this a curfew law, if necessary, will be advocated by Mayor Davis.

"Monday night's crowd, which is bringing much unfavorable criticism upon the city," he said "was like a Christmas eve or New Year's crowd, made up largely of young boys and children. If we had taken stern measures with them we would have been severely criticised by the parents of the city. The officers would have been accused of browbeating children and overawing them.

City Injured.
"I want to serve notice on the other hand, that such things cannot go any further. The city already has been injured by the action of the mob. If the parents will not keep their children out of such things, we will take whatever measures are necessary to stop them.

"We were both armed and one shot would have sufficed. After that there would have been no more rioting. Everyone would have had their attention centered on the killing. Of course we didn't do that and that boy, for whom someone is responsible, jabbed the window again and again.

"When people get to destroying property and harming innocent people things have to stop. They have gone as far as we are going to allow them to go in Fort Worth.

Not All Orphans.
"There was too big a crowd of children out for them all to be orphans; there were hundreds of children there who should have been at their homes under the care of their parents.

"The passage of a curfew law means that we will send out the wagon and bring lots of children to the police station and keep them until their parents come after them. That is going to subject us to lots of abuse and is not going to be a pleasant thing, but if the parents will undertake to look after their children we will look after the interest of the city.

Bad Advertisement.
"The occurrences of Monday night went out all over the country. To outsiders the crowd will not appear as it was, but as a mob bent on vengeance upon innocent negroes. I do not doubt that the coincidence of a negro's killing in a private establishment and having no connection with the lawlessness of the crowd, will be coupled with the reports of the difficulty and Fort Worth will be branded as a city in which a negro was mobbed and killed.

"We owe a duty to the city to preserve its reputation and we are going to do it. Stern measures may be necessary, but we will take them. The situation now rests with the parents of the city. If they do not act individually, we will."

Michigan Republicans Meet.
Saginaw, Mich., March 2.—With a large attendance of delegates and visitors the Republican State convention assembled in this city today and was called to order by George P. Coffey of Detroit. The convention is to nominate two candidates for justice of the supreme court, two regents of the State university, two members of the State board of agriculture, superintendent of public instruction, and a member of the State board of education. Nearly all of the present incumbents are slated for renomination.

Terrible Picture of Suffering.
Clinto, Ky.—Mrs. McIlroy, in a letter from Clinto, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. Three of the best doctors in the State said I was in a critical condition, and going down hill. I lost hope. After using Cardui a week, I began to improve. Now I feel better than in six years." Fifty years of success, in actual practice, is positive proof that Cardui can always be relied on, for relieving female weakness and disease. Why not test it for yourself? Sold by all druggists.

TOLSTOI FAMILY IN ROW OVER MANUSCRIPT

Rights to Literary Works of Late Russian Author Being Disputed.

St. Petersburg, Mar. 1.—The Russian newspapers publish daily columns concerning the quarrel in the Tolstoi family, both as to the future of the Yasnaya Polyana estate and as to the right of property in the unpublished manuscripts.

The controversy on the latter subject between the Countess Tolstoi and her daughter, the Countess Alexandra, has developed into a national scandal. Both the principals and their champions, as well as legal experts, flood the newspapers with facts and comments.

The main cause of quarrel is the distinction between copyright in the compositions and the property right in the manuscripts. According to Count Tolstoi's will, his daughter, Alexandra, owns the copyright of all the later works as well as the manuscripts. The Countess Tolstoi has not disputed the will, and says that she has handed over to her daughter all the manuscripts found at Yasnaya Polyana after the count's death.

During Tolstoi's lifetime, however, the countess deposited for keeping in the Tolstoi room for the Moscow Historical museum a number of unpublished manuscripts. The countess admits that the copyright in these unpublished works belongs, under the will, to her daughter, but she claims that the actual manuscripts were a gift from Tolstoi himself to herself, and therefore she refuses to give them up. The Countess Alexandra, on the contrary, claims both the copyrights and the actual manuscripts.

