PARK SITE CANNOT BE PURCHASED

CITY CANNOT PROVIDE FOR PURCHASE OF SEVEN SISTER BLOCK.

BOND ISSUE ONLY WAY

Proposition May Be Submitted to Vote of People if Deemed Advisable.

The city council this morning authorized the mayor and city attorney to employ additional counsel to fight the case of Derr & Early, the sewer contractors who have brought suit against the city in the Federal court at Fort Worth for a balance claimed to be due them for the installation of the sewer system. The case comes up at the November term of the court.

The committee appointed at a previous meeting to consider the proposition of buying the block known as the Seven Sister block for park purposes, reported adversely on the matter, and the offer submitted by the owners was refused by the council. The Seven Sisters block is owned by a syndicate, who had purchased it with a view of ultimately turning it to the city for park purposes. The offer was to sell it to the city for \$15,000, payable in installments with interest at 8 per cent but the council could not devise the means to pay for it, and did not wish to incur such a heavy interest bearing debt. In its report the committee recommended that the matter was one that should be submitted to the people for a vote on a bond issue for the purpose of buying the park, and this action may be taken at some future date.

Other than paying the usual monthly accounts, this was the only business before the council.

COTTON WENT UP \$2 BALE YESTERDAY

New Orleans, Oct. 17.—A reaction of \$2 a bale in the price of cotton came this morning within an hour after the opening of the week. This was the first sudden upward movement in futures since the long decline started, a decline that Saturday night had amounted almost to 4 3/4 cents a pound, or nearly \$2 a bale.

The market opened at an advance of 3.9 points and kept on rising until the December and January deliveries were 43 points over Saturday's close. Other active months made gains of 41 to 43 points, but the first two named months attracted most of the trading.

Generally rainy and cloudy weather over the cotton region, a storm warning for the Texas coast and the forecast of frost for Oklahoma and the Panhandle of Texas were the causes of the rise.

Shorts were heavy buyers from the first call and it was said that one or more immense lines of shorts were being covered. Heavy buying for the long account was in evidence and was on a larger scale than in any previous session for months.

Commission houses did a large business which was taken as a sign that the outside public was coming in on the bull side. At 10 o'clock the rise was checked by the profit-taking operations of scalping longs.

LAND PROMOTER UNDER INDICTMENT

By Associated Press. Houston, Texas, Oct. 17.—C. J. Horn, president of the Brazos Coast Investment Company who was indicted by the Federal court, charged with the using of mails to defraud, surrendered this morning and gave bond to answer further proceedings.

Horn is a real estate dealer and is well known, distributed 2700 town lots in Velasco, it is alleged, by lottery. The indictment charges that much of the land is capable of cultivation and some is completely under gulf water. The principal prosecutors are from Iowa.

QUESTION RAISED ABOUT ROAD BONDS

CLAIMED BY SOME THEY CANNOT BE SOLD UNTIL NEXT YEAR.

TAX LEVY IS IN THE WAY

Law Provides That Levy Must Be Made So As to Meet Interest.

A question has been raised whether the \$150,000 bonds voted for road improvements in Precinct 1 can be issued and sold this year. The special road law provides that the provision must be made in the tax levy for a sinking fund when the bonds are issued.

The tax levy has already been made for the ensuing year, and the tax rolls approved with the taxes computed on the levy. The interest is made payable on the road bonds semi-annually so that unless some way can be devised to meet the payment of the interest, it seems that the proceeds from the bonds will not be available until after the tax levy.

One of the purposes for which the bonds were voted was to provide employment for residents of the precinct to tide them over until they can harvest a crop, so that if the bonds cannot be issued until after the next tax levy, this purpose will be defeated.

Several attorneys are investigating the matter and it is hoped that some way can be found whereby the bonds can be issued and the proceeds be available at once.

MAYBE HE HAS BEEN OUT TO "SEE 'EM FLY"

By Associated Press. Oklahoma City, Okla., Oct. 17.—Geo. Palmer, who returned today from a trans-continental tour aloft offers to wager \$50,000 that he can walk across the continent and beat any aviator in the world. Rogers, Curtiss or any others not barred.

Palmer has a poor opinion of flying machines for commercial or entertainment purposes and thinks he can beat any of them in a long distance trial.

J. I. Richardson, formerly of this city, but now located at Cleburne, arrived in the city a day or so ago on a few days visit to friends here. Mr. Richardson says that he hardly knows Wichita Falls so much as it has grown since his absence, and that he may decide to again locate in this city.

Mrs. C. W. Bean left this afternoon for Fort Worth, from which place after a few days' stay, she will go to Dallas to take in the fair.

Y. M. C. A. DIRECTORS WILL MEET TONIGHT

A meeting of the board of directors of the Y. M. C. A. has been called for 8 o'clock at the Y. M. C. A. building corner Seventh and Lamar streets. At this meeting plans will be discussed by means of which it is hoped to be able to raise the balance of the \$2000 which is badly needed by this association at the present time.

Those who have had charge of the money raising campaign so far, state that it is only a matter of a few days time until the money will be forthcoming and that they have made excellent progress up to date in securing subscriptions from the business men of this city.

As soon as it was discovered that the Y. M. C. A. was in need of \$2000 many immediately volunteered their services, in helping to solicit subscriptions, and the bulk of the amount needed has already been made up by business men and others of this city, which fact goes to show that the people here fully appreciate the advantages to be obtained by the possession of a good Y. M. C. A. and mean to make the association in Wichita Falls one of the best to be found any where.

Philadelphia Athletics of American League Take Third Game of Series—3 to 2

SCORE BY INNINGS. NEW YORK 0 0 1 0 0 0 0 0 0 1 2 3 5. PHILADELPHIA 0 0 0 0 0 0 0 0 1 0 2 3 9 2.

The Athletics took the third game of the world's championship in New York this afternoon, defeating the Giants by a score of 3 to 2. The game went eleven innings and was a hard, desperate battle. New York took the lead in the third when Myers ripped out a hot grounder and reached first, and Mathewson singled, Myers scoring on Devore's infield tap.

In the ninth inning Barry sent one of Mathewson's offerings screaming over the outfield bleachers for a home run. There was no more scoring until the eleventh when Philadelphia scored two runs. Collins and Baker had both gone and scored when Davis hit safe.

The Giants made a desperate effort to tie the score but succeeded in getting only one run across the plate. Herzog led off with a two sacker to left, Fletcher flew out to Lord and Myers was thrown out at first. Becker who batted in place of Mathewson hit to Collins who fumbled the ball allowing Herzog to score. Becker was thrown out attempting to steal second.

A light misting rain was falling when the game opened.

Philadelphia—Lord, first man up for Philadelphia, was thrown out at first. Collins went out to Merkle to Mathewson. No runs.

New York—Devore fanned on three pitched balls. Doyle went out to Davis. Coombs with blinding speed fanned Snodgrass.

Philadelphia—Baker was out at first. Murphy flew out to Herzog. Davis flew out to Snodgrass.

New York—Murray fanned out to Lord. Merkle went out at first. Herzog fanned.

