## OUR MEATS ARE THE BEST MAKE US PROVE IT

We could not afford to make that statement if we did not know it to be true and you know it.

And yet if it is true and we are not supplying your meats you are losing.

That isn't fair to yourself or to us, for if we can give you better meats and service than you are now getting and at no higher price you ought to have them and we ought to have the orders.

You will be getting your meat here just as soon as you make us prove the statement made. Try it this week.

## SWANSON COUNTY THING OF PAST

STAY OF DISSOLUTION MANDATE  
ENDED ON 10th ANNIVERSARY.

### BOUNDARIES RESTORED

Surrender is Reluctant But Dissolution is But Matter of Form Now.

Special to The Times.

Lawton, Okla., Aug. 9.—With the refusal of the United States supreme court to take jurisdiction in the question of the existence of Swanson county and the expiration, Sunday, of the fifteen-day stay of mandate of dissolution, granted by the Oklahoma supreme court, Swanson county, established by proclamation of Governor C. N. Haskell, in August, 1910, is but a dream of the past and Comanche county again stands as it was left by the Oklahoma constitutional convention the eight hundred square miles of territory included in the three townships cut off into Swanson is again restored.

Following the decision, Thursday of Associate Justice Charles E. Hughes of the United States supreme court which denied admission to the federal court, attorneys of Swanson county declared they would carry their fight to another justice of that court. Justice LaMarr of Atlanta, Georgia, but telegraphic dispatches received today from County Attorney John A. Fain, who was in Washington fighting the case, announce that they have given up the fight and started home. E. J. and George Giddings started for home last night, Mr. Fain today.

The final dissolution of the county is now but a matter of form. The fifteen-day stay of mandate expired yesterday, on the tenth anniversary of the opening of the new country in which the county was included; and under the dissolution order, the county is really no longer extant. Mandate will issue immediately from the state supreme court and will be filed in the district court of Comanche county in which the case arose.

### DOG DAYS ARE HERE

#### TERM IS MISNOMER

The popular superstition that dogs go mad oftener during "dog days" than any other time of the year is a fallacy, according to one who has studied the birth and growth of superstitions for many years.

"Dog days" are now on; they began the latter part of July and terminate Sept. 1. And during this period many people are side stepping every dog they pass for fear the brute may have the rabies and bite them. Scientific research has proven that dogs may go mad any time. Furthermore, the expression "dog days" has nothing to do with earthly canines. It arises from the fact that the Dog-star, during this period, comes up with the sun and the ancients believed that it added to the heat of the summer.

"This is the period when poor dogs with indigestion, and canines afflicted with simple, harmless ailments have to die so that the popular superstition may live," says the observer. "Ten dogs have to die for every one that has the rabies. I have lived fifty years and never saw what I could honestly say was a mad dog. They are nearly as scarce as hens' teeth.

"Another superstition of 'dog days' is that if you kill a frog during the period your cow will give bloody milk. There's nothing in this at all—I have watched it."

### CITY HAS RECEIVED NEW STREET OWEPPER

The street sweeper recently purchased by the city has arrived and was set up today. It will probably be used for the first time tonight after the creosote which has oozed from the paving blocks cools off. It will be impossible to use the sweeper in the day time during the hot weather. The sweeper is made by the Studobaker people and is a very substantial affair.

### HOLE IN GROUND

#### FIGURES IN CASE

Will Be Used as Evidence in Trial of McNamara in Los Angeles Times Case.

Los Angeles, Cal., Aug. 9.—A hole in the ground caused by the explosion of a bomb will figure in the trial of the McNamara brothers for the alleged dynamiting of the Los Angeles Times. The hole was dug up and boxed for preservation Sunday night.

On the morning of the destruction of the Times building last October 1, two unexploded bombs were found at the residences of Gen. H. G. Otis, owner of the Times, and F. J. Zeehandelaar, secretary of the Merchants and Manufacturers' Association.

A detective was carrying off the bomb, enclosed in a suitcase from the Otis ground, when he heard a clock begin ticking and dropped the grip and ran. The bomb went off tearing a large hole in the ground between the sidewalks and curbing. The hole remained undisturbed and a few days ago the attorneys for the defense decided they needed the hole for evidence.

Accordingly four detectives set to work Sunday night and by daybreak had tunneled under the hole, bored it in and prepared to cart it to Attorney Job Harriman's office.

While they awaited a truck, a passerby noticed their operations and telephoned District Attorney Fredericks. Gathering an automobile full of detectives, Fredericks rushed to the scene.