Countess Tolstoi lately arrived in Moscow, and appeared at the museum in order to take copies of the disputed manuscripts. She intended to give these copies to her daughter in order that the latter might make use of her copyright and publish them. The countess says that she did not intend to leave them in safe keeping so as to make sure that they should not be sold to foreigners. Before the countess arrived, however, the museum had received notice from the Countess Alexandra warning them that the manuscripts were her property. The museum authorities thereupon refused the countess access to the manuscripts.

In Moscow there is being printed for the Countess Tolstoi a twenty-volume edition of Tolstoi's works which appeared before 1881. The Countess Alexandra's lawyers have sent a notarial warning to the printers to cease work on the edition.

PURE RICH BLOOD
Marchman's Drug Store Sells a Prescription That Means Vigor, Vim and Vitality.

Because MIO-NA causes the blood to get better and more nourishment it is at all times a valuable tonic. It puts vigor into the muscles, clears up the improperly nourished brain and makes strong nerves that will stand the severest test.

Men who feel that their vitality is slipping away; that the vim and energy that they formerly put into all their work is lacking; that ambitious impulses and clever ideas do not come as they used to—are the kind of men that need MIO-NA.

Besides being a peerless remedy for indigestion MIO-NA is a most pronounced tonic.

If you have that blue, discontented feeling through the day and pass restlessness at night, trying unsuccessfully to get a refreshing sleep, take a month's treatment of MIO-NA stomach tablets, and bring the sunshine into your life.

MIO-NA costs but 50 cents at Marchman's Drug Store and druggists everywhere and immediately relieves all stomach ailments. Guaranteed to cure indigestion, achy muscles, or money back.

Kansas Teachers in Session.
Hutchinson, Kas., March 2.—Hutchinson is entertaining for two days one of the largest gatherings of educators ever assembled in Kansas, the occasion being the annual convention of the Central Kansas Teachers' Association. Foremost among the prominent educators scheduled to address the convention are Dr. Charles H. Judd of the University of Chicago, President R. T. Campbell of Cooper College, S. L. Palmer of Hutchinson, Prof. W. L. Holtz of the Kansas State Normal School, Prof. Raymond A. Schwieger of the University of Kansas, Henry R. Pattengill, former State superintendent of public instruction of Michigan, and George L. Seeley of Sterling, who is president of the association.

Greenville, Texas, March 2.—Will Johnson, a negro, cut his wife's throat with a knife at Wolfe City yesterday afternoon. The negro is perhaps fatally injured. Johnson was brought here and placed in jail.

MEMBER ASSOCIATED PRESS

Wichita Falls, Texas, March 2, 1911.

The time has come when our city ought to be divided into five wards, and an alderman elected from each ward at the election to be held April 4, 1911. A petition can be circulated and a called session of the council to consider the matter. The Times has not been advised on the law, and is not prepared to say whether the two aldermen to hold over can be cut off into a ward each, or whether, under the ward system, five aldermen, one from each ward, will have to be elected at the April election, but believes that under either plan, if legal, that Messrs. Hughes and Richolt will be willing to the change to a ward division of the city.

This would do much at this time to heal any jealousies that have heretofore existed and the city is certainly now large enough to have representation from each of five wards. Each portion of the city would then have voice in municipal legislation. Give us the ward system by all means.

A MISLEADING AND UNJUST REPORT.

Editor Times:
In speaking of last night's mass meeting of citizens at the City Hall, a local paper says of the crowd in attendance:

"The chamber room was crowded with men and among them were the leaders of those who have and are still fighting for the betterment of Wichita Falls, and there were others who might be placed in the column of fault finders, men who only appear occasionally in the councils of the Chamber of Commerce."

Also, the article says: "It was a mass meeting with the evident purpose of check-mating the regular action of the Chamber of Commerce in its decision in favor of a commission form of government that had been adopted by a vote of more than two to one."

