Major General Wood, chief of the general staff, stated yesterday, just before leaving on his trip of inspection with Secretary Stimson, that one of the purposes of the visit to Texas is to arrange for the maintaining "all the time," as he expressed it, of three full regiments of cavalry directly on the Rio Grande in addition to the strong force to be maintained at Fort Sam Houston.

FOUNDER OF NAZARENE CHURCH IS HERE

Venerable Dr. Breese of Los Angeles, Presiding at Sessions of Nazarene

The annual assembly of the Church of the Nazarene of the Abilene district, was opened at the First M. E. Church, South, this morning, with over 150 delegates in attendance.

The venerable Dr. P. F. Breese of Los Angeles, California, who formed this denomination sixteen years ago and who is its general superintendent, is presiding as chairman and at this morning's session told the history of the founding of the church and its early struggles.

He emphasized the necessity of organization, and said that if there were any "come-outers" in the church the most pleasing sight to the rest of the members would be the diminishing shadows of their vanishing coat tails. He said that the fellow who was such a Philistine that he couldn't find others to work with was not good for much anyhow. He pointed to the U. S. mail service as an example of effective organization and said that the church through unity and organization was becoming a powerful factor in the evangelization of the world.

The assembly was organized this morning and W. F. Rutherford of Hamilton, was elected secretary, following which the roll of the churches was called and the regular work of the assembly taken up.

The morning and afternoon sessions will be taken up with the regular work of the assembly but in the evening at 8 p. m., different preachers will deliver sermons. The public is cordially invited to attend any and all sessions of the assembly especially the evening sessions.

LADIES PROTEST AGAINST HIGH STEP

Since the paving was finished on Ohio avenue, a loud wall of protest has been going up because of the height of the step from the sidewalk to the street, at the southwest corner of Eighth and Ohio.

The protest is made principally by the ladies, although men, too, join in it, with more vociferous language. The protest wound up in an appeal made to some of the aldermen which will be presented to the council at its next meeting to have the matter remedied.

The step is really a hard one for the ladies and their protest would seem to be justifiable. It is eighteen inches from the walk to the street, and it would seem as if this could be remedied by an additional step.

It is expected in the meantime that the department will continue its investigation into the organization of the company.

CHAMP CLARK AT HIS OLD HOME

WHOLE CITIZENSHIP OF LAWRENCEBURG, KY., TURNS OUT TO HONOR DISTINGUISHED SON

HE FLAYS REPUBLICANS

Points to Broken Promises and Bitter Factional Splits in G. O. P.—Contrasts Good Record of Democrats

By Associated Press. Lawrenceburg, Ky., Sept. 20.—"Triumphed Democracy is now the resounding theme of every tongue. After 17 years of wandering in the wilderness we this day stand upon Mount Victory and look into the Promised Land which we will enter and possess in 1912." So declared Champ Clark, speaker of the National House of Representatives, in an address here today. Mr. Clark was born near Lawrenceburg, March 7, 1859 and until today had not been there since he taught a country school.

One hundred of Clark's pupils of forty years ago, met the speaker at the depot and nearly every man in town joined in a parade as an escort of honor.

Continuing his message to Democracy the speaker said:

"Democrats everywhere cheerful, hopeful, confident, united and aggressive, while our Republican friends are sad, hopeless, despondent, on the difference and split into bitter factions are constantly at each other's throats. From ocean to ocean they are fighting each other like the cats of Killkenny. President Taft led the standard faction, while Senator Robert Marion La Follette—"Fighting Bob" as his followers love to call him—heads the insurgents. With them it is war to the knife and the knife to the hilt.

"They are so thoroughly destroying each other that sometimes it seems that all we have to do is to stand still and see the salvation of the Lord; but wise Democrats are not in favor of standing still or of depending on Republican factionalism to give us the victory next year. On the contrary we should continue as we have begun, press forward advance our banners, keep everlastingly pounding them, pass more good bills until we have carried out our entire program and force the president to sign or veto meretricious Democratic measures which are designed to promote the prosperity, happiness and safety of the American people. That is a policy which will win and which deserves to win.

"The greatest statesman that ever lived, bar none, Thomas Jefferson, said: 'eternal vigilance is the price of liberty.' It is also the price of success at the polls. I commend it most cheerfully and earnestly to Democrats all over the land."

Mr. Clark reviewed conditions in both parties, referred to the Democratic victory of 1910, and the various congressional fights, and said "had the Republicans in the 51st congress honestly redeemed the promises made in the campaign of 1908, to revise the tariff downward, they would have made their party invincible, and would have secured another long lease of power. The masses of the people without regard to party affiliations are honest and they demand honesty and candor in public men."

"One of the chief reasons why we won in 1910, was that the Democrats and insurgent Republicans in congress kept constantly hammering on the broken promises of the Republican standpaters, on their gross perfidy to their pledges, and upon their scorn of the righteous demands of the people. We appealed to the country on that record, and won an astonishing victory which, let us hope, is only the beginning of a long series of victories for lower taxes, for greater economy and for better government.