Philadelphia—Barry singled to left and stole second on Myers' high throw. Lapp flew out to Doyle, who doubled Barry at second. Coombs popped out to Doyle.

New York—No runs.

Philadelphia—Fletcher flew out. Myers rapped a

M'NAMARA CASE MAY GO TO JURY BY DEC. 1

By Associated Press. Los Angeles, Oct. 17.—A speedy completion of the jury, that is, within a month or a little more, was the outlook when the McNamara murder trial opened today. It is predicted that the case will go to the jury by Thanksgiving or December 1.

The examination of salesman Z. T. Nelson has cleared the atmosphere by defining many of the issues involved in the effort to determine whether James B. McNamara is guilty.

Among the points made certain by Nelson's examination are any salesman who believes the Times building was blown up by gas, believes McNamara is not guilty. This opinion is taken by Attorney Darrow, chief counsel for the defense, and is noted by the counsel for the State for future use in the belief that it can be made serviceable to them in the examination of salesmen. The State does not think it liable that the defense may offer an alibi for McNamara, or may rest solely on the gas explosion theory in support of which it has gone as far as Europe for expert evidence. "Maybe we can prove an alibi, maybe we can't, maybe we will not try to

FAMILY OF 5 KILLED WHILE THEY SLEEP

KANSAS CHAFFEUR, HIS WIFE AND THREE SMALL CHILDREN FOUND DEAD IN HOME.

BATTERED WITH AN AX

Features of All Made Unrecognizable and Baby's Head is Chopped Off by Unknown Slayer.

Ellsworth, Kan., Oct. 17.—Slain as they slept Sunday night, the bodies of Will Showman, a chauffeur, his wife and three small children were discovered last night in the Showman home by a neighbor.

The features of all the victims were battered beyond recognition by the blows of an ax, which the slayer had used. The baby's head was severed.

All three children were under 5 years of age. The authorities have failed to find any cause for the crime.

Shots Cause Excitement. Houston, Oct. 17.—Shots fired in the neighborhood of the Katy shops last night created excitement and started the report that trouble had broken out afresh in the railway yards. Investigation showed that a guard was shot at by a prowler who escaped. The situation is quiet.

W. S. Luckie, a citizen of Trail, one of the new towns on the Northwestern railroad extension, was a visitor in this city yesterday and today.

AVIATOR LANDS AT POTTSBORO

Rogers Becomes Confused When He Leaves There and Starts in Direction of Wichita Falls.

By Associated Press. Denton, Texas, Oct. 17.—Aviator Rogers alighted near Pottsboro, seven miles south of Denton at 9:30 o'clock this morning.

Lack of gasoline caused his stop. His inability to get gasoline keeps him there, with prospects for a long delay. The firm which had agreed to supply the gasoline refused because he did not light in Denton. They had a wagon waiting all day yesterday and were vexed when he flew over their heads. He left McAlester at 7:30 o'clock.

Through Rogers' aides it was learned that he is flying under contract. He has announced that he cannot stop at cities and towns along the route which wish to see exhibition flights unless inducements are offered which will enable him without loss to break his contract temporarily. The aviator left Pottsboro for Fort Worth about noon, having secured gasoline from a special train.

G. D. ANDERSON SELLS HOME FOR \$10,000

The Times learns G. D. Anderson has sold his handsome residence, corner of Tenth and Burnett streets, to Phyl Taylor, a former resident of this city who has decided to move back again, for a consideration of \$10,000. Although it is said that the deal was consummated a day or so ago, it was only this morning that the news was verified by one of the parties concerned, and the public thus let into the secret.

The sale of this property for \$10,000 as well as the recent sale of the Barnett building on Indiana avenue for \$30,000 and other deals, goes to prove that a good deal of activity in real estate is to be expected here in the near future, and those who hold property in Wichita Falls may safely feel that their money is well invested. Mr. Anderson intends to give possession of his former home to its new purchaser in the near future, or just as soon as he is able to find a suitable house which he and his family can rent until the time when they build a new home in Floral Heights.

FOREIGN SOLDIERS FIGHT IN HONKOW

REPORTED THAT TROOPS OF SEVERAL NATIONS ENGAGE WITH CHINESE MOB.

A JAPANESE IN COMMAND

Imperial Troops Begin Aggressive Preparations for Rescue of Hankow.

Berlin, Oct. 17.—Advises received at the foreign office from Hankow today report that a German force of 4000 jackets have been landed at Hankow and are now fighting in the streets with a Chinese mob. The admiral has no further details. The German cruiser Gleisener will arrive at Hankow tomorrow on a torpedo boat accompanied.

Amiral Ty understands that the Germans are co-operating in an international landing of troops movement commanded by the Japanese naval captain.

The cruiser Gleisener will have aboard Vice Admiral Von Terstede, commander of the Asiatic squadron.

Aggressive Preparations By Imperial Troops.

Hankow, Oct. 17.—Aggressive preparations for the rescue of Hankow and Wu Chang were begun today by Imperial government. The first thousand of troops from the north arrived early. The Imperial naval force was augmented by the arrival of one of the navy's gunboats which carried Admiral Sah-Chen-Ping, who took command of the situation. He assured the foreign consuls that the foreign concessions would not be endangered by any bombardment which he might undertake. It is believed he will begin shelling the rebel defenses around Wu Chang.

The Red Cross society today began removing the corpses from the streets of Wu Chang.

REVIVAL MEETING STARTS 7:30 TONIGHT

The revival meeting under the auspices of the First Baptist Church will start tonight at 7:30 at the brick tent, corner Scott avenue and Tenth street.

Mr. Ham, the brother of the evangelist will have charge of the services until Saturday, when Evangelist Ham and his wife will arrive.

Those who will assist in the singing are urged to be on hand tonight by 7:30 so that the choir can be arranged on the large platform.

Great interest is being manifested by the Christian people generally in the city-wide campaign for soul-winning and righteousness.

Plans for the District All Day Missionary Meeting Thursday of the Woman's Missionary Union of the Baptist Mission Workers of Texas, are being perfected. The meeting will be held at the First Baptist Church. A large attendance is expected from the surrounding counties. The ladies of the First Baptist Church are making elaborate preparations for this meeting.

All ladies of the city are invited to hear the discussions during Thursday.

TAFT TURNS EASTWARD FROM PACIFIC COAST

By Associated Press. Los Angeles, Cal., Oct. 17.—With his departure from Los Angeles, President Taft brought to an end his second visit to the Pacific coast since he entered the White House. From now until November 1 he will travel toward Washington and will make the biggest "jump" on his schedule from Los Angeles to Ogden, Utah, then to Butte, Montana. From Butte, President Taft goes through Eastern Montana, South Dakota, Minnesota, and Illinois, with a three day stop at Chicago, one day in Pittsburg, then to Washington. He is practically in as good physical condition as when he left Washington.

Mr. and Mrs. C. C. Knight returned today from Fort Worth at which place Mrs. Knight has been undergoing treatment in a sanitarium for the last few weeks. Her many friends in this city will be glad to learn that she returns greatly improved in health.