This leads the uninformed to believe that the first of Tuesday's night's mass meeting of citizens was nothing of the sort, but on the contrary it was a meeting of the Chamber of Commerce which according to the invitation extended to the public through the president of the Chamber of Commerce, is erroneous and misleading. It was stated explicitly and with considerable force that it was not a meeting of the Chamber of Commerce, but a mass meeting of citizens in which every citizen, whether a member of the Chamber of Commerce or not, had a perfect right to express his views on the matter to be brought up for consideration.

I feel that it is somewhat a delicate matter for me to criticize the report of last night's meeting as printed by that publication, first, for the reason that the manager of the publication was also chairman of the meeting; and secondly, because I am informed that the secretary of the Chamber of Commerce was also the secretary of that meeting and is acting temporarily in the capacity of editor or reporter for the publication in question, and admits that he is the author of the article which reflects unfavorably upon some of those who attended that meeting upon the invitation as extended by the committee who made a draft of the proposed new charter, and also by Mr. R. E. Huff, on the part of the Chamber of Commerce.

If the Chamber of Commerce does not see proper to correct the report as written by its secretary, and as printed by the morning paper, those

who saw proper not to take the same view of public matters as that held by some of our leading and public spirited citizens and members of the Chamber of Commerce, will understand that they are to remain away from such meetings in the future unless willing to come to them with their minds a blank and allow others to do their thinking. And those "who only appear occasionally in the councils of the Chamber of Commerce" will understand that it is only their monthly dues that is desired, and not their presence.

CONSOLIDATION BILL KILLED

HOUSE COMMITTEE FIXES KATY-CENTRAL MEASURE BY REQUEST.

SENATE TAKES HOLIDAY

Several Measures of Importance Reported Favorably by Various Committees.

By Associated Press
Austin, Tex., March 2.—The Senate was not in session today in honor of Texas Independence Day, but the House met as usual.

The House committee on common carriers killed the Texas Central and Katy consolidation bill at the request of its backers, who gave Colquitt's opposition to the measure as their reason.

The Senate committee on senatorial districts placed three pro and three anti on the sub-committee to prepare a redistricting bill.

The House passed the Senate bill for the suspension of sentence for first offenders, and also passed the bill raising the scholastic age, after which it recessed until the afternoon.

Senate committees today reported the following bills favorably:

Compelling street and interurban companies to provide separate and distinct cars for whites and negroes.

Placing all telegraph and telephone companies under the Railroad Commission.

Taxing the intangible assets of corporations for the benefit of cities, road and school districts, etc.

Creating the county of Colburnson out of a portion of El Paso County.

The following measures were unfavorably reported:

Requiring railroads to maintain crossings in fenced enclosures and making it a separate offense for each day's failure to comply.

The House passed the bill for the confederate women's home also to allow daughters of the Confederacy to erect a monument to confederate women on the capitol grounds.

Representative Hunt introduced a concurrent resolution recommending that other states do not meddle with Texas boundaries, intended as a reply to the Oklahoma House resolution to acquire the Texas Panhandle.

Notwithstanding sine die adjournment resolution the regular session of this Legislature may be kept in operation until Gov. Colquitt wills it otherwise. He has not sent in the lists of notaries public, and is not apt to do so, until he thinks the Legislature has completed its work. The House of Representatives, however, is taking its sine die resolution seriously. It acted upon many important measures yesterday, after

THIS DATE IN HISTORY.

- March 2.
- 1776—Congress appointed Silas Deane of Connecticut Commissioner to France.
 - 1791—John Wesley, the famous Methodist preacher and missionary, died in London. Born in Lincolnshire, June 28, 1703.
 - 1836—Texas proclaimed her independence of Mexico and adopted a Republican form of government.
 - 1848—Louis Philippe fled from France to England.
 - 1853—Washington Territory created out of the northern part of Oregon.
 - 1860—Articles of impeachment of President Johnson adopted by the House of Representatives.
 - 1867—Congress passed the Military Reconstruction Bill.
 - 1876—C. W. Wadsworth of Peekskill, N. Y., patented the watch case spring.
 - 1889—The Dominion Parliament rejected a resolution providing for closer trade relations with the United States.

