## STATE RESTS CASE IN DEPUTY'S TRIAL

# First of Series of Band Concerts on Friday

### WILL BE HELD ON GROUNDS AT RANGER HIGH

To Be Held Weekly Through Summer by Lone Star Band.

On Friday night the first of a series of band concerts sponsored by the Lone Star band of the Lone Star Gas company and the Lone Star Gasoline company will be given on the high school grounds in Ranger beginning at 8 o'clock.

A band stand is being erected through the efforts of the chamber of commerce and the Ranger fire department for the concerts and lights are being installed around the stand. It is thought that permission will be granted by the city to rope off one block of the street in order that cars may be parked there but through traffic stopped.

This series of open air concerts have been carefully planned by the members of the Lone Star band under the direction of A. J. Campbell and managed by B. H. Peacock. Special features will be announced from time to time during the summer for the entertainment of those who attend the concerts and an effort is being made to make them as enjoyable as possible. Seats are being installed for those who want to get up close or do not have cars in which they can park during the concert.

The band is composed of some 30 musicians who have been playing together for a number of years and it is expected that the number may be augmented until it reaches at least 40 before the last of the concert season, which will be sometime in August.

At a later date the high school band will alternate with the Lone Star band and will furnish part of the program.

It is planned to have an ample supply of ice water convenient on the grounds for all who attend.

The program for the concert for this week is as follows:

- 1.—National Emblem march.
- 2.—Arcadia, overture, Laurens.
- 3.—Betty Co-Ed, popular, Fagarty.
- 4.—Tisora Mio, waltz, Becucci.
- 5.—Over the Top, march, Crosby.
- 6.—In a Woodland Glade, caprice, Homes.
- 7.—American Eagle, march, Boehme.
- 8.—Memories of Stephen F. Foster, medley, Homes.
- 9.—Smile, Darn You, Smile, popular, Flynn.
- 10.—I'm Alone Because I Love You, popular, song.
- 11.—Stars and Stripes Forever, march, Sousa.

### A KINGLY SERVICE

No longer a ruler, but always a sportsman, King Alfonso of Spain was greatly concerned when one of the members of a polo team was injured during a match at the Roshampton Club, London. This remarkable picture shows the Bourbon king as he bent solicitously over the Hon. C. Douglas to light the injured athlete's cigar.

### OIL FIRES MAY CONTINUE FOR MANY DAYS

Gladewater, Kilgore and Overton Are Scenes of Unruly Gushers.

By United Press.  
OVERTON, June 24.—Oil men in three areas worked today to stem three gushers, two of them flaming torches and the third a geyser which sent gas and oil over the town of Gladewater.

Many Gladewater residents ate a cold breakfast so great were the precautions taken to prevent a repetition of the fatal oil well fire there a few weeks ago, which claimed the lives of nine men.

At Kilgore and Overton two wells roaring furnaces. They were ignited late Tuesday after they were brought in.

Flood Hinely, famed oil well fire fighter said it was not likely he would be able to extinguish the Overton blaze until Friday. More than a score of men labored to remove debris from around the well so he could place a charge of nitroglycerin in an effort to snap out a fire as he and his brother did at Gladewater.

The Kilgore well will probably not be extinguished for several days.

### "KID" DIVORCE REFEREES VANDERBILT-ARNO TILT

"Kid" Divorce, a postmaster in refereeing marital battles, has stepped in to take a hand in settling the free-for-all Vanderbilt-Arno imbroglio at Reno. Mrs. Cornelius Vanderbilt, Jr., is shown at the left leaving her auto for a consultation with an attorney on plans to fight the divorce action started by her husband after he had chased Peter Arno, the cartoonist, with an unloaded gun when he saw Arno and Mrs. Vanderbilt alight from an auto in front of the Vanderbilt home early one morning. Arno, shown in a new picture at the right, also plans to sue for a divorce, according to attorneys.

### EAST TEXAS OIL TAKES BIG DROP

DALLAS, June 25.—Twenty cents a barrel today was the posted price of East Texas oil, while there were reports of crude being sold at the wells as low as five cents a barrel.

Dallas offices of the Sun Oil company announced abandonment of its gravity seals of prices and posted a flat 20-cent price. At Houston the Gulf Pipe Line company did likewise, as the Sinclair Refining company had done earlier at Tulsa, and as the Magnolia Petroleum company did last week.

### CROSBY IS A WITNESS FOR DEFENSE

Refutes Salvadore Rubios' Statement That He Was Identified.

By United Press.  
ARDMORE, Okla., June 25.—The state of Oklahoma's case was completed today against former Deputy Sheriff William E. Guesz, charged with murder in the slaying of Emilio Gotter Rubios, a nephew of President Rubio of Mexico.

With testimony of three witnesses on record that they saw the deputy remove a pistol from the pocket of the youth after he had been slain, the state rested.

Defense Counsel J. B. Champion called Cecil Crosby as the first defense witness after a brief recess. Crosby was the deputy sheriff with Guesz when the two Mexicans were slain. He also faces trial on a charge of murder.

"I got out of the car and remonstrated with Salvador Cortes Rubio, a companion of the slain youth, who was standing in the front of the car performing an indecent act," said Crosby.

"I told Rubio I was a deputy, and Guesz stepped back to the car and asked the other boys who they were," Crosby said. Salvadore has testified that Crosby did not identify himself as an officer.

On cross-examination Crosby admitted neither youth slain any move threatening him.

"Games got out of the car when I seized a gun that was in Rubio's lap. The shooting started immediately after I stepped back from the car with Rubio's gun," the deputy testified.

### VICTIM OF KIDNAPERS SET FREE

CHICAGO, June 25.—Uninjured but temporarily dazed by being blindfolded 100 hours, Samuel Levin, former vice president of the Consumers Gas & Oil company, was released today by kidnapers who had held him prisoner since last Saturday.

Levin and his attorney, William J. Robinson, denied any ransom had been paid, although they admitted \$5,000 had been demanded.

Steps were taken immediately after the release to obtain release of Max Glasser, whom police were holding in connection with the kidnaping. Glasser, Levin said, had been an unwilling go-between.

Upon being informed his friend had been released and he too would be freed, Glasser pleaded to remain in the cell explaining the kidnapers had threatened to kill him if he did not see to it that the ransom was paid.

### Ainsworth Jury Still Deliberates

The jury in the Ainsworth trial, in which he is charged with the robbery of the Arcadia Theatre in Ranger, was still out at 3 o'clock this afternoon.

A call to the courtroom this afternoon brought the news that the jury was still out and that it appeared that they were hopelessly deadlocked.

### CANNER IS RUNNING EVERY DAY

The canning plant operated by the Ranger Truck and Fruit Growers association is now running each day, though it is not running to full capacity as yet, it was announced today by Ben Whitehouse, vocational agricultural teacher of Ranger.

To date the plant has canned something like 2,000 cans, though the exact number has not been determined. Beans are the only vegetables that have been canned so far with the exception of one bunch of black-eyed peas. These peas are said to be the first that have been gathered in the county and are thought to be the first in this section of the country to be gathered.

The operator of the canning plant is staying on the job all day each day in the week and is prepared to can everything that is brought in. So far the truck growers have been getting good prices for their beans and they have not been canning in large quantities. It is expected that as soon as the price of beans drops a larger number will be canned and put away for home consumption.

Most of those having canning done are preparing the beans before bringing them to the plant, it was said today, but facilities are available to have the plant do all the work. Women are hired from time to time as they are needed to prepare the produce for canning and the cost of the preparation is added to the canning cost.

Later in the season chickens, beef and other meats will be canned in the plant and the cost of the work will be worked out at that time.

### COPENHAGEN IS NEXT STOP OF LIBERTY

KREFELD, Germany, June 25.—Otto Hillig and Helger Hoirris, en route from New York to Copenhagen, landed here at 5:30 p. m. after having been lost to the world since their departure from Newfoundland at 3:30 yesterday.

After a halt of one hour the Liberty took off at 6:30 p. m. for Copenhagen, where gloom was turned to wild joy with the news that the fliers were safe and on their way to their destination. Friends in Copenhagen had about given them up for lost.

When the fliers landed here they had been in the air 32 hours. They explained they had been forced off their course and had flown over Spain and France. Krefeld is 300 miles south of Berlin.

### HOOVER'S PLAN IS UP TO MELLON

WASHINGTON, June 25.—President Hoover today rested the fate of his momentous war debt holiday plan on the shoulders of Andrew W. Mellon, secretary of the treasury.

Mellon was ordered from London to Paris to negotiate with France in an effort to persuade her to relent from a stubborn desire to compel Germany to complete partial reparation payments during the year in which President Hoover proposes all payments be suspended.

At the same time the United States federal reserve board joined with the Bank of England, Bank of France and the Bank of International Settlements at Basle, Switzerland, in extending a credit of \$100,000,000 to the strained German reichsbank. The credit will be effective tomorrow.

Of the major creditor powers involved in the Hoover plan, only France remained to be brought into line.

### KIDDIES HAVE BIG TIME AT THE WILLOWS

More than 200 kids of Ranger had a big time today when the first free swim was sponsored by the Lions club and the committee in charge of the operation of the Willows.