MAJESTY OF LAW IS GIVEN SETBACK; CONSTABLE ROBBED

Denton, Texas, Oct. 17.—Constable Joe Young yesterday reported the theft of \$30 from a trousers pocket in his home here in the north part of town Saturday night. The family had retired and some time during the night the money disappeared. The purse from which the money was taken was found in the yard yesterday afternoon. A clew has been found on which the officers are working.

SLEEPERS IN HOTEL NARROWLY ESCAPE

COMMERCIAL HOTEL AT DEVOL DESTROYED BY FIRE EARLY THIS MORNING.

CARLTON LOST \$300

Agent of Wichita Falls and Northwestern and Other Gubats Flee in Night Clothes.

Special to The Times, Devol, Oct. 17.—A score of guests were forced to flee in their night clothes leaving their valuables behind when the Commercial Hotel here, owned and run by W. L. Tandy, went up in flames between four and five o'clock this morning.

There were many narrow escapes. One man, a representative of an insurance company named Summers, whose escape by way of the stairs was cut off by the flames, jumped from a second story window. He received slight sprains, but was not seriously injured.

W. A. Carlton, agent for the Wichita Falls and Northwestern and a former resident of Wichita Falls, was another who had a narrow escape. Mr. Carlton having no safe in the railroad office had taken over \$300 in cash of the railroad's money to the hotel with him and it was destroyed. Mr. Carlton's sister who was sick in her room in the hotel also narrowly escaped.

The loss is estimated at about \$7500.

Mr. Tandy, the proprietor, when he got up early this morning to meet the northbound Northwestern passenger train had built a fire in the office, and had returned to bed. Shortly afterwards the sleepers were awakened by the crackling of the flames. The blaze spread throughout the frame structure with amazing rapidity and it is considered very fortunate that no one was burned to death.

Dr. Wiley Commends Cotton Oil
For over quarter of a century Dr. Wiley, the famous government expert, has conducted an active campaign for pure food in the interest of public health. His advocacy in a recent speech of Cotton Oil as a food is, therefore, especially significant; it simply emphasizes the wholesomeness of Cotton Oil—the vegetable oil shortening—which is composed so essentially of Cotton Oil, the use of which he so strongly recommends. Cotton Oil is endorsed by physicians generally, because of its purity and wholesomeness. It has been the leader in Cotton Oil products for over twenty-five years.

STATE BUY COTTON GEORGIA MAN'S PLAN

ISSUE BONDS AND BUY PRODUCT AT MARKET PRICE AND HOLD FOR AN ADVANCE.

AMEND THE CONSTITUTION

Farmers and Business Men Would Change Organic Law in Order to Accomplish Desired Results.

San Antonio, Texas, Oct. 17.—Adoption of a plan for each cotton growing State to issue bonds to purchase the cotton of that State at the market price if low, and hold it for a fair and equitable price, will be urged by C. E. Stephenson, a cotton plantation owner of Georgia, who lives in Atlanta, who will attend the cotton price conference of Southern governors, agricultural commissioners and others interested, that will be held in New Orleans, Monday, October 23. This is the plan by which Brazil was able to increase the selling price of coffee from 4 cents a pound less than the cost of production, to 13 cents a pound that enables the coffee growers to make a fair profit.

"It may be necessary to amend some State constitutions," said Mr. Stephenson, "but farmers and business men readily would vote such a change in the organic law. Bonds to the amount of many millions, secured by the cotton and with the State's credit behind them, readily could be taken in any of the money markets."

MASONS TO LAY TEMPLE CORNER STONE

Washington, D. C., Oct. 17.—High degree Masons from all parts of the United States are beginning to arrive in this city and everything is in readiness for the solemn laying of the corner stone tomorrow of the new \$2,000,000 Scottish rite temple to be erected at 16th and S. streets northwest. The program for the ceremony is very elaborate and the exercises will be highly impressive. Sovereign Grand Commander James D. Richardson, former member of Congress from Tennessee, will deliver the opening address, after which John Russell Pope of New York, the architect of the temple, will deliver the Masonic supplements appropriate to the occasion to the grand master. The Masonic rite of laying the corner stone will be performed according to ancient usage by Grand Master J. C. Felner of the District of Columbia, assisted by the other officers of the Grand Lodge. It is expected that nearly five thousand Scottish Rite Masons from all parts of the country will attend the ceremony.

Congressman Morris Sheppard, who appears to be one of the most prominent aspirants for the seat of J. W. Bailey, in the United States Senate has represented the first Texas district since he was twenty-six years old.

GOATS MAY REPLACE COWS IN THE DAIRIES

Government Experts Have Made Investigations in Europe and Conclude Nannies Must Eventually Succeed Bovine.

That within another generation the goat will have become a real rival of the cow in American dairy farming, that goat's milk will have replaced to a large extent in many markets cow's milk as a food beverage and that American dairies will produce fancy cheese such as are made in Switzerland, France and Germany, is the belief of Government experts and individual investigators who have been looking over the milk goat industry in European countries, says the New York Sun. These experts urge American farmers to test the possibilities of milk goat dairying in the United States.

The milk goat has contributed much to Switzerland's prosperity. Germany years ago followed Switzerland's example and her milk goat industry is now valued annually at over \$60,000,000. In fact the goat has become the poor man's cow in Germany. France is not far behind Germany in adopting the milk goat for dairy use and Austria, Italy and Spain have well established milk goat industries and England has become interested in the successful results accomplished there.

Not only is milk goat dairying profitable, but furthermore the goat is pronounced less susceptible to tuberculosis than the cow; some authorities consider the goat entirely immune from the disease. Therefore goat's milk is safer than cow's milk. Goat's milk has long been regarded by physicians as a superior food for infants and invalids.

The milk goat industry in the United States has its largest development at present in Northern New Jersey near Palisades Park, where about a thousand milk goats are kept for milk-producing purposes. Italian immigrants have the credit of starting the industry at this place. Many people thereabout have come to prefer the milk of the goat to that of the cow. No effort has been made to operate these dairies on a larger scale than a score of goats, and as in Europe many families merely have two or three goats for their own use.

In European countries those used to goat's milk consider it a misfortune if, by failure of supply, they are compelled to return to the use of cow's milk. The milk of the milk goat they say is richer, more nutritious and more palatable and has better keeping qualities than that of the cow. Used in cooking, its superiority over cow's milk is said to be quickly apparent both to sight and taste.

Will Solve Milk Problem.

Experts of the Department of Agriculture believe the goat will be the biggest factor in solving the future milk problem of American communities. When the American farmer learns that he can keep from five to

on milk goats at the expense of feeding one cow, that the goats will get much food without cost to their owner from otherwise useless land, that the goats kept at the cost of feeding one cow will give probably twice as much milk as the cow and that the milk will sell at a higher price, there will be a quick awakening of interest. These figures have been reported by various investigators in European countries.