"The new Democratic House has made a record so splendid as to surprise our friends and dumbfound our enemies. No house has in a generation achieved so much constructive legislation of such a beneficial character in so short a time, notwithstanding the fact that we had been sneer-

CHAMP CLARK Speaker of the House

ed at for years as being a party of mere negation and utterly destitute of constructive statesmanship. That sneer is now frozen on the faces of the sneerers. That gibe disturbs nobody any more.

"The great battle of 1912 must be fought on the splendid record of the Democrats in this congress and upon that record we can win not only next year, but for years to come.

"Duty is the sublimest word in our vocabulary. To do one's duty, honestly, faithfully, courageously and patriotically is the greatest achievement in statesmanship or in any other field of human endeavor. To their eternal credit he said that the Democrats at the 52nd Congress at the extraordinary session discharged their duty to the utmost and deserve well of the country."

Mr. Clark reviewed some of the party accomplishments, and said: "What we did at the extraordinary session is only an earnest of what we will accomplish at the next two regular sessions."

"The very best and most important result of the extraordinary session was that we formed the habit of acting and pulling together and have come to take pride in so doing.

"In this connection, it should be stated that the Democrats in the House of the 52nd Congress, aided by some Republicans passed the reciprocity bill, as they had done in the 51st. President Taft, with all the power, prestige and patronage of his mighty office could in neither congress muster a majority of the Republican representatives to his aid, which shows that the gulf separating the Republican factions is as wide and deep and impassable as that which separated Dives and Lazarus.

"We did not pass the reciprocity bill to please President Taft, but because it will help to lower the tariff. But defective as it is, the reciprocity bill is a step in the right direction—that is, in the direction of reducing the high protective tariff to a revenue basis. That's one reason why Democrats supported it. Another reason is that we believe it will benefit the American people, and at the same time, benefit our Canadian neighbors. True, President Taft, exercising ruthlessly a power which King George V could not exercise without being driven out of the three kingdoms, vetoed not only our Farmers' Free List bill and our tariff bills, but also the joint resolution admitting Arizona and New Mexico.

"The president's veto of the statehood resolution was made upon doubtful constitutional authority. After an enabling act is passed and after a territory in conformity therewith, has adopted a constitution providing a Republican form of government, she is entitled to admission. In his veto, the president claims that the principal point at issue was the recall, particularly the recall of judges. He is en-

OIL MEN AND ELKS IN FELLOWSHIP

OVER HUNDRED MEN OF OIL FRATERNITY WERE GUESTS OF LOCAL LODGE OF ELKS.

GLAD HAND IS EXTENDED

Elks Think Oil Men Are Greatest Bunch Ever and Oil Men Convinced Elks Are "Best People."

Oil and water won't mix, but oil men and B. P. O. Elks make the best combination of good fellowship that can be compounded.

Over one hundred oil men and visiting Elks responded to the invitation of Wichita Falls Lodge No. 1105 and were the guests at an entertainment and luncheon at the Elks Club last night. Just to show that they were good fellows, the oil men themselves did part of the entertaining and did it in fine style too.

The affair was entirely informal and everybody enjoyed himself to the limit.

Exalted Ruler Alex Britain made the visitors feel truly welcome when he said the Elks esteemed it an honor to have the oil men as their guests. He said it mattered not whether the visitor was the owner of a gusher or of a wild cat lease in remote quarter or whether Dunn and Bradstreet rated him in six figures or with a zero minus, he was welcome just the same. Vaudeville teams from the Lamar Air-dome and from the Colonial Theatre furnished entertainment for which those present say too high praise cannot be spoken.

But we'll let one of the oil men tell about the entertainment himself.

Here's what he says: "It has been a long time since the oil men—when pioneering a new oil field—have had the glad hand of fellowship extended to them as it has been done in Wichita Falls. When we first come into a new field we are treated usually as if we were 'wild men of Borneo' and our advent into new territory is heralded by the press and pulp in "beware, the wolves are among you," and when you step into the street the children run and tell their mothers that they have seen an oil man. But they could not see me. I was any different than other men. I presume they were looking for the cloven hoof, the forked tail and the horns of his satanic majesty. Hence as one that has enjoyed the hospitality, all the food and drank the lime juice of Wichita Falls in general and the "great B. P. O. E." in particular, I wish to express for the oil fraternity of which I am one the heartfelt gratitude and to assure you Elks and Wichitians of our appreciation.

"At the reception last night the cats were fine, the drinks cold and inspiring. But what was the most prominent was the glad hand of fellowship and the hearty welcome that greeted you upon entering the portals of the Elks' room—it has been said that a man never appreciates his home until he leaves it; money, until it is spent; or the American flag until he is a wanderer in a foreign country and see the most beautiful of flags waving its grandeur over the backs of one of our diplomats. We who have the microphone of wanderlust in our veins can fully appreciate the reception of last evening.

There are hermit souls that live withdrawn In the brace of their self conceit There are souls like stars that dwell apart. In a fellowship firmament. There are pioneer souls that blaze their paths Where highways never ran But let me live on the side of the road and be a friend to man.

