NUMBER 61.

CHAIRMAN BALL CONCEDES ANTIS HAVE WON BY 5,000

Chairman Wolters in Statement Issued at 10 A. M. Claims that Antis Have Won by Ten Thousand Votes

CONTEST IS PROBABLE

Conference of Pro Leader Will be Held Soon to Determine What Action Will be Taken

(Bulletin)

By Associated Press. Houston, 10 a. m.—Chairman Wolters claims antis have won by 10,000.

(Bulletin) Dallas, Texas, July 24.—According to unofficial returns this morning antis are still in lead under 4,000. Among morning papers opinion is general that antis will win by close majority, though late returns may swing election.

(Bulletin)

By Associated Press. Houston, Texas, July 24.—At ten o'clock this morning Chairman Ball, of the statewidens, concedes antis win by 5,000. He charges fraud and will probably contest.

(Bulletin)

By Associated Press. Dallas, Texas, July 24.—The anti majority in the Texas prohibition election was 4,387 at 1:45 o'clock this afternoon, according to nearly complete, but unofficial returns to the Associated Press. The anti vote totaled 230,136 and the pro vote 225,749.

In these returns three counties are missing and twenty-three incomplete. Those missing are: Bexar, Chambers, Harris, Houston, Jasper, Presidio, Sabine, Dawson, Exter, Floyd, Jones, King, Lamar, Limestone, Marion, Parmer, Rusk, San Augustine, Wheeler, Travis, Trinity, Liscomb, and McMillan. The missing counties are well scattered in the wet and dry portions of the state.

The foregoing bulletins summarize the latest information received here concerning the result of the statewide prohibition election received here. According to Associated Press dispatches received at noon the wets maintain a slender lead of 5,000 votes and it is believed the remaining few thousand votes unaccounted cannot change the general result. The boxes yet to be heard from are mostly sparsely settled sections remote from all communication.

Many pros however, are still hoping that the official count to be made from the counties over the state to-morrow will change the result. In this they have some foundation for hope from the Dallas News report which this morning was as follows: For prohibition 225,533; against prohibition 226,923, gaining an anti majority of 3,400. The News says: "The total unreported vote probably will not exceed 22,000. It being indicated that the total vote polled was 475,000 which is the largest vote ever polled in Texas except in 1896, when 554,000 votes were cast.

"A survey of the territory not yet reporting, which is well scattered over the State, indicates that the returns yet to come hold about as much promise for one side as the other and the result may be put down as doubtful, but slightly more in favor of the antis than the pros.

The Fort Worth Record claims the amendment has been defeated by a majority of from five to six thousand votes.

The Record says: "The estimate is based on complete and incomplete returns from 231 counties. The counties from which no returns have been received have, according to poll tax reports, not exceeding 5,500 votes.

Returns received give, for the amendment 223,748, against 226,999 showing a majority of 3,251 against. To this is added an anti majority of 1,993 in seven counties which reported majorities and did not send the vote for and against. This gives a total majority of 5,244 against the amendment.

"The counties from which no returns have been received and which have a total vote of approximately 5,500, will give, according to the Fort Worth prohibition headquarters, a prohibition majority of about 700. This, however, will in all probability, be more than overcome by complete returns from a number of South Texas counties from which only partial returns have been received, leaving the final result as estimated above."

The Record, however, accounts Wiltbarger county as having given an anti majority, while as a matter of fact it went nearly 400 dry. Chairman Wolters claims the state by 8,000 or more but in this statement he includes Young county among the wet counties, while it gave something over 700 dry majority.

In these returns three counties are missing and twenty-three incomplete. Those missing are: Bexar, Chambers, Harris, Houston, Jasper, Presidio, Sabine, Dawson, Exter, Floyd, Jones, King, Lamar, Limestone, Marion, Parmer, Rusk, San Augustine, Wheeler, Travis, Trinity, Liscomb, and McMillan. The missing counties are well scattered in the wet and dry portions of the state.

Returns By Counties.

Table with columns: County, For, Against. Lists counties like Armstrong, Angelina, Aransas, etc., with corresponding vote counts.

COL. TOM BALL ADVISES DELIBERATION OF ACTION

Whether Election Will Be Contested is to Be Determined by Conference of Pro Leaders.

Special to The Times. Houston, Texas, July 24.—The following official statement was given out at 11:30 o'clock this morning by Chairman Ball of the statewidens.

"Complete returns will likely show the anti majority less than 5,000 votes. The law passed by the last legislature provides for the contest of an election by either side if they are dissatisfied with the result, through fraud, illegal voting or irregularities that effect the result. Of course I am not in a position to say whether or not the pros will contest. That can only be determined by a conference with friends of the cause. I am sure, however, the question will be taken either to the courts or back to the people, as it can be again submitted, which can be done at any regular session of the legislature.

"It appears from reports received that large numbers of negroes and Mexicans and a large element who do not pay poll taxes have used poll tax receipts paid by themselves or paid for them by others, and that the election results thereby have been determined adverse to statewide prohibition.

"Local prohibitionists have voted larger majorities for statewide than for local prohibition, as we claimed. I advise deliberation of action and that the pros consider and proceed to solve the great question of how the constitution should be changed with patriotic and thoughtful purpose."

Table with columns: County, For, Against. Lists counties like Calhoun, Chambers, Cherokee, etc., with corresponding vote counts.

Miss Blanche Scott at the Wheel of Her Balwin Biplane

Miss Scott, who hails from Rochester, N. Y., and who has driven an automobile across the continent, has achieved the distinction of being the first woman in America to drive her own aeroplane across country. At a height of 500 feet she flew from the Mineola, Long Island, aviation field, where she does all her flying, beyond the village of Westbury, travelling over forests, telegraph wires and buildings, and covering twelve miles in ten minutes.

ANTI MAJORITY IN COUNTY WAS 66

City of Wichita Falls Gives Net Majority of 140 for the Antis—Eight Boxes Dry.

Wichita county gave the anti a majority of 66 votes in Saturday's election. The pros carried eight out of the twelve boxes in the county, but the pro boxes could not overcome the majority of 175 votes given the anti at the city hall box in Wichita Falls. The four boxes in Wichita Falls gave a net anti majority of 140.