"Hold on," cried Fredericks, peering into the box. "what have we here?"

"Nothing but a hole," replied Harriman's detectives.

"Oh, very well," said the district attorney, "you're welcome to it."

### SURVEYING FOR ARCHER CITY'S WATER WORKS

(Archer City Dispatch)

Thomas L. Fountain of Dallas came up Monday evening and signed the contract to make all preliminary surveys of all the propositions the city council had under consideration, etc., for 2 1/2 per cent of the bonds.

Mr. Fountain began work Tuesday and is to continue until his work is completed. The first two days was spent in riding around within a radius of two miles of town and surveying the country with the naked eye and inspecting the shallow wells. He is now engaged in surveying the Carver dam site and water shed, and will probably be able to make a report on this particular site some time next week.

Mr. Fountain is employed to survey and test the shallow wells and any other proposition that will give Archer City water facilities. With his experience and knowledge of affairs of this kind we are certain that the council has made no mistake in employing him. After he has made all surveys necessary and tested the shallow wells a report from him to the city council will be made as to the cost and amount of water that can be had. Until his report is ready, we will have to be quiet, but afterwards you will hear from us.

I am now located at 605 Eighth street in the room formerly occupied by the Misses Simons millinery store, where I will be glad to see my friends and those wishing to buy real or rent real estate—I make rentals a specialty. H. C. McGLASSON.

### NOTICE TO ADVERTISERS.

For the past year or more the Times has been taking advertising at a price below the cost of production. It is not necessary to have set out all the reasons that caused it to pursue that unbusiness-like course, but the fact remains that its rate for advertising now, with a circulation considerably over 2000 daily, are only about equal to that charged when its circulation was under 1000. Without regard to what rates for advertising others in the same line of business may charge, the Times will on and after September 1st, raise its rates for advertising to a point where it can take a reasonable profit instead of an actual loss. In doing this, it is expected that it will lose some of its patronage, but this cannot be helped. It is simply compelled to take this step and trusts that all fair-minded business men will not think that the motive which prompts it in this action is other than that which should prompt any good business man.

The Times has been requested by a mother to call attention to the fact that proprietors of pool halls in this city were conducting their places of business in violation of law, in that they permitted minors to frequent their places. The Times is informed that pool room proprietors are forbidden to allow minors to enter their places of business and remain there for any length of time without the consent of parents, and for such violation of this law the lowest fine is fixed at \$25, and the highest at \$100. The Times does not know of its own knowledge that this law is or has been violated, but if so it believes it to be the duty of our officers to put a stop to it. The Times also thinks that parents who have knowledge or suspicion that their boys visit these pool halls should serve notice on the proprietors to keep them out, and it believes that the proprietors of pool halls will see to it that wishes in this matter are respected.

Senator Bailey's letter to his friend W. H. Daugherty of Gainesville, saying in short that he believes Gov. Colquitt is entitled to and should receive the nomination and reelection to the governorship for a second term, and that Col. Tom Ball should not offer as a candidate, but if he should, he (Bailey) will support him, is giving comfort to both pros and antis, and there are not many men outside of the shrewd politician, who could manage to frame up a letter of that kind. Yes, truly Bailey is great. He gets them both going and coming, and the fellow who is after his goat will have to demonstrate his ability at riding two horses going in different directions at

one and the same time. Senator Bailey has come as near accomplishing that impossible feat as any living man.

### PROS WON'T SPLIT.

That the facile pen of Mr. Armistead is resourceful no man will deny; but it is doubtful if his strenuous efforts in behalf of the administration will succeed in dividing the pro camp on the Bailey issue just at this time. The wily senator from El Paso has twice attempted with the consummate finesse of which he is master to inject the poison of discord, and Mr. Armistead with artistic touch has made it almost seem like success, but, alas, there is a look of wrong on the usually smiling faces of both the statesman and the publicist.

The power of a 2004 correspondent to work havoc in the ranks of those to whom he is opposed has been demonstrated time and again; that it has failed thus far this season is a tribute to the patriotism, devotion and organization of the pros. Men who revel in turbulence and grasp the sword of contention with an exultant glow of pleasure, in both senate and house, have this session doggedly closed their eyes to every flame save that of prohibition and refuse to be entrapped by any distraction.

If this spirit shall continue, the gloom on the anti side will thicken near.—Austin Tribune.