Announcements had been made through the paper that all children between the ages of 9 and 11 years would be admitted free of charge. More than 200 took advantage of the opportunity for a morning's entertainment and free bathing and were on hand early and stayed late.

As the children entered the pool Mrs. George Armstrong, health nurse, inspected them to see that they were in a healthy condition, looking to see that their mouths and bodies were free from sores. They were then given a shower before they were allowed into the pool, where they had a wonderful time if the noise they made is an indication of the pleasure they received.

Frank Hicklin, manager of the pool, and Randall Blackwood, acted as life guards, keeping a close lookout over the children as they played in the water. Those who could swim were allowed in the deep water and those who could not were watched to see that they did not go beyond the pipe that encloses the shallow water.

Pictures of the scene were made by the Hasberg studio and will probably be on an exhibition soon.

Every Thursday in the club acts as host to all the children under the age of 10 years.

The ladies who assisted in taking care of the children were Miss Barney Carter, W. D. Conway, R. C. McDonald, C. D. Davis, E. L. McMillen, A. Neill and sister, Mrs. Cole, Dan Farrell, Tom Yonker, and Miss Margaret Lee McDonald.

Lions in charge were A. N. Larson, Charlie Moore, J. E. Meroney, W. C. Hickey, W. C. Blackmond, Ben Whitehouse, Saule Perlestein, Wade Swift, Bill Dorsey and George Murphy.

### Response is Good at First Baptist Meet

Rev. G. W. Thomas, pastor of the First Baptist church, who is conducting a series of meetings at the church in Ranger, is getting a good response from the congregation at each of the meetings.

Last night Rev. Thomas selected his text from the 10th chapter of Luke. His subject was "Memory in the Next Life." He said that memory is never quenched, that it is a blessing in that it encourages, strengthens, comforts the child of God. It is a warning to the sinner, will be a perpetual message throughout eternity. His last thought was, "Are you willing to face memory?"

This morning Rev. Mr. Thomas spoke on "The Mission of Christians."

These meetings have been a spiritual uplift to the church, many have received a blessing. A cordial invitation is extended to everyone to come hear these messages. Tonight he will have a special service for the young people.

The pastor expressed his desire to see a large crowd of young people at church tonight.

### Blue Lodge Will Install Officers At Meet Tonight

Installation of officers of the Blue lodge of the Masonic order will be held tonight at the Masonic temple in Ranger when the officers for the coming year will be sworn in and will assume their new duties.

In addition to the installation ceremony there will be a business meeting of the lodge. All members have been especially urged to attend.

Refreshment will be served. There will be a meeting of the Royal Arch Masons at the hall tomorrow night when officers will be installed.

### Two Rangers Are Sent To Overton

AUSTIN, June 24.—Ranger Sergeant M. T. (Lone Wolf) Gonsaulve and Ranger Bob Gross will arrive today at Overton to take charge of the forces policing the area around the Tulsa Oil company's wild well. They were dispatched last night as the request of company officials.

### East Texas Oil Fields Now Have Taxi Dances

LONGVIEW, "Ten cents a dance."

The taxi dance, formerly peculiar to New York's Broadway, Chicago's Loop and other metropolitan hot spots, has come to the East Texas oil fields.

Within the sound of puffing rigs along the Gladewater-Longview highway several long, low frame structures have sprung up, and here the oil man may dance for a dime.

Each establishment retains a retinue of hostesses, selected for their ability to guide even the most heavy-footed over the oaken floors.

Contrary to the popular conception of such dance halls, the proceedings here are extremely decorous. The customer buys as many tickets as he desires, dances solemnly with the lady of his choice, then retires to the sidelines to watch.

Just to make sure that no "rough stuff" takes place, brawny "bouncers" are on duty.

### Olden to Have Concert Tonight

There will be a free open air band concert in Olden tonight at 8 o'clock with the Lone Star band furnishing the program.

Everyone is invited to attend the concert and to enjoy the music as the guests of the people of Olden.

### KILLER CAUGHT

HOUSTON, June 25.—The Houston Press said today in a copyright story that the year old hunt for Johnnie Belois, accused killer of W. L. Edwards, Houston aviator, had been brought to an end. The Press said that Belois had been lodged in the county jail here.

### Eastland C. of C. Elects President

C. J. Rhodes was elected president of the Eastland Chamber of Commerce to succeed H. I. Vann, resigned, at a meeting of the board of directors of the organization Wednesday morning.

The names of G. S. Stires and J. A. Burke were selected by the board of directors to be submitted to the Eastland city commission from which to select one director to fill a vacancy on the board.

### "Squealed" on Lingle Slayer

John G. Hagan, above, "private detective" and familiar Kansas City underworld character, has just received from the Chicago Tribune a cash reward of \$25,000 for obtaining information which aided in the conviction of Leo Brothers as the slayer of Alfred Lingle, Tribune reporter. Hagan lived for three months in Chicago, mingling with gangsters, from which to select one director to fill a vacancy on the board.

### Montana Capitol Is Given Bust of Senator Walsh

HELENA, Mont.—A bust of Montana's veteran Democratic leader, Senator Thomas J. Walsh, has been placed in the central lobby of the state capitol.

The marble bust, the work of Louise Winslow Sparrow of Washington, D. C., was presented to the state by Mrs. Emmett C. Cudger, the Senator's daughter.

Walsh gained international prominence through his prosecution of the Tea Pot Dome and other oil scandals.

### Blind Boy Runs Fast 75 Yards

MUSKOGEE, Ok.—Blindness was not an insurmountable handicap to Raymond Johnson, student at the Oklahoma School for the Blind at Muskogee.

Johnson ran the 75-yard dash in the national telegraphic meet between schools for the blind in 8.5 seconds. The United States amateur record for the 60-meter run (about 78 yards) is but 7.5 seconds.

A trolley-like device was the only means he had of guiding his course.

### DROPS DEAD

TEXARKANA, June 25.—W. E. Garter, 72, dropped dead here today when it was announced he was elected vice president of the Miller County Bank & Trust company at a board of directors meeting today.

Carter fell to the floor when the vote was announced.

### Home Nursing Course to Start On Next Friday

A free course in home nursing will begin Friday morning at 9 o'clock, at the community clubhouse, in Eastland, under the direction of Mrs. Margaret Hassley. There will probably be one lesson given a week. The course is being sponsored by drouth relief health work committee.

At the meeting Friday morning the time and place for the following meetings will be definitely announced.

All Eastland women are invited to attend.

LEVELLAND—Efforts being made to locate cotton oil mill at this place.

### WORLD FLIERS REACH MOSCOW LATE TODAY

MOSCOW, Russia, June 25.—The monoplane Minnie May clipped off another thousand miles of its 15,000-mile flight over land and water around the world when it landed here at 5:40 p. m. from Berlin, completing one-third of its journey in less than three days.

The American, Wiley Post, and the Australian, Harold Gatty, speeding on in a determination to beat the round-the-world record of the Graf Zeppelin by making the trip in less than 10 days, left Berlin at 7:28 a. m., Berlin time.

The fliers tentatively set 1 p. m. for their departure from Moscow or 4 p. m. West Texas time.

The flight from Berlin was made in eight hours and two minutes.

DALLAS, June 25.—East and West Texas today laid claim to Wiley Post, globe-circling aviator. Immediately after news of their safe arrival in Europe, proud relatives began bobbing up in Dallas, Denton, Mexia and Sweetwater, widely separated points in Texas. No less than seven appeared in Dallas.

Across the Oklahoma border at Marysville, W. F. Post, the aviator's father said his son became a flier through loss of an eye. He was hurt in an accident while working for an oil company and he purchased a plane with the \$2,000 he was paid for the injury, the elder Post said.

# NEW TELESCOPE FOR NAVY TO BE LATEST DESIGN

By United Press.  
 WASHINGTON.—Dr. George Willis Ritchey, designer of the 100-inch reflecting type telescope in use at Mt. Wilson, soon will build for the U. S. Naval Observatory here an instrument that, because of several new and secret refinements, will rival in scientific importance the one in California.

Dr. Ritchey was given the contract to build a 40-inch reflecting type of instrument shortly after British scientists revealed plans for the erection of a 36-inch telescope at the famous Greenwich Observatory.

Naval officials have been at work on plans for the instrument for over three years and sub-contracts will be let immediately. Dr. Ritchey expects to take about 20 months for the construction.

**\$225,000 Appropriation**  
 The last Congress authorized a complete modernization of the Naval Observatory and \$225,000 was appropriated. The new telescope will cost \$76,000.

There have been no major improvements at the naval station since the completion in 1873 of the 26-inch refractor telescope now in use.

The 40-inch glass cast from which the huge lens for the new instrument will be ground, is expected to arrive from France within a month. It was made at the Saint-Gobain plant near Paris—a plant that has been making scientific instruments for 375 years.

Dr. Ritchey is enthusiastic over his new project. The 68-year-old scientist said he hopes to "erect a monument to his 35 years of telescope building."

**Blueprints Ready**  
 He said he has been at work on the drawings and blueprints since February. He has established a work room in the observatory's main building.