The Government is planning to try out the European milk goats on an extensive scale. The experiment from a business standpoint will be watched by agriculturalists all over the country, for such is its nature that the milk goat will thrive in practically every climate and altitude except regions that are excessively damp. A section of the big farm tract near Washington, recently set apart for the use of the Bureau of Animal Industry, will be used for the goat dairy. A large herd of American milk goats already on the plantation, but the experts look for their greatest success from the thoroughbred milk goats of Switzerland, many of which will be imported. The value of the different breeds and their crosses under American conditions will be tested.

Two quarts of milk a day is about the average record of the present American milk goats. Many of the Swiss goats give as high as five or six quarts a day and the average among Swiss thoroughbreds is around four quarts. German agricultural writers assert that the milk goats of that country give ten times their body weight in milk a year, while exceptional specimens give eighteen times their weight. Experts of the Bureau of Animal Industry at Washington believe that under scientific breeding, such as developed the thoroughbred milk cow, the milk output of the milk goat can also be increased.

INTERESTING NOTES

FROM IOWA PARK

Iowa Park, Texas, Oct. 16. Mrs. Charles Fisher died here Saturday morning at five o'clock of tuberculosis. The funeral services were held in the Baptist Church at four o'clock in the afternoon after which the remains were laid to rest in the Iowa Park cemetery. Mrs. Fisher was brought here last May from Waxahachie in search of health. She failed to find relief, and her death was not unexpected. Mrs. Carlon Burns, a niece of Mrs. Fisher's from near Ardmore, and a brother-in-law from near Oklahoma City, arrived shortly before her death.

Rev. Blankenship of Tolber, Texas, who was recently called to the pastorate of the Baptist Church here, arrived with his family today to make this their home.

The Teachers Association met here Saturday afternoon at 1:30, the meeting being led by County Superintendent Fairchild. The attendance was not very large but a great deal of interest was manifested.

Rev. and Mrs. C. P. Martin and children from Byers, visited old friends here last week.

T. W. Carlton and family from Haskell, have moved into the Wendell house.

Mr. and Mrs. G. G. Kemp of Electra, were in the Park last Wednesday.

J. A. Fowlkes of Schulenburg, came in last week for a visit with his son, R. L. Fowlkes and wife.

Mrs. Max Fox returned last week from Goodlet, Texas, where she has been for about two weeks.

STRIKING CARMEN AND THEIR GRIEVANCES.

On October 6th the Times published what was purported to be the demands made upon the Harriman and other lines of railway by the striking carmen. The Times got its information from the Literary Digest and Railway Age Gazette. It now appears that the article did not set out the facts, or that it was biased in favor of the railroads. At least that is the way some of the striking carmen viewed it, and to correct any wrong impression that might have been made by such article, the Times has been furnished with what is purported to be a typewritten copy of the agreement sought to be made between the carmen, blacksmiths, and other allied trades and the railroads, and the railroads are insisting that it is unfair to them, and so far have refused to sign. As a result, several thousand carmen are out on strike with little prospect of a settlement soon. The essential points of this purported agreement, some of which the railroads objected to are as follows:

RULE I.
Sec. 1. Nine hours shall be the standard working day, between the hours of 7 a. m. and 6 p. m. for all day men.
Sec. 2. Ten hours shall constitute a night's work for all regular night men in round house, all men working at night on dead work shall have ten hours pay for nine hours work and nine hours pay for eight hours work, etc. They shall not work less than eight hours per night and shall be allowed one hour for midnight meal. Round-house men shall be allowed a reasonable time, not less than twenty minutes for midnight meal.
RULE II.
Sec. 1. All time over the bulletined day (be it eight or nine hours) shall be paid for at the rate of time and a half until 12 o'clock m. and double time from 12 m. until 7 a. m.
Sec. 2. If called to return to work a minimum of five hours time for three hours and twenty minutes work or less will be allowed. If held thirty minutes or over after 6 p. m., five hours rule to govern.
Sec. 3. Overtime will be divided as equally as possible between the men.
Sec. 4. Time and one-half with a minimum of five hours time for three hours and twenty minutes work or less will be paid for Sundays and the following holidays: New Years Day, Washington's birthday, Decoration Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. When any of the above holidays fall on Sunday the day observed by the state or nation or by proclamation shall be considered the holiday.
Sec. 7. No employee shall be laid off any hour of the regular working time to equalize for having worked overtime.
Sec. 8. Employees when sent out on the road shall receive pay from the time called until returned as follows: Overtime in working hours, straight

time in straight time hours and actual expenses not to be less than \$1.50 per day.

Section 7. At the end of the working week one hour shall be allowed with full pay.

RULE III.

Sec. 1. When it becomes necessary to reduce expenses, working hours shall be reduced to eight hours per day six days per week before reducing the number of men employed.

Sec. 2. Any further reduction the youngest man in point of service shall be laid off, such men, however, shall have preference for work when additional men are needed, provided they shall inform the master mechanic within five days of their location. When the force is reduced apprentices shall be reduced to retain the established ratio, the last man laid off shall be the first man hired.

Sec. 3. While working less than nine hours per day the force shall not be increased.

RULE IV.

Sec. 1. No employee shall be dismissed or suspended without a just and sufficient cause. If after a proper investigation it shall be found that a man has been dismissed or suspended without a just and sufficient cause he shall be reinstated with full pay for all time lost, the investigation to be held within seven days after dismissal or suspension. In case of doubt the man shall be left at work pending investigation.

Sec. 2. If grievance occurs party aggrieved shall first take it up with his foreman for adjustment, if unable to adjust it, the local chairman or committee shall take it up with the local officials. Grievances that cannot be adjusted may be brought before the management by the general committee.

When requested the company will grant leave of absence and furnish transportation over its lines to employees who may desire to go before the management for the adjustment of grievances.

Sec. 6. Applicants for employment shall only be required to fill application as to address of relatives and last place of employment.

RULE VII.

Should a preferred job in the round-house, yard or shops become vacant or any job that may be created, it shall be bulletined for at least five days. The oldest employee in point of service (classification of work considered) shall be in line for promotion (head foremanship excepted).

When an employee is laid off a job he has obtained by bulletin, he will be placed on any job in point of service to which his seniority may entitle him. Each employee's seniority shall start from his date of employment, except in case of an apprentice served his time, his seniority shall date back six months prior to the expiration of his apprenticeship.

RULE XI.

Employees leaving the service of the company shall be given a service letter showing time and capacity in which worked and cause for leaving service.

RULE XV.

All men filling a higher rate position than that in which he is regularly employed shall receive a rate of pay for full-time worked on same, but no man shall have his wages reduced when required to work below his classification.

By a vote of three to one the State of California has adopted the recall, and this includes the recall of judges. The initiative and referendum was also adopted by about the same majority. The city of Los Angeles was the first city in the United States to adopt the recall method, and it has worked well there. At the same election, woman's suffrage carried in the State by a majority of 8,000 outside of San Francisco, the majority in that city against the proposition being 13,000.

With the endorsement of ex-Secretary of the Interior James R. Garfield, the La Pollette boom for the Republican presidential nomination has been given a great boost. Garfield and Roosevelt have been working together in politics for the past few years, and if the former's endorsement of La Pollette and his platform should be followed by a straight-out endorsement from Roosevelt, it will mean trouble for President Taft. There is no question but that Roosevelt is head and shoulders above any other man in the ranks of the Republican party, and what he says will have great weight in a National convention.

