RANGER, TEXAS, FRIDAY EVENING, JANUARY 29, 1932

Chicago is facing financial ruin. It probably never will forgive the government for locking up Al Capone.

PRICE FIVE CENTS No. 209

ARMISTICE IS SIGNED IN CHINESE-JAPAN WAR

HOSTILITIES ARE STOPPED BY AGREEMENT

U. S. Requests That Japs Not Make Occupation of Settlement.

SHANGHAI, China, Jan. 29.—An armistice brought at least a temporary lull in the battle of Shanghai tonight after the Japanese had showered the native city with bombs from the air, causing tremendous destruction and endangering American property in and outside the International Settlement.

The armistice was in effect tonight, though there was doubt as to how long it would last.

Authorities of the foreign settlement, within which bombs had been dropped, continued their vigilance, though there was some easing of the tension when reports to the United States Consulate General of supposed violation of the truce by the Japanese turned out to be less serious than at first believed.

It was feared the battle of 22 hours had been accompanied by tremendous loss of life and the Chinese dead would number hundreds.

The American property endangered included a missionary group of buildings, the Chenju radio station, owned by the Radio Corporation of America, and the Texas Oil company station at Wosung.

A bomb was dropped in Young J. Allen court around which the American missionary buildings are grouped and which is under American lease. The bomb did moderate damage and there were no casualties. The incident was reported to Edwin S. Cunningham, U. S. consul general, after the armistice.

It led him to state the Young J. Allen memorial had gone into effect, but investigation developed that such a violation of the truce had not occurred and all bombing in the district had taken place before the armistice.

The armistice provides for suspension of hostilities with a final solution left for further discussion.

All defenders held to their positions. The tension remained acute but there were signs of relaxation and it was a question of sitting on the lid and holding tight. The state of emergency was marked by the most cordial Anglo-American relations in preserving the settlements neutrality.

Four American destroyers were stationed in Manila to Shanghai and an order to dry dock at a flagship Houston at Manila was cancelled presumably as a precaution.

ASK NO OCCUPATION

WASHINGTON, Jan. 29.—Secretary of State Stimson announced today the United States and Great Britain had made formal representation to Japan, stating they hoped there would be no occupation of the international settlement at Shanghai unless police were unable to protect Japanese lives and property.

France and Italy were advised through their ambassadors of the Anglo-American action. This was regarded as an informal aid to make representations. Secretary Stimson had not been informed as to what action France and Italy will take.

The announcement after a cabinet meeting at which Hoover and his secretaries discussed a wide range of subjects, including the Far East situation.

LEAGUE HOLDS SESSION

GENEVA, Jan. 29.—The Japanese and Chinese delegates were requested today to advise their governments that the council would not adjourn until the two nations had fulfilled their obligations under the covenant of the League of Nations.

WHEAT PRICE UP

CHICAGO, Jan. 29.—Wheat prices jumped a cent a bushel on the Chicago board of trade today when newspapers appeared on the headlines of the bombing of the mission in China.

SETTLEMENT IS BOMBED

WASHINGTON, Jan. 29.—Col. E. S. Hooper, commanding U. S. Marine forces at Shanghai, reported that in five instances on Jan. 29, Japanese airplanes dropped bombs on the International Settlement.

Two hundred Chinese and 30 Japanese have been killed, he reported.

RAIL HEADS AND LABOR HALT MEET

CHICAGO, Jan. 29.—David B. Robertson, spokesman for the railway unions, announced at 2:30 that the nine rail presidents had rejected four proposals offered by the wage earners as substitutes for the 10 per cent reduction suggested by the railroads.

The problem is not settled yet," said Daniel Willard, chairman of the committee of nine railway presidents. "We heard labor's answer to our proposal and retired for half an hour to consider it. We will meet again with the union groups as soon as they are ready."

Judd Trial Is Recessed Until Next Monday

PHOENIX, Ariz., Jan. 29.—The recess in Winnie Ruth Judd's trial on a charge she murdered Anne Leroy, her former friend, was continued today until Monday when ailing jurors were reported unable to be in court.

The recess was taken Wednesday when two jurors were suffering from colds.

Eight in Family Are Found Dead

ELMA, Man., Canada, Jan. 29.—Eight members of the Martin Sitar family were found stabbed to death in their beds today. Two other members of the family are critically wounded.

Flames issuing from their home a few miles from town, attracted the attention of John Sitar, a brother who discovered the tragedy.

Frist Is Head of Farm Bureau

DALLAS, Jan. 29.—Frank P. Frist of El Paso was elected president of the Texas Farm Bureau today as the convention neared a close.

He succeeded J. Montgomery of Tyman, John T. Orr, Dallas, was elected vice president, a position formerly held by Frist.

King of Ugliness To Kill Bad Humor

EAGLE PASS, TEXAS.—The King of Ugliness will supervise the killing of Bad Humor as an opening day feature of the four-day Mardi Gras celebration starting here and in Pecos Feb. 6.

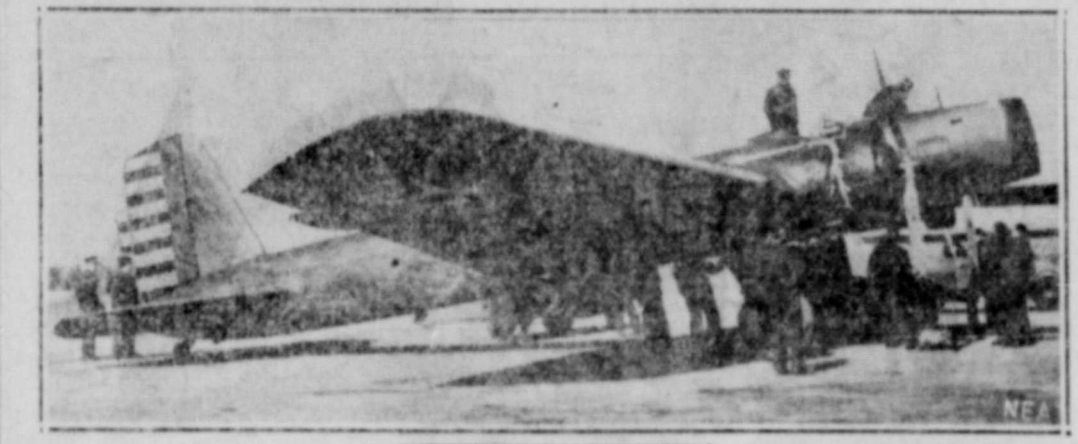

An all-night ball of the Trebol club in the casino, a parade of several thousand white children in economic costumes and a torch light parade will be other features.

To Wed Again?

Steven Barclay (above), twice married millionaire merchant, sought the company of pretty Ellen Rossiter so often that gossip connecting their names became widespread. Both are important characters in the new serial, "The Dime-a-Dance Girl" which begins in this paper Wednesday, Feb. 3.

TON OF BOMBS IS CARRIED ON THIS GIANT PLANE AT 190 MILES AN HOUR

Capable of carrying a ton of bombs and a crew of four, at 190 miles an hour, the newly built Boeing bomber is shown above as it arrived at Bolling Field, Washington. Major Willis Hale (at left) flew the deadly craft from Dayton, Ohio, to the capital, where government aeronautical experts gave it a thorough test before its acceptance for the U. S. Army.

SEARCH FOR SUB CREW CONTINUES

PORTLAND, Eng., Jan. 29.—Search for the submarine M-2 continued today in the English Channel, although weary crews of the motor ships and a crowd of shore divers gave up all hope of saving the 60 men.