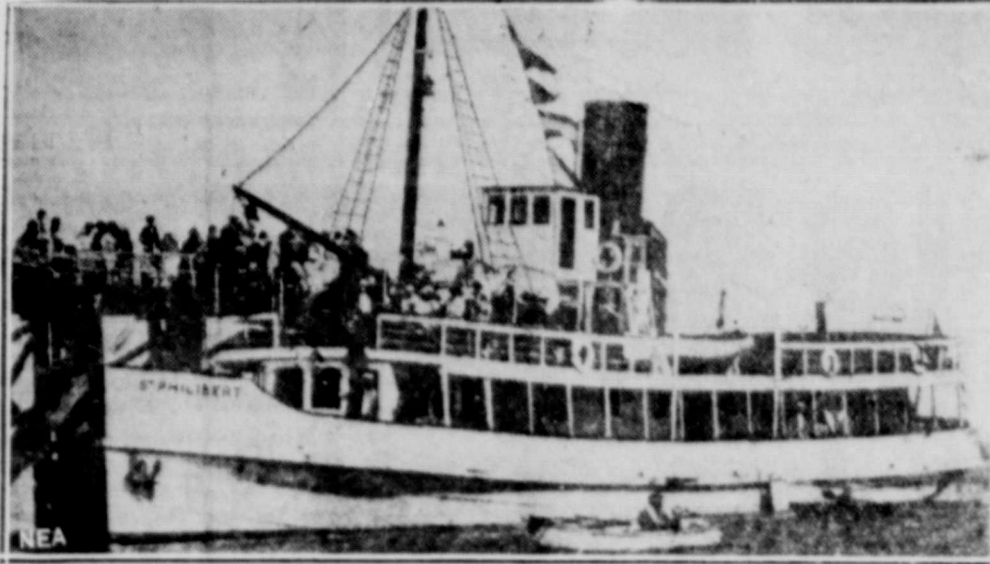

The Mt. Wilson telescope—largest in existence—makes available about 84 per cent of the light rays. Dr. Ritchey expects his new instrument to develop 90 per cent efficiency. This will enable the Naval Observatory staff to produce the most accurate and most detailed photographs of the stars and heavenly bodies ever made.

The entire instrument will be floated in mercury to eliminate

# BEFORE FRENCH EXCURSION TRAGEDY

It was a happy, care-free crowd of workers that crowded the little steamer St. Philibert when it set out from St. Nazaire, France, for a cruise down the west coast to Noirmoutiers Island. But the vessel, which is pictured here at the dock as she was being broadened by pleasure-seekers, overturned in a hurricane during the return trip and sank with a loss of 470 lives. In reality only a large-sized tug, the St. Philibert is believed to have been capsized partly by the weight of hundreds who crowded on the lee side to seek shelter from the wind and waves.

friction. Its movements will be synchronized with the rotation of the earth so as to cut down the percentage of mathematical error.

Plans already are taking form for the dedication of the new telescope. It is expected President Hoover and other high government officials, as well as leading astronomers from this country and abroad, will be present.

## Augur Plows To Clear Pass

By United Press.  
 WASHINGTON.—Fall River Pass, in the Rocky Mountain National Park of Colorado, which has annually been blocked by snowdrifts during the greater part of the summer, will be opened for tourist traffic late this month, according to Director Horace M. Albright of the National Park Service.

Snowdrifts from 13 to 30 feet deep and often as long as 2,000 feet have annually blocked the high pass in the national park and the only means of clearing the road has been with steam shovels and ordinary snow shovels. This, however, has given way in the present Spring to a 125 horsepower motor worm augur snowplow, which drives right into the drifts, drawing in the snow and then tossing it 150 feet.

On the road leading up to the big drift, Albright said, it formerly took two weeks for men and shovels to clear a two-car passage-way. But the new plow cleared the highway in half a day.

Similar plows have been put to work at Crater Lake and Mount Rainier National Parks. Albright said the Fall River Pass road is a more difficult job.

LEWISVILLE.—Gravel base for surfacing being laid on Lewisville gap on highway No. 40 through here.

## German Woman Author Trains For Her Work

By United Press.  
 NEW YORK.—Ambitious women writers who need the drive and stamina for a large output of important literary work will do well to take a page from the book of Vicki Baum, German playwright and author, who is in America fulfilling a contract to write talking picture plays.

The secret of her success in carrying out a strenuous program of literary production lies in keeping fit. She trains for her work much as a boxer does for an important fight.

Boxing is one of her chief exercises. She has a special diet much along the lines of an athlete, and does not drink coffee or stimulating beverages.

The playwright is up at 6:30 a. m. and takes a swim in the lake and a session or rope skipping before breakfast. She gets her two young sons ready for school, then drives from her villa to her office in Berlin, where she is editor of a woman's magazine. She writes articles, edits material and attends to business affairs until 3 p. m., when she drives home.

Then she goes through 15 minutes of boxing with her trainer and several sets of tennis, after which she works in her garden. Usually she devotes the evening to writing articles, books and plays. She retires at about midnight. A woman of small stature, Miss Baum is always full of drive and vigor, despite her strenuous program.

GALVESTON.—Plans being drawn for proposed junior high school in western part of city.

"The drinks are on me," as the clumsy soda jerk said spilling the milk shakes.

YOUR WHITE summer dresses will not be complete without one of the new jumpers. This one of dark blue jersey, semi-fitted with a red and blue string belt and nickel buttons, is worn with a white shantung dress.

## Whaler Brings In Worlds Record Catch of Whales

NEW YORK.—Loaded to the Plover mark with whale oil, the Sir James Clark Ross, Captain Oscar Nilsen, biggest whaling ship that ever visited our shores, recently anchored off Staten Island in New York Harbor, on her return from her maiden trip, with the greatest catch on record. The boiled-down remains of 1,444 whales were in her tanks.

The whale oil was discharged here for the manufacture of high-quality American soaps, and the Sir James Clark Ross returned to her home port at Sandefjord, near Oslo, the 250 blond and blue-eyed Norwegians of her crew well content. They made whaling history, and each of them had a plump pay envelope coming to him.

Especially did Edward Jorgensen share in the money his exploits brought in. Smiling, weathered Jorgensen, harpooner extraordinary, caught 254 whales during the Ross' eight months of coasting the edge of the Antarctic ice barrier, bringing his lifetime total to 2,700. His pay for the trip was \$40,000.

He and his mates will not go out again until summer after next. The Sir James Ross has caught enough whales for the time. In August, 1932, probably, the big red and white ship—seamen call this modern kind of whaler a "factory" or "cookery"—will fill her tanks with American petroleum oils and head south to startle the penguins once more.

For perhaps the most curious thing about the Ross, and all similar modern whalers, is that they must take petroleum oils with them to collect whale oil. As the fuel oil and lubricants are gradually used up in operation, they are replaced in the tanks by cargo. The Ross, like many of her kind, is a motorship. The time-honored square rig of the traditional Nantucket whaler has given way to two Diesel engines of 3,400 horsepower each.

## Albuquerque To Have Bathing Beach

By United Press.  
 ALBUQUERQUE, N. M.—A bathing beach a mile long will soon be a place of sport for Albuquerqueans.

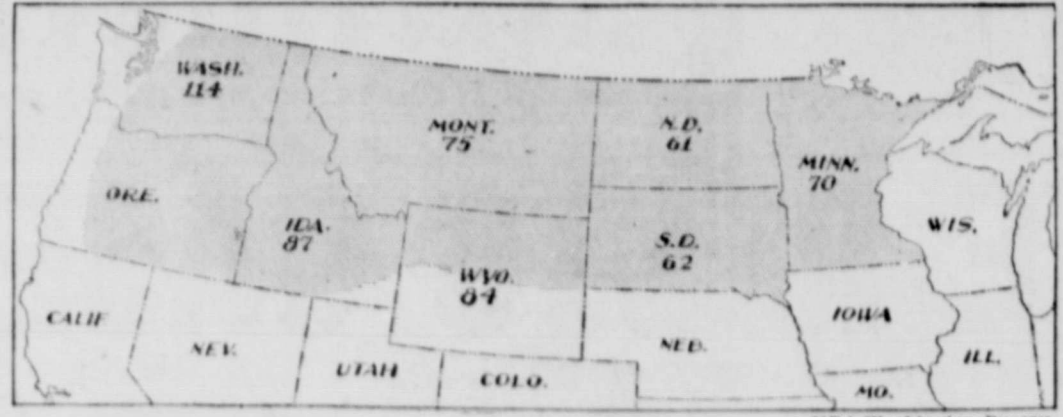

The bathing beach will be on a lake that will be formed from construction of an irrigation project. The basin for the lake developed naturally during construction.

At a cost of only about \$3,000, a levee is being thrown up along the outside jetties in the Rio Grande river to complete the lake. It will be about a mile long, will be 250 to 1,000 feet across and between the levee road and the edge of the lake will be 25 feet of river sand, making an ideal beach.

## 108 "HONOR" COWS

By United Press.  
 CANYON, Texas.—The honor roll of the Randall County Herd Improvement association for the month of May lists 108 cows from 18 herds, with each cow producing either 1,000 pounds of milk or 40 pounds of butter fat. These cows produced a total of 111,537 pounds of milk during the past month, each with an average of 47.52 pounds of butter fat during the period.

