

VICTIMS OF TRAGEDY BATTLE WITH DEATH

MRS. FRANK HURSH AND DIVORCED HUSBAND ARE STILL ALIVE BUT VERY LOW.

DETAILS OF SHOOTING

Former Husband in Jealous Rage Shoots Divorced Wife and Then Himself.

Hovering between life and death with not more than one chance in a thousand that she can recover, Mrs. Frank Hursh lies at her home at 1307 Burnett street with three bullets in vital parts of her body, the victim of the insane jealousy of the husband whom she divorced about eighteen months ago.

Jealous broodings that have possessed him for months and even years and which have been cumulative as time passed broke in a mad impulse last night and as a result two lives will probably go out.

The shooting took place at about ten o'clock Thursday night on the sidewalk at the opening of the alley on Thirteenth street at the rear of Dr. R. I. Miller's residence.

Mrs. Hursh accompanied by her two younger children, Pete, a boy aged about eleven and Mary, aged about thirteen, accompanied by a business man of the city was on her way home after having been downtown to attend a picture show.

As they reached the alley Mr. Hursh who walked from the opposite direction passed them. He spoke both to Mrs. Hursh and the man who accompanied her.

Mrs. Hursh did not fall and started staggering up the street supported by her little daughter when Eugene Sherrod, who ran to her assistance caught her and assisted her to her home less than two blocks away.

THINK CONGRESS WILL ADJOURN NEXT WEEK

Washington, Aug. 11.—An indication that the insurgents are not in a death struggle over the pending tariff bills is the optimistic feeling among House leaders that adjournment of Congress will come next week.

With wool and the free list bills out of the way there will remain only the attempt to pass these bills over the President's veto and the attempt to likewise pass the statehood resolution, or, failing in that, to pass a new statehood resolution, the Democrats still believe will be no adjournment of Congress before a vote on this bill is had.

Little progress has been made on the cotton bill, which was reported adversely to the Senate today by the Finance Committee.

CONGRESS FAVORS BETTER HIGHWAYS

Special to the Times. Fort Worth, Texas, Aug. 11.—Mr. E. W. Kirkpatrick, of McKinney, the veteran agriculturist of the State, and President of the Texas Farmers' Congress, in his annual address to the Congress at College Station last week, among other things made the following timely statement in regard to the highway: "We hope this Congress will take advanced position on a system of permanent highways with State supervision of construction and local control of expenditures."

The sentiment expressed by Mr. Kirkpatrick will find a ready response in the heart of every patriotic citizen of Texas and his recommendation of State aid in building public highways is in keeping with the broad and liberal policy that has always characterized his administration as President of the Congress.

Nations to Discuss Alcoholism

The Hague, Aug. 11.—At the International Congress on Alcoholism to be held here next month the United States will be represented by at least ten delegates, among whom will be Mrs. L. M. Stevens, head of the Woman's Christian Temperance Union and Rev. P. F. O'Callaghan, head of the Catholic Abstinence Union.

Elks at Astoria Carnival

Astoria, Ore., Aug. 11.—Astoria was again the center toward which the people of this and the neighboring States turned their eyes today, and the second day of the big centennial celebration saw hundreds of visitors enter the city in addition to those who came yesterday to witness the opening ceremonies.

PENALTY PRESCRIBED

Obstinate Ones May Be Brought Before Senate Bar and Dealt With Accordingly.

By Associated Press. Austin, Texas, Aug. 11.—A resolution giving the Senate an investigating committee the necessary power and authority to hear testimony, swear witnesses, administer oaths, and send for books, papers, letters, telegrams, documents, and compel the production of such things was introduced and passed by a viva voce vote today.

The examination of members of the Thirty-first legislature, with reference to the introduction of measures for the regulation of liquor, continued before the House committee this morning. Representative Davis, of Dallas, declared there was an organized opposition to defeat him and said that during the campaign one of his anti opponents offered him sufficient reimbursement to get out of the race.

A. W. Walker, chairman of the Tarrant county pro, told of alleged illegal poll tax receipts and the dispensing of liquor by clubs on election day. Another statement by Walker was that Jake Wolters had given Mr. Hoefgen, president of the State Federation of Labor, \$3000 to organize the labor unions of Fort Worth against state-wide prohibition.