In speaking of good roads as farm assets, the San Antonio Express has the following to say: "As any farm lies distant and more distant from a home market, that farm's value decreases. But distance may be something else than miles. A farm on a good all-weather road ten miles away from market may be closer in truth than is the farm five miles away on a road that is impassable half the time. There is no argument against this statement. In bad weather on a bad road a wagon loaded for market must stand loaded for better road conditions. Most often a bit of bad weather is the one time when the farmer best can leave his farm duties to make the needed trip to town. It means nothing to such a farmer that after he strikes Main Street in town his team can take a loaded wagon of produce sailing along at an easy trot. He can't get to Main Street.

There is no stronger practical argument than this in showing the farmer that his farm values are dependent almost wholly on his road to town. Everywhere he has seen railroads which twenty years ago had fair roadbeds and equipment, steadily lowering grades, putting down heavier rails, ballasting their right of way and making in price below half the cost of a team of horses and a farm wagon. How many farmers could afford to buy one simply because he could not get over those impassable bad roads which—by persuasion of the whip—he sometimes can get his horse team or mule team through.

Effect at Houston. By Associated Press. Houston, Texas, Aug. 9.—It is not believed here that the death of John W. Gates will affect the operations of the Texas Company, although the local officials are reticent.

now part of the U. S. Steel Corporation. It was originally capitalized at \$90,000,000. Two years later the big steel trust was formed by J. P. Morgan and the Gates companies were turned into the merger. Gates wanted to be one of the directors of the trust, but Mr. Morgan, fearing his recklessness, did not consider this advisable and kept Gates out of the board.

A few years later Gates evened his score with Mr. Morgan, by buying up the controlling interest in the Louisville and Nashville railroad, which the Morgan forces were trying to obtain. Gates sold out to Morgan and his share of the profits amounted to several million dollars. After a while Gates entered the southern field as a competitor of the big steel trust, and organized the Republican Iron and Steel Company. He bought up the controlling interest in the Tennessee Coal, Iron and Railroad Company and acquired important holdings of iron ore owned by the Alabama Consolidated Iron and Coal Co., and the International Power Company.

For a number of years Gates resided in Chicago, where he owned a fine mansion on Michigan avenue. He sold his house in 1908 and removed to New York, where for some time he occupied apartments at the Plaza Hotel, paying \$46,000 a year rent for the same. He had been a plunger and daring speculator in Chicago, but his career in New York was even more reckless. Wall Street began to fear him and the public wondered at his extravagance and recklessness in financial operations, whether at the card table, the race track or the stock exchange. In the course of his life Gates lost many millions by daring speculations, but recovered his losses and accumulated an enormous fortune, estimated at from \$25,000,000 to \$50,000,000. During the last few years he devoted a great deal of his attention to the development of his large business interests in Texas and in other parts of the South and Southwest.

Effect at Houston. By Associated Press. Houston, Texas, Aug. 9.—It is not believed here that the death of John W. Gates will affect the operations of the Texas Company, although the local officials are reticent.

## What the Window Glass Factory Means to City

The necessity for the immediate subscription to the fund of \$10,000 which was practically guaranteed by the Chamber of Commerce on behalf of the citizenship in order to assure the location and operation of the Chanute Window Glass Company's industry, is vital to the future of Wichita Falls' industrial success. The amount of ten thousand dollars which by some is being erroneously considered as a straight-out bonus is nothing other than a contribution toward an actual expense of \$40,000 attendant upon the tearing down and removal of the plant to this city which certainly has placed itself upon record as inviting increased industrial life. Thirty thousand of the expense of removal is born by the glass company, if the industry representing as it does an investment in the physical plant of \$100,000 with an assurance of a monthly pay roll circulation in Wichita Falls of an additional amount to the extent of \$12,000 together with an increase of population in the amount of 700 with the attendant stimulation of local retail trade and increased rental patronage, not taking into account other attendant features is not enough to warrant the local citizenship to a ready response to the requests of the soliciting committee of the Chamber of Commerce, then certainly one of two things or both be true, namely: Factories and the "tin bucket brigade" are not wanted unhesitatingly to warrant investment to the extent of assisting removal or the citizens are ignorant of the real value of the character of industries represented by the one now made possible to Wichita Falls within ninety days upon the successful raising of \$10,000.

No doubt rests in the writer's mind as to the final attitude of the city upon this question but the fact should not be lost sight of that busy business men are giving of their own valuable time to assure the earliest possible closing of this deal.