Indulging in a lively scrap over Gov. Colquitt's veto of the daylight bill avoiding a direct vote upon the veto it sent the bill to the Liquor Traffic Committee by a vote of 57 to 55. A two-thirds vote would have been necessary to have passed the bill, notwithstanding the veto. Some of the prohibitionists indulge the hope that they can blow life into the bill by amending it and again passing by majority vote, but this will not be done, although the committee may report an entirely new bill upon the subject and let it go through in the regular way.

Some of the pros are smarting under Gov. Colquitt's criticisms, and that if it is unconstitutional to make a saloon man's contributions to campaign funds grounds for forfeiture of license, because such conditions are not applied to men in other business, then the provision that minors shall not be permitted to enter saloons is likewise unconstitutional.

MISCELLANEOUS

NOTICE TO UNION CARPENTERS. In view of conditions in the building trade in Wichita Falls we wish to state that while there is some work at this time there are at least 25 per cent of our union men now idle and some of the best mechanics in town are among them. Owing to such boosting advertising recently the town is being overrun with men coming here to work and we ask all journeymen to stay away from Wichita Falls until conditions get better. T. W. REFERENDUM IS INVALID

SUCH IS THE OPINION OF THE TEXAS COURT OF CRIMINAL APPEALS.

RULING AGAINST RECALL

Decision Indirectly Involves the Recall Feature of the City Government.

Austin, Tex., March 2.—In ordering that J. E. Farnsworth of Dallas, vice-president and general manager of the Southwestern Telegraph and Telephone Company, should be released from custody because an ordinance adopted by the voters of Dallas regulating telephone rates is not valid, the Court of Criminal Appeals unanimously, but speaking through Chief Justice Davidson, has delivered a notable opinion, holding "the referendum" invalid, the decision being such as to affect every city charter in Texas which contains the initiative and referendum provisions.

Moreover, while the recall provision was not directly involved in this case and the Court does not designate it by name, there are two passages in the opinion which clearly indicate that the Court's objections go to that provision also.

The opinion declares that since the people vested the lawmaking power in the Legislature, they now have no power to make laws themselves, nor has the Legislature authority to delegate that power; nor can it enact laws subject to adoption by vote of the people.

This is true, except where the Constitution otherwise provides, as in the case of prohibition and the adoption of stock laws. The people can reinvest themselves with the lawmaking power only by amending the Constitution, which they themselves adopted.

The Court does not stop here, however. Its opinion is a ringing protest against efforts to alter our form of government, an argument against the proposition that it is feasible to make laws by the direct process.

The Court of Criminal Appeals in this case reaches the same conclusion as did the Supreme Court in its opinion delivered a few days ago affecting the same subject matter, but, as above indicated, it goes much further in elaborating the ideas.

Representative Reid Williams of Dallas, who was the attorney who brought this case to the Court of Criminal Appeals, says that every contention which he made for his client was sustained. Further, he says:

"The Court takes a hard shot at the recall also. I feel confident that if Messrs. Mann and George, who were recalled from the Dallas School Board last year, will wait until the next School Board meeting and assert that they are still members of the board; that the election which was held to recall them was invalid, the court will sustain them in that contention. And, if I was in their place, I would do just that thing."

Senator Collins, who upon yesterday, made some very peppery remarks concerning Gov. Colquitt's opposition to the initiative, referendum and recall, speaking of the opinion today said that it would simply hasten the day when Texas would amend their constitution so as they themselves may take a larger share in their government.

Gov. Colquitt is pleased with the decision, but says he has not yet had time to read the opinion.

"East Lynne" at Ruby.

The last performance of East Lynne by the Benton Co. will be given tonight and if you like this kind of a play be sure and see this as it is an extra good production of this great old play. Many words of praise were heard from those who witnessed it last night. It is finely mounted, much better than the popular priced companies; in scenic environment, furniture, etc.—in fact it was a first-class production and would have done credit to a company playing at much higher prices than the Benton Show.