## STUFFED OLIVES ARE VERY FINE EATING

Most people like the MEAT of the olives, but a great many dislike eating them because of the pits. Stuffed olives remove that objection entirely.

Fancy hand selected queen olives with pits removed and the space filled with fine Spanish Pimento makes as fine a pickle relish as you can desire. The combined flavor of the olive and Pimento is exceedingly satisfactory during the hot weather.

## AVIATION MEET IN WINDY CITY

MORE THAN TWO SCORE DARING BIRD MEN ARE IN CHICAGO.

### ARE SEVERAL CONTESTS

Program for the Week Contests: Forty-eight Separate Events with Special Features.

Chicago, Ill., Aug. 11.—More than two-score of the most daring birdmen of two continents are assembled in Chicago and everything is in readiness for the greatest aviation meet in the history of aerial navigation which will begin here tomorrow at Grant Park. The big hotels in the vicinity of the aviation field on the lake front are rapidly filling up with visitors and it is expected that by tomorrow the transient population of Chicago will show an increase of fifty thousand, attracted to this city by the meet.

The organizers of the meet among whom are some of the wealthiest and most progressive merchants of this city, have spared neither money nor trouble to insure the success of the event and have made it sufficiently attractive from a financial point of view to attract a host of renowned aviators from all nations. France will be represented by Roland Garros, Rene Sabin and Rene Barrier, noted throughout Europe for their daring feats; the English contestants will include Tom Sopwith, known as "His Majesty's Own Aviator." Others noted foreign aviators who will fly during the nine days of the meet, are L. A. D. McCurdy, the Canadian aviation veteran; Abraham Rozendak, a Russian, who has been flying under the auspices of the Russian Aerial Club; John J. Fribley of Ireland; Edmond Audemars, the famous Swiss aviator, and a number of others.

The list of American aviators who will take part in the contests includes: Capt. Thomas Baldwin, dean of American aeronauts; Charles K. Hamilton, who made the first flight from New York to Philadelphia; Eugene Ely, who flew from the land to the deck of a battleship and back again; H. A. Robinson, who was the first man to loop the loop on a motorcycle; Harry A. Atwood, who recently won renown by his flight from Boston to New York to Washington and his daring stunts in the cities mentioned; Lincoln Beachey, who made the first flight over Niagara Falls; F. E. Post, the Milwaukee aviator, who formerly held the amateur altitude record; St. Croix Johnstone, the Chicago aviator with a long record of daring and successful flights; Charles F. Willard, J. V. Martin, Charles F. Walsh, Arthur Stone, Jimmy Ward, and Howard Le Van, the youngest aviator in the United States, who is only seventeen years of age.

The United States Government has taken official cognizance of this meet and the War Department has detailed Major Samuel Reber of the signal corps and a number of officers of the army to attend the meet and make observations. The commanders of the two gunboats in Chicago harbor, the Nashville and the Dubuque, have received orders to hold themselves in readiness for emergency during the meet, eventually act as escorts for daring aviators, attempting a flight across Lake Michigan. The aviation field in Grand Park is one of the best equipped ever seen at any meet of this kind. The grand stand seats 70,000 persons and judging from the advance sale of seats there will be few vacant seats during the week. Elaborate preparations have been made to provide medical assistance in case of accident or sickness and a corps of physicians and surgeons, with a large number of assistants and nurses will be on duty in and around the aviation field during the entire duration of the meet.

The events will begin each day at 8:30 in the afternoon and will continue until seven o'clock. The program has been so arranged that there will be no waits between events and there will be something to see all the time. The program for the week includes forty-eight separate events, including four cross-country and cross-water flights, in which \$12,000 is offered in prizes. There will be twelve speed events with a total of \$14,000 in prizes, with separate prizes for monoplane and biplane in all but two of the events. In the passenger carrying contests prizes amounting to \$15,000 will be competed for, not counting a number of special prizes for various special feats. There will be five altitude prizes aggregating \$10,000 and big special prizes in the quick climbing contest, accuracy, starting and landing contests, etc. A minimum of \$2 a minute will be allowed each aviator for the time he is in the air during flying hours, whether he wins a prize or not and \$10,000 will be distributed among the aviators who remained in the air the longest time during the official hours of the meet. In addition to the prizes provided by the organizers of the meet many cups and prizes for special feats have been offered by leading hotels and business houses. The profits of the meet are to go to charity.