Nothing gives quicker or more direct circulation of money in every avenue of business than factories. Let us get this one and all the more we can and attempt it if it is to be exhausted, the natural gas that now is so extensively used by plants in Dallas and Fort Worth as an extremely

inviting rate to them and anyone of the plants consuming as much as the whole city of Wichita Falls.

Make this your personal slogan for the next three months "Wichita Falls for factories," and the year 1912 will be ushered in with an increased industrial activity and the reputation of "The Busiest and Best Built City in Texas" upheld.

F. H. DAY, Frisberg-Thornberry.

### Probably a Lot of Your Troubles Wouldn't Trouble a Want Advertiser at All!

Want advertisers and answerers of want advertisements ACCOMPLISH THINGS that other people simply "worry about," and hope that they "will work out somehow, sometime."

With want advertising, the property owner finds either buyers or tenants, while the non-advertiser WAITS for someone to "come along" and search for him and for his property.

With want advertising, the worker finds work—the employers finds workers—and the machinery of daily life does not slip a cog.

With want advertising, the used articles are sold to advantage—the business plan finds a "backer"—the buyer and seller discovers each other without any "blind searches," and people come to manage their affairs with the smallest possible amount of vexation, worry or delays.

There's not much nourishment for the "trouble-germ" in any of your affairs if you utilize want advertising to the fullest possible extent.

### IRISH LADS LOSE TO DURANT TEAM

ERRORS LARGELY RESPONSIBLE FOR THE VICTORY SCORED BY THE EDUCATORS

### THE SCORE WAS 4 TO 3

Some Brilliant Fielding Marked the Contest—Jones Pitched a Good Game for the Lads.

Durant, Okla., Aug. 29.—A batting rally in the ninth inning followed by an error by Clark at short, gave yesterday's game to Durant 4 to 3. Wichita Falls was two runs ahead when the Educators went up for their last bat. Up till that time Jones had held the locals to one single and a two-sacker. Burns knocked one to right field, which A. Naylor fielded slowly, Robinson singled to center, Brownlow sacrificed and Henson hit to center, scoring Burns. Armstrong flied out, but Wolf got a safety, tying the score. Corrine knocked a hot one to Clark, which he fumbled, allowing Henson to score the winning run. The game abounded in brilliant bits of fielding, with Burns an easy favorite. Brownlow, Henson and Clark also made spectacular steps and catches.

## AKESHORE ASSMBLY COMMENDS THIS PEOPLE

The following resolution was passed by the trustees of the Lakeshore Assembly at the annual business session, July 31st. Whereas, we, the trustees, appointed by the North and Northwest Texas Conferences for the establishment of Lakeshore Assembly, have received from the committeemen resident in Wichita Falls the heartiest endorsement and fullest co-operation in our difficult task of inaugurating our enterprise.

How It Happened. After a long trip on the road, the Washington baseball club came home on July 25. The game was called at 3:30. The senate adjourned promptly at 2:30. At least half of the membership of the senate was present at the ball game. This was not an unusual thing, but it appeared as though the senate had deliberately postponed its business in order that the senators might witness the game.

### LONDOND BLIND MEN OPERATE BUZZ SAWS

In Tottenham Court Road, within about sixty yards of the "Horseshoe" are two fine shop windows displaying brushes, brooms, from shaving brushes to road-sweepers' brooms, bedding and traveling chairs, mats, bedding and as you wonder how to name this retail trade you notice across the window the legend "Association for Promoting the General Welfare of the Blind." I did not want to buy a broom, but I remembered that the blind, with the deaf and dumb, were among the knockers at the door of state insurance. Also I remembered that only a few days ago at Exeter Cathedral the sermon was preached by a blind clergyman, and the organ was played by a blind musician. Dimly too, came the remembrance that this association was founded more than half a century ago by Miss Gilbert, the blind daughter of a bishop of Chichester. And then—well—I spent a wonderful afternoon in a busy house of industry, where people were working, running about serving tea, and not one in ten could see.

**Going Home at Night.**  
On the top floor there is a room of the brush drawers, who form a large proportion of the community. They can work with great speed, and the sewing-machines reach and find and twist and set the finished product in a seemingly heap. One of the men—bearing a strange footstep stop at his side, turned and rose. How did he get home? I knew he lived at Vauhall. "Take the bus at the corner and then walk," he said.  
In another room there is a carpenter hammering vigorously. He stops, and looks with unseeing eyes. The secretary chaffs him about his accident of twelve years ago, and the ship's carpenter—with apologies—explains that it wasn't a yardarm but an iron bolt that clipped off his eyes. And while no shipmaster would take a blind carpenter, that man is earning in the open market of the association from \$10 to \$15 a week for his wife and family.  
"Some things I can't do," he said, "but this sort of thing—there isn't much difference. I can do it with my eyes shut."