OFFERS EXPLANATION.

G. W. Benn, chairman of the publicity committee of Men and Religion movement, writes the Dallas News as follows:

Oct. 14.—Your issue of Friday morning, Oct. 13, contained a dispatch from St. Louis whose headlines were very misleading. It stated that Adolphus Busch had been honored by the Men and Religion Movement through its local St. Louis committee. The body of the dispatch, however, showed that Mr. Busch has no connection with the Men and Religion Movement whatever. He was mentioned as one of ten men who are reckoned as having the greatest influence in the city of St. Louis, and whose attitude toward religion, therefore, it is important to take into consideration. The same question was raised here in Dallas, and in all the seventy-six cities which are the centers of the movement. It is one of the queries asked in the Social Service Survey, to which particular attention was called in The News of Oct. 1. Under the heading, "Social Influences," such questions as this are asked:

What are some of the dominating political, social and economic movements in your city? Who are your ten most influential citizens? To what extent do the churches of the community influence its social, political and economic life?

I should be glad if you will give speedy publication to this explanation. The minds of many of our citizens have been greatly exercised by the strange headlines of The News.

G. W. Benn,
Chairman of Publicity Committee.

Inasmuch as the Times was one of the Associated Press papers of the State to receive that report and print it, and which read as if Mr. Busch would most likely be one of the ten most influential men in St. Louis to be selected to forward such a laudable movement, it is glad of the opportunity to publish the explanation.

UNION LABORS ATTITUDE.

(Houston Labor Journal)

On Wednesday evening, October 4, President Gompers of the American Federation of Labor reached Washington, D. C., after an extended campaign on the Pacific coast and in the western states. On Thursday morning he was at his desk at headquarters, and although buried in a mass of correspondence, found time to express an opinion on the signs of times as far as the labor world is concerned.

He said: "There is a feeling of unrest among the workers of the world. England, Ireland and the continent of Europe have had their upheavals, and the workers are awakening to a realization of their power—in a manner that speaks in unmistakable terms of their determination to secure a more equitable portion of that which they produce."

"In our United States the same feeling of unrest prevails, and if the employers in this country continue their present policy and refuse to meet the representatives of organized labor the battle for the uplift may be fought on a larger scale than the conflict which has temporarily ended in Europe."

"I have been every minute since I left Washington, on August 17, among the men who toil. I have talked with them and labored with them, and have found the measure of their dissatisfaction great. Continued refusals on the part of the employers to meet the representatives of labor and will only aggravate the unrest of the workers, and no one can foretell what the result will be."

"The workers in the West and on the Pacific coast are conducting a magnificent contest. With a bold and determined purpose they are demanding that their rights shall be recognized. Their contentions are just and must eventually be conceded. It would have been a pleasure to me to extend my campaign on the coast, but my duties at headquarters, and the intimation that Judge Wright would probably announce this week his decision in the proceedings for contempt which he has initiated on his own account made it imperative for me to return."

"While in Los Angeles I had the opportunity to talk with the McNamara brothers, and though I had to leave them in the gloomy jail, I left them with the firm conviction that a jury of their peers would soon proclaim their innocence, set them free, and remove from labor the stain that the unscrupulous organization of employers, the National Association of Manufacturers, with its \$1,500,000 fund to crush labor, would vainly fasten upon it. Before I saw the McNamara brothers in jail I was positively convinced of their innocence. After talking with them in Los Angeles I am convinced that they are the victims of one of the most diabolical plots ever hatched in our country."

"In Los Angeles every effort has been made to prejudice the citizens against the McNamaras." Detective Burns, his employers and satellites have already tried them in the newspapers and magazines, but justice will prevail and the plots of the enemies of labor will fail. The people of Los Angeles are realizing more and more that an unwholesome effort has been and is being made to sacrifice innocent men so that a stain may be

Highwaymen Use Revolvers as Clubs; Open Fire

Ed Henaway and Jake Morrison Report Assault and Attempted Hold Up in Flats Last Night

Ed Henaway and Jake Morrison say that while on their way to their homes last night at about 9:30 o'clock, they were assaulted and badly beaten about the head with six shooters in the hands of four highwaymen, who attempted to hold them up and go through their pockets. However, only \$3 in cash was secured, and neither of the men robbed was seriously injured. As yet no trace of the robbers has been found.

According to the report given by Henaway and Morrison, to the officers they were on their way to their homes on Mississippi street and had reached Smith & Taylor's grocery store when they noticed four men sitting on the sidewalk in front of the store. They paid no attention to the men, but upon reaching a point where the men were sitting, the four, drawing six shooters, jumped up and began beating Hen-

away and Morrison about the head, at the same time demanding that they surrender their money. Henaway and Morrison began to run, and the robbers fired four shots after them, none of which took effect.

In the flight Morrison dropped \$8, five of which was in the form of a bill, and the other three in silver. The robbers picked up the three dollars in silver, but failed to notice the five dollar bill in the darkness and that sum was found this morning on the scene of the robbery and returned to its owner by a passer by.

Morrison and Henaway were both badly beaten about the head by the six shooters in the hands of the robbers, but their injuries, although painful, are not considered as serious. No arrests have as yet been made in connection with the holdup, but several suspicious characters have been located by the officers.

Some Figures on the Horse

There are over 30,000,000 horses— one horse to every three individuals in the United States. This mighty number represents the enormous sum of \$3,000,000,000, which is about as much as all the rolling stock in use on all the railroads, including all the other vehicles of the country.

The horse makes the market for nearly all the oat crop, worth \$334,000,000; most of the hay crop, worth \$743,000,000; a large part of the corn crop, worth \$1,337,000,000.

Then consider the equipments—carriages, wagons, harness, clothing, saddles, bridles, shoes and bits. Imagine the enormous capital invested in these things and in the plants for producing the same. Think, too, of the armies of men employed in the manufacture of horse accessories, and you will realize the importance of the horse in the industrial world.

Then reflect on the private stable, repositories, salarooms, blacksmith shops; of the merchants, travelers,

and salesmen, and it will be powerfully impressed on your mind that the horse is indeed a potent factor in the commercial world.

The horse interest thus ranks with the railroads, with agriculture, and with the colossal affairs of the country. It is one of the largest and it overtops many industries which we are prone to regard among the leaders in importance.

In 1900 there were 14,000,000 horses, average value \$44.61 each. In 1909 there were 30,000,000 horses, average value \$95.64 each.

This marvelous country is urgently calling for more horses. It wants good horses, is willing to pay high prices for them. The growing wants of man demand them. Let the automobile come. We need it, too. We have ample work for it and for the thousands which will be made. But we must have horses. It is the duty of farmers, breeders, and ranchmen to raise good horses, and to raise them abundantly.

realize a profit to the grower. A plan similar to that was adopted by Brazil, and through its working in that country forced the price of coffee from 4c to 13c per pound and now the coffee growers of Brazil find their business profitable. With the State's credit behind such a movement, the cotton bonds would no doubt find a ready market.