Togo Ends Philadelphia Visit: Philadelphia, Pa., Aug. 11.—Admiral Togo concluded his Philadelphia visit today with an automobile ride to various points of interest about the city followed by a luncheon at which he was the guest of a committee of prominent citizens. At 4 o'clock this afternoon the eminent Japanese naval commander and his party, traveling in a special car, departed for New York. McCarty's Leader smoker 15c per 5c.

## OIL COMPANY TO START TWO WELLS

Special to the Times. Electric, Texas, Aug. 11.—The Red River Oil Company has constructed a 4000 barrel cypress tank for the storage of the oil from the gusher brought in Monday afternoon, in addition to the 250 barrel metal tank that was washed to the well immediately after the flow was struck. In addition a crew of men are at work laying a four-inch pipe line to the Corsicana loading rack and the production will be shipped away as fast as possible. The company is planning to save the gas from the shallow sand, which was struck last week, and will use it for fuel.

The stake has been driven for another location about 300 yards west of the well brought in, and still another location will be decided upon within the next few days.

**Youth Kisses Fifty Girls**  
In Store; Gets Ten Days.  
It was the strange ambition of Charles Tully, 15 years old, to kiss all the girls in a Trenton, N. J., department store, and he had made good to the extent of kissing 50 of them before he was arrested.  
He announced on entering the store that he intended to slight no girl and started in. The first he kissed boxed his ears, but he continued on his rounds, kissing one on the lips, the next on the cheek, others on the forehead and a few on the neck.  
He received ten days in the county jail, one day for each five kisses, the court figured it out.

**Man and Wife Fight for Use of False Teeth.**  
Mary Myerly and her aged husband had but one set of false teeth-between them at Ellwood, Ind., and when it came her time to eat supper, he refused to hand them over, so she hit him over the head with a rolling pin and the teeth fell to the floor, smashing the plate.  
The couple now have no teeth and no money to buy new ones, so they are unable to eat any solid food and have to subsist on soup and hash.

**Wedding Ceremony Is Held 350 Feet in Air.**  
Daring death, Alfred W. Adson and Laura G. Smith roped themselves and the Rev. C. R. White together, made the ascent like Swiss mountaineers and were married on the point of a needle-like pillar of granite, 350 feet high, at Boulder, Colo.  
The space was so slight they had to huddle together during the ceremony. Dozens of friends looked on from autos at the base of the rocks.

**Court Enjoins Wife From Telephoning to Husband.**  
Mrs. Homer E. Webster has been enjoined by court order at Chicago from telephoning her husband during his office hours. He is a house surgeon at the Polyclinic Hospital.

**Her husband's lawyer told the court Mrs. Webster frequently interrupted the doctor in the middle of an operation to tell him the next door neighbors had moved, or that Mrs. Smith had a new hat.**

**Woman Kindles a Fire With \$10 and \$20 Bills.**  
Mrs. H. C. Mason, after kindling a fire with scraps of paper at Union Grove, N. Y., discovered that she had used one \$20 and three \$10 bills.  
She hastily put out the fire and found a lot of charred fragments she has sent to the treasury department for redemption.

**Dead at 104, Leaves Brother 107 Years Old.**  
Mrs. Lucy Selig Hickey, who died at the age of 104 years, was buried at Gloucester, Mass., in a shroud she made for herself many years ago. She is survived by a brother in Portugal, Nova Scotia, 107 years old.

**Falls Eleven Stories.**  
And Only Gets Scratch.  
After he had fallen eleven stories in the Hotel Taft at New Haven, Conn., John Fisher found he was unhurt, except for scratch under one eye.  
Fisher was on a hoisting elevator, which broke and dropped him to the basement.

**Swarms of "Chiggers" Drive 200 Men From Their Work.**  
Two hundred laborers, employed by the Illinois Central Railroad on construction work near St. Louis, were driven from their jobs by hordes of "chiggers." At first the pests were thought to be bed bugs that had invaded the shacks where the men slept, but examination showed that the grass on both sides of the roadbed was literally covered with "chiggers."  
"We quit da job; too moocha da scratch," was the note left behind by the fleeing men.