# Where New Drought Menaces Crops in Northwest

This map, prepared from reports to the U. S. Weather Bureau at Washington, shows the region of greatest intensity in a new crop-destroying drought that is menacing the northwest. The figures indicate the amount of rainfall during March, April and May, taking 100 as normal. Wheat and other crops have suffered heavy losses, although recent showers have afforded temporary relief in some areas. The figure of 114 for Washington state is somewhat misleading as it is due to heavy rains in the western part in March. Eastern Washington is very dry. Figures are not yet available for Oregon, although it is in the drought region.

## Midland To Hold Prosperity Picnic

By United Press.  
 MIDLAND, Texas.—Old Man Hard Luck will get a kick in the pants here July 4. A prosperity party, featured by one of the biggest barbecues ever staged in Texas, is set for Midland.

Fifty beeves donated by cattle-men of the section will be cooked by Virgil Ray, well known in West Texas as a pit artist. Everybody in Texas is invited to the free barbecue to give a "horse laugh" to alleged hard times.

Horse races, dancing, ball games, band concerts and other forms of entertainment are promised.

The young astronomer who helped discover the planet "Pluto" plans to enter college. He is who believes in hitching his wagon to a star.

Those college men searching for mastodon remains in Texas are probably the only students who can roll bones publicly and get away with it.

# NEW PLANTS IN VALLEY.

By United Press.  
 SAN BENITO.—Construction of two additional packing plants at valley points, each at a cost of \$75,000, has been announced for the coming citrus season by the Texas Citrus Fruit Growers exchange which has headquarters at Mission. The new plants will be located at Harlingen and at San Carlos, east of Edinburg.

# Consider your Adam's Apple!!\*

## Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

Touch your Adam's Apple with your finger. You are actually touching your larynx—this is your voice box—it contains your vocal cords. When you consider your Adam's Apple, you are considering your throat—your vocal chords.

When a lawyer makes a statement before a jury he backs it up with sound evidence and facts. Here are the facts.

Certain harsh irritants, present in all raw tobaccos—which are expelled by LUCKY STRIKE's exclusive "TOASTING" Process—are sold by us to manufacturers of chemical compounds. In other words, the removal of these irritants in the manufacture of LUCKY STRIKE is not a mere laboratory procedure for the purpose of getting an advertising phrase—it is a definite and vitally important process in rendering LUCKY STRIKE Cigarettes less irritating than other cigarettes. Remember—LUCKY STRIKE comes to you after certain harsh irritants present in all raw tobaccos have been expelled through the exclusive "TOASTING" Process. No wonder LUCKIES are always kind to your throat. Be careful in your choice of cigarettes.

Freshmen Give Views of Life

By United Press. COLUMBIA, Mo.—Twins are two kinds, "fraternity and duplicate," and feminism is "the root of all marriages," according to the answers to examination questions given freshmen students in Dean Albert K. Hoekel's orientation course at the University of Missouri.

Among the other sociological theories revealed by the freshmen was one that examined the best solutions for divorce would be the stopping of midnight marriages, and "women are no longer considered weak, vile, fickle creatures."

Additional observations included: "A woman who wins an argument from her husband loses him. Don't let someone thrill you to the extent of marriage because they are handsome or grand dancers, but let their family tree have something to do with it."

A girl with sex appeal and no brains can cause more hell than an army. A man who is cruel to his wife and children should be put in a cage for future generations to look at.

Many a woman interested in art or poetry finds herself tied to a man whose idea of art is a fried egg.

When the husband sees his wife talking to the milkman, he thinks the milkman is flirting with his wife, when she is really talking to him about business.

Although it is a wise child who knows his father these days, one ought to find out what type of people they were.

Ancient Love Letters Found By Archeologists

By United Press. PHILADELPHIA.—Out of the dimness of prehistoric Egypt has come a bundle of 4,000-year-old love letters.

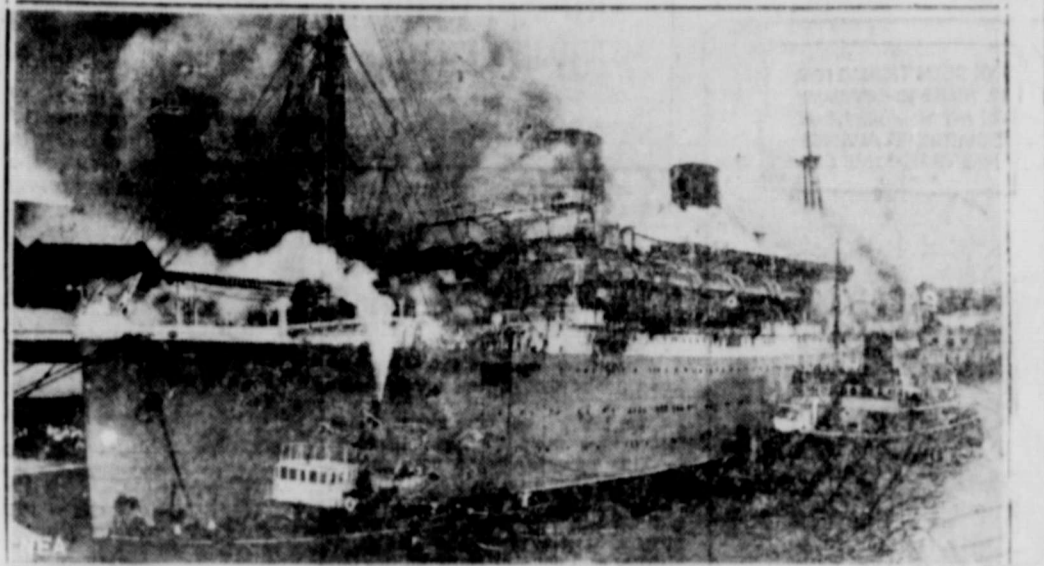

But it would take a high rate of postage for a modern lover to send them to his twentieth century sweetheart and it would take her a long time to decipher them.

For they are inscribed on tablets of baked clay in the ancient Sumerian language. They form part of the valuable collection of archaeological treasures recovered from Ur of the Chaldees by the joint expedition of the University of Pennsylvania and the British Museum.

The tender messages of love are being returned to America by Field Director Leonard Woolley, who has been in charge of the excavations. Woolley has unearthed proof that Ur lasted until the death of Alexander the Great, that the old city on the plains considered city planning back in those days, and, in addition, evidence was discovered which substantiates the fact that the flood mentioned in the Bible actually took place.

According to officials of the expedition it is an interesting business to scrape away the dust of ages in the ruins of what was once the metropolis of the Euphrates valley in Mesopotamia.

When \$7,000,000 Liner Burned and Sank

The \$7,000,000 liner Bermuda was going up in smoke when the above picture was taken at the Hamilton, Bermuda, docks the other day. Listing badly, and with fuel tanks flooded to prevent an explosion that would have imperiled hundreds, the craft soon settled to the bottom. British naval forces, as well as all fire-fighting apparatus of the city, were unable to prevent destruction of the Bermuda's super-structure and extensive damage to three lower decks.

HOKI AND SLIDES Henry L. Farrell

Kansas Is Hot

TIDINGS from Wichita in the nation-wide poll being conducted on the merits and faults of the new larger and lighter golf ball are most uncomplimentary to the U. S. G. A.

Knoxville Knox It

THOUGH not as much heat was engendered at Knoxville, Tenn., as that shown around Wichita, Knoxville has gone on record pretty definitely against the new ball. Out of 67 replies received, 62 were against the new ball.

Carries in Pittsburgh

THE Pittsburgh Press ran the ballot for a week, but only 236 votes were received. Most of these, according to Sports Editor Chester Smith, were marked simply "Yes" or "No" with very little comment.

For and Against

SOME of the comment received in Pittsburgh was interesting. One golfer wrote that "the new ball is affected a great deal more than the old by the wind, that loss iron shots skid on wet greens, that the new ball is out of proportion to the clubs now in use and that it is hard to control."

DID YOU KNOW THAT—

A MILWAUKEE mathematician figures the new golf ball like this . . . the new ball is 1 1/16 of an inch larger and 20 grams lighter than the old ball. . . . As the pound contains 7000 grains and the ounce 437.5, the old ball weighed 795 3/4 grains and the new 678.125, or actually 30 3/4 grains less . . . which is 4.3 per cent less . . . he claims to have a perfectly preserved gutta percha ball (used before 1921) exactly 1 1/16 inches in diameter . . . that is 1.6875, exactly the same size as the new ball . . . it weighs 92 1/4 grains less than last year's ball . . . the latter ball is 13 per cent lighter than the 1921-30 ball, as compared with the new ball which is 4.3 per cent lighter . . . yet that is the ball on which Vardon, Braid and other stars of the past built their game.

Figure in Weird Murder Case

86,000 MILES

Here's an endurance record that speaks for RIVERSIDE Quality. The tire shown above was sent us by Mr. J. H. Ralston of Delano, California, as an expression of his satisfaction with RIVERSIDE service. Over all kinds of roads, and in all kinds of weather, this sturdy RIVERSIDE clicked off mileage. Twenty thousand, fifty thousand, seventy-five thousand miles—and still going strong! And at last, after his RIVERSIDE Cord had covered better than 86,000 miles, Mr. Ralston sent it back to Ward's as an example of RIVERSIDE endurance.