Thomas Hopkins Clarke Dead. By Associated Press. Nashville, Tenn., July 24.—Thomas Hopkins Clarke, 52 years old, assistant managing editor of the Nashville Banner, died here yesterday of heart disease. He was the son of Beverly I. Clarke, former congressman from the Third Kentucky district, and was born in Guatemala City, Guatemala, while his father was serving as United States Minister to that country.

STATEWIDERS TO MEET IN FT. WORTH SATURDAY

Meeting of State Executive Committee Called by Chairman Ball to Discuss Future Action. By Associated Press. Fort Worth, Texas, July 24.—A meeting of the statewide executive committee has been called for next Saturday in Fort Worth to discuss the recent election, the forthcoming session of the legislature and plans for future prohibition campaigns. The meeting was called by Chairman Ball.

INSURRECTO-POLICE CLASH IN JUAREZ

ONE FATALLY INJURED AND ONE WOUNDED IN FIGHT WITH POLICE.

BLANCO STOPS FIGHTING

Trouble Started by Argument Between Soldier and City Commissioner Dolores Martinez.

El Paso, Texas, July 24.—One dead, one fatally injured and a third man badly wounded is the net result of a battle between the police and a small bunch of insurrectos on the streets of Juarez yesterday. Barillo Hernandez, an insurrecto soldier, engaged in an argument with Dolores Martinez, present Street Commissioner of Juarez, in front of the Martinez residence, about 3 o'clock. He was asked to move on and replied by firing a pistol at Martinez, who ran into the house, procured a rifle and shot the soldier through the head, killing him instantly.

MCGLOSSON DAMAGE SUIT NOW ON TRIAL

The case of H. C. McGlosson vs. the Wichita Falls Traction Company was begun in the district court today and the jury to try the case is being selected this afternoon.

CRAZY EATING AND NOT STRENUOUS LIFE

Filling Insane Asylums According to Inmate of Insane Hospital at Milledgeville, Ga.

By Associated Press. Atlanta, Ga., July 24.—Most cases of insanity are caused by indigestion; the only way to cure indigestion is to abstain from eating, therefore, inmates of insane asylums should be starved for a certain period when they are first admitted, is the reasoning of W. Leroy Jones, who is an inmate of the insane asylum at Milledgeville, Ga., but who asserts he is not sane. Jones declares he is staying at the institution to study those who are afflicted with mental disorders and he believes he has a cure for dementia. In a letter to a newspaper he writes in part as follows: "Over eight years ago, I was sent here for eating morphine and cocaine and have stayed on to make a close personal study of lunatics. Most any case of insanity is the result of indigestion in some form and as fasting is the only thing so far known that will cure indigestion, in like manner, it is the only thing that will cure insanity."

DEMOCRATIC ATTITUDE ON STATEWIDE ISSUE

By Associated Press. Owensboro, Ky., July 24.—Urey Woodson, secretary of the National Democratic executive committee and editor of the Jonesboro Messenger, predicts in an editorial in his paper that the Kentucky Democratic convention will emphatically reject statewide prohibition, but will "unquivocally declare in favor of a uniform local option law with the county as the unit."

ASSEMBLY GUESTS ALREADY IN CITY

SCORE REACH CITY TODAY FROM MANY POINTS IN NORTH AND NORTHWEST TEXAS.

THE QUARTETTE TO-NIGHT

Southwestern University Singers Will Open Assembly Program With Concert.

Scores of people from many points in Northwest Texas arrived on the afternoon trains today for the opening of the Lakeshore Assembly which opens tonight at the Colonade at Lake Wichita and will continue in session until next Monday. The opening program will be a concert by the Southwestern University Quartette.

SAID TAFT WANTED LORIMER ELECTED

Edward Hines Declared that Representative Boutell Assured Him of Taft's Support.

By Associated Press. Washington, D. C., July 24.—Edward Hines, of Chicago, caused a sensation today by testifying before the Senate Lorimer investigating committee that Representative Boutell of Illinois now American minister to Switzerland told him President Taft regarded Lorimer as an acceptable senatorial candidate and was anxious to have Lorimer elected and would assist in his election.

POPE PIUS III.

Rome, July 24.—Pope Pius is suffering from a severe cold and sore throat. His physicians order him to cease audiences. It is believed His Holiness will be restored after a few days rest.

THURSDAY 29th.

### A SUGGESTION

This kind of weather suggests W. L. DOUGLAS LOW CUT SHOES keep your feet cool, and you'll be healthy and happy. We have a complete line of sizes any widths in up-to-the-minute styles.

Prices \$3.00, \$3.50 and \$4.00

## The Globe

Clothiers and Furnishers

703 Ohio Avenue

### NEXT TO A GOOD FRIEND

Comes a really good Pocket Knife. The kind that is "There with the goods" when wanted. It must have blades hard enough to hold a keen edge but not so hard that they will snap off under severe use.

The Diamond Edge Pocket Knives.

exactly "All the bill." Every one fully warranted. Prices from 25c to \$12.00.

### Maxwell Hardware

721 Ohio Avenue

### Dorothy Whitney and the Man She Will Marry

New York, July 24.—Harry Payne Whitney announced the engagement of his sister, Miss Dorothy Payne Whitney to Willard D. Straight, of Oswego, N. Y., formerly United States Consul General to Mukden Manchuria, and at present connected with the Morgan, Kuhn, Loeb and National City Bank alliance.

The wedding will take place in the fall and is expected to be an elaborate affair, befitting a young woman who is worth more than \$6,000,000, in her own right. It will follow a romantic courtship, which began in China, where the young people met several years ago when Miss Whitney was making a tour of the world. Young Straight is said to have once been refused the hand of the daughter of E. H. Harriman, the railroad wizard who died a year ago.