The Elks are doing a great work toward universal brotherhood of man. In spite of the yells "Rotter! Rotter!" the Oil Country Glee Club discoursed some fine music which was enjoyed by all present. But the climax was reached when Mr. Benson in a rich (full) voice rendered that most pathetic song entitled "Don't Throw the Lamp at Father, Because It Wastes the Oil." Bill Dalton and Ted Smith's rendition of "Mother, I am Crummy Now," was rotten, but the good buddy says "As a man thinketh

JUDGE RAMSEY WILL RUN FOR GOVERNOR

Austin, Texas, Sept. 20.—Judge W. F. Ramsey, Associate Justice of the State Supreme Court, whose name has for some time been connected with the gubernatorial race next year, this evening set at rest all further speculation on the subject by officially announcing himself as a candidate for the office. His announcement is brief. It is as follows:

"I will not be a candidate for the Democratic nomination for Associate Justice of the Supreme court, but will be a candidate for the nomination of the office of Governor of this State, and my name will be submitted for that office in the Democratic primaries next July.

"I will, within the next few weeks, outline my views on some of the important issues and questions now in the public mind, and in due season will inaugurate a campaign which should and I believe will be successful."

OFFICIAL ANTI MAJORITY 6,879

OFFICIAL CANVAESS SHOWS 237,130 AGAINST AMENDMENT AND 230,251 FOR.

HALL COUNTY STILL OUT

Unofficial Returns From That County Would Reduce Anti Majority to 6,295.

All counties have made returns except Hall, making a total number of counties reported 247. Good progress is being made and it is expected to complete the count by this afternoon.

At the noon count in the prohibition election was complete but not verified. With Hall county out the vote showed 237 for and 130 against the amendment and 230,251 for a majority of 6,879 against its adoption. Unofficial returns from Hall county give the pros a majority of 584, which would reduce the anti majority to 6,295. The count will be verified this afternoon.

Bishop Edwin D. Mounzon, the brilliant and popular young bishop, occupies the pulpit at the evening hour. Dr. H. B. Carr comes from Nashville, where he is Professor of New Testament in Vanderbilt University, to conduct a daily Bible hour. The Citizens of Wichita Falls are cordially invited to hear these speakers.

GREAT SWARMS OF INSECTS UNDER LIGHTS

Great swarms of gnats and bugs flew around the street lights last night and this morning the ground under the lights was covered with dead insects.

It was necessary to cut off the lights in the street cars, while passing under the lights on the street crossings. Even then the insects swarmed into the cars and passengers were forced to close their eyes and cover their ears to keep out the bugs.

Give the Children More Olives

If you fully realized how much good food as well as good taste there is in a bottle of good olives it's safe to say you would use more, many more than you do.

It would be a good idea to educate your family to eat them at least once a day.

Olives will satisfy their taste for something acid and will at the same time help to keep their blood in good condition—it's the olive oil does that, yet they don't taste it at all.

The choicest olives that grow, put up plain, that is without being pitted.

Stuffed olives, pitted and stuffed with pimento or celery 15c and 35c per bottle.

TO DECIDE FATE OF RECIPROcity

HOTTEST POLITICAL CAMPAIGN CANADA HAS EVER WITNESSED CLOSES.

NOW AWAIT THE VERDICT

From Nova Scotia to British Columbia Proposed Treaty With Uncle Sam Is The Issue.

THE SITUATION AT A GLANCE

Laurier majority in the Eleventh Parliament, 45.

To carry reciprocity Laurier Government must be returned.

To defeat reciprocity Conservatives must gain 22 seats.

Influences in favor of reciprocity: Agricultural class, Western Grain Growers' Association, low tariff advocates, British free traders, American settlers.

Influences against reciprocity: Ultra imperialists, British tariff reformers and Canadian allies, protected manufacturers, dyed in the wool Conservatives.

Sir Wilfrid Laurier, Liberal: Victory is in the air. I feel the swing that makes it sure. I am pretty old at the game. I have traveled over Canada more than once and today I find such enthusiasm as I never found before.

Robert L. Borden, Conservative: I am confident that tomorrow the electors of Canada will cast their votes against the ratification of reciprocity and that the Liberal government will be defeated by a substantial majority.

Ottawa, Ont., Sept. 20.—The hottest political campaign Canada has witnessed since the days of Sir John Macdonald and the National Policy, was brought to a whirlwind finish today with rallies and speechmaking in virtually every city, town and hamlet from the Atlantic to the Pacific.

Tomorrow the electors throughout the country will express their political preferences and on their verdict depends the fate of the Liberal Government, which, under the leadership of Sir Wilfrid Laurier, has been in office for fifteen years, and also the fate of the proposed reciprocity pact with the United States, for which Sir Wilfrid stands sponsor.

If Sir Wilfrid returns to power, the reciprocity bill will be passed soon after the reassembling of parliament next month, and at an agreed date both Canada and the United States will put the necessary tariff changes into effect.

If the opposition wins a majority, Robert L. Borden, its leader, will be come premier, reciprocity will be dropped and Canada will remain a high tariff country desirous of continuing the present tariff relations with the United States.

The polls will open at 9 o'clock tomorrow morning and close at 5 o'clock in the afternoon. Unless the voting at large is unusually close it is expected that the outcome will be known by 10 p. m. (Atlantic time).

The campaign is the last in which Premier Laurier will participate, according to his declaration made at the beginning of the struggle. If he wins the contest, he will hold office continuously for a longer period than Sir John Macdonald.