Ottawa, March 2.—The Earl of Percy, attendant at the Deles-Gould wedding, walked into Ottawa from Montreal on Tuesday. The earl's walk was to pay a wager made in Montreal. The distance is 141 miles and was covered in three days.

STRIKING PRINTERS ORDERED TO WORK

Union Meets and Declares Strike Off by Unanimous Vote, Following Action of Council.

Chicago, Ill., March 2.—At a meeting of the Chicago Typographical Union late today the strike of the compositors on the Examiner and American was declared off. This action was taken by a unanimous vote in response to the order of the executive council of the union, which was brought to Chicago and read to the meeting by J. M. Hays, secretary-treasurer of the union. As the meeting was held late some difficulty was experienced in getting the composing room force of the Examiner restored and organized in time for effective work.

All Chicago papers will resume normal size tomorrow.

Strike Illegal, Says Lynch.

Washington, March 2.—President James Lynch of the International Typographical Union, who is in Washington, gave out a statement tonight in which he said that the strike of printers against the Hearst newspapers in Chicago was unlawful, illegal and irrespective of the outcome, could not be otherwise than disastrous to the cause of union labor. He added that when the members of the International Typographical Union understood the facts they would be unanimous in condemnation of the Chicago demonstration against a publisher of eight union newspapers, The International Typographical Union, he said, would stand for the protection and fulfillment of its contracts and that the members of the Chicago Typographical Union would be the first to take this stand when the real conditions were understood by them.

Failed to Refer Complaint.

Indianapolis, Ind., March 2.—John W. Hays, secretary-treasurer of the International Typographical Union, with headquarters in this city, said today in relation to the strike of the Chicago Typographical Union had exceeded its authority in the matter. It should have, he explained, referred the matter to the International officers before calling a strike, in accordance with the by-laws. The printers had no right was sanctioned by the International executive council. The Chicago men, he said, did not refer the matter to the International officers before calling the strike.

Friberg-Thornberry.

Webster Andree is recovering from a siege of a gripple.

Mr. and Mrs. "Gus" Byman entertained their sons and daughters with their families, and Reg. and Mrs. W. I. Cunningham and family to dinner last Sunday. It was the 42nd birthday of Mr. Cunningham and he never enjoyed a better birthday dinner.

There were 75 at Sunday School at Friberg last Sunday and a fine congregation at preaching service.

Mr. and Mrs. P. A. Eiter of New York City arrived last Sunday night for a visit with Mrs. Eiter's uncles, C. A. and A. J. Andree and families. Mr. Eiter is a telegraph operator in New York City.

We were mistaken last week in stating that Lawrence Johnson returned home. He took supper with Mr. and Mrs. C. O. Quarstrom Wednesday evening.

A second Friberg telephone line is soon to be run from Casper Geyer's residence into Wichita to accommodate new subscribers.

Mrs. M. E. Carey entertained the Ladies' Aid Society of the Friberg church, at her home in Wichita Falls this afternoon, she being a member of the society.

Mr. and Mrs. C. A. Andree entertained Mr. and Mrs. P. A. Eiter and little son and Mr. and Mrs. A. J. Andree Wednesday afternoon and evening.

Little Willie Andree was quite sick Wednesday night.

Mr. Ernest Sampson of Frederick, Okla., spent Saturday and Sunday with Alvin Byman.

Several of our young people heard "The Sins of the Fathers" at Wichita Falls Monday night.

Orlo Andree is a member of the Boys' Corn Club and has his acre of ground plowed. Orlo is a hustler, why not other boys go into this.

The State Sunday School convention convenes at Fort Worth on Thursday of next week and continues over Sunday; Thornberry and Friberg schools should both be represented. It will be worth anyone's time and money to hear Prof. Excell sing and Mr. Roper play the piano. At Washington, D. C., last spring at the International Sunday School convention, Mr. Roper was declared the greatest sacred pianist ever in the city. The writer heard him at the Illinois State Sunday School convention last summer. Besides these two the program contains the names of men and women of national reputation as Sunday School workers. Instruction and inspiration will be gained there that will not be found elsewhere. Do not let this pass.