### Body of Infant with Skull Crushed Found in River

Swept from its mother in crossing the swollen current miles up the stream probably or else foully murdered and thrown in the river to hide the crime, the nude body of an eight-month-old white female child was found floating in the Big Wichita River about six miles below the city Sunday morning by John Krajca. Mr. Krajca saw the body slowly drifting downstream a few feet from the shore and getting a stick succeeded in towing the body ashore. With the assistance of his brother, Frank Krajca, the decomposed body was loaded into a wagon and brought to the city where Justice W. E. Brothers held an inquest.

A British army captain, Fred W. Packer, who has been for a number of years employed in the diamond mines of South Africa came to Texas recently and has been prospecting for diamonds in Montgomery county in Southeast Texas. (The stone has been unearthed weighing more than two carats, which while it has no commercial value, is proof, so Capt. Packer, believes, of the existence of a diamond mine in Texas. Capt. Packer has employed a force of men to follow up his discovery and declares that the continual appearance of "indicator" stones such as are thrown up in volcanic disturbances is proof of the presence of diamonds.

Dr. Coons was called in to examine the body. He found that the whole top of the infant's skull had been crushed in above the right eye evidently with some blunt instrument. Both eyes were bulged out of their sockets and the cartilage of the nose was crushed down. Dr. Coons believes that the body had been in the water from six to eight days and it was impossible to tell whether the skull had been crushed in before or after death. Both Dr. Coons and Justice Brothers are of the opinion that the child was murdered and thrown into the river, although both of them believe that it is possible that it may have met its death by drowning. Dr. Coons says that the body was perfect physically and believes it must have been fully eight months old.

No reports of any drownings up the river recently have come in but it is possible that a body could have floated down from a distance of thirty or forty miles while the stream was at a flood tide a week or ten days ago. It is possible that the wounds found on the infant's body could have been inflicted by its being dashed against a rock or other obstacle or crushed by the debris on the swollen current.

Death of R. M. Wilson. Mr. R. M. Wilson, father of Mr. G. N. Wilson and Mrs. L. E. Gage, died last night at the home of Mr. and Mrs. L. E. Gage, 1605 Burnett yesterday at 5:20 p. m., aged about 83 years.

The remains were prepared and shipped to Comanche, Texas, where they will be interred this afternoon. Mr. G. N. Wilson and Miss Eliza Gage accompanied them.

Archaeological excavators in Sardinia recently unearthed the remains of a town of the Bronze Age.

# One Week's Continuation

We are glad to say that our ANNIVERSARY SALE has proven highly satisfactory, and to maintain our reputation of price-making, we will continue one more week to make EXTRA SPECIAL prices on many seasonable articles of merchandise.

Many choice patterns in figured batiste and lawns, worth 12 1/2 to 16 1/2 cents, to close at the yard ..... 10c

High grade new mercerized ginghams and tissues, worth 50c, to close at 25c

Fine quality figured batiste and lawns worth 25c and 35c, to close at the yard ..... 15c

500 yards embroidery and insertion, remnant lengths up to 3 yards in a piece, to close at ONE-HALF PRICE 500 yards SUMMER SILKS, cotton and silk foulards, worth up to 65c to close at per yard ..... 33c

### THE CANDLE STICK MAN THEME FOR SERMON

Southwestern University Quartette Sang at First M. E. Church, South, Yesterday.

There were five additions to the membership of the First M. E. Church, South, yesterday. Four were received by certificates, and one was received by baptism and vows. One infant was also christened at the evening service. The Southwestern University Quartette sang to the delight of the large congregation at both morning and evening hours. These men have well trained voices, and they blended together beautifully. Those who heard the quartette on yesterday will be sure to hear them in their full program at the lake to-night.

Rev. O. T. Cooper, the pastor, preached at both hours yesterday. The sermon theme at 11:00 a. m. was "Jesus Christ, God's Best Gift to Man." At the evening hour he delivered the second sermon in the "Gospel Characters" series. The subject was "The Candle Stick Man." He showed that the candle stick man was a type of Christian who stood forth as a living witness to the regenerating power of Christ, and as an example to others as to how this power should be used. That the Christian life was a life aloft. Such a life is ever ascending. From its lofty altitude it gives forth a light which shines into dark corners and dispels darkness. Its light of grace drives out the fear and guilt and power of sin.

Rev. Mr. Cooper announced that all services at the First Church during the week would be dismissed. The members were urged to attend the Lakeshore Assembly, which begins with the program tonight. The woman's Home and Foreign Mission Societies of the church here have established a "headquarters" tent at the lake and cordially invite their friends to visit them at their headquarters. While the Assembly is under the immediate direction of the M. E. Church, South, yet it is understood that everybody will be welcome and that the program is intended to furnish instruction and entertainment for all.

Germany is making a test on a large scale of oil engines for warships.

### MRS. CELESTIA GASTON DIED SUNDAY MORNING

Mrs. Celestia Gaston, aged 52 years, wife of Dr. Joseph L. Gaston, died at her home, corner Seventh street and Scott avenue at 9:15 o'clock Sunday morning after a lingering illness of many months.

Mrs. Gaston has been a resident of Wichita Falls a little more than a year and while she has been ill the greater portion of the time she has made many acquaintances and friends.

The family came here from Cleburne and previously had lived at Bowie for fifteen years, where she was held in the highest esteem. Her husband and four children survive two daughters, Hazel and Edna and two sons, F. A. and H. W. Gaston, all of whom live in this city.