Heavy seas hindered operations of mine sweepers and divers as they scraped the ocean floor. Divers were prevented from going down by the rough seas.

Market Problems Are Discussed By Cattle Raisers Fear for Safety of Five Missionaries

SAN ANTONIO, Jan. 29.—Cooperative agencies are the solution to marketing problems of the livestock raiser, James C. Stone, Washington, chairman of the federal farm board, told the American National Livestock association convention.

Cooperatives supported by shippers with from 20 to 50 per cent of the volume of livestock receipts have demonstrated they can operate for very much less than the fixed commission rate charged by the livestock exchanges.

EX-LABOR HEAD NOW CARPENTER

LONDON.—S. P. Viant, assistant postmaster general in the Labor Government, has started work as a carpenter.

VIOLETS BLOOM IN ONTARIO

ST. CATHERINES, Ont.—A patch of violets was found in bloom in the Oakhill Park by Gray Friday, manager.

Murder Trial of Alberta Johnson, Ranger Negress, Goes To Jury Before Noon

The defense attorney rested on the plea of self-defense in the trial of Alberta Johnson, Ranger Negress, charged with the murder of Eula May Armstrong and the case went to the jury shortly before noon.

There was no conflicting testimony as to the fact that Alberta fired the three shots that killed the Armstrong woman. The gun was exhibited in court and the prosecution sought to establish that it was the property of one of the witnesses, Lummy Mills. Mills denied that he had ever seen the gun before Oct. 9 when Alberta unwrapped it from a piece of newspaper and fired it at Eula May.

The finding of a long butcher knife, identified by Jim DeShorn as the knife with which he had been cutting up some barbecue a few minutes before the altercation and the circumstances attendant upon its part in the fray is the question upon which all testimony does not lead to practically the same conclusions.

The knife was found close to the body of Eula May Armstrong only a few moments after she had been shot and witness testified that Alberta Odum, daughter of Alberta Johnson, was particularly insistent that the knife not be disturbed until officers arrived and made an investigation.

Part of the witnesses testified they saw a knife in the hand of Eula May as she advanced toward Alberta and part of them were just as positive that Eula May had no knife in her hand. DeShorn said that he had been using the knife shortly before the killing but that he had finished with it and laid it down and had gone outside of his barbecue stand where Eula May and Lummy Mills were having an argument. He asked them to leave his premises because

Ranger Men Are Indicted in Stephens County

The Stephens county grand jury has indicted two Ranger men, according to reports from Breckenridge, where the jury has just recessed, and one indictment was returned against Lee Jackson, alleged to have attempted to set fire to a building occupied by Hassen company at Breckenridge.

Lee Jackson, alleged convict in the Texas penitentiary, was indicted by the Stephens county grand jury for attempted arson, according to announcement by Ben J. Dean, district attorney.

The grand jury adjourned Wednesday afternoon after examining scores of witnesses and returning nine indictments.

According to Dean the indictment against Jackson was returned in connection with an attempt to set fire to a storehouse in the Burch building, and occupied at the time by Hassen company.

Employees of the store found a coat rack soaked with an inflammable fluid and upon investigating discovered cloth tied to the skylight immediately above the rack. Several bottles which had contained gasoline or kerosene also were found, officers declared.

Fingerprints found on the bottles are alleged by Dean to correspond with Jackson's fingerprints received from the Texas penitentiary. It is alleged by officers that the man was in Breckenridge the night before the fire trap was discovered.

He is serving a term on a liquor charge. Another indictment in a case is pending against the man here, Dean declared.

E. E. Barnes, Ranger, was indicted by the grand jury on a charge of cow theft. It is alleged he stole an animal belonging to G. A. Guess of LaCasa.

Two indictments charging robbery with firearms were returned against Harry B. Byars, and two against his alleged companion in the Saturday night robbery of the A. & P. Grocery Store here.

Fight to Legalize Pari-Mutual Bets

DALLAS, Jan. 29.—A finish fight to legalize pari-mutual betting on Texas horse races was discussed today at the annual meeting of the Texas Association of Fairs.

Delegates included M. C. Abernathy, Longview; George Barber, Mineral Wells; Tim O'Connell, Palestine; and M. R. Martin, Marshall.

Chief Ingram Is Back On The Job

Chief of Police Jim Ingram of Ranger, who has been in Mineral Wells for the past three weeks undergoing treatment for rheumatism, is back at home, feeling much better, but not completely cured.

Chief Ingram said today that he thought he would be able to stay on the job now, with occasional trips to the resort off from time to time to take additional treatments.

STOCK RAISERS MEET.

SAN ANTONIO, Jan. 29.—Charles Collins of Kit Carson, Colo., is slated to become president of the American National Livestock association, according to information of members of the executive committee.

SCANDAL THREATENS IN HAWAII

HONOLULU, Jan. 29.—A major scandal threatened today over action of the grand jury which returned second degree murder indictments against an American matron and three navy men.

Montgomery Winn, attorney for the defense, who already had accused Judge A. M. Chisley of securing the jury, amended his motion for quashing the indictments to include charges that the foreman of the jury refused to report "so true bill" against the defendants as the jury had instructed him.

It was understood that an official investigation was started to determine how naval officials and defense attorneys discovered what was going on at the secret sessions of the jury.

Mexican Announces Censorship Today

MEXICO CITY, Jan. 29.—A rigid censorship over all public communications was enforced today "to prevent circulation of news which might excite the clerical sentiment."

The censorship order, issued last night, applies to telegraph and cables.

The newest move recalls the decree published Dec. 31, which allowed lay committees 20 days to apply for permission to take charge of churches where no priest had been authorized.

SNOW AT DALLAS.

DALLAS, Jan. 29.—Snow fell here today and at many northeast Texas points for the first time this winter. The mercury was expected to fall to between 20 and 25 degrees tonight.

Joint Banquet Considered Best Ever Held In City of Ranger; Molyneux and Coombes Speak

A total of 198 people from over this section of the country were present at the Retail Merchants Chamber of Commerce banquet held at the Elks lodge, Ranger, Thursday night and heard one of the best banquet programs ever rendered in Ranger.

The crowd gathered in the anteroom to the dining room, where friends from over Eastland, Stephens and Palo Pinto counties mingled and talked prior to the beginning of the banquet.

The toastmaster, setting as toastmaster, called on J. E. Molyneux, who led the assembled guests in singing one verse of "America," followed by an invocation by Rev. M. Collins.

The toastmaster introduced a host of distinguished visitors, after which he called on Mayor John Thurman for an address of welcome.

The mayor said that he was like the lead-off man on a baseball team, that he was called on to make a few remarks while the dispensers of oratory, who would follow, were getting up their nerve to address the gathering. He welcomed the guests in a most wholehearted manner and said that they were always welcome in Ranger.

C. B. Pruett, president of the Retail Merchants association, made a few remarks in which he told of the splendid organization to be found in this section of the state, and which he called on J. W. D. Conway, president of the Chamber of Commerce, who spoke briefly on that organization.

The American Legion Tickville band then took charge of the program for 30 minutes, presenting novelty musical numbers that were loudly applauded. They played in their usual comical and capable manner and their selections brought forth many laughs and much applause.

Peter Molyneux, editor and publisher of the Texas Weekly, made a splendid address on the subject of "Confidence." He showed a keen insight into the conditions which prevail, not only in Ranger, but through the world, and showed, clearly and capably, how international conditions affect local conditions to a marked degree.

