A. PHILLIPS SHOT THROUGH CONFIRMATION OF NEWS RE-BRAIN BY ASSASSINS AT-TEMPTING TO KILL MAR-SHAL WEAVER.

# MARSHAL HIMSELF SHOT

Tragedy is Believed to Have Resulted From Feud Over Killing of W. S. Parks By the Officer:

Special to The rimes Tipton, Okla., Nov. 7.—T. A. Phillips, a traveling salesman for the shot and instantly killed and City Marshall H. A. Weaver, town marshall at this place was shot through the shoulder and in the left side by unknown parties here at about nine o'clock last night, in an attempt to agassinate the officer. It is believed that Phillips was killed by a shot which struck the side of a passenger coach and glanced. The shots were fired from a shotgun by men who drove up to the north side of the Wichita Falls and Northwestern passenger station just as the southbound train came to a stop. Phillips was carrying a sample grip and a suit case and was struck just as he was in the act of stepping onto the train. Weaver was shot while standing Turther down the platform toward the depot, after he had exchanged several shots with the assassins. After firing five or six loads of buckshot the men in the buggy lashed their horse forward and drove out of town without their identity becoming

Miller, a sign painter, was shot and killed here last night about 9 o'clock. near his paint shop, on North First street. Last fight pistol shots were heard from Miller's place of business. Chief of Police J. J. Clinton and Policeman M. M. Newton and Ben Lassiter hurried to the scene. He defled the officers and shot several times. Chief Clinton fired once thinking to scare and subline him, but without having that result, he fired again and the shot took effect in the right side, passing through both lungs and emerging near the left shoulder blade. Death resulted almost instantly from hemorrhage. The deceased lived alone in the back end of his paint shop. He was a German and had served in both the German and United States armies. "The coffee world is discussing what is to be the future of coffee as a result of the campaign of miseducation carried on by the cereal coffee people. We have before us a letter from one of the largest roasters in the South asking what can be done to counteract the work of the enemies of coffee.

"The matter should have been taken up by the Brazilian Gov't when they were completing their beautiful valorization scheme."

Then the article proceeds to denounce Postum and works into a fine frenzy, because we have published facts regarding the effect of coffee on some people.

The harrowing tale goes on. "Where a few years ago everybody drank coffee, several cups a day, now we find in every walk hi life people who imagine they can-

Isn't It Curious these "burstrong-men should pick out coffee to "imagine" about? Why not "imagine" that regular doses of whiskey are harmful, or daily slugs

of morphine? If "imagination" makes the caffeine in coffee clog the liver, depress the heart and steadily tear down the nervous system, bringing on one or more of the dozens of types of diseases which follow broken-down nervous systems,

many people don't know it. But it remained for the man who has coffee, morphine or whiskey to sell, to have the supreme nerve to say: "You only imagine your disorders. Keep on buying from me.

Let us continue to quote from

"Notwithstanding the enoromus increase in population during the past three years, coffee shows an appalling decrease in consumption." . . . . .

Then follows: a tiresome lot of statistics which wind up by showing a decrease of consumption in two years of, in round figures, two hundred million pounds

Here we see the cause for the attacks on us and the Brazilian sneers at Americans who prefer to use a healthful, home-made breakfast drink and incidentally keep the

money in America, rather than send the millions to Brazil and pay for. an article that chemists class among the drugs and not among the foods.

Will the reader please remember, we never announce that coffee "hurts all people."

Some persons seem to have excess vitality enough to use coffee, tobacco and whiskey for years and apparently be none the worse, but the number is small, and when a sensiblt man or woman finds on article acts harmfully they exercise some degree of intelligence by dropping it.

We quote again from the article: "These figures are paralyzing but correct, being taken from Leech's statistics, recognized as the most reliable."

. . . . . This is one of the highest-compliments ever paid to the levelheaded, common sense of Americans who cut off about two hundred million pounds of coffee when they found by actual experiment (in the majority of cases) that the subtle

drug caffeine, in coffee, worked discomfort and varying forms of

# "WHAT'S THE DIFFERENCE"

a small girl asked the jeweler "between the five-cent diamond rings and the tencent ones?" "You get a better diamond," replied the jeweler. Appearances are very deceptive in coffees as well. Apply the same test--THE PALATE. Our coffees are well aged, perfectly blended and ROASTED FRESH -- Our sole aim is cup quality.