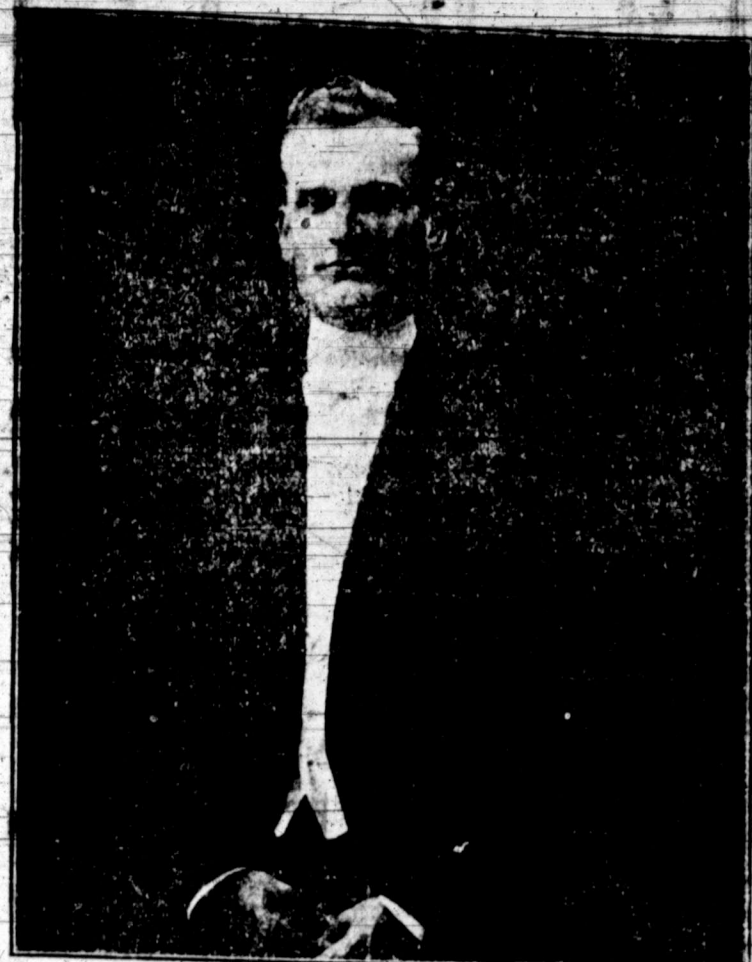

The funeral services were held at the family residence at eleven o'clock this morning. Rev. W. A. Stuckey, who was pastor of the Methodist Church at Bowie, when Mrs. Gaston lived there, officiating.

Every Month Near Death. Foster, Ark.—Mrs. Fannie Ellis, of Foster, Ark., says: "I was sick for seven years and half the time could not stand on my feet. Every month I was very near death. I tried Cardui and in two months, I was cured, and am now stout and healthy. My friends all ask me now what cured me. My look are a testimonial to Cardui. No matter how serious or long-standing the trouble, Cardui will help you. It is a mild, vegetable, tonic remedy, especially adapted to relieve and cure the common womanly ailments. It relieves womanly pains and restores womanly strength. Try Cardui."

Miss Mary Drier, the well known president of the Women's Trade Union League of New York, who is in charge of the arrangements being made for the striking of girl workers on fancy leather goods. If the strike is one of its features will be the many prominent and wealthy women who have pledged themselves to act as pickets for their struggling sisters.

## UNCLE SAM MAKES FAKES TO ORDER

At National Museum Genius Manufactures Imitation of Almost Anything.

Washington, D. C., July 21.—Fakes made while you wait! The government ought to be ashamed of itself, but instead of that it remains a man especially to perpetrate them. It is not near-faking either, the government work is exacting and when the duplicate specimens are completed there is no telling which is the original and which the imitation. There are probably few men of similar calling in the world, and fewer still who are as clever in that line.

The National Museum has dug up a son of Wizard Jack Handley, who in his day was the premier imitation man of the United States, and they now keep young Will Handley busy all the time making something look like something else. It seems to be a peculiar gift, and is valuable in a museum. He works chiefly in plaster, making casts of anything and coloring them so they look like the original and he seems able to reproduce a counterfeit of anything from the raw oyster to a stone idol. There are a good many tricks in the trade that have been handed down from father to son, such as reproducing the bloom of a peach by scraping an apple to get the vegetable wax that will make the surface of a plaster apple look like the original fruit.

But there is a personal equation in the work also that could hardly be acquired—that is, the color tints that will see red, brown and green in an old piece of weather-beaten wood where the ordinary observer would see nothing but gray. It is a fact, too, that young Handley's memory for color is almost uncanny. He seems to carry a color scheme in his head, and most people would remember a time. One incident of this sort will illustrate. Some time ago he was in St. Louis. There was a private collector there who among his stone imitations had a stone ax of which he was very proud. The museum wanted a duplicate and a cast would do as well as an original. Handley made a model from which he could make a plaster cast but the collector would not allow

the stone ax to go out of his possession. So Handley carried the mold back to Washington, made a couple of casts and colored them, giving them the stone surface of the original. This was about a fortnight after he had seen the ax. One of the casts was added to the museum collections and the other he sent back as a compliment to the St. Louis collector. The latter wrote that when he put the imitation and the original together he could not tell which was which except for the weight.

"The way in which the surface of the plaster casts can be worked up to resemble sandstone, quartz, flint, jade and volcanic glass is remarkable. There is one whole case full of prehistoric implements in the corridor of the new museum building that are wonderfully interesting specimens. Some with the mud and dirt still in the grooves as when they were dug up. And the interesting part of it is that they are all plaster imitations, but even an expert ethnologist could not tell it except by handling them.

There are always new problems coming up in the curious art of making something out of something else. One of the features of the big theological collection that is now being installed in the hall of the new museum building is a series of groups. These include the various families of man: There are Patagonians, Hawaiians, Eskimos, all sorts of Indians, a family of Igorotes and altogether about twenty groups. Each of them is shown engaged in some characteristic tribal work. The Eskimos are fond of making snow that looked like real snow. Handley was faced with a problem. He said he was puzzled over it till he saw the cock doing some laundry work at home, and then he saw just how he could get the right surface with a hot iron and paraffin. He drew on the domestic economy for the color of the old ice, too. Having it very faintly with laundry blue, and for the sparkle on the snow he drew on the house, too for he got it out of a sugar shaker. But the finished work is perfectly realistic, and that home-made snow would give any one child-blains.

cial stone ten feet across from the Temple of the Sun in Mexico. No body would think for a moment that it was not the original stone, but as a matter of fact, it is all plaster, cast in sections and put together, around a circular wooden framework. It was more or less chipped and cracked in removal but Handley has worked it over until the "stone" is if anything rather better than new, even to the aged weather marking of the surface.