Scott Webster and Miss Barber of Thornberry were married at the parsonage last Sunday afternoon. They are young people of promise.

Fred Morris, who will be captain of the Wichita Falls Baseball team this year, arrived yesterday to take up the preliminary work for the season.

Today was moving day at the city hall, the Chamber of Commerce headquarters being moved upstairs, while the council room and police headquarters was moved to the room heretofore used by the Chamber of Commerce.

Washington, March 2.—The Fifty-sixth company of coast artillery now at Fort Wadsworth, New York harbor, has been ordered to Fort Crockett, Texas.

Beaumont, Texas, March 2.—H. C. Harris has been appointed justice of the peace for Fort Arthur, vice Resbro, resigned.

The Waldorf Cafe, located in the basement of the new Kemp & Koll building was formally opened to the public last evening by Mr. and Mrs. C. M. Brown. Splendid music was provided for the occasion and a most pleasing service was furnished. Punch and champagne wafers were served especially for the occasion. Those who attended the opening were delighted both with the attractive appearance of the cafe and the excellent menu offered.

"America."

Rehearsals for the big spectacular production, "America" with a cast of 200 characters to be given on the night of March 6 by the Y. M. C. A. are being held each afternoon and evening. The drills and choruses are being brought nearer perfection each day. The proceeds from the play are to be used in furnishing a Y. W. C. A. rest room.

All members of the association are working earnestly for the success of the performance and a number of tickets have already been sold. The program will be published within the next few days.

L. C. SMITH & BROS. Typewriters

ALL THE WRITING ALWAYS IN SIGHT

The biggest order ever placed by any firm or corporation for typewriters for business use because their own mechanical experts, sitting as a jury, said it was unquestionably the best.

They examined all competing makes, tested them under every condition of stress and strain, and voted unanimously in favor of the L. C. Smith & Bros. The Duponts thus rendered you an invaluable service. Lacking mechanical experts of your own you can safely rely upon the decision of these five engineers, at the height of their call, who were willing to stake their professional reputation on the L. C. Smith & Bros. Typewriter.

Many large concerns have already been guided by this expert opinion and have standardized, as the Duponts did, with the typewriter that stood the test. There could be no act more thorough than to standardize decisions.

PLAYS AND PLAYERS.....

William Hawtrov has joined the cast of "Dolly Madison."

Lillian Maud Herri is in vaudeville with a company of Scotch laddies.

William A. Brady will shortly produce a new American play by Edward Sheldon.

Henry W. Savage is to make the production of "The Girl of the Golden West" in English.

Miss Gladie Loftus will soon begin a six weeks' vaudeville engagement at the Coliseum, London.

Winchell Smith is writing a play, which Cohan and Harris will produce. It is called "The Only Son."

Edwin Stevens, who played the Genie in "The Brass Bottle," has joined the cast of "Madame Sherry."

Sallie Stembler has been engaged for the company supporting Victor Moore in "The Happiest Night of His Life."

Elna Goodrich is to appear in an elaborate vaudeville farce comedy act, requiring the services of fifteen people.

"Little Miss Fix-It," the musical comedy in which Nora Bayes and Jack Norworth are to star, will have no choruses.

Robert Loraine is to play the leading role in "Leaves and Fishes," a farcical comedy by Somerset Maugham, in London.

Although Blanche Ring is to have a new comedy written for her, she says she will never retire "The Yankee Girl" from her repertoire.

At the head of a vaudeville company Vesta Victoria is to make a tour of the world to last ten years. She will begin her Canadian tour on March 6, at Ottawa.

Cyril Scott, who has been playing in "The Lottery Man" for two seasons, is reading new plays with the expectation of appearing in a new role this spring.

Douglas J. Wood has been engaged to play leading roles in W. S. Gilbert's "Pygmalion and Galatea" and "Palace of Truth," on tour under the direction of Ben Greet.

Miss Margaret Wycherly has recently been engaged by Leibler & Co. as principal comedienne in "The Backsliders," by George Egerton, in which Annie Russell will star.