He showed that without international trade, even the Texas cotton farmer could not find a market for his products, pointing out that 90 per cent of the cotton grown in the state had to be shipped abroad to find a market. More cotton could, and should, be worked into manufactured articles in the state, thereby giving the farmers more of a local market, he explained.

He pointed out that the beginning of the present condition could be traced back to the beginning of the World War, because it closed

SUBSCRIPTION RATES: Single copies... Three months... Six months... One year...

ONE MORE DAY.

Only one more day remains for the payment of poll taxes. For those citizens living in and adjacent to Ranger an opportunity to pay these taxes with the least inconvenience has been provided by the location of a temporary tax collecting office at the C. E. May Insurance agency here.

This year is particularly important from the political standpoint and therefore the admonition to pay your poll tax is the more insistent.

Some misunderstanding relative to poll tax payments has existed in that many people were of the opinion that poll taxes could not be paid unless property taxes were paid. That is incorrect. A couple owning property but unable to meet property tax payments may pay one or both of their poll taxes without paying the property tax.

CRACKS IN THE DOME

By RAYMOND BROOKS. AUSTIN—A final round of agitation before political campaigns open for a new session of the Texas legislature came into prospect at the week-end.

Apparently the earliest session that has any reasonable grounds of probability would be after the first primary, July 23.

As figured out now, here are some of the reasons: 1. The cotton acreage law is in the hands of a court, on the test suit, tried at Franklin, on which decision will be handed down early in the week and appeal taken by the losing side.

2. Congressional redistricting could not go into effect in less than 120 to 130 days. That would reach just about, or possibly before, the June 6 deadline for filing for the offices, and cause extreme confusion.

3. The state tax rate has been reduced by law, effective with that to be fixed by the tax board July 15-20. The present deficit assures the levy of the maximum rate under the limit law.

Economy Hits Restoration of Old Tapestries

LONDON—Economy is threatening the survival of some of Britain's priceless art treasures. So the office of works has ordered the cessation of the repairing and restoration of the tapestries in Hampton court palace, an ancient home of the orange-girl, Nell Gwynne.

For tapestry work is expensive. A single large piece, 25 feet by 16 feet, has occupied four or five skilled workers two or three years—about \$7,000. The work already has been in progress for 20 years, except for an interruption 10 years ago. In four more years it would have been completed, and the tapestries safeguarded.

Until the present work, the tapestries had remained untouched, in some cases since their manufacture in 1520. All of the palace tapestries have been restored except those in the Great Hall, dating from the early sixteenth century.

GRIPINGS

By GUS. This column is published as a daily feature and may not be construed as representing the editorial views of this paper.

Arrangements have been made for a benefit show to be given at the Lyric Theatre in Eastland next Thursday night.

In looking over the bills allowed by the county commissioners court at the January term of court, I see where a Fort Worth printing firm was allowed something like \$125 for stationery.

What's all this honey about the newspapers paying taxes? If it's anything to brag about, this company slipped the public till a nice piece of money here this week.

The pressure brought to bear on the county purchasing department to see that all printing establishments in the county get a square deal must be enormous.

"Me, too! Me, too!" Egad, I've heard that cry on the part of printers and newspapers ever since I started peddling papers on the streets of the old home town.

Only a short time ago we were all joining hands around to cut the public utilities. Then, along comes a farmer's short course, and we want some prizes.

New I don't know that it was any more their place to give the cash prizes than it was mine.

Maybe you didn't know it, but this Ruth Ramey actually goes out into the farming community and does the work of canning beehives and pork and vegetables.

And this J. C. Patterson actually goes out with his transit level and helps the farmer terrace his land, and in a real honest way, tiller of the soil.

Then somebody wanted to sell some farm tools. And they come in here and put all to work to get them a crowd to talk to.

And won't it be a great two days for the candidates?

Though Walter Damrosch, the dean of American symphony conductors, will be 70 on Jan. 30, he is looking forward to many busy days and new achievements in the field of music.

Philadelphia Society Man Faces Trial As Slayer of Sister's Betrayer

By PAUL COMLY FRENCH
United Press Staff Correspondent
NORRISTOWN, Pa., Jan. 28.—Whether a father has the right to bare his daughter's life to save his son from the electric chair, will figure prominently in the murder trial of Edward H. B. Allen, 24-year-old society turfdom.

The young society registerite is charged with the slaying of Francis A. Donaldson, Jr., who, the boy's father, Horace Allen, charges, betrayed his 19-year-old debutante sister, Rose.

Allen, now held in the Montgomery county jail on a charge of first degree murder, probably will be taken before the grand jury today.

District Attorney Stewart Nuse said if Allen is indicted he probably will be placed on trial early in February.

The fatal shooting in the Allen's fashionable Green Hill Farms apartment on Nov. 9 climaxed a series of quarrels over Donaldson's attention to the Allen girl.

The Allen's have been prominent in Philadelphia society for many years, while the Donaldsons are comparatively newcomers to the Social Register, being listed during the past five years.

As Lower Merion Township authorities reconstruct the shooting in the apartment, Donaldson had gone to discuss his attentions to Rose with her father.

Without a word he fired, the shot striking Donaldson in the chest, police charge.

Horace Allen, the once wealthy wool importer, who claimed he was living in the fashionable apartment as the guest of the manager, told police a different story.

"Before Mrs. Allen's death last April," he said, "she asked me to protect Rose from Donaldson. We feared him; feared his influence over Rose."

"After my wife's death my business failed and we were forced to leave our home in Haverford and move here as guests of the manager. Then one night Rose said that she was spending the weekend with friends at the shore."

SPEAKING of SPORTS

By LEO H. PETERSEN,
United Press Staff Correspondent
Search for New Robb
Nickname is Failure

The good burghers of Brooklyn, the world's most rabid group of baseball fans, are laughing at sports writers and other folk who are trying to find a new nickname for the Robbins.

Soon after Uncle Wilbert Robinson was left out and Max Carey appointed to succeed him, various campaigns were launched to give a new nickname for the Robb field boys.

The investigators took the view that so long as Uncle Robb was no longer boss, the label, "the Robb," was out.

Such names as Carey's Canaries, Kings, Monarchs and the like were suggested. But the Brooklyn fans argued that if the ball club had gone through 10 years known as the Robb, they might as well continue as "the Robb," until a better name came along.

So far as the Brooklyn fan is concerned, the club should continue to be called the Robb as a tribute to the man who gave 17 years of his life trying to bring National league pennants to their flagpole.

Team Often Referred To as Dumb
Robbie's boys often were referred to as dumb; it was suggested they might fight on base, but at the same time there was no club in the majors that received the support of the Robb in their own ball park.

Many fans believe the Robb will lose their color under Carey. Carey is a strong believer in youth and smart baseball. Robb liked veterans and he never tried to win ball games by a one-run margin.

Next to Ty Cobb, Carey probably ranks as the greatest base stealer in the majors.

Team Often Referred To as Dumb
Robbie's boys often were referred to as dumb; it was suggested they might fight on base, but at the same time there was no club in the majors that received the support of the Robb in their own ball park.

From Poor Boys To Millionaires

That's the Story of Two Southern Democrats Named By Hoover to Big Corporation to End Depression.

