## TWO BIG SUPPLY HOUSES GOING IN

FRICK-REID AND NATIONAL SUPPLY CO. WILL ESTABLISH SUPPLY STORES AT ELECTRA

### WORK ALREADY STARTED

Two Big Companies Hold Plans Secret Until They Are Ready to Go to Work.

The Frick-Reid and the National Supply companies will at once establish branch houses at Electra. Both concerns have had men here for several weeks and for several days high officials of both companies have been here with the result that both companies will establish houses in the field.

Both announced their plans last night and supplies are already enroute to Electra from factories and warehouses at eastern points.

The National Supply Company, began work on its warehouse and office this morning and the Frick-Reid Co. expects to start work tomorrow. The National Supply Company's warehouse will be 100 by 60 feet.

District Manager B. E. Bryne is here looking after the general arrangement for the opening of the store. It is stated that fifty car loads of supplies are already enroute.

The Frick-Reid Company will award the contract for its building, a corrugated iron structure today and expect to have work started tomorrow. Fifteen car loads of material consigned to this company are on the road and are expected to arrive tomorrow.

R. S. Smith, representing this company has been in the field for several weeks.

Sunday, Frank Sowers, general manager, came down from Tulsa and after looking over the field lost no time in ordering a stock of supplies.

The decision of these two companies to establish supply houses is a further confirmation of the expectations that the Electra field will be one of the best in the country.

### OFFICIAL CALL.

Central West Texas Dry Farming Congress, Abilene, Texas, on Sept. 27-28.

In accordance with the action of the Central West Texas Dry Farming Congress at its meeting in Haskell last October in accepting the invitation of the 25,000 club and accepting Abilene as the place for its next meeting, it is hereby announced that the second annual meeting of the Central West Texas Dry Farming Congress will be held at Abilene, Texas, Sept. 27 and 28.

The general object of this association of farmers and business men is to study and ascertain, so far as may be done, the methods of soil preparation and culture and the crops best suited to the soil, climate and seasonal conditions of our section of the state.

## Program Sunday School Rally First M. E. Church Sunday Night

At a recent meeting of the Sunday school workers representing the several churches of the city, it was decided to hold a special rally service in the interest of the coming Sunday School Convention. The workers feel that this convention ought to be worth much to our city. It means much to entertain delegates from twenty of the best counties in Texas. Too, the large tour party of eminent experts in the Sunday school work are coming. Wichita Falls must be made to see that the opportunity which this gathering brings to our doors is large with possibilities, and that we can be content with doing nothing short of our best. The rally service will be held at the First M. E. Church, South, at 8:15 o'clock.

The program will be as follows: Invocation—The Lord is in His Holy Temple.

Hymn 420—True-Hearted, Whole-Hearted, by congregation. Special music. Responsive Reading followed by the Gloria Patri.

## STREET SWEEPER NOW IN SERVICE

The new street sweeper was put in to service last night for the first time and the saving presented a decidedly improved appearance this morning. On account of the accumulated dust the sweeper raised quite a fog and the sidewalks were covered this morning much to the discomfort of those who do the sweeping at the different stores. However, by using the sweeper daily the accumulation will not be so great and this objection will be eliminated.

The work of the new machine was very satisfactory, removing the dust in a way to make the paving much more slighty and render walking thereon more agreeable. This improvement will be especially appreciated on windy days when, with the sweeper in operation daily, the dust will hardly be noticeable in the business district of the city.

### Oil Leases.

Felix Warren to Andrew Benson 400 acres, \$1 and other considerations. Dora Munkel to Andrew Benson 400 acres, \$1 and other considerations. N. H. Martin et al to Andrew Benson, 1772 acres, \$1 and other considerations.

A. J. Davis to Andrew Benson, 200 acres. John Bridges to Andrew Benson, 150 acres.

### Real Estate Transfers.

Daisy D. Grant to E. J. Nolan, lot 10, block 227, \$2650.

## 40,000-BARREL TANK IS BEING ERECTED

MAGNOLIA REFINING COMPANY HAS STARTED WORK ON STEEL STORAGE TANK.

### WEEK'S DEVELOPMENTS

Dozen New derricks going up. Corsicana Company Digging Earthen Tank.

The Electra News this week contains the following partial list of new developments in the oil field there this week:

Bell & Company have a derrick built near the northwest corner of the L. P. Douglas tract and will begin drilling as soon as everything is completed.

The Producers Company have completed a rig about three hundred yards from the west line on the J. H. Marriott tract.

The Palmer Oil Company are building a rig about two hundred yards from the southeast line of the W. J. Sheldon tract, one-half mile from the Red River, No. 1.

W. J. McCallister this week installed a Star rig about one hundred yards from the south line and near the center of the W. J. Sheldon tract.

## Program Sunday School Rally First M. E. Church Sunday Night

At a recent meeting of the Sunday school workers representing the several churches of the city, it was decided to hold a special rally service in the interest of the coming Sunday School Convention. The workers feel that this convention ought to be worth much to our city. It means much to entertain delegates from twenty of the best counties in Texas. Too, the large tour party of eminent experts in the Sunday school work are coming. Wichita Falls must be made to see that the opportunity which this gathering brings to our doors is large with possibilities, and that we can be content with doing nothing short of our best. The rally service will be held at the First M. E. Church, South, at 8:15 o'clock.

The program will be as follows: Invocation—The Lord is in His Holy Temple.

Hymn 420—True-Hearted, Whole-Hearted, by congregation. Special music. Responsive Reading followed by the Gloria Patri.

## WOLTERS SECURED HABEAS CORPUS WRIT

ANTI-LEADER SENTENCED BY HOUSE TO TWENTY-FOUR HOURS IN JAIL.

### IN CUSTODY HALF HOUR

Criminal Court Admits Him to Bail and Case is Set for October 11th.

Special to the Times. Austin, Texas, Aug. 25.—After 69 to 52 had voted to commit him to jail for twenty-four hours for contempt in refusing to answer certain questions propounded by the investigation committee, Jake Wolters, chairman of the anti-statewide prohibition organization was granted a writ of habeas corpus after he had been in custody a little more than half an hour.