If there is anything the museum cannot get in the original form a rare tribolite to a Corinthian fresco, it can turn Handley loose with the original, and he will make an imitation that would fool an expert. It is a curious trade, this legitimized faking, and the only reason for not extending the account and telling of some of the other remarkable things that have been done in the venerable institution is to prevent the impression getting abroad that there is nothing genuine on exhibition there. The genuine largely outweighs the imitation antiquities, but there are few antiquities wanted that cannot be made while you wait.

Believe With the Heart. There are so many little phrases in the Bible that men pass as merely words, and yet contain the deepest doctrines of life. Here is one: "For with the heart man believeth into righteousness." etc. We are so apt to think it is all important to believe with the mind, but that sort of belief will not stand the racket. The origin of truth is intuition, the spirit, the heart, the emotions. God does not talk to a man through his mind, but through his heart, which is the seat of all life, purpose, aspiration.

Miles of Desolation. Fire waste in the United States and Canada is about ten times that of Western Europe, writes Powell Evans in the Survey. It averages broadly \$250,000,000 yearly, with \$150,000,000 added expense for protective measures imperatively demanded by the great, continuous and increasing loss.

The 1910 fire waste would pay the total interest bearing debt of the country in four years; or would build the Panama canal in less than two years. In other terms, it exceeds the combined cost of the United States army and navy and the interest on the national debt; or nearly equals the combined annual failures and pension payments in the United States; or exceeds the combined United States gold and silver production and postal office department receipts—these all annual figures.

If all buildings burned last year in the United States were placed together on both sides of a street, they would make an avenue of desolation reach from Chicago to New York, and although one seriously injured person were rescued every thousand feet, at every three-quarters of a mile a man, woman or child would nevertheless be found burned to death.

Our idea of a true friend is one who will listen to your talk when you don't say anything. A woman can dress to look cool in hot weather, but it's mostly a bluff. When in doubt it is sometimes best to sidestep your doubt and go ahead.

Robatch's Mineral Water. is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretions of the stomach, increases digestion and favors a more complete absorption of the food, and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Robatch, Owner. Phone 1601-1 long-4 shorts.

## Texas Industrial Notes

Texas Leads in Good Roads Movement. At the Interstate Good-Roads Convention of Maryland which meets next week, Texas road building will be exploited and Texas will be held up to the convention as a leader in this feature of development.

Mr. G. Grosvenor Dawe, Managing Director of the Southern Commercial Congress of Washington, has wired the Texas Commercial Secretaries and Business Men's Association, asking for information about Texas Good Roads and the Association has sent a large quantity of literature showing how Texas builds roads, for distribution at the Maryland convention.

Texas is leading all states in the Union in the good roads movement.

Peanut Warehouse. The Texas Nut Company at Denison is erecting a large peanut warehouse that when completed will hold 30,000 bushels of peanuts. The warehouse is over a hundred feet long and fifty feet wide and will be constructed of galvanized iron and will be fireproof.

Indications are that the peanut crop will be the largest in the history of the state this year. The average has been increased 500 per cent over last year and the peanut is fast taking rank as a leading commercial crop of the state.

Austin Dam to Be Rebuilt. The million and half dollar dam across the Colorado River near Austin is to be rebuilt at an early date. The city council has accepted the proposition of the Johnson Contracting Company and the matter will be referred to the voters at an election early next month. The citizens of Austin are jubilant over the prospects

of having the dam reconstructed and there is little doubt but that the election will be carried by a large majority.

The Austin dam is the largest dam in the world across a stream, and the first dam gave away a few years ago due to an unsound foundation.

Texarkana to McKinney Highway. The public road committee of the Texarkana Board of Trade is making an effort to have the road built running from Texarkana to McKinney to connect with the Red River to the Gulf Highway. The road from Texarkana to McKinney is practically half built at present and it is the intention of the committee to get the cooperation of the secretaries and county judges in the intervening counties in order that the other half may be improved, and letters have been sent out on the subject asking the cooperation of all citizens of the counties interested and a meeting will probably be held in the near future to decide what action will be taken in the matter.

M. K. & T. Improvements. The Missouri, Kansas & Texas Railway has had sixty thousand dollars worth of bonds for improvement purposes registered with the Secretary of the State, which will practically cover the cost of building fifteen miles of new line to be constructed out of Merizon.

This company has also asked the Railroad Commission to authorize a valuation of \$228,249 for the new branch line. An engineer will be sent out to inspect the road and if the valuation requested is authorized, the company will ask to issue bonds for the full amount.

## STRANGE SIGHTS ABOUND.

The Yard of a Motion Picture Plant Harbors Many Scenes.

The yard of a motion picture plant in Brooklyn has seen strange sights, says the New Age. It has been the lists of Camelot and the palace of King Arthur, the French streets in Les Miserables, and the Paris of a tale of two cities, a street in Venice, the scene of Noah's shipbuilding, the Egypt of Moses and the South of Uncle Tom's Cabin.

More than once have the battles of the French revolution been fought in the sight of the Brighton beach Elevated Railroad and in a concrete tank floats a row boat that has never made a longer journey than the fifty foot boundary of the artificial lake. In turn it has been the barge of the Doge of Venice, a fisherman's skiff and the war canoe of some heap big chief. It has borne Kaline to Arthur's court and in it Washington has crossed the Delaware.

Another production was the deck of the Honne Home Richard used in the story of Paul Jones. No modern ship chandler supplied the fittings of the deck. Some came from the antiquarian and others were copied from exhibits in the museum. The battle was a practical reproduction that required several weeks to build up the details.

Yard landscapes are quickly built when it is not possible to find appropriate spots, or when the architecture of the period or country are so entirely different that painting is necessary. It is manifestly impossible for instance to borrow Noah's ark, but one was built in one studio and the animals from the winter quarters went in two by two precisely as happened once upon a time.

Sometimes the interior work is done for other reasons, one interior was built because there were children in the picture and they would be less self-conscious in the studio than out of doors. For the same reason a mob scene was handled under glass, or rather to avoid the distraction of the field work for it was not so long ago that a field company had several hundred feet of film ruined because the superior soldier would not die as the stage manager told them but insisted on staying alive until they had shot off every cartridge in their guns.