The blind are always cheerful. In other rooms they were making baskets, basket-hangers, traveling baskets and parcel post baskets. On another floor the women were at work. In one of the rooms sewing ticks with machines driven by electric motors, in another stuffing the temporary beds of the third class passengers with Alva seaweed, those beds that are chucked overboard at the turn of the steamer on to the high seas. And another room where the blind women are working and listening to the visitor who is reading to the unseeing a novel to cheer them at their work. Here was silence. But the blind women whose fingers were busy with the sewing of the ticks were talking and laughing as they worked.

**The Buzz Fan Experts.**  
Down to the very basement we went, and on the way thither the announcement of tea came from the tap of the blind girl on the door. "After you," said the secretary. And the man ran down the curling narrow stone steps with one finger on the handrail. He was blind, and laughed as he ran for the tea that was made and served by the blind. Descend to the basement and you find the men who are chopping and sawing wood into logs for firewood, into many shapes for many purposes. On a dull day with thunder brewing the electric light is going, and the visitor sees the men chop without a mistake in the light. There is a heap of stray wood at one end of the basement, side a buzz saw, which is worked by hand.  
A man with a grizzly beard rose from his seat, walked down the room past the heap of wood, selected his plank and put it under the buzz saw. Off came the rectangular sections of wood—while the secretary turned off the light, and for a moment or two we were in equal darkness.

**A Descendant of Two Presidents.**  
Washington, D. C., Aug. 7.—Captain Thomas D. Adams, a direct descendant of President John Adams and John Quincy Adams, who died in this city yesterday, will be buried this afternoon at Newport, N. H.  
Mr. and Mrs. Williams gave the Pleasant Valley folks a singing Monday night, which was enjoyed both by old and young. Mr. Goodwin led the singing and the others certainly did some singing.  
We are sorry to report Mrs. Humphries' baby quite sick this week.  
Misses Lillie Peterson and Pearl Conville took dinner with the Misses Rogers Sunday.  
Mr. Bert Humphries made a business trip to Wichita Falls Saturday.  
Floyd Conville is quite sick this week with tonillitis.  
Rev. Morgan preached at Pleasant Valley last Sunday. The meeting was postponed two weeks on account of the people being busy working their crops.  
Mr. and Mrs. Weaver Preston visited Mr. Murill's family Thursday.  
Rev. Conville is conducting a meeting at Allendale this week. Rev. Louger of Archer City is helping him.

Madrid, Aug. 8.—It is rumored that the men who mutinied on board the battleship Numanica at Tangier have been shot.  
If you have failed to secure money see me about my combination loan and life insurance loan policy, extra liberal terms made. Otto Stehlin. 73-11c

### ROAD WORK TAKEN UP AGAIN AFTER STORM

Special to The Times.  
Abilene, Texas, Aug. 8.—The road workers of Commissioners Precinct No. 1 are going about their work with as much energy and enthusiasm as though a storm had never visited this part of the world. The fact that the roads sustained less than two hundred dollars worth of damage from the water and hail a week ago is considered a feather in the caps of the county judge, the commissioners and the men who are building the roads. The only road to suffer was a small strip on the Eldorado road near the Cedar bridge crossing. Whenever Cedar goes out of its banks the channel is changed, turning through the old stockpens near the bridge east of the Abilene & Southern track. This caused the light damage.

### SHORT NEW STORIES.

London, Aug. 8.—The Times' Pekin correspondent in a dispatch refers to the probable resignation of Premier Ching from the premiership.

St. Louis, Aug. 8.—Alaskan delegate Wickersham, who arrived here to visit his son, said he would not seek run for congress and that he had had enough with one term.

Concordia, Kan., Aug. 8.—Three farmers, six miles north of here, are entrapped by flood water from the Republican river and can not get out. Farmers north of here are guarding their dikes night and day.

Paris, Aug. 8.—Julius Vedrines, the aviator, promises to startle the world next Wednesday with an aerobatic feat, the nature of which he is keeping secret. He merely says it will be sensational and of untried character.