The campaign has been hotly contested in all the Provinces, and although conditions in certain sections of the Dominion are regarded as highly favorable to the Liberal party, the result cannot be accurately forecast. Upon the whole, disinterested observers seem inclined to the opinion that the Government will carry the country by a reduced majority.

The claims of the two sides on the eve of the election are about as follows: The opposition declare they will gain seats from the Government in the Maritime Provinces—Nova Scotia, New Brunswick and Prince Edward Island—in Quebec, Ontario, Manitoba and British Columbia, while Saskatchewan and Alberta will remain with the Government as at present. The Liberals, on the contrary, maintain that they will increase their present large majority in the French Canadian sections of Quebec and the Maritime Provinces, and will make gains in Ontario and throughout the West.

Practically the reciprocity agreement with the United States has been the sole issue of the campaign. The Liberal press and Liberal speakers have argued its material advantages,

while the opposition has denied its material advantages and denounced the compact as inimical to the commercial unity and national independence of Canada, as a movement towards Continentalism, and as a far step towards separation from the mother country.

The Conservative campaigners have confined themselves largely to the sentimental side of the reciprocity question. The British flag, the maintenance of British connection unweakened, and protests against clear and closer relations with the United States have formed the basis of Conservative speeches. The Liberals, on the other hand, have sought to keep the fiscal aspect of reciprocity to the front and have scouted as absurd the contention of the Conservatives that reciprocity will lead Canada away from England and to the United States.

It is conceded that if the Conservatives have succeeded in convincing a majority of the electors that reciprocity tends toward annexation the Government will be defeated. It likewise seems certain that if the Government speakers have satisfied the voters that annexation is impossible the Government will be returned by a substantial majority and the reciprocity agreement ratified.

GOOD TALENT FOR MUSICAL ENTERTAINMENT

The concert party to appear at the Wichita Opera House, Wednesday evening, September 27th, under the auspices of the Civic League, is composed of able musicians as have never appeared in this city and a large audience doubtless will welcome them in the "Wichita way."

The program promises to be classical enough to satisfy the taste of the educated musician and yet popular with the laymen.

The members of the company are Dr. B. Dunavski (doctor of music) a graduate of the Imperial Conservatory of Music at St. Petersburg, Russia and one of the noted musicians of the day. Dr. Dunavski secured his degree when only twenty-one years of age and that time one of the youngest men in the world privileged to the characterization of doctor of music.

Mrs. B. Dunavski, a soprano of high register has lately returned from England, where she was granted the distinction title of "Associate" by the London College of Music; Prof. O. A. Pudor, violinist, a pupil of the Cincinnati College of Music and a graduate of the Utica Conservatory of Music; Mrs. Elsie Folsyth, pianist, a graduate of the New England Conservatory of Music at Boston and for several years a successful teacher in Kansas City; Miss A. L. Dabney, dramatic reader, a graduate of the oratory department in the Add-Ran Jarvis College and peculiarly equipped to lead others to a higher plane of life and to inspire them with nobler thoughts; the Wichita State Band, a local organization composed of well known young men who under the direction of Prof. Boyer, have successfully entertained thousands.

The program promises to be a delightful musical contribution, and a success from every standpoint. Not so popular as to be musically cheap and not so severely classical as not to be popular, as one has described it the concert will be the "acute accentuation of merit."

Mabeldean Items. A very sad accident occurred at the home of Mark Martin about 7 o'clock Monday night. Their only son, Hamp shot himself through the heart. As he died instantly it is not known whether it was premeditated or an accident. He was formerly employed at the mill in Wichita Falls, but had been traveling around for the last few months. He came home Saturday from Joplin, Mo., where he had been at work. The family are utterly prostrated with grief.

Mr. Hard's family are still on the sick list. Two of them are up and the fever has left them and unless they take a back-set all will soon be around. The other two are still under the doctor's care.

A little son of Mr. and Mrs. Freeman was thrown from a horse last night and had the misfortune to break his arm in two places. Dr. Amison was passing and was called in to set and dress the injured arm.

The rain last night was timely as crops were beginning to show the effects of the hot winds.

Mr. James Rogers' son is on the sick list. Two doctors were with him last night and at last account was doing as well as could be expected.

Kunkel Will Contest. San Antonio, Texas, Sept. 19.—The will contest in the estate of Louis Kunkel, valued at \$485,000 will come before the probate court today. The widow and children are contesting. Witnesses from Eagle Pass, El Paso and Laredo are here.

ADIZNE WOMAN SAW SAM BASS DIE

She Describes Battle at Round Rock Between Rangers and Notorious Outlaw.

Abilene Reporter

A vivid account of the last fight and the death of Sam Bass, the notorious bandit, whose acts of outlawry at the head of a band of marauders in the latter 70's set all Texas agog and drew down the wrath of the Texas rangers, fell from the lips of Mrs. A. E. Hart, a pioneer Taylor county woman, in the sample room of whose hotel Bass died.

In the year 1878 Mrs. Hart and her husband, R. C. Hart, no longer living, were proprietors of a hotel at Round Rock, Williamson county. It was at this point that the Sam Bass gang made their last raid, where Jim Murphy betrayed his pals to the Sangers, where Selb Barnes was shot as he swung up to his saddle, and where Bass himself received a mortal wound.