They started as poor boys—and now they're worth millions! These two men, outstanding in their states, have been named by President Hoover as directors of the new \$2,000,000,000 Reconstruction Finance Corporation formed by an act of Congress to end the depression. They comprise two of the three Democratic members.

HARVEY C. COUCH, power magnate of Pine Bluff, Ark., head of concerns with assets of more than \$30,000,000, is a former railway mail clerk. . . . It took him nearly four years to save his first \$50, which he invested in the beginnings of a telephone system which he sold for \$1,500,000. . . . He was born on a farm, which his father ran on week days after serving as pastor of four churches on Sundays. . . . He got a job in a drug store at \$4 a week. . . . He then the comparatively lucrative position as railway mail clerk. . . . He invited a village postmaster to be his partner in his telephone enterprise and later bought him out for \$1000.

He started in power as soon as he sold his telephone holdings. . . . He believes strongly in customer ownership of utilities stock.

JESSIE H. JONES, left \$2000 by his father, he gave it to his sister to pay off a mortgage and started from scratch. . . . In a few years he was wealthy. . . . The Liverpool prices of American spinning spots moved up slightly from 5-18d (penny) to 5-23d (penny). The average price of December was 5-6d (penny) and the average price of middling 7-8 (penny) was 5-25d (penny). The spinners ratio margin was therefore 184. The average absolute margin for the month was 4-37d (penny). This is 93d (penny) higher than it was in November. The end month margin was 4-33d (penny).

English Dodging Panama Canal

Honor Rolls For Ranger Schools Not Completed

The honor rolls of the Ranger school have not been made out yet. H. S. Von Hoover, principal of the Ranger High school, said today, and will probably not be ready for publication until Tuesday of next week.

He said that the honor rolls were carefully checked to see that they were correct and were announced in class at the school before they were ready for publication. This is done to be sure that no names are omitted. He said that the names had been turned in but the job of re-checking had not been completed as yet.

FLIERS DREAD SUDDEN FOGS OF MOUNTAINS

HARRISBURG, Pa.—Sudden fogs, rolling "out of nowhere" while flying over the Pennsylvania mountains one of aviation's most mercurious foes. It takes a steady toll of human life.

Aviators dread the suddenness with which the fog enshrouds the mountain cars. Meteorologists, seeking to explain the condition, have reached no solution. The state aviation committee, powerless to control the natural element, can only issue warnings on conditions.

Air mail pilots read such warnings and push on for "the mail must go through." Commercial transport companies receive the warnings and cancel trips until the weather clears.

Fog Fatal to Women

It was such a fog that cost the lives of Mrs. Ruth Stewart, St. Louis, and Mrs. Debbie Stanford, Camden, N. Y. in a flight from Harrisburg to Harrisburg.

"Flying conditions across the Pennsylvania mountains are not paralleled anywhere in the United States," an official of the aviation commission said.

The mountains themselves are safe for flying. The state and federal governments have taken every known means to chart the

mountain territory, to lay out safe air routes, to establish emergency landings fields and lighted airways and to provide fliers with accurate and timely weather bulletins across the mountain belt, over which are three important air routes.

"But we can't control the fog. It comes out of nowhere. It lays close to the mountain tops and brings the ceiling close to the ranges."

"Blind" Flying

"Fliers, who seek to navigate above the fog banks are without landmarks to guide them and are blind" in coming down to find their landing places, the official explained. Those who fly beneath the fog blanket are in danger of crashing into one of the mountain peaks jutting into the enshrouded area.

The State Aviation Commission, under the direction of Philip Dewey, its chairman and also the state secretary of Internal Affairs, is seeking to make flying safe in Pennsylvania.

Airplane state fatalities in 1930 aggregated 15 persons killed in nine accidents; and in 1931, 25 killed in 16 accidents. The commission reports did not show the location of these accidents, nor the causes, but many of them are generally due to the fog.

BIGGEST FREIGHT CAR SHIP.

PHILADELPHIA, Pa.—The construction of the largest freight car carrier ever built in an American shipyard will shortly be started at the Sun Shipyard, on the Delaware. It will handle 49 cars.

Organization Will Work For Relief of State Boxing Laws

SAN ANTONIO—A state-wide movement to form an organization that will work for the repeal of the present state boxing law is being formed with headquarters located here in the Majestic building.

Otis G. Maertz is in charge of the organization's state headquarters here. He said the association is being formed along sane and constructive lines, exempt from the taint of promoters or others interested in boxing for financial gain.

Some of the most influential citizens of Texas are said to be sponsoring the organization. Among those listed by Maertz as indorsers of the organization are: George Sealy, Shearn Moody, George Hunter, Jesse Jones, M. E. Foster, William Sterling, James Allred, Ed Fomby, John McIntosh, Walter Tynan, Homer Hammonds, I. H. Koppner, J. P. McDonald, A. Sudermann and C. M. Chambers.

Maertz characterizes the present law as a hindrance to bonafide clubs who wish to stage boxing exhibitions. In many instances they have to resort to trickery to evade the law. The organization proposes to have enacted, at the same time with the repeal of the law, a statute which will safeguard bonafide clubs and citizens against false fight promoters and others who have injured the sport.

"TRUNK SLAYER" FACES COURT

Pale, calm and well dressed, Mrs. Winnie Ruth Judd (indicated by arrow) is shown here with her attorneys in court at Phoenix, Ariz., where she went on trial charged with the "trunk murder" of Mrs. Agnes Lepol, X-ray technician. A separate murder indictment accuses Mrs. Judd of slaying Miss Helvig Samuelson, tubercular convalescent and friend of Mrs. Lepol. Seated at the counsel table above, are, left to right: Attorneys Paul Schenck and J. B. Zaversack and Mrs. Judd.

FRENCH TERM YEAR DECISIVE ONE FOR WORLD

PARIS—This new year is already termed by French economic and political observers the "decisive year."

They expect it to mark the turning point in those heritages from the World War, reparations and armaments; to mark the rise, or fall, of Hitlerism in Germany; the making, or the breaking, of the soviet five-year plan; and to bring to a head the demands for treaty revision, now boiling in a score of territorial, ethnic, moral and economic disputes.

If 1932 is to go down in history as a year of diplomatic climaxes, the great decision, or the collapse of the capitalistic system as a result of growing unemployment everywhere in the world, observers insist that both the Lausanne and Geneva conferences must be great successes.

There are many French observers, who are pessimistic and predict openly that neither conference will attain its goals. They insist that America's stone-wall refusal to link reparations with intergovernmental debts makes it almost a waste of time for the delegates of Britain, France, Italy, Belgium, Greece, Japan, Portugal, Poland, Rumania, Yugo-Slavia and Czechoslovakia to meet at Lausanne.

The fact that governments are going ahead with their preparations for the conference lends support to the opinion of less pessimistic observers that Europe will finally present a solid front on the battlegrounds of reparations and war debts.

Italy To Add Three Million To Duties

WASHINGTON—Italy expects to collect nearly \$2,000,000 in port duties on foreign goods arriving in Italy this year, the Department of Commerce has been informed by Commercial Attache Movatt M. Mitchell, Rome.

The new tax of two and one-half lire a ton (above 13 cents a ton) became effective Jan. 6.

During the first 10 months of 1931, 20,888,000 metric tons of merchandise were unloaded at Italian ports, and had the tax been operative at that time the government revenue from this additional tax would have been about \$2,611,000.

All that glitters may not be gold, but nowadays there's no harm in taking a second look.