Immediately upon the writ application for a writ of habeas corpus was made before the criminal court which after half an hour's deliberation released him at 10:20 o'clock this morning under \$500 for his appearance at the hearing which was set for October 11.

Public interest shifted from the House to the Senate this morning when H. M. Gray, a Houston attorney and anti worker was arraigned before the Senate bar, charged with contempt for refusal to answer questions by the investigation committee. He appeared accompanied by attorneys. By resolution the Senate voted to allow each side two and a half hours to present their respective cases. Argument began at 11 o'clock.

The Senate devoted a part of the morning to considering the House bill for re-apportioning the State into senatorial districts. The House spent the major part of the day considering the same measure and several changes were made in the bill.

ter of the W. J. Sheldon tract.

The Red River Oil Company completed the rig on their location No. 3 and are building theerrick for No. 4.

The Corsicana Petroleum Company has the rig completed for Woodruff & Putnam No. 8 and have the derrick built for No. 9. They have also selected a new location on the Allen lease about four hundred yards north of the Indiana well. The same company has twelve teams at work building an earthen tank on the north end of the W. J. Sheldon tract, and have increased the capacity of their pumping station on the Woodruff & Putnam lease. The Magnolia Refining Company has nine or ten teams at work on four 40,000 barrel steel storage tanks on the Eckleamp farm north of town. These tanks will be connected with the oil field by an eight inch pipe line, and the location is such that oil will gravitate to it from any part of the field.

Work has been resumed on Woodruff No. 1 and Cross No. 1. These rigs have been idle for several weeks.

R. S. Allen is laying a water line from the springs on his place northwest of the city to the field.

The 99 Pumping Company has let the contract and ordered the machinery from Louisiana and as soon as it can get here and be installed work will begin on their lease on the W. J. Sheldon tract.

The Texas Refining Company has their 37,000 barrel storage tank about two-thirds full and will immediately begin the erection of a loading rack to take care of the oil shipments.

The companies now developing in the field are: The Producers Co., Corsicana Petroleum Co., Electra Oil and Gas Co., Red River Oil Co., Honaker-Electra Oil and Gas Co., Overman & Neff, Mathews Oil Co., W. J. McCallister, Palmer Oil Co., Bell & Co., 99 Pumping Co., and Wm. Morris.

### Woman Charged With Bigamy.

By Associated Press. Denver, Colo., Aug. 25.—Extradition papers issued in Texas for Mrs. G. W. Rowle, of Anson, Texas, charged with bigamy, have been honored by Governor Shaffroth, of Colorado, and the Sheriff of Jones County, Texas, today is on his way to the Rowle ranch in the southern part of the state to arrest the woman.

## BATTLESHIP UTAH IS NOW COMPLETED

Philadelphia, Pa., Aug. 25.—The giant battleship Utah will be turned over to the Government at the League Island Navy Yard tomorrow by her builders, the New York Shipbuilding Company of Camden. The Utah and her sister ship, the Florida, now nearing completion at the Brooklyn Navy Yard are the latest and brightest fighting units in the United States Navy and one or the other will supersede the Connecticut as the flagship of the Atlantic fleet.

The Utah was built and equipped in record time and when turned over to the Government tomorrow will have taken only a little over eighteen months to be made ready for active service. It is expected a speed of 23 knots will be made by the vessel, propelled by the enormous turbine engines of the Parsons type. She is the first of the large battleships to use these turbines.

When completely manned the Utah will carry 1,000 officers and men, and will have the largest steaming radius of any vessel at present in commission because of the unique feature of the oiltanks constructed along the bottom of the ship, which will carry a large quantity of fuel oil to be used under the specially arranged boilers.

## GLASS FACTORY READY TO MOVE

Secretary Day of the Chamber of Commerce today received a telegram from the Chauvin Window Glass Company with reference to the removal of their factory to this city from which the following is reproduced:

"Answering your wire please note your end ready for ratification our stockholders meeting Monday, 23th. Believe negotiations will be approved. Actual work tearing down will commence early next month."

From the above it will be inferred that the stockholders meeting to have been held on the 24th, has been postponed until the 28th, until which time the matter will not be finally closed up. However as indicated in the telegram, there seems to be no doubt but that the company will ratify the agreement made by Mr. Hudson with Messrs. Kemp and Kell at Colkado Springs early in the week after which the actual work of tearing down the plant will begin, as stated in the message.

## GOOD RAINS IN SOUTHWEST TEXAS

The Associated Press reports good rains last night and this morning in Southwest Texas, extending as far north as Abilene. Only a drizzle fell north of Abilene extending as far north as Haskell.

Abilene, Texas, Aug. 25.—A steady rain is falling in this part of the state this morning.

San Angelo, Texas, Aug. 25.—A general rain fell last night and this morning over the entire Comcho country.

El Paso, Texas, Aug. 25.—A general rain is falling over entire Western Texas.

San Antonio, Texas, Aug. 25.—A light rain fell here this morning.

Snyder, Texas, Aug. 25.—A slow working rain is falling here.

## 25 REPORTED KILLED IN WRECK

Lehigh Valley Train Loaded With G. A. R. Men Goes Through Trestle in New York.

By Associated Press. Rochester, N. Y., Aug. 25.—(Bulletin)—The Chicago-Buffalo train No. 2 on the Lehigh Valley is reported to have gone through a trestle at Manchester in Ontario county. The train was loaded with Grand Army veterans. The accident occurred at 12:30 and telephone advices says that twenty-five were killed and fifty injured.

## OPINION MOULDERS GUESTS OF CITY

NORTHWEST TEXAS PRESS ASSOCIATION NOW IN SESSION AT CHAMBER OF COMMERCE.

### THE ATTENDANCE IS GOOD

Editors Will Enjoy Auto Ride to Lake This Evening Which Will Be Followed by Banquet.

The Northwest Texas Press Association convened in this city this afternoon at 2:30 o'clock with a fair attendance and much interest on the part of those present. The meeting which is being held in the rooms of the Chamber of Commerce at the City Hall, was called to order by Cyrus Coleman of the Henrietta Independent who is president of the association. City Attorney Fred Householder welcomed the visiting editors on behalf of the city, to which the response was delivered by W. C. Edwards of the Denton Record-Chronicle. In the absence of Harry Koch of the Quannah Tribune-Chief, who was unable to attend.