The war in China and down at Austin—between Gov. Colquitt and Comptroller Lane, is still raging.

FROST IS FORECAST.
Weather Bureau Predicts Cold Spell in Panhandle Cotton Section.
Fort Worth, Oct. 16.—The Weather Bureau forecast of frost for the Panhandle of Texas will, if realized, mark the end of cotton growing in that part of the state for this year. Conditions developing here last night in Texas had reported this morning by Observer Landis caused the bureau at Washington to ask for a special noonday report on observations and other weather data to that hour, today. The wind attained a velocity here of thirty-eight miles an hour at 9:10 o'clock last night, which was about the height of the storm. The rainfall recorded at the local weather bureau was but .20 of an inch, but that fell in a short time. Most of the rain reported on today's cotton bulletin was east of Ft. Worth and south of Austin. Marble Falls, San Marcos, Cuero, Columbus all reporting rain.

MAKING BANK LOSSES GOOD
Former Resident of Tacoma is Now Sending in Money from Egyptian Plantation.
Tacoma, Wash., Oct. 17.—Eighteen years ago the Walla Walla, Washington savings bank failed and its depositors received nothing. Its president, J. K. Edmiston, is gradually sending \$100,000 from Cairo, Egypt, to pay every depositor in full. The money is being sent to Judge John Sharpstein of Walla Walla, former counsel for Edmiston. Widows and aged people in poor circumstances are receiving their first money. By another year all claimants will have been paid.
Edmiston has developed a cotton plantation in the Nile Valley, Egypt, and from its net receipts come the funds he is sending. Edmiston is getting old and will within a few years return to this State. He was convicted of receiving deposits after he knew the bank was insolvent and sentenced to serve several years in Walla Walla penitentiary but he forfeited bail and left the State.

JUDY O'HARA LAST NIGHT A RARE TREAT

All of us who saw "Judy O'Hara," a delightful drama of intrigue, love and laughter, so clean and whole some and artistically presented at the Wichita Theatre last night—if we had room for anything other than our own enjoyment, it was a feeling of regret that the people of Wichita Falls had not recognized the merit of the performance and filled every seat in the house.

It is so seldom that actors of the ability and reputation of Abbia James, James Young, Andrew Robson, Melbourne MacDowell and others of the cast of Judy O'Hara visit Wichita Falls, that it does seem that theatre-goers should improve their opportunity.

"Judy O'Hara" is a costume play of the early seventeenth century dealing with persons interested in placing James Stuart, the pretender, upon the throne during the last days of Queen Anne's reign.

The leading role of Judy is one of intense human interest strong with dramatic situations, thrilling climaxes and delicate comedy. This role gives Abbia James a fitting vehicle for her splendid talent.

The buoyancy of her performance is wonderful. She kept the audience constantly alert mentally to the mind of the staggard and causing interest where another's acting might have spelled boredom.

Judy's bubbling laugh and her sweet and wholesome humor at once won the admiration of the audience.

James Young, as the brave, the ardent, loyal and altogether admirable Sir Miles Prendergast, was scarcely less captivating than Abbia James herself.

Mr. MacDowell, as Lord Saxton, made a character portrayed of that part, that left nothing that the imagination could desire lacking.

Altogether the costumes, the scenes, the leading roles, the support measured up to a standard of artistic perfection that was highly praised.

The story of Judy O'Hara relates to the efforts of a number of Irish supporters of James Stuart to place him upon the throne of England. At the beginning of the play Lady Judith O'Hara, the only child of the impoverished Earl of Clancergus, is celebrating her nineteenth birthday. A young Irish nobleman, Sir Miles Prendergast, carrying papers to the Pretender in France, comes to Clancergus' castle to hide. He sees Judy and falls in love with her immediately. She persuades him to represent himself as an Irish lad traveling through the country to find work with a friend, and disguised as a rustic Sir Miles makes his escape to France. As the festivities end, a messenger brings news of the death of Judy's uncle in India and that she has fallen heir to his vast fortune. The shock of the good news is too much for her father, who dies, and the girl is brought up by Lord Saxton, an English nobleman. The rest of the play is concerned with the intrigues of Sir Miles, now masquerading as Lord Saxton's private secretary, and Judy to bring back the Pretender and place him on the throne of the dying Queen. Incidentally the Irish girl finds that she can be useful in carrying messages for the Stuart and she disguises herself in white as a highwayman and is soon talked about as a ghost all through the countryside. She meets James Stuart who falls in love with her and plays fast and loose with his chances for the kingdom in his situation for the pretty highwayman. In the end, of course, everything ends pleasantly, excepting that the Pretender is shown as losing the throne and the respect of his supporters as well.

Sun Never Sets on Texas Press

The Texas press circulates in every state in the Union and some of our papers cross the ocean. It can be truly said that the sun never sets on the Texas press.

With a quarter of a million copies of Texas newspapers singing the praises of Texas in every clime and country, we are able to account for the marvelous influx of men and money into our state. There is no more effective way of advertising Texas than for our citizens to subscribe for the local paper and have it mailed to persons outside the state and no better service can be rendered our friends in other states than by giving them an opportunity of learning about Texas through the columns of our local papers.

At the next regular State election in Colorado the voters will be called upon to select two United States senators—one for the full term of six years to succeed Simon Guggenheim and one for the unexpired term of two years, caused by the death of the late Charles J. Hughes.

Richard Yates, who was governor of Illinois from 1901 to 1905, has announced his intention to seek the Republican nomination for the office again next year.

HOW ONE WOMAN WON Her Health and Strength Back Again by The Use of Cardul.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardul as a tonic, and, from the first day, it seemed to help. I had almost lost my reason, but, thanks to Cardul, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardul acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health. It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical. Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardul. The beneficial effects of this time-tested woman's remedy, even show themselves in many different ways. Try it.

MAY DRILL FOR OIL NEAR DEVOL, OKLA

Citizens of That Place Meet With Tulsa Oil Men to Discuss Proposed Contract.

Devol, Okla., Oct. 17.—Scott Braden representing the Gracen Oil Company of Tulsa, Okla., will meet with the citizens of Devol today in an effort to reach an agreement whereby an oil well will be sunk here at once.

The people of this section are anxious to have a well put down as they are confident either oil or gas or probably both will be found here, and are offering liberal inducements.

Production and Consumption.

The Federal Census reports enable us to estimate with reasonable accuracy our annual production which approximates as follows:

Agriculture	8561,231,000
Manufacturing	150,000,000
Mining	20,000,000
Total	\$731,231,000

The item of consumption is far more difficult to estimate, although reliable data on the cost of living per capita is of record. The following table represents property consumed and destroyed by the natural and artificial processes of civilization. Three classifications are used, "The People" which includes cost of living and burial expenses, "The Animals" which includes the keep of live stock and loss by natural and accidental deaths, "The Property" which includes destruction by fire, decay, wear, etc. as well as destruction of seed by processes of germination.