Back-Paddler

The swimming fame that George Kojac brought to Rutgers University will be augmented by some that Walter Spence, above, is expected to add. Spence is a Rutgers sophomore and is already a world's record-holder in the backstroke. He is the key man in the Rutgers tank team of 1932 and may take a prominent part in the Olympic games this summer.

Dallas To Have a Unique Golf Course

DALLAS—Something different in the way of golf course construction in this part of the country is the promise of Perry D. Maxwell, nationally known planning expert, who is laying out the 36-hole Walnut Hill Country club course here.

Walnut Hill, which is to be a moderately priced club designed strictly for golfing purposes without extensive social activities, will have 36 grass greens now in the Bermuda now in common use in this section.

Maxwell is a staunch advocate of Bent grass, conceded to be the finest putting surface known, but he is sceptical about spring planting and wants to have the Walnut Hills course ready for play next June.

Each nine holes of the new course begin and end at the clubhouse. An added feature will be a 600-yard practice ground which will have a putting green on each end.

LASSO SAVES DEER

NORFOLK, Conn.—Roping experience of Everett Gaylord, former western cowboy, helped him rescue a deer which had wandered onto the ice of Lake Wangum. The deer was exhausted from skidding around when Gaylord lassoed it and dragged it to shore. The deer bounded into the forest.

University Tests Show Men Smarter Than Are Women

CHICAGO—Men are smarter than women and the fact that most scholarship honors go to the fair sex means nothing. A test conducted by the University of Chicago in its freshman classes is authority for the statement, if the fact that in the first 11 ratings not one scored appeared, means anything.

To eliminate alibis, women outnumbered men in the 750 freshmen who took the examination. First place went to William K. Traynor, 19, Chicago, son of William T. Traynor, vice president and director of Swift & Co.

Knowledge didn't count in this examination for it was a psychology test to measure intellect. For instance, an artificial language was supplied with the instructions to translate a passage from it into English. Simple problems in arithmetic, which were not quite so simple after all, made up another part.

ANS TELL AD STORM YEARS AGO

By United Press.
WILMINGTON, Kan.—The first blizzard in the history of the eastern plains swept through Kansas and northern Oklahoma 46 years ago this month, and there are still some of the survivors to tell the tale.
Flocks were blocked and all unsheltered livestock froze in the snow commonly known as "the snow of 1886."
Just before sunup Jan. 7 of that year, a 70-mile an hour gale from the west, bringing with it temperatures of 22° to below zero.
Caught Ranchers
The Kansans fought for their life and property the blizzard that swept into the old Cherokee strip, catching ranchers unawares. Their great herds of cattle on leased grazing lands, W. J. McKinley, printer at the News office, was a cowboy on the George Miller lease, now known as the "101" Ranch. He said that the storm struck in the middle of the morning, before noon the Salt Fork was frozen solid.
Wireless Cut
Miller's 5,000 to 8,000 cattle were grazing peacefully on the 50-mile block that had been cut off by the storm striking in the afternoon.
The rancher said that unless something was done, his herds would be cut off, or worse.
Luring cowboys volunteered to cut and cut the wire fence so cattle could find comparative safety under the low banks of the Fork River. McKinley says in one river was taken from horse, stiff from the cold, his eyes were frozen shut.
In the following day the cowboys were able to take an inventory of the terrific danger. Around a haystack alone on the Miller lease 100 head of fine cattle had died, some of them standing stiffly erect.

"Quit at 93?—I've Only Started!"

WIELDING an ax and sawing wood to prove he is still fit, John N. Wilson, 93-year-old bailiff, mail clerk and custodian of the Minnesota Historical Society at St. Paul, is shown here as he told why he instituted suit to prevent his employers from discharging him on the ground that he is physically incompetent. A doctor who examined him last summer said he had the heart and lungs of a man of 25. Nelson said, "Why, a man who quits working before he's 100 is just plain low-down lazy. I like to work and I expect to if I can hold my job. Besides, I need the position. I've a 71-year-old daughter dependent upon me for support."

Colliery Owners Find Mine in Mine

By United Press.
SHAMOKIN, Pa.—A mine within coal company officials investigated activities of "coal bootleggers," expert miners, securing coal for their own use from company property.
The investigators found a "bootleg" tunnel had been cut under the main tunnel of the Sterling colliery here. While miners were digging coal legitimately in the top tunnel, others were taking anthracite from the veins underneath.
A serious subsidence in a large section of the mine led to the discovery of the additional tunnel.

Smiley Is Becoming Big Country

By United Press.
SMILEY, Texas.—Smiley may become the chicken population center of Texas.
Already the chicken population will approximate 2,000,000.
Smiley, last season, sold more than half a million "broilers" for a general average of 35 cents a bird.
Its three gigantic incubators will hatch 150,000 eggs at "setting."
There are more than 50 chicken farms in a radius of eight miles of Smiley.

Trio Planning Exploration of Haitian Land

By United Press.
BLOXI, Miss.—An expedition to be partially financed by the University of Michigan, and one in which the Smithsonian Institute is interested, is being organized here by Stewart Springer, 25, and Morrow Allen, 22, to go to southwest Haiti on the first scientific exploration of that section. Haiti has been visited by white men but never explored biologically.
The young men plan to leave here soon in a fishing tugger with a third companion. They will follow the coast line to Florida and Key West, thence to Andros Island in the Bahamas, Eleuthera Island, Long Island, Cat Island and Inagua Island to Cape Haitian, and then, following the south coast go inland.
They expect to be gone four to six months, depending upon conditions. They will go inland and one will guard the boat.
The explorers hope to get fresh water fish, amphibians, insects and foreign plants for the University of Michigan, and will try to procure a museum lizard group from the Gonave Island for the Smithsonian Institute.
Their goal is tropical forests, deep ravines and high mountains. The peninsula they intend to explore is 50 miles long and 100 miles wide.
The explorers do not anticipate any difficulty with the natives, but the greatest danger is from disease. The natives speak a French dialect.
Both young men are well versed in biology and are graduates of Butler university. Attempts to obtain scientific information from the territory they expect to visit have failed in the past.

Prefers Death To "Solitary"

By United Press.
SAN QUENTIN PRISON, Calif. Death is a lesser evil than the gnawing loneliness and despair of solitary confinement.
That, at least, is the opinion of Albert M. Stewart, "squealer," whose testimony sent five men to the gallows for a bloody riot at Folsom Prison, in 1927.
Stewart, transferred to San Quentin following the trial of the five men, to protect them from the vengeance of the Folsom convicts, recently asked Warden James B. Holohan if a transfer back among his fellows and work to do.
"I'm no rat," he told the warden. "Maybe some of the convicts still think I so and will stick a knife in me. But anything is better than this awful solitude. Put me out there."
Stewart was sentenced to hang following his testimony that condemned his companions and himself. For two years, he was under the shadow of the gallows, but his sentence was commuted to life imprisonment and he was transferred to San Quentin last March.
"I haven't much to live for anyway," he told Warden Holohan. "When I get through with a 14-year jail for forgery, I start on two consecutive life sentences. I'm 37 now and I have been in prison since I was 21."
The five men who were hanged on Stewart's testimony were Jimmy Gleason, Gene Gregg, Walter Burke, Eddie Stokes, and Tony Brown.