The president appointed Ed Howard, L. E. Stone and A. Tonn as a committee on membership and several applications were received and reported on favorably by the committee, after which President Coleman delivered his annual address, embodying a review of the life of the association, its record in the past and capabilities for good in the future. The address was full of good, sound logic and was listened to attentively and with much interest by those present.

The meeting was still in progress as the Times goes to press, the program for the remainder of the afternoon session embodying a discussion of "Newspaper Consolidations, Why, How, When?" by Ralph Shuffler, of Olney, and "How I Estimate the Price of Job Printing," by L. E. Stone of Wichita Falls.

At 6:30 the editors will be taken for an automobile ride over the city and to Lake Wichita with the compliments of the Wichita County Good Roads Club.

At 8:30 a banquet will be tendered at Lakeside Hotel with the compliments of the Chamber of Commerce for which the following program has been arranged with F. H. Day, secretary of the Chamber of Commerce as Toastmaster:

Convention called to order in the Colonade.

"What is a Square Deal as to Public Men and Public Questions?" A. M. Beveille—News, Clarendon.

"The Editor as a Politician" W. A. Johnson—Herald, Memphis.

"Can an Editor Grow Rich?" Joe Ray—Record, Vernon.

"Joint Interests of the Newspaper and the Farmer," Tom Marks—News, Jackboro.

"Reminiscences" J. M. Shafer—Herald, Plainview.

The program for tomorrow will embody a business session with program in the morning and a trip to the Electra oil field in the afternoon.

Among those in attendance at the meeting this afternoon are: Cyrus Coleman, president, Henrietta Independent; Orion Proctor, secretary, Bridgeport Index; W. C. Nix, Henrietta Searchlight; A. Toth, Truscott News; O. C. Harrison, Seymour Banner; E. H. Bowron, Graham Leader; Ralph Shuffler, Olney Enterprise; B. F. Mitchell, Gainesville Signal; W. C. Edwards, Denton Record-Chronicle; R. H. Beveille, Clarendon News; Mrs. W. A. Johnson, Memphis Herald; Ed Howard, Wichita Times; A. C. Bush, Wichita News; L. E. Stone, W. H. Daugherty, Joe Simpson and Eugene Thompson of Dallas and W. D. Cox of New Orleans. Other members of the association are expected to arrive on trains tonight.

### Trimbale Elected.

Rochester, N. Y., Aug. 25.—Judge Harvey M. Trimbale of Princeton, Ills. was elected commander in chief of the Grand Army of the Republic today.

### Legalized Saloons Win.

Birmingham, Ala., Aug. 25.—While two or three boxes are set to be heard from officially, the returns give a victory for the legalized saloons in this "Jefferson" county by a little more than 1600 in yesterday's election.

## BODY OF MRS. BAILEY REMAINS UNCLAIMED

Another note found pinned inside her waist may throw further light on the suicide of Mrs. P. A. Bailey; the bride of five days who ended her life at the Modern Rooming House yesterday by swallowing carbolic acid.

This note called upon God to witness that she had always been true to Bailey. This and the other note found in the room with her body revealed that the news be conveyed to Bailey that she died of a broken heart, indicates a misunderstanding between Bailey and his bride, which may account for his disappearance.

Nothing can be learned concerning Bailey or his present whereabouts. He had been in town only a few days before he married the girl who was a waitress at the Union Station lunch room.

It is said that he came here from Bowie, but a message to that place has failed to locate him. The woman's body has been removed to E. S. Hill's undertaking establishment where it will be held several days in the hope that word can be had from her relatives or friends.

It is said that before coming to Wichita Falls she had been employed at the Richelleu Hotel in Fort Worth. A short time before she took the acid it is said she attempted to reach some one living on Galveston avenue in Fort Worth by long distance phone.

## AVIATOR ATWOOD REACHES NEW YORK

LANDED AT GOVERNORS ISLAND AT 2:38 O'CLOCK THIS AFTERNOON.

### WORLD'S RECORD BROKEN

Flight From St. Louis to New York Longest Ever Made By Any Aviator.

By Associated Press. New York, Aug. 25.—Starting from Nyack at 1:53 this afternoon Harry Atwood landed at Governor's Island at 2:38, having completed a record-breaking flight from St. Louis to New York.

The flight is the longest ever made by any aviator and speed records were also broken.

Nyack, Aug. 25.—Atwood starts for New York at 1:53.

Tarrytown, Aug. 25.—Atwood passed here at 2:02 in his flight to New York.

Yonkers, Aug. 25.—Atwood passed here at 2:12.

New York, Aug. 25.—Atwood crossed New York City line at 2:18 at a record broken flight.

## Agreement is Reached—Pennant Series Begins Here Tomorrow

The first three games of the post-season series between the Wichita Falls and Cleburne teams will be played here Saturday, Sunday and Monday, after which the teams will go to Cleburne to conclude the series. An agreement was reached last night at 9:30, at which time Manager St. Clair had a conference over the phone with the Cleburne manager and it was decided to begin today the games necessary to decide the pennant winner, exhibition games to be an after consideration. However, a telegram was received this afternoon stating that the team had failed to make connection and would be here tomorrow. This is the arrangement that Mr. St. Clair has contended for since the misunderstanding first came up, except that he was willing to play the first three games at Cleburne, if it was so desired.

It is expected that considerable interest will develop in the series at this place as the matter of winning the pennant for the season is an important one and should call forth a large attendance at all of the games. Both teams are going to play their best and every inch of the ground will be closely contested from the beginning of the first to the conclusion of the last game. Wichita Falls is just now in good condition and should be able to make a good showing against the Cleburne organization. The boys are again getting their hitting habit and it will take some good pitching to keep them from batting across enough runs to win the coveted honor. The team has five good pitchers in Jones, Mullen, Myers, Shoup and Larned, who should be able to hold Cleburne down throughout the series.

## 3 FILE CLAIMS ON OIL LANDS

IT IS CLAIMED THAT VALUABLE LAND IN ELECTRA FIELD HAS NEVER BEEN FILED ON.