Miss Edith B. Kane, daughter of Mr. and Mrs. Grenville Kane of Tuxedo Park, whose engagement to George F. Baker, Jr., a prominent banker of New York, has been announced. Both families are prominent in society.

Governor Judson Wilson. As an epigram-maker on the hustlings and in State documents, Governor Judson Harmon of Ohio is equaled by few and excelled by none, as will be noted by a few selected at random, from his public utterances.

Guilt is always personal. I would vote for a republican for United States senator if the people by their votes declared for a republican, and I would be proud of it, for I would simply be doing the will of the people.

The party emblem in municipal elections is an aid to the ignorant and those who corrupt voters, and no help to spright and intelligent electors. Both parties would be better off if they were kept out of purely municipal elections. The people who support the government have to economize. Why should their public servants get do the same? It is not the existence or discovery of wrong doing that brings shame to a State, but failure to put a stop to it. We must make the State government more broadly useful, for its powers are ample to grapple with many things which have been developed by new conditions.

LATE SPORTING NEWS

BIG CROWD TURNED OUT AT DENISON

ATTENDANCE AT BALL GAME THERE INDICATES GOOD SUPPORT FOR BALL TEAM.

WICHITA FALLS WINNER

With Jones on Mound Wichita Falls Won By Score of 3 to 1.

Special to The Times. Denison, Texas, July 24.—With Jones in the box, Wichita Falls won from Durant yesterday by a score of three to one. The game was witnessed by a crowd that taxed the grandstand, indicating that splendid support would be given a ball team at this place. It is said that negotiations are still pending for the transfer of Wichita Falls franchise to this city.

Score table for Wichita Falls vs Durant. Includes columns for player names and scores.

WHO WERE GIRLS WITH BRIDEGROOM

Mystery in Death of Wayne Moore, Cousin of Taft's Secretary at Omaha.

Omaha, Neb., July 24.—Who were the two mysterious girls who were "joy riding" with Lem Hill and Wayne Moore, when the latter met his death and what has become of them now is a question which the police of Omaha would like to have answered. Moore was a first cousin to Charles Hill, private secretary to President Taft, the two young men being practically reared together from infancy. Hill is an unmarried, wealthy young man-about-town and a general favorite in society. His friend, Moore, was recently married to Miss Connor, heiress to something like \$250,000, and it was while endeavoring to spend a portion of the income that he met his death.

INTERESTING FACTS ABOUT TEXAS LEATHER

San Antonio, Texas, July 24.—A hide dealer of wide experience in buying in Texas said the other day, in an effort to give some notion of the number of hides of all kinds produced in this state, that if all the hides of Texas, after being converted into leather, were worked into one large boot proportionate in all its relations, the leg would be ten times as high as the monument at Washington, the foot long enough to reach half way across the state of Massachusetts east and west, and that the entire population of Delaware could be crowded into the box at the toe. In addition to this monster boot which might be made from the hides of cattle alone, there would be enough of sheep and goat skins to cover a section of the United States almost as large as the state of Indiana. From these estimates, one has some notion of the vast that Texas plays in shoeing the people of the United States.

SON AT 52 MEETS FATHER FIRST TIME

Strange Romance Revealed at Funeral at Pittsburg, Pa., Yesterday.

Pittsburg, Pa., July 24.—William Walker, 52, well-to-do farmer of Mt. Pleasant, Penn., yesterday met his father, John A. Walker, 72, of LaPorte, Ind., for the first time in his life to his knowledge at the bier of Clark Walker, brother of John A. More than half a century ago John A. Walker left Mt. Pleasant, leaving behind his young wife and a four-months-old son. He went to LaPorte, Ind., and later became police marshal. He re-married as did his wife, who mourned him as dead.

WILD DISORDER IN HOUSE OF COMMONS

FOR THREE QUARTERS OF AN HOUR PREMIER ASQUITH ATTEMPTED TO GET A HEARING.

SPEECH WAS CUT SHORT

Premier Asquith Threatens the Exercise of Royal Prerogative in Appointment of New Peers.

London, July 24.—Scenes of disorder marked the session of the House of Commons today. After trying three-quarters of an hour to get a hearing, Premier Asquith cut short his projected speech, declaring if the Lords would not consent to restore the vote bill with reasonable amendments the government would be compelled to invoke the exercise of the royal prerogative for the creation of new peers.

Saturday Night's Fire

The fire alarm turned in at about 12 o'clock Saturday night was caused by a fire which started in a clothes closet at the residence of J. O. Whitaker in Floral Heights.

By the prompt response of the fire department and the good work accomplished after arriving on the scene, but little damage was done the residence, the fire being confined to one room.

Returns From One Missing County

Dallas, Texas, July 21.—Winkler, one of the three missing counties gave its returns late this afternoon. They were pro 15, anti 26. The returns are coming in freely this afternoon and appear to confirm beyond a doubt the claims that Texas has defeated statewide prohibition, by approximately 5,000.

Calendar of Sports for the Week

Monday - Annual tournament for amateur championship of Western Golf Association opens at Detroit.
Tuesday - Junior polo championships begin at Narragansett Pier, R. I.
Wednesday - Opening of horse shows at Long Branch, N. J., and Manassas, Va.
Thursday - Grand Southern States checker tournament opens at Greenville, S. C.

Saturday - Annual regatta of National Association of Amateur Oarsmen at Saratoga Springs, N. Y.

BATHS!

You Don't Have to Wait Five New Bath Rooms at Lawler's Barber Shop. Baths—Salt, Glow, Dial, hot or cold; good rubbers in attendance. Call and see me. L. H. LAWLER, Proprietor.

Singer Sewing Machines

See W. A. McClellan for prices and terms also have second hand machines from \$5.00 up to \$25.00. These machines have been thoroughly cleaned and will do good work. Phone 369 when you want a machine. W. A. McClellan Salesman and Collector.

CEMENT WORK

I. H. Roberts General Contractor. Walks, Curbing, Steps, Cement Work, Floors, Foundations, Street Crossings. Telephone No. 504.

Louis D. Brandeis, the Boston lawyer and prominent figure in the Ballinger-Pinchot inquiry, who has been engaged by the House Committee on Expenditures in the Department of the Interior to take charge of its "Dick to Dick" letter investigation, which is to solve question of alleged irregularities in connection with the Controller Bay, Alaska, scandal.