Russia Is Found To Be Sexless

By United Press.
BERKELEY, Calif.—"Russia is sexless."
"The Soviets, despite their lax laws of marriage and divorce, are more moral than Americans, with their morbid, abnormal interest in sex."
That's the answer of Joan London Malamuth, daughter of Jack London, to the charges of immorality hurled against modern Russia.
Mrs. Malamuth saw the Soviet experiment in marriage, women in industry, and the five-year plan at work. She lived in Moscow several months. There she and her husband, Prof. Charles Malamuth, patched up their shattered romance. Dropping a divorce action, they have come back to their home here.
"Monogamy is not doomed in Russia," she said.
"Easy divorce is not breaking up the home, nor is it leading to promiscuity. Marriage is little affected by the fact that getting a divorce is a mere formality of a few minutes."
"The average Russian is just as faithful as ever to his marriage vows. He takes one wife for life, equally as seriously as does the American with the wrier divorce laws. The families rear children and are for the most part decidedly permanent."
The much-discussed charges of an American engineer's wife that Russia has degenerated into rank immorality were branded ridiculous by Mrs. Malamuth.

Poor Wheat Yield Cuts Soviet's Crops

By United Press.
WASHINGTON.—Poor yield and quality of the Russian wheat crop, chiefly due to the drought, has been reported to the bureau of agriculture department by Assistant Agriculture Commissioner Christy, in Berlin.
The yields of winter wheat, he reported, were fairly satisfactory, but much of the spring wheat average, which is more important, failed to make a crop, and a reduction in exports was felt after heavy engagements in the early 1931-32 season.
Because of the poor quality as well as the light yield, the Russians were compelled at times to either cancel their contracts, or to make price adjustments.

BIRD ATTACKS SAMARITAN. KINGSTON, Ont.—When Wallace Havelock Robb, of the Abbey Dawn bird sanctuary, attempted to aid a crippled bittern, the bird gave his rescuer a sharp tweak on the nose, removing a sizable piece of flesh.

BIBLE 270 YEARS OLD. BUFFALO, N. Y.—Rev. John Hagen, retired minister, owns a Bible 270 years old. The Bible, dated 1661, is the second edition of Martin Luther's original translation.

Weekly Sunday School Lesson

Text: John 6:1-13, 48, 51.
The International Uniform Sunday School Lesson for Jan. 31.
By WM. E. GILROY, D. D.
Editor of The Congregationalist

A lesson book published by the Methodist Book Concern gives the title of this lesson as "Jesus the Bread of Life." Though titles are not the most important matter, this title would seem to be the better of the two and most expressive of the spirit of this lesson and the teaching that we are to derive from it.

The lesson's story narrates one of the most remarkable miracles in history. Of course if we could explain it, it would not be a miracle, and efforts to deal with such a remarkable happening on the basis of such material explanations as have been offered fall very flat when one considers the explicit and simple nature of the story as related in all four Gospels. That does not mean that there are not many critical circumstances and questionings associated with the story.

Need one enter at all into such critical questionings in seeking the lesson's truth for present day lives? The literalist who accepts every word of the narrative as exact fact gets little out of it if it is nothing more to him than the story of a great magician feeding a multitude of people with a few loaves and fishes. That would be a remarkable feat, but in the great alone there would be neither life nor warmth nor sustenance for the soul. We must concentrate upon the worker of the miracle. It is the significance of Jesus as the Bread of Life, and the limitless provision that he makes for our spiritual needs to which we must come if the narrative is to have for us any reality of spiritual meaning.

The nature of our interpretation is not essential to our perception of the truth. It is remarkable that precisely all the recorded miracles of Jesus are related to spiritual truth and teaching. The miracles of healing symbolize the work of the Great Physician of souls.

The miracles of the raising of the dead to life symbolize the life giving power of the Master in bringing souls that are dead to light and life. Practically all the other miracles similarly deal on the material level with significant and higher truth.

The applications of this miraculous story in the spiritual mission and work of Jesus are full and complete. The bread that he gives through the benefits of his application, and the goodness that it produces in human life, character, and action, increases the more it is exercised and put in practice. Whatever we grasp or miss in this lesson this is the profound fact and no teaching of the lesson would be complete that fails to put it at the very center and soul of the narrative and its application. Jesus is the inexhaustible Bread of Life.

Deer Hunters May Use Rifles Only

NIXON, Texas—Deer hunters who invade the gigantic Wall's ranch game preserve north of here next season may be required to use rifles only.

At the close of the past season the game preserve keepers found nine dead deer which had been wounded by shot gun charges. They had escaped from hunters and crept off into the underbrush and died.

County Notes

DESDEMONA

On Friday night Mrs. Plummer Ashburn and Mr. Charlie Richardson entertained with a bridge party at the Desdemona Embroidery club home. There were eight tables of bridge. Those present were Messrs. and Mrs. Obed Henslee, Hugh Ab-I, C. M. Kirkwood, J. E. Heeter, A. B. Henslee, Earl Lane, Cecil Williams, W. H. Davis, C. E. Bagland, Aaron Henslee, A. C. Robert, John Arnold, Marion Williams, Charlie Richardson, Plummer Ashburn, Mrs. Mattie Henry and her son, Walker Henry, and Miss Ruth Cross-bay. High score prize for the ladies was awarded to Mrs. Ruth Cross-bay and for the men to Obed Henslee. A color scheme of pink and white was carried out in the favor of white mini clusters, used with pink ribbon and in the delicious refreshments of two kinds of sandwiches—fruit salad in lettuce cupped with whipped cream and brownie and coffee, forming with the favors a very pretty plate. All present enjoyed the party very much.

Almer Richardson of Stephenville was here Thursday to buy a house to move to his Erath county farm. He bought the Caruth house just west of the bridge on Main street.

P. F. White attended the tax payers meeting at Eastland Saturday.

Mr. and Mrs. Guy McGee and two children formerly of Desdemona but now of George West were welcome visitors here Thursday. They were returning to their home after having attended the water-works convention in Mineral Wells where they also visited her mother. They were guests of Mr. and Mrs. Hugh Roe while here but also visited a number of other friends who were delighted to see them.

Mr. John Mendall and her daughter, Mrs. Mattie Henry drove over to Gorman on business Tuesday.

Mr. and Mrs. Plummer Ashburn spent the weekend with relatives at Rising Star.

Mrs. W. H. Davis and her daughter, Mrs. Aaron Henslee were guests at a bridge party Thursday at the home of Mrs. W. A. Sutton at Gorman.

Mr. and Mrs. Claud Lee drove up to Breckenridge Sunday to meet their little daughter, Frankie Jean who had been visiting her grandparents at Olney. Mrs. Lee's brother, Clay Simmons brought the little girl to Breckenridge.

Mrs. Dixie Stevens of Gorman is spending this week here with her daughter, Mrs. Harry Doolan.

Mr. C. Bedford accompanied by Miss McCollum drove up to Cisco on business Saturday.

Mr. and Mrs. Robert Dawley of Caddo were guests of their parents, Mr. and Mrs. A. B. Henslee Sunday.

Mrs. Cassie Richardson and Mrs. Plummer Ashburn were shopping in Ranger Thursday.

Mrs. Earl Lane and Mrs. Mattie Henry were shopping in Ranger Saturday and at Eastland Monday.

Jeff Duncan of Cisco was looking after his insurance business here Friday.

We are glad to report that Mrs. Tom Nabers is much better after having been threatened with pneumonia several days.

Mrs. M. D. Gallagher and little son, Norvell D. of Cisco and Mr. and Mrs. Bob Gailman of Oklahoma City were guests of Mr. and Mrs. Harry Donica Thursday and on Saturday Mr. and Mrs. Donica went to Cisco and spent the weekend with Mr. and Mrs. Gallagher.