**Notes from Labor World**

In Switzerland the railway workers have an 82 per cent organization.  
The corner stone of the Labor Temple in Utica, N. Y., will soon be laid.  
Thirteen states have boiler inspection laws and fourteen officially inspect bakery shops.  
Winnipeg (Manitoba) Trades and Labor Council will move to have a municipal fair wage officer appointed.  
The amount that may be recovered for death by industrial accidents in Minnesota has been increased from \$5,000 to \$7,500.  
An organized effort will be made by the glass workers of the country to minimize the amount of the machine-made product.  
The proposed strike of street railway men at Des Moines, Iowa, has been approved by the Amalgamated Association of Street Railway employees.  
The French workmen's pension law calls for a contribution of about \$1.50 a year by each beneficiary an equal sum by his employer, and the State adds a third.  
The federation of trade unions connected with the building industry in France has decided the bodies which form it shall no longer take part in any building operations connected with prisons.  
At the fifty-seventh annual convention of the International Typographical Union, which will be held in San Francisco August 14, to 19, Texas delegates will make an effort to secure the 1912 meeting for Houston.  
There are now affiliated with the American Federation of Labor 120 international unions, 39 state federations, 632 city central bodies, 431 local trade unions and 218 federal labor unions, making a total of 1,438 organizations.  
A recent convention of the Ohio Bricklayers, Masons and Plasterers' Association by unanimous vote recommended the establishment, in some city yet to be selected, of a home for aged or disabled members of the organization.  
The San Francisco Labor Day committee has decided to offer prizes to the pupils of the public schools for the best essays on labor and the significance of Labor Day, also a special prize to be awarded to the school of

THE JUNE TERM OF THE DISTRICT COURT OF WICHITA COUNTY adjourned yesterday, after being in session for ten weeks. It has been an unusually busy term, during which time 95 cases were disposed of. In this respect, it has been a record breaker, and although Judge P. A. Martin is new on the bench, every attorney who has practiced in his court has something very complimentary to say of him, for his

fairness to both sides in a case, and his ability as a trial judge. In this respect, in the opinion of most of the attorneys, he is the best in Northwest Texas. The other day a state bank at Houston failed, and this will give to the public a tolerably fair way to determine how well or how badly the guarantee system works. If the law is complied with all depositors will be paid in full out of a fund set aside for such emergencies, and this fund will be replenished by assessments made on the other state banks. The time deposits, (those who placed their money with the failed bank for a specified time and to draw interest) will have to take their chances at getting their money back.

Miss Camille and some of her pets, at the Lamar Arcade tonight.

VICTIMS OF TRAGEDY BATTLE WITH DEATH (Continued from Page 1.) found a .22-calibre hammerless Harrington and Richards revolver containing six empty cartridges. Physicians in the meantime had been summoned for both victims. Upon examination it was found that one bullet had entered Mrs. Hursch's body at about the waist line above the right hip, passing through her abdomen. Another bullet three inches above this one probably penetrating the liver, the third entered about two inches to the right of the median line apparently going straight through the lung. Either of these shots might prove fatal yet there is a possibility that she can survive. Dr. Meredith was the first physician to reach her, Doctors Miller, Reed, A. A. Jones and W. H. Walker arrived later and attended to her until Dr. Yantis arrived and was given charge of the case.

The Wichita State Bank Wichita Falls, Texas This Bank and Your Business There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go? The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed. The small bank, however, can give your business more time and attention, for it is interested in your success. This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention. The Wichita State Bank Wichita Falls, Texas

BANQUET PROVIDED PLEASING FEATURE At the banquet at the Westland Hotel last evening, given by the Chamber of Commerce complimentary to the visiting passenger men, F. H. CITIES ARE AFTER STATE PIKE ROAD Shreveport, Aug. 11.—A macadamized pike two hundred miles long connecting Shreveport and Dallas, via Marshall, Longview, Grand Saline, Mineola, Wills Point and Terrell, is the object of a campaign started here last night when at a mass meeting attended by boosters from these places, a committee was authorized to secure a preliminary survey.

NO MORE SPEECHES ON FRONT PAGES Congressional Record Must Carry Proceedings First in the Future. New Rule. Washington, Aug. 11.—Senators and representatives no longer will have the pleasure of seeing their speeches grace the front page of the Congressional Record. A rule has been adopted and put into force whereby the regular senate proceedings must have first place in the Record, to be followed by the house proceedings, and speeches which have been withheld for revision must tag on at the end. Formerly speeches of this sort had right of way over the report of regular daily proceedings, and in many instances members have held their speeches for a week or more so that they might occupy a conspicuous place on the front page of the Record.