Wright Lottimer is planning an open-air amphitheatre in New Jersey, where he will present biblical and classical plays. This amphitheatre will be cut

out of the rock of a hill near Mr. Lottimer's summer residence.

Hartley Manners is writing a little play for Charlotte Granville, who came to this country with Weedon Grossmith and who made a personal hit in "Mr. Preedy and the Countess."

Gertrude Fowler, a member of the original "Man of the Hour" company is a magazine writer. She adopted the nom de plume of "Fitz," under which she has written poems and articles.

Not An Experiment

Paul Lick, Ky.—Mrs. Mary Freeman, of this place, says: "Before I suffered so much from womanly trouble, I was so weak that I was down on my back nearly all the time. Cardui has done me more good than any medicine I ever took in my life. I can't possibly praise it too highly." You need not be afraid to take Cardui. It is no new experiment. For fifty years, it has been found to relieve headache, backache, and similar womanly troubles. Composed of gentle-acting, herb ingredients, Cardui builds up the strength, preventing much unnecessary pain. Try it for your troubles, today.

Henry Marion Howe.

Henry Marion Howe, the distinguished metallurgist whom Oxford University in England has decided to honor with a degree, was born in Boston, March 2, 1848, the son of the late Julia Ward Howe. He graduated from Harvard in 1869 and from the Massachusetts Institute of Technology in 1871, taking his course in mining and metallurgy. For some years after leaving college he was engaged in the Bessemer process of steel manufacture in Troy, N. Y. Later he devoted himself to the investigation of copper mines in Canada and in Chili, after which he was appointed to a lectureship in the Massachusetts Institute of Technology. Professor Howe made this lectureship so important and invested it with so exceptional an expansion of knowledge and scientific inquiry that it attracted the attention of scientists in both America and Europe, and led to his appointment in 1897, to his present position as head of the Columbia School of Mines.

HERE IS SOMETHING VERY FINE IN VEGETABLES!

If you have been watching the trend of events in food-stuffs during the past year or two you will notice that fresh vegetables are giving way largely to the canned variety, and there is good reason for this.

It is almost impossible even with the greatest of care to prevent fresh vegetables from becoming wilted and thereby losing their quality, while in the canned variety the fresh vegetables are taken from the field or garden and placed immediately in the can, thus retaining their freshness intact for you. Then also you get them just as they are ripe or ready to be picked and they are prepared in the most appetizing and sanitary way.

Sweet Potatoes are the latest vegetables to take the canned route and

"Spongy Sam." "Early Settlers." (Pioneer Days in Minnesota.) "His Mother's Thanksgiving." SONG. "I've Got Your Number." By Gilman.

SICKNESS IN EARLY SPRING At this time we have changeable weather which means bad colds and hosts of other aggravating troubles which are not serious if they are properly taken care of, but often develop into pneumonia or other serious illnesses. The housewife wouldn't think of going through the summer without her spring house cleaning. No doubt your system needs cleaning and renovating even more; one of our spring tonics or blood purifiers will do the work.

ITS TIME The old song of pure, fresh drugs, registered and pedigreed pharmacists and drug store service that is heavenly was being set to new music. We carry a middling fair line of Pharmaceutical junk just about the same as the other poor deluded freaks who in early life contracted an assortment of spells that the home remedies would not reach and putting away childish things made for a drug store. That mouldy line of lug house nonsense about the noble profession and the love of science is a joke. Give one of these hollow-eyed slaves of the mortar and pestle enough of the filthy lucre to pay for three hots a day, and a place to snore for the rest of his life and he'll shake the noble profession like a bachelor would a baby show. We've been throwing bottles at the wall for all these years but we'd still rather go fishing and listen at a screech owl quarrel at his wife than to spend the sixteen hours per equally between selling stamps, hunting the city directory and trying to explain that this pill emporium is not a charitable institution for benefit of the down and out club. We carry several things usually found in a drug store. We are just common druggists. PALACE DRUG STORE Corner 8th and Wall.