"Remember it as though it were yesterday," Mrs. Hart said. "The robbers, as we afterward learned, camped the night before the attempted bank robbery at a spring one and a half miles north of town. They came into Round Rock singly, so as to not excite suspicion. But Murphy had already told the Rangers of the plan to rob the bank and the officers were there waiting for them.

"The fighting began in Koppell's drug store. Mr. Hart saw Sam Bass, Frank Jackson and Selb Barnes walking down the street and thinking their ranchers followed them to solicit trade. They turned in Koppell's drug store and called for tobacco. A Mr. Grimes, the deputy sheriff, walked in the store, placed his hands on one of the men and said, 'You are my prisoner.' 'Yes,' replied one of the outlaws, with an oath, 'we've got three as good guns as we have ever drawn on anybody and now is the time to use them.' Then they began firing and Grimes fell dead. Mr. Hart sprang behind the counter. This act only saved his life. He was in his shirt sleeves and unarmed. I think it was in the month of July, 1878. I was making preserves. After killing Grimes the outlaws backed out of the door and retreated slowly toward their horses. Tubbs, another officer, and one-armed, came running up, jerked up Grimes' gun and followed the outlaws. By this time the entire town was aroused. The noise of the gun popping was terrific. I was standing in the door of my hotel and saw the battle down the street. We were within one hundred yards of the Koppell store.

"Presently the fighting grew so hot that the outlaws ran in between our stable and a millinery store toward their horses, which were hitched behind the main livery stable. Just as Selb Barnes put his foot in the stirrup he was shot dead. My daughter Jennie, now Mrs. Leggett, and son John M. Hart saw Barnes killed. Two of the outlaws, Bass and Jackson escaped. I saw them dash away. Citizens and officers were in pursuit. Bass was fatally wounded. Jackson, as we later learned, carried his chief to a spring several miles away and stayed with Jackson to escape, saying he (Bass) was going to die anyway, so Jackson left. Bass was found the next morning by a woman who reported the discovery to the officers. He was brought back to town in a dying condition. I saw him as the men carried him past our door. He was a handsome man, dark, with brown hair and seemed of rather light build.

"The men wanted to bring him into the hotel, but Mr. Hart told them he would not allow it. He permitted them however, to take Bass into a sample room. The men wanted to throw him on the floor, but I made them let me provide him with a cot, pillow and sheet. I made him some soup, which he was too weak to eat. He lingered all that day, dying at about ten o'clock that night. I could hear him groaning all day. The men said he was ferocious to the last and refused to tell anything on his men.

Crowds Flock to See Body.
"The body was dressed that night and placed in a coffin. The next day hundreds of people from all parts of the country flocked to see it. Finally I sent for the colonel commanding the Rangers and told him I could not stand it any longer. So he was given a nice burial in the Round Rock cemetery. Six months later a marble monument was erected over his grave and parties visiting the cemetery each day would find fresh flowers over his grave. We never knew who put the flowers there. It was a mystery. Barnes' body, on the other hand, was dumped into the lock-up for the night and buried the next day in a rough coffin. When he was dying Bass told the doctor that he had never robbed a poor man and that if he was the one who killed Grimes it was his first murder."

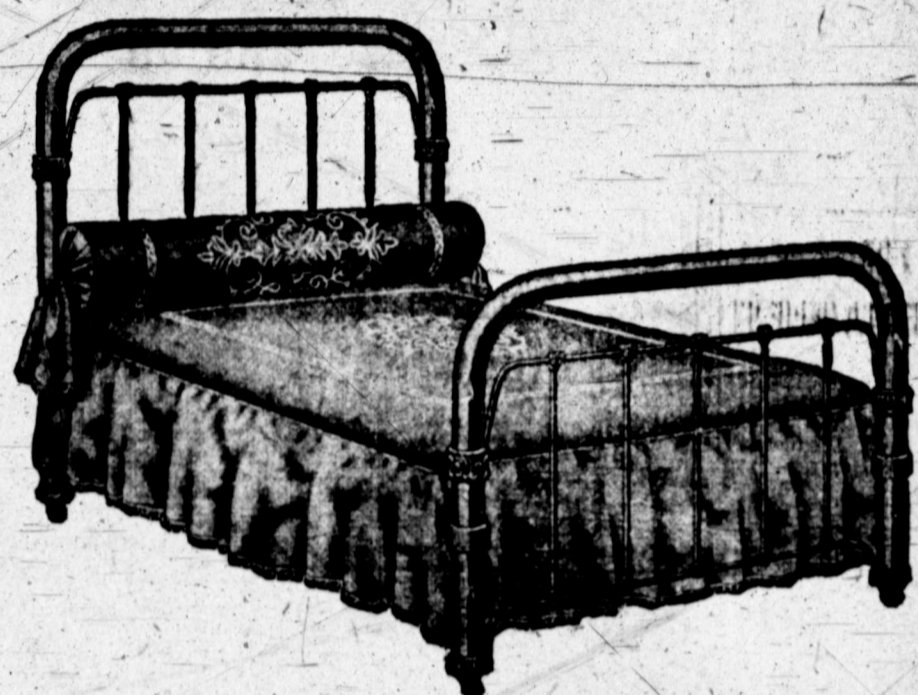

There is always a disastrous storm in Cuba during the fruit canning season.

different next year. There will be but two candidates next year—Colquitt and some one who can defeat him.