### LITIGATION IS LIKELY

Alleged That Variations in Surveys Have Left Out Tract Containing 315 Acres.

Three hundred and fifteen acres of land embracing a part of the townsite of Electra and valuable tracts in the oil field will probably become involved in litigation as the result of the filing of claims under what is known as the "scrip" land act relating to school lands with county surveyor Snoddy together with requests for surveys by three different parties. What will be the outcome of course is unknown but it is certain that the claims will be contested.

It is set forth in affidavits accompanying the petitions for surveys that the land in question still belongs to the state and has never been filed on. These claims result from alleged variations in surveys made over twenty years, the theory being that these variations left a strip starting at what is known as the Stringer corner running thence east to the Douglas corner, thence south to the S. A. and M. G. survey No. 2; thence west to the northwest corner of S. A. and M. B. survey No. 2; thence south a half mile, the area defined being approximately 315 acres.

The alleged variations result from various surveys, the last being made by W. A. McCutcheon in a Day Land and Cattle Company certificate. Engineer Snoddy has not yet made any investigation of the alleged variations and of course could express no opinion as to their validity.

It has been the history of practically every oil field in the country that the titles to the land and the validity of leases has been attacked and sometimes the litigation has greatly retarded the development of the field. The public generally and the operators who have paid out good money as leases for the land involved are hoping that such trouble may be avoided at Electra.

To Address Suffrage Convention. Louisville, Ky., Aug. 25.—The committee in charge of the program for the convention of the National American Woman Suffrage Association to be held here in October announces that among the notable speakers at the gathering will be the Rev. Anna Howard Shaw of Philadelphia, Mrs. Carolyn Bartlett Crane of Michigan, Mrs. Donald R. Hoeker of Baltimore, Miss Mary Johnston, the novelist, and Miss M. Carey Thomas, president of Bryn Mawr College.

## W. L. DOUGLAS

**\$5.00 \$4.00 \$3.50 & \$3.00 SHOES**

Particular men want shoes made by particular workmen. In W. L. Douglas shoes they get what they ask for and come back for another pair and then another. Each pair of shoes put out by my organization is the very best that can be made.

W. L. Douglas shoes are worn by more men than any other make. Quality counts. My shoes have the largest sale in the world, largely because strictly honest materials and expert workmanship are behind each pair. If you want a perfect-fitting, comfortable, wear-resisting shoe that you will be proud to show your friends, visit my nearest agent and get a pair of W. L. Douglas shoes. Price \$3, \$3.50, \$4, and \$5. Union made, with fast color eyelets.

## THE DECEPTION OF PIKE'S PEAK GREAT

A SMILING FACE HIDES MANY A STORM AND NUMEROUS DANGERS

### HAS HAD MANY VICTIMS

Every Summer a Horde of Tourists, Improperly Clad, Attempt to Climb to the Summit.

Colorado Springs, Colo., Aug. 25.—America's Mount Blanc is smiling today, just as it always smiles, its patches of pinkish white snow showing hazily soft in the Colorado sun. Its reddish boulders and phases and clefs beckoning just as they always beckon with an appeal which cannot be denied and which Tuesday tempter W. A. Skinner of Dallas, Texas, and his wife to death.

It is an old story in Colorado Springs—these tragedies of Pike's Peak. Many a person, spurred on by that beckoning, purplish white haze as its summit has struggled upward to find itself in the blue with its steepness, its rarity of air, the difficulties, the cold, the sudden storms of hail and wind and sleet and snow. Often they who seek the summit at this season by climbing are rewarded with victory. Often the adventurous ones return, weakened by fatigue and now bleed, only to be blimped high by that smiling, reflection of the sun light on the snow—a reflection which can fade into bitter cold as rapidly as the working out of a magician's illusion.

Pike's Peak does not have its fatal ity every year. But it does have its victims, men and women, invalided or injured. Usually the victims are persons who attempt the ascent with just such a lack of preparation as the victims of this week had. Every summer hordes of tourists attempt the climb to the summit, most of them physically unfit and improperly clad for such an arduous trip.

Old Pike's Peak is not a mountain to be joked with, or approached lightly. There is many a danger in its towering height, many a caprice in its atmosphere not apparent from Colorado Springs. From there it usually appears the same; now and then a cloud hiding its summit, then clearing. No effect from that cloud is felt in Colorado Springs. So, therefore why should the weather be any different a bit higher up? It was, perhaps this lack of reasoning which just sent two persons to their death.

And they were not the only ones who did not stop to think.

For instance, it is morning in Colorado Springs. The sun is warm reflecting the dull granite reds and mossy greens of the foothills, merging into the hazy purplish brown of the summit. The peak looks down with friendly frown. In the lobby of the Antlers things are dull. A few persons, clad in summer garments are roaming about; the waiter's malt has come in and the waiters are distributed; there is nothing to do until evening, when perhaps there will be the usual visit to the picture shows or the vaudeville or the dance at Broadmoor. Suddenly someone has an inspiration. Why not take a walk up the peak?

So they start, women and men; perhaps careless, wearing light high-heeled shoes, with practically no provisions against sudden changes, perhaps storms that sweep from the west around the towering mountain. The air of Colorado Springs is rare because it is a little above the sea level. They who are starting on their ascent do not stop to think of the vast difference two more miles in altitude will make. They begin their toil.

The trail to the Hair Way House is comparatively easy. There are trees and broad trails and plenty of resting places. Surely this is no difficult, mountain to climb! The high heels and the light clothing have done very well.

Then the troubles begin. The timber line is passed; the rocks and wearisome stretches of granite waste cliffs which seem to go straight up confront them. The lungs begin to ache for air. The wind becomes keener. Clouds sweep in, but one in a few, then disappear. They knives begin to seek the membranes of the nostrils and lance the tender nerves with every breath. Each step becomes more difficult. The strength seems to leave the muscles.

The lightly clothed adventurers begin to shiver with the cold. Suddenly someone stumbles and lays prone a moment. It had been just a bit of dizziness, that was all; things had suddenly gone black for a moment. What is this? A spot of vision—another—another. Nose bleed has be-

gun. The lungs pant for air. The exertion, coupled with the rarity of the atmosphere, double the work upon the tender organs and cause pain with every breath.