SECOND STAGE OF BRITISH CIRCUIT RACE

Hendon, England, July 24.—By 4 a. m. today a crowd had assembled at the aerodrome to witness the start on the second stage of the British circuit race. The course today will be from Hendon to Edinburgh, with intermediate stops at Harrow Gate and New Castle. The distance between Hendon and Harrow Gate is 182 miles, from Harrow Gate to New Castle 68 miles and from New Castle to Edinburgh, 93 miles, making a total of 343 miles.

NOTES ABOUT THE FLYING EXHIBITION

Learning of the death of his brother Walked went to Mt. Pleasant. He talked with his son for some time at the side of the coffin and this relationship revealed.

SON AT 52 MEETS FATHER FIRST TIME

Secretary Dow urges all going to aviation meet at Lake Wichita Friday and Saturday, July 28th and 29th to purchase the special coupon tickets now on sale at various points down town, price 70 cents inclusive of car fare to and from the lake, and in this way avoid the congestion of crowds at the grounds. The crowds will be roped off and patrolled a quarter of a mile from the point of flying. The machines will start and land directly in front of the grandstand.

NOTES ABOUT THE FLYING EXHIBITION

The competitors rested Sunday, but Weymann spent considerable time in tuning up his engine. In the evening he had a thrilling adventure while making a trial flight. He flew at terrific speed—but the engine, not running to his satisfaction, he prepared to alight. He signaled to some people strolling about the course to clear off. They looked up and appeared spell-bound with horror at seeing the machine rushing toward them and were unable to move. Fortunately, Weymann had the machine under control and was just able to clear them.

Roger Patrick Bresnahan, the sensation of the National League, who has driven his charges the St. Louis Cardinals, from the cellar division to within three full games of the league leadership, passing as if they were standing still the Brooklyn, Cincinnati and Pittsburgh clubs and making his band look so much like pennant possibilities that they have been labeled by Eastern experts the "Wrecking Crew." Roger's cohorts were given a great reception when they appeared in New York to open the series with the Giants whom Bresnahan had helped in years gone to win two National League flags. The indomitable manager-captain-catcher is here shown in his fighting togs. He is still one of the greatest backstops in the business and is the most consistent hitter in the Cardinal ranks, setting the pace for his proteges to follow.

## Oddities in a Day's News

**Court Furnishes Cane To Be Used on Erring Boy.**  
When Willie Hunt was arraigned in the police court in New Haven, Conn., charged with stealing \$8 from a neighbor who was at a funeral, Judge Mathewson said, "Mr. Hunt, take your boy in the afternoon and give him a good licking. Here's my cane."  
Willie's papa did. Incidentally the judge felt the punishment for his cane was broken over Willie's back.

**Physicians Said She Had Pelagra and the Jury Decided She Died from Natural Causes.**  
J. W. Maynor at Esom, Ga., her husband testified that acting under doctor's instructions, he tied her hands and slapped her on the face and body with a board.  
Physicians said she had pelagra and the jury decided she died from natural causes.

**When Speeches Are Barred Suffragists Sing Them.**  
Forbidden to make suffragist speeches at public meetings in Los Angeles, the woman suffragists get their speeches to music and sing them.  
The defiance of the police and park board caused widespread amusement over the state.

**Young Man Weds Girl His Friend Jilted.**  
When Walter Simenski of Mocana, Pa., was arraigned for breaking his promise to marry Mary Mayanna, his friend, William Robinski asked if Simenski objected to his marrying her.  
"Only too glad" replied Simenski. Robinski then asked the girl to marry him, saying he would be good to her, and she accepted him. Simenski gave them \$15 as a wedding present.

**Husband Sues Suffragist Who Wants to Be Governor.**  
That his wife refused to longer keep house, because women will soon have the ballot in Washington and she intends to run for governor, is the unique answer of J. Olson to the suit of Mrs. Prisca W. Olson for divorce.  
They live at La Crosse, and she charges cruel treatment and non-support.

**Kills 59 Woodchucks in A Day With Red Pepper.**  
Richard Burns at Mt. Riga, N. Y., is thinning out the woodchucks by means of a small tank of gun cotton and red pepper, which he inserts in the animal's hole and explodes.  
The pepper blinds and drives them out and he and his dog Ted get them. He killed 59 in one day recently.

## Farm and Factory

There is no better way of helping the farmer than by building factories. The farmers of Texas are compelled in many instances to ship products across the ocean in order to reach the factory. We are world factors in agriculture. Our cotton and wool clothes the human race; our meats supply the larder of nations and our cereals fill the granaries of the world, but we are in the main dependent upon other states and countries to manufacture our raw materials.

The farmers of Texas ship an average of \$1,200,000 worth of raw material to the foreign factory per day. Lead these products on wagons and they will form a procession 220 miles long and our annual production on its way to the foreign factory will form a gigantic parade that will reach around the world three times and it will require eleven years to pass a given point. It is a golden stream of prosperity flowing out of the state and on its bosom float factories, cities and millions of happy homes. It is laden with opportunities destined for the people of the whole world and it furnishes life giving substances to the withering veins of European nations.

The parade costs \$200,000 per day and \$75,000,000 per annum and is paid for by the sweat of those who till the soil. Our public servants who desire to do something more than swim around unadvised in the waters of public life should watch the parade. Our raw material on its journey to the foreign factory forms one of the most colossal pageant in the history of the human race and is the commercial tragedy of the Twentieth century. Watch it!

## RAILROAD TIME TABLES.

Following is the correct time card of the different roads, as revised to date.

Could Not Write.

Versailles, Ky.—Mrs. Elisha G. Cardui of this place, says: "I could not write all the different pains, I had, when I first tried Cardui. I could scarcely walk. Now I am able to run the sewing machine and do my work; and my neighbors tell me the medicine must be good, for I look so much better." Cardui is a specific, pain-relieving, tonic remedy, for women. In the past 50 years, it has been found to relieve women's unnecessary pains, and female misery, for which over a million suffering women have successfully used it. Try Cardui for your troubles. It will help you. At the nearest drug store.