BAILEY RESIGNS COMMITTEE PLACE Washington, D. C., Aug. 11.—Senator Bailey today resigned from the National Monetary Commission and his resignation was accepted by the Senate. He announced that he would have objected to the majority report and if the commission was discharged before Dec. 4, as proposed by Senator Cummins it would give him no time to prepare a dissenting report.

MAON PITCHER GOSS UP Chicago, Aug. 11.—William Douglas, a pitcher of the Macon, Ga., club who has won twenty-four games out of thirty-one games this season, will join the Chicago Americans here on Sept. 1, it was announced by President Comiskey today.

BURKBURNETT HAS A NEW SCHOOL BUILDING Structure Erected at Cost of \$16,000 and is Credit to That Little City. Special to the Times: Burkburnett, Texas, Aug. 11.—Burkburnett's handsome new school building is completed. It is of pressed white brick and reinforced concrete, is practically fire-proof and cost over \$16,000. The splendid new structure is three stories high and contains eight spacious class rooms, library, photographers' room, administration room, physical laboratory, two music rooms and an auditorium. On the first floor are located four class rooms, 23x30 feet, with separate cloak rooms, and apart with 44-foot halls. Four class rooms of the same dimensions are on the second floor with a 14-foot hall running north and south and a broad vestibule through the center east and west. The library and administration rooms are also situated on this floor. The third floor is occupied by two music rooms, the physical laboratory and the spacious auditorium, 72x75 feet which is well lighted and ventilated and will seat 600 to 700 persons. The auditorium has a stage 12x50 feet with two large dressing rooms. The lower rooms are entered from without by four separate entrances provided with doors that open out from the hallways, and from within by swinging doors. The second floor is reached by three sets of concrete steps from the outside and two stairways from the lower floor. Two broad stairways lead from the vestibule of the second to the third floor. The interiors of the two lower stories are finished with plastered walls and ceilings, over solid concrete with the wood work done in dull oak. The third floor has plastered walls, dull oak finished wood work and ornamental metal ceiling. The floor of the vestibule is of art tile. Furniture of the very latest designs has been purchased for the various rooms, including 600 elegant seats for the auditorium. The building is constructed of the very best materials throughout, having heavy brick outside and reinforced concrete inner walls and a heavy metal roof. It is well lighted, modern, convenient and sanitary. It is a beauty from every viewpoint and the product of which every citizen of the Burkburnett Independent school district has just cause to feel proud. Stonecipher & Smith Drug Co. The new firm. OUSTED FOR ATTACK ON WOODROW WILSON Chairman of New Jersey State Committee is Kicked Out of Party. Ardury Park, N. J., Aug. 11.—Fourteen members of the Democratic state committee—the exact number necessary for a quorum—voted this afternoon to declare vacant the chairmanship of the organization, occupied by James R. Nugent, who was recently asked to resign because of his alleged reference to Governor Woodrow Wilson as "an ingrate," and in other opprobrious terms. Their action followed a rising which the police were called on to quell, and was taken after Nugent and a supporter had left the room, and the quorum had been re-established by other members of the committee. At his Seaside residence tonight Governor Wilson smiled when told of the result, but made no comment. B. Y. P. U. Assembly, Palacios, Texas, Aug. 11.—Religious services, sermons, exercises in instruction occupied the B. Y. P. U. today the first sermon of the day being preached by Rev. Dr. Truett at 8 o'clock a. m.

BAILEY RESIGNS COMMITTEE PLACE (Continued) Washington, Aug. 11.—Senators and representatives no longer will have the pleasure of seeing their speeches grace the front page of the Congressional Record. A rule has been adopted and put into force whereby the regular senate proceedings must have first place in the Record, to be followed by the house proceedings, and speeches which have been withheld for revision must tag on at the end. Formerly speeches of this sort had right of way over the report of regular daily proceedings, and in many instances members have held their speeches for a week or more so that they might occupy a conspicuous place on the front page of the Record.

LADS WON LOOSELY PLAYED GAME

TWELVE HITS AND EIGHT ERRORS NETTED THEM TEN RUNS.

MULLINS IS HIT HARD

But Took His Pounding Stoically Pitching the Full Nine Innings.