Miss Bonnie Whitfield returned to her home at Dublin Friday after a few days visit with her sister Mrs. J. H. Roshing, Jr.

Mr. and Mrs. W. K. Barron drove over to Gorman on business Tuesday.

Mr. and Mrs. Clifford Acres returned Saturday from Stephenville where they had visited relatives several days. The program was given and every member was present and responded to roll call with a current event. During the business session, Mrs. Clifford Acres was elected to membership. The program was led by Mrs. Fred Weidner and was as follows:

Chicago—Schools—Art Galleries and Museum—Mrs. Bratton.

History of the Great Chicago Fire—Mr. Snodgrass.

Museums and Parks of St. Louis—Mrs. Henry.

A visit to the Wisconsin Lakes—Mrs. Griffin.

Milwaukee—Mr. and Mrs. Claude Lee.

Mackinac and the Early Trade—Mrs. Richardson.

Question on North Central States—Mrs. Weidner.

During the Social-hour the hostesses served a very pretty refreshment plate consisting of jelly

HERE'S WHAT BRITISH SUB CREWS ARE TRAINED TO DO IN CASE OF DISASTER

When the British submarine M-2 sank, the principal hope of rescue rested in the use of the Davis "breathing bag" by members of the crew. This bag is used to lessen the great difference in the pressure between the submarine level and the surface, and to afford air for breathing during the slow ascent from that level. After reaching the surface, it is used as a life preserver.

SAFE AT LAST!—Here is a British sailor coming to the surface in a test of the Davis submarine rescue apparatus of Chatham Dockyard, England, recently. In tests, it worked perfectly.

WHERE BRITISH SUB WENT DOWN—This map shows the approximate location of the sunken British submarine, M-2, in the English channel off Weymouth.

Agricultural Extension News

From the Office of the County Agent and Home Demonstration Agent

Growing Sweet Potato Plant.
The sale of sweet potato plants early this spring should prove a profitable business. A. J. Smith, State Department of Agriculture, has been in the county this week making storage inspections of potato seed potatoes. He has advised that due to insect infestations all seed potatoes in Smith and Upshur counties has been condemned. These counties which usually provide a large part of the seed and plants for sweet potato growing in the State will not be permitted to sell but on the other hand will be in the market for this commodity.

Eastland county potato growers should capitalize the situation and jump into the plant seedling field with vim. This market wants its plants about April the first, making it necessary that seed be bedded early in February in hotbeds heated with fire.

Such a hot bed may be prepared by placing sheet iron or old corrugated roofing across a trench and being properly supported this will hold the ten to twelve inches of sand which should be placed above it. Old pipe of six inches diameter and above may be used to conduct the heat under the bed. There should be a flue at the bottom and to cause a draft. Either wood or gas may be used to make the heat. If a long bed is to be made the pipe should be elevated at the rate of one foot to each 20 feet to cause the air movement.

Joe Niver has been using such a hot bed for a number of years and has had a great success. The bed should be thoroughly heated before the potatoes are bedded out. About fourteen square feet will be required to bed a bushel of seed potatoes. For home planting figure about four bushels to provide enough plants for one acre, twenty-five hundred to three thousand plants per bushel.

All potatoes should be dipped in disinfectant before bedded to help control diseases. The use of corrosive sublimate is recommended at the rate of 2 ounces to one gallon of water, being at the rate of one ounce to eight gallons. Mix should be prepared in wooden container. This mixture is poisonous.

fruit salad on lettuce, heart shaped sandwiches, angel food cake and coffee.

Those present were Messrs. A. C. Robert, Hugh Roe, Clarence Ragland, J. W. Griffin, W. H. Davis, C. W. Malley, Fred Weidner, Aaron Henslee, A. B. Henslee, C. M. Bratton, W. C. Bedford, Claud Lee, Mattie Henry, John Mendall, Pop Abbott, S. E. Snodgrass, Charlie Richardson and the two hostesses.

OLDEN NEWS

OLDEN, Jan. 28.—Our Sunday School was not well attended on account of bad weather.

Bob Yancey, Mrs. Ruby Lester, Cecil Langlitz, L. L. Tucker visited relatives of Fort Worth and Dumas last week. Mrs. Otto Lasater visited his mother of Kokomo Thursday.

Miss Pearl Reeves visited Mrs. Jesse Carruth Saturday.

James Michael, Miss Pearl Reeves visited Mr. and Mrs. Frank Short Monday.

Otto Lasater is spending this week with Mrs. Nore Tucker and children of Fort Worth.

Mrs. Will Garner has been on the sick list the past few days. We hope she gains her health back soon.

THE LIFE SAVER—Here is a close-up of a sailor wearing the Davis apparatus. The flexible rubber bag contains chemicals which regenerate the breath so it can be used over and over again, with the addition of oxygen from a small cylinder inside.

Tomatoes, peppers, cabbage, and many other starchy plants are frequently cut down over night in early spring by cut worms or grasshoppers. These insects are very effectively controlled by putting out poison bran mash, distributing one-fourth teaspoonful at the base of each plant late in the evening. This is made up by mixing together 1 pound of white arsenic or Paris Green, 20 pounds of coarse bran, 4 finely ground pounds of molasses, 2 quarts of any kind of molasses, and enough water to make the mixture slightly moist but not sticky.

One of the chief diseases that frequently attacks garden crops in Texas is wilt of cowpeas, Irish potatoes, tomatoes and many of the vine crops such as watermelon, cucumbers and cantaloupes. This disease is characterized by the sudden dying out or wilting of the leaves and branches. A

Young People Conference Held Sunday

The following program has been arranged for the fifth Sunday conference in the district, Presbytery of the First church of Ranger on Jan. 31:
Evening Program.
H. H. Holmes, presiding.
Devotional, led by Sea-
soned Music by Ranger
and the Melody Makers.
Bible Study, by the
Breckenridge Young People's
Association.
"Devotion to Christ
Church," Gordon Weir.
Prayer, Miss Juliann Connel-
ly.
Enthusiastic Evan-
gelism, by H. H. Holmes.
"Whole Hearted,"
by the Melody Makers.
"Challenge of the
Citizenship," Burl Rog-
ers, by Breckenridge choir.
Young People on
the King, in a
skit, by the Melody Makers.
Prayer, by the
Melody Makers.
Prayer, Rev. J. A.
H. H. Holmes, presiding.

The Newfangles (Mom 'n' Pop)

By Cowan

could listen, just a moment—"
They are so good," Ann said.
"I don't know how we can ever
thank them—the Hills, I mean—
for what they've done. If it had
been Erintrude, Mrs. Hill could
not have been a bit happier. She
was so sweet—crying and all. And
she is sure that everything is all
right, or Mary-Frances wouldn't
have come home. Surely the child
couldn't have talked in that mat-
ter-of-fact way about being hun-
gry and so on, if she'd had a very
unpleasant experience. Dear, do
you think she could have?"
"Surely not. Surely not. I've
told you over and over. And—
you still call me dear! You let
me put my arms around you. You
can't have stopped loving me en-
tirely, Ann. You must still love
me a little."