Another cloud descends, shrouding avenues. They shudder from the cold, a narrow-chilling wind sweeps across, followed perhaps by rain, hail and sleet. The thin clothing is drenched. The joy of the excursion has departed. Again the dizziness, no nose bleed—perhaps it is a slight hemorrhage. Struggling, panting, almost fighting their way, they drag one foot after another, they crawl, their faces become set, and stern; they battle on. And for what? To reach the summit, just that they say that they have climbed "Old Pike's Peak."

And perhaps, they do climb it, to see the glorious sunrise the next morning and take the cog road back to the city—wiser, more tired, more thoroughly fatigued than ever before in their lives. And again, when awakened and almost ill, they reach Colorado Springs once more, they look over their shoulders to see the peak smiling and beckoning in the same old tempting way. But some times they do not look over their shoulder. Sometimes, instead, the hemorrhage win—or the snow and sleet and chilling winds. Sometimes they do not look over their shoulders, for, like the man and wife whose bodies were found Wednesday, their eyes are closed forever.

The moral, is that it is less exciting but a whole lot more comfortable and enjoyable to ride up and down on the cog road; also, never climb a mountain without being warmly clothed.

It's a Tough Life He Leads.

Although the attitude of mankind is general toward the mosquito is one of intense dislike, coupled with murderous lust, nobody could help feeling interested in the little baby mosquito after reading of its early struggles.

Dr. Adolph Eysell of Berlin has been studying the mosquito, not to find out why it bites and drinks our blood, but to find why it is here at all. His report, made to the German Society of Tropical Hygiene, adds much to the knowledge of the pest's startling babyhood.

It is a well known fact that the baby mosquito, or pupa, begins its food-thirsty existence amid fishy surroundings. Its cradle is a waterproof bag floating about just under the surface of the water of a pond or rain tub. There pupa is just a little brown baby shaped like a comma. When it wants to breathe it wiggles itself up to the surface of the water and draws a fresh supply of air into its waterproof bag or envelope through breathing tubes which project forward and upward from its throat.

From four days to a week it remains in this stage until its development is complete, then it breaks through its envelope.

But how does the baby mosquito burst its envelope and how does it get itself out of its free floating case without allowing a drop of water to get in to clog its wind and ruin its chance of life? There are the puzzling, little considered questions which Dr. Eysell set himself to answer for us.

He tells us that when the pupa has completely matured, it begins steadily to uncurl itself, first to straighten itself out, and then to become concave upward, so that it can touch the watersurface with the tip of its tail at one end and the back while this change of shape is proceeding the breathing tube at the other, ceeding the baby mosquito is taking air in by its breathing tubes with increasing rapidity. It already understands that a transformation is at hand, that its watertight boat was only a temporary abiding place, and that it is about to leave the rolling sea, otherwise a rain tub and go ashore. Baby also understands that in order to get clear of its envelope it must separate itself all around. It does this by inflating a space all round itself.

The dilation of baby's balloon-like cradle makes it float in the water, but the mosquito still keeps on pumping in air, until the envelope cannot withstanding the pressure. There is the baby mosquito, perhaps, at a deafening explosion—deafening though human ears could not hear it—as the envelope bursts asunder along the line of greatest weakness.

As soon as the mosquito gets its head out and begins to look around it swallows large quantities of air—so much, in fact, that its body becomes much inflated and altogether too large for the narrow space and of the envelope out of which it gradually emerged.

At the end of the body travels forward the inferior part of the abdomen turns vertically upward at

## GOOD EVENING!

Well it is too hot to mention, a heavy diet to you so I will just mention

## "LIQUOR" AT OYSTER PRICES

Oysters shipped in open tubs have to be re-iced many times in transit. The ice is put in the tub WITH THE OYSTERS. As fast as one piece melts another is put in.

This melted ice washes the fine sea flavor out of the oyster—bloats it—bleaches it—makes it taste flat and insipid.

The melted ice is the "liquor" which is sold to you at OYSTER PRICES.

### Sealshipt Oysters

The full flavor of the oyster and nothing else. Sealshipt Oysters are sold by us exclusively, because they are HONEST oysters—air-tight containers are packed solid with oysters AT THE SEASIDE—and SEALED. Ice is kept packed around these containers during the entire journey, but no ice or water ever touches the oysters.

There is no railroad ice "liquor"—nothing but solid oysters.

Our customers say Sealshipt Oysters TASTE the same and ARE the same as oysters eaten at the shore. Try them yourself and be convinced.

First shipment for this season due tonight. 35c per pint.

# The Wichita State Bank

Wichita Falls, Texas

## This Bank and Your Business

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention, for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.

# Life is Smooth Sailing

After You Have Saved Your Money and Put it in the Bank

Debt is a TERRIBLE MASTER. Debt comes often from unsafe speculation. Instead of listening to the get-rich-quick talk of some smooth stranger, who promises the impossible result of doubling your money in a short while, take banker's advice; PLAY SAFE—bank your money until some good business chance comes. **RIGHT HERE AT HOME** where you can ATTEND TO YOUR OWN BUSINESS. THEN life will soon be smooth sailing.

Let OUR Bank be YOUR Bank.

## One of the First Presidents of the Northwest Texas Press Association

The late Frank Daugherty, of this city, was one of the first presidents of the Northwest Texas Press Association, and until his death a few years ago was an active member of the organization. No editor in the section of the state wielded a more facile and trenchant pen than Frank Daugherty who held the esteem and confidence of all the fraternity in Northwest Texas.