According to Senator Works of California, who is a Republican, President Taft is the tool of the trusts, and has brought his party face to face with the greatest crisis in its history. That being true, it is a cinch that Taft will be nominated by his party. It will then be up to the Democrats to nominate a man like Woodrow Wilson or some man who can get the votes of the Republicans who do not endorse the stand President Taft has taken regarding trusts.

The Denison Herald is a pretty close observer. It says: "If Attorney General Lightfoot does run for Governor, he will find out that the people have had their eyes opened since General R. V. Davidson left the Attorney General's office. There is no comparison between the work that was turned out under Davidson's administration and that that is not turned out under Lightfoot's management. There is something wrong somewhere. The trusts are doing business at the same old stand."—Tyler Tribune.

And they were doing business right along under Davidson, too.—Abilene News.

Anyhow, old man Davidson went out and collected a little toll off of them once in a while, and it found its way into the State Treasury and helped to lower taxes. For instance there was \$1,718,009.14 from the Waters-Pierce Oil Co.; \$75,141.25 from the Security Oil Co.; \$53,158.11 from the Standard Oil Co. of Indiana; \$1,235 from the Navarro Refining Co., and \$29,945.62 from the Union Tank Line Co. all took in fines and turned over to the State. Now, if Lightfoot is getting anything from the trusts he isn't saying anything about it.—Denison Herald.

But the Herald should bear in mind that Davidson, while attorney general had the support of the governor. This Lightfoot has not had. On the contrary, the governor has done everything possible to cripple the attorney general's department. The result is that Lightfoot has been unable to prosecute those violating Texas laws and

to collect big fines from the violators. The trusts have nothing to fear from the present administration. Therefore it was necessary to raise the state ad valorem tax from 80 to 120 on the \$100 taxable values. There is that much, at least, in favor of the Campbell administration, as compared to the present. In fact, it begins to look like the office of attorney general had just as well be abolished.

MAINE STATEWIDERS STILL HAVE HOPES

Augusta, Me., Sept. 20.—After having completed the tabulation of the official returns on all four questions which appeared upon the ballot at the special election a week ago, the governor and council last night adjourned until Thursday, Sept. 28 when they will meet to consider corrections.

Results announced today were as follows:
On repeal of the constitutional prohibitory amendment—For repeal, 60,487; against repeal, 60,461; majority for repeal, 26.

The statewide primary system was carried by a majority of 44,036, the majority in favor of locating the state capital permanently at Augusta was 18,384, and that for increasing the debt limit of cities of 4,000 and over 530.

A. Pattengill stated last night that the question of the repeal of the prohibitory amendment was still in doubt and it was his belief that corrections would show a considerable majority against repeal.

The time for receiving corrections will not expire until Oct. 9. Governor Plaisted said corrections would be made in the returns from several towns which might materially alter the results.

JEALOUS MAN KILLS RIVAL AND TWO OTHERS

By Associated Press. Knoxville, Tenn., Sept. 20.—Because Miss Elsie Ellis refused to accompany Obie Butler home from a dance at Rafter, Tenn., last night three men are dead. Olney Phillips, aged 17, who was with the girl, was shot dead by Butler, and John Heading, who attempted to interfere was shot in five places and killed instantly. The third person shot and killed by Butler, was unknown. The bullet entered his brain.

"The Immortal Alamo" is the title of the feature picture at the Gem Theatre today. The picture is one that every Texan should be glad to see, as its portrayals in detail the historical struggle which brought about Texas Independence. The Gem also shows three other good pictures, and with a new song by Miss Baker, gives an exceptionally good program.

News From the Oil Fields

Joe Evans and son, Harry and Harry Heasley are the latest arrivals from Tulsa.

Red River well No. 3 brought in at Electra several days ago is now said to be producing better than 800 barrels daily, and is reported to be as good as Red River No. 1. This well was brought in at a depth of about 1000 feet.

Fred Closser, of Lima, Ohio, is one of the latest arrivals at the oil men's colony here. Mr. Closser is a prominent producer.

Armed Men Guard Oil Farm.
Tulsa, Okla., Sept. 20.—An armed guard is in possession of the old Legus Perryman farm southeast of this city which is prospectively very valuable because oil has been discovered just across the road from it. The farm consisting of 120 acres was the surplus land of Legus Perryman, the last chief of the Creek Indians. He sold it to his son, Henry Perryman, who in turn mortgaged it to Lon Conway of this city. When Henry failed to pay the mortgage Conway claimed the land.

However, just before the mortgage fell due, Perryman leased the land to E. M. Arnold of this city for oil and gas and Arnold made ready to drill upon it. He had a rig erected when Conway with a force of armed men took possession of the place and ousted Arnold and threw his belongings off. Then Conway himself leased the land to Judge C. J. Wrightman of this city. A contest over the lease seems inevitable.