The People	\$330,000,000
The Animals	200,000,000
The Property	120,000,000
Total	\$650,000,000

By deducting consumption from production, we have \$81,231,000 per annum left, which is equal to 11 per cent of gross production and is approximately correct. This volume of money is entirely too small to make much headway in development. We need Ten Billion dollars to open up new farms, build cities, construct railroads and public highways and we must get money from outside the state for our large development enterprises.

Correct Dress!

The Fraternal Brotherhood

is one of the most popular beneficiary organizations in existence.

IT IS POPULAR BECAUSE it is strictly up-to-date in its plan and operations. BECAUSE it gives just the benefits needed to make absolute protection for yourself and family. BECAUSE it admits both men and women with equal rights and privileges, thus enabling man and wife, son and daughter to be associated together in the same lodge for social, intellectual and moral improvement. BECAUSE you do not have to "die to win" as it provides Accident, Permanent Disability and Old Age Benefits, thus protecting you and your family while you live. In case of your death it keeps up the fire on the hearth and pays off the mortgage on the home, pays the rent, clothes and educates the children.

Atlantic Waterways Conference.

Richmond, Va., Oct. 17.—Several hundred delegates, representing nearly every Atlantic coast State, assembled in Richmond today for the opening of the fourth annual convention of the Atlantic Deep Waterways Association. The aim of the gathering, which will continue its sessions three days is to promote the construction of a national enterprise, of a chain of canals connecting natural and protected waterways along the Atlantic coast, thereby forming a continuous inland navigation route from Boston to Key West. President J. Hampton Moore of Philadelphia is presiding over the sessions. Governor Woodrow Wilson of New Jersey is scheduled as the chief speaker.

It is said the Republican Progressive League of Illinois is planning to put a full State ticket in the field for the Republican primary election next year, when a governor and other State officials will be elected.

TAP DAY AT YALE.

What it Means to the Juniors Who Have "Made Good."

The three great senior societies of Yale—Skull and Bones, Scroll and Key and Wolf's Head—choose on tap day fifteen members each from the junior class, the fifteen members of the outgoing senior class making the choice. Each senior is allotted his man of the juniors and must find him in the crowd at the tree and tap him on the shoulder and give him the order to go to his room. Followed by his sponsor, he obeys, and what happens at the room no one but the men of the society knows. With shining face the lad comes back later and is slapped on the shoulder and told, "Good work, old man," cordially and who e heartily by every friend and acquaintance. "Y lads who have 'made' every honor possible, by lads who have 'made' nothing, just as heartily, for that is the spirit of Yale.

Only juniors room in Durfee hall. On tap day an outsider is lucky who has a friend there, for a window is a proscenium box for the play—the play which is a tragedy to all but forty-five of the three hundred and odd juniors. The windows of every story of the grandstone facade are crowded with a deeply interested audience. Grizzled heads of old graduates mix with dowerly heads of women. Every one is watching every detail, every arrival. In front of the hall are a drive and room for perhaps a dozen carriages next the fence—the famous fence of Yale—which rails the campus round. Just inside it, at the northeast corner, rises the tree. People stand up in the carriages, women and men. The fence is loaded with people, often standing, too, to see that tree.

All over the campus surges a crowd—students of the other classes, seniors who last year stood in the compact gathering at the tree and left it sore hearted, men having been "taken," sophomores who will stand there next year, who already are hoping for and jreeding their tap day; little freshmen, each one sure that he at least will be of the elect, and again the iron gray heads, the interested faces of old Yale men, and the gay spring hats like bouquets of flowers.

It is perhaps the most critical stage day of the four years' course at the university. It shows to the world whether or no a boy, after three years of college life, has in the eyes of the student body "made good." It is a crucial test, a heartrending test for a boy of twenty years.—Mary R. S. Andrews in Scribner's Magazine.

They Were All "Pills"

One of the fashionable east side churches recently witnessed a funny incident at a choir rehearsal. They were preparing for the following Sunday morning a beautiful selection, the first words of which were "I am a pilgrim." It so happened that the music divided the word "pilgrim" and made a pause after the syllable. The effect was most amusing. The soprano sang in a high key "I am a pill" and then stopped. The tenor acknowledged that he was a "pill," and when the bass was thundering "I am a pill" he declared "I'm a pill." It was too much for the gravity of the singers, and they roared. No amount of practice could get them past the fatal pause without an outburst, and the piece had to be given up.—Musical World.

Clever Dwarfs

Richard Gibson and his wife, who dwelled in the seventeenth century, were a remarkable pair of dwarfs, quite apart from their mezes, which combined barely made up seven feet. Both were clever painters of miniatures, and Gibson was drawing master to the daughters of James II. At their wedding, which was arranged by Henrietta Maria, Charles I. gave the bride away; the queen placed a valuable diamond ring on her finger, and Edmund Waller, the court poet, wrote a poem in honor of the occasion. Gibson was seventy-four when he passed away, while his widow died at the advanced age of eighty-nine years.

Madagascar's Two Climates.

The island of Madagascar has two distinct climates, two classes of natives and two classes of fauna and flora. The island is about the size of France. Along the coast it is tropical and malarious, and the natives are darker than in the interior. The interior is a high tableland and moun- tainous. There the climate is cooler and the natives smaller and lighter in color than on the coast. But in the interior they are more intelligent, and they rule the island.

The Foreign Dollar.

The foreign dollar is the biggest dollar on the financial horizon. It is the most powerful factor in the world's progress and it moves the star of civilization as with it. It follows the line of least resistance and prosperity waits its opportunity for it. It is the most voluminous and congenial of our currencies. The foreign dollar is a cautious, leisurely investor, loves good company, is seldom found alone and is quickly woven into the industrial fabric of the State. It soon learns to speak our language, play our games and drink our drinks, and when its presence is no longer desired, it quickly departs. Only gigantic enterprises appeal to it and wherever it goes, it builds empires. It is the development dollar.

The essential element to our progress is the volume of money available for investment. To develop our agricultural, industrial, and mineral resources will require an investment of ten billion dollars. Our production will not exceed consumption more than fifty million dollars per annum, which is hardly sufficient to run our errands and to pay in perceptible extent can it take part in the development of the State's resources. This is a work that must be done by the foreign dollar. We do not increase our wealth when we borrow from each other but when we negotiate a loan on the outside of the State, we bring money into Texas, or when foreign capital moves to Texas, we have increased our wealth. It is the foreign dollar that must develop Texas.

The Need of Cheap Money.

An illustration of the importance of cheap money to our prosperity may be obtained when we consider that of the total value of all farms which is \$1,822,713,000, only \$533,268,160 is owned in fee simple by the farmers operating the farms and the balance of \$1,289,444,840, is mortgaged or operated by tenant farmers. Reduce the rate of interest one cent per annum on this enormous sum and we have a saving of \$12,000,000. Of course the tenant farmer does not owe for the farms, but it is his ambition to acquire the property and he is, as a rule, a waiting customer for money to buy a home and cheap money will improve his opportunity for buying a farm and lighten his burden. The Texas farmer needs cheap money.