Soviet Tractors Saddening World Wheat Producers

LONDON.—The drone of Soviet Russia's tractors working day and night to catch up with the spring wheat-sowing campaign is sad music to the rest of the wheat-exporting countries, whose surpluses are increasing steadily.

Picture Everywhere

In other words, the country is going to be positively plastered with pictures of the Father of his Country on the theory that no one will ever get tired of looking at him.

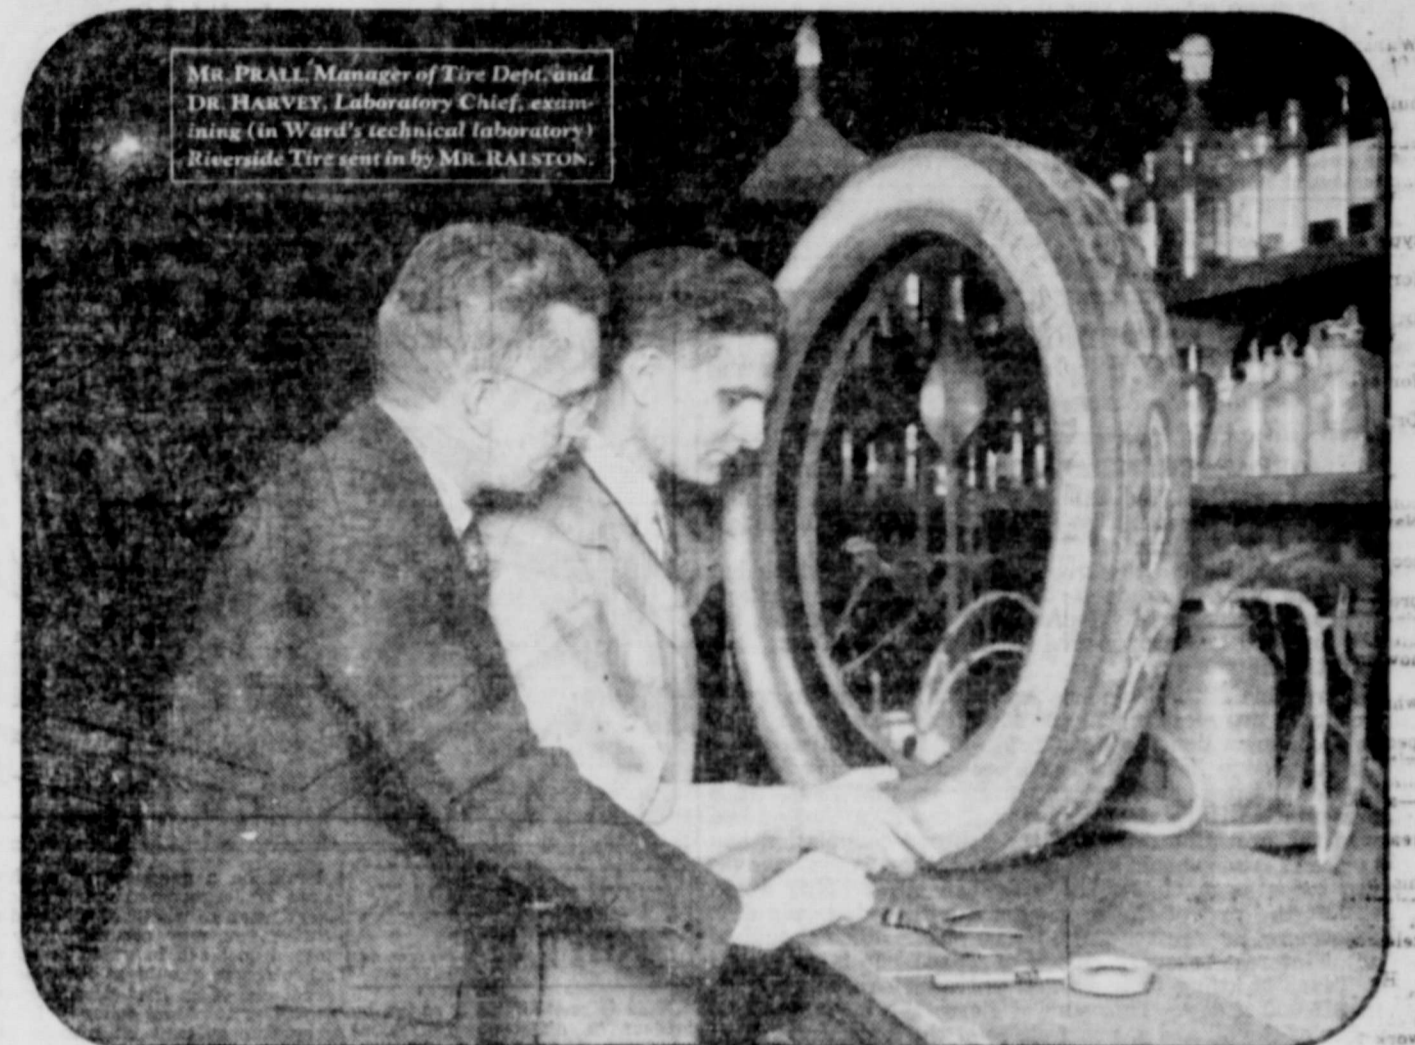

The Evidence of the Flood

The evidence of the flood is most enlightening. After digging through layers of soil and subsoil filled with the evidence of advanced civilizations, they came to a layer of silt and river silt where there was no evidence of human habitation. Then, abruptly, this barren stratum ended, and the excavator again came upon evidence of civilization.

COMANCHE—42 cars of livestock shipped from here during April.

A glide boat with steps in the buttocks is kept stationary at high speeds where others tend to rise.

porting and importing countries. The committee's first task will be to draft and submit to the respective governments a definite proposal for establishing an International Clearing House of Information. It will also seek to explore the possibilities of increasing the human consumption of wheat and greater utilization for forage and industrial purposes. Nils Andress Olsen, Chief of the Bureau of Agricultural Economics of the Department of Agriculture, will represent the United States. Senior Carlos Brebbia, commercial counselor of the Argentine Embassy in Rome, will represent Argentina. Saul Bron, Soviet Trade Representative in London, will act for the Soviet Union. Delegates of the other seven countries have not been announced.

Mr. PRALL, Manager of Tire Dept. and Dr. HARVEY, Laboratory Chief, examining (in Ward's technical laboratory) Riverside Tire sent in by Mr. RALSTON.

WARD'S RIVERSIDES are Turning in Amazing Mileage Records All Over America! . . . 42,000, 68,000, 86,000 MILES!

AFTER all, you buy a tire for just one thing—and that's MILEAGE. And you do get A MILEAGE when you buy a Riverside. Note the tire above that covered 86,000 miles. And Mr. C. A. Puarica of Portland, Ore., writes us about four Riversides that have covered 42,000 miles and are still in use. Mr. R. H. Easter of Elma, Washington, reports a Riverside in use every day on a school bus covered 68,000 miles. These three examples are but typical of the scores of letters and reports we are constantly receiving on Riverside performance. These three testimonials came to us unsolicited—they were not bought at a price!

No wonder jealous tire makers and dealers are becoming alarmed over the tremendous swing of tire buyers to Riversides. The most unfair and bitter tactics ever known in the tire industry are being used today to fight Ward's Riversides. Advertising has appeared all over the country in which mail order tires are referred to as "mongrels." Unfair comparison charts are being published and displayed by competitors. Second line tires are being offered under nationally known tire names at the same prices as first quality Riversides—BUT THEY CAN'T BEAT RIVERSIDE PERFORMANCE, AND THAT'S WHAT COUNTS, and that's what the customer wants.

We'll Match Riversides . . . on the Road . . . Against ANY Tire Made and We'll Beat it in Price!

Riverside tires are one of the best known in America. They have been sold for 19 years. They are made by one of the largest tire companies in the world. They are built to the most rigid specifications known. They are the finest quality it is possible to produce. They are backed by a guarantee that is without limit as to time or mileage. AND THEY SELL FOR LESS THAN ANY FIRST QUALITY NATIONALLY ADVERTISED TIRE ON THE MARKET! These sound like sensational claims. But they're FACTS. Montgomery Ward & Co., one of the largest merchandising institutions in the world, now in its 59th year in business, stands back of every claim made in its advertisements. Note this—the nationally advertised tires offered you at the same prices as Riversides are NOT the first quality tires of the manufacturers who make them—but their second quality tires—put on the market to meet Riverside prices. So, always compare qualities as well as prices. The table at the right lists some of the best known first quality tires that DO compare with Riversides in quality—YOU COMPARE THE PRICES!

Table with 3 columns: SIZE, WARD'S RIVERSIDES (6-ply), Firststone (6-ply). Rows include 29x4.40/21, 30x4.50/21, 28x4.75/19, 29x5.00/19, 30x5.00/20, 28x5.25/18, 31x5.25/21, 29x5.50/19, 30x5.50/20.

GREAT FINANCIAL LOSS TO TEXANS.

Representative Paul Hill of Webb county is a member of the oil and gas committee of the legislature. He made a tour of the East Texas oil field. His viewpoint is that oil prororation would solve the trouble in East Texas which has caused the price of crude to toboggan all over the nation.