**Will Have Three Hearings.**  
The interstate commerce commission has decided to hold three hearings in September for the purpose of probing the Southwestern rates on live stock and packing house products. One hearing will be held in Fort Worth, one in San Antonio and the third in Oklahoma City. The dates will be announced later.  
The suspension by the commission of the 8 per cent advance in rates on fresh meat, packing house products and live stock from Texas points to the East has given additional color to the case and has doubled the work of the commission.  
The wholesale probe into Southwestern rates has been brought about through a complaint filed several weeks ago against the Gould roads when discrimination in favor of Fort Worth was charged. The rates from Fort Worth to the East by 3 cents. The rate from Oklahoma City to the same territory was 7 cents lower. The reduction made the difference only 4 cents and the Oklahoma City people complained, although the rate was still in their favor. As a result there will be a general revolution of Southwestern rates and experienced rate men say many of the privileges and conveniences that have been enjoyed by both Oklahoma City and Fort Worth, as well as other cities, will be wiped out by the commission.  
**Keep Your Skin Comfortable and Your Complexion Clear During the Hot Weather.**  
If your skin is kept comfortable, you will be comfortable yourself. If you or one of your children are being made miserable by hives, prickly heat, rashes or eczema or if you are worried by pimples, black heads, sun burn or skin trouble of any kind, we want you to try ZEMO and ZEMO Soap.  
We are so anxious to have you use ZEMO and ZEMO Soap that we offer you a generous sample of each and our 32 page booklet "How to preserve the Skin" if you will send five 2c stamps, to E. W. Rose Medicine Company, 3032 Olive street, St. Louis, Mo. to pay postage or get them today from the Miller Drug Store who endorse and recommend ZEMO and ZEMO Soap for all skin troubles whether it be on infant or grown persons.  
We know you will be pleased with results from the use of ZEMO and ZEMO Soap at Miller's Drug Store.

## Notes from Labor World

Of the money contributed to the strike fund in Los Angeles, \$220,745 has been received through the labor council of San Francisco.

There are 21,932 officers and employees in the service of the city of Chicago. Under civil service there are 14,434 and 7,498 are exempt.

Reports from the various coal regions indicate that there has been a decided improvement in the coal mining industry lately and many of the idle men return to work.

The home for superannuated members of the marble trade in California which is now in the course of erection at Santa Monica, Cal., will soon be ready for occupancy.

The June report of the Boiler-makers' and Iron and Steel Shipbuilding Society of Great Britain states that the present membership, including all classes is 54,580.

An army of organizers has just started out over the entire Grand Trunk railroad system with the object of organizing every branch of the service, including the clerks.

The International Brotherhood of Blacksmiths has signed an agreement with the Canadian Northern railroad, with a 2 cent-an-hour advance, and improved conditions in the shops.

The International Brotherhood of Electrical Workers will hold its annual convention in Rochester, N. Y., beginning with Monday, September 18, and continuing two weeks. 150 delegates from the United States and Canada are expected.

At Hardwick, Vt., the granite cutters obtained an increase of from 10 to 56 cents per day, the humpers and drillers an increase of 17 cents per day, while the carpenters, painters and masons secured an eight-hour day besides other concessions.

About ten years ago 25 cents in gold a day was considered a fair wage for a common day laborer in Mexico. Gradually the rate was increased to 35 or 40 cents and continued to increase until now the prevailing rate is from 50 to 60 cents a day.

The Western Federation of Miners has defeated a proposition recently made to call a general strike on the day for the opening of the trial of the McNamara brothers. The vote was 172 against to 124 in favor of the general strike.

For the first time in nearly two years the printing trade union of San Francisco are working together in perfect harmony under the rules of an Allied Printing Trades Council that is recognized by the International Allied Printing Trades Association.

The boiler-makers and helpers are employed in the water bureau of the Department of Public Works of the City of Philadelphia have obtained an increase in their wages. The increase amounts to \$4 per week to both the boiler-makers and the helpers, besides better conditions.

The Toronto, Ont., iron molders have won their recent strike for an increased wage rate. The old agreement called for a minimum wage for molders of \$2.90 per day and core-makers \$2.65 per day. Under the new agreement the molders are to receive \$3.10 per day.

### BURKBURNETT PERSONALS

(From Four Six Star)

Dr. McGhee reports the birth of a fine boy to O. W. Gorrell and wife on the 19th inst.

Clem Sanders left Saturday for Morgan, Texas, for a two or three weeks visit with relatives.

J. L. Buck and wife left Monday for Grandfield, where Mr. Buck will work at the carpenter's trade for a few weeks.

C. A. Walling and family moved into their new home, formerly the residence of F. E. Engleman, Monday.

J. M. Hayworth returned Saturday from fifteen miles west of Grandfield, Okla., where he built a gin for Mr. Gilbert.

F. E. Engleman and family have moved across the street from their former residence to one of the T. W. Daniel houses.

W. E. Darden and Ben Lanier and families returned Saturday from an outing on the Wichita River. They report plenty of fish and a splendid time in general.

Paul Edmonson and wife, from Chattanooga, Okla., visited friends here Sunday. Mr. Edmonson reports very discouraging crop conditions in his section of Oklahoma.

Furlow & Prechiel received the bell for the new school house building on Monday. The bell is a monster affair weighing over 600 pounds and has a clear, sweet tone. It was shipped directly from a Cincinnati foundry and cost over \$1500.

Mrs. Ben Schwieger and children spent Sunday and Monday with relatives in Wichita Falls.

W. T. Willis returned from Grapevine, Monday, where he was looking after his property interests.

It is reported that T. W. Daniel, who left Burk Burnett two weeks ago for an outing in Colorado, is quite ill.

Misses Alida, Pearl and Florence Roberts left Wednesday for Cordell, Okla., for a two weeks' trip.

Misses Gertrude and Ida Denney and Helen and Faye Dale of Iowa Park, visited with friends in Burk Burnett Saturday and Sunday.

The inventor of a corrugated propeller for motorboats claims it arrests the centrifugal action of the water along the blades increasing the driving power of the machinery without increasing the fuel consumption.

The upper end of an iron ladder, Misses Simmons have moved their millinery store to 618 8th street, next door to Anderson & Patterson, 50-tic

### Your Horoscope Your Best Asset.

**THE CARILLONS' ASTROLOGERS.**  
Throw the light of modern scientific reasoning on the ancient science of Astrology, and its revelations concerning Life, Health, Business, Politics, Education, Travel, Self Development.

1. Why are you as you are?
2. Are you satisfied with yourself?
3. What do you know about adjusting yourself to produce harmonious conditions?
4. How do you account for the feeling of antagonism you experience in business, domestic or social circles?
5. Are you aware of the fact that you are unconsciously creating a vibration that may antagonize them and bring unfavorable results?
6. Do you unconsciously repel, when you should consciously attract?
7. Do you know that the profession you have chosen is the one for which you are best adapted?
8. Were you born with physical conditions involving you in greater trial, misfortune and struggle than others?
9. Are you possessed of inharmonious character predisposing you to sickness, poverty or disappointments?