**Mabledean Notes.**  
The good showers we are having frequently are bringing up the feed crops in fine shape, and a broad smile is seen everywhere as the farmers look over their green fields and improved pastures, and one does not hear so much talk of leaving the country. Cotton, although damaged some by the drouth, is looking fine, since the rains.

Mr. and Mrs. F. D. Clark spent the afternoon Sunday with Mr. and Mrs. Ed Cook.

Mr. and Mrs. Will D. Thomas drove out to the farm Sunday evening for a visit with the home folks.

Bob Preston, from West Virginia, is visiting his sister, Mrs. Billy Hawthorn. It is his first visit to Texas. He will take a car of horses back with him.

Miss Sara Clark and Mrs. Moore were the guests of Mrs. Ed Cook Tuesday.

C. Kilpatrick met with a severe accident Saturday. In roping a horse his left hand got tangled in the rope, breaking two of his fingers and badly lacerating his whole hand. At first it was thought amputation of the hand would be necessary, but he is getting

along as well as could be expected and will probably lose but two of his fingers.

Most of the neighbors went to Thornberry this week for peaches and every one is busy putting them up. They are large and firm this year, notwithstanding the drouth. Oranges seem to be a failure as we could hear of no one who had raised any.

Mrs. Katherine Thomas made a fly-trip to Mabledean Wednesday. She was accompanied by Master Morgan Smith.

**Back to Farm Campaign.**  
Chicago, Ill., July 24.—Governors of States, national philanthropists and State immigration commissioners assembled in Chicago today to formally launch the "back to the farm" campaign. The object of the movement is to aid workmen and others living in congested districts in large cities, as well as State charges, in obtaining farms in northern, southern and western States. It is proposed to maintain a permanent bureau for the dissemination of information relative to conditions existing in the various States.

### Credit Farming

The credit system used by many farmers in the state is more damaging to agricultural interests than the bell weevil. No farmer can thrive and pay the debts of his neighbors which is the inevitable result of the credit system. Debt is a hard taskmaster and it saps the vitality of every man and every line of industry that is within its clutches. The merchant and banker should help the farmer get on a cash basis. When the farmer has a good bank account we are all prosperous.

### Road Building

"Road building is a science," said G. L. Conley, representing the good roads department of the Federal government at the Dallas Fair last fall. "There is no more reason why a man should work out his road tax than that he should teach his school tax. We pay millions of dollars annually by way of intelligent application of road tax."

13 DOCTORS SUMMONED TO GREET THE STORK

Pasadena, Cal., July 22.—No less than thirteen Pasadena physicians were called upon in one case at 3:00 o'clock this morning. Eight of them formed a reception line for Mr. Stork, who visited the home of Mr. and Mrs. H. H. Horton.

Letter to Mrs. Clopton. Dear Madam: We expect you'd like the tale, how a woman beat two hardware dealers in Girard, Pa.

We tried our best to get those men to sell Devoo lead and zinc in that bright town; and failed. Reluctantly took Mrs. E. R. Bowman, druggist.

Mr. Burt Young bought a gallon Devoo for rooms that had always taken a gallon of other paint; had half left.

Mr. E. H. Hiler, jeweler, painted Devoo, and says it goes further—no particulars.

Mr. John Hanna, grocer, thought it expensive before he bought it; brought back nearly half of his paint and said it was the cheapest job he ever had.

Mrs. Bowman reports universal satisfaction. So much for a cheap-paint town with a bright woman in it. Yours very truly, F. W. DEVOO & CO.

FIRST UNIVERSAL RACE CONGRESS

London, July 24.—All preparations are completed for the first universal-races congress, which will constitute the most important event in this city this week. The congress in which practically all races of the human family will be represented, will meet in the Central Building of the University of London on Wednesday of this week and will remain in session four days.

The idea of the congress originated with Dr. Felix Adler, who first suggested his plan at a conference at Eisenach, Germany, in July 1906. His suggestion was widely discussed and commented upon. Although there was no lack of those who ridiculed the idea of such a congress and who expressed the opinion that a closer relation between the races would be neither desirable nor beneficial to civilization, many distinguished scientists, statesmen and political leaders heartily endorsed Dr. Adler's suggestion.

No empire occupies such a vast area or has its constituents so widely scattered as the British Empire, and accordingly no other country has to face so constantly the grave problem of being fair and just to other races. For this reason it was only proper that the initiative in bringing about this congress should be taken by England and that the first of these race gatherings should be held in London.

Mr. G. Spiller of London, the principal promoter of the plan in England, was made honorary general secretary of the congress and it was he who organized the undertaking, sent out the call and invitations and prepared the program for the congress. He is encouraged in his work by the strong support he received from parliamentary headquarters, members of the four of arbitration, the delegates to the second Hague conference, British premier, colonial bishops, professors of international law, leading anthropologists and hundreds of others.

New York, July 24.—Thomas Franklin Manville, Jr., son of the millionaire head of the Asbestos Trust, and his pretty bride, who was Miss Florence Huber, of Williamsport, Pa., are not through getting married yet. Just as soon as they have finished 'getting settled' in their tiny apartment in One Hundred and Thirty-ninth street, they intend going to Connecticut and getting married there. This will make the third time they have been married.

MORMONS SECURE CONVERTS IN MEXICO

San Antonio, Texas, July 24.—In Northern Mexico, 100 miles or more south of El Paso, is a Mormon colony located on a large tract there about three years ago. It was thought when the Mexican revolution broke out last fall that there would be a general exodus to Utah; but instead of that the Mormon farmers, the entire colony being of the non-polygamist kind, stuck to their farms. It is reported now that since matters have been adjusted in that republic, that this colony is preparing to increase its land holdings and that the plan contemplates making homes for many Mexicans of the lower order who have embraced the Mormon faith. To carry out this work, an order has been placed with the manufacturing concerns for a large shipment of agricultural implements with which to equip the Mexican for work. It is declared by a Mormon in this city that the Mexican contingent is a part of the most stable element from Utah.