Five States, North Dakota, Wisconsin, Nebraska, Oregon and New Jersey, will by law choose delegates to the national conventions next year by direct vote.

OKLAHOMA LINING UP ON LIQUOR QUESTION

"Wets" Busy Getting Signatures to Initiative Petition; "Drys" Also Are Active.

Guthrie, Okla., Oct. 17.—Will Oklahoma if it be given the chance, vote as did Texas and Maine recently on the prohibition question; and as a result will a local option law be adopted in this state? Sometime before the next general election, Governor Lee Cruise, if the initiative petition is put through is expected to call a special election on the "wet" and the "dry" question. The anti-prohibitionists are busy getting 65,000 names to a petition which asks the governor to call the election, and the Anti-Saloon League and the Women's Christian Temperance Union are just as busy organizing throughout the state to combat the "wet" forces.

This will be the third attempt to eliminate the word "prohibition" from the state constitution. In the first election the "drys" won by a majority of 29,160, and in the second election, in November, 1910 the "dry" majority was 30,985. The old Indian Territory half of the state, has stood about even on the proposition thus far, but the anti-prohibitionists believe there is a big wet majority on that side of the state since the capital removal case has been decided. During territorial days old Oklahoma had saloons.

In the first election in 1907, old Indian Territory went "dry" by a majority of 3,691, but in 1910 the dry majority dropped to 784. The Osage Indian nation, now Osage county, went wet in 1907 by 492 and in 1910 by 1,345. These figures give encouragement to the local option advocates.

As originally written, the present initiative bill aimed merely at a repeal of the present constitutional prohibitory laws and left the matter of fixing the local option unit up to the legislature. A general demand came from all portions of the state, however, that the unit be fixed in the bill and virtually a new bill has been drafted.

As it will go before the voters, the bill provides that incorporated towns, villages, and cities, and also parts of counties lying outside such incorporated communities may settle for themselves the question of whether they shall be "wet" or "dry."

APACHE TRIBE SPLITS.

Half Favors Removal to New Mexico; Others Wish to Stay. Fort Sill, Okla., Oct. 16.—The delegation of Apache Indians who accompanied Colonel M. L. Scott to New Mexico and Arizona to look for homes for the Apaches on the military reservation there, have returned and made report, but the tribe is still divided. Half of the delegation favored removal to Mesquero, and half advised remaining at Sill. After an all afternoon council today 131 of the Apaches voted to go to New Mexico and ninety-two voted to stay. Colonel Scott leaves Tuesday to make his report to the war department. Congressional action will be required to settle the fate of the Apaches.

never hand the world a frown as smiles come at nothing the million and a corpse never has any fun out of the flowers. In good drug store service we have a batting average of a million. We substitute with the permission of the physician, the nurse and the patient. Square dealing is not only a habit with us but a necessity. Our conversation is not copyrighted, you are at liberty to repeat any thing we say to you. You don't have to anchor your pocketbook to the center of gravity with a log chain; our prices are right. We have been trusted with health, happiness and life about forty thousand times according to our files and our physicians and customers say we made good. Buy cheap groceries, cheap dry goods, cheap amusement but never cheap drugs; cheap drugs are expensive, they sometimes include funeral expenses. We are the best looking thing on Eighth street, located in the hot bed of physicians, we have a bunch on our list, if you want one quick grab the wire and get busy with us.

PURE MILK CRUSADE.

Fort Worth, Tex., Oct. 16.—Dr. R. F. Eagle at the head of the Bureau of Animal Industry work at Fort Worth, spoke before the Tenth Ward mass meeting tonight. He discussed tuberculosis in cows. Dr. Kent Kibble of the Tarrant County Medical Association, chairman of the pure food and milk committee of that association, told something of the work the committee had done and yet proposed to do for pure milk in this city. Dr. Kibble stated that one of the prompting causes of the investigation of his committee if not the chief cause was the large infant mortality in this city.

AUTUMN SOWN RYE COMES IN HANDILY.

Before Arrival of New Grass in the Spring It More Than Pays for Trouble.

Rye is not grown on every farm, but those who have proved its value as a bulky, succulent green food that is available in the spring before the grass grows, treat it as an indispensable and valuable crop.

Those who do not grow it can have an idea of this in the springtime when they are lamenting the absence of new grass, resolutions are often made to grow some the succeeding year, but when the time arrives to sow the crop the good intentions are forgotten and nothing is done.

Then when the time comes around again as it always does, much regret is felt that provision was not made to meet it with a good supply of rye.

It is hardy, always grows, produces an immense bulk of material long before any kind of grass affords a bite and the stock relish it greatly.

This includes cows in milk, mares suckling foals, sheep with lambs and store stock, too, if sufficient is grown to allow them some.

It should not be sown in bleak prominence where it will have to contend with cutting winds. The more sheltered spots or fields are better adapted for its developments in the hindering weathers of early spring.

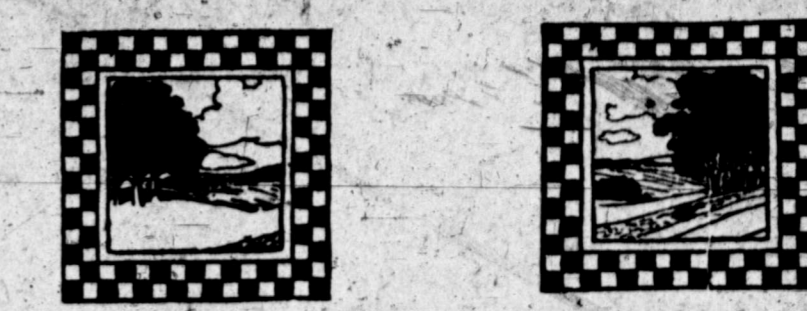

It may follow after corn or potatoes. It is only a temporary crop and will be consumed and cleared off in time to admit of roots being sown in the early summer. Making such quick and pro-

fuse growth it requires rich soil, but not to excess, as this would produce growth of a soft and too perishable nature.

Field after field of it need not be grown. A few acres from two to half a dozen, according to demand, will yield a big supply. About three bushels of seed should be sown per acre. It much prefer to drill it like grain, to

sowing it broadcast. Birds and pigeons are very fond of the seed and if sown broadcast much of it will be eaten, but when drilled, most of it is left alone.

There is a great demand for it by the cow keepers and those who have become acquainted with its disposal in this fashion never fail to have a large supply.

Good, Well Aged Coffees Are hard to buy. The market has been swept clean of fancy marks of coffees. Sixty days ago our buyers spent eleven days on the New York Coffee Market, selecting coffees of approved cup quality and purchased over 30,000 pounds of the pick of the market all well aged and the finest cupping quality. This is without doubt the finest lot of coffees that have reached the state this season and it would be impossible to match them at the present time. Since that time we have had the largest advances on the coffee market since the Civil war. On account of our fortunate purchase, we have not had to advance the retail price of coffee, nor have we lowered the quality. Our roasting plant is up to the last minute and we roast fresh daily. It's all in your favor to buy your coffees of us.