Your Horoscope will explain these matters. There is no means of obtaining knowledge about yourself to be compared with a correct delineation of your Horoscope. Everyone should have this personal information in order to adjust the mind and body to the vibrations that play upon one from day to day.

A general Horoscope deals with all important interests of Life, Business, Health, Travel, Financial Speculation, Adaptation, Co-ordination with others, etc., including a character delineation, indicating the motives, disposition and qualities of being together with one's relationship to those shown in other Zodiacal signs, they harmonize for marriage and business partnerships, etc., together with a brief outline relating to the effects of ruling planets upon health, etc.

The Horoscope also furnishes the best information relative to character, latent physical and mental tendencies of children indicating special talents, adaptabilities, etc.

Remember the planets indicate the Law of Life. They do not necessarily compel the fulfilling of that Law. Their positions aid us to know that Law and the precise nature, and with the right knowledge we can set up counter-vibrations within ourselves to change the character of events.

Zodiacal Reading, Horoscope Cast, Astrology Taught.  
Absolute satisfaction guaranteed. Call and be convinced.  
Hours: 10 a. m. to 9 p. m.  
1806 7th street. Rooms 1 and 2.

MEMBER ASSOCIATED PRESS

Wichita Falls, Texas, August 25, 1911.

## "THIS DATE IN HISTORY,"

- August 25. 1758—Russians defeated the Prussians at battle of Zorndorf.
- 1776—David Hume, Scotch historian, died. Born April 26, 1711.
- 1818—Bank of Canada commenced operations in Montreal.
- 1824—Reception in honor of Marquis Lafayette in Boston.
- 1835—The Baltimore and Washington railroad opened.
- 1910—The Asiatic cholera, spreading from Italy, appeared in Vienna.

The increase in taxable values in Texas for the year 1911 over that of 1910, is over \$87,000,000.

Ex-Senator Roger Q. Mills is reported in very poor health, and members of the family fear the end will soon come. He is the author of the Mills tariff bill passed during Cleveland's administration.

A nation-wide campaign against the "white slave traffic" has been planned by women of the National Socialist party. There is hardly a town or city in the United States that does not need the services of such an organization.

Peter Radford, president of the Farmers' Union of Texas, declares that "incompetency on the part of those who inform the government as to the conditions of cotton and other crops is largely responsible for the continued overestimate of the yield of cotton." As a result of the optimistic crop report issued by the government cotton farmers have greatly suffered. The reports from nearly every section of the State, as to cotton crop conditions, there is no doubt but that the crop will be much shorter this year than last.

"I haven't a friend in the United States whom I would reward at the expense of my party and county," thus spoke Wm. J. Bryan in a recent address to the Democracy of Ohio, "and when the time comes to name the man for the Democratic presidential nomination, I am not going to mention individuals now. The country has many available men, and I am glad Democracy is so fortunate as to have so many." That does not sound much like Bryan was trying to be the whole thing. Like others, he may have his

preferences, and it is more than likely he will have great influence in the National Democratic Convention, but there is nothing in his remarks that can lead one to believe that unless his man is the choice of the majority of the Democrats of the country over he will bolt the ticket, even though the man to be nominated might be one who bolted the ticket in 1896. Bryan is yet the biggest and brainiest Democrat in the party, and there is no question but that he is a power.

### VETOES FREE LIST, TOO.

The president's veto of the farmers' free list does not deserve much comment. The reasons given were absurd; after vetoing the wool bill he doubtless felt that it was useless to make further pretense of being in favor of tariff reform. He has gone over bag and baggage into the protectionist camp. Revision was but a fitful dream; he sleeps soundly now.—Bryan's Commoner.

### NOTHING SERIOUS.

The editorial printed yesterday from The Wichita Times in which it stated that a number of the citizens of Altus were to be haled before a conference of the Methodist Church on various charges is an evidence of how easily a ludicrous matter may be turned into a serious one.

The Times seems to have gathered from one of the Altus papers the idea that the persons who took part in the recent Moot Court entertainment were actually going to be tried by the authorities of the church on charges of becoming the members of such a sacred institution.

There were also several farmers in Jackson county who held the same opinion, and expressed it to the editor of the Democrat.

For the benefit of those who are laboring under this false impression, and who, perhaps, are worrying considerably as to the final outcome of the proceedings, we will say that the whole affair was nothing more than a farce, perpetrated by a few of the energetic members of the church for the sole purpose of having a little fun and incidentally, adding to the exchequer of the church society.

We, however, do not propose to go into the merits of any of the charges preferred, as we presume they were settled satisfactorily to all parties concerned.—Altus Democrat.

## THE SEASON'S PLANS FOR STAR PLAYERS

Practically Every One of Star Players Provided With New Medium.

New York, Aug. 25.—The theatrical season of 1911-12 is about to open and the big producing managers of this city, the star players, their supports and all the rest of the thousands connected with the task of preparing things for the opening of the theatrical season are as busy as bees in a clover field. The last weeks preceding the season's opening are indeed full of the most strenuous activity for all concerned and the general public has but a faint idea of the gigantic task of planning and preparing the season's work in the theatrical profession.

The producing managers have been extremely active during the summer months and, after a careful survey of the available new plays produced since the beginning of last season, have made their selection of such plays as, in their opinion, would best fit the popular tastes and talents of their star players, masculine as well as feminine. A big crop of new plays has been gathered and practically every one of the prominent stars will be provided with some new medium, in addition to plays already known, in which the stars have won successes in former seasons.

John Drew will open his season at the Empire Theatre, New York, on Labor Day, with "The Single Man," and if the play makes a hit, will probably continue in it for the rest of the season.

Ethel Barrymore will follow John Drew at the Empire Theatre, playing "The Witness for the Defense." Her leading man will be A. E. Hanson.

Mrs. Fiske has prepared two new plays for the coming season and will open toward the end of September with "The New Marriage," a comedy by Langton Mitchell.