Madrid, Aug. 8.—An international meeting which had been arranged by the labor federations of Spain and France in protest against the Franco-Spanish military operations in Morocco was held here. There was no disorder.

Guthrie, Okla., Aug. 8.—A head rise in the Cimarron river flooded the stream beyond the August record and took out the Chicago, Rock Island & Pacific bridge at Dover. A wagon bridge near Guthrie went out and a man was drowned.

London, Aug. 8.—The arbitral board chosen last week to effect a settlement between the employers and the striking dock laborers has decided in favor of the men, but the dockers have decided not to resume work until the grievances of the coal porters and lightermen are satisfied.

Spartanburg, S. C., Aug. 8.—James Johnson of Portland, Neb., was sentenced to serve ten years in the State penitentiary for robbery. He is just out of the Federal prison at Atlanta, where he served seven years for robbing the postoffice at Enore, S. C.

### More Britons to See Canada.

London, Aug. 9.—Under the pilotage of the Duke of Sutherland, who has acquired extensive interests in western Canada and built a home there with a view to making it his residence during a considerable part of each year, a distinguished party of English legislators, journalists and others sailed on the Olympic today to become acquainted with the wonders of the Canadian West. After landing at New York the tourists are to travel in the Duke's yacht up the Hudson River and through the Erie Canal and the Great Lakes to Fort William, Ontario. From that point they are to go by rail to Winnipeg and thence to the properties of the Duke of Sutherland in Alberta. The party will go as far west as Vancouver and Victoria and will return to England about the end of October.

### DUKE DEPOT ISSUE TO BE HEARD AGAIN

Special to the Times.  
Kansas City Stock Yards, Aug. 9.—New high figures for the year were set on choice to prime steers in all grades in the killing list last week, although the supply of cattle was liberal all through the week. Corn fed yearlings and heifers reached \$7.35, heavy steers brought \$7.25 on two occasions, native wintered steers off the grass brought \$6.50 on different days, and caked Texas steers in the quarantine division brought \$6.10. Buyers have been complaining that grass cattle have been costing more hunk up than corn fed cattle, and as there was a fair supply of grass cattle at all points last week they proceeded to equalize values by trimming off 10 to 25 cents. Quarantine cattle below the top grades are in for further declines if the run the balance of the month will permit it, but dealers do not believe supplies will be large enough for buyers to accomplish much in the pending line. The market is stronger to 10 higher here today, under the influence of the moderate run of 11,000 head. Stockers and feeders are up 10 to 20 cents today, following a slow week, with closing prices 15 to 25 lower for the week. Most sales of these range from \$3.75 to \$5.25. The run of quarantine cattle here today foots up 147 carloads, including 24 loads from Texas. Steer sales in the quarantine division ranged from \$4.25 to \$5.75, including eleven cars or South Texas grassers at \$5.25. Middle grades of native grass steers sell at \$5.40 to \$6.25, grass cows \$3.25 to \$4.50, top veals \$7.00.

**Sam Langford vs. Jimmy Smith.**  
New York, Aug. 8.—Sam Langford, who is regarded generally as the most likely opponent of Jack Johnson for the world's title, will be seen in action at the Fairmont A. C. in this city tomorrow night for the first time in several months. His opponent will be "Farmer" Jim Smith, the up-state fighter, who has something of a reputation as a hard hitter though he is not likely to give the "Boston Tar Baby" much trouble.

### BOYS FIRE HOME.

Chicago, Aug. 8.—Three boy inmates of the Ulrich Orphan Home, angered by discipline, poured kerosene over rubbish in the attic at the home today and then persuaded a fourth lad, who was deficient mentally to apply a match. One hundred children marred from the building without a panic and firemen subdued the flames.

Luling, Texas, Aug. 8.—Yesterday afternoon at 6 o'clock a fire broke out in a vacant house that stood between the signal office and the residence of H. F. Bridges, and before it could be extinguished it had destroyed the vacant house and a part of the roofs of the other two buildings. The buildings that were partially destroyed were protected with insurance.

Taylor, Texas, Aug. 8.—Rev. Hugh W. Hoon, pastor of the First Presbyterian Church has gone to Kerrville, where he will have charge of the program during the "four days' session, beginning Monday of the missionary conference at the Presbyterian encampment. Rev. Mr. Hoon will deliver an address to the assemblage on "The Relations of Home Missions to Foreign Missions."

## The Wichita State Bank

Wichita Falls, Texas

**This Bank and Your Business**

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention, for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.