A reliable statistician has estimated that producers of the country are receiving \$1,600,000 a day less than they were receiving when the East Texas field was discovered, while the producers of East Texas are receiving only \$70,000 a day for distress oil now being run from that field.

From the present depressed condition it seems to Representative Hill that the weakness, if not the futility, of agreed prororation is apparent. He believes that the only permanent relief will be by law. He favors legislation which will make prororation legal and effective, with provisions of the law applying fairly and impartially to all fields and producers, both large and small.

To the governor, the lawmakers and the railroad commissioners: "Where do we go from here?"

TEXAS WHEAT GROWERS BEAT ALL RECORDS.

Texas growers produced this year the largest wheat crop ever raised in the commonwealth, or 46,175,000 bushels. This is an increase of 18,000,000 bushels over the crop of 1930. Texas oats crop will be far greater than last year. Texas peach crop will be about 450,000 bushels larger than in 1930 with an indicated production of 1,209,000 bushels.

The yield of wheat this year is about twice the average annual yield. It has been produced at far less cost than crops of the past 10 years or more and the 35 cents a bushel that will be paid for it has more purchasing power today than 50 cents had two years ago.

The same condition hold true with respect to most other commodities produced on Texas farms.

Texas continues to be the big white spot on the map of the United States. A reminder that President Hoover said to the Indiana republican editors, "We are suffering more from frozen confidence than from frozen securities."

STRIPES FOR COL. CAPONE.

Col. Alphonse Capone, alleged to be the Mussolini of the underworld and the rumrunning world, bowed to the majesty of the law, entered a plea of guilty and sent an advance notice to the prison tailor to prepare a suit having zebra stripes of the model of 1931.

He has had his day. Uncle Sam remains the colossus of all individuals under the flag of America. He has been able to crush all criminals who violate his laws for a little matter of 150 years.

INCREASE IN FREIGHT RATES DEMANDED.

And now the I. C. C. is facing another knotty problem. On the plea that they are facing a financial emergency the railroads of the country have asked the commission to approve a general 15 per cent increase in freight rates.

PLANNING TO FEED THE HUNGRY.

Senator Thaddeus H. Caraway of Arkansas will propose at the next session of congress that the \$65,000,000 appropriated for drought relief at the last session be converted into a revolving fund for use in any additional drought during the next five years.

And Thereby Hangs a Tail!

DID YOU EVER STOP TO THINK

By EDSON R. WAITE
Shawnee, Okla.

That newspapers go into every home. They carry the messages of the business men about what they have in the way of services and goods.

Every merchant who has bargain advertisements then for your benefit. This opportunity to save is before you. Keep posted, read the ads and buy where the best buys are.

That advertising is the best force to use in order to attract attention to your business.

Continuous advertising is the power that brings steady business.

Only continuous advertising take the lead in the business world. Non-advertising simply lag behind, little known and soon forgotten.

Business concerns that advertise reap the favor and confidence of the public.

Business concerns that invite business by truthful advertising grow in popularity.

To those who do not know your business it does not exist. People are forgetful. It takes continuous advertising to make them know your business and not forget it.

Gin Marriage Law is Blow

WICHITA FALLS.—This state's law requiring filing of three days notice of intention to wed is causing a depression in the marriage license business in northwest Texas as counties bordering on the Oklahoma line, according to county clerks.

In Hardeman county not a single license was issued in an entire month, establishing a precedent. Altus, Okla., got all the business.

Wilbarger county also reports a distinct slump in marriage license applications. Frederick, Okla., is close at hand.

The Marietta, Okla., which has a population of 1100 is doing a land office business in marriage licenses, drawing couples from Dallas, Fort Worth, Wichita Falls and other large Texas cities.

During the past year 1785 licenses were issued in Marietta, and of the number only 150 were for Oklahoma couples. All the others were Texans.

Study Words Of Southern Border

ALBUQUERQUE, N. M.—English words that are peculiar to New Mexico and the southwest as they have grown out of mingling of Spanish, English and a number of Indian dialects are being studied by students of the University of New Mexico.

Graduate students are assisting in the work, which will be a part of a historical dictionary of American English. This dictionary is being compiled under the direction of the University of Chicago.

Early newspapers, diaries and letters are being studied by the students in the hunt for English words peculiar to this section.

Irrigation In Argentine Shows A Big Growth

BUENOS AIRES.—A decrease in the number of persons entering Argentina during the first four months of 1931 as compared to the same period last year was reported by the Immigration department in a report to the minister of agriculture. The figures reveal that the 1930 entries exceeded this year's by nearly 20,000.

First class passengers entering the country numbered 2,989 as compared to 4,093 during the first four months of 1930, while the number of immigrants was 26,791 as compared to 45,276, a total decrease of 19,585.

"Snake Driver" Is Blamed For Many Auto Accidents

HARRISBURG, Pa.—The "snake driver" was held responsible by Benjamin Eynon, State Registrar of Motor Vehicles, for 235 motor accidents, three of them fatal, within a single month, in Pennsylvania.

Eynon characterized as a "snake driver" the motorist who weaves in and out of a line of traffic regardless of the safety of others on the highway.

The Pennsylvania State Highway Patrol was instructed to break up the practice on the state highways.

INGLESIDE.—Several carloads produce moving daily from this point.

PICKING YOUR RIGHT JOB.....

This is another of a series by leaders in different professions and lines of business in which they tell young men and women about the opportunities and problems in the fields in which they have gained distinction.

By FLORENCE HALE
The answer to the following questions might help you to determine your fitness as a prospective teacher.

First—Do you like children, not only when they are amusing for a short time but when you are responsible for their care for some hours?

Second—Have you patience enough to deal with children not quite so bright as the average?

Third—Can you stick to things even when the rough places appear?

Fourth—Do you like to study and look deeply into the reasons underlying your work?

Fifth—Are you willing to make sacrifices of some pleasures and habits that perhaps seem to you innocent enough in themselves and yet would not be becoming to a teacher?

Sixth—Can you gain the respect of people for what you are rather than by coercion?

Seventh—Have you already been a leader among your classmates in their different activities?

However, this last question should not be taken too seriously since in large high school classes many girls will not have had the opportunity to develop powers of leadership that they really may have.

For kindergarten work you should be a graduate of a first class kindergarten training school in addition to whatever other education you may secure.

Needs License To Fish In Backyard

QUINCY, Mass.—If you reside in Massachusetts it is unlawful to fish in your own back yard without a state fishing license.

So may be interpreted the decision of Judge Albert E. Avery of Quincy district court, who ruled Stephen Gammon of Weymouth guilty of violation of a state fish and game law.

Gammon was haled before the court charged with fishing sans a license. He told Judge Avery that he was fishing on his own property and thought he didn't need a license. The court decided differently and the case was placed on file on payment of \$5 court costs.

An electric hedge cutter saves much time in trimming shrubbery and can be operated with one hand.

REFUGIO.—First unit of gasoline absorption plant, which will have daily capacity of 10,000 gallons, under construction here by Tulsa, Oklahoma company.

Nebraska May Get Irrigation

LEXINGTON, Neb.—Inspection of the Platte river valley in central Nebraska to determine the advisability of constructing irrigation reservoirs will be made by a congressional committee June 23.

The committee will represent all irrigation areas of western and central Nebraska. Proposed reservoir sites, south and west of here, where deep canyons empty into the river valley, will be studied.

Committee members include Representative Murphy, of Ohio, chairman of the sub-committee of the house irrigation committee; Representative French, of Oklahoma; Hastings, of Oklahoma; Taylor, of Colorado; Representative Wood, chairman of the committee on appropriations; Representative Byrns, of Tennessee, ranking democratic member; Representative Leavitt, of Montana, chairman of the committee on Indian affairs, and Representatives Smith, of Idaho, and Colton, of Idaho.

Dr. Elwood Mead, commissioner of the bureau of reclamation, and Horace Albright, director of the national parks, will be in the party. Senator George W. Norris, of Nebraska, and Congressman A. C. Shallenberger, of Nebraska, plan to join the party.

Proposals to catch flood waters of the Platte river, dam the water behind great stoppers at canyon mouths on the south side of the river and then release the water to thousands of acres of land throughout the south central part of the state have been made for the last few years. This is the first time a party of congressional leaders has ever viewed the proposition.

FOR A FULL FOURTH

A FULL Fourth of July means a day full of patriotic fervor and fun, and also a stomach full of the good food which this glorious country, which celebrates on that day its Declaration of Independence, produces in such abundant quantities. We'll leave the fireworks, fireworks and fiery speeches to you. Make as much noise, and make the Eagle scream as loud as the spirit moves you. But we have some suggestions about the food which is to fill your stomach which should prove of interest to many housewives.

The weather is apt to be hot, so the food must not be heavy. But the day is apt to be hectic, so it must be filling. In the following suggested menu and recipes we have attempted to solve that dual problem in a way that will make this day dietetically as well as historically memorable. Incidentally, these are tested recipes which will "declare freedom" from anxiety concerning the culinary perfection of your Fourth-of-July foods.