Alla Nazimova, who is now under Charles Frohman's management, will appear in a new play adapted from the French, the name of which has not yet been given.

James K. Hackett will have two new plays during the coming season, one by the author of "The World and His Wife," the other by James Fagan. Robert Edson will begin his sea-

son in Providence about the middle of the month, in "The Cave Man," a comedy by Gillette Burgess.

Margaret Illington has a new play called "Kindling," from the pen of Charles Kenyon. She will tour the West during the first part of the season.

Helen Ware will begin her season in Boston in "The Price" and will not reach New York until later in the season.

Frank McIntyre will begin his star season in "Snobs," a comedy by George Bronson Howard and will have the support of a strong company.

Some time next month E. J. Dodson will open his season in "Gauntlet's Pride," a new comedy by Hartley E. Mannes and later he will take the play on a tour.

Elsie Janis has decided to continue in "The Slim Princess" during the early part of the season, with the prospect of appearing in a new play later on.

That's the Kind all Women Have Who Use Parisian Sage.

If you are a woman and really desire to have hair that fascinates and compels admiration then you want a bottle of Parisian Sage.

Women who use Parisian Sage never need to be ashamed of their hair because it not only causes hair to grow profusely but it puts life and luster into it.

Of course it's splendid, also for men and boys and girls, and it's rightly guaranteed to brush dandruff, stop falling hair and itching scalp, stop itching, or money back. Parisian Sage is a delightful hair dressing and every member of the family should use it regularly. Large bottles 50 cents at O. F. Marchman and druggists everywhere.

Two-fifths of the world's 100,000,000 swine are in the United States.

So nonconductive of electricity is dry snow that the bare wire of the telephone line to the famous Italian observatory on Mount Rosa often is buried in it without interfering with the service.

FULL TEXT OF NEW BICYCLE ORDINANCE

Legal publication has been made of the new bicycle ordinance and it is now in force.
The text of the ordinance is as follows:
ORDINANCE NO. 161
An ordinance prohibiting persons on bicycles interfering with pedestrians on sidewalks and requiring all persons riding bicycles within the city to have them provided with lamps and bell, whistle or other device to give notice of approach, and requiring all persons who ride bicycles to take out a license from the city, providing for forfeiture of licensees and prescribing penalties.
It is ordained by the City Council of the city of Wichita Falls, Texas:
1. It shall hereafter be unlawful for any resident of the city of Wichita Falls to ride any bicycle within the corporate limits of the city of Wichita Falls without having first taken out a license from the city clerk. A license fee of 50 cents shall be paid to the clerk in each case before a license shall be issued. Each license shall be numbered.
2. A number corresponding to the number of the license shall be placed on every bicycle before any person shall ride the same in the corporate limits of the city of Wichita Falls. The numbers used shall be at least two inches high.
3. It shall be unlawful for any person to ride any bicycle within the corporate limits of the city of Wichita Falls unless the same is provided with a bell or whistle or other device to give notice of approach, and during the hours from one hour after sunset until one hour before sunrise with a lamp or other light.
4. It shall be unlawful for any person riding any bicycle on any sidewalk or on other person rightfully on the sidewalk or to ride this bicycle on the sidewalk when meeting or passing pedestrians thereon.
5. Any person violating any of the provisions of this ordinance shall, be deemed guilty of a misdemeanor and upon conviction shall be adjudged to have forfeited his license, and shall be fined any sum not less than five nor more than one hundred dollars.
6. No person whose license has been forfeited as above provided for shall again be granted a license for a period of three months from the date of the forfeiture.
All ordinances and parts of ordinances in conflict herewith are hereby repealed.
This ordinance shall take effect from and after its passage and publication as the law directs.
Passed this 22nd day of August 1911.
Approved this 23rd day of August 1911.
T. B. NORLE, Mayor.
Attest: V. G. SKEEN, Secretary.

CEBURNE FAILED TO MAKE CONNECTION

Manager St. Clair of the Wichita baseball team this afternoon received a telegram from the Cleburne team of which the following is a copy:
"Boys failed to make connection will be there tomorrow."
The telegram was dated at Cleburne and was received here at 12:15 p. m.
Mr. St. Clair is at a loss to understand the failure of the team to reach the city today with the time they had in which to make the trip and he was very much put out on account of the failure of the team to arrive as expected and announced.
Mr. St. Clair stated this afternoon that unless the team came in by tomorrow he would declare the season closed and would also declare Wichita Falls the winner of the pennant for 1911.

ANOTHER SUICIDE THURSDAY NIGHT

Jesse S. Duke, aged about 45 years, suicided at his home at 1201 Bluff street last evening about 8 o'clock and died within a few minutes after swallowing a quantity of carbolic acid. The acid seems to have been taken while he was on the front porch, as the first intimation of his act came when he staggered and fell against the screen door, and this morning a small glass was found in the street where it was supposed to have been thrown after the contents were taken. When the man fell against the door the family realized that something was wrong and his daughter rushed to his side, reaching him just in time to hear his last words wherein he bid the daughter "Goodbye I'm going to your mama." The cries of the family attracted the neighbors and within a very short time several were on the scene and the unfortunate man was removed to the room and placed on the bed, where he expired before medical aid could be secured.
No one is able to assign a cause for the suicide as he made no remark to indicate that he intended such an act, nor did he leave a note or message to explain the cause of the suicide. He was apparently in good spirits during the day, as testified by those with whom he was associated, and late in the afternoon played croquet with members of the family without giving evidence that he was in the least troubled.
Deceased had resided in this city for a number of years and was known to many of our people, and his sudden death was quite a surprise and shock to all. For a number of years he was engaged in railroad work, at one time being foreman on the Katy and later being employed on the Wichita Falls & Northwestern in connection with the construction work on that line. For some time he had been out of employment and to this fact and a consequent despondency is ascribed by some as the cause of the suicide.
Deceased leaves a wife and several children to mourn the sad departure. He had only been married to his present wife about a year, his former wife having died in this city about two years ago. Funeral services were announced for this afternoon at 4 o'clock from the family residence, at which Rev. O. T. Cooper, pastor of the Methodist Church officiated, the body being taken in charge for burial by members of the Masonic lodge, of which order deceased was a member.