Durant, Okla., Aug. 11.—Twelve hits, eight errors and a base on balls netted Wichita Falls ten runs in a poorly played game here yesterday, while Durant was able to score but six times on ten hits, four errors, two hit batters and three passes. Both McKee, for Durant, and Mullins for Wichita Falls, went the full nine innings each taking a pounding stoically. Score: Durant, 10; Wichita Falls, 6. Cleburne 8, Ardmore 4. Cleburne, Texas, Aug. 11.—Cleburne won over Ardmore again yesterday by a score of 8 to 4. The locals had Brown in the box, but owing to stage fright he was not effective. The visitors had made four runs; just then Ritter called Stewart from center field and put him in the box. At the same time the visitors withdrew Thrallkill from the box and put in Trammell. In the sixth inning the locals made five runs, also one in the seventh. Grady Waite and Reynolds featured for two base hits. Dad Ritter went from first to the catcher's position. Pitcher Hiett went to first and Jutzie held down center for the locals. It didn't make any difference where located the locals played to win.

Chasley Herzog, clever shortstop and lousy hitter, who has been traded by the Boston Nationals back to the New York Giants, whence he came originally. The Hub's acquisition in the deal are shortstop Bridewell and first baseman Gowdy, the young Texan. It is a two-for-one proposition, and Muggsy McGraw thought Herzog worth more than Bridewell and Gowdy put together, showing he has no mean opinion of this angular youth.

CORE OF THE EARTH.

It May Be a Mass of Steel Some 5,580 Miles in Diameter. Various conjectures have been made from time to time by geologists as to the possible condition of the center of the earth. One of the most popular impressions seems to be that the earth's center, or core, is a flaming furnace. At a meeting of the Seismological association at The Hague Professor Weichert asserted that his studies of the varying velocity of earthquake tremors passing through the interior of the globe have led him to the conclusion that the earth consists of a central core of iron or steel, about 5,580 miles in diameter, surrounded with a stony shell 900 miles in thickness. Between the outer solid rind and the inner layer of rock, covering the metallic core, he thinks there is a layer of liquid plastic material, being a little less than twenty miles below the surface of the earth.

Men sometimes dream of enormous wealth stored deep in the earth below the reach of miners, but experts now aver that there is little or no ground to believe that any valuable metallic deposits lie very deep in the earth's crust regardless of Professor Weichert's beliefs to the contrary. Such deposits, it is said, are made by underground waters, and owing to the pressure on the rocks at great depths the waters are confined to a shell near the surface. With few exceptions ore deposits become too lean to repay working below 3,000 feet. Nine mines in ten, taking the world as a whole, are poorer in the second thousand feet than in the first thousand, and poorer yet in the third thousand than in the second.—New York World.

To Sleep Miscegenus. Simple cases of hiccough are often relieved by such measures as sucking ice or taking salt and vinegar, says the New York Medical Journal. Pulling the tongue forward and holding it for some time is an effective procedure. Sometimes obstinate hiccough is relieved when the patient is strong by having him hang with the arms extended and grasping some beam or pole, so that his feet do not touch the floor. With all the abdominal muscles tense, have him hold his breath as long as possible. Sneezing is very efficient in certain cases, since it is the exact opposite to hiccough, being a sudden expiratory act.

McSwiney's Gun. Near Horn Head, County Donegal, Ireland, there is a hole in the rocks called McSwiney's gun. It is on the southeast and is said to have connection with a cavern. When the north wind blows and the sea is at half flood the wind and the waves enter the cavern and send its jets of water from the "gun" to a height of more than 100 feet. The jets of water are accompanied by explosions which may be heard for miles.

More Worry. "I didn't know you admired that of ficial." "I don't," replied the politician manager. "Then why do you insist on crediting him with a presidential boom?" "Merely to make his life harder by giving him something more to worry about."—Exchange.

Be Slow to Indorse. "A man should think before he speaks," said the prudent youth. "Yes," replied Dustin Stas. "And he should think still harder before he writes his name on the back of any sort of document."—Washington Star.

All Must Help. A wise man who does not assist with his counsel, a rich man with his charity and a poor man with his labor are perfect nuisances in a commonwealth.—Swift.

A GRANITE BOMB.