CHAMP CLARK AT HIS OLD HOME

(Continued from page 1)

tirely mistaken. He raised a far greater and more far-reaching question and took the wrong side of it, and that is whether a state has the right to adopt for itself such constitution as it desires, subject of course, to the constitution of the United States, and provided it establishes for itself by its constitution, a Republican form of government. The American people who love a square deal, will not permit him to shift the issue from the great question of a state's having the right to adopt any sort of constitution which suits it within the limitations named, to a petty squabble about the recall.

"The provisions to go into a state constitution do not depend, upon the federal constitution, upon the whim prejudice or taste of the man who happens to occupy the White House or of the men who happen to be representatives or senators in congress, but upon the will of the voters of the state itself; but the president seems to be laboring under the delusion that he knows better what the people of Arizona need and desire than they know themselves, and that his wishes and desires rather than theirs should be incorporated into their constitution which is a queer opinion to be entertained by an American president."

Referring to President Taft's veto of the various tariff bills, Mr. Clark said:

"His action makes it clear as the sun shining at mid-day in a cloudless sky that the people can hope for no relief from tariff extortions at the hands of the Republican party, but must look to us for relief from the monstrous load which they are now carrying."

"The language of the president's veto messages raises a very grave question. He seems to think that congress should not consider or pass any tariff bills except such as he recommends, which is reversing the modus operandi of making tariff bills provided by the Fathers of the Republic. The assumption that congress shall neither consider nor pass a tariff bill until recommended by the president, is not only absurd but is revolutionary, utterly subversive of our theory of legislation, if submitted to, will be only another long step in the process of usurpation which in later years has so greatly increased the powers of the executive at the expense of the legislative branch of government."

"For the last thirty odd years, the enormously increased patronage of the executive has increased his power to an extent never dreamed of by the founders of the Republic and which should set men to seriously thinking as to whether so much power in the hands of one man is entirely salutary."

"It is written: 'By their fruits, ye shall know them.' That test for human conduct was established by highest authority. By it, Democrats are willing to be judged, for it is a fair and just standard. By it, we stand or fall. We feel certain that a verdict in our favor will be rendered by the grand inquest of the American people. We await that verdict with supreme confidence."

Woodruff's Heights Addition at Electra

FOR SALE AT THESE PRICES AND TERMS IN THE GREATEST OF OIL FIELDS

SALE LASTS ONE WEEK

Wednesday September 20th, 1911

and Closes September 27th, 1911

Make Your Reservations Quick These Lots Will Not Last Long

**THINK OF THE TERMS, ONLY ONE HALF CASH
BALANCE \$10.00 PER MONTH UNTIL PAID**

Begin Now to lay the foundation for your future home and fortune. Almost any man or woman can start in this manner to lay the foundation for a future competence in the town that will be and is now the center of one of the most wonderful OIL fields in the world. These lots are certain to increase in value; so the fortunate few who buy now have everything to gain—nothing to lose.

INVEST—TAKE A CHANCE—SPECULATE—MAKE MONEY

Look at the plat, note location and distance to R. R. depot; to producing Oil wells. There is nothing like these lots for price or location in Electra today.

Oil and Gas Rights to Go to Purchaser—No Reservations

A lot purchased in this location at present prices is bound to increase in value and make you money. Electra has within 4 months from a way-side station become the centre of financial interest all over the United States. Hundreds come into the little city daily, accommodations have been utterly inadequate to take care of the throngs who have come to this mecca of money; at least 20 dwellings are in course of building and many more contracted. These lots are within a few minutes walk from depot; about one mile from 25 producing oil wells. Each lot is 40 feet frontage by 162 feet deep, containing 6480 sq. feet, sufficient to drill an oil well on. The Culberson well is drilling across the road, about 1000 feet from the farthest lot in this addition. Remember YOU GET the Oil rights and the GAS rights to these lots.

ELECTRA, TEXAS.

Within 4 months has become the most talked of and remarkable oil town in the world. Vast capital is being invested in this wonderful oil field that has 4 producing sands, that flow natural, not a well has been shot nor has a dry well been brought in since the field was opened 4 months ago. Oil that has a specific gravity of 44, the highest grade west of the Mississippi River. 50 wells or more are now drilling with pumperless more to be drilled. There are 25 producing wells now. The greatest of these which came in 60 days ago is 1900 feet deep has produced upward of 70,000 bbls. of oil to date and is today flowing about 1000 bbls. daily. THIS WELL IS ABOUT 1/2 MILE FROM THESE 54 LOTS.

The Magnolia Pipe Line Co. purchased 40 acres of land and are erecting large storage tanks and pumping station. The Texas Company's tanks are erected and their pipe line is being laid. Two banks are in operation, two large lumber yards, two machine shops, new livery barn, church and hotel is planned. Four of the largest-oil well supply houses in the U. S. have here established branches, each involving an investment of upward of \$100,000. The pipe line companies are connecting each well immediately as it is brought in, taking all production, at present amounting to 6000 bbls. daily, taking and shipping every drop produced and wanting more. Outside authorities who have carefully studied the situation predict the population of Electra will be 5000 within 12 months and 10,000 in less than 3 years. There are not enough houses, many living in tents. A \$500.00 house on one of these lots will yield 30 per cent. Electra is the best place in Texas to make money out or real estate.