Chicken and Vegetable Sandwiches
Cheese and Pig Sandwiches
Deviled Eggs Potato Chips
Watermelon Pickles
Melba Mold
Cocoanut Kisses
Small Iced Cakes
Fruit Nectar Coffee

Chicken and Vegetable Sandwiches: Cut up one 8-ounce can chicken, add one 8-ounce can peas, one-fourth cup chopped celery and one-fourth cup chopped pimiento. Moisten well with mayonnaise. Spread on buttered bread, cover with lettuce leaf and top with second slice of buttered bread. Makes twelve whole slice sandwiches which may be cut as desired.
Cheese and Pig Sandwiches: Slice nut bread thin, butter and spread with mashed cream cheese. Cover with canned figs which have been drained and sliced.

Top with nut bread and cut as desired.
Melba Mold: Bring one-third cup sugar and one-third cup milk to boiling. Pour slowly over two slightly beaten egg yolks and cook over hot water until thick, stirring constantly. Cool. Add one cup of beaten cream and two tablespoons of sherry flavoring. Drain one No. 2 can of halved peaches and pack one on top of the other in center of a tall rocky can or a small coffee can, not too large around. Fill around the peaches with the cream mixture, cover and pack in ice and salt for four hours. Unmold onto a platter and slice. Serves eight.
Fruit Nectar: Boil one-third cup sugar and one-fourth cup water two minutes, then cool. Add juice from two lemons, two oranges, seven-eighths cup peach syrup (all from the can used for the Mold) and one cup of any other fruit juice. Chill. Just before serving add two pint bottles ginger ale and serve over ice. Serves over half or twelve cup-sized glasses.

Frapped Capone Sisters Meet For First Time

NEA Chicago Bureau
The two men behind the scenes who directed squads that obtained evidence resulting in the indictment of Al Capone and his Chicago associates are shown here. Above is Robert E. Neely, acting collector of internal revenue, whose agents charge Capone with failing to report \$1,000,000 of his income for five years. Below is W. J. Bennett, in charge of prohibition agents who found evidence of 5099 liquor law violations.

SEMINOLE, Ok.—Two sisters, one 85 and the other 58, born in Russia, met for the first time in their lives half way around the world from their birthplace. The older of the two sisters, Mrs. Mary Frumoff of St. Joseph, Mo., married at an early age and moved from her native hamlet in northern Russia to the Black Sea region. The older sister never returned to the northern village. The younger sister, Mrs. Julius Shannon, San Antonio, Texas, was born in the same little Russian town after the older sister had moved away. The younger sister was married in her native village and 35 years ago moved to America. Ten years later Mrs. Frumoff and her husband emigrated to America. Two sons of Mrs. Frumoff merchants here, arranged for the reunion, which was held at their home.

BETTER BRAN FLAKES

Boston Woman Sues Three For 35 Million

BOSTON, Mass.—Suits totaling \$35,400,000—a record amount in the history of Suffolk county—have been filed in Suffolk county court by Mrs. Eunice M. Antouin, a resident of Boston's South End, who seeks to recover damages from the Boston Consolidated Gas company, the Massachusetts Memorial hospital, and a physician. The woman, acting as her own lawyer, alleged that she suffered personal injuries due to a leaky gas meter in her home nearly two years ago. She also charged negligence against the hospital and the physician. Of the total amount, Mrs. Antouin seeks \$34,000,000 from the gas company, \$350,000 from the hospital, and \$100,000 from Dr. Morris Kaplan.

Costumes Will Admit Ladies to Arcadia Theatre

The Arcadia theatre in Ranger as a special inducement to offer the ladies of Ranger and the Ranger trade territory on Saturday afternoon when they show the picture, "Women of All Nations," featuring Victor McLaglen.

Supporting Victor McLaglen in the cast are Edmond Lowe and Greta Nissen and El Brendel, who did much to the hilarity of the comedy scenes.

Living up to the title Walsh has introduced beauties of all nations—Spanish, Latin, Americans, Swedish, Danish, not to mention the Turkish and Arabian charmers, these beauties, which number more than 150, offer a fertile field for the dame chasing proclivities of "Flagg" and "Quirt," and even "Fred" in his famous character role, "Olsen," the Swedish man who finds his heart going hay-wire.

The feminine end of the cast, which includes Fifi Dorsay, Margie White and Joyce Compton, is headed by that beautiful Nordic model, Greta Nissen, the most beautiful fair haired girl on the screen today.

In this story, which is the follow-up of "The Cock-Eyed World," "Flagg," "Quirt" and "Olsen" visit Nicaragua, Brooklyn and Turkey, and the girls in every port prove charming than in the previous ones.

MOM'N POP

By Cowan

Inland Harbor Housing Many Motor Boats

MEMPHIS.—Six hundred miles from the gulf, the Memphis harbor this spring has been a calling port for a score or more of yachts and cruises flying emblems of as many boating clubs.

The out-of-city yachtsmen augment the fleet of Memphis owned boats, which number in the neighborhood of 150 and which are valued at approximately \$300,000. In addition, hundreds of river boats employed in hauling freight on the Mississippi and its tributaries make the Memphis harbor their home port.

An annual visitor is Dr. William J. Mayo, directing head of the Mayo Brothers clinic at Rochester, Minn., who cruises down stream in his yacht each spring. Boatmen received a thrill this spring when a cruiser bearing the flag of the Cincinnati Boat club landed here. It was piloted by a woman, Mrs. T. V. Fitzpatrick.

At the same time that her cruise-

**Co-Workers Home Demonstration Club Meets**

The Co-Workers Home Demonstration club met Tuesday afternoon at 2 o'clock, at the home of Mrs. Louise Pitcock with Miss Ramey present.

All of the members took part in an interesting discussion, on various subjects. One of the main topics of the discussion was in the canning which they had been doing. Each member present gave an account of her canning. The total sum of the products which the club has canned is as follows: Fifty quarts of pickles, 271 quarts of beans, 32 No. 2 cans English peas, 25 quarts beets, 16 quarts squash, 92 quarts berries, 3 quarts kraut, 165 No. 2 cans beef, 3 quarts green grapes, 5 quarts spinach, and two dozen fryers. A great interest in canning has been created in the club.

Lemonade and cake was served to 11 members.

The next meeting will be held July 14, at the home of Mrs. Henry Hamilton, South Blundale street.—Reporter.

**Mrs. Lanier and Mrs. Green Are Welcomed At New Members to Study Club**

Members of Child Study Club No. 1 were entertained at the home of Mrs. D. W. Nichol yesterday afternoon with Mrs. D. G. Lanier and Mrs. R. E. Green welcomed and initiated in to the splendid organization.

"Vacation" was taken as the afternoon study topic with papers read by Mrs. G. W. Earp and Mrs. Howard C. Heath.

A period of the hour was devoted to the discussion of story telling, which was interestingly and impressively given by Mrs. S. J. Reynolds. Mrs. J. A. Bronson closed the lesson with a paper relative to the subject.

Refreshments were passed by the hostess to Misses C. O. Bolen, Howard C. Heath, E. L. Fontaine, J. F. Reynolds, F. E. Moore, Edwin George and sister, Miss Emma Cleimner, Mrs. Lilla Allen of Hope, Ark., sister of Mrs. Fontaine, J. A. Bronson, D. W. Earp, O. G. Lanier, R. E. Green, and Eric Holland.

**Prettily Appointed Dinner Honors Los Angeles Guests**

Nasturtiums with their own green fronds and yellow and white daisies blended into pretty colorful tones with the lovely table appointments of rose and green hues, with other added effects when Mr. and Mrs. J. S. McDowell entertained with a three-course dinner at their home, Cypress street, last evening in honor of Mr. and Mrs. Wallace W. McDowell of Los Angeles, brother and sister-in-law to the host.

The dining table was covered with a pretty madderia cloth, centered with tall jars filled with flowers, emphasizing the color motif used. The buffet was marked by a bowl of exquisite nasturtiums and flanked on either side by tapers of orange and blue.

Covers were laid for the honor guests, Mr. and Mrs. F. C. Ware of Breckenridge, Mrs. Eva McDowell, Mrs. Alice Davenport, Misses Arritta and Bertha Alice Davenport, and the host and hostess.

**Young Matrons Class To Hold Monthly Social With Mrs. Smith, Hostess**

The Young Matrons class of the First Methodist Church will hold their regular monthly business meeting and social hour at the home of Mrs. C. A. Smith, Wilson and Summit streets, on Friday evening, June 26, at 7:30. All members and social members are invited to be present.

**Alathian Class To Meet This Evening**

The Alathian class of the Central Baptist church will hold a business and social meeting this evening at 8 o'clock with Mrs. J. L. Reed acting as hostess at her home, Breckenridge highway. All members with the teachers are invited to attend this affair.

HOLIDAYS often are the inspiration for delightful informal parties, and the Fourth of July provides an excellent opportunity for summer hospitality.

Porch and garden parties may be as simple or elaborate as the hostess chooses to make them. However it is very easy to attain happy medium that insures a good time for the guests and the minimum of work for the hostess.

A buffet luncheon or supper is a sappy solution of the problem of serving. Since the guests help themselves, the hostess with one said can manage easily.

A buffet meal always makes it possible to make the most of beautifully prepared dishes and offers opportunity for effective table decorations. Attractive bowls of salads and platters of cold cuts, inviting trays of sandwiches and handsome desserts appeal to the eye and add immeasurably to the beauty of the table.

The following menus featured with white and blue as much as possible, for Independence Day parties, and range from the simplest of refreshments to a substantial dinner.