Jack Frost Murked It Down into the Yosemite Valley. Delicate frost tracings on the window panes mean to be the work of fanciful and harmless sportiveness. But the hand that forms them is capable of greater deeds and of other kinds. Mr. J. Smeaton Chase, in "Yosemite Trails," describes an experience that must have been wonderfully impressive to the spectator. He had been spending some weeks in exploring the Yosemite valley and the "great rocks," like El Capitan, that wall it in.

Standing one day of late autumn about the middle of the valley, I was startled by a report like a cannon shot, which filled the whole valley with echoes that roared and boomed, repeated and multiplied, in a long continued, glorious tumult.

As the deafening sound died away in sullen mutterings under the vizzor of El Capitan I was able to distinguish the point of attack by the long, clattering descent of a vast quantity of rock. The night had been a cold one in the valley, and on the seven to eight thousand foot levels of the upper rim the temperature must have dropped almost to zero.

From working quietly with his Archimedes lever, had just succeeded in shifting from the shoulder of the sentinel a trifle of fifty tons or so of granite. For near a thousand feet the bowlder fell sheer, swift and silent; then, striking the cliff, it burst like a bomb, shattered into a myriad flying shards and splinters and dislodged a smother of fragments that trickled down to the valley in a stream that lasted for minutes.

Then from the spot where the bowlder had struck dust began to rise into the seamy air, slowly building up and burgeoning like a summer cloud and every whit as snowy. It was the door of granite, powdered instantaneously by the terrific shock.

Gowns and Omens. Odd Superstitions That Darken the Dressmaker's Shop. "Women who wear fine dresses are as superstitious as the girls who make them," said a dressmaker. "If the little accidents that happen in the workshop were not mercifully concealed from the owners of rich gowns they would be sick with apprehension half the time. I had one customer who refused to accept a very expensive dress because a girl who assisted with the fitting dropped a pair of scissors, which fell point down and stuck in the floor. That meant an order for mourning within six months. The customer hoped that by refusing the hoodoo dress she could avert the calamity, but the precaution was useless. In less than three months her father was dead.

"Girls are especially particular in their work on wedding dresses, for if a tiny drop of blood from a pricked finger should fall on the gown the bride would surely die before the end of the year. Then there is green thread. Whether the customer is there to see it or not, no dressmaker will keep green thread near spoils of another color. Green thread used for basting means the return of a dress for alterations, and there is enough trouble of that kind in a dressmaking establishment without deliberately bidding for it.

"Women who are themselves superstitious are never surprised or offended at a sewing girl's untidy culture. The girls tumble their hair about on purpose when working on a large order, for it is a sacred belief among dressmakers that a hair inadvertently worked into the garment shows that more work is coming soon from the same customer."—New York Sun.

A Hospital Nurse's Hands. As an example of trademarks have you ever noticed the hands of the hospital nurse? The soft white hand which in fiction is occupied in cooling fevered brows does not exist and could not. It is a skilled hand, but its work makes it rough and chapped. Try bathing your hands in disinfectants twenty times a day and you will find that, look after them as you may, they will soon be seamed with cracks, which an east wind often turns to bleeding cuts. And as they are worked hard for some twelve or thirteen hours a day the nurse takes a somewhat larger size in gloves than most women. If you ever see the photograph of a hospital nurse you may observe that she prefers to keep those hands behind her back.—London Chronicle.

Longest Family Tree. The biggest family tree in the world is believed to be the one which traces the genealogy of Queen Elizabeth back to King David and thence to Adam, or at least as near to Adam as one could get. The coat of arms is given in almost every case, with full particulars of the dates of births and deaths. The labor of providing coats of arms is abandoned before Methuseh's time, but the chart measures forty-five feet and certainly does take one through a maze of nobility.

The presentation of the destruction of the old battleship Texas in motion pictures at the Gem Theatre last evening attracted quite a large crowd and proved a very pleasing feature of the program. Two other reels presented were good ones and with the evening's entertainment was all that could have been desired. Manager Tritch spares neither pains or expense to provide the best pictures to be had for his patrons, and a good program can be expected at the Gem at all times.

A Prescription is the physician's order and is a most important and complicated one. If your grocer should make a mistake in filling your order, you would detect it and even if you did not detect it no harm would be done, but if your druggist should make a mistake in your prescription you could not detect it and if serious harm or death should result you would still be unable to tell whether it was the medicine or not. We offer you the best that money will buy and the experiences of a life time in the business as an inducement for your prescription business. Palace Drug Store Corner 8th and Wall.