Bill Dorsey Will Open a Cafe In Ranger Saturday

According to an announcement made today by Bill Dorsey, manager of the New Paramount hotel, Ranger, he will open a cafe on North Austin street Saturday morning.
Mr. Dorsey says that he will specialize in home-cooked meals and has adopted the slogan, "Better Eats for Less Money."
Mrs. May Singleton, who has had years of experience in the cafe business, will be in charge of the kitchen.
Special meals will be prepared as well as special dishes. A modern lunch counter will be maintained as well as tables for ladies.

KANSAS FROGS HERALD SPRINGS

COTTONWOOD FALLS, Kan. Many signs of spring have been reported here—and it's really mid-winter. Oscar Altemus, farmer, said he heard frogs croaking in his pasture, which he said is a "sure sign." Another farmer reported he saw a snake crawling on the ground.
CROWELL—Crowell State bank opened for business.

don't think I'll ever get married."
The telephone bell rang again, and Ann answered it. She had some difficulty in making Kenneth understand that she had no mes-
sage for him now.
"I'll bet," Mary-Frances said, as Ann turned from the telephone to her. "that if you went out with him he wouldn't let you starve. I'll bet," elaborated Mary-Frances, "that he wouldn't let any girl starve." For a moment she looked like an angel, and then she yawned. "I'm tired out, I'm sleepy. I guess I'll go on to bed."
"Sister's baby! I'll come up with you."
(To Be Continued)

THREE KINDS OF LOVE

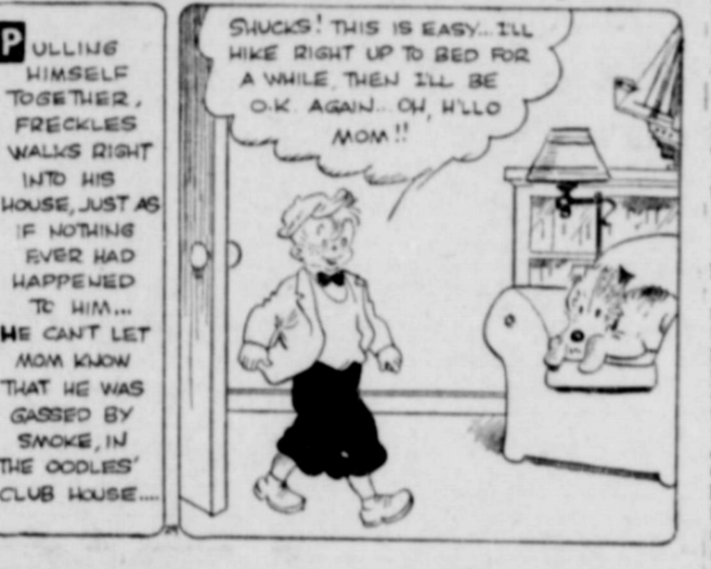

KAY CLEAVER STRAHAN
BEGIN HERE TODAY
Ann and Cecily Fenwick have for years supported themselves, their younger sister, Mary-Frances, and their grandparents, known as "Rosie" and "Grand." Be-
cause of this financial responsi-
bility, Ann, who is 28, is unable to
marry Phil Ercroyd, young lawyer
to whom she has been engaged for
eight years. Cecily, 22, loves Barry
McKeel, an engineer, but when
he proposes she refuses to name
their wedding date for the same
reason.
Mary-Frances, 15, and still in
school, believes herself in love with
Earl De Armount, vaudeville actor
whom she has met without the
knowledge of her sisters. He urges
her to leave home and become his
stage partner.
Ann and Phil quarrel when she
hears Letty King, who works in
Phil's office building, address him
with endearments. Ann tries to
forget Phil by going about with
Kenneth Smith, rich and attentive,
but when Smith asks her to marry
him she refuses.
Mary-Frances agrees to go away
with De Armount. The same day Cecily
quarrels with her grandfather.
She comes home with news that
she and Barry are to be married
that evening. Ann discovers Mary-
Frances is missing, learns she has
eloped with De Armount. Immedi-
ately a search is begun. Phil
Ercroyd comes to help. Ann is
nearly frantic until a telephone
call comes from Mary-Frances.
NOW GO ON WITH THE STORY
CHAPTER XLV
"Ann, darling. Where are you?"
Ann asked frantically.
"I'm down here at the Union
Station. I haven't any money for
carfare nor anything. The lady
here is letting me use the tele-

THREE KINDS OF LOVE

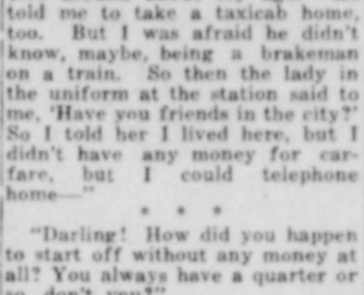

phone on her desk."
"Are you—alone, dear?"
"Course I'm alone. But I can't
walk home, and I haven't any
money for carfare. The lady—"

FRECKLES AND HIS FRIENDS

By Blosser

PULLING HIMSELF TOGETHER, FRECKLES WALKS RIGHT INTO HIS HOUSE, JUST AS IF NOTHING EVER HAD HAPPENED TO HIM... HE CAN LET MOM KNOW THAT HE WAS GASSED BY SMOKE IN THE OODLES' CLUB HOUSE...
SNUGS! THIS IS EASY... I'LL HIKE RIGHT UP TO BED FOR A WHILE THEN I'LL BE O.K. AGAIN. OH, W'LO MOM!!

BABY FRETFUL, RESTLESS?

Look to this cause
When your baby fusses, tosses
and seems unable to sleep restful-
ly, look for one common cause,
constipation. You get rid of it
quickly of the accumulated
wastes which cause restlessness
and discomfort, give a cleansing
dose of Castoria. Castoria, you
know, is made specially for chil-
dren's delicate needs. It is a pure
vegetable preparation; contains no
harsh drugs, no narcotics. It is so
mild and gentle you can give it to
a young infant to relieve colic. Yet
it is as effective for older children.
Castoria's regulative help will
bring relaxed comfort and restful
sleep to your baby. Keep a bottle
on hand. Genuine Castoria always
has the name:
Chas. H. Fletcher
CASTORIA
CHILDREN'S FRIEND

I CANNOT DO WITHOUT CRAZY CRYSTALS

I cannot do without Crazy Crystals. Should they never cure me of this terrible kidney and bladder trouble I would not take hundreds of dollars for the relief that I have obtained from them in the last six months. They are wonderful. I never miss an opportunity to recom-
mend them to folks suffering with kidney and bladder trouble and also constipation. Without doubt they will relieve the most severe case. They have relieved me when competent physicians failed.
Signed: MRS. C. H. CALDWELL,
Rt. No. 4, Lone Oak, Texas.
"What?"
"Well, you might tell the man to drive rather fast. Not too fast, dear. Just rather fast."
Ann hung up the receiver and leaned against the wall and closed her eyes.
Phil said, "But I could have gone for her, Ann, wherever she is. I was trying to tell you. My car's right here."
Ann opened her eyes. Tears were dripping out of them, down her cheeks and off her chin and splashing to the front of her blouse. "Oh," she said. "Why, of course, I forgot you were here. I forgot all about it. I have to get my purse and wait on the porch for the taxicab."
"Dot, Ann," Phil questioned, "do you mean that I may not even sit here on the porch with you until the taxicab comes?"
"No, dear. I guess not. I don't care where you sit. I have to be alone with Mary-Frances when she gets here—that's all. I wish there were some way I could get word to Cissy. Poor Cissy. Oh, my word. I forgot to telephone to Mrs. Hill."
When Ann returned to the porch Phil said, "Dearest, if you