TERMS: One-half cash, vendor's lien notes retained to secure balance due which is payable at either bank in Electra or to the First National in Wichita Falls at the rate of \$10.00 per month with a discount of 5 per cent for cash on unpaid remainder. Upon payment of one-half purchase price you receive your deed and have possession at once.

Read and Remember These Facts

Do not wait till last day of sale to secure one of these lots. *They will all be gone.* F. D. Woodruff at Electra and Frieze and Peery, over Marchman's drug store, Wichita Falls will show and sell you these lots. If you can't come in person you can make reservation by mailing \$110.00 to the First National Bank, Wichita Falls, but you can not delay as the people on the ground, speculators and investors from all over the U. S. will eat this up. Don't overlook the fact that these lots may become the richest kind of oil producing territory. Oil well now drilling across the road, 25 producing wells within a mile. Anyhow you have a valuable lot at less than prices asked for other lots without the oil or gas rights.

1. The oil and gas rights go to purchasers of these lots.
2. The Taxes are paid for this year.
3. The interest on the unpaid balance will be 8 per cent.
4. That a discount of 5 per cent will be allowed on unpaid balance, any time.
5. The lots are 40 ft. front by 162 ft. deep.
6. That the street is 60 ft. wide and alley 16 feet.
7. The lots are high, dry and desirable residence lots.
8. The title is perfect, all conveyances made direct from owner.
9. An abstract is furnished free with each lot.
10. Deed is delivered you on payment of one-half cash.

ACTING GOVERNOR PARDONS FOOSHEES

As a Sequel to the Killing of Bill Ballew, Fooshees Are Granted Freedom.

Guide—Acting Governor

(Daily Ardmore)

Following upon the heels of the killing of Bill Ballew by County Attorney Mathers last Friday, Acting Governor J. J. McAlester, Saturday granted a pardon to Jonas and John Fooshee, sentenced from this county in 1907 to serve a life term and ten years, respectively, for the accidental killing of a little son of Sidney Ford, while shooting at Ballew.

In the summer of 1907 Bill Ballew shot and killed 1rb Fooshee on Cado street in this city. Some time after the killing, John and Jonas came up with Ballew near the spot where their brother had been killed and immediately began a fusillade with a shotgun and pistol. Ballew was riddled with shot, but escaped a fatal wound, and later appeared in court as a witness against the Fooshees. It was during this melee that the little Ford boy was killed, while crossing, Caddo street with a bucket of milk. Sentiment was strong against the Fooshees at the time and John, whom it appeared fired the shot that killed the Ford boy, was given a life sentence, and Jonas was sentenced to ten years.

A delegation of citizens from Carter county, headed by Senator Harry K. Allen and Senator Hurst of Hughes county, urged the acting governor that in view of the recent event in this city in which Ballew lost his life, and his general reputation as a bad man, and the further fact that the shot that killed the Ford boy was purely accidental, that the Fooshees had been punished sufficiently and urged him to grant them a pardon which he did last Saturday night.

Passenger Men Discuss Extra Fares.

St. Paul, Minn., Sept. 19.—The fifty-sixth annual convention of the American Association of General Passenger and Ticket Agents began its sessions here today, with Colonel Samuel E. Moody, passenger traffic manager of the Pennsylvania Railroad, presiding. The convention will continue for several days. One of the timely topics to be discussed is the recommendation that railroad passengers be charged extra for using high class equipment. It has been suggested that a quarter of a cent a mile be added to the price of a ticket for a passenger using an observation or a parlor car. It support of the proposal it is contended that the railroads expend large amounts to furnish this class of traveler fast train service, luxurious surroundings, and special attention of various kinds. The association will thoroughly discuss the matter, but any action it may take will be purely advisory in its nature.

A notable feature of the convention will be the banquet tomorrow night. Among those scheduled to speak at the banquet are James J. Hill, President McCrea of the Pennsylvania system, Vice President Daly of the New York Central lines, and several representatives of government railways in France and Germany.

Wells to Box Attell.

Unless there is a slip-up in the present plans Wells will face Abe Attell, the featherweight champion, who will emerge from his temporary retirement in order to meet the Englishman. According to the agreement the two fighters will weigh in at 135 pounds at 6 o'clock tomorrow afternoon.

Cotton Men Will Discuss Weights.

Memphis, Tenn., Sept. 19.—In accordance with a call issued by President Williams of the Memphis Cotton Exchange a meeting will be held in this city next week, in which every cotton exchange in the South has been asked to participate. The purpose is to formulate plans for the supervision of weights, in American spinning centers, to consider the amount of tare to be allowed and to discuss ways and means for the establishment of competent and satisfactory methods, as well as places for arbitration. Other subjects of interest to the cotton men of the South are likely to be discussed at the meeting.

Martial Law Declared in Spain.

By Associated Press.
Madrid, Spain, Sept. 19.—Martial law was declared in Spain following violence in the working men's strike. Most serious situation is of the Valencia. Last night disturbers there attacked the town of Cullera, murdering the judge and wounding the court officers. The government announces it has discovered the details of a plot to assassinate Gen.