**Afternoon Refreshments**  
 There should be all possible kinds of sandwiches, and in great abundance. Be sure to decorate one of them with Stars and stripes cut from pimento and blue slices of cut tomato and blueberry slices piped from a tube. Small white bread sandwiches can be decorated with a narrow strip of samento cut like a fire-cracker with a shred of cocconut stuck in the end for a fuse.

You also can make a festive looking sandwich loaf with this fire-cracker garnish. Cut pimento in strips to look like fire-crackers and place them all around the sides and ends of the loaf, using the cocconut fuse. On the top of the loaf make a flag, using pimento for stripes and blueberry jelly for stars. Against the thick layer of cream cheese which covers the loaf the red and white are

of junior members present one of the most interesting and instructive hours of the month was held at the hall on Wednesday afternoon when the Julia Alexander Grove, Woodman Circle, assembled for the regular business period and grove program.

The business matters were outlined and discussed in round-table form with several of the members reported ill. A committee composed of Mrs. J. B. Houghton and Mrs. Eva Davis was appointed to visit the absent and ill members this coming week.

A program was completed which will be given by the junior department at the hall on next Wednesday afternoon at the regular hour. Every member of the chapter is urged to be present and bring the children, all of whom are not members of the grove. Practice for this event will be held at the hall on Saturday afternoon at 2:30.

Refreshments were served at the close of the session through the arrangement of the refreshment committee.

Mrs. Lillie Wilson will act as hostess to the Loyalty club at her home, Melvin street, on Friday afternoon at 2:30.

**El Paso Golfers Annoyed by Flier**

EL PASO.—Clarence Robey, airplane pilot and son of Police Chief L. T. Robey, has been ordered to stop stunting his plane over the municipal golf course because he annoys the golfers.

City Attorney J. H. McBroome was instructed by the city council to write a letter of protest to R. & L. Airways, asking them to stop Robey's acrobatics.

Alderman Leon A. Rosenfield said he had received protests from players on the links that Robey "swooped down over them."

**To Attend Reunion**

Dr. and Mrs. H. B. Tanner and daughter, Blanche, of Washington, who is visiting her parents, left this morning for Albany and Stamford. Dr. Tanner will attend the Old Cowboy's reunion while in Stamford.

**Camp Fire Girls Met Wednesday**

Wednesday afternoon the Camp Fire Girls met at the Methodist Church, at 5 o'clock, for the regular weekly meeting. After the business session the group went to Olden where they enjoyed a swim.

Those present were Earline Pitzer, a new member, Joan Johnson, Carolyn Cox, Earline Harvey, Joy Coplen, Elva Lee Jones, Elizabeth Ann Harrell, Fayanette Campbell, Carolyn Doss, Eleanor Ruth Ferguson and guardian, Mrs. Tom Harrell.

**Mr. and Mrs. Vann Honored Tuesday Night**

Mr. and Mrs. H. L. Vann were complimented Tuesday night with a steak barbecue, by Mrs. Wayne Jones and Mrs. Grady Owen. Those who enjoyed the occasion were Mr. and Mrs. H. L. Vann and son, Bobby, the honorees, Mr. and Mrs. H. O. Tatum, Mr. and Mrs. Horace Condeley, G. S. Stire, Wayne Jones, Grady Owen and the hostesses.

**Breckenridge Guest Complimented**

Miss Louise Day complimented her guest, Miss Marie Hunt of Breckenridge, with a party at her home Tuesday night.

After many interesting games delicious refreshments were served to Irene Bennett, Alva Dunham, Ruth Rosenquest, Verna Ray Knight, Ellen Francis, Norma Reagan, Jaunita O'Neil, A. G. Gary, Billy Shoopmen, Bob McGinnis, Bob Martin, Billy Satterwhite, Albert Martin, Gene Rhodes, Douglas Jones, Hilton Harbin, Graham Brown, Hollis Bennett, Aubrey Brawner, the honoree and hostess, Miss Day.

**Hartness-Campbell Nuptials Announced**

Announcements are out of the marriage of Mr. Bob Hartness, who for two years up until April of this year was machine operator for the Eastland Telegram, to Miss Notre Campbell of Cisco. The marriage ceremony was performed at Altus, Okla., on April 26th last and was not announced until this date due to the fact that Mr. Hartness must live in Abilene where he is employed on the Linotype staff of the Abilene Printing and Stationery Company, while Mrs. Hartness nee Campbell found it necessary to remain in Cisco until someone could be found to take her place as business manager of the Graham Hospital. After these two months of forced separation the couple are now making their home in Abilene.

**Texas Favors Uniformed Cops**

AUSTIN.—Increased public sentiment for the Texas law requiring officers making highway arrests to be in uniform is noticeable as a result of the killing of Emilio Cortez Rubio, relative of President Ortiz Rubio of Mexico, and Manuel Gomez, by Oklahoma deputy sheriffs.

Salvador Rubio, who was with the other two students, says that they mistook the officers for bandits when their car was approached in Ardmore as they were motoring back to Mexico City from college.

For a time the Texas uniform law was in dispute. The court of criminal appeals even ridiculed it and declared it void. "Shall an officer, seeing a car speeding 75 miles an hour near a school, go home and get an appropriate uniform before interfering?" asked the court.

Senator W. A. Williamson of San Antonio risked contempt by denouncing the court opinion on the floor of the Texas senate.

The state now provides a force of 100 trained motor police, distinctively uniformed in gray, to patrol the roads. Besides their guns they carry first-aid kits for accidents.

**SHRINE CAMEL DEAD**

ERIE, Pa.—The Erie Shriners are now without a mascot. Miss Zem Zem, blueblood \$1,000 camel of the Shriners, died at the Glenwood Zoo, recently. The mascot was obtained last August and was to have been a feature at ceremonies.

**POWER DRUM PLOWS FIELD**

SOUTH BEND, Ind., Deb Voorhis, 69, owner of an island farm near here, shows his land without the aid of a horse. A power drum on one side of a field draws his plow by means of a steel cable. Voorhis, with his son, has lived on the island 47 years. Two one-room cabins are the only buildings.

**MONGREL DOG IS HONORED**

DICKENSON, Mont.—Jiggs a mongrel dog, has been recommended to the National Anti-vivisection Society for decoration as a life saver. The dog belongs to Eddie Scheeler and is credited with saving the life of Raymond Kuhn, who was in danger of drowning.

**FILM STAR BREAKS BACK IN PLUNGE FROM CLIFF**

**Evalyn Knapp, above, lovely blond actress who rose to stardom in Hollywood within a year after leaving the New York stage, has a fair chance to recover from a broken back suffered when she fell backward from a cliff while hiking in the Hollywood Heights, according to hospital attendants. Miss Knapp, an out-of-doors fan, was accompanied by her mother at the time of the accident.**

**Heart of Liane**  
 by MABEL McELLIOTT

(Continued from page five)  
 non Wells suddenly in the midst of her reverie.

"We'll go back to Smithers' for lunch," Elsie said. "Too bad Clive's tied up with those workmen. We might have got a lift from him."

They waved to the others and started down the road. Blade Herbert, Frank Morton and the two or three other women brought up and rear with Cass. Elsie trotted ahead with Liane. She said she had "so much to tell" her. Liane felt flattered, and wondered if she should confide to Elsie the story of her adventure the week before. She decided against it.

They had not realized they were walking so swiftly. When they reached the main road they were far ahead of the others. Liane was intent on some confidence of Elsie's and did not see the scarlet roadster nor hear its klaxon horn. The other girl caught her arm, dragging her back.

"These speeders!" Elsie flamed, seeing Liane so white and shaken. Liane had blanched, not because of danger but because she had seen the face of the man whizzing past in the red car.

It was Shane McDermid, the policeman who had allowed her to escape from that horrible scene the week before.

As Liane had guessed, the red car lay waiting in the Smithers' weed-grown drive. The girl ran forward.

"What is it?" she called out. "What's happened? Are you look-

**More Women Than Men in New Orleans**

By United Press.  
 NEW ORLEANS.—The women have the best of it here, in numbers, at least.

Women outnumbered the men by 16,329, according to census figures announced June 3. There were 4,000 more females under the age of 21 than males.

There are 18,550 of mixed foreign parentage in the city. Their number is considerably lower than shown 10 years ago.

**Rheumatism Reires Civil War Drummer As Justice of Peace**

By United Press.  
 EL PASO.—Joseph H. Wells, 83-year-old justice of the peace and father of twins when he was 81, finally has quit his office in the smelter district because of rheumatism.

Rheumatism forced him to quit after 28 years he ruled his district. He served under many famous generals as a drummer boy. He is quoted as saying: "I've seen some of the best of the world."

He has had "six or seven" children by a divorced wife and by his present wife, who is 45.

**TELETYPES TO AID POLICE**

HARRISBURG, Pa.—Police information will be interchanged between the states of Pennsylvania, New Jersey and New York by a teletype system. Major J. L. Adams, superintendent of the Pennsylvania State Police has announced.

"See you in church," Elsie grinned as the car moved away. "I'll see you in church," she said. "I'll see you in church," she said.

"I'll see you in church," she said. "I'll see you in church," she said. "I'll see you in church," she said.
